PRICE \$1.50 PER YEAR

COUNTY TO HAVE AN EXHIBIT AT STATE FAIR

County Commissioners Appropriate \$500 For The Expense of an Exhibit of County's Resources

PRESIDENT OF FAIR COMMISSION VISITS CARRIZOZO

At a special meeting of the board of county commissioners held in the court house this morning an appropriation of \$500 was made for the purpose of getting together an exhibit of the resources of Lincoln County to be displayed at the state fair in Albuquerque, to be held the week beginning October 11th.

This action was taken after the board had heard an address from R. E. Putney, of Albuquerque, president of the state fair commission. Mr. Putney arrived in Carrizozo from Roswell yesterday afternoon, accompanied by D. A. Macpherson, president of the Albuquerque Morning Journal and R. L. D. McAllister, of the editorial staff of that paper.

Before leaving Roswell yesterday morning Mr. Putney had telephoned to Carrizozo and had arranged to have the three county commissioners here today. The auto on which he came up picked up Commissioner Rinaldo A. Duran and Commissioner W. M. Ferguson. Chairman Melvin Franks arrived on No. 1 this morning.

In addressing the board Mr. Putney explained that he was not asking a cent for the state fair commission and that he couldn't take money from Lincoln County if he wanted to. What he did want, he said, was to be assured that Lincoln County would be properly represented at the fair. Heretofore, he declared, county exhibits at the state fair have been promised and the promises promptly forgotten. This time it was proposed to see that an appropriation was made by every county in the state, the money to be spent by local committees in those counties, so as to be sure that the exhibits are made.

Mr. Putney declared that Lincoln County should come forward with one of the best exhibits of any county in New Mexico. He spoke of the wonderful mineral resources of the county, its fine apple crop and the fine showing that could be made in livestock and agricultural products. This, he said, is to be the first real state fair that New Mexico has ever had, because it is to be the first one based on the development of the agricultural resources of every county in the state.

Mr. Putney stated that the fair is to be no cheap exhibition of the snake-eater and the sword-swallower, but that the spectacular features that go with every successful fair had not been overlooked.

An entire squadron of cavalry from the United States garrison at Columbus, with a mounted band of 32 pieces and two polo teams, will be at the fair—something that will not be seen at any other fair in

the United States. This feature was obtained through Deputy Marshal J. R. Galusha, who made a special trip to Washington and obtained the order for the squadron from general Hugh Scott, chief of staff of the United States army.

The Kilties band a world-famous organization, with its bagpipes, sword dancers an special soloist, will also be at the fair and will give daily concerts. The girls band of Clovis, one of the best bands in the state, will also make the trip. A special rate from Roswell to Albuquerque of nine dollars for the round trip has been secured for the cadets of the New Mexico Military Institute and the entire battalion, 200 strong, will be in camp on the grounds during the week of the fair. The Brundage shows, one of the best known carnival organizations in the country, will furnish the carnival features for the fair.

Mr. Putney aroused his hearers to great enthusiasm over the fair and there is no doubt a large delegation from Lincoln county will go over to Albuquerque in October and that the county will be represented at the fair by one of the best exhibits on the grounds.

Messrs. Putney, McPherson and McAllister left later in the day for Alamogordo, where a similar proposition will be put before the county commissioners of Otero county.

John A. Haley was appointed chairman of the committee and is to select two other committee members.

BIRTHDAY ENTERTAINMENT

Lucile Krooner entertained a number of her little friends Tuesday afternoon, at the home of her mother, Mrs. Dot Tice, in honor of her tenth birthday. Games and music afforded the afternoon's entertainment, at the conclusion of which a delicious two course luncheon was served. The little hostess received many beautiful and useful presents, and a good time was had by all. Those present were as follows: Ruth and May Schaffier, Jennette Johnson, Herndon Reily, Fern and Marian Forrest, Nora Morse, Dora Gray, Zelma Foster, Dora Smith and Clara Adams.

