VOL. NO. 20

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, MAY 4, 1917

PRICE \$2.00 PER YEAR

COMMENCEMENT EXERCISES TO BE HELD ON MAY 23

The Carrizozo schools will bring to an end of the present term to the work with the high-school commencement exercises May 23rd, thus closing the most successful year in the history of the institution. The attendance has been larger and more consistent than ever and the work has been prosecuted with energy and faithfulness.

The first event of the commencement season will be the inter-society contest between the high-school pupils representing the rival societies. There will be declamations for girls, declamations for boys and a debate between a team of two from each organization. A silver trophy cup will be the prize going to the side winning all or the best two out of the three events. The program will be rendered at the Methodist church at 8 o'clock Friday evening, May 11. An admission fee of ten cents will be charged all except the high-school and eighth grade pupils. Special music—chorus, solo and instrumental—will be rendered. All those who are friends of public speaking and argumentation for the young people should not fail to add their support to this new feature of the commencement season.

On Friday afternoon those pupils who have won the signal honor of being neither absent nor tardy thruout the entire term of nine months will entertain the public, beginning at 2:15, with such numbers as their ability and faithfulness make possible. These programs have always been a source of great interest, and the unusually large number winning the distinction this year assures an excellent program. Many others were holding out faithfully until late in the term, but epidemics of all kinds and descriptions wrought havoc with all alike. Some twelve are still qualified to receive the special certificate and take part in the honorary program. Don't forget the date.

The baccalaureate sermon will be delivered Sunday evening, May 20, at 8 o'clock at the Methodist church by Rev. Edward J. Hoering, of Tucumcari. Since Mr. Hoering is one of the Episcopal church's most able rectors, his address should be of great inspiration to those who are to receive the high-school diploma on Wednesday night following.

Class Day, the big night when the seniors will deliver their graduating orations, will be held on Tuesday evening, May 22, at eight o'clock. Special interest is attached to the orations this year in that a handsome gold medal will be awarded to the pupil who makes the best impression upon select judges, who will render their decision both from the standpoint of thought

and composition and with regard to the delivery of the production before the public. Needless to say, the orations will be representative of each pupil's best efforts since the honor will be an especial token of attainment to the successful graduate.

One of the new commencement features, and one from which great mutual benefit should result, is the County Eighth Grade Commencement which will be held in Carrizozo Wednesday morning, May 23, at 10 o'clock. Pupils from the most prominent rural schools of the county who have completed the eighth grade work with a successful state examination have signified their intention of joining with the eighth grade graduates and the state diploma will be presented during the course of an attractive program in which all will have a part. Colonel G. W. Pritchard, one of the state's most prominent attorneys, will deliver the address to the class, and an effort is being made to have State Superintendent Wagner present to deliver the diplomas. Free entertainment will be furnished all pupils who take part in the exercises together with their teachers, and Carrizozo proposes to make their visit here during commencement one of rare pleasure and profit. Special sacred music will be rendered by the high-school chorus. The services have been placed at the evening hour to accommodate the largest number of patrons.

The address to the graduates and the delivery of the diplomas will take place Wednesday evening, May 23rd. Dean Hodgkin of the University, one of the state's most noted educational pioneers, will address the class. His educational standing in New Mexico assures him an enthusiastic greeting. Special music will be rendered at this as well as at all the exercises. No charge for admission will be made except for the contests between the two societies. You are cordially invited to add your inspiration to this, the biggest occasion of the year.

MRS. A. J. ROLLAND ANSWERS CALL OF GRIM REAPER

After a brief illness Mrs. Marjorie Rolland, wife of A. J. Rolland, local druggist and treasurer of Lincoln county, died at Hotel Dieu in El Paso where she was removed Thursday afternoon to undergo an operation which it was thought might save her life, Friday afternoon at 5:50 o'clock. Peritonitis following the operation was given as the cause of her death. The remains were brought to Carrizozo Saturday accompanied by Dr. Lucas, Mr. Rolland; Mrs. Rolland's mother, Mrs. W. C. McDonald, and Ex-Governor W. C. McDonald. Funeral services were held from the family residence in the western part of the city at 11 o'clock Tuesday morning, conducted by Rev. E. J. Hoering, rector of the

Episcopal church of Tucumcari. The funeral was attended by one of the largest concourses ever witnessed in Carrizozo upon such an occasion, and the floral offerings surpassed in lavishness and beauty anything ever seen here. All business houses were closed during the funeral hour. Interment was made in White Oaks cemetery. Mrs. Rolland is survived by a husband, two small daughters, one sister, Mrs. T. Spencer, and her mother, Mrs. McDonald of this place, who all have the community's sincerest sympathy in their sad bereavement.

