OLDEST AND LEADING NEWSPAPER IN CIRCULATION IN THE COUNTY OF LINCOLN, NEW MEXICO

VOLUME 22

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, FEB. 10, 1922

NUMBER 6

Educational News

(By Mrs. M. L. Mason)

For convenience of teachers of Lincoln county:

4862, Laws of 1919, Lincoln Day—The 12th day of February in each and every year is established in the annual school calendar to be known as Lincoln Day, and shall be observed with patriotic exercises in the schools, but such day shall in no wise be construed to be a holiday. It is also provided that when such day shall fall on Sunday and Saturday, the following or the preceding day shall be observed.

2727, Washington's Birthday, Feb. 22, may hereafter be observed by the public schools as a legal holiday. If any teacher or teachers in the rural districts and village schools shall have arranged before hand a program of exercises by the pupils appropriate for the occasion for such day, the directors shall not deduct any moneys from his salary, because of absence from active school duty on such day.

As a result of the meeting of the executive committee of the Teachers' Association, Captain, received three votes, Corona one, and Carrizozo one. The date of meeting is March 24-25.

On account of illness of pupils and teachers the Nogal school has suspended until conditions improve.

The Parsons school has been closed on account of illness reported to be diphtheria.

The Ancho school will stage a play on the evening of February 11 entitled "Polly Lou."

The Corona school under the direction of Miss Nancelou Sweaney, will give an operetta Feb. 18. The public is invited.

The Lower Ruidoso school will give a patriotic program Feb. 21.

The following educators were visitors in Carrizozo last week: Supt. Klopp, Captain; Mrs. M. Burleson, Lincoln, and Principal Dunlap, Corona.

Quarantine on Dogs

Santa Fe, Feb. 6—The quarantine placed by the state bureau of public health upon all dogs in Santa Fe county has been extended by the bureau to include a part of San Miguel county, part of Guadalupe county and the northeastern part of Torrance county.

This quarantine order was issued because of the presence of cases of rabies developed in a herd of goats in Santa Fe county. Dr. Luckett, commissioner of the bureau, stated that the biological survey will co-operate with the bureau in an effort to locate the source of infection.

Woman's Club

On Friday afternoon, Feb. 3, the Woman's Club met in regular session at the courthouse. For the afternoon's program a review and comparison of the two books recently read by the literary department, was given by Miss Layer and Mrs. Geo. Ulrich. Was an interesting comparison. On Feb. 17 occurs the next regular meeting at the home of Mrs. L. O. Wetmore. The program will consist of the literary department. The next meeting will be at the home of Mrs. L. O. Wetmore. The winter course...

New Calendar Proposed

Washington, D. C., Feb. 7—A national convention of business, professional and scientific men to discuss the question of calendar reform with a view to endorsement of a bill now pending in congress to establish a new calendar dividing the year into 13 months of 28 days each, convened here under the auspices of the Liberty Calendar Association of America. The "Liberty Calendar" bill introduced in the house Representative Schall, of Minnesota, would put the new time schedule into effect in 1928.

The bill is advocated as affording a standard time schedule for every year which would definitely fix for all time the dates of every day of the week by the uniform 28 day month division and thus dispense with the need of yearly calendars.

In 365 day years, the odd day remaining would be disposed of as a "New Year's Day," the first of the year, and retained as a holiday.

In "leap year" the additional one-day lap would be disposed of by creating a "leap year day" between the months of June and July, as a legal holiday. The extra month of the calendar would be called "Vern" to include the "Vernal Equinox" and begin spring.

The proposed calendar would begin the week with Monday instead of Sunday.

Capitan News

Neil Bigger editor of the Mountaineer, has been on the sick list and confined to his home for several weeks, but is said to be improving.

J. W. Norton of Chicago is visiting his two little daughters who live with their grandpa, P. G. Peters. Mr. Norton made his home in Capitan for many years before going to the "windy city." All his old friends were pleased to meet Johnny and shake his hand.

Two of the best games of basketball ever witnessed in Capitan were played Saturday evening with the Roswell teams, the latter after a spirited game, emphasized by many exciting and close plays, winning by small margins. The Roswellites, who are considered the smoothest basket shooters in the Pecos Valley, were in danger at every stage of the game. It was a game well worth seeing, and was witnessed by a large crowd.

Sunday was one of the blustery days experienced here in a month of Sundays. Some one remarked that it must have been the tail-end of a Carrizozo sand storm.

Fred Burleson of Lincoln, who has charge of the up-keep of the Hondo, Ruidoso and Capitan highways, has just completed giving the Ruidoso road a thorough "going over," and it is said to be in better shape now than at any time since it was built.

Boy Scout Week

The week beginning February 13 will be an interesting one, for the Boy Scouts of America will be celebrating the 12th anniversary of their organization. The week is being observed in the best of ways throughout the country.

The Duty is Ours

Predictions are being made that with the coming of spring we will see western copper mines again reopened. This is only a guess, however.

Copper mines will operate when demand for the red metal can take care of production and not until then.

As a nation, we control this demand to a large extent. We are the greatest producers of copper and we should be the greatest consumers of copper.

The day has arrived when we should consider building and construction from the standpoint of permanency. Instead of temporary "shacks" in cities and towns, we should begin the erection of more structures which will stand as a monument to this period of our country's history.

Copper lends itself to this class of construction. Copper in the home, copper water gutters, copper down spouts, copper screens, copper in office buildings and more copper and brass in automobile construction would mean an early resumption of western copper mining on which, to a large extent, depends our silver, zinc, lead and gold mining.

As western people, we should all take a deeper interest in the problems of our mining industry which normally turns hundreds of millions of dollars over to workmen in wages.

Burglary Near Capitan

On information received from Capitan last week, a stranger, answering the description, was arrested and held in jail awaiting the arrival of an officer from Capitan. Deputy Read came over Monday and returned to Capitan Tuesday with the prisoner, who was charged with breaking into and ransacking a residence on the northern outskirts of Capitan, during the temporary absence of the owner. He was given a preliminary hearing Tuesday afternoon, and was remanded to await the action of the next grand jury. Being unable to make bond, he was returned to the county jail.

Roswell Lawyer to Test the Tax Law

Ira P. Wetmore, one of the veteran lawyers of the state and for many years a resident of Roswell, states that he will refuse to pay his taxes in all lines, and is preparing to test the constitutionality of the present tax law. Mr. Wetmore thinks that the new act is not worth a "whoop" and will make an attempt to demonstrate the fact in a proper way.—Roswell News.

Laid to Rest

The remains of Mrs. Margaret M. Norton, who died last Friday, were laid to rest in the local cemetery Saturday afternoon. The funeral was attended by a large number of friends. The services were conducted by the Rev. L. E. Conkin.

Normal University Buildings Burned: School not Interrupted

Las Vegas, N. M., Feb. 6—With efficiency unimpaired and all students and faculty members at work, the Normal University, which suffered severe loss in the damaging of its main building by fire February 1, is carrying on all its usual activities.

Insurance on the building is sufficient to cover cost of replacement, and the building will be ready for use by June 1. Fully half of the 8,000 books in the library will be salvaged, and 50 per cent of the equipment of the school is available for use now.

