LARGE IRRIGATION PROJECT

LINCOLN COUNTY TO HAVE BIG RESERVOIR NEAR OSCURO STATION

Lincoln county is soon to have a large irregation project. Territorial Engineer Vernon L. Sullivan, has this week approved the application of A. M. Patten of Denver, for forty second feet of water from Bull Gap and other tributary streams of Water Canyon New Mexico, and work will begin on the construction at an early date.

Bull Gap is located about two miles northwest of Oscuro and is a natural reservoir site. It is a gap between two hills and is some three hundred feet lower in level at the bottom than the surface is at the railroad two miles away, thus a natural tank is formed. It is estimated, after test, that sufficient water passes thru this opening each rainy season to irrigate over 5000 acres, per year. Patten Brothers of Denver already have about 1200 acres under Scrip right below the proposed dam on this side of the Mal Pais. The Land is all free from Mesquite in this vicinity and is sandy loam, very suitable for fruit etc.

The construction work will cost at least $110,000 and will presumably be under the management of the Portland Cement Company of Denver although the contract has not as yet been awarded. This project means much for Lincoln County and its completion will be a big advancment to the surrounding community.

OTERO COUNTY MEN INDICTED

A report comes from St. Joseph Missouri that a number of Otero County men interested in land transactions have been indicted in Federal court of that city on the charge of conspiracy to defraud the government. Those against whom true bills have been returned by the United States grand jury are said to be Oliver M. Lee, H. H. Majors, R. G. Mullen, Mott A. Gleason, R. M. Nichols, Charles A Thompson, and Robert R. Wade. Most of these are Alamogordo men and it is understood that this sensational charge is brought as the result of alleged improprieties in the handling of government lands in New Mexico.

PRIVATE DANCE AT TEMPLE

A very enjoyable private dance was participated in at the Temple Hotel Monday evening, the event being in honor of Mrs. Cora Long, who left for Denver after an extended visit with her husbands folks. Among those present were the Mesdames; Mrs. Cora Long, Mrs. Ross Coe, Mrs. Lottie Dingwall and Mrs. Anderson, the Misses Selma Long, Genny Brockway, Allie Johnson, Minnie Dalton and Lillie M. Bytowood. The Messers. Ross Coe, Chas. McMasters, Gordon Cunn, Andrew Bond, Phoebe Guthrie and Chas. Bell.

Capitan News-notes

—A violent wind accompanied at times by rain, sleet and snow, prevailed in this section during Sunday night and part of Monday, leaving the surrounding mountains swathed in a glittering mantle of white.

—Mr. W. H. Orme Johnson has been quite busy for the past month building an adobe addition to his residence, which when completed, will be one of the most comfortable and handsome homes in Capitan.

—Mrs. Frank B. Coe, owner of the famous Glencoe fruit farm on the Rio Ruidosa, passed through Capitan enroute home from El Paso early this week.

—Mr. and Mrs. J. W Norton, returned Monday from a short visit in the southern part of the Territory, and incidently El Paso, Texas, where they witnessed the meeting of the Presidents and attendant festivities.

—Those of our townsmen and neighbors who made the Pilgrimage to El Paso to attend the meeting of the two Greatest Presidents of the two Greatest Republics, returned in fairly good condition.

—Mr. W. H. Fisher, Capitan's "Old Reliable" Lumber Dealer and exponent of Campbell "System of Dry Farming" returned on Monday's train from a business trip which extended as far as El Paso, where he saw President Taft and the big parade.

—What is locally known as the Ritter mine, a part of the property of the New Mexico Fuel Company, near the old camp of Coalora, has been burning for several days, probably the result of an explosion of gas; the smoke and heat issuing from the mouth of the tunnel is suggestive of a volcano.

—S. T. Gray and W. H. Sevier, are preparing to reopen the old Linderman coal mine with a view of supplying the local trade with coal; it is also reported that Mr. G. A. Titsworth has made arrangements to remove coal from some of the old workings of the Fuel Co. We hope that both mines will soon be made to produce a sufficient amount of fuel to supply local demand as well as to supply our neighbors with cheap fuel.

Nogal Notes

—Messers McKinney and Ayers will arrive in Nogal from Oklahoma October 28th accompanied by their families for the purpose of working the Nogal Placers in Nogal Townsite. A large amount of machinery has been ordered shipped to Carrizozo and will arrive soon and be hauled out here. Mr. McKinney and Ayers anticipate residing in this part of New Mexico.

—Mr. John Littleton has been appointed Deputy Sheriff for this Precinct.

—The contemplated wedding in Tortolito Canyon was a fact beyond reasonable doubt and you can guess again.

—Lots of rain, some snow and fat cattle, are the subject of conversation in our village every day, we claim several degrees above mediocrity.

MR. F. W. GUERNEY IS DEAD

PROMINANT HOTEL MAN DIES SUDDENLY IN EL PASO TEXAS

Mr. F. W. Guerney, the pominant hotel keeper of Carrizozo and for three years the proprietor of the Carrizozo Eating House, dropped dead in El Paso at three o'clock Saturday while watching President Taft pass on his way to Mexico. The news was a sad blow to his wife and many friends in Carrizozo. Mr. Guerney had not been in good health for sometime but at no time was he proclaimed seriously affected. His wife went immediately to El Paso to take charge of the remains. Coroner Watson of El Paso returned a verdict of heart failure.

The deceased had lived in the southwest for several years and when Henry Pfaff controled the eating houses along the Southwestern road, he was in charge of them.

He is survived by a wife and son, Frank Guerney, Jr. who resides at 3424 Alameda Ave., East El Paso, and who is employed by the Southwestern.

The funeral was held Monday afternoon and interment was made in Evergreen cemetery. The services were in charge of the Elks, the deceased belonging to the lodge at Pocatello, Idaho. Besides being a member of the Elks he was a member of the Modern Woodmen of America; Hotel Men's Mutual association of Chicago, Ill., and the Royal Highlanders of America, at Pocatello.

Mr. Guerney was born in New York city, March 19, 1856. He was engaged in the hotel business a number of years with the A. T. & S. F railway; M.; K. & T.; U. P. Oregon Short Line, and the E. P. & S. W. railways. He was at one time superintendent of eating houses on the Santa Fe.

GOOD SCHOOL ATTENDANCE

The Local school is progressing nicely under Professor Chapman, the enrollment to date is as follows. Mrs. Gumm 53, Miss. Kelly 51, Miss. Mountz 40, Miss. Hensler 26, Mr. Chapman 34. The total enrollment being 213. There are eight pupils enrolled in the high school department.

SCOGGINS CASE CONTINUED

In the case before Squire Thornton of Oscuro precinct wherein Justice of the Peace Scoggins is accused of willfully having a nuisance on his premises in Carrizozo, it having been dismissed before Justice Koonce of Nogal, was postponed until Oct. 27th on request of Attorney Hall for the defendant.

Oscuro Jottings

—Elias G. Rafferty President of the Townsite company has returned from Chicago and expects to start things moving on the artesian well at once.

—Contractor Chewin is in Monterey plastering the new home of Miles Jackson.

—Mr. J. V. Edwards and Wm. Martin have returned from their hunting trip in the San Andres Mountains with a deer a piece.

Has Carrizozo Lost This?