As such a life was a blessing and benefaction to all with the sphere of its influence so is the death of such a one a public misfortune, as well as an irreparable loss to the home circle made desolate by her departure. It is difficult to pay a fitting tribute to her memory—one whose every day life was embellished by the most charming and loveable attributes of her sex. Under all circumstances, she seemed born to inspire the love and respect of all who were so fortunate as to be acquainted with her. No one was more willing to aid the suffering, cheer the desponding, sustain the weak and to throw over the frailties of our race the mantle of Christian charity, and when illness and death came to her, as it comes to all, neighbors and friends vied with each other in acts of loving kindness and tender solicitude, and many were the willing hands and hearts ready to assist in every way possible in an effort to avert the inevitable.

But love and skill were equally of no avail. The great destroyer had placed his signet on her brow and today, hundreds who loved her living, mourn her dead. In the presence of such a sorrow, how cold and impotent are the words and how doubly deep

would be the grief over the grave did not the rainbow of Christian hope span the dark grief between time and eternity, and such bright lives inspire the belief that there is a better world beyond, where, free from the corroding cares of the earth, the good and true are reunited "after life's fitful fever."

"New Mexico" Christened.

The "New Mexico," the largest battleship in the world, was christened Monday of last week at the New York navy yards. Miss Margaret DeBaca, daughter of the late Governor DeBaca, broke a bottle of champagne under the bow. Following this Miss Virginia Carr, maid of honor, smashed a jug filled with water from the Rio Grande and Pecos rivers against the ship. The "New Mexico" burns oil, has a displacement of 32,000 tons, is 620 feet long with 30 feet draft and has a speed of 21 knots. She will carry a main battery of twelve 14-inch guns, twenty-two 5-inch guns, four 6-pounders, four anti-aircraft guns and four torpedo tubes.

Next Conference at Tucum.

Rev. Arthur Marston returned the first part of the week from Albuquerque where he had been in attendance at the district conference of the Methodist Episcopal church, South, which closed its session Sunday night. Rev. Marston conducted services Sunday morning at Albuquerque. Tucumcari was selected as the place for holding the next annual conference.

Section Men Get Raise.

A raise for the section men is announced on the El Paso & Southwestern railroad. The raise is from \$1.25 to \$1.75 per day. The high cost of foodstuff is the reason given by the company for the advance in the wages of its section men.

SUCCESS IN WAR RESTS WITH FARMERS, SAYS PINCHOT

Gifford Pinchot, who is making a tour of the south, urging increased food production, is sending out to the newspapers of the country the following letter under his personal signature, which contains considerable food for thought:

"In this great time, when every citizen must do his part, the President has made his chief appeal to the men who live on the land. He is right in doing so, for the safety of our country just now is in the hands of the farmers. What I mean is not merely our safety and the safety of our allies in the matter of food. I mean that the safety of the United States against foreign invasion hangs on the decision of the farmers of the forty-eight states.

"The two great weapons in this war are arms and starvation. The war against German arms will be won or lost in France—the war against starvation will be won or lost in America. The Kaiser cannot whip the French and English armies and the English navy while England has food. But it is still possible that the German submarines may be able to keep food enough from reaching England to starve her into submission.

"If the submarines win, the first item in the Kaiser's terms of peace will be the English fleet. With the English fleet in his possession, the Kaiser will be master of the world.

"What will happen to us then? Every man who stops to think knows the answer. We shall have money, food, labor, land everything that is desirable in

(Continued on page three.)

Planting for the Nation's Life

War will tax to the utmost the nation's resources in men and money, manufactured products and to do this. This is not an alarmist view, but is held by the highest authorities. The president said in his proclamation on April 15: "... and to the shipbuilder the thought that the life of this war depends upon him. The food and war supplies must be carried across the seas no matter how many ships are sent to the bottom. The place of those that go down must be supplied and supplied at once."

