PRICE \$2.00 PER YEAR

## Carrizozo Boy On U.S.S. Fairfax Feels Fine

Eb. K. Jones in Interesting Letter to Outlook Sends Regards to Friends

San Francisco, Calif.  
Feb. 12th, 1918.

Editor Carrizozo Outlook,  
Carrizozo, N.M.

This is to let you know how I am getting along, in fact I never felt better. I hope you and all Carrizozo are the same.

This is also to say a "Big Hello!" to all my friends and others who read this.

I am proud to be in the Navy and doing my bit for my country, as many others have done. I have no complaint to make against the Navy, for the treatment is fine. Couldn't be better.

At present I am on the U. S. S. "Fairfax." This boat is one of Uncle Sam's "Fighting Ships." Our officers say that it is to be one of them, but that a man that is on one and lives through it will have something to be proud of after the war is over.

The ship is a "Torpedo Boat Destroyer," and if I don't get a chance to be with it when it goes after the "Kaiser's Pets," will be greatly disappointed. It is my greatest wish that I go with the ship when she goes "Over There"—and that is not far off.

My officers are a fine bunch of men, and I am proud to be under them. I've had the pleasure of meeting a few of the Carrizozo Boys at Goat and Mare Islands. Bert Holland, Mike Barnett and Jack Hardy. I feel better now since I have met some of the boys from home.

Here is hoping that I get a crack at the "Kaiser" before this war is over.

May I remain a friend to those I know and a "Son of Carrizozo."

Me for the Navy,  
E. K. Jones, U. S. S. Fairfax,  
Postmaster  
San Francisco, Cal.

## White Oaks Will Entertain

The White Oaks Entertainers, announce a Masquerade Ball for Saturday March 2nd, and a good crowd will of course go from here. Those who go may be assured of a good time, for a guarantee, goes with every announcement the White Oaks people make.

## Died in Infancy

The infant son of Mr. and Mrs. J.H. Farres, died here Sunday morning at 2 o'clock. Funeral services were conducted by Rev. Lewelling, Sunday afternoon at 5 o'clock. The body was taken to Pollard Alabama for interment.

## RED CROSS BENEFIT NET BIG SUM FOR CAUSE

Four Hundred and Forty-Six Dollars and Forty-One Cents the Financial Outcome of a Successful Affair

The good natured crowds that flocked to the benefit dance for the Red Cross Wednesday night, donated to the cause beyond the expectations of all concerned. Just think of it, \$446.41 was netted as a result, and the people seemed determined not only to do their bit, but to do their best.

The committees in charge of the entertainment wish to thank the following business firms and individuals, for goods and services rendered to the cause.

Carrizozo Trading Company, for the use of their building, A. J. Rolland and Ziegler Bro's for donating prizes for the waltz contest, W. H. Osborn, Dr. Woods, Live Stock Commission Co, and New Mexico-Electra Oil Co, for use of their office rooms, Frank Richard, and Barnett Bro's for hauling, Foxworth-Galbraith Co, for use of lumber, Ernest Preme for painting signs, Mrs. Scott, for use of piano, Lewis Burke, for use of drums, Mesdames Shulda and Maloney, Miss Belle Lutz and Mr. R. C. Pitts, for donating their services as musicians, Mrs. Gurney, for donating drawn work table cloth, Mrs. McDonald, for donating chickens and eggs, Ladies of the Eastern Star, for finishing and displaying, the baby layette, that excited so much admirable comment, Teachers and Scholars who took part in the program, Carrizozo News, for tickets for the cloak room, Carrizozo Outlook for donating tickets for the ball.

To the visitors from our neighboring towns, the committee wishes to return thanks for their presence and assistance, for without this kindly support, the report would fall sadly short of the figures we go proudly put into print, and if space would permit, our friends would be individually mentioned.

In addition to the list of committees published last week, the Judges of the prize waltz, deserve special mention, Mrs. E. L. Moulton, of Corona, Mrs. C. H. Parks of Encinosa, Col., Pritchard, of Santa Fe, J. Benson Newell, of Las Cruces, E. Prehm, of Carrizozo, who rendered their decision in favor of Mr. Will, Gallacher, and Miss Kitty Tinnon, of Carrizozo.

Following is the program which was so successfully carried out.

### PROGRAMME

Bugle Call Gladney White.  
March  
Millarney, Burke & Wilson.  
Salute to Flag Children.

Star Spangled Banner All.  
Flag Drill Children, (March Out)  
Five Minute Talk Harry Alcock.  
Song Mrs. Myers.  
Five Minute Talk Willie Gallacher.

Music Millarney, Burke & Wilson  
Reading Miss Zuech.  
Song Landays.

### Echoes from the Big Doings

The table cloth donated by Mrs. Gurney brought \$106.30.

Mis Grace Kreitzer sold the tickets that netted the above amount.

The "Chamber of Horrors" was liberally patronized the poses of "La Belle De La Finley" was worth every cent contributed.

The swimming match between two young ladies was something grand.

Mr. O. W. Bamberger, gladly donated his best services, and displayed his usual good humor, in a dignified manner.

Some of our citizens are looking forward to the good things foretold by Mesdames Gurney and Kimbell.

Who made that good coffee? P. E. Lacey of course. And it was certainly fine.

Mrs. Ed. Harris knew, how to serve the grape juice, and Mrs. Scott knew how to take in the money. The lunch room made a good showing.

Mr. H. S. Campbell said: "It makes me feel old to see the wonderful improvement in Carrizozo. When I came here you could count but three houses."

Everybody danced but Chairman Haley.

The singing by Messers. Nye and Haley excited favorable comment.

Mrs. C. P. Squier's vicious "Ground Hog" was much feared, by the big crowds.

Its all over now and everybody had a good time. Everybody pulled together.

We don't know, whether Judge Seth F. Crews visited the "Chamber of Horrors" or not. But we saw him casting sheep's eyes at La Belle.

Hear Nash's orchestra at the grand opening of the Carrizozo Trading Co. Feb. 25.

### Red Cross Consignment

Mrs. J. B. French, chairman of the supply committee, and Mesdames Harris and Gray who are in charge of the knitting, report the following list of articles sent to the division headquarters at Denver, Feb. 14th.

Fort Stanton, 3 Sweaters, 3 pairs of Sox 1 pair of wristlets  
Oscura, 1 helmet, 1 sweater, Hospital garments 2 pajama coats, 1 pair of pants.  
Encinosa, 1 sweater, 1 pair of wristlets.

Capitan, 12 pairs of Sox, 11 sweaters, 1 helmet, 4 mufflers, Hospital garments, 12 bath robes, 1 dozen handkerchiefs.

Corona, 4 sweaters, 1 muffler, 7 pairs of socks, 5 pair wristlets, Hospital garments, 14 suits of pajamas, making a total of 257 hospital garments, and 116 knitted garments, which were sent to division headquarters last week.

White Oaks, 12 sweaters, 11 pairs of Sox, 1 pair wristlets, 1 muffler, Hospital garments, 12 suits of pajamas.

Carrizozo, 15 sweaters, 10 pairs of Sox, 8 wristlets, 1 scarf, 22 wipes, 2 waehrags, 4 helmets, Hospital garments, 70 pajama coats, 83 pairs of pants.

This remarkable showing, is the outcome of tire some toil, and willing sacrifice.

### Eighth Grade Promotion

#### Examination—Note Dates

The State Superintendent of Public Instruction has notified this office that the eighth grade promotion examinations will be held this year as follows: March 14th and 15th, April 11th and 12th, May 9th and 10th.

Schools having pupils who wish to take the examination at either of the above dates will please note the dates and let this office know the number wishing to write, that the needed preparation may be made.

Superintendent Wagner says: "The expenses of grading these manuscripts is such that our contingent fund is not sufficient to cover the cost. We therefore are asking that you collect this year fifty cents from each applicant as an examination fee."

Also we are able to announce, at this time, that the first examination of teachers for this year will be held May 31st and June 1st.

Every one interested in the above will please bear in mind the dates and act accordingly. For further information concerning these matters address,

J. E. Koonce  
Co. Supt. of Schools.

## Sheep Men Will Be Concerned In These Methods

More Scientific Lambing Methods Essential To Successful Sheep Raising.

Albuquerque, N. M., Feb. 12.—That more scientific lambing methods are essential to the greatest productivity in the sheep-raising industry is the gist of the conclusions arrived at after long study by a grazing specialist of the Forest Service. The manner in which this improvement can be brought about is described in the following article.

The time was when the sheep industry in Arizona and New Mexico, did not justify the extra expense necessary to properly care for ewes and their young during the lambing period; but suddenly conditions have changed. Prices are high for both mutton and wool. The open range is gone. Sheep men must make more money from smaller herds, and must run their sheep on more restricted range. This means that instead of lambing wherever feed and water happen to be good they must lamb on practically the same range each year, and they must provide feed and water not only for the favorable seasons, but for those dry and backward springs which came all too often in the Southwest. In addition, they must reckon with one or more severe storms each month during the spring until the last of May. The three important items in successful lambing are; plenty of feed and water, and protection against storms and predatory animals.

The Forest Service has been interested in working out in cooperation with stockmen a method of lambing which would most successfully meet the conditions that prevail on the open ranges of the higher mesas and mountains in the Southwest.

(To be Continued Next Week.)

### Postponed

The Episcopal Church services have been postponed on account of Rev. Hoering being unavoidably detained at home. Announcement of future meetings will be made next week.

### \$50.00 More For Red Cross

The management of the Carrizozo Theatre donated the proceeds of the show Friday night to the Red Cross Society, showing the picture "A Man Without a Country" which when turned over to the cause, was found to amount to over \$50.00.

On Monday, Feb. 25th with Nash's orchestra, considered the best in the southwest, the Carrizozo Trading Co. opens their new home.

## Murder in the Midnight Air Monday Night

### Dead Wife and Alleged Par- amour in Critical Con- dition the Outcome.

About the time the hands of the clock reached twelve Monday night, pistol shots were heard in the neighborhood of Kelley's morgue on El Paso Ave, and parties who arrived at the scene of the shooting found the dead body of Mrs. Marcelino Carbajal and Narciso Montoya, apparently dying from a pistol shot in the region of the spine.

Like all other affairs of this kind two stories always float out to the ears of the people. Marcelino Carbajal who killed his wife, claims Montoya as the paramour in the case, and on giving himself up stated that he found his wife in Montoya's room, while the injured man and his friends say Carbajal, had mistreated his wife and she fled to his quarters for protection.

Dr. Lucas, and undertaker Kelley were called and the following jury was empaneled. Chas Stevens, Wm. Spence, J. E. Kelley, J. R. Adams and Will Cole, and rendered a verdict in accordance with the confession of the husband, who admitted to the killing.

Montoya was taken to Dr. Paden's hospital where Doctors Lucas and Paden performed an operation on him after which he was pronounced out of danger.

### The Blaneys Entertain

Dr. and Mrs. Blaney entertained the teachers of the Carrizozo schools at their home near Oscuro, on the 22nd of February. The following were present: Prof. Conway, Mesdames Massie, Darrel, Gardener, Misses Zeuch, Brownlee, Muriell, Humphrey, Kennedy, Stevens, Lindsey Messrs. Brickley, Humphrey and Baxter.

### Report of The Grand Jury

The Grand Jury empaneled on Mon. the 18th day of February, completed its work and submitted the following as its final report.

We have been in session six days and have investigated 56 cases, examined 170 witnesses, reported 26 true bills, and 21 against whom no bills were found.

### Mr. Ziegler Returns

Mr. Albert Ziegler has just returned from the eastern markets, where he has made his purchases for spring and summer goods, which will be constantly arriving from now on.

## Grand Opening of Carrizozo Trading Co.

### Mammoth Business Enter- prise Throws Open Its Doors to Entertain the Public.

According to previous announcements the Carrizozo Trading Company on Monday, Feb. 25th, opened the doors of its new and complete establishment to the public, and not only invited inspection, but treated the visitors to one of the most complete entertainments the management could arrange for.

During the afternoon crowds of guests flocked to the new building, and were received by the courteous attendants, and shown through the establishment each lady being presented with a souvenir and flowers, as they were escorted through the apartments of the store.

Nash's Orchestra furnished the music for the occasion, and kept the crowds in constant entertainment; while they were escorted through the building and shown the completeness and convenience which the establishment affords, the detailed description of while has been published in the columns of this paper before.

At night a grand ball was given in the hall above the store apartments, where the public as guests of the Trading Company, enjoyed the hospitality of the management to a late hour, and everyone present appreciating to the highest extent the courtesy of the company.

