OLDEST AND LEADING NEWSPAPER IN CIRCULATION IN THE COUNTY OF LINCOLN, NEW MEXICO

VOLUME 21

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, JUNE 11, 1920

NUMBER 24

State Democratic Convention DEMOCRATS CHOOSE 12 DELEGATES TO GO TO FRESNO UNRESTRICTED

The Democratic State Convention, which met at Roswell, June 3, adjourned at 12:45 the morning of the 4th. Twelve delegates were selected to represent New Mexico at the National Democratic Convention at San Francisco, three of which were selected at large and nine by districts.

The three at large are Felix Garcia of Rio Arriba; Mrs. W. F. Kirby of Quay; W. S. Patterson of Bernalillo.

In the third district and the first division of the fifth district, it was impossible to agree and the selection was made by the convention. A tie vote in the sixth was broken by a ruling of the chair; and in the seventh a decision was reached through the aid of the chair.

The following are the district delegates: 1st district, Arthur Seligman of Santa Fe; 2nd, A. T. Harnett of McKinley; 3rd, J. L. Lawson of Otero; 4th, Vicente Mares of Mora; 5th, John Rhea of Chavez; second 5th, Charles Dennis of Curry; 6th, J. L. Birkhead of Luna; 7th, Richard Kenderick of Sierra; 8th, G. G. Grandville of Union.

Senator A. A. Jones served both as temporary and permanent chairman of the convention and Byron O. Beall as secretary.

The resolutions strongly endorsed President Wilson, approved the Anthony suffrage amendment, demanded a vigorous enforcement of the prohibitory law, and were reinforced in this latter respect by instructions to the delegation to vote against any light wine or beer legislation.

The name of W. G. McAdoo was placed before the convention by W. S. Patterson, the spokesman of the Bernalillo county delegation, which had been instructed to do so by the convention which created it. Under the instructions the Bernalillo county man moved that the state delegation vote for McAdoo as long as there was a prospect of his nomination. Senator A. A. Jones, permanent chairman, ruled that the motion was out of order, under the previous adoption of the report of the committee on rules, which provided that the delegation should vote as a unit according to the best judgment of the majority reaching San Francisco. There was no protest to the ruling.

Every mention of the president's name by Senator Jones, brought applause. "President Wilson, through abuse, vilification and calumny stands in that grand triumph of Washington, Lincoln and Wilson," the keynoter asserted while the convention expressed its enthusiastic approval.

As did Senator Owen Jones, Senator Jones expressed the greatest

Red Cross to Employ a Trained Nurse for Town and County

The Lincoln County Chapter, A. R. C., at an executive committee meeting Tuesday night, definitely decided to employ a nurse for the coming year, and hopes to have one here at the opening of the county schools on September 1. The nurse so employed will give her attention to the schools throughout the county, or wherever her services may be required, in the event of an epidemic, and will give instructions concerning health, sanitation, etc.

It is confidently hoped, and some assurances have been given, that both the town of Carrizozo and the county will make levies to help carry on the work. But inasmuch as neither municipality has made the levy and, when made, will have no funds until the first of the year, the Chapter deemed it the proper course to begin immediate operations, the Chapter possessing both the organization and the means to start the health campaign going. Should the municipalities mentioned make levies for the purpose named, it is supposed that the cost of operation and organization will be adjusted on an equitable basis, thus distributing the cost and responsibility.

Town Trustees Hold Session

The regular monthly meeting of the Town Trustees was held last Monday night, with Mayor Rolland, and Trustees Richard, Lujan and Squier, and Clerk Stadtman present. Absent, Taylor, who was away from town.

A number of running accounts was ordered paid, including material and supplies for street lighting and the installation of the same.

Wm. S. Brady was reappointed Marshal and his salary increased \$10 per month, and his duties enlarged because of care of street lights. Dr. Padan was reappointed health officer and E. D. Boone was elected treasurer.

Notice was ordered given that the trash ordinance and traffic ordinance, which have been a little loosely regarded, would be strictly enforced, and the town marshal instructed to give proper attention thereto.

Two committees were appointed by the Mayor, as follows:

Streets and Alleys and Sanitary Matters—F. E. Richard and Ben Lujan.

