NEW HOMESTEAD BILL

Fergusson Introduces New Homestead Law in the House

640 ACRES FOR EACH PERSON

Representative H. B. Fergusson has introduced the following New Homestead Bill in the House. It has not passed either the House or the Senate as yet.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the passage of this Act it shall be lawful for any person qualified to make entry under the homestead laws of the United States to make a grazing homestead entry for not exceeding six hundred and forty acres of unappropriated public land, in reasonably compact form. Provided, however, That the lands so entered shall either be such lands as theretofore have been designated by the Secretary of the Interior as "grazing homestead lands," or such lands as shall theretofore have been designated by the Secretary of the Interior as not being, in his opinion, susceptible of successful irrigation, at a reasonable cost, from any known source of water supply, as provided in section one of an Act entitled "An Act to provide for an enlarged homestead," approved February nineteenth, nineteen hundred and nine.

SEC. 2. That the Secretary of the Interior is hereby authorized, on application or otherwise, to designate lands, the surface of which is, in his opinion, chiefly valuable for grazing; which do not contain merchantable timber and which are not susceptible of irrigation at reasonable expense from any known source of water supply, as grazing land subject to entry under this Act.

SEC. 3. That any qualified homestead entryman may make entry under the homestead laws of the Interior, according to legal subdivisions, in areas not exceeding six hundred and forty acres, subject to the provisions of this Act, and secure title thereto by compliance with the terms of the homestead laws; Provided, That in lieu of cultivation, as required by the homestead laws; the entryman shall be required to make permanent improvements upon the lands entered, tending to increase the value of the same for agricultural and stockraising purposes of the value of not less than \$1.25 per acre. And the inclosing by a substantial fence of the land so entered, and the discovery of water in a well or wells within the boundaries of such entry, shall be held to be permanent improvements under the terms of this Act.

SEC. 4. That any homestead entryman of lands of the character herein described, who has not submitted final proof upon his existing entry, shall have the right to enter, subject to the provisions of this Act, other lands contiguous to, or within ten miles of his said homestead entry, which shall not, with the lands so already entered, owned, and occupied by him, exceed the aggregate of six hundred and forty acres; and residence continued and improvements made upon the original homestead subsequent to the making of the additional entry, shall be so

COUNTY SCHOOL NOTES

Capitan has nearly doubled the enrollment this year from fiftythree to ninety-five (including the fourteen County High School pupils.)

All of the Reading Circle books are in stock at the Supt. Co. Schools office. It is well to begin early on the work.

The assessment of the Pipe Line in school districts through which it passes will be a great help to those districts in maintaining a longer term of school.

The State Board at its last meeting adopted a Spanish-English edition of Cyr's Primer published by Ginn & Co supplementary work in Spanish speaking communities.

State Supt. Aivan N. White writes that the small allowance for traveling expenses will not permit him attending the meeting of the Lincoln County Teachers Association at Capitan, Dec. 29th and 30th.

Ninety-five pupils is the largest enrollment for any one room in the county and is the number Mrs. M. L. Blaney has of first reader pupils in the Carrizozo school. The room has accommodations to seat fifty.

Plans for summer institute will be discussed at the annual teachers meeting holiday week. Methods and professional studies will be the principal topic this year; few of our teachers needing the review of the common branches

CARRIZOZO SCHOOL NEWS

School work is going forward with renewed vigor and the extended vacation bids fair to be more of a help than a hindrance, as the work is especially gratifying this week. In many ways we are ahead of the Albuquerque schools in the prescribed work for the year.

A piano has been ordered for the school and is expected to take part in the Christmas entertainment. The pupils have agitated the question and the money will be forthcoming as the payments come due. No school is complete without a musical instrument and we hope the public will appreciate the fact as fully as we do.