The Stockholders of this institution are: Messrs. Henry Lutz, J. B. French and O. W. Bamberger. Mr. Lutz who is the Mayor of Carrizozo, is President of the New Mexico Electra Oil Co. and is interested in all affairs of interest which concern the city and its people. Mr. J. B. French is also a live wire, being connected with many interests in and about Carrizozo.

Mr. O. W. Bamberger, to whom the credit belongs for the arrangement and supervision, of this undertaking, is a young man of marked business ability, and it is giving honor to whom honor is due, to say that through his untiring efforts, and good judgement that Carrizozo can boast of one of the most complete establishments of this kind in the surrounding country.

The neatly arranged office rooms of the New Mexico Electra Oil Co., Live Stock Commission Co., Dr. Woods, and W. H. Osborn, were thrown open to accommodate the visitors and joined with the management to carry the entertainment to a successful termination. More could be said, but enough is here described to inform that portion of the public who failed to attend, of what they really deprived themselves of. The Trading Company is now open for business in earnest.

### Nogal Notes

Chicago capitalists visited the Bender mines last Sunday, but nothing was learned as to what transpired as an outcome of their visit.

Ben. Short, has moved to the Tom. Whitaker farm which he has rented for the season.

Prospects for sinking the Bender mine 200 feet deeper this spring is good.

Uncle Henry Emerson has traded his auto for a span of good horses and wagon

Uncle Tom Henley has gone back to his ranch. The high altitude of Nogal Canyon was so that he could not rest at night.

A great deal of plowing is being done here at present, but more moisture is needed before the planting is done.

Mrs. Emerson and children have returned from Hot Springs and are now living at the old Brown Hotel.

Col. Bender made a hurried trip "Somewhere" in interest of his mine.

### Mrs. French Entertains

Mrs. J. B. French proved a most charming hostess, to the members of the Auction Bridge Club, Thursday afternoon, Four tables were arranged for the players, Mrs. George Dingwall held the highest score.

Dainty refreshments were served, consisting of cake and cream. As is the custom with the various organizations of the town, each member is working on an article to complete a layette. Mrs. McDonald and Mrs. Campbell, are each giving one layette. This meeting proved to be one of the most enjoyable of the season. Mrs. McDonald, will entertain at her ranch home March 14th.

### Juvenile Line Party

On February 23rd Fern Forrest was hostess to a line party at the Carrizozo Theatre. After the show the young folks were invited in to the Oasis for refreshments.

Those present were: Evelyn French, Eileen Haley, Lois Stidham, Lois Jones, Ella Rowland, Clarite McQuillen, Herndon Reilly, Aubrey and Jeull Miller, Birda Lacey, Mary White, Harry and Charlie Cole, Dation Herron, Julian White, Herbert Tennis, Roy Stimmel, and Olaus Manney.

### METHODIST CHURCH

Sunday School, 9-45 a. m. Preaching, 11 a. m. and 7-30 p. m. The choir and orchestra under the efficient leadership of Mrs. D. S. Donaldson will furnish music for all services.

The Misses Hazel and Leona Shelton attended the opening dance of the Carrizozo Trading Co., as guests of Mrs. R. T. Lucas.

### Mason and Dixon Line Cannot Separate Them

Miss. Blanche Brownlee, left for Montgomery, Alabama, Tuesday evening, to witness the departure of Captain Estel L. Stewart, who is about to depart for France to join the American Expeditionary forces in the great conflict. It is hoped by the many friends of Miss. Brownlee, that she will shortly return, but fortunes of war sometimes lure us to climes and conditions beyond the reach of those who would so gladly have us remain. Who can foretell the future.

### BAPTIST CHURCH

(Rev. J. M. Gardner, Pastor.)

Preaching every night except Monday and Saturday. This makes the the fourth week of revival services and they are to continue at least another week.

The pastor will preach Sunday, March 8rd, at 11 a. m. "Did Christ Rise from the Dead?" 7-30 p. m. "Christ at the Door." Sunday School at 10 a. m.

Classes for everybody from beginners to adults. Remember everyone is welcome to all services. If you have moved to Carrizozo lately we would be glad to have you visit our Sunday School and Church and you may want to stay with us. If you are unsaved and have a desire to become a Christian our pastor will be glad to help you in any way if you will just call phone No. 52 and tell him you would like to see him. Don't forget the revival services. Pray for, and bring some one with you to every service.

### Claunch-Adams

At the Methodist Church parsonage Monday evening at 7-30 with Rev. Lewelling performing the ceremony, Mr. Floyd Claunch and Miss Irma Adams were united in marriage.

Miss Adams is the daughter of Mr. and Mrs. Joseph Adams, who are old residents of Carrizozo.

She was raised in Carrizozo and has many friends among her associates.

Mr. Claunch lives with his father on the Claunch ranch about fifty-six miles from Carrizozo, and while living in this locality but a few years, has made many friends.

The couple left Tuesday morning at 2-30 for El Paso and other points in the Lone Star State.

### E. M. Brickley, of The Air

Mr. E. M. Brickley of the First National Bank, received a message from Washington last week, which was in the form of an order directing him to report at Denver for the aviation service. Mr. Brickley did as directed, but after consulting with the military authorities, at Denver he was given orders to return to Carrizozo and await further orders which will take him to the training field.

### Oscuro Correspondence

Miss Scharf, a trained nurse, has been visiting her father and brother here. She is now in Capitan, where she was called professionally.

Joe Ashford, who was formerly in the mercantile business here, is about to sell out his restaurant in El Paso, and will move on to his farm near Kansas City.

The Oscuro Women's Club met in regular session at the home of Mrs. Ranniger Saturday. An enjoyable time was experienced.

The following people attended the opening of the Carrizozo Trading Co's. new building Feb. 25.: Mr. and Mrs. Sterling and children, Mesdames B. S. Burns, G. Ranniger, L. Black, Mr. and Mrs. Watson, and Messrs. R. W. Burns, Albert Scharf and Earl Black.

The charter for the Lincoln County Oil Company, formed by Oscuro men, has been received.

The names of its officers will appear next week.

### Took Scottish Rites

Mr. George Ferguson, journeyed to Santa Fe last week, in order to reach the 32nd milestone in Masonic honor. There were 68 candidates who took the rites, and the sessions lasted three days, from Feb. 18th to 20th.

The rites were performed at the Scottish Rites Cathedral and banquets were held daily as is customary with Masons as long as work continues. The people of Santa Fe displayed an unbounded amount of hospitality, even escorting the 68 candidates through the penitentiary, and every candidate answered to roll call at the finish.

### Washington Program

The 6th 7th and 8th grades in the Carrizozo school gave an interesting program on Washington's birthday. Children from the three grades took part, under the efficient direction of Mrs. Blaney.

The entire program was like the one given on Lincoln day, purely of a patriotic nature.

Mrs. J. B. French gave an interesting talk on the Red Cross, its arms, objects and accomplishments, which proved of great value to the pupils.

### Oil Pictures at Crystal

On Wednesday evening the Crystal Theatre exhibited pictures of the Electra oil fields.

The pictures were very interesting, especially to stockholders in the company, and the familiar faces of Mayor Lutz and Fred Andres were plainly in evidence.

In the pictures the Mayor lifted his hat and gave his New Mexico smile to his Carrizozo friends.

# THE DEEP SEA PERIL

By VICTOR ROUSSEAU

(Copyright by W. G. Chapman)

## THE VILLAIN MAC BEARD, POSSESSED OF THE DEAD MASTERMAN'S SECRET, GOES TO FIND THE ABODE OF THE WEIRD THINGS NEAR SHETLAND ISLANDS—HAS DEADLY PURPOSE.

Naval Lieutenant Donald Paget, just given command of a submarine, meets at Washington an old friend and distinguished though somewhat eccentric scientist, Captain Masterman. Masterman has just returned from an exploring expedition, bringing with him a member of the strange race, the existence of whose species, he asserts, menaces the human family. At the club, the "March Hares," Masterman explains his theory to Paget. The recital is interrupted by the arrival of a lifelong enemy of Masterman, Ira MacBeard, and the former is seized with a fatal paralytic stroke. From Masterman's body Paget secures documents bearing upon the discovery and proceeds to the home of the scientist. Paget proceeds to sea on his submarine, the F65, and encounters a German cruiser. He sinks the enemy, which had destroyed the Beolla, on which Ida Kennedy, his fiancee, was a passenger. The girl escapes in a small boat. He rescues her, but finds himself unable to take the skiff to the submarine because of invisible forces. Paget, Ida, Midshipman Davies and Seaman Sam Clouts barely escape death. Clouts plays the mouthorgan.

### CHAPTER VI—Continued.

Donald heard him leap into the torpedo room below. A moment later his voice came up the funnel. "I'm ready for the lady, sir!" he called.

Donald raised Ida in his arms and lowered her through the tube.

"After you, sir," said Davies. "I have assumed command, Davies," Donald replied.

"Very well, sir," said the middy quietly, and descended. Donald followed him. As he jumped for the floor of the torpedo room, he heard the scarping sound of flippers on the floor above. But the creaking of the conning tower door had ceased.

"We're saved!" cried Donald. "Davies, they can't force the conning tower. Of course not. That sound is one or two of the beasts who have come down the hatches. You closed them?"

"No, sir. There wasn't time." "Then they tried to get through the conning tower, and hadn't reason enough to know that they could get through the hatches!" cried Donald joyfully.

"Their reason won't get them down the tube, sir, unless they've got bodies as slim as ours," said Clouts. "And they feel like—like barrels, sir," he added.

Overhead, the scarping continued, sometimes approaching the tube and then receding. Presently there came the sound of a commotion. Donald inferred that the sea devils had found the one that he had injured, and that they were satiating their horrible cannibalistic instincts. He heard a body dragged this way and that, and a dreadful rending.

After a while the swishing began again, and a faint tapping of flippers against the walls, as if the creatures were endeavoring to explore the interior of the ship. Occasionally a faint, phosphorescent luminosity was visible at the top of the tube. But the monsters made no attempt to descend into the torpedo room. An idea came to Donald.

"Davies! Listen to me!" he said. "They don't know we're here."

"No, sir. I was thinking—"

"That they have no sense of smell."

"Yes, sir."

"And little hearing. At least, that they distinguish sounds only as vibrations."

"Yes, sir. And of course their sense of sight must be extremely limited. And so, roughly, that leaves them only the use of taste and touch, but probably developed far above our own."

"We'll beat them, Davies."

"If that's true as they can't hear much, I think, if I might, sir, I'll play a bit on my mouth organ," said Clouts. "Just a low, humming, sir."

"Right, Clouts," answered Donald. But simultaneously with the first notes there came from above a singular sound. It seemed to be very far away; it was a single, mellow note, the G of a violin, and exquisitely true. It might have been a distant warning buoy anchored amid the tides.

"What's that, Davies?" asked Donald.

"I don't know, sir. The lighthouse stopped operating when the war broke out, and the buoys were taken up."

"Once more the sound was heard. And suddenly Donald knew that he had heard it before, the same note, though infinitely less powerful. It was the sound of the finger on the bowl of water within the house in Baltimore. The scarping in the passage ended in a scurry and did not recur. All

through the night they crouched in the torpedo room, watching and sleeping by turns, and the silence was broken only by a passing word and the occasional tuncfulness of Clouts' mouth organ as he played "Sally in Our Alley."

### CHAPTER VII.

Ira MacBeard.

Ira MacBeard was one of those rare men who are recognized by their contemporaries as master minds. To the public he was unknown, but among the learned he was mentioned in the same breath with Faraday, Sir Isaac Newton and Lavoisier. Half of the March Hares club had once honored him by publicly comparing him with James I.

He had discovered the secret of cold light, and had received a fortune from one of the largest electrical companies for destroying his papers. This enabled him to free himself from the poverty in which he had lived.

He had bisected an ion—upon a blackboard; a thing considered theoretically impossible.

He had solved the problem of utilizing solar energy, although he had not succeeded in making his process valuable commercially.

Unfortunately, like many men of genius, MacBeard had one disastrous failing. He had trained himself intellectually at the expense of his moral faculties. He had never learned to control his primal gutter-urchin propensities.

He was a thief. He did not steal big things, but little ones, and everyone knows that this is more damning socially.

They called it kleptomaniac, and let him resign. But it was not kleptomaniac; it was theft. MacBeard's career was finished. The only club that would admit him to membership was the Inventors'—and that only because the furious bickerings of its members had compelled the passage of a rule that there should be no blackmailing. Anyone could join the Inventors' club, but only inventors wanted to.

