THE OUTLOOK.

CARRIZOZO, N. M., AUGUST 28, 1908

PRICE, \$1.00 PER YEAR

LITTLE LOCAL ITEMS

James H. Harvey has purchased a new Ford buggy from Ed. ...

The young folks of White Oaks are preparing for a big dance there ...

Will Kirby, railroad watchman, has been on the sick list for the past week ...

John J. Reid, of Parsons, has been in Carrizozo for the past few days visiting friends ...

Howard Hall left Wednesday on the local for Corona to do some surveying at that place ...

James J. M. and W. A. Fandaka, of the Rio Grande, Texas were here this week on a prospecting trip ...

Sam Neal, who has been engaged in building a house for Mr. Tietworth at Capitan, returned home Sunday ...

Three visited the place of Paul Parley, in the Highlands, last Sunday and returned to a set of harness ...

Mr. and Mrs. W. H. Lumbly, of Capitan, have returned to their home after a stay of several days ...

Mr. O. Wetmore left last Saturday on a business trip to Denver. His anticipated being gone for about two weeks ...

George Sharp expects to leave for Mexico City the first of next week and will be gone about 15 days ...

George Burke, the engineer spent the past week on his claim near Yarnes, returning home yesterday morning ...

The old turn-table was taken out of the railroad yards this week, and a new one, much larger than the old, installed ...

Mrs. T. H. Harvey and niece, Miss Tillie Atkinson, and Mr. and Mrs. E. D. Fred spent Sunday plowing near Nogal ...

Mr. and Mrs. Frank English have had as their guests for the past week the latter's parents, Mr. and Mrs. Berrell, of Lincoln ...

MR. O. DEARNEY of El Paso, a representative of the International Correspondence School, was in Carrizozo on business the first of the week ...

Orcutt's Wheaton, of near South Bend, Indiana, has been in the neighborhood of Carrizozo on a prospecting trip for the past ten days ...

Doc Day, of near Las Vegas, returned home Sunday ...

George, of near Santa Rosa, returned home Sunday ...

W. U. Conroy, of near Santa Rosa, returned home Sunday ...

Geo. H. Miller, the landowner, returned home Sunday ...

...

Paden dressed the wound Wednesday morning, and at last reports the patient was doing very nicely ...

Ray Hall, who has for some time past been employed in this office, has resigned his position here, and has accepted a place with the Carrizozo Trading Company ...

Thomas Ganning leaves in a few days for a trip to the mountains, after which he will enter some of the coming team at McCall's place on or about September 15th ...

Forrest Hooper, or "Happy," if you prefer, has taken charge of the broom and pie-box in the "Outlook" office. "Happy" says he don't mind as much on six-point, but that he's — on six ...

Mr. S. C. Barlow, manager of the Vera Cruz Mine, who has been at Graceland, Michigan, for the past few weeks, passed through here Tuesday on his way to El Paso to purchase machinery for use at the mine ...

Several farmers around Carrizozo are already at their fall plowing. This is the kind of work that promises returns. Land plowed up and well treated now will be in fine condition to receive attention next spring, and will repay the owner for his labor ...

Anyone wishing to take lessons in Fitch can do so by applying to "Doc" Paden or George Sharp. These young men are experts at the game and play it, according to Hooper, except when they see a better way to make their point ...

George Lee has been treating customers on his dairy route to some fine green corn. Mr. Lee has several acres of as fine corn as we have ever seen in this country. He is a staunch advocate of the dry farming system, and assures us of his intention to put in a large acreage of diversified crops next year ...

A call has been issued for all members of the Masonic order who live in Carrizozo and the surrounding towns to attend the meeting at the law offices of Barber and Glorin on Wednesday night September 2. The meeting is called for the purpose of electing officers, signing of disaffiliation of all charter members and such other matters of importance as may come before the body. The gathering will be called to order at 7.30 o'clock and it is earnestly hoped that every Mason in the community will be present ...

satchel and Harry carefully guarded a pair of side-scoops and a vaporizer cabinet to be used later in his fallak. Incidentally the three of them had a high and jointly bought a 100-cent glass, a box of face powder and a bottle of rose-water ...