WORD comes from Tularosa and Monterey that petitions have been quietly circulated among the citizens of Hondo, Glencoe, Picacho, San Patricia and Ruidosa by persons from Tularosa asking for a proposed new mail route over the Proposed automobile line from Tularosa to Roswell. All these towns now get their mail from Carrizozo by stage and are naturally within Carrizozo's district. The new Lincoln-Roswell road will make them very much more accessable to our town and make it possible for better service from this point as a market and as a distributing center. A branch of the road will run Southwest from the main Roswell-Carrizozo road and will cross the Mescalaro reservation and go into Tularosa but this will not necessarily lose Carrizozos right to this territory. Tularosa is not the market place for this mountain district, the high divide on the reservation separates it from the railroad and makes it much more pratical to come this way and now why should the mail go another way when the route is impratical.

What Carrizozo should do is to get immediately busy and show the residents of this Mountain District that we will give them as good service and will be more accessable than Tularosa. Why sleep and let our southern neighbors take from us what is by natural right our own business? The new Carrrizozo-Roswell automobile line will be in operation at the earliest possible moment that the roads are in shape and then the mail service, will be very much improved, if the citizens so desire.

Personally—.

WE HAVE received numerous written compliments on what the writers "call" a great improvement in the OUTLOOK; recently, and many of the written complements have been with a request to publish. We hardly deserve much praise as yet but we are pleased to see that some people have noticed that we are making an effort to give the community a better paper and are gradually reaching that point where we need not be ashamed of our publication. It might not be amiss to say, personally, that the Editor-Printer is not old enough to be very 'worldy wise' yet and will make many glaring mistakes no doubt; having only attained his majority recently, the first vote he ever cast being for Carrizozo for County Seat. But we are here to stay, if you will let us, and surely appreciate the encouragment we have received. Two poems entitled 'Odes to the OUTLOOK' were received this week and were very meritorious, one was postmarked White Oaks the other Capitan and we wish that we might publish same but fear that they are not on a subject which would interest our readers. Nevertheless we thank the annoymous authors and appreciate their intenscions.

Statehood Question Again.

Because that President Taft in his speech at Albuquerque last Saturday pointed out the need of care in making a constitution, the democratic papers took it as an opportunity to say that he intended delaying statehood. But such is not the case if his words are true, he said in part:

"Now inasfar as lies in me as the chief executive recommending legislation to Congress in that regard—the constitutional functions being to recommend and to veto—I first will say that I will not veto a bill letting New Mexico in. And second, that I shall recommend that the promises of the Republican platform upon which I had the honor to be elected president should be carried out in good faith, and that the Territories of Arizona and New Mexico shall be admitted to the Union, so that we shall have nothing but states between the Atlantic and the Pacific."

"You pass on a Constitution that shall serve as a fundamental law, for a hundred years, it may be, because Constitutions are not easily amended."

Carrizozo has numerous alley ways which are not as cleanly as they might be. To clean up the alleys would not be a bad 'call', as every person could do a little in the movement to improve the appearance of your little city. Cans and rubbish have accumulated through negligance and should be removed. Let us all get together and spruce up a little before Court time.

OLD-TIMER IN LAMENTATION.

Tramp Printer Regrets the Passing of the Day of Forceful and Vivid Reporting.

"No," said the old tramp printer, "reportin' hain't what it used to be. The rugged strength, the grandeur and ginger is all gone.

"Listen," he said, "to this here description of T. DeWitt Talmage what Comp Stick of the Tin Can Scimitar writ in '73."

In a voice vibrant with admiration the veteran said:

"Sweat trickled from the back jungle of his disordered hair along the ravines and furrows of his haggard face. He advanced and retreated, rising upon his toes and coming down on his heels with a dislocating jerk that made the windows rattle, pausing occasionally to inhale through his dilating nostrils tempestuously, and then emitting a shrieking epigram or apostrophe that thrilled the blood like a wild cry at midnight in a solitary place." Los Angeles Times.

The "man chaperon" is a novelty in London and he promises to become permanent, says a writer in the New York Press. Taking out a girl relative or child of an invalid friend is one of the hardest duties of the married woman. It was a happy thought to turn the dull bachelors, long past their youth, to some use. The men, too, have been flattered by this easy responsibility, and they take honest delight in guiding the young misses through the London drawing rooms, theaters and all the rest. The plan might be tried here, if the comfort loving old bachelors could be tempted long enough from their clubs.

DAUGHTER OF NEW ENGLAND.

"One's house is almost like one's body, when it is so much a part of life," said Sarah Orne Jewett, who lived at Hamilton house, the ancestral home at South Berwick, Me., where she died. "I was born here and I hope to die here, leaving all the lilac bushes green and growing," she said, and happy indeed is the woman who has a home to live in and at the end to die in.

THE SEASHORE KIND.

The moon painted on the sea a path of quivering silver.

"But," she murmured, "it isn't right for you to say you love me. You must only think it."

Smiling, he strained her to him yet more closely.

"But I don't think it," he retorted, "I only say it."

NATURE'S ECONOMY.

"Looky yere, mammy," said Pickaninny Jim, "at de knot holes in dis here piece of wood. What does you 'speck dem is fur?"

"Why, honey," answered Aunt Elvira Ann, "dem's de button holes what de branches is fastened on to de trees."

NOT SPOILED.

The Editor—Look here! You've engaged a married woman to run our "home-and-mother" department.

The Sub—Yes, but she's only been maried three months, and she lives at a hotel. She'll be all right, I think.—Cleveland Leader.

THE SLOW SUITOR.

Him—Am I the first man you ever kissed?

Her—You're the first one I ever had to. The others kissed me.

A SURE FLIGHT.

"What did the rivals of that aeronaut do when they heard he flew 10 miles in an aeroplane?"

"They flew into a rage."

THE AMERICAN YOUTH.

If the truth were told, most young American men are not especially interesting. They do not keep up their reading. They have a national obtundity when it comes to music, to art, to literature; nor do many of them take any of these things at all seriously. The young among them are not good conversationalists. Our cleverest men are monologists pure and simple. They lecture admirably. They are born orators along modified lines. They are inevitable story tellers. None of this is conversation; and women like conversation, like its courtesies, which at least pretend a little interest when their turn comes in the game. Knowledge of people and affairs outside our own country pricks more than one bubble about our young men.—Anna A. Rogers, in Atlantic.

NEW MEXICO TERRITORIAL NEWS

DEATH OF COLONEL MAX FROST

Santa Fe, N. M., Oct. 14.—Col. Max Frost, the nestor of New Mexico journalists, died last night, aged 57.

Col. Frost was editor of the Daily New Mexican and for twelve years was secretary of the Bureau of Immigration. Although he had been ill for ten years with locomotor ataxia, and had been blind for the last seven years, he retained his grasp upon journalistic and political affairs until this year, when he retired from active work. He was a thirty-third degree Mason, and came to New Mexico in 1876.

Colonel Frost was born on January 1, 1852, in Louisiana. In that state he attended private schools and college. He went to Washington, D. C., where he read law for two years. Receiving an appointment as chief clerk of the United States military telegraph lines, then in operation in New Mexico, he came to this territory and traveled into every section of the Southwest, gaining a broad knowledge of the Rocky Mountain region.

Colonel Frost served two years as clerk in the surveyor general's office of New Mexico and was register of the United States land office at Santa Fe under the administration of President Arthur. Acting Governor W. G. Ritch appointed him adjutant general and he served the territory in that capacity under Governor Lew Wallace and Governor Lionel Sheldon. He was an officer in the field and saw considerable active service against the Indians, cattle rustlers and gangs of outlaws which in those days infested the territory.

