HORSE FAMINE IS PREDICTED IN U. S.

As a Result of the European War Western Breeders Predict a Horse Famine if Conflict Continues Longer

THE HORSE INDUSTRY IS BEING DEMORALIZED

A Horse famine in the United States is predicted by western breeders if the European war continues another year. In western Nebraska and South Dakota, Wyoming, Montana and Colorado are hundreds of ranches where horses have been raised for years. These range animals form the lower stratum of the horse world, altho they are hardy and fairly average height and weight they lack the breeding of the general purpose farm animals and draft horses. A year ago they brought less on the average than \$100.

It was this source of supply that the horse buyers for the European belligerents, the allies mostly, first reached. The demand speedily sent the price up to \$125 for horses suitable to haul guns, or "gunners" in the vernacular. Today they are bringing \$167 and \$200 each and there aren't enough to supply the demand.

At first a rigid inspection was enforced, and any animal that did not weigh 1,300 pounds and which was not absolutely perfect was rejected. Today any animal that gives reason to hope that it will stand the gaff is accepted and more money paid. The Italians are partly responsible for this. When their buyers entered the field they were content with smaller and lighter animals than the English and French, and as they were willing to pay just as good prices they were able to get all they wanted.

With no capital invested many buyers have been raking in profits running from \$500 to \$4000 a week. Five dollars commission for each horse accepted and the inspection bars almost to the ground have made this possible.

Scattered all thru the Middle West are horse buyers who have an accurate knowledge of just where purchasable animals are to be found. It is their business to keep posted, and it is this knowledge they are now cashing in at amazing profit.

"Another year of this great drain," says Mark W. Woods, head of the largest breeding and horse jobbing establishment in the West, "and the future of the business in this country will be seriously menaced. As long as the demand was limited to the range animals it was decidedly beneficial to the industry, for the reason that this meant a clean up of the inferior grades, which would certainly be supplanted by purchases of better animals from the breeders.

"In the last two months the price of these colts has just about doubled, and if the war keeps draining the animals from this source it is bound to demoralize the industry by taking the breed-

ing stock. This means that it will take us years to get back to the old standards. Besides it will make it a difficult task to supply mounts for our own army if we should happen to be drawn into the war. The situation is not very serious now, but it contains possibilities of a menace."—Denver News.

SAFETY FIRST MEETING

Saturday, October 10th, was the occasion of the regular monthly meeting of the Safety First department on this section of the El Paso & Southwestern. The conference was held in the reception room of the club house in Carrizozo and a large attendance of railroad men showed the intense interest which is being manifested in this important movement. Division Superintendent C. D. Beeth, who has recently been promoted to this responsible office, and who is just now performing his first month of service in this capacity, presided over the deliberation of the council and directed the study of accident prevention for the large class of trainmen assembled.

The Outlook is authorized to extend to the general public an invitation to attend these Safety First meetings as often as opportunity permits. The movement is an entirely mutual proposition and it is earnestly desired to educate the public as well as the operatives of the railway systems in care for the safety of life and limb. Although the intense interest which all railroad companies are now showing in the study of accident prevention may be accredited largely to a mercenary motive by those who doubt the genuineness of the spirit which prompts it, the fact remains that a material reduction of damage suits means a decrease in lives lost and bodies maimed; and such a record as the initiation of Safety First has been able in such a short time to attain, and the material reduction of accidents and deaths which the movement has brought about, should certainly appeal to the public at large in no uncertain terms.

MERRY GO ROUND NEXT WEEK

A ten-thousand dollar electric merry-go-round will be in Carrizozo the entire week beginning October 25th, and will be located immediately West of Ziegler Brothers general merchandises store. This modern pleasure machine has been making a decided hit with people of all ages in its home town, Tucuman, and we prophesy for the younger generation a rip roaring time whenever they can get a grip on a jitney coin, the price of the circular joy ride.

