OLDEST AND LEADING NEWSPAPER IN CIRCULATION IN THE COUNTY OF LINCOLN, NEW MEXICO

LUNES 23

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, APRIL 20, 1923

NUMBER 16

County Board of Education

A meeting of the County Board of Education, within and for the county of Lincoln, having been duly called, was held on this the 17th day of April, 1923, in the office of the County School Superintendent, Carrizozo, N. M. The Board met at 9 a. m.

Present: Robert H. Taylor, President; E. C. Dow and Brack Sloan, Members; Louise H. Coe, Supt. of Schools; Ralph M. Treat, Secretary.

Board met for the purpose of organizing as a Board of Education, and to attend to any business presented, as shown by the following:

Upon motion, duly seconded, that E. C. Dow be elected Vice-Chairman of the Board of Education, Mr. Dow is hereby elected Vice-Chairman of said Board of Education, within and for Lincoln county, N. M.

Regarding the ruling formerly made as to voiding contracts where daily attendance falls below 10 for two consecutive months the present board hereby rules that this rule stand as made, except as to the number which shall and is hereby changed to 8 instead of 10. This change is made so that the state law may be complied with.

Comes now the matter of a Union High School for Districts Nos. 2, 4, 20 and 33, said High School to be located at Hondo, N. M. Petitions having been filed as provided and according to law, said petitions showing at least 15 per cent of the voters of said districts asking that an election be had for the purpose of determining the will of the people as regards the said High School.

The board having examined said petitions and being sufficiently advised, and finding that said petitions were duly filed and being satisfied with same in every way, hereby orders an election to be held in the Districts 2, 4, 20 and 33 for the purpose as above stated; said election to be held on the 19th day of May, 1923.

Upon a petition being presented to the board asking that school in District No. 33 be abolished and to be allowed to consolidate with District No. 20, the board

having examined said petition and being sufficiently advised in the premises, the Board of Education orders that an election be held in District No. 33 for the purpose of deciding whether or not the voters in District No. 33 wish to abolish school in said District No. 33 and consolidate with District No. 20 (Hondo); said election to be held on May 19, 1923.

In the matter regarding the employment of teachers for the various schools in Lincoln county, the board hereby adopts the following plan: It shall be the duty of the Directors in each District to recommend to the County Board of Education (at their earliest convenience) teachers selected and preferred by them for their district; also to send in to the Board all applications which they may have. Applications of teachers preferred by the local boards should be sent in by teacher in her own hand writing.

In the matter of the consolidation of District No. 1 with District No. 20, signed by A. F. Stover and others, examined and considered by the board, the Board hereby finds that same is insufficient as to number of signers; therefore, same is hereby rejected.

The Board hereby orders that Notices of Elections as heretofore stated be made and sent to the directors of various districts where elections are to be held; also that ballots to be used at said elections be printed and sent with ballot boxes to each of said districts on or before the date for holding said elections, said ballots to be delivered to any one of the directors of said Districts 2, 4, 20 and 33; ballots to show purpose of election in both English and Spanish.

The petition asking that a new district be created, said petition stating that the distance to Districts Nos. 8 and 29 are too great for children to go, and said Districts Nos. 8 and 29 are the closest school districts to them, as shown in the petition. There being none of the signers of said petition present, the Board hereby orders that said petition be passed until further information can be obtained.

Rain and Snow

The clouds that have been hovering over us for days and days, instilling hopes in our breasts that possibly the next day would bring the desired moisture, finally gave vent to their pent up feelings and spent nearly all day yesterday weeping. The copious deluge was greedily absorbed by Mother Earth, and this morning, twelve hours after the last tear drop from the sky had sought its way earthward, streets and roads are soft and muddy and water is in evidence everywhere.

A blanket of snow covers the surrounding mountains and the air from the lofty points sends a chill up and down the spine and creates a general stampede for the closet in search of coat and wrap. But with all that, this visit of old Jupiter Pluvius is so welcome that the touch of frost in the air is more bracing than benumbing, and the bright sunshine this morning is an additional harbinger of hope.

Getting down to brass tacks; she was a corker. It will put pep in the farmer, who has felt so keenly the blight of the long drouth; it will give vim, energy and renewed courage to the stockman, who, also, has been enveloped in the shadows for a lengthy period, and brings him to an erect position, facing the world four-square, to forget the past, with eyes turned to the future.

The only fly in the ointment is the well-grounded fear for the fruit crop in the mountains. The temperatures there—judged from the heavy fall of snow, visible from our door—must have been much lower than here, and fruit, no doubt, suffered. Should our hopes overcome our fears and later reports prove that the injury has been slight, our cup will, indeed, run over.

Play Ball.—The B. B. boys expect you to attend their benefit dance at Lutz Hall, Sat. 21st.

Regarding the leasing of the old court house in Lincoln to W. O. Norman and L. C. Hulbert, the board passes same until further information regarding same is had.

The following two named persons were elected by the Board as Budget Commissioners for the ensuing term: Art Rolland and Jno A. Haley, both of Carrizozo N. M., Robert H. Taylor and E. C. Dow voting for and Brack Sloan voting against.

No further business appearing, the board adjourns until call.
Board of Education,
Lincoln County, N. M.,
ROBERT H. TAYLOR, President
E. C. DOW, V. President
BRACK SLOAN, Member
R. M. TREAT, Secretary.

Carrizozo Wins

The Carrizozo Base Ball team was victorious in its first game of the season. The contest took place on the local diamond Sunday, and Tularosa supplied the victim. The locals won by the score of 7 to 5. It was a very good exhibition of the national sport and gives promise of a successful season's campaign.

Our boys go to Tularosa this coming Sunday and we wish them the best of luck. In the meantime, a dance will be given at the Lutz Hall tomorrow (Saturday) night for the benefit of the team, and it is hoped a generous support will be accorded the effort to supply the management with the sinews of war.

The Woman's Club

The parliamentary study class of the Carrizozo Woman's Club will meet with Mrs. Ed Harris in her home, opposite the home of W. W. Stadman, Thursday evening, April 26.

It is desired that there be a large per cent of the members present, since there is an amendment to the constitution to be voted upon and the election of officers occurs at this time.

Town Trustees Meet

Proceedings of the Board of Trustees of the Village of Carrizozo, New Mexico, held on April 9, at 7:30 p. m., at the office of the Village Clerk.

Members present: J. M. Taylor, Mayor; W. W. Stadman, Clerk; T. E. Kelley, Fred Lalone and G. T. McQuillen, Trustees; A. M. Vega, Marshal.

Minutes of the regular meeting of the Board, held on March 12, read and approved.

