OLDEST AND LEADING NEWSPAPER IN CIRCULATION IN THE COUNTY OF LINCOLN, NEW MEXICO

VOLUME 21

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, FEBRUARY 20, 1920

NUMBER 8

The New Mexico Oil Fields

The tool-baling is still in progress at the McGee well southeast of Tucumcari and no good luck has been reported other than a part of the stem and the broken jars being removed leaving the other tool in the bottom of the well. Different kinds of apparatus have been made and used but luck seems to be against the men at this time. Everything is being done to remove the lost tools but at present they have not been brought out and the work of grabbing will be confined with hopes of being successful. Last week they drilled by the tool and hoped to let it fall out into the middle of the hole so the grab would catch it. These fishing jobs are not very encouraging to those who are putting up the money. It is estimated that about \$10,000 has been lost so far in this kind of work at this well.—Tucumcari News.

Last week the 2 1/2 inch manilla cable of the Cox company broke about one hundred feet below the surface of the ground and left the heavy drill and drill bar down at the bottom of the well under four hundred feet of water and lodged in quicksand. The fishing tools, with which the company was well supplied, were put into use and were tripped as fast as power was exerted on the cable, without pulling out the tools. Mr. Cox put aside the fishing tools provided and is having one made that he believes will do the work, pulling at both ends of the drill bar at the same time. The use of an air pipe to loosen the sand around the drill may also be used while the engine is pulling on the drill and bar.—Las Cruces Republic.

The derrick south of Roswell near Orchard Park is being rapidly erected and will be completed within a few days. The machinery is being installed as rapidly as possible and actual drilling will start not later than March.

The Roosevelt Oil corporation, a \$250,000 New Mexico corporation, is the latest and the most pretentious oil development company to open general offices in Roswell.

Chama, N. M.—William Rice has bought 160 acres of land located about three miles west of Chama at a record price for this field, \$150 per acre being the reported consideration. Mr. Rice expects to organize a company and start drilling within the next thirty days on his purchase. He is highly enthusiastic over the future of the field.

Treaty Up-hold in Placett Election

St. Louis, Mo., Feb. 17.—In a special election held Saturday in the Third Missouri congressional district, Capt. Jacob L. Milligan, Democrat, won over John B. Fitch, Republican, by a majority of 2,500. Captain Milligan is a pliable negotiator in the peace treaty and league of nations, while his opponent is a staunch supporter of the treaty.

K. P.'s Entertain

Last night a large crowd gathered at the K. P. Hall by invitation to assist the members in celebrating the fifty-sixth anniversary of the Order.

The hall had been tastefully decorated with the colors of the order. A table was roped off from the main portion of the hall, at which fifty-six persons were served at a time; and it was filled about four times. Fried oysters, salad, pickles and coffee, followed by ice cream and cake, constituted the spread and the members and their wives left no stone unturned to satisfy all wants.

The main hall was given over to dancing, which began early in the evening and was not concluded until the wee sma' hours. The music was inspiring, the occasion appropriate, the crowd harmonious and the lodge, as host, was gratified with the results.

Many of those present came from various parts of the county, and in many respects gave the affair the appearance of a reunion and a spirit of good feeling, excelling any thing of a similar nature in the past.

R. R. Strike Called Off

Washington.—The railroad employees' representatives have agreed to accept the recommendation of President Wilson to hold their wage demands in abeyance temporarily, it was announced today.

President Wilson informed the men of his intention to appoint a commission of wage experts to go thoroughly into their claims. On this basis the union leaders agreed to delay further demands for increased wages and called a convention of their general committee to be held in Washington on February 23.

The union leaders' reply to the president's proposal to handle the controversy in this manner did not end the question finally. They made it clear that they desired word from officials who are in closer touch with their membership than they, the delegates, who have been conferring with Director General Hines since February 3.

Kaiser Will Be Corraled

The Hague.—The latest allied note regarding the extradition of the former German emperor reverses the original demand for surrender and only asks for internment.

The note suggests that the former monarch be sent perhaps to one of the Dutch Islands, in the East Indies, it became known. Associated Press has learned, on excellent authority, that the Dutch government is already determined to reply with an offer of actual internment of Wilhelm at Doorn, Holland, accepting full responsibility of preventing him from endangering the peace of the world, by establishing a guard over him and strict censorship.

Died at Hurley

Word was received here this morning that Mrs. Odoran, wife of J. O. Odoran, who had been in the hospital for some time, died at Hurley, Friday morning.

CARRIZOZO SCHOOL NOTES

SUPR. E. E. COLB.

This is examination week of the sixth school month.

Commencement Address this year will be given by our worthy State Superintendent, Jonathan H. Wagner, May 13. The commencement diplomas have been ordered and the seniors are now selecting their commencement invitations.

The Capitan high school has accepted a challenge for a game of basket ball to be played at Capitan on Saturday, February 28. A return game will be played at Carrizozo a little later. We hope a large number of Carrizozo people will go to Capitan and encourage our team of girls by "rooting" in good style. Take your own auto, or that of a friend, so that the cost will be little or nothing, and you can go and come when you please.

Supr. Cole personally looked after the fumigation of all of the rooms of the Carrizozo schools last Saturday. The rooms were thoroughly "gassed" and kept closed for more than twenty-four hours.

The eighth grade is working hard getting ready for the examinations to be given by the State Board of Education March 18-19 and April 22-23. The plan is to take the examination in five studies in March and in the other studies in April. There are eighteen students in the eighth grade and if they all pass into the ninth grade it will make a good-sized freshman class. Here's good luck to them, but they must remember that luck does not carry them far; hard work carries them much farther.

