H. B. HAMILTON, Candidate for District Attorney

## BURSUM, HUBBEL, HAMILTON, NOMINEES

The Vote for Bursum was 122, Hubbel 135, Hamilton 18, J.C. Roberts, S.C. Judge, 134.

## HAMILTON NOMINATED ON FIRST BALLOT

The State Republican Convention was called to order in the Palace Theater at Santa Fe about two o'clock Wednesday afternoon by Chairman Ralph C. Ely. A. E. Fall was chosen temporary chairman and B. C. Hernandez permanent chairman. A large number were present and a stirring scene was offered by this important political gathering, representing New Mexico statesmen and politicians of all ages and degrees of prominence. Business was soon under full sway, and briefly stated, Frank A. Hubbell was nominated for U. S. Senator by a vote of 135, Catron receiving 96 and Raynolds 34. The vote for governor was Bursum 122, Romero 88, Ely 26; for Judge of Supreme Court, J. C. Roberts 134, O. A. Larrazolo 121. Romero's motion to make Bursum's nomination for governor unanimous was overwhelmingly carried. Hernandez was also the unanimous nominee of the convention for Congress. Robert P. Ervien was the choice for Commissioner of Public Lands. Possibly the action of greatest significance to citizens of Lincoln county was the nomination, on the first ballot, of H. B. Hamilton to succeed himself as prosecuting attorney of the 3rd Judicial District, the vote standing Hamilton 18, Mechem 14. The action of the state convention is thus a severe rebuke to the unjustifiable agitation which was waged against Mr.

H. O. BURSUM

Hamilton by certain of his enemies. In other words, it was shown conclusively to have been purely a local affair, and the product of enmity aroused through the discharge of his sworn duties in this position of extreme responsibility. Mr. Hamilton's record has been one which was able to survive the well-organized opposition and his large circle of friends feel great gratification over the fact that his record has been vindicated in every respect and finally commended. The spirit of harmony pervaded the convention hall, and the candidates selected represent an undivided sentiment which means much for the success of the Party in the coming general election.

## INSTALLING FOUNTAINS

No stone is being left unturned to beautify the courthouse grounds, and at each meeting the board of county commissioners authorized some improvement thereon. Just now artificial fountains are being installed, the bases

## COUNTY DEMOCRATIC CONVENTION HELD

A Number of Representative Men of This Political Persuasion Were Present.

## A NUMBER OF ROUSING SPEECHES WERE MADE

The Lincoln County Democratic Convention was held in the district court room at Carrizozo Saturday, August 18th and a number of representative men of this political persuasion were present. The meeting was full of enthusiasm and a number of rousing speeches were made. John M. Penfield of Lincoln was made chairman of the convention and Brent Paden of Carrizozo discharged the duties of recording secretary. The purpose of the meeting was to select delegates for the State Democratic Convention and the following were chosen: Dr. J. W. Laws of Lincoln, John Y. Hewitt of White Oaks, Martin Chavez of Picacho, W. C. McDonald of Carrizozo, Guido Ranniger of Oscura. Alternates, Frank Salazar, Lincoln; Manuel Gonzales, Carrizozo; A. J. Atkinson, Corona; J. G. Clements Jr., Corona; Porfirio Chavez, Carrizozo; R. C. Sowders, Picacho. The delegation was instructed to vote for George B. Barber for district attorney of this judicial district.

## RETURNS FROM EAST

O. W. Bamberger, representing the Carrizozo Trading Company, has just returned from the eastern markets where he effected the purchase of the fall and winter stock of merchandise. Judging from the showing of new goods which this wide-awake firm has always offered the public we feel confident that their reputation will be sustained in showing the very latest styles and giving the same uniformly good value in every article handled.

## TAILOR SHOP CHANGES HANDS

W. R. Young of Oklahoma City, and H. L. Buck of Carrizo Springs, Texas, are now in charge of the Gem Tailor Shop and are out for your business. They propose to conduct the shop along progressive and business-like lines, and give the public prompt and efficient service, to the end that they may merit the confidence and patronage of the public. Cleaning and pressing will be done with neatness and dispatch and orders taken for tailor-made suits of the latest fashion.