Plans for the summer school are actively under way, and registrations have been made for students from Texas, Colorado, Kansas, Oklahoma and all parts of New Mexico. A strong faculty and many special lecturers have been engaged for the summer term by President Wagner.

National Park Meet

A meeting was held at the Lutz Building Monday night, which was fairly well attended, to hear an address by Z. B. Moon, of Hope, Eddy county, on the All-Year National Park. The speaker, who is a member of the executive committee, outlined what conferences had been held and what the committee had done with reference to the preparation of a bill for the creation of the Park, and, as a result of its labors, predicted the passage of the bill in less than sixty days. He urged co-operation of all the people in pushing the project, however, in order that congress might be properly impressed with the desire for this legislation. He also stated that funds were necessary to carry on the work of publicity and to that end the counties especially interested in the project had been assessed certain amounts, prorated on the basis of population and wealth. Lincoln county's portion was given as \$200.00. J. B. French, committeeman for this county, announced that he would get out among the people at an early date and that he anticipated no difficulty in procuring the required amount.

Considerable Sickness in County

General health conditions in the county are not good, due to prevailing colds, many of them with the intensity of influenza, and pneumonia developing in a number. In some of the mountain regions diphtheria also prevailed, but its spread was checked and no new cases have been reported. The dry, open winter is believed to be conducive to much of the difficulty, and it is thought a good snow would clear and purify the atmosphere and to a great extent alleviate the prevailing health conditions.

Every Day

that you put off starting that savings account represents an actual money loss to you. One dollar will start an account and it will be its own incentive to make it increase. A savings account promotes thrift and systematic saving.

School Notes

(By Superintendent E. E. Cole.)

The school board recently added two large fire extinguishers to the large building. They are of the largest and best type of apparatus, the capacity being two and a half gallons. The chemicals are sodium carbonate and sulphuric acid. When the cylinder is turned upside down, the lead stopper of the sulphuric acid bottle partly falls out allowing some of the acid to mix with the carbonate of soda. This makes large quantities of carbonic acid gas, which, together with the water, puts out quite a large fire. It throws a 30 foot spray. The school board is to be highly commended for adding to the fire protection of the schools.

Last week Mr. Blacklock, pastor of the Baptist church, paid the high school a pleasant call and addressed the student body. Among many things, Mr. Blacklock said: "Do not be a quitter. Many a quitter is branded for life by just one mistake. Do not make the mistake. Many a person turns back just when he ought to go on. Every day a boy goes to school is worth to him, in capital for life, \$9.02. Do not be satisfied with just 'get by.' Form a habit of thoroughness in all things. Educate yourself to make life a blessing, not only to yourself but to other people, and to make the world better." The address was greatly appreciated by the students.

On Saturday, of last week the Corona high school basketballers played the Carrizozo high school. The game was played at the City Garage, thinking it was too cold to play on the outdoors court. Corona was defeated in both games—the girls 13 to 10; the boys 36 to 17.

On Monday evening of this week the boys and girls of the High School Chorus met at the home of Supt. and Mrs. E. E. Cole. A large part of the evening was spent in learning new songs, after which light refreshments were served. The chorus is getting ready to give a concert in the near future.

At the last meeting of the Boy Scouts, Scoutmaster Cole showed the boys how to boil water with a snowball. The experiment is described in the last issue of Popular Science Monthly: Boil water in a Florence flask; then cork quickly and take away from the heat. Anything cold will condense the steam in the upper part of the flask, decreasing the pressure on the water, a condition which makes the water boil at a much lower temperature. Another experiment was made: Dissolve a handful of ammonium nitrate in a tumbler of water. The temperature of the water sinks away below the freezing point, and some drinking water in a test tube, placed in the mixture, becomes frozen.

Crystal Theater

Monday 13—"God's Gold," Neal Hart.
Tues. 14—"Bonds of Love," featuring Pauline Frederick.
Wed. 15—"Houdini," Western.
"Texas Guinan," "South of Santa Fe." Comedy, "Hall Room Boys."
Thurs & Fri, 16 & 17—"The Garter Girl," featuring Corlaine Griffith.
Sat. 8—"One Wild Week," Bebe Daniels.

Boston Folk Thought This Was a Free Show

This crowd jammed Newspaper Row, in Boston, when a handcuff "artist" gave a free exhibition of his skill, freeing himself from a straightjacket as he was lowered headfirst from a roof. The joke was that it wasn't altogether free, for a big collection was taken up for a charity fund.

Most Awesome of Volcanoes

Kilauea in Hawaii Is Perpetual Show Place, Performing Day and Night.

LAVA IS CONSTANTLY BOILING

Crater Covers an Area of 2,700 Acres and Is Eight Miles in Circumference—Paved Highway Leads to It From Hills, 30 Miles Away.

Hilo, T. H.—On the island of Hawaii—the big island, as it is called, of the Hawaiian group—is located the only tame volcano in the world. It is a perpetual show place, performing day and night and at times putting on a demonstration that is awe-inspiring in its grandeur and manifested power. On such occasions boat excursions are run here from Honolulu and other island towns. It was only last March that Kilauea belched forth a flood of molten lava that flowed in giant streams over the vast floor of the circular crater that surrounds the active pit of Halemauau. The big crater covers an area of 2,700 acres and is eight miles around. The pit of constantly boiling, steaming and screeching lava and gas is situated almost in the center of the original crater. The active volcanic pit is more than three miles in circumference. Has No Counterpart.

From a topographical standpoint the volcano of Kilauea has no counterpart. There leads to the very rim of the crater a paved highway, all the way from Hilo, 31 miles. The only visible hint that is given one that a volcano is anywhere around is the white sulphur fumes that may be seen during the day and the glowing red of reflected fire from the live pit at night.

So easy is the grade of the highway that the rise from sea level to an altitude of 4,000 feet in less than thirty miles is scarcely noticed, except by the increased chilliness of the air. Then suddenly at a turn in the fern-lined road there bursts into view the black, undulating crater of Kilauea, and there comes to one's ears the hissing of the giant cauldron of gas and molten lava in the pit of Halemauau. The automobile is run through a pass in the outer rim and out upon the hardened lava. The remaining short distance to the performing center is made on foot.

Owing to the accessibility this volcano is visited by hundreds of tourists every year. It is in such close contact with the every-day life of the people of the surrounding territory and the home visitors that whatever dangers there may be in its occasional out-

flows are lost sight of. During the eruption of last March some of the visitors came near being cut off by the streams of lava which flowed over the enormous slak that surrounds the main crater. Even small children ventured close to the lapping columns of molten froth that rolled out of the fiery pit.

Hotel at Crater's Edge. Upon the very edge of the big crater is built the Volcano house, a modern hotel where the guests may view the performances of the restless monster from the windows of their rooms or from the restful chairs upon the verandas. Many times during the day light tremors of earthquakes may be felt at the hotel, and on all sides of the building white fumes of sulphur constantly pour forth from cracks in the lava formation. For miles around the main crater of Kilauea are to be seen evidences of vast destructiveness wrought by the volcano in times past, all going to show that its present long period of comparative passivity may be only a prelude to another disastrous performance.

