SPECIAL TALK TO CHILDREN

The Safety First man has been busy again and this time he has been specializing with the safety of the children who live along the right-of-ways of the El Paso and Southwestern system. A little booklet entitled Harry Hop the Train has been distributed in Carrizozo by C. Walker Hyde, who is a strong advocate of the principals of Safety First, among the children telling of the injury of a little child while playing near a train. The story is plainly told in simple English with illustrations and shows that the safety expert Edward L. Tinker knows how to reach the little ones. Besides the distribution of these pamphlets a set of large life photographs are being displayed in the window of A. C. Wingfield's market, which have been arranged by Mr. Hyde and which attracts the eye and is doing much good toward impressing the essentials of "Safety First." The children are also given a little slip of paper which reads: PLEASE TAKE THIS HOME AND GIVE IT TO YOUR PARENTS.

If you are a mother or father of any children, it is important for you to know that 25,000 children in the United States have been killed, killed, maimed, crippled and injured during the last twenty years—enough to make a milepost for every mile in a trip round the world—by playing around the tracks and trains of railroads. Every town and village has some child without an arm or leg, or a little grave in the cemetery, of some child killed while hopping the cars. If you don't want to lose one of your children or have them suffer the dreadful affliction of losing an arm or leg you will keep your child ren away from the railroad and trains. Grown up people also run a danger from trespassing on the tracks of railroads, as the following figures will show. During the last twenty years, in the United States, 86,733 trespassers were killed 94,646 trespassers were injured.

181,379 Total trespassers killed and injured on the railroads of this country.

Divided as follows:— 25,000 young people under 18 years old, residing in the vicinity of the accident, many of them under 10 years old. 36,276 tramps and hoboes. 120,103 citizens of the locality in which the accident occurred, mostly wage earners.

Why not agitate for the passage and enforcement of a trespass law which will prevent this carnage? It would cost the public less to enforce such laws, than it does to pick up and bury the dead and care for cripples.

Follow these few simple suggestions and you may save yourself a fatal or serious accident.

- 1 Never walk along the track.
 - 2 If you must cross the track always STOP, LOOK and LISTEN.
 - 3 Never steal a ride on a freight train in order to get home sooner, for if you do you may arrive home—but on a stretcher.
 - 4 Never crawl under a freight car or over the couplings when a train blocks the crossing. Play safe and wait.
- All of which is in accordance with the great Safety First Campaign now being waged by the Southwestern System under direction of their Supervisor Edward L. Tinker.

BOHLING-TINNON

A beautiful Home wedding was witnessed at the residence of Mrs. Rebecca Tinnon in this city Tuesday evening at 8 o'clock. The contracting parties being Mr. William G. Bohling and Miss Myrtle O. Tinnon. The ceremony was performed by Rev. J. W. Campbell, pastor of the Methodist church.

After the marriage an elegant supper was served. Those present were Mr. and Mrs. Clay Vanscoyck of White Oaks, Mr. and Mrs. P. E. Lacy, of Carrizozo and members of the brides' family.

Mr. Bohling is an employe of the E. P. & S. W. Ry., and has been a resident of Carrizozo for about a year. He is regarded as one of the efficient men of the service, is a young man of fine character and is very popular in this community.

Mrs. Bohling is a native of Lincoln county, and the daughter of Mr. and Mrs. D. N. Tinnon. She is well known, having filled the position of saleslady with the firm of Ziegler Bros. of Carrizozo, and is considered one of Carrizozo's most popular young ladies.

Mr. and Mrs. Bohling left yesterday for Vincennes, Indiana, where they will visit for several weeks, and upon their return will be at home to their friends on East Alamogordo avenue.

The Outlook extends hearty congratulations.

SPECIAL SESSION POSSIBLE

It is rumored by those who have been in close touch with affairs at Santa Fe there is a very good chance of a Special Session of Legislature being called. If the Supreme Court holds that the New Tax law is particularly invalid, which it may soon, then Gov. McDonald will probably call such a session. As to whether the Governor will include the matter of County Officers Salaries in such a call or not is a matter of much conjecture. The Road law is also causing trouble throughout the state owing to the conflict of authority between County Commissioners and Road Commissioners:

WHITE OAKS 3; STANTON 7

Last Sunday witnessed another interesting baseball contest between the White Oaks team and the Fort Stanton team at the Fort Stanton park. The teams which have been playing evenly matched contests hitherto repeated the same performance Sunday and the game was more or less a pitcher's battle between Hightower and Gallacher. There were no runs tallied up to the fifth inning and it is said White Oaks lost the contest by a series of errors. The final score was Fort Stanton 7 White Oaks 3

—Mr. Link representing the Pauly Jail Co., who have the contract for the new cells in the court house and also for the removing of the cells from Lincoln to here, has been busy for the past week and is about through with his task. The prisoners will arrive from Lincoln on Saturday and will hereafter be incarcerated in the Carrizozo bastille. About seven loads of steel arrived from Lincoln yesterday and today. The prisoners will be the first inhabitants of the new Carrizozo county headquarters.

LINCOLN COUNTY NOTES

News of week from Around Lincoln County Briefly Told

WHITE OAKS WHIFFS

Judge Hewitt has so far recovered as to enable him to move back to his own home and take his rations with a fork instead of a spoon.