## NEWS EDITOR HAS OPERATION

John A. Haley, editor of the Carrizozo News, was stricken Sunday with a severe attack of appendicitis and was rushed to Hotel Dieu, El Paso, on the early train Monday where an operation was performed as soon as practicable. His condition was considered quite serious for some hours, but latest advice indicates that symptoms are all encouraging and the case has developed no complications. His many friends anticipate an early and complete recovery.

of which will be mal pais rock. This new feature will contribute greatly to the general appearance of the lawns and add much to the civic attractiveness of the seat of Lincoln County Government.

## MRS. BROWN ENTERTAINS

Mrs. L. Brown was hostess last week at two delightful social functions, in honor of her guest, Mrs. Marion P. Carlock of El Paso. The first event was a card party, Wednesday afternoon. A delightful four-course luncheon preceded the diversion of the afternoon, however. The honor guests were Mrs. Carlock and Mrs. Samuel Allen, one of the season's popular brides. At the guest's table were also Mrs. Braun, a sister of H. S. Fairbank, visiting here, and Mrs. Frank Gurney. The color scheme of the decorations was pink and white and the favors consisted of Shasta daisies. Whist then followed, four tables being filled with players, a most enjoyable afternoon resulting from the happy combination provided by the thoughtful hostess.

Another set of Mrs. Brown's lady friends partook of the hospitality the following afternoon, fancy work being engaged in, supplemented by a number of well-ordered contests which met with enthusiastic appreciation. Following an afternoon of unalloyed enjoyment, a delightful collation was served. These two rare functions will long be remembered by those present on either or both occasions.

## BRIDGE SITE ESTABLISHED

The site for the new steel bridge across the Hondo river at what is known as Six Mile Hill has been established by an engineer from the state engineer's office at Santa Fe. This bridge will be erected three miles west of Hondo on the Carrizozo-Roswell auto road. The floods of the Hondo have been disastrous in the past and all efforts to construct a permanent bridge at that point have been in vain. Three bridges have been washed out at this point in the past few years two of them having been taken out by floods before they were completed. The state road gang located near Hondo in charge of Capt. N. C. Chadbourn, is doing the work.

## BEFORE JUDGE MASSIE

Friday night one Isidro Gonzales, a young Mexican of twenty-two residing, when he is at home, in San Patricio, undertook to give the residents of the Spanish-American quarter an exhibition of fancy shooting. About eleven o'clock Constable Stevens heard the first volley of shots and was ready, when the dose was repeated, to catch the miscreant red-handed. Isidro was hailed into Justice Massie's court bright and early Saturday morning where he was summarily dealt with, his bond being fixed at one thousand dollars. Same not being forthcoming the county jail is now furnishing entertainment until the Grand Jury gets around to the case.

## SHULTZ-BALL

W. W. Shultz and Miss Gladys A. Ball were united in marriage by Justice of the Peace Massie in Carrizozo on Tuesday of last week to the surprise of their many friends. Mr. Shultz is a popular fireman on the El Paso & Southwestern, his father being one of the veteran engineers on the Santa Fe system. The bride has been employed for some months as waitress in the Carrizozo Eating house and is a charming young lady with well-deserved popularity in local circles. The happy couple will continue to make their home here and will begin housekeeping in the near future. The Outlook extends its best wishes for perpetual happiness and prosperity.

## J. E. KOONCE FOR SCHOOL SUPT.

Is a Graduate of Peabody Normal College and an Experienced Teacher.

## SPECIALIZED IN SPANISH N. MEX. NORMAL SCHOOL

In this issue will be found the announcement of J. E. Koonce who is a candidate for Superintendent of Lincoln County Schools. Mr. Koonce is a native of Mississippi, but moved to Texas in his later boyhood and was educated in the public schools of the latter state. After teaching for a period he spent two years in Texas State School, and this work was supplemented with a term of two years in the Peabody Normal College of Nashville, Tennessee, having graduated creditably from both institutions. Mr. Koonce then taught a number of years in the schools of Texas and also in the state of Oklahoma, but for the last five years he has been actively engaged in teaching in the schools of Lincoln County. The candidate took special work last summer in the New Mexico Normal University, giving particular attention to Spanish in which subject he received credits on the first and second year's course as well as one-half of the third year's course. Mr. Koonce claims Capitan as his home when not engaged in the work of teaching. Mr. Koonce's educational qualifications are excellent, he is in close touch with school work in Lincoln County, and if elected would no doubt give the people of this district a conscientious and capable administration in this responsible position.

