score they were a tough old bunch all right. The game was a regular "merry-go-round" and when one side got tired going round the others relieved them. The game lasted for a while. The game was played for a while. The game proved very satisfactory as the boys were tried out in almost every different position on the field. "Burro," who is a regular player on the Carrizozo team, played in the box for the Four T's, and he pitched a good game, too. Tom Johnson was the other half of that battery, and he made the natives sit up and take notice. Mr. Henry acted as umpire and his work was up to its usual high standard. After about four hours work and when every one was ready to holler quits, the score keeper said the T's had won by a score of 15 to 14, but Chas. Adams has protested the game and declares he will carry it up to the National Commission for adjustment as he says that the T's ran in a hard rubber ball when they were at bat and that his squad had to pound out a bump out of a beer keg. "We don't allow to take sides in this matter, but you all know how hard Chas. Adams does lose."

Ira O. Wetmore was in El Paso on business one day last week and while seated in the lobby of the hotel had his attention called to a lady dressed in one of those now-forgotten dirndl gowns. Ira was telling some of his friends about the costume when he gave it as a pair of overalls covered with a gunnysack, with the sack ripped up one side.

If we ever run for president we will assuredly have to get out of the newspaper business, otherwise there will be darn'd little time devoted to the race.—Daming Graphic.

Manager Adams of our local "ball team" and Manager Bell of the Ft. Stanton team have made arrangements to play here on the Fourth for a purse of \$50. The winner to take all.—"Put a bet down on Carrizozo for me."

Claro Pedrosa, proprietor of the "Port of Cuba" restaurant, who has been confined to his bed with illness for the past three weeks, has so far recovered as to be able to cater to his customers again.

On last Saturday evening officers made the discovery that two slant-eyed sons of the Celestial Kingdom were hidden in a caboose in the local railroad yards. They were taken from their hiding place and placed in the town jail for a few hours and then taken to Alamogordo, where they will have the privilege of proving to the inspectors their right of being in this country. There seems to be many chinamen seeking to get safely within our borders recently, and they adopt many novel and unique plans of trying to dodge the officers. There is no doubt that they receive assistance from this side of the line and probably succeed in reaching their destination in many cases. The following is clipped out of the El Paso Herald, and is a dispatch from Tularosa, N. M., under date of June 23.

"Sixteen chinamen in charge of two white men, who gave their names as John Henry and Gill Bush, were pulled from the depths of a covered wagon at this place yesterday morning and arrested by deputy Beisece, who, with W. E. Mathews, will take them to jail at Alamogordo. They drove up from El Paso and they say

they were going to Carrizozo. Local immigration officers were on the trail of the white men and chinamen and immigration officials here say that the names of the men, Sullivan and Carl Adamson, although such are not the names given at Tularosa. The two men are now in jail at Alamogordo, according to local authorities, and are being held charged with conspiracy to aid and abet the unlawful entrance of Chinese.

Adamson, it is said by the immigration men, is the one who witnessed the killing of Pat Garrett, near Las Cruces, several months ago. It is further stated that while numerous captures have been made recently and also that numerous Chinamen have succeeded in getting past the authorities that the practice has been going on quietly for a long time, and that it is due to the activity of the immigration men here that the operations are being brought to light.

Follow The Crowd to the Big Store

This was the motto last week, it will hold good all the time. The immense success of our big feast of bargains last week fully demonstrated the truth of our statement, that "We lead in low prices." It is a strong advertisement for us to see others trying to follow. No better proof could be given.

This week we are still offering the balance of many lines of dry goods and groceries at the

Come in and take advantage of the bargains. They will be all closed out while they last.

Mrs. Marshal Parker, of the McDonald addition, was found dead in bed on last Sunday morning by Miss Wingfield, and it is supposed, that death was due to heart failure. She was about seventy-five years of age and has been failing in health of late. The funeral services were held at the home on Monday afternoon, her remains being taken to White Oaks and entered in the family plot at that place. Mrs. Parker leaves a son, Sidney, who is married and lives at Alamogordo.

The following account of the success of an ingenious pumping plant in the Estancia valley is published in the Estancia News, and will be of the greatest interest to every farmer in the valley. It shows what an inexhaustible supply of water can be obtained on the Estancia plateau and some of the possibilities of pumping for irrigation in that section. The News says:

"Last Saturday morning we had the pleasure of driving out to the claim of Sylvester Spore, about three miles east of Estancia, and taking a look at the immense pumping plant just installed there. That it is the greatest thing of its kind in the valley goes without saying, and throwing as it does almost a thousand gallons of water every minute, it will make the desert 'to blossom as the rose' in deed and in truth.

