## Canadian Opinion on Treaty

There is at least one slender consolation to be obtained from the United States senate's action in finally rejecting the peace treaty—it will put an end to the interminable talk that has been going on at Washington for so many months. Surely there will be less temptation now for the Borahs, the Reeds and all the rest of them to seek, at whatever cost in international good will, the furtherance of their own and their party's political fortunes. It is asking too much to expect the Hearst poison mill to cease grinding so long as there are dollars and the dream of power to be made out of poison, but with the treaty issue removed from the political stage there is less danger of the Hearst venom being injected directly into international affairs.

And now, since less than 50 men have decided that the United States is to shirk her share in the war burdens of the world, that "making the world safe for democracy" is, so far as America is concerned, to remain merely a beautiful and empty phrase, there is nothing for the other nations of the world to do save to apportion among themselves the task which the United States should have done, and do it among them.

They have already staggering loads to bear. Some of them are bankrupt, some "bled white" of the very flower of their manhood, some with their richest territories a jumble of ruined ruins and blasted earth all of them still reeling from the awful struggle. All are seeking for a new basis upon which a better order should be established, a great council of the peoples which should combine the power and the authority and the wisdom of the nations for the healing of a sick and shaken world. The dream found expression in America, and the war-worn nations looked to this side of the Atlantic for a world leadership that had seemingly departed from themselves.

And now there remains nothing but to awake from the dream and

"Riches amassed in haste will diminish, but those collected little by little will multiply."

WHY not have a home of your own? The problem isn't a big one, but it's a sane one. You can approach this question in a very practical way right now by starting a "Home Fund" in the form of a 4 per cent savings account, making the growth of that fund the paramount issue of your financial problem.

Remember the money you save for this undertaking now will have a greater purchasing power when later your "Home Fund" has reached a size to warrant the next step.

We shall be glad to explain the possibilities in this idea.

take up the burdens anew. Thank God the vision of better things has not been wholly darkened everywhere. Humanity must still be served, no matter if the power which could most fitly and easily serve it turns its back upon the task.

We cannot believe that the action of a handful of little politicians at Washington represents the last word of the great, warm-hearted, generous people of America. They will speak next November, and by their voice America will stand forever vindicated or condemned.

## Just Where and How Is the Money to be Spent?

A businesslike Answer to a businesslike Question

THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its budget under six main heads:

- 1 FOR THE CHURCH'S WORK AT HOME.** A score of times some \$100,000,000 is expended every year in the United States and even more is expended in the English language. Who is to carry forward the vast work of Americanization if the church does not?
- 2 FOR RELIGIOUS TRAINING.** At least 12,000,000 children and young people under 25 years of age are entering American life without any religious training at all. Remembering the faith of Washington and Lincoln, do you think that America will continue to produce Washingtons and Lincolns if faith dies out of the hearts of its youth?
- 3 FOR HOSPITALS AND HOMES.** Every year thousands of men and women are crowded out of our hospitals because of lack of room. The children's homes are crowded to turn away more children than they can receive.
- 4 FOR HIGHER EDUCATION.** Of the 40,000 American students in institutions of higher grade, one-half are in institutions founded and supported by the churches. Many of these institutions have had no recent endowment campaigns, but their needs are just as pressing as the needs of larger schools and you have only to read their list of alumni and alumnæ to appreciate the value of their contributions to America.
- 5 FOR THE CHURCH'S WORK ABROAD.** In thirty years ago nearly all plagues are Oriental plagues. So long as China has only one physician to every 40,000 people the Orient will continue to be a menace. So long as one-third of the babies of India die before their second year our own babies are not safe. A Christian doctor or teacher sent abroad is working for America as truly as though he worked at home.
- 6 PREACHERS' SALARIES.** The preacher is called the "forgotten man," and well he may be. Eight out of ten preachers are paid less than \$5 a week!

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget; examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post assigned to it in advance.

Every dollar for better America and a better world. When your church calls on you give—and give with your heart as well as your pocket-book.

**Better Teachers' Salaries Mean Better Schools**

A newspaper of national circulation recently carried this headline:

**"TEACHERS UNDERPAID THROUGHOUT UNITED STATES."**

This statement was true, but it missed the vital aspect of the situation. It should have read:

**"SCHOOLS UNDERMANNED THROUGHOUT UNITED STATES."**

or more truly, **"CHILDREN UNDERTAUGHT THROUGHOUT UNITED STATES."**

Thus it would have emphasized and made plain the serious aspect of the present situation in every state in the Union, including our own. Except in isolated cases teachers are not greatly to be pitied. Usually they are young and competent persons and present industrial conditions are such that any young and competent person can command a living wage at almost any other occupation. If they cannot make a living at teaching they can easily pass to an occupation wherein they can; and this they constantly do, as is evident from experience in the schools of this and every county in New Mexico.

For a few unfortunately too few teachers who have made a life work of the profession and are now too old to enter other lines of work the situation is truly serious. But these are the exceptions. For the rank and file of teachers themselves the situation is not serious.

But for the schools of this county and of New Mexico; for the directors especially of rural schools, AND FOR THE CHILDREN SERVED BY THESE SCHOOLS, THE PRESENT SITUATION IS CRITICAL.

CAN WE IN THE NEXT FEW YEARS GET OUR SCHOOLS WITH COMPETENT TEACHERS AND HAVE OUR CHILDREN PAID SCHOOLS, OR CAN WE NOT?

WHEN WE GET TEACHERS CAN WE KEEP THEM UNTIL THEY ACQUIRE THE HIGH MASTERY OF TEACHING, GAINED BY LABORING AND THROUGH THE COURSE OF CONCENTRATED AND NEARLY UNINTERRUPTED TEACHING AFTER TEACHING A LEAN ON LIPS AND DEEP OF THOUGHT AND WORTH THE SACRIFICE?

IN THIS COUNTRY WE MUST IN OUR FUTURE SECURE A VOLUNTARY AND UNIFORM PROGRESSIVE EDUCATIONAL POLICY NOW BEING LACKED IN MANY OF OUR STATES AND TERRITORIES. THE REASON FOR THIS IS THE LACK OF A UNIFORM POLICY.

THE BOARD OF THE INDEPENDENT STATE'S ASSOCIATION TO HOLD IN OUR SCHOOLS COMPETENT AND TRAINED MEN AND WOMEN.

THIS IS THE ONLY SOLUTION, AND IT IS DEMANDED NOT FOR THE TEACHER WHO GENERALLY CAN TAKE CARE OF HIMSELF OR HERSELF IN SOME OTHER OCCUPATION WHEN NECESSARY, BUT FOR THE BROAD MAINTENANCE OF GOOD SCHOOLS IN OUR COMMUNITIES AND FOR THE SOUND EDUCATION AND WELFARE OF OUR CHILDREN.

- What special problem of non-assimilation does the immigrant women present?
- Are all races capable of being assimilated into the American life?
