OLDEST AND LEADING NEWSPAPER IN CIRCULATION IN THE COUNTY OF LINCOLN, NEW MEXICO

VOLUME 22

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, APRIL 21, 1922

NUMBER 16

Proposed Amendment to the War Finance Corporation Extending Activities

Senator A. A. Jones, of New Mexico, has introduced a bill in the United States senate which proposes to extend the powers of the War Finance Corporation. The present law provides that the Corporation will discontinue the making of further loans on July 1, 1922, and on that date shall proceed to liquidate its assets and wind up its affairs, except as specifically provided; also, that no notes or bonds shall mature later than July 1, 1925. If this bill (S. 3409) should become law, the life of the Corporation will be extended for another year.

The provisions, which will be of interest to many of our readers, are as follows:

"That the first sentence of section 23 of the War Finance Corporation Act, approved April 5, 1918, as amended, is amended to read as follows:

"Sec. 23. That notwithstanding the limitation of section 1, the advances provided for by section 21 and section 22 of this Act may be made until July 1, 1923."

"Sec. 2. That the last sentence of section 24 of such Act, as amended, is amended to read as follows:

"Advances or purchases may be made under this section at any time prior to July 1, 1923."

"Sec. 3. That the last paragraph of section 12 of such Act, as amended, is amended to read as follows:

"The power of the corporation to issue notes or bonds may be exercised at any time prior to January 1, 1926, but no notes or bonds shall mature later than July 1, 1926."

"Sec. 4. That the third paragraph of section 15 of such Act, as amended, is amended to read as follows:

"Beginning July 1, 1923, the directors of the corporation shall proceed to liquidate its assets and wind up its affairs, except as specifically provided in this title; but

For a Lyceum Course

Many people have expressed a desire to have another Lyceum Course for the coming fall and winter. The last two courses given were first class in every respect but for reasons adverse conditions and bad nights the local committee found itself short on both courses; a total of \$242, and the rental of the Crystal Theatre.

However, the local committee is willing to sign for another course as soon as this indebtedness is taken care of, and with this in view an organization has been formed of local talent for the purpose of promoting and producing entertainments from which the proceeds will be used for taking care of the indebtedness mentioned. The best talent in Carrizozo will be used and, in addition, players, singers and reciters from other towns in the county will be used from time to time to help out. Every entertainment will be worth the price of admission and the liberal patronage of the people of Carrizozo and Lincoln county is solicited.

The first number will be musical and will be in charge of Mrs. Donaldson and Mrs. Saunders. Assurance has been given that the Woman's Club of Carrizozo will give the second number, the details of which are yet to be announced. The present organization will give the third number. Further details will be announced from time to time. All entertainments to be held in the Crystal Theatre on off nights. Everyone is solicited to boost this programme and assure Carrizozo another first class lecture and entertainment course.

COMMITTEE

the directors of the corporation, in their discretion, may, from time to time prior to such liquidation, sell and dispose of any securities or other property acquired by the corporation."

Fruit Trees and Shrubby

L. W. Adams, Stark's nursery man, was here this week from Glencoe, making deliveries of fruit trees, grape and ornamental shrubs. The fruit trees, principally apple of the Stark's Delicious and Golden Delicious varieties, with a few cherries and Concord grape, roses, etc. The deliveries made here and to farmers near here were:

Julian M. Taylor, William N. Kennedy, August Lantz, Robert L. Ransom, Robert C. Pitts, Albert and Jesse May, Rich Hunt, William Ferguson, Edward S. Comrey, B. H. Hobbs, Floy Skinner, Carl E. Freeman and Sabino Vidaurri. Some of the above-named persons have tried, in a small way, to grow fruit on the flat, while others nearer the mountains have successfully produced fine fruit for a number of years. Many of these, however, are making their first effort, and should the experiment prove successful we may see a large increase in tree and shrubby planting in the future.

Mr. Adams, also, made other and larger deliveries across the mountains, along the valleys of Bonito, Ruidoso and Hondo, in the old orchard sections of the county, where the finest fruit in the world is grown. New orchards are being planted in those valleys and old ones enlarged. We hope the efforts, put forth by all in this line will prove successful and that fruit growing will become one of the profitable industries of Lincoln county.