The fun at the dance here on Saturday night must have been fast and furious from the jarring and jingle in the atmosphere until a late hour in the morning.

Charlie Spence and wife, with Miss Nicholas took a pleasure trip to the north end of the Capitans last Sunday and luxuriated during the day among the posies and growing vegetables at the Mocho ranch.

The Whiffs' news wizard tried to witch out an item or two in reference to the White Oaks—Stanton game of baseball last Sunday, but no one in the town appears to know anything about it, so the inference is that those loads and loads of automobile people, who left here early in the morning went over on the Bonito to fish for suckers and caught a string of crabs.

The first nickle of the vintage of 1913, commonly known as the "buffalo nickle," made its first appearance here a few days ago. Probably the reason for this delay was the fact that there was no buffalo waller up here in the hills as a work of art the coin is "unlike." No other contrivance just like it was ever seen with naked eye, or a hobbled eye either for that matter. The beast appears to be pawing up the earth at a great rate and has just uncovered a bar bearing the legend "five cents," though the quadruped looks as if it might have many more cents than that nestling around it. Its rump is being tickled by a sort of dissected E. Pluribus Unum, with a condensed United States hanging like a fly swatter over it. In order to get the animal on the coin they have humped its back so that it looks considerably buffaloes itself. Its tail is about the size of an embroiderly needle and they have given it an extra twist or two to get it inside of the rim of the piece and even then it has locked horns with the rim on the opposite side. But then it is modern art and we will have to accept it for a nickle.

PASONS PICKINGS

Marvin Carnett was the guest of Miles Grafton Sunday.

J. O. Nabours of Three Rivers made a business trip to this neighborhood recently.

Buck Jennings and Leatef Greer attended the preaching services at Nogal Sunday.

Richard Copeland has been employed by Mr. Grafton to help him with his fall work.

Little Margaret Grafton who has been ill for the past week is able to be out again.

James Robinson has returned from the Indian reservation where he has been working in a saw mill.

Messrs. James Escue and Luther Jennings have gone to Palomas Springs on a health seeking trip.

A party of Texas people are camping on South Fork. Before returning they will explore the heights of Sierra Blanca.

Miss Harriet Kimbell who has visited the Rice family for the past week has returned to her home in Carrizozo.

A. T. Anderson went to Carrizozo on business the first of the week and Mrs. Scott is staying with Mrs. Anderson during her husband's absence.

DEATH OF MRS. NOONKESTER

Mrs. I. J. Noonkester died at the residence in Carrizozo Tuesday, August 12, aged 49 years.

The funeral services were conducted by Rev. J. W. Campbell at the Methodist church Wednesday afternoon at 2:30 o'clock. After which the remains were interred in Carrizozo cemetery.

Mrs. Noonkester's maiden name was Vanheim and she was a native of Illinois. She was married 26 years ago and was the mother of ten children, five of whom are dead. The living children are Mrs. Ola Crofford, of Arizona, James, May, Marguerite and Johnnie, all of Carrizozo.

Mrs. Noonkester had been a great sufferer for twenty-six years from epilepsy.

The bereaved husband and children have the sympathy of the entire community in their loss of wife and mother, and from her godly life they have the assurance that her soul is now at rest free from the sufferings incident to this life.

COL. SELLERS HERE

Colonel D. K. B. Sellers, mayor of Albuquerque, was in Carrizozo Sunday on his way to El Paso. The Col. is making the trip in his new "32" Hupmobile runabout, recently presented to him by the people of Albuquerque, and was accompanied by his wife. The object of the mayor's trip to the Pass city was to make final arrangements for an automobile event which is to be a feature of the state fair which will be held in Albuquerque in October. The event will not be a speed test but a run to test the reliability of cars, according to the mayor's story, and every car owner in the Sunshine state is allowed, and urged to enter the contest, for which there will be no entrance fees. The reliability contest is to start at El Paso and end at Albuquerque. Cups will be offered by the New Mexico Fair association for the owners in the various classes. The first car to reach Albuquerque may not by any means be the winner of first place, because of repairs necessary en route, but the car totalling the highest score.

—It is expected that the clerk's office will open here in a few days in the court house. County Clerk Harvey spent Saturday and Sunday in Lincoln checking up records preparatory to moving them here.

—S. C. Skidmore and Co., perpetrated what they termed a "show" on the unsuspecting public here on Thursday evening and the only part of the said entertainment that was high class was the price. But the public just seem to like to get "stung."

—C. E. Brown, of Fort Stanton, and well known here came down from the Fort yesterday accompanied by his sister-in-law, who has been a guest at the Fort for a few days. He will accompany her to Chicago where she expects to spend about a month before returning.

—Carrizozo will send its baseball team out on a two days trip commencing Saturday when they will meet the Capitan team at Capitan and the following day go on to Fort Stanton where they will play that team. Both contests promise to be very interesting as the teams heretofore have been very evenly matched.

—The Great Westgard, president of the All Southern auto route, will pass thru the county over the Roldosa road at the end of this week. A number of autos from this county expect to pilot him thru the mountains and mention may be made of the Optional route via Lincoln, Capitan and Carrizozo.

