CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, JUNE 30, 1911

PRICE \$1.50 THE YEAR

COUNTY OFFICERS CASE

Complaint Filed Against The County Officers, Asking Removal from Office

ASK FOR WRIT OF MANDAMUS

Chapter 87, 1907 Session Laws provides as follows:

"That all sheriffs, treasurers and probate clerks of the various counties in New Mexico shall establish and maintain their offices and headquarters for the transaction of the business of their respective offices at the county seat of their respective counties and shall there keep all the books, papers and official records pertaining to their respective offices. Provided, That such offices shall be provided for such officers at the expense of the respective counties."

"Sec. 2. Any officer who shall fail to comply with the provisions of this act shall upon verified complaint by any taxpayer residing in the county in which such delinquent officer is serving, filed in the district court having jurisdiction over such county, setting forth the facts as to such violation of this act, and after hearing upon such notice as the court shall prescribe, and proof of such facts to the satisfaction of the presiding judge of such court, be summarily removed from said office and such court declared vacant by judgment and decree of such court and thereupon any vacancy so created shall forthwith be filled in the manner prescribed by law."

Chapter 6, 1907 Session Laws, provides in regard to vacancies as follows:

"Sec. 2. Hereafter whenever any vacancy in any county office in any of the counties of this Territory other than a vacancy in the office of the county commissioner, shall occur by reason of death, resignation or otherwise it shall be the duty of the board of county commissioners of the county where such vacancy has occurred to fill said vacancy by appointment and said appointee shall be entitled to hold office until his successor shall be duly elected and qualified according to law."

A complaint was filed this week by William Kahlor as a taxpayer of the county under the above law asking for the removal of all county officers not maintaining offices at Carrizozo, the county seat. The complaint was filed Monday with Judge Edward R. Wright and subpoena issued for the officers and witnesses to appear in court next Thursday, July 6th, at Alamogordo when the case will come to hearing and the officers, against whom the complaint has been filed will be asked to show cause why they should not be removed from offices for failure to comply with law as to maintaining office at Carrizozo.

Attorney Hudspeth this week also filed a new mandamus suit asking for a peremptory writ of mandamus to be issued out of the district court ordering the removal of the county records to Carrizozo. This order is asked for to stop any further argument on the point.

The above laws are very clear on the subject and there seems to be no chance for an argument on the points at issue.

Territorial Policeman Alex. Street and Lieutenant Collier arrived in the city last Friday, and investigated the conditions existing here in reference to the county seat controversy. Finding that the mob at Lincoln has disbursed and that it was not likely that any serious trouble would issue they left to return later and serve the courts orders in the points involved.

The county officials who remained at Lincoln have notified the district court that they had consulted legal advice and would fight being removed to Carrizozo; this is contrary to their statements of a week ago. They also wired Atty. Calmer who is at Battle Creek Michigan to come for the hearing July 6th.

TEACHER'S INSTITUTE

The Lincoln County Teacher's Institute which has been in session here the last two weeks came to a close last evening after a very successful session. Examinations started today and will be continued tomorrow.

The teachers passed the following resolutions:

"The Lincoln County Teachers assembled realizing the excellent work accomplished during the Summer Normal Session closing June 29th do submit the following resolutions:

Resolved: that the gratitude of the teachers is hereby extended to our conductor, Mrs. Geo. Dixon, of El Rito, and to Miss Maude Hancock, instructor of Santa Fe.

Resolved: That our appreciation be extended to county superintendent John A. Haley for his careful attention to arrangements for the convenience of the teachers.

Furthermore resolved: That a vote of thanks be given to R. I. Asplund, Editor of the New Mexico Journal of Education, to W. E. Garrison, President of the Agricultural College, and to the Rev. B. W. Allen, of Carrizozo for their interesting and instructive addresses.

Sam. Kelsey, Mamie E. Humphrey and Jane Brockway, Com. mittees.

MRS WILSON'S RECITAL

Mrs. Edgar Wilson together with the students of music in her classes gave a recital Friday evening which was largely attended by friends and parents of those participating. Miss Kattie Reily was awarded a medal by Mrs. Wilson for accomplishing the most in the past term and the others were each given a present by their teacher. Those participating in the recital were Sybel Perry, Ida Grumbles, Elsie Farley, Gladis Estes, Helen Estes, Kattie Reily and Vaughn Wilson.

LOCAL AND PERSONAL

—One way fare for round trip to Tularosa on the Fourth of July. Tickets on sale July 2, 3, 4.

—The Women's Home Mission Society met at the home of Mrs. Geo. Ulrich, yesterday afternoon.

—Rev. E. R. Walker will fill his regular appointment at the Baptist church Sunday morning and evening.

—The Outlook will be issued one day later than usual next week on account of Fourth July and also to enable us to give our readers the decision in the County officers hearing at Alamogordo of Thursday.

—High Altitude Cook Book at the Carrizozo Trading Co. and Rolland's Drug Store. Fifty Cents and two cents for mailing.

—It is expected that the opening exercises in the new Methodist Church will take place Sunday July 26th. The building is now rapidly nearing completion.

—Two of the Fort Stanton baseball players, Murphy and Leiter passed through the city yesterday enroute for the East.

—Ice-ice; Call No. 2 on the phone

BROWNS WIN ANOTHER

Carrizozo Puts It Over Fort Stanton in an Interesting Ten Inning Game

CARRIZOZO 5: FORT STANTON 4

In spite of a very unpleasant wind Carrizozo people witnessed one of the best ball games Sunday afternoon that has been played in Carrizozo in many months. Fort Stanton met the Browns at Sportsman's Park, the game was of ten inning duration with a final score of Carrizozo 5, and Stanton 4.

The game commenced with Robinson and Loughrey battery for Carrizozo and Thorpe and Coe battery for the Fort. Carrizozo ran up four scores in the first four innings and held Stanton down to one score until the eighth inning when the Fort succeeded in putting three men over home and followed it in the ninth inning with another run which tied up the score necessitating the extra inning. The excitement was at its high at the end of the ninth inning, the Fort had been to bat and Carrizozo was taking her turn, the score was four to four, the bases were full, two men were down, the batter had three balls and two strikes, the excitement was tense for a time but the batter was out on a "pop up" relieving the situation and giving the Fort an other chance at bat. Robinson of

Duran who was handling the sphere for Carrizozo had his finger smashed in the eighth and Grumbles was put in the box by Capt. Dingwall and was soon succeeded by Loughrey, Dingwall coming in from first to catch, Robinson holding down that bag.

The feature of the game was a timely hit by Morgan Reily, the cub player for Carrizozo. In the tenth inning Willie Dingwall had gotten to second on a hit, B. Dingwall and Loughrey had made outs when Reily, who is about the size of watch charm came to bat. He managed to drop a fly past first and in, too far, for Chamberlain Right Field of Stanton to judge, this hit brought in W. Dingwall from second made the necessary fifth run for Carri, and ended the game. Reily was carried off the field on the players shoulders.

The wind continued throughout the game and made it impossible to judge a batted ball; filled the eyes of the players as well as the eyes of the audience but all stuck it out bravely. The contest to say the least was very interesting. It was slightly marred by a few arguments over decisions but Manager S. H. Lane of the Fort Stanton team stated after the game that he was well pleased and all was satisfactory to his team.

The runs made for Carrizozo were by Blair, B. Dingwall, W. Dingwall, Loughrey and Robinson.

Hits: Webb 2, Blair 1, B. Dingwall 1, W. Dingwall 1, Loughrey 2, Reily 2, Groves 1, Grumbles 2, Robinson 3. Total 15.

The runs made for Fort Stanton were made by Collins, Burlison, Thorpe and Brockway.

Hits: Collins 4, Leiter 3, Burlison 2, Thorpe 4, Booskool 3, Abela 3, Brockway 2 Total 21.

son 2, Thorpe 4, Booskool 3, Abela 3, Brockway 2 Total 21.

THE LINE UP

Carrizozo	Fort Stanton
Webb 3d. B.	Burlison
Blair 2d. B.	Leiter
B. Dingwall 1st. B.	Brockway
W. Dingwall S. S.	Collins
Loughrey C.	H. Coe
Reily C. F.	Abels-Murphy
Jones-Groves R. F.	Hightower
Grumbles L. F.	Booskool
Robinson P.	Thorpe

Umpire, Billy Ferguson, Van Schoyck of Carrizozo was kept on the bench by Capt. Dingwall.

Next Sunday a game has been arranged with The E. P. & S. W. Shop team of El Paso who will arrive Saturday evening. A dance will be given Saturday night for the team and the game will be played Sunday afternoon at the ball park. A lively contest is expected.

It has also been arranged to play a picked team from the county under the heading of Fort Stanton next Tuesday, Fourth of July at the Bonito picnic and Barbecue. It is hoped that Robinson of Duran will be able to pitch for Carrizozo in each contest.

Other games have been arranged for future dates with White Oaks, Corona, and Jim. Woodlands' Outlaws.

POSTOFFICE COUNT HEAVY.

The local postoffice, on order from Washington, kept strict count of the number of pieces of mail handled through the local office during the month of May. A careful count was made of all classes of mail and the gross results were: Incoming, 22,270 pieces. Outgoing 23,534 pieces making a total of over 45,000 pieces handled through the office during the month. The count was taken to estimate the allowance for clerks.

CHINATOWN MYSTERIES

Char. Oro and Company presented an evenings entertainment to a small but appreciative audience Monday evening at Real's Hall. The show was made up of several vaudeville numbers and a sketch and the acting was far above the average showing in other than the large cities. The company is enroute to Chicago for the winter season and is merely stopping off enroute awaiting the opening of the fall circuit. The company also showed Tuesday evening by request.

