## KILLED IN AN AUTO MORNING ACCIDENT

Norman Riggs is Killed Instantly When His Auto Ran Into An Arroyo at Top of Nogal Hill

## WILLIE NORMAN SUSTAINED SEVERAL MINOR INJURIES

A most deplorable accident took place near Carrizozo last evening when Norman Riggs was killed and Willie Norman painfully injured when the auto in which they were speeding crashed into an arroyo near the summit of the Nogal Hill. Riggs' death was practically instantaneous and Norman sustained three broken ribs and other minor injuries. His condition is not considered serious, and he was able to give a detailed account of the circumstances connected with the disaster upon examination by a coroner's jury of local citizens appointed to investigate the occurrence.

According to Norman's account they had been in Capitan and were on their way to Carrizozo. Riggs was intoxicated and was driving the car at a high rate of speed, and completely lost control at this difficult part of the road. The car plunged into the arroyo and part way up the opposite side, then back into the gulch to pin the occupants beneath it.

Riggs was employed in the U. S. Forest Service in the Lincoln Reserve and had a large circle of friends who sincerely regret his untimely death. The body was taken in charge by the local undertaking firm of Kelley & Son and prepared for shipment to his home in New York state.

## WM. FOREMAN PASSES AWAY

William Foreman died at Roswell on Monday of this week from an attack of heart trouble. Deceased is the son of M. B. Foreman, one of this community's prominent citizens, and was well-known in this locality. Surviving him are also a brother, George Foreman, a travelling salesman of Roswell a half-brother John Kelley of Deming, and a half-sister, Mrs. L. A. McCall of this place. Interment was made in the local cemetery Wednesday morning, Rev. J. M. Gardner pastor of the local Baptist Church officiating. Sympathy and condolence is extended to the bereaved relatives.

## CARL AYERS DIES

Carl Ayers, a young man of twenty-one years, died at his home in Jake Springs Monday from a complication of diseases. The young man had been a sufferer for a long time, having been sick about two years. His parents, Mr. and Mrs. W. J. Ayers are well known in this community, as Mr. Ayers has for some time been section foreman for the Southwestern at that point. The funeral was held Monday evening and interment made at Jake Springs Cemetery.

## SAM KENNEDY INJURED

Sam Kennedy, a boiler-maker in the local Southwestern shops, happened to a most painful accident while discharging his duties about four o'clock yesterday morning. An element of mystery surrounds the mishap, since none of the employees, nor Kennedy himself, are able to tell just how the occurrence came about. Engine No. 264 had just come in from a run and Kennedy had presumably begun the work of raking out the fire-box. When found, he was in an unconscious condition, with a severe cut on the head and his right hand had sustained a serious burn. Dr. M. G. Paden, the company surgeon, was summoned and preparations made for his transfer to the hospital, but it was not for at least an hour that he regained consciousness and was able to discuss the accident. It is supposed by those best acquainted with conditions that the unfortunate man stumbled over some object and in falling struck his head on the coal-gum of the tender, and at the clinker-hook, which was all quite hot when found, was responsible for the burn, and that the latter was not due to an electrical shock, as was the theory of some.

## TO BUILD HOSPITAL

Dr. R. T. Lucas will soon begin the erection of a six-room hospital as an addition to his residence and office building on Alamo Avenue. The adobe walls are now being made and work will begin as soon as possible. This new enterprise has been made possible through the increased practice of Dr. Lucas, and the perfection of his plans will enable him to handle a larger number of patients in a much more efficient and satisfactory manner. We bespeak for this venture in the right direction the signal success it deserves.

## THE WETMORE BUILDINGS

Work is progressing toward a rapid completion of the Wetmore buildings and the trio of business houses will add much to this portion of Carrizozo when finished. On the West side of the Western Garage, erected by Mr. Wetmore some months ago, the roof is being placed upon a spacious building which will be used as an opera house. All modern stage and seating will be installed in due time, thus filling a long-felt want for a well-equipped playhouse. On the east side a two-story building will be finished as business rooms below and modern apartments above. This latter feature will be a great source of accommodation to railroad men and their families, especially those not permanently located at this division point. If prosperity and permanence are not in the air in Carrizozo all un-failing signs deceive.