## DELBERT CARL DEAD

The family of C. Carl has the sympathy of the entire community in the loss of their oldest son, Delbert aged ten years who died about six o'clock Wednesday evening. The little fellow had been suffering for some two weeks with inflammatory rheumatism, but his death was due to congestion of the bowels. The funeral was conducted from the Methodist church yesterday afternoon at three-thirty. Rev. Lewis officiating, and burial was made in the local cemetery. Condolence is extended to the bereaved relatives in their affliction.

## BUYS FALL-WINTER GOODS

Albert Ziegler, buyer for the local firm of Ziegler Brothers, came in this week from New York and Chicago. He reports a choice array of everything in the dry goods and notion line and the very best values obtainable. This fall and winter will bring to Carrizozo nobby clothing with quality in every piece, and Mr. Ziegler's long experience in the dry goods business enables him to make intelligent purchases for his trade in Carrizozo.

"No one could successfully present to an American audience that an American citizen's rights stopped with the coast line."

"There is not a particle of milltarism in my composition, but there is Americanism in its place, and if elected, I am going to see that American rights are protected."

**LABOR.**

"The working man is not asking anything he should not have. All he wants is a square deal."

"No such thing as prosperity exists for just one class in America, unless it exists for all."

"The Republican party does not stand for the prosperity produced by the war, but for a prosperity produced by sound American policies and these are what we propose to have."

**PREPAREDNESS.**

"Do not let us get this country into a low patriotic plane so that we are content with disesteem, with the scuff of the world."

"I am an American citizen, ought to be the proudest title in the world."

**CIVIL SERVICE.**

"We had in the coast and geodetic survey an eminent scientist. He was displaced to make room for an excellent stock breeder."

"It is the most unworthy thing an administration can do to take public business and pay political debts with it."

**MR. HUGHES HAS EXPLODED THE  
"KEPT-US-OUT-OF-WAR"  
ARGUMENT.**

Mr. Hughes' attack upon the "kept-us-out-of-war" argument has aroused a story of enthusiasm.

"Kept us out of war?" he demands.

"Why, there were nineteen men—good American soldiers, shot down at Vera Cruz, and many Mexicans were killed by our men. That was war. Moreover, it was a very ignoble war. I have heard three explanations of the Vera Cruz move.

"First, it was explained that it was made in order to compel somebody to salute the flag—somebody who had insulted us. But the flag was not saluted and has not been to this day. Then it was said that the salute was not what we sought, but to prevent the landing of a boatload of ammunition intended for Huerta. The ammunition, landed, however, and it has been shown that it reached Huerta in due season without interference on our part.

"When that reason was shown to be untenable, a third one—and possibly the real one—finally was advanced. It was said that our seizure of Vera Cruz was a move to compel the retirement of Huerta. It seems possible that this is true, although we had promised the Mexicans that we would not interfere in their affairs and told them more than once that we wanted them to handle their own affairs.

"That is why the Mexicans could not understand us and that is why they show little faith in our promises."

**WE WANT THE AMERICAN  
FLAG UNSULLIED.**

"Now, my friends, we want not only American efficiency in business, in efficiency in the organization of business, in the protection of the factors of human industry and commerce, we want the American flag unsullied and the American name honored throughout the world."  
—From Mr. Hughes' speech at Chicago.

Now that Mr. Hughes knows he has been nominated for president, we may wait patiently for a few days longer to hear what Mr. Wilson has to say about it.

### DEMOCRATS AND PENSIONS

Among the claims which are to be advanced by the Democrats in this campaign as a reason for their continuance in power, especially in Congress, is the argument that they have supported a liberal policy toward the pensioners of the Civil War. This claim is to be put forth with special emphasis by some Senators of Democratic persuasion who are candidates for re-election and who will point, in some instances to their own votes on such legislation.

While in some instances, there will be slight basis of personal truth in these declarations, the general fact is that the Democratic party has displayed a constant hostility toward the veterans of the Rebel-

lion, whom they have accused—and truthfully—of having fought "a Republican war" to a successful issue.

The pages of the Congressional Record, for the past fifty years, reek with the words and votes of rancor which have been uttered and cast by Democratic legislators whenever general pension measures have been under discussion. Had the veterans of the Great War, their widows and orphans been dependent upon Democratic assistance for the stipends which have been granted to them from time to time, they would long since all have died of starvation. In no case since the war ended have the Democrats in Congress—whether in the majority or in the minority—given cordial, ungrudging or even a helpfully contributory support to general pension legislation. Almost invariably more Democrats have voted against such bills than have voted for them—and whenever a Republican Congress has passed such laws it has been compelled to do so in the face of bitter Democratic opposition. When the Congress has been Democratic, it has always been the well-nigh solid vote of the Republican minority which has resulted in the passage of a general pension act.