Finance—S. L. Squier and Julian Taylor.

These two committees are very important, and upon them will be the duty of looking into matters over which their jurisdiction prevails, and will require considerable activity between sessions of the Trustees.

The town health officer was instructed to investigate conditions surrounding the premises where cows are kept from which the

Dragged to Death by a Horse Near Corona

Alexander Blackman, aged 65, an old and trusted employe of the McCamant ranch, near Corona, met a horrible death on the range on Tuesday, June 1st. He had started out a horseback to go from one ranch to another, and it was not discovered until the following day that he failed to put in an appearance at either ranch. The horse he was riding was seen near one of the ranches, but bore no saddle, and Mr. McCamant, believing that something had happened to the rider, started with some men on the trail.

The country was combed for miles around, but no trace of the missing man found. Finally the trail of the horse was picked up and followed, back-tracked, and a few miles along the trail the saddle was found, and about two miles further back they reached the body of Mr. Blackman. The clothes had been torn from the body, and the body itself was bruised and battered almost beyond recognition. Pursuing the trail further, the searchers found where the horse had stepped into a prairie dog hole, and the conjecture is that the unfortunate man was unhorsed, and his foot hung in the stirrup or rope, and the fall frightening the horse, he began to run, dragging his rider along over the rough ground until death released him from his suffering, and the saddle girdle parted. The distance from the fall to the place where the body was found was over a mile.

Mr. McCamant says that the deceased was a most excellent man, faithful, trustworthy and honest, and is deeply grieved over the violent manner of his death. The deceased had many warm friends among the people of the Corona district, where he had lived a number of years, and his violent death was a severe shock to them and the entire community.

Red Cross Field Worker

Miss Marie Wickart, field representative of the Red Cross with headquarters at Denver, spent the past week in Lincoln county. Miss Wickart, in company with Mrs. J. B. French, visited a number of points in the county, giving attention to discharged soldiers, such as preparing papers for claims, applications for those entitled to the benefits of vocational training, etc. The Home Service section of this Chapter hopes to have all work of this nature completed at an early date.

Teachers' Institute

Mrs. Maud L. Blaney, county superintendent, has announced the Lincoln County Institute for June 27 to July 16, at the High School building, Carrizozo. Mrs. French, Dr. Padan will be in charge, and Mrs. D. K. Pope

Everything Looking Green in Lincoln County

People from all points in the county were in Carrizozo this week having their taxes adjusted by the county commissioners who are in session as a board of equalization. They all expressed themselves as well pleased with the prospects for a bountiful year. The range was never greener nor live stock fatter at this season, and the wheat, oats, barley and corn growing rapidly, with an adequate amount of moisture in the ground in most sections, replenished occasionally by light rains, and the summer rains approaching. Hail fell in some sections but the damage done was slight. Notwithstanding this is essentially a dry farming and stock-raising county the prospects for maximum yields are excellent. As near as could be learned from the visitors here this week the above conditions apply to all sections of the county. While the farms are expected to yield as much as in 1918-19, scarcity of labor prevented more land being put in cultivation this year, as the indications are there will be a demand for everything raised on farms this year with prices equaling those of the two previous years.

Republicans at Chicago

The Republican National Convention convened in Chicago on Tuesday of this week, and has been engaged the entire time in work on the platform and settling the contests before that body. Senator Lodge of Massachusetts was elected temporary chairman and made the keynote address.

A bolt was threatened over the League of Nations plank, but advice this morning is to the effect that a truce was patched up which is satisfactory to the leaders of both factions. Balloting on nominations will begin today. All information as to the probable nominee is to the effect that everybody is at sea, and no candidate has a preponderant lead. The general feeling seems to be that some "dark horse" will be nominee.

Autos Collide

Miss Winnie Taylor had an arm badly cut Wednesday in an auto wreck. She and some girl friends were driving down the street when a tire blew out and control of the car was lost, and it dashed into another car. Miss Winnie was thrown into the wind shield and the broken glass cut her fore arm badly. The bleeding was staunch and the wound dressed by the ministrations of a hurriedly summoned surgeon, and the injured young lady is suffering no serious effects.