ENTERTAINS HOME MISSION

Mrs. Andrew McCurdy was hostess to about fifteen ladies of the Home Mission Society Wednesday afternoon. A missionary program was led by Mrs. R. T. Cribb and some interesting articles presented by members to whom various portions had been assigned. After the devotional services refreshments consisting of sandwiches, coffee and cake were served and a substantial free-will offering was as usual contributed at the close of the evening's proceedings.

COUNTY EXHIBIT MAKES GOOD SHOWING

The Lincoln County Exhibit Sent to the State Fair at Albuquerque was one of the Best on the Ground

MANY PRODUCTS ARE AWARDED FIRST PRIZE

Again the resources of Lincoln County have been shown to the admiring public to be not only vast in extent but full of that spice of life called variety. The exhibits of the county's products which went from here to the state fair at Albuquerque "made a hit" in every respect. Throughout the progress of the fair days the Lincoln County exhibit was the object of favorable comment and earnest inspection on the part of a continuous throng of visitors. Manager McQuillen, who was custodian of the display, had no time to visit the other attractions of the fair except "out of office hours".

Space permits only a brief comment upon each entry, and we hasten to say that Lincoln County has been shown to be an incomparable apple growing district. Our mammoth Wolf River apples took both first and second prizes, the first prize winner having been grown by L. R. Hust, of Nogal and the second prize apples of this variety were grown by Fred Pfingsten of Lincoln. Mr. Hust was also awarded second prize for winter banana apples, J. O. Nabours of Three Rivers took second prize on Stamen Winesaps and J. V. Tully won second place with his specimen of Black Bens.

In the vegetable column we note the winning of first prize, for the largest head of cabbage by Mrs. Chavez of Lincoln, Paul Bentley of Carrizozo beat the whole state in the excellence of his summer squash. Murray and Roe of San Patricio took first on Denia Onions and second on sweet potatoes. Roy Skinner's Hubbard squash took a close second. From the results of the prize awards, Lincoln County is a super-fine corn-growing region, as William Ferguson of Nogal Mesa pulled down an easy first with his Red Goose corn, some fine ears being on display. Fred Pfingsten's corn was also an eye opener, but was not admitted to consideration by the judges, because the sufficient number of ears were not on hand for display.

The White Oaks mining district was well represented with specimens of ore. The tungsten ore recently discovered in this rich mineral region was awarded second and not first only because there was no competition, this specimen being the only one forthcoming from any New Mexico mineral deposits. The gold tungsten ore was adjudged second in value, but had competitors from the Colfax County mines of northern New Mexico.

It is a safe assertion that no one county was able to display to the visiting public at the state fair such a variety of products. The vast undeveloped resources in this section baffle even the keenest imagi-

nation. With almost any kind of soil in existence, with plain and mountains surcharged with mineral and fertile valleys between, the splendid achievements of those who have to some measured tested its possibilities as a producer is but a foretaste of what the enterprize of future development is sure to bring about. The fertility of the soil and the vastness of its undeveloped possibilities extend to the soldier of fortune an irresistible beckon to a land of peace and plenty, for his efforts are sure to be rewarded in proportionate measure.

KILLED IN ARIZONA

John Williamson, for many years a resident of this section, was shot and killed in a Douglas, Arizona, rooming house about five o'clock Sunday morning. Relatives here were notified that the body would be brought to Carrizozo for interment, a number of relatives and friends met the noon train Tuesday which bore the corpse. The body was attended by Mrs. Williamson, the father of the deceased, Charles Williamson, his brother, and Mrs. Fred W. Getty, who went to Deming from Palomas Springs to join the party en route to this place. The body was taken in charge by Undertaker T. E. Kelley and prepared for burial. The funeral was conducted from the Reilly residence at five o'clock Tuesday afternoon and the remains were entered about dusk in Evergreen Cemetery. The deceased is well known in this locality, being among the old settlers, though having lately engaged in the mercantile business at Deming, and a large circle of friends and acquaintances regret his untimely demise and extend to the sorrowing relatives their sympathy and condolence in this their sad hour of bereavement.