MacBeard, embittered, brooded over his wrongs. They assumed monstrous proportions in his mind. He was already approaching fifty; he believed that at death the soul perishes with the body, and the thought of his gigantic brain being obliterated filled him with frenzy. He wanted to make a lasting mark upon the world.

His first idea was to use his solar-energy plant to produce simultaneous eruptions of the volcanoes in Italy and Iceland, Japan and California upon an unprecedented scale. A lava desert should cover all the tiled fields and cities, burying man a thousand feet under its surface and obliterating civilization.

The science and art of nineteenth-century methods of the world would disappear. MacBeard not only hated the world, which had made him an outcast, but he despised it intellectually as beyond redemption. He wanted to bestride its ruins as a superman, a god.

However, his scheme had several drawbacks. It was utterly beyond his financial means. He could not foresee exactly the results of it. There were disturbing possibilities, and he was not the man to act without mathematical exactitude.

His vengeance must take other forms. He wanted a less academic plan, one which reeked less of the midnight lamp. He wanted a more concrete, personal triumph. He wanted to lead

an army to victory, not to sit back and watch the working out of blind forces that he had set in motion.

Besides, destruction must be followed by construction, to satisfy his scientific mind.

His second thought was to produce a race of men, somewhere in the ice-bound wastes of Greenland, that should grow to maturity in a few years; a race organized for war, a primal blend of man and tiger. It had been done with the plants.

But he was too old. He would be seventy before this plan could be carried to perfection. And then it was improbable that the details would work out as he anticipated. His final idea came through Masterman.

Masterman was one of the many men whom he had broken in his days of power. But Masterman was of a different caliber from the rest. Masterman had tried to come back, and had almost succeeded.

MacBeard, at first contemptuous of the old dreamer, came at last to watch Masterman uneasily. He knew that the old captain was crazed upon the subject of deep-sea life; but he knew, too, the facts that underlay his letters to the newspapers.

He had sent a paper embodying this subject to the magazine of the Inventors' club. Unfortunately, Halford had won the ballot for the editorship that month. Masterman's scholarly contribution had been consigned to the waste basket, and the articles in the magazine had been as follows: "A King in Masquerade," "King James I as Universal Man," "Shakespeare and the JIM cipher," "Bacon and the MIJ Cipher," "What Civilization Owes to James I."

When Masterman's proxy ballot won the editorship during his absence, the printers, instead of inserting his latest paper, as he had requested, used a quantity of his old, unpublished material.

Secretly MacBeard had known that the carapace which Masterman had brought back from the North was not that of a stegosaurus. His attack upon Masterman had been inspired by envy and hatred. He had examined the relic, and admitted to himself that it was that of an unknown deep-water animal.

His respect for Masterman's abilities increased tenfold.

He had begun spying upon the captain. He broke into his house while he was away and read his papers, without, however, learning anything of use to him. Incidentally, he stole a gold presentation watch, a Chinese vase of the Ming dynasty, and a pair of lapis-lazuli earrings which had belonged to Masterman's wife.

When MacBeard heard the first rumors to the effect that Masterman's ship had been wrecked, and that all on board had perished, he planned to fit out a secret expedition to go to the scene of the disaster and see what was to be discovered. Then he had seen the captain in the dining room of the club.

He had been thrown off his guard by Masterman's unexpected return, had followed him and Donald to the door of the card room, and had heard the greater part of the story. He had been unable to restrain his eagerness, and had been detected spying.

Balked in his scheme to get possession of Masterman's letter, he had followed Donald to the house in Baltimore. There he had assaulted him and taken the papers from him. He had had no intention of killing Donald, whom he despised heartily. Once the secret, in which he now firmly believed, was in his possession, there would come no reckoning for the assault. He saw his way to immediate rulership over the world.

To do MacBeard justice, he had been scared away, not by fear of the monster, but by the realization that Masterman's terrific story was true. After Donald had left the house MacBeard crept back. He discovered the monster upon the floor where it had precipitated itself in its death agony. It had been disrupted by the internal pressure, under a normal atmosphere.

He made a quick examination of it, sat down in the kitchen, and spent the remainder of the night poring over Masterman's papers. In these he learned much that was essential to his success.

He read that the creature in the tank was a young one, which had not yet acquired the power of resistance to an ordinary atmosphere. Nature was still in process of modifying her creation, and, as in always the case, the young retained the staminate disabilities, just as the young of Methus-

swim like other fishes and have one eye on either side of the head. The modifications in the physiological structure come with maturity.

The adult monsters, MacBeard learned, had already acquired the ability to exist for an indefinite period upon the surface of the sea. While the young had gills, these became modified into a species of lung, capable of breathing both above and under water. This was a new adaptation of nature. MacBeard hurried back to the dead monster, and found the lung already partly formed. That satisfied him that Masterman was an accurate observer.

The submarine sinks. Paget's party take to the water in diving suits. They make some amazing discoveries.

(TO BE CONTINUED.)

## RADIUM CURES CANCER CASES

Report of London Institute Shows Success in Treatment of Many Patients in Past Two Years.

In the years 1915 and 1916 the Radium Institute of London handled 1,400 cases, giving 12,331 separate treatments. These were of many forms of cancer and of skin diseases. Of these, 87 were not treated, 123 were treated too recently to record results, 33 received irradiation merely as a precautionary measure. Of the remaining 1,157, the official report says, 172 were "apparently cured," 52 were "cured," 498 "improved," 215 "not improved," 147 abandoned treatment and 70 were dead.

There were 186 cases of rodent ulcer, which of all forms of malignant disease is most amenable to the action of radium. Lesions which do not affect mucous membrane, bone or cartilage and which have not previously been treated with X-ray, CO<sub>2</sub>, ionization, snow, etc., "can almost invariably be cured by one treatment," says the Lancet.

### "Lallah Rookh" Centenary.

Is the war holding back any poem comparable with "Lallah Rookh," the publication of which was delayed by the Waterloo campaign, and took place just a century ago?

Perhaps few read the famous Oriental romance nowadays, but Moore's reputation when he wrote it was such that he was able to sell it when he had scarce put pen to paper. Murray offered 2,000 guineas for it, but the poet's friends thought this too little, and approached Longman, stipulating that the price should be "not less than the largest amount ever paid for a poem." "That," said Longman, "was the £3,000 paid for 'Rokeby,'" and on that basis a bargain was struck, the publisher's only stipulation being that Moore's poem should be equal to Scott's in length. Even so, Longman had the best of the bargain. Seven large editions were sold within a year, and a quarter of a century later Longman still regarded "Lallah Rookh" as "the cream of copyrights."—Manchester Guardian.

### Famous Fencing Masters.

Metternich says, in his Memories, that he was sent to Strasbourg in the summer of 1788, and that he had the same fencing master as Bonaparte, who had just left the school. This fencing master, a M. Justet, called on Metternich when he was passing through Strasbourg, in 1806, and remarked that it was a funny thing that he should have given Metternich fencing lessons shortly after having given some to Napoleon. "I hope," he added, "that my pupils, the emperor of the French and the Austrian ambassador in Paris, will not think of fighting each other!" An old Almanac d'Alsace also witnesses to the fact that there was, in that year, a fencing master of the name of Justet living in Strasbourg.

### Danger of Sleeves and Ties.

Although time and again workmen have been warned regarding the danger of loose clothing when working around machinery, it appears that many of them persist in ignoring the danger. As a result 696 workmen were killed in the United States by being drawn into the wheels of machinery or thrown to death when parts of their clothing became caught in rotating members. Loose sleeves and neckties are prolific sources of danger, and should not be tolerated for a single moment by the careful worker.—Scientific American.

### Soy Beans as Food.

Soy beans, introduced into the United States more than one hundred years ago primarily for use as a forage crop, are in reality one of the most nutritious of the bean family when used as human food, according to specialists of the department of agriculture.

### Scientifically Speaking.

The Milkman (to suspicious customer)—"You won't find nothing wrong with that ma'am. All our milk's paralyzed by a government anarchist."—Passing Show.

Our boys are defending this country on the high seas and on the land. Our own defense against a common enemy is to keep the system clean by ridding the body of the toxins, or poisons, which are bred in the intestines. When you feel tired, sleepy, headachy, when your breath is offensive, or pimples appear on the face and neck, it is time to recognize the danger and protect your bodily health by taking something for the liver such as Dr. Pierce's Pleasant Pellets.

The machinery of the body needs to be oiled, kept in good condition, just as the guns or machinery of a ship. Why should a human person neglect his own machinery more than that of his automobile or his guns? Yet most people do neglect themselves. Their tongue has a dark brown color, skin sallow, breath bad, yet they fail to see that their machinery needs attention.

Dr. Pierce's Pleasant Pellets have been known for nearly half a century. They are made of May-apple, leaves of aloë and jalap, made into a tiny pellet and coated with sugar. They are standard and efficacious. You can obtain them at any drug store in vials for twenty-five cents. Ask for Dr. Pierce's Pleasant Pellets—and get no other!

Optimism leads to power.

Files Cured in 6 to 14 Days. Druggists refund money if PIERCE'S FILES do not cure itching, blind, bleeding or protruding files. First application gives relief. 50c.

## CAMOUFLAGE IN SICK ROOM

Amusing Little Trivialities That Will Tend to Take Invalid's Mind Off His Sufferings.

Anything which will take the invalid's mind off his or her sufferings is indeed a welcome gift. Bear this in mind, if you are planning to send over to the sick neighbor a bottle of grape juice or your home-made wild cherry cordial. By just a little work and some patches you can camouflage that bottle into a comical doll. Tie a petticoat or dress around the neck of the bottle and a shorter cape over that.

Tie a piece of kid or cloth over the top of the bottle and mark out features on it with ink. Then top the bottle with a little pasteboard toque and you will have a doll calculated to bring a smile to the bluest invalid of your acquaintance.

Other things can be hidden in the same way, even bottles of medicine for children will be better received than if allowed to stand uncovered on the bedside table. Imagine how a little tot will wait for medicine time to come around if the bottle is a little Red Cross nurse and her head comes off in a fascinating manner when the cork is removed.

For marking tools or other metal objects an electric etching machine has been invented.

## A Baked Cereal Food

Different from the usual run of toasted or steam-cooked cereals,

## Grape-Nuts

is baked in giant ovens—baked for nearly twenty hours under accurate conditions of heat, so that the whole wheat and malted barley flours may develop their full, rich sweetness.

You don't need sugar on Grape-Nuts.

"There's a Reason"

## Bowser's Will-Force

But a Jumping-Tooth Prevails

(Copyright, 1917, by the McClure Newspaper Syndicate.)

(By M. QUAD.)

Mr. Bowser had sat for a quarter of an hour without saying anything, when he queried in tones which he tried to make careless:

"Mrs. Bowser, have you noticed anything rather queer about me for the past three evenings?"

"Why, I have noticed that you were rather silent and preoccupied."

"And you didn't suspect the cause?"

"I thought perhaps you were lonesome to see mother," she smiled.

Mr. Bowser didn't even look as if he would like to devour her. He didn't even utter a "humph!" He didn't say a word against the dear old lady, who came down from her home, now and then to give him a few jolts. He simply said:

"I've had a slight toothache for the last three days and I feel like exercising my will-power against it. That is, Mrs. Bowser, it has been a slight toothache for me. It would have been different, with you, or most anyone else. You would have been dodging

should not have. Here is a great study for you, Mrs. Bowser."

"But you have backaches," she protested.

"That is only when my will power goes wandering."

"I should think, Mr. Bowser, if you could will all those things you could will most anything. For instance, why don't you will a full head of hair?"

When Mrs. Bowser touched upon Mr. Bowser's bald pate she touched upon a tender spot, but just now he had a point to sustain and he repressed his indignation, and even smiled as he replied:

"I do not wish a full head of hair. I have been told by thousands that I look better without any at all. I may, however, try my will power that way some day. Ouch!"

"Does your tooth jump?" she asked, as he rose and held up one leg and pressed his hand to his cheek.

The jumping tooth was not satisfied to jump only once, and to jump a foot or two. It went right on jumping five or six times, and at the last jump it seemed to Mr. Bowser that it jumped clear to the ceiling. He struck a gait something like a waltz, and went around the room twice before the tooth settled back to its old habits. Then he was pale, and looked exhausted, and Mrs. Bowser exclaimed:

"Mr. Bowser, I know you are a very brave man, but I hate, nevertheless, to see you go through this needless suffering. I do not think we have got anything in the house to help you, but please go over to the drug store and find something. I think you have got an ulcerated tooth and it may lead to serious consequences if you don't have it attended to."

