Aged Woman Dies of Blood Poisoning

Julia E. Durham, who has been conducting a rooming house at Duran for the last three years died Monday morning about one o'clock. She was about sixty years of age. Death was said to be due to blood poisoning. She had no relatives in this section and was said to possess considerable property. Undertaker T. E. Kelley was called to Duran Tuesday where he prepared the body for shipment to Terrell, Texas, for burial.

Nazarenes to Begin Meeting Night of 14th

Announcement is made that the Pentacostal Nazarenes will begin a meeting on the night of Saturday, July 14th, at the new church house on the Roswell-Carrizozo mail line half way between Nogal and Capitan. The meeting will last two weeks or longer and services will be in charge of Evangelist L. P. Fritwell, of La Lande, N. M. Everybody is invited to attend.

Advertising Will Do It.

The billions of dollars that our government and foreign nations are borrowing from our people will be spent right in this country for food stuffs and war supplies of all kinds. The bulk of this money will find its way into the hands of the millions of wage earners, and they in turn will spend most of it for the necessities of life. This community will get its share of those billions. The shrewd home merchant knows this, and is already mapping out an extensive advertising campaign to offset the tremendous efforts of mail order houses and large city merchants. He will get this, for advertising will bring it to him.

The local merchants who forgets to advertise, who expects to increase his business without a proportionate increase in legitimate publicity expense, may discover to his cost that he is decreasing it instead.

The public takes every man's number.

school purposes was referred to the Board and the unanimous opinion of those present was that the school houses should be used for school purposes and for anything of an educational character, but that the habit of holding dances and entertainments of a like character be at once discontinued.

"No further business appearing, the Board adjourned to convene at the call of the president."

Lincoln County Furnishes 4 for National Guard

Eddy County Leads With 156 Men, San Juan at Foot With Only Two.

Federal Disbursing Officer R. C. Reid Tuesday announced the following as the number of men furnished by each county to the national guard thus far each county being credited for the number on the national draft quota. Eddy county leads with 156 men and San Juan is at the foot of the list with two, Chavez is second with 116, Santa Fe third with 112, Bernalillo fourth with 108, none of the other counties reaching the 100 mark. Colfax furnished 7 recruits, Curry 67, Dona Ana 86, Grant 60, Guadalupe 45, Lincoln 4, Luna 4, McKinley 30, Mora 25, Otero 27, Quay 13, Rio Arriba 8, Roosevelt 49, San Miguel 52, Sandoval 5, Sierra 14, Socorro 5, Taos 32, Torrance 23, Union 49, Valencia eighteen.

Car Accident Mars Celebration of Glorious 4th

While enroute to Fort Stanton to attend the big celebration Wednesday morning a car being driven by William Owens of White Oaks and occupied by the Owen family, crashed into the rear of a car driven by Walter Grumbles while the two were driving along the highway. It is stated that the cars were running close together and at about the same rate of speed when the front car, occupied by the Grumbles family slowed down, the check in speed not being noticed by Mr. Owens whose car, before it could be stopped, crashed into it, smashing the front of the car and severely injuring Mrs. Owen.

Mr. and Mrs. R. T. Cribb returned the latter part of last week from a two-weeks' outing spent on the Ruidoso.

Stork's Arrival Credits Family With Nineteen

When Dr. Lucas' stork visited a Mexican family in the south part of the city this week and left twin boys there were nineteen names to grace the family record, which might be an interesting item for some staunch friend of the "fierce and furious"—the terrible T. R.—to communicate to "his majesty." No, 18 was looked for—in fact expected—but upon the departure of Mr. Stork it was found that fortune had smiled upon the parents, adding dos muchachitos to the family, thus bringing the enumeration up to nineteen souls, seven of which are living.

Cartridge Explodes in Bonfire; Boy Injured

Ivory Phillips was severely injured last Sunday afternoon when he was hit by the ball from a cartridge which exploded in a bonfire. It seems that the boy in company with others were camping and had started a fire, he picking up an armful of chips in which the cartridge was secreted in some manner and while in the act of feeding the fire, the shell exploded, the bullet tearing into one of his lower limbs. He was immediately brought to town and the bullet removed and altho painful to a considerable degree the wound was not regarded serious.

