WM. WHITTINGHAM INJURED

Conductor Wm. Whittingham, one of the oldest men on the Duran division was unfortunate in being injured while bringing his train in from Duran early last Friday morning. While attempting to release the air on a car the train rolled and a car wheel crushed his foot and inflicted a most painful wound. He was brought immediately to Carrizozo where a special engine and car was at once put in service to carry him to the hospital in El Paso. It is hoped that the result of the injury will not be permanent but the outcome of a recent operation is not yet known. Wm. Whittingham is one of the most popular men on the road and it was with keen regret that the news of 'Whit's' injury was learned by his multitude of friends.

TULAROSA BANK ROBBED

News reached here Saturday of the day-light robbery of the Tularosa Bank. The reports have it that Cashier Holloway was struck from the rear by a sand bag and knocked unconscious and the robber or robbers escaped with $8,500 which was outside the vaults Cashier Holloway was alone at the Bank at the time and after becoming conscious went into the street and reported the affair. Sheriff Hunter investigated the matter at once but was unable to find any clue as to the identity of the yeggmen. Holloway is reported as resting easy.

TWO MORE TRAINS SUNDAY

Commencing next Sunday, February 11th it has been officially announced that trains No. 33 and No 34, discontinued a year ago will be put into service again. The schedule is the same as it was before the discontinuance. Both trains stop in Carrizozo 25 minutes for meals at the Carrizozo Eating House.

The schedule is announced as follows:

No. 33, Arrive 3:10 p.m. Depart 3:35 p.m (West)

No. 34, Arrive 12:01 p.m. Depart 12:25 p m (East)

The other trains hereafter will be of a more limited character and will make less flag stops than formerly.

ALAMOGORDO SANITORIUM BURNS

The Alamogordo Sanitorium, one of the main assets of the Otero County seat was destroyed by fire Sunday morning at two o'clock.

The main building was entirely destroyed but all patients were rescued. The buildings were valued at $30,000 and insured for $11,000. Dr. R. C. Rountree, of Mineral Wells, Texas is the owner and was at his Texas home at the time of the fire. The origin of the fire is unknown.

—Wm. Barnett is now in charge of the Joe Adams' dray, Mr. Adams will assume his duties as Road Supervisor at once.

—Ernest Matthews of the I—X Ranch assaulted W. E. Baskin, Manager of the Carrizozo Trading Co., after a few words had passed between the men, yesterday afternoon in Carrizozo. Mr. Baskin suffered a serious injury to his lip, it being necessary for Dr. Walker to take nine stitches. A warrant was immediately issued for Matthews' arrest. Matthews has also been under bond for assault since the last Grand Jury Session.

STATE NEWS OF WEEK

A Brief Summary of What is Going on in the State in a Political Way

J. B. MCMANUS MADE WARDEN

Governor McDonald last Friday appointed J B. McManus, democrat, former city clerk of Albuquerque, warden of the state Penitentiary at Santa Fe to succeed Cleofes Romero, republican, resigned, the transfer to take place on February 15. The governor also appointed John W Hicks of Santa Rosa a member of the state cattle sanitary board to succed the governor, who had been a member of the board up to the time of his inauguration.

MEDLER MAKING GOOD

In commenting on the term of court just adjourned at Estancia the Albuquerque Journal had to say of presiding Judge Medler as follows:

"Judge Medler in ten days time disposed of twenty seven criminal and twenty civil cases, which is setting a new pace in the district and his rapid and business like disposition of the various matters before the court has met with general satisfaction."

CONGRESSMEN ON THE JOB

The two new members of congress from New Mexico, Hon. Geo. Curry and Hon. H. B. Fergusson, are busily engaged in looking after the interests of their state in the lower body of the national congress.

Congressman Curry is the author of a bill to establish a federal land office at Socorro, now in the Santa Fe District. Congressman Fergusson is pushing a bill introduced by him to create a land office at Farmington.

Congressman Fergusson is seeking appointment to the important committee on public lands and his colleague is has joined in endorsing him for the place, realizing such an assignment would be of invaluable aid to the new state in the securing of proposed grants of land for good roads purposes.

The Curry bill for turning over to the state the property used by the territory is expected to pass the house on Monday. No objections have been raised to the measure, which is one of mere formality.

NEW ASSISTANT SUPERINTENDENT

Filadelfo Baca of Las Vegas, a graduate of Notre Dame, for five years with the American Embassy to Mexico and an active Democrat, will releave Acasio Gallegos as assistant superintendent of public instruction, February 20, at which time Mr. Gallegos expects to have his resignation accepted by Governor W. C. McDonald.

WHITE OAKS WHIFFS

This year, in order to insure an early truck crop the ground hog was run into his hole the night before, the lid put on and Christ Yaeger and Capt. John Lee hired to take turns sitting on the lid all day during last Friday Feb. 2nd, but somehow Mr. G. Hogg managed to slip out and did all kinds of mischief to the weather gauge. It is surmised that Christ became troubled like the governor of North Carolina did on a certain occasion.

Mrs Julian Taylor, of Carrizozo was up visiting relatives and friends for a week and returned home last Sunday evening.

Mrs. Lois McDonald went to El Paso a few days ago taking her youngest daughter Arvina with her for medical treatment. The girl's ailment, however, is not considered very serious.

A little flurry of exitement occurred here Sunday night after church over the disappearance of Ed. Fitzpatrick and Miss Myrtle Yates. As it had been known for sometime that this young people had become infected with the matrimonial bug the fire alarm was not started nor the water wagon called out. Early Tuesday morning a telegram was received that the bug had been eradicated by a hook worm administrated by a Justice of the Peace up at Estancia, Torrence County. A day later the absconding couple, not a couple, any longer but a pair, came timidly back for forgiveness to find that there was nothing to forgive, but that the home folk had been expecting it to happen about that way for sometime.

Mr. and Mrs. Wm F. Jones are rejoicing over a son and heir which is said to have been brought to their door by a certain long necked water fowl about ten days ago.

The church here held a combination social at the town hall one week ago Saturday night. The social proper was followed by dainty refreshments and that by a moving picture show, which in turn was succeeded by a dance which lasted well into Sunday morning.

W. D. Vaughn, a tuberculosis patient is here under the treatment of Dr. Whitacre. His father and brother have also been here for a week past caring for him. It is hoped that the climate and treatment will go a long way in helping him in recovery.

ARIZONA STATE FEB. 12TH.

Governor-elect George W. P. Hunt announced today that he would take the oath of office as Arizona's first governor on February 12th at noon.

Mr. Hunt said he had received information that President Taft would sign the proclamation admitting Arizona to statehood next Monday and that the signing would be announced in Phoenix shortly after 10 o'clock.

Mr. Hunt will leave Globe for Phoenix Sunday morning.

—Harry Keables of Capitan came down on the Capitan Stage Monday and went to El Paso that evening.

—The friends of Architect Goetz in Carrizozo, will be pleased to learn of his connection with the erection of the big Pearson Mills at El Paso.

Gathered Smiles

MODERN WARFARE.

"On yonder hill," cried the general, scanning the battlefield with his glasses, "I see a black mass of men. What are they?"

"Camera fiends," replied the second in command.

"And who are occupying that field to the southwest?"

"Those," answered the S. I. C., "are operators for the biograph."

"I see a battalion of curious-shaped guns."

"They are not guns; they are gramophones and phonographs, in which are to be recorded the roar of the cannons and the cries of the wounded."

