FIVE PEOPLE BURN TO DEATH AT OSCURO

Home of Lorantz Olsen Burns at Oscuro and His Wife and Four Children Lose Lives in Flames

HELP ARRIVED TO LATE TO RESCUE OCCUPANTS

The wife and four children of Lorantz Olsen who resides on a homestead a mile south of Oscuro were burned to death Sunday evening when the Olsen home was destroyed by fire.

Mrs. Olsen, two daughters, eight and ten years, a four year old son and a ten months' old baby were those that perished

Frank Harvie who lives near the Olsen home was the first to discover the fire. It is said that he was awakened by the awful cries of the children and hurrying to the burning home discovered that the building was completely enveloped in flames and that the occupants had already perished.

The husband and father who is a well driller was working near here when notified of the horrible disaster which had befallen his family and left immediately for the scene.

As to the origin of the fire it is a mystery and will likely never be known. The house with all contents was burned to the ground.

The bodies of Mrs Olsen and the children were burned beyond recognition and were not recovered from the ruins until the next day.

Mr. Olsen has the sympathy of everyone in his sad hour of grief.

FOR COUNTY COMMISSIONER

In this issue appears the announcement of Fred Lalone as a candidate for the office of County Commissioner for the Third District, of Lincoln County, subject to the action of the Republican County Convention

Mr Lalone was born in this county about 38 years ago and has never known any other place as his home. He has lived most of his time in White Oaks where he was educated in the public schools of that place, but for the past twelve years has resided in Carrizozo. He is known as a good Republican and a loyal worker for the party, although he has never before asked for an office.

He has been a tax payer of the county for the past twenty years and is engaged in the stock business.

Mr. Lalone was appointed and served as a deputy sheriff of this county for a period of two years and has a large acquaintance throughout the county.

On account of his long residence in the county and his good judgment, he is a man in whom the people of Lincoln County may depend upon to look after their affairs and the proper handling of the county's finances, in case he elected to the commissionership.

INAUGURATION DAY

Inauguration day was fixed upon the 4th of March because that date seldom occured on Sunday. But three times during our history has the inauguration day fallen on Sunday. The first was the second inaugural of Monroe, March, 1821; the second was when Taylor was made president, March 4, 1849; the third was the inauaration of Hays on March 4, 1877.

This will happen three times during each century, or one year after every seven leap years. Except when passing from one century to another, there is a slight variation as will be observed in the following dates of the past and future inaugurations of the first two centuries of the republic:

March 4 1821, March 4, 1849, March 4, 1877, March 4, 1917, March 4, 1945, March 4, 1993

TOO MUCH FOR US

A man who is pretty good at handing out flattery came in the Outlook office the other day and ordered the paper and we were pleased Said it was a good paper and we were glad Said it was more than worth the money to any man of intelligence, and we were tickled Said it was the greatest booster and the most reliable town-builder and developer in this whole community, and we yelled with joy Paid for his paper, and we slid gently to the floor in blissful unconsciousness. Nature had reached its limit.

JOHN H. CANNING HERE

John Canning, a former resident and business man of this place, but who for the past few years has resided at Perris, California, came in the first of the week and will spend sometime here on business. It is said that Mr. Canning may decide to return to Carrizozo and again go into business here.

BIG GAINS IN MINES OUTPUT

The output of New Mexico mines in 1915, as reported by the United States geological survey, had a value of more than 19,000,000

The detailed figures reported by Charles W. Henderson of the Denver office of the survey, give the production as $1 461,005 in gold, 2,005,521, ounces of silver, 70,783,477 pounds of copper. 4,542,361 pounds of zinc (in terms of spelter and zinc in zinc oxide)

These figures show an increase of $289,309 in gold, 228.036 ounces of silver 17,490.441 pounds of copper, 2,768,720 pounds of zinc. The value of the metals, except silver, was higher than in 1914, the total being $19,279,368, against $11,049.932 in 1914, an increase of $9,320,436.

District Attorney H. B. Hamilton came in Sunday evening from the east side of the county. He went to Santa Fe several days ago and on his return trip came around by the Elephant Butte Dam and through Dona Ana and Otero Counties and accross to the Ruidoso. He was accompanied by the trip by his family who stopped off for a visit in Roswell.