POST OFFICE MOVED

The Carrizozo Postoffice was moved this week to a new location on Main Street of McDonald's addition. The building formerly occupied by the Stag Saloon has been remodeled and made into a very nice Postoffice. The new fixtures are of the latest type and modern. The move was occasioned by competitive bidding the lease being awarded to W. C. McDonald whose bid it is said was about one-fourth of any other bid submitted. The old site has been used since the beginning of the town and before the town was really known other than a cross roads the same being for a period of about fourteen years. The move has occasioned much comment.

CIVIC LEAGUE FRIDAY

A special meeting of the Carrizozo Civic League has been called to meet at the office of Mrs. Wallace Gumm in the Court house on Friday afternoon, Dec. 12th. The special purpose of the meeting is to arrange for an entertainment for all the children of the town for Christmas and it is hoped that all the children will be remembered.

All the members of the League are urged to be present promptly at three o'clock to assist in this worthy cause.

LINCOLN COUNTY NOTES

News of Week from Around Lincoln County Briefly Told

PARSONS PICKINGS

Mr. and Mrs. J. M. Rice are visitors in Carrizozo this week.

Ross Bentley is building a house on the Bonito road just below that of his father-in-law.

Amos Gaylard had a mare killed by lightning during the recent storm.

Lee Bragg has several fox hides to his credit, the result of his trapping this fall.

Ben Robison, who was quite ill for a day or two, is reported as being better.

Many children who have been attending school here, have been kept at home on account of the bad weather.

A heavy snow storm which was accompanied by thunder and lightning visited this community a few days ago. About a foot of snow fell and since the storm the weather has continued cold.

Wm Carnett and son have moved into one of the mill cottages where they will remain while doing assessment work for the Parsons Mining Co.

The Jennings boys have proven themselves very successful trappers this fall. During the past week they caught three very large wild cats. They were caught near the Parsons mill.

WHITE MOUNTAIN

Mrs. Frank Woodside visited in Carrizozo Wednesday of last week.

Mrs. S. E. Barber is visiting in El Paso this week.

The infant of Mr. and Mrs. J. M. Fall has been quite seriously ill at El Paso.

Frank Woodside came up from Alamogordo and spent Sunday with his wife at this place.

Miss Florence Nabours has returned home after a few days spent with Miss Grace Spence in Carrizozo before the latter's departure to California.

J. B. Wingfield left Wednesday for Alamogordo owing to a telegram received from his wife, stating that their little daughter, Dorothy, had scarlet fever. Word was received later that both the younger children had the disease but were getting along nicely.

NOGAL NOTES

We are sorry to report that Mr. and Mrs. Jet Rustin lost their little boy last week. They have the sympathy of the entire neighborhood.

W. R. Sterling is no better at present. The doctor is expected here to see him and if he thinks the aged gentleman is able to stand the trip, will take him to Oscura with him for treatment.

There will be a Christmas tree in Nogal on Christmas Eve. Everybody is invited. Bring your presents and your children. Santa Clause will see that every one is well treated. A grand ball and supper will also be given at the hotel under the supervision of Mrs. Latham. Come and have a good time.

Carl Freeman commuted on his homestead Thursday, before A. H. Harvey, County Clerk.

B. Y. P. U. SOCIETY ACTIVE

The B. Y. P. U. Society which was organized about two years ago, but discontinued through the summer months has been reorganized and the new officers and committees are doing good work and wish to announce that there will be services each Sunday evening, at 6:30 at the Baptist church, and all the young people of Carrizozo are earnestly desired to attend the services.

A contest has been promoted to increase the attendance and membership. The members are divided into two divisions, each having a captain, and for their colors red the blue. This contest will close January 1st, 1914, and the division having the most points in their favor will be entertained in a social way by the other division.

If all the young people of Carrizozo will cooperate with us in this work, great good may be accomplished.

Come be one of us and enjoy the work.—The Executive committee.

W. O. W. ELECT OFFICERS

The local Chapter W. O. W. held an election of officers last Tuesday evening, the following being elected for the ensuing year:

Consul commander, J. G. Scoggin; advisor lieutenant, J. F. Morse; banker, M. Burton; clerk, T. E. Kelley; physician, Dr. R. T. Lucas; watchman, Frank Wollen; sentry, F. E. Richard; manager, three years term, A. T. Roberts

Installation of officers will be held the second Tuesday evening in January.