## GENEROUS SHOWERS

At last the weather man has gotten around to the immediate region occupied by the town of Carrizozo and yesterday was a generally cloudy day with a number of generous showers, aggregating a good soaking rain. For many days past showers have been falling both on plain and mountain, but only one real rain has visited Carrizozo during the summer. Needless to say the long-delayed downpour is about the most welcome thing that could come our way; except a shower of the coin of the realm; and the prosperity part will take care of itself so long as there shall be showers of blessing.

## JAS. V. TULLY FOR STATE SENATOR

Prominent Lincoln County Merchant, Rancher and Statesman Has Endorsement of County for Senate

## WAS A MEMBER OF FIRST N. M. STATE LEGISLATURE

James V. Tully has announced his candidacy for State Senator from the fifteenth senatorial district, embracing the counties of Otero, Lincoln, Torrance and Socorro. Tully has already received the complete and unqualified endorsement of the Lincoln County delegation and will undoubtedly find the same ready response from the conventions assembled in the other counties of the above-named district, since he is well and favorably known throughout this part of the state. He holds a personal acquaintance with the leading and most influential citizens of the district he aspires to represent in the upper house of the state legislature.

Mr. Tully was born in the city of Chicago, and received his education in the schools of that city, but came west when still a young man and has developed with the country. Casting his lot in with the great region of unrealized possibilities, he has prospered in the stock business at Glencoe, one of the garden spots of Lincoln County. He has also been unusually successful as a farmer and has for some time conducted a mercantile business at Glencoe. In short Mr. Tully has made good in a material way, and knowing how to attend to his own business efficiently, he feels qualified to represent intelligently and impartially the interests of the people to whom he is looking for election to this position of trust.

The people have already shown their confidence in Mr. Tully by electing him as a representative to the first New Mexico legislature. During his official incumbency he was instrumental in initiating many movements for legislation of the constructive type, and did much in the enactment of laws for the betterment of public roads and schools. He is a public spirited citizen and in close touch with the practical needs of this section of the state. Mr. Tully is married and has a substantial family of six children, stands high in his immediate neighborhood as well as in the state at large. He is one of the state's representative men.

It was tentatively agreed and determined at the last state convention that the nominee for state senator from this district should be a Lincoln County man at the next convention, so there seems no reasonable cause for doubt but that Mr. Tully's candidacy will meet with complete success in all its phases.

## GIVE DINNER PARTY SUNDAY

Mr. and Mrs. Ray Lemons were hosts at a dinner party Sunday noon at their home in White Oaks. The guests were Mr. and Mrs. Harry B. Dawson, Dr. and Mrs. Robert T. Lucas, Mr. and Mrs. John E. Bell and Mr. and Mrs. Wm. Reilly of Carrizozo. A sumptuous repast was served, forming a fitting testimony to the skill of the representative American housewife and the guests concur unanimously in their appreciation of the delightful affair.

## AN EXCELLENT RECORD

STATE TAX COMMISSION, SANTA FE, NEW MEXICO. Dr. T. W. Watson, Treasurer, Carrizozo, N. M.

Dear Sir: We are in receipt of your favor of August 9th. In compliance with your request we are sending you the percentage of taxes collected to June 30th, 1916, of each county and for the years of 1912, 1913, 1914 and 1915. Trusting this will be satisfactory, we are

Yours very truly,  
STATE TAX COMMISSION,  
HOWELL EARNEST, SEC.  
Percentage collected to June 30, 1916.

Valencia	92.30	91.72	91.05	74.98
Average	92.70	90.04	89.27	80.07

A glance at the above table will show most convincingly what kind of service Lincoln County has been getting from her Treasurer and Ex-officio Collector, Dr. T. W. Watson. In no instance has his record for the highest percentage of taxes been exceeded by the collector of any other county in the entire state of New Mexico. It will be observed that the report for this year is compiled only to June 30th, but every indication at this writing points to about 99 per cent collection of the total taxes levied.

Figures are always convincing; they say things in a definite way and are the final test of efficiency. The above figures indicate an extremely low percentage in some counties while others have been fortunate enough to rank as close seconds to our own; but for the entire state the Lincoln County record has every year been several per cent higher.