DIED IN CAMP

A young man by the name of Chester Hayes died in camp Wednesday night near Robsart, of Tuberculosis. He had been traveling through the country for his health accompanied by his father, mother and five sisters and brothers. He was nineteen years old and belong to the Odd fellows lodge. Funeral services were in charge of the local Odd fellows lodge.

NOGAL-ALTO PICNIC.

Arrangements have been made for the Nogal and Alto Sunday Schools to have a joint picnic and good time at Alto on the Fourth of July. Rev. B. W. Allen of the Carrizozo Methodist-Episcopal Church South will officiate.

FROM MAJ. LLEWELLYN

Dist. Attorney Explains How County Record Removal Case Started

CARRIZOZO THE COUNTY SEAT

As there has been some difference of opinion as to where the District Attorney stands in the matter we are publishing herewith a letter addressed to the Carrizozo papers which distinctly puts the argument on that point to an end. The letter follows.

Las Cruces, New Mexico, June 24, 1911.

It may be of interest to the people of Lincoln County to know just how the question of the removal of the county officers from the town of Lincoln to the town of Carrizozo came to the front at this time and I therefore have to say that at the May Term of the District Court held at Carrizozo I found on the civil docket a cause entitled T. W. Watson versus the Board of County Commissioners of Lincoln County. In this suit the plaintiff sued the Board aforesaid for the sum of ten dollars for expenses incurred in coming from Lincoln to Carrizozo to attend a meeting of the said Board.

The law imposes upon the District Attorney amongst other duties that of defending suits brought against the Board and after an examination of the pleadings in the cause I answered that the Board had no authority in law to pay the account in question, that the place for the plaintiff as County Treasurer was at the County seat of Lincoln County (Carrizozo) and the Court sustained my contention. Thus aside from any opinion I may have given the Treasurer and Probate Clerk on the question we have the decision of the Court as to where the County Seat of Lincoln County is situated and it is the duty of the officials to be governed accordingly.

Very truly yours,
W. H. H. Llewellyn,
District Attorney 8th District of New Mexico.

FOURTH OF JULY

Next Tuesday, the Fourth of July will be celebrated by Carrizozo people in a variety of ways. The several celebrations at the towns near by will attract many while others will have private picnics. Tularosa on the south, advertises one way fare for round trip as does Corona on the north. Jicarilla is prepared to entertain all comers in a fitting manner and the picnic on the Bonito promises to be a hummer.

PRESIDENT GARRISON HERE

President Garrison of the New Mexico Agricultural College at Mesilla Park arrived in the city Tuesday morning in his auto and addressed the County Teachers Institute, which was in session. In the evening Mr. Garrison gave a Stereopticon lecture at the Baptist Church which was greatly enjoyed by all who were present.

UNCONVENTIONALITIES.

"Shaking hands with you, Hobbs, is like handling a catfish."

"Yes, I thought I'd come and call on you, Mrs. Giggletorp, and get that worry off my mind."

"Papa was asking me the other day, Mr. Hankinson, if I thought you had any serious intentions, and I didn't know what to tell him."

"An Eye to the Future. Good morning, ma'am. Can't I sell you a preparation warranted to kill rats and mice?"

"Business Affection. Our neighbor's wife always keeps a box of fine cigars and invariably slips one in her husband's pocket when she kisses him good-by in the morning."

THE ONLY WAY.

Daisy—Do you believe that the meek shall inherit the earth? Mamie—Well, they never can get it except by inheritance.

Strange But True. This said a woman can not throw a stone a little bit, but still a woman with an aim in life oft makes a hit.

Its Diagnosis. What would you say if my sailor admirer told me the furs he presented to me had one from the neighborhood of the north pole?

Don't Always Rise. Travelling Journalist (in Dubois City)—I presume an editor of a paper in a booming western town is pretty apt to rise, isn't he?

The Change. Mrs. White (to former servant)—Where are you living now, Gladys? Gladys Lorenza Brownback—Well, unheeled I ain't livin' nowhere now. I'm married—Puck.

Hopeless. Mother—What are you doing, Harry? Harry—I'm counting. You told me when I got mad to count a hundred.

At the Card Party. What is this table made of? "Any fool would know that."

THE DEPARTED.

A friendly sort of fellow, who had a winsome smile; his manner was so cordial, so pleasing all the while, you would have thought him worthy of every confidence.

His garments they were faultless, soft-spoken were his words; he might have been a poet who loved the bloom and birds, but since he's left the city, and taken his oily tongue, oh, hark! oh, hark! what's this we hear? A chorus crying, "Stung!"

GETTING BACK AT HIM.

Hewitt—Why do you give me short weight when you sell me coal? Jewett—I try to make up for your long wait in paying for it.

A Base Ball Achievement. What though our club has often missed this year in an athletic way, this year it surely leads the list for pyrotechnical display.

Could-It Have Been? Aunt Mary, this is my friend, Mr. Spiffkins. "I'm sorry, I didn't quite catch the name."

Seemed Queer. "Yes, I'm a brewer," said the florid faced person, "and I'm doing a big business, I said when I struck this little old town that I'd get my share of the trade, and I'm making good."

Satisfactorily Explained. "If you are looking for bargains," said the broker, "I can suit you. I can offer you some stock at ten cents a share."

The Last Resort. Brother John (who is studying to be a doctor)—Say, you know something about chemistry, if you were called to a person who had just taken a dose of arsenic what would you administer?

A Domestic Gabriel. Mrs. Kowler—Is Mrs. Brown at home? Servant—Yes, mum. She's at home, but she's a-layin' down. Shall I rise her?

Perfecting His Italian. Mrs. McLaughlin—Is your son going to school now, Mrs. McGooghan? Mrs. McGooghan—No, sure he's 'raw wid the English branches. He's perfectin' his Italian now."

And That Settled That. Lazy Employee—I wasn't hired to do that. Brisk Employer—Maybe not, but you are discharged for not doing it.

On Another Lady. Higginbotham made a tidy fortune out of the chicken business," said one friend.

A Featherweight Charge. "Madam, I am delighted to receive a letter from you, addressed to your name, but I am sorry to find it so light."

French Good Roads. France is said to have the most perfect roads in the world. They are said to be so good that they will last for ever.

KING OF HAY CROPS

Alfalfa Is One of Best Drought Resistant Plants.

Crop Comes Nearer to Giving Something for Nothing Than Anything Else on Farm—Also Improves the Soil.

(By W. C. PALMER.) Alfalfa is the king among hay crops, the queen among soil improvers, the prince among drought resistant plants. It comes nearer to giving something for nothing than anything else on the farm.

Alfalfa will grow on any good soil that is well drained; in sand it will not do so well, and hard pan interferes with its root growth.

When the alfalfa is starting it does not have the germs on its roots and so is very delicate and must be given good care.

The best way to prepare the soil is to manure for a crop of corn—clean cultivate the corn—then sow the alfalfa on the disked corn stubble.

Land for Apples. The best land for apples in this section is such as has been cultivated and plowed regularly for two years at least.

Getting After the Peach Borer. The peach borers are at work. They are white grubs tunnelling beneath the bark of peach trees at the surface of the ground.

Topdressing Asparagus. Asparagus will smother if given a liberal topdressing of well-rotted manure and bone meal as soon as snow begins to disappear.

CORN AS A DRY FARM CROP

Produces Abundance of Cheap Feed and Shades Soil, Preventing Consequent Loss of Fertility.

(By W. R. PORTER, Superintendent of North Dakota Demonstration Farm.) In all the dry farming areas, the conservation of the rainfall in the soil, where it becomes available to growing crops, is the keystone of successful agricultural operations.

When the bare fallow system is used a whole year elapses without any returns either on the investment or for the labor performed.

On most farms in the dry farming area enough live stock should be kept to pay most of the running expenses of the farm.

The first essential to corn culture on the dry farms is live stock, for without this there is no way of utilizing the corn crop.