BAPTIST PASTOR RESIGNS

Rev. O. H. Hullinger, for some months pastor of the Baptist church at this place, tendered his resignation Sunday night after the regular service. Rev. Hullinger severed his connection, he affirmed, through no misunderstanding between him and his congregation, nor any discouragement concerning the outlook for successful ministry here, but because his wife's failing health made it impossible for her to continue active work in the church as was the understanding when the pastor was recently called. After some deliberation on the part of the members, the resignation was accepted to take place immediately, but the retiring pastor thinks he knows of an available minister with all necessary qualifications as to a helpmate who will prove an able successor. We regret to see Bro. Hullinger leave us and wish him a full measure of success wherever he decides to locate for the future. He has shown himself an untiring worker and a consecrated laborer in the Master's vineyard.

EMBROIDERY CLUB MEETING

The newly organized embroidery club met Thursday with Mrs. H. S. Campbell. A most pleasant evening was spent in a variety of ways interspersed with music and terminated by delicious light refreshments. The next meeting will be with Mrs. R. T. Cribb.

DISTRICT COURT MEETS HERE OCT. 25

Regular Term of District Court for Lincoln County Will Convene in Carrizozo on Monday, Oct. 25

PETIT JURY WILL BE CALLED THURSDAY

District Court for Lincoln County will convene in Carrizozo on Monday, October 25, in regular session, Judge Edward L. Medler, presiding. The court officials will be appointed on Monday and the grand jury has been subpoenaed to appear on the same day and will start their deliberations then, while the petit jury, which has to do with the trying of cases, will be called Thursday.

Something near forty cases are to come before the grand jury for investigation, about half of this number being criminal cases.

The first three days of the session the court will take up civil matters that are to be tried without a jury, while the remainder of the term will be devoted to criminal matters.

No important criminal cases are to come up for hearing at this time, and the term will probably not last more than three weeks.

Chief Deputy John Baird has been out for a week or more summoning the panel of the two juries which are as follows:

GRAND JURY

Marciel Sambrano, F. J. Sager, Robert Forsythe, Carlos Vigil, T. P. Kirkland, Pablo Chavez, Eusebio Montoya, G. L. Dean, Francis Blanchard, Clint Colbaugh, Reyes Mirable, F. W. Verwerk, John C. Copeland, Safaman Sanchez, Antonio Vega, Octaviano Gallegos, Ray Reddy, J. F. Kimball, Jose Lopez, E. D. Hays, Ellis Richardson.

TALESMEN

R. C. Elliott, Candelario Torres, L. H. Dow, George Queen, Oscar Anderson, Henry Emerson.

PETIT JURY

C. R. Dean, Fred Hale, Julian Gill, E. F. Jones, Fedricia Montoya, Christobal Sanchez, Charles Spence, Earl Black, Pablo Miranda, Roland Box, R. D. Armstrong, Florencio Morales, F. S. Hubbert, Ben Lujan, M. C. Porter, Dan Franks, David Gallegos, A. E. Hunter, Luis Montano, Wm. Garvin, Roman Pacheco, Juan Archuleta, A. R. Duggar, John Roberts.

TALESMEN

Jesus Carrillo, James M. Simms, Ed Zeiditz, R. J. Forrest, Julian Sivia, Ernest Cole, Martin Baca, J. A. Dean.

HONORED AT GRAND LODGE

George J. Dingwall was the recipient of quite a distinction at the recent meeting of the Grand Lodge of Knights of Pythias in Albuquerque receiving the office of outer guard in the state body for the ensuing year. This is simply another case of consistent work and genuine loyalty receiving its inevitable reward of honor and we congratulate Mr. Dingwall on the recognition which the Grand Lodge has shown.

IS RECOVERING

Walter H. Smith, the young Ford mechanic who accidentally shot himself last Thursday evening, is making good progress in the line of recovery, and in event of no unforeseen complications should be soon plying his trade at the old stand.