Banks of the Wabash

Ed C. Monroe is just in receipt of a letter from his brother who is a rural mail carrier in the old Hoosier State. The brother's route covers a part of the Wabash, or did, but doesn't now—that portion is now covered by six feet of water. In other words, the Wabash ain't got no banks, though the moon may still be shining brightly.

Baptist Church

T. M. Blacklock, Pastor. Regular Sunday School and B.Y.P.U. next Sunday. Preaching services have been dismissed on account of the Methodist revival.

Methodist Revival

The revival at the Methodist church is in full swing, and good interest has been manifested in the services. Rev. L. E. Conkin, the local pastor, is in charge of the meeting, and is assisted by State Sunday School Superintendent B. L. Nance. With the interest in the services the meeting will continue indefinitely.

School Notes

(By Superintendent E. E. Cole.)

The 1922 class play of the Carrizozo seniors will be given at the Crystal Theater, on the evening of May 15. It will have the usual excellence of the Carrizozo High School public performance. The proceeds will go to the improvement of the schools of Carrizozo. Last year the class selected the beautiful "Woodland" scenery which made the stage so attractive on commencement night of last year. This scenery is still good and can be used at any time. The class also presented to the High School the bas-relief "The Spirit of '76." The class of two years ago presented to the High School the two pieces of bas-relief by the Danish sculptor, Thorwaldsen—"Night" and "Morning."

"Every student" and "The Heavenly Twins," both to be given on the same night, will constitute the "Play" of this year. Messrs. "Hibbie" Bamberger and John Boyd have kindly consented to assist in the play and will add excellence to the performance.

We are now ready to report on the experiment made by the general science class some time ago. Grains of corn were planted just under the surface of the soil in a flower pot, wire screen tied over it and the flower pot inverted under a glass jar supported by three blocks of wood about five inches long. In due time the roots grew down, out of the darkness and moisture, into the light and comparative dryness. The stem grew upward, into darkness and wet earth. Why?

At the last meeting of the Woman's Club, Mr. E. E. Cole spoke on the subject of "Playground Equipment." After Mr. Cole had gone, the Club voted to appropriate fifty dollars, to be spent in playground equipment next year. This action on the part of the Woman's Club is very commendable and the school board and the pupils of the school appreciate it very much. The Woman's Club of Carrizozo is showing the same fine spirit of helping in civic improvement, of helping others, of improving the home town and its institutions which the Woman's Clubs are showing everywhere in the United States.

A number of Fort Stanton people were here Monday. They accompanied Dr. Wallace and family to this point. The doctor, who has been Surgeon-in-Command at Fort Stanton since last July, has been transferred to the Rutland, Massachusetts, sanatorium, and he and his family left on No. 4 for the new assignment.

Upper Ruidoso Items

Mrs. F. A. Miller, who has spent the winter in Tularosa, returned home Saturday. We are guessing that F. A. and Ulrick are very glad of her return.

T. J. Douthitt, of Roswell, is spending some time in this vicinity, looking into business matters. Dame Rumor tells us that wedding bells will ring in the near future for one of Ruidoso's fair daughters. Now all guess!

The Lower Ruidoso school is closed on account of the prevalence of the flu in that neighborhood. No serious cases are reported, however.

Mrs. Era Browing has been suffering from an attack of inflammatory rheumatism. Her many friends are wishing for her recovery.

H. H. Lucas and family are moving to the saw mill, near the Wingfield place.

Killed in Auto Accident

Lon Shifflette was instantly killed Monday morning of this week, in an automobile accident which occurred between Raton and Dawson. A broken wheel is said to have caused the accident, the car turning over, and in the fall Shifflette's neck was broken. His car companion was injured, but will recover.

The body was conveyed to Dawson, where Shifflette had been in the employ of the E. P. & S. W. Ry. Co. as an engineer for many years, and then shipped to the old home at Sweetwater, Texas, for interment.