Well things went along quite smoothly until they reached Nogal Hill. Here the trouble commenced. The chain broke and Art and his two side-scoops had to blow into the blacksmith's bellows (there being no bellows attached to the forge). Walker utilized a large stone as an anvil and a monkey wrench for a hammer and made a rivet to fasten the chain. They started up again, the passengers behind pushing. Art stopped in a gutter hole and stained his ankle. Harry Dawson bore the boom out of his trousers on an old stump and Charley crossed them. They managed to get along fairly well until they got beyond Graceland ...

At this point they broke down again and had some real trouble. Walker had Harry lay down and watch the under part of the machine, set Charley to carrying water from wind-mill two miles away and let Art employ his time by loosening nuts on the machine. Harry dropped his toilet articles in the mud and got red clay in his hair. A large healthy Hereford bull had Maok doing a two-step until the latter had a brilliant idea and climbed a scrub oak tree and Art tore his gloves, broke his glasses (and several commandments) and got his well mixed up in the sproket. They finally got a team of burrows to pull them out. The boys claim the little fellows were past masters at the art of kicking, but not overmuch at the game of pull. Part of the time the mules were in the auto, part of the time under it, and a small part of the time in front ...

After so long a time, with the assistance of all the blacksmiths and plumbers in that part of the county, two cowboys and two sheep herders, they managed to get into shape to move, and right then they headed for home ...

They got here about 10 o'clock Monday morning. Harry left the crowd on Sunday and came home under the seat of one of the hacks with the ball team. Art and Maok picked up one of the "Outlook" force walking horses from Capitan. It was lucky they did as he administered arnica on the bruised parts and balm to their feet. The boys say a trip to Fort Stanton is fine, but advise an early start when going to attend a ball game ...

is a special officer in the employ of the Southwestern railroad company at Duran, and was summoned yesterday to the business part of the town, where Marquez was shooting up the town and terrorizing the citizens ...

Going to a place where Marquez was, Miller took a pistol from him and started to leave the place, when Marquez drew another gun which Miller had overlooked, and began firing. One shot struck Miller in the right shoulder and another in the right hip, by which time Miller turned and put three bullets into Marquez's body, killing him almost instantly ...

Miller was sent down to Alamo gordo today to be placed in a hospital there for treatment, and his wife and daughter were notified. It is expected that they will reach Alamo gordo this afternoon ...

Miller went to El Paso from Oklahoma where was in the cattle business, and resided in that city until he came to Duran as special officer for the Southwestern. He also holds a commission as a deputy sheriff of this county ...

SOME CIGARETTES

Fifty-five billion cigarettes—count 'em—fifty-five billion! That is the newest alleged statistic of annual consumption. What is the country coming to? Says an exchange. It would take a billion consumers smoking about one year. The actual number of consumers in the United States, however, exclusive of Indians not taxed, is probably around 3,000,000. This would mean an average individual consumption of 18,000 per year, 1,500 a month, or 50 a day. On its face this is a frightful showing but the average for the ordinary individual is reduced greatly by the well known fact that the army and the professional athletes consume vastly more than their fair share. The ordinary consumer has to content himself with what remains. And this does not seem so much when we consider how little tobacco is really consumed by the cigarette smoker. What with 82 per cent of allalls, 12 per cent bean and 4 per cent of shredded wheat, the average cigarette contains but 2 per cent net of tobacco. In fifty smokes the consumer consumes what is equal to one all-tobacco cigarette, and it takes 10 of these to represent the strength of the nicotine of one Colorado maduro cigar. True lovers of tobacco and people who are genuinely addicted to the tobacco habit continue to smoke cigars and pipes. Upon the whole, the cigarette appears to be rather innocuous than iniquitous. At any rate the army and the professional athletes appear to be enjoying fair health when last heard from ...

KILLING AT DURAN

The following account of the killing at Duran on last Monday is taken from the columns of the El Paso Herald under date of Wednesday of this week ...

Duran, N. M., Aug. 25.—Special Agent "Smiley" Miller shot and killed J. C. Marquez, a salaried man, in the right shoulder and hip ...

The man who was shot, Miller, formerly well known in El Paso, now resides in ...

TWO CLOSE GAMES

On Saturday morning of last week the Carrizozo Baseball team, along with a number of "rooters" journeyed to Capitan to meet and defeat the orak Fort Stanton team ...

The boys arrived at Capitan at 11:30 and at once proceeded to eat and change their costumes and were

ready for business, the game being called at 2:30 by Ferguson, of Capitan, who acted as Umpire to the satisfaction of both teams ...