18 DEAD, 40 HURT IN TRAIN WRECK

MOTOR LIMITED, RUNNING AT A HIGH RATE OF SPEED, FALLS THROUGH BRIDGE.

TRAILER STAYS ON RAILS

ABUTMENT WASHED AWAY BY HEAVY RAINS—CAR BURIED DEEP IN THE MUD.

Western Newspaper Union News Service. Randolph, Kan.—With eleven bodies recovered from the half-submerged passenger car of a Union Pacific motor train which went through a bridge near here Friday, estimates of the total casualties were placed at eighteen dead and two score injured. Sixty-five persons were in the car, and only four escaped unhurt when it plunged into Fancy creek and was buried deep in mud and water. Most of the dead, it was believed, were drowned, although evidence showed that several of the recovered bodies had been killed outright when the train struck the bridge abutment, weakened by a three-inch rain, and crashed through it. The train was crowded with teachers to a county convention and many of the injured were young women. There were two cars to the train but the trailer broke loose and remained standing on the track. The front end of the car demolished the abutment and one end of the bridge, and was tottering on the edge of the stream. Before many of the struggling passengers could extricate themselves and reach the doors or windows the car broke loose from the trailing baggage car and plunged downward, standing almost upright on the front end. Many clung to seats and window ledges until they were rescued. Those who had been thrown against the front of the car were last seen in a struggling mass that sank into the water. Of the two score injured in the wreck several were said by physicians to be in a grave condition.

STRUMITSA IS CAPTURED

Army From Saloniki Opens Route to Sofia—Von Mackensen Demands More Troops for Balkan Drive. London, Oct. 19.—The allied forces from Saloniki have begun operations against the Bulgarians with unexpected seal, and already the Serbo-Anglo-French forces have penetrated into Bulgarian territory, just north of the Greek boundary, and have taken the Bulgarian stronghold of Strumitsa, according to advices received from Saloniki by Reuter's Telegram Company, by way of Athens. The dispatch continues: "It is learned from diplomatic sources that Field Marshal Von Mackensen, the German commander, has demanded reinforcements." There is credible authority for the statement that King Constantine is preparing to go to Saloniki in the near future, and it is said in circles usually well informed, that Greece will abandon her attitude of neutrality as soon as the concentration of troops is completed, and army arrangements perfected. The impression prevails in Athens that Rumania also will shortly ally herself with the entente powers. British submarines operating in the Baltic sea have sunk five German transports and forced another ashore, according to a Russian official statement.

"ALL HAPPY," SAYS MRS. McADOO.

Denver.—With a smile and cheery word of personal satisfaction, Secretary of the Treasury William Gibbs McAdoo accepted a word of congratulation from Senator Charles S. Thomas concerning the new mother-in-law that will come as the result of the marriage of President Wilson to Mrs. Norman Galt, immediately following his arrival in Denver Saturday afternoon. "We are all very happy about it," said Mrs. McAdoo, who was Miss Eleanor Randolph Wilson, daughter of the President. "We are all very fond of Mrs. Galt." Then the daughter of the President drew aside with her Denver relatives. "We will be back in Washington in time for the wedding," said Mrs. McAdoo. Spaul's Ministry Decides to Resign. Behold—An Advertisement!

I came into being as the unspoken language came; slowly, gradually, and to meet an urgent need. I have been worked for evil, but mostly I have worked for good. I can still be worked for evil, but each day it grows more difficult to do.

I am at once a tool and a living force. If you use me wisely, I am a tool in your employ. If you misuse me, my double edge will injure or destroy you. If you do not use me I am a force that works ever against your accomplishment of the aims and purposes that animate your business.

I speak a thousand tongues and have a million voices. I am the ambassador of civilization, the handmaiden of science, and the father of invention. I have peopled the prairie, and with my aid commerce has laid twin trails of gleaming steel in a gridiron across the continent, and stretched a network of copper into the far corners of the globe.

I am the friend of humanity—for I have filled the commoner's life with a hundred comforts denied the king of yesterday. I have brought clean food, healthful warmth, music, convenience and comfort into a hundred million homes.