Dr. Watson knows his own business and the county's business has been conducted in a manner which reflects much credit upon the holder of this position of trust and responsibility. We take this occasion to congratulate our Treasurer and Collector upon the excellent showing he has made, especially in the matter of collection of taxes, since it puts Lincoln County in a unique position throughout the State.

## THE MCCURDYS RETURN

Mr. and Mrs. Andrew McCurdy arrived in Carrizozo Tuesday noon from Hondale where they have been living on their ranch since Mr. McCurdy graduated from the New Mexico State Normal School at Silver City last year in the summer, receiving the degree of Master of Pedagogy. Mr. McCurdy who has been superintendent of the Carrizozo High School for the past three years is a man of rare talent and ability and Carrizozo school patrons should feel justly proud of the fact that the school board has been successful in securing his services for another year. The many friends of Mr. and Mrs. McCurdy are glad to welcome them back in our midst.

## REPUBLICAN CONVENTION HELD MONDAY

County Delegates Selected to the State Convention at Santa Fe Are Instructed For Hubbell and Bursum

## JAMES V. TULLY ENDORSED FOR STATE SENATOR

The Lincoln County Republican Convention met in Capitan Monday afternoon. The meeting was called to order by Chairman Alfredo Gonzales at one o'clock. B. F. Adams of Corona was elected temporary chairman.

A large representation of Lincoln County Republicans was in attendance and a most harmonious meeting was held in the county high school auditorium. Hon. Frank A. Hubbell of Albuquerque, who is a candidate for the Senate was present and addressed the voters in a short but rousing speech. Mr. Hubbell counseled the party to be loyal and to stand firm for the principles of republicanism and predicted a sweeping victory for the Grand Old Party. An address was also made by Nestor Montoya also of the Duke City, which evoked its due measure of applause. Six delegates were chosen from this county to represent it in the State Republican Convention which will be held in Santa Fe August 23d. The delegation is instructed to vote for H. O. Bursum of Socorro for Governor, and Frank A. Hubbell of Albuquerque for U. S. Senator and James V. Tully of Glencoe for State senator. Chas. Curry of Lincoln and Thos. Dubois of Corona were chosen as state committeemen. The delegates chosen are as follows: H. S. Hanner, White Oaks, Henry Silvia, Capitan, Henry Lutz Carrizozo, Leopoldo Gonzalez, San Patricio, Rinaldo Duran, Encinoso, Francisco Gomez Lincoln.

## NEW GARAGE BUILDING

Work is progressing to a rapid completion of the new garage which is being erected by Vincent Real immediately opposite the Outlook office. Contractor Frank English is in charge of the work and the massive sixty-foot spans are in place for the roof. The structure is sixty by one hundred feet and will be adequate for the storage of a large number of automobiles. A well equipped repair shop will also be installed with an expert mechanic in charge. The automobile industry is a universal proposition and its growth is being sustained proportionately in Carrizozo. Evidently the spacious garage which will soon be in full operation is the result of demand on the part of the motoring public.

Emuel Anderson left Sunday for Capitan to assist his uncle W. O. Norman in his mercantile business during the illness of his son, Willie, who was injured in the auto wreck which is detailed in another column of this issue.

PRESIDENT ASKS FOR CONFERENCE

INVITES RAILROAD MANAGERS AND LABOR LEADERS TO MEET AT WHITE HOUSE.

HOPES TO AVERT TIE-UP

TRAINMEN REJECT PROPOSALS OF COMPANIES TO ARBITRATE DIFFERENCES.

Western Newspaper Union News Service.

Washington, Aug. 14. — President Wilson has taken his first step to prevent a national railroad tie-up. He instructed Commissioner William L. Chalmers of the Federal Board of Mediation and Conciliation to invite the representatives of the four railroad brotherhoods and the committee of railway managers to confer with him here.

Officials of the brotherhoods late yesterday rejected the proposals to arbitrate their differences with the railroad companies, according to word received here from New York.

Leading representatives of both sides to the controversy, however, accepted President Wilson's invitation for a conference, and they departed from New York at midnight for the national capitol.

The possibility that the Interstate Commerce Commission may grant a further increase in rates to the carriers, in order to meet the heavy increase in operating expenses which would be entailed if the railroads should grant the demands of the brotherhoods, is being discussed.

"Both the railroads and the strikers will see that the mails keep going," said a high official. "This has always been the case during the past strikes."