To say that Saturday's game was a good one is putting it mild, as the score will show. It was a pitchers battle from start to finish and but few hits were made, Carrizozo making seven and Fort Stanton four. Eleven hits in twelve innings is going some ...

The game was very clean and exciting from start to finish and not a dispute throughout the entire game. That is the kind of a game a person likes to see, and the kind that our boys are used to playing. The game was won by an error made by Peppering, the right fielder of Fort Stanton, who threw the ball wild to 2nd base, letting Gallacher run home from 3rd, which ended the game by the score of 3-2 in favor of Carrizozo ...

Gallacher was in his usual good form and pitched a good game, striking out twelve men to Bell's seven. The following is the score:

Innings	1	2	3	4	5	6	7	8	9	10	11	12
Carrizozo	0	1	0	0	1	0	0	0	0	1	0	3
Fort Stanton	0	0	0	1	0	0	0	0	0	0	0	0
Struck out—	By Gallacher—12.					By Bell—7.						
Carrizozo						Fort Stanton						
Paden	2nd Base		1st Base		3rd Base		Pitcher		Location			
Gallacher, J.	1st Base		Stuart									
Miller	Catcher		Yatney									
Hall	Short Stop		Arpall									
Taylor	3rd Base		Ficks									
Gallacher, W.	Pitcher		Bell									
Clunk	Right Field		Peppering									
Thomas	Center Field		Hightower									
Jesse	Left Field		Ott									

SUNDAY'S GAME

On Sunday morning the boys left Capitan at 7 a. m., arriving at the Fort at 8:30 and played their second game with the Stanton. This game proved to be as good as Saturday's game, although our boys meet with defeat through an error in the eighth inning, which let in two runs, the score being 3-3 at the time. Following is the score of Sunday's game:

Innings	1	2	3	4	5	6	7	8	9
Fort Stanton	0	0	0	0	3	0	2	x-5	
Carrizozo	0	0	1	0	2	0	0	0	3

TEACHERS INSTITUTE

The annual teachers institute just closing its session at Lincoln has been eminently successful and satisfactory. The attendance has been small but the enthusiasm and interest continued without abatement throughout the term ...

Under the skillful direction of Prof. E. L. Enloe of the Silver City Normal the younger teachers have been doing very thorough work in the study of all the branches. Besides this valuable academic review the conductor has given the practical exposition of approved pedagogical methods and up-to-date school management ...

Some of the teachers of the county are attending other summer normals but none have received more benefit nor better preparation than those who patronized our home institute. There are several schools in the county still lacking teachers ...

MINE TO START UP

That business enterprises of various kinds are soon to assume their natural trend, and the resources of our community will be developed, is almost an assured fact, and what will, we feel confident, prove the most positive proof of this, is the fact that actual and substantial work will begin immediately on the property of the Iowa and New Mexico Mining and Milling Company's property five miles south of town. Mr. Charles Stevens, manager of the above company was here for several days this week arranging for the hauling of lumber and supplies out to the property, and from him we get our information. Mr. Stevens tells us that the company is to start Monday putting up houses, and a boarding house, pumps, air drills, hoist, etc., and that work is to be pushed by a goodly sized gang of men from now on ...

THE OUTLOOK

Entered as second class matter January 10th, 1907, at the postoffice at Carrizozo, New Mexico, under the Act of Congress of March 3rd, 1879.

A WEEKLY NEWSPAPER DEVOTED TO THE INTERESTS OF LINCOLN COUNTY PUBLISHED EVERY FRIDAY BY ERNEST B. FRED

Subscription Price
One Year (in advance) \$1.00
If not paid within six months \$1.50