The spirit of 1776 and 1861 was manifested by shouldering a musket and marching to the battle line. The order changeth. The spirit of 1917, no whit less patriotic, will be expressed by America in furnishing munitions to win battles and in taking food from the fertile soil. For the next six months, at least, the American who follows the plow or swings the hoe will be not only as patriotic, but just as heroic, as the soldier who is training to go into the trenches.

The food supply of the world today is alarmingly short, even the submarines should spread no more of it upon the bottom of the seas. When it becomes necessary to furnish enough for the scourges of the sea to prey upon, and then to supply the nations that are fighting for humanity and the preservation of civilization, it is easy to see that the task for Americans really is stupendous.

Men and women in every state in the Union are rising to the occasion and doing their whole duty. The biggest and busiest men in New Mexico, answering the call of Governor Lindsey, have abruptly quit their work and gone to Santa Fe to form the Permanent War Committee, which is organizing all of the state's latent resources. They are serving without pay and without any hope of reward, other than their own consciousness of duty well done. In addition some of them are spending thousands of dollars of their own money, to plant beans, potatoes and other food crops.

Unless New Mexico should make an enormous increase in her food production, some of her citizens some of her citizens will go hungry before the beginning of another year. Not to put too fine a point upon the situation some of those with small earning capacity may starve. Every square yard made to produce food will tend to relieve the situation in proportion to its area. How much have you planted? If unable to plant, how much have you done to help some one else to do the actual planting? ? ? ?

Feeding 25,000,000 Cats.

The common house cat no doubt has a legitimate place, and those who enjoy her society, or need her good offices as an alleged mouser and rater, are entitled to the same for the purposes mentioned. The following facts, however, are a matter of common knowledge:

1. Most people keep cats at the instigation of the party of the second part.
2. People who need or want one cat generally have two or three.
3. Very few people feed their cats, as they catch more "mice" when hungry.
4. Very few cats hunt mice,

as it is easier to catch birds.

5. One good mousetrap is worth half a dozen cats any day.

Figuring that the American nation possesses and supports one cat for every four or five persons, our cat population no doubt numbers 25 million feline souls. If one out of every four cats kills five birds per season, it takes 31,000,000 birds per year to provide our "mousers" with their afterdinner smile. This is the way the Ladies' Home Journal figures it, and it is gratifying to note that this powerful paper has undertaken a systematic campaign of publicity on the subject.

We believe that the Journal's figures are too conservative. There are many half-wildcats which kill literally hundreds of birds each year, including many upland game birds. But even accepting the Journal's estimate, our cats are far too expensive. What is the answer?

The answer is: LICENSE CATS, and make the possession of an unlicensed cat a misdemeanor. The license should be the same as the dog license, but both should be made a state rather than a municipal requirement. Regulation would thus reach into the country districts, where it is worse needed than in cities. City cats, to their credit in heaven, at least kill a few English sparrows.—The Pine Cone.

About Errors.

There are errors which no wise man will treat with rudeness while there is a probability that they may be the refraction of some great truth still below the horizon.

It is only an error of judgment to make a mistake, but it argues an infirmity of character to adhere to it when discovered. The Chinese say, "The glory is not in never falling, but in rising every time you fall."

To make no mistakes is not in the power of man; but from their errors and mistakes the wise and good learn wisdom for the future. Sometimes we may learn more from a man's errors than from his virtues.

While the nation is seeking methods of greater food production why would it not be well to turn the millions of acres of rich lands which are now devoted to tobacco culture over to the raising of food? Tobacco is not a necessity; it is an evil. It does not sustain human life, but is one of America's great national extravagances. If drastic measures are to be resorted to in making the volume of food greater, why not substitute things that are worth while—things that the people of America really need—for this unnecessary and harmful luxury?

That Colonel Roosevelt was a long-headed, far-seeing prophet, there now seems no shadow of doubt. If we had taken his advice twenty years ago, and gone into the family business as he suggested, we would now have legions of brave sons ready to sacrifice on the altar of our country. Verily, Teddy, you are a wonder.