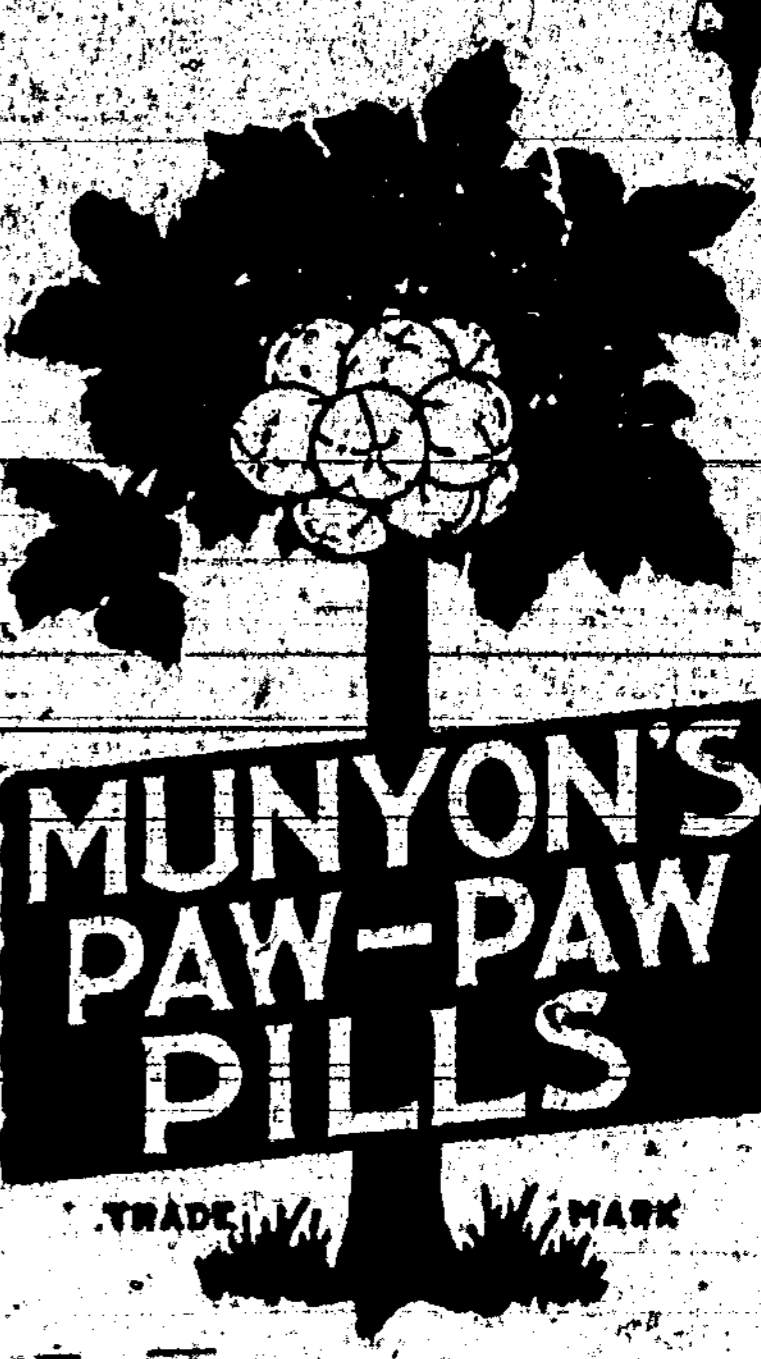

The second essential to corn culture is a conviction that it will pay to grow live stock on the corn crop produced and a determination to grow corn as their chief feed in spite of adverse circumstances.

Feeding Corn. There is much difference in the feeding value of corn, and this should have more thought.

Getting After the Peach Borer. The peach borers are at work. They are white grubs tunnelling beneath the bark of peach trees at the surface of the ground.

Land for Mangos and Nests. Land intended for mangos and sugar cane should be plowed and harrowed, cultivated, rolled and mowed.

FREE

A trial package of Munyon's Paw Paw Pills will be sent free to anyone on request. Address Professor Munyon, 53d & Jefferson Sts., Philadelphia, Pa.

Munyon's Paw Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods.

Munyon's Paw Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverish it.

These pills contain no calomel, no dope; they are soothing, healing and stimulating. They school the bowels to act without physic.

METALLIC HEELS AND COUNTERS

Listen, You Miners, Quarrymen, Farmers, And You Who Do Heavy Work

A Pair of Steel Heels Doubles the Life of Your Shoes. By protecting heels and counters where wear is the heaviest, they're longer lasting, and ensure the shoe's best service.

Instead of Liquid Antiseptics—Peroxide

100,000 people last year used

Paxtine Toilet Antiseptic

The new toilet germicide powder to be dissolved in water as needed. For all toilet and hygienic uses it is better and more economical.

THE DARWINIAN THEORY.

Count De Bree—I would like to show you my family tree.
Miss Gottrox—Oh! please do; I've never seen a cocoon tree!

THREE CURED OF ECZEMA

"When a child, I suffered eight years with eczema. I could not sleep at night, and had sores all over my chest. We had doctors and none could do any good, until my mother saw the advertisement of the Cuticura Remedies in the paper. We used the Cuticura Soap, Ointment and Resolvent, and they cured me of eczema. I also used them on my five children. Two of them had eczema very badly. When my children had eczema, I was not worried at all, as I knew the Cuticura Remedies would do their work. They had sores all over their heads, their hair would fall out, and they would scratch all night and day. They had it on their heads, face, and in back of the ears so that I thought their ears would drop off. I washed their heads and bodies with Cuticura Soap and they are as clean as the driven snow. Cuticura Soap and Ointment also cured my children of ringworm. I would not be without the Cuticura Remedies. They are wonderful." (Signed) Mrs. Violet Cole, 26 S. Redfield St., Philadelphia, Pa., Oct. 29, 1910.

Cuticura Soap and Ointment are sold throughout the world. Send to Potter Drug & Chem. Corp., sole props., Boston, for free book on skin and scalp diseases and their treatment.

Appalling Excuse.

"This is the fifth time you have been brought before me this term," said the judge, frowning severely upon the prisoner at the bar.
"Yes, your honor," said the prisoner.
"You know a man is judged by the company he keeps, and I like to be seen talkin' to your honor for the sake of me credit."
"All right," said the judge. "Omeer, take this man over to the Island and tell them to give him a credit of 30 days."—Harper's Weekly.

THE TRUTH ABOUT BLUING.

Talk No. 2.
Avoid liquid bluing. Don't buy water for bluing. All the water contained is so much adulteration. Glass bottles make an expensive package; add nothing to value to consumer.
Always ask for RED CROSS BAG BLUE, the blue that's all blue. Makes the laundress smile out loud. Large package 5 cents AT ALL GOOD GROCERS.

So familiar.
"Yes," said Nagget, "a woman usually treats her husband as the average servant treats bric-a-brac."
"Go ahead," said the wise Mrs. Nagget. "What's the answer?"
"Why, the more he's worth the more she tries to break him."

DISTEMPER
In all its forms among all ages of horses, as well as dogs, cured and others in same stable prevented from having the disease with SPOHN'S DISTEMPER CURE. Every bottle guaranteed. Over 600,000 bottles sold last year—\$.50 and \$1.00. Any good druggist, or send to manufacturers. Agents wanted. Spohn Medical Co., Spec. Contagious Diseases, Goshen, Ind.

Real happiness is cheap enough, yet how dearly we pay for it with counterfeit.—Ballou.

Start afresh this Spring—cleanse and purify the system by a course of Garfield Tea, Herb laxative and blood-purifier.

If you don't believe honesty is the best policy, try it.

Hood's Sarsaparilla

Cures all humors, catarrh and rheumatism, relieves that tired feeling, restores the appetite, cures paleness, nervousness, builds up the whole system. Get a bottle in your hand today!

LIVE STOCK

KEEP FEEDING PAILS CLEAN

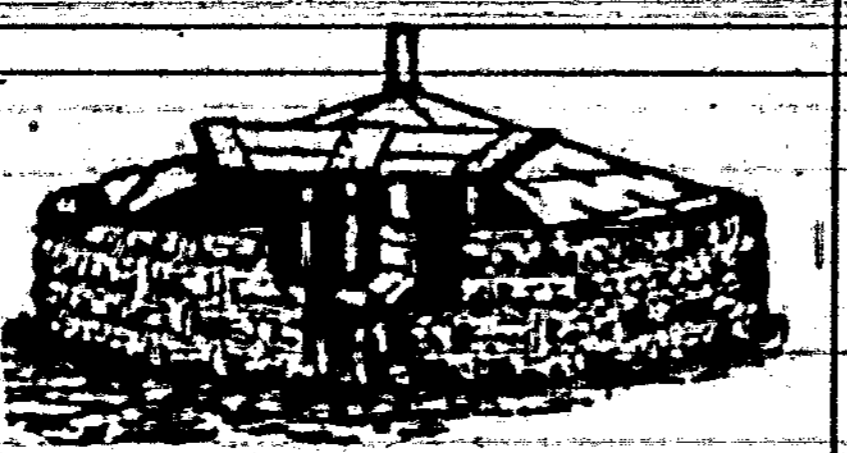

Farmers Do Not Pay Enough Attention to Sanitary Condition of Vessels Used for Feed.

(By M. J. THOMPSON.)
One of our institute lecturers told us last winter that we ought to rinse out the pails after feeding the hogs; every time. This seemed to me rather far fetched at the moment, but the more I think of it the more I believe he is right. We do not pay enough attention to the sanitary condition of the vessels in which milk and other feed for the hogs is kept. The hog is a cleanly animal when it can be, and more than that, pork is made for men, women and children to eat. It should be as sweet as possible and free from any disease-producing element. It cannot be if we feed the hogs from vessels that contain left over feed that has become sour and rancid from heat and exposure to the air. We sold 14 pigs that averaged 170 pounds to the local butcher last winter and when he came out to look them over he remarked that they were the cleanest lot of pigs he had bought for months. He also complimented us on the clean feeding pens and their surroundings.

MAKE CONCRETE WATER TANK

One-in-Use-at-the-Michigan Agricultural College is Made of Ordinary Hollow Blocks.
To water the large herd of stock kept by the Michigan agricultural college a big concrete water tank was built. This is made out of ordinary hollow concrete blocks of standard size, which were cast for a silo. They are well cemented on the inside to make the tank waterproof, says the Farm and Home.

A novel arrangement on the tank is a device for heating the water in winter. A 12-inch tile extends to the center of the tank, while a 4-inch pipe leading up from this furnishes the necessary flue. A grate is fitted in

Water Tank for Stock Farm.

the tile to allow for a suitable draft, and in the door which closes it is an opening which can be opened or shut at will. The braces which hold the door in place also serve to support the hinged doors, which are closed down in cold weather.

Well-Cured Hams and Bacon.
The men who are curing hams and bacon as their grandfathers did without the use of injurious chemicals are making big money.
These men find ready sale at full retail prices for all the hams, shoulders and bacon they can supply to private customers.
It is a fact that most of the ham that is now sold in the city markets stiffens and becomes as hard and unyielding as an oak plank as soon as it becomes hot on the broiler or the skillet. This is due to improper curing.