The deceased was well known in this county and all along the line, having been in the employ of the company here twenty years ago, before Carrizozo was made a division point. He married Miss Mabel Ramsdale, of White Oaks, during his residence here, and she and two children survive.

A brother, Verne Shifflette, employed at the Mayer Cash Grocery here, was notified of the fatality and upon learning funeral arrangements, he and his family joined the funeral cortege and will be present at the last sad rites. Lon Shifflette was one of the

most pleasant and genial men on the line and numbered his friends by his acquaintances. He was faithful and loyal to every trust, as his long service with the company convincingly evidenced. His untimely death was a shock to a multitude of friends who deeply sympathize with the saddened wife and sorrowing children and the surviving brother and his family.

British and French Premiers Give Votes of Confidence on Genoa Policies.

FORMER MAKES GREAT SPEECH

Russians Warned Partial Recognition Depends on Good Behavior—De Valera Trying to Upset Irish Free State—Progress of the Coal Miners' Strike.

By EDWARD W. PICKARD

HAVING triumphed over his enemies with a vote of confidence—872 to 64—in the house of commons, Premier Lloyd George, instead of resigning, has gone to Genoa to lay before the economic conference his plans for the regeneration of Europe. On the same day as the British last Premier Poincaré laid his foreign policies before the French chamber of deputies, and they were approved by a vote of 484 to 78. Whereupon he also decided to attend the conference as soon as his official duties at home would permit. Both the British and the French have been growing more hopeful daily that good and definite results will come from the Genoa meeting.

Probably Lloyd George never made a more effective speech than that which preceded the vote of the commons. He spoke for an hour and a half, setting forth eloquently the conditions that his country and Europe generally face, and replying with humor and keen satire to the attacks of his opponents, who frequently joined in the applause. Defending the limitations placed on the scope of the conference, begging the discussion of revision of boundaries and of reparations, he argued that no one of his hearers would wish to go back on the clauses of the treaty of Versailles by which Alsace-Lorraine was restored to France, Poland re-erected and the independence of the Slavonic populations of Austria-Hungary recognized. Nor, said he, was there any use criticizing the reparations, since to alter these would simply transfer the burden from Germany to France, England and Belgium, but mainly to France. He asserted France should not be asked or expected to forego the right she won at such cost, or to submit to the judgment of a conference in which not only her former enemies but also neutrals are represented. Germany's ultimate capacity to pay, he added, must not be judged by her capacity at this moment. Discussing the main themes of the conference, the establishment of peace, credits, currency, exchange, transports and the machinery of international trade, the premier dealt largely with Russia and said he believed its present rulers had been brought into a new frame of mind by the famine and would now recognize the conditions imposed and accepted by civilized communities, acknowledging Russia's debts and promising to cease their attacks on the institutions of other countries. He pledged that there would be no full diplomatic recognition of the soviet government until the powers should be entirely satisfied that Russia was really endeavoring to carry out the terms of such an undertaking.

Mr. Lloyd George may have been over-optimistic about the repentance of the Russians. The soviet delegates became more and more cocky as they made their way toward Genoa, and in Berlin they arranged for close co-operation with the German delegation, reached an economic understanding with Chancellor Brüning and Foreign Minister Rathenau, and made agreements with the representatives of German industry and finance.

Rathenau explains that his accord with the Russians is due to the position taken by the allies on the reparations. Among the recent agreements reached by the representatives of German industry and finance.

Mr. Lloyd George may have been over-optimistic about the repentance of the Russians. to her debtor nations in Europe by notifying them that they must begin paying interest on their debts to her next October, or make some new arrangement then, so that Britain can pay the interest on what she owes the United States. The French believe this will cause the whole matter of inter-allied debts to be brought up in the Genoa conference.

