

THE OUTLOOK.

VOL. II. No. 5.

CARRIZOZO, N. M., JANUARY 31, 1908

PRICE, \$1.00 PER YEAR

FINE TROPHY OFFERED

Territorial Engineer Offers Cup for Best Article on Irrigation Written by A Practical Farmer.

Vernon L. Sullivan, territorial irrigation engineer, has offered a trophy cup to the New Mexico farmer who writes the best fifteen hundred word article on his own experience in the raising of crops by irrigation in the territory. The offer is a timely one and indicates that Mr. Sullivan is co-operating heartily in the work of stimulating interest in irrigation, and New Mexico farming, in view of the approaching irrigation congress in Albuquerque. Mr. Sullivan asks the support of the territorial press in this proposition, which will of course be heartily given. The conditions of the offer are set forth in the following letter from Mr. Sullivan:

Gentlemen: Realizing that there has been but little done in the territory to assist the irrigation farmer in obtaining better methods in the use of water for irrigation purposes, the territorial engineer has decided to offer a trophy cup to the farmer who will write the best article of not over fifteen hundred words from his own experience tending to show economical methods in the use of water to obtain the best results, provided that the newspapers of the territory will assist him in the way of publishing two or more of the best of these articles.

The object is to assist in bringing about better methods in irrigation and a general education to the irriga-

ting public, and believing that the best results can be obtained through the medium of local newspapers, I am writing you to know if you will assist this department in the way of publishing notice to the farmers of your locality of the chance to try for this trophy, and later, several of the articles written by them.

In case you will co-operate with this department in this matter, the engineer will forward to you description of the trophy and the instructions regarding the writing ofers in your locality can be informed through columns of this of this department to receive articles from them. Yours very truly,
VERNON L. SULLIVAN,
Territorial Engineer.

NEW IRRIGATION PROJECT.

Messrs. John H. Frazier and Nonh Barfoot completed last week on the homestead of R. L. Bateman son of Chaplain Bateman, of Fort Bayard, a reclamation dam which will inclose a reservoir having an area of two acres and will hold over a million gallons. This is a very substantial piece of work, and makes possible a complete system of irrigation on the Bateman ranch of 100 acres. The outlet and bulkhead were erected by J. W. Harlan, the veteran contractor of Fort Bayard.

MR. PRINTER—HOW DO YOU LIKE THE NEW EIGHTEEN-PINT BORDERS WE SHOW THIS WEEK. WE CAN SUPPLY THEM IN ANY QUANTITY AT SHORT NOTICE. SEND US YOUR ORDER.—THE CARRIZOZO PUBLISHING CO., CARRIZOZO, N. M.

METHODIST CHURCH REORGANIZES.

Rev. J. Allen Ray, who has been holding meetings here during the last few weeks, has consented to give up the position as Conference Evangelist to accept the pastorate of the church here. Mr. Ray, in doing this is sacrificing several hundred dollars in salary and a great work in evangelism. He is a highly educated, broad-minded, conservative man and if he receives the support he deserves will accomplish a great work here. The church was reorganized Sunday with about fifty members, many of whom were from other denominations, and will have at least one hundred members. The three room parsonage will be completed next week and within a few months a church will be completed to correspond with the liberality of the citizens of the town.

BIBLE-CLASS SOCIAL.

The Bible Class of the M. E. Church will hold its third monthly social at the Bank Hall on Wednesday evening, February 5th. Among other attractions will be a humorous and instructive lecture by Rev. J. Allen Ray. All are invited. No admission fee will be charged but a collection will be taken up to pay the expenses of the hall for a celebrated lecturer for the next meeting.

IRRIGATION CONGRESS

Attracting Wide-Spread Attention All Over the Country.