It is at Kilauea that the most thorough scientific study of volcanoes and earthquakes ever undertaken is in progress. This work is in charge of Prof. Thomas A. Jaggar, Jr. He conducts an observatory and seismological station upon the brink of the volcano, where every phase and movement of the lava pit and the earth tremors are recorded day by day. This research work has already resulted in many valuable discoveries, some of which promise to be of much practical value in the future, it is asserted.

For one thing, the conclusion has been reached that the underground fires of Kilauea may be used for industrial purposes. At the last session of the Hawaiian legislature a bill was introduced appropriating \$25,000 to make borings in the floor of the big crater to test the heat supply for power purposes. While this measure failed of final passage because of the rush of other measures that were deemed of more importance, it is regarded as practically assured that the next legislature will make the desired appropriation. It is stated that the use of this heat in a large power plant or piping it to sugar mills and other industries could be easily accomplished.

Power Possibility. "Volcano power for human use is a possibility," said Professor Jaggar, for heat is power, and volcanoes generate heat. Earth steam is used directly near Volterra in Italy. Vast stores of earth steam exist in Japan, Iceland, the Yellowstone and New Zealand. There is no steam pressure at Kilauea, but there is a furnace of oxidizing volcanic chemicals, with sulphuric acid and alum and arsenic salts as by-products, so that borings may discover very interesting temperatures and minerals. It is not proposed by boring to tap a steam jet, nor merely to discover hot rock; the bore-hole would immediately cool it off. The source of renewable energy in a volcanic boring is chemical process. Cracks near the pit of Halemauau in Kilauea volcano have opened from time to time. They got hotter and hotter until they became glowing furnaces, emitting apparently merely hot air. If a boring will start such a furnace, then 20 holes at such a place will run a respectable-sized engine.

Rising to a height of 12,000 feet only a few miles from Kilauea is the great volcano of Mauna Loa, which has intermittently eruptions, the last one of great violence beginning in October, 1919, and continuing for five months, the flow coming from a split in the mountain far down upon its flanks. The black rolls of trawls lava flowed for miles through the sandstone, forests and bare rock slopes, finally emptying into the sea, where giant waves of steam rose day after day. The flow of lava was very hot, and the heat was very intense. The lava then cooled.

Invention Allows Moving Plane to Take Up Fuel

Paris.—An invention recently perfected by Godfrey Cabot of Cambridge, Mass., designed to make possible the taking up of fuel by an airplane in motion, aroused great interest at the first congress on aerial navigation held here.

Transatlantic air travel would be greatly facilitated by this method, as stops at "airmen's islands" would not be necessary at intervals in the Atlantic ocean and airplanes would have much additional space available for passengers and mail, which otherwise would be taken up by fuel sufficient for one crossing.

Mr. Cabot thinks that transatlantic air navigation will be a paying proposition within fifteen years, provided airplanes do not carry fuel enough for an entire trip. With a minimum of fuel and a maximum of space for mail and passengers, it could be made a successful enterprise, Mr. Cabot said. He assumed that ocean crossings would be quite ordinary occurrences within a few years.

which can be made of the results of chemical and exploratory work dealing with the cores from Kilauea will be the application of the knowledge of mining. Ores of copper and the precious metals occur near volcanic rocks. Sulphur is closely associated with them. Copper sulphide has been found repeatedly in the glowing cracks of Hawaiian lava. Sulphides may exist underground in the hot region, and such discovery would be interesting to mining engineers.

Professor Jaggar's volcanic study at Kilauea has already reached the point where it is known that violent eruptions may be foretold almost to the minute, and in ample time to give warning to all persons who may be in danger of the outburst. The same is true as to tidal waves that may be produced by volcanic eruptions and earthquakes.

"Our little laboratory at Kilauea," he said, "was started by an unselfish group of business men of Hawaii. They are planting volunteer stations with earthquake instruments and will reap a crop of new discoveries. A similar group in Massachusetts, with the encouragement and publicity that the Springfield Republican could give, placed a man at Naples for volcanic research; and now they are helped out by Carnegie's great benefaction. The Carnegie institute also is extending its work to the earthquakes of California under a man who was formerly seismologist of the Hawaiian observatory."

CHARLES HOPES TO RETURN

Exiled Emperor Calls Hungary His Fatherland and Counts on Loyalty.

Budapest, Hungary.—"I regard Hungary as my fatherland. I am also convinced that I will return to Hungary." Former Emperor Charles is quoted as making this declaration to the correspondent of a Budapest newspaper who interviewed him at Funchal, Madeira, where he is in exile.

"I have the highest esteem for the loyalty of Count Andrássy. Count Apponyi and Count Sigray and whatever happens I do not doubt the loyalty of the Hungarian nation," added Charles. Count Hunyadi, a faithful follower of the former emperor, has been obliged to leave Funchal, being unable to bear the expenses of living there.

Oil on Indian Lands. Billings, Mont.—Enter the Montana Indian oil magnate. The Orows, on their reservation near here, already have begun to receive payment for their oil lands or wells, or both. Oil flows on the reserve five great ponds; it is said, and several Indian families are now being provided with...

Five-Pound Box, at That

In the good old days we could make a girl's heart flutter by handing her a lozenge with a love message stamped upon it; but nothing less than dollar-a-pound candy makes any impression upon the cardiac organ of the modern girl.—Boston Transcript.

A Lady of Distinction is recognized by the delicate fascinating influence of the perfume she uses. A bath with Cuticura Soap and hot water to thoroughly cleanse the pores followed by a dusting with Cuticura Talcum powder usually means a clear, sweet, healthy skin.—Advertisement.

GOOD JOKE ON DANISH KING

Monarch Jumped Too Quickly to Conclusion That Eskimo Was Actuated by Loyalty.

An amusing story of the king of Denmark's recent visit to Greenland was recently told by M. Aagaard of the Danish legation, to members of the Danish club in London.

As the royal yacht was approaching Greenland a dark speck became visible on the open sea. It proved to be a solitary Eskimo in his little kayak (native canoe). The Eskimo came on board and his loyalty in having braved the perils of the sea in such a frail craft assured him the warmest of welcomes. The king presented him with a cigar and, what the Eskimos most highly prize, a rifle.

On landing, the king described the incident to the Danish commissioner in Greenland and asked him who the man was.

The commissioner, in accents of horror, replied: "The man's an escaped convict. He broke prison yesterday, stole a canoe and put to sea. We thought he had been drowned."

How Now? Following the birth notices in a paper there is a line: "Our Ads Bring Results."—Exchange.

A trust company trusts no one, and a trust is not to be trusted. What's in a name?

SEMI-MOURNING, AS IT WERE

Offer of That Red Skirt Made Careful Reconsider Her Demonstration of Sorrow.

Every Saturday Caroline used to go forth on a cleaning job. One day she appeared robed in black.

"What's the matter?" her employer asked.

"Oh, Miss Sophy," she moaned, "my uncle he is dead, and I've gwine to mourn. I've gwine to mourn for him four months."