Reason for Lambing Ewes.
For pregnant ewes there is nothing better than good oats. In making up a ration, barley, oats and corn alone will do, when bean pods can be also fed twice daily.
It is a common error among farmers to neglect the ewes after the mating period, and to allow them to become reduced in flesh. The flesh condition of the ewe has a marked effect on her offspring. Improper feeding during the winter months is often the cause of weak and sickly lambs in the spring.

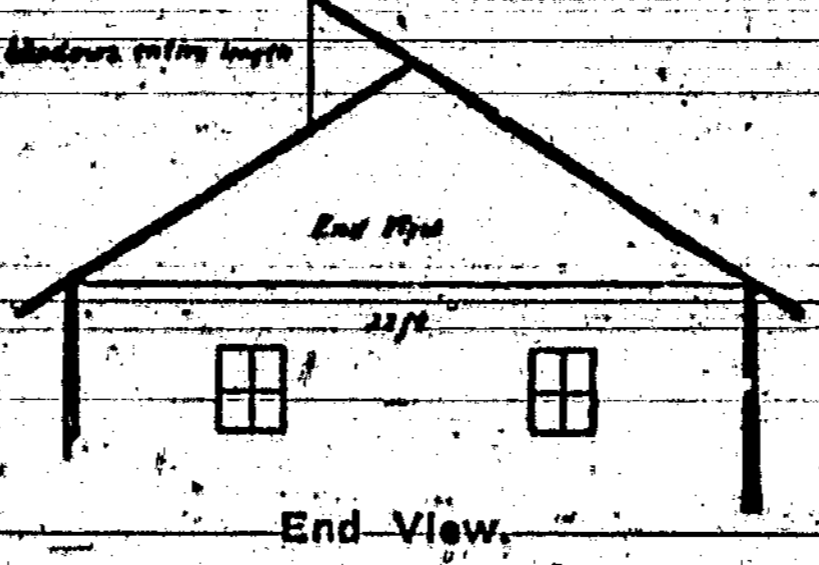

Remedy for Swollen Legs.
Many of the swellings on the limbs of horses can be prevented by the proper amount of exercise. Do not keep the horse standing in the barn without exercise and expect it to remain free from swollen limbs.

Missouri Mule.
The 1,400 pound Missouri mule is becoming a popular draft animal on the thoroughfares of New York city. He is tough, eats less than the horse of the same weight, and if wound will sell for \$300 or better.

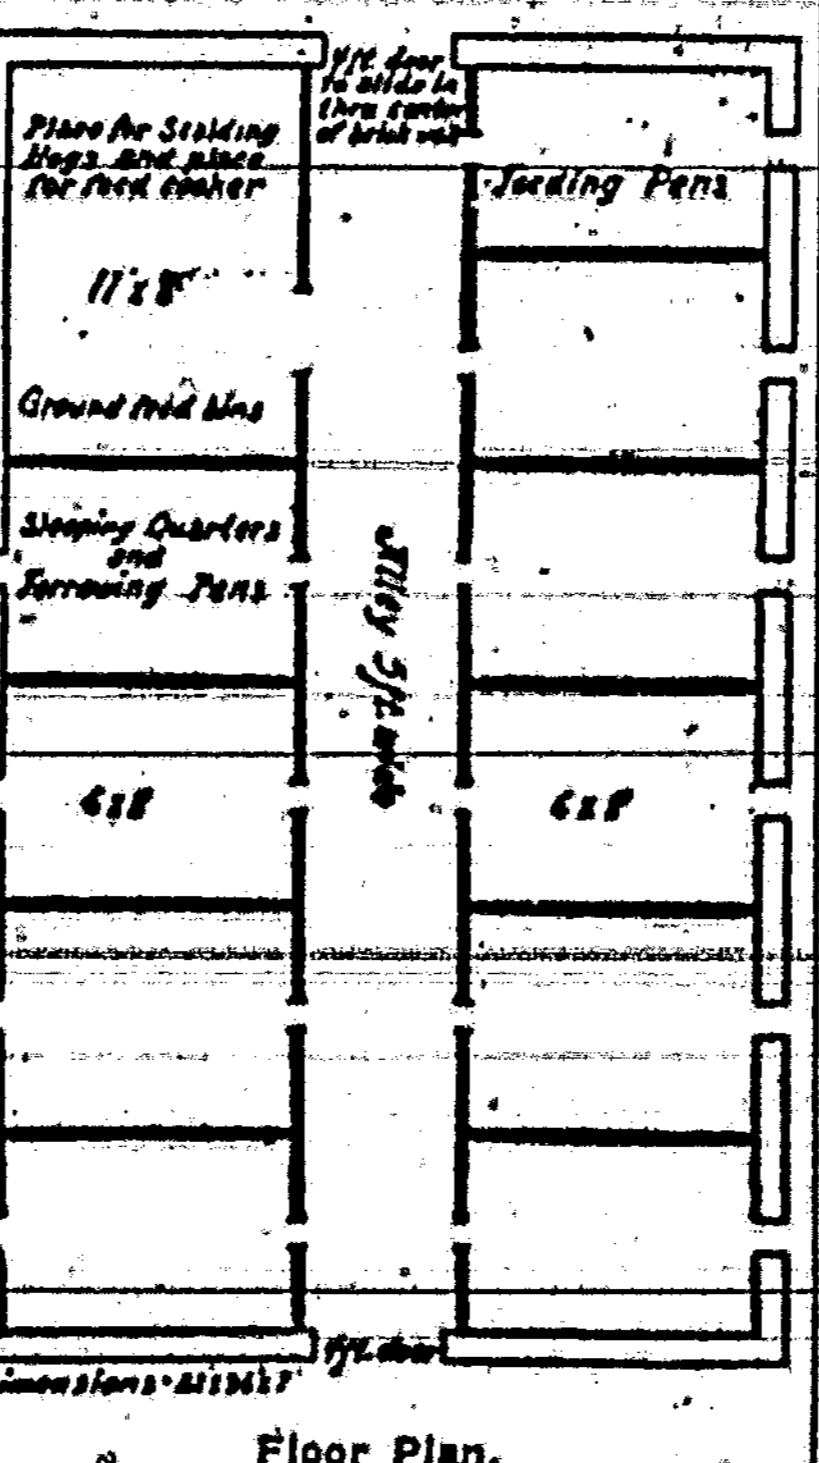

PRACTICAL HOG HOUSE PLAN

Partitions Between Pens Made Removable So That Two or More Can Be Made Into One.

The following plan for a hog house and the accompanying illustration was submitted to the Homestead by Mr. Martin N. Hansom, Iowa county, Wisconsin. The building is 22x36x7, outside walls constructed of brick (double wall), partitions made of planks fastened to 2x4s and 4x4s. Partitions between the pens to be removable so that with little work two or more pens can be made into one. The size of

each pen is 6x8, all doors one row on south side and a continuous row of two feet high window sashes on south pitch of roof, the rafters on the north side to be sufficiently long to project far enough to allow room for windows between edge and south slope of roof, about two windows on each end of house.
It will be best for the doors

to be made so as to slide in through center of wall except the doors leading to alley, which will be hung on hinges. The building should run east and west with windows on south side;

Ram Should Be Well Covered.
Never buy a ram whose wool is scanty on the belly and legs. He should be well covered and the fleece should be uniform.

LIVE STOCK NOTES

A dairy farm of a dozen cows can maintain a flock of 15 or 20 sheep almost without expense.
The real value of a sheep cannot be determined, particularly as a breeder, until it is one year of age.
It is common sense that a mature sow will produce larger and more perfect pigs than a very young one.
If a ewe keeps her lamb in fine fat condition up to the time of weaning, be sure she is a good mother, and keep her.

Free range for hogs does not mean that they should be allowed to run in the highways and through the neighbors' fences.
Some people claim that a hog is a scavenger by nature, but he certainly thrives better on clean feed and decent surroundings.

Remember that colts which are highly fed and growing fast need daily exercise to keep their limbs and joints in proper condition.
Do not change the work horses from grain to grass too suddenly. In fact horses on heavy work every day should have very little grass.
Every enclosure for the hog should be perfectly tight and with the excellent wire fences that are now manufactured this is an easy matter.

Horses that are clipped dry off fast at night, which is to be preferred to standing in a heavy wet coat of hair.
Do not attempt to raise fall pigs without having first prepared a perfect system of housing for the winter.
If English farmers can afford to use pure bred draft horses that are worth \$500 for ordinary farming operations why cannot our farmers afford them as well?
Spring pigs can get along very well without shelter except from rain until fall, then if you are so shiftless as to fail to provide shelter they are better able to stand cold and rain.

HE WOULD DO.

Mr. De Wealth—Have you any experience as chauffeur?
The Applicant—Well, I can show you the receipts for the fines I have paid.

IN THE GOOD OLD SUMMER TIME.

Many a time this summer you're going to be just about done out by the heat—hot, and so thirsty it just seems nothing could quench it. When such moments arrive or when you just want a delicious, palate tickling drink step into the first place you can find where they sell COCA-COLA. It's delicious, refreshing and completely thirst-quenching. At soda fountains or carbonated in bottles—be everywhere. Send to the COCA-COLA CO., Atlanta, Ga., for their free booklet "The Truth About COCA-COLA." Tells what COCA-COLA is and why it is so delicious, cooling and wholesome.

An Astonished Boy.
In February of this year a Wisconsin farmer took his twelve-year-old boy to a village—for the first time, and there the lad saw a train of cars. He was so astonished at the sight that he lost the power of speech for three weeks.
If that youngster is ever taken to a circus or a zoological garden he'll surely be struck dumb for the rest of his life. His father's farm must be hidden away in a hole in the ground.