Mr Spore has a well or deep tank, dug twenty-three feet beneath the surface, twelve feet wide and forty feet long. This is curbed up to a height of eight feet with timbers. In the bottom of this reservoir he has sunk two wells, sixty feet deep, to the second stratum of water. The first water was struck only a few feet beneath the surface, but was not a very strong flow. When the second flow was struck, however, the water raised several feet in the reservoir or well. To the south and east of this well-reservoir, Mr. Spore has constructed a surface tank, throwing up dykes around it to a height of several feet, from this tank ditches lead off across the fields a distance of a mile and a half, around a hill, making it possible to water an immense area of fertile soil.

The pump is an endless chain bucket pump, manufactured by Seaman & Schurz company, each bucket having a capacity of twelve and one-half gallons. This pump is run by an eight horse power Kansas City portable gasoline engine. By actual count, the average for several minutes, was seventy-six buckets of water dumped into the flume, thus throwing at the rate of nine hundred and fifty gallons every minute.

The water stands fifteen feet deep in the well-reservoir and it requires several hours pumping, even with this immense pumping capacity, to take the water from the well, but in a very short time after pumping, is stopped the well is as full again as ever.

This pumping plant which is in the nature of an experiment, proves irrigation by pumping is not only possible but practically as well, and that the flow of water to be obtained at a reasonable depth is practically inexhaustible. While it is conceded by all, that in some seasons, paying crops can be raised in most parts of the valley without irrigation, there will be seasons, as there always have been, when the farmer who has a pumping plant to depend upon will be able to carry his crops through a dry spell and in the end reap a bountiful harvest, more than paying the cost of investment. Mr. Spore will reclaim, by means of this plant, a large acreage of land in his neighborhood, which different members of his family are holding under the desert land act.

Every day's mail and express brings new prizes to the board of control of the National Irrigation Congress. Never before have so many trophies been offered. Scores of big corporations have taken a hand, and are doing their best to encourage useful and interesting competition. Among the important branches in which prizes will be available is forestry. One of the largest trophies is a cup offered by the Diamond Match Company for the best state exhibit of commercial woods. The Associated Commercial Bodies of California, have offered a valuable prize for the best exhibit of sugar beets and beet sugar. The Albuquerque session of the congress beginning September 20, will be by far the most elaborately arranged and most widely advertised and the most practical and useful ever held by the irrigation people.

The following is from the columns of the San Marcial Standard, and shows how Bro. DeYoung stands on the matter of community boosting: "San Marcial must turn out in a body and celebrate at San Antonio and Carthage. The good-fellowship that exists between the towns will thus be augmented. San Antonio and San Marcial are bosom friends, let us go up and sit in the shade of the Tamaracks and negotiate new alliances of friendship with our deserving neighbor."

How much more brotherly and appropriate is this evidence of good-fellowship between neighboring towns than is the customary presence of knocking and back-biting.

When Mark Twain was editing the Virginia City Enterprise, writing copy one day and minding the next, a superstitious subscriber once wrote and said that he had found a spider in his paper. Was this good or bad luck? Twain replied to him in the "Answers to Correspondents" column as follows: "Old Subscriber! The finding of a spider in your copy of the Enterprise was neither good or bad luck. The spider was merely looking over the pages to find out what merchant was not advertising, so that it could spin its web across his door in anticipation of leading a free and undisturbed existence forever after. —Flagstaff Gem."

Socorro, N. M., claims the distinction of having the first organized "Fat and Sherman" club in the United States. The organization was perfected a few minutes after the nomination of Mr. Sherman. The membership is over one hundred. Chairman Jose Espinosa Torres, of the republican county committee is president. The Outlook just likes to remark that this is 'goin' some', as regards doing things in a hurry.

A suburban minister during his discourse one sabbath morning said: "In each blade of grass there is a sermon." The following day one of his flock discovered the good man pushing a law mower about his garden and paused to say: "Well, parson, I'm glad to see you engaged in cutting your sermons short." —The Standard.

A Brooklyn physician asserts that people can get crazy drunk on plain water. Here's a brand new excuse to head your wife. The only draw back to the scheme being that it will be hard for some men to make their better halves believe that they would become so familiar with water.