"'Tis well!" exclaimed the general, stroking his mustache complacently. "Let the battle begin!"

This One Is on Hugh.

"When I came into the Union station the other morning, after traveling all night," said Hugh Reilly, at the Commercial club, "I went into the barber shop. 'When you spend the night in a sleeping car,' I said to the barber, 'it doesn't improve your personal appearance, does it?'

"'Well,' said he, as he loked me over, 'I don't know how you looked when you started, but perhaps you're right.'"—Washington Herald.

SHRINKING LITTLE THINGS.

Starboarder—Say, Bridget, these cakes get smaller and smaller every day.

Bridget—Sure, that's all right; they're flannel cakes, 'n' yis must ixpict it!

Now 's broke, but say,
He's well content.

Our Queer Language.

Isn't it a queer language?

A New York policeman saw a woman in the street with a carpet and a stick.

"Beat it," he harshly commanded.

Whereupon, the woman struck the carpet with the stick and the policeman arrested her for violating a street ordinance.

The judge heard the woman's story and smiled.

"Beat it," he said to her, and this time she understood and hurried away

Useful Garment.

Winks—Guess we'd better board a street car, considering the weather.

Minks—All right. Help me put on this rubber overcoat.

Winks—H'm! You are a queer one. Been carrying that thing on your arm for the last half hour, and now you put it on just as you enter a street car. Why?

Minks—For protection against ladies' waterproofs.

On the Jek.

Jack—Have they got an up-to-date football board up at your school?

Billy—You bet! They're already at work figuring out new rules for the year after next that will do away with the accidents that are certain to happen this year.—Puck.

Sudden Change.

Patience—I guess Will thinks I'm changeable.

Patrice—Why so?

"Because he first called me a peach and then he said I was a pippin."

Short Steps.

Girl—Is the Bobiller monument far from here, can you tell me?

Guide (glancing at bobble skirt)—Not very. It will take you from ten to fifteen thousand steps, I should think.—Fliegende Blatter.

It Becomes Serious Then.

Betty—Really, Kate, how can you say that! You know I don't think seriously of marriage.

Her Married Sister—Oh, so do that, you won't, naturally, until after you are married. Nobody does!

A FINE IDEA.

I. M. P. Cunius—Robinson Crusoe should never have called his man Friday.

Wanta Nos—What should he have called him?

I. M. P. Cunis—Saturday, and then he would have had a payday every day in the week.

Permanent.

There are some things
We can't forget;
The cost of living
Is with us yet.

As Long as Bread.

Husband (who arrives at the station with his wife in time to see the train go out)—There you are, if you had hurried yourself more we should not have missed it.

Wife—Yes; and if you had not hurried so much we should not have to wait so long for the next one.—London F. L. P.

A Little Taken.

The noble Turk was about to depart for the war.

And his wives gathered about him, weeping.

"Take this little trinket," each one cried, "in remembrance of me."

"What do you think I am?" he replied, "a moving van?"

Prospective Tenant—There is hardly room in this room for a bedstead.

Janitor—I know; you'll have to paint your furniture on the wall.

The Publicity Seeker.

He never tires
Of cutting capers,
So long 's his name
Gets in the papers.

Too Much So.

"Mrs. Camely is said to have such winning ways as a hostess."

"So she has winning ways. That's why I had to stop going to her bridge parties."

An Authority.

"Yes, I have just finished a treatise on the single tax. Next I shall grapple with the woman question."

"Consult me, old fellow. I grapple with a fresh one every hour."

"How is that?"

"I'm married."—Satire.

A Wise Girl.

He—I'm not rich, darling; but if tender and everlasting love goes for anything—

She—It goes with me all right, but I'm afraid it won't go with the grocer.

Good for Something.

Friend—Excuse me, dear, but I can't say I think much of your cook.

Hostess—No, I should have sent her away ages ago; but she's as good at fortune telling by cards.—Fliegende Blatter.

Natural Tendency.

"What business do you think your son will adopt?"

"Can't say," replied Farmer Cornstalk, "but judging by the hours Josh keeps, I should say he was naturally cut out to be a milkman."

NOT SO VERY PRECOCIOUS

Simple Explanation of Facts That Had Made Young Father Green With Jealousy.

It was a wet day, and in consequence the guests had to stay indoors. The young couple started to talk of their baby.

"My baby has just cut his first tooth," said the father proudly.

"Indeed?" said the other. "Well, mine cut his long ago."

"Our baby," said the first, "is just beginning to talk."

"Ours," said the second, "cannot only talk, but read."

"Knows his letters already, does he?" said the first, with a note of jealousy in his voice.

"Oh, yes, indeed!" said the other. "And can figure like an expert accountant."

"Really?" said the first. "Then he must be older than mine. How old is your baby?"

"Mother," said the second, addressing his wife, "how old is Willie?"

"Nineteen," said mother.—Judge.

When a man buys a new hat he wants one somewhat like the one he had before—but it's different with a woman.

Second Aviator—Two graveyards and a spiral glide to your left, old man.—Life.

IN MATCHTOWN.

Fortunately no Faith Was Required, For She Had None.

"I had no faith whatever, but on the advice of a hale, hearty old gentleman who spoke from experience, I began to use Grape-Nuts about 2 years ago," writes an Ohio woman, who says she is 46, is known to be fair, and admits that she is growing plump on the new diet.

"I shall not try to tell you how I suffered for years from a deranged stomach that rejected almost all sorts of food, and digested what little was forced upon it only at the cost of great distress and pain.

"I was treated by many different doctors and they gave me many different medicines, and I even spent several years in exile from my home, thinking change of scene might do me good. You may judge of the gravity of my condition when I tell you I was sometimes compelled to use morphine for weeks at a time.

"For two years I have eaten Grape-Nuts food at least twice a day and I can now say that I have perfect health. I have taken no medicine in that time—Grape-Nuts has done it all. I can eat absolutely anything I wish, without stomach distress.

"I am a business woman and can walk my 2 or 3 miles a day and feel better for doing so. I have to use brains in my work, and it is remarkable how quick, alert and tireless my mental powers have become." Name given by Postum Co., Battle Creek, Mich.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

An Unusual Benefit.

Henry E. Dixey was talking at Sherry's in New York about benefits.

"In the old-fashioned benefit," he said, 'you were responsible for all bills and tickets. Thus, at times, your benefit actually cost you money. Some poor chaps have been strapped for months while paying off heavy benefit losses.

"I heard of a queer benefit in Nola Chucky the other day. A visiting company announced a harvest home performance for the benefit of the poor—tickets reduced to a nickel.

"Well, Nola Chucky turned out in force to that harvest home benefit, and the next day a divine called on the manager to find out what was to be done with the money.

"'What's to be done with the benefit money?' the manager said indignantly. 'Why, sir, that question astonishes me.'

"'But,' said the divine, 'didn't you advertise the performance as for the benefit of the poor?'

"'And,' shouted the manager, 'didn't we reduce the tickets to a nickel so that all the poor could come?'"

SCIENTIFIC MISCELLANY.