CAMP MEETING AT NOGAL

A camp meeting which will last for about two weeks is to begin this evening in the town of Nogal. Rev. Claud Fourth of the above place is to do the preaching. The services will be conducted in the church, but arrangements have been made for the use of the Nogal hall in case the church building is not large enough to accommodate the crowds. This is an annual affair for the people of that section, having had camp meetings there for the past several years. A number of Carrizozo people will attend.

William Mehrman was here from the Jicarilla Tuesday. Mr. Mehrman is an old timer of this county and has spent many years in the Jicarilla district prospecting, and has obtained title to some of the most valuable mining claims in that section. While here he left us some very fine samples of gold ore.

THE STAY AT HOME DOLLAR

Is a Community Builder and Circulates Indefinitely Among The People of Your Home Town

GETS LOST WHEN SENT AWAY FROM HOME

If every dollar earned in and around Carrizozo could be put to work here and made to play its part in the future development of this community, who can predict the boom this condition would create in local business and in the up building of our progressive city?

Few people realize that the same conditions of trade which make for the prosperity or depression of our country at large, also effect to a great degree, the welfare of every city in the country.

Let the balance of trade be against us for a short period—that is, our imports exceeds the country's exports—and a depression of business follows, because capital which should be used in the expansion of our own resources is diverted into foreign channels and used for the up building of our competition.

So it is when a State, through industrial or agricultural conditions is forced to go into a neighboring market for its supplies the money earned in that State is taken from it and the people suffer thereby.

Apply this same condition to a town—Carrizozo, for example—and you find the same result.

Let Jones or any other resident see where he THINKS he can save a dollar on a \$10 purchase from some out of town concern; and what happens? This money sent away is gone from Carrizozo forever.

Jones will never see any part of it again. True, he received something in exchange, and the ten iron men will never pass his doorstep again, nor has he an earthly chance of ever getting a crack of any part of it.

Now let us see what would have happened had Jones been loyal to his friends and spent that money in Carrizozo. No sooner would it have reached the till of the local dealer before he would begin putting it in circulation in Carrizozo and in a dozen different channels: For rent, taxes, labor and clerk hire, clothing, groceries, meat and other necessities of life, to say nothing of an occasional luxury. If Jones is on the job and a producer it would be strange indeed if a part of this \$10.00 would not find its way back into his pocket in a mighty short time instead of having kissed the bill goodbye when he sent it away to fatten the bank roll of some mail order mogul who has about as much interest in the Jones' welfare as he has in the future of Carrizozo and the surrounding country which Jones looks to for his living.

A man can hold a jitney so close to his eye that he can't see a dollar behind it. When you figure on saving a dollar by sending your money away from home it is like throwing your feed to a neighbor's chickens.

Your home dealers can supply your every need and meet the prices of outside dealers. If you will look over their stocks first, not once in a dog's age will you find occasion to buy away from home.

NEW FEED STORE

J. J. Elkins of Boulder, Colo., who was through Carrizozo a few weeks ago looking up a location for a coal and feed store, stopped here between trains Monday on his return trip. Mr. Elkins says he has looked over several places up and down the line since leaving Boulder some two months ago, but is more favorably impressed with Carrizozo than any town he has visited. Mr. Elkins has been engaged in the feed and coal business in the states of Kansas, Missouri and Colorado for the past fifteen years. He will return here this fall and erect a two story brick on Alamogordo Ave, in which he will conduct a coal and feed store, and feed yard.

BUYING A LARGE LINE

Oscar Bamberger, manager of the Carrizozo Trading Company, who left for the eastern markets a few weeks ago to buy the fall and winter line of goods for his firm, will arrive home the first of next week. Mr. Bamberger is now at the Chicago market and is buying one of the largest lines the Trading Company has ever carried in stock. The buying of a new line by this firm is always an item of interest to the people of this vicinity, their stock always being replete with the latest and most up to date goods. The new line will begin to arrive in a short while.

STOLEN HORSES RECOVERED

The two horses which were stolen sometime ago from S. H. Nickels at his ranch a few miles east of this city, were recovered a few days ago about 150 miles northeast of here in Guadalupe county. The animals were in such poor condition when found that Mr. Nickels was obliged to leave them, and it will be several weeks before they will be able to make the trip home.

