LOCAL MENTION

If you see it here it happened

A. F. Rink of Chicago, who was with the fleet of Battle ships on the trip around the horn, spent Tuesday in town looking at the place on his way home from San Francisco. He was the guest of E. Babcock recuiting officer at this place.

Albert Gschwind of Oscuro was a business visitor in town one day the first of this week.

A. H. Harvey has been quite busy surveying claims in the valley south of town.

If a man applies to you for work and you cannot use him send him to the recruiting office. The Government can use him.

Robert Hurt of Capitan was a business visitor in our town one day the first of the week.

Ira O. Wetmore and wife returned Wednesday evening from a visit to El Paso.

Arrangements have been made for a Citizen's mass meeting at the Wetmore Building on El Paso avenue, Tuesday evening, June 2d, that being the regular meeting of the Commercial Club. The intention of this meeting is to get more people interested in the work of the club, and to take up matters of importance for the benefit of the town and valley.

There will be music by the Carrizozo brass band, and a general social good time in addition to transacting business.

The Club is organized for the benefit of the community and is for both men and women and every body is requested to come out to this special meeting and to join the Club with a view to helping build up Carrizozo.

W. C. McDonald left the first part of the week for Roswell on business.

A fine set of computing scales has just been put in at the Carrizozo Meat Market, which show at a glance the exact cost of any piece of meat at any price up to 30 cents per pound, and Mr. Theurer says when the meat trust put the prices above that amount he will withdraw and sell in competition with the trust.

Rev. E. Ward, President of the Baptist College at Alamogordo, will hold services at the Wetmore Building on El Paso avenue, next Sunday at 11 o'clock a. m. Everybody is invited to attend the service.

J. K. Martin, an experienced blacksmith, has ordered a complete outfit of tools and materials for a blacksmith and general repair shop and is going to build a shop on the corner of Second Street and El Paso Avenue next to Kelley's Transfer Company's place. He expects to be ready for work in about three weeks. Mr. Martin will make a specialty of horse shoeing and plow work and guarantees all work to be first class.

Olson Brothers of Oscuro, proprietors of the Oscuro Restaurant and hotel, transacted business in our town Tuesday.

Carrizozo can now boast of as good a brass band as any town of its size in the country, and we can furnish music for any occasion. A number of the eastside musicians have been playing for practice under of the direction of Prof. Y. Galindo, an expert band teacher for some time past, and this week for the first time they came out and played in public, giving concerts at several of the business houses with very pleasing results.

Everybody who heard the playing was much surprised to know that our town could produce so large a band with such complete training in the short time they have been practicing.

Professor L. C. Davis, who has been living in White Oaks several months, has again taken up his residense in Carrizozo, and has been assisting A. H. Harvey with his surveying work the past week.

The carpenters have the distinction of having the first organization of workmen in our town. A good strong organization has been formed and the carpenters are now in a position to protect their own rights, and at the same time to guarantee good reliable work to parties wishing to build. That union of forces is an advantage to any class of tradesmen has been proven by experience, and we are glad to see this start made in our town and wish the carpenters union a long and propserous career in our midst. The list of officers follows: President, J. H. Wigley; Vice President, Ed. Coe; Secretary, E. S. Griffin; Treasurer, Wallace Brockway.

Notice is hereby given that the the partnership heretofore existing between D. W. Glenn and W. J. Dunn under the firm name and style of Glenn & Dunn, has this day been dissolved by mutual consent.

D. W. Glenn will collect all unsettled accounts due the firm and settle all accounts owing by the firm Done at Carrizozo, New Mexico, this 11th. day of May, 1908.

D. W. Glenn,
W. J. Dunn.

WOMENS' DAY

Wednesday of each week is women's day at the box Ball Alley, there will be special games and refreshments on Wednesday afternoon and evening of each week, and all ladies are invited to take part in the game.

Swastika Butter, the best in the market always in stock at the Carrizozo Meat Market.

Fresh Pigs feet at the Carrizozo Meat Market.

Captain E. S. Wright, was up from El Paso the first of this week and made a pleasent call at this office. The Captain's hearty hand shake and pleasent words always seem to bring cheer and encouragement to those he meets, and almost make the overworked editor feel young again.

He informes us that the recruiting station here has made a very good showing the past few months and that new recruits are coming in as well as could be expected. He believes that when the new provisions in regard to pay and opportunities offered for advancement in various special classes of work are better understood by the young men who are out of work it will lead to a larger propertion of enlistments.—In this connection it might be mentioned that business men who have inquiries for positions might do the inquirers a lasting good by suggesting that the government is looking for good men in both army and navy, and that particulars can be had at the recruiting station on El Paso Avenue.

Mrs. S. G. Anderson and family left yesterday for an extended visit at the home of her father, Don Sipio Salazar at Lincoln.

PARTNERSHIP DISSOLUTION

Notice is hereby given that the partnership heretofore existing between J. W. Barrett and J. B. Baird has this day been dissolved by mutual consent. Dated May 18, 1908.

The Torrance county Leader published at Estancia, the growing and prosperous capital of the county, is a strong supporter of Delegate William H. Andrews for nomination by the Republicans of the territory for delegate to the Sixty-first Congress. The paper understands the situation and voices it correctly and in an unmistakable manner. It is also pretty well established that it voices the strong sentiment of a great majority of citizens of the county, which owes its existence to the delegate. Says the Leader:

"Every voter in the Estancia Valley should show his gratitude to Delegate Andrews at the polls. How many are holding down their claims and gaining support from the Santa Fe Central railroad?"