MICHAEL COLLINS and his provisional government of the Irish Free State are facing a critical situation and it is a debatable question whether they will survive officially. This despite the fact that the British government is assembling large bodies of troops to go to their support in case of necessity. It is believed De Valera and the radical republicans are planning the establishment of a military dictatorship, and continuous raids and outrages by republican bands lend support to this belief. Murders, ambushes and seizures of arms are of daily occurrence, and in northwest Ireland it is said large districts which had supported the Free State have swung over to the republican camp. As was intimated in these columns last week, the peace pact between the Free State and Ulster is quite ineffective in restoring peace to the island. Catholics and Protestants, Free State and republicans, are in never ceasing conflict, and when they cannot do better the Irish get up "private fights."

CHARLES, ex-emperor of Austria-Hungary, who died of pneumonia at Funchal, Madeira, may have left a legacy of trouble for some of his former subjects. On the receipt of the news of his death, the royalists of Hungary got busy and started a movement to declare his son Otto, nine years old, king of that country. The legitimists in the parliament planned to introduce a measure for Otto's immediate return to Hungary and his education under Hungarian teachers. There is no likelihood that a majority of the Hungarian people would favor restoration of the Hapsburg dynasty, nor that the allies would permit it.

OPPOSITION to the allied plans for reviving the Turkish empire is growing in Greece, Thrace and Smyrna, especially protest against being restored to the status, the former demanding the sultan quo and the latter autonomy. The Thracian deputies in the Greek chamber have wired to President Harding, Secretary Hughes and the chancellors of other nations that "the Greeks in Thrace would sooner die than return to Turk slavery." London hears that the Greeks of Smyrna are ready to revolt and set up an independent state rather than have the land turned over to Turkey. They have an active committee in London and are raising money among Greeks everywhere. It is believed the leaders in this movement may use Smyrna as an excuse for a coup to return Venizelos to power in Greece.

ALTHOUGH efforts to bring about agreements that will end the coal miners' strike are continuous, it cannot be said that they are meeting with any conspicuous success. The house committee on labor is taking the lead in these efforts and through its chairman, Representative Nolan, invited the miners and the bituminous operators of the central competitive field to a joint conference. The operators of western Pennsylvania and southern Ohio already had refused to take part in such a conference, but President Lewis of the mine workers said the men would accept the invitation if sufficient tonnage was represented. These declarations were received by Mr. Nolan from practically all the other groups of operators, chiefly because they felt a conference of fragments of the central field would be unavailing. Besides, they asserted they had seen and still were willing to meet the miners of their own states or districts for separate wage settlements.

In the anthracite field the conditions were more promising. The miners and operators' representatives were in continuous session in New York and both sides were emphasizing their cases. In Pennsylvania the miners are

enjoying their period of leisure and making plans for extensive fishing and camping trips. In Kansas the industrial court ordered that the present wage agreement be continued for thirty days, and the Southwestern Coal Operators' association agreed to this.

The operators declare that the ultimate goal of the union miners is the nationalization of the coal industry, and of course they oppose this, though they are not able to refute the assertion that the industry is, as Secretary Hoover says, one of the worst functioning industries in the country. It is always in a chaotic condition, as regards both production and distribution. When President Lewis went before the house committee to present the case of the strikers, he said the miners could see no permanent solution of their difficulties without nationalization of the coal mines. But questions brought out that while he would favor the establishment of a governing board to bring about stabilization of the industry, controlling the production, distribution and price of coal, he would oppose the creation of a tribunal with power to fix wages. Naturally he did not get far with such a one-sided proposition.

ONE THOUSAND AND SIXTY-FOUR bodies, last of America's dead to be brought from the cemeteries of France, were landed last week at Brooklyn and the heroes were honored with a solemn parade and impressive funeral ceremonies at the army base there. Prominent army and navy officers, high representatives of the government, governors of several states and many other distinguished persons took part, and President Harding sent a message and a wreath.

IN THE presence of President and Mrs. Harding, cabinet members, high government officials and arctic explorers, a handsome memorial was placed Thursday on the grave of Rear Admiral Robert H. Peary in Arlington national cemetery. Following a suggestion made by Peary during his last illness, it is in the form of a huge spheroid of granite, representing the earth, with the North pole, which he discovered, marked by a gold star. The memorial was unveiled by Admiral Peary's daughter, Mrs. Edward Stafford, who has been in the Arctic regions and was long known as the "Snow Baby."