ROAD MEETING IN JANUARY

The Lincoln County Road Commission are arranging to hold a meeting the first Monday in January (January 5th) to start the work off for the coming year and to audit their accounts up to date; paying all bills.

This will be a joint meeting with the Board of County Commissioners who hold their regular meeting on the same day.

YOUNG FOLK SOCIAL

Mrs. J. F. Morse entertained a party of young folks last Saturday evening at the home of Mrs. Dinwiddie assisted by Mrs. Harry Edmiston. The evening was spent in dancing and light refreshments were served. All present report a very pleasant evening.

NOGAL CHRISTMAS TREE

A big dance and supper with a fine Christmas tree is arranged by the people of Nogal for Christmas Eve December 24th. Everybody is invited and assured of a splendid time. Come and bring your friends.—Con.

The local lodge of A. F. & A. M. will have a regular meeting Saturday evening, December 13, 1913, to elect officers for the ensuing year.

LOCAL AND PERSONAL

News of Interest of our Town People and of Outsiders Visiting in our Midst

GATHERED DURING THE WEEK

—Henry Emerson was down from Nogal early in the week.

—W. H. Osburn is working the first trick dispatching during the absence of S. L. Northlane.

—A. J. Rolland spent Tuesday in Alamogordo on Blind Institute business.

—Judge Hawitt was down from White Oaks early in the week and is again feeling badly.

—Otto Martens and wife were up from Oscura one day this week transacting business.

—The county officer removal cases of Torrance county have been granted a change of venue to this county.

—Rusardo Chavez of White Mountain filed on some land near that place on Monday. Many filings have been made for land in that country recently.

—Wayne Van Schuyck came down and went to Georgia Thursday accompanying U. S. Marshall Hudepeth with a Federal prisoner who is being returned to that state.

—The ladies of the Home Mission Society of the M. E. Church will hold a bazaar at the Court house, Wednesday, Dec. 17th. Everybody is invited to attend.

—Comrey Brothers of Ancho passed thru the city early in the week in a Ford car which they had purchased in El Paso and were taking it to their ranch near Ancho.

—A. B. Anderson of Chicago and Oscura came in Tuesday and spent several hours. He has recently returned from Chicago to his Oscura homestead.

—Agent F. W. Jones announces that two Drop mail boxes will be installed at the Carrizozo depot at an early date. These boxes will be for mailing letters east and west and the mail will be taken up by the mail-messenger on each train.

TAX ROLLS COMPLETED

Deputy Assessor O. T. Nye with a crew of men have finished making the required copies of the Tax rolls and the Treasurers copy has been turned over for the collection of the taxes of the county. In a little less than a week after the levy was certified to the Assessor he has been able to turn out the rolls. Mr. Nye is to be complimented for his interest in the matter. Lincoln County was the third county to get out the rolls in the state. It is stated that a majority of the tax payers will pay less taxes this year than formerly. The net raise by the State Equalization Board was only about \$18,000 which is the smallest in the state made over the Assessor. The railroad sent in a check for over \$20,000 as soon as notified of the taxes. This is only a part of the taxes from the Southwestern.

—T. J. Bellow of Oklahoma has been here for a few days looking into the Willow Springs coal mines in which he holds an interest. The mines have turned out beyond the expectation of the owners and the coal is of a very fine grade. The output just at present is being hauled to town by outfits under the management of Wm Barnett and the consumers seem to be well pleased with product. The discovery of this large body of coal so near here will mean a great thing for the town soon.

cepted as equivalent to actual residence and improvements made upon the additional land so entered, but the improvements must equal \$1.25 for each acre within the original and additional entries: Provided, That persons who have acquired title to lands of the character herein described under the homestead laws and who own and reside upon the lands so acquired, may, subject to the provisions of this Act, make additional entry for and obtain patent to public lands, designated for entry under the provisions of this Act, contiguous to or within ten miles of their said original entry, which together with the area theretofore acquired under the homestead laws, shall not exceed six hundred and forty acres, on proof of expenditures on account of permanent improvements upon the original or additional entry of the required amount reckoned on the area of both entries.