Steaming Hot Soup Severely Burns Joyce Baby

The small child of Mr. and Mrs. Joyce was badly burned about the mouth and throat one day last week when it picked up a bowl of steaming hot soup from the table and attempted to drink it. The mucos lining of the child's throat and esophagus was badly scalded. Dr. Lucas was promptly summoned and it is thought that the child is now out of danger.

El Paso Wallops Locals at Ft. Stanton Wednesday

The ball game between Carrizozo and El Paso at Fort Stanton Wednesday resulted in a victory of 5 to 2 for El Paso. Harry Norman pitched for the locals but seemed unable to hold down the batting display of the opponents. Those who played for Carrizozo were: Nickell, Mike and Meyer Barnett, Cavanaugh, Hicks, Norman, Reily, Loughrey and Willie Gallacher.

22,441 Acres Grazing Lands Planted to Crops

Expected Large Acreage Will be Broken in Fall to be Seeded to Wheat.

State Land Commissioner R. P. Ervin Thursday made public what are regarded as final figures for this season on the acreage of the state's leased grazing lands planted to crops by the leaseholders, under the permit of the state land office to plant crops on such lands during the period of the war without additional rental. A total of 22,441 acres are shown as in crops on grazing leases, the figures including returns up to July 1st. It is not expected that any material additions to the acreage will be made this season altho assurances received from several hundred holders of grazing leases indicate that a large acreage will be broken during the autumn, either for planting to winter wheat, or in preparation for cropping in the season of 1918.

The land commissioner's permit to farm grazing leases did not issue until April, when the movement for increasing food production in New Mexico began. While the land office was ready with the permit early in the movement, it was still too late for many leaseholders to change their plans for the season, or to secure equipment and labor for breaking raw land. Because of the short notice the result obtained is regarded as satisfactory for a first season, and information reaching the land office from all over the state is that probably double the leased acreage now in crops will be broken this fall for planting in 1918.

With the permit to farm, the land commissioner issued to all leaseholders an urgent appeal to adhere as closely as possible to the recommendation of the state agricultural college experts and plant only corn, beans, sorghum and other forage crops; and potatoes where climate and soil conditions were suitable. How closely the grazing lease farmers have followed this advice is shown by the fact that of the 22,441 acres actually in crops, more than half are planted to the Big Four—corn, beans, forage crops and potatoes.

Every county in the state, except Bernalillo, is represented in the returns on planting done by grazing lease holders. The returns show 4,426 acres in beans, chiefly New Mexico Pintos; 3433 acres in corn; 3777 acres in sorghum; 1146 acres in Kafir; 2878 acres in milomaize; 2291 acres in wheat; 1361 acres in Irish potatoes. The remainder of the acreage is divided among barley, oats, millet, cowpeas, feterita, Sudan grass, broom corn and truck.

In the total registration of 9,649,938 are included 8,001 Indians, reported by the Department of the Interior.

On the whole, Provost Marshal General Crowder considers the registration 100 per cent, as including the eligibles already in the federal service the figures would be within a few thousand of the census estimate of 10,222,104.

Throughout the country the local boards organized to carry out the provisions of the selective service act as instructed by the President. There are approximately 4,000 of these boards, each of three members. They were appointed by the President, largely on the recommendation of the state authorities.

The boards are expected to have every registrant numbered, as the drafting will be done by number instead of by name. The local boards will number the men registered there and send the numbered cards to the adjutant general of the state in which they are located.

Each state's numerals will be from No. 1 upward. Numbers to correspond with the numbers in the states will be located in the provost marshal general's office in Washington. When the selection begins—and it is expected to begin not later than the second week of July—the numbers will be drawn from a jury wheel in Washington. There will be a separate selection for each state—so each state may be called upon for its quota and one state may not be forced to supply more men proportionately than another. President Wilson will proclaim the number of men each state must supply. The President also will set a day for the selection.

The numbers drawn then will be telegraphed from Washington to the governors of the various states. They will notify the adjutant general, who holds the corresponding numbered cards, and the adjutant general will notify the local boards under whose jurisdiction the selected men are.