### Joke on Phrenologist.

A phrenologist, visiting a village, offered to examine anyone's bumps for a small sum.

A burly blacksmith's helper said he would have his bumps examined, and as he took his place, another man whispered in the phrenologist's ear. "He's very fond of veal."

At this hint the phrenologist nodded gratefully. He then read out the blacksmith's bumps, crediting him with all sorts of virtues, and finally he said, in a loud, positive voice, "Now I come to your diet. Gents, if there is one thing in the world our subject dotes on it is veal. Why—"

But the sentence was never finished. The blacksmith rose suddenly and knocked the phrenologist down. "What's it to do with you if I did steal a calf?" he cried.

### Tea Long Used in China.

Tea was used and cultivated in China as far back as the third century, A. D., but it was not until the twelfth century that it became known in Japan, when an abbot of a Buddhist monastery learned about it in China where its virtues were already well known. Obtaining seed, he planted some near Kyoto. In later years some of this was transplanted near Shikoku, which vicinity has ever since been the center of the tea industry of Japan. It was not until about the seventeenth century that tea became generally known in Europe, when it was exploited by the Dutch East Indian company as a new article of commerce. The first tea sold in England brought \$15 to \$20 a pound.

Red Cross Bag Blue, much better, goes farther than liquid blue. Get from any grocer. Adv.

Time is always represented by men. Women are calendar shy.

Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the

Signature of *Dr. J. C. Fletcher*  
In Use for Over 30 Years.  
Children Cry for Fletcher's Castoria

You never see a married man applaud a wife who gets the best of her husband in a play.

The sweetest repose is after toll.

### RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/2 oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off. Adv.

### Voluble With His Mitts.

"How did you get that black eye?"  
"Slept with a deaf and dumb man who talked in his sleep."

Give no reproof when angry.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets. They regulate liver, bowels and stomach.—Adv.

### She Couldn't Deny It.

Mrs. Flatbush—I heard Bensonhurst say his wife didn't know what she was talking about. You can't say that about me.

### Mr. Flatbush—Oh yes, I can.

"When did you ever hear me talk when I didn't know what I was talking about?"

"When you were asleep, dear."

Prevention is better than cure.

"Shut His Eyes and Hung On."

around and screaming half the time. I have pretty near conquered it by sheer force of will."

"But I think you ought to do something for it," she said, with some concern.

"Oh, I shall will it to go away, and it will probably be gone in the morning. I was just explaining to you why I was silent."

"Your tooth may grow worse," said Mrs. Bowser. "They say that hot salt will stop the ache."

"But, as I told you, it don't amount to anything, and the man who can't stand a little toothache hasn't got much sand."

"Why not try the hot water bag?"

"And why bother about a trifle?" Just then the tooth, having been getting ready for the last ten minutes, gave a jump which brought a groan from the owner. Mr. Bowser tried to hide the groan with a sneeze, but he could not deceive Mrs. Bowser. She came over to him and said:

"My dear, open your mouth and let me see the tooth. Perhaps I can stuff some cotton in the hollow."

The jump got through jumping, and Mr. Bowser smiled and said:

"Of course, I thank you for your offer, but please don't concern yourself any more. I was talking and forgot my force of will for a moment and the blamed old tooth took advantage of it. There, it is as quiet as a June morning. Mrs. Bowser, what book were you reading?"

"Well, it is a book of romance," she answered as she went back to her chair.

"Then it is a love story?" he asked.

"Well, I suppose you might call it that, but there are some historical facts connected with it."

"I suppose that every woman, no matter what her age, must read more or less about love?" remarked Mr. Bowser, "but she had better be thinking of something else. For instance, you have soft corns?"

"Yes, I have had them to my sorrow."

"But you did not exercise your will power or you could have made those corns vanish. Do I ever have corns? Never! Why? Because I will that I

"Of course, I do not care anything about it, but I do not wish to cause you any anxiety, and I will therefore go over and have a chat with the druggist. We may talk politics all the time I am there, and never once mention toothache, but I will go over to oblige you."

He went over. He lingered. He stepped very softly and very slow. He arrived at the drug store ten minutes before he intended to. He intended to go in with a jovial salutation, and to talk about the war and other things, but when he went in there was nothing jovial about him. He was so far from being jovial that the druggist called out at sight of him:

"Hello, Bowser. Did they steal the stone dog out of the yard last night and has it almost broken your heart?"

"N-no," was the reply. "But, say, doc—"

"Oh, you needn't say it," said the druggist after Mr. Bowser had got through waltzing. "I know what ails you. You have got the toothache and you're afraid of the dentist. Here, let me open your mouth. Bad ulceration. It will get into your jaw and you'll be in a bad way. The dentist is upstairs. Go right up and tell him to yank out that tooth. If you don't you are the biggest coward in America!"

Bowser went up. He climbed the stairs slowly—oh, so slowly! He hoped to find the dentist dead when he got up, but there was no such luck for him. He climbed into the dental chair. He commended his soul to some place or other, shut his eyes and hung on and pitied the murderers who had waited in the death chair at Sing Sing.

Mrs. Bowser heard someone open the front door and come down the hall. That someone was trying to whistle a gay air. That someone proved to be Mr. Bowser.

"Well?" she asked.

"Oh, it was nothing—a mere trifle. You would have been sick a month with it, but my will power has sent it to the right-about and it will not come back again. Now, then, let's talk about raising chickens, for I know there is big money in it!"

Mrs. Bowser suspects, but she never may know if Mr. Bowser keeps his mouth shut.

## PERUNA—The Greatest Human Vitalizer

Mr. Wm. A. Hartman, 217 1/2 South Second St., Muskogee, Okla., writes: "During the winters of 1897 and 1898, I was so badly afflicted with catarrh of the head and thought I must surely die from it. After trying many doctors and all other recommended remedies made known to me, I was induced to use Peruna. I was cured entirely by using twelve bottles of Peruna and one bottle of Manalin."

Since that time, I have never been without Peruna. I use it for colds and as a general tonic during Spring and Fall months and find it the greatest human vitalizer."

Those who object to liquid medicines can secure Peruna tablets.

Catarrh of Head Thought I Must Die.

Now ENTIRELY WELL

### STRANGLES

Or Distemper in stallions, brood mares, colts and all others is most destructive. The germ causing the disease must be removed from the body of the animal. To prevent the trouble the same must be done.

SPHOHN'S COMPOUND will do both—surely the most and prevent those "exposed" from having the disease. 45 cents and \$1 a bottle; \$5 and \$10 the dozen. All druggists, harness houses or manufacturers. SPHOHN MEDICAL CO., Manufacturers, Graham, Ind., U.S.A.

## Win the War by Preparing the Land Sowing the Seed and Producing Bigger Crops

Work in Joint Effort the Soil of the United States and Canada CO-OPERATIVE FARMING IN MAN POWER NECESSARY TO WIN THE BATTLE FOR LIBERTY

The Food Controllers of the United States and Canada are asking for greater food production. Scarcely 100,000,000 bushels of wheat are available to be sent to the allies overseas before the crop harvest. Upon the efforts of the United States and Canada rests the burden of supply.

Every Available Tillable Acre Must Contribute Every Available Farmer and Farm Hand Must Assist

Western Canada has an enormous acreage to be seeded, but man power is short, and an appeal to the United States allies is for more men for seeding operation.

Canada's Wheat Production Last Year was 225,000,000 Bushels; the Demand From Canada Alone for 1918 is 400,000,000 Bushels

To secure this she must have assistance. She has the land but needs the men. The Government of the United States wants every man who can effectively help, to do farm work this year. It wants the land in the United States developed first of course; but it also wants to help Canada. Whenever we find a man we can spare to Canada's fields after ours are supplied, we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve the combined interests.

Western Canada's help will be required not later than April 5th. Wages to competent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, good board and find comfortable homes. They will get a rate of one cent a mile from Canadian boundary points to destination and return.

For particulars as to routes and places where employment may be had apply to: U. S. EMPLOYMENT SERVICE, DEPARTMENT OF LABOR

The Cause of Hatred. "What have you got against Henry?" "Nothing, except he's the man my wife is always wishing I would imitate."

If properly classified, about 80 per cent of the novels are dry goods. Failure is one of the things that are spoiled by success.

## Does the Itching Disturb Your Sleep?

A word of advice from Paris Medicine Co., Beaumont and Pine Sts., St. Louis, Mo. (Manufacturers of LAXATIVE BROMO QUININE and GROVE'S TASTELESS chill TONIC.)

We wish to state to our millions of friends that in

### PAZO PILE OINTMENT

which is manufactured by us, we have a remedy which instantly relieves the intense itching of piles, and you can get restful sleep after the first application. We have letters from a large number of our customers saying they were permanently cured of this very annoying trouble. Every druggist has authority from us to refund the money to every customer who is not perfectly satisfied after using it. Most all druggists handle it, but if your druggist should not have it in stock, send us 50 cents in postage stamps with your Name and Address and it will be mailed to you promptly. After you try one box of PAZO PILE OINTMENT we know you will ask your druggist to keep it in stock, and will recommend it to your friends.

Send for a box of PAZO OINTMENT today and get immediate relief.

**File Complaints Here**

All persons who might have any complaints in regard to any retail prices now in force in Lincoln County should file these complaints either with the Local Fuel Committee, which consists of H. S. Campbell, chairman, E. M. Brickley and H. B. Dawson or with the legal department of the National Fuel Administration in Washington. I have instructed Local Fuel Committees to the effect that no retailer anywhere in New Mexico shall be allowed a gross margin of over \$2.50 in any case without a recommendation from the Local Fuel Committee for the same with an order allowing the same from the Federal Fuel Administrator.

W. C. McDonald,

Federal Fuel Administrator for New Mexico.

**Pheasant Distribution**

The Department of Game and Fish, according to information given out by Theodore Rouault, Jr., State Game Warden, will have a limited number of Chinese Ringneck Pheasants and eggs for distribution in the next few days. Applications for these birds will be entered and the order filled in the rotation in which the requisitions are received. It is therefore advisable that those who are really interested in the propagation of these splendid game birds file their requisition without delay.

Theodore Rouault Jr.,  
State Game Warden,  
Santa Fe, N. M.

**Walton on Land Committee**

Congressman W. B. Walton, notwithstanding his selection as a member on the two important committees of Public Lands and Indian affairs, to which he was named on the assembling of Congress less than a year ago, has just been elected to the Committee on Irrigation of Arid Lands, an assignment which means more hard work for him but increases his power for usefulness to the people of New Mexico.

**Land Sale in Union County**

Clayton, N. M. Feb. 28.—The first sale of state land in 1918 in Union county, held here on St. Valentine's day, has demonstrated that last year's record breaking state land sales in this county were not based on boom prices, but were fairly standardized values for farming and grazing lands owned by the state in this section. A total of 69 tracts were offered by State Land Commissioner R. P. Ervien at last week's auction in the county court house. They totaled 92, 108. 64 acres and brought a total purchase price of \$578, 157. 52 or an average price per acre of \$6.27. The average is not as high as that of the April, 1917 sale when an average of \$7.50 was reached; but the lands offered last week were largely grazing, with little agricultural land included, while in the 1917 sale large tracts of farm land were offered.

The tracts sold last week ranged in acreage from 40 to 28,500 acres, but the total 53 tracts were 640 acres while only two were of above 5, 000 acres one being for 28,500 acres and the other for 8,900 acres. Both of these tracts were bought by New Mexico stockmen for the minimum price of \$5 per acre.

One tract of approximately 3, 000 acres sold for \$10. 60 per acre and another of 2948 acres sold for \$14. 05 per acre. Prices ranging from \$10 to \$15 per acre were frequent for the smaller tracts and the high price of the sale was \$18. 80 per acre paid for a school section. While a number of visitors from other states were bidders, the bulk of the successful bidders were citizens of New Mexico, and familiar with the lands and their values.

**No Mention of Horns**

The Kaiser has written another letter in which he thanks his Almighty for help, but he fails to say anything about the horns.

**Ground Glass in Candy**

Chattanooga, Tenn., Feb. 28.—Twenty enlisted men of the Fifty-second Infantry at Camp Forrest are confined to the base hospital as the result of eating candy containing particles of ground glass. At the camp it was said tonight that the condition of some of the men is serious.

**SIFTING OUT THE SLACKERS**

Hospital Assistant, Threatening to  
Cook Alive One Patient to Obtain  
Grease, Reduces Sick Call.

