A FEW LINES ABOUT PEOPLE AND MATTERS OF THE COMMUNITY

Jess Parker, of Bonito, was in our town last Saturday.

Forest Ranger Bryant was in town on business last Monday.

Dr. M. G. Paden was attending court in Lincoln the first of the week.

Miss Abbie Meek has been quite ill at her home for the past week or ten days.

G. A. Bush, of Ancho, was in Carrizozo transacting business last Saturday.

Bob Hancock has been cooking in the White House Restaurant for the past week or two.

J. C. Whorton, of Tularosa, was through Carrizozo on his way to court at Lincoln last Sunday.

Tom Johnson was among those who went from here to Lincoln to attend court during the past week.

George Lyko, the engineer, has gone to El Paso and will work out of there on the west end of the road.

County Surveyor Beatty was here for a day or so early in the week on his way home to Corona from Lincoln.

Say fellows, come around to the office and hear Ted tell about the fish and other things he caught last Sunday.

During the storm of last Tuesday lightning struck a fence post in the McDonald Addition and broke it to splinters.

Capt. Charles P. Elliott, U. S. A., retired, of Seattle, Wash., has been here for several days looking over the country.

The dam built by W. C. McDonald across the creek near his ranch home was washed out by the high waters recently.

Howard Hall has been at the Vera Cruz mine this week, having been called there to repair some of the machinery.

The Golden State Limited reached here several hours late last Monday, due to a derailment on the line up in Western Kansas.

Fred Brockway, who has been very sick from appendicitis, and barely missed an operation, is much improved in health now.

J. H. Coons, of Pueblo, Colo., a special agent for the Mutual Life Insurance Company, of New York, was in town last Saturday.

C. M. Stokes and family will soon move to town. Mr. Stokes will build on a lot he has just recently purchased in the Highland Addition.

W. M. Stone, a representative of the Continental Oil Company, with headquarters at Albuquerque, was here for a day or two this week on business.

In the game of ball between the Mexican boys and a picked nine on the local diamond last Sunday the scrubs were victorious to the tune of 10 to 6.

Tom Crow is playing ball with the Carthage team. Crow is a good ball player, but we would rather see him with our own team than with some one else.

Mrs. W. W. Arnold received news one day this week of her son, who

is in Ohio, having been bitten by a mad dog. Mrs. Arnold will leave for that state at once.

Johanie Craft, formerly proprietor of the White House Restaurant, but who is now living on his homestead near Three Rivers, was in town yesterday.

A crowd of our young people were in White Oaks Sunday to spend the day, and report a fine time. You just can't beat the hospitality of the people of White Oaks.

The wheels of the courts have been busy turning over business during the past two weeks at Lincoln, and from reports that reach us several cases of local interest have been attended to.

Mr. F. E. Hamond, of New Orleans spent a few days in town this week while on his way to Capitan and Lincoln. He is looking over this part of the country with the view of locating and starting in business.

Mr. and Mrs. P. W. Tapp returned home on Wednesday of this week from Tularosa, where they had been visiting for a short time. They brought with them some very fine fruit which was grown in that community.

The Ladies' Sewing Circle held a picnic in the grove at McDonald's ranch last Saturday. A few young people were invited out in the evening to finish the dinner as the ladies had over-estimated in the cooking.

R. H. Rhea, a practical tailor, formerly of Tucumcari, has come to our city to locate, and will soon move his family here. Mr. Rhea is temporarily located in Stokes' barber shop, awaiting the readiness of his permanent quarters.

An Italian laborer known as 'Joe' burst a blood vessel in his leg while at work on the new school building on Monday last. Dr. Sugg was called and stopped the flow of blood, the man being able to go back to work on Wednesday.

The frequent rains in the past few days have raised the spirits of our people. Plenty of time yet remains for the maturing of crops, and with a fair amount of rain from now on for the next two months a fair harvest will be gathered by our community.

Messrs. Simpson, J. J. Harrison and two sons, of Tucumcari, arrived here Sunday, and were the guests of J. H. Boyd and family. They left Monday for a trip to the Ruidosa, where they will be joined by Mr. Boyd and family to-day or to-morrow.

Joel Van Duzen, a prominent farmer and cattle man, of near Springfield, Illinois, is in this community looking over the land with a view of locating with us. We hope to have him with us permanently, as there is a hearty welcome here for those of his kind.