The Diesel oil engine, now well known where large oil engines can be used, differs from other internal combustion motors in having no vaporizer, no ignition devices, and in operating without explosion. At the charging stroke the engine draws in air only; the next stroke compresses it to 500 pounds per square inch, raising the temperature to about 1,000 degrees; then a jet of oil is forced in by air at still higher pressure, and the air in the cylinder is hot enough to cause it to burn at once. In place of the sudden explosion of gas there is simply the steady burning of the oil as long as it is injected. The engine was designed for running on cheap oils, and quite recently, since the German patents expired, even tar-oil has been employed. One of the tar-oil engines is of 4,000-horsepower. In the last year or two the German experimenters have gone still further and have tried raw tar with such success that early extensive use of tar as a motor fuel is predicted. The tests have been made with a 100-horsepower engine, using both thin gas-retort tar and thick coke-oven tar. A small amount of light oil has been used to aid ignition, but the engine has run on tar alone, of widely different quality. There was no fouling or interruption. The tar fuel is said to cost 18 per cent less than tar-oil, and less than half as much as paraffin or kerosene oil.

The important subject of nutrition has received much attention, but it is a new suggestion that, besides correct amounts of protein, carbohydrate and fat, the diet must contain a minute proportion of some mysterious substance not yet understood. This idea has been taken up by Professor Stepp of Giessen, in a study of the food of mice. On a dried mixture of rice and new milk the mice grew and flourished, but after certain portions had been dissolved out by alcohol and ether, this food became so unsuitable that animals fed on it soon died. Something essential to life had been extracted. The extract included fats, but no improvement, and the addition of mineral salts had no effect in preserving life. It was concluded that the essential substance must be a lipoid present in milk but absent from butter. The lipoids exist in the outer protoplasmic layer of cells, resemble fats in solubility in alcohol, and usually contain phosphorus and nitrogen. The theory was confirmed by adding an extract of dried buttermilk to the treated food, the mice fed on the mixture being in good condition at the end of six weeks. Some lipoids have been isolated and tested, but the particular one necessary to existence has not been found.

$3.50 Recipe Free, For Weak Kidneys.

Relieves Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and Back.

Wouldn't it be nice within a week or so to begin to say good-bye forever to the scalding, dribbling, straining, or too frequent passage of urine; the forehead and the back-of-the-head aches; the stitches and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a quick recovery, you ought to write and get a copy of it. Many a doctor would charge you $3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K-2080 Luck Building, Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power.

It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.

VERDICT A FAVORABLE ONE

Small Girl's Pretty Answer to Stupid Question of Inquisitive Busybody.

She was a pretty little tot, and everybody who knew her took pleasure in pausing to ask her some kind of a question, merely to show an interest and for the pleasure of hearing the musical cadence of her voice. Some of the questions were what might be termed leading, but for all she invariably had some kind of an answer. Among these latter inquiries was one from an intrusive busybody, who was old enough to know better, but who belonged to a class of persons who never learn. Knowing that the little girl had only recently become the possessor of a young and attractive stepmother, with a curiosity inborn she asked her very frankly:

"Well, Pollykins, how do you like your stepmother?"

The child raised her blue eyes gravely, and with her face glowing with happiness replied:

"Oh, very much, indeed, Mrs. Skillington. We fit very nicely, considering that she got us ready made."—Judge.

Felt He Had Known the Worst.

Pat O'Shaunessy had been told by the doctor that he could live but a few hours, and his wife and assembled relatives and friends asked him whether there was one last wish he would like to have gratified? "There is," said Pat, "I'd like to hear the village band play once again." Accordingly the village band gathered. When at last it had played, "Say Au Revoir But Not Good-by," and had taken its own departure, Mrs. O'Shaunessy, kneeling at her husband's bedside, asked: "Can ye die aisy now, Pat." "Yis," replied Pat. "I can die aisy now. Hell has nothing worse than that."

PITIFUL SIGHT WITH ECZEMA

"A few days after birth we noticed an inflamed spot on our baby's hip which soon began spreading until baby was completely covered even in his eyes, ears and scalp. For eight weeks he was bandaged from head to foot. He could not have a stitch of clothing on. Our regular physician pronounced it chronic eczema. He is a very able physician and ranks with the best in this locality, nevertheless, the disease began spreading until baby was completely covered. He was losing flesh so rapidly that we became alarmed and decided to try Cuticura Soap and Ointment.

"Not until I commenced using Cuticura Soap and Ointment could we tell what he looked like, as we dared not wash him, and I had been putting one application after another on him. On removing the scale from his head the hair came off, and left him entirely bald, but since we have been using Cuticura Soap and Ointment he has as much hair as ever. Four weeks after we began to use the Cuticura Soap and Ointment he was entirely cured. I don't believe anyone could have eczema worse than our baby.

"Before we used the Cuticura Remedies we could hardly look at him, he was such a pitiful sight. He would fuss until I would treat him, they seemed to relieve him so much. Cuticura Soap and Ointment stand by themselves and the result they quickly and surely bring is their own recommendation." (Signed) Mrs. T. B. Rosser, Mill Hall, Pa., Feb. 20, 1911.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. 29 K, Boston.

HOW TO MAKE SOUP

STIMULATING DISH SHOULD PRECEDE ALL DINNERS.

Freshest Meat Should Be Used and With a Reasonable Amount of Care the Result Will Be Satisfying.

Soup is the prelude of the dinner. It is light, healthy, stimulating food that gently prepares the diner for heavier food to come.

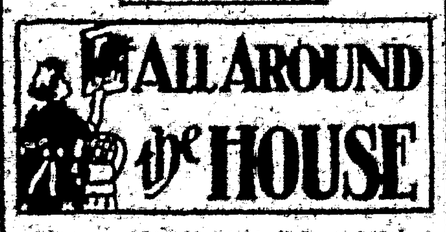
The earliest mention of soup that occurs to me is the dish of pottage for which Esau sold his birthright. There can be little doubt that Rebecca was a fine cook, for we know how she made the tempting dish for which he gave his inheritance. Tender pieces of fresh-killed kid were seethed in milk and seasoned with herbs and thickened with meal. This makes a most excellent stew that even these enlightened days have not improved upon.

Indeed, there are but two kinds of soup, thick and thin, or if it please you better, fat and lean. The thick, fat soups comprise bisques, cream soups, purees and mixed soups. The thin soups, or "soup maigres," as the French designate them, are consomme or bouillon and clarified broths.

When making soup use the freshest meat obtainable. Split the bones and cut the meat in small pieces. Put to cook in cold, salted water. This permits the albumen to dissolve before the water commences to boil. This albumen and gelatin rises to the top of the soup kettle, but should not be skimmed off, as much of it will be assimilated in the process of cooking and it contains the richest juices of the meat. After the contents of the soup kettle have commenced boiling briskly, season and add the vegetables and herbs. Keep it boiling slowly and continuously. Thirty minutes to each pound of meat is the usual time allowed, but longer cooking is sometimes necessary. Bisques are the richest and most satisfying of all soups. They originated in 1700 and 1750, and these ancient ones differed greatly from the modern style, which is only a vegetable soup enriched with cream and well thickened. The original bisques well deserve to be resurrected.—Henrietta D. Graul.

Chocolate Cookies.

One egg beaten well, one cup brown sugar, one-half cup melted butter, one-half cup sweet milk, one-half teaspoon soda, one-half cup chopped walnuts, one cup chopped raisins, three tablespoons melted chocolate, pinch salt; flour enough to roll nicely. Cut and bake.



Never attempt to polish a kitchen range until all the grease and dirt has been removed from it. Dip a rag in some soot and with this remove all grease stains. Take off varnish marks with tissue paper, moistened with vinegar. When the ironwork of the stove is discolored through the heat it should be well rubbed with a soapy flannel and then thickly coated with black lead. To obtain an absolutely black surface mix a little ammonia with the black lead.