Stories of how to outwit impostors  
who report sick in order to loaf in hos-  
pitals are among the oldest traditions  
of the medical branches of all atries,  
says a writer in a medical journal. A  
fourteenth-century collection of anec-  
dotes shows that the maligner was  
known in those days and Cardinal de  
Barl, who had a hospital at Verceil,  
found its resources were being ex-  
hausted by men of this type. He sent  
one of his subordinates to investigate.  
This man, Petrillo by name, who was  
something of a humorist, dressed him-  
self in the robes of a physician and  
assembled all the patients for an ex-  
amination of their wounds. Then he  
gravely said: "There is clearly  
but one remedy needed for the cure of  
ulcers of this character, and that is an  
ointment made of human grease. This  
very day I intend, in consequence, to  
draw by lot one from among you, who  
will be plunged alive into boiling wa-  
ter and cooked for the salvation of all."  
Seized by fear, all the patients  
made haste to report themselves fully  
recovered from their ulcers, and con-  
sequently there was room in the hos-  
pital for those who really needed  
care.  
Physicians today, by the use of sim-  
ilar ruses, have discovered many "hos-  
pital slackers."

**FISHING A MECHANICAL ART**

Outfit Consists of Net, Rope and Pul-  
ley—All Operator Need Do Is  
to Turn Crank.

Most operations nowadays can be  
performed by machinery. Time was  
when the best sport in angling was  
obtained by the use of a rope, with  
patience at one end and a suitable  
bait at the other. The Wide World  
Magazine gives a revised edition of  
this plan. Here it is in all its sim-  
plicity:

You hang an immense four-corn-  
ered net on a rope which passes over  
a pulley, turn a handle, and drop the  
net into the sea. After a time, which  
may vary according to the mood you  
are in and the quality of the tobacco  
you are smoking, you wind up the net  
and look into it. If it is empty, you  
let the handle go a few turns, and  
drop the net into the sea again; if it  
contains any fish you draw it out and  
bag them. In this way you reduce fishing  
to a mechanical art. When you haul  
up this huge net from the briny deep  
and find by the aid of a telescope that  
it contains one tiny, solitary fish—  
as was our case—after many unsuccess-  
ful "casts," you rejoice with joy  
unspeakable and call in your neigh-  
bors to the feast.

**The King's Beard.**

An interesting story is told in con-  
nection with the Swedish actor, Fer-  
rast, who was called upon to take the  
part of Oscar I in a play under that  
name at Stockholm, Sweden. The ac-  
tor was ordered by the director of the  
opera to make up with a full beard,  
but during one of the intermissions  
he hunted up the director and told him  
that Oscar I never wore such a beard.  
"What kind of a beard did he have,  
then?"

To this Ferrast replied, "Mustache  
and goatee, like Napoleon III."

"How do you know that?"  
The conclusive reply was offered,  
"From my postage-stamp collection."  
The change was made and at the  
second performance the public noticed  
with astonishment how King Oscar  
had altered the cut of his beard. To  
stamp collectors it is hardly necessary  
to point out that Mr. Ferrast secured  
his information by looking up the issue  
of Norway, 1856-7.—Christian Science  
Monitor.

**Farming in France.**

The French government has under-  
taken to supply the depleted ranks  
of the farmers and to give assistance  
to the amateur farmer by means of a  
correspondence course, which has been  
eagerly received. The pupil receives  
instructions as to a course of reading,  
the management of a small experiment  
plot, the carrying out of simple experi-  
ments, visits to neighboring farms,  
etc. The Union of Agricultural Syndi-  
cates, which has assumed charge of  
this work for the government, has ap-  
pointed a number of "contors" to su-  
pervise the work of pupils in their sev-  
eral neighborhoods. The pupils pre-  
pare monthly examination papers and  
render monthly reports on their work.

STATE OF NEW MEXICO  
NOTICE FOR PUBLICATION  
PUBLIC LAND SALE  
LINCOLN COUNTY.

Office of the Commissioner of Public Lands,  
Santa Fe, New Mexico.

Notice is hereby given that pursuant to the provisions of an Act of Congress, approved June 20, 1910, the laws of the State of New Mexico and the rules and regulations of the State Land Office, the Commissioner of Public Lands will offer at public sale to the highest bidder, at 9 o'clock P. M. on Tuesday, March 26th, 1918, in the town of Carrizozo, County of Lincoln, State of New Mexico, in front of the court house therein, the following described tracts of land, viz:

Sale No. 1065 - SW1/4NE1/4, S1/2NW1/4, NW1/4SW1/4, N1/2SE1/4, Sec. 27; W1/2NE1/4, N1/2NW1/4, N1/2SW1/4, Sec. 30; NE1/4NE1/4, Sec. 34; T. 5 S., R. 18 E., S1/2SW1/4, Sec. 26; S1/2SE1/4, Sec. 27; N1/2NE1/4, N1/2NW1/4, Sec. 35; N1/2SW1/4, SE1/4, Sec. 11; T. 6 S., R. 18 E., containing 122.30 acres selected for the Santa Fe and Grant County Railroad Bond Fund. No improvements.

Sale No. 1066 - W1/2W1/4, Sec. 12; All of Sec. 18; All of Sec. 19; W1/2W1/4, Sec. 20; W1/2W1/4, Sec. 29; All of Sec. 30; All of Sec. 31; T. 6 S., R. 11 E., containing 304.24 acres. The improvements consist of fencing, value \$550.00.

Sale No. 1067 - N1/2SE1/4, Sec. 22; T. 8 S., R. 10 E., containing 160 acres selected for the Santa Fe and Grant County Railroad Bond Fund. There are no improvements.

Sale No. 1068 - All of Sec. 16; SE1/4, Sec. 19; N1/4, W1/2SW1/4, E1/2SE1/4, Sec. 21; All of Sec. 22; All of Sec. 23; SW1/4, W1/2SE1/4, Sec. 24; W1/2, W1/2E1/4, Sec. 25; All of Sec. 26; E1/2, E1/2NW1/4, SW1/4, Sec. 27; E1/2SE1/4, W1/2W1/4, Sec. 28; E1/2, SW1/4, Sec. 29; SW1/4, Sec. 30; All of Sec. 31; NE1/4, N1/2NW1/4, E1/2SE1/4, Sec. 32; N1/2NE1/4, NW1/4, Sec. 33; All of Sec. 35; N1/4, Sec. 36; T. 8 S., R. 11 E., Lots 1, 2, 3, S1/2NE1/4, W1/2SW1/4, SE1/4, Sec. 1; T. 9 S., R. 10 E., NE1/4, SW1/4, E1/2SE1/4, Sec. 36; T. 8 S., R. 12 E., containing 834.94 acres. Improvements consist of well, tank and fencing, value \$385.00.

Sale No. 1069 - E1/2SE1/4, Sec. 19; T. 9 S., R. 8 E., containing 80 acres. There are no improvements.

Sale No. 1070 - N1/2NW1/4, SE1/4NW1/4, N1/2SE1/4, SE1/4SE1/4, Sec. 26; E1/2, E1/2NW1/4, SW1/4, Sec. 35; T. 8 S., R. 14 E., All of Sec. 2; T. 9 S., R. 14 E., containing 1401.20 acres. The improvements consist of fencing, value \$250.00.

Sale No. 1071 - All of Sec. 16; T. 12 S., R. 17 E., containing 60 acres. Improvements consist of fencing, value \$300.00.

Sale No. 1072 - All of Sec. 32; T. 12 S., R. 17 E., containing 60 acres. Improvements consist of house, well and fencing, value \$725.00.

Sale No. 1073 - Lots 1, 2, Sec. 3; T. 13 S., R. 18 E., containing 79.60 acres selected for the Santa Fe and Grant County Railroad Bond Fund. Improvements consist of 2 houses, barn, well, windmill, tank, corral, and fencing, value \$19,550.00.

Sale No. 1074 - E1/2E1/4, Sec. 23; T. 7 S., R. 11 E., containing 160 acres. Improvements consist of fencing, value \$165.00.

No bid on the above described tracts of land will be accepted for less than THREE DOLLARS (\$3.00) per acre which is the appraised value thereof and in addition thereto the successful bidder must pay for the improvements that exist on the land.

Sale No. 1075 - E1/2NW1/4, NW1/4NW1/4, Sec. 29; T. 5 S., R. 12 E., containing 120 acres selected for the Santa Fe and Grant County Railroad Bond Fund. There are no improvements. No bid will be accepted for less than FIVE DOLLARS (\$5.00) per acre.

Sale No. 1076 - SW1/4SW1/4, Sec. 5; SE1/4SE1/4, Sec. 6; SW1/4SE1/4, SE1/4SW1/4, Sec. 20; NE1/4SE1/4, Sec. 26; S1/2NW1/4, Sec. 31; T. 6 S., R. 19 E., containing 200.13 acres selected for the Santa Fe and Grant County Railroad Bond Fund. There are no improvements. No bid will be accepted for less than FIVE DOLLARS (\$5.00) per acre.

Each of the above described tracts will be offered for sale separately. The above sale of lands will be subject to the following terms and conditions, viz:

Except for land selected for the Santa Fe and Grant County Railroad Bond Fund, the successful bidder must pay to the Commissioner of Public Lands, or his agent holding such sale, one-twentieth of the price offered by him for the land, four per cent interest in advance for the balance of such purchase price, the fees for advertising and appraisal, and all costs incidental to the sale herein, and each and all of said amounts must be deposited in cash or certified exchange at the time of sale, and which said amounts and all of them are subject to forfeiture to the State of New Mexico if the successful bidder does not execute a contract within thirty days after it has been mailed to him by the State Land Office, said contract to provide that the purchaser may, at his option, make payments of not less than one-fiftieth of the purchase price at the time of sale and prior to the expiration of thirty years from date of the contract, and to provide for the payment of any unpaid balance at the expiration of thirty years from the date of the contract, with interest on deferred payments at the rate of four per cent per annum payable in advance on the anniversary of the date of contract, partial payments to be credited on the anniversary of the date of contract next following the date of tender.

The sale of land selected for the Santa Fe and Grant County Railroad Bond Fund will be subject to the above terms and conditions except that the successful bidder must pay in cash or certified exchange at the time of sale, one-tenth of the purchase price offered by him for the land, four per cent interest in advance for the balance of such purchase price and will be required to execute a contract providing for the payment of the balance of such purchase price in thirty equal annual installments with interest on all deferred payments at the rate of four per cent per annum in advance payments and interest due on October 1st of each year.

The above sale of lands will be subject to valid existing rights, easements, rights of way and reservations. The Commissioner of Public Lands or his agent holding such sale reserves the right to reject any and all bids offered at said sale.

Possession under contracts of sale for the above described tracts will be given on or before October 1st, 1918.

Witness my hand and the official seal of the State Land Office of the State of New Mexico, this 11th day of January, 1918.

ROBT. F. KRVIEN  
Commissioner of Public Lands,  
State of New Mexico.

HIS WOOD NYMPH

By AGNES G. BROGAN.

(Copyright, 1917, Western Newspaper Union.)

When Carson came to a clearing he dropped his gun among the thick leaves, and lighting his pipe, leaned lazily back against a tree-trunk. Game was scarce, but it was the autumn beauty of the woods, as well as the hunting which had called him. This day of warmth and sunshine seemed borrowed from the summer so lately passed.

"What a glorious spot it was!" His dark eyes took in the color scheme of gold and crimson. "Back in the days of chivalry, a wandering knight might meet in such romantic surroundings, a lady of wondrous charm and beauty—a wood nymph perhaps, with flowers twined in her hair. But in this prosaic age of ruin and reality—" Carson smiled into the bowl of his pipe, "the wonderful ladies competently run their own cars about city pavements, or golfed at a country club."

Following his smile came a ruminative frown, "Why was he always doomed to find the companionship of the fair sex of such tiresome sameness, was it because romance still lingered hopefully at the back of his capable business brain? A painting, 'The Daughter of the Wood,' which hanging before his desk at home, had not consciously attracted his attention, became now pictured upon his mind. The girl's long rippling hair, the eyes of wide startled wonder, the mischievous curl of lips as red as the berries in her hair. Then with a sense of human nearby presence, Carson turned to find the pictured sprite perched upon a mound of leaves behind him. This particular sprite laughed in frank delight at his evident astonishment.

"Well?" she asked saucily. Still bewilderedly staring, he noted her round brown arms escaping from their ragged covering, the wreath of mountain-ash berries crowning her shimmering hair; hair rippled far below the waist. Could it be girl or vision?