Ziegler Brothers are now located and well settled in their fine new store building, at the corner of Alamo and Fourth streets. They have a fine, large, light room, and the basement is one of the finest we have saw for many days. They now have ample room to display their stock.

The local recruiting station of the U. S. Army will be closed the first of the month, orders to that effect having been received from Adjutant General's headquarters. M. E. Babcock, who has been in charge of the local office will be transferred to the recruiting office at El Paso.

An amended plat of the Townsite has been filed. This is in accordance with the agreement between Messrs. McDonald and Wetmore at the meeting held some months ago. This is a good move and will have a tendency to help both sides of the town.

Messrs. Art Rolland and Chas. Masters went over to Lincoln last Saturday, stopping at Capitan for a few hours. While there they both received invitations to a dancing party to be held in Capitan Saturday evening, but as these two young men are "girl shy", they failed to make good their promise to be present. They came back home on Monday.

W. C. Stacy, a successful map salesman of eight years experience, was in Carrizozo for a couple of days this week. Mr. Stacy sold a dozen and a half maps of the United States and the world at \$3.00 each while here.

His map is corrected in every respect up to April 1st, 1908, and has been endorsed and used by bankers and schools throughout the land.

Walker Hyde made a run to Lincoln on last Monday in the large auto. The trip was made by way of White Oaks, and although a stop was made at that place which lost quite a bit of time the run was made in about four hours. Mr. Hyde had as passengers on the trip over Mr. J. H. Canning, Mr. Chas. Fox, a commercial man, and Mr. J. H. Haley, editor of the News.

One party who has been in attendance at court at Lincoln came home Monday and made a bee line for a restaurant, that he might satisfy his long suffering appetite. He says he was forced to exist on cheese and crackers, with an accompaniment of bologna sausage, during his stay over there, and puts forth the fact that Lincoln's inability to give suitable accommodations in time of court as one strong reason why the county seat should be moved to Carrizozo.

A farewell party was given by Miss Nellie McMair at her home in White Oaks on Sunday last. Miss McMair and family are leaving for Douglas, Ariz. A number of Carrizozo's young folks were among the invited guests and all report a very pleasant afternoon and evening. Miss McMair was very popular and all her young friends feel sorry to see her leaving.

Among those present from Carrizozo were: Miss Kelley, Miss Ruth Tompkins, Miss Minnie Tapp, Miss Mollie Kahler and Miss Nettie Lee Messrs. Ed. Kelley, Arthur Johnson, Harry Dawson, Howard Hall, Jack Sharp and Chas. Dosier.

ABOUT DRY FARMING

IF GIVEN PROPER ATTENTION, LITTLE RAIN WILL SUFFICE

Although 1908 has been the worst year for dry farming that Colorado has witnessed in the past two decades, yet, according to the Denver papers, dry farming in that state is again showing its success and there are already marvelous crop records. The rainfall, last year was less than nine inches, at Cheyenne Wells, for instance, yet, the yield of crops raised without irrigation was abundant. Not only grain, but potatoes, cane, alfalfa and fruit are successful all over eastern Colorado, despite a phenomenally low rainfall and other untoward conditions. New Mexico, with much better climatic conditions, will eventually have much better success in dry farming but this will not be attained with the present haphazard methods of too many of the new settlers, who imagine that they need only scratch the soil in spring and wait for the harvest in the fall. The real work

must be done in winter so as to store the moisture in the soil for use in summer. The writer where views the success in eastern Colorado with dry farming reveals the secret of the success in the following lines: "We have taken a hurried review of the entire field of eastern Colorado. While many new settlers arrived late and did not understand crop conditions and the dry year caused them to have crop failure in some one line, the experience of their neighbors who did understand conditions enabled them to get some seed crops to help tide them through."

It is certain that when science and hard work are substituted for luck on new Mexico mesas and plains then the following observations of the above writer will also come true:

"While we continue to urge conservative action we feel the time has passed for all doubtings of the sanity of the farmer who settles in eastern Colorado. The lesson of this past year was needed by the real estate men, the settler and the pessimist. The farmer will find that henceforth truth is stronger than fiction. The second one will find helpful suggestions in the lesson of the year, and the third has absolutely lost his argument, his case is gone. He is no longer needed nor desired."—Santa Fe New Mexican.