On Thursday of last week our schools observed Flag Day, Lincoln's birthday and Washington's birthday together. The exercises commenced immediately after the recess of the afternoon. At the high school building two large flags, on eight-foot poles, were held at present, on opposite sides of the doorway and were saluted by the pupils as they marched into the building. We are informed by old citizens that more people visited the Carrizozo schools on Lincoln's birthday, last week, than on any other day in the history of the schools.

Lincoln's birthday is celebrated more extensively every year. The American people are finding in the memory of Lincoln inspiration to forget self in devotion for the United States. Secretary Lansing recently said: "The memory of Lincoln, of his humble origin, of his unsurpassed service, and of his character as a man and as a public servant is one of the great spiritual assets of this nation. It is in turning our thoughts to the career of this great American that we learn the true meaning of patriotism and gain a true conception of the opportunities which America offers to those who, inspired by lofty ideals, press onward along the path of unselfish public service. In the memory of the birth of Abraham Lincoln we do honor to the American spirit of which he is the personification. He is the typical American, for his life exemplifies the inspiration to forget self in devotion to his country and to the common good of the people."

Will Doering left Tuesday for Caduffilo, near Las Cruces, on a visit to his brother William, who is now engaged in farming close to that town. Will Doering, who has been in poor health for the past year, will be remembered by many at the "light and" having installed gasoline light

honor of George Washington, yet special programs are being prepared in his honor for Monday, the 23rd, with songs, recitations and drills.

A Good Kill

A large lobo wolf (dead of course) was on exhibition outside the First National Bank for several hours Thursday morning. It was killed by O. Z. Finley and son on their cattle ranch south of town. This animal has been destroying live stock for years, and its cunning was to much for either hunter or trapper. On Wednesday afternoon Mr. Finley and son came upon its fresh trail, which they followed for six miles, and killed the varmint by a well placed rifle bullet. The lobo, or buffalo wolf as it is sometimes called, is said to be of a different species from the grey or timber wolf, and is rapidly becoming extinct, only occasionally we hear of one of them being "got." The animal in question measured sixty-six inches from tip to tip, and must have been powerful enough to pull down a full-grown steer.

Wool Growers' Meeting

Roswell, New Mexico, Feb. 19.—"What the Wool Growers Need" is the subject of the address to be delivered by F. J. Hagenbarth, president of the National Wool Growers Association, at the annual convention of the New Mexico Wool Growers to be held here March 8 and 9. This is only one of the many good things on the program for the two days convention.

Governor Larrazolo, H. O. Bursum, and other well known New Mexicans are on the program. "A Program of Forestry for the Nation" will be the subject of an interesting address by Frank C. W. Pooley, U. S. District Forester. Andrew Eggum of Roswell will talk on "Feeding Sheep in the Pecos Valley." The two days will be full of things of interest to the Wool Growers and it is expected that the attendance will be unusually large.

Complete arrangements are being made for the entertainment of the visitors by the Roswell Chamber of Commerce.

A Lucky Find

Bob Forsythe of White Oaks, who is employed at the Ancho cement works is reported to have found a nugget of pure gold, as large as a peanut, while screening sand at the cement works. The sand is being hauled to Ancho from a canyon in the nearby hills where placer-mining was carried on a quarter of a century ago. Bob is thinking of locating the sand quarry on the ground that it is more valuable for mining than manufacturing cement. The value of the nugget has been estimated at about \$28, and there may be more where it came from.

To Visit Brother Will

Will Doering left Tuesday for Caduffilo, near Las Cruces, on a visit to his brother William, who is now engaged in farming close to that town. Will Doering, who has been in poor health for the past year, will be remembered by many at the "light and" having installed gasoline light

Hun Vessels Appraised At \$275,000,000

Chicago.—Major John V. Devereaux York, former naval architect of the shipping board, who appraised the German ships in the American harbor, recently before the United States entered the war, declared here today that the 30 former German liners which the shipping board is offering for sale, were valued at \$215,000,000. The International Mercantile Marine has offered \$28,000,000 for the ships.

The ships are the "cream of the merchant fleet of the world," Major York said. "Great Britain never built such ships as Germany," he added.

"Never were such engines, and the facilities for handling passengers and cargo are such as no other nation ever possessed. They could not be replaced at any price now.

"If such ships could be built in American ship yards it would cost at least \$275,000,000 to construct them."

Major York designed the cargo carriers built at Hog Island during the war.

The First Big Oil Well

The well near Aztec, reported to be a 200 barrel producer, is good for three to five hundred barrels when it has been "shot" according to a telegram received today by Edward Everett Young of this city from the scene of the strike. The telegram states there is sixty feet of oil in the well and five barrels have been drawn. The driller makes the estimate of 100 to 500 barrels, which will make this the biggest strike in New Mexico. The location is nine miles north of Farmington, eight miles southwest of Aztec, the county seat, and three miles west of Flora Vista, where the first well was drilled in this district. It is on the dome of the anticline, where gashers are predicted in the Mesa Verde formation at 2500 to 3500 feet. The well had not been shot yesterday but the stunt is evidently to come off soon.

The American Legion

MEMORIAL CERTIFICATES

Commander E. M. Brickley, of Benjamin I. Berry Post No. 11, American Legion, Carrizozo, announces the receipt of six French Memorial Death Certificates which have been distributed to the relatives of deceased soldiers as follows:

- Mrs. J. N. White, Graham, Texas.
- Mrs. Pearl Hughes, Carrizozo.
- Mrs. Martha Hamilton, Carrizozo.
- Mrs. Zella Morgan, Carrizozo.
- R. E. Berry, Carrizozo.
- M. J. McNamara, Carrizozo.