Mr and Mrs. George Spence and daughter, Miss Grace, came in today from Nogal Canyon where they had been camping for the past several days.

DEMOCRATS UNDER A BIG HANDICAP

Democrats Are of the Opinion That the Initial Advantage in the Coming Campaign is With the Republicans

CAPABLE STATISTICIAN GIVES ELECTORIAL VOTE FIGURE

Washington, D.C July 6 (Special correspondence) —Some of the Democratic leaders are coming emphatically to the opinion that the initial advantage in this campaign lies with the Republican party.

The most capable Democratic statisticial can figure no more than 202 votes in the Electorial College which by any possibility, near or remote, can be claimad for Wilson; while the same Democratic lead pencil sets down 248 electoral votes as reasonably certain for Hughes a majority of the Electoral College is 266 votes According to these Democratic figures therefore, Wilson must win 64 votes from States which the Democrats class as doubtful, whereas Hughes needs only 18 from the same source.

The four States which the Democrats look upon as doubtful and wherein they purpose to consentrate their heavy fighting during this campaign are New York, with 45 electoral votes, Indiana with 16; New Jersey with 14; and Connecticut with seven. To elect Wilson, under these conditions, requires that he carry three of these States —and one of the three must be New York—whereas Hughes can win by carrying New York alone, or By carrying any combination of two out of the other three

In studying the problem, the figures of the two preceding Presidential elections are most interesting.

New York in 1908 gave Taft 870,000 votes. Bryan getting 567,000 In 1912 Wilson had 655,000, and the combined Taft and Roosevelt strength was 845,000

In 1908 Indiana was carried by Taft against Bryan by 348,000 to 338,000. In 1912 the Hoosier Democrats gave Wilson 281,000 votes to 313,000 polled for Taft and Roosevelt together.

New Jersey gave Bryan, in 1908, 182,000; and to Taft 265,000. Four years later Wilson received home support of 178,000 while Taft and Roosevelt together had 234,000.

Connecticut in 1908 was carried by Taft to the tune of 112 000 to 68,000. In 1912 Wilson got 74,000 Nutmeg voters on his side, while Taft and Roosevelt counted up 102,000.

In other words, in the four States which Democratic soothsayers count as "doubtful," there is only one—Connecticut—where Wilson received more votes in 1912 than Bryan had in 1908; and in not one of these four States was the combined Taft and Roosevelt vote of 1912 as great as that which Taft received alone in 1908.

That is to say, united Republicanism in 1912, while Wilson was not as good a vote getter as Bryan showed himself. To put it exactly as the figures show, Wilson was 67,000 weaker than Bryan, while there were 101,000 more men who voted for Taft in 1908 than voted for Taft and Roosevelt together in 1912.

These 101,000 Republicans who were disgusted with the international party warfare of 1912 and who refused to vote at all, will be called to the polls this year by the reunion of the Republican elements. Thus in the four States which Democrats admit to be doubtful, Mr Wilson confronts the necessity of making up the 67,000 votes which constitute the Bryan excess of 1908 as compared with the Wilson vote of 1912, and at the same time he must overcome the Republican reserve of 101,000 which is disclosed by the figures of the two elections. His handicap, therefore, is 168,000 in the race for the 81 electoral votes which these four "doubtful" States will have to give.

He can never overcome that handicap

FOR SHERIFF

In another column of this issue will be found the announcement of Henry M. Corn as a candidate for Sheriff of Lincoln County, subject to the action of the Republican party.

Mr. Corn was born in Kerr County, Texas, in 1878, where he received his education and came to New Mexico about twenty five years ago, most of this time having been spent in Lincoln County, where he has been engaged in different lines of business.

In the fall of 1911 he was induced to make the race for County Assessor and was elected by an overwhelming majority and the assessor's office has been conducted in an efficient manner during this regime of office.

He served as deputy sheriff of this county and held a similar position in Grant county several years ago and is acquainted with the duties of the sheriff's office and no man perhaps in the county has a larger acquaintance than he.

He is a son of Lee B. Corn who was a member of Capt. Robert's Texas Rangers and who spent about forty years of his life in this county, dying, a few years ago at Picacho.