COSTLY CENSUS

BUT UNCLE SAM WANTS TO DO IT TIGHT SO HAND THE EXPENSE

It will require an army of 70,000 men and women to take the thirteenth census of the United States in 1910. The task of enumerating the 90,000,000 persons under the protection of the United States flag in Alaska, Porto Rico, Guam, Samoa, Panama Canal Zone and the United States proper, will be one of enormous proportions. It will be the most gigantic work of enumeration ever undertaken in this or any other country. Not merely count and compilation of the population is made by the census, but an accurate accounting of the agricultural, industrial and social status of the citizens of the country is included. Director S. N. D. North of the census bureau is now preparing for the thirteenth census. He has been planing it for a year or more. It will cost about \$14,000,000. Additional cost can be guessed by the following illustration. The Immigration commission created by Congress sought an accurate analysis of the family growth of foreign-born citizens as compared with Americans. The census bureau put a staff of clerks at work on Rhode Island. A careful calculation of the number of children born to women of various countries as well as the United States was made. It took four days. The cost in clerk hire to the Government was \$1,250. Figuring Rhode Island, the smallest state in the union as a basis, the total cost of getting this information

for the commission if the work is continued, will be more than \$100,000. A census of the Philippines will not be included in the next decennial census. A census of the islands was taken for the insular Government in 1903. It is supposed that the Philippines government will take its next census when it feels the need of such information.

ON THE BONITA

On last Saturday afternoon together with Mr. Theo. Aanstoos, the Monotype operator in this office, we rode over to Capitan, and had the pleasure of attending a fine little dancing party given by the young people of that place on Saturday night. On Sunday in company with several other couples, we went in hacks for a picnic up on the Bonita, at the head of the pipe line. Plenty of fish fried under the supervision of a competent chef—Mr. Byron—along with chicken, pickles, salad, cheese, and every thing that is good to eat at a picnic, and which the ladies are always so thoughtful of, were given due attention, and disappeared in an astonishing manner. After lunch cliff climbing came in for its trial, and kodak pictures were made of a handsome bunch with a background still more handsome being formed by the immense boulders and lofty pines, through which the beautiful little Bonita winds, twists and tumbles in its effort to get away. With the approach of sundown the party drove back home, stopping near Ancho for supper, and getting back to Capitan at a late hour, after spending a highly enjoyable day. We hope the opportunity to attend more such outings with just such a crowd will present itself, and we may be counted on to be in the game.

THEY CAN RAISE WHEAT

The wheat crop over Roosevelt and Quay counties has turned out much better than was expected, averaging over the two counties between 12 and 15 bushels per acre, and the farmers are already preparing to put in a large acreage to the golden grain. They made a mistake this year by only putting in enough to experiment with instead of raising more for the revenue to be derived from its sale. As it is very few have wheat to sell.—Texico Trumpet.

THE OUTLOOK

Entered as second class matter January 4th, 1907, at the postoffice at Carrizozo, New Mexico, under the Act of Congress of March 3rd, 1879.

A WEEKLY NEWSPAPER DEVOTED TO THE INTERESTS OF LINCOLN COUNTY
PUBLISHED EVERY FRIDAY BY ERNEST D. FRED

SUBSCRIPTION PRICE
One Year (in advance) \$1.00
If not paid within six months \$1.50

What all but those whose prejudices have made them blind have known for months would happen at Denver, has happened. Bryan has been nominated a third time, and by such a great vote that his so-called rivals are fairly lost in the dust thrown up by the victor in his victorious progress.

It was thoroughly a Bryan convention; and the "Outlook" presumes it will be a thoroughly Bryan campaign.

So the issue is clearly defined. It is the party of talk against the party of action; the party that is always promising something and frequently has to apologize a little later on for what it has promised, against the party that is slower in accepting innovations, but which, when a crisis arises, always has the courage to meet it, and with enough wisdom that apologies do not have to follow.

At the front of the Democratic stage this year there will be Bryan with the various cure-alls which he would like to have the people inspect in 1908. Behind the scenes are piled a number of old issues, for which the Nebraskan does not care so much now. Free Silver, anti-imperialism, Government ownership of the railroads—who can find them in the Democratic platform of 1908? But there have been times when each of these in turn have been dearest of all to the heart of the Nebraskan. He has never apologized for them personally; he lets the party do that while he naively states that they are not issues this year. How do we know that if Bryan were elected he would not suddenly find that they were issues again in 1909 or 1910 or 1911?