—H. B. Hamilton, District attorney, has returned from Santa Fe where he represented the counties of this district in matters before the State Equalization Board.

—Miss Mallie Cavender who has been visiting with her sister, Mrs. A. B. Hamilton, for several weeks, left Wednesday for her home in Indio, California.

—Mr. and Mrs. John E. Bell, Misses Nell Coomes and Callie Doering, Messrs. Ed. T. Kelley and Otis Clark spent a pleasant day in the mountains Sunday.

—Messrs. Faucett and Hill of Roswell were visitors here on Monday, they were on their return trip after a tour of the State. Mr. Faucett being a representative of the K. P. Lodge and Mr. Hill of the Odd Fellows.

—At 7:30, Thursday night, August 21st, Rev. H. Haywood, of Carrizozo, will preach at White Oaks, filling his regular appointment. Mrs. Haywood will be present to sing. Let all who possibly can come to the services.

—Dr. R. E. Blaney returned Thursday and has established himself in his new office above the Bank. The Doctor will be located here permanently and will be joined by his wife, who has been in the east for two months, in a short time. Mrs. Blaney will have charge of the primary grades of the local school this year.

—Carrizozo lodge, No. 30; I. O. O. F., will go to Capitan tomorrow evening where they will confer the initiatory degree of Odd Fellowship on candidates for the Capitan lodge. A chicken supper and a general good time has been arranged for and our boys are anticipating a jolly time. Among those who will attend are Wm. Barnett, By Anderson, Allen Johnson, Dr. Robt. T. Lucas, A. J. Rolland, Miles B. Foreman, R. F. Morris, A. B. Hamilton, Alexander Adams, Calvin Carl, Wm. Kahler, Jr., J. B. Dinwiddie and C. W. Bruton.

—Oscar N. Rowden, Mrs. T. J. Rowden, Mrs. Jane N. Putnam, and C. A. Flower each filed on 320 acres of land before A. H. Harvey this week. The land selected is near Polly and south of this place. Quite a settlement is springing up at this point and we understand that a store and probably a postoffice is to be established there.

SOMETHING AT THE LITTLE ONES

DEFINITION OF TRUE FRIEND

Trials Alliance of the Three Great Powers, Love, Sympathy and Help—Other Versions.

The first person who comes in when the whole world has gone out.

A bank of credit on which we can draw supplies of confidence, counsel, sympathy, help and love.

One who combines for you alike the pleasures and benefits of society and solitude.

A jewel whose luster the strong acids of poverty and misfortune cannot dim.

One who multiplies joy, divine griefs, and whose honesty is inviolable.

One who loves the truth and you and will tell the truth in spite of you.

The triple alliance of the three great powers, Love, Sympathy and Help.

A watch which beats true for all time and never runs down.

A permanent fortification when one's affairs are in a state of siege.

One who to himself is true, and therefore must be so to you.

A balancing pole to him who walks across the tight rope of life.

The link in life's long chain that bears the greatest strain.

A harbor of refuge from the stormy waves of adversity.

One who considers my need before my deservings.

The jewel that shines brightest in the darkness.

A stimulant to the nobler side of our nature.

A volume of sympathy bound in cloth.

A diamond in the ring of acquaintance.

A star of hope in the cloud of adversity.

right order so as to show what they are supposed to advertise?

When properly arranged the signs of the sandwich men read as follows: "Big Show Tonight."

About Finger Nails.

A white mark on the nail bespeaks misfortune.

Pale or lead colored nails indicate melancholy people.

People with narrow nails are ambitious and quarrelsome.

Broad nails indicate a gentle, timid, and bashful nature.

Lovers of knowledge and liberal sentiment have round nails.

Small nails indicate a lack of mind, obsequy, and conceit.

Choleric, martial men, delighting in war, have red and spotted nails.

People with very pale nails are subject to much infirmity of the head, and persecution by neighbors and friends.

Who Said It?

Edward Coke, the English jurist, was of the opinion that "A man's house is his castle."

"When Greek joins Greek, then is the tug of war," was written by Nathaniel Lee in 1642.

"Variety is the spice of life," and "Not much the worse for wear," were coined by Cowper.

Edward Young tells us, "Death loves a shining mask," and "A fool at forty is a fool indeed."

"Of two evils, I have chosen the less," and "The end must justify the means," are from Matthew Prior.

A Memorial Performance.

TWO CLOCKS START IN RACE

Puzzle Is to Find Out Whether Time-keeper of Grandfather Started Ahead of the Alarm.

Yesterday morning two clocks started a race. The alarm clock went so fast that it gained one minute an hour, while grandfather's clock ran so slow that it lost two minutes an hour. The picture shows the alarm clock to be one hour ahead at the finish. But who can tell the hour when the race started?

Grandfather's clock lost two minutes every hour and the alarm clock gained one minute every hour, so it is evident that the alarm clock in every hour's time gained three minutes upon the other.

Therefore, in twenty hours it gained sixty minutes and from the picture

Clock Race Puzzle.

we saw that the race must have been on for twenty hours.