The lady expressed sympathy and added:

"I had out that red skirt of mine for you. I thought you might like it; but of course you won't want it now."

"No, Miss Sophy; I've gwine to mourn four whole months."

Next week brought Caroline as usual.

"I been thinkin' 'bout that red skirt, Miss Sophy," she said. "It's just the kind of a red skirt I like; and I believe from now on I'll mourn from the waist up."—Everybody's Magazine.

Its Own Place. Mr. Brown was until recently a deacon in the Methodist church in his town. But recently he not only withdrew from his honored position, but ceased to be as regular an attendant at church as formerly. The minister, who came to call at the Brown home, demanded the reason for this failure.

"My rheumatism is much worse than it has been for years," Mr. Brown began, "and I cannot walk so far."

"Tut, tut!" laughed the minister, "I believe it is a lack of religion."

"Sir," Mr. Brown drew himself up firmly, "my religion is in my heart—not in my legs."—Indianapolis News.

Doubtful. North—Mrs. Jones said that I reminded her of her husband.

West—Is that a compliment?

Some people try to console themselves in the hour of their misfortune by saying, "There are others."

DIDN'T SEE END OF INCIDENT

Gap Johnson Had More Important Thing to Attend to Than Witnessing a Hanging.

"While I was in Tamlinville yesterday," relates Gap Johnson of Rumpus Ridge, Ark., "a mob came 'arin' around a corner hauling along a gent with a rope around his neck, and flung the end of it over a limb within forty feet of me."

"Did they hang him?" interestedly asked an acquaintance.

"Doggod if I know! You see, just then a feller bantered me for a horse swap and drug me off to look at his nag, and I didn't learn how the anecdote came out."

"What had the gent done?"

"Well, I heard somebody say that he'd either been selling bone dry licker to the mob or else he'd refused to do so; I forgot to ask which."—Kansas City Star.

His Inquiry. "Paw," began little Lester Livermore, who is of unusual width betwixt the eyes, "if a man fifty years old marries a girl of seventeen, and his son, aged twenty-five, marries the girl's mother, doesn't that make the old man the son-in-law of his own son and the father-in-law of himself, and—say, Paw, can I go to the picture show tonight if I won't ask any more questions?"

"Yes!" yelled Mr. Livermore.—Kansas City Star.

Santa Claus Best Advertiser. Christmas trees undoubtedly represent a destruction of timber of great value. They also represent a stimulation to business which every merchant depends upon in his annual calculations. It pays to advertise, and Santa Claus, though a myth, is the greatest advertiser on earth.

Says Sam: It's a question which kills most people—germs or grouches.

Imitation cheerfulness is better than none.

Man Pays Shoemaker's Bill After 42 Years

La Plata, Md.—Wesley Bowls, a retired shoemaker of this town, was much surprised a few days ago by receiving pay for a pair of shoes he made a customer forty-two years ago. At that time Mr. Bowls made for each of three brothers, one of whom was the debtor, a pair of calfskin boots.

This man soon left Charles county without paying his bill, and Mr. Bowls had not heard of him since.

The debtor made a personal trip to La Plata to pay his bill. He found Mr. Bowls and made himself known to him. He said this was the only bill he owed and he wished to cancel that obligation. He then offered Mr. Bowls a \$10 bill and asked if that would square the deal with him. Mr. Bowls was perfectly willing to close the account for the amount and the matter was closed. The debtor then stated...

One third of your life is allotted to sleep. Do you get your share?

The most important period in the process of applying nutrition to the repair of the body is while you are asleep. For the most favorable transformation of digested food into nerve and cell tissue, so doctors tell us, sleep is absolutely essential.

Is it any wonder that those who suffer from lack of proper sleep are weak, pale and lacking in energy or ambition?

One of the causes of insomnia is nerve-irritation from tea and coffee drinking. Tea and coffee both contain caffeine, which has a tendency to cause undue stimulation. The irritating effect of caffeine often results in insomnia, depression, and a weakened nervous system.

You can easily overcome these troubles by drinking Postum instead of tea or coffee. Postum is a delicious, satisfying cereal beverage, and it is absolutely free from caffeine, or any other harmful substance.

Ask your grocer for Postum. Drink this delicious, refreshing beverage for ten days. Then see if you do not feel better and more clear headed, and if you do not sleep better at night—as so many other people have proved for themselves.

Postum comes in two forms: Instant Postum (in tin) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health

Woman's Home Mission

The Women's Home Mission held an enthusiastic meeting on Tuesday afternoon. The society voted to make individual pledges for local work this year, with a desire to serve the community to the best of its ability. A report was given of 14 calls made, and services rendered to the sick and needy. At the conclusion of an interesting program on the subject of "Women and Missions," refreshments were served by Mesdames Coldren and Scott.

Epworth League

Following is the program for Sunday, Feb. 12:

Opening hymn by League; prayer; special music; introduction by leader; Prov. xx-10-14, J. M. Boyd; Just Weights Commanded, C. M. Scott; Just Measures, L. W. Rowland; Good and Bad Stewards, E. K. Jones; True Riches, Bill Johnson; A Principle in Buying and Selling, Ed. McCarty; hymn by League.

Sermon Paragraphs

(From a sermon by Pastor T. M. Blacklock of the Baptist Church, delivered Sunday, January 29.)

"Prepare to meet thy God," Amos, 4: 12.

This language was addressed to the kingdom of Israel about 760 B. C. As it applied to Israel then, so does it apply to each one of us now.

We need to prepare to meet God because the meeting is sure to come. We can turn away the book agent or a caller by pretending that we are not at home, but when God calls we must answer. The warning has been given. Not a soul will be able to say that he had no warning. Paul tells us that because God has been so merciful in nature and character, all will be without excuse.

The preparation must be on God's terms, and not on man's terms. If man could prepare on his own terms, everybody would be saved and there would be as many plans of salvation as we have people in the world. But we must meet God's requirements which includes a recognition of sin in our lives. All men are sinners (Romans, 3: 23) but all men are not willing to acknowledge themselves as sinners. People can never be saved as long as they have this attitude, as Jesus came to seek and save that which was lost.

Then comes the question how to get rid of our sin. We cannot of ourselves stop sinning. People have tried it and failed. We must repent of our sin, which shows our desire to be rid of it, but we cannot cleanse our own hearts. We must come to Jesus. This means a personal acceptance of Christ as our Saviour which is the one great requirement, and the only thing that prepares us for heaven.

There are many blessings which come to the one who is prepared to meet God. It is a life of giving up, but one receives far more than he gives up. Like the Master, we "have meat to eat that ye know not of." It is the greatest joy in life and the only hope at death.

The doom of the unprepared is sure. For the man who goes out of this world unprepared to meet God all will be lost. As Robert Ingersoll said on his death bed: "I have lived in vain." Hobbes, another infidel, said on his death bed: "I am about to take a leap in the dark." So then, prepare to meet thy God.

THE CHEERFUL CHERUB

It teases me to ride in trans When past the little towns we speed. Like looking into story books I know I haven't time to read.