Albuquerque, N. M., Jan. 23, '08. Preparations for the Sixteenth National Irrigation Congress are progressing very satisfactorily. The office of the Congress on the first floor of the Commercial Club building in Albuquerque is a very busy place. Col. Hopewell, chairman of the Board of Control, and Col. Twitchell, Secretary of the Board, aided by a corps of efficient clerks are engaged day and night in sending out all sorts of advertising literature to the various executive committees and others prominently identified with irrigation matters in the seventeen states and territories under the Reclamation Act. A great deal of correspondence is also being carried on with eastern manufacturing firms, farm journals and commercial organizations. A wide-spread interest in the great session of the congress is made evident by the great amount of correspondence. Letters are coming in from men high in the affairs of the nation, of States and from our sister territory of Arizona. The board of control is in correspondence with a number of foreign governments notably Great Britain and Mexico. All of the correspondents living west of the Missouri river are interested in the Inter-State Industrial Exposition that will be held with the Congress and to be a part of and followed by the 28th Annual Territorial Fair. Letters are also being received from great manufacturing concerns desiring to give trophies for various kinds of exhibits at the Exposition.

The Hotel Temple, with Mrs. A. E. Long as proprietress, will open for business with a six o'clock dinner on the evening of February 3rd. A free dance and refreshments, at which all are invited to attend will be given in the dining-room on the evening, February 3rd.

AMONG THE MINES

Lincoln county mines continue to attract much attention both here and abroad, and the interest in them grows as the knowledge of the mineral deposits become known.

The work being done by the Eagle Mining Company at Parsons was given nearly a half-column of space in the New Mexican one day last week, and other propositions are noticed in the papers both here and the east.

The Guy Clifford Company is preparing to do some extensive development work in the near future, and some machinery has been unloaded for that purpose.

Martin Fishback and associates, of El Paso, were here the first of the week and went out to the Yellow Jacket with a view to investment.

A big plant for cement manufacture at White Oaks is practically assured, and two extensive iron propositions are taking definite form.

It is a practical certainty that two hundred thousand dollars or more will be expended in development work on the Buster Brown during coming season, and last, but not by any means least, it is officially announced by the Vera Cruz people that a large cyanite mill will be erected on their property nine miles from here, this spring.

With such activity as this in progress all around us what may we not expect the year of 1908.

CATTLEMAN GOES TO PEN

Trinidad, Colo.—Long Meridith, a well-known cattleman of this section, was notified recently of the fact that the Supreme Court of New Mexico had sustained the lower court at Clayton, N. M., which convicted him of cattle stealing, and fixed the penalty at three and one-half years in the penitentiary at Santa Fe. He left at once without an officer for Santa Fe, and will stop at Las Vegas en route to get an order from the judge to enter the penitentiary.

DRY FARMING VS. LEASING.

The more the question of the leasing of the public range to livestock growers is discussed the more the appearance that this policy if adopted would be detrimental and would retard the settlement of vast stretches of public land, especially in Colorado and New Mexico. On the other hand the more the methods of dry farming under the Campbell dry culture system or a similar method is coming into use and favor the more quickly and the more securely will many of the mesas and dry lands of the southwest come into actual use agriculturally. Dry farming means a settler and his family and a home, some livestock, fences and other improvements, and cultivated land on each 160 acres, and that is exactly what is wanted. A good deal of this process has been going on in New Mexico for the past three years. It is now going on and is steadily increasing.

Referring to the questions of dry farming and range leases the Denver Republican takes the right view of the situation, editorially holding that while the delegates to the national live stock convention have been debating the question of leasing the public range, a convention of western men has been in session in Salt Lake City discussing the problems of dry farming on the plains and timberless plateaus of this part of the country.

Dry farming and range leasing are in direct conflict. The former holds out a promise of people; the latter of cattle and sheep. Valuable though the live stock industry is, it should not be made an obstacle to the settlement and higher development of the Far West.

It is the opinion of many men who have looked into the subject with care that dry farming promises the best results when associated with stock growing and dairying. Dry farmers who have small bunches of cattle or sheep may fit the aggregate keep a much larger number of animals than all the owners of big herds and gigantic flocks. They acquire homes and become owners of the land they cultivate. They are taxpayers and permanent residents, supporters of schools and churches and of the local governments.

