HOW TO ACQUIRE STATE LANDS

Valuable Information on the Subject of Purchase of Lands Held by State of New Mexico

NO ACREAGE LIMIT SET FORTH BY DEPARTMENT

Among the numerous inquiries reaching the State Land Office, there is none more insistent than that which pertains to the preliminary proceedings necessary to the acquiring of state lands by purchase, and for this reason the explanations herein given are very explicit in order that those unfamiliar with such matters may be fully informed on the subject.

In the first place it must be understood that the 12 million acres originally granted to the state of New Mexico, to which reference is hereinbefore made under the caption "Finances and Taxation," were not set aside in any particular section of the state, but have been selected from unoccupied lands of the U. S. Government, located in the various counties of the state. The State Land Office has no complete list of these lands for distribution as it is awaiting final action by the U. S. Government on approximately three million acres which have not yet been clear listed,—which is equivalent to a patent to the state.

Therefore, the first step necessary for anyone desiring to acquire state lands in New Mexico, is to make a personal investigation of either the entire state, some county or particularly locality, as the case may be, and decide upon certain lands as desirable for investment. Having made this personal investigation, it is necessary, if one is not acquainted with land descriptions, to have a good surveyor, or some other competent person, give the exact description of the land as to section, township and range.

Having completed these necessary details, the next course is to come to, or communicate with the State Land Office, in the Capitol building at Santa Fe, and secure regular blanks, furnished free of charge by this office, upon which to make application to purchase the land, and in such application a description of the land must be given in accordance with that made by the surveyor employed to run the lines; the application must be properly signed by the applicant and sworn to by him before a notary public. It must be accompanied by an appraisal of the land, made by a disinterested party, and also at the time of making application the applicant must deposit a sum sufficient to pay all costs of advertising and expense of holding sale. The amount of cost varies, depending upon the charges made by local newspapers, and the distance

from the State Capital to the county seat of the county in which the lands are located, which makes a variation in traveling expenses incident to such sale; Again if a number of sales are made, the total expense of advertising and holding sale is divided among all the purchasers. Individuals sales cost about seventy-five dollars, but where a number of sales are effected at the same time the expense is often reduced to five or ten dollars each.

After the application is received by the State Land Office, an examination of the land is made for the purpose of determining the accuracy of the appraisal and also for the further purpose of ascertaining whether the sale of the land so selected will interfere with the sale of the balance of the tract, providing there is any such balance. If everything is satisfactory, notice is then given by publication that this land will be sold at public auction, as required by law.

This notice must be published for ten successive weeks in one newspaper nearest to the land, and in another one at the state capital for the same length of time, and must contain a full description of the land, as given in the application to purchase, together with the day, hour and place of such public auction. Of course, it is understood that others besides the applicant may bid on this land at the time of sale, and in all cases it will be sold to the highest bidder. The purchaser of the land is required, on the day of such purchase, to pay 4 percent per annum interest, one year in advance, on all deferred payments on the land, and one-tenth of the purchase price. If another than the original applicant for the land should be the purchaser, then the money deposited with the State Land Office to cover expenses of sale, will be returned to the original applicant for the land and the actual purchaser will be required to pay such expenses of sale, including publication of notice, etc.

If he prefers to do so the purchaser may pay all cash for the land at the time he buys it, or at any later date and thus secure his deed without further delay; or he may take possession of the land under a contract of sale entered into between himself and the Commissioner of Public Lands, the terms of which require an annual payment of 1-30 of the balance due on the purchase price of the land, and one year's interest in advance, on all deferred payments, at the rate of 4 percent per annum, payable on the first day of October of each and every year until the whole sum is paid, thus giving the purchaser thirty years in which to complete his payments, by simply paying yearly installments of equal amounts and the interest on all unpaid sums. When he has completed these payments in full he will receive a deed from the state conveying an absolutely clear title to the land.