NOTICE FOR PUBLICATION

A. E. Fall and Will Ed. Harris and A. D. Brownfield, Plaintiffs, vs. Defendant.

Edwin M. Beall, widow and heir of Geo. T. Beall, Jr., deceased, and the unknown heirs of the said Geo. T. Beall, Jr., deceased, The Carrizozo Cattle Ranch Company, Limited, London, England; George Ebbeson, heir of William Ebbeson, deceased, and the unknown heirs of the said William Ebbeson, deceased; Roland Rogers Egan, heir of Norman Egan, deceased, and the unknown heirs of the said Norman Egan, deceased; Marion Rogers Hall and John O. Rogers, heirs of John Rogers, deceased, and the unknown heirs of the said John Rogers, deceased; Mary E. Harper and David L. Harper, heirs of Monroe Harper, deceased, and the unknown heirs of the said Monroe Harper, deceased; and all persons claiming or who may claim any interest in or title to the heretofore described real estate, adverse to the plaintiffs herein.

In the District Court of Lincoln County, New Mexico.

Said above-named defendants, and each of them, and all unknown persons, who may claim any interest in or title to the real estate herein-after described adverse to the plaintiffs herein, are hereby notified that there has been filed against them in said court the above entitled suit, the nature and purpose of which is to quiet the title in said plaintiffs, Will Ed. Harris and A. D. Brownfield in and to the following described real estate: The south half of the northwest quarter of section thirty five, in township nine south of range ten east, New Mexico principal meridian.

and to quiet the title in said plaintiffs A. E. Fall in and to the following described real estate:

The southeast quarter of section four, the west half of the southwest quarter, the northeast quarter of the southwest quarter, the southeast quarter of the northwest quarter of section twenty-seven; the northwest quarter, the north half of the northwest quarter, and the southeast quarter of section thirty-three; the north half of the northwest quarter, the north half of the northwest quarter of section thirty-four; the east half of the northwest quarter, the northwest quarter of the southwest quarter of section twenty-two; and the east half of the southwest quarter of section twenty-two, all in township ten south of range, ten east of the New Mexico principal meridian;

and to deliver and forever keep said defendants, or any of them, from securing any claim whatsoever in and to said real estate or in and to any part thereof. And said defendants, and each of them, are hereby further notified that unless they enter their appearance and plead in said cause on or before the 15th day of March, 1922, judgment as prayed for in said complaint will be granted. The name of the attorney for plaintiffs is W. O. Whalley, and his postoffice address is Carrizozo, New Mexico. Dated at Carrizozo, N. M., February 8, 1922. [Seal] R. M. TRACY, Clerk of said Court.

ORDER REQUIRING DEFENDANT TO ENTER HIS APPEARANCE

A. E. Fall, Will Ed. Harris and A. D. Brownfield, Plaintiffs, vs. Defendant. No. 3261. The Carrizozo Cattle Ranch Company, Limited, London, England, et al.

In the District Court of Lincoln County, New Mexico.

This cause coming on to be heard before the court on the application of plaintiffs for an order directing the defendant, The Carrizozo Cattle Ranch Company, Limited, London, England, to enter its appearance in the above entitled cause, and it appearing to the court by affidavit of the plaintiffs, Will Ed. Harris, and by the return of service made by the sheriff of Lincoln County, N. M., upon the summons issued herein and directed to said company, that said company was heretofore dissolved and has become and now is defendant, and that the persons who were directors thereof at the time of said dissolution were and are residents of England, and that service of process upon them cannot be made, and the court being on solemnly advised in the premises,

It is ordered that said company be and it hereby is directed to cause its appearance to be entered herein on or before March 21, 1922.

It is further ordered that a copy of this order be published in one of the newspapers of this state once each week for four consecutive weeks, and that one copy hereof be posted at the front door of the courthouses and remain so posted for four weeks in each of the following places: Santa Fe, Albuquerque, and Carrizozo, New Mexico. Dated at Orlita, New Mexico, this February 4th, 1922. EDWIN M. BEHRENS, Judge of said Court.

ADMINISTRATOR'S NOTICE

Notice is hereby given that the undersigned has been appointed by the Probate Court of Lincoln County, New Mexico, administrator of the estate of Louise A. Spence, late of said county, deceased. All persons having claims against said decedent are required to present the same within the time prescribed by law or the same will be barred. JOHN Y. HEWITT, Administrator. White Oaks, New Mexico, February 6, 1922.

Salvation Army.

The Lincoln county advisory board of the Salvation Army is a branch of that great international organization for practical Christian work that has for the past thirty or forty years given assistance to so many unfortunate people the world over.

The local advisory board was organized for the purpose of carrying this work into every home in Lincoln county where the need exists. No community is too remote for us to reach and every case reported will be promptly investigated. If you know of a needy person or family in your neighborhood, please notify the board at once. Address: SALVATION ARMY, Carrizozo, N. M.

Security Service—Satisfaction

The Bank You are Seeking.

A STUDY OF THE HISTORY OF ANY SUCCESSFUL Institution will show that its success has been due primarily to the fact that it has consistently served its clients well.

There is no sure road to success for any individual or organization except that of honest service. Such service requires efficiency and character within and breeds friendliness among associates and clients.

If you require the services of a strong, modern bank, you need only to inquire of any of the customers of the STOCKMEN'S STATE BANK. The good will which this institution has built up is proof of its general usefulness, and of the fact that it is the bank you are seeking.

Uncle Walt's Story

DISTORTED NAMES

I HAD a letter from Marie Dassenberry this morning," announced Mrs. Jamesworthy, "and she hints that she would like to come and stay with us a while."

"Let her keep on hinting until her elbow is out of joint," said Jamesworthy. "So long as I am master of this house, and my word is law, no American woman who calls herself Marie is going to be welcome at our dining board. There are some affections, Mrs. Jamesworthy, which give me a horizontal pain in my shoulderblade, and the worst of them is this thing of giving foreign spelling and pronunciation to our home grown names. There isn't a finer or statelier name in the city directory than Mary. The most distinguished woman this world ever saw had that name, and it was good enough for her."

"Any woman who tries to rearrange such a name as that has something wrong with her intellect, and I'd be afraid to have her under my roof. At any moment she might become a gibbering maniac."

"When I was young all the good old fashioned names were in evidence everywhere. The woods were full of Elizabeths and Dorcas and Matildas. The women who had such names were proud of them, and never monkeyed with them. Had they done so, they'd have been cast into outer darkness by polite society. Just today I was glancing over the newspaper and saw some mention of a woman who calls herself Elizabeth. Now, I wonder what that 'y' is doing there. Some people don't spell Elizabeth with a 'y', and in the grand old days the people wouldn't have stood for such an innovation. But in these modern times all the institutions of our fathers and mothers are being overturned, and if a girl is so fortunate as to receive a stately name at her christening, she devotes the best years of her life to overhauling it, so it will look like something escaped from a feeble-minded institution."

"There is no law to prevent women from maltreating their names, so we can't rebuke them by process of warrant, but we can at least set our faces against the fool custom and close our doors to the guilty parties. I am a man of hospitable instincts, and would welcome to my abode the veriest beggar or social outcast, but no Marie, Kathryn or Mae will ever enter this house while I have strength to resist. When I see them coming I'll sell my life as dearly as possible, Mrs. Jamesworthy."