REBATE FOR FORD OWNERS

Local Ford owners who have bought their cars since August 1, 1914, will share in the distribution of approximately \$15000,000, which the company promised on condition that 300,000 cars were sold during the year. This mark has been reached and each purchaser will receive a refund of between \$50 and \$60.

SOME CHOICE FRUIT

The Outlook this week received some very fine apples from Samuel Wells of White Oaks, grown on his "White Oaks Springs Fruit Farm" near that place. The apples are of the yellow transparent kind and have a most delicious flavor and are among the most choice fruit we have seen New Mexico produce.

Robert Stidham and family will leave this afternoon for a visit of several weeks with Mr. Stidham's mother at Commerce, Texas.

Mr. and Mrs. O. J. Nye are the proud parents of a baby girl which made its appearance Sunday morning.

SAYS DEMOCRATIC PARTY INCOMPETENT

Prominent Democratic Senator of Mississippi, Tells United States Senate of the Short Comings of Party

"WAR TAX" COLLECTIONS MAY HAVE TO BE REFUNDED

That the Democratic party is incompetent is the statement made by Senator John Sharp Williams of Mississippi in an address to the United States Senate.

"The poor, dear, old foolish Democratic party is going through the same game that she can be generally trusted to go through," said Williams to his Democratic colleagues. "You cannot govern the country. You are incompetent."

Some measure of that incompetency has been referred to hitherto in stories pointing out specific errors in the tariff bill due to inexcusable blundering. Mistakes in more recent articles. A brief resume of these mistakes is given herewith, to be followed later by instances of other faulty Democratic legislation.

No. 8. The provisions enacted by the Democratic Congress to build up the American merchant marine utterly failed to achieve its purpose, and conferred the proposed benefit instead upon competing vessels of other countries, giving to foreigners the profits from high freight rates, according to the decision of the Court of Customs Appeals in the five per cent rebate case.

No. 9. The Democratic Congress blundered in enacting the law to provide the greater safety and comfort at sea for passengers and seamen by naming two conflicting dates for the time it should take effect.

No. 10. The "war tax" law was inaccurately drawn; was not based upon correct estimates and failed to provide the money needed; necessitated expensive litigation, and adequate preparation for its enforcement was not made, causing great delay, annoyance and confusion.

No. 11. The executive branch of the Democratic administration is at war with the legislative branch, and has asked the Supreme Court to declare inoperative the law allowing a five per cent reduction in the tariff on goods imported in American bottoms.

No. 12. The most vital error a legislative body can make was incorporated in the "war tax" law, Congress having given two conflicting dates as to the time Schedule B should begin to operate.

No. 13. Congress invited litigation over Schedule B of the "war tax" law by failing to clearly express the meaning of the provision to tax "cosmetics," and the matter is now in the courts.

No. 14. Thousands of dollars collected from trust companies under the "war tax" law may have to be refunded because Congress failed to make clear whether or not they are subject to the tax, a question that has been taken to the courts for determination.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite, and everyone thought I would not live."

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

The Patriot.

Sir Thomas Lipton said at a provisioners' banquet in London:

"All the blame for high prices is put on us dealers. You'd think the way we come people talk, that we dealers were as false in our patriotism as the chap who was sending his sugar the other day with his errand boy's help."

"The errand boy, lifting a scoopful of sand, asked:

"The usual proportion, sir?"

"No, Joseph, of course not; the boss replied sternly. 'The usual proportion in days like these? Joseph, whose's your patriotism?'"

"Then he sighed and added:

"Only half the usual proportion of sand, Joseph—only half the usual proportion as long as our gallant troops at the front have such need of sand-bag."

Quite in Season.

Ello (plaintively)—Why do you keep after me so much?

It (mercely)—What's your name?

Ello (weakly)—May.

It—I thought so. I have to follow you. I'm August.

The casualty list reaching Ottawa, Ontario, one day recently included the names of 40 officers.