I laugh at tariffs and remake laws.

I have scaled the walls of the farmers' isolation and linked him to the world of outer interests. I build great factories and people them with happy men and women who love the labor I create. I have made merchant princes out of corner shopkeepers, and piled the wealth of a Monte Cristo into the laps of those who know my power.

I am a bridge that cancels distance and brings the whole world to your doors, ready and eager to buy your wares. I find new markets and gather the goods of the world into a handful of printed pages.

I am either the friend or the foe of Competition—so he who finds me first is both lucky and wise.

Where it cost cents to hire me yesterday, it costs quarters today and will cost dollars tomorrow. But whosoever uses me had best have sense, for I repay ignorance with loss and wisdom with the wealth of a Croesus.

I spell service, economy, abundance and opportunity, for I am the one and only universal alphabet. I live in every spoken word and printed line—in every thought that moves man to action and every deed that displays character.

Office of the Commissioner of Public Lands,
State of New Mexico.

Santa Fe, New Mexico, September 4, 1915.
Notice is hereby given that pursuant to the provisions of an Act of Congress approved June 20, 1910, the laws of the State of New Mexico, and the rules and regulations of the State Land Office, the Commissioner of Public Lands will offer at Public Sale, to the highest bidder, at 1 o'clock a. m., on Tuesday, November 23, 1915, in the town of Carrizozo, County Lincoln, State of New Mexico, in front of the court house therein, the following described tracts of land, viz:

All of Sec. 36, Twp. 10S., R. 9E., containing 640 acres. The improvements on this land consist of fencing, value \$300.00. No bids will be accepted for less than Three Dollars (\$3.00) per acre, which is the appraised value thereof, and in addition thereto the successful bidder must pay for the improvements at their appraised value. The above sale of lands will be subject to the following conditions, viz: The successful bidder must pay to the Commissioner of Public Lands, or his agent holding such sale, one-tenth of the price offered by him for the land; 4 per cent interest in advance for the balance of such purchase price; the fees for advertising and appraisal and all costs incidental to the sale herein, each and all of said amounts must be deposited in cash or certified exchange of the time of sale, and which amounts and all thereon are subject to forfeiture to the State of New Mexico if the successful bidder does not execute a contract within thirty days after it has been mailed to him by State Land Office, said contract to provide for the payment of the balances of the purchase price of said tract of land in thirty equal annual installments, with interest on all deferred payments at the rate of four per cent per annum, in advance, payment and interest due on October 1st of each year, and such other conditions, obligations, reservations and terms as may be required by law.

The Commissioner of Public Lands, or his agent holding such sale, reserves the right to reject any and all bids offered at said sale. Possession under contract of sale for the above described tract will be given within thirty days after date of sale.

Witness my hand and the official seal of the State Land Office this 14th day of September, A. D. 1915.

The readers of this paper will be pleased to learn that there is at least one graded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. WHITE OAKS

O. T. Nye was here from Carrizozo a short time Sunday.

Mr. and Mrs. Charles Spence and sister, Miss Sarah, are spending their vacation in California.

L. W. Harmon returned Sunday from Kansas City where he had been with a shipment of cattle.

Mr. and Mrs. J. B. French and children of Carrizozo spent Sunday here.

Mr. and Mrs. L. W. Stewart of Douglas, Arizona, arrived Tuesday for a short visit with relatives and friends here.

Mr. and Mrs. R. R. Sale and Miss Grace Jones motored up from Carrizozo Sunday morning and spent the day sightseeing.

Messrs. Stanton and McDonald arrived the first of the week from El Paso and are looking after mining interests here.

The moving picture show was called off Friday evening owing to the bad weather and the impassable condition of the roads.

Mr. and Mrs. Wayne Van Schoyck have gone to housekeeping in the Watson house on the east side.

Mrs. Atwood Littell entertained the members of the Womens Club last Thursday. After a short business session, a delicious three course luncheon was served.

NOGAL

Web Zumwalt and wife have moved to Tularosa.