"My sainted mother was the sweetest woman I ever knew. Talking her by and large, pro and con, she stacked up about as high as anyone. She never tried to cut a swath in social circles, for she had a profound contempt for everything that was trifling or superficial and she had a reverence for old ways and customs."

"Her front name was Isabella, and she wore it, without any frills or fur-belows, as long as she lived. She never sent that name to the upholsterer or taxidermist to have it made over. She realized that famous queens and other great women wore that name, and she was proud of it. You might have argued her into having her hair shingled or her front teeth pulled out, but if you had suggested rearranging her name she'd have thought your proper place was the booby hatch. Her name was a treasured possession, an heirloom more precious than the family jewels."

"The name Isabella lends itself to mutilation and transposition more than any other. Modern women, blessed with that magnificent name, can't rest until they have telescoped it, so we have Isabella and Isabella and Isabella and half a dozen other variants, each being more idiotic than the others. Whenever I think of the way my mother hung on to Isabella I feel a new respect and admiration for that grand old woman, and I wish she were here today, to make the round of the Chautauques, and point out to young women their duties and privileges."

"Perverses."

"Yes, I've quit heading talking parades."

"Why?"

"They never would talk when I was trying to make a sale."

"Ouch!"

"Spit—Remember when you used to say that you wouldn't marry the best man living?"

"Mrs. Spitt (sarcasm)—Well to see that I spit broke my word concerning the second best man I married a good one—Spitt to Spitt."

Colds & Headache

"For years we have used Black-Draught in our family, and I have never found any medicine that could take its place," writes Mr. H. A. Stacy, of Bradyville, Tenn. Mr. Stacy, who is a Rutherford County farmer, recommends Black-Draught as a medicine that should be kept in every household for use in the prompt treatment of many little ills to prevent them from developing into serious troubles.

THEDFORD'S BLACK-DRAUGHT

"It touches the liver and does the work," Mr. Stacy declared. "It is one of the best medicines I ever saw for a cold and headache. I don't know what we would do in our family if it wasn't for Black-Draught. It has saved us many dollars . . . I don't see how any family can hardly go without it. I know it is a reliable and splendid medicine to keep in the house. I recommend Black-Draught highly and am never without it."

At all druggists.

Didn't Think It Possible. "In my opinion," ventured Mr. Maekto, mildly, "the ballot for women has not proved as successful as I hoped it would be."

FAULTLESS STARCH

The Kitchen Cabinet

Are these the choice dishes the doctor has sent you? Is this the great best whose works are counted on? This Goldsmith's fine feast, who has written the books? Heaven sends us good meat, but the devil sends cooks.—David Garrick.

WHAT TO EAT

A very pretty apple to serve on the plate with a slice of cold boiled or roasted ham is the following: Roxy Apples.—Core and peel very smoothly enough even-sized apples to serve; cook in a strip of equal quantities of sugar and water.

Tongue for Luncheon.—Boil the tongue until tender, in meat-stock that has been seasoned with carrots, onions, parsnips, sweet marjoram, chervil and a very little mint, adding salt and pepper, celery, salt and cayenne to taste. When the tongue is well cooked remove the skin, brush over with beaten egg and strew with fine bread crumbs.

Orange Layer Cake.—Cream one-third of a cupful of butter; one cupful of sugar and two egg yolks. To this add one-fourth of a tablespoonful of salt and the grated rind of an orange.

Now, blessings light on him that first invented this new sleep! It covers a man all over, thick and all, like a cloak: it is great for the laborer, drink for the thirsty, heat for the cold, and cold for the hot. It is current coin that purchases all the pleasures of the world cheap, and the balance that sets the king and the shepherd, the fool and the wise man, even.—Cervantes.

MORE GOOD THINGS

For those who are fond of fish the tuna will be an especial favorite. Tuna Loaf.—Take one large can of tuna fish, flake with a fork and remove all bones and skin. Add one cupful of bread crumbs, one teaspoonful of lemon juice, one teaspoonful of chopped green pepper, two eggs, paprika and one teaspoonful of salt.

Apple Ice.—Cut up six large tart apples and boil with four cupfuls of water the rind of one lemon until soft. Drain, add two cupfuls of sugar and boil for three minutes. Add the juice of two lemons and the juice of an orange and freeze.

Peanut Cookies.—Cream one-half cupful of butter and one cupful of brown sugar together and add two eggs, one at a time, beat well, add one cupful of honey and one teaspoonful of vanilla extract; then add one cupful of chopped peanut meats, one-fourth of a cupful of milk and one-half teaspoonful of salt.

Large amounts of state aid, and the new law will have a tendency to encourage this policy. It will also secure the construction of a system of interstate and intercounty highways, rather than haphazard selection of roads as in some cases in the past.

GOOD HIGHWAYS

ROADS CONSTRUCTED IN 1921

Approximately 25,000 Miles Built During Year Just Passed.—Materials Lower.

(Prepared by the United States Department of Agriculture.) Road building has recovered from the setback received during the war, and prospects are bright for the future. Approximately 14,000 miles of road were constructed during the present season by the states in conjunction with federal aid, according to the bureau of public roads, United States Department of Agriculture, and probably an equal amount independent of federal aid.

Costs of road grading and construction with local materials is down practically to the 1914 level. Some reductions, also, have been made in freight rates on road materials. The importance of this item is shown by the fact that in some cases it has been estimated that increased freight rates have added 10 per cent to the cost of a road.

With the new appropriation by congress of \$75,000,000, added impetus will be given to new road construction. Many of the states are considering an

Federal Aid Road in Western State, Just Completed.

Heat influences concrete. Discovery Made That Edges Curl Up and Down in Response to Temperature Changes.

That the edges of concrete roads curl up and down in response to changes in temperature is the discovery recently made by the bureau of public roads of the United States Department of Agriculture in the course of experiments at the department's experimental farm at Arlington, Va.

Curving is caused by the unequal expansion and contraction of the upper and lower sides of the concrete slab under the influence of heat. It has been observed during the middle of the day when the surface of the road becomes hot it expands more than the cooler underside and causes the sides to move downward.

While the warping of the concrete is not in itself detrimental to the road, it may lead to failure of the surface under the wheels of vehicles which travel over it when parts of it are not resting on the ground.

HAUL PRODUCTS TO MARKET

Enormous Amount Carried Over Country Roads Shows Necessity of Better Condition.

The necessity of keeping country roads in good condition is shown by a report recently compiled by the bureau of markets and crop estimates, United States Department of Agriculture, showing the extent to which they are used in hauling farm products to market. According to the report, which shows the tonnage of 11 products hauled on country roads, giving the yearly average for the period from 1915 to 1919, there were 27 tons of these 11 crops hauled for every 100 acres of land. The average tonnage of the 11 crops hauled on country roads each year for the period mentioned amounted to \$6,900,000 tons.