BUILT A MONUMENT The Best Sort in the World.

"A monument built by and from Postum," is the way an Illinois man describes himself. He says:

"For years I was a coffee drinker until at last I became a terrible sufferer from dyspepsia, constipation, headaches and indigestion."

"The different kinds of medicine I tried did not cure me, and finally some one told me to leave off coffee and take up Postum. I was fortunate in having the Postum made strictly according to directions on the pkg., so that from the start I liked it."

"Gradually my condition changed. The old troubles disappeared and I began to feel well again. My appetite became good and I could digest food. Now I am restored to strength and health, can sleep sound all night and awake with a fresh and rested body."

"I am really a monument built by Postum, for I was a physical wreck, distressed in body and mind, and am now a strong, healthy man. I know exactly what made the change; it was leaving off coffee and using Postum."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkg.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and with cream and sugar, makes a delicious beverage instantly. 25c and 50c tins.

Both kinds are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

WHY DINING CAR CHEFS PREFER

KC BAKING POWDER

Those who have had cakes ruined by jarring the stove, slamming the oven door or a heavy footstep, may have wondered how the dining car chef can turn out such marvelous biscuits, hot breads and pastry when his oven is being incessantly jarred and jolted and shaken by the motion of the train.

To get pastry to raise and stay raised under these conditions, a baking powder must be used that continues to give off its leavening gas—that sustains the raise—until the dough is baked through.

Dining Car Chefs have found a baking powder exactly suited to their needs in KC and you will find it just as well suited to your requirements. KC is really a blend of two baking powders, one active as soon as moistened, the other requiring both moisture and heat to start the generation of leavening gas. Neither how moist and rich you make your cake, KC Baking Powder will sustain the raise until a crust is formed and all danger of falling is past.

KC Baking Powder is pure and healthful. It is guaranteed under all pure food laws, and is guaranteed to please you. And it is sold at a reasonable price—no baking powder should sell for more.

Try it out at our risk and be convinced.

One cannot help going through deep waters sometime in their life, but usually it is within one's power to whether those waters shall be muddy or clear.

A wonderful word is clover. From the end you have the happiest of mankind—Take away the end and there remains a bud that sweetens the breath and keeps the peace in countless homes where the masters frequent clubs.

There is something inconsistent in parents who hold up their hands in horror over the present war in Europe and the civil strife in Mexico giving their children toy pistols and guns to play with and shoot down imaginary enemies.

It is a mistake to think of life as an unending round of hardship and temptation. Such teaching but discourages and breeds discontent. To be sure, there are many evil things in life that have to be met and overcome, but life is also full of inspiration to the one who looks at it aright. This is something that young people should always keep in mind, put the emphasis upon it and keep a sharp lookout and use the many and splendid opportunities that lie before every healthy ambitious and clean living young man and woman.

Bills have been introduced in the New York legislature providing for the parole of all prisoners who have not been convicted of murder. Such bills are an indication of the mercy and of the appeal to honor that now characterizes the treatment of prisoners, and in the main such a policy is justified by the results. But it is to be hoped that men convicted for white slavery may be put in the same class as those convicted for murder in the first degree, for their crime is just as bad if not worse.

The following, taken from an exchange, is meant for parents to read: Vacation time is not a time for boys to idle who are large enough to attend school. He should be given the freedom that boyhood requires, of course, but not unrestricted license. He deserves more than that at the hands of his parents responsible for his bringing up. Give the boy something to keep him busy, even though it is a very small task. Let him feel that each day during his season of recreation something is expected of him. Give him a larger idea of his own importance and fit more nearly into line with what the school during the longer period of the year, is trying to do for him. Over indulgence is no more wholesome for a child than for an adult. Of course the child is not the one to find this out and fortify himself against it. That is the duty of the parent.

BROOKLYN TABERNACLE

BIBLE STUDY ON "WE ARE UNPROFITABLE SERVANTS."

Luke 17:1-10—May 24.
"He that ploweth, let him glory in the Lord."
—1 Corinthians 1:31.