In 1884 Colonel Frost was admitted to the New Mexico bar. He served as a county commissioner of Santa Fe county in 1891 and 1892, and has held such minor offices as school director of the Santa Fe board of education. As secretary of the Bureau of Imigration he did valuable work in inducing immigration into the territory.

New Mexico Men Indicted.

A St. Joseph, Mo., dispatch reports the indictment there of a number of New Mexico men interested in land transactions in Otero county, on the charge of conspiracy to defraud the government. Those against whom true bills have been returned are said to be Oliver M. Lee, H. H. Majors, R. G. Mullen, Mott A. Gleason, R. M. Nichols, Charles A. Thompson and Robert R. Wade.

Most of them are Alamogordo men and it is understood that this sensational charge is brought as the result of alleged improprieties in the handling of government lands in New Mexico. Several of the men mentioned were interested in or connected with the difficulties in which the Sacramento Valley Irrigation Company was involved.

Cattle and Horse Growers.

That it is the earnest desire of the forest service to co-operate in every way with stockmen, as far as is compatible with conservation of the forests, and that the service has the most cordial attitude toward the grazing industry, was emphasized before the New Mexico Cattle and Horse Growers' Association at Albuquerque by District Forester A. G. Ringland of the Third district, and Chief of Grazing J. K. Campbell, in exceptionally strong addresses, which were most cordially received.

Luther Fistor of Mesilla Park, director of the New Mexico experiment station, made an interesting address on feeding stock.

The resolutions adopted pledge the co-operation of the organization with Governor Curry in the effort to secure the best disposition of the public lands to be granted the new state of New Mexico.

Will Push Farmington Branch.

The Southern Pacific branch from Gallup, N. M., to Farmington, N. M., and Durango, Colo., will be completed in less than a year, according to Epes Randolph, head of the Randolph line of the Southern Pacific in Arizona, who arrived at Albuquerque as a member of the presidential party.

Mr. Randolph stated that construction work will begin in sixty or ninety days at latest, and the line will be finished in six months after that.

The line, which taps the coal fields of northern New Mexico and southern Colorado, will cost $4,000,000 and will be 120 miles long from the junction with the Santa Fe coast line to Farmington. It will open for development one of the richest sections of New Mexico, heretofore without railroad facilities.

To Build Lake Urton Dam.

The Lake Urton project to reclaim 70,000 acres in the Middle Pecos valley, abandoned by the reclamation service for lack of funds, and taken up by the territory under the Carey act, will be built by the Urton Lake Land & Water Company, recently incorporated, with $250,000 capital and headquarters at Santa Fe.

The incorporators and directors are ex-Gov. Miguel A. Otero, ex-Secretary J. W. Reynolds and former Attorney General George W. Prichard of Santa Fe, Irving B. Melville of Denver, and Lloyd Seigler of Salt Lake.

The project will cost more than $2,000,000. A diversion dam in the Pecos river 22 feet high and 450 feet wide will divert the flow into the widest diversion canal in the world—thirty-seven miles long and sixty feet wide in its narrowest part—into Urton Lake a natural reservoir site, with a capacity of 200,000 acre feet.

Comanche Property Sold.

One of the biggest sales in the history of Grant county mining property took place on the 8th inst., at Silver City, when the holdings of the Comanche Mining & Smelting Company were sold to the Savanna Copper Company under order of court, for $416,000.

The property sold includes the big smelting plant at Silver City, some of the most valuable mines in the Burro Mountain mining district the gold and silver mines at Pinos Altos and the 14-mile narrow gauge railway from Silver City to Pinos Altos.

The sale was conducted by Special Master R. P. Barnes. The bid of the Savanna company covered the amount of a loan recently made to the Comanche company. The full indebtedness of the Comanche company was $20,000 or more.

The Comanche company was organized six years ago by Michigan men, with a capital stock of $500,000.

Burro Mountain Extension.

An Albuquerque dispatch of the 9th inst. says: Phelps, Dodge & Company, by the terms of a transaction completed in Silver City recently, became the owners of the Burro Mountain Copper Company in the Burro mountains, twelve miles southwest of Silver City.

Phelps, Dodge & Company have held a minority interest in the company for some time past. They bought the controlling sixty-five per cent. interest from Alfred and Nathan Leopold of New York, for a price said to be over $1,000,000.

It is believed the Phelps Dodge company is preparing to build an extension of the El Paso & Southwestern railroad to the Burro mountains.

Host Brutally Murdered.

An Albuquerque dispatch of the 11th inst. says: Francisca Chapo, for twenty years a resident of Carlsbad, N. M., was brutally hacked to pieces with a knife last night by a Mexican name unknown, who had received the hospitality of Chapo and had accepted an invitation to spend the night with him. At midnight he broke into Chapo's room, stabbed him repeatedly in the breast and throat, hacked out both eyes, and broke the blade of the knife off in Chapo's skull.

The murderer was captured and jailed. His only explanation is that he was suffering from a nightmare.

Otero Divorce Granted.

Mrs. Caroline Virginia Emmett Otero has been granted a divorce from former Gov. Miguel A. Otero of New Mexico.

Immediately after the decree was issued Mrs. Otero left for New York, where she expects to make her future home. Miguel Otero, Jr., the only child of the couple, will remain in the custody of the father. He is now a student at the New Mexico Military academy at Roswell.

The domestic differences of the Oteros have been known to their friends for a long time, and that a divorce would sooner or later be applied for and granted was a certainty. They were married in 1888. Otero is wealthy. Mrs. Otero is the daughter of former Judge Lafayette Emmett of St. Paul.

Territorial Engineer Sullivan has approved the application of A. M. Patten for a $110,000 reservoir and irrigation project in Lincoln county at the foot of Nogal peak, the reservoir, to hold 5,000 acre feet of water, to be located near Oscuro. An appropriation of forty second feet from Bull Cap run and other tributaries of Water canon was granted.

Horses, wagons and harness worth $1,700 were recently turned over by Mounted Policeman Avant of Capitan, Lincoln county, to Sheriff Grisham of Trinidad, Colo., being property that had been mortgaged at DeBeque, Colo., and taken to New Mexico with the intention of selling it again. William May, who was in charge of the property, was not arrested.

Governor Curry has appointed L. B. Highsmith of Artesia, Eddy county, a delegate to the farmers' congress at Raleigh, N. C., and S. H. Norton of Los Angeles commissioner of deeds for New Mexico in California.

Incorporations papers have been filed at Santa Fe by the Hermit Mining & Development Company of Las Vegas, with $200,000 capital, by John A. Baker, John K. Martin, Harry W. Garberson and John W. Thompson.

The Top Development Company, which has acquired extensive mineral holdings in Grant county, but has its headquarters at Bakersville, Cochise county, Ariz., has incorporated with $65,000 capital and New Mexico offices at Silver City. The incorporators and directors are: Earl A. Wayne, Harry H. Kelly, Thomas L. Love, Alfred F. Kerr and Allen H. Gillespie.

Artesia has offered a bonus of $100,000 to any railroad which will build into the city. The alfalfa and fruit growing interests of Artesia have grown so rapidly that better shipping facilities are imperatively demanded for Artesia, though its commercial club, is in the field actively to get a new railroad.

Two Sides to Everything.

A little boy was given too much underdone pie for his supper and was soon roaring lustily.

His mother's visitor was visibly disturbed.

"If he was my child," she said, "he'd get a good sound spanking."

"He deserves it," the mother admitted, "but I don't believe in spanking him on a full stomach."