Their representatives, assembled in the dry farming congress in Salt Lake, are considering all the problems which relate to the close settlement of the range region. To adopt the leasing system, thereby making government tenants instead of land owners, would be to defeat in a large measure the hopes of the men who are making to the plains and plateaus of the Far West as a land of promise. Let no eastern man advocate a policy which would place a check on western development.

NEW MEXICO AN AGRICULTURAL COMMONWEALTH.

According to the crop reporter for the month of December issued by the Department of Agriculture, New Mexico is not as low on the list as a producer of agricultural products as is generally believed by many people and even by citizens of the territory. Indeed every year the value of agricultural products and the acreage under cultivation are increasing at a very satisfactory rate. The value of the crops raised for the year 1907 are estimated at \$6,126,000, divided as follows:

Corn—42,000 acres planted, yielding 29 bushels to the acre; producing 1,218,000 bushels; price received, 72 cents; total value to the farmer, \$877,000.

Wheat—40,000 acres planted, yielding 24 bushels to the acre; producing 1,104,000 bushels; price received per bushel, 93 cents; total value to the farmer, \$1,027,000.

Oats—12,000 acres planted, yielding 38.5 bushels to the acre; producing 462,000 bushels; price received per bushel, 55 cents; total value to the farmer, \$254,000.

Barley—1,000 acres planted, yielding 26 bushels to the acre; producing 26,000 bushels; price received per bushel, 70 cents; total value to the farmer, \$18,000.

Potatoes—(white) 1,000 acres planted, yielding 100 bushels to the acre; producing 100,000 bushels; price received per bushel, 96 cents; total value to the farmer, \$96,000.

Hay—10,000 acres mowed, yielding 2.05 tons to the acre; producing 328,000 tons; price received per ton, \$11.75; total value to the farmer, \$3,854,000.

Total value of the six different crops, \$6,126,000

This is exclusive of fruit and vegetables. It is very apparent therefore that the agricultural and horticultural products of the territory are of the highest import and their value exceeds those of the sheep raising and cattle growing industries, which industries are next in importance.

In another decade the adjective "arid" will not be applied to New Mexico as far as agriculture shall be concerned. Of course the climate will not change materially and there will be many sections unfit for cultivation, but like Colorado of today, New Mexico will not only raise enough cereals, fruit and vegetables for its own consumption, but also a good deal for export.—New Mexican.

WHY NOT TAFT.

The voice of Iowa Republicans is for Taft. Shall the will of the people govern? William H. Taft has made good in the public stations to which he has been called. He retired from judicial office to accept the responsibility of the governorship of the Philippine islands. He has put behind him opportunity to go upon the supreme bench of the United States because it was made to appear that his service elsewhere could not well be spared. He is the trusted adviser and friend of Theodore Roosevelt, in whom the people of Iowa have large confidence. It is known in this state, as it is known elsewhere, that the president would be delighted to have the Republican national convention name Taft as the standard bearer of the party in the campaign of 1908.

Why not Taft?

The influence of the state administration has been steadily directed against the Ohio man. It was contended that the president himself "must" accept another term. The contention was made in the name of superior loyalty to the Roosevelt policies and in the name of superior leadership of the present chief executive. The president has made plain that he is not to be considered for a third term.

Why not Taft?

Unable to go on with the name of Roosevelt, the state administration is not yet willing to offer proof of faith in Roosevelt by saying the next friend of the president shall have the state's support. Instead it is said the Taft suggestion has gathered no strength. Instead it has been said the support of Roosevelt should be withdrawn and the state placed in the guardianship of his state administration's candidate for the Allison succession in the senate of the United States.

Why not Taft?

The adviser and friend of the president has made good in every station he has been called to. He is a man of large ability and corresponding modesty. He has adhered to the policy of faithfulness. He is a man of sincerity. He is a splendid type of the citizen in public trust.

Why not Taft?