Miss Lucy Brown of Carrizozo was a visitor Saturday and Sunday in Nogal and on the mesa.

Mrs. Gatewood made a hurry trip to the county seat Saturday on legal business.

Mrs W. L. Gumm, our county school superintendent, visited the Nogal school Friday.

Mr. Zumwalt became engaged in an altercation a few days ago which resulted in his right arm being broken and a shoulder being thrown out of joint. He is around and has a fair chance of recovery.

The mine owned by Bender and Branum which adjoins the celebrated American mine in dry gulch promises to be the banana mine of the Nogal district. A very recent assay showed two hundred ounces of silver with gold, copper and lead in abundance. The lead is now six feet wide. Col. Bender informs us that they have two cars out on the dump ready to ship to the El Paso smelter.

OSCURO

Ray Stoddard and Frank Hewitt were home to spend Sunday.

Mrs. Corwin has moved back for the winter from her summer residence at the foot of the mountains.

G. A. McGee of Carrizozo was in this week with part of a car load of milo-mais and sold it out to the settlers.

Mamie Roberts had passed the danger point in her sickness and the doctors say now she will recover.

Mr. Brooks of El Paso took a four horse load of provisions and a gang of men out this week to work on a copper claim near old Estey City.

Herman Gschwind, who was one of the boys of the county to go to the state fair, has returned. He brings back with him some vivid recollections of a good time and also a bad cold.

News has reached here that Mrs. Henry Drace, nee Maud Young, who now lives in Arizona, has given birth to a fine baby boy. "The hand that rocks the cradle is the hand that moves the world." See that the cradle is well rocked, Maud.

The big black horse belonging to Lee Chase fell into the cistern back of his residence. It happened to be one of the popular leaky kind of cisterns and had no water in it. A runaway was dug down the side and the horse got out without any damage being done.

CHICAGO PROFITS BY CLOSING SALOONS SUNDAYS

Chicago, Oct. 17.—Closing saloons in Chicago on Sunday for the first time in forty four years, resulted in the day passing with the lowest crime record known to the police department, Chief of Police Healey announced today.

Out of the 7,152 saloons in the city, only 23 were found to have violated Mayor Thompson's closing order, which became effective yesterday.

Chicago, for the most part, stayed at home. There was a marked increase, however, in theatre attendance, the "movies" doing a rushing business. Saloons in the suburban districts, where the state closing law was not enforced, received an unusually brisk trade from automobile parties.

There were only sixteen arrests made for drunkenness yesterday, and forty-seven on Saturday, as compared with 343 as the usual number of arrests for the two days.

Closing the saloons gave 20,000 saloon employes a day of rest, it was figured. Liquor interests pointed out that the saloonkeepers, collectively, lost nearly \$400,000 yesterday.

FOR SALE—Fine stock ranch. This ranch will easily handle 1000 head of cattle, is located on unsurveyed land. The ranch has one good well, plenty of good water, at a depth of 450 feet but the water has to be raised by pump 300 feet. This well of water controls all the range for several miles around, no danger of being crowded. Several other wells have been drilled on this ranch but were all abandoned at several hundred feet with no water. This ranch has a growth of gramma grass nearly all over it and is now not stocked at all, only 20 miles from the county seat of Lincoln county, New Mexico. Cash price \$4500.00—Call or write Carrizozo Outlook.

Good stock, grain, and timber ranch of 414 acres, in Douglas county, Oregon 2 1/2 miles to good town, about 100 acres in cultivation about 300 acres in timber and pasture, a yield of 60 bushels of wheat and oats are not uncommon in this locality. Fruits of nearly all kinds yield well. This place is divided into five pastures and each subdivision has a fine spring of water. The place is equiped with 3 large barns and will make a choice Dairy ranch—the barns being large and roomy so that all the dairy stock can be housed as well as all the feed stuff, and there are about 150 acres of this that is covered with virgin cedar and red wood timber and being in 2 1/2 miles of the shipping point will make the timber worth more than is asked for the entire place. In fact the 2 story 7 room house, the barns and other buildings and improvements on the place have cost as much as the place can be bought for. Price \$12000.00 Terms, 1/2 cash, balance in annual payments of \$2000.00 each, with interest of 8 per cent on deferred payments.—Stadtman & Byron