SEC. 5. That any person who has made entry under the homestead laws, but from any cause has lost, forfeited, or abandoned the same, shall be entitled to the benefits of this Act as though such former entry had not been made, and any person applying for a homestead under this Act shall furnish the description and date of his former entry: Provided, That the provisions of this section shall not apply to any person whose former entry was canceled for fraud.

SEC. 6. That all entries made and patents issued under the provisions of this Act shall be subject to and contain a reservation to the United States of all the minerals and coal in the lands so entered and patented, together with the right to prospect for, mine, and remove the same. The mineral and coal deposits in such lands shall be subject to disposal by the United States in accordance with the provisions of the mineral and coal land laws in force at the time of such disposal. Any person qualified to locate and enter mineral or coal deposits, or having the right to mine and remove the same under the laws of the United States, shall have the right at all times to enter upon the lands entered or patented, as provided by this Act, for the purpose of prospecting for minerals or coal thereon, upon the approval by the Secretary of the Interior of a bond or undertaking to be filed with him as security for the payment of all damages to the crops and improvements on such lands by reason of such prospecting. Any person who has acquired from the United States the mineral or coal deposits in any such land, or the right to mine and remove the same, may reenter and occupy so much of the surface thereof as may be required for all purposes reasonably incident to the mining and removal of the mineral or coal, upon payment of the damages caused thereby to the owner thereof, or upon giving a good and sufficient bond or undertaking to be approved by the court in action instituted in any competent court to ascertain and fix said damages.

SEC. 7. That the Secretary of the Interior is hereby authorized to make all necessary rules and regulations in harmony with the provisions and purposes of this Act for the purpose of carrying the same into effect.

U. S. URGED TO BUY RAILROADS

Washington, D. C., Oct. 30—Clifford Thorne, state railroad commissioner of Iowa, today argued before the interstate commerce commission that the United States could save \$464,140,210 per year through public ownership of railroads.

Mr. Thorne spoke against the granting of an increase of five per cent in railroad rates throughout the northeast territory. He declared this increase would place an additional burden of over \$40,000,000 on the people of the country.

Mr. Thorne said that by issuing government three per cent bonds to take over the railroads in this country could make tremendous savings in interest on the present bonds, as well as savings on dividends. Also higher wages could be paid, more money could be put in roadbeds, equipment, and safety devices, and rates could be reduced.

FACTS ON THIRTY-FIVE RAILROADS

He personally has investigated thirty-five representative railroads during the last year. He found the market value of their combined stock to be \$4,087,158,107 and the par value of this stock \$4,299,693,063. The total market value of the bonds of these companies was \$3,435,471,596 and the par value \$3,855,217,979. The market value of the stock is 95.057 per cent of the par value, while the market value of the bonds is but 89.11 per cent of their par value.

By using these figures he computes the market value of stocks and bonds of the American railroads at \$13,969,173,393 at the present time whereas their par value is \$15,286,101,947.

Dividends on stock last year amounted to \$460,432,752 and interest on bonds was \$422,782,020. He figures that the government by buying the railroads in at their present market value could save \$209,794,609 in dividends and \$170,345,602 in interest on bonds.

Dear Editor—The above article is not Socialism, but near it. A clause in the Socialist Party Platform as adopted by Membership Referendum August 4th, 1912, demands the collective ownership and democratic management to railroads wire and wireless telegraphs and telephones, express services, steamboat lines and all other social means of transportation and communication and of all large scale industries.