The life of old linoleum may be lengthened somewhat by giving it a coat of varnish. When dried the varnished surface is easily kept clean with a damp cloth. Where there is a badly worn spot in the center it is a good plan to cut the linoleum through the middle and bring the two outer edges together before varnishing.

Rugs have a tiresome way of curling at the corners, which spoils their appearance and in the end the corners are torn away. To insure against this, directly a rug is bought bind it on the under side with stout Holland webbing.

To wash soiled dress shields lay them on a board or table, soiled side up, and give a thorough scrubbing with a stiff brush and any good laundry soap, with plenty of lukewarm water. Hold under a faucet until completely rinsed. Do not squeeze, but hang each dripping piece on the line until dry.

Whipped Cream Fudge.

Four cups granulated sugar, 1 pint milk, ½ teaspoon of cream of tartar. Place in pan and boil to a very hard ball or dry snap when tested in water. In the meantime have the whites of 2 fresh eggs beaten real stiff. Now when your syrup is cooked have some one pour it on in a fine stream over the eggs and beat continually until all is mixed through, then add ¼ ounce of vanilla flavor and ½ cup of walnuts. Pour out on wax paper and let set for a few hours.

WANTED HER TO SUFFER.

Mr. Henpeck—Do you pull teeth without pain?

Dentist—Oh! yes, sir.

Mr. Henpeck—Then you won't do. My mother-in-law wants to get seven extracted, so I'll have to take her elsewhere.

THE SAFE LAXATIVE FOR ELDERLY PEOPLE

Most elderly people are more or less troubled with a chronic, persistent constipation, due largely to lack of sufficient exercise. They experience difficulty in digesting even light food, with a consequent belching of stomach gases, drowsiness after eating, headache and a feeling of lassitude and general discomfort.

Doctors advise against cathartics and violent purgatives of every kind, recommending a mild, gentle laxative tonic, like Dr. Caldwell's Syrup Pepsin, to effect relief without disturbing the entire system.

Dr. Caldwell's Syrup Pepsin is the perfect laxative, easy in action, certain in effect and, withal, pleasant to the taste. It possesses tonic properties that strengthen the stomach, liver and bowels and is a remedy that has been for years the great standby in thousands of families, and should be in every family medicine chest. It is equally as valuable for children as for older people.

Druggists everywhere sell Dr. Caldwell's Syrup Pepsin in 50c and $1.00 bottles. If you have never tried it send your name and address to Dr. W. B. Caldwell, 261 Washington St., Monticello, Ill., and he will be very glad to send a sample bottle for trial.

Cornered.

Lord Guilford tells a story of a young lady's resources at a bazaar. Business was in full swing when a young man strolled around the various stalls, with no intention of purchasing anything. As he passed a large, beautifully decorated stall the young lady seller detained him. "Won't you buy a cigarette holder, sir?" she asked. "No, thank you, I don't smoke," was the curt reply. "Or a pen writer worked with my own hands?" "I don't write." "Then do have this nice box of chocolates." "I don't eat sweets." The young lady's patience was exhausted. "Sir," she said grimly, "will you buy this box of soap?"

The young man paid up.

MANY USES FOR COMMON SALT

Indispensable Household Mineral Has Medicinal as Well as Culinary Value.

Salt on the fingers when cleaning fowls, meat or fish will prevent slipping.

Thrown on a coal fire when broiling steak it will prevent blazing from the dripping fat.

Salt as a gargle will cure soreness of the throat.

Salt in water is the best thing to clean willow ware and matting.

In the oven under baking tins it will prevent their scorching on the bottom.

Salt puts out a fire in the chimney.

Salt and vinegar will remove stains from discolored teacups.

Salt and soda are excellent for bee stings and spider bites.

Thrown on soot which has fallen on the carpet salt will prevent stain.

Salt put on ink when freshly spilled on a carpet will help in removing the spot.

Salt in whitewash makes it stick.

Salt thrown on a coal fire which is low will revive it.

Used in sweeping carpets it keeps out moths.

Never salt meat that is to be grilled, as it hardens the fibers of the meat and tends to extract the juices. Salt on the table platter just before sending to the table. No meat should be salted uncooked, but after the surface has been seared and the meat partly cooked.

CARING FOR THE KITCHEN

Should Be Kept Scrupulously Clean and Furnished With That End in View.

No part of our home is more important than the kitchen, whether we occupy it ourselves or relegate it to a maid. It does not do to imagine when furnishing that "any old thing" is good enough for kitchen use. Faded oilcloth and soiled rag carpets should not be seen in a part of the house that from the hygienic point of view should be all freshness and brightness. Our kitchens should be kept scrupulously clean, and they must be furnished with this end in view.

No unnecessary articles should be there to get in the way of the occupants. The walls should be painted or, if there is paper, it should be light and easily washed, and the floor ought to be covered with light inlaid linoleum. Inlaid floor covering costs in the beginning more, but it is the only satisfactory wear, and it has been found that light colors are really more economical than dark. A bright table cover and a basket chair are details of kitchen furnishing that will be much appreciated by the occupants.

Carrot Croquettes.

Wash six good-sized carrots (new and of fine grain). Put in a sauce pan with a piece of butter, a small lump of sugar and as much water as may be necessary to make a cup of sauce. Add some finely minced parsley, pepper and a teaspoon of salt. Let them simmer uncovered until they are tender enough to mash. Then measure, and to each cup add the yolks of two raw eggs, a grating of nutmeg, a tablespoon of butter and more salt and pepper, if needed. Mix all thoroughly and set away to cool. Then shape in tiny croquettes, dip in beaten egg, roll in fine crumbs and fry in deep hot fat.

Orange Ice.

Four cups water, two cups sugar, two cups orange juice, one-quarter cup lemon juice, grated rind two oranges; make a syrup by boiling sugar and water 20 minutes; add grated rind; cool; add fruit juice; strain and freeze, using three measures ice to one of salt.

Stewed Cucumbers.

Cut the cucumbers fully half an inch thick right through; put them in a saucepan, just covering them with hot water, and let them boil slowly for a quarter of an hour or until tender, but not long enough to break them; then drain them. You want now a pint of good cream with a teaspoon of butter in a saucepan, and when it is warm drop in the cucumbers; season with a little salt and white pepper; cook five minutes, shaking the saucepan all the time, and serve hot.

Cabbage Pudding.

Chop fine a small white cabbage and put enough into a large deep baking pan to fill it up when the cabbage is done. Put it into a pint of salted, boiling water and boil until tender. Drain thoroughly in a colander. Into two parts of the cabbage put two-thirds of a cup of butter, with salt and pepper to suit the taste; a pint of cream, four eggs beaten separately, and a pinch of cayenne pepper. Put the mixture in a pan and bake for half an hour.

Quickest, Surest Cough Remedy Ever Used

Stops Even Whooping Cough Quickly. A Family Supply for 50c. Money Refunded if it Fails.

If someone in your family has an obstinate, deep-seated cough—even whooping cough—which has yielded slowly to treatment, buy a 50-cent bottle of Pinex and watch that cough vanish. If it fails, money back promptly, and without argument.