ANOTHER BANK FOR CARRIZOZO

New Institution is Capitalized at \$25,000 and Will Open its Doors By January First

SPLENDID CORPS OF OFFICERS ALREADY SELECTED

The long rumored new bank for Carrizozo has at last materialized and the following lineup for this vitally important business project has been furnished us for publication in this week's Outlook:

The new banking firm is entitled, "The Lincoln State Bank," a name which contains the correct amount of local color and denotes square dealing and substantiality at one and the same time. The Lincoln State Bank incorporates under the now-existing state banking laws with a capital stock of \$25,000. All documents have been approved by the State Bank Examiner and full charter granted and business will be opened by January 1, 1917, or as soon thereafter as furniture and office fixtures, with safe and vault can be installed. The exact location of the new bank has not been determined, or else is not for publication at this writing.

The officers of the new financial institution are:

President—J. B. French
Vice-President—S. B. Fambrough
Cashier—F. W. Gurney.
The official board of directors is composed of:
J. B. French
S. B. Fambrough
F. W. Gurney
H. S. Campbell and
George L. Ulrick

With this management of men of proven business ability in various forms of financial endeavor nothing has been left undone to assure prospective customers that their business will be handled in a courteous and able manner.

Carrizozo has long been able to accommodate another substantial banking house, but it is only this fall that the growing demand has been fully satisfied in the complete crystallization of the new venture.

Banking business will continue good for both firms for Carrizozo's growth continues from day to day and it is a substantial and permanent improvement which we constantly see all around us. Also the sheep and cattle industry bids fair to experience no slump for many moons.

When conservative business men size up the situation as these men, our fellow-citizens, have done we may know that prosperity of the right kind is in the air to stay.

We welcome the new bank and bespeak for it your hearty support.

LOCATES IN CARRIZOZO

Edward F. Cox, an experienced printer and newspaper man from Oklahoma has been employed this week by the Outlook as foreman of the plant, solicitor and general master of all work. In Mr. Cox's employment the public of Carrizozo and surrounding country is assured of prompt and efficient handling of all their work in a capable manner. Moreover, Mr. Cox is an expert ad man and the merchants of town are advised that their advertisements will receive the very best attention possible. We consider ourselves fortunate to obtain the services of Mr. Cox at this particular time and take great pleasure in announcing to the public that he is here to stay.

SHOW WELL ATTENDED

The Atterberry shows which have been playing in Wetmore's opera house three nights this week have been well attended, and as these are the first road shows which Carrizozo has been able to accommodate for some time, the innovation is meeting with popular approval. The show has a good band, which although consisting of a few of the more instruments plays good rocking music in a thoroughly harmonious and acceptable manner. After the show Wednesday night the local democrats pulled off a general jollification consisting of anvil shooting and other forms of merry-making including a dance which was well attended.

TEACHERS CONVENTION

The Carrizozo teachers will attend the New Mexico Educational Association Convention this year in a body, as usual. The place of meeting will be at Santa Fe this year and the Chamber of Commerce of the little capital city is in charge of all available quarters in an effort to comfortably accommodate the big attendance which always registers in the convention office Thanksgiving week of each year. Of course many will be deterred from attending the big meeting this year, but others, impelled by a desire to see the many historic scenes of old Santa Fe, will brave the danger of sleeping out doors, and the unprecedented rate of one fare for the round trip which the railroads are allowing will prove an additional drawing card. As usual many speakers of ability and national reputation will be present to address the state's educators and various sectional meetings and round-table discussions will add to the practical value of the meeting in no insignificant degree.

Many taxpayers are interested in the cost of our county schools. As in private business we want the least cost that is consistent with effective management. The table above gives the cost per day per pupil; it was computed on the expenses for the school year ending August 30, 1916 and the total days attended during the term. A small expense in a district may not mean an inexpensive school, as but few pupils were reached making the prorata high.

Yours truly,
MRS. W. L. GUMM,
Supt. Lincoln Co. Schools.
Carrizozo, N. M., Nov. 13, 1916.