CHILDREN

You who have children are the blessed ones; you who open sleepy eyes in the gray dawn of Christmas morning to see a small face round with excitement peering through the bedroom door and hear from the next treble shouts of "Merry Christmas" and the scampering of little feet. You are the happy ones about whose Christmas trees the gifts are mostly toys. There are so many who have no children. So many homeless people in city boarding houses, in village cottages, in mines, in camps, in offices; so many lonely women whom a cruel fate and a chaotic world have robbed of their heritage; so many barren in body or in spirit, to whom home is but a dwelling place and the future only a dream. You about whose skirts little hands are clinging are the ones to whom a Christmas really comes. When in the dusk of Christmas Day the curtains are drawn over the holly wreaths, and the fire throws a soft light among the yuletide evergreens, flickering on the shining tree around which the gifts lie scattered, when a little head rests wearily against the father's knee with the utter trust of childhood, and a soft, tired body snuggles up against the mother's breast, then is life justified. The memory of a hard and lonely past may bring unnoted tears, the fear of an uncertain future may sober the smile, but this moment at least is a perfect one. The world may roll on with its wars and wickedness and misery, kingdoms may go and governments may come, philosophies and religions may wax and wane, but to you at least is this life worth living, and to you is immortality assured.—Colliers.

SEED MUST BE DRIED

Interesting and Instructive Data Regarding Storage.

Corn Treated With Artificial Heat in Well Ventilated Rooms Gave Highest Percentage of Germination in Experiment.

Some data regarding storage, germination and resulting stand of several farmers corn scattered widely over the central section of the country may prove helpful to our readers.

The fall of the beginning of the tests was ideal in regard to ripening and curing seed corn. The average germination of the corn secured then was

A method of curing seed corn, which is too commonly practiced. The seed thus dried gives less than half the crop, since its vitality is injured by undue exposure.

76.4 per cent. It ranged from 83 per cent. for kiln dried corn to 88 per cent. for corn taken from cribs.

The following summer the section suffered a severe drought—with an early frost. Much of the crib corn mildewed. The effect on subsequent germination was very marked, the average for the next spring being only 55.5 per cent.

The lowest germination, 1 1/2 per cent., was that of corn standing in the shock during the winter. Corn cured

RAISING HORSES FOR PROFIT

Dr. Alexander Urges Home Production of Stallions to Replace Scrubs, Mongrels and Grades.

The principles to be followed by farmers in improving their horse stock are: The use of sound, pure-bred sires of a particular breed; the use of sound mares; the feeding and care of the mare and foal and the working of the stallions regularly. Dr. Alexander of the Wisconsin experiment station, further urges the home production of pure-bred stallions to replace the grades, mongrels and scrubs too often used at present.

He urged that grade horses replace scrubs in farm teams. The organization of community associations will greatly facilitate the promotion of horse-breeding, and the encouragement of the industry may be furthered by prizes at county fairs for pure-bred stallions, mares and colts.

The evil effects which result from the use of untraced sires and dams, and the transmission of hereditary diseases is especially emphasized. It

In well ventilated garrets or rooms made a good average, and corn fire-dried germinated 90 per cent.

A study of the records of many tests shows that seed corn dried with artificial heat in well ventilated rooms during the first two or three weeks after picking, gave the highest germination—an average of 91.5 per cent. for the two years. Next to this is corn cured in furnace rooms with open windows where the heat was applied immediately after bringing the corn from the field. Well ventilated rooms with more than one window gave germination of 86.5 per cent. Corn cured under porches protected from rains gave 70 per cent. Corn in barns, tool houses, etc., 69 per cent. Germination of corn kept in granaries and on windmills gave only 37.5 and 34 per cent. respectively.

In this study of seed curing much corn which was left lying in piles or standing in sacks, for even a short time after husking, was completely destroyed. The only safe way of curing seed corn is therefore to place the corn immediately after picking in a well ventilated room and apply stove or other artificial heat for from one to three weeks.

Scabies in Cattle.
The requirements relating to dips for scabies in cattle have been that the tobacco dip should contain not less than five hundredths of one per cent. of nicotine and two per cent. flowers of sulphur. Recently this order has been amended, permitting the use of the tobacco dip prepared from tobacco and suitable tobacco products, provided it contains not less than seven hundredths of one per cent. of nicotine. The tobacco dip of the new strength need not contain the sulphur.