"That is what I must ask you," he replied. "Well?" She laughed again. "You wonder how I came here," she questioned, "in this solitude, far from habitation."

He nodded. "I fancied at first that I had conjured up your image. My mind was at the moment filled with such poetic imaginings."

"We will then," the vision replied, "continue the fancy. I am, sir, a daughter of the wood." She pointed to his gun. "You, I fear, have been destroying my feathered friends; the cruelty must cease."

"It will, fair nymph," the man replied, joining whimsically in her pleasure. "With no habitation within many weary miles of walking, may I ask where is your abode?"

The girl pointed upward. "In the sturdy oak, sir, beneath which I sit." "Asking pardon of a woodland daughter," Carson replied, "the tree beneath which you sit is a sturdy beech."

The girl's laughter went ringing through the silence. "What does it matter?" she said, "at night the tree makes a sheltered resting place and by day—" she arose hastily to her tiny sandaled feet—"by day I must be busy gathering nuts for the winter's store. Sir, I must leave you."

Carson arose also. The girl put forth a protesting hand.

"If you please," she begged, and left him looking after her retreating figure.

Doing Our Part

Did you ever notice the difference between the size of a crowd in a store Saturday afternoon and other days of the week?

The telephone company is now serving a "Saturday afternoon crowd" every day.

Since the war began the business activity of the country has been expanding with abnormal rapidity. This has required constantly more and more telephone service for the business houses.

Complete telephone systems have been built and are maintained at more than fifty training camps over the country. This has taken a tremendous amount of equipment and the services of a large number of skilled telephone men.

Many of our men are constantly engaged in installing and maintaining the equipment used only by the Government in this country.

In addition to this, our Government needed skilled telephone men in the prosecution of the war, and these could be furnished only by the telephone companies of the country.

In spite of the war and what it has meant to this company in the increased number of telephone messages to handle, the enlistment of so many of our trained men, the shortage of equipment and the high cost of materials—

In spite of all these obstacles, we are meeting the needs of the public for telephone service in a remarkably successful way.

The episode filled his thoughts during days which followed. He smiled in happy reminiscence looking at the picture of the wood nymph above his desk. These pictured eyes were not half so beautiful, he thought, the curved lips not so alluring, as one other. And the remembered face would not be dismissed. Merrily it laughed at him from the crackling flames of his own fireplace, gravely it regarded him from shadowy corners. Carson knew that he must go back—back to the far wooded country where he had seen her. Now that romance had at last found him, he must claim it for his own.

He had reached this decision, when to pass a restless hour, he entered a motion-picture house. Absently he watched the changing scene cast upon the screen. There was something vaguely familiar, in the wooded, hilly country, then Carson sat up abruptly. Amusement and delight flitting across his features.

Down a narrow path, ever nearer ran a graceful girlish figure, her flowing hair crowned with a wreath of berries, her bared arms outstretched before her, a creature wild and free she was, now pausing to laugh in his very face, now dropping upon a mound of leaves, mischievously hiding from the lover who pursued her—Carson knew the hero-lover well, his face was pictured in many magazines, but it was the girl who claimed his attention.

"Mollie Miller," he read the name upon the screen; and thereafter sat breathless until the last triumphant picture faded into nothingness. It was this very act no doubt that his wood-nymph had been rehearsing in her wooded setting. And when a few days later, Miss Mollie Miller received his card at the studio, she smiled her famous smile and went forth to meet him.

"So," she said, "you found me after all." "As I should have found you," he answered earnestly, "at the other side of the world."

The war is taking the best of the young men. Think over the list of young chaps who have gone from this town and county and you cannot but be proud of them and know that they will give an exceedingly good account of themselves in the business at hand.—San Marcial Star.

**Miss Peppin The "Pippin"  
Of The Ball at Lincoln  
\$66.00 For Red Cross**

The following interesting letter, has just been received from Mrs. Smith, who is secretary of the Lincoln County Auxilliary of the Red Cross Chapter:

The members of the Lincoln Auxilliary of American Red Cross gave a dance last Friday night Feb. 22 at the Old Court House of Lincoln, the proceeds to be used for the Red Cross. A large crowd was in attendance from all of the adjoining towns.

Refreshments were served at 11 o'clock and dancing lasted to the wee small hours of the morning. During the evening a Red Cross cake was raffled off, said cake to be given to the prettiest girl at the dance. Miss Clara Peppin was voted "Belle of the Ball" and the cake sold for \$23.10

The net proceeds of the dance were \$66.00. Music was rendered by the Hightower Orchestra. The old Court House was decorated for the occasion with flags and Red Crosses, in honor of Washington's birthday, and the great National cause it represented. Everyone reports a grand time.

**Slugged And Robbed**

Mr. J. O'Rourke, who is a conductor on the E. P. and S. W. between here and El Paso, tells of a vicious assault on his brother-in-law Mr. Bert Lloyd of Deming N. M. last Friday night.

Mr. Lloyd operates a jitney bus between Deming and Camp Cody, and the hold up occurred on one of his regular trips last Friday night. Lloyd was going at a good rate of speed in order to make his time, when he was hailed by two men in soldier's uniforms, and asked to be taken to camp.

Mr. Lloyd giving no thought to this usual request on the road at night, took the men in the rear seat and resumed his journey. After riding a short distance one of the men struck Mr. Lloyd on the head with a heavy peice of gas pipe, rendering him unconscious.

The robbers took all the money they could find on his person which amounted to only \$15.00, but overlooked \$25.00 which Mr. Lloyd had fortunately concealed in his watch pocket.

As soon as he gained consciousness, Lloyd waived his electric flash light until some friendly traveler, caught sight of the signal of distress, came to his assistance, and took the suffering victim to Deming for medical treatment. At last accounts, the police had been unable to locate the bandits, and whether they were really soldiers, or wore the uniform to throw suspicion on the soldiers, will remain a mystery until they are apprehended and brought to justice. Mr. Lloyd will recover.

**Big Red Cross Dance**

A big dance at White Oaks on Saturday night March 16th. Refreshments and a good time to everybody. Old time dances interspersed with the new, will be a feature of the evening.

**LOOK! LOOK! LOOK!**

Bedsteads, Mattresses, Go-Carts, Combination Chair, and Step Ladders—Furniture. N. B. Taylor & Sons.

**Turned Turtle Twice**

Last Sunday a party composed of Miss Blanche Brownlee, a teacher in the Carrizozo school, Miss Mildred Fulghum, teacher of Domestic Science in the school at Capitan, and Mr. Stewart Sterling left Carrizozo for a joy ride in the mountains.

The party journeyed to Capitan and, after motoring about that section to the height of their desire, motored over to Glencoe, with the intention of returning by the way of the Ruidoso.

Miss Fulghum was driving the car and becoming deeply interested in the conversation, failed to notice she was dangerously near a precipice. All efforts to turn the car proved of no avail, and before the occupants could realize what had happened the car rolled down an embankment.

On the first turn of the car, Miss Brownlee and Mr. Stewart were thrown violently to the ground, but Miss Fulghum being at the wheel, was pinned in and so remained with the tumbling car.

The auto turned turtle the second time, with Miss Fulghum fastened under it. Help arrived in short order and on turning the car found that Miss Fulghum had escaped without injury, and was only put to the discomfort of having a good mouthful of sand and dust.

This is the first occurrence of this kind with a car turning turtle the second time, when all the occupants escaped in such a miraculous manner and some may reserve the right to say, "The Lord was with the school teachers."

**EASTER IS EARLY  
THIS YEAR**

And we held this fact in view, while we were buying our Ladies wearing apparel. The suits, shirts, dresses and hats are arriving daily now and prettier styles never graced our store.

Spring Millinery is very chic, mushroom polk, sailor and turban shapes. Fasters computations could never be bought.

**\$4 to \$12.**

Style much changed in dresses. Foulards and plaids are much in favor of soft clingy silk.

**\$10 to \$30.**

**- SILK SKIRT -**

Nothing better to start the season off with than a neath silk skirt. We are showing a beautiful line,  
**\$8 to \$12**

## Our Part in Feeding the Nation

(Special Information Service, United States Department of Agriculture.)

### ROAD CONSTRUCTION POLICY FOR WAR TIME

Food Transportation Needs as Well as Military Necessity to Be Considered in Nation's War Time Road Building.

## MAINTAIN ROADS ALREADY BUILT

Military and Economic Needs Must Govern 1918 Construction.

### BUILDING PUT ON WAR BASIS

How the Federal Aid Road is Administered—Improved State Laws One Result—Annual Expenditure of \$300,000,000 Involved.

That is the policy which David F. Houston, secretary of agriculture, believes should be followed in highway construction during the war. It means that road building in the United States will be put on a war basis; that the highway which is vitally important from a military standpoint and for the movement of commodities will receive priority of consideration in projecting programs of construction.

In carrying out the policy thus announced there has been sent out by the office of public roads of the department of agriculture, schedule forms on which the states are requested to set forth their proposed federal aid work for the 1918 working season. These schedules call for a description of each road, the character, quantity and roll haul of the materials to be used, the probable cost, the amount of federal funds desired, the specific purpose of the improvement, its bearing upon the war situation, and what effect a delay of the work until 1919 or later would have. With the information thus assembled and classified, an efficient road-construction program is assured. While it is impossible to make any definite statement regarding the transportation of road materials, the expectations are that the transportation situation will be improved and that the shipment of such materials for essential projects can be made.

Expenditure of \$300,000,000.

Road construction and maintenance in the United States involve an annual expenditure of some \$300,000,000, and there is scarcely a section of the country that is not seriously affected by a marked disturbance in road work.

In the administration of the federal aid road act of July 11, 1916, which provides for co-operation between the federal government and the states in the construction of rural post roads and of roads and trails within and partly within the national forests, very satisfactory progress has been made by the department of agriculture, according to a recent report of Secretary Houston. The office of public roads and rural engineering, which is entrusted with the burden of administering the act, has extended its organization to provide the requisite machinery. Ten district offices with an engineer in charge have been established in as many areas.

#### Forty State Projects.

Under the provisions of the act 40 states have submitted 183 projects involving a total of approximately 1,750 miles, according to the secretary's report. Of this number 136, embracing 1,182 miles and calling for an estimated expenditure including federal, state and local funds of \$7,047,114.50, have been approved. These projects

### STATES SPEED OPERATION OF FEDERAL AID ROAD ACT.

Probably the most significant result thus far of the operation of the federal aid road act has been the enactment by a number of state legislatures of effective road laws. Legislative action in some states was necessary to meet the requirements of the federal act, but many of the states have gone further and have recast their highway policies. All the states have assented to the provisions of the act—42 by their legislatures and six by their governors. Thirty-three had a highway department within the meaning of the act upon the date of its approval; the remaining 15 have since enacted legislation creating highway departments which comply with the terms of the law. The highway departments in 18 states have been greatly strengthened, specific appropriations to meet the federal funds have been made by ten, and comprehensive maintenance legislation has been enacted in nine states. Forty-two states now have satisfactory maintenance laws. Nearly all the states have submitted definite schemes or programs of work for the entire five-year period covered by the act, or for the greater portion of it. The formulation of carefully prepared plans for the full period in advance of construction tends to prevent wasteful and haphazard undertakings.

Involve federal funds to the extent of \$3,455,573.76, or 23.75 per cent of the total allotment, \$14,550,000 to the various states for the fiscal year 1917 and 1918. Six projects covering 40 miles have been disapproved. Agreements have been entered into or are in the course of preparation in the case of 34 projects, aggregating 197.74 miles and involving \$190,000.84 of federal funds and a total of \$2,223,944.74.

The full effect of the federal aid road act cannot be measured by any comparison of funds expended in 1916 and made available for 1917, as many of the legislatures did not meet until early in the calendar year 1917. It is significant, however, says the secretary, that while the expenditure of state funds in 1916 aggregated \$40,000,000 it is estimated that the expenditure of state funds in 1917 will reach approximately \$60,000,000, or an increase of nearly 50 per cent. These funds are distinct from local expenditures and indicate an advance in state participation in highway work.

### TRANSPORT OF FARM PRODUCTS.

Farm products will not be denied transportation facilities, according to a statement of the director general of railroads, issued after a conference with representatives of the United States department of agriculture. No list of "non-essential" agricultural products has been issued, nor is such an order contemplated. The director general believes that under the plan now being formulated it will be possible to provide adequate transportation for farm products this year. Farmers should place orders for cars when needed with local freight agents as has always been the practice.

## TESTING SEED CORN IS STRONGLY URGED

Of Greater Importance to Farmer Than Ever Before.