SHAKE INTO YOUR SHOES
Allen's Foot-Paste, the Antiseptic powder for Tired, aching, swollen, nervous feet. Gives rest and comfort. Makes walking a delight. Sold everywhere. Do not accept any substitute. For FREE sample, address Allen & Olinsted, Le Roy, N. Y.

And lots of people who think they have nothing but trouble don't know what trouble really is.

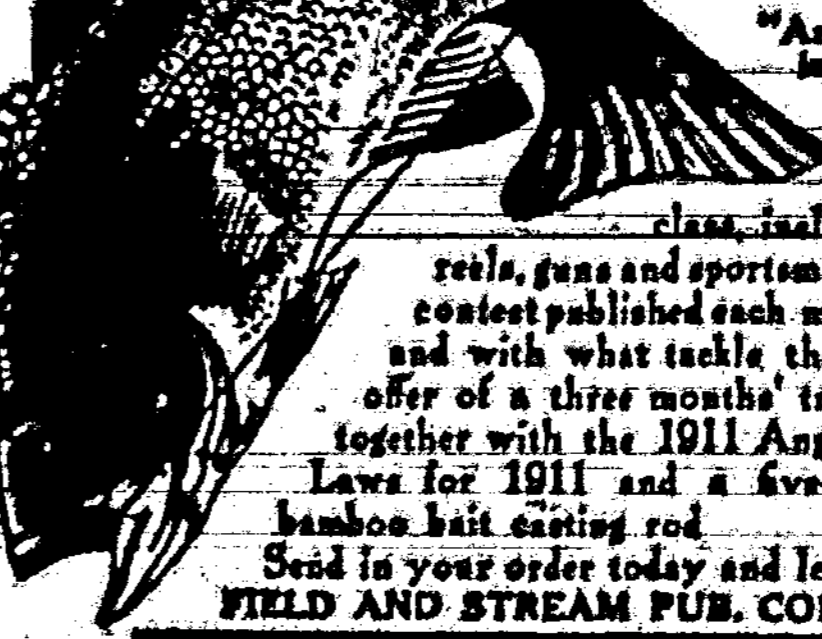

Isn't it about time to bury the dead languages?
Garfield Tea regulates a lazy liver.
Your wife, as well as your sins, will find you out.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

SHE GOT WHAT SHE WANTED

This Woman Had to Insist Strongly, but it Paid

Chicago, Ill.—"I suffered from a female weakness and stomach trouble, and I went to the store to get a bottle of Lydia E. Pinkham's Vegetable Compound, but the clerk did not want to let me have it—he said it was no good and wanted me to try something else, but knowing all about it I insisted and finally got it, and I am so glad I did, for it has cured me."
"I know of so many cases where women have been cured by Lydia E. Pinkham's Vegetable Compound that I can say to every suffering woman if that medicine does not help her, there is nothing that will."—Mrs. JANET KIL, 2063 Arch St., Chicago, Ill.

This is the age of substitution, and women who want a cure should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little more profit.

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

CORONA CLIPPINGS

Rains, sufficiently heavy to set the farmers hereabouts to planting beans and millet again fell last week.

F. U. Nelson Asst. Manager for the C. F. & I was here last week on business for his company.

Dr. F. S. Randles spent three days here this week doing dental work for his Corona patrons.

Mr. Marsden a Boston wool buyer was in town on Tuesday.

Mr. Finney representing the Cudahy Packing Co was here on Saturday.

R. L. Owens went to El Paso Sunday night to get a new pump cylinder.

Frank Guttmeyer has returned to Corona.

The Goldenberg wool clip of 150,000 pounds was sold at 12 and 1-2 cents and delivered to the N. M. Central at Torrance.

The Lovelace clip at 14 cents and is being delivered at Corona. These are the only two local clips sold so far.

Yes, we will celebrate the 4th at Corona. Races, pony, sack, greased pole etc. will furnish the sport. Already four beaves and ten nuttuns are ready to be barbecued, bread has been ordered also. A Fifty dollar assortment of fireworks as well. The races will be run on the street in front of the Western Hotel; the fireworks set off in the same places in plenty of time so that all may catch either the north or south bound night trains. This will keep everything in town. The big barbecue will be served on the hill back of the school house and a big dance will also be pulled off. There will be plenty of fun and excitement and plenty for all to eat. All are welcome.

CAPITAN CORRESPONDENCE

Antonio Chavez, who has a ranch on the Carrizo creek about 14 miles north of Capitan, reports that a recent flood that swept down the Carrizo washed out the banks and exposed to view parts of the skeleton of some prehistoric animal of great size, two of the molars, which he brought to town weigh respectively 12 and 12-1/2 pounds; these teeth are of a peculiar shape and structure, they are without prongs or roots; such as are generally found in ordinary teeth of present day animals, but have indentations in the part that entered the jaw; the grinding surface is evenly corrugated. The teeth are on exhibition in the windows of the Welch and Tinsworth stores.

James Reeder and Ted Ruyler returned Monday after an absence of about three months, during which time they visited Silver City and the Mogollon mines in Socorro County. They bring reports of very prosperous conditions in the western part of the territory and were well pleased with the country but Lincoln County is good enough.

Mrs. O. M. Shelley recently saw an advertisement in a Las Vegas paper announcing the sale, as an estray, a horse that was stolen from her ranch over a year ago; the horse was taken up near East View in the Manzano country; that section of Torrance County seems to have some strong attraction for horses and other stock from all parts of the territory.

Wm. Ferguson, road supervisor of this district is doing some road work in this vicinity this week.

Santiago Gonzales of Honda passed through here enroute home from Ancho, where he went to meet his son, who returned from Santa Fe to spend vacation; the young man is a pupil of the San Miguel College.

Tom Pridemore, a former resident of this county, of some notoriety, is at present living near Cliff, in Grant County.

W. B. Richards, the lucky water-finder recently drilled a well for Billie Ferguson at his ranch on the mesa and at the depth of 68 feet encountered a strong flow of fine water, the well was sunk to a depth of 70 feet and in a short time the water rose to 43 feet where it remains; a test showed a capacity of over 10 gallons per minute. Mr. Richards some time ago drilled a well for Mr. Geo. Smith on his homestead a mile south of this place and at 81 feet struck a flow of water.

Deputy Sheriff and Jailor, Robert Bravly of Lincoln spent some time in town Tuesday seeking aid for the Lincoln side of the County seat litigation, as well as being in quest of certain law breakers for whose arrest he carried papers.

Last Monday was notable for a rapid and very radical change in temperature; during the early morning hours a stiff and quite cold north wind prevailed while from about 11 a. m. to 4 p. m. the heat was excessive and the next day it rained!

NOTICE TO CATTLEMEN

Albuquerque, N. M., June 24, 1911
To the Cattlemen of Union, Roosevelt, Curry, Quay, Chavez, Eddy, Guadalupe, Torrance, Lincoln and Otero Counties.

During the range inspection work recently conducted by the Cattle Sanitary Board in conjunction with the United States Bureau of Animal Industry it has been found necessary in consequence of the finding of scabby or mange to quarantine the area covered by Union, Roosevelt, Curry, Quay, Chavez, Eddy, Guadalupe and those parts of Torrance, Lincoln and Otero counties lying east of the El Paso & Southwestern R. R. and issue dipping orders to cattle men in those areas that have been found infected with or exposed thereto.

All cattle that have been found infected in these quarantined districts cannot be shipped or moved from their present range without first being dipped or sprayed under the supervision of the Department of Agriculture. Exposed cattle must be sprayed or dipped once while infected cattle must be treated twice. Upon application on the part of cattle men affected an U. S. Veterinarian will be furnished.

It is earnestly urged that all cattle men immediately get together and make and hasten all arrangements towards complying with the regulations this day issued.

Active work will begin at once and any infected or exposed cattle remaining undipped at the expiration of forty days after the issuance of this order the law requires shall be taken in charge by this Board and dipped or treated in accordance with Section 3 Chapter 31 of the Laws of 1905, the animals so taken being held as security for the expense incurred in compliance with the order for dipping.

ORDER FOR DIPPING.

Under authority conferred upon the Cattle Sanitary Board of New Mexico, by the provision of Chapter 31 of the Laws of New Mexico, the following area is hereby declared to be an infected district: Union, Roosevelt, Curry, Quay, Chavez, Eddy, Guadalupe, and those parts of Torrance, Lincoln and Otero counties lying east of the El Paso & Southwestern R. R. and it is here ordered that all cattle within said district, which has been or may be classed by inspectors, as infected with or exposed to scabbies infection, must be dipped or sprayed by the owner or his agents at such times and places and in such manner as the inspectors of this Board may prescribe.

Infected or exposed cattle which are not dipped in compliance with the provisions of this order, will be taken in charge by this Board and dipped or treated in accordance with the provisions of Section 3, Chapter 31, Live Stock Laws of New Mexico.

For full details concerning cattle in the Territory of New Mexico which are infected

with scabbies or have been exposed thereto, must be dipped in accordance with the above.

DIPPING REGULATIONS

All dipping must be done under the supervision of an inspector of this Board or a Government Inspector and in accordance with the rules and regulations of the United States Department of Agriculture.

Only those dips recognized by the United States Department of Agriculture may be used: Lime and Sulphur, Tobacco and Sulphur, and Beaumont Crude Petroleum. The dip must be maintained at a temperature ranging from 100° to 105° F., with the exception of crude oil which may be used cold.

Each cattlemaster affected by this order, should, at once, get in touch with the inspector in his section and arrange dates for dipping.