Iowa Republicans can well support the secretary of war and preserve consistency in all they have professed in recent years. They can well give strength to his standard to the incidental end of reuniting themselves in the bonds of harmony. This they can do in all good conscience.

Why not Taft?

—Souix City [Iowa] Journal.

AS IF

BY MAGIC

The town of Carrizozo has grown up from the Plain, where, a little over a year ago there was nothing but a depot and water tank. There is a reason for this wonderful growth, and the same natural conditions which caused it will lead to a development within the next five years which has no equal in the history of the west.

A sample of Vegetables and Grain grown in the Carrizozo Valley without irrigation, on sod ground plowed up last year for the first time.

A NATURAL RAILWAY CENTER

It will be the crossing point of two or more roads.

The center of a vast mining region it will be the site for mills and smelters, iron furnaces and marble works, supporting thousands. Surrounded by one of the richest valleys in the southwest, it will be the trading point for farmers and fruit growers—a shipping point for

poultry, stock and fruit—a city of thousands. We are now offering inside lots at prices that will give the purchaser a fortune in the near future. We also handle mining and ranch property, and locate settlers on government land. For information write us or call at our office.

NEW MEXICO FACTS.

New Mexico has 2,000 miles of railroad in contemplation.
New Mexico has 8,809,840,000 tons of coal available.
New Mexico in 1906 property assessed at \$43,242,746.31, and in 1907 at \$48,509,097.26, an increase of \$5,266,350.95.
New Mexico has over 1,000,000 acres of land under cultivation and irrigation.
New Mexico has applications now on file for permits to construct water works and irrigate 654,500 acres.
New Mexico has public schools, universities and other territorial institutions which will compare favorably with many of the states of the Union.
New Mexico has established seventy-seven new postoffices since December 1, 1907, which means an increase in population of at least 50,000.

Camp City has finally succeeded in securing a postoffice, official approval of which was received on January 14, Leo Begman having been appointed as the first postmaster. While the office has been officially designated at merely Camp the new and hustling town will always be known as Camp City.

We heard on the street the other day of a man who claimed he was too poor to take his home paper, but all the same he read a notice in one of our country papers how to prevent a horse from slobbering, and sent \$1.50 for the receipt. When the \$1.50 worth of information came it said: Teach your horse how to spit.

A Small block of Carrizozo Development and Improvement Company stock for sale cheap. This offer good for a short time only. For particulars see Ira O. Wetmore.
Don't forget that 75 cents purchases one dollar worth of any kind of winter goods at the Carrizozo Trading Co.

LOCAL MENTION

If you see it here it happened.

Des Moines, New Mexico, has organized a "Booster's Club."

J. J. Hicks, of White Oaks, was a business visitor in our town on Tuesday.

Mrs. S. G. Anderson and family returned Monday from a visit at Lincoln.

Saloons in Tucson now close every night from midnight to five o'clock a.m.

T. T. Long came in Saturday and is spending a week or two at home improving his fine ranch.

Leo Gale, the well-known salesman from El Paso, transacted business in our town one day this week.

W. A. Forbes, representing the J. A. Dick Company, of El Paso, was interviewing the local merchants yesterday.

Sheriff Peter Schubert, of Torrance county, came in Wednesday morning and went over to Captain on business with the forester.

Miss Mary Murphy, of Dawson, came in yesterday and took the train for Capitan to visit her parents at the mountain town.

Saturino Lueros, a leading sheep grower of Willard, came in yesterday morning and took the train for Capitan on Forest Reserve business.

Clarence Spence, wife and three children, of Hopkington, Iowa, are visiting at the home of his brother George, of this city.

Sheriff John Owen was a business visitor in our town a few days the first of the week.

Deputy Sheriff John C. Adams made a business trip to Sierra county the latter part of last week, returning Monday evening.

George Miller, veteran of the civil war and pioneer of the Hassayampa district in Arizona, has mysteriously disappeared and it is believed that he is dead.

My new samples are now open at Skinner's Grain store. Full lines from both the Royal Tailors and W. B. Rose—one thousand of them. Call in and get a fit in any color, style or quality. J. W. Barrett.