To Alamo Sunday

The local ball team will go to Alamo on Sunday to have another try with the team at the

The Prohibition Amendment Held Constitutional by Court of Last Resort

"JOHN B" LOSES DECISION
Washington, D. C.—The prohibition amendment has been held constitutional by the supreme court. The prohibition enforcement act was held constitutional. The opinion was Justice Van Doyen.

The validity of the prohibition amendment and portions of the enforcement act was involved in seven separate proceedings before the supreme court. Two of these were original suits brought by Rhode Island and New Jersey as sovereign states to enjoin enforcement in their jurisdictions upon the grounds that both enactments were unconstitutional. The other cases were direct appeals from the lower decrees.

Steps to institute the suits were taken immediately after the act became effective on Jan. 16, and on motion of counsel their consideration was expedited.

In all the cases a general attack on the amendment was made on the ground that it was revolutionary and designed to regulate the private habits of individuals; that it interfered with the states' police powers; and that the amendment was not ratified by three-fourths of the states owing to provisions in many states' constitutions requiring that amendments be submitted to a referendum.

The court upheld the federal court decrees, dismissing the proceedings brought to enjoin the prohibition amendment from being enforced.

The court dismissed the petitions filed by the State of Rhode Island to have the federal officers enjoined from enforcing prohibition in that state.

The court also dismissed the injunction proceedings brought in New Jersey to prevent enforcement of prohibition within that state, and the injunction restraining prohibition officers from interfering with the Manitowoc Products Co. to manufacture beer, was dissolved.

Chicago—"The avenue of the courts is now exhausted," said Levy Mayer, who argued the case for the distillers before the supreme court.

Graduates at the Loretta Academy

R. A. Casey, of Piecho, stayed over in Carrizozo Tuesday, and left the following morning by auto for Santa Fe, to attend the graduating exercises at the Loretta Academy of that city. He will return the end of the week with his daughter, Lillie, and three of her class mates—Tinnie Ramond, a daughter of Mr. and Mrs. Steve Ramond, of Tinnie; Viola Kimbrell, a daughter of Mr. and Mrs. W. B. Kimbrell, of

PARSONS NEWS LETTER

Dear Aunt Betty:

One of the best times we have had for a long time was the last day of school. First there were several contests in the school room in which all the pupils took part. Little Harold Olson made himself famous by making the most ridiculous face, while Ula Greer won the prize for the best recitation of the multiplication tables. The exercises closed with an old-fashioned spelling bee. It is worthy of note that the littlest pupils held their own with the older ones till some really hard word sent them out of the line. Britton Vincent spelled the school down; and, besides the prize for being the best speller, he took nearly ever other prize offered that day.

After the spelling match everyone went outside, and the grown-ups joined in the fun of the field exercises as well as the youngsters. Mr. Vincent won the prize for the shortest time in a wheelbarrow race. He didn't dump his wife out either.

Bertha Bragg swung an axe as well as anyone, but Jim Robinson said his wife had been practising for a couple of months, so, of course, she captured the prize for cutting a log in two in the shortest time.

There were various races and a greased pole, with a dollar on top, to climb.

Before the sun had quite set everyone went back to the school house again, where the ladies served cake and coffee.

Little Della Wingfield, who has been spending the winter with her grandparents and going to school, returned home Sunday.

Did you know that Mrs. Fulmer and little Walter had gone to Chicago for a short visit with friends, and Mrs. Rice seemed to have the wanderlust, too, for she has gone to Dawson to visit her two daughters for a month.

You remember Mrs. Crockett, don't you? One of the really old timers. Well, she lives in Arizona now, but has been visiting the Grafton family here, as well as friends on the Mesa.

Mr. and Mrs. Lewis of Fort Stanton, spent Sunday with the Rice family, and the Weber family came up Monday for the day.

G. B. Greer has returned from the Palomas hot springs where he spent several weeks.

Picnic parties and campers are beginning to invade the South Fork. I haven't noticed any "goops" there yet. "Goops" are a species who litter up the places where they camp with waste and trash and spoil the beauty of our woods.