The following bills were considered and after being found correct were ordered paid:

The streets and alleys committee makes report of work done and whereas said committee has taken the matter of grading of El Paso avenue up with the Board of County Commissioners and has entered into an agreement with said board to oversee the grading of said avenue extended beyond the Village limits east to the railroad crossing, and whereas the construction of grade and two concrete culverts, as outlined by said committee, will be of great benefit to the Village, and whereas the Board of County Commissioners has agreed to expend the sum of \$350 for such improvement, provided the Village expend an equal sum on El Paso avenue, the said streets and alleys committee, upon the motion of Fred Lalone, seconded by Geo. T. McQuillen, is authorized to expend a sum of money not exceeding \$500, for the grading and culverting and construction of a concrete culvert on El Paso avenue within said Village.

The water, sewer and light committee reports that the condition of the cess pool at the terminal of the Village sewer line is in such bad condition that immediate construction of a new cess pool is necessary. After due consideration by the board, on motion of Geo. T. McQuillen, seconded by Fred Lalone, said committee is authorized to proceed with plans for and construction of an adequate cess pool at once.

The water, sewer and light committee reports that it is proper that the consumers of water within the limits of the water works system who buy water in

quantities of seven barrels or more be charged at the rate of \$2 per tank load of 7-bbl.

Upon motion duly seconded, it is ordered that a fire hydrant be installed at the terminal of the water main on east Capitan ave. There being no further business before the board, the meeting is declared adjourned.

Now for a new start; ready, all together!

U.B. Thrift Savings

Some men get stuck by not sticking.

And others get stuck by sticking to the old way of keeping their valuable papers behind the clock.

When you have valuable papers, old jewelry, or other articles, you wish to carefully preserve, put them in a SAFETY DEPOSIT BOX right here in our bank and they will be here when you want them again.

We have a limited number of these boxes to rent—at very reasonable rates.

103 East of Carraivan.

LADY KATHLYN HERBERT, EARL OF CARRARVON, HOWARD CARTER AND D. E. CLELLAND

Howard Carter Uncovers Long-Sought Tomb of Important Pharaoh

Rider Haggard protests against the "exposure of the old king to the vulgar gaze." Lord Carnarvon and Howard Carter would have the mummy on exhibition where it is. What do you think about it?

At this writing Lord Carnarvon is seriously ill in Egypt from blood poisoning, presumably from the bite of an insect.

By JOHN DICKINSON SHERMAN

GOOD old American "hunch" is what uncovered that Pharaoh's rock hewn tomb in the Valley of Kings, unearthing millions, put Tut-Ankh-Amen back on the first page after 23 centuries, changed the fashions and made the name of Howard Carter and Lord Carnarvon household words. For many years Carter has been hot on Tut-Ankh-Amen's trail and always his "hunch" led him back to the tomb of Ramesses VI. This particular Ramesses didn't amount to much as a Pharaoh, but he dug himself a whopping big elaborate tomb in the solid rock, so now it's swept and dusted and lighted by electricity and is one of the approved sights.

Twice did Carter dig in front of this elaborate tomb and twice he missed by a few yards only. Last fall, on a spot just 15 feet from the wall of the big tomb his "hunch" said "Dig here!" First he struck some ancient workmen's huts. Then he came upon a step cut in the solid rock. He went down 20 steps and found a door covered with intact seals of the royal cemetery.

Now the work has been stopped and the tomb reopened until cooler weather next fall. This gives Mr. Neeryman, who is neither an archeologist nor an Egyptologist, a chance to catch up and find out what all the excitement is about, so as to be ready for the doings when work is resumed. These will be in the way of climax to a romantic and dramatic story. What follows is intended to be informative.

Howard Carter is an American who went to Egypt thirty years ago to paint in water colors. He did work for the Egyptian Exploration fund and achieved a large reputation as an archeological draughtsman. He was made government inspector of antiquities for Upper Egypt. The late Theodore M. Davis of Boston obtained a concession in 1901 and Carter took charge of exploration. Davis was at first very successful. Later his luck changed and Lord Carnarvon took over his concession in 1914. During the war Carter was in the British Intelligence service. This is Carter's first big find for Carnarvon, who got discouraged more than once and now gives Carter full credit for persistent belief in his "hunch."

George Edward Stanhope Molyneux Herbert is the fifth earl of Carnarvon. He was born in 1866 and succeeded his father in 1900. He was educated at Eton and at Trinity college, Cambridge. He married Almina Wrobleff in 1890 and has a son and daughter. He owns about 24,000 acres and has a racing stable.