New York, Nov. 16.—Geo. H. Sines, vice president of the Brotherhood of Railroad Trainmen, in a statement made here today, said a railroad strike is a remote possibility, no matter what happens to the Adamson eight-hour law. The brotherhood leaders, he declared, have not even considered calling restrike as an answer to the injunction proceedings by the railroads. "I don't think there is anything in the constitution of any of the brotherhoods allowing a strike during injunction proceedings," said Mr. Sines. "If the supreme court decides the Adamson law is unconstitutional, the brotherhoods will be right back where they were before the law was passed."

"I doubt if the court decision would revivify the strike vote taken by the brotherhoods. In all probability, although I cannot say for a certainty, the unions would have to take a new strike vote."

Speedy and Easy Riding

There's little comfort in most low priced cars. You can't use their speeds. They jostle you—they ride roughly—they don't hold the road.

It has long 42-inch, easy riding, shock absorbing cantilever rear springs. In addition the 75 B Overland is a longer car—104-inch wheelbase. And it has 4-inch tires.

The \$635 Overland is different. It is not only the speediest of low priced cars—

Its smoothness and ease of riding at any speed would do justice to a much larger and heavier car.

But you can use the full speed of its powerful motor when you need it.

Come in and let us demonstrate. That's the best kind of proof.

Best Not to Copy Too Closely.
"After the general change of the political situation in the middle ages that took away the city-planning activities from the princes, and either annihilated them or put them in the hands of the citizens, those citizens in very many cases turned out to be very ordinary, short-sighted, and uneducated bourgeois." Therefore, concludes Dr. Werner Hegemann, German expert, it behooves city planners of today not to take too seriously the work of city planners of yesterday. Beauty is all very well, but there are other things to be considered.

A Wide Range.

A young woman with an aspiration to shine in the chorus applied to Andreas Dippel, who has managed opera singers all his life, for a position in his company. "To sing in a chorus of mine," said Mr. Dippel, "you must have a good voice." "Oh, but I have one," replied the girl. Mr. Dippel led her to the piano and asked her to demonstrate her vocal powers. Sitting at the instrument and then swinging around, she smiled sweetly and asked "Shall I sing 'The Chairs in the Parlor All Miss You,' or something light?"

American Surgeons in the War.

The satisfactory work done at American hospitals in two German cities has induced the German government to ask for more American surgeons of whose skill their German fellow surgeons "speak in terms of the highest appreciation." That is praise from a high source, and it is matched by the recognition given the work of American surgeons in French hospitals.

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Ineane Hospital." — Mrs. E. SHELDON, 5657 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

Feel Achy All Over?

To ache all over in damp weather, or after taking a cold, isn't natural, and often indicates kidney weakness. Uric acid causes many queer aches, pains and disorders of the organs. Well kidneys keep uric acid down. Tired, dizzy, nervous people would do well to try Doan's Kidney Pills. They stimulate the kidneys to activity and so help clear the blood of irritating poisons.

A Colorado Case
Mrs. J. B. Williams, 100 S. Cherokee St., DENVER, Colo., says: "I suffered a great deal from pain and weakness in my back and it felt as though a heavy weight were pulling me down. Nights, I had sharp pains through my kidneys and was so nervous I couldn't get much rest. The action of my kidneys was irregular and the kidney secretions were unnatural. My feet and ankles swelled, too. Three boxes of Doan's Kidney Pills corrected all these troubles and made me well."

DEMOCRATS CLAIM DE BACA IS ELECTED GOVERNOR.

Also Claim Election of W. B. Walton to Congress, but Republicans Have Not Conceded Either.

Santa Fe, N. M., Nov. 12. — In a public statement Saturday Democratic state headquarters claims the election of E. C. DeBaca governor over

E. C. DeBaca.

H. O. Bursum by a majority of 1,000 to 1,500, and the election of W. B. Walton to congress by a majority near 1,000.

The Republicans have not conceded either, but made no claims of a Bursum majority. The official count which will decide close contests will be completed in about a week.