As a general proposition, the railroads are eager to fulfill their mail contracts, while the strikers realize that unnecessary interference with the mails would create public sentiment adverse to their cause.

Officials of the War Department were discussing possible means of supplying the troops on the border in case of a strike, and also of transporting the remaining national guard troops to the border, as ordered by the President.

Supplies and troops from coast points could be carried by transports, but it was the opinion of officers in charge of the mobilization that the railroads would have to be commandeered to move supplies and troops from the interior to the border.

New York.—A general strike on virtually all the railroads of the nation, paralyzing commerce and throwing approximately 2,000,000 men out of employment, can be averted only through the good offices of President Wilson as a result of developments in the dispute over the men's demands for an eight-hour day and time and a half for overtime.

The controversy was laid before the President, at his invitation, after the workers had flatly rejected any form of arbitration.

Denver Congressional Candidates. Denver.—Following are the Republican congressional candidates chosen at the assembly for Denver congressional district: William N. Valle, 53; William H. Dickson, 33; A. H. Pickens, 26; James H. Brown, 22; Halsted L. Ritter, 16. The Democrats designated H. B. Teller by 337 votes and Ben C. Hilliard by 235.

French and British Report Big Gains in West and Russians in Galicia.

London.—Hard fighting in the Somme region of France, in Galicia and in the Italian theater, with further gains for the entente allies in all three regions, marked the operations of Saturday night and Sunday.

Northwest of Pozieres, north of the Somme, the British made an advance of from 300 to 400 yards over a front of nearly a mile against the Germans, and also captured trenches on the plateau northwest of Bazentin-Le-Petit, while the French southeast of Maurepas gained a further foothold on the slopes of Hill 109.

Mariampol, in Galicia, seven miles southeast of Halicz, the town of Podgiacy and several villages along the upper Sereth river have fallen into the hands of the Russians.

On the Bystritsa sector and near Monasterzyka, however, Berlin says the Russians have been thrown back at several places by the counter attacks of the Teutonic allies.

FLAG SEEN IN THE CLOUDS

Superstitious in Pennsylvania Town Believed the Omen Foretelling War's Approach.

The spectacle of the American flag depicted in its natural colors vividly on low, overhanging clouds one night caused a sensation among superstitious people of Pottsville, Pa., many of whom considered the national emblem in the heavens to be an omen of approaching war.

Courthouse officials have been keeping a searchlight trained upon a big flag flying from a staff on the top of the courthouse, and believe the unusual spectacle was the reflection of the colors of the flag on the low-lying clouds.

**Hughes' Speech**

Theodore Roosevelt sat in a box at Carnegie Hall when Mr. Hughes delivered his speech of acceptance and vigorously applauded every telling point.

The Colonel repeatedly arose and bowed in response to the cheers for him and the shouts of "Teddy!" "Teddy!" "Hurrah for Teddy!", and when the meeting adjourned he made the following statement:

"It is an admirable speech and I wish to call attention to the following points:

"I am particularly pleased with the exposure of the folly, and worse than folly, of Mr. Wilson's Mexican policy and of the way in which this policy has brought humiliation to the United States and disaster to Mexico itself.

"Moreover, I am very glad of the straightforward manner in which Mr. Hughes has shown the ridicule with which Mr. Wilson has covered this nation by the manner in which he allowed foreign powers to gain the impression that although he used the strongest words in diplomacy they were not to be taken seriously.

Not Words Which Count. "As Mr. Hughes said, it is not words but the strength and resolution behind the words which count. As Mr. Hughes pointed out, there is no doubt that if Mr. Wilson's conduct and action had been such as to make the foreign nations believe that he meant precisely what he said in his 'strict accountability' there would have been no destruction of American lives by the sinking of the Lusitania.

"When Mr. Hughes uses strong words his record shows that they are always backed by strong deeds, and therefore in the enormous majority of cases the use of strong words renders it unnecessary ever to have recourse to strong deeds.

"Again, Mr. Hughes speaks in characteristically straightforward fashion of the outrages committed on millions of plants, and all men, whether citizens of foreign nations or nominal citizens of our own land, who had in any shape or way abetted or condoned those actions can understand that Mr. Hughes, if President, will protect these domestic American interests and punish offenders against them with the fearlessness and thoroughness that he showed in dealing with the powers of evil at Albany Brought Nation to Ignominy.