Ambition is a trait every man should possess, and the higher the aim the more commendable the fact, but when a man aspires to attain a position of high authority or on which great interests rest, his supporters must see to it that he is fitted for the trust, else his constituents or subjects are made to suffer. We admire the ambition of the Democratic nominee for Delegate to Congress. His aspirations are of such nature as to induce us to glory in his spirit. Once defeated he comes again in search of better luck and high honors. But Larrazolo is aiming higher than his abilities justify the people in placing him. He wishes a trust he is incapable of giving the deserved attention. He is not fitted to fill such an office, and his election would mean a hardship and setback to the Territory. His sole qualification, as set forth by his own people, is that he is a lawyer. While it is true he is a member of the bar, he has never distinguished himself as such, and his accomplishments as such have been mediocre and lack in brilliancy. He is at least none above the average of his craft, and possibly below the average. He has never denied any great amount of ability to construct, nor has he ever shown the ability of leadership. Larrazolo is not of a constructive disposition. He can follow a beaten path, but he is not one to blaze the way. No sane person can in any way figure out a plan whereby he would be apt to be one half so useful as a Delegate to Congress as would Andrews with his large acquaintance, undoubted abilities, wide experience and proven devotion to the cause. There can be absolutely no fault found with his past services and it is but fair to suppose that he will continue to work as hard for us in the future as in the past in case he is elected. Andrews and Larrazolo are opposites in more ways than in regards to their oratorical powers. Here Larrazolo outlines the Republican nominee as does an incandescent fallow dip; but in matters of intense political concern the "Silent One" outstrips the "Noisy Spaniard" as does the deer the tortoise.

The Raton Range and its coadjutor, the News and Press of Cimarron, made a very gallant and strong fight for their candidate, Charles A. Spies, of Los Vegas, in the recent campaign for the Republican nomination for delegate. Colfax county sent its complete delegation instructed for Spies but the Republican sentiment was too overwhelming in the other counties of the territory and W. H. Andrews was successful and was nominated in the convention held on August 15th last.

The Range proclaims itself now to be a loyal Republican newspaper, comes out fairly and honorably, places itself straight in the Republican line and announces that it will make a strong and strenuous fight for the election of Delegate W. H. Andrews and the Republican ticket in the rich county of Colfax in which the paper is published.

The action of the paper is to be commended by Republicans all over New Mexico and should be acknowledged and approved by the candidates and Republican managers and no doubt it will be. Says the Range in the following for the intelligent editorial:

"The convention is over. Andrews is the nominee of the Republicans for Delegate to Congress. We fought hard and lost the battle and as far as Colfax county is concerned it was a fight honestly made and diligently prosecuted. The Colfax county men were staunch and true to their instructions to the last moment. In the face of inevitable defeat shown in the overwhelming Andrews sentiment our delegates maintained a steady and determined exterior and relaxed slowly even when their opponents became their victors. The victory was a signal one and was such a winning—so clearly it winning—that the vanquished must acknowledge it as fair and fully won.—Now Mexican.

Right now is the time that our farmers should be in the fields and getting their land broken. If they will go to work and break their land good now, drag it well and lay it by until spring and then get into it and treat it to another turning over in the spring and seed it in a judicious manner they can make it produce highly profitable crops next year. We have the soil and the climate and if we will do our part in assisting, old mother earth will blossom forth that portion of her anatomy known as New Mexico, U. S. A. The time to act has come as the period of doubt has been cast aside by means of evidence furnished by those few of our early settlers who have already demonstrated the feasibility of making crops here. Kaffir Corn, Milo Maize, Millet and other feedstuffs look good wherever you see them, and many other crops are to be found around the nearby country which proves beyond doubt that we can produce if we will but try. Go to work and break up as many acres as you can and really be a producer. Don't sit on the corner or hang around the house and wonder if New Mexico ever will be a farming country?"

Estancia was visited by a very disastrous fire on last Saturday morning at an early hour and one of the two best business squares was almost totally destroyed. The conflagration was caused by the explosion of a gasoline stove in a bakery and was beyond control before help could be assembled. Inadequate fire fighting apparatus gave the flames a clear scope and made the efforts of the bucket brigade seem as if feeble. What every town in New Mexico should do is to have a chemical system for the purpose of conquering fire. Take a town like ours for instance. We are not in a position to install water-works and a fire department, but we could very easily get together and subscribe money enough to purchase a chemical appliance which would be quite effective against small fires, and possibly be the means of preventing a very disastrous fire at some time or other. Such a means of protection would cost, we estimate, from five hundred to seven hundred dollars and could be operated effectively by the most inexperienced, besides it would cost nothing to maintain. The Outlook advocates the idea, and believes some action should be taken in this matter before our town suffers the fate of Estancia.