A 50-cent bottle of Pinex, when mixed with home-made sugar syrup, makes a full pint—a family supply—of the most effective cough remedy that money can buy, at a saving of $2. Gives instant relief and will usually wipe out a bad cough in 24 hours or less. Easily prepared in five minutes—directions in package.

Pinex Cough Syrup has a pleasant taste—children take it willingly. It stimulates the appetite and is slightly laxative—both good features. Splendid for croup, hoarseness, throat tickle, incipient lung troubles, and a prompt, successful remedy for whooping cough.

Pinex is a special and highly concentrated compound of Norway White Pine extract, and is rich in guaiacol and other elements which are so healing to the membranes. Simply mix it with sugar syrup or strained honey, in a pint bottle, and it is ready for use. Used in more homes in the U. S. and Canada than any other cough remedy.

Pinex has often been imitated, but never successfully, for nothing else will produce the same results. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is wrapped in each package. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., 234 Main St., Ft. Wayne, Ind.

Stomach Trouble

Mrs. Wilson Robinson, 704 Neasle St., Toledo, Ohio, writes:

"I feel like a new person. I have no more heavy feelings, no more pain, don't belch up gas, *can eat most anything* without it hurting me. I want to be working all the time. I have gained twenty-four pounds.

"People that see me now and saw me two months ago seem astonished. I tell them *Peruna did it.* I will say it is the only remedy for spring and all other ailments."

HIGH COST OF LIVING

Occasionally, the Democratic Roswell Daily Record without taking an injection of the new French remedy for feeblemindedness, has a glimpse of sense Last week, editorially, it ascribed the high cost of living, not to the protective tariff, but to some of the real cause, omitting, however, the credit system, under which the honest man pays the debts of the dead beat Says the Record:

"The high cost of living is largely accounted for by the demand of people for service and style, and artistic effect. In the good old days that we hear so much about you went to the store and bought what you wanted and carried it home yourself. It was cheaper because you did not help pay for the pretty little box in which it is wrapped today, and usually a gold string, too; neither did you help pay for a delivery boy to bring it to your door; neither did you help pay for the sanitary precautions that are taken at the factory and the retail store The high cost of living is not so much the advance in the necessary articles as in the hygienic treatment, the attractive wrapping and the quick delivery. We pay for the ease and the luxury and the safety of the twentieth century."

On another page the originator of "Fletcherism," gives one receipt for reducing the cost of living, at which however, the poor man of today will pucker up his lips, although in the good old days to which many hark back, diet was almost as simple. Professor Fletcher lived for fifty and more days on no other food than potatoes and oleomargerine, and that on less than ten cents worth each day. There are many families in New Mexico, and that means two to eight persons for each, that live on an income of less than six dollars a week, a feat which in other parts of the country would be deemed impossible. Nor are these people necessarily any less happy than those that cannot pay their debts on $3,000 to $10,000 a year, although high thinking in this case does not necessarily go with poor living. The tendency each day and each year is toward a higher standard of living, and that means necessarily the higher cost It is well that this is so, but the ordinary Socialist agitator mistakes the cause for the consequence, and erroneously insists that the high cost of living is due to the economical system which includes trusts and the millionaires.—Santa Fe New Mexican.

CHILD WELFARE DAY
A PROCLAMATION BY THE GOVERNOR

Saturday, February 17th, has been officially designated by Gov. McDonald as "Childs Welfare Day" in New Mexico and a proclamation issued by the executive urges that the day be observed throughout the state along lines recommended by the National Congress of Mothers The proclamation is as follows:

Conservation in recent years has become the watchword of the American people. A nation wide protest has swept over the land against the wanton waste and dissipation of our magnificent natural resources and it is needless to say that this campaign is producing splendid results. Now comes the National Congress of Mothers, an organization of high minded noble women, and ask for the conservaton of child life.

All intelligent men and women will agree that upon the moral and physical welfare of the people depends the future prosperity of the nation and the race If it is important to conserve our mines, our forests, streams and agricultural lands, it is infinitely more important to conserve the mites of humanity who are destined to receive, use and care for these resources in the years to come; if it is important to practice conservation, efficiency and economy in all departments of human service, it is vastly more important to practice the principles in their relation to the youth of today by giving careful attention to his needs, physical, mental and moral

Therefore, in order to bring the subject officially before the people of New Mexico, and in compliance with the request of the National Congress of Mothers, I, William C McDonald, governor of the state of New Mexico, do hereby designate and proclaim, Saturday, February 17th, A D. 1912, as Child Welfare Day in the state of New Mexico, and I earnestly recommend that every citizen of New Mexico shall on that day give some thought and effort to the needs of the children, who are far more valuable than all other resources, in order that we may promote and advance better opportunities for them and bring out the best that is within them. I recommend that child welfare work be conscientiously taken up by the people of our new state. Let us look to the welfare of the children, physical, mental and moral and aid them towards a strong and independent manhood and womanhood.

Done at the executive office this 2nd day of February, A. D. 1912.

Witness my hand and the great seal of the state of New Mexico

WILLIAM C. McDONALD.

ANTONIO LUCERO,
Secretary of New Mexico.

Public Library

How Attitude Toward Fiction May be Fixed

By H. H. BOND, Cambridge, Mass.

THE attitude of public libraries toward fiction must be determined by the purpose for which they have been established and maintained. This purpose, as recorded in their deeds of gift, in the charters under whose authority they act, and in the published reports of their trustees, is public education. The charter of a typical Massachusetts library gives as the purpose of its incorporation, "the diffusion of knowledge and promotion of intellectual improvement." Trustees uniformly base appeals for public support upon the educational value of their libraries.

The promotion of education was uppermost in the mind of the man who inaugurated the movement for the general establishment of public libraries in Massachusetts, and formed the basis of his appeal for state encouragement. In 1839 Horace Mann devoted the annual report of the board of education to this question. He showed that there were only fifteen free town libraries in Massachusetts, and that few books in them were of educational value. He deprecated the evils of excessive novel reading, and insisted upon school libraries which should "cultivate the germs of intelligence, benevolence and truth."

Through his influence the general court passed a series of statutes which culminated in the act of 1851, granting to every city and town of the commonwealth authority to establish and maintain a public library in the interest of public education.

What the state understands by public education appears in the preambles and statutes of Massachusetts relating thereto. The first such statute, May, 1642, declared that "Forasmuch as the good education of children is of singular behoof to any commonwealth, the selectmen of every town shall see that children are taught perfectly to read the English tongue."

Before 1780 the views of Massachusetts had so expanded that the following article was inserted in the state constitution: "Wisdom and knowledge, as well as virtue, diffused generally among the body of the people, being necessary for the preservation of their rights and liberties, . . . it shall be the duty of legislatures and magistrates in all future periods of this commonwealth to cherish the interests of literature and the sciences, . . . to encourage private and public institutions . . . for the promotion of agriculture, arts, sciences, trades, manufactures and a natural history of the country; to countenance and inculcate the principles of humanity and general benevolence, charity, industry and frugality; honesty and punctuality; sincerity, good humor, and all social affections, and generous sentiments among the people."

So long, therefore, as this conception of the scope of public education prevails, and so long as the promotion of such education is recognized as their legitimate purpose, the ideal attitude of our public libraries toward all fiction which tends to accomplish this great design must be one of friendliness and welcome.

Strong Appeal for Keeping Animal Pets

By L. JARDINE, Omaha, Neb.

Why is it necessary to assume, as most of those discussing the matter seem to do, that only childless women keep pets? The fact is that some people love animals and others do not, and whether or not one has children has nothing to do with it.