During the twenty hours the alarm clock gained twenty minutes upon correct time. Twenty hours previous to twenty minutes of 3 is eleven hours and forty minutes, or twenty minutes of 12 in the morning of the day before—the time when the race started.

HIGHEST AND LOWEST POINTS

Mount Whitney is 14,501 Feet Above Level of Sea—Point in Death Valley is 276 Below.

The maximum difference in elevation of land in the United States is 14,777 feet, according to the United States geological survey. Mount Whitney, the highest point, 14,501 feet above sea level, and a point in Death Valley is 276 feet below sea level. These two points, which are both in California, are less than 90 miles apart. This difference is small, however, as compared with the figures for Asia. Mount Everest rises 29,002 feet above sea level, whereas the shores of the Dead sea are 1,290 feet below sea level, a total difference in land heights of 30,292 feet. Mount Everest has never been climbed.

The greatest ocean depth yet found is 35,685 feet, at a point about 40 miles north of the island of Mindanao, in the Philippine island. The ocean bottom at this point is therefore more than 11 1/2 miles below the summit of Mount Everest.

The difference in the land heights in Europe is about 15,868 feet.

OLD SPELLING SCHOOL TRICK

One of the Most Interesting and Puzzling of Deceptions Which Can Be Done With Cards.

The "old spelling school" trick is one of the most interesting and baffling of the many which can be done with cards. All the cards in any suit are required for the trick, which consists in "stacking" the thirteen cards in such a manner that when held in the hand, face down, and changing a card from top to bottom, with each letter spelling the number or name of the card, the one desired will come out in regular order. One comes first, then two, and so on to jack, queen, king.

In placing the cards in position the fourth from the top of the pack as held in the hand, face down, must be the ace, one; the eighth, the two spot. Who can tell how to arrange the remaining eleven cards so that, placing a card at bottom for each letter, three, four, five, up to the king, come out? It will be noted fifty-two letters are required to spell the numbers and names of all the cards in a suit.

RIDDLES.

Why are real friends like ghosts? They are often heard of, but seldom seen.

When is a sick man a contradiction? When he is an impatient patient.

When is coffee like the earth? When it is ground.

When is a baby like a breakfast cup? When it is a tea thing (teething).

What roof covers the most noisy tenant? The roof of the mouth.

What's the difference between an Irishman frozen to death and a Scottish Highlander on a mountain peak in January? One is kilt with the cold, the other is cold with the kilt.

DISEASE OF CABBAGE

Infected Plants Show Tendency to Wilt on Sunny Days.

Club Root is Spread From Field to Field by Being Carried on Cultivators and Feet of Horses—Rotation is Suggested.

(By H. S. REED, Virginia.)

When a field is badly infected with disease it may appear at the seedling stage, as a dwarfing of the young plants, but the fields are not usually badly enough infected the first season to manifest the disease until the cabbage is half grown. In districts where the disease has just begun to get a foothold, the grower is not likely to notice any trouble, therefore, until after the first of July. At about that time it will be noticed that the plants which are being infected show a tendency to wilt on bright sunny days, although at night they may recover and do not wilt on the following day unless it is again bright and warm. Such plants may succeed in making enough growth to produce a salable cabbage, although it is somewhat undersized and slightly loose. The earlier the plant is infected with the disease, the smaller is the head produced.

The agent, responsible for the club root disease is an organism belonging to the lowest orders of plant life, which lives as a parasite upon the roots of cabbage and related plants, like cauliflower, rutabagas, flat turnips, mustard, etc. As the plant and its parasite reaches maturity the latter ceases active growth and begins the formation of spores which are capable of retaining their vitality through the winter and propagating the disease. The decay of the cabbage root accomplished by bacteria and other forms of life, sets free these spores in the soil, and there they remain until the following spring, when conditions are again favorable for growth, these spores germinate, giving rise to an active organism which is capable of again infecting a plant. In this way

A Well-Developed Case of Club Root.

the cause of the disease perpetuates itself in the soil and each year injures the cabbage which is planted there.

The disease is spread from field to field by being carried on cultivators and the feet of horses, soil erosion, and by throwing diseased cabbages to stock on pasture. Guard carefully against introducing any material into a field which may carry the germs of the club root from diseased fields, and especially against diseased soil and diseased cabbage plants.

Practice crop rotations which will allow at least three years between crops of cabbage, rutabagas or turnips. Apply stable manure to the crop which precedes cabbage, but not to the cabbage crop. If acid phosphate is used the same rule would hold.

PLAN TO SAVE THE HAY CROP

Farmers Cannot Afford to Allow Valuable Alfalfa and Clover to Be Ruined by Showers.

Many farmers will be aggravated by frequent showers during alfalfa and clover haying. What are you going to do about it? Are you going to let hay worth to you as feed from \$5 to \$15 per ton be spoiled by rain?

One cannot always wait for the weather to get settled. In many localities it does not settle till after haying is over. Overripe hay is very little good. It must be cut in season, regardless of the weather. We suggest that you get a hundred hay caps for the field and some stack covers if you stack outdoors. The caps will not cost very much and if cared for will last many years. Then you can cover the hay cocks and let them cure longer than you would care if they were left exposed to rain.

We've got to look more carefully to saving what we grow, as well as growing larger crops, and this is a step in that direction.