For the present any soldier or sailor belonging to the Post who wants to get a book from the Post Library may call on T. M. Carr for the key to the hall, get the book or books he wants, register his name and the date he got the book and the number of the book in the record provided, which will be found on the top of the book case, and when he returns the book simply write across the record, "Returned". The Local Post of the American Legion

Gold Strike Near Three Rivers

A report comes from Oscura that a rich vein of gold-bearing ore has been uncovered south of that town and east of Three Rivers, on the south slope of the high peak in the White Mountains. It is said to be a fissure vein, and about seven inches wide between well-defined walls at the point of discovery. An assay test of an average of the vein gave returns of \$10,000 to the ton. The report states that the gold in the rock is visible to the naked eye, and occurs in the form of yellow stuff running through the rock, which is a bluish quartz. The discovery is said to have been made by two Mexican prospectors. An old time cowpuncher from the Capitan district, named J. D. Thomas (known as "Chico") passed through Carrizozo several weeks ago to prospect in the neighborhood of the find. He stated that several years ago when working on a round-up, he found a piece of gold-bearing float and resolved to return some time and prospect that mountain, but failed to do so until lately, and it is possible that he has already some locations staked there. He stated, at the same time, that he knew of a large deposit of asbestos in that neighborhood which he intended to prospect and locate. If the deposit is as large as "Chico" thinks it is, a fortune awaits him.

Re-Enters to Practice

In another column, Dr. F. H. Johnson announces his return to Carrizozo and his resumption of the practice of medicine. Since leaving here in 1918, to enter the government service, the doctor has had an extended and varied practice in both medicine and surgery. He was at Camp Kearney, California, for a number of months following his enlistment, and served as assistant attending surgeon at San Diego, rendering surgical and medical aid to the men and their families. He was also on the medical examining board at Camp Kearney and later returned to the service hospital at San Diego as attending surgeon.

The first of April, last year, he was appointed surgeon of the U. S. S. Unolga and sailed from San Francisco, for Alaska waters where he spent seven months rendering medical and surgical aid to the natives of that country, in addition, to caring for the health of those on board ship. Soon after returning to San Francisco, and while his ship was lying at anchor, the month of December and January found the doctor attending the surgical clinics at Stanford University. In January he received his commission as captain in the Medical Reserve Corps, and, later having been discharged, returned to Carrizozo to again take up his practice, far better equipped than ever to take up his work.

Flu Cases Increase

The influenza reports for the last week came from the following counties:

- Chavez, 15; Colfax, 33; Dona Ana, 6; Grant, 14; Lincoln, 5; McKinley, 18; Hidalgo, 5; San

PARIS CLINGS TO MODE THAT SUITS

Lines of Gowns Straight Instead of Puffed Out, According to Edict.

TAFFETA GROWING IN FAVOR

Popularity of Fashion Indicates That It Will Be Favorite for Spring Wear; Guaranteed to Give Reasonable Service.

The latest fashion in Paris—to which the eyes of persons interested in dress persist in turning in spite of what America now has to offer of its own—include many useful hints to the woman who has still to think of winter clothes, states a leading fashion correspondent. In the first place, Paris fashions are apt to indicate what our fashions will be a season or two hence, and, in these days of the high cost of everything, if one must "buy a frock now, it is only good sense to see that it is the sort of thing that is to be instead of what has been or is ceasing to be.

One important assertion from a Paris fashion authority is that the lines of the gowns that the Parisians have accepted for the winter are straight instead of being puffed out in places. The further the season advances, she states, the more evident it becomes that the pannier silhouette is not so popular, at least in Paris, as it was expected it might be. For an astonishing number of seasons that have trailed into years the straight silhouette has been the thing in Paris, and it looks as though the French woman is determined to hang on to a mode which so well becomes her.

Keeping Clear of Extremes.
The Parisian, too, in her dressing is keeping clear of any extremes in fashion. She has always done this more or less, and she is still holding to the rule that her style once discovered must be clung to rather than changed merely for change's sake. The straight silhouette seems to suit the majority of them. They all love it and keep on wearing it. We in this country are taking up the style more and more as time goes on. Within its limitations there are many variations possible. An infinite variety of the gown can be designed without departing upon the idea of straightness.

Sleeves in Paris are still short—very short, in fact—there being no disposition to halfway measures. If they are not very short, they are long and light and reach over the hands, fitting snugly all the way down. Skirts, too, are as short as they were at the fall opening, which means not almost knee length, as they were in the summer, but a good 11 or 12 inches from the ground to hem.

Coats are medium length and are trimmed sparingly with fur. Some-

Dress of Black Taffeta and Monkey Fur From Madeleine at Madeleine.

times the fur is used to give a slightly exaggerated hip line as it finishes the lower edge of a coat. Then again it is employed only for a tiny collar fitting the neck snugly.

Trimming in Moderation.
The trimmings on the Parisian, mid-winter frocks are gorgeous and beautiful, but rather sparingly used. Little strips of gilded trimming edge necks and sleeves in classic fashion, and sometimes these edges are repeated on pocket flaps or on the edges of long slit pockets. Fringe is almost extinct, but there are bits of it seen on the ends of sweeping panels or to trim the hem of a long gown.

Charming French Hats.
French hats for the mid-season are as plain as ever and so charming that it is hard to tell just why. For one reason they manage to fit the wearer most astonishingly. They are shaped as an adjunct to her features and as an accent to the other parts of her attire. The little, shaped turbans that have been worn for some time have been replaced by the French hat. One of the latest styles has been the "hat" which is in fact

guaranteed, too, to wear reasonably well, so that the purchase of them does not mean the taking of any very desperate chances.