Will Keep Hens.
A well-kept flock of hens means a steady income—enough to keep you in spending money while you are waiting for your crops to grow. That one thing is enough to recommend poultry keeping as a suitable "side line" for the boy farmer.

should be easily possible to increase the value of Wisconsin horses at least \$10 per head during the next five years, the author points out, by the use of sound stallions and mares, and

this would mean an addition of at least \$7,000,000 to the total value of horse stock of the state.

Progress in Dairying.
Real progress in dairying begins when by mental labor we have succeeded in starting the sweat on our brows.

Gathered Smiles

IN THE WRONG PLACE.

An East Ninth street liquor store had a very fine window display last week. There was a big model of the Niagara, done in flowers and picked out with lights, so skillfully copied that it attracted a great deal of attention. This decoration occupied one window; the window opposite was filled with bottled goods.

A sailor came up from the pier Friday and looked approvingly at the floral model.

"That's pretty well done," he said to the proprietor. "The riggin' is right, an' the lights is right, an' the spars has the proper slant. You got just one mistake."

"What's that?"
"The life preservers is in the wrong winder."—Cleveland Plain Dealer.

As Interpreted Nowadays.
Mr. Dorkins, going home early in the afternoon, found his wife overhauling the icebox and cleaning up the pantry.

"What are you doing, Maria?" he asked.

"Following Solomon's advice," she said, "even if it is addressed to the sluggard. I have gone to the ant, considered her ways—and I'm wise to the fact that she's a nuisance, a calamity and a pest!—I am going to clean her out!"

Sneezing as the red pepper in the atmosphere filled his nostrils, Mr. Dorkins turned and fled.

BROKEN.

Visitor—Has your son Siram got any good out of a college education?
Farmer—You bet he has. Before he went I never could get him to do any chores around the farm. But after them hazers got hold of him he got so tame he'll do anything you tell him.

Something Else to Think About.
She used to call poor hubby up Ten times a day and ask him how he did, but that was years ago—Bridg parties keep her busy now.

Echoes of the Reunion.
"I met one thousand veterans at Gettysburg who claimed to have fired the first shot."
"They may all be correct. The first fire was a fusillade."

Too Much Ball.
"Why did you move away from Chicago?"
"The doctor advised my husband to move to some town with only one team to worry about."

The Iron Enters His Soul.
Mostly Wraggs—Hello, ole pal! Leavin' town? Wot fur?
Wareham Long (with concentrated bitterness)—I'm helpin' t' keep the city clean!

Progressive Consolation.
Smith—Brown has owed me \$50 for the last four years.
Jones—That isn't so bad. If you'll figure it, you'll see it's only a dollar a month; and when he owes it to you eight years it will be only 50 cents a month.—Fuck.

Passing It On.
"I'm not one of these fellows who kisses and tells," said the summer man.
"Oh, I don't mind your mentioning it to any nice friend of yours who are coming down to the beach," said the summer girl.

Maybe It Hurts Him.
"You haven't any grievance against Griggs, have you?"
"Oh, none in particular, except that he always does me a favor with a pained expression."

Looked Like Swatting.
Patience—What are those men doing over there?
Patrice—Playing tennis.
"Oh, are they? I thought they were swatting flies!"

HE'D HEARD HIM.

The Magistrate—Little boy, do you understand the nature of an oath?
Little Boy (a witness)—Oh! yes, sir. I've heard my papa use them often.

Just Sulted.
Her name was Caprice, And nobody blamed her, But her parents were wise On the day that they named her!

A Prudent Press Agent.
"You say your star has precious stones reputed to be worth a quarter of a million?"
"Yes."
"Do you know how much they are actually worth?"
"Certainly not, and I have no desire to know that. Suppose I made an investigation and learned that they were really worthless imitations, what inspiration would I have then for those glowing flights of description on which my reputation rests?"