Henry George, a leading farmer and business man of Monte Vello, Iowa, has been looking over the country here (this week) and investigating the sheep business as conducted in Lincoln county. He is so well pleased with the prospect that he may decide to locate in the "land of sunshine."

Miss Emma E. Anderson, of the Baptist Woman's Home Missionary Society, will speak at the Baptist church next Sunday evening at 7:30 o'clock. Miss Anderson is an interesting talker and the subject she presents is of vital interest to all in this region, so she should be met by a large audience Sunday evening.

Next week the box ball alley will give a prize for the highest score. The successful person will be presented with a handsome gold watch. Everyone is welcome. Friday afternoon has been set aside especially for the ladies but they are welcome and will meet with a hearty reception at any time.

Cap. E. S. Wright came up from El Paso last night to look after the local recruiting office. He says there is being much interest taken in the opportunities offered by the army, and that young men are looking especially to the mechanical positions and electrical positions, in which places are rare chances for attaining high positions.

Edward Billups was up from the Three Rivers country on business yesterday, and reports business as being good at the town down the road.

Miss Clara Adams has been on the sick list this week and unable to be at her place in this office, which accounts for the delay in getting the Outlook into the mail.

George Roslington and wife returned Saturday from an extended visit at his old home in England. They report a pleasant trip across the pond and a delightful visit in the old country, but seem glad to get back to the "land of sunshine."

Hans Johansen, a prominent manufacturer of Chicago, was in our city the first of the week and located a claim in the lower valley with a view of moving his family out here at once and making his home in Lincoln county.

J. S. VanSickle, a smelter hand in the Southwest Smelter at Orogrande, was shot and killed by Frank Brown, a miner, of that city on last Tuesday evening. Brown escaped into the mountains, but a posse is scouring that part of the country for him.

Superintendent L. C. Barlow, of the Vera Cruz mine, and wife spent a few days in El Paso this week. Mr. Barlow informs us the Vera Cruz company is arranging to begin work very soon on their large cyanite mill, which will more than double the output of the property, besides saving values which have been lost heretofore.

The Bible class, under the instruction of Mr. Sager, is increasing in attendance and interest at every meeting. In fact the whole Sunday School is one of the best in the territory.

Mrs. H. S. Campbell, took charge of the junior boys class Sunday. Let all parents who have boys from 7 to 16 bring them next Sunday at ten o'clock so that they may begin the study at once and under such an able teacher.

GOOD AMUSEMENT

One of the leading amusement companies now on the road held forth at Kelley's hall for four nights last week. We refer to the Crystal Amusement Company, with its very choice selection of moving picture reproductions of real life and selections between acts. Manager J. A. May is a veteran theatrical manager who takes no stock in the saying which is attributed to the late P. T. Barnum, that "the American people like to be humbugged" but he believes that in the show business, as well as in other lines, merit wins, and he makes it a point to furnish the real thing to his patrons.

Among the scenes presented are comical and amusing for the children and vivid portrayals from real life which interest and instruct even the most practical of the older folks. For a clean, interesting and beneficial entertainment we can recommend this company to all, and if it should return to Carrizozo at any time it will doubtless be met with more liberal patronage than at this its first appearance.

CLEAN-UP SALE

To enable us to hastily dispose of all fall and winter goods we have marked all of such goods down to the two prices—\$15.50 and \$19.00. This means a reduction of from \$3 to \$5 on each suit. Suits that sold last fall at \$23.75 and \$24.00 are now being offered at the first quoted prices. Call and see samples at Skinner's Grain store Spring samples are now in.

ROYAL TAILORS CO.

J. W. Barrett, Agent

To my friends and patrons: I am doing a little barber business at my new stand in Skinner's Grain store. Call and see me. J. W. Barrett

Fancy California oranges. Special prices by the case. Carrizozo Trading Co.

You will find the most up-to-date line of shoes in Carrizozo to be at Peoples Bros. Cash Store.