"Neither do I," said the visitor, "but I'd turn him over."—Success Magazine.

September 1 the Bureau of Animal Industry, co-operating with the Wyoming sheep commissioners, joined in issuance of an order governing the treatment of sheep in the central and northern districts, and providing that sheep could be shipped out of the quarantine area up to October 14. Owing to the rush of live stock to market and the consequent shortage of cars, the sheepmen found themselves unable to ship their stuff within the time specified, and the government was asked to extend the shipping period to November 1 or November 15.

15,000 ACRES
—OF—
Government Land
NOW READY FOR SETTLERS
In the Sunny San Luis Valley
UNDER THE CAREY ACT
At 50 Cents per Acre to the State
Exclusive of Water Rights
DRAWING TO BE HELD AT ANTONITO, COLORADO
THURSDAY, NOVEMBER 4
UNDER THE DIRECTION OF THE STATE LAND BOARD

This 15,000 acres of choice land is open to every citizen of the United States, male or female, over 21 years of age, regardless of where they are now living.

This land will be allotted by drawing to be held at Antonito, Colorado, Thursday, November 4th, 1909.

The opening will be under the supervision of the Colorado State Land Board, and no special advantage will be given to any one. All who register will have an equal opportunity. Names will be registered at the office of the Toltec Colonization Company, 501 Boston Building, Denver, Colorado, where the books are now open.

The numbers will be put in a barrel, and the first number drawn will have first selection, and drawing will continue until the land is all allotted. When a number is drawn, if the holder does not file, all money will be refunded immediately.

The Carey Act permits one person to file on land for another by proxy, so that by giving a power of attorney, applicants may secure land through an agent and need not attend the drawing personally, or go to the land until they make final proof, which may be done within six months or any time within three years.

This is the most liberal act under which you can obtain government lands.

LAND ALL UNDER COMPLETED CANAL AND RESERVOIR SYSTEM.

This is the first Carey Act project in Colorado to be offered to settlers with canal and reservoir completed, and water ready to be turned on the land.

SEND FOR OUR FREE BOOKLET containing full information about the lands, surroundings, crops and answers to the most important questions usually asked by settlers. Our literature has been examined and approved by the State Board of Land Commissioners of the State of Colorado.

BOOKS NOW OPEN FOR REGISTRATION.

Call at our office or write us at once. You will have to act quickly to take advantage of this opportunity, as the drawing will be held on November 4th.

HOMES TO REPLACE TENEMENTS.

A great deal more good than the public knows of has already flowed from the establishment of the Sage foundation to improve social conditions. The Pittsburg Survey, the congestion exhibit, tubercul'a exhibit and like are some of the ways in which this money has been used to increase public knowledge and quicken the public conscience in regard to social evils. But no work that the Sage foundation has done promises to be so far reaching in its beneficial effects as the home colonies in Queens borough, for which sites have just been secured. One of these tracts of 140 acres is at Forest Hills, just east of Forest Park, and the other of 40 acres is in Jamaica South. The plans have not been fully matured as yet, but in many respects the colonies will be like the homes of the Krupp workmen at Essen, Germany, with adaptations, of course, to local conditions. The thing that is needed to make such a suburban colony useful is adequate and cheap transit. These locations have been selected because improvements of the Pennsylvania and other transit companies promise to make is possible for workmen to live there and work in Manhattan.

Cholera having found its way to the Netherlands, our government will be forced to act vigilantly and drastically toward ships coming from Dutch ports; and orders to this effect already have been issued. There are such carefully worked out campaigns to-day for swift and thoroughgoing attack upon plagues of this kind that the world-hate of mortality from them is much lessened. Nations may still differ seriously as to their duties toward each other when political and commercial interests are at stake; but there is substantial agreements on a policy of fair play, warning and common action when it comes to hostility to disease and those natural enemies of humanity that decimate populations.

Another Chinatown tragedy in New York city recalls the Elsie Sigel murder, says the Evening Wisconsin. But there are two conspicuous differences. In the first place, the victim was a pretty Chinese girl, instead of a white Sunday school teacher. In the second place, the murderer has been captured, a bloody handprint which he left on the window shutter identifying him. The murder will not hasten the subsidence of the wave of suspicion which has injured the business of Chinese restaurants throughout the country since Elsie Sigel was killed.

A Swedish inventor has produced an electric storage battery which is claimed to solve the long-agitated problem in that line. Whether this be so or not, it cannot be doubted that ere long the principle so successfully operated in the touring car and other forms of automobiles will be in general use on street railroads and in such public utilities as fire engines. The horse may kick but he has seen his best day, and steam itself is slowly but surely yielding the palm to electricity.

The partial destruction by fire at Liverpool of the Cunard Liner Lucania was an example of the main danger of big ships which are secure against ordinary sea dangers, excepting collision, which is inseparable from navigation during fogs. The aim of the builders of big passenger steamers must hereafter be in the direction of fire-proofing. The latest palatial steamers on the Hudson river are fine examples of work of the non-combustible type.

Crimes of violence on American railroads seem to be uncommonly numerous, just now, but it is safe to say that this condition will not last long. The railroad companies are too wise. The rewards they offer for the arrest and conviction of robbers and wreckers of trains are big enough to keep the boldest criminals in fear, every hour of every day that they remain at large. In that respect the railroads serve the public well.

Portsmouth, W. Va., is offering a silver medal for every child born therein. This may sound comical, but it has a serious aspect, for Portsmouth, Va., is an ultra-American city, and depends on American blood, and not on immigration for its prosperity.

More than 100 colleges, American and European, were represented. The British origin of the college was recalled by the presence of Ambassador Bryce. For the government, Commander Bryan of the Naval academy stood sponsor.

NEWS FROM WASHINGTON.

The date of inaugurating free mail delivery at Glenwood Springs, Colo., has been postponed from October 15 to December 1 next.

January 21 next will be a critical date in the history of the National Guard, for thereafter no portion of the money appropriated by Congress for the support of the militia can be paid to any organization that fails to conform to the standards of the regular army.

The University of Copenhagen has been requested by the National Geographic society to renounce its first claim to an examination of Dr. Cook's observations made during his search for the pole, saying that American scientists are impatient at the delay and feel that this is a matter that should be settled in America. A message was also sent to Commander Peary asking for his records.

The National Geographical Society, in response to a proposal from the Peary Arctic Club, adopted a resolution agreeing to join the American Geographical Society and the American Museum of Natural History, in requesting Dr. Ira Remsen, president of the National Academy of Sciences, to appoint a commission to examine a report on the Arctic records, observations and data of Commander Robert E. Peary and Dr. Frederick A. Cook.

Although Attorney General Wickersham has refused to state his views on the dismissal of the removal proceedings in the Panama libel cases at Indianapolis, it was suggested at the department of justice that the action on the removal proceedings affects only the question as to the defendants in that proceeding being brought to Washington, and that the government can go ahead with other phases of the Panama case.

DARING FEAT OF FRENCH AVIATOR

DE LAMBERT FLIES THIRTEEN MILES AND CIRCLES EIFFEL TOWER.

USES WRIGHT MACHINE

ORVILLE WRIGHT IS PRESENT AND CONGRATULATES FELLOW-AEROPLANIST.