The cause of determining whether or not he has been drawn lies with the man himself. Mistaken provisions have been made for letting each man know whether or not he has been drawn. Four copies of the registration list and the number he bears are to be made public, one being placed at the office of the local board and another being made available for the press.

When a man learns he has been drawn, he is privileged to appear before the exemption board of his district and plead his case for exemption. If he considers he has one. There also will be a board of appeal for each judicial district.

An investigation has been ordered to determine the reason for the small registration on the Pacific coast, where barely more than 25 per cent of the estimated figures showed in the registration.

I take this means of thanking each and every one who has so generously patronized The Outlook in the past and made it the success it has been, and also to ask that Mr. Burke, who comes highly recommended, be accorded the same courtesies that have been shown me, feeling sure that they will be merited and appreciated.

I also wish to announce that Mr. Edward F. Cox, who has been connected with The Outlook during the past eight months in the capacity of editor-associate and foreman, will remain with the paper, filling the position of foreman under the new management.

Sincerely yours,
MRS. HANNAH LUSTER.

Who Will It Be—What Will You Do?

With the actual draft upon us, there is much speculation as to who will be the first to go from our own community. But whoever it may be, we who remain should see that they are not forgotten by the "folks back home."

We should ascertain the camps to which each one is assigned, and then through a home committee see that each is generously supplied with magazines, home papers, comfort bags, cheery letters, and anything that will make life more cheerful to them. No single individual going forth from this community to fight for his country should be overlooked, and all should be shown equal courtesy and attention. When the good people of this community organize such a committee The Outlook will be the first to contribute by furnishing a copy of the paper each week to each soldier who goes from our midst. What will you do?

While eliminating the food hog let's not forget the swine in other commodity lines. The pen's full of 'em.

A recent news item from Phoenix states that Arizona last year received a total income from its state lands of \$182,000, and that 2,658,000 acres of the total of lands granted to that state by Congress have now been selected by the state. Without reflecting in any way on the administration of Arizona's state land grants it is interesting to compare the situation in that state with that of New Mexico's state lands. In this state practically the whole of the 11,000,000 acres granted to the state by Congress, has been selected. The income of the state lands in 1916, credited to the various schools and public institutions was in excess of \$750,000. The total income of the present year probably will pass one million dollars. Not only has New Mexico completed selection of its lands, securing the choicest portions of the public domain by early selection, but more than 7,000,000 acres of the total owned by the state is under some form of income producing lease.

Large Capital and Small Profits.

While Lincoln county is known to have large coal measures of workable size and exceptional quality, it has always been impossible to operate any of the coal properties of the county at a profit for any continued time, a condition which has frequently been commented upon and never understood. It is probable that the recent investigations as to the high cost of coal and coal mining methods will give us the reason for this failure to operate coal mines on good coal land. An investigation of the selling price of coal at the mines discloses the fact that the operating companies receive from a little less than \$2 a ton up to \$2.75 for the screened and washed fancy domestic grades, but because of the fact that the larger tonnage sold is of the lower priced grades the average selling price of coal at the mines, loaded on cars, is probably not as much as \$2.12 per ton, and is more likely not over flat \$2, with all market increases included for recent increased cost of production. When it is considered that the producer of the coal must purchase the coal lands, and the poor coal measures along with the profitable, pay taxes on all of it alike, do all the dead work, pay the miners, carry the overhead expenses and general management and load their product on cars for a little more than \$2, it is realized that the margin of profit must be so small that it requires large operations with large capital to make the coal mining business profitable. And with all that, just one accident will wipe out the profits on many tons of coal, which takes the attraction out of the investment. Lincoln county should produce its own coal, however, because the home market will keep up several small mines, and it will not be long until it is done.

"Sammies" is the new name given to the American soldiers now in France. The name is appropriate. "Uncle Sam" is our national nickname, and it is quite natural that "Uncle Sam's" soldiers should be "Sammies," indicating, as it does, that it is the individual citizen in the United States who makes up the government.