The following named employes will have charge of the Bureau Work:

- Dr. H. M. Oibeter, Clayton, N. M. Union County.
- Dr. J. A. Savage, Dalhart, Texas, Quay and Guadalupe Counties.
- Dr. Geo. A. Lipp, Roosevelt, N. M. Roosevelt, Curry, and Chavez Counties.
- Dr. C. C. Heacock, Carlsbad, N. M. Eddy County.
- Dr. H. E. Pine, Carrizozo, N. M. Lincoln, Otero and Torrance Counties.

W. J. LINWOOD, Secretary.

NOTICE OF SALE

Territory of New Mexico
County of Lincoln

In The District Court
A. H. Harvey, Plaintiff)
vs.) No. 1080
E. D. Fred, Defendant)

Notice is hereby given that the undersigned Sheriff of Lincoln County, Territory of New Mexico by virtue of a Judgment and decree rendered on the 10th day of May, 1911 by the District Court of the Sixth Judicial District of the Territory of New Mexico in the above entitled cause wherein the above named plaintiff, A. H. Harvey, obtained judgment against the Defendant, and in pursuance of the Judgment therein entered in the said Court in and for the County of Lincoln, for the sum of Three hundred twenty-one and 70/100 dollars (\$321 70) with interest thereon at the rate of six per cent. from May 16th, 1911, until paid together with costs of suit taxed at Fourteen and no/100 dollars (\$14.00).

I will sell at public auction the following described real estate as the property of said defendant levied on by me by virtue of said execution, to wit:

The S1/2, and N1/2, Sec. 5, T. 8 S. R. 11 E. N. M. P. M., excepting Lots 1, 2, 3, & 12, Block 29, Lot 24, Block 24, Lots 1 & 2, Block 43, & Lots 23 & 24, Block 42, East Lawn Addition to the town of Carrizozo Lincoln Co. New Mexico, as shown on map of said addition on file in the office of the Probate Clerk & ex-Officio Recorder of said Lincoln County.

Public Notice is hereby given that on the 26th day of August 1911, at the hour of 2 o'clock P. M. of that day, at the front door of the new court house in course of construction in the town of Carrizozo, County of Lincoln, Territory of New Mexico, I will under said execution, judgment and decree, sell the above described property at public auction to the highest and best bidder for cash, to satisfy said judgment and costs and accruing costs and expenses of sale.

Witness my hand and seal this 29th day of June 1911.
CHAS. A. STEVENS,
Sheriff of Lincoln County, N. M.
By Wm. Barnett, Deputy.

COUNTY NEWS-NOTES

JICARILLA HAPPENINGS.

W. W. Fitzpatrick, one of the oldtimers of this part of the country, who has spent the last seven years at the Soldier's home in California, has returned to the camp to rest up after such a strenuous life.

H. W. Roe, assayer from Cripple Creek is here doing the assaying for the Littell Metal Mining and Reduction Co.

The Littell Mill is grinding away again in perfect order after a shut-down of a couple of weeks for repairs.

A. N. Price was a visitor to the camp Sunday.

Everything is about ready for the big celebration and picnic to be held here at the school grounds on the Fourth of July. All are invited to participate and enjoy themselves.

Mr. Haze of this place received the contract for digging a cistern at the school house.

John Dale had the misfortune to have two of his horses badly injured with barbed wire a short time since.

Andrew Melbrayer has recently been added to the Goldstein force. Ed Wilson and family were visitors in camp Sunday.

On the east side of Juggler Mountain there fell a severe hail storm last Thursday, knocking off the limbs of the trees and giving the live stock the worst of it; the gulches were soon converted into running streams. On the west side there was only a slight shower.

The Gallacher's have moved their sheep to Aspers canyon for the summer and George English has moved his cattle to Carrizo draw to summer them in the foot hills.

NOGAL NOTES.

The Rev. Paul Bentley preached to a large congregation Sunday at the Methodist Chapel.

Mrs. M. D. Gaylord returned to El Paso the 24th inst., she had been on a visit here to her parents. Mr. and Mrs. Dillard.

Miss Grafton and Miss Allie Morgan returned home, one to the Bonito and the other to Nogal on account of Scarlet fever. They had been in attendance at the teachers institute in Carrizozo.

Mrs. Moore has arranged for a standing contribution to the Rev. Paul Bentley.

Jack Greer and Mr. Mooreman of Kentucky are on the west side of the White Mountains prospecting for mineral.

Scarlet fever has broken out in several families near Nogal, Joe Cochran's, Wm. Hust's and Fred

Lalone's children are reported as having been taken down with the disease.

Mrs. Mary Hales baby is not expected to live. Diphtheria is said to be the sickness.

Mrs. O. C. Davis will take charge of the Brown Hotel shortly. Mrs. T. Moore will go to Las Vegas for a visit.

PARSONS PICKUPS

Jim Harper of Three Rivers was over on the Bonito one day last week buying cattle.

Luke Jennings and wife made a business trip to Capitan last week.

The people are all getting ready for the big celebration and Barbecue on the Bonito on the Fourth of July, all participating are assured of a splendid days fun.

T. J. Grafton went to Carrizozo Sunday after his daughter Miss Emma who has been attending the Teacher's Institute.

Joe Hurley met with a painful accident while working in the mines out west of Parsons a few days ago, a rock falling from above striking him on the back.

The Art of Aiming

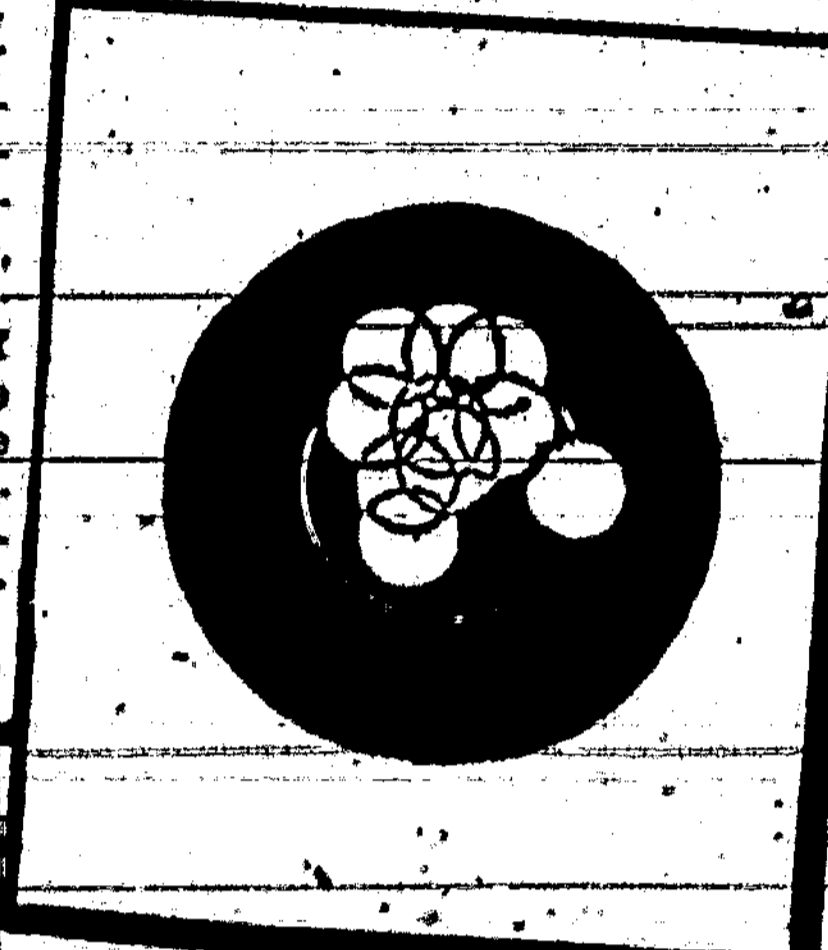

BY EDWARD C. ROBINSON
© BY FIELD AND STREAM

THE writer of this article desires to impress on the reader that all statements contained herein are general statements which special conditions might render inaccurate or misleading.