Bonds for Good Roads. Pennsylvania has just sold \$11,300,000 bonds bearing 4 1/2 per cent interest—the last of a \$60,000,000 issue for road works—for \$103,111, which shows that however the market for other bonds may be, there is a healthy market for road bonds.

Southwest News

New Mexico and Arizona

(Western Newspaper Union News Service.)

The Elks park, which was planned a long time ago, will become a reality this year. The lots owned by the organization west of the club house will be used and made into a public park for Albuquerque.

Following the inquest held in Benson, Ariz., over the body of "Red" Osborne, who was killed following an altercation with Deputy Sheriff Billy Bonnett, the jury returned a verdict exonerating the deputy sheriff.

Production of copper will be resumed in Bisbee, Ariz., about March 1 by the mines of the Copper Queen branch of the Phelps-Dodge Corporation, according to C. H. Dowell, general manager of the Copper Queen.

Reports from the White Mountain country reaching Gallup, N. M., state that a Navajo Indian killed one of his wives, shot another one through the ankle and then turned the gun on himself, firing a shot through his body.

Bids are now being received for the construction of the flood dyke south of Albuquerque and it is hoped that work will be started soon. The new dyke will be 2,000 feet long and it is thought will afford ample protection from the floods of the Rio Grande.

The mining of manganese and iron ore is likely to be resumed in the Boston Hill country near Silver City, N. M., in the next sixty days, according to reports of the officials in charge of that district. A large tonnage was shipped from this section during the world war.

A movement has been started in Bernalillo, N. M., for the paving of all the principal streets of the city, and it is likely that the circulation of petitions will be started soon. This is one of the few cities in the state that has no paving program for the coming summer.

In the belief that prices have reached a point of stability, and with easier money at their command, cartmen of around Las Vegas, N. M., have begun buying calves and yearlings, creating a markedly optimistic feeling among cattlemen, bankers and business men.

William McCord, an electrician employed by the Yuma Electric Ice and Manufacturing Company, is still alive in a hospital at Yuma, Ariz., after having come in contact with a wire said to carry 33,000 volts of electricity. Although he is severely burned on the head and limbs physicians believe he will recover.

After unanimously endorsing the national prohibition amendment and the Volstead enforcement measure, the Phoenix City Commission went a step farther and adopted a resolution declaring itself opposed to any move looking to modification of prohibition so as to permit the sale of beer and light wines.

Glen Cunningham, a cattlemen of Hendricks, Texas, has purchased the W. K. McKinley ranch of 14,000 acres, twenty-five miles east of Las Vegas, N. M., on the mesa. Mr. Cunningham expects to erect at once a good house and other buildings on the ranch. He has stated that he will raise sheep extensively.

Elroy Felton, one of the prominent business men of Douglas, Ariz., and a well known automobile race enthusiast, died at his home as the result of injuries received December 26, in an automobile race at the fair grounds, when his car turned over. Felton was crushed and one lung torn and other internal injuries received.

Frank Dugan, brother of Assistant Superintendent Patrick Dugan of the state penitentiary and an Indian trader on the Navajo reservation, was murdered by Indians and his trading post burned, according to notices from Gallup, N. M.

Blauterio Cornell and Romaldo Lozano were hanged at Silver City, N. M., as the penalty for the murder of Ventura Benteoma, Jailer of Silver City. The two men, according to officers, admitted killing the Jailer with an ax on April 2, 1921, when they escaped from the Grant county jail. They were caught several days after the jail break at Santa Rita, N. M., almost famished.

Boys in the agricultural classes of the vocational circuit of Dona Ana county, N. M., have just completed a gopher eradication campaign carried on in co-operation with the biological survey and the farm bureau of Dona Ana county. The fifty-seven boys enrolled on the circuit trapped 1,048 gophers. The biological survey put up prizes for the schools which won first and second honors and for first, second and third individual honors.

That a month from now would see the copper mines of the state starting operations on a cautious scale, was the statement made by Col. J. C. Gilmurray, general manager of the Cochise and Arizona Mining Company and the New Cornudas Copper Company at Tucson.

Help Your Kidneys

In a cold or grip keeping you miserable? Are you tormented with dull, persistent headache and sharp, cutting pains? Likely your kidneys need help. Catch and grip all the blood with poison. Your overworked kidneys have become weakened. Alarming these poisons off. That's why you feel weak and depressed and suffer from headaches, dizzy spells and urinary disorders. Don't wait for serious kidney disease. Help your kidneys with Doan's Kidney Pills. Doan's have helped thousands and should help you. Ask your neighbor!

A Wyoming Case. Mr. S. E. O'Neil, 124 Adams Ave., Hiram, N. Y. I had been suffering from kidney trouble and dull headache and pain through my kidneys. Headaches were frequent and I felt dull and languid. The action of my kidneys was irregular. I used Doan's Kidney Pills and they soon rid me of kidney complaint.

Quick Wealth. "Yes; he made a fortune out of an idea." "How come?" "Just as soon as he saw that woolen hosiery would be in vogue he came forward with a woolen open-work effect."—Louisville Courier-Journal.

MOTHERS CLEAN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig-syrup.—Advertisement.

One Stumbling Block. "So long as dar's cheatin' in a crap game," said Uncle Eben, "his gitter be hard to put a complete stop to fightin'."

Neglect the "hog parlors" and presently you will hear cuss words.

Pain In Your Side? Then This is of Vital Importance to You

Bolton, Texas—"A few years ago I had a bad spell of lumbago trouble. I was in bed two months. My doctor did all he could for me, but I got only temporary relief and my side hurt me terribly, so I decided to try Dr. Pierce's Favorite Prescription. After taking four bottles my pains were all gone and I have had no such trouble since. I have just taken two bottles of the "Prescription" this season for irregularity and find it does all that is claimed for it. It's a fine medicine and all suffering women will find relief if they give it a trial. I have taken Dr. Pierce's Golden Medical Discovery as a tonic and blood purifier; it also is a good medicine."

Go to your neighborhood druggist and obtain Dr. Pierce's Favorite Prescription in tablets or liquid; or send 10c for trial pkg. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

MAN'S BEST AGE

A man is as old as his organs; he can be as vigorous and healthy at 70 as at 35 if he aids his organs in performing their functions. Keep your vital organs healthy with

GOLD MEDAL BARKLEY'S

The world's standard remedy for kidney, liver, bladder and uric acid troubles since 1891 cures nervous disorders stimulates vital organs. All druggists, three sizes. Look for the same Gold Medal on every box and accept no imitation.

TO KILL RATS

and MICE. Always use the genuine STEARN'S ELECTRIC RAT & ROACH PASTE. It takes three days to run from the building to the street and back.

Cuticura Soap. Always use the genuine Cuticura Soap.

LOCAL AND PERSONAL

Mr. and Mrs. Ralph Treat have a very sick baby this week. It has pneumonia.

Ladies' high-grade shoes, formerly \$12 and \$16, while they last \$3.95.—Trading Co.

A large amount of sickness is reported from all parts of the county, running from colds to "flu," and pneumonia.

L. T. Bacot, Sr., came down Tuesday from Dawson to visit his son, L. T., Jr., and family and to meet a daughter who is here for a few days enroute from Washington, D. C., to San Diego, California.