John Monday was here Sunday. —Socorro Chronicle. When do you look for Tuesday? —San Marcial Standard. —Early next week.

What would Mr. Leratolo do were he allowed to stay here? —Nogales. —For nobody. —Brookings.

ENTERTAINMENT

The entertainment given by the Epworth League on Monday evening proved a decided success both socially and financially.

The hall in the Bank Building was filled to its capacity, and each and every one present enjoyed themselves to the latter.

The entertainment was given for the purpose of raising funds to complete the building of the church which was started some time ago.

Rev. Ray states that it is the intention of the League to give these entertainments regularly each month and no doubt we can expect something real good in this line in the near future.

Judging from the participations of Monday evening it can be readily seen, that we have some very good talent in Carrizozo, and with a little practise, can give the people what they have been missing in the past—Good, Clean, Wholesome Entertainment.

Monday evening's performance was very good, and considering the short time in preparation, the young folks deserve great credit.

The first to appear before the limelight was that sweet little singer that we've heard so much about—Miss Ma Belle Walker, who appeared in a Bridale veil and impersonated "Vesta Victoria" in her great Broadway hit "Waiting at the Church". For a "tot" of her size and years she is very clever and was the hit of the evening. She also sang "Holding Hands" for which she received great applause from the audience.

The male quartette rendered a piece entitled "The teacher and the Paek," which was very amusing to the youngsters present.

The "Business Meeting" which was very capably taken by nine of the ladies was very clever, but quite natural. Well, you can imagine a crowd of women getting together, especially in a meeting room. When the sketch started even the curtain got excited and fell down.

Miss Pflingston and Miss Morrison of Canitan were the guests of Mrs. Pflingston of the McDonald Addition a few days the first of this week.

Messrs Crow and Van Scoy have received an offer to play ball in El Paso on the 4th of July, but they are undecided as to whether they will accept it or not.

Before long we may have some of our local boys representing us in some of the "Big Leagues".

Traveling and being away from home with a good many of those to whom and tedious when the time is very great, but there was in Carrizozo, this week a family, consisting of the father, mother, one daughter and three sons, who had come away and all the way from the Chickasaw nation, Oklahoma, in a covered wagon drawn by a team of burros.

Word has been received from N. S. Rose, who is in town boosting for the Carrizozo and Estancia valleys, that prospects are bright for several successful farmers of that country coming to New Mexico

as soon as they have their summer work completed.

Carrizozo is soon to have a park that in point of beauty will rival anything of the kind in the territory. It is to be located on the strip of land between the railroad and El Paso Avenue and will be about 200 hundred feet wide by about 1400 feet long. The railroad is removing all the old buildings that now mar the beauty of this land, and by grading, sowing of grass seed, planting of trees and the generous campaign of irrigation expect to make a beauty spot on this side of old mother earth.

This is a highly commendable innovation, and will be sure to prove a source of much pride to our citizens when completed. Nothing does more to beautify a town than a nice park and with one of such dimensions Carrizozo will be sure to be noticeably different from most New Mexican towns, as but few are fortunate enough as to have the water necessary for their sustenance.

W. O. W. Lodge, No. 57. Meets very 2nd and 4th Tuesday night in Hall.

CONTEST NOTICE DEPARTMENT OF THE INTERIOR

Land Office at Roswell, N. M. April 8, 1908.

A sufficient contest affidavit having been filed in this office by Walter E. Winfield, Carrizozo, N. M., contestant, against homestead entry No. 9930, made October 25, 1906, for SW 1/4, Section 30, Township 7 South, Range 11 East, by Alpheus W. McCall Contestee, in which it is alleged that under date of January 2, 1908, that said Alpheus W. McCall has wholly abandoned the said land and has been absent therefrom for a period of one year next prior to the date of said affidavit, and that said alleged absence from the said land was not due to his employment in the Navy or Marine Corps of the United States in time of war; said parties are hereby notified to appear, respond, and offer evidence touching said allegation at 10 o'clock a. m. on July 3, 1908, before N. S. Ross, U. S. Court Commissioner, at his office in Carrizozo, New Mexico; (and that final hearing will be held at 10 o'clock, a. m. on July 13, 1908, before the Register and Receiver at the United States Land office in Roswell, N. M.)

The said contestant having, in a proper affidavit, filed April 16, 1908, set forth facts which show that after due diligence personal service of this notice cannot be made, it is hereby ordered and directed that such notice be given by due and proper publication.