China, it is reported, is about to enter the war on the side of the United States. If it does, reports say, it will be able to put an army of 600,000 into the field. The Chinese have had much cause to recognize America as a friend, and the fruits of the friendship are about to be manifested in a substantial way.

There is still some work for idle hands to do. Grow tons of army beans, bread wheat, horse oats, eating spuds, and a few other luxuries for instance. The truth never flickers and what Henry George said about the need of men is still a pregnant fact.

When all these back yard gardens all over the United States begin to yield of their increase, perhaps one may be able to get a mess of onions without paying the price of a string of pearls for them.

Colonel Henry Watterson, of Kentucky, enjoys the distinction of being the first man to say, "To h— with the kaiser," and also the distinction of living long enough to see it made unanimous.

The dictum has gone out that there is to be no more joy riding, nor no more big dinners. We don't mind being deprived of the joy riding, but that other paragraph binds a little.

Arthur Brisbane, who says the world's greatest men have blue eyes, spoke unthoughtedly. He never saw ours.

Plant some more beans.

Unique Memorial Completed

Mary Baker Eddy Memorial, Mt. Auburn Cemetery, Cambridge, Mass.

The beautiful memorial to Mary Baker Eddy, the Discoverer and Founder of Christian Science, has been turned over to The Christian Science Board of Directors by E. B. Barlow of New York City who held the contract for its construction.

The memorial, which is at Mt. Auburn cemetery, Cambridge, Mass., has required over a year and a half to complete. The fund for its construction, amounting to over \$150,000, was first announced by the directors in June, 1914, and was some time ago fully subscribed. These contributions have been made as expressions of sentiment by Christian Scientists throughout the world.

The site on which the memorial is located is not only one of great natural beauty, but on account of its grade has rendered possible a more picturesque and interesting treatment architecturally than would be possible on a perfect level lot. The plot, which is approximately 50 feet square, slopes gradually from the level of the roadway to the lake with a drop of about ten feet. The memorial consists of a circular open colonnade of eight columns, resting upon a stylobate of three steps, surrounded on the front by a circular platform slightly above the natural grade, from which platform a double flight of steps leads

to a lower platform at the lake's edge. The colonnade has no pylons and is merely a screen of columns open to the sky, including a flower-grown circle.

The material used for the memorial is Bethel white granite, the inscription in the frieze and upon the top of the pylons being of white bronze set deep into the stone work. The detail, which on account of the size of the reproduction is only indicated, is entirely floral in form and free in treatment, the wild rose and the morning-glory being used as the main motives. It is interesting architecturally to note that while it is extremely free in treatment and not at all conventional, it is generally very classic in feeling. The extreme width of the memorial is about fifty feet, and the colonnade is eighteen feet in diameter. The columns themselves are fifteen feet in height and are similar in general character to those in the Opeydra of Andronicus of Cyrrhus. The large pylons were exhibited at the American Institute of Architecture in New York a short time ago and experts pronounced them the finest pieces of carved granite ever executed.

The architect is Egerton Swartwout of New York City who designed the new George Washington memorial, the new Missouri state capitol and the new Federal building in Denver.

WHEN DOCTORS DIS-AGREE

SUCCESS IN WAR DEPENDS UPON FARMER

(Continued From Front Page.)

the world except the power to protect what we have. Experts estimate that it will take us nine months to get ready to meet a German army of even 150,000 men, with modern artillery. Under such circumstances, would the Germans treat us better than they have already treated Belgium and France?

"Even if the armies of our allies should crush the German military power this summer, before the shortage of food can reach the point of want, the world would still need vast quantities of American food. But if they do not, only one course can make us safe, and that is to grow food enough on our farms for ourselves and our allies, and to put ships enough on the sea to carry the food, in spite of the submarines, to the men who are fighting our fight.

"If the war lasts beyond this summer, it will be the American farmer who will win or lose the war, who will overcome militarism and autocracy, or allow them to spread and control the world, ourselves included.

"This is no fanciful picture, but sober fact. Many a man will make light of it until he comes to think it over, but I venture to say that few will treat it lightly after careful thought. It is no more impossible than the great war itself appeared to be, only a few days before it began.

"It is true that we can greatly increase the available food supply out of grain now used in making liquors, and by reducing household waste. But when these two things are done, and done thoroughly, they will not be enough. The final decision will still rest in the hands of the men who raise our food in the first place.