The wild-eyed Democracy of Bryan against the progressive Republicanism of Roosevelt and Taft! The party of Lincoln and McKinley welcomes the issue. It may be a hard fight, but who that knows the character of and discernment of the American people can doubt the issue?

All the world loves a lover: The world can stand a good deal even from a mushy, sentimental chap like Romeo—if he loves only for love's sake alone. But when an affair of the heart resolves itself into an amour, in comparison with which an episode from an Elenor-Glynn novel becomes a mere schoolgirl flirtation, and, moreover, is contaminated by the meanest and most mercenary designs, then it is time to draw the line.

The recent Gould-DeSagen marriage is a stretch in the nostrils of every decent, self-respecting man. The Gould woman wanted the title, while the action of decayed aristocracy had his eyes on the purse strings of that party, now his wife.

DeSagen's frantic pursuit of the object of his adoration to America was at the same time ludicrous and disgusting a feature of the love affair. The threadbare nobleman was afraid to let the meal ticket get out of his sight.

He is now "the happiest man in the world". Why shouldn't he be? He can now pay his club dues and his debts of honor. He can lay his hands on money when he wants to spend an evening at the roulette table. He can move out of his low-grade apartment and can pay his landlady what he owes her. He can bully his American wife and laugh in his sleeve over Boni's discomfiture.

As for Princess Anna, she never knows when she has had enough. One would suppose that an experience such as she went through with her former husband would have cured her of the habit of title hunting. We felt sorry for her before but we can't really say so much as that in commending this second offense.

Mr. Hitchcock has been chosen chairman of the Republican National committee. In that capacity he will have general charge of the Republican campaign this year, with the exception of that part of it which concerns Ohio. In the Buckeye state Mr. Vorys will be in charge.

Some Republicans have declared lightly that "it is all over," and that Taft and Sherman are as good as elected already. Talk of this sort is well meant but dangerous. Few things are quite sure in politics. Everything looks well for the Republican ticket now—but there must be no slip-up that could later be traced to carelessness, overconfidence or inefficiency in the management of the campaign. There must be an efficient Republican organization this fall, and no legitimate step looking toward the success of the ticket in November should be neglected.

It has seemed to those who have had the matter in charge that, of those available, Mr. Hitchcock is the best fitted for this very important work. There is no doubt of his energy and executive ability. He aroused some opposition at Chicago—as strong men in charge of big things usually do: We do not believe that this opposition is deep enough, or that it has enough basis in any real injury, to last very long.

The Republican party needs the help of all those who believe in the principles of Republicanism this fall. The campaign may prove easy or it may prove very hard. Bryan has had enough political experience and has made enough money to make sure that there will be a very real Democratic organization this year. This being the case, it is up to loyal Republicans to give their leaders the support that is absolutely necessary if they are to develop an organization as efficient as that which will press the case of the Nebraskan.

John D. Rockefeller has essayed to write his life for a magazine. Undoubtedly he feels that he can do justice to the subject better than Miss Ida Tarbell. Of course other people may differ with him on the matter as Ida did a very fair job at it.

The big dailies inform us that Peary started for the north pole some \$4,000.00 short of the amount he desired. Well, we took this sheet under our wing last week and we were \$4,051.43 cents shy of the exact amount we wanted.

To show us that our battleship fleet is not the largest in the world and for other reasons, England has gathered a fleet of more than three hundred ships in the North Sea.

Johnny Bull may be able to do wonders in the waters immediately surrounding the Tight Little Isle, but we haven't yet heard of his having gathered up enough courage to forget the "German peril" and send a fleet to Australia to offset the effect upon the Australian mind of the visit of the American battleships at Melbourne and Sydney.

Although Secretary Taft will not be "notified" until July 28, it is fair to suppose that he has some idea about his nomination.

Wm. J. Bryan
 Speaks in a Million Homes.
 This is because Bryan has made Edison Phonograph Records of his ten best speeches, and Edison Phonographs are owned in one million homes in this country.
 Everybody is saying, "Wonderful! It is the real Bryan."
 And everybody is coming to our store to hear the Bryan Records. Will you not come, too? Free exhibitions every day.
 Genuine Edison Phonographs, with the new big horn at \$12.50 and \$25.00, on terms of \$1.00 a week. Records, 35 cents each.