One of the very latest of taffeta models is from Madeleine at Madeleine, a house which is the recent rage of Paris. The color is black and the stripes across the front and little tufts run in by fine hand stitches. Then there is a plaited frill of the taffeta about the neck, tied with a ribbon woven in bright green and gold threads. The overskirt, low in front and high at back, is edged with a deep fringe of monkey fur. The sleeves in this model are short and puffed.

The Parisian Waist Line.
The basque on this frock is one of the new decrees of Paris. It does not reach as low a line as basques of the past few months have done.

Street Frock of Black Velours. Skirt and Bodice Piped in Faux.

It drops just an inch or two below the normal waist line and fits rather snugly into the waist where it wrinkles slightly at the sides. All the Paris reports received in the last few weeks state that this is growing to be the waist line more and more accepted by Parisians themselves.

Another new French taffeta gown is made in shades of taupe, dark and light. The foundation skirt, a little bit fuller at the sides than it is at the back and front, is made of the darker shades and so are the little, tight, short sleeves. Then there is one of those basque waists that have just been described. This is made of the lighter shade, as are also the straight panels which fall over the skirt at back and front. There is an embroidered medallion on the front of the bodice at the waistline and one on each of the lower ends of the panels, this being done in threads of the darker shade of taupe with some gold threads intermingled.

Plaited taffetas and satins and serges continue to be created and worn to a large extent in Paris. There are plaited skirts with plain basques, and there are whole plaited dresses in taffeta with only a fold of the dress's material at the neck to finish the thing off.

Modest Evening Dresses.
Evening dresses in Paris are, according to reports, taming their ways very materially. Recently at a huge reception where all of the smart people in Paris were gathered the evening gowns were of the simplest and most unadorned type. In spite of all that has been heard of the low back or nothing at all in the back mode, the necks were only moderately low. The skirts were only moderately short.

Sashes of all sorts and descriptions are important parts of the later season evening gowns. They are used by the French literally to make a gown, for on the lines of the sash, the color and the manner of arrangement depends the effect of the finished creation. On a black chamoise evening gown, interestingly draped to follow the line of the figure, a wide sash made of cloth of gold is wound about the low waist line. Had in a huge knot at the left side back and its ends lined with golden chiffon and tipped by weighty gold tassels hanging almost to the hem of the garment. Indeed, one end hangs below the hem.

Charming French Hats.
French hats for the mid-season are as plain as ever and so charming that it is hard to tell just why. For one reason they manage to fit the wearer most astonishingly. They are shaped as an adjunct to her features and as an accent to the other parts of her attire. The little, shaped turbans that have been worn for some time have been replaced by the French hat. Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is no preparation that has been very successful in overcoming these conditions. The mild and baking influence of Dr. Kilmor's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview, on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmor & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

ASPIRIN FOR HEADACHE

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Headache, Colds, Pain, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacturing of Monacacetate of Salicylic Acid.—Adv.

Her Delicate Sensibilities.
"Why have you broken your engagement with Missy Sands?"
"Oh, I couldn't stand for his stang I tried to put him wise that father was sore on the phony talk, but he couldn't seem to get her, so I gave him the razz-dax."—Boston Transcript.

Don't Forget Cuticura Talcum
When adding to your toilet requisites. An exquisitely scented face, skin, baby and dusting powder and perfume, rendering other perfumes superfluous. You may rely on it because one of the Cuticura Trio (Soap, Ointment and Talcum), 25c each everywhere.—Adv.

Showing Them Off.
A considerable amount of golf is played principally for the reason that some women think their husbands look well in knickerbockers.—Washington Star.

GREEN'S AUGUST FLOWER.

Constipation invites other troubles which come speedily unless quickly checked and overcome by Green's August Flower which is a gentle laxative, regulates digestion both in stomach and intestines, cleans and awakens the stomach and alimentary canal, stimulates the liver to secrete the bile and impurities from the blood. It is a sovereign remedy used in many thousands of households all over the civilized world for more than half a century by those who have suffered with indigestion, nervous dyspepsia, sluggish liver, coming up of food, palpitation, constipation and other intestinal troubles. Sold by druggists and dealers everywhere. Try a bottle, take no substitute.—Adv.

Flattery Explained.
Edith—How absurd of you to tell that awkward cousin of mine that she dances like an angel. I don't believe angels can dance, anyway.

Jack—Neither do I.—Boston Transcript.

"Cold in the Head"
Is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will cure the system, cleanse the blood and render them less liable to colds. Thousands of cases of acute Catarrh may be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous membrane of the system. It is a sure cure for Catarrh of the Nose, Throat, Lungs, and Ears. It is sold by all druggists and dealers everywhere. Try a bottle, take no substitute.—Adv.

Chopped.
"I have had a very good dinner," said the man who had just finished eating. "I have had a very good dinner," said the man who had just finished eating.

The KITCHEN CABINET

With it an invincible and invisible magnet, and attracts to itself whatever it fervently desires and calmly and persistently expects.—Trine.

SEASONABLE DISHES.

Put a pound of round steak through the meat grinder with one green pepper and a slice of onion, season with a teaspoonful of salt and a few dashes of pepper, then flatten into a large cake. Add a pinch of nutmeg and mix thoroughly with one egg and a half cupful of fine cracker crumbs. When all is combined, shape into balls and sear in hot fat. Lower the heat and cook for half an hour turning often. Ten minutes before serving drain off the surplus fat, leaving two tablespoonfuls of flour and mix well. When browned add enough milk to make a smooth sauce. Coat each ball with the sauce, arranging them on a chop plate. Garnish with parsley and serve piping hot with baked potatoes.

Another nice way to serve hamburger steak is as follows: The steak must be free from gristle and well seasoned to suit the taste. Some like a pinch of cloves with a bit of minced onion with salt and pepper. Toast rounds of bread on one side and place them in a baking dish unseasoned side up, spread with butter then spread with the seasoned meat a half inch thick. Place in the oven and bake until the meat is brown. The juice will all be held in the bread, making a very tasty and simple dish.