PRESIDENT HARDING has not yet yielded to the demand that he give specific reason for the sudden dismissal of Director Willmetts and all division superintendents of the bureau of printing and engraving, merely stating that it was for the good of the service. Louis A. Hill was made director and a committee began checking up the stock of the bureau. Reports that there had been a wholesale duplication of Liberty bonds were at first denied, but later Mr. Hill admitted there might be basis for the rumor. This bureau cleanup started talk of impending wholesale dismissals in other departments.

SECRETARY OF THE NAVY S DENDY has taken official notice of the activities of certain treasonable societies "having their origin in foreign countries" and has warned the officers and men of the navy to beware of their "sinister propaganda" to undermine the morale of the navy and to inculcate into its personnel elements of disloyalty and cowardice.

REPRESENTATIVE TINKHAM of Massachusetts, a consistent opponent of the Anti-Saloon league, made a hot attack on that organization on the floor of the house, questioning its political activities and charging it and its subordinates have frequently violated the federal statutes by making false returns. He admitted it would be useless to ask a congressional inquiry because the league's political congress completely, and therefore he made a public request that the Department of Justice investigate the facts.

"...and we are a healthy, happy family now"

—Louis Gingras

TINGLING with abundant energy, appetites hearty, nerves strong and steady and their faces radiant with the glow of perfect health, the entire family of Louis Gingras, 9 Harrison Ave., Providence, R. I., are an eloquent tribute to the powers of Tanlac, the greatest family medicine the world has ever known.

"I've put Tanlac to the test four times right in my own family and it hasn't failed me once," declared Mr. Gingras. "My wife, my son and my daughter, as well as myself, have all been built up from a half-sick, run-down, worn-out set of people into a healthy, happy family bristling with life and energy."

And the experience of this family is only typical of thousands of others whose statements are on file in the Tanlac offices. Hardly a day passes that does not bring scores of such messages of praise from every part of the United States and Canada from families where mother, father, son and daughter have all found health, contentment and the joys of living through simply taking a course of Tanlac.

Take, for instance, the case of John Widner, 1571 Roosevelt Ave., Los Angeles, Calif., who says: "My wife, myself and little boy are now as healthy, happy family as you will ever see—and it's all due to Tanlac."

Or that of Mrs. John Marquis and her family of sixteen living in Manchester, N. H., at 202 Belmont St. She says: "Tanlac has been the only medicine used in our house for two years and it has kept every one of the sixteen here in the best of health."

In Chicago, Frank R. Richards, of 441 South Wood St., writes: "We will never be without Tanlac in our house after the remarkable way it has built up my wife, my son and myself to where we are the very picture of health."

Representative of New York is the case of Chas. E. Van Colt's family, residing at 129 Fourth Ave., Albany. He says: "Every member of our family is enthusiastic over Tanlac. It's certainly a medicine for all the family."

From far-away Canada comes this message: "My little girl, my son and myself are all enjoying splendid health now and Tanlac brought it all about." Mrs. Bert Hewer, 198 East Avenue, Toronto, Ontario.

"We call Tanlac 'The Family Medicine' here in our Virginia home, because it restored my mother and sister to perfect health, just the same as it has done me," is the enthusiastic statement of Mrs. J. E. Robertson, Danville, Va.

And on through the list, men, women and children from every state in the Union and every province of Canada unhesitatingly come forward and tell in words ringing with sincerity of the wonderful benefits of health and happiness that Tanlac has brought into their homes that were formerly darkened by the gloom of sickness, suffering and despair.

And should yours be one of these homes where any member of the family is thin, run down and weakened from loss of appetite, caused by indigestion and stomach troubles, you have at your very door the means that will no doubt bring the substance of vigorous health back into their lives and yours, just as it has done in so many thousands of other cases. Do not delay. Get a bottle of Tanlac from your druggist today.

THE SANDMAN STORY

THE LITTLE FAIRY

THERE was once upon a time a little fairy who helped all children play make-believe, and I expect that same little fairy is about today if people would only give it a chance. This particular Little Fairy Make-believe, crept through the keyhole of the door to a house where there lived two poor children, named Mary and Johnny, and they were trying hard to play at make-believe, for there was no food in the pantry or fuel for the stove.