I should say that the woman whose patience and charity are wide enough to include even the lower orders of the Creator's great family, would be the one least likely to shirk the duty of motherhood, and best fitted for its fulfillment.

It happens that in my own acquaintance the women who are most fond of dogs and cats are devoted and industrious mothers of families. Moreover, there are just as many men as women who find pleasure in petting and caring for animals; and normal, properly brought up children are almost invariably fond of them.

The discipline of learning to treat with kind consideration the household creatures whose comfort is so entirely dependent upon the thoughtfulness of their "big brothers," is as valuable a training in character as a child can well receive; and the child who has never known the fun of romping with a jolly four-footed playmate in a spirit of mutual good fellowship has missed one of the keen delights of child life.

Much Luck in Rearing Good Children

By DAVID LAIRD

When parents raise good children it should not be attributed to good luck, for good children cannot be produced without care any more than a garden can prosper without timely and constant weeding.

It is misapplied kindness when parents in moderate circumstances provide clothing, board, shelter and pocket money to good-for-nothing, strapping boys of seventeen to nineteen years of age.

As the twig is bent the tree will grow, and if a boy is deaf to his mother's entreaties he is bound to go wrong and ought to be assisted to travel the shortest road, be ousted from the paternal home and deprived of his comforts.

No doubt his father or mother or both are partly responsible to some extent for what the boy is, by having been too indulgent or too ignorant to inculcate the proper respect due them as parents.

As we sow we generally reap. I have raised six children and I cannot recollect ever to have told them twice to obey my commands.

I respected and supported my widowed mother and I am blessed in my own children.

LONDON'S LID IS OFF

Striking Feature of Night Life in Soho District.

Gambling Is Protected in the Tenderloin of England's Capital—Thirty-Two Card Faro a Favorite Game.

London.—The lid is off in the notorious Soho district of London. In the last few months dozens of gambling joints and off color night clubs have opened and they are doing a wide open business without police interference.

It may be explained for the benefit of those unacquainted with London that Soho is the Tenderloin of the city. Situated in the heart of the west end, its broad streets abound in theaters and restaurants and are at the same time Tenderloin promenades. Inspector Schmittberger viewed this stream one night in company with a reporter and exclaimed, "Gee! We wouldn't stand this for a minute in New York."

Back of these broad thoroughfares are hundreds of mean narrow streets, the hotbeds of the Latin anarchists and the abiding place of the scum of Latin and Teuton Europe. On the police records Soho has a bad name and one Scotland Yard inspector in a police investigation held a few years ago said that one of the streets in Soho from the criminal standpoint was the worst in London.

It is practically an unknown district to the real Londoners, who are only acquainted with its boundaries of theater land or who, perhaps, penetrate a small way into the district in the search for the cheap yet excellent restaurants which abound therein.

Gambling joints and off color clubs have always existed in this district. About a dozen years ago London was wide open, but then a moral wave swept in, the police got busy and the lid was put on and sealed. Several spasmodic efforts to pry the lid off have been made ineffectually since then, but a few months ago the word went around that, provided there was no shouting the word from the housetops, and provided certain formalities were observed, business could be done.

Now there are dozens of places where the tiger can be bucked. Admission is not difficult to any of these places if one knows the ropes.

Baccarat and other poker are played. The poker is of the continental variety, played with 32 cards, all below the seven being eliminated. The value of hands in this game is somewhat different from the 52 card game, as three of a kind beat a straight and a flush beats a full house.

Faro is the great and the favorite game at all these joints. Again it is the German or continental variety, not the American, that is played.

Thirty-two cards are used and no box; the banker dealing out of hand. There is no elaborate layout; in most cases four matches sufficing. These are laid in front of the dealer and each end of a match represents a card. The bets are made by placing the money at the end of the match which represents the card backed. It is a straight proposition to win or lose, the punter betting that his card will win, the banker that it will lose. There are no furbelows of coppering bets or naming the sequence of the last card.

This game of faro as played in London is of excessive simplicity and of excessive crookedness. An expert dealer can make the cards do almost anything for him. The majority of punters are very sharp eyed and with a gang of regular players the attempts at crooked playing are infrequent, but let a tenderfoot butt into the game and he has no chance to win.

The proprietors of the joints don't run the game. The bank is put up at auction, as at baccarat, the man willing to put the largest amount of money taking the bank. The proprietors make their profits by charging so much an hour for the bank, the price varying with the size of the bank, the minimum being $10 an hour, payable in advance.

The popularity of this form of faro is widespread throughout the Latin and Teuton population of Soho, and at the bigger of these gambling clubs thousands of dollars are won and lost nightly.

A horde of American grafters and crooks got in the habit of resorting to a certain night club Scotland Yard kept the gaming under surveillance and planned to dispose of them by raiding this club, which would furnish a decent excuse in court to ask that each of them be sent to prison for three months as a suspicious character, in addition to being fined for being in a gambling joint. Thirty-five of these "international merchants," as Pat Sheedy was wont to designate them, were thoroughly enjoying themselves when the word was passed to get out quickly and quietly in twos and threes.

"Don't rush out in a bunch, as there is half an hour," said the tipster.

Half an hour later the police descended on the place, but the birds had flown.

DOOR MAT IS WORTH $2,000

Supposed Worthless Rug Turns Out to Be a Treasure—Was Made by Persian Bride.

Montclair, N. J.—Mrs. J. G. H. Fayen, of Upper Mountain avenue, has used during the last year at the entrance to her home a small rug. It was bought with a number of others at a sale in New York. A rug expert had been summoned to the Fayen house to look over a number of rugs that required renovation. As he was going out of the house he saw the rug that was used as a door mat.

"What shall I do with this?" he asked, as he stooped down and picked up the rug.

"Nothing," said Mrs. Fayen; "it isn't worth while."

"Not worth while!" he said. "Why this is a precious rug—worth all the others together."

Mrs. Fayen was amazed when the expert explained to her that the despised rug is probably worth $2,000; that it was woven by a Persian bride, and was never intended to be sold. He pointed out the peculiar characteristics of the rug, into the borders of which were woven the features of the bride and her intended husband.

The expert said the wool used in the rug is of a kind that is now hard to get. The rug, he said, is between one hundred and fifty and two hundred years old.

Open Schools Are Success

Chicago Buildings Thrown Open to Public for Dancing, Picture Shows and Games.

Chicago.—The board of education's plan for turning the schools over to the people for social amusement on the winter evenings was inaugurated here. Four school buildings were opened between 7:30 and 9:30 o'clock. At each there was a large audience, and at each the experiment proved a success.

In launching its innovation the Chicago school board's object was to do something that will counteract the evils of the dance hall and the improperly managed moving picture show. Hundreds of boys and young girls who otherwise would have had to seek recreation in the streets took part in the festivities.

Workers of the Juvenile Protective league, under the supervision of the principals, had charge of the youngsters. The same official chaperons will be on hand each Monday and Thursday evening, the official "social center nights," from now until spring. Their instructions are to be as inconspicuous as is compatible with good order and with everybody's having a good time. Policemen have been assigned to each school to maintain order if it is necessary.

At three of the schools there was dancing. It was stated by some of the principals that the social center plan would not be a success in their districts unless dancing is permitted. At all of the schools there were games, gymnastics and music. Preliminary steps were taken also to organize dramatic clubs. At one school there were moving pictures.