HOOK IS HANDY FOR HARVEST

Almost Any Tough Wood Limb Will Answer Purpose—Hook Should Not Stand Out Straight.

(By J. WESLEY GRIFFIN.)
For 20 or more years, I have hung the bridges and hatters on a hook similar to the one described in this article. It was made of an elm limb. The limb was two feet long and the prong that formed the hook was about 1 1/2 inches long. The main part of the limb was split through the center in such a position as to make the side prong set at right angles with the

Handy Hook for Harness.

post that it was nailed to. Almost any tough wood limb will answer, but that of the basswood, poplar, chestnut or any variety that splits easily, should be avoided.

In selecting the limbs, see that the prong does not set up at too great a degree, nor should it stand too straight out from the main limb. In the first instance, there is not the room sufficient and the weight of a set of harness will be likely to split off the hook, on the other hand where the hook stands out too straight it will eventually give down, especially where the weight comes on it near the outer end.

MANNER OF PRESERVING EGGS

Solution of Salt, Air-Baked Lime and Water Will Be Found Satisfactory and Profitable.

(By MRS. J. C. BARCLAY.)

One cup of coarse salt, one cup of air-baked lime, five quarts of water. Mix thoroughly and let stand 24 hours, pouring off the liquid into a clean jar. Into this drop fresh eggs, which in country communities at certain seasons of the year can be bought in any quantity as low as 12 1/2 to 15 cents a dozen.

These are not packed eggs nor cold storage eggs. They can be used at once, and will be good for months if kept covered by the liquid. I have used eggs that had been so preserved over a year. They are good for any purpose—to fry, poach, in baking or custards, though violent boiling in the shell sometimes causes the shell to crack. When cooked with gentle heat at back of stove the shell does not crack.

When eggs on the market are soaring in price a good return can be realized on this investment.

Handling Little Chicks.

If the chicks feel hot and steamy in the brooder given them more ventilation or if you have a fireless brooder, less cover. A person learns to handle the little chicks the same as he does a great many other things, by experience.

Profit From Dairy.

Do not imagine that the profits of the dairy business depends entirely upon the creamery, and not upon the farm or farmer. The dairy must be right before the creamery must be the money.

Plan in Advance.

Everything on the farm cannot be run with the precision of clock work, but the bulk of the work should be planned in advance, making allowances for changes, which may become necessary. Keep your ideas ahead of the muscle.

A Hint to the Bride.

Choose your bridesmaid for her figure and carriage, rather than for her face alone. A girl who carries herself well and walks gracefully has the requisites for success in that trying walk up the aisle that is not possessed by her of the pretty face alone.

Makes Horses Stale.

Horses that are allowed to go to their stalls at night covered with grime and sweat and are sent to the field next morning without a thorough cleaning will soon go stale.

Paint is Satisfactory.

Neatly painted buildings afford more satisfaction to their owner than almost any way that a small amount of money can be spent. Two coats of paint should last seven years.

The regular monthly estimate of Supervising Architect, Otto H. Goetz, on Court House and Jail Buildings at Carrizozo, was examined and approved and warrants were ordered drawn on the Court House Fund, as follows:

Ben Bechtel, contractor, \$1135.60
 Otto Goetz, architect, 36.43

In the matter of the Report of the Road Viewers, A. J. Rolland, Leo B. Chase and R. E. P. Warden, appointed at the July meeting of this Board to view a road from Carrizozo to Corona. The report of said Viewers, together with the log and map attached, filed and after due consideration by this Board the Report is accepted and approved, and the said road is ordered established as a county road. The general routing of said road is as follows: Commencing at the Carrizozo Experimental Farm, thence running along the west side of the E. P. & S. W. R. R. right-of-way to a point 33.5 miles Northeast along said road, where said road crosses the said right-of-way of the E. P. & S. W. R. R. thence along the east side of said railroad in a straight line to town of Corona and more particularly described in said report and log as filed. The Board refers the said report, log and map as filed to the Road Commission of this county for their action in the construction of the said road, and further recommends that work be commenced on said road immediately.

In the matter of a census of San Patricio precinct, the Board hereby appoints Leopoldo Gonzales to take a full and complete census of the Precinct of San Patricio and report the same to the next regular meeting of this board.

The Financial Statement of Lincoln County for the year of 1912 was examined and approved by the Board.

A FEW LEAVES FROM A DIARY OF A STOMACH
 (of a young lady)

10 a. m. Oh, dear! another warm day. Wonder if I'll be abused as I was yesterday. If I am, I'm going to strike. Just disposed of a half chewed breakfast. We ran for the train, which meant I was so jiggled about and so tired that it took me twice as long to do my work. Hope she gives me an hour or two of complete rest before anything more comes my way.

10:30 a. m. Two glasses of ice water have just arrived. It will take all the energy I can jump up in the next hour to warm me up to normal again.

10:50 a. m. Half-chewed breakfast did not satisfy her and she bought some peanuts and started eating them.

12 a. m. Peanuts have dribbled along steadily ever since last entry. Think she has finished them, though.

12:20 p. m. Decided she wasn't very hungry and instead of a good solid dinner, sent me down a cold eggnog, heavy with chocolate. Could have managed it all right if it hadn't been so cold, but that makes it terribly hard to deal with.