"Just before coming in to listen to Mr. Hughes' just characterization of Mr. Wilson's failure to protect the lives and property of Americans in Mexico and on the high seas, I happened to pick up John Fiske's "Critical Period of American History," and was struck by the following two sentences:

"A government touches the lowest point of ignominy when it confesses its inability to protect the lives and the property of its citizens. A government which has come to this has failed in discharging the primary function of government, and forthwith ceases to have any reason for existing."

"Mr. Hughes has pointed out in his speech with self-restraint, but with emphasis, that it is precisely this primary function which Mr. Wilson's Administration has failed to discharge and that it is precisely this point of ignominy to which he has reduced the nation over which he is President."

**A POLICY OF FIRMNESS AND CONSISTENCY NEEDED.**

The Nation has no policy of aggression toward Mexico. We have no desire for any part of her territory. We wish her to have peace, stability, and prosperity. We shall have to adopt a new policy, a policy of firmness and consistency through which alone we can promote an enduring friendship. We demand from Mexico the protection of the lives and the property of our citizens and the security of our border from depredations. Much will be gained if Mexico is convinced that we contemplate no meddlesome interference with what does not concern us, but that we propose to insist in a firm and candid manner upon the performance of international obligations. To a stable government, appropriately discharging its international duties, we should give ungrudging support. A short period of firm, consistent, and friendly dealing will accomplish more than many years of vacillation.—From Mr. Hughes' speech of acceptance.

## How the Wilson Administration Has Penalized Patriotism

"Having in view the possibility of further aggression upon the territory of the United States from Mexico and the necessity for the proper protection of that frontier," President Wilson, on June 18, called out the mobile arms of the National Guard for federal service.

He did not call them out at their existing peace strength, but at war strength, which is practically double. Lacking a system of reserves, the National Guard organizations immediately had to start a campaign of recruiting to bring about the desired increase in their numbers.

Patriotic young citizens, under the urge of the cry, "Your country needs you," volunteered for service in gratifying numbers. According to Senator Chamberlain, chairman of the Senate Committee on Military Affairs, the result is that about 135,000 citizen soldiers have been mustered into the federal service and are now on the Mexican border or in camp in their own states. There may be more, but

the administration refuses to make known the exact figures.

The movement is costing the public treasury many millions of dollars; it is costing the individual citizen soldiers many millions more. They went to the front believing the cry, "Your country needs you," for war service. They sacrificed advancement in their own occupations, severed home ties, suffered, in thousands of instances, great financial loss. The less patriotic, who did not believe the cry, or believing, declined to make sacrifices, saten at home on these losses.

The real purposes of the call are slowly developing. They are two in number:

First, a patrol of the border to do the work which President Wilson's friend, Carranza, finds it impossible to do. Because the recognized government in Mexico is too ineffective to keep its own citizens in check and prevent them murdering Americans in American soil, the American government undertakes the costly task of doing that work for them. The murder of American citizens on Mexican soil is another matter. Carranza may go as far as he likes in that direction.

Second, a purpose of the mobilization on the border and in the camps is to train citizens to perform effective military service. The regular military establishment of the nation is manifestly too small for the actual military needs. To this extent the cry, "Your country needs you," was correct.

But these facts were not made clear when the call was issued. The idea was promulgated that men were needed for actual war service; not for military training. Deceit was practiced.

Opposing in the open legislation for universal military service, the administration by its acts has established what in essence is a system of compulsory military service. It is a system all the more vicious because it operates only against the patriotic whereas a legalized universal training system equalizes the burden of military service among all men and all classes of men.

When, in 1914, Europe plunged into the greatest war of all history, and conditions in Mexico grew intolerable, intelligent men realized the fact that it was incumbent on this nation to build up its own regular army and put its other military resources in condition for use. National safety demanded this. And yet, in December of that year, four months after the European war began, President Wilson went before Congress and declared that all agitation for military preparedness was hysterical; that we were adequately prepared.

After a while the administration changed its mind and professed to believe in the necessity for preparedness. First came an enactment to increase the regular army by 20,000. But the body of the country, and even all parts of the Democratic administration, could not change front so quickly as the head. Recruiting for the regular army lagged. Not yet have the 20,000 been secured.