The celebrants ranged from 14 to 20 years old. The schools, however, are to be opened to the fathers and mothers. Efforts will be made to form both men and women's clubs.

"Commandments" For Wives.

Brockton, Mass.—A series of "ten commandments for wives," prepared by the Rev. Albert Hyde, pastor of the Porter Congregational church, is being circulated in printed form here. They are as follows:

"Thou shalt not marry for revenue, or even to escape being an old maid. After the marriage, thou shalt not put on an old wrapper, or wear slippers run down at the heels.

"Thou shalt not be a slave of fashions.

"Thou shalt not be a gossip. Thou shalt not be out of sorts when thy neighbor in a limousine smiles on thee in a trolley car.

"Thou shalt not break down the no license law by serving strong punch at thy parties.

"Thou shalt not forget the age of thy children in the public conveyance.

"Thou shalt not let loose on thy husband on wash day, or even in housecleaning time.

"Thou shalt not spell home as 'matinee' or 'club' or 'moving pictures.'

"Thou shalt not forget where thy Bible is and be unable to find it when thy minister comes."

NO MAN'S LAND A ROMANCE

By LOUIS JOSEPH VANCE

ILLUSTRATIONS BY RAY WALTERS

COPYRIGHT, 1910 BY LOUIS JOSEPH VANCE

SYNOPSIS.

Garrett Coast, a young man of New York City, meets Douglas Blackstock, who invites him to a card party. He accepts, although he dislikes Blackstock, the reason being that both are in love with Katherine Thaxter. Coast fails to convince her that Blackstock is unworthy of her friendship. At the party Coast meets two named Dundas and Van Tuyl. There is a quarrel, and Blackstock shoots Van Tuyl dead. Coast struggles to wrest the weapon from him, thus the police discover them. Coast is arrested for murder. He is convicted, but as he begins his sentence, Dundas names Blackstock as the murderer and kills himself. Coast becomes free, but Blackstock has married Katherine Thaxter and fled. Coast purchases a yacht and while sailing sees a man thrown from a distant boat.

CHAPTER V.

Sunlight and shadow playing in swift alternation upon his face, as the Echo courtesied to the morning breeze, Coast awakened.

For a moment almost thoughtless he lay drowsily enjoying the rise and dip of the boat, as drowsily conscious at a faint thrill of excitement; mostly comparable, perhaps, to the first waking sensations of a fourteen-year-old boy on a Fourth of July morning.

Then without warning the small chronometer on the transverse above his head rapped out smartly two double-chimes—ships' time; four bells; ten o'clock in the forenoon.

Astonished, he sat up quickly, and his still sleepy gaze, passing through the companionway, encountered the amused regard of the sol-disant Melchisedec Appleyard. Promptly Coast found himself in full possession of his faculties. That in obedience to first instincts he nodded with a cordial smile, was significant.

Appleyard returned the salutation with a quick bob of his small head. "Good-morning, hero!" he sang out cheerfully.

He sat in the cockpit, huddled into the folds of a gray blanket, voluminous for his slight figure, a thin but wiry forearm bared to wield the cigarette he was smoking with every indication of enjoyment.

"Good-morning," he returned. "How d'you feel after your adventure?"

"Unclothed but in my right mind," said Appleyard, with a twinkle of anxiety amending: "to the best of my knowledge and belief." He indicated airily the various articles constituting his painfully simple wardrobe. "Waiting for 'em to dry."

Appleyard hopped up, fingered his everyday attire critically, and pronounced it bone-dry; then, bundling it up, he returned to the cabin, seating himself on the opposite transom to dress.

"And the sensations of a hero, refreshed by sound slumbers, are—"

"Hunger," said Coast. He moved forward and began to experiment gingerly with a new and untried alcohol stove. "I can offer you eggs, coffee, biscuit—and nothing else," he added, producing raw materials from a locker. "You see, I hadn't expected to entertain."

"Rotten inconsiderate of you," Appleyard grumbled. "I'll wire you a warning next time it occurs to me to drop in unexpectedly."

Divided between amusement and perplexity, in the course of the meal Coast reviewed a personality singularly enriched by a variety of suggestions consistently negative. The man's age was indeterminable—somewhere between thirty and forty-five. Loosely summarized, he might have been anybody or nobody on a lark or his uppers.

Appleyard looked up quickly, with a shy, humorous smile.

"Well, what d'you make of me?"

"It's hard enough to guess what you've made of yourself."

"Flattery note," observed Appleyard obscurely. "Yet you win my sympathy; sometimes I am moved to wonder—really." He tapped an egg thoughtfully, a crinkle forming between his colorless eyebrows. "It's really not what a man makes of himself; it's what his temperament does to him."

"Temperament!"

"Yes; you really ought to keep one; they're all the rage just now—and such excellent excuses for the indulgence of your pet idiosyncrasies."

"Oh! . . . And you blame yours for what?"

"For making me a—I presume possibly, in the final analysis, will adjudge me a Romantic."

"Literature?" asked Coast, aghast. "Good Heavens, no! Nothing like that! Life," he plodded ponderously, "is [illegible] you may [illegible] of it." [illegible] shall not [illegible] to [illegible] my [illegible] of all [illegible] [illegible] [illegible]

HORTICULTURE

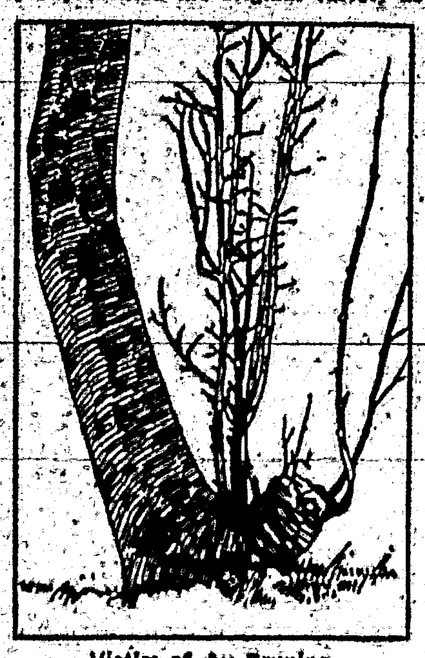
PROBLEM FOR OHIO EXPERTS

Pears Grown on Tree Which Came Up as Sprout From Stump Long Dead Proves Big Puzzle.

In Ohio there are exhibited at the state fair some pears which were said to have grown on a tree which came up as a sprout from the stump of an old tree long dead and gone. The vigorous, upright tree which bore the fruit, was five or six inches in diameter, and about 16 feet high.

It was difficult to determine whether it sprang from above or below the point at which the original union between bud and stock had been effected, and the stump of the original tree was almost completely rotted away.

Investigation by experts, however, show that the bearing tree undoubtedly represented the original variety as



Victim of Ax Pruning.

had a previous young tree, the stump of which is illustrated.

The former young tree evidently had never borne, and it had been the victim of a dull ax. The owner of the fruit believed it was a seedling. It was almost as truly an apple form or oblate as the Japanese Golden russet pear. The smaller fruits had more of the pear shape.

Prof. G. B. Reeckett of the government bureau of plant industry finally pronounced the variety a fine type of the Sheldon pear.

Protect Against Rabbits and Mice.