TODAY'S lesson is in four sections, each apparently distinct and separate. Nevertheless, they manifest the Wisdom from Above. We shall consider them in their order.

Our Influence Upon Others.
The word offenses signifies stumblings, ensnarements. Jesus' consecrated followers are called little ones, because they are New Creatures, started in the way of full consecration to God's will. However, there should be growth in grace, knowledge, love, strength of character should be attained, which would be not only wise, strong, difficult to ensnare, but able also to assist others less developed.

The dangers of ensnarement exist because Satan has the majority of mankind more or less under his influence—blinded by error, superstition, sin, etc. "The god of this world has blinded the minds of them that believe not." (2 Corinthians 4:4.) That Jesus did not refer to infants is manifest from the words, "One of these little ones which believe in Me."—Matt. 18:6. Jesus would not unjustly condemn anybody for ignorantly or unintentionally offending His followers. We must suppose that He meant to caution those who would deliberately attempt to deceive, entrap, discourage, His little ones. We have all heard of deliberate, intelligent plotting against the Lord's followers. To whatever extent this may prevail, it has indicated the satanic spirit.

One drowned in the sea would lose merely his present life. During the Millennium, after he had been awakened from the death sleep, he would have full opportunity for recovery from sin and death. But those who intelligently persecute Jesus' followers so degrade themselves morally that it will be much more difficult for them to come into accord with the New Dispensation. —Whoever sins against knowledge endangers his opportunities for life everlasting.

Stumbling Stones.
New Dispensation. —Whoever sins against knowledge endangers his opportunities for life everlasting.

A Forgiving Spirit Necessary.
Verses 3 and 4 are apparently a part of the discourse recorded in Matthew 18:15-22. The lesson is for Jesus' followers, not the world, as shown by the injunction that, if necessary, the matter come before the Church. The basis of the argument is that all need Divine mercy, because all are imperfect; and that to assist us to cultivate this grace, the Lord has arranged that His blessings shall be dependent upon our endeavor to exercise this Godlike quality.

It seems strange that our forefathers and ourselves were so deceived by what St. Paul styles "doctrines of devils" (1 Timothy 4:1) that once we thought of our Heavenly Father as absolutely unforgiving because His human creatures had sinned. We insisted that the wage of sin must be eternal torment. How little we understood the real character of the God of all grace, the Father of mercies!

Faith Power—Credulity Power.
A great deal which passes for faith is mere credulity. The faith commended in the Bible relates to things which God has promised. We are encouraged not to question His ability to accomplish all His good promises. Our forefathers had too much confidence in men. They swallowed the creeds of the Dark Ages; and the more absurd the proposition, the more faith they thought they had. They should have said, "Where has God declared such things?" Those who defended the creeds cried out against sober faith, branded it heresy and burned the truly faithful at the stake.

Adam Zumwalt has moved back to Nogal from Arizona.
 Mrs Alice Duggar from the Rio Bonito has moved to Nogal.
 Every house in Nogal is now occupied and campers besides. We need more houses badly.
 Newl Allen and family have returned to Nogal. He has been employed on a ranch in the cedars near Ancho.
 Camp meeting will begin here the 13th and will be conducted by the Rev Claud Fourth of the Nazarine faith

Litigation over fencing public land is the order of the day here. Verily the way of the transgressor is hard.

Many pack burros are going through Nogal to the mountains. There is quite a rush every day to the mines.

Quite a congregation assembled at the church Sunday, preaching morning and evening and Sunday school at 2 o'clock.

Draining the water out of the American mine seems to be a big job. However the Helen Ray drains at the same time.

Henry Emerson and wife went to White Oaks last week with a load of apples, apricots plums and vegetables and report a good market.

The Nogal singing class met last Sunday evening with Miss Pinkie Hust at the organ and passed a most delightful hour singing. We have some excellent talent here.

Uncle Tom Henley lost a Woster Home knife near the water tank in Carrizozo. It was a physicians knife. The finder will be rewarded by leaving it at the Outlook office.