In announcing his candidacy Mr. Corn made the following statement:

"If elected sheriff of Lincoln County I pledge the people of the county an absolutely honest, efficient and fearless administration of the office, without favor or partnership to any man or faction. I also pledge myself to give my entire time and all my efforts to the discharge of the duties of the office"

CHIMMIE FADDEN OUT WEST

For the production of "Chimmie Fadden Out West," which will be the attraction at the Crystal on Saturday, July 8th, the Jesse L. Lasky Company rented the entire town of Newhall, California, for two whole days This included the City Hall, Jail, Police Station, Depot, and all the principal buildings needed for the filming of this comedy. A special train carried the members of the Company to the town which they owned for the time they were there.

NEW MEXICO PROGRESSIVES FOR HUGHES

Committeemen Charles A. Spiess and Miguel A. Otero Confer on Proposition of Uniting

NEW MEXICOS' ELECTORIAL VOTE TO GO TO HUGHES

The New Mexico Progressives will unite with the Republicans in support of Charles Evans Hughes and Charles W. Fairbanks for president, according to an announcement made by Charles A. Spiess and Miguel A. Otero respectively national committeemen of the Republican and Progressive parties. The chairman held a conference in Santa Fe and arrived at the agreement, following the announcement that Roosevelt is to support the Republican candidate and Hughes' cordial endorsement of Roosevelt. "New Mexico's three electoral votes are now certain to be cast for the Republican nominee's," both chairmen announced.

BIBLE CONFERENCE

New Mexico with wonderful scenary and resources has created a Summer Assembly and Bible Conference which is destined to live and grow throughout the coming years. This Assembly has held two previous successful meetings, and through the devoted efforts of the president, Dr. C. D. Darling and those associated with him, this year promises to be a better one. A most interesting program has been arranged. Music will be a special feature. Every day will have something new in store for the hearers. Besides the platform entertainment most wholsome recreation has been provided, such as lawn tennis mountain hikes, etc. Here is an ideal place to spend your vacation. You can get tents and necessaries for camping at a nominal cost on the Assembly grounds. Try one trip to the White Mountain Assembly at Ruidoso and you will go again. From August 4th to 21st.

TUNGSTEN USES

Incandescent lamps seem to be the first successful use for this new metal. This led to the discovery of its properties as an alloy in steel Since then uses have toppled over on each other.

It is now a prime necessity in projectiles, armor plate, and machinery where tensile strength desired is very great. It is practically indispensible in high speed steel such as tools for high speed lathes Such steel holds it temper at higher temperatures than any carbon steels

In buying an auto the purchaser formerly asked, "Has it a magneto, etc.??" He has changed it to, "Is it tungsten steel?" Magnetos, car springs, pigments for paints, musical instrument strings, glazing porcelain, weighting silk all come in for tungsten

Discovery leads to discovery and invention so all tends to the conclusion that tungsten is a fixed necessity and will always demand a good price.

Even tungsten has to come in in for high-grading, according to reports. Yet the day of the two-gun bad man in mining camps is ancient history. Oldtimers are saying, "This ain't nothing like them old days."

WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?" "Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering.

It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.

Be swift in love; make haste to be kind.—Amiel.

Achy Joints Give Warning

A creaky joint often predicts rain. It may also mean that the kidneys are not filtering the poisonous uric acid from the blood. Bad backs, rheumatic pains, sore, aching joints, headaches, dizziness and urinary disorders are all effects of weak kidneys and if nothing is done, there's danger of more serious trouble. Use *Doan's Kidney Pills*, the best recommended kidney remedy.

A New Mexico Case

Henry Geier, 317 San Francisco St., Santa Fe, N. Mex., says: "I suffered intensely from pains in my back and sides, and at times I could hardly endure the misery. I had headaches, too, and my kidneys were in awful shape. Doan's Kidney Pills were just what I needed. They strengthened my kidneys, cured the backache and made me feel better in every way. They have kept me free from kidney complaint since."

The Wheat Yield Tells the Story

160 ACRE FARMS IN WESTERN CANADA FREE

of Western Canada's Rapid Progress

The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions.