"The clear duty of the Nation is to guarantee the farmers a fair price for their crops when

grown, and a reasonable supply of labor at harvest. The clear duty of the farmer is to raise food enough to win this war for democracy against kaiserism.

"No such responsibility has ever rested on any class of men since the world began as rests today on the farmers of America.

"Sincerely yours,
"CIPRIAN PINCHOT."

An Omission.

In enumerating the list of survivors of Mrs. A. J. Rolland whose death is chronicled on the front page of this issue of The Outlook, we inadvertently omitted the names of one sister, Mrs. M. B. Parker, who resides in California, and two brothers, J. J. McCourt of El Paso and P. M. McCourt, all of whom were here to attend the funeral.

Opening Game Sunday.

The opening game of the baseball season will be played on the local diamond Sunday afternoon at 2 o'clock. Contestants will be Carrizozo and the Roswell Military Institute. Admission, 25c.

Mrs. H. B. Hamilton went to El Paso Wednesday.

Organizing Red Cross

Mrs. F. F. Mudge is organizing an auxiliary Red Cross society in Carrizozo, the parent organization being El Paso. Dr. Brown, of that city, heads the society for this section. Mrs. Mudge is now in El Paso taking steps to complete the local organization.

About 30 members have already been secured here.

Women to Aid in Campaign.

A state organization of women to co-operate with the war committee in its preparedness campaign will be formed at a meeting of women in Santa Fe tomorrow. Those who attend the meeting will be selected as delegates by the organizations of women in this county, and to effect these organizations the war committee has designated one woman in each county, and has wired a request for immediate action. The request reads as follows: "This committee has selected you to effect an organization of women of your county for war purposes. Please have such organization send one delegate to Santa Fe May 5th to effect a state organization which will select an auxiliary committee to co-operate with us along such lines as may be agreed upon." Mrs. William C. McDonald was selected to represent Lincoln county.

H. Lutz, Jr., Enlists.

Henry Lutz, Jr., son of Mayor Lutz of Carrizozo, went to Roswell Thursday where he enlisted in the Officers' Reserve Corps. Owing to the fact that Henry has had several years of military training and is a bright young man it is a natural consequence that we may expect to soon hear of his being commissioned an officer of high rank in the regular army.

B. F. Goff, of this place, is in Santa Fe serving in federal court as a member of the petit jury.

Cashier E. M. Brickley of the First National bank, was a business visitor to Willard Friday of last week.

Lost—Blue crochet bag. Finder please notify Miss Jennie Mae Smith, Oscuro, N. M.

Ex-Governor W. C. McDonald was a business visitor to Tularosa one day last week.

Mrs. E. J. Shulda and children spent Sunday in Alamogordo visiting relatives.

We buy hides and pelts—highest prices guaranteed. Carrizozo Trading Co.

Assistant District Attorney R. L. Hitt and family motored down from Willard last week and were the guest of friends. Mrs. Hitt and children returned home during the first part of the week while Mr. Hitt remained to look after matters in the district court.

Not having had as much left over on payday as we had estimated, we have changed our mind about subscribing to those billion dollar loans made to the allies.

For Sale—Parke Davis Company's Blacklegoids.—The Tits worth Co.

Germany made France a republic and now it looks as tho France will soon be able to return the compliment.

Doesn't it just beat the band, how many men we have in New Mexico ready to furnish advice?

Met a Man.

The editor met a man the other day who declared in all seriousness that he liked the Outlook. Thought we'd mention it to you—maybe you will want to stand as well on our subscription books as he does. Truth to tell we'd like a lot more new subscriptions; they're coming in right, along but you know the raw cash is good to look upon these days and there's no denying it, the Outlook is a mighty good little newspaper. The cost to you is \$2.00 a year. Bring it in or mail it in. Here's the address if you can use it: Carrizozo Outlook, Carrizozo, N. M.

Block to Success.
Most people would succeed in small things if they were not troubled with great ambitions.

The True Test.
Only what thou art in thyself determines thy value; not what thou hast.—Auerbach.

Safeguarding the Nation's Money.
The bureau of engraving and printing at Washington, D. C., where all paper money, postage and revenue stamps and valuable documents are printed, is one of the most carefully guarded buildings in the world. It is protected by some of the most modern electrical burglar alarms, and armed night watchmen patrol the plant.—Popular Science Monthly.