Bender and Branum are working quite a force on their mine adjoining the celebrated American and have struck a large body of very high grade ore. It is very encouraging. They have spared no expense in sinking on their mine and have been fully rewarded. An annual assessment does not get down deep enough in this camp to reach the precious metal. This camp is coming to the front again and to stay

SUBSCRIBERS NOTICE

Since taking charge of the Outlook we have mailed out several hundred dollars worth of statements to those who were indebted \$1.50 or more, and those whose subscription had expired we mailed statements to them for the advance subscription now due. Some have remitted, but the majority have remained as silent as the seven spirits. We kindly ask every one indebted to us to send in their remittance at once. It seems a little unfair for us to pay interest to keep our business going when we have due us in amounts from \$1.50 up, enough to pay all we owe. In fact we cannot understand why a subscription to a newspaper should be the last obligation considered, when most of those indebted are able to pay promptly. A payment now will be appreciated.

THE NEWSPAPER

"The billboards don't tell a story any more," said an old circus manager recently. "They were good when they were a novelty, and for what matter have uses yet, because there are exceptions to every rule, and a rule that won't bend will break."

"The newspapers create an atmosphere. You get right close to a man, and with his pocket and home. It's like being introduced to some one and taking him out to lunch to get better acquainted."

"In the circus world we have to get immediate results from our advertising. In most places we play only a day. It is too late to tell people what a good show we had after we have left town. There was a time when billboards told them this because the circus was practically alone in the field of great pictorial displays, but now says everything on the billboards is circused, so we lose our punch. Hundreds of men read the papers now where one read twenty or thirty years ago. They look to the newspapers to entertain, to instruct, to advise and direct. Births, deaths, marriages, prize fights, weather predictions, sermons, Wall street reports, near philosophy, the latest music for the turkey trot. Where do you go to find it? Just in the columns of the daily papers, of course, and I don't think I was wrong when I figured out that ninety per cent. of the people would look in the same place for information regarding the coming of the circus."

object to the term "advertising expense." Right advertising is not an expense and never was. It is an investment, a business, endowment policy, which almost from the start can be made to pay its own premiums and a large profit, besides accumulating a fund that guarantees the advertiser every dollar of his investment.—"George Dyer."

Don't Time to Impersonate Public. The more men who a Chicago writer "the down" the summer months, the more the public can be accounted for the heated atmosphere. They are a fatal view of the future, a fatal view of the future, a fatal view of the future. The...

of a period of the... afford such an opportunity to do the heated... "of the... in an comfortable spots, feeling that... to be an active part, turn to reading matter for a means of enjoyment, recreation and time passing. "In such a time, when business cares are laid aside temporarily, the mind is in the most receptive mood of any period of the year. Impressions made by reading are strongest and strong, pungent advertising forces itself on the attention in a way to fix the impressions gained, indelibly on the mind."

BANKERS URGED TO CO-OPERATE WITH FARMERS

By Peter Hadford.

One of the greatest opportunities in the business life of the nation lies in practical co-operation of the country banks with the farmer in building agriculture and the adventure is laden with greater possibilities than any forward movement now before the American public.

A few bankers have loaned money to farmers at a low rate of interest, and oftentimes without compensation, to buy blooded livestock, build silos, fertilize the land, secure better seed, hold their products for a better market price, etc. The banker in contributing toward improving the grade of livestock, the quality of the seed and the fertility of the soil, plants in the agricultural life of the community a fountain of profit, that, like Tennyson's brook, runs on and on forever. Community Progress a Bank Asset. The time was when money loaned on such a basis would severely test the sanity of the banker; such transactions would pain the directors like a blow in the face. A cashier who would dare to cast bread upon waters that did not return buttered side up in time for annual dividends would have to give way to a more capable man. This does not necessarily mean that the bankers are getting any better or that the milk of human kindness is being imbibed more freely by our financiers. It indicates that the bankers are getting wiser, becoming more able financiers and the banking industry more competent. The vision of the builder is crowding out the spirit of the pawnbroker. A light has been turned on a new world of investment and no longer is received as large return on the investment as these progressive bankers, who made loans to the country. The bankers have been a liberal city builders, but they are now building agriculture.