He came with a basket of food.

Johnny were just opening their eyes there came a man with a big load of wood and coal which the same nice man had ordered who brought the food, for you see it was at his house that the mother of Mary and Johnny worked every day.

"You see, Johnny, that all we played make-believe about yesterday came true," said Mary. "I am so glad we did not let mother know we were hungry."

"We did not get any beautiful pictures," said Johnny, "and we made-believe we had those just the same as the other things."

Mary thought for a moment and then her eyes fell upon the wonderful paintings Jack Frost had made in the night. "Look," she said, pointing to the windows, "there is a beautiful castle and away up in the tower I expect there lives a beautiful princess."

"See all the mountains around the castle and the flowers like daisies growing out at the top. Below is a little lake and a swan sailing about, and beyond is the forest, and through it will come the prince who is to rescue the princess from the tower."

Johnny opened his eyes wide at first when Mary began the story, but before she had come to the prince part Johnny saw, too, what she did, and again the little Fairy Make-believe came through the keyhole of the door and crept close beside them.

And so some day when you cannot go out to play, find a window where Jack Frost has been at work and see if you cannot find wonderful things just as did Mary and Johnny. (Copyright.)

IMPROVED ROADS

MONEY FOR BUILDING ROADS

According to Bureau of Public Roads \$239,876,500 Must Be Expended in Three Years.

(Prepared by the United States Department of Agriculture.)

The total of federal-aid funds for road building apportioned among the various states up to the present time by the bureau of public roads, United States Department of Agriculture, aggregates \$239,876,500, according to a tabulation prepared by the department. Of this sum \$78,125,000 is apportioned under the federal highway act, approved by President Harding November 9, last, and \$266,750,000 represents the total apportionment under the old act.

Under the terms of the new act the federal aid money will be available to the states for two years after the close of the fiscal year for which the money is appropriated. This provision is made to apply to the money appropriated under the previous act and its amendment as well as to the new appropriation. Accordingly, the new appropriation must be expended by June 30, 1924, and the time allowed for the expenditure of the balance of the previous appropriation which remains in some states is extended to June 30, 1923. The forest road appropriation is available until expended.

The new appropriation is to be expended upon a definite, connected system of highways in each state, of not to exceed 7 per cent of the total mileage of highways already existing in the state. This system is to be divided into two parts; the first to include the more important roads, which are to be known as the primary or interstate highways; the second to

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores. Advertisement!

Why Men Take Mastin's Yeast Vitamon

Tablets—To Clear The Skin and Put On Firm Flesh

Of what use are fine features with an ugly, mottled skin, flabby flesh, sunken cheeks, pouches under the eyes, or a careworn, sallow-looking face?

If you want to quickly clear your skin and complexion, put some firm, healthy flesh on your bones, increase your nerve force and potentize your look and feel far better, simply try taking two of MASTIN'S (tiny yeast) VITAMON TABLETS with each meal and watch the results.

MASTIN'S VITAMON TABLETS contain not only the potent form of concentrated yeast vitamins, but all three vitamins scientifically combined with specially prepared organic iron for your blood, the necessary lime salts and other true vitalizing brain, bone and muscle making elements which Nature provides to produce real "stay-there" flesh, clear skin and increase energy.

Under their purifying influence, many a sunken, sallow, complexioned man's face is made to radiate as if by magic, leaving the skin and complexion firm, sleek and glowing with ruddy health.

To prevent your skin from becoming dry and chapped, rub MASTIN'S VITAMON TABLETS on your face and neck by millions. At all good druggists.

"What's in a Name?"

Dr. MILDRED MARSHALL. FACTS about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel

PATTY

THE charming name of Patty is not a diminutive of Patricia as is popularly supposed, but comes, curiously enough, from Martha. For that reason it means 'becoming bitter,' despite the fact that it has always been bestowed on the sweetest heroines of classic fiction.