The need pressed. A new national defense act, providing for still more men in the regular army, was enacted. But still the men were not forthcoming.

Suddenly and without warning the administration issued its call for mobilization of the citizen soldiery. It seemed still obsessed with the Bryan notion that an army could be created by presidential ukase.

When the call went out the government did not own enough uniforms, shoes, socks, blankets, hats, wagons, trucks, horses, mules and other things essential to equip the men called; it had made no provision for transporting the troops called to the points where they were required.

Who suffered most by this amazing lack of foresight, this leaping before looking?

Only the 135,000 patriots who believed that their country needed them for national defense; only the men who are making the great sacrifices.

The whole disgraceful story may be summed up in the phrase, the administration has penalized patriotism.

True, it is accumulating, by subterfuge, a reserve of trained soldiers, an events have demonstrated that it is "wolf" when there was no wolf, and it be forced to cry "wolf" when the wolf is at the door, will be the result?

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

How Much is Now Left of the Baltimore Platform?

The President had boldly signed the Pork River and Harbor bill, and his facile pen is dripping with ink eager to attach itself to a Pork Public Buildings bill.

The friendliest apologists of the President's part in the profligate waste of money wrung from the people by oppressive taxation have nothing better to say for him than that it is hardly fair to expect a man to say "I forbid!" in this Presidential year when he is a candidate.

The foregoing words describing the profligate waste of the people's money with Executive approval are taken without change from a plank of the platform on which Woodrow Wilson was elected in 1912:

"We denounce the profligate waste of money wrung from the people by oppressive taxation through the lavish appropriations of recent Republican Congresses, which have kept taxes high and reduced the purchasing power of the people's toll. We demand a return to that simplicity and economy which befits a democratic government."

How much is now left of the principles declared and the promises registered at Baltimore as inducements to citizens to vote for Wilson.

Possibly it is because he and his party have been such reckless, such wholesale repudiators of the pledges of 1912 that few people remember or care to remember what pledges were made in his behalf about forty days ago at St. Louis.—New York Sun.

Phrases which will NOT occur in the Woodrow Wilson speech of acceptance:

Psychological prosperity.  
I mean to catch flies.  
I mean to accountability.  
I mean to fight.

**ROADS IN PROPER CONDITION.**

Oiling, if Not Rightly Done, Will Simply Be a Waste of Money—Must Be Careful For.

On nearly every hand we hear the cry, "Oil the roads." "Why doesn't someone oil the roads and get rid of this terrible mud and slush that we are compelled to travel through so large a part of the year?" There seem to be some who think that if our roads were just oiled most of our troubles, so far as the roads are concerned, would be a thing of the past. Many of them seem to think that if the road bosses would only go out

Good Road in Illinois.

and pour some oil on the roads the thing would be done and our trouble would be over. While we are of the opinion that, if rightly done, oiling would be a great help, we are equally of the opinion that if not rightly done it will simply be a waste of money, writes T. T. Smith of Montgomery county, Illinois, in Farmers' Review.

To begin with, the road must be so shaped that water cannot stay on it; it must be so graded up in the center and the ditches so opened at the sides that the water will run off quickly, and it must be kept in this shape, or oiling will be of very little use. In fact, if we would only do the work necessary to fit the roads for oiling, we would have fairly good roads—such roads as could be used by an automobile most of the time. We haven't read of or heard of an expert on the oiling question but who says that before oiling the roadbed must be put in proper shape and after oiling it must be kept in shape. If this is not done we will be disappointed in the job. While we yield to no one in the desire for better roads, we are not very sanguine about oiling under present conditions. Judging by the work done by the majority of commissioners of highways, we have grave doubt about its advisability and we wish to repeat if we will only put the roads in proper condition and keep them in that condition, we will have good roads without oiling.

**INTEREST IN ROAD BUILDING**

Until Farmer Becomes Owner of Motor Car He is Apt to Be Conservative on Highway Question.

Never, perhaps, has there been so much interest taken in road building as is being taken now. This is caused largely by the automobile. Just in proportion as the number of automobiles increases the interest in road building increases.

Until he becomes the owner of an automobile the farmer is apt to be mighty conservative on the question of roads, says the Farmers' Mail and Breeze. Often he objects on the ground that making good roads increases his taxes and only affords a pleasure way for the automobile joy riders. As soon, however, as he becomes the owner of an automobile, he becomes a good roads booster and has little patience with the man who talks against good roads.