A Collar With a Soul. It is refreshing in this strenuous commercial life to find so many dollars with souls. When a dollar is approached to perform a task that does not directly yield the highest rate of interest we usually hear the rustle of the dollar's wings as it soars upward, when a dollar is requested to return at the option of the borrower, it usually appeals to the Goddess of Liberty for its contractual rights; when a dollar is asked to expand in volume to suit the requirements of industry, it usually talks solemnly of its redeemer, but soul material has entered into the vaults of our banks and rate, time and volume have a new basis of reckoning in so far as the ability of some of the bankers permit them to co-operate in promoting the business of farming.

God Almighty's Noblemen. These bankers are God Almighty's noblemen. Heaven lent earth the spirit of these men and the angels will help them roll in place the cornerstones of empires. They are not philanthropists; they are wise bankers. The spirit of the builder has given them a new vision, and wisdom has visited upon them business foresight.

OUR PUBLIC FORUM

V.—E. P. Ripley On Relations of Railroads and People

The industrial leaders of this nation are talking to the public face to face through the columns of this paper. The time was when if a corporation had anything to say to the people they sent a hired hand, whispered it through a lawyer or employed a lobbyist to explain it to the legislature, but the men who know and the men who do are now talking over the fence to the man who plows.

When the leading business men of this nation get "back to the soil" with their problems, strife and dissension will disappear, for when men look into each other's faces and smile there is a better day coming.

Mr. E. P. Ripley, president of the Santa Fe Railroad, when asked to give his views in reference to relations existing between the railroad and the public said in part:

"Frequently we hear statements to the effect that these relations are improving, that the era of railroad hating has passed and that public sentiment now favors treating the railroads fairly. As yet this change in public sentiment, if any such there be, is not effective in results."

It is true that in the legislatures of the southwestern states during the past winter there were fewer unreasonable and unreasoning laws passed than usual, but a consideration of the hostile bills introduced shows that there is still reason for much disquiet even though they were defeated by more or less of a majority.

Moreover, the idea that the railroads have been harshly treated does not seem to prevail in the offices of the State Railroad Commissions which seem to cherish a notion that their business is not to act as an arbitrator between the railroads and the people, but which proceed on the theory that the railroads are able to take care of themselves and that their duty is to act as attorney for the people even though in so doing they deny justice to the railroads. It requires no argument to demonstrate that the railroads are entitled to justice equally with other citizens and taxpayers. That they have not received it and are not receiving it is perfectly susceptible of proof. That they have practically no recourse in the courts has also been determined.

The situation therefore is that the people, through their representatives, must elect whether the services of the railroads shall be adequately compensated or not; and it requires no fortune teller or soothsayer to predict that in the long run the service will take the class that is paid for and no better.

The natural competition between the railroads and the natural desire to perform first-class service has heretofore resulted in giving the public much more than it was willing to pay for. Continuation of this will be impossible and no laws, however drastic, can long accomplish the impossible."

GERMAN ATTACK ROUSES WRATH

ORDUNA WESTWARD BOUND, WITHOUT CONTRABAND OR MUNITIONS, SHELLS WITHOUT WARNING.

22 AMERICANS ON SHIP

NOTE TO GERMANY MAY BE BRIEF AND POINTED, AS RESULT OF LATEST SEA INCIDENT.

Western Newspaper Union News Service.

New York, July 20.—The Cunard liner Orduna, bound from Liverpool to New York, with 227 passengers, including 22 Americans, was attacked without warning, it was learned on her arrival here Saturday, by a German submarine on the morning of July 9.

Twenty miles from the graveyard of the Lusitania off Old Head Kinsale, the Orduna escaped the Lusitania's fate by one-half second of time or ten feet of space—the German torpedo churning the water that distance behind the liner's rudder.

Then the Orduna sped away. She was followed by the submarine, which rose to the surface, manned a gun on her deck and shelled the fleeing steamer. Only the escape of the Orduna prevented a repetition of the Lusitania disaster which precipitated the crisis between the United States and Germany.