The last of these measures was passed in May, 1912—the House then being Democratic, the Senate and the Presidency being still in Republican hands.

The service pension act of that time was passed in the House with only 99 Democrats, out of a total party membership of 229, voting for it—while 85 Democrats voted against it. The bill was carried by the combined votes of 129 Republicans and the 85 Democrats, while only eight Republicans recorded their opposition. In the Senate the vote was even more significant. Thirty-nine Republican Senators voted for it, no Republican voted against it. Twelve Democrats voted for it, and sixteen Democrats voted against it.

A Democratic Senator may be in favor of pensions—for personal reasons. But the Democratic party is hostile to pensions—for party reasons. The veterans of the Civil War will not be deceived.

### PLAYING POLITICS

The episode of the child labor bill is instructive. The measure is opposed by Southern Democratic Senators who represent communities where the cotton mills are filled with minor workers, generally with slight or no restrictions as to the hours of labor. It is to the interest of these industries that no federal regulations should interfere with the profitable exploitation of the children whose strength is thus being coined into dividends—and the Senators from such communities are governing themselves accordingly. The President has not hitherto been very keen about it. He is on record, in writing, as disbelieving in legislation of this character. Yet, for some reason—probably not disconnected with politics and doubtless in some way related to his own campaign—he suddenly developed a great anxiety to have the bill passed. So off he goes to the Capitol, summoning the Southern Senators to his room in the building and telling them his wishes. He may have his way—it is not yet quite certain. But if he does, it will be not because the Senators of his party believe in the bill but because they agree with him that it may help his re-election. We thus find that a desirable and altogether humanitarian piece of legislation is made dependent, not upon its inherent merits but upon its value

politically speaking, to a party candidate. Wilson can have but one term more—at the most. After next November, when his own ambitions will offer him no incentive, what will be the compelling motive to prompt the Bourbon Southern Senators to wise and helpful legislation? Answer: Nothing. The country desires progress in legislation in the next few years, it will not re-elect Wilson, nor will it continue a Democratic majority in either branch of Congress.

### LEST YE FORGET

There are some soldiers still living who have not forgotten Grover Cleveland and his pension vetoes. These men will smile grimly when Democratic orators begin to claim their votes for Democratic candidates on the ground that the Democratic party has been in favor of liberal pension legislation.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; unless you see out at once, and succeed by CATARRH, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

### WHOLESONE FEED FOR SOWS

Special Attention Should Be Given to Animal Expected to Farrow Strong, Healthy Pigs.

The brood sow that is expected to farrow good, strong healthy pigs should receive a little special attention. During the first few weeks of pregnancy there is little extra demand on the mother, but later in the period the fetus is developing rapidly, and the extra care is necessary.

The brood sow must have plenty of clean, wholesome feed. The feed

Extra Fine Specimen.

should not be fattening, but succulent and somewhat laxative. Roots, kale or fine clover hay are good winter green feeds. The hay is not green, but has the same effect on the digestion. Clover or alfalfa hay may be fed in racks where the sow can help herself at will. Do not force her to make her living altogether from this diet, but it supplements the grain very nicely. Don't starve the sow and expect to get a strong litter of pigs.

It is best to have the sows separated from the rest of the hogs, and if the old sows fight the younger ones make a further separation. It doesn't pay to subject the pregnant sow to punishment. Oftentimes they are found in the steer feed lot, where they are hunted around too much. Of course it is best not to shut them up in the farrowing pen until a few weeks before farrowing. They should be in there, however, long enough beforehand to become accustomed to the place. If you wait until the sow has picked her bed or nest, trouble may result. Keep the sow well fed, well exercised, and in clean quarters for best results when it comes to farrowing time.

### SHEEP REQUIRE DRY SHELTER

In Ordinary Climate House for Animals May Be Constructed of One Thickness of Boards.

Contrary to general opinion, sheep as well as any other class of farm animals require clean, dry shelter. It is especially important that the feet and fleeces be kept dry. If their quarters are dry and clean the sheep will stand very cold weather without discomfort or disease. There must be ample ventilation, for sheep, if closely crowded, sweat badly and quickly use up the oxygen in the air, but there must be no drafts as sheep are easily subject to colds.