Cranberry Tart.—Bake a pastry shell and fill it with the following: Wash one quart of cranberries and cook until soft with a cupful of water. Put through a sieve and boil up again with a pound of sugar or less. When cool place in the baked shell and cover with a meringue. Brown in the oven and serve cold.

Any canned fruit may be served in this way. Beat it and thicken if necessary with cornstarch, cook well, cool and fill the baked shell. Cover with a meringue and bake until brown. Thickened fruit juices make most tasty pie filling. Gelatine or Jello may also be used, topped with whipped cream, as the meringue could not be used unless cooked over hot water, as it could not be baked without melting the jelly.

Fear paralyzes healthy action, mental and physical. Worry corrodes, poisons and puts down the organism. It is a perverted mental state that externalizes itself in various physical ailments according to the peculiar tendencies or weaknesses of the organ in whose organism its effects find lodgment.—Trine.

WHAT TO EAT.

We all enjoy new dishes; but for real enjoyment nothing takes the place of the old-fashioned dishes of our grandmothers.

Bean Porridge.—Soak two cupfuls of beans over night. In the morning bring to a boil, stir in a bit of soda as big as a pea, drain and cover with fresh water. Boil slowly until nearly done, add salt, a tablespoonful of butter and then allow them to simmer until the water is nearly cooked away. Mash with a potato masher and add a quart of rich milk. Stir well, bring to the boiling point and serve with crackers.

One Egg Cake.—Take one cupful of sugar, two tablespoonfuls of sweet fat, two-thirds of a cupful of thick sour milk, one-half teaspoonful of soda, and the same of baking powder sifted with one and one-half cupful of flour. Beat the egg and add to the sugar and fat. For an icing one may use a half cupful of grated chocolate, cooked to a cream with one-fourth of a cupful of milk; add one cupful of brown sugar and cook until a soft ball is made when dropped in water. Then add one teaspoonful of butter and one-fourth pound of marshmallows and beat. This cake may be baked in muffin pans and if served hot needs no icing. If baked in a sheet and cut in squares served hot, it makes a fine pudding with any preferred sauce. For a layer cake it may be filled with jam or marmalade and served as a dessert.

Apple John.—Slice into a deep buttered pie tin four tart apples. Sprinkle with sugar and cinnamon, dot with butter. Pour over them a dumpling mixture or a rather thin baking powder biscuit dough. Bake in a hot oven until well browned. Serve with cream and sugar or a hard sauce.

Watch the Little Pimples; They are Nature's Warning

Unightly and Disfiguring Signs of Bad Blood.

Pimples on the face and other parts of the body are warnings from Nature that your blood is sluggish and impoverished. Sometimes they foretell eczema, boils, blisters, and other skin disorders that burn like flames of fire. They mean that your blood needs S. S. S. to cleanse it of those impure accumulations that can cause unlimited trouble. This remedy is one of the greatest vegetable compounds known, and contains no minerals or chemicals to injure the most delicate skin.

Go to your drug store, and get a bottle of S. S. S. today, get rid of those unsightly, disfiguring pimples, and other skin irritations. It will cleanse your blood thoroughly. For special medical advice free, address Medical Director, 41 Swift Laboratory, Atlanta, Ga.

SOMETHING OF A SURPRISE WONDER IT WASN'T FATAL

Probably Fred's Family Would Have Preferred Neighbors Selecting Another Time for Call.
"A parcel of us folks started out tither night to give Jurl Prodd and his wife a surprise party," related a resident of the Fiddle Creek neighborhood.

"Did you surprise 'em?" inquired an acquaintance from Straddle Ridge. "I reckon so. Jentway's, when we busted into the house we found Mizuz Prodd holding Jurl down on his back on the floor by means of his throat and thumping him on the head with a skillet, while the children hopped around and bet grains of popcorn on which'd would whip. They're a proud family; Jurl has always made his brags that his Uncle Buck rih with Jesse James, and Mizuz Prodd has long contended that she had an ancestor, so it's more than likely that if they'd a-knowed we were coming they wouldn't have let us hetch 'em in no such a fix."—Kansas City Star.

True politeness consists in treating others as you would like others to treat you.

It's a great pity that the average man cannot draw a check as easily as he can draw an inference.

No Trivial Occasions.
"Has this town ever honored of any celebrities?"
"The only Chiggerville citizen who ever got his name in the big city papers won't be home for ten years yet," replied the old resident.

"Indeed! What's detaining him?"
"There's a great deal detaining him—the Lord only knows how many tons of steel, stone and mortar. That fellow's in the 'Pen.'"—Birmingham Age-Herald.

Coffee troubles Vanish when the table drinks changed from coffee to Postum Cereal

Its rich flavor makes it fully acceptable to those who like coffee but find coffee doesn't like them.

Are Lower Prices Coming?

In England and America low reserve ratios, that is the total bank reserves to set deposits and liabilities, tell a story of straining credit. In this country there seems to be a wish to go ahead regardless of cost, just as we did during the war in order to win. Such an early assumption of financial obligations brings disaster unless it is checked. The present exchange market practically closes the European market to all American manufactured goods. Raw material, of course, is indispensable, but foreign nations can not pay the present prices, plus a ruinous exchange rate. The slump in foreign demand for manufactured articles will lead to great accumulation of goods in this country, with resulting decrease in prices.

Save Your Dollars To-Day

Dollars buy less today than in many years. If you want to get an old-time "dollar's worth" save your dollar. Sooner, or later, and probably sooner, the world is going to get on its feet again, and prices will recede from the war level. When they come down use the dollar that you have saved. It will go further.