Paris.—Count De Lambert, the French aeroplanist, just before dark Monday night accomplished one of the most remarkable and daring feats yet credited to heavier-than-air machines. Starting from the aerodrome at Juvisy in a Wright machine, he flew to Paris, about thirteen miles. After maneuvring over the city at an average height of 400 feet, he ascended in gradually diminishing circles and passed several hundred feet above the Eiffel tower. He then returned to Juvisy.

Thousands who watched could barely credit their senses when they saw the aeroplane, a tiny object, gliding swiftly far above the tower, and the sensation created was more promound than when Santos-Dumont circled the structure in his dirigible balloon in 1900.

Count De Lambert was given a tremendous ovation on his return to Juvisy.

Orville Wright rushed forward and wrung the hand of the aviator as he alighted, pale but radiant. He was led to the pavilion, where his health was drunk, the crowd meantime cheering lustily and crying: "Long Live Count De Lambert!" "Long Live Russia!"—De Lambert being of Russian extraction.

The count held up his hand and shouted: "Cry 'Long Live the United States,' for it is to her that I owe this success."

The aviator said that throughout the trip he had entire control of the machine. The only inconvenience he suffered was from the throbbing of the engines, and from difficulty in seeing, toward the end, in the gloom.

The official time of the flights was 49 minutes 39 seconds. The distance was roughly estimated at thirty-one miles and the height varied from 300 to 1,300 feet.

Count De Lambert and Mr. Wright left the field together in an automobile. Dragoons were obliged to clear a way through the crowd, among which there were so many enthusiasts who showed a desire to carry the aviator in triumph on their shoulders.

Count De Lambert was the first pupil taught by Wilbur Wright when in France last year.

New York Mayoralty Campaign.

New York.—William R. Hearst, independent nominee for mayor, and Otto T. Bannard, the Republican nominee, both of whom are heading the fusion ticket, dashed through Harlem Monday night and delivered a series of rapid fire speeches in support of their candidacy. Hearst made four addresses and Bannard three.

Bannard confined himself to business issues. Hearst spoke at length and continued his denunciation of William J. Gaynor, the Democratic nominee, although he found time to refer to Bannard as a machine candidate.

Mr. Bannard expressed keen regret when informed that Governor Hughes would take no part in the campaign.

"It is a matter of very great regret to me that the governor does not seem to care to enter the campaign for the overthrow of Tammany in his home city," he said.

Denver Elks' Fair Parade.

Denver.—Like an echo of the old carnival days, the spirit of fun permeating the air and filling with hilarity the crowds on the streets, the Elks' Fair opened Monday.

The big parade, which would have been a credit to any carnival of the past, swept through the principal streets, and the throngs on the sidewalks shouted, laughed and poked fun as the familiar faces of many of Denver's prominent citizens came in view, some riding in beautifully decorated autos, some disguised in the most amazing and side-splitting costumes.

Illegal Fencing Criminal.

Washington.—In the United States Supreme Court Monday the case of Edward Cardwell, of Montana, vs. the United States, involving the right of the government to prosecute criminally for the fencing of the public lands, was decided adversely to the petitioner.

ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Gardiner, Maine.—"I have been a great sufferer from organic troubles and a severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash—and was entirely cured after three months' use of them."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial.

This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

JUST AS GOOD.

"Did you send your wife to the sea this year?"

"No. I just bought her a deck chair for the balcony."

Joke Medicine.

He is a very practical, serious-minded man of business. The other day he met a friend, and related to him an alleged joke, and at its conclusion laughed long and heartily.

The friend looked awkward for a moment, and then said:

"You'll have to excuse me, old man, but I don't see the point."

"Why, to tell you the truth, I don't just see the point myself. But I've made it a rule to laugh at all jokes; I think it's good for the health."

To Breaking One Neck, $2.

The "line-up" man was a facetious soul. The woman for whom he was putting up a pulley clothes-line was exacting. She ordered it put in a certain place, which it was almost impossible for him to reach. He hesitated. "If I have to put it there, lady," he said, "I'll break my neck." Still she did not relent. "All right, lady," he consented, with a cheerful grin, "but it'll cost yer $2 extry if I break my neck."

A BANKER'S NERVE

Broken by Coffee and Restored by Postum.

A banker needs perfect control of the nerves, and a clear, quick, accurate brain. A prominent banker of Chattanooga tells how he keeps himself in condition:

"Up to 17 years of age I was not allowed to drink coffee, but as soon as I got out in the world I began to use it and grew very fond of it. For some years I noticed no bad effects from its use, but in time it began to affect me unfavorably. My hands trembled, the muscles of my face twitched, my mental processes seemed slow and in other ways my system got out of order. These conditions grew so bad at last that I had to give up coffee altogether.

"My attention having been drawn to Postum, I began its use on leaving off the coffee, and it gives me pleasure to testify to its value. I find it a delicious beverage; like it just as well as I did coffee, and during the years that I have used Postum I have been free from the distressing symptoms that accompanied the use of coffee. The nervousness has entirely disappeared, and I am as steady of hand as a boy of 15, though I am more than 72 years old. I owe all this to Postum." "There's a Reason." Read the little book, "The Road to Wellville," in pkgs. Grocers sell.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

HAS TWENTY-ONE NAMES.

Bishop Thornton, who is anxious to find an alternative to the "smooth, suave name" of influenza, should consult "La Grippe," by Dr. G. Andre, a work published last October. There he will find 21 names bestowed by the French on that unpleasant malady since its first appearance in A. D. 475. The most appropriate and popular name appears to be "la grippe," which was given because of the sudden and violent way in which patients are seized. Another popular name in the eighteenth century was "petit courrier," because it reached everybody. Most of the French names, however, are quite as suave as our own, but some of the terms employed by other nations are sufficiently harsh to suit the greatest of sufferers, the most effective in Dr. Andre's list being the Swedish "snufsjuka" and the Dutch "zinkingghoorts."

EFFORT AND RELAXATION.

Crawford—Your wife must be dead in love with you. She has sent you a letter every day since she has been away.

Crabshaw—They are only little notes to tell me to send her some article she forgot to put in her trunk.—Puck.

INSIDE INFORMATION.

"A man wants to see you inside, sir," said the maid to the man of the house who was employed in the garden.

"Has he got an X-ray machine with him?" was the busy man's reply.

SPIRIT OF THE AGE.

"Please, mamma, can't you get a divorce? I begin to dislike papa's looks?"

WHY SHE FAINTED.

Daysey Mayme Appleton was reading a newspaper the other night when suddenly she gave a scream and fell to the floor in a dead faint. Now, according to the books and traditions Daysey Mayme fainted because she read the announcement of an old sweetheart's marriage or death (and it will turn out afterward, according to the books and tradition, that he was a cousin of her old sweetheart by the same name). But real life is so unlike the books and tradition. Upon being revived Daysey Mayme related that she saw hosiery advertised for 27 cents that she had paid 35 cents for the day before.—Atchison Globe

SWAGGER SET SLOW PAY.

A woman of means whose personality is as obscure in New York as Mrs. Howard Gould's is prominent could buy the same toilettes that the millionaire's wife paid $40,000 a year for at just about half that cost if she paid cash. Fashionable modistes and milliners charge double prices to most of their customers in the swagger set, because they have to wait so long for the settlement of their accounts.—New York Press.

FELL ON ARABLE GROUND.

A well-known prelate of the Cleveland diocese recently preached a series of sermons, his general theme being "Humility." In the course of his sermons he necessarily dwelt upon the nothingness of man without the help of grace. His auditors were the gentle nuns of the Villa convent and the convent school pupils, made up of many young ladies, girls and small boys.