These animals may be kept from injuring the trunks of trees by boxing, or by placing a piece of galvanized wire screen around the tree trunk and covering it to a height of about 20 inches. This will also prevent sunscald, and it costs much less than to replace the trees after the rabbits have injured them. The snow should be well tramped about young apple trees to prevent mice from injuring the bark under the snow crust.

HORTICULTURAL NOTES

Prepare land for a small fruit plantation next spring.

Do not neglect to provide ample ventilation for the cellar.

Apples keep best in a cold cellar; just above freezing point.

Remember that your orchard, especially the young trees, need good cultivation.

Walnut trees thrive under almost any condition and do well in many states.

Trees injured by freezing very often need to be severely cut back.

Do not allow stock to run in the orchard during the winter months.

A peach tree will stand a heavier heading back than an apple tree.

Keep all rubbish from about your fruit plants so that mice cannot harbor there.

Bend all young and tender fruit bushes and vines carefully to the ground, place a layer of straw on them, and cover lightly with dirt.

Move all of the trash standing in the orchard and burn it to destroy weed seeds.

Trees to do their best should be planted in blocks or groves rather than in single rows.

Ascertain the varieties of fruits and vegetables wanted in the markets desired to be patronized.

If there are any limbs dead or out of shape on the young trees now is a good time to look after them.

Grow trees for post timber, lumber, nuts, fruits, as well as evergreens and ornamentals for the home grounds.

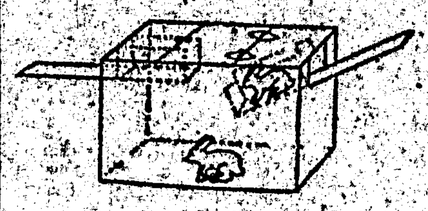
Every up to date orchardist has his young trees wrapped from the rabbits but the best protection is to kill the rabbit before cold weather.

RABBIT TRAP HAS OPEN END

Scheme Devised to Capture Pestiferous Little Animals in Groups of Two or More.

In response to a query as to how to make a rabbit trap that catches more than one animal without being reset a writer in the Kansas City Star gives the following instructions:

Make the box 4x4x4 feet and bury it in the ground so the bottom of the trapdoors which extend out on either side will come level with the surface of the ground. Make these trapdoors so the inner ends will pass when tilted. Hang these doors on pivots where they cross side of box, and have outer ends a little heavier than inner end so when the rabbit is off the



Open-End Rabbit Trap.

board will swing back to its horizontal position again.

Sides must be nailed to edges of door inside the box so rabbit will have to pass off at the ends, the inner end being entirely open so when rabbit comes along and sees bait (which is hung under center of door in top of box) it also sees straight through box and thinking it can pass through and eat of bait, it tips the trap and falls into box.

I have known as high as 15 to be caught at one time. Use an apple or corn for bait and set trap somewhere in a rabbit trail, and it is best to place the box about six weeks before using it so things will look familiar. Use stick fastened to underside of door in top of box to fasten bait to. We have splendid results from the use of this trap.

FIRE POTS FOR AN ORCHARD

Any Number of Little Stoves May Be Ignited by Electricity—Prevents Frost Damage.

In many fruit belts, especially in the west, fire pots are utilized as a means of preventing frost from destroying the fruit crops. In the illustration is shown an electrically ignit-

ed fire pot for such purpose, any number of which may be connected up in a circuit, says Popular Mechanics. Normally, the fire pots are covered, but the contact points in each are so arranged that a wire will fuse and trip the catch holding the cover down when the current is turned on, and at the same time ignite a wick which sets fire to the fuel. The covers, of course, are weighted so that they will fly open when the catch is tripped. In this manner all the fire pots in the orchard are instantly ignited by turning on the current.

Trapping Sparrows.

Agents for the department of agriculture have been experimenting for the past three months with devices to trap English sparrows. It has been determined upon that these birds are harmful to the fruit trees in the spring, eating as they do into the buds, and destroying the cores.

Pruning Apple Trees.

Apple trees improperly pruned make good nesting places for woodpeckers. The birds dig out the decayed wood where stubs of branches have rotted in to the heart and there start housekeeping.

Trees Trained Too High.

Trees, especially apples, are often trained too high, because of the difficulty of working close to them. Modern tools will bring the heads within reach.

Harness for Orchard.

Harness with no projecting hames or metal turrets should be used in bearing orchards. Those requiring no whiffletrees are also useful.

HAVE YOU SUSPECTED YOUR KIDNEYS?

There are two ways to tell whether you have weak kidneys.

The first is through the pains in the back and other outward signs. The second is by examination of the kidney secretions.

That is why physicians make such a careful examination when you apply for insurance, and if there is any sign of kidney trouble you are surely rejected.

Kidney disease is so dangerous that it is a bad mistake to overlook or neglect it, and if pain in the back, recurring headaches, or a fretful, nervous, tired condition makes you suspect some kidney trouble, take the trouble to watch the kidney secretions. Look for any of the following signs:

More or less than three and one half pints passed daily.
Too dark or too pale a color.
Passages too frequent, profuse, or much reduced, or scalding and painful.
Sandy, gritty or cloudy settlings.
Fat or oily-looking layer which gathers on the surface when allowed to stand, or a jelly-like thickening.
Staining of the linen or bad odor.

Temporary changes may occur for a time from things eaten, but if the changed appearance continues, your kidneys are out of order and need help. Neglect may prove serious.

backache, rheumatic pain, nervousness, dizziness, bloating and other results of kidney disease.

The following case is typical of the cures effected by Doan's Kidney Pills. Grateful testimony is the best evidence.

SAVED AT THE CRISIS.

Cured After Doctors Gave Up Hope.

H. R. Hatch, 2576 Cedar Street, Everett, Washington, says: "I doubt if anyone ever suffered more than I did from kidney trouble. I endured the greatest agony anyone can imagine. My back so bad I could hardly walk. The least jar was or sudden misstep caused sharp twinges through my loins that fairly made me groan. I dreaded to stoop for I knew what I had to suffer when I straightened. At times the kidney secretions passed much too freely, while again there was a marked retention. The secretions were almost like blood, offensive in odor and terribly painful in passage. I treated with several physicians and consulted two specialists in Seattle and one in Tacoma. They all told me I had Bright's disease and could expect to live only a short time. Finally I began using Doan's Kidney Pills on a friend's advice, and to my surprise, I received prompt relief. I continued and was completely cured. Though 75 years of age, I am as supple and active as any man in the country."

A LEAKAGE THAT CAN BE EASILY STOPPED.

How many people who read this article, realize the weighty influence of one little necessity of life—baking powder—on the cost of living.

Yet it is a leakage that can easily be stopped if the housewife will only pay a little more attention to the choice of her baking powder. Some think there is economy in buying the cheap "Big Can" Baking Powders. These Baking Powders are not always uniform, and sometimes produce failures in the baking, and the result is that more is lost in one or two spoiled bakings than you spend on baking powder in the whole year. The cheap "Big Can" Baking Powders should be avoided.

On the other hand, many housewives feel that a baking powder is of no value unless they pay 40 cents a pound for it—the price charged for the high priced "Trust" brands. This is a mistake, as the best baking powder that can be made can be sold for 25c. per pound if the manufacturer is satisfied with a reasonable profit. There is one brand on the market that meets these requirements. It is CALUMET BAKING POWDER, recommended by leading physicians and chemists; used in millions of homes; and given the Highest Award at the World's Pure Food Exposition.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach sour or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medical forest plants. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