Great Magazine.
Bingle—What do you think of the Monthly Magazine?
Jingle—Great magazine! Fine fiction! I've just read the opening seventy pages about what it will contain during the next few months and shall get right at the following seventy pages about what it already has this month.—Judge.

Common Gratitude.
"Wouldn't you like t' help kidnap ole Muntoburn an' give 'im a coat o' tar an' feathers?" growled Ruffon Wratz.
"I sh'd say not," responded Saymold Storey. "He don't owe me nothin'; I've traveled mor'n 10,000 miles on his railroads an' never paid 'im a blamed cent!"

HE KNEW.

Little Harry—Say, pop, what's a confidence man?
Pop—He is a man who separates others from their money and their confidence at the same time.

Drawing the Line.
Although my heart is tender And crush a bug I wouldn't, I could not love a cockroach—I simply couldn't!

Out of All Reason.
"I want you to write me a musical comedy."
"Very well."
"But it must have no naval officer in it."
"What's the use of being foolish? You can't have a musical comedy without a naval officer."

Cause and Effect.
Boreleigh—I called on Miss Back-Bays this afternoon.
Miss Keen—So did I.
Boreleigh—She was looking very tired.
Miss Keen—Yes; she said you had just called.

At the Hotel.
"What's the matter with that fellow? He looks as sour as a lemon."
"He is sour."
"What about?"
"His suite."

DIZZY, HEADACHY, SICK, "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box. Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months. Adv.

Colonel Osborne of Kentucky Credited With Witty Speech That Might Be Criticized.

Col. Thomas D. Osborne, who resigned from the board of managers, to become secretary of the hospital commission, allowed a remark to escape him for which the good Baptists of this city may take him to task.

Colonel Osborne is an ex-Confederate. He is also an ardent Baptist. Both come close to his heart.

A friend stopped Colonel Osborne and inquired whether he was going to the Confederate reunion at Chattanooga.

"I am sorry I cannot," said Colonel Osborne. "Gen. Bennett H. Young is urging me to attend the reunion to meet my old comrades because I may never see them again. But I have a Baptist convention to attend just at the time the reunion will be held. I told General Young I was sure to meet all Confederates in heaven, but I must meet my Baptist friends while I can."—Louisville Masonic Home Journal.

He Had Not.

"Perhaps he realizes that his would not make a very imposing procession."—Buffalo Express.

The Similarity.
"An author can sympathize with a criminal."
"In what way?"
"Both have to work out their sentences."

Teaching Agriculture and Domestic Economy

County Schools of Agriculture a Very Important Factor in the Education and Development of the Young People

By A. A. JOHNSON

Students Removing Stumps With Dynamite.

PROBABLY no movement in education has received as much attention in the past few years as has that which pertains to the practical phases of farming and home making. The importance of this movement can easily be seen when consideration is given to the decreasing fertility of agricultural lands in the United States during the last twenty years, and the relative decrease in farming population. From recent investigations it was found that probably 60,000,000 people live in cities and 31,000,000 remain on the farm, when only a few years ago the bulk of the population resided in the farming districts.

Formerly when free land was abundant and the soil fertile, little difficulty was experienced in the growing of crops. At that time, also, practically all the food and much of the clothing used by the farmer and his family were produced in the home, the homes themselves being built from trees in the neighboring forests. Now these conditions have changed materially. Most of the industries have been taken away from the farms and are now found in factories throughout the United States. And while these changes show advancement, and this advancement is to be welcomed, at the same time it has taken away from

idly vanishing in the rural homes of America. Wisconsin was the first state in the Union to organize a county school of agriculture and domestic economy. The early history of secondary agricultural education in Wisconsin dates back to 1899, when the state legislature appointed a commission to "investigate and report upon the methods

submitted to the governor of Wisconsin, January, 1901. The report covered the work done in secondary agricultural education in the various states of the Union, also different countries in Europe. At the conclusion of this report, Dr. Harvey, the commissioner, recommended that, through legislative enactment, authority be given the county boards of supervisors to establish and maintain schools, to be known as county schools, for instruction in agriculture and domestic economy, and that state aid be given to these schools when organized and established on a basis to be approved by state authority.