Santa Fe, N. M., Nov. 13. — Returns from 609 out of 638 precincts in New Mexico give: Hughes, 29,296; Wilson, 31,480. For governor, 521 precincts give: Bursum (Rep.), 29,186; De Baca (Dem.), 30,238. For United States senator, 580 precincts: Hubbell (Rep.), 28,634; Jones (Dem.), 32,250. For congressman, 544 precincts: Hernandez (Rep.), 26,588; Walton (Dem.), 28,337.

Arthur Sellman, Democratic state chairman, claims that Jones' majority will be at least 4,000 and probably

Drinking of Water

(By V. M. PIERCE, M. D.)
The general conclusions of the latest Medical Scientists proves that drinking plenty of pure water both between meals and with one's meals is beneficial to health. It has now been proven by means of the X-rays and actual tests upon many healthy young men that the drinking of large amounts of water with meals is often beneficial. Therefore if you want to keep healthy drink plenty of pure water (not ice water), both with your meals and between meals. If you ever suffer from backache, lumbago, rheumatism, or any of the symptoms of kidney trouble—such as deep colored urine, sediment in urine, getting out of bed at night, frequently and other troublesome effects, take a little Anuric before meals. These Anuric Tablets can be obtained at almost any drug store.

Bumper Grain Crops

Good Markets—High Prices

Prizes Awarded to Western Canada for Wheat, Oats, Barley, Alfalfa and Grasses

The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grasses, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa.

No less important than the splendid quality of Western Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that country. A recent shipment of cattle to Chicago topped the market in that city for quality and price.

Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat this year than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, exceptional social conditions, perfect climate and other great attractions. There is no war tax on land and no conscription.

Send for illustrated pamphlet and ask for reduced railway rates, information as to best locations, etc. Address Superintendent Immigration, Ottawa, Canada, or

NOGAL

The electric power has been transmitted from White Oaks to the celebrated hopeful mine at Parson, and the machinery is now in full operation, so we learn.

Mr. Busch who is in charge of the Bender and Branum mines situated near Nogal is going steadily ahead again, and we expect excellent results soon from this great enterprise.

The youngest son of Joe Cochran constituted himself a bronco buster last Saturday in the absence of his father, and was thrown and dragged some distance fortunately no bones were broken.

The singing choir meets every Saturday and Sunday nights in Nogal with Prof. McDaniel and have a fine time. Come and join us.

Our deputy Game Warden sent the State Treasurer, O. N. Marron a check last Saturday for the sum of \$100.50 license fees.

TOWN TALK

FOR SALE—Six-room Adobe House, also 80 acres Patent Land Adjoining Highland Addition. Pencil For price and terms see W. Perry, at Lumber Yd.

The demonstrations of the Majestic range which have been going on at Kelley & Son's this week have proven interesting and instructive as well as a boost to this particular make of cook-stove. Hot biscuits and coffee were served promiscuously and a miniature Majestic which was kept on the pavement outside delighted the youth of the town. It pays to have progressive merchants who handle the right kind of stuff backed by substantial and convincing advertising.

Mrs. A. W. Adams is enjoying a visit this week from the family of her brother, Mr. Brunk who is in the employ of the State Penitentiary at Santa Fe. They made the trip in their Maxwell car, but ran into a washout about 10 miles and spent the night Monday in the wintry wind.

Ed Kelley and party returned Sunday from a hunting trip to the Rio Grande and bagged a number of ducks on the strength of their outing.

Walker Hyde motored to Santa Rosa Tuesday on business.

Those who made the trip with their cars to Capitan Saturday to witness the basket ball game were Miss Ida Grumbles, Miss B. C. Merfant, Wayne Hamilton, Deane Herron, T. A. Spencer and B. H. Horton. Part of the crowd returned immediately after the game, while the remainder attended a dance in Capitan that night.