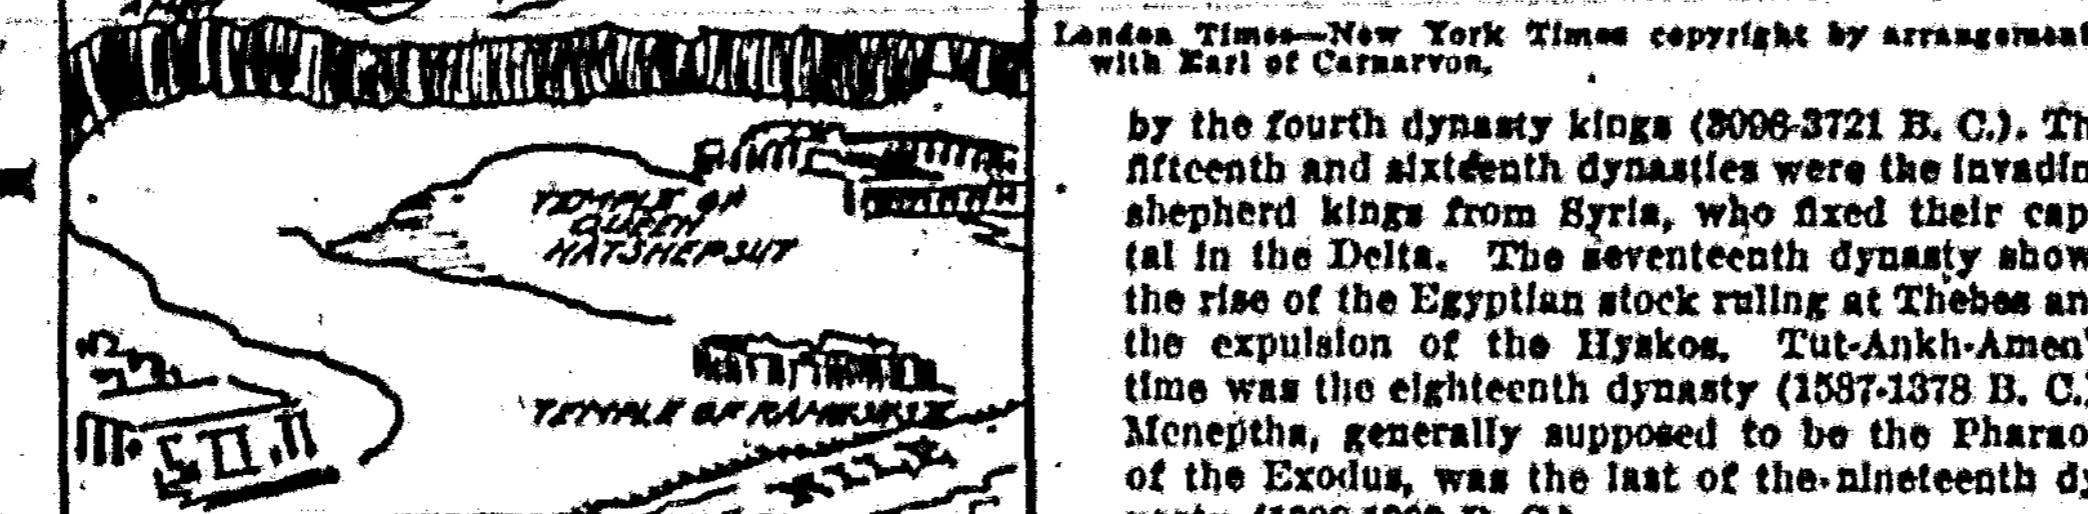

TOMB OF RAMSES VI. CROSSING STAIRS TO CHAMBER OF PASSAGE TO TUT-ANKH-AMEN'S TOMB

SYNCRHONOUS OF ROYAL TREASURES

London Times—New York Times copyright by arrangement with Earl of Carnarvon.

MAP OF VALLEY OF THE KINGS

discovered by Carter. The diagram below shows the location of these two tombs in the Valley of the Kings. The mummy is that of Sethos I, a powerful Pharaoh of the nineteenth dynasty (1328-1293 B. C.). This mummy is in the museum at Cairo. Tut-Ankh-Amen's mummy, if found, will look much like it.

The photograph at the lower right is part of what the excavators saw directly in front of them when they broke through the door of the first chamber. The spotted animal is a cow of gilt inlaid with ebony, one of the supports of a royal ceremonial couch; its head is emblematic of Hathor, the cow-headed goddess. First up under this couch are boxes containing mummified food. To the right is seen the foot of another couch, the supports of which are lions. The big box in front of it contains the king's underwear. To the left is the head of a third couch, the supports being a mythological animal of the underworld. Upon this couch is a large wooden casket, with white panels, bearing the cartouches of the names of the king and queen. Under this couch is the king's chair or throne.

Under the same couch is an ancient breach through the sealed doorway of an annex to this first chamber. Through this can be seen masses of objects stacked up five feet high.

The four alabaster vases shown are piled up at the head of the Hathor couch. They are of a design never before found.

These articles are but part of those in this chamber. There is apparently everything that a king could use, from a silver boomerang for hunting to chariots and personal jewelry. In the northeast and northwest corners are two enormous portrait statues of Tut-Ankh-Amen.

Here is a mind's-eye diagram of Tut-Ankh-Amen's tomb, so far as it has been opened up: The tomb is in the form of a T, with the entrance at the small end, facing east. First twenty steps down. Next an east and west passage 80 feet long. Next a north and south room, 21 by 15 feet and 9 feet high. At the south end is a second room, not yet opened. At the north end is the room containing the catafalque believed to hold the mummy. Off this last room is another, without a door, full of miscellaneous articles, including works of art.

The catafalque, on which the attention of the archeological world is centered, gives every evidence of containing the mummy of Tut-Ankh-Amen. It is 16 feet by 12 and 12 feet high. It practically fills the chamber. The outer case is apparently cedar, elaborately ornamented both outside and inside; only an Egyptologist can describe it. Heavy doors, which open a few inches, disclose a second case, equally elaborate, which is sealed. Between the two cases is a mass of jewelry, principally scarabs. A section of the wall will have to be demolished to remove the several cases.

Perspective of Egyptian history: It should be remembered that Egypt was old in Tut-Ankh-Amen's time. Its continuous civilization dates back about 3000 B. C. and is well known.

MRS. M. SNYDER GAINS 20 LBS.

Declares Tanlac Overcame Rheumatism and Stomach Trouble, Restoring Full Vigor.

"Tanlac built me up twenty pounds, and I am as happy over my new health as my little boy was over his Christmas toys," declared Mrs. Mary Snyder, 538 Estes St., Charlottesville, Va. "For two years I suffered from stomach trouble, rheumatism and a nervous, run-down condition. I was almost a skeleton and got to the point where, when I went to bed nights, I wondered if I would be able to get up in the morning. Rheumatism in my shoulders was so painful, and I was so thin and weak that I did little of anything except try to get well. "I was in despair when I started taking Tanlac, but now my troubles are all gone and I am as healthy and happy as I could wish to be. Tanlac has earned my undying gratitude." Tanlac is for sale by all good druggists. Over 35 million bottles sold.—Advertisement.

In Another Class. There was a fire in our neighborhood and mother told the twins they could not go, but could watch from our yard. Father went to see if he could help. "Let's go," I heard Billy say. "Mother said we couldn't," said Bobby. "But father went," protested Billy. "Oh, yes," answered Bobby; "but fathers have got minds of their own."—Exchange.

HAIR STAYS COMBED, GLOSSY

"Hair Groom" Keeps Hair Combed—Well-Groomed.

Millions Use It—Fine for Hair—Not Sticky, Greasy or Smelly.

A few cents buys a jar of "Hair-Groom" at any drug store. Even stubborn, unruly or shampooed hair stays combed all day in any style you like. "Hair-Groom" is a dignified combing cream which gives that natural gloss and well-groomed effect to your hair—that final touch to good dress both in business and on social occasions. Greaseless, stainless "Hair-Groom" does not show on the hair because it is absorbed by the scalp, therefore your hair remains so soft and pliable and so natural that no one can possibly tell you used it.

Changing Carbon into Hellum.

Since the Dark ages, scientists have sought transmutation, how to change one of the basic elements into another. That goal is finally in sight. In the research laboratory of Sperry Gyroscopic company, chemists believe they have discovered how to change carbon into hellum. They are checking up.

Hellum, which neither burns nor explodes, is needed for dirigible airships, destined to dot the sky by thousands.

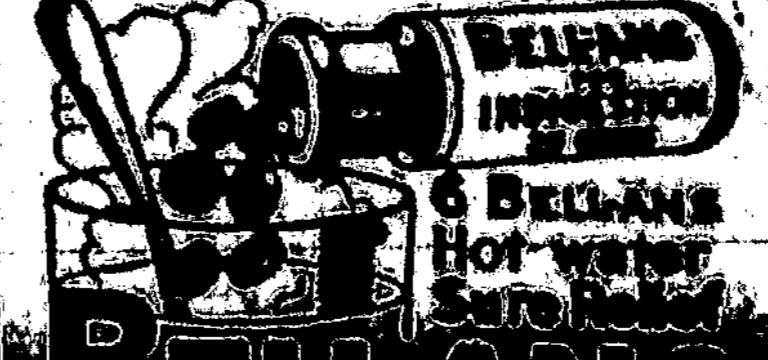

Cuticura Comforts Baby's Skin

When red, rough and itching, by hot baths of Cuticura Soap and touches of Cuticura Ointment. Also make use now and then of that exquisitely scented dusting powder, Cuticura Talcum, one of the indispensable Cuticura Toilet Trio.—Advertisement.