A man who is able to save money today, will get more for it the longer he holds it. The world is suffering from inflation, an over-plus of credits. The value of money is based on its relative quantity in proportion to the things for which it is to be exchanged. During the war vast note issues have flooded the world with money, making it greatly exceed its former proportion. Then it became cheaper.

The war is over. Every nation is striving to cut down its obligations. Note issues have ceased. Payments on them are being made. The amount of money in circulation is being reduced. Every dollar that is withdrawn enhances the value of every remaining dollar. All that you save now and spend later, when the amount in circulation has been considerably reduced will be worth more. Sell when money is cheap and save, buy when money is dear—that is the road to prosperity.

WE ARE NOW FACING WHAT IS THREATENED TO BE THE TIGHTEST MONEY PERIOD THAT HAS BEEN EXPERIENCED FOR MANY YEARS. TIME PAPER 8 TO 9 PER CENT IN NEW YORK CITY.

OUR CASH RESERVE IS NOW \$122,000.00 OUR PAPER MORE THAN HALF SHORT TERM MATURITIES.

PATRIOTIC, PREPARED AND PROTECTED. WE ARE SAFE, AND READY TO HELP IN THE PINCHES.

OUR TOTAL RESOURCES, \$206,000.00.

THE
FIRST NATIONAL BANK
 Carrizozo, N. M.

Better than Gold—A Check on our Bank is better than Gold. Smile if you will, but it is true just the same. Why? Well, if you had a \$20 gold piece and lost it, or a hold-up man got it, or a thief picked your pocket, the chances are that it would be gone for good. Now, suppose you had that \$20 in the form of a check on our bank. Then if any of these things happened to you, you could have the bank stop payment on the check, have another one issued and would still get the money. Which would you prefer?

Member Federal Reserve System

Stockmens State Bank, COCONA, N. M.

Hoover Replies

New York, Feb. 17—Herbert Hoover, in a letter just made public, has replied to various charges made against him since he was mentioned as a possible candidate for president. He denied:

That he had a fortune of \$10,000,000 or any investments in Great Britain.

That he is a British subject. That he ever attended a political luncheon at which loans to Great Britain were discussed.

"Many generations of persecuted Quaker ancestors would rise in their graves at such a discovery. They should remain quieted, however, for no Californian could live three months in London climate and become a British citizen if he knew it. One thing that treasures me that this did not happen without my knowledge is that the British refused to allow me into their island during the war without an American passport."

"A blizzard?
 We should worry"
 —Chesterfield

LET 'ER BLOW. An exciting L year, a good fire, the "society" smoke, and you're fixed for the evening. And, mind you, the "society" blend can't be copied—that's why only Chesterfields can "society."

 CIGARETTES
Their Satisfaction

Out of Chaos—

The Telephone Company's greatest asset is the co-operation of the public; it is a big enterprise, in the successful operation of which both the company and the people are vitally concerned. As a unit in the great Bell System it is universal in the scope of its service. It has the biggest, hardest work imaginable, for it has as many persons to please as has the President of the United States.

The past few years have been full of perplexing and disappointing problems and conditions. No business organization can be any more perfect than the combined intelligence, sincerity and industry of its human management. A corporation is subject to all the trials and tribulations of the individual, but in an increasing ratio to its magnitude and responsibilities.

There is no avenue of human activity that has not been paved with sacrifices during the past four years; there isn't an individual who has not contributed in some way to the winning of the world's greatest war at discomfort to himself and by voluntary self-denial, and every business organization has contributed its share of service. Out of the chaos of the world a new day dawns pregnant with promise of a happier condition of affairs. As you look forward to a more prosperous, brighter era, the Telephone Company looks forward to increased efficiency, better service, and, above all, to pleased and satisfied patrons.

Build now—

THE DEMAND

for buildings of every kind was never greater than it is today. Over-crowded houses is the condition in all parts of the state.

Conditions are as normal now as they will be for a long time. Let's get busy with the construction that the war has halted.

BUILD NOW the homes the war stopped, and make CARRIZOZO a better place to live in.

Prosperity comes only from industry and prosperous thinking.

Years for Business.

Foxworth-Galbraith

DO YOU KNOW

THAT WITHIN TWO HOURS DRIVE FROM CARRIZOZO, at an altitude of 5,000 feet, is to be found one of Nature's healthiest spots. Located on a little mountain stream of pure, ice-cold water, where the sparkling trout abound, and where one is refreshed from his slumber by the call of the morning bird in the distance.

Where else can you, in the shade of the giant spruce, see the playful squirrel as he leaps from limb to limb?

DO YOU KNOW

That the Northwestern Fish, Game and Forest Association, has appointed a site near the U. S. National Forest on this Nature's beauty spot, and has spent over \$1,000 and is going to spend much more time and money in the development of a place of rest and a play ground for its members?

And that they are going to give you and every lover of fresh air and outdoor life a chance to become one of its members?

At a recent meeting of the board of Directors it was agreed to accept applications for membership, for a short time only, at the old rate of \$50, which will be accepted during this short period, outside dues will cost \$1,000.

DO YOU KNOW

That hardly any country has more beautiful scenery?

There are numerous and many who do not know it is so beautiful to be out in the open air as much as we have.

There are numerous and many who do not know that the scenery is so beautiful to be out in the open air as much as we have.

OSORO NEWS ITEMS

Little sprigs of green grass can now be found at the base of the roots of the old grass. Some trees have begun budding already.

Messrs. Jones, Ranniger, Martin and Shaler went to Carrizozo Friday.

A gold strike is reported from Three Rivers, in the White Mountains—a fissure vein, 6 or 7 inches wide and assaying \$10,000 a ton.