Department of Agriculture Urges That Farmers Do Not Feed Corn That Would Be Valuable If Used for Seeding.

(Prepared by the United States Department of Agriculture.)

The germination test of seed corn is more important this year than ever before because good seed corn is scarce, and because the best seed is needed in order to produce the large crop which this nation will need. Even where seed corn has been carefully gathered and stored it should be thoroughly tested in the spring before planting. The best way to do this is to make a seed corn testing box and test one hundred ears separately.

Each kernel that is tested must be perfect, and not injured at the tip when it was removed from the ear. Hand shelling will give much fewer

Homemade Seed Germinator—A, Closed; B, Open—This Type is Suitable for Small Seed—The Box is Best for Seed Corn.

Injured tips than machine shelling, and should be used with all seed corn. If three or more kernels out of ten from any one ear fail to grow it will be wise to test every ear in the entire supply of seed. If the 100 tested ears show no poor ones, further testing of the supply is unnecessary.

#### Prevention is Best.

It must not be thought that good results from the germination tests are a sure index of high productivity. Ears slightly damaged by poor preservation, as in damp storage places, may germinate well, but will produce less than if they had got better care. Prevention is better than cure; and in the case of poor storage, according to seed-corn specialists, a cure is impossible.

Corn that was selected wisely in the field where it grew, that matured normally and has been preserved properly in mouse and insect proof storages will grow and produce satisfactorily. Because there is such a scarcity of seed corn in some sections of the corn belt, the United States department of agriculture urges that farmers in this and other sections be careful not to feed corn that would be more valuable if used for seed. To the detriment of the 1918 crop some corn suitable for seed is being used to some extent by farmers who have enough seed for themselves. This is especially regrettable because the corn is frequently adapted to conditions and is not a great distance from where it will be sadly needed for spring planting.

#### Get Seed Best Adapted.

Ordinarily seed corn should not be obtained from a distance. The nicest-looking seed may be entirely unadapted and cause the loss of a crop. As there is but little "hold over" the frost-stricken and drought-stricken areas must get their seed from other points. It should be obtained from a locality having a similar climate, and obtained now.

If you have a large amount, or but a few bushels of a 90-day corn which germinates well, let your county agent, your state experiment station and the United States department of agriculture know about it.

### VALUE OF GOOD IMPLEMENTS

Largely Responsible for Size of Crops and Economy in Production This Season.

Good implements will be responsible very largely for the size of the crops and economy in production this year. Those who have used a dull ax in cutting down trees know how much energy is wasted in using a dull implement and inefficient devices in work. Why waste time and money in trying to farm with inadequate implements? The cost of good implements is not to be compared with their value. Save your labor and that of your teams with efficient implements.

#### Not Over Popular.

Bourbon Red turkeys are not as large as the Broyles, are not as handsome, do not breed as true to color, and are not as popular.

#### Green Crops for Winter.

The dairyman should do his best to have green crops and pasture grass for the cows in winter.

### NITRATE OF SODA BENEFITS

Highly Valuable for Early Crops Where Rapid Maturity is Desired—Helps in Orchards.

Dr. William S. Myers says that nitrate of soda is of high value for early crops, where rapid maturity is desirable, such as peas, corn, beets, and cabbage. It is a special help to hay, grain, rye, wheat, timothy, cereals, and orchards, all of which are unable to obtain sufficient nitrogen from the soil just when they need it. It is a great specific in the production of sugar beets, potatoes, cotton and cane.

Small fruits, such as blackberries, currants, raspberries, and gooseberries, which need a steady, even growth, are greatly benefited by nitrate of soda, which can be furnished all ready for digestion when the plants require it.

### BUSINESS METHODS IN NEED

Many of Farm Failures Doubtless Due to Lack of Science—Farmer Would Produce More.

Much emphasis is being placed upon science in farming. We are often told that if we would use more science we would produce more. There is much truth in this. Many of our failures doubtless could be traced to a lack of science—that is, lack of classified knowledge.

Business methods are indispensable to profitable farming. Without sound business judgment, correct business habits, and safe business practice, it will be a very difficult matter to use science for profitable farming.

### USE WOOD INSTEAD OF COAL

Opportunity Now Presents Itself for Farmer to Make Use of Wood Lot for Needed Fuel.

Farmers with timber on their land have a big opportunity this year. An opportunity to save money by cutting their own wood as a substitute for

Fine Stand of Young White Oak.

coal and selling a portion of it to relieve a serious situation in the coal market and benefit the country at large.

Many farms have wood lots from which wood may be cut without injury to saw timber which may be growing. Scrub timber, properly called "weed" trees, can be cut and instead of taking away any value from the property actually better the condition of the timber which may later be cut for lumber.

### WHOLE OATS ARE DANGEROUS

Good Feed for Poultry, but Hulls May Cause Impacted Crops and Result Fatally.

Oats is a good poultry food. There is some risk, however, in feeding whole oats. The hulls may cause impacted crops and death. The best way to feed oats is to crush them, sift the hulls out, and feed in the mash.

### IMPORTANCE OF GREEN FEED

Highly Concentrated Ration Will Ruin Flock Unless Given Sprouted Oats or Some Roots.

No matter how much exercise the chickens have, a highly concentrated ration such as table scraps and mill stuffs will ruin a flock unless they are given green food. Sprouted oats, clover or alfalfa hay, mangels, cabbage and small potatoes are good greens.

#### Cement Floor for Horses.

Cement floors are used for horses, but it is considered better to have plank on the cement in the stalls. It is all right to have the forward part of the stall of earth.

#### Early Lambs.

At from twelve to sixteen weeks of age early lambs should weigh about sixty pounds.

#### Furnish Creep for Lambs.

Sheep feeders usually have a creep for the lambs so the ewes cannot eat the feed intended for the lambs.

## TO ALL WOMEN WHO ARE ILL

This Woman Recommends Lydia E. Pinkham's Vegetable Compound—Her Personal Experience.

McLean, Neb.—"I want to recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer from any functional disturbance, as it has done me more good than all the doctor's medicine. Since taking it I have a fine healthy baby girl and have gained in health and strength. My husband and I both praise your medicine to all suffering women."—Mrs. JOHN KOFFELMANN, R. No. 1, McLean, Nebraska.

This famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, has been restoring women of America to health for more than forty years and it will well pay any woman who suffers from displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues" to give this successful remedy a trial.

For a special suggestion in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

In the handles of recently patented scissors are recesses to hold needles and thread.

Why Bald So Young? Dandruff and dry scalp usually the cause and Cuticura the remedy. Rub the Ointment into scalp. Follow with hot shampoo of Cuticura Soap. For free sample address, "Cuticura, Dept. X, Boston. At druggists and by mail. Soap 25, Ointment 25 and 50.—Adv.

A man can be humble without advertising the fact.

The Quinine That Does Not Affect Head Because of its tonic and laxative effect. Laxative Bromo Quinine can be taken by anyone without causing nervousness or ringing in the head. There is only one "Bromo Quinine."—E. W. GROVES' signature on box. No.

Happiness comes only to those who try to make others happy.

## HEALTH RESTORED

Serious Kidney Trouble Was Removed by Doan's and Results Have Been Permanent.

"Kidney trouble put me in a bad way," says Thomas A. Knight, 624 N. Ninth St., East St. Louis, Ill. "It came on with pain across my back and the attacks kept getting worse until I had a spell that laid me up. Morphine was the only relief and I couldn't move without help. The kidney secretions were scanty, painful and filled with sediment."

"I was unable to leave the house, couldn't rest and became utterly exhausted. The only way I could take ease was by bolstering myself up with pillows. For three months I was in that awful condition and the doctor said I had gravel. Doan's Kidney Pills brought me back to good health and I have gained wonderfully in strength and weight."

Scour to before me, A. M. EGGMANN, Notary Public. ALMOST THREE YEARS LATER, May 24, 1917, Mr. Knight said: "The cure Doan's brought me has been permanent."

# SERGE IS POPULAR

### Material Will Be in Greater Demand Than Ever Before.

#### Economical and War-Time Features Taken Into Consideration, Declare Manufacturers and Buyers.

When you say serge dress you always think of a navy blue serge dress, don't you?—and you usually think of a trim little dress, severe enough to be worn without a coat on the street, with furs in the spring and autumn and yet elaborate enough to be quite attractive in the house. All this is combined in those simple syllables "serge dress"—and it is this that is expected to be even more popular on the dress bill of fare than ever before observes a New York fashion correspondent. Manufacturers and buyers of dresses say that because of the spirit of economy that prevails this type of frock will be bound to be popular, and for this reason they are looking forward to a large demand for these dresses among the ready-made output for the spring. More than any war uniform or any ingeniously devised reversible, convertible frock this serge frock will serve as the most popular war-time getup.

One very nice thing about the serge dress is that it always looks economical even if as a matter of fact it is not, and to look very expensively dressed these days is not the aim of most women. The mere man who sees a well-dressed woman neatly frocked in a smart blue serge dress will mentally register his approval of her economical and, therefore, patriotic dressing. Perhaps the goods for the dress cost \$8 a yard—for the best quality of blue serge is no longer inexpensive—and perhaps the dress all in all cost \$100. Still it looks simple, it is eminently serviceable and it does not look extravagant. Had the same woman worn a charmer of georgette and chiffon frock worth only half that amount the man would think her extravagantly dressed and therefore no true patriot.

The simple blue serge frock does not have to be expensive in order to be attractive. But it must be well made. Any good dressmaker or a reliable tailor can put such a dress together, provided the model for it is suitable to the figure for which it is intended. However, although great attention must be

given to the fit, the dress should not in one sense of the word fit at all, even if it is to be worn by a woman of ample girth. The charm of that style of dress lies in its hang and cut, but it should not touch the figure. It should follow it faithfully, but hang slightly free from it to be most attractive.

## LEATHER COAT FOR MOTORIST

There is a time when the most ardent motorist feels more like hugging the fireside than driving into the face of a gale with the mercury dropping out of sight. This leather coat is purple with tan collar and belt, and is almost a guaranty of immunity from the chilly wintry blasts. The belt, which is made in three strips and is some times on the style of the pinch-back is a novelty.

## IN FASHION LAND

Umbrellas are short and thick, with wooden sticks.

Novelty effects in coats and capes give slender lines.

The tunic blouse makes the coat suit more attractive.

Pockets continue to give a military air to the latest sports coats.

Newest skirts are so narrow that they allow only the finest steps.

A novel white collar is made with points for a widow's black frock.

The colored bridal gown has been made fashionable for the war bride.

A bow is frequently the only trimming on the hat with sweeping lines.

Almost every style is in fashion, but straight-line models are most favored.

The latest manner of wearing the watch is to dangle it from a fob ribbon.

Utility coats remind one of an officer's top coat—full and belted in the back.

Fur coats are uncommonly interesting this year on account of their belts.

A very pretty dress has the sash and shoulder yoke of silk in contrasting color.

Silver lace is used over shimmering satin, in making a charming evening dress.

The mourning dress of black taffeta can be fastened with dull silver buttons.

Sewed into the coat, it will be neither too large nor too small. If an interlining is necessary for the waist of the coat, outing flannel is good.

In getting a skirt to hang straight, the best results can be obtained by first putting the skirt on to regular skirt banding, which can be bought by the yard. For a one-piece dress, detachable collars and cuffs of linen, organdy, or satin, add greatly, and are easily made and washed.

Skimpy Spring Suits.

The greatest fabric waste in a suit is usually found in the extra material required for a long coat, even though a very narrow skirt is a part of it, and for spring skirts are to be either quite "skimpy," almost of the hobble type, or else given just enough width to insure grace. No extra yardage is admissible. The bolero jacket will undoubtedly appear in many suits designed for spring, and fabric and color combinations will do their "bit" to help make all fabrics go as far as possible and still retain a hold on grace and beauty in the appareling of woman-kind.

## GREPE BLOUSE FOR SPRING

There is an indescribable something about this blouse, which wins your heart at once. The blouse is perfectly made in blue and white-striped Japanese crepe. It is a handmade blouse, and that is the reason for its perfection. The white-linen stock, cuffs and collar are other reasons for the beauty. The bonnet is a handsome model just about the size that will be popular during the spring and summer months. The band of flowers around the crown is the only trimming.

## FITTING FASHION TO FUNDS

### Home-Made Garments Can Be Finished in Manner That Will Do Away With Amateurish Stamp.

In making one's own clothes there are many little points about which one needs advice—things which give a more finished appearance, and do away with the home-made look that is apt to be the result of amateur work.