The doctrine of the square deal is always American—it is particularly needed at this time when America's forces must all be united as never before. It is the doctrine of the square deal that is back of the food bill and proposes to give the farmer a profitable price for his products and the consumer a reasonable price for what he has to buy. The consumer should be interested in the farmer's prosperity, and the farmer should be interested in seeing that the consumer is not forced to pay exorbitant prices for the necessities of life—for many of them cannot continue long paying such high prices as now prevail. It is a time for all to realize their interdependence and their brotherhood. The most important thing that America has to do now is to coordinate all its powers and its forces, so that it may win the war with Germany and keep down any internal troubles while it is doing so. To do that the people in all walks of life must live and they should all be just as prosperous as wise laws and unselfish sentiment can make them.

The Allies seem to have effectively throttled German diplomacy in Greece by the simple expedient of removing the Kaiser-owned King Constantine from the throne. The Greek people have always favored the Allies, the while they preferred to remain neutral.

A recent map sent out showing business conditions includes southeast New Mexico in the area where trade is good. This is eminently correct. Considering all hindering influences, business in this section of the country is wonderfully good.

Why We're in War.

Evidence is in the hands of authorities in Washington that the Prussian war plan included making peace with our allies, obtaining possession of the British fleet as part of the peace arrangement then coming to America demanding the cost of the war from the United States under threat of laying waste our fields and cities. Military authorities state that had this plan worked out, or if it should still develop, 300,000 German first line troops could be landed in America in six weeks. Two million could be here in three to six months. That is one reason why we're in the war.

The million-dollar contract made by Charlie Chaplin is a striking illustration of the fact that the people like to laugh. Chaplin is an adept in tickling the risibilities, and people flock to see his pictures because they want to laugh. In a similar way this tendency of human being is seen every day. The frown of the long faced apostle of gloom gets scant welcome anywhere, but those who radiate good cheer generally get the glad hand and an attentive audience. We can't all be Charlie Chaplins but we can be cheerful.

Belgian mission is received in the Senate and House of Representatives.

Germany has imposed a fine of 250,000,000 francs on the occupied territory of Rumania.

Brazil has revoked her decree of neutrality in the war between the entente allies and Germany.

In the Asiago plateau zone the Austrian artillery has shattered positions recently taken by the Italians.

Norway is on the brink of war and only awaits the signal from the United States to join the cause of the entente allies.

East of Epehy a German raiding party was repulsed by the British. The Germans left their dead in wire entanglements.

Mines of Tontou vessels last week were responsible for the sinking of twenty-one British vessels of more than 1,000 tons.

Lively fighting continues between Russians and Austro-Germans southwest of Lusk, in Volynia, and between the Stripa and Dniester rivers in Galicia.

Under a protecting concentration of artillery fire Canadian troops stormed and captured the German front line trench before Avion, a suburb of Lens.

Austrians take initiative away from Italians in Asiago plateau sector, the object being Monte Ortigara. Late reports say Italians are holding back the Austrians.

Guarantees in Spain are suspended. Two contingents of United States troops arrive in France. Great enthusiasm prevails as first Americans join the allied fighting forces.

La Coulette, suburb of Lens, captured by Canadians, as allies are hemming in that great French coal center from all sides. Germans fire homes of town in preparation for their last stand.

Twenty Japanese went to the recruiting office at El Paso, Texas, and offered to enlist in the United States army. They were not accepted.

The first day of the strike called in the copper mines in the Bisbee district by the Metal Mine Workers' Industrial Union ended with 50 per cent of the men out.

The New Mexico Council of State Defense issued an urgent appeal to the eligibles to respond immediately to the President's call for 70,000 regular army volunteers.

Sixty-five thousand pounds of wool were sold to Boston interests at 72 cents a pound, said to be the highest price ever paid for wool in the state. In past years the price has averaged 40 cents.

WASHINGTON

Loans to allies reach billion dollar mark.

Wilson orders investigation of lumber prices.

Action was taken to forestall any money stringency.

The American Federation of Labor has refused to participate in a trade union peace conference in Switzerland, Sept. 17th.

Industrial Workers of the World leaders were charged with working with German agents in mines and fields of the West in stir up strikes among Germans and Americans, in correspondence laid before the Senate by Senator Thomas of Colorado.

FOREIGN

The Spanish situation is believed to be very grave.

Switzerland government becomes more anti-German.

Shipping between Germany and Holland is increasing.