W. T. Sterling, Ed Howser and Mrs. Howser motored to Tularosa Saturday.

The Southwestern Tularosa Basin Oil & Refining Co. are now installing their new big boiler and expect to resume drilling Thursday the 19th.

A surprise shower party was given to Mr. and Mrs. Ray Sterling Saturday, and aside from a good time, a great many dainty and useful articles were presented to them.

Negotiations for a Rotary Drill was being made last week in Tularosa, by some local parties, to drill on about 700 acres of deeded land five or six miles south of the Southwestern's well. The drilling will be in charge of Mr. Snyder, who is also putting the Southwestern well down.

Mr. and Mrs. Martin, who have been here for the past week, visiting E. F. Jones and family and also looking over the oil situation started for their home in Indiana Tuesday.

Leases around Tularosa are not only selling for a fair price, but are changing hands at better values each time.

Miss Kimmons spent the week end at Corona with her parents.

The coal mine just north of town is taking out some good coal now and their vein has increased. They expect to start shipping soon and the public can get coal now.

PARSONS NEWS NOTES

Mr. J. H. Fulmer, Jr. who has been a patient in Dr. Woods Hospital in Carrizozo for some time is reported to be at last on the road to recovery. Mrs. Fulmer is taking care of her husband.

Mr. W. H. Vincent and family have moved from the Byrd house into the old Sims house near the mill settlement.

Mrs. John Simpson of Denver, Colorado, and two others have leased the Byrd property for a term of years and expect to do some development work in the near future.

The ore in the Byrd properties consists mostly of lead and silver.

Mr. Thos. Grafton and son Hugh made a trip to Carrizozo during the week.

After an extended visit with her parents, Mrs. Ike Wingfield of the Ruidoso has returned home.

Mrs. Ben Robinson is visiting her daughter Mrs. Will High-

lower in Eagle Creek and paying her respects to her late grandchild.

So far the people in the upper Bonito Valley have escaped the "flu," and it is to be hoped the dreaded disease will overlook this neck of the woods entirely.

Grass is beginning to show up green on the range and the cattle are coming through the winter in fine shape.

Messrs Crabtree and Jenkins of Corona have a force of men working on the claims in Kroat Gulch that they have leased from Mr. Ed Peters.

Mission Study Class

As a branch of the Woman's Missionary Society of the M. E. church of this city, a mission study class has been organized. Mrs. Geo. Barber, the president of the society, has appointed Mrs. Stadman to take charge of the study class for this year. It starts off with twelve members, and the meetings will be held on the first and third Wednesdays of each month in the evening at the church. The first meeting was held Wednesday of this week with the study of the book entitled "Christian Americanization," by Chas. A. Brooks, secretary of the Foreign-Speaking Missions of the Baptist Home Mission Society, New York. Unification of effort for a common cause is perhaps the most significant trend of the day. The theme of the book, is especially important at this time, when America occupies so conspicuous a place in world influence and power. "One language, one flag" is much, but it is not enough for the highest national unity and expression. There must be a spirit for the betterment of the social unity and order in the United States; and only through the contagion of Christian thinking and living can this be accomplished? It is with these deep convictions concerning the relation of the church to Americanization that this book, a task for the churches, is sent forth. It might be interesting to know that both young and old are urged to join this class. The gentlemen are extended an invitation to join and participate in the study.

The following is the program for Wednesday night this week, February 18:

Song service, Scripture Reading and prayer, Rev. Douglas.

Organization, Mrs. Stadman.

The "Text" and the "Author," Mrs. McQuillen.

Introduction and Purpose, Mrs. Barber.

"America's geographical position and features in relation to character of its population," Miss Spence.

"Racial Composition of the American Population," Mrs. Cele.

"Social and Economic Conditions and developments that have changed the character of American life," Mrs. McCall.

Reading, "Abou Ben Adhem."

BLESSING.—"United we stand In defense of our land Come and hear of the tasks Awaiting our hand."

"Riches amassed in haste will diminish, but those collected little by little will multiply."

WHY not have a home of your own? The problem isn't a big one, but it's a sane one. You can approach this question in a very practical way right now by starting a "Home Fund" in the form of a 4 per cent savings account, making the growth of that fund the paramount issue of your financial problem.

Remember the money you save for this undertaking now will have a greater purchasing power when later your "Home Fund" has reached a size to warrant the next step.

We shall be glad to explain the possibilities in this idea.

At The Crystal Theatre
"The Miracle Man"

The whole of life illumined! The flesh, the blood, the soul of living men and women—singing, struggling, loving.

The rest of the underworld, the lure of the sea, the breath of the fields in summer. Fused, with a thousand smiles and tears, into a great dramatic entertainment that will live forever in the mind.

R. L. Ransom
Plasterer & Contractor

The photoplay with an amazing soul

MAYFLOWER PHOTOPLAY CORPORATION Presents

George Loane Tucker's production

"THE MIRACLE MAN"

From the play by George M. Cohan. Based on the story by Frank L. Packard

A Romance of underworld rogues who sought "easy pickings" and found them. But when the arch crook and the girl with the painted face also found a wondrous thing they had never known before. Do you know what love is?

Come and see. Come and live a life in an hour.

Crystal Theatre
Fri. & Sat., Feb. 27-28

LOCAL AND PERSONAL

Tom Hobbs and Reuben Boose were business visitors from Capitan Tuesday.

Every sack of Humreno flour is guaranteed to give satisfaction.

Daddy Kahler made a trip to Tularosa Tuesday to look at some property at that point.

For Your Winter Needs.—Thermite for your Radiator, Radiator Covers, Chains.—Western Garage

Mr. and Mrs. Elmer Zumwalt were here Saturday from their home on the Mesa.