Fine ranch of 320 acres located two and one half miles from Carrizozo, N. M. 300 acres fenced with 3 wires, good well and wind mill, plenty of water, good 5 room frame house, family orchard all young trees, stock-barn and corral. This will make some one a good home in a healthy climate and at the same time they can if properly handled realize good returns on the investment, the improvements have cost as much as is asked for the place. Price \$2000, one half cash, terms on balance—Stadtman & Byron.

Good 3 room house, clean and in good shape located on lot 70 by 140 feet, good well and yard fence, in Highland addition to Carrizozo, Price \$500.00—Stadtman & Byron

**FARMER IS THE PAY-
MASTER OF INDUSTRY**

The farmer is the paymaster of industry and as such he must meet the nation's payroll. When industry pays its bill it must make a slight draft upon agriculture for the amount, which the farmer is compelled to honor without protest. This check drawn upon agriculture may travel to and fro over the highways of commerce; may build cities; girdle the globe with bands of steel; may search hidden treasures in the earth or traverse the skies, but in the end it will rest upon the soil. No dollar will remain suspended in midair; it is as certain to seek the earth's surface as an apple that falls from a tree.

When a farmer buys a plow he pays the man who mined the metal, the woodman who felled the tree, the manufacturer who assembled the raw material and shaped it into an article of usefulness, the railroad that transported it and the dealer who sold him the goods. He pays the wages of labor and capital employed in the transaction as well as pays for the tools, machinery, buildings, etc., used in the construction of the commodity and the same applies to all articles of use and diet of himself and those engaged in the subsidiary lines of industry.

There is no payroll in civilization that does not rest upon the back of the farmer. He must pay the bills—all of them.

The total value of the nation's annual agricultural products is around \$12,000,000,000, and it is safe to estimate that 95 cents on every dollar goes to meeting the expenses of subsidiary industries. The farmer does not work more than thirty minutes per day for himself; the remaining thirteen hours of the day's toll he devotes to meeting the payroll of the hired hands of agriculture, such as the manufacturer, railroad, commercial and other servants.

The Farmer's Payroll and How He Meets It.

The annual payroll of agriculture approximates \$12,000,000,000. A portion of the amount is shifted to foreign countries in exports, but the total payroll of industries working for the farmer divides substantially as follows: Railroads, \$1,252,000,000; manufacturers, \$4,285,000,000; mining, \$655,000,000; banks, \$200,000,000; mercantile \$3,500,000,000, and a heavy miscellaneous payroll constitutes the remainder.

It takes the corn crop, the most valuable in agriculture, which sold last year for \$1,692,000,000, to pay off the employees of the railroads; the money derived from our annual sales of livestock of approximately \$2,000,000,000, the yearly cotton crop, valued at \$920,000,000; the wheat crop, which is worth \$610,000,000, and the oat crop, that is worth \$440,000,000, are required to meet the annual payroll of the manufacturers. The money derived from the remaining staple crops is used in meeting the payroll of the bankers, merchants, etc. After these obligations are paid, the farmer has only a few bunches of vegetables, some fruit and poultry which he can sell and call the proceeds his own.

When the farmer pays off his help he has very little left and to meet these tremendous payrolls he has been forced to mortgage homes, work women in the field and increase the hours of his labor. We are, therefore, compelled to call upon all industries dependent upon the farmers for subsistence to retrace in their expenditures and to cut off all unnecessary expenses. This course is absolutely necessary in order to avoid a reduction in wages, and we want, if possible, to retain the present wage scale paid railroad and all other industrial employees.

We will devote this article to a discussion of unnecessary expenses and whether required by law or permitted by the managements of the concerns, is wholly immaterial.