Of Course.
"Why do you always have to be examined by a doctor before you can get life insurance?" "I presume the company is anxious enough to carry it."

Leave It to the Enemy.
Except in cases of necessity, which are rare, let your friend hear unpleasant news from his enemies; they are ready enough to tell them.

Peculiarity of the Brain.
In going to hear out the claim that the human brain is so constructed that it can hear great hills better than lesser ones off repeated, is the fact that a traveler in the wilds of Central Africa will face the tragedy of a surprise savage man or beast with intelligent courage, and yet be driven to the death of madness by the insistent attacks of minute insects.

The Date Palm.
No tree is more graceful and beautiful than a date palm, and the plants the Arizona university have concluded suitable ornaments for lawns and parks. At the same time they grow an appetizing article of food. In northern Africa, the native habitat of the date palm, the fruit is a common article of daily diet.

Growing Dates.
Dates are imported to the United States from the warm countries of southern Europe and Africa, but if the efforts of western experimenters are as fruitful of results as the trees grown have been full of fruit, it may be expected that this country will before long grow all its own dates, according to a writer in the Scientific American.

When Soft Metal Cuts Hard.
A bar of hard steel is cut rapidly with a revolving disk of soft iron. This is caused by the intense heat produced by the friction; the heat, being concentrated at one point on the steel bar, melts this, while the revolving disk distributes it over its circumference, which is kept cool by the current of air. A bar 31 millimeters thick is cut in two by a disk 30 centimeters in diameter and 2 millimeters thick revolving at 80 meters a second in from eight to ten seconds.

Amending the Constitution.
To amend the federal Constitution a two-thirds vote in house and senate and ratification by three-fourths (not two-thirds) of the states is necessary. A national law, of course, supersedes state law in conflict. A federal amendment adopted by three-fourths of the states becomes the law in all the states—those voting against it included.

Adds to the Difficulties.
Another thing that upsets the equilibrium of the situation is that there are so many men who would rather spend ten hours at night trying to win \$1.45 at poker, than to spend eight hours a day working for a \$10 note.

Playing Possum.
When caught, the possum will feign death, all the while looking out of the corner of an eye, watching an opportunity to escape. And from this comes the well-known expression, "playing possum." It should be said, however, if one is lucky enough to get a Kentucky dressed possum in the market, there is no danger of its escaping. It has then arrived at a period in its career when possum play has ended.

Cleaning Books.
Dust can be removed by a hot bread or very soft rubber. Dust, sugar marks and grease spots also yield readily to wall paper cleaner, which is usually sold at local stationery stores. Ink stains can be removed by oxalic acid, followed by lime.

An Arab Custom.
The Arabian head-dress is really a Manchester table cover folded diagonally. The Arabs do not take their headcloth off when they enter a house. They uncover their feet instead. The Arabs do a number of other things contrary to our custom. They shave their heads but not their faces. When they beckon to a person to come to them, they do not turn their fingers upwards as we do. No, they turn them down, and then the Arab knows that he is wanted.

Thought Measurement.
"A man is as big as the terms in which he ordinarily thinks," remarked the wise citizen. "That is dreadful!" exclaimed Miss Cayenne. "My father is a scientist, and he is accustomed to getting his ideas with a microscope."—Washington Star.

Sorrow is Rust.
Sorrow is the mere rust of the soul. Activity will cleanse and brighten it.

Best Things.
The best things are not bought and sold.

Care in Tuberculosis.
Living with a case of tuberculosis is not particularly dangerous if the patient and those around him will exercise proper care. Sputum cups or paper napkins should be used for all discharges of the nose and throat, as well as for matter coughed up from the lungs. Handkerchiefs should not be used, since it is an expensive matter to destroy them, and washing them is not safe unless the soiled handkerchief is boiled immediately after use.

Java's Coca Trade.
For many years the Dutch colony, Java, has controlled the market for coca in the East. At least so far as the material used in the manufacture of quinine is concerned. On a much larger scale than the island has, of late, been developing the demand for coca leaves, the raw material from which cocaine is derived.