The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, upwards of four and a quarter million bushels being exported in less than six weeks, and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.

Yields as high as 60 bushels of wheat per acre are reported from all parts of the country; while yields of 45 bushels per acre are common.

Thousands of American farmers have taken part in this wonderful production. Land prices are still low and free homestead lands are easily secured in good localities, convenient to churches, schools, markets, railways, etc.

There is no war tax on land and no conscription.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Genesis 33:1-15—April 20.

"Be ye kind one to another, tender-hearted, forgiving each other, even as God also in Christ forgave you."—Ephesians 4:32, R. V.

IN a previous lesson we saw that Jacob left his earthly inheritance to Esau, claiming only the great Abrahamic Promise. That Promise was in respect to the future, and was purely of faith. All Jacob's course in life was governed by that Promise. If the Seed of Blessing was to come through him, then he must have children. Hence he married and reared a goodly family, regarding them as identified with himself in the Promise. His accumulation of flocks and herds was along the same line.

"Jacob Prayed"

About twenty years after Jacob had left home, he returned, under the Lord's guidance, with his flocks, herds and servants, to the land of his father. Naturally, he felt a timidity respecting Esau, and prayed to the Lord upon the subject, reminding Him of the Promise in which he trusted. Then he sent word to Esau that he was coming. Next he prepared a gift of considerable value for those times—sheep, goats, camels, cattle and asses.

This gift represented long years of toil on Jacob's part. These earthly things, however, Jacob valued as nothing compared with the great Abrahamic Covenant. He could give this goodly portion of earthly mammon to purchase Esau's good will, although he was under no obligations to his brother. He had purchased the first-born portion, which included the major portion of Isaac's worldly riches. Jacob had left these in Esau's hands. The latter might suspect that Jacob was coming to claim his inheritance.

Had Jacob laid no claim to the estate, Esau would have judged him according to his own standards, and also trusted that at an opportune moment Jacob would attack him. Thus a feud would have been established between the two families. This would have interfered with Jacob's hopes in connection with the Covenant.

Jacob insisted upon Esau's acceptance of the present. It would stand as a pledge of good faith between them. Esau would all the more willingly see Jacob's prosperity; for he realized that he had gotten the better of his brother, first by getting the patrimony, and secondly, by receiving so rich a present. Evidently Jacob's course was wise. He still had plenty, and God could give him more. His chief concern would be the Abrahamic Promise, the fulfilment of which lay beyond the present life.

The Lesson of Generosity.

One lesson which we as Christians may draw from Jacob's course is that of generosity toward the world—those who have no interest in Heavenly promises. As Jacob was willing to set aside all earthly rights and privileges in favor of the Abrahamic Promise, so the Spiritual Heirs should do likewise.

As Jacob left his father's house, leaving all to his brother without contention, trusting only to the Heavenly Promise, so must we Spiritual Israelites forsake all earthly hopes, to obtain joint-heirship with Christ in the Messianic Kingdom. As Jacob gladly gave presents to Esau for the sake of peace in carrying out God's arrangements under this Promise, so we as Christians should willingly give to our partners in life, our neighbors, friends and brethren, the larger share of earth's good things, if thereby we may forward the Lord's Cause in connection with the Abrahamic Promise, in which we trust.

Mankind have their hearts set upon earthly good things—they know nothing higher. Christians, on the contrary, appreciate Heavenly things, esteeming earthly things as unworthy of comparison.

SOUTH NOW PROTECTIVE

Nothing more signally displays the South's new business ascendancy than its bold turn to protection

For in America economic history protection and business well-being long have been coincident The South now recognizes that the war has operated as the highest kind of a protective tariff, says Richard H. Edmonds, editor of the Manufacturers Record Also, he says, Southerners realize that but for this protective providence, the section would have suffered one of the worst industrial depressions it ever has known.

The South is not alone in enjoyment of that providential escape. War orders have been but part of the prop to business activity threatened by the thwarted Wilson Congressional programme. The highest protective wall that ever enclosed the great American market has done more to save the situation. Not only does the country at large know this, but Wilson himself gives the fact covert recognition in his commission project ostensibly to take the tariff out of politics.—Baltimore Star.