1:40 p. m. More ice water.

1:40 p. m. Was mistaken about the peanuts. She found another handful in the bottom of the bag, and now I have them to tend to.

2:05 p. m. More ice water.

3:10 p. m. She has been lifting some heavy books, and, as usual, used my muscles, instead of her arm muscles, as she should have done. Tired me more than digesting a six-course dinner.

3:20 p. m. Some one has brought us a box of caramels and she has started on that.

4:30 p. m. Have received something like half a pound of caramels since last entry. She just said: "Oh, dear, I don't feel a bit well. I know the milk in that eggnog must have been sour."

6:30 p. m. We played a set of tennis before dinner, and here I am all tired out and a dinner to handle.
 6:50 p. m. We were invited out to have a soda before going home. Had a lemon phosphate and then ran for the train.

7 p. m. Fried potatoes, cucumbers, veal and canned blueberries. What do you know about that?

7:45 p. m. We are going down for a chocolate walnut college ice, rich with cream.

8:20 p. m. Got home and found someone had made some lemonade. She drank two glasses. That on top of the college ice settles it. I strike.

8:30 p. m. Have sent back the college ice and lemonade.

8:40 p. m. Returned the blueberries.

8:50 p. m. And the veal.

9:10 p. m. She has spent for the doctor. Says that college ice must have had something the matter with it. Her mother says it is probably the weak stomach she inherited from her father.

9:30 p. m. Doctor says it is just a little upset, due to the weather. Good night.

LINCOLN COUNTY NOTES

OSCURO OBSERVING

Mrs. John Boyd and daughter, Mrs. William Loughrey and baby have been spending several days visiting friends in Carrizozo.

Mrs. and Miss Young have been the guests of Mrs. and Dr. Ranniger this week and will spend next week at the Calfee ranch.

Mrs. Burns and Mrs. Grey entertained at the home of Mrs. E. G. Raffety this week in honor of Mrs. and Miss Young who will leave soon. The social was a very enjoyable affair.

The dance given by Mr. and Mrs. Joe Ashford last Saturday evening was very well attended by out of town people as well as the home folk and was a very successful affair. Refreshments were served during the evening and a fine lunch was served at midnight after which the dancers kept time to the music until almost dawn.

Willie McCallum suffered an accident when his horse fell over a rail this week and then against the rider, stunning him to such an extent that he was unable to clear himself from the stirrup. Dan Mayes prevented him from being dragged over 20 or 30 yards however. Dr. Ranniger is attending the patient who is located at Hotel Ashford and reports that Willie is suffering from a light concussion of the brain and spine. His father, Dr. Alex McCallum has been sent for.

CAPITAN CORESPONDENCE

Mr. P. G. Peters made a business trip to Lincoln and the Hondo the latter part of last week.

J. A. Scott, of the Forest Service, is now in the White mountains assisting in the Forest work in that district.

The manual training and domestic science equipment for the Lincoln County High school has been ordered and is expected in at any time.

Watt Gilmore was in from the Ruidoso the latter part of last week transacting business in Capitan. He reports poor range and dry weather.

The securing of the County High School at Capitan is attracting the attention of outsiders. We have two students coming here from neighboring counties to attend the County High School.

Mr. W. H. Purdy, of Tularosa, has been in the town the last few days beginning work on his office building. He has also been looking over the Public school building and figuring on putting in a hot air heating system. With this plant installed and a little repairing the Capitan School building will be well equipped for school this winter.

JICARILLA NOTES

Miss Collora, of El Paso, has been visiting in Jicarilla for the past week. She expects to return to El Paso on Tuesday.

A dance given at the school house Saturday night was participated in by between sixty and seventy persons. All who attended, state that the dance was a splendid success.

The work being pushed on the Sallie Dear mine more vigorously than ever. The Mill has been running spasmodically for about ten days on the Sallie ore, but the usual troubles that crop up in a reconstructed mill did not fail to make their appearance. Consequently little ore was put through because of delays created by different defects of machinery. It is expected, however, that by Monday or Tuesday of this week the mill be turned up and in perfect working order, and it is hoped there will be no occasion for stoppage or delay.

NOGAL NOTES

The infant child of Mr. and Mrs. William Hust was buried here last Sunday morning in the Nogal cemetery. The remains were laid to rest among wreaths of snow white flowers gathered in Nogal. The sympathy of the community goes out to the bereaved parents.

Services were held here last Sunday with the Rev. J. W. Campbell, of Carrizozo officiating. After the sermon a splendid dinner was served and in the afternoon a song service called by Uncle Tom Henley was had. Rev. Campbell was listened to attentively and the people here solicited him to return among them and preach often at the Henley chapel.

Our efficient County School Superintendent Mrs. Wallace L. Gumm was a welcome visitor to Nogal and to the Nogal school the past week. The first month of school has closed with much satisfaction.

POLLY PARAGRAPHS

Francis Chonte accompanied Francis Goddard from Ancho and spent a few days at Polly.

Mrs. N. C. Funk has been having cultivation done on her claim to be in readiness for summer rains.