He also recommended a course of study that he considered most suitable for these schools. The legislature of 1901 passed a law embodying the recommendations of Dr. Harvey, and permitted the establishment of two schools. This law has since been amended to permit the establishment of ten schools. These schools are free

to inhabitants of the county, who are qualified to pursue the course of study, provided they shall have at least the qualifications required for completion of the course of study for common schools.

Secondary agricultural education is largely adapted to the conditions found in the counties where such schools are located. Special efforts are made to furnish additional opportunities for schooling to the 94 out of every 100 rural and urban school children who would otherwise finish their education with the common schools. These county schools are, strictly speaking, agricultural trade schools and have for their sole object the educating of the farmers' boys and girls who do not wish to take up an extensive college course, but who are anxious to get that form of training which will be most useful to them when they take charge of the home farm or the farm home. The school is made the educational center of the community, and the farmers are free to call upon it for assistance in any line of work pertaining to farming and home making.

ERUPTION SPREAD ON FACE

810 East Elm St., Streator, Ill.—"A running sore broke out above my right eye, which spread over my entire face. It started as a small pimple. I scratched it open and the contents of this small pimple ran down my face. Wherever this ran a new sore appeared. They itched and burned terribly; I couldn't touch my face it burned so. It disfigured my face terribly and I couldn't be seen for everyone was afraid of it. It looked like a disease of some kind; it was all red and a heavy white crust on it. Everybody kept out of my way, afraid it would spread. I lost rest at night and I couldn't bear to have anything touch my face, not even the pillow. I had to lie on the back of the head. I was always glad when morning came so I could get up. It was extremely painful.

Along With the Rail.

A dorky named Dick was known as a notorious thief, so much so, in fact that all the thefts in the neighborhood were charged to him. Finally one man had all his turkeys stolen and he had Dick arrested.

"You stole Mr. King's turkeys?" asked the judge.

"Well," said Dick slowly, "I'll tell you, sir, I didn't steal dem turkeys, but last night I went 'cross Mr. King's pasture and saw one of my rails on de fence, so I jes' brought it home, and confound it, when I come to look, dar was nine turkeys settin' on de rail."—National Food Magazine.

INDIGESTION, GAS OR BAD STOMACH

Time! Pape's Diapepsin ends all Stomach misery in five minutes.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dypseptic, jot this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get jappy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food. Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or bad stomach. Adv.

Not Quite.

"We ran across an old friend the other day when we were out."
"I suppose he was glad to see you?"
"Well, he was unconscious when we got him from under the car."

THREE WOMEN TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Streator, Ill.—"I shall always praise Lydia E. Pinkham's Vegetable Compound wherever I go. It has done me so much good at Change of Life, and it has also helped my daughter. It is one of the grandest medicines for women that can be bought. I shall try to induce others to try it."—Mrs. J. H. CAMPBELL, 206 N. Second St., W. S., Streator, Illinois.

Philadelphia, Pa.—"It was at the 'Change of Life' that I turned to Lydia E. Pinkham's Vegetable Compound, using it as a tonic to build up my system, with beneficial results."—Mrs. SARA HAYWARD, 1825 W. Venango St., (Tioga) Phila., Pa.

San Francisco, Cal.—"I have taken Lydia E. Pinkham's Vegetable Compound for many years whenever I would feel bad. I have gone through the Change of Life without any troubles and thank the Compound for it. I recommend it to young girls and to women of all ages."—Mrs. C. BARRIE, 3052 25th St., San Francisco, Cal.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Aptly Described.
"That's a fine, imposing building over there."
"Right you are! And it contains a fine, imposing judge. It's the police court."

Quite True.
"Mrs. Clobber boasts that she was high born."
"So she was. The top of a tenement."

Corroborative Detail.
"Isn't he a 'fly' kind of a fellow?"
"Well, he's bought an umbrella."—Baltimore American.