Ladies' coats one-fourth off regular price.—Carrizozo Trading Co.

From 1100 to 1300 new cases of the Spanish flu are reported each day in New York city, which is tantamount perhaps to one or two cases in Lincoln county.

Rev. L. E. Conkin and O. Z. Finley weathered the storm Sunday afternoon and went to Bogle, where Rev. Conkin preached to a good crowd.

Ladies' dresses, silk, serge and tricot, one-third off regular price.—Carrizozo Trading Co.

Mr. and Mrs. Walter Grumbles' eldest girl has been quite ill the past week from an attack of pneumonia. The crisis has now been passed and her recovery seems assured.

Mrs. Harriet Robertson has been seriously ill the past ten days. She was brought down from Nogal Saturday evening and placed in the home of Mr. and Mrs. E. C. Monroe, friends of the family. Her condition remains about the same.

Ladies' suits at half price at the Carrizozo Trading Co.

Mr. and Mrs. W. H. Marr were here today from Alto. Mr. Marr operates a saw mill on Little Creek, and says he is cutting considerable lumber for mining operations, in addition to supplying the customary demands.

Mr. and Mrs. Roy Skinner's seven-months' old baby, which has been suffering from a serious cold, resembling the "flu," developed pneumonia, and its parents are deeply concerned over its condition.

Thread—Cotton sewing thread 7 cents a spool at the Carrizozo Trading Co.

W. M. Barnett came up Saturday from Loswell, returning the day following. Bill spends most of his time in Roswell looking after the sale of Sinclair oils in the Pecos Valley, but makes a trip home whenever business permits.

Mrs. J. E. Farley and little grandson, Fred, returned Saturday from a month's visit to Dallas, Texas. Mrs. Farley's elder daughter, Mrs. Fraser Charles, lives in Dallas, her husband having a position with an insurance company there.

L. W. Adams was here a couple of days this week from Hondo. Mr. Adams is quite an experienced fruit man and is giving his attention to the improvement of fruit in Lincoln county and particularly the Hondo valley, which grew such excellent varieties of fruit the past season.

Mr. and Mrs. Fred Velasco, who reside in El Paso, are rejoicing over the arrival of a big girl, born last month. The arrival of this young lady balanced up the Velasco family—four girls and four boys. The mother, born at Lincoln, daughter of Mr. and Mrs. Robert Stewart, is well-known in this county.

Dr. F. S. Randies and Fred Dawson came down from Bonito last night and will remain over Sunday. "Doc" and "Shorts" are engaged in mining on the Bonito, but a mishap to the boiler at the Roberson mine caused a shut down until another boiler can be installed, which will be done immediately.

Dr. Smith, who for many years was Surgeon-in-Chief at Ft. Stanton, was here a short time this morning. Dr. Smith makes his headquarters in Washington, and

is now visiting the various government hospitals. He made a visit to Fort Stanton, returning from there this morning, and left on No. 3 for the coast to inspect the different government hospitals there.

Miss Janie Bacot arrived Tuesday from Washington and is spending a few days with her brother, L. T. Bacot, Jr., and family. While here her father, who lives at Dawson, came down to meet her. Miss Bacot is in the government service and has been transferred from Washington to San Diego, for which point she will leave tomorrow or the day following.

W. F. Peacock, the alcalde at Nogal, was in Carrizozo Saturday. Mr. Peacock has been dabbling in mines and prospects in this county for 15 or 20 years with varying success, and naturally knows something about geological formations. He looks for an influx of capital this year. He has some promising gold and silver claims, but it takes more capital, he said, than he can command to make a producer out of a prospect. There are more prospectors in the White mountains at present than for several years, and they are coming in every week—an unusual thing at this season with the surface covered with snow in most places. Many old claims are being developed in the district.

Tania corrects stomach disorders, strengthens the nerves and restores health through its effect on the appetite and nutrition of the body.—Rolland Bros.

Card of Thanks

We desire to express our thanks for the kindness and sympathy shown us during the illness and death of our beloved wife and mother.

A. H. Norton and family.

Vocal solo, Miss Leora Taylor; piano solo, Mrs. E. E. Cole; offertory, Mrs. D. S. Donaldson; vocal solo, Miss Mary White.

L. E. Conkin, Pastor.

Uncommon Sense

By JOHN BLAKE

CLOTHES, CONFIDENCE

MARK TWAIN could afford to indulge his delight in unusual and fantastic clothes. He was a genius.

If John D. Rockefeller chose to walk down Broadway in a suit of blue jeans it would not affect his financial standing, although it might create surprise, for his custom is to dress himself rather neatly.

Russell Sage wore the same straw hat for 15 years, and was able at the same time to get more interest on a thousand-dollar investment than almost anybody else in Wall street.

But Sage was an exception. And when he was just out of Troy, beginning his long climb in New York, he dressed more carefully.

The importance of good clothes in the confidence they inspire, not only in the wearer but in those with whom he comes into contact.

The well-dressed man impresses others with a belief in his competence. The man in rusty coat and baggy trousers is viewed with an eye of suspicion.

"If he is able, why doesn't he dress well?" asks the world.

To the job seeker nothing is so much of an asset as a prosperous appearance.

He need not be dressed as the writer of the fashion-for-men columns would dictate, but his clothes should be whole and clean, and not three or four years behind the style.

One reason for this is that competent men usually take a pride in their personal appearance and dress well. And the world takes its impressions from custom. It is not customary for a bookkeeper or clerk to be shabby. Therefore a shabby bookkeeper or clerk is looked upon as lacking in ability.

Of course dressing too well is as bad as dressing too poorly. The shabby-clad youth who wears cheap imitations of ultra-stylish garments is usually set down as a tin-horn gambler, or a horse-race follower, and stands a small chance of getting any good job.

But the youth who is careful about buying and keeping his clothes, and who looks as well as he can, will get at least consideration. After that, provided there is any job to get, whether he gets it or not, depends upon his manner. And his manner is surely to be more impressive if he is well dressed than if he is shabbily clad.

Mother's Cook Book

This is the gospel of labor—sing it, ye bells of the North—
The Lord of Love came down from above,
To live with the men who work,
This is the man He planted here in the
thorn-cursed soil—
Heaven is here with perfect rest, but the
bleeding of earth is still.
—HENRY VAN DYKE

CHILDREN'S LUNCHEONS

THE luncheon problem affects a large per cent of the American homes. The mother wishes to furnish to her child a large amount of nourishment with the least tax upon the digestive system, as study comes so soon after the luncheon is eaten.

For the little kindergarten child the ten o'clock lunch should be very light, usually composed of fruit. A sandwich with date and apple filling, or banana and chopped nut meats is delicious.

A bunch of grapes with a sandwich, fig and walnut chopped as sandwich filling, and a pear or apple, these are all good and suggestive of other good combinations.

By using sweet sandwiches with fruit or sweet dried fruits the child will not have such a craving for sweets. A little candy is good properly eaten at the proper time, but in the lunch baskets, usually that goes first and the appetite is spoiled for more substantial foods.