The attack on the Orduna was timed at ten minutes to six o'clock in the morning when all but a few of her passengers lay sleeping in their berths.

London.—An Austro-German ultimatum to Rumania is being prepared, according to the Moscow Russkoye Slovoe.

Washington.—Into the grave situation that has developed between the United States and Germany over the sinking of the Lusitania, was thrust another issue, when it was revealed that the British steamer Orduna carrying a score of Americans, had been attacked by a German submarine.

Should first reports of an attempt to torpedo without warning be borne out by the official investigation it was indicated in official quarters that the United States probably would regard the incident as adding a grave element to the already strained relations between the two countries.

Loss of \$50,000 Caused by Hail.

Colorado Springs.—Damage estimated at \$50,000 was caused here Sunday when a heavy hail storm, sweeping east from the mountains, paralyzed street traffic, broke windows and skylights and wrecked the street lighting system of the city. The hail followed heavy rains throughout the day. So heavy was the fall that automobile tops were broken through, street cars were forced to halt and great plate glass windows in stores were demolished. Every pane of glass in many lamp posts were broken into fragments, making a loss to the electric light company of more than \$3,000. Skylights crashed in from the weight of the hail. Every greenhouse in the city was demolished.

Life Term in Georgia Prison Slashes and Seriously Wounds Man Convicted of Murder.

Milledgeville, Ga., July 19.—Leo M. Frank, whose death sentence for the murder of Mary Phagan recently was commuted to life imprisonment by Governor Slaton, was attacked by another prisoner at the state prison farm here Saturday night. His throat was cut. Prison officials said that the attack on Frank was made by William Green, who also is serving a life term for murder. The attack on Frank, which was made shortly after 11 o'clock, was made from behind and precipitated a riot. The assailant used a butcher knife. Frank's jugular vein was cut, but neither the spinal cord nor the windpipe were injured, and the doctors say he has a chance to recover. Green expresses regret for his act.

Past and Present. Secretary of Agriculture Houston said in Washington the other day: "What improvements we see in the country when we go there on our vacation! We see automobiles, telephones, player pianos, phonographs and even, among a few wealthy young farmers, biplanes."

"How different is this prosperity from the hardships of the past—from the days when a gaunt farmer would enter the general store of the district and pant, hungrily: "Gimme an egg's worth o' sugar—an' ye mout weigh out an egg's worth o' salt, too. The Plymouth Rock's a-cluckin'."

Here's a Fine Idea. "Please, ma'am," said the little girl from the next door, "mother wants to know if you will lend her your new mechanical tune player this afternoon."

"What an extraordinary idea! Is she going to give a dance?" "No, ma'am. We're tired dancing to it. She wants to keep it quiet for a couple of hours so that the baby can sleep."

Safe. "What's this I hear? Are you really going to play first base for the village baseball team next Saturday?" "That's exactly what I'm going to do."

"But man alive! You're sixty years old."

"I know, but I was afraid if I refused to play the boys would make me umpire the game."

What He Might Do. A man dropped into a cafe one afternoon and saw his Scotch friend Sandy standing at the bar indulging in "a lone one." He walked up to the bar and greeted Sandy.

"Will you have another one with me?"

"No, thank you," said Sandy, "but you can pay for this one if you will."

MAN'S SHORT TERM OF LIFE

In Comparison With Other Animals He Does Not Nearly Live Out His Allotted Time.

A rule which holds fairly true among the higher animals is that an animal lives five times as long as it requires for his muscular system to reach its full strength. The dog is fully developed at between two and three years of age, and lives fifteen years; the horse reaches his prime not later than five, and if he escapes overwork and ill usage, lives to be twenty-five and even thirty. In fact, the rule seems to be an understatement of animal expectation of life, rather than an overstatement.

The one conspicuous exception is man, who seldom reaches his full muscular strength before he is twenty-five and counts himself living on borrowed time if he passes the age of seventy. If man were as well circumstanced in this matter as the horse, dog or cat, his average term of life would vary from one hundred and ten to one hundred and twenty-five years.