Good Excuse.

The boss sent the bookkeeper out to buy him a ticket to Chicago. After several hours the bookkeeper came back with the ticket. "Took you a long time," granted the boss. "Well, I was just behind a girl who was planning her next summer's tour."—Louisville Courier-Journal.

D. & R. G. W. WILL SPEND \$12,000,000 FOR NEW EQUIPMENT

Denver.—Recent disclosures have brought to light the fact that Federal Judge J. Foster Symes has authorized the receiver of the D. & R. G. W. Railroad Company to expend for road improvements of various kinds, almost \$12,000,000. This amount of money takes into cognizance the fact that there has been expended from July 21, 1922, up to March 1, 1923, over one and one-half millions of dollars and the balance is included in new equipment ordered. Fifty new four and six-room cottages for employes at Soldier Summit, Utah; 100 miles of narrow gauge lines in Colorado will be relaid, with 70-pound rails; forty-five miles of the main line will also be relaid with heavy rails. Extensive improvement in yard tracks at Pueblo, Walsenburg, Salida, Grand Junction, Colo., are in the program, together with large extensions regarding passing tracks and industry, tracks in various points in the state. The enlargement and improvement of shop terminals at principal points, including new and modern tools and machinery is another item on the bill, together with improvements and rebuilding of steel and wooden bridges, and the rebuilding of existing equipment, including locomotives and freight cars, and last but not least is a large sum donated, and orders placed for the purchase of twenty mountain type passenger and freight locomotives, and ten heavy Mallet type helper locomotives, ten Mikado narrow gauge locomotives, 800 new stock cars of forty-ton capacity, and 100 new narrow gauge stock cars. The locomotives, both passenger and freight, and stock cars are to be delivered Aug. 1, 1923. This will go to the entire territory in the state of Colorado through which the D. & R. G. W. travels, and of course will be a wonderful help toward the handling of passenger and freight service in all those localities. Perhaps the greatest real assistance from this large expenditure is the fact that it will give the western slope an opportunity to ship their crops of fruit and vegetables this fall without such a loss, because of lack of freight cars, as has been experienced in the last few years.

Taxes Lowered in Colorado.

Denver.—The first real evidence of a tendency on the part of governmental authorities to heed the demand for lower taxes in Colorado is to be found in property taxes assessed for all purposes for 1923, to be collected in 1923, as shown by the records of the State Tax Commission, based on the reports of county assessors and county treasurers. The reports show an actual decrease in the total amount of taxes to be collected in 1923 as compared with 1922. This is the first time a decrease has been shown since 1916, when the total amount of taxes collected was about \$100,000 less than for the preceding year. Total taxes collected that year, however, were but \$20,536,000, compared with more than \$42,000,000 to be collected this year.

Grocer Receives Gold Medal.

Kansas City, Mo.—When the mayor, the police commissioner and other officials assembled to give George B. McConkey, grocer, a gold medal for bravery in killing two bandits, McConkey said he could not leave the store and the medal was taken to him by a motorcycle patrolman.

Dr. Cook Freed on Bond.

Fort Worth, Texas.—With the surrender of Dr. Frederick A. Cook, arctic explorer and oil promoter, to federal authorities a total of twenty oil men have either been taken into custody or surrendered and have been arraigned before United States Commissioner George Banker on charges of fraudulent use of the seal. Cook said that

Dig 33 Years for King Tut

Carter and His Aids Defy Torrid Heat, Wild Beasts and Insect Plague in Search.

Do you think what they got was worth digging 33 years for?

Valley of the Kings, Luxor, Egypt.—While the world has been following with unabated interest and curiosity the wonderful archaeological discoveries in the Valley of the Kings, little thought has been given to the years of toil, research and patience given by archaeologists in these far-off ruins.

It is perhaps little understood that the recent unearthing of the tomb of King Tut-Ankh-Amen by Howard Carter, British excavator, represents a continuous effort of 33 years of research and excavation. Carter began digging on the site of Thebes, the ancient capital of Egypt, when he was eighteen and has never ceased his labors.

He was never rich enough to conduct his own excavations, but has invariably worked for others. Some of his most notable work was done under Theodore M. Davis of Boston, who from 1907 to 1914 discovered six royal tombs and a wealth of rare and valuable antiquities. In more recent years Carter has been associated with Lord Carnarvon, who financed the excavating work of Tut-Ankh-Amen's tomb. Carter has derived no pecuniary reward from his years of research. American visitors at the newly found tomb have remarked that the now famous excavator wears the same suit of clothes, the same hat and shoes, daily, Sunday, and throughout the year.

Called Modern Hermits. Carter's devotion and labors in the cause of Egyptian science are typical of the example of all excavators, British, American and French, in the ancient ruins of Egypt. These men may be described as modern hermits in this 5,000-year-old Valley of the Kings. They lead a one-sided and narrow existence. Cut off from all civilizing and uplifting influences, the score or more of them who comprise the foreign colonies of Luxor move within a narrow groove and seldom even come in contact with one another.

The Valley of the Kings and the Theban hills, 450 miles up the Nile from Cairo, are infested with wolves, jackals, wildcats, foxes, snakes, lizards, scorpions, vultures, beetles and vermin. The archaeologists live in unpretentious stone and mortar houses with nothing but the barest rough-hewn furniture and the most primitive household equipment. The

house occupied by the American experts was built through the generosity of the late J. Pierpont Morgan, who was moved to pity by their privations and exposure.

Plague of Flies and Insects. The natives of the valley are pathetically poor and untutored. Food is scarce and expensive. Water, where it exists at all, has to be brought from afar in hand buckets. The nights are cold and fuel is difficult to obtain. The heat of the valley is severe during the day, and the entire area is plagued with flies and pernicious insects.

The American visitor to the cavernous valley which holds the imperial dead of bygone ages is overawed by the majesty and dignity of the great, precipitous sandstone cliffs that stand sentinel on either side of the necropolis. He is reminded of the heights of the Grand Canyon of the Colorado, or of Yellowstone falls, when the noonday sun transforms them into a golden valley.

Sleeping in the heart of these moun-

USUALLY FOLLOWS FLU ATTACK

Surgeon General Cummings Tells About Sleeping Sickness.

Washington.—While reports of cases of "sleeping sickness" are reaching the Public Health Service from various parts of the country, Surgeon General Hugh S. Cummings said that the service had no statistics sufficiently reliable to warrant a statement as to the extent of the disease throughout the United States.