In the ordinary climate the sheep barn may be constructed of one thickness of matched boards. It should be large enough to house the entire flock without crowding. Windows enough to permit lots of sunshine to enter and clean, dry bedding under foot are necessities. The lambing pens should be of warmer construction than the general shed.

### RIGHT WAY TO CATCH SHEEP

Get Him Either by Hind Leg or Placing Hand Under Jaw—Never Grab Him by the Wool.

It is improper to catch a sheep by its wool. Butchers know what it means to the poor animal, for it leaves a black or blue mark or bruise on the carcass, which interferes with the sale of it.

Catch a sheep either by the hind leg or by placing the hand underneath the jaw or neck. When using a crook, aim to catch a sheep above the gambrel joint, as there is danger of injuring the leg when catching it below this joint.

### WILSON FLEXIBILITY.

We do not see why there should have been any stir in the senate over the discovery that President Wilson has completely reversed himself in the matter of the proposed child labor law. Senator Borah was able to show that Mr. Wilson described this legislation in his "Constitutional Government" as unconstitutional, an "obviously absurd extravagance," carrying the congressional power to regulate commerce beyond the "utmost boundaries of reasonable and honest inference," and making it possible, if sustained, for congress to legislate over "every particular of the industrial organization and action of the country." That, we must confess, has also been the Evening Post's view. But the Evening Post and Senator Borah are old fogies, dating back to the time when it was the custom to have fixed beliefs and principles and stick to them. The senator has evidently not read Mr. Wilson's letter in explaining his change of front on the tariff commission—that it is only a narrow man, whose mind is stupidly closed to new ideas, who does not alter his opinions. By this test, Mr. Wilson is obviously one of the broadest minded men this country has ever produced, for he has changed his mind, to date, on the initiative, referendum, recall, woman suffrage, the tariff commission, tariff for revenue only, a permanent diplomatic service beyond politics, the merit system in the civil service, the proper place of Tammany Hall in the scheme of the universe, child labor legislation, preparedness, Bryan, a continental army—but why continue? It is a long enough list to prove that Mr. Wilson's political views are not fossilized by any fear of inconsistency.—New York Evening Post.

### FAVORS WOMAN SUFFRAGE.

Some time ago, a consideration of our economic conditions and tendencies, of the position of women in gainful occupations, of the nature and course of the demand, led me to the conclusion that the granting of suffrage to women is inevitable. Opposition may delay, but in my judgment cannot defeat this movement. If women are to have the vote, as I believe they are, it seems to me entirely clear that in the interest of the public life of this country, the contest should be ended promptly. I favor the vote for women.—From Mr. Hughes' speech of acceptance.

## GOOD COLT-BREAKING HINTS

Young Animal May Be Accustomed to Harness and Trained to Rein After Broken to Lead.

After the colt has been broken to lead he may be accustomed to harness and trained to rein. A horse should never be hitched to a wagon or ridden before he is broken to drive in harness, to stop when he hears "whoa," rein to the right and left, and to back up.

To familiarize the colt with bit and harness the "bitting harness," consisting of an open bridle with snaffle bit,

Well-Broken Farm Team.

Check and side reins, and surcingle with crupper, may be used.

Put the rigging on the colt, leaving the side and check reins comparatively loose and turn him loose in a small paddock for an hour. On the second day the reins may be tightened somewhat, but not left on for over an hour. The third day driving lines may be put on. Let the attendant lead the colt till he is not frightened at the driver walking behind. Dismount the attendant as soon as possible, and drive the colt for half an hour in a quiet paddock or lane where he will not see other horses. All that should be taught in this lesson is to go ahead, "buck to the colt, or tell him "get up," and use the whip to let him know what is meant.

It is essential to train both sides of a colt. He may become accustomed to objects seen on the near side with the near eye, but when the same objects are viewed for the first time on the other side with the off eye he may be badly frightened. Driving in a right and left circle will facilitate this training.

## BEST HOGS FOR FATTENING

Pigs Weighing From 130 to 150 Pounds Should Be Selected—Corn as Supplementary Feed.

For fattening, select pigs weighing from 130 to 150 pounds and in good condition. They should be fattened for at least 60 days and perhaps 75 if it requires so long to bring them up to a weight of 180 to 200 pounds. This is the most desirable weight at which to put hogs on the market and animals of this weight in good condition will bring top prices.