An Aid to Virtue.
A true lover of flowers can scarcely be very wicked. Beauty and goodness are the twin sisters. Let us cultivate the one and the other will come naturally and dwell with us.

Ruth's Discovery.
Ruth has a grandfather, but no grandmother. The last summer a little playmate had his grandparents come for a visit, and Ruth saw them. She hurried home, shouting at the top of her voice: "Mother, mother! John has a lady grandpa!"

About Deep Breathing.
Many people act on the principle that because deep breathing causes "dizziness" it does not agree with them. But if they will practice the breathing less vigorously they will find that gradually they can take all the deep breaths they want without the slightest discomfort. Take ten breaths in ten seconds and gradually decrease the number of inhalations.

Distance Lends Enchantment.
She—"Do you think it will be all right for us after we are married to settle a couple of squares away from my family?" He—"I was going to say a couple of states."

Lines to Be Remembered.
As good almost kill a man as kill a good book; who kills a man kills a reasonable creature, God's image; he who destroys a good book kills reason itself.—Milton.

Calesthenics of Speech.
It is better to be able to turn your hand to anything than to put your foot in it.

That's So.
If everyone would mend one, all would be amended.

The Best Trap.
The trapper who has to buy traps, baits and other trapping supplies should be sure to get the best that can be had. For while the first cost may seem higher, the best goods are such the cheaper in the end.

Platonic Friendship.
"Do you believe in platonic friendship?" "Well, not altogether. My personal opinion is that I'd believe more in platonic friendship if it were carried on with the full knowledge and consent of the husband of the one and the wife of the other."—Detroit Free Press.

Medicine Dropper for Tonic. When using an expensive hair tonic or hair-dressing the most economical and satisfactory way is to use a bent glass medicine dropper. This permits the exact quantity of fluid to be deposited where needed at the roots of the hair.

Snails as Barometers. Keeping a snail to tell you if it is going to rain. Snails are excellent barometers. If there is rain in the air snails will seek shelter under leaves, in the bark of a tree or any other handy place.

Impotent Life. The only utterly impotent life is the loose life, the life that has no center, no rest, no point of obligation, no link of enslavement.

A Hint to Snorers. If you are the object of continual fibes from your family on the score of snoring, try fastening vertical strips of Isinglass plaster over the lips.

As Charley Saw It. Charley, aged three, was spending the day with his grandparents. The grandfather wanted to read, but Charley was playing boisterously. "Charley, sit down and keep quiet!" said the grandfather sternly. Charley dropped on the nearest seat and sat looking from one to the other for possibly a minute, then said, "Grandpa! Grandpa!" "Well, what is it?" said the grandfather. "Why, you and grandpa just sound as if you were dead!"

Beware of Ointments for Catarrh that Contain Mercury
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

NOTICE OF FORFEITURE

To A. H. Harvey, Esq.,
Carrizozo, N. M.

Under and by virtue of that certain partnership agreement, entered into by certain parties more fully stated herein, the memorandum of which recites that all parties whose names are subscribed to the recited shall be equal owners in that certain Lode Mining Claim, known as and called the HONDO, said original location notice, filed and recorded as required by law, was filed and recorded in Book A-1 of the Mining Records at Page 172 and HONDO Mining Claim is therein fully described, and same is situated in the Legal Mining District, Lincoln County, New Mexico. That the said Memorandum of Partnership Agreement contains the following names: M. M. Baker, A. H. Harvey, H. S. Campbell, George W. Olney, Wm. Kahler Sr., E. C. Monroe, Lee Lee, A. J. Robinson, M. B. Foreman, R. L. Ranum; that said agreement was further to the effect that certain sums of money and amounts of labor were to be expended upon said Lode Mining Claim, and all of said sums so agreed upon have been expended and the labor performed, with the following exceptions, that the said A. H. Harvey has refused and neglected to pay his pro rata share as per agreement the following sum: \$61.75. And you are hereby further notified that if you fail or refuse to contribute your just share under said agreement, and continue to contribute your just share as per agreement within ninety days from the date of the last publication of this notice, as required by Section 2321 of the Revised Statutes of the United States, your interest in and to the said above described Mining Claim shall become the property of the said Partnerships.