Winston Churchill demands more aggressive British naval policy.

American minister and wife were dinner guests of King Gustave of Sweden.

Russian provisional government threatens to use force to suppress disorders.

The Root mission left Moscow for Petrograd with a distinct sense of encouragement.

Section of English Socialists has declined invitation to attend conference in Stockholm.

Salvador earthquakes which have caused great damage in the last three weeks have almost ceased.

Capitol contingent expense	5,201.23
Penitentiary, transfer disch'd convicts	328.48
Penitentiary board	407.21
Penitentiary maintenance	7,959.18
From taxes of 1910 to state road fund, the sum was \$6,348.95, and from taxes of 1911 to 1915 funds, the total of \$9,784.37 was given to the 1916 tax fund.	

Rush Collection of Tax Arrears.

Santa Fe—Governor W. E. Lindsey has sent out communications to the county treasurers in all counties of the state and also to all district attorneys, urging upon them the importance of remedying the present unfortunate situation whereby some counties show as low as 6 per cent of tax collections. He sets forth that the delinquency is impairing the credit of the state, having made it necessary to issue \$120,000 in certificates of indebtedness to pay up state salaries, and suggests an early testing of the 1917 law directed at the tax delinquency evil.

Deal May Bring New Railroad.

Silver City.—Negotiations are said to be under way which may result in the Jackling interests, which own the Chino Copper Company, acquiring control of the Victor-American Fuel Company coal properties at Gallup. If the deal goes through it may ultimately mean the building of a railroad due south from Gallup to Santa Rita and Hurley, opening up a virgin section in western New Mexico rich in agriculture, live stock raising and mining, and give the Mogollon mining camps a railroad.

Many Santa Fe Employees Join Colors.

Santa Fe.—Over 250 employees of the A. T. & S. F. have already enlisted in the army, navy, national guard, marines, signal, aviation, engineer or officers' reserve corps. The A. T. & S. F. management has decided to install 125 miles of automatic block signals from San Francisco to Fresno, there meeting the block signal line from Los Angeles. The cost will exceed \$350,000.

Albuquerque.—The Red Cross chapter here in 3 three days' drive raised \$14,428 for the national fund.

Notary Public Appointed.

Santa Fe—Governor W. E. Lindsey appointed Alberto Garcia of Santa Fe a public notary.

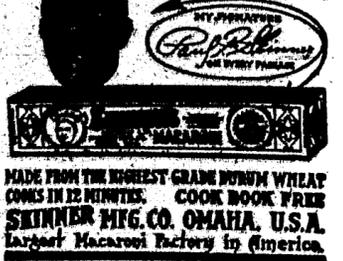

Half Million Bushels of Wheat.

Glovis.—In spite of the dry weather of the last thirty days, which has naturally cut the wheat crop somewhat short, elevator and grain men are predicting that Curry county will produce a half million bushels of wheat this year. This estimate is based on the first threshing that is taking place in the county, the yield being found to exceed the expectation. The wheat, though of short straw, has a well filled grain and is running heavier than would be expected.

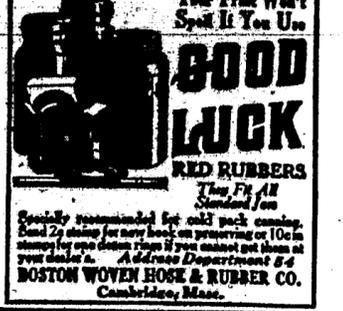

Big Increase in Bean Crop.

State College.—That there will be something like a 500 per cent increase in bean acreage in Valencia county this year over any previous year, is the information obtained from J. G. Hamilton, county agricultural agent, who makes this estimate after having made a number of trips over the county. The Valencia county farmers are determined this year to fight the bean beetle, which in former years has caused an annual loss to bean growers ranging from 10 to 100 per cent.

WAYS OF SUMMER BOARDERS

They Are Usually Very Witty Persons Who Make Comical Remarks to the Farmer.

Summer boarders are people who spend several weeks in the country each summer longing for a trip home. They are usually very witty persons and make comical remarks to the farmer. Aside from the board they pay him the farmer cleans up a tidy sum each summer sending the things his boarders say to the comic weeklies. A summer boarder can merely look at a cow and quick as a wink he will say something funny. The farmer puts this down in a book he always carries around with him. In the course of a couple of weeks he has several pages of good jokes to sell at his own rate, says the Philadelphia Star.