In feeding corn as a supplement to pasture, begin with a daily feed of three pounds of corn for a hog weighing 150 pounds. When full feeding has been well begun, one may feed all the corn the hog will clean up. Kaffir milo or feterita may be used instead of corn, but the amount required will be a little larger.

## BEST SHEEP-PEN LOCATION

High Ground, Sloping or Rough, is Preferable—Animals Do Not Thrive in Mud and Water.

The pens should be on high ground, preferably sloping or rough. If you have nothing but low, flat ground, do not buy sheep. They do not do well on low, level ground where they must be in slush, mud and water.

A sheep wants a hillside where it is clean, and where it will have dry bedding when it lies down. The feed and water must be clean. A shed is essential to keep off cold rains and snows and as a windbreak. A warm barn is not necessary until lambing time. One hundred ewes under favorable conditions should raise one hundred lambs.

## CORRECT FEEDING OF SWINE

## PASTURE SHEEP WITH COWS

Great Objection Is That Former Nibble Grass So Closely That the Latter Are Starved.

The great objection to pasturing sheep with cows is the fact that the sheep nibble the grass so close that the cows cannot get a bite. This would not be very troublesome if there was plenty of grass and the pastures were abundant. In dry weather where pastures are thin and overstocked the sheep would nearly starve the cattle out, and prevent their getting a fair share of the grass.

**Thin Animals Cold.**  
The thin animal is always cold. Put a blanket on it and give it cornmeal.

**Never Borrow Trouble.**  
Let us be of good cheer, remembering that the misfortunes hardest to bear are those which never happen.—Lowell.

**Book Agent's Palaver.**  
After you hear the agent talk about the books he's selling, you wonder how he can have the heart to part with them.

**Eat Fruit.**  
Disease germs are ever present in the mouth, throat, stomach, and bowels. If these germs can be destroyed by such agreeable medicine as fresh apples, peaches, pears, grapes, strawberries and raspberries, blackberries, currants and other similar fruits, why should we not partake of them freely, thus avoiding doctors' bills?

**Cause for Blueness of Air.**  
Pure air is blue, because, as Newton tells us, the molecules of the air have the thickness necessary to reflect blue rays. When the sky is not perfectly pure the atmosphere is blended with perceptible vapors, and the diffused light is mixed with a large proportion of white.

**The Soul That Spoke Hamlet.**  
The inspiration which uttered itself in Hamlet and Lear could utter things as good from day to day forever. Why, then, should I make account of Hamlet and Lear, as if we had not the soul from which they fell as syllables from the tongue?—Emerson.

Amen.  
Let us have peace and good roads and trust to God for the rest.—Pittsburg Kansan.

**Carelessness is Costly.**  
Carelessness in care of feed will cause a loss in the wool, as well as the loss in a poor, sickly lamb.

## WHAT ONE BIG MAN THINKS OF ANOTHER

President W. H. P. Faunce, of Brown University, is a pretty live-wire who keeps abreast of the times, has keen powers of observation, and knows a good man when he sees him. Here is what he has to say about the Republican Candidate for the Presidency:

"I have known Justice Hughes intimately since we were students together at Brown and have seen him a thousand times at work and at play. No man of our generation has a finer combination of character and intellect. Absolutely fearless, unselfish, loyal to American ideals, he is worthy of a nation's trust.

"All his friends know that behind the dignity of bearing is a rich fund of humor and good fellowship. Whether he is climbing a mountain, reading novels, playing with his children, resisting a political lobby or delivering the opinion of the Supreme Court, he is ever the same rugged, democratic, fair-minded American. His varied experience has given him wide horizon and sympathy with every aspect of American life.

"He possesses two qualities rarely found together—the judicial temper and the capacity for swift and resolute action. Under his administration the fog which now besets many public questions would be cleared away.

"His penetrating mind goes to the heart of any subject he selects and strips off the irrelevant at once. Such a mind is peculiarly needed amid the intricate problems that now confront America.

"We need more than good intentions. We need clear vision, sound judgment, strong will, unhesitating decision. In short, we need Charles E. Hughes."