"Encephalitis lethargica, or sleeping sickness, as it is popularly known, is reportable by physicians in only comparatively few states," said the surgeon general. "In the larger part of the country the only data available are based on newspaper reports. Moreover, the disease is rather easy to confuse with some other diseases, and its prevalence is, therefore, likely to be unduly magnified.

"Thus, in an investigation made by Dr. H. F. Smith of the public health service, of the 1918-19 epidemic, 22 per cent of the supposed cases had to be excluded as being really cerebrospinal meningitis, cerebral syphilis, brain abscess, tuberculosis meningitis, epilepsy, poliomyelitis, hysteria, or acute alcoholism.

"The disease appears to be only difficultly communicable. Not a single secondary case is known to have occurred in the immediate families of the patients reported in 1918-19, although some 600 persons were exposed. "The fatality is rather high. Of the

Woman Is Sentenced to 500 Days at Home

Mrs. Elizabeth Espinola, of Fresno, Cal., convicted of bootlegging on her own confession, was sentenced to spend 500 days in her own home, caring for her four little children, by Police Judge Crichton.

The woman was unable to pay a fine of \$500, so was ordered to work out the fine in her own home at the rate of \$1 a day.

ains are Tut-Ankh-Amen and his royal kinfolk. Some of the tombs go down 150 feet and extend back a distance of three city blocks. The ancients believed these were the portals to heaven and everlasting life.

Auto Engine Fumes Are Deleterious to Health

New York.—Exhaust from automobile engines has so contaminated the air in congested traffic sections of New York city that it is deleterious to health, says a report of a committee of the New York Academy of Medicine made public. It is urged that remedial measures be devised.

YEAR OF ADVANCE

Canada Rightly Proud of Its Achievements in 1922.

Has Bravely Met and Overcome Depression Following the War—Financial Standing as Nation High.

The year 1922 in Canada, Western Canada particularly, has been a year of quiet achievement. If there has been nothing in its development of a spectacular nature, there has been a steady growth, a resolute elimination of things immaterial to prosperity.

The year 1923 is entered upon by the people of the West in high hope that it ushers in a period of prosperity based upon the productivity of the country and the vast riches of its natural resources.

Canada, in common with all other nations, has felt keenly the cycle of depression following the spurious activity and inflated business coming immediately after the cessation of the war. It has met and overcome many obstacles in the path of its prosperity. The year just passed, however, has seen the silver lining peep out from the edges of the dark cloud and has demonstrated to the world the celerity which this country can adjust itself to changed conditions. This is evidenced by the fact that Canada has been the first among all countries whose currencies fell below par to bring that currency back to par, and even for a time above par. It did this in the face of what seemed insuperable difficulties, increased its exports, lessened its imports, and generally set its business house in order.

The high standing of Canada as a nation is shown by the ease with which her bonds are absorbed and by the high prices paid for them, and Winnipeg, it may be mentioned, in a recent flotation obtained a higher price than even any provincial government for some time.

Western Canada in 1922 harvested its largest grain crop. Its production of grain, live stock, cereal and dairy products will, when all is marketed, produce in the neighborhood of a billion dollars. There has been, and there still is felt considerable disappointment that the total value is not larger, but the fact remains that this vast sum of money has come to the West, or is in the process of coming, and if, as is undoubtedly true, much of it is used in the liquidation of obligations incurred in the past, it is but a safer and saner, if longer, road to that prosperity to which all are looking. In the process of reaching this prosperity it is inevitable that there must be some failures.

As a matter of fact, it is the opinion of many prominent business men that 1922 saw the corner definitely turned and that 1923 will commence the upward swing.—Advertisement.

His Dislike. "You are a confounded liar, an infernal idiot and a dirty blackguard!" cried one disputant. "And you are a driveling idiot, a chronic thief and a lounging loafer!" yelled the other. "Oh, deli deli!" said old Festus Fester, pushing forward. "Please explain what all this is about before you begin to fight. While I love trouble as much as any man, and more than most, I dislike to see my fellow citizens killed until I know what it is for."—Kansas City Star.

Popular. "She's a very popular girl, isn't she?" "Very. She has any number of friends spending the winter in the South, and all of them have written to say they wish she were down there with them." It is easier to raise a disturbance than a mortgage.

Try these Bakers' Raisin Pies —save baking at home

THERE are luscious raisin pies just around the corner, at your grocer's or a bake shop. Baked to a turn—a flaky crust filled with tender, tempting raisins, the rich juice forming a delicious sauce. Once try these pies that master bakers bake fresh daily in your city and you'll never take the trouble afterwards to make raisin pies at home. Get a pie now and let your men folks taste it. Made with tender, thin-skinned, meaty, seeded Sun-Maid Raisins. Raisins furnish 1560 calories of energizing nutriment per pound in practically predigested form. Also a fine content of food-iron—good food for the blood. Use raisins frequently, therefore, which are both good and good for you, in puddings, cakes, cookies, etc. You may be offered other brands that you know less well than Sun-Maid, but the kind you want is the kind you know is good. Insist, therefore, on Sun-Maid brand. They cost no more than ordinary raisins. Mail coupon for free book of tested Sun-Maid recipes. Learn what you can do with luscious raisins.

SUN-MAID RAISINS The Supreme Pie Raisin

Your retailer should sell you Sun-Maid Raisins for not more than the following prices: Seeded (in 12 oz. blue pkg.)—25c, Seeded (in 12 oz. red pkg.)—15c, Seeded or Seedless (in 12 oz. blue pkg.)—25c, Seeded, in 5 lbs (25c)—15c. CUT THIS OUT AND SEND IT TO: Sun-Maid Raisin Growers, Fresno, California. Please send me copy of your free book, 'Recipes with Raisins'. NAME: STREET: CITY: STATE:

Australian Cotton. Crawford, Vaughan, managing director of the Cotton Growing association, speaks optimistically of the prospects of cotton growing in Australia. In 1921 under 1,000,000 pounds of seed cotton was grown, in 1920 2,000 growers produced 4,000,000 pounds, and in 1923 it is estimated that 15,000 growers will produce a minimum of 25,000,000 pounds, and possibly 50,000,000 pounds. It is estimated that the present acreage, 70,000, will be doubled in 1924. The Cotton Growers association is spending \$1,000,000 this year for additional plants. A large spinning plant in Sydney is being constructed, using Australian cotton as a prelude to a great manufacturing business.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble. Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions. Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

Oil in Australia. The assistant government geologist employed by the Freney Kimberley Oil company sends a very hopeful report about the oil bore at Mount Wynne, Kimberley, Australia. The bore is down 125 feet, and between the one hundred and ninth and one hundred and twenty-first foot passed through broken strata with beams filled with asphalt, which must have migrated from oil-bearing beds below. The prospect area is now restricted within definite limits, which simplifies the work, and there are prospects of a successful issue before long.