Patty has a certain sacred significance since it is derived from the Martha who was one of the sisters of Bethany. It was she who is said to have destroyed by the sheer power of her faith a fire-breathing dragon which attacked her family while they were on a pilgrimage. Although she is popularly supposed to have been the sister of Mary Magdalene, there is some doubt among historians on this score.

But however it may be, Martha was the forerunner of Patty and gives to the latter name, not only a religious flavor, but a good old-fashioned name, which has become almost synonymous with domesticity. A curious fact in her evolution is that she was derived through Russia where Martha became

Martha under Slavic influence. The name was so much used by the daughters of the imperial family, that it was necessary for England, and later America, to evolve Patty as an endearment.

Ireland set the seal of approval upon Patty, preferring it to Martha, whose only survival is in "Mab," queen of the Fairies. France rejects Patty, but uses Marthe and Marthe. Martha is the Italian version.

Patty's tallmanic gem is coral. It will give her strength, wisdom, and bodily health, according to old superstition. But if she breaks a bit of her coral, it's power vanishes as if the spirit imprisoned within had fled. Tuesday is Patty's lucky day and 7 her lucky number. (Copyright.)

Pope Didn't Always Take New Name. It is well known that the pope after his election assumes a new name. But it is not equally of general knowledge that such was not always the custom, although historians do not agree as to the time when this change of names was introduced.

Abbe Fleury, in his Ecclesiastical History, says that Sergius the Fifth was the first to change his name, while the historian Onuphre says that the first instance occurred in 853, when Cardinal Vitourien assumed the name of John the Twelfth, because he thought that his original name had a pagan ring. This motive evidently appealed to all his successors, for since the election of Pope Benedict the Ninth, in 1083, only one pope, Adrian the Sixth, elected in 1522, retained his former name.

THE OLD DAYS I WONDER if the Old Days came again. As oftentimes we mortals pray they may, We'd live them as we lived before, Or joy, according to the special day!

For me the good that lay in olden days, Lost in the hurry of the onward night, I still may find, I'm sure, in coming ways That lie beyond the curtains of tonight.

And for their ill, the lessons that they taught will show my path from many a lurking sorrow— And if of Old Days my New Days be wrought I'll find them born again in my Tomorrow. (Copyright.)

The Right Thing at the Right Time

By MARY MARSHALL DUFFEE

CAN YOU—?

THERE are certain things that every one who wishes to be well bred should learn how to do—certain things that are so important in order to establish smooth sailing on the sea of social intercourse.

Can you, for instance, glibly and without embarrassment introduce two strangers? Do you know how to introduce a business friend to your wife, your wife to the wife of a business friend, your son to your employer's son, your mother to the mother of a friend? None of these questions?

with a woman acquaintance in the crowded street of a city? Can you word a letter asking a young woman to go with you to a dance, or, if you are a young woman, can you word a letter politely accepting or declining an invitation from a young man to a dance?

Now, all these seem like simple things to do, but they are things that sometimes baffle even persons who have had an opportunity to observe social usages. Stop and ask yourself if you can do them. They are the art of things that fail to be understood sometimes rather to the embarrassment of the young people.

Buyers Co-Op. Store

The Co-Operative store of Carrizozo which has been closed for a few weeks, having gone into the hands of a receiver, was sold Wednesday at public auction. Roy Skinner was the successful bidder. The sale included stock and fixtures, the building belonging to other parties.

As soon as the legal transfer is made, Mr. Skinner will move his stock from his present location and add it to the bankrupt stock acquired, and will open for business at the old Co-Op. stand next door to the News office. He expects to increase his stock of meats, both fresh and salt; will supply his customers with fresh vegetables and carry a general line of staple and fancy groceries suitable to the demands of the trade. The application of proper business methods should make the new venture a success and become a lucrative business to the purchaser.

District Court Monday

The spring term of District Court for Lincoln county will convene Monday, with Judge Edwin Mechem presiding. No jury has been drawn and only cases on the civil docket will come up for hearing; unless there should be informations filed by the District Attorney, in which event defendants may be permitted to plea. A number of civil matters are on the docket and court will be in session several days.