It seems as if the rainy season had set in, but the ranchers are not kicking, and the first of June has passed without a freeze, so we will have some fruit this year.

Minnie Milda Marie says she don't like picnics.

Mr. and Mrs. Kline of Chicago on their return from a honeymoon trip to California stopped over a few days to visit Mrs. Wahl, an aunt of Mrs. Kline. Mr. Kline is an overseas man who saw active service in France, and his wife is an accomplished musician. Their short stay afforded much pleasure to those who were fortunate to meet them.

Don and Mrs. Korn motored up from Stanton Saturday and spent the day with the family.

Neglecting Privilege and Duty

Returns in county primaries in New Mexico show that the people in many rural precincts cast a light vote. The farmers are short-handed, and a lot of them have been so busy with spring work that they would not take time to vote. Town dwellers have little excuse. The country will never be prosperous and well governed unless its citizens are willing to spend time to vote. Even if a man lives several miles from the polling place, he would not lose much time by doing his duty as a citizen. The farmers are one of the most intelligent elements, and when they absent themselves, the country suffers from the lack of their judgment. Their voice is certainly needed in affairs.—
Albuquerque Journal.

Some Political History

A glance at convention records since Lincoln was nominated in 1860 discloses the unusual prospects for the present one. In those conventions the balloting was as follows:

	No. Ballots
1860—Lincoln	3
1864—Lincoln	1
1868—Grant	1
1872—Grant	1
1876—Hayes	7
1880—Garfield	36
1884—Blaine	4
1888—Harrison	8
1892—Harrison	1
1896—McKinley	1
1900—McKinley	0
1904—Roosevelt	0
1908—Taft	1
1912—Taft	1
1918—Hughes	3

OSCURO NEWS ITEMS

Mr. McCalley, Mrs. Kelly and Mrs. Eagle, of Chicago, who are stopping here for their health, restoration, etc., went to El Paso Friday, to spend a few days and look that city over.

T. R. Wellhand came in from El Paso where he had been the past week on business.

The S. W. Tularosa Basin Oil company are now drilling in a black shale, which is said to be promising. In fact a small piece of this shale that was taken from off the end of the bit, when drawn up, was brought to Oscurto, and a test showed it contained oil. Gas continues to come from the well and has a smoky-like appearance. The Southwestern is a good bet.

The Oscurto Woman's club met with Mrs. Dr. Blaney Saturday. This will be their last regular meeting for this season, owing to warm weather, but will get together in October.

Mrs. C. F. Gray is spending a few days out at the ranch with Mrs. Shorty Moore.

It is understood the coal company will add a night shift to the working force in the mine.

R. C. Rafferty arrived Saturday from California where he wintered. He has gained in weight and says his health could not be better.

Land Open for Entry

Notice is hereby given that there has been received in this office, for filing, the approved plat of the survey of (fractional) Township 10 south, Range 11 E., (Secs. 1, 2, 3, 11 and 12 only.)

Said plat will be officially filed at 9 o'clock, a. m., July 1, 1920, at which time, due to the fact that said township is in the Lincoln National Forest Reserve, only such lands therein as have been listed by the Forest Service, or were settled upon prior to January 1, 1906, and have been resided upon continuously since that date, will become subject to entry.

Applications to enter lands in said township should be early, and the proper fees should be paid.

Who is Depositing your Dollars? Are You?

It makes all the difference in the world. Your bank account is your financial thermometer.

Every deposit credited in your pass-book is a mile stone passed on the road to success.

Peel off an extra FIVE, TEN or TWENTY each pay day and bank it. Don't let the other fellow deposit your dollars.

NOTICE OF PUBLICATION

In the Probate Court for Lincoln County, State of New Mexico

In the Matter of the Last Will and Testament of Mrs. Sarah E. Tennis, deceased.

Public Notice is hereby given that there has been filed in the office of the Probate Clerk of Lincoln County, New Mexico, a paper in writing purporting to be the last will and testament of Mrs. Sarah E. Tennis, deceased, late of said county and state, and that the proving of said last will and testament will take place before the probate judge of said county at the July, 1920, Term of said Probate Court, and on the second day of said term, the same being July 6th, or as soon thereafter as a hearing can be had before the court. At said hearing and proving of said Will and Testament, the heirs at law of said decedent, Mrs. Sarah E. Tennis, and also all other persons who may, or have an interest in the estate of said decedent, will be given an opportunity to object against the approval of said Will and Testament by the court.