DISCOVERS A PRIMITIVE TRIBE

Strange People in Daghestan Think Americans Walk Upside Down.

A tribe so primitive that it believes Americans live on the bottom of the world, and are therefore in darkness, has been found in the mountain villages of Daghestan by Dr. E. A. Solder of the Hoover foundation. These people, Dr. Solder said, upon his return here, think that Americans do their plowing while walking upside down with oxen to whose horns candles are tied. Believing that the world is table shaped, with themselves on its top, they feel that the Americans are indeed unfortunate because they are compelled to live in eternal night. Doctor Solder said that in many of the villages, decorations created Mrs.

Meets Son as She Goes to Claim Body

Notified that Harry Rowntree, of Toronto, Canada, had been killed in a fall from the window of a hotel in Buffalo, N. Y., Mrs. Rowntree, his mother, went to Buffalo to claim his body. On the way from the station to the morgue she met the supposed dead son on the street.

pointing as my special guard a one-eyed bandit, who had thirty-five watches in his wardrobe. He would not let me out of his sight." As a result of Doctor Solder's visit into this unfrequented region, the American Relief administration has sent relief for 10,000 children to the

Keep the Record Straight

The Republican press of the state is indulging in rather severe criticism of the granting of an oil and gas lease on 100,000 acres of state land by State Land Commissioner Justiniano Baca to Senator A. L. Zinn, of Tucumcari. The critics of the commissioner, while condemning the transaction, admit that under the Republican administration large areas were leased, under less favorable terms to the state.

Commissioner Baca is of the opinion that the greatest material boon for the state, within the range of possibility at this time, is the discovery of oil in commercial quantities within its boundaries; hence he is encouraging the drilling of prospect wells, requiring, in the contract, thorough tests, forfeiture to be the penalty for incomplete tests.

The policy is commendable, and should be the means in bringing large sums of money into the state for development purposes. The honor and integrity of Commissioner Baca, as well as his sincere desire to be of service to the state, are above question. The commissioner may be imposed upon, and may make mistakes, but those well acquainted with him and his assistant, William M. Atkinson, know that there will be an honest administration of the office.

When a mining prospect has been operated and the miner abandons it without striking pay dirt, the market value of the property declines, by reason of the failure of the first operator to develop workable ore; and the same rule, no doubt, applies to wild cat oil leases. After one company abandons a field it becomes more difficult to raise capital to make further tests.

If Commissioner Baca's policy—which appears to be sound—results in the thorough prospecting of the state for oil and the elimination of conscienceless speculators in leases, who mulct the people of their savings without giving anything in return, he will deserve the thanks of his constituents.

The New Goodyear Cord with the Special All-Weather Tread

THE "special discount" is tempting, but not when you understand who pays for it. The tire dealer doesn't pay for it. The manufacturer cannot afford to. Chances are it comes out of the quality of the tire, so, after all, you pay for it. None of the quality of Goodyear Tires ever is sacrificed to "special discounts" or anything else.

At Goodyear Service Station Dealers can sell and receive money for Goodyear Tires and back them up with standard Goodyear Service

Vincent Rail, City Garage Carrizozo

Duty-Free Sugar Lower than Taxed Sugar

Fine granulated sugar is selling for export at about \$6.60 per 100 pounds f. o. b. New York.

Fine granulated sugar for domestic consumption is selling at wholesale in New York for about \$9 a 100 pounds.

The sugar for export is refined in this country under bond and since it is to be shipped abroad, pays no tariff duty. The sugar sold to Americans is taxed at the rate of \$1.7648 a 100 pounds—or a difference of \$2.40 between the sugar which pays the tariff and the sugar which is duty free.

Will any republican deny that the tariff accounts for at least \$2 of this \$2.40 a hundred? If he does deny it, will any one of ordinary intelligence believe what he says?

Parsons News Letter

Della and Opal Wingfield, of the Ruidoso, are staying with their grandparents and attending the Parsons school.

Mr. and Mrs. J. H. Fulmer and son Walter and Mr. John E. Wright, of Carrizozo, motored to El Paso and back this week.

There is quite a little sickness still in the neighborhood, but most of those afflicted are reported better.

Mr. James Harbison, the popular school teacher, went home for the week end and was detained on account of sickness. He missed several days of school, but is now back on the job.

Robert Poague was home for a few days from Carrizozo where he is attending school.

From all appearances, it would seem that the weather man got his dates mixed and has sent in the advance guard of the rainy season. Instead of April showers we have one day a Christmas

Firestone

will not increase prices until May 1st

Firestone Prices on Fabric and Cord Passenger Car Tires and Tubes, also Solid and Pneumatic Truck Tires Will Advance May 1st

The postponement of this price revision is possible only because of our realization of the price danger in the British Crude Rubber Restriction Act which became effective November 1, 1922. We were fortunate in our rubber purchases before the Restriction Act increased the price of crude rubber 150%.

We have always endeavored to champion the cause of better made tires delivered at lowest cost to the tire user by economic manufacturing and distribution. And we are glad of the opportunity to give the car-owner the additional saving at this time.

Firestone Cords embody certain special processes which result in their producing

mileage records, heretofore unheard-of in the industry. Among the more important of these superior methods are blending, tempering, air-bag cure and double gum-dipping.

Firestone Dealers are co-operating with us in our movement to supply your needs at present prices as long as their stock lasts and we have advised our dealers that we will supply them with additional tires this month only so far as our output will permit.

See the nearest Firestone Dealer. Purchase a set of these Gum-Dipped Cords. Prove for yourself their remarkable mileage advantages and only being qualities.

COMMISSIONERS' PROCEEDINGS

April 17, 1923—Special meeting of the Board of County Commissioners. Present:

Robert H. Taylor, Chairman; Brack Sloan, Member; R. M. Treat, Clerk.

Regarding the proposed improvement of that portion of the highway between Three Rivers and Carrizozo, the following resolution was made:

"Whereas, the Board of County Commissioners and the State Highway Commission have agreed to make the said improvements as a cooperative State-County project, and

"Whereas, the Board of County Commissioners has agreed to furnish \$3,000.00 for the cost of said improvement,

"Now, Therefore, Be It Resolved, that the said \$3,000.00 be made a part of the County Road Budget of Lincoln county for the current year, and upon the collection of the County Road Tax, to be levied and placed upon the tax roll for the year 1923, a County Warrant for the said sum of \$3,000.00 will be forwarded to the State Highway Engineer, being the county's portion of the cost of said improvement."