Mrs. Goddard was at Ancho the first of the week spending a few days with friends.

The drouth here, as elsewhere, is unprecedented, but we all hope for rain soon.

Mr. Davis and son arrived Tuesday, to make a visit with the family of Mr. William Longston.

Dorothy and Rose Goddard spent a few days very pleasantly last week visiting at Ancho and the Jicarrillas.

D. L. and James Byron have been busy hauling lumber for the houses planned for the new homesteaders.

The finest rain of the season fell here Monday of this week, accompanied by overflow from the mountains, which will surely give the grass a lift, and relieve the anxious hearts of the homesteaders.

Building is going on here steadily with Wm. Longston as the foreman. He expects to erect houses for Mr. and Mrs. Flower, Mrs. Putnam, and Mrs. Rawdon, who arrived from Missouri recently, to begin residence on their claims here.

FOREST NOTES

The national forests of Chile cover about 7,000,000 acres.

The forest service of India has demonstrated that teak wood grown in plantations is just as strong as that grown in natural forests.

Even the well-protected forests of Germany are by no means immune from fire, and the Prussian fire protection system makes use of lookout towers and telephones.

Much of the so-called silk now a-days is made of wood. Germany produces more than one million pounds of this cellulose silk, worth \$1,500,000. A ton of wood worth \$10 yields cellulose worth \$20, and this cellulose yields silk worth \$850.

Army bayonets now form part of the emergency telephone outfit of forest rangers, used chiefly in fighting fires. This emergency line consists of small instruments and a coil of fine copper wire. The wire is attached to the nearest telephone line, the bayonet is thrust into moist ground at the other end and with the circuit thus completed the ranger can talk with headquarters, report his position, and summon fire fighters if necessary.

ATTORNEYS, HAVE YOUR LAWS UP TO DATE.

The New Mexico laws are of practically no use unless they are completely annotated. There has been no revision or compilation of our laws since 1897 and positively will not be until 1917. The undersigned has heretofore prepared a full and complete list of all the amendments, modifications and repeals of the laws of New Mexico, commencing with the Compiled Laws of 1897, through and including the Session Laws of 1899, 1901, 1903, 1905, 1907 and 1909, and has now just completed a full and complete list of all amendments, modifications and repeals of the Session Laws of 1912 and 1913. The entire work consists of over two thousand annotations and includes all available references to the New Mexico Reports, the Pacific Reporter and the United States Supreme Court Reports. A great deal of time and labor has been spent on these annotations and no attorney or other person having occasion to use our laws, can afford to be without a set.

This work is printed on white gummed paper, in red ink, conveniently arranged for use.

Price: Set commencing with Compiled Laws of New Mexico of 1897 down to and including laws of 1909, \$5 00.

Additional annotations for laws of 1912 and 1913, \$2.50.

Complete set, \$7.50.

BIG PARADE HANDLED BY TELEPHONE.

(Denver, Colorado, August 13)

With over 40,000 men in line General John Chase and his committee of assistants will form and direct the gigantic Knight Templar parade here almost entirely by telephone. A special central switchboard has been installed at conclave headquarters and by means of branch telephones at short intervals along the line of march the committee will be kept in direct touch with the movements and progress of the vast army of marching Knights.

Besides the host of Sir Knights who are in attendance at the conclave there are over 100,000 visitors in the city, and unusual and careful plans have been prepared for their care and comfort. Special plans have been arranged by the telephone company in anticipation of the great increase in the number of telephone calls during the conclave. For months past that company has been busy installing emergency telephones, additional switchboard facilities and training the 150 extra operators will be required to assist the regular force in handling the calls. Over 250 emergency telephones have been connected with the newspapers and hotels and information bureaus, and at various places along the streets telephones connected with the central exchange have been provided for the convenience of the visitors.

Discussing the telephone preparations for the conclave visitors, an official of The Mountain States Telephone Company said:

"Emergencies such as this require that we provide facilities far beyond our usual daily need. The present convention with its vast influx of visitors and consequent increase of telephone calls only a repetition of other conventions we have handled, and will have to handle in the future. Our plant in vestment has always been, and must always be, sufficient to take care of not only the usual daily business, but the maximum number of calls that come to our switchboards. This is true not only of Denver and other large centers but of each one of our exchanges throughout the territory. Every telephone call must be handled as a unit. The provisions in Denver during the present conclave are such that each one of the daily 200,000 calls will be handled as carefully as at any other time." The careful study and prepara-

tion to provide for the telephone needs of conventions and similar gatherings shows quite conclusively that the business of the telephone company, as well as that of other service corporations is unusual and that the difficulties which confront them are not to be judged by everyday standards.—Adv.

Someone has truly said that a man is one who does not make a sewer of his mouth, nor allows his ears to become cesspools for filth. That is, a man is a male person who carefully guards his tongue from all that is vile and vulgar, from all that would not be fit to be spoken in the presence of mother, sweetheart or wife, and who will not allow others to pour filth into his ears. The standard may be placed a trifle high, but is nevertheless one that is worth the striving to attain.

THE switch board operator who answers your telephone call has a mission in life—her mission is to serve you.

She has at her finger tips the most modern telephone equipment in the word. Quickness, accuracy and courtesy are her essential qualifications.