Witness my hand and seal this 20th day of May, 1920.

WASHINGTON GOSSIP

Trying to Demobilize the Civilian War Machine

WASHINGTON.—The army and the navy are demobilized, but how to demobilize the civilian war machine, with its army of superannuated employees and its swollen pay roll, is a big problem with which congress is wrestling.

THREAT TO THE CIVILIAN WAR MACHINE
Approximately 500,000 civil employees in the entire country. New there are 736,398, in part as follows:
Department of labor..... 2,651
Department of interior..... 1,651
War department..... 33,930
Public printer..... 1,987
Department of commerce..... 12,765
Department of agriculture..... 33,451
Navy department..... 19,455
Post office department..... 12,751
Treasury department..... 11,738
Insular commissioner..... 1,726
Shipping board..... 2,500

Members of congress, secretaries, clerks, help about capitol, justices of the supreme court, United States circuit court of appeals, and district court judges, clerks, marshals, United States attorneys, assistant United States district attorneys, ambassadors, and others in the diplomatic and consular service, staffs of congressional library, etc., are at least 6,000. Other figures are: Department of justice, 508; civil service commission, 378; department of state, 724; federal trade commission, 428; federal reserve board, 405; Smithsonian Institution, 422; Panama canal, 110.

There are 300,000 more employees today in the government service throughout the country than before the war. Before the outbreak of the war there were 27,926 clerks and other civil employees of the government in the District of Columbia. This force was increased during the war until on November 11, 1918, when the armistice was declared, it numbered 117,454.

Who Wants to Play Hooky After Next September?

THE latest word in pedagogy is embodied in the newly incorporated association, composed of America's foremost educators, the Society for Visual Education, whose purpose is to supplement the present textbook and laboratory system of education with moving pictures, carefully selected and produced by the organization.

Members of the society believe moving pictures will teach at a glance what would require hours of study or of verbal explanation to acquire, and will reduce the cost of education by making it possible to teach the same amount in a shorter time, or more in the same time.

Films are being produced and distribution to schools is to begin in September.

Prof. Rollin D. Salisbury of the University of Chicago, is president of the society, Harley L. Clarke of Chicago, is vice president and general manager, and Prof. Forrest D. Moulton of the University of Chicago, is secretary. The board of directors includes Prof. W. W. Atwood, Harvard; Dr. W. C. Bagley, Columbia; Prof. O. W. Caldwell, Columbia; Prof. J. M. Coulter, Chicago; Prof. Y. C. Vaughan, Michigan; Prof. E. B. Moulton, Chicago; Prof. W. F. Russell, Iowa; Prof. Salisbury, and H. L. Clarke, Chicago. Other noted educators make up the advisory board, which includes C. E. Chaffey, University of Illinois; L. D. Coffman, University of Minnesota; L. T. Daines, Bryn Mawr University; J. Paul Goode, University of Chicago, and R. J. Ketley, University of Kansas.

The eyes of the educational world long have been turned toward moving pictures, particularly for the grades, but heretofore pictures have not been prepared under the direction of competent educators. The Society for Visual Education disclaims any intention of entertainment, but, believing the quickest path to the brain is through the eye, will use films to multiply the power of thorough, accurate and quick observation.

Nature Herself to Tell Age of Cliff Dwellings

HOW old are the cliff dwellings in Mesa Verde National park and other prehistoric ruins in the American Southwest? It has seemed that this question could never be definitely answered. There are no written records, and the Indians have no traditions concerning the prehistoric people—who they were, when they lived and what became of them.

Now nature's records are likely to furnish the information sought. Some fifty pieces of wood from the ruins at Asteo, N. M., have been sent to Dr. A. E. Douglass in California. He expects, after examining the wood, to be able to tell the exact year in which the logs were cut and placed in the floors and the ceilings in the houses.