Regarding the two trucks to be purchased through or from the State Highway Commission, the following resolution was made and ordered by the Board:

"Whereas, the Board of County Commissioners of Lincoln County has received from the State Highway Commission two F. W. D. Trucks, described in a certain contract dated the 7th day of April, 1923, by and between said county of Lincoln and said State Highway Commission, under which contract the county undertook to pay to said Commission One Thousand Dollars, and

"Whereas, the county has not the funds at the present time to pay the same;

"Now, Therefore, Be It Resolved, that the County of Lincoln will pay said sum \$1,000.00 at the time of receiving the taxes to be paid for the second half of the current year, viz: June 1, 1923."

Regarding the closing of the crossing, which is near 148 1/2 mile post, the Board hereby states that in case permission is allowed for crossing near 148 mile post, it will close the crossing near mile post 148 1/2.

No further business appearing, Board adjourns subject to call. Board of County Commissioners.

By ROBERT H. TAYLOR, Chairman, Attest: R. M. TREAT, Clerk.

Call for Bids

For the building of a fence on the Carrizozo-White Oaks road, bids will be received for a four-wire fence, No. 12 black wire to be used and posts to be set 26 feet apart and set in ground at least 18 inches, and about 6 1/2 miles fencing to be built; also 1 1/2 miles old fence to be moved over a short distance, and all posts to be not less than 2 1/2 inches at small end, not less than 6 nor more than 6 1/2 feet long. All bids will be sealed upon the first Monday in May. For further particulars, see any member of the Board of County Commissioners. The Board reserves the right to reject any and all bids.

All the material to be furnished by the person doing the work, and they must give bond in double the amount of their bid.

By order of the Board of County Commissioners, R. M. TREAT, Clerk.

Announcing Our Co-Operation in the New

Ford Weekly Purchase Plan

Following out our policy of extending the facilities of this Bank in whatever way we can to serve the public, we have arranged to give our co-operation to the new Ford Weekly Purchase Plan.

We realize what the automobile means to the average family in bringing them greater enjoyment in life, and believe our action in helping those who desire to become Ford owners will be appreciated by many families who can now realize that ambition through the new Ford Weekly Purchase Plan.

Under this plan, you can begin with an initial deposit as low as \$5.00. Then select the type of Ford car you want—Touring Car, Runabout, Coupe, Sedan, etc.—and arrange to make weekly deposits on which interest will be computed at our regular savings rate.

Come in and let us explain the Ford Weekly Purchase Plan to you; or, if you wish, go to the nearest Ford Dealer for further details.

Start today, and before you realize it you will be driving your own car.

Lincoln State Bank, Carrizozo. First State Bank, Capitan. Exchange Bank, Carrizozo.

Notice of Clean-Up Day

Now that spring is upon us, with the usual cessation of winds and the more frequency of showers, we naturally want to enjoy the more beautified Village that nature in this way provides. Much more will be the enjoyment, however, and much more the beauty of our Village, if we put forth an effort at this time to clean up the streets and alleys and all vacant lots, and all other places, where filth and trash have accumulated during the winter.

With this end in view, I hereby proclaim Saturday, May 5, 1923, CLEAN-UP DAY; and upon this day vehicles will be provided and call for all rubbish and trash that you may have gathered together convenient for loading. All are urged to put forth an effort to clean up their premises before the above date, and in this way do their part in this much needed service.

JULIAN M. TAYLOR, Mayor. 4-20-23

AUTOMOBILE OWNERS TAKE NOTICE

I find that a number of automobile owners in Lincoln county have not yet made application for their 1923 license, and it is my duty as Sheriff to remind them of the fact that the law is strict, and requires me to apprehend the owners of all cars that do not bear a 1923 license plate. It is an offense, punishable by a fine, and every day the car is operated constitutes a separate offense. It is not my desire to apprehend any car owner on this charge, but the law makes it my duty.

You will oblige by calling at the court house and making your application at once. E. W. HARRIS, Sheriff Lincoln County. 4-13-23

LOCAL AND PERSONAL

Judge Seth F. Crews and Dr. Guido Ranniger were visitors from Oacuro Wednesday.

See the Mayor's proclamation for "Clean-Up Day." Nature is doing all it can—let's help.

The Civic Societies will, no doubt, join the Mayor in the effort for a Cleaner Carrizozo.

It has been a long road, but it looks like 1923 will be a good year to clean slates.

Mining has a looking up tendency, locally; maybe old Lincoln county is coming into her own.

A million dollar rain, from a material calculation, and psychologically its benefits are incalculable.

The new County Board of Education, composed of the three County Commissioners, held its first meeting Tuesday.

Cinco de Mayo is the date set for a Clean-Up of the Village. Societies and individuals should give every aid to the movement.

Carrizozo Trading Company, The Store of Class, where quality rules; the home of Lee Overalls.

Mrs. J. H. Angell is in town this morning on her way to her home at Corona. Mrs. Angell has been visiting a son at Fort Stockton, Texas, the past month.

Mrs. George L. Ulrich returned Sunday from Los Angeles. Mrs. Ulrich has spent the winter with her son Tom, who has a lucrative position on the coast.

H. Conbruch was here Wednesday and Thursday of this week. The old veteran, who is in his 83d year, more than half

of which number he has spent on the Bonito, has a deal pending on some mining property which he has owned all these years. He expects preliminary development work to begin on the property at an early date.

Mrs. E. E. Cole, who has been making a hard fight against pneumonia, and the complications following the attack during the past two weeks, is still in a precarious condition.

"Shorty" Dawson has been chosen manager of the base ball team. "Shorty" was quite successful as manager three years ago, and he believes he has just as good material this year.

W. R. White, the Ruidoso saw mill man, was over Tuesday. Sallie is contemplating the building of a swimming pool for the entertainment and comfort of the summer colony on the "Doso."

L. P. Hall, of Aucho, was here Saturday. Mr. Hall stated that he would leave this week, overland, for Chisno, Texas, and intimated that he probably would not return alone. Best wishes, for you and yours, L. P.

Mrs. Gumm, postmistress, took a couple of days off this week, and, accompanied by her son Deane, visited the Ruidoso and Hondo country. They report a pleasant trip, even though encountering a snow storm while in the hills.

Senator E. M. Brickley returned yesterday from Albuquerque where he had been confined in a hospital the past two weeks. He returned much improved and says the surgeons put all parts back together in good shape, and he is now running on schedule—hitting on all cylinders.

New Movie Manager

Robert H. Taylor took charge of the Crystal Theatre this week as its new manager. W. T. Sterling, the owner, and until recently manager of this popular house of amusement, is going to his ranch near Oacuro, and will be followed by his family at the close of school. The Sterlings expect to return for school next fall.

Mr. Taylor will, as manager, continue to show the same high class productions as have made this house popular, improving the entertaining features as the conditions warrant. Some bookings of interesting films have already been arranged.

The fifth Sunday meeting of Lincoln Association convenes with Mountain Park church Friday evening, April 27. Churches in Lincoln and Otero counties will be represented.