Perfect Baking—No Germs

The first real improvement in oven construction in 50 years

Perfect baking—light—fresh—germless! No turning of pans—no dried-up roasts. The most particular baking browned evenly, top, bottom and sides in the patented fresh air oven of

Cole's Hot Blast Range

Your baking made light, fluffy and germless. The minute spaces (of the cake, bread, etc.) are filled with the fresh, pure air put in circulation by Cole's Patented Fresh Air Oven. It is the only oven that gives perfect baking.

The Powerful Circulation caused by Cole's ventilated oven equalizes the

150° differences found between the front and back oven temperatures of other ranges, and thoroughly distributes it in all parts of Cole's oven. This circulation heats every corner alike and gives perfect baking, browned evenly, top, bottom and sides.

Cole's Hot Blast range has gained an enviable reputation among good bakers—put one in your home today.

Miss Alice Roberts has returned from a visit to her son, John, at Bisbee, Arizona. She also visited a sister, Mrs. C. H. Morris, in El Paso on her return home.

Dr. and Mrs. T. W. Watson and Mr. and Mrs. S. F. Miller have returned from Albuquerque where they attended the state fair and the Grand Chapter meeting of the Eastern Star. They report having had a delightful time.

Mrs. Donaldson's music pupils gave a recital to their friends, Monday evening at the home of Mrs. J. F. Kimbell, all doing their part of the program well. An enjoyable feature of the evening were the readings given by Mrs. R. T. Lucas and Miss Nona Neal.—Con.

Wm. J. Doering, manager of the Doering Light Company located in Carrizozo with branch office in El Paso, was here the first of the week on business. He has been doing some extensive installation work in neighboring towns, the schools being the special object of his attention.

Mr. and Mrs. F. J. Sager returned this week from a motor trip to the Pecos Valley. During their absence they visited Roswell, Carlsbad, Artesia and intermediate points, making the trip in easy stages and experiencing a most delightful trip in every respect.

Miss Stella Brodowski, supervisor of the new method of penmanship recently adopted for New Mexico schools, arrived from Roswell Saturday afternoon and spent Monday in the various departments of the two Carrizozo schools.

Mr. and Mrs. Charles Pierce are again at home, Mrs. Pierce having spent the entire summer with relatives in Evansville, Indiana, Mr. Pierce going to join her for the return trip when vacation was allowed from his work in the local railway station.

J. D. Cather of Red Cloud, Nebraska arrived in Carrizozo last week to join his wife who has been in charge of the third and fourth grades in the local school since its opening in September. In company with J. B. French Mr. Cather has been investigating some ranching properties with a view to locating here, provided a suitable location is available, and we trust that he will find what he is looking for in the immediate vicinity of Carrizozo.

The Barnes Wild Animal Circus is here today in all its splendor and the youth of the land are celebrating to beat the band—although the band is a good one and are dealing out some irresistible music. The big special train arrived here about 9:30 this morning and immediately began to unload and transfer to the grounds in the upper side of the Wetmore Addition.

The next Lincoln County Sunday School Convention will be held at White Oaks about the middle of November. Rev. E. D. Raley, the New Mexico-Arizona field worker, of Phoenix will be the principal speaker, though an elaborate program including much local talent will be prepared for the principal sessions. The White Oaks people will act as hosts to the goodly number expected from Carrizozo and other outside points.

George Edwards of El Paso has arrived the past week and assumed the superintendency of the McIvers Coal Mine at Willow Springs. Work of installation of the new accessories has begun in earnest. Work is now advancing rapidly on the erection of the tipples, pumps will soon be emptying the shaft of water and the hoisting of coal will begin as soon as conditions make it possible to again operate the property. Carrizozoans will welcome the news that this matchless black diamond will soon be available for household use. We have at our doors a deposit of coal which is absolutely unrivalled, and large carload shipments will be loaded at the E. B. & S. W. spur for shipment to El Paso and other places south. The revival of this industry has afforded work to a large number of operatives and added prosperity is the inevitable result.