Frequently she is called upon to act quickly in emergencies when courage and presence of mind are required.

It is as essential to good telephone service that each Bell Telephone operator should be healthy and happy as it is that every part of the equipment of that great intercommunicating system should be in good working order.

In the Bell system, 70,000 operators make connections which furnish clear tracks for 26,000,000 telephone talks each day.

LEGAL NOTICES

NOTICE OF PUBLICATION

Department of the Interior,
United States Land Office,
Roswell, New Mexico,

July 25, 1915.

To Ervin O. Gamet, of Toronto, Canada,
Contestee:

You are hereby notified that Mark M. Duke, who gives Carrizozo, New Mexico, as his post office address, did on June 11, 1913, file in this office his duly corroborated application to contest and secure the cancellation of your Homestead, Entry No. Serial No. made Jan. 25, 1908, for SE1 Section 13, Township 25 S., Range 10 E., N. M. P. Meridian and as grounds for his contest he alleges that Ervin O. Gamet, has wholly abandoned said above-described land and claim, and has been absent therefrom for more than two years last past and is not now residing within the United States;

You are, therefore, further notified that the said allegations will be taken by this office as having been confessed by you, and your said entry will be canceled thereunder without your further right to be heard therein, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically meeting and responding to these allegations of contest, or if you fail within that time to file in this office due proof that you have served a copy of your answer on the said contestant either in person or by registered mail. If this service is made by the delivery of your answer to the contestant in person, proof of such service must be either the said contestant's written acknowledgment of his receipt of the copy, showing the date of his receipt, or the affidavit of the person by whom the delivery was made stating when and where the copy was delivered; if made by registered mail, proof of such service must consist of the affidavit of the person by whom the copy was mailed stating when and the post office to which it was mailed, and this affidavit must be accompanied by the postmaster's receipt for the letter.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.

CARRIZOZO TRADING COMPANY

CARRIZOZO NOTES

"The Outlook is always pleased to receive news of the local people and greatly appreciates items called to our attention. Call 24, drop into office."

—Mrs. J. F. Kimbell and Mrs. F. L. Elliott spent a few days in Tucumcari the guest of friends.

—Leonard Corwin has returned to Carrizozo after spending a few days in Osceuro with his mother.

—School for Carrizozo will open on Monday the 5th of September, a large attendance is anticipated this year.

—Mr. and Mrs. John Rice of Parsons came down Sunday and left Monday for Denver where they will visit relatives for a short time.

—Mrs. Ed. Massie has returned after a several weeks' visit with friends and relatives at her former home in Kentucky.

—Mrs. E. G. Rafferty and daughter Mrs. Chas. F. Gray were up from Osceuro on Wednesday visiting friends and shopping.

—Henry Lutz came down from Lincoln Tuesday in his Velie and went on out to his Mal Pais ranch where his son is working horses.

—Vegetables from the Carrizozo Experimental Farm have been put on sale in the local stores. Not so bad, huh?

—Mrs. William Loughrey and baby of Osceuro visited friends here for several days returning to Osceuro on Tuesday.

—Misses Ruth Edmiston and Carrie Roberts are spending a few weeks on the Bonita with their grandmother Mrs. Alice Roberts.

—J. F. Kimbell shop superintendent and A. V. Sweatengin, night yard master, returned this week, Monday, from Tucumcari where they attended the Safety First meeting as representatives of Carrizozo railroad men.

—The rain of Sunday and Monday was very welcome to Carrizozo, other parts of the county have also received relief this week, we are informed. The rain not only freshened vegetation up but also improved the spirits of the townsmen; besides making the road work in the town a success; the surface of the roads now being hard and as soon as the rindering is completed Carrizozo will have the best set of streets of any town of its size in the state.

—The strains of band practice can be heard almost nightly and from the sounds heard we predict that it will be but a short time before the Carrizozo Band will be appearing for entertainments and concerts for the public.

—We should have stated last week that Mrs. John E. Bell's sister, Miss Nell Coomes is visiting her from Evansville, Indiana. Mrs. Bell will return to Evansville with her sister for medical treatment or an operation.

—The ladies of the Home Mission Society of the Carrizozo Methodist Church held their regular monthly meeting at the Church last week. Beginning with September, the Society will hold two meetings each month, on the first and third Wednesdays. The first meeting in September will be held at the home of the President, Mrs. Squires. At the Wednesday meeting, a contract was let to Mr. Doering for the painting of the parsonage. Work has commenced on same.

—Ralph Ely of Deming was a visitor in town on Friday last boosting for the state fair to be held this fall at Albuquerque. He is quite anxious for Lincoln county to be well represented at the fair with exhibits of fruit and other products and to send as many people as possible. Mr. Ely made some good talks on the States resources while here. The Carrizozo people assured Mr. Ely that they would make a strenuous effort to get Lincoln County exhibits at the fair and intended to gather them for the Big Fall Festival to be held at Carrizozo late in September and send them on from here.

FOR SALE—Thoroughbred Polan China pigs and Duroc Jersey pigs and three-fourths bred Poland China pigs. Month to six weeks old. For further information, write G. W. Hages, Alto, New Mexico.