At the conclusion of the sermons the prelate, while divesting himself of the garments of the altar service, turned to the sanctuary boys, lads of 10 or 11 years. "What are you?" inquired the venerable priest of one of the two boys. Quick as a flash came back the answer, "I am an Irishman and I am proud of it." "And what are you?" he asked the other lad. Crossing his little hands upon his breast, he quietly rejoined, "Father, I have been listening, I am nothing."

The aged administrator of the Cleveland diocese chuckles as he unfolds the tale. The seed had evidently fallen on arable ground.—Cleveland Leader.

ONE CAUSE OF SUICIDE.

According to a St. Petersburg dispatch, a medical scientist has discovered that the prevalence of suicide there is due to a genuine disease which he has discovered, investigated and given the name of "despair fever." He says its victims are persons who find nothing but despair in the future, both as regards their own lot and the fate of the country in which they live. The scientist does not go into the primary causes of the ailment, but the reading of Russian socialist literature and Russian fiction may be regarded as one. These works are extremely depressing even to people not compelled to live in Russia.

TAFT AND DIAZ MEET AT EL PASO

TWO PRESIDENTS EXCHANGE GREETINGS AND HOLD PRIVATE CONFERENCE.

IMPOSING CEREMONIES

DAY OF PAGEANTRY AND CHEERING CROWDS ENDS WITH GRAND BANQUET.

El Paso, Texas.—The long expected meeting between President Taft and President Diaz of the republic of Mexico occurred here Saturday. Outwardly it was attended with a display of soldiery, a flare of trumpets, a boom of cannon and a pomp of ceremony suggestive of supreme authority, but in the actual handclasp of the two executives and in the exchange of courteous words which passed from lip to lip there was simple but cordial informality.

President Taft was the first to speak. In simple American fashion he assured President Diaz of his warm personal regard and his high esteem of the man who had accomplished so much. He was glad to know the President of such a great nation; especially glad to know the present President who had made the nation great. President Diaz replied with equal cordiality.

Both Presidents dwelt upon the harmonious relations existing between the United States and Mexico. President Taft declared that this meeting was not necessary to make stronger the bonds of friendship; it merely typified the strength of the bonds as they already exist.

There were less than a score of persons permitted to witness the meeting of the two executives. Even these were excluded later when President Taft and President Diaz withdrew into an inner room of the Chamber of Commerce building, where the historic meeting occurred and were only attended by Governor Creel of the state of Chihuahua, former ambassador to the United States, who acted as interpreter.

The scene of the day's ceremonies shifted from time to time from this thriving little American city across the shallow, wandering Rio Grande river to the typical little Mexican town of Ciudad Juarez. In the Customs house there President Diaz received a return call from President Taft and again late at night entertained the American President and a large dinner party at a state banquet which in all its surroundings of lavish decorations, of brilliancy in color, of wealth of silver plate, handed down from the time of the Emperor Maximillian, and in every carefully considered detail probably was the most notable feast ever served on the American continent.

It was at this banquet that the more formal and public expressions of regard between the two executives as the representatives of the people of the United States and of Mexico were exchanged.

The banquet also marked the end of the day of international pageantry—a day of cloudless skies, a day of rushing, cheering crowds, a day of marching soldiers, a day of the journeying into foreign territory of a President of the United States, for the second time in the history of the nation. It was a day of amity between the two great nations of the United States and Mexico, a day made unusual by the first visit to American soil of the chief ruler of a nation in any way approaching the prestige of Mexico.

Pittsburg, World's Champion.

Detroit, Mich.—Pittsburg won the world's baseball championship at Bennett Park Saturday by defeating Detroit by the overwhelming score of 8 to 0 in the seventh and decisive game of one of the greatest battles ever fought for the world's title. This gives the National league champions the victory by the count of four games to three. This is the third successive defeat of the American league champions in the world's series and consequently, the third straight victory for the National league, the Chicago team having defeated Detroit in 1907 and 1908.

Great Religious Gathering.

Pittsburg.—The greatest religious gathering ever held in this city and perhaps in the country occurred at Forbes Field here Sunday, when about 25,000 persons assembled at the sacrament of the Lord's supper, the event being the principal feature of Sunday's session of the convention of the Disciples of Christ, Christian Church.

Pain in the back is pain in the kidneys, in most cases, and it points to the need of a special remedy to remove and cure the congestion or inflammation of the kidneys that is interfering with their work and causing that pain that makes you say: "Oh, my back."

New Geyser in Yellowstone Park.

For a few days past there have been indications of an eruption of some kind near the Fountain hotel in Yellowstone park, says a dispatch from Mammoth Hot Springs, Wyo. Now a new and magnificent geyser has broken out in full force about 100 feet north of the regular Fountain geyser near Fountain hotel. This new geyser, which does not appear to affect any of the others in that vicinity, played to a height of 150 to 200 feet, throwing off immense quantities of hot water, mud and steam. The new geyser does not play regularly as does Old Faithful, but at short intervals, the eruptions occurring five or six hours apart, and lasting about one hour.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

The highest medical authority on foods,

Sir James Crichton Browne, LL. D.—F. R. S.

of London,

gives the best reasons for eating more

Quaker Scotch Oats

In an article published in the Youth's Companion of September 23rd, 1909, Dr. Browne, the great medical authority on foods, says, about brain and muscle building—

"There is one kind of food that seems to me of marked value as a food to the brain and to the whole body throughout childhood and adolescence (youth), and that is oatmeal.

"Oats are the most nutritious of all the cereals, being richer in fats, organic phosphorus and lecithins."

He says oatmeal is gaining ground with the well-to-do of Great Britain. He speaks of it as the mainstay of the Scottish laborer's diet and says it produces a big-boned, well-developed, mentally energetic race.

His experiments prove that good oatmeal such as Quaker Scotch Oats not only furnishes the best food for the human being, but eating it strengthens and enlarges the thyroid gland—this gland is intimately connected with the nourishing processes of the body.

In conclusion he says—

"It seems probable therefore that the bulk and brawniness of the Northerners (meaning the Scotch) has been in some measure due to the stimulation of the thyroid gland by oatmeal porridge in childhood."

The Scotch eat Quaker Scotch Oats because it is the best of all oatmeals.

COOK NOT AT POLE, --PEARY

Naval Commander Sternly Refutes Claims Made by the Doctor.

TESTIMONY OF THE ESKIMOS

Long and Carefully Prepared Statement Given to the Public Amounts to Direct Questioning of Dr. Cook's Veracity—Is Signed by All the Principals of the Roosevelt Party.

New York, Oct. 12—The following statement of Commander Robert E. Peary, which he submitted, together with the accompanying map, to the Peary Arctic club in support of his contention that Dr. Cook did not reach the north pole, is now made public for the first time. The statement and map have been copyrighted by the Peary Arctic club.

Commander Peary's Introduction.

Some of my reasons for saying that Dr. Cook did not go to the north pole will be understood by those who read the following statements of the two Eskimo boys who went with him, and who told me and others of my party where he did go. Several Eskimos who started with Dr. Cook from Anoratok in February, 1908, were at Etah when I arrived there in August, 1908. They told me that Dr. Cook had with him, after they left, two Eskimo boys, or young men, two sledges and some twenty dogs. The boys were I-took-a-shoo and Ah-pe-lah. I had known them from their childhood. One was about eighteen and the other about nineteen years of age.