Prof. Earl Morris of Silverton, Colo., who has spent many years studying the Southwest, sent the ancient timbers to Doctor Douglas. He says, concerning the experiment:

"It is common knowledge that the growth of each year adds a ring of wood to the circumference of the trunk of a tree. The amount of rainfall and the influence of the solar activity during any given year determine relative thickness, and composition of the wood that grows in that year.

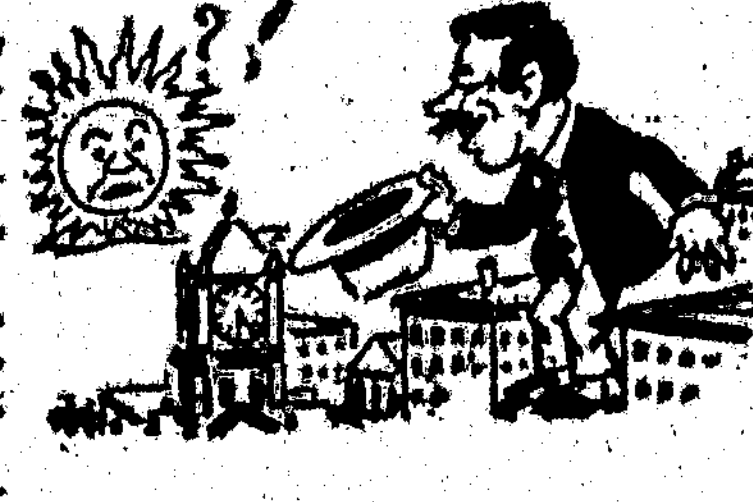

"For nearly two decades Doctor Douglas has been studying the sequoias of California and the pines eastward to the continental divide. He has discovered that rainfall over this entire region has varied with the same distinct rhythm—a series of more moist ones for 3,218 years, the age of the oldest sequoias examined.

"The character of the rings, which grew during each cycle, differs in some particulars from that of every other cycle of rings in a piece of pine cut at an unknown date, and finding out where the same peculiarities occur in the 3,000-year record preserved in the sequoias, it can be stated when the tree grew, and the year in which it was felled."

Thirty-Three Cities Enjoying Daylight Saving

DAYLIGHT saving is in effect in at least thirty-three American cities and towns, notwithstanding the repeal of the law by congress last summer over President Wilson's veto, according to the National Daylight Association.

Daylight, at least, is supplied at no higher rates than before the war. The cities and towns which have adopted daylight saving ordinances include the following:
New York—New York city, Buffalo, Geneva, Troy, Utica, Syracuse, Yonkers.
New Jersey—Camden, Plainfield, Newark, Elizabeth, Jersey City.
Massachusetts—Oxford, Lynn.
Pennsylvania—Philadelphia, Pittsburg, Coatesville, Harrisburg, Manton.
Connecticut—Hartford.
Missouri—St. Louis, Springfield.

GOAL DUST LODGED IN MINER'S LUNGS

Tells how his cough was conquered and health restored.

"In November, 1914, I was working in a coal mine and the doctors said the coal dust had settled in my lungs. I couldn't lie down on my right side, coughed as I couldn't sleep and had constant pain in my right lung and under my shoulder blades. I coughed so hard the blood would spurt out of my nose. Finally the doctors had me change climate and live outdoors, but didn't improve.

"Then I came home and started on Mink's Emulsion. Thank God I did, as it did me a lot of good right from the start, loosening up the coal dust in my right lung. In a few weeks my lungs were free. I could sleep like a baby, had no cough, no appetite and my weight lost 45 pounds. I gained back 45 pounds in weight and went back to work in the mine completely restored to health."

S. H. Dunn, 6th Ave. & No. 12th St., Turin, Minn., Ind.

Thousands of victims of dust-filled air develop the same trouble that Mr. Dunn had. Mink's Emulsion acts nothing to try, but get it at least try it.
Mink's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and purgatives. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. It helps build flesh and strength, and is a powerful aid in restoring and repairing the effects of wasting diseases.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case you are urged to try Mink's Emulsion under this guarantee—Take six bottles home with you, use it according to directions, and if not satisfied with the results your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Mink Emulsion Co., Turin, Minn., Ind. Sold by druggists everywhere.—A.D.V.