NO AMENDMENT CAN MAKE IT DESIRABLE

Have the supporters of the Administration in Congress learned something from the revolt of thirty Democratic members against the Phillippines bill? The House Committee on Merchant Marine and Fisheries evidently has fears that the spirit of independence may threaten the fate of the shipping bill, at least in its present form It has accordingly introduced modifications in that measure for the purpose of checking opposition to it Thus it is proposed that the Government in five years should sell all its owned lines, or, if they are unprofitable, abandon them. But this practical admission of the undesirability of Government ownership is an excellent reason for not buying at all; it makes the defeat of a bill all the more necessary The provision for including in the catalog of coastwise, trade Porto Rico, Hawaii and Alaska is no more than just; that will have to be done some time, but it ought not to be accepted as an inducement for passing a measure otherwise so objectionable. As to the provisions concerning rebates and discrimination they rest upon an analogy which every shipping man knows to be false. The bill no matter to what extent its worst features may be eliminated, is essentially an amorphous measure which deserved defeat The administration would be well advised to drop it.—Philadelphia Ledger.

WRITING TO WRONG PARTY

President Wilson has sent a message to the newspaper publishers, asking their support for his efforts to secure proper and sufficient defense for the country This appear is very well timed, and is directed to sympathetic hearers, however, the president is writing to the wrong party. He should address his plea to the democratic majority in congress' where time is being wasted, where the seeds of future trouble are being sown, and where no effort to really provide for the nations's defense is being made Mr Wilson should write to Messrs. Clark, Kitchen, Hay and other doughty democrats, who are opposing his plans The reactionaries in his own party are responsible for the situation, and the country will be helpless as long as they are in the saddle —Omaha Bee.

NOT YET READY

It is hard to trace the operations of the president's mind. On the one hand he has followed a course that must inevitably bring us to a place of danger: on the other he has done nothing to protect the country in case the blow should fall. He has taken no steps to prevent his party in congress from fooling with the army and navy and offering cheating substitutes for a programme of real preparedness. He has actually discouraged all attempts at a serious and methodical policy for the increase of navy and army on a scale commensurate to the work they may be called upon to do. When he has not been making war medicine he has been disarming warriors His communications with Germany have been those of a warlike president; his recommendations about the navy have apparently been addressed to Mr. Bryan and Henry Ford. The country has had two years to get ready for just such a situation as this one, and it is no nearer readiness now than it was then —Colliers.

HUBBELL WILL LEAD

W. H Andrews, who on two occassions served our territory as delegate to congress, and who had announced himself a candidate for U. S. senator at the coming election has been east for quite a spell trying to improve his health, and from there he writes that he will stay in the east and that he will not be a candidate for office at least such is the latest information we have If such is the case the fight for the senatorship will be between Catron and Hubbell, with Hubbell, in the lead all the time; after the convention the fight will be n no doubt, Hubbell away in the lead together with all the Republican candidates on the ticket. Just watch the election returns and see if we are not correct in our guess"—Wagon Mound Pantagraph

MUST WORK TOGETHER

Merchants and country newspaper publishers must work together if they would stop the inroads of the large mailorder houses which are taking the business of the smaller communities from the local stores. writes B. J Kingston, of Jackson, Mich. In a letter to the editor of The Publishers' Auxiliory, Mr Kingston points a warning and declares that many of the small town merchants will soon be forced out of business if the mail order houses continue to grow as they have in the past. He says.

"The question most important today for newspapers to take up is the wonderful growth of the mail order business. One little town of 1,000 population in southern Michigan, according to postoffice records shows that $30,000 was sent to mail order houses by the people of that vicinity It is reasonable to estimate the conditions in other towns at the same figures. One mail order house in Chicago reports the business for last year at $67,000,000, and the increase for the year was $7,000,000. Well, what are you going to do about it? Let the newspapers educate the merchants and people on the conditions that will eventually result

"Advertising is the life blood of business, and if the merchants and newspapers do not get together to combat the idea of sending to the mail order houses, it will not be long before the merchants will have to go out of business, there will be no use for stores or towns, or small newspapers. After this condition is brought about, who will pay the taxes to maintain necessary public utilities?.