We are, however, learning a lot about building roads and still have a good deal to learn. It looks now as if the concrete road might be the last word in road building and prove in the long run to be the cheapest road that can be built. Finally, however, it is quite possible that the flying machine will reach such a state of perfection that flying machines will be as common as automobiles are now, and the need for roads for pleasure riding will be greatly lessened.

**Value of Good Roads.**

Most people recognize the value of good roads. The only thing that keeps us from having good roads everywhere is the cost, and with a few miles of good roads made each year this country will soon be favored with a system of roads that will be in keeping with the wealth and prosperity of the country.

## BUSINESS OF THE BROOD SOW

Failure to Produce Good-Sized Litters and Nourish Them Often Due to Lack of Milk.

The business of the brood sow is to produce good-sized litters of healthy pigs and nourish them liberally until weaning time. In so far as she fails in this she fails in the purpose for which she is kept.

The farmer who keeps a half dozen or a dozen sows for breeding purposes finds half of them, perhaps, capable of fulfilling the maternal function well, while the other half do it only indifferently. Quite as often as not the difficulty is the lack of capacity to give milk enough for the litter, and the pigs are in a state of semi-starvation throughout the entire nursing period.

## RIDDING PASTURES OF BURS

Pests Not Only Cause Annoyance to the Sheep Owner, but Decrease Price of Wool.

Nothing is so trying to the sheep owner as burs. Be as careful as he

will, these pests will spring up, causing not only annoyance, but often loss. A fleece infected with matted burs always sells for less than clean wool. Thus, burs are a direct loss to every flock keeper.

The remedy? Only one—rid the pasture fields. That's another story, if there are many, but cultivated crops, a system of rotation, and constant use of the hoe will rid any farm of this serious weed pest.

**North and South.**  
In 1861 the real estate value of the southern states was under \$2,000,000,000, while that of the northern states exceeded \$5,000,000,000. The banking capital of the South was \$47,000,000, that of the North \$350,000,000. The imports of the South in 1860 were \$31,000,000, of the North for the same year \$231,000,000. The white population of the seceding states was 6,000,000, of the North 21,000,000.

**Absent-Mindedness.**  
Our intellect follows our interest. And to concentrate on any subject we must find or create some real interest in it. The creative minds of the world—inventors, composers, artists, even industrial magnates—are so absorbed in their ideals and ambitions that they seem "absent" to persons without ideals or ambitions.

**To Avoid Colds.**  
In brief, if you wish to be absolutely immune from colds of all kinds, and their more serious sequences, here is the recipe: Eat abstemiously of non-stimulating food. Fast occasionally. Avoid table salt, woolen underclothing and foul air, and harden the body by exposure to the air and sun, and occasionally to cold water.

**Left-Handed Compliment.**  
George was always trying to say something to please his teacher. The teacher played the clarinet in a little orchestra in the village and George heard the orchestra play. The next morning at school he came smiling up to the teacher with a compliment on his playing. "I thought you made the most noise."

**Wanted:**—Any kind of plaster cement or pebble dashing work by a first class workman. Enquire Outlook.

### PORT OF MISSING WHEELS

Writer Throws Some New Light on the Eventual Fate of Bicycles.

Perhaps you have wondered what has become of all the old bicycles. Not so long ago everybody had one—father, mother, children and aunts from the country. And then, in the night, motor cars got cheaper and all the bicycles disappeared. Like the Palm Beach suits they are all here in Florida. There are bicycles everywhere, on the flat, hard, beautiful roads, on the curbstones, leaning against the piazzas, in the streets. If the motor car has swept them from the northern streets, it has not done that here. Men, women and children on bicycles whirl about the streets, tingling their little bells and the motor-car drivers look out for them. Just beyond the veranda at Palm Beach were hundreds of bicycles waiting to be hired. Out on the shaded roads were other hundreds bearing their gayly attired burdens.

In the lobby, where I was making my way to the desk, were dozens of women dressed for wheeling.—Margaret Tuttle, in Saturday Evening Post.