If its anything for a Ford, we have it.—Western Garage.

C. P. Huppertz, station agent, made a trip to El Paso and return Tuesday.

Drs. Swearingin & Von Almen, eye, ear nose and throat. Also fitting glasses.—414 Trust Bldg., El Paso, Texas.

Dr. Von Almen will be at Dr. E. L. Woods' office, Carrizozo, on February 23.

Mrs. P. H. Kersey, daughter of Mr. and Mrs. George C. Clements, came down Tuesday from Corona to visit her parents.

Call in and see the new Fords with self starters.—Western Garage.

A. J. Rolland and O. T. Nye went to Roswell Sunday returning Tuesday. The following day Mr. Nye left for California to join his family.

Mrs. J. B. French visited Capitan yesterday in her capacity as Home Service Secretary to assist some ex-service boys at that point.

"Humreno" is the best flour ever shipped into Carrizozo.

Mr. and Mrs. Wilber Coe and Mr. and Mrs. Bert Bonnell were over Saturday and Sunday from their homes on the Ruidoso.

The St. Valentine Ball—the Leap Year Ball of the season at the K. P. Hall last Saturday night was a dandy. A big, jolly crowd, good music, et cetera, made it a pleasant affair.

The best and the cheapest when it comes to buying flour. Try Humreno at your leading merchants.

Mrs. Edith R. Smith, formerly residing here but more recently at Monahans, Texas, stopped off here Tuesday while enroute to Dawson where she will reside in the future.

Ed Howser, C. H. Thornton and Earl Clark were here yesterday from Ocampo, talking oil, weather and business, and meeting numerous friends.

Joe Cockran was down from Nogal Monday. Joe was in a hurry and had little to say, but we understand he dropped the word that things were picking up in a mining way in the old camp.

John Cravens of Water Canon was in town this week to get some "flu" medicine for two of his employes who are down, and he was not absolutely certain that himself would not be down also, as he felt the symptoms.

M. B. Foreman returned Wednesday from the Ranger oil fields where he has been the past few months. He reports the oil game still going strong and new territory constantly being opened up.

The Comrey Bros. have got back from a month's visit in El Paso and Las Cruces. Both men graduated from the Pennsylvania oil fields, and are seriously thinking of getting back in the game or selling their drilling outfit.

Billie Sevier, togged in cap and apron, and wearing a smock that wouldn't come off, presided as chef at the big oyster supper given by the K. P.'s last night. The "try" was excellent, the supply beautiful and the guests appreciative.

O. T. Nye returned Saturday from Chicago to Carrizozo.

ty oil property and is very much encouraged over the oil outlook for this county.

Mrs. Harry G. Claus came up Saturday from El Paso and is the guest of Mrs. Julia E. Gurney. Mrs. Claus was director of music in the Carrizozo schools before going to El Paso and has a wide circle of friends here who are pleased to see her again.

O. W. Bamberger, manager of the Carrizozo Trading Company, returned the past week from eastern markets where he had concluded purchases of a large stock of spring and summer dry goods and clothing. The goods have begun to arrive and are being placed on display.

George and Charlie Stimmel left Tuesday on No. 3, the former for his home in Washington, the latter to Los Angeles. These two boys have spent the winter with their parents here. They had seen war service and had been away from the family several years.

A Ball Club Organized

A base ball club was organized here this week. There is some good timber in the organization, and some that needs but a little finishing to make it first class. The boys will play a practice game Sunday afternoon.

Washington Tea

The Woman's Missionary Society of the M. E. church will give a "Tea" on Saturday afternoon, Feb. 21, in the Lutz Hall. Mrs. Lemon is chairman and, with an efficient committee, is making extensive preparations. A substantial luncheon will be served from 3 to 7 o'clock. A special invitation is extended to the gentlemen.

The regular meeting of the Missionary Society will be held at the home of Mrs. Stimmel Tuesday afternoon Feb. 24. Every lady in the church should identify herself with this work. The society is the working spirit in the church in its social activities. Mrs. McQuillen has charge of the program for Tuesday.

A Thimble Party

About twenty ladies gathered at the home of Mrs. J. B. French Tuesday afternoon to meet Mrs. E. E. Cole. It was a "thimble party," and the ladies plied their needles industriously on fancy work until a buffet luncheon was served. The hostess was complimented upon her unique entertainment and the guests departed for their respective homes in a very pleasant frame of mind.

Announcement

Since devoting the past 21 months of my time and professional services to the U. S. Government, I have returned to Carrizozo to resume my former practice. I have opened offices in the building formerly occupied by Dr. Lucas, and am ready to serve every one who desires my services. Very respectfully, DR. JOHNSON.

"THE MIRACLE MAN" RANKS WITH GREAT FILM MASTERPIECES

Published originally as a novel in Munsey's Magazine, written by Frank L. Packard and later dramatized by George M. Cohan and presented with phenomenal success on Broadway, George Loana Tucker's production, "The Miracle Man" comes to the Crystal on Feb. 27 and 28. As a Paramount Artcraft picture this absorbing story has been hailed by the critics as one of the best productions ever seen on the screen. With scenes laid in the historical setting of New York's Chinatown, it is a little different from the usual "Miracle Man" type of story.

ing story, which centers about the venerable figure of an old man, who is credited with the power to heal the sick and the lame, and who is the subject of the influence of their whole life. The story is a most unusual one, and is a most interesting one. It is a story of a man who is credited with the power to heal the sick and the lame, and who is the subject of the influence of their whole life. The story is a most unusual one, and is a most interesting one. It is a story of a man who is credited with the power to heal the sick and the lame, and who is the subject of the influence of their whole life.