On my return from Cape Sheridan and at the very first settlement I touched (Nerke, near Cape Chalon) in August, 1909, and nine days before reaching Etah, the Eskimos told me, in a general way, where Dr. Cook had been; that he had wintered in Jones Sound, and that he had told the white men at Etah that he had been a long way north, but that the boys who were with him, I-took-a-shoo and Ah-pe-lah, said that this was not so. The Eskimos laughed at Dr. Cook's story. On reaching Etah, I talked with the Eskimos there and with the two boys and asked them to describe Dr. Cook's journey to members of my party and myself. This they did in the manner stated below.

(Signed.) R. E. PEARY.

Signed Statement of Peary, Bartlett, McMillan, Borup and Henson, in Regard to Testimony of Cook's Two Eskimo Boys.

The two Eskimo boys, I-took-a-shoo and Ah-pe-lah, who accompanied Dr. Cook while he was away from Anoratok in 1908 and 1909, were questioned separately and independently, and were corroborated by Panikpah, the father of one of them (I-took-a-shoo), who was personally familiar with the first third and the last third of their journey, and who said that the route for the remaining third as shown by them, was as described to him by his son after his return with Dr. Cook.

The narrative of these Eskimos is as follows:

They, with Dr. Cook, Francke and nine other Eskimos, left Anoratok, crossed Smith's Sound to Cape Sabine, slept in Commander Peary's old house in Payer Harbor, then went through Rice strait to Buchanan bay. After a few marches Francke and three Eskimos returned to Anoratok.

Dr. Cook, with the others, then proceeded up Flagler bay, a branch of Buchanan bay, and crossed Ellesmere Land through the valley pass at the head of Flagler bay, indicated by Commander Peary in 1898, and utilized by Sverdrup in 1899, to the head of Sverdrup's "Bay Fiord" on the west side of Ellesmere Land.

Their route then lay out through this fiord, thence north through Sverdrup's "Heuerka Sound" and Nansen strait.

On their way they killed musk oxen and bear, and made caches, arriving eventually at a point on the west side of Nansen strait (shore of Axel Heiberg Land of Sverdrup), south of Cape Thomas Hubbard.

A cache was formed here and the four Eskimos did not go beyond this point. Two others, Keolooltingwah and Inughito, went on one more march with Dr. Cook and the two boys, helped to build the snow igloo, then returned without sleeping.

These two Eskimos brought back a letter from Dr. Cook to Francke, dated the seventeenth of March. The two men rejoined the other four men who had been left behind, and the six returned to Anoratok, arriving May 7. This information was obtained not from the two Eskimo boys, but from the six men who returned and from Francke himself, and was known to us in the summer of 1908, when the Roosevelt first arrived at Etah. The information is inserted here as supplementary to the narrative of the two boys).

After sleeping at the camp where the last two Eskimos turned back, Dr. Cook and the two boys went in a northerly or northwesterly direction with two sledges and twenty-odd dogs, one or more march, when they encountered rough ice and a lead of open water. They did not enter this rough ice, nor cross the lead, but turned westward or southwestward a short distance and returned to Heiberg Land at a point west of where they had left the cache and where the four men had turned back.

Here they remained four or five sleeps, and during that time I-took-a-shoo went back to the cache and got his gun, which he had left there, and a few items of supplies.

When asked why only a few supplies were taken from the cache, the boys replied that only a small amount of provisions had been used in the few days since they left the cache, and that their sledges still had all they could carry, so that they could not take more.

After being informed of the boys' narrative thus far, Commander Peary suggested a series of questions to be put to the boys in regard to this trip from the land out and back to it.

These questions and answers were as follows:

Did they cross many open leads or much open water during this time? Ans. None.

Did they make any caches out on the ice? Ans. No.

Did they kill any bear or seal while out on the ice north of Cape Thomas Hubbard? Ans. No.

Did they kill or lose any of their dogs while out on the ice? Ans. No.

With how many sledges did they start? Ans. Two.

How many dogs did they have? Ans. Do not remember exactly, but something over twenty.

How many sledges did they have when they got back to land? Ans. Two.

Did they have any provisions left on their sledges when they came back to land? Ans: Yes; the sledges still had about all they could carry, so they were able to take but a few things from the cache.

From here they went southwest along the northwest coast of Heiberg Land to a point indicated on the map (Sverdrup's Cape Northwest).

From here they went west across the ice, which was level and covered with snow, offering good going, to a low island which they had seen from the shore of Heiberg Land at Cape Northwest. On this island they camped for one sleep.

The size and position of this island, as drawn by the first boy, was criticised by the second boy as being too large and too far to the west, the second boy calling the attention of the first to the fact that the position of the island was more nearly in line with the point where they had left Heiberg Land (Cape Northwest) and the channel between Amund Ringnes Land and Ellef Ringnes Land.

From this island they could see two lands beyond (Sverdrup's Ellef Ringnes and Amund Ringnes Lands). From the island they journeyed toward the left-hand one of these two lands (Amund Ringnes Land), passing a small island which they did not visit.

Arriving at the shore of Amund Ringnes Land, the Eskimos killed a deer as indicated on the chart.

The above portion of the statement of the Eskimo boys covers the period of time in which Dr. Cook claims to have gone to the pole and back, and the entire time during which he could possibly have made any attempts to go to it.

If it is suggested that perhaps Dr. Cook got mixed and that he reached the pole, or thought he did, between the time of leaving the northwest coast of Heiberg Land at Cape Northwest, and his arrival at Ringnes Land, where they killed the deer, we must then add to the date of Dr. Cook's letter of March 17, at or near Cape Thomas Hubbard, the subsequent four or five sleeps at that point, and the number of days required to march from Cape Thomas Hubbard to Cape Northwest (a distance of some sixty nautical miles), which would advance his date of departure from the land to at least the 25th of March, and be prepared to accept the claim that Dr. Cook went from Cape Northwest (about latitude eighty and a half degrees north) to the pole, a distance of five hundred and seventy geographical miles, in twenty-seven days.

After killing the deer they then traveled south along the east side of Ringnes Land to the point indicated on the chart, where they killed another deer.

They then went east across the south part of Crown Prince Gustav sea to the south end of Heiberg Land, then down through Norwegian bay, where they secured some bears, but not until after they had killed some of their dogs, to the east side of Graham Island; then eastward to the little bay marked "Eid's Fiord" on Sverdrup's chart; then southwest to Hell's Gate and Simmon's peninsula.

Here for the first time during the entire journey, except as already noted off Cape Thomas H. Hubbard, they encountered open water. On this point the boys were clear, emphatic, and unshakable. They spent a good deal of time in this region, and finally abandoned their dogs and one sledge, took to their boat, crossed Hell's Gate to North Kent, up into Norfolk Inlet, then back along the north coast of Colin Archer Peninsula to Cape Vera, where they obtained fresh eider duck eggs. Here they cut the remaining sledge off, that is shortened it, as it was awkward to transport with the boat, and near here they killed a walrus.

The statement in regard to the fresh eider duck eggs permits the approximate determination of the date at this time as about the first of July. (This statement also serves, if indeed anything more than the inherent straightforwardness and detail of their narrative were needed, to substantiate the accuracy and truthfulness of the boys' statement. This location of Cape Vera is mentioned in Sverdrup's narrative as the place where during his stay in that region he obtained eider duck eggs.)