Saved an Empress. With the filing of the will of Mrs. Sarah Gray Crane in the Surrogate's court a trust fund of \$75,000 became available for the trustees of Amherst college. Dr. Edward A. Crane, her husband, had left the bulk of his estate in trust for the benefit of his widow. After her death it was to go to Amherst. How Doctor Crane saved the life of Empress Eugenie from a Paris mob of September 4, 1870, was told in the will. He planned the secret flight of the empress from Paris to Denzville when the republic was proclaimed after the news of the Sedan surrender. He arranged passage on Lord Burgoyne's yacht and took her to England. The empress rewarded Doctor Crane with a handsome pearl.—New York Times.

Potash in Texas. Borings in Texas to a depth of about 900 feet discovered potash salts in thick beds of salt. Some of the samples obtained were bright salmon red, resembling the Stassfurt carnallite and analyzing about 14 per cent potassium chloride. # The Wheat Yield Tells the Story

of Western Canada's Rapid Progress

The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions.

The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, upwards of four and a quarter million bushels being exported in less than six weeks, and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.

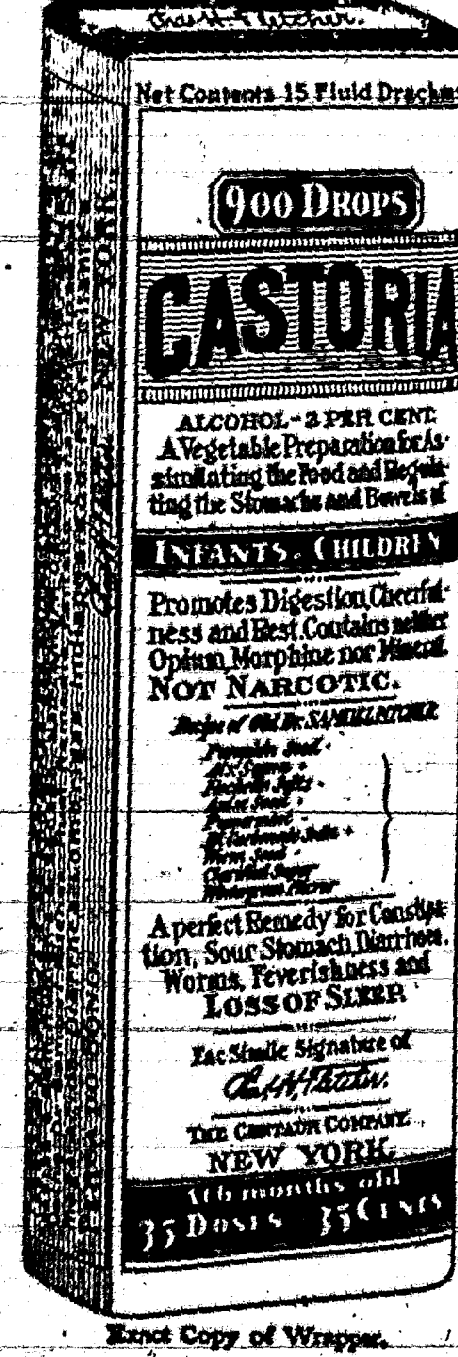

Yields as high as 60 bushels of wheat per acre are reported from all parts of the country; while yields of 45 bushels per acre are common.

Thousands of American farmers have taken part in this wonderful production. Land prices are still low and free homestead lands are easily secured in good localities, convenient to churches, schools, markets, railways, etc.

There is no war tax on land and no conscription.

Write for illustrated pamphlet, reduced railroad rates and other information to Superintendent Immigration, Ottawa, Canada, or

## NOGAL

Norman Riggs and Billie Nor-  
man on their way from Capitan  
to Carrizozo in an automobile  
last Saturday night ran off of a  
small bridge near the top of  
Nogal hill. The car turned up-  
side down killing Mr. Riggs and  
seriously injuring Mr. Norman  
who was hurried to Carrizozo for  
medical treatment. An inquest  
was held on the body of Mr.  
Riggs and it appears that he was  
under the influence of liquor, two  
extra bottles being found in the  
car. The bridge is a very small  
one across an arroyo and has no  
railing on it. Evidence shows  
that the car was stopped twice  
by applying the emergency brake  
and backed up to try to cross and  
the third time it ran off. We are  
told that he made his will that  
morning, willing all his property  
to his brother.