For instance, says a writer in *Good Housekeeping*, wherever stitching is visible, such as on the cuffs, collar and bottom of the skirt, do it by hand, and an exceptionally good way to finish the bottom of a suit of heavy material is not to turn in the edge of the hem, but to leave the raw edge on the underneath side, and finish it with a leather stitch on the wrong side; care must be taken to make the stitches invisible on the right side. This looks so much better than the usual machine stitching which is very often used for finishing the hem.

The lining for a suit should be made separately and fitted to the figure just the same as the coat itself. When it is

## HOW FRENCH WOMEN SAVE

### Their Natural Talent for Economy Has Done Much to Help Withstand Hardships of War.

The French housewife, with her native talent for economy, has saved France up to the present time fully as much as have those fighting in the trenches. Good advice has been given to Americans, if they will only take it. Rich women who have had many servants now have few. Expenses are cut all along the line. Simple meals and simple habits replace elaborate ones. A lady buys clothes, but for orphans and refugees, not for herself.

Poor women, who must reduce simplicity to frugality—what do they do? They make one sou buy two sous' worth by watching every centime. This, for countless women in Paris, means getting up at five o'clock in the morning to get a choice of things at the great market, Les Halles; walking long distances to go where things cost not so much as nearer home; walking instead of riding; keeping vigilant watch on the vendors' carts along the street for good values; turning plain foods into attractive dishes by a well-flavored sauce and a garnishing which costs nothing.

In the old residential quarters of Paris there are hundreds of women of aristocratic connections and moderate means who before the war had several servants and who now have none, or perhaps one. And to women of all degrees of wealth there could scarcely be a more interesting study than to see how these gentlewomen and their humble helpers give a charming touch to hard economy.

A representative household is one where the regular income has suddenly stopped, but leaving a little more than the small government allowance. The ingenuity of housekeeper and cook accomplishes wonders. In many a home butter may now be served once a week and perhaps with only one course.

Perhaps three large strawberries must suffice for each serving at dessert, but they will be served with a grace that makes the eating of them a pretty ceremonial. If gooseberries and currants are inexpensive they will combine remarkably with other berries for a compote. Perhaps dessert will be a spoonful of jelly with a simple little cake; or perhaps dessert will give way to cheese, taking on a new attractiveness on its plate of green leaves.—*Leslie's Weekly*.

## Eleven, by Actual Count.

An old toper started home one night in his normal condition, with a turkey which he had bought for his Christmas dinner.

The road was rough, and he fell several times over all sorts of obstructions in the path, dropping the turkey each time, but picking it up again.

Entering his house, he steadied himself as well as he could, and said to his wife:

"Here, wifey, I've brought you eleven turkeys."

"Eleven turkeys!" cried his wife. "I see but one."

"Nonsense, you're blind!" cried her good man. "Why, I fell down eleven times coming home, and I swear I picked up a turkey every time!"

## Convenient Wrist Watch.

"I can't understand why the public make such a joke of the wrist watch," said the knut to the hardened sninner. "I'm sure it's a great convenience."

"Yes. With the old kind of watch I always had to unbutton my coat and fish in every one of my waistcoat pockets for it. Now I have to unbutton my coat, fish in every one of my waistcoat pockets, discover that the watch isn't there, push up my sleeve, and look at it. A great convenience!"

## Requires Time.

Fair One—How old are you, little fellow?

The Kid—Five.

Fair One—And what are you going to be?

The Kid—Six.

## Took Their Grain to Mill.

The report published in a *Bridgeport* newspaper that the owner of a grist mill at Sandy Hook, Conn., having secured a few bags of wheat, ground it up and sold it to his neighbors to be mixed with Western flour, the result brings us back to the days of hardly more than a generation ago, when Northern farmers produced grain on their farms and had it ground in the neighboring grist mill, then an institution to be found within a few miles of every neighborhood. There was no indication in those days that the ground product of the grain, whether corn or wheat, was inferior to any produced elsewhere. But now with the advent of modern machinery our civilization seems to demand a flour from which every particle of nutritious gluten, so far as it tends to discolor the flour, is eliminated. As for home-grown, home-ground "cornmeal," that is a rarity, known only to a few old-time epicures and secured by them with considerable difficulty. In the southern Appalachians, however, the old-time grist mill is still in use.—*Providence Journal*.

# DADDY'S EVENING FAIRY TALE

BY MARY GRAHAM BONNER

## MR. SUN'S ENGAGEMENT.

"Hello," said the King of the Clouds, as Mr. Sun got up one morning.

"Don't you want to sleep a little longer this morning?" asked the King of the Clouds.

"I would like to," said Mr. Sun, "but I have an engagement."

"Nonsense," said the King of the Clouds, "don't pay any attention to engagements. Really, you should think of yourself. You look so tired out."

"I am a bit tired," admitted Mr. Sun.

"Then do rest," begged the King of the Clouds.

"I really shouldn't," Mr. Sun said. "You work too much anyway," said the King of the Clouds. "Let me look after your duties this morning. If you feel rested by afternoon, get up, but if not, just stay still all day long. I don't mind a bit."

"You couldn't look after my duties," said Mr. Sun. "We don't do things the same way. We do things quite the opposite way."

"Well," said the King of the Clouds, "give folks a little change once in a while. Don't spoil them."

"But today is different," said Mr. Sun. "It's good of you to offer to do my work for me, but I really can't rest today."

"Why not?" asked the King of the Clouds. "My army of raindrops are so anxious to go down to the earth. They want to play on the snow down there. And the Mist grandchildren, with their old Nurse Fog, want to go down too. They're longing for some fun, and they haven't been down in such ages."

"Do let them, Mr. Sun. They enjoy the snow, too, you know."

"They can't enjoy it," said Mr. Sun. "when they try their very best to wash it away."

"They do enjoy it!" exclaimed the King of the Clouds. "And they prove it by trying to wash it away."

"I don't see that at all," said Mr. Sun.

"You're a pretty bright old fellow," said the King of the Clouds. "and you know almost everything, but somehow your old friend Cloud King knows something you don't once in a while."

"That's right," admitted the Sun. "Besides, I don't feel so very bright this morning."

"Just as I said," answered the King of the Clouds. "You need more sleep. Even the bright Mr. Sun must rest once in a while."

"Of course I must," said Mr. Sun. "but today isn't the right day. That's the whole trouble. But do tell me how you can explain that the Raindrops and Mist grandchildren like the snow when they try to wash it away."

"I can explain it easily," said the King of the Clouds. "The Raindrops and Mist grandchildren and old Nurse Fog try to wash away the snow because they like it so much they want to take it with them. They never can, poor dears, but they always try."

"I never thought of that," said Mr. Sun.

Down on the earth the people were wondering if it were going to rain. The weather man had said the day would be fair, and yet it looked so much like rain. And Mr. Sun had come out only very faintly, and only once or twice.

It had been cloudy most of the morning. "Come and work for me tomorrow," Cloud King said Mr. Sun. "I want to rest, but I must keep my engagement."

"All right," said the Cloud King a little crossly. "But you aren't feeling like it today."

Mr. Sun began to shine. He didn't feel much like it, but he did his best, for he had promised that he would shine this day. The children were giving a great big sleigh ride, and he knew that if he refused to come and let the King of the Clouds take his place the children would have to stay home.

So, though he felt tired and couldn't shine as hard as he usually did, the children had their sleigh ride, for the rain didn't spoil their fun as they had feared.

And Mr. Sun was so thankful he had kept his engagement!

"I Am a Bit Tired," Admitted Mr. Sun.

"I Am a bit tired," admitted Mr. Sun. "Then do rest," begged the King of the Clouds.

"You couldn't look after my duties," said Mr. Sun. "We don't do things the same way. We do things quite the opposite way."

"Well," said the King of the Clouds, "give folks a little change once in a while. Don't spoil them."

"But today is different," said Mr. Sun. "It's good of you to offer to do my work for me, but I really can't rest today."

"Why not?" asked the King of the Clouds. "My army of raindrops are so anxious to go down to the earth. They want to play on the snow down there. And the Mist grandchildren, with their old Nurse Fog, want to go down too. They're longing for some fun, and they haven't been down in such ages."

"Do let them, Mr. Sun. They enjoy the snow, too, you know."

"They can't enjoy it," said Mr. Sun. "when they try their very best to wash it away."

"You're a pretty bright old fellow," said the King of the Clouds. "and you know almost everything, but somehow your old friend Cloud King knows something you don't once in a while."

"That's right," admitted the Sun. "Besides, I don't feel so very bright this morning."

"Just as I said," answered the King of the Clouds. "You need more sleep. Even the bright Mr. Sun must rest once in a while."

"Of course I must," said Mr. Sun. "but today isn't the right day. That's the whole trouble. But do tell me how you can explain that the Raindrops and Mist grandchildren like the snow when they try to wash it away."

"I can explain it easily," said the King of the Clouds. "The Raindrops and Mist grandchildren and old Nurse Fog try to wash away the snow because they like it so much they want to take it with them. They never can, poor dears, but they always try."

"I never thought of that," said Mr. Sun.

Down on the earth the people were wondering if it were going to rain. The weather man had said the day would be fair, and yet it looked so much like rain. And Mr. Sun had come out only very faintly, and only once or twice.

It had been cloudy most of the morning. "Come and work for me tomorrow," Cloud King said Mr. Sun. "I want to rest, but I must keep my engagement."

"All right," said the Cloud King a little crossly. "But you aren't feeling like it today."

Mr. Sun began to shine. He didn't feel much like it, but he did his best, for he had promised that he would shine this day. The children were giving a great big sleigh ride, and he knew that if he refused to come and let the King of the Clouds take his place the children would have to stay home.

So, though he felt tired and couldn't shine as hard as he usually did, the children had their sleigh ride, for the rain didn't spoil their fun as they had feared.

And Mr. Sun was so thankful he had kept his engagement!

**W. N. U., DENVER, NO. 8-1918.**

People resemble pianos when they are square, upright and grand.

**WOMEN SUFFERERS MAY NEED SWAMP-ROOT**

Thousands upon thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

By holding her tongue a woman can keep her husband guessing.

**BOSCHEE'S GERMAN SYRUP**

will quiet your cough, soothe the inflammation of a sore throat and lungs, stop irritation in the bronchial tubes, insuring a good night's rest, free from coughing and with easy expectoration in the morning. Made and sold in America for fifty-two years. A wonderful prescription, assisting Nature in building up your general health and throwing off the disease. Especially useful in lung trouble, asthma, croup, bronchitis, etc. For sale in all civilized countries.—Adv.

Hull, England, in 1916, imported 9-130 tons of hemp.

Smile on wash day. That's when you use Red Cross Bag Blue. Clothes whiter than snow. All grocers. Adv.

It costs some people more to keep up appearances than it does to live.

Mr. Clayton Thompson came in from Alvarado, Tex. Tuesday. Mr. Thompson is a nephew of Mrs. T. E. Kelly, and will, in all probability remain for a while.

**DO YOU KNOW**

That it costs the farmer, planter, stockman, wool or bean grower, Less today to buy a Majestic range, a kitchen cabinet, or to furnish his house, or to fence a pasture, than it did in 1914? In fact, with the same products it took to buy these goods then, he can buy today, and have a nice bunch of money left.

**For Instance:**

- It took 2500 lbs. beans then to buy a Magestic Range. It takes now about 1300.
- It took then 45 bushels of wheat to buy a Hoosier Cabinet. It takes now only about 20 bushels.
- It took then, 52 bushels of corn to buy wire for I mile of fence. It takes now, 30 bushels.
- It took then, 46 yearling steers, to furnish a five room house. It takes now only, 20.
- It took then, 315 lbs. wool to buy a \$50.00 brass bed. It takes now, only 100.

See us for anything in the hardware or furniture line.

**Kelley & Son** "OURS is the TRADE that SERVICE made."

**Confidence.**

It is truer of a bank than of any other business enterprise, that its success depends upon the confidence of those who deal with it:

**Confidence** in the integrity of its officers, in their judgment, in their conservatism.

We believe that we may fairly say that the officers of this bank have well earned the confidence of the business people of this community.

**The First National Bank**  
Carrizozo, N. M.

**ATTENTION**

Mrs. Ed. Harris announces that the Red Cross yarn is daily expected and can be obtained on its arrival by applying to Mrs. Harris who will have charge of the goods.

Our terms for the future will be strictly thirty days. Accounts must be paid by the tenth of each month, and those failing to this will be notified and the account will be closed.—Carrizozo Trading Company.