We hope to see you at our services the coming week. If we can be of service to you or to your neighbors at any time call us at phone 62. We are in Carrizozo to serve.

Delicious are the candles now at Mrs. J. K. Such's 2-16

NOTICE OF SUIT

In the District Court, County of Lincoln, State of New Mexico.

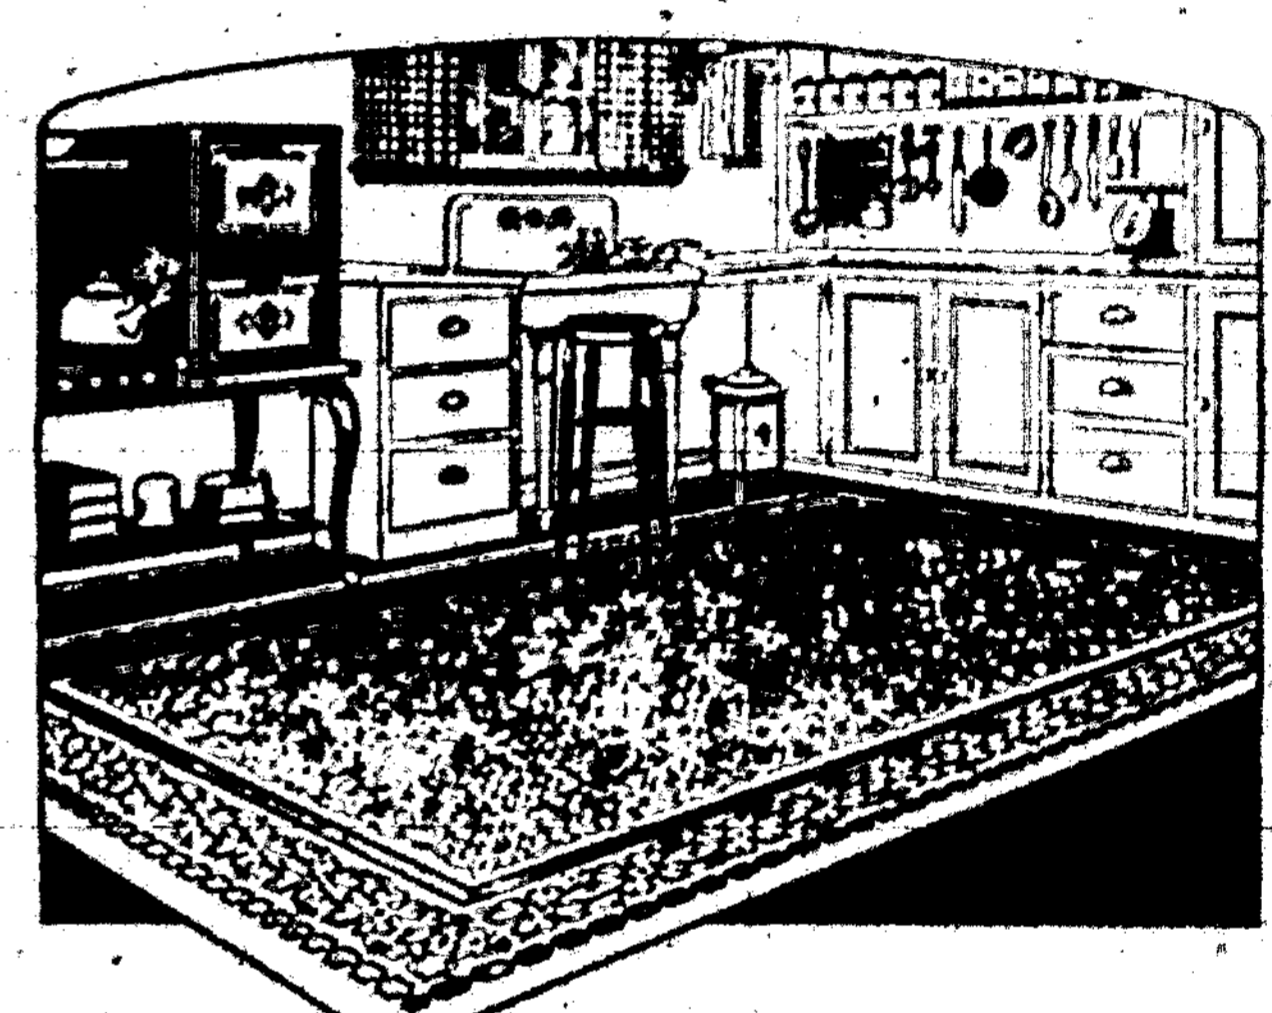

State of New Mexico to J. B. De Arman and Eunice Craddock, Defendants.

Greeting: You and each of you are hereby notified that a suit has been commenced, and is now pending in the District Court of the Third Judicial District of the State of New Mexico, in and for the County of Lincoln, entitled "First State Bank of Captain, New Mexico, a corporation, Plaintiff, versus J. B. De Arman and Eunice Craddock formerly the wife of J. B. De Arman Defendants," said cause being numbered 3359 on the Civil Docket of said court, and the object of which is to foreclose a certain mortgage deed given by the defendants to secure the payment of a promissory note for \$320.71, and to foreclose the lien of said mortgage deed upon the real estate, situate in the county of Lincoln and state of New Mexico, described as follows, to-wit: West half of Southeast Quarter; East half of Southwest Quarter of Section Ten, Township Nine South, Range Thirteen East, New Mexico Principal Meridian.

You and each of you are further notified that unless you enter your appearance in said cause on or before the 12th day of May, 1923, judgment will be entered in said cause against you by default, and plaintiff will apply to the court for the relief prayed for in his complaint, and the land and premises above described will be sold, and the proceeds arising therefrom, will be applied upon the indebtedness above mentioned; that A. H. Hupspath, whose postoffice address is Carrizozo, New Mexico, is attorney for the plaintiff.

Witness my hand and the seal of said court, this 26th day of March, A. D., 1923.

[SEAL] R. M. TREAT, Clerk.

LINOLEUM is the Ideal FLOOR For KITCHEN

In Summer your Kitchen floor should be cool. But in winter, naturally, you want a warm floor. No floor meets these requirements so well as Linoleum. It is made mainly of cork, the best non-conductor of heat known. In summer it is cool; in winter, warm. Because there are no cracks in a Linoleum floor. It is warmer than the average wood floor.

LINOLEUM is sanitary and easy to clean. It saves you hours of scrubbing. It is comfortable to tired feet, a point to think of if you have to stand at your work. It is durable and inexpensive. Furthermore,

Every yard of A MSTRONG'S LINOLEUM is guaranteed to give entire satisfaction. Our stock includes both printed patterns and inlaid designs that run clear through to the burlap back, and last till the floor is completely worn out.

Our prices will interest you.