## NOTICE OF CONTEST

Department of the Interior, United States Land Office, Contest No. 9420

Roswell, New Mexico, July 26, 1916

To Aurelio Lucero, of Ancho, New Mexico Contestee:

You are hereby notified that Ysabel Torres, who gives Ancho, Lincoln County New Mexico, as her postoffice address, did on July 26, 1916, file in this office her duly corroborated application to contest and secure the cancellation of your Homestead Entry, Serial No. 027714 made August 20, 1913, for Lots 1 and 2 Section 24, Township 4 S., Range 11 E., N. M. P. Meridian, and as grounds for her contest she alleges that you the said Aurelio Lucero had wholly abandoned said above described land and claim, and has been absent therefrom for more than one year last past, and is not now residing thereon.

You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be canceled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the Fourth publication of this notice, as shown below your answer, under oath, specifically responding to these allegations of contest, together with due proof that you served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.

## Need of Constructive Legislation.

Just before the European war broke out we had a million skilled mechanics out of work and nearly half a million railroad men were idle, together with nearly half a million freight cars. The railroads were suffering from lack of freight to carry to market, and industry was gradually becoming stagnant. In Louisiana two hundred thousand acres of sugar land were plowed up because of Democratic changes in the tariff law. It is generally conceded by all save the blind that the country was not progressing. Attempts were made to keep courage up by the predictions made by Secretaries McAdoo and Redfield and President Wilson of the great trade booms which were soon to appear but which failed to materialize until the outbreak of war on the continent.

**Wanted:—Any kind of plaster cement or pebble dashing work by a first class workman. Enquire Outlook.**

WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing genuine?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering.

It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.

Time's Revenge.

"The authorities wouldn't let me wear my new bathing costume," said the queen of musical comedy. "They said it was too risky."

"And you had to throw it away." "Or, no. I'll wear it in the show next season. Then they'll pay money to come and see it."

Red Cross Bag Blue makes the laundress happy, makes clothes whiter than snow. All good grocers. Adv.

One Definition.

"What do you mean by reverting to type?" "Lugging a controversy into the newspapers."

Vices are among the oldest things on record, yet history doesn't mention the loss of a single one.

Housework Is a Burden

It's hard enough to keep house if in perfect health, but a woman who is weak, tired and suffering from an aching back has a heavy burden.

Any woman in this condition has good cause to suspect kidney trouble, especially if the kidney action seems disordered.

Doan's Kidney Pills have cured thousands of suffering women. It's the best recommended special kidney remedy.

A Colorado Case

Mrs. Alvira Day, 227 S. Second St., Montrose, Colo., says: "I suffered from pains in my back and the flesh over my kidneys swelled. My hands were swollen. Doan's Kidney Pills strengthened and toned up my kidneys and benefited my system in every way. During the past year my health has been fine."

EATING PAPER IS NOT HARD

How Fanny Murray Outdid Feat of Von Der Goltz, the German Spy.

It is with a mitigated commiseration that one reads the story of how Von der Goltz, the German spy, finding himself recognized in Petrograd, "spent some hours eating two parcels of incriminating papers which he dare not burn in the grate."

As a feat of mastication, says the London Observer, Von der Goltz by no means holds the record. Paper is easily reduced to a pulp and swallowed (the ink acting as an appetizer), and the only difficulty in this case was the quantity. Leather is another matter, but apart from meals of hard-pressed explorers there are authenticated instances of meals of the kind.

What may be described as a paper meal de luxe was that of the famous Fanny Murray mentioned by Horace Walpole: "I lifted her spirit in an instance I heard of 't'other night. She was complaining of want of money. Sir Richard Atling immediately gave her a £20 note. She said: "D— your £20! What does it signify, clapped it between two pieces of bread and butter and ate it."

A homely girl is always willing to admit that a pretty rival hasn't any sense.

Infantile Paralysis Germ.

In a lengthy report to physicians the Rockefeller Institute announces the discovery of a germ in the brain and spinal cord of monkeys inoculated with infantile paralysis. The organism is said to be very minute, the difficulties attending its artificial cultivation and identification being so great that the discovery is as yet of little value for the purpose of early diagnosis of suspected cases. Monkeys inoculated with the micro-organism, developed a disease corresponding to infantile paralysis in human beings. From these experiments it was determined that the mucous membranes of the nose and throat of persons not yet with the disease may become contaminated with the virus and that without falling ill themselves they may become carriers of the disease. It was found in monkeys that the virus could be discovered six months after inoculation, and that drying and mixing with dust did not destroy it.