If you board with a farmer this summer say some funny things to him about the cows or the pigs. If he keeps a horse always poke fun at his horse. He will laugh at the funny things you say. Then he will go in and open up a can of fresh country peas out of his own cellar so that when you go back to the city you will miss the country vegetables. When you leave be sure and tell him how you enjoyed the country eating so that he can laugh some more.

Wouldn't Have Him. "Very handsome typewriter you've hired," commented his aristocratic sister. "Um." "I s'pose she'll be marrying you for you money, next." "No danger, ma. She knows too much about the business."

Very Much So. "Did you register?" asked the director of the movie actor. "Of course, I registered," the latter answered, "and hot off the reel."

 Large Acreage**
 The Mascalero Indian farmers have increased their potato acreage by about 2,500 percent this year over last. In other words last year there were only three acres of potatoes on the reservation and this year there are 78 acres. The storekeepers there have heretofore bought the supply of potatoes for the local consumption and recently one firm paid as high as 8 cents a pound to supply the potato appetites. Should the harvest be a fairly good one there will be some potatoes this fall to sell to outside points.

Lincoln's Percentage 80.27.

Luna county led all the counties
 of New Mexico in the percentage
 of 1916 taxes collected up to the
 end of May, according to figures
 just compiled by the state tax
 commission. The percentage
 collected was 93.67, an increase
 of 41.03 per cent over April.
 Grant ranked next to Luna with
 89.89 per cent collected, and
 Curry was third with a total col-
 lection of 88.07 per cent. The
 rich county of Chaves was at the
 tail of the procession, with a
 collection of only 49.71 per cent.

Lincoln's percentage was
 shown as 80.27.

Overheated Air.

A rise of temperature in the sur-
 rounding air diminishes the amount
 of oxygen consumed and the amount
 of dioxide discharged. A fall of tem-
 perature has the opposite effect. In ad-
 dition, the overheated air forms a hot
 jacket around the body which prevents
 the radiation of heat necessary to keep
 the body in a healthy condition. With
 a sedentary occupation a temperature
 of from 64 to 70 should be maintained
 for comfort and health.

Never Besieged.

Petrograd is one of the few Euro-
 pean capitals which has never been
 besieged or captured by enemy forces.
 May 27, 1703, Peter the Great founded
 the city by building himself a small
 wooden hut. In 1710 Count Golovkin
 built the first brick house, and in the
 following year the emperor laid the
 foundation of a house of the same ma-
 terial for his own home, and trans-
 ferred the seat of government from
 Moscow to the new capital.

**Beware of Ointments for
 Catarrh that Contain Mercury**

as mercury will surely destroy the sense
 of smell and completely derange the
 whole system when entering it through
 the mucous surfaces. Such articles should
 never be used except on prescriptions
 from reputable physicians, as the damage
 they will do is ten fold in the goods you
 can possibly derive from them. Hall's
 Catarrh Cure, manufactured by F. J.
 Cheney & Co., Toledo, O., contains no
 mercury, and is taken internally, acting
 directly upon the blood and mucous sur-
 faces of the system. In buying Hall's
 Catarrh Cure be sure you get the genu-
 ine. It is taken internally and made in
 Toledo, Ohio, by F. J. Cheney & Co. Tes-
 timonials free.
 Sold by Druggists. Price 75c per bottle.
 Take Hall's Family Pills for constipation.

Let Us Convince You

Our Advantage.

It is not so much the being exempt
 from faults as the having overcome
 them that is an advantage to us. It
 being with the follies of the mind as
 with the weeds of a field, which, if
 decayed and consumed upon the
 place where they grow, enrich and im-
 prove it more than if some had dug
 them up.

Not Our Truth.

The truth which another man has
 won from nature or from life is not
 our truth until we have lived it. Only
 that becomes real or helpful to any
 man which has cost the sweat of his
 brow, the effort of his brain, or the
 anguish of his soul. He who would be
 wise must daily earn his wisdom.—