"If the newspapers will go deep enough into this question it will not take long to make people see the conditions that confront them, if the mail order business continues to increase in the future as it has in the past few years.

"Every merchant should be a booster for his home paper, and every newspaper can then boost the town and its merchants Get together, work together, and show conditions as they actually exist. Do it now before it is too late."

Feceral Inquiry or Railroad Strike?

Faced by demands from the conductors, engineers, firemen and brakemen that would impose on the country an additional burden in transportation costs of $100,000,000 a year, the railroads propose that this wage problem be settled by reference to an impartial Federal tribunal.

With these employes, whose efficient service is acknowledged, the railroads have no differences that could not be considered fairly and decided justly by such a public body.

Railroads Urge Public Inquiry and Arbitration

The formal proposal of the railroads to the employes for the settlement of the controversy is as follows:

"Our conferences have demonstrated that we cannot harmonize our differences of opinion and that eventually the matters in controversy must be passed upon by other and disinterested agencies. Therefore, we propose that your proposals and the proposition of the railways be disposed of by one or the other of the following methods:

1. Preferably by submission to the Interstate Commerce Commission, the only tribunal which, by reason of its accumulated information bearing on railway conditions and its control of the revenue of the railways, is in a position to consider and protect the rights and equities of all the interests affected, and to provide additional revenue necessary to meet the added cost of operation in case your proposals are found by the Commission to be just and reasonable; or, in the event the Interstate Commerce Commission cannot, under existing laws, act in the premises, that we jointly request Congress to take such action as may be necessary to enable the Commission to consider and promptly dispose of the questions involved; or

2. By arbitration in accordance with the provisions of the Federal law" (The Newlands Act).

Leaders Refuse Offer and Take Strike Vote

Leaders of the train service brotherhoods, at the joint conference held in New York, June 1-15, refused the offer of the railroads to submit the issue to arbitration or Federal review, and the employes are now voting on the question whether authority shall be given these leaders to declare a nation-wide strike.

The Interstate Commerce Commission is proposed by the railroads as the public body to which this issue ought to be referred for these reasons:

No other body with such an intimate knowledge of railroad conditions has such an unquestioned position in the public confidence

The rates the railroads may charge the public for transportation are now largely fixed by this Government board.

Out of every dollar received by the railroads from the public nearly one-half is paid directly to the employes as wages; and the money to pay increased wages can come from no other source than the rates paid by the public

The Interstate Commerce Commission, with its control over rates, is in a position to make a complete investigation and render such decision as would protect the interests of the railroad employes, the owners of the railroads, and the public.

A Question For the Public to Decide

The railroads feel that they have no right to grant a wage preferment of $100,000,000 a year to these employes, now highly paid and constituting only one-fifth of all the employes, without a clear mandate from a public tribunal that shall determine the merits of the case after a review of all the facts.

The single issue before the country is whether this controversy is to be settled by an impartial Government inquiry or by industrial warfare.

CANADA'S EXCELLENT FINANCIAL STANDING

Bank Clearings Increase—Agriculture Is a Paying Industry—Manufactures Doing Well.

"Business experts assert that Canada is on the threshold of perhaps the most prosperous era in her history. The unprecedented value of the farm products of 1915, together with the very large output of factories working on munitions of war has suddenly brought the country into a position, financially, scarcely hoped for as a nation for years to come. Export surplus of $50,000,000 a month is making Canada very strong in cash."—Extract from official bulletin of February 11, 1916.

The response by the farmers of Canada to the call for increased production in 1915 was a total net output exceeding one billion dollars, an increase over normal years of at least three hundred millions. The three Prairie Provinces contributed probably nearly one-half of the total product.

The wheat crop was worth $310,000,000, and accounted for about 30 per cent of the total agricultural product. Other things counted also. Look at dairying. In Ontario the dairy production was increased 20 per cent, and prices were over 10 per cent ahead of 1914. Other provinces shared in the increase, especially Alberta, Saskatchewan, Quebec and Nova Scotia. The dairy cow was "on the job" in 1915. So also were the beef cattle, the pigs and the hens.

It is not fair to the farmers of the Prairies to call the wheat crop of 1915 a "miracle" crop. The farmers cultivated more land and gave attention to their seed. Providence gave them favorable weather. Then they toiled early and late in the harvesting and threshing. Good cultivation gave bigger yields than careless work, 45 bushels as against 25.