Now that the Republicans have held their convention and have chosen as their candidate their old Delegate, W. H. Andrews, the campaign is open for the Republicans as well as the Democrats and Larrazolo, the "Noisy Spaniard," can be more explicit in his denunciation of his opponent. The "N. S." may talk until his teeth are loose, and wish Bill Bryan would aspire to the presidency, but he can never make enough people angry to allow of his election to the office he aspires to.

Kern will be notified this week that he has been nominated by the Democrats, and it is then expected that he will sit down and write out a check for campaign purposes. The vice president is getting to be quite an asset to any campaign now.—Albuquerque Observer. Well do you think he can come across with any more than G. Davis did four years ago?

SHERIFF'S SALE

The E. B. Welch Company, a Corporation, Plaintiff, vs. W. M. Lane, Defendant. No. 1793. Assumpsit by Attachment. By virtue of an execution issued out of the Sixth Judicial District Court of the Territory of New Mexico, within and for the County of Lincoln, wherein The E. B. Welch Company, a corporation, was plaintiff and W. M. Lane was defendant, upon a judgment rendered at the August special term thereof, A. D. 1908, for the sum of Two hundred and thirty six and 45-100 Dollars damages and Thirteen and 45-100 Dollars costs of suit, I have this day levied upon all the following personal property formerly attached by me in this suit as the property of said defendant W. M. Lane, viz: one well drilling machine and one engine; 500 feet wire rope; one belt wheel; one steel brake and 2 posts; 2 shafts & bearing blocks; 3 sand buckets; one rope spool; 1 1/2 axle & lever; 1 casing bale; 1 break rod; 500 feet hemp rope; 1 staple kemp & swivel; 1 vice & 1 jack screw; 2 boxes of fittings & 1 box of scrap; 1 chain long & 40 feet gas pipe; 1 pipe wrench & 1 globe valve; 1 piece piping 10 feet long; 1 piece round iron 10 feet long; 1 piece round iron 12 feet long; 1 piece round iron 5 feet long; 1 short piece of piping; 27 1/2 unions; 1 steel hammer and one steam boiler, the latter being the steam boiler for the engine above mentioned.

Public notice is hereby given that I will on Saturday, the 19th day of September A. D. 1908 at ten o'clock A. M. of said day, on the ground at the town of Parsons, Lincoln County New Mexico, expose the above mentioned personal property to the view of bidders, and will sell the same at public auction for cash in hand, or so much thereof as may be necessary to raise sufficient money to satisfy said judgment, with interest and costs etc. to the highest and best bidder.

John W. Owen, Sheriff.
Lincoln County New Mexico.
Dated August 12th 1908.

SIX CHINKS CAPTURED

Immigration Inspector Griffin, who is located at Alamogordo, is nothing if not a wide-awake officer. His specialty seems to consist of capturing chinks who try to evade the

officers and slip into this country. On Tuesday morning of this week he caught six of the slant-eyed sons of the Orient in a box car and removed them to the Alamo jail.

This is the second car load of Chinamen he has recently captured here.

The car consisted of ore, shipped from Los Angeles and billed to Brighton, Pa. The S. P. Los Angeles seals had not been broken, but the bottom claps had been removed from the door and the Chinamen slipped in, apparently at El Paso, for they had not eaten any of the supplies which they carried with them.

It would have been impossible, the inspector says, for the Chinamen to have been put into the car without the knowledge of trainmen, unless the car was set out in the yards at El Paso and left there overnight for it would have taken considerable time to remove the fastenings holding the door, put the Chinamen in and rearrange things.

The Chinamen had three five-gallon cans of water, ten pounds of sausage, ten cans of various sorts of canned goods, 12 packages of crackers and a sack of lemons.

The Chinamen had no certificates and will have a hearing here before the United States commissioner and be deported.

The scariet fever scare at Lincoln has about subsided. The business men of the town took the matter into their hands and hired quarantine guards. They kept the infected families at home and away. The only sensible thing to do. All cases now are being kept in well. When the premises of the two families now under quarantine

have been disinfected it is thought the disease will be thoroughly stamped out.

There should be a law requiring a danger signal to be posted upon the appearance of a case of infectious disease and a penalty of fine and imprisonment for disregarding such signal.

Attorney, Hamilton is as hard at work for the election of Delegate Andrews as he ever was for the nomination of another candidate for the place. His doctrine that the interests of the grand old party are paramount to those of any individual is the true political principle.

Editor Haley, of the News, has moved his family here from Capitan.