Latin ceased to be spoken as the language of the people of Italy about the year 55.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay seeking treatment. Dr. Kliner's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kliner & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—A.D.V.

No use grumbling; people won't act to suit you.—Ed. Howe.

USES OF ASPIRIN

Bayer Company, who introduced Aspirin 15 years ago, give advice.

Aspirin created a sensation when introduced by Bayer over eighteen years ago. Physicians at once proved its wonderful efficiency in the relief of pain. The genuine, world-famous Aspirin, in "Bayer Tablets of Aspirin" is widely taken by millions for Colds, Headache, Rheumatism, Neuralgia, Migraine, Toothache, Aching Joints, Neuritis, and Pain generally.

Be sure the "Bayer Cross," which is the mark of true "Bayer Tablets of Aspirin," is on each genuine package and each genuine tablet.

Boxes of 12 tablets cost but a few cents and contain proper directions. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturers of Mesopotamian Aspirin of Salicylic Acid.—A.D.V.

Warning to Tourists. Hugh Walpole, the English novelist, said at a tea in Philadelphia:

"I advise you, if you go to London, to engage your hotel accommodations in advance, for all the London hotels are crowded all the time.

"An American was walking the Strand the other day, when a red-headed chap touched his arm and said: 'Could you give me a few coppers, sir, for a bed?'

"A few coppers?" said the American. "Why, man, I'll give you a couple of sovereigns. Where the deuce is it? I've been looking for a bed all over this blasted town for two days."

"CARRY ON!"
If Constipated, Bilious or Headachy, take "CASCAROLS"

Feel grand! Be efficient! Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad and your stomach sour. Why not get a small box of Cascarols and enjoy the nicest, gentlest laxative-cathartic you ever experienced? Cascarols never grips, sickens or inconveniences one like salts, oil, Calomel or harsh pills. Cascarols bring sunshine to cloudy minds and half-sick bodies. They work while you sleep. A.D.V.

Incredible Feet. "I see where somebody has invented a safety-pedals for men."

"Aw, don't be telling fairy tales to a married man."

Your New Home should be made artistic, sanitary and livable.

These walls should be Alabastined in the latest, up-to-the-minute nature color tints. Each room should reflect your own individuality and the treatment throughout be a complete perfect harmony in colors.

The walls of the old home, whether mansion or cottage, can be made just as attractive, just as sanitary, through the intelligent use of

Alabastine

Instead of kalsomine or wallpaper

How much better, when you have a new house, to start right than to have to correct errors afterward from former treatment with other materials, when you come to the use of Alabastine, as does nearly every one sooner or later.

Once your walls are Alabastined you can use any material over it should you desire, but having used Alabastine you will have no desire for any other treatment.

Alabastine is so easy to mix and apply—so lasting in its results—so absolutely sanitary—and so generally recognized as the proper decorative material in a class by itself that it is becoming difficult to manufacture fast enough to supply the demand.

Alabastine is a dry powder, put up in five-pound packages, white and beautiful tint, ready to mix and use by the addition of cold water, and with full directions on each package. Every package of genuine Alabastine has cross and circle printed in red.

Please write us for hand-made color designs and special treatment. Give us your decorative problems and let us help you work them out.

Embraced Opportunity. They skated together, but little they said, for they'd just been made known to each other. But he wished an across the bright surface they sped that through life they might thus go together.

We've All Heard That. "Have you ever heard any table rapping?" "No, but I've heard a lot of knocking when a pieced-up rupper was being served."

A crash! They were through! "Oh, how awkward!" cried she. "Tisn't deep, but has any one seen us?"

Cuticura Soothes Itching Scalp. On retiring gently rub spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with Cuticura Soap and hot water. Make them your every-day toilet preparations and have a clear skin and soft, white hands.—A.D.V.

The Right Course. "I am all up in the air about sending this letter."

It's difficult to understand why some men eat brain food. You will waste ammunition unless you have an aim in life.

Who Said Prices Were Going Up?

Mrs. Fay Wooten, daughter of Mr. and Mrs. Lamay, is visiting at the old home on Nogal mesa.