E. C. Monroe, -
State of New Mexico,
County of Lincoln, 1921

On this 6th day of April 1917 before me personally appeared E. C. Monroe known to me to be the person who signed the above and foregoing Notice of Forfeiture, and that he is a member of the Partnership therein described, that he has had charge of all of said and may has charge of the books of the said Partnership, and that the sum of money contained in the said Notice, to be the sum that is lacking payment is correct.

Henry S. Campbell, Notary Public,
Subscribed and sworn to before me this 6th day of April 1917.
(Seal) My commission Expires March 15, 1921.

LEGAL NOTICE

LAST WILL AND TESTAMENT OF THOMAS O. LUSTER, DECEASED. To Hannah Luster and the heirs of Thomas O. Luster, deceased:

You are hereby notified that the alleged Last Will and Testament of Thomas O. Luster, late of the County of Lincoln and State of New Mexico, deceased, has been produced and read in the Probate Court of the County of Lincoln, State of New Mexico, at a regular term thereof, held on the 6th day of March, 1917, and the day of the proving of said alleged Last Will and Testament was by order of the Judge of said Court thereupon fixed for Monday, the 7th day of May, A. D. 1917. Term of said Court, at 10 o'clock in the forenoon of said day.

Given under my hand and Seal of this Court this 6th day of March, A. D. 1917.
(Seal) O. T. NYE, Probate Clerk

We pay highest cash prices for your household goods. Call Kelley & Sons, phone 96—or call at their 2nd-hand store.

Mountain Land Superior for Potato Raising

The possibilities offered for successful potato growing by the rich lands of the mountains of this region and a plan for their utilization are treated of in the following article taken from the Santa Fe New Mexican:

"It is a well known and demonstrated fact," said Mr. Hughes, "that no ground is superior for potato raising to the black soil of the mountain slopes and valleys. It is unnecessary to state how valuable potatoes are becoming and will become, and the people who raise their own potatoes need not worry about the high cost of living. Beans and corn are equally important. I am advised the forest service is ready to cooperate and that plenty of suitable land is available. A few business men could finance the scheme, labor would be provided for a large number of men, and the crop would be turned over at actual cost of production to bona fide consumers for their own use. I believe some such plan offers Santa Fe its big opportunity to support itself and that the general adoption of such a plan throughout the state will be a great economic feat. Especially should we make use of our potato land; the state which raises potatoes in large quantities is going to be lucky; and we can raise large quantities in New Mexico."

Little Boy Runs Away.

The three-year-old son of Judge and Mrs. E. L. Medler, according to a dispatch to the Albuquerque Journal, was lost twice on Saturday at El Paso and was each time restored to his parents by the El Paso police. Judge and Mrs. Medler were shopping in a dry goods store with their boy, John Thomas, when the latter slipped away. A frantic search for him proved fruitless and the police were notified. They picked up the boy on the streets. Shortly afterward Judge Medler and the boy were in a hotel lobby and the young hopeful slipped away again, the police picking him up a mile from the hotel.

A New Article of Diet.

At Clovis it is reliably stated that the Harvey house, one of the fine chain of eating houses that has made the Santa Fe railway system famous, is serving feterita cakes for breakfast along with hot cakes and cereals of other kinds. It is stated that when the meal is well prepared it makes a cake that tastes very similar to buckwheat cakes. Up in the northeastern part of the state there is a miller who is making a specialty of grinding a mixed meal made of milo, kafir and feterita grains, and it is being quite extensively used. So far so good, it is now a well established fact that it makes a very satisfactory meal and article of food. Now the significance of it is that the plains country is adapted and capable of raising millions of bushels of the forage grains. These grains will hold on for months in the absence of rain and then mature into a good yield of grain. There are millions of acres in the west that are well adapted to the growing of the forage grains and

it is a good time to educate the people to use these grains as an article of food and then they will not mind the loss of a wheat crop so much.

their part in the movement for the conservation of the nation's time and resources the women of the highest official families have decided to omit the formal calling and entertaining and reduce to the minimum their social activities so that they will be able to give more time and money to constructive preparedness and relief work.

Will Set Example.

Mrs. Wilson, wife of President Wilson, Mrs. Marshall, wife of the Vice President, and the wives of members of the cabinet have agreed to reduce their scale of living to the simplest form in order to set an example to other women of the country. To do