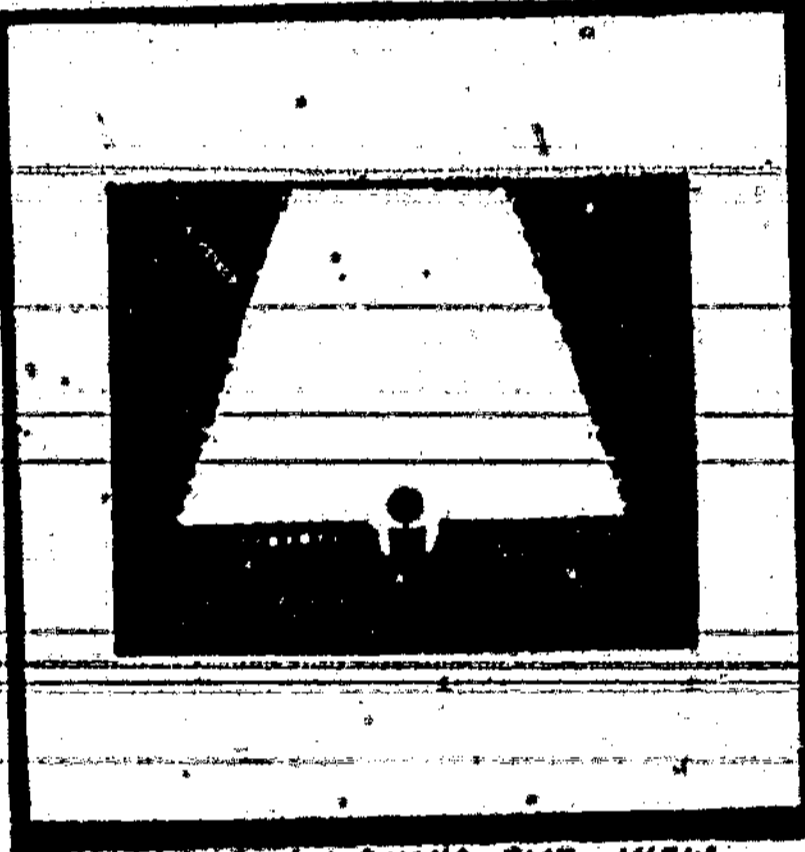

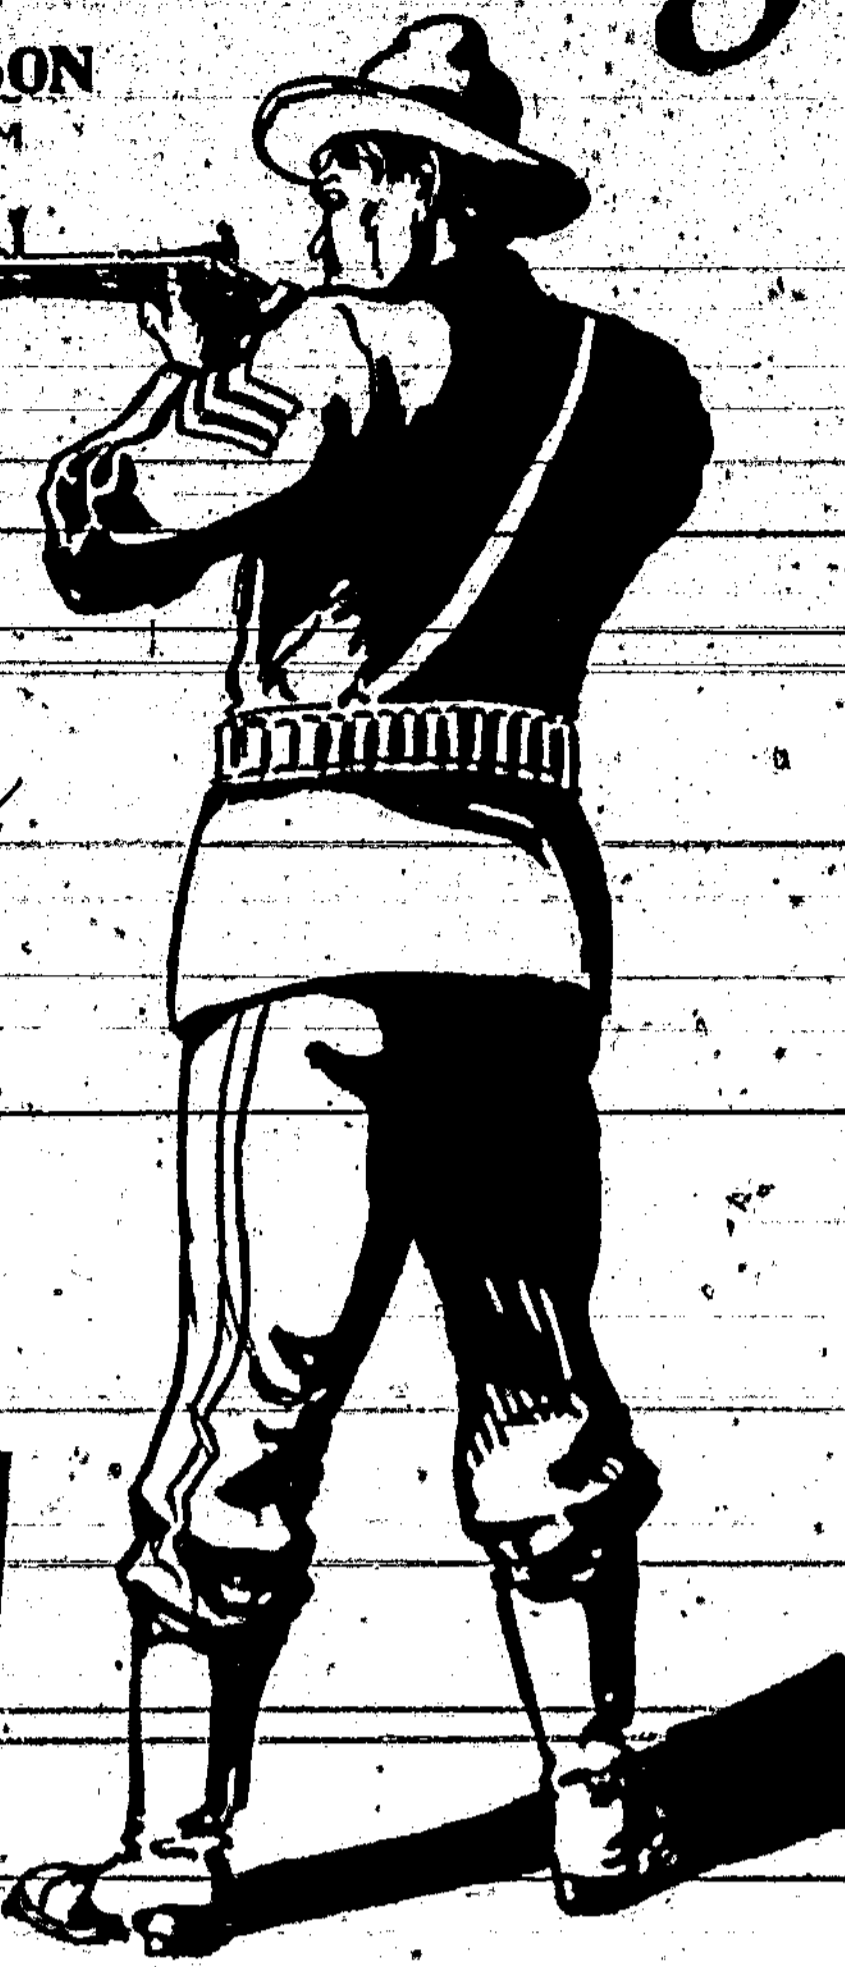

It seems not out of place to go into a few details concerning aiming, and refer to some of the difficulties which confront shooters. "I have a blur on my front sight or my rear sight," is a very common protest from shooters of various degrees of experience; and then the natural assumption that "it must be my eyes," which it is, but not as the average sufferer imagines. In aiming one should practice first looking at the object, and then bringing the sights on the line of aim, incidentally and not primarily, i. e., do not attempt to fix the gaze on the front sight and expect to see the object clearly, simultaneously, because you are asking the eye to perform the impossible, and a blur is the inevitable result. A blur sometimes results from the sights becoming polished brightly and reflecting the sun, which produces a multiplicity of front sights, and, of course, occasionally from small pieces of fouling. Sometimes a shadow on one of the sights or object by distracting the eye will work the same way. The longer the range the greater the annoyance and vice versa. It is surprising how few shooters appreciate

DOES NOT KNOWN ZERO

ZERO VERY ACCURATE

HOLDING ON BULL'S-EYE WHEN THROUGH OPEN SIGHT

bring the point of aim or object into its center and the top of the front sight on the point of object at very short range, or at such point as will allow a clear view of the object or point of aim at longer range. By using the center of the peep sight one practically does away with worrying about "how much front sight" is to be seen because the center of the peep is a fixed point, and if the top of the front sight is brought to the level of the imaginary line from the pupil of the eye through the center of the peep sight to the point of aim, necessarily the top of the sight is always in relatively the same position, which will give uniform results. In the case of the open sight, however, the amount of front sight seen varies considerably.

Some one says, "Ah! but one day I see half the front sight and another only one-third of it." All of which may be true, but the difference is due to the light, which on a bright, clear day magnifies or permits a clear definition of the object and background, a condition which does obtain on a dull or dark day.

An open sight permitting the shooter to align the top of the front sight with an imaginary horizontal line across the top of the rear sight will give very fine, uniform results and can be "found" quickly. If possible one should avoid turning a rifle on the axis of the bore as this will change the location of the shots just as the pendulum swings on a clock. As to the effect of light on one's aim if shooting at a bull's-eye target, it will be perceived that on a nice bright day the target will show the lines at 500 yards and the "bull" will look large and tempting, while the white space below will be deep and roomy. On the contrary, on a dark day the lines disappear and the bull looks smaller and the white space under it much narrower. The easiest way to overcome this condition is to aim at a point three-quarters of the width of the white from the bottom of the target, below the bull's-eye, because in a good light you can see the spot easily and on a dark day when the white is contracted you can measure it easily and by this means avoid changing your elevation for different days to "find" the target.

At long range, say 1,000 yards or 1,200 yards, if it is practical, it is an excellent plan to "aim" the target on top of the front sight always centering the object (target in this case), using the background to aid in the same way one looks at a landscape picture, i. e., not attempting to define the target to the exclusion of its immediate surroundings. Bear in mind the foregoing is only an outline of a sound practical method and is not advanced as an unvarying rule, for it is clearly recognized that excellent scores may be made along other lines, but you are safe to try what is here suggested and a careful trial will show consistent results with varying lights. I do not think one can by days say "no" to a shooter as regards which is the better method, for the shooter who is

may enter into the question. The present government sight embodies a great many vital features, is strong and in every way excellent.

One point in target shooting when firing "deliberate" is a question of form. In the matter of pointing the rifle at the target, some high authorities say "Always come up from the bottom," this method has a great deal of merit in very bad winds and rain, but, under conditions we all enjoy, it is not bad practice to come down on your target glancing along the left side of the barrel during the operation so as to keep your eyes on the target until the sights approach the line of aim. In either case, constant practice develops the "habit." In the matter of allowing for wind a very rough idea can be formed by the following: A bullet weighing from 150 to 200 grains and having started with a muzzle velocity of about 2,000 to 2,500 feet per second would be affected by a wind, blowing one mile an hour at right angles about one inch at three hundred yards. The government claims that with about 50 grains charge, 150 grain bullet and 2,700 feet velocity the drift is eight-tenths of an inch. The hunter can see that, even with a heavier bullet, say 220 and 1,950 feet velocity, and say a ten-mile wind, under such conditions government says drift is about two feet at three hundred yards, some experimenting on a rifle range will not do any harm.