The wealth of Western Canada is by no means all in its wheat crop. If the country had no wheat at all it would still be famous as a land of successful farmers on account of its stock production. From one shipping point (High River, Alberta) over $75,000.00 worth of horses have been sold in the last two months. The average price to the farmer has been about $175.00 per head. According to Government returns there are a million and a half horses in Manitoba, Saskatchewan and Alberta, worth probably $150,000,000.

The investments which farmers of Western Canada are making in livestock and farm improvements are good evidence of the fact that they have money for these purposes. It is apparent, however, that they are also spending some of their profits on those things which will bring greater comfort and enjoyment to themselves, their wives and their families. The automobile trade all through the country is particularly active, and farmers are the biggest buyers. A recent report of the Saskatoon district shows that in two months a million dollars' worth of automobiles have been sold, largely to farmers. Nor are all of these cars of the cheaper makes; some high-priced machines are in demand.

Bank clearings throughout the Western Provinces show greater commercial activity than at the same season in 1915 or 1914, the increase for the last week of February being $8,000,000 and almost $9,000,000, respectively, for the first week of March $15,000,000 over 1915 and $18,000,000 over 1914. The same excellent story comes from Moose Jaw, Sask., where they showed from 40 to 100 per cent over the previous year. Calgary, Alta., bank clearings continue to reflect the greatly improved business conditions as compared with a year ago. Canada's bank clearings for the month of February, 1916, were the greatest for any February in the country's history. The totals amounted to $964,222,000.00, as compared with $487,200,000.00 for the same month a year ago. An increase of $177,000,000.00 in bank clearings for the month tells its own story of the country's prosperity.—Advertisement.

Something Different.

"Flabdub has written a very unusual romance."

"What's the startling theme?"

"It's about a married couple who live happily together."

Never Varies.

Doctor—What was the patient's mean temperature last week?

Wife—Oh, doctor, it's always mean.

Yes, Verily!

Little Lemuel—What an essay, paw?

Paw—An essay, son, is a paragraph padded with words.

Typewriter Service in Rural Communities

The typewriter is coming into more extended use in rural communities because of the assistance it renders to all classes of people. Here are a few examples of the possibilities of service:

The Farmer: Think of the possibilities of selling produce by the means of typewritten letters sent out to customers? Typewritten letters give the sender a business standing with the people who receive them and also enable the keeping of carbon copies of the correspondence, which many times does away with misunderstandings and lawsuits.

The General Store Merchant: More prompt and courteous treatment is likely to be accorded his orders and correspondence with the City jobber and manufacturer if his letters are typewritten.

In The Home: The boy or girl who is intending to follow a business career can secure no better start than a knowledge of typewriter operating. Children who learn to use the typewriter learn spelling at the same time. The housewife finds it a great convenience in writing recipes and for general correspondence.

The Minister: No Clergyman should be without a typewriter. It is of great assistance in preparing sermons and writing the many letters that a pastor has to write.

BOB ONLY

Up to this writing no one has been mentioned to our knowledge in opposition to Robert Ervien as commissioner of public lands Apparently there is clear sailing ahead for Mr. Ervine, who has been an efficient servant of the people.

It is apropos at this point to commend the efficient work of the assistant in the land office, Captain Frits Muller. The captain is untiring in his efforts in working up an interest on the part of prospective purchasers of land, and thereby secures competition No charge of negligence can be laid at the door of the commissioner of lands or his assistants, and they stand upon a record of efficiency.—Albuquerque State Democrat.

Virgie Hearn, daughter of Mr. and Mrs. O. A. Hearn who run the Grandview Hotel, received a letter Monday which was mailed to her from Malvern, Texas, sometime during 1915. The letter was addressed to "White Oaks Mexico" instead of New Mexico and had evidently wandered around in the bloody republic for several months before it reached its proper destination. This is only one of the many similar cases that is occuring daily and we only mention the fact to show how easy it is for mail to go astray when it is no fault of the postmasters or postal clerks, as a great many think that negligence on their part is the only reason for them not receiving their mail as they should.