From Cape Vera they went on down into the southwest angle of Jones Sound, where they killed a seal; thence east along the south coast of the sound, killing three bears at the point noted on the map, to the peninsula known as Cape Sparbo on the map, about midway on the south side of Jones Sound. Here they killed some musk-oxen and, continuing east, killed four more at the place indicated on the chart, and were finally stopped by the pack ice at the mouth of Jones Sound. From here they turned back to Cape Sparbo, where they wintered.

After the sun returned in 1909 they started, pushing their sledge, across Jones Sound to Cape Tennyson; thence along the coast to Clarence Head; (passing inside of two small islands not shown on the chart, but drawn on it by the boys), where they killed a bear; thence across the broad bight in the coast to Cadogan Fiord; thence around Cape Isabella and up to Commander Peary's old house in Payer Harbor near Cape Sabine, where they found a seal cached for them by Panikpah, I-took-a-shoo's father. From here they crossed Smith Sound on the ice, arriving at Anoratok.

Cured by Cuticura for $1.50.

"When my little boy was two and a half months old he broke out on both cheeks with eczema. It was the itchy, watery kind and we had to keep his little hands wrapped up all the time, and if he would happen to get them uncovered he would claw his face till the blood streamed down on his clothing. We called in a physician at once, but he gave an ointment which was so severe that my babe would scream when it was put on. We changed doctors and medicine until we had spent fifty dollars or more and baby was getting worse. I was so worn out watching and caring for him night and day that I almost felt sure the disease was incurable. But finally reading of the good results of the Cuticura Remedies, I determined to try them. I can truthfully say I was more than surprised, for I bought only a dollar and a half's worth of the Cuticura Remedies (Cuticura Soap, Ointment and Pills), and they did more good than all my doctors' medicines I had tried, and in fact entirely cured him. His face is perfectly clear of the least spot or scar of anything. Mrs. W. M. Comerer, Burnt Cabins, Pa., Sept. 15, 1908."

How She Knew.

The cartoonist's wife was talking to a friend.

"I just know Fred didn't want to work at the office last night," she said.

"Why, how do you know?" was asked.

"Because in his sleep he said: 'Well, I'll stay, but I don't want to draw.'"—Lippincott's Magazine.

In case of pain on the lungs Hamlins Wizard Oil acts like a mustard plaster, except that it is more effective and is so much nicer and cleaner to use.

The wickedness of other men we have always in our eye, but we cast our own over our shoulder.—Seneca.

THE SOURCE OF TROUBLE must be reached before it can be cured. Allen's Lung Balsam goes to the root of your cough, and cures it. Harmless and sure. At all druggists.

To the good the world is very good; to the bad it is bad.—Smiles.

Dr. Pierce's pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take.

Money talks, but it often fails to tell the truth.

Syrup of Figs and Elixir of Senna

acts gently yet promptly on the bowels; cleanses the system effectually; assists one in overcoming habitual constipation permanently. To get its beneficial effects, always buy the genuine.

SHORTY MC CABE

Have you made the acquaintance of the latest hit in American humor Sewell Ford's "Shorty McCabes" stories? If not you are missing a heap of fun. Shorty is a "character" in every sence of the word. As an artist in humorous slang he can match George Ade's fables, and as a creator of original and witty phrases he can match Mr. Dooley.

Wherever you go you will hear people talking and laughing over them. Thousands of people take THE SUNDAY RECORD-HERALD simply for its Sunday Magazine and the inimitable Shorty McCabe. It begins to be a question whether Shorty is not a more popular personage than Mr. Dooley.

Shorty McCabe, his better half, Sadie, and their laughable adventures in New York society can be found and enjoyed only in the Sunday Magazine of THE CHICAGO RECORD HERALD.

IN SUBSTANTIAL ACCORD.

At present, writes Prof. Albert Bushnell Hart, in the Boston Transcript, the winter highways in the Yukon valley are mere trails, traversed only by dog-sledges. Bishop Rowe of Alaska, who is very fond of that kind of travel, one day met a miner coming out with his dog-team, and stopped to ask what kind of a road he had come over.

The miner replied with a stream of forcible words, winding up with: "And what kind of a trail have you had?"

"Same as yours," replied the bishop, feelingly.—Youth's Companion.

AN EXCEPTION NOTED.

"I see that in cases where engaged couples separate a Virginia judge has handed down the opinion that the engagement ring must be returned."

"Mattie Puffer won't like that."

"Why not?"

"Have you seen the ring Jim Bingle gave her?"

"Yes."

"Well, she loaned him the money to buy it."

AUTOCRAT OF THE AUTO.

"Bliggins worries me by his imperturbable assumption of superior wisdom."

"Well," answered Mr. Chuggins, "he'll get over that. He's bought a new motor car, and a few haughty glances from the chauffeur will convince him that it is not his place to offer any suggestions."

HAUGHTY.

Professors in Germany are important personages and know it, but few, probably, ever reach the pinnacle of haughtiness attained by the one of whom this anecdote is related.

He was one of the greatest men in the faculty at Heidelberg. One day the authorities of that city ordered that the street in front of the professor's house should be paved.

"If you don't stop that noise," remarked the professor to the pavers, "I shall give up my position as a member of the Heidelberg faculty."

The pavers stopped work at once. The municipal authorities sent around to inquire respectfully of the professor when they might pave the street.

"When I take my vacation," he replied.

Then, and then only, was the street paved.

COULDN'T THEN.

"I would like mightily to enjoy riches."

"Then why don't you try to marry 'em?"

"As I said, I want to enjoy 'em."

IT DOESN'T ALWAYS FOLLOW

He—Did you know I had become an actor?

She—No; but I heard you had gone on the stage.

WONDER OF SURGERY.

Among the cases shown at the thirty-eighth congress of German surgeons in Berlin was a patient who is under treatment by a Koenigsberg doctor. Although both legs and both arms have been amputated, the man is able by means of supplementary devices to mount stairs without a stick in normal fashion and to sit down, walk, eat, dress and undress unaided.

NATURALLY.

"See here, landlord," said a guest at the village hotel, as he eyed the flattened pillows and crumpled sheets, "this bed has been slept in."

"Course it has," replied the landlord, triumphantly. "That's what it's for, by grass!"

RECOMMENDATION.

Mrs. Handout—I would like to know whether you are a trustworthy character?

Dusty Stryper—Why, lady, at the last place I worked they called me a trusty!—Puck.

SOMETHING MORE HANDY.

"Does he use a pseudonym in his writing?"

"No; he uses a typewriter."

SHE WAS MODEST?

Him—I like you.

Her—Why?

Him—You are one of the few women who have a sense of humor.

Her—How do you know I have?

Him—You laugh heartily when I tell a joke.

Her—Oh, one doesn't need a sense of humor to laugh when you talk—Exchange.

HE HITS BACK.

There had been a domestic spat at breakfast.

"You monster!" snapped the matron, who was always scolding, "you are not like my two former husbands. They were tender men."

"I never doubted that they were tender, Maria," ventured the meek man, "when you kept them in hot water all the time." And he just cleared the front porch two yards ahead of the rolling pin.

"Don't they run any more accommodation trains on this line?" said the man who had been away for some time.

"Huh!" rejoined the conductor.

"I don't see any accommodation trains mentioned. Don't you stop at the small stations any more?"

"Certainly we do. But the trains that make the stops are called locals. This is a conscientious company and the word 'accommodation' might lead the public to expect too much."

A REFUGE.

"Isn't it a great advantage to study foreign languages before traveling abroad?"

"Not always," answered Miss Cayenne. "Unfamiliarity with a language occasionally enables one to conceal a great deal of downright ignorance."