Hunters ought to get very clearly in mind the trajectory and velocity of the projectile so that they can use the same faculty which enables one to throw a stone more or less accurately with the hand or sling-shot. Probably the tendency is to shoot too far ahead in most cases.

Remember 100 yards is only 900 feet and most ammunition will carry that in one-half second, and that the trajectory is very flat, highest point eight inches, government load, so that an error 50 yards either way is only a matter of a few inches. When "finding" an object, always aim or rather set the sight for a point less than the assumed range unless some dry sand or gray dirt is just beyond or to one side when by aiming on it you can gradually come up until you hit. It is impossible in the confines of a short article like this to go into minute details, and no effort is made to do so here. My advice to all is to approach men of the type of Anderson, Doyle, Casely, Keogh, Tawes, Hudson, Leubner, and many other fine square shots, and somewhat you will imbibe something that will benefit, and you will enjoy the good fortune to meet men of standing in their profession, who are generous as they are intelligent and well posted.

TO MAKE GOOD CAKE

SOME RULES THAT SIMPLY MUST BE OBSERVED.

Proper Temperature of Oven One of the Most Important Points—Different Confections Require Varying Degrees of Heat.

First attention should be given to the oven, making sure that the fire is not too hot, and will remain even until the baking is done. Unless you have control of your fire do not attempt to bake cake.

Loaf cake requires less heat than thin cakes. If the oven is too hot at first or is suddenly cooled while the cake is baking the cake will be heavy. Loaf cake should bake as long again as thin cake. Divide the time of baking into quarters. The first quarter should show a rising, with the edges higher than the center; the second a continued even rising, with a slight brown tint; the third a deeper brown, and the last a shrinking and settling. If your cake rises and cracks in the center you are using too much flour; when it browns before rising, the oven is too hot.

How to Put Butter Cake Mixture Together—Cream the butter with hand or a large spoon, add sugar and cream again until very light. When the proportion of butter is small it may be put in with the eggs and sugar. Beat the yolks until light yellow, add to butter and sugar and beat again. Add flavoring and then a little milk, then a little flour, a little milk again, and so on until the milk and flour are all used, and beat vigorously until your mixture is smooth. Add lastly the beaten whites. Fruit should be added last, and fruit cake mixtures should be a little stiffer with flour.

Sponge Cake Mixtures—Beat the yolks until they are a light yellow and creamy and slowly beat in the sugar. Add flavoring and liquid and beat again. Beat the whites until stiff and fold it without beating. Add flour lastly with a little stirring as possible, as it makes the cake tough. Always follow these directions and cake failures will never be known.

Care of Metal Utensils. Utensils must be kept polished. For copper use soap applied with a damp cloth, then sprinkle thickly with borax. If you have no regular copper polish, ened with kerosene; then rubbed with a paste of powdered chalk and lemon juice, and polished with chamol. Boil tin utensils occasionally in strong soda water, and if rusted rub with lard and let stand before washing.

Turpentine will remove tar from any kind of fabric.

To remove iron rust from white goods moisten spot, cover with cream of tartar, put in a basin of water, simmer gently for an hour. Rinse and dry.

To clean linoleum, place some fresh skim milk in a basin, and with a clean cloth dipped in the milk wipe over the floor, and the linoleum will look as good as new.

To effectually clean a dirty bottle, half fill the bottle with black coal, add just enough water to cover, and shake vigorously. Then empty out, and rinse in several waters.

Glass is an ideal shelving for a kitchen-closet, as it can be kept clean so easily. If this is too costly paint the shelves white and give a coat of enamel. This is easily scrubbed, and does away with the necessity of papers.

Sweep your carpets thoroughly to remove all dust and dirt. After an hour slightly dampen a broom, and again sweep over the whole surface. In this way an old carpet will look clean and fresh, however faded it may be.

The walls of a kitchen quickly look dingy and for this reason should be painted or have a washable paper. When gray with soot dust with a soft brush covered with cheesecloth, then wipe with a cloth wet in cold water. Hot water has a yellowish effect.

An Expert in Pepper. Fashion is fickle in table service as well as in other things. The dinner table of today is not what it was a few years ago.

Odd little novelties for the table have crept in recently. One of the newest is small cruet frames for each guest, and of different kinds: Dayana, Napaul, All (from Peru), Hungarian, paprika and Chille powder are used so that each guest may favor his food to his taste. The really up-to-date person nowadays pretends to be an expert in pepper.

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

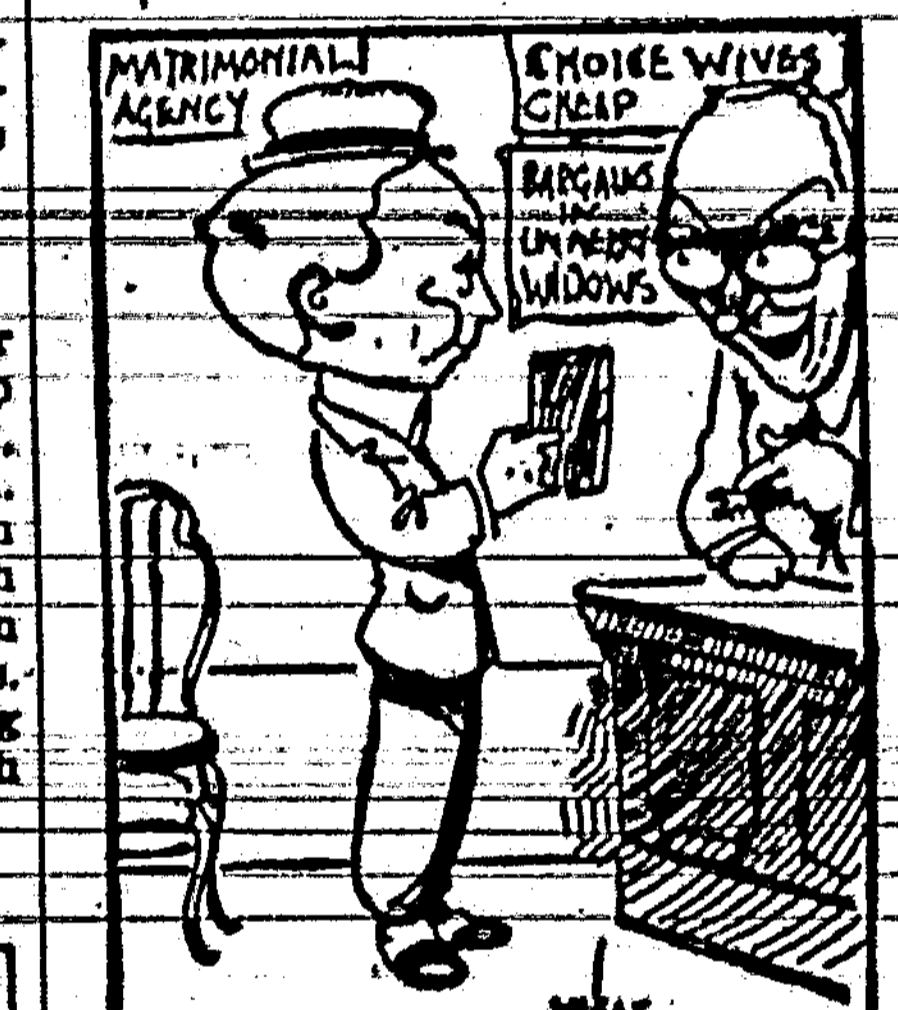

The following letter from Mrs. Orville Rock, will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

Here is her own statement.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound. For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

THEIR BUSINESS.

Smith (at matrimonial agent's, looking for a wife)—From this picture she appears as a woman with a high temper. "Fraid we couldn't get along together."

Agent—That's all right, sir. With every wife we furnish complete directions for getting along with her.

His Disqualification.

When we saw her she stopped panting by the road to rest. It was the shell road in Bay St. Louis, and she was black. Beside her was a heavy market basket filled to overflowing. We smiled at her with sympathetic friendliness and she responded with full and free confidence.

"Yassam. I is some tished. An' lame. All painful wid' miseries. Yassam, I coulda done sen' some one else to makket fo' me. Mah grandson he coulda done gone. But I dasn't trust him. He spends mah money too briedy."—Housekeeper.

COMES A TIME When Coffee Shows What It Has Been Doing.

"Of late years coffee has disagreed with me," writes a matron from Rome, N. Y.

"Its lightest punishment being to make me 'loggy' and dizzy, and it seemed to thicken up my blood.

"The heaviest was when it upset my stomach completely, destroying my appetite and making me nervous and irritable, and sent me to my bed. After one of these attacks, in which I nearly lost my life, I concluded to quit the coffee and try Postum.

"It went right to the spot! I found it not only a most palatable and refreshing beverage, but a food as well.

"All my ailments, the 'loginess' and dizziness, the unsatisfactory condition of my blood, my nervousness and irritability disappeared, in short order and my sorely afflicted stomach began quickly to recover. I began to rebuild and have steadily continued until now. Have a good appetite and am rejoicing in sound health which I owe to the use of Postum."—Name given by Postum Co., Battle Creek, Mich.

Read the little book "The Road to Wellville," in pkg. "There's a reason" show read the above letter! A new one shows from time to time. They are all the same, and talk of how many