The basket ball game at Capitan last Saturday proved an excellent and interesting game, although Capitan was victorious by the score of 15 to 7. The little Carrizozo team had the big E. C. H. S. team somewhat puzzled, at the conclusion of the first half, as the score stood 7 to 6 in favor of Carrizozo, but the second half proved a genuine rally for Capitan. C. H. S. was unable to make any other scores before the final whistle sounded. Friday afternoon Tularosa will be in Carrizozo for basket ball. School will be dismissed at 2:30 and all the local merchants will close, by special agreement, to take in the game. A team of Carrizozo boys will play the Tularosa school team and the girls will meet the young ladies for a game.

Government reports show this to be the coldest November in history, the lowest temperature ever recorded for this month having been reached Tuesday of this week. Snow was reported almost as far south as Ancho which is some twenty miles from here and the Pecos Valley also had a considerable amount of snow.

HOW TO ACQUIRE STATE LANDS

(Continued from front page.)

During the years pending final payment on the land, the purchaser pays taxes on his equity therein, and on all improvements placed on the land.

It is not necessary to live on state land in order to secure title to it, as it may be purchased either as an investment and left idle for any length of time, or it may be bought for a home and improved, or used for grazing purposes, whichever the purchaser desires.

The least amount of acreage that may be purchased is 40 acres or a fractional lot which sometimes contains a little less than 40 acres but there is no limit to the largest amount that anyone may purchase. He is at liberty to buy as many acres as he can pay for.

Lands lying east of the line between ranges 18 and 19 east of the New Mexico Principal Meridian, cannot be sold for less than \$5 an acre and lands lying west of that line cannot be sold for less than \$3 an acre.

Lands which are, or may become susceptible to irrigation under any United States Government Reclamation project, cannot be sold for less than \$25 an acre.

State school lands, which include each township, cannot be sold for less than \$10 an acre unless they are contiguous to other state lands, in which case they may be sold for the same price obtained for such state lands adjoining them.

LOCAL UNITED STATES LAND OFFICES.

Local United States Offices, and the counties in which land over which they have jurisdiction is located, are as follows:

Clayton, Union County, has jurisdiction over lands in Colfax, Mora, Quay, San Miguel and Union counties.

Fort Sumner, Guadalupe County, has jurisdiction over lands in Chaves, Curry, Guadalupe, Lincoln and Roosevelt counties.

Las Cruces, Dona Ana County, has jurisdiction over lands in Dona Ana, Grant, Luna, Otero, Sierra and Socorro counties.

Roswell, Chaves County, has jurisdiction over lands in Chaves, Eddy, Lincoln, Otero, Socorro and Torrance counties.

Santa Fe County, has jurisdiction over lands in Bernalillo, Colfax, Guadalupe, McKinley, Mora, Rio Arriba, Sandoval, San Juan, San Miguel, Santa Fe, Socorro, Taos, Torrance and Valencia counties.

Tucumcara, Quay County, has jurisdiction over lands in Curry, Guadalupe, Quay, San Miguel and Union counties.

Will the party who found the crocheted yokes on street back of the court house, please return them and receive reward.—Mrs. C. S. Jones.

THIS essentially a young man's store.

This is a store that thinks with and lives with and serves young men.

This is a store that never seeks to sell a middle-of-the-road style to a young man in search of a truly youthful model.

This is a store that never goes after the valued trade of young men in any half-hearted way. There's no limit to the size, pattern or fabric range in our showing of young men's suits and overcoats.

Here you will find those models which show the genius of this country's leading designer of garments for Young America.

Here are the far-famed

KUPPENHEIMER CLOTHES

At \$20, \$25 or \$30

Mark these prices well. Come here and try on a few of these suits. Compare them, stitch by stitch, at these prices, with anything offered heretofore at a third more.

This store seeks the undivided patronage of young men by giving its undivided attention to serving them satisfactorily.