Cottages for Rent.—A nice five-room cottage with garage, in center of town.—Enquire at Carrizozo Eating House. 6-4

U. S. Marshal Hudspeth, who has been here for several days on business connected with his office, left yesterday for Santa Fe.

The Reillys went to South Fork Wednesday for an outing and for a little fish fry. They caught all they could eat—at one sitting.

Jodee Cochran, formerly of Nogal and Carrizozo, but now a resident of the copper camp at Hurley, has been visiting here the past week.

Mrs. Flannery, formerly Miss Trixie Harris, came over from Rowell the past week for a visit to her old home at Three Rivers.

Mr. and Mrs. C. A. Perkins were in town this week from their Jicarilla ranch, both looking brown and healthy from their sojourn on their prairie ranch.

A. H. Norton of Jicarilla was in the county seat Monday. Mr. Norton reports heavy rains in his section, but almost invariably accompanied by hail.

Willis Hightower of Capitan returned this morning from a business trip to Albuquerque and took the White Line for home.

H. B. (Shorty) Roberts was here Monday from his ranch in the Arabella country. "Shorty" says the range is covered with young grass, and live stock never looked better.

A. B. McCamant and little son were here Monday from their ranch near Corona, and made the News office a pleasant call. Mr. McCamant reports good rains in the Corona country, fine grass and fat stock.

The Santa Fe trains continue to come over the E. P. & S. W. tracks, the Rio Grande still being on the rampage. Aaa result the Carrizozo Eating House, which has to feed the passengers on those trains, is about the busiest place in town.

A report comes from the Ruidoso that two aliens were arrested in that district recently for hunting wild turkey out of season. They pleaded guilty and were fined \$50 each. They gave as their names B. J. Ginsberg and Dale Kraigh.

Mr. and Mrs. Paul Foster came in yesterday from Wichita Falls, Texas, having motored across country. Mr. Foster was here a number of years ago and is well known in the Capitan country. He resided in Oklahoma City and is accompanied by his charming wife, whom his old friends will be glad to meet.

last week set the grass bap'y, but the range is good. The heavy hail knocked limbs off stout cedar trees.

E. M. Brickley, of the First National Bank, accompanied by his sister, and little daughter, and Miss Ula Edmiston, assistant cashier in the above bank, spent the week end on the Bonito, the guests of Mr. and Mrs. Reddy. E. M. is reported to have had a good time angling for speckled trout, and hooked enough to last him a week or so.

Adolph J. Lahann came in yesterday morning from Santa Monica, Cal., where he and his family have resided the past year. The Lahanns lived at Carrizozo before going to California, and have many warm friends here who are glad to see Mr. Lahann, and to learn that Mrs. Lahann and children are enjoying the best of health and like their new home.

Tag Your Bow-Wow.

Dog-tag licenses are now for sale by W. W. Stadtman, town clerk. The dog tax law will be strictly enforced, and, within a reasonable time after the first of June, dogs found without tags will be killed—shot, chloroformed or gassed. If you think enough of your "bow-wow," hang a 1920 tag around its neck, or that terrible man the dog-catcher will get it, and the records will show your bow-wow "officially missing." Tags cost \$1 and \$2, depending on sex.

The Misses Lindsey are in Los Angeles, and will return before the opening of the school term in September.

W. J. Ayers and family are again at the old homestead below town, having recently returned from Maricopa, Ariz., where they have lived since 1918.

Rich Hust was down yesterday from his home in Nogal canyon. Rich says his apples escaped the frost, and that he has prospects of a good crop.

Mrs. Orsa S. Sterns and children are on the Bonito, located in the frame building recently purchased from the Wells estate. Orsa makes the trip up there occasionally in his jitney to see the family and become acquainted with husbandry. They own a nice little ranch.

William Craig and son, Bonnie, were here yesterday from the Capitan-Blake country. The Craigs made their home at Capitan for a number of years, and the past few years have been

Give her a Bank account for a wedding present.

When a man marries is the time to open a bank account, and make his life partner his business partner. Then she will take an interest in his business and be a help to him. Many a wife from her savings has kept a man from hitting the rock of financial disaster.