"'Praise the bridge that carries you over.' Had Delegate Andrews not built the Santa Fe Central railroad you would have had no beautiful homes in the Estancia Valley, for very few people fancy the idea of living fifty miles to a hundred miles from a railroad."

"In speaking of Delegate Andrews, Judge Moriarty, of Moriarty, remarked that he had lived or hibernated in this country for over twenty years before the Santa Fe Central railroad was built and it was certainly an isolated wilderness, impossible to get to a trading point only by wagon and then often many tiresome days of travel, and just as soon as the railroad was built, towns sprang up all along the line where one can buy about as cheaply as in the cities, farmers settled on nearly every quarter sect'on, and it is only a question of a few years until the valley will be the grandest spot in the United States. He says Andrews made the valley prosperous; and he is for him for delegate."

Land office records convey a fairly accurate idea of what has been happening in New Mexico in recent years with respec to homestead entries on government lands.

In 1904 only 601,000 acres of public land was disposed of to settlers. In 1905 603,000 acres were taken up.

But the next year, 1906, the great migration started up in earnest. In that year, 1,235,000 acres, representing 8,000 separate entries or approximately 40,000people, were taken in.

In 1907, the movement increased to an enormous extent. The land taken up more than doubled the area disposed of the preceding year. In 1907, 2,760,000 acres were disposed of, representing more than 17,000 entries, or approximately 85,000 people—not that five persons to each entry actually go on the land, but that not less than five persons come to the territory in portion to each entry, and go into some sort of employment.

Of course the figures include all kinds of entry under the public land laws, not nearly homesteads. But it is safe to say that not less than 125,000 people have come into New Mexico within the past two years.

The great migration has just barely begun. The territory has hardly been advertised at all. No such persistent efforts have ever been made to populate and develop New Mexico, as have been made in the northwest, or for Oklahoma, or for Kansas, or for southern California. The movement of the population into Arizona and New Mexico has just begun.—*El Paso Herold.*

The ice plant of the Carrizozo Improvement and Development company is now inclosed, and the machinery will soon be in position ready for business, and it is expected that freezing will begin about the first of June when some good hot weather is due according to the natural trend of affairs. While the panic in many parts of the country may have put a stop to improvements of various kinds, Carrizozo is steadily going ahead building footories, irrigation works and mercantile establishments in order to be ready to handle the rush of immigration which is coming to the valley this summer.

Old timers in this valley have predicted that a railroad would be built some day that would connect the mining districts of the Globe, Clifton and other large Arizona camps with the east through the pass east of this town. On another page of this issue is the account of such project from the pen of W. R. Fall, and published in the El Paso Herald. It is only a question of a little time untill the boundless resources of this region will give it railroads, smelters and other facilities for transforming its natural wealth into actual present values.

The new town of Clovis was visited by a serious fire last week, and $50,000 of damage done in a single block. That is quite a showing for a town only about a year old. It gives some idea of the progress which is being made in eastern New Mexico. You can hardly find another place in the country outside of the southwest where a town of that age could furnish material for a $50,000 fire and have two buildings left in the block.

Almost daily comes reports of cyclones and death-dealing storms in Kansas and Oklahoma, as well as other parst of the country, While floods and hail destroy the crops in Illinois. It seems that New Mexico is the only place that is free from these things, and the person who wishes to live secure from all such alarms should get a homestead in the Carrizozo valley, or some less favored portion of the territory, before the free land is all taken up.

In this issue is the advertisement of Mrs. Frances McDonald for a ditch right for the irrigation of a half section of land near town. This is an enterprise that should be a great benefit to this region, as it will bring under actual cultivation more land in one tract than has yet been done in this immediate vicinity, will and prove the value of the valley lands for agricultural purposes.

Notice has just been issued by the land office that the affidavits and proofs required in coal filings may now be taken by any officer qualified to administer oaths in land cases in the district where the land applied for is situated, thus saving the applicant the trouble of going to the District Land Office as was required in the former rulings.

It is the hope of the Taft boomers that the next time he has to go to the isthmus he will be in a position to send somebody else.

The Socialists have nominated Debs for their candidate for president. Debs made a hard fight to get an empty honor.

It PAYS

When the dimpled baby's hungry, what does the baby do? It doesn't lie serenely and merely sweetly coo; The hungry baby bellows with all it's little might Till some one gives it something to curb its appetite; The infant with the bottle whish stills its fretfull cries A lesson plainy teaches—It pays to advertise.

The lamb lost on the hillside when darkness closes round, Stands not in silence trembling and waiting to be found; Its plaintive bleating echoes across the vales and meads Until the shepard hears it, and, hearing kindly heeds. Aan when its fears are ended, as on his breast it lies, The lamb has made this patent:—It pays to advertise.

The fair and gentle maiden who loves the bashful boy Assumes when in his presents a manner coy; She blushes and she trembles till he perceives at last, And clasps her closely to him and gladly holds her fast, And as he bends to kiss her she sgraunly sighs This fact is demonstrated: It pays to advertise.
