### Red Cross at Ancho

The ladies of the Red Cross will give a social dance on Monday night, May 27th, and a good delegation will of course attend from Carrizozo. A good time is assured to all who come. Keep the date in mind and be sure to be on hand.

### Voices of the Springtide

Last Saturday, teachers and scholars of the Carrizozo school motored up to Nogal Canyon, and spent the day in the enjoyment of the recreation they so richly deserved after a season of hard study and close confinement of the schoolroom.

The picnickers gave themselves over to the joys which nature alone can give—Blue skies, pure air, glad sunshine and sweet toned music, the herald of merry spring. They returned late in the afternoon, greatly refreshed from the days outing.

### Miss Vera Howell Entertains

Miss Vera Howell gave a 6 o'clock dinner Thursday in honor of a few of her most intimate friends, at her home west of town. Some of her guests will leave shortly on an extended vacation. Chicken, salad, cake, strawberries and ice cream was served by the charming hostess and all had an enjoyable time.

Washington, May 21.—Col. Jake Dawson, a Texas turkey gobbler, that recently sold for \$10,000 in a Red Cross auction at Austin, was delivered as a gift to President Wilson today by Representative Hardin of Texas.

### White Oaks Active

Paul Mayer, George Queen, Judge Hewitt, L. H. Rudiselle, Wayne Van Scoyk, Sam Wells, and the Mesdames C. D. and Paul Mayer, Queen, Spence, and a host of others were absent from town Wednesday. When a local newspaper man paid a short visit to the community, he found that most of the businessmen with their ladies had departed for the neighboring districts on the Red Cross Drive.

Not only this, but they made good, they went over their apportionment, and from the last accounts were still going. If you want any portion of a movement to be unsuccessful, don't leave it in the hands of White Oaks people, because what they purpose, they perform.

### METHODIST CHURCH

Morning—"Refusing to Go In."

Evening—"The Lost Christ."

These two interesting subjects should attract large crowds as they have a bearing on present conditions of thought in time with the war and all that it has brought us and has in store for us. "The Lost Christ" will be a subject of much importance, dealing as it will with Nations and individuals that forget God. Come out and hear these two subjects discussed. Everybody welcome.

## KNIGHTS AND LADIES OF SCARLET CROSS IN HEROIC DRIVE

### Lincoln County Patriots Who Raised Emblem of Mercy And Went Over the Top In First Two Days

Monday morning was the time set for the big Red Cross drive to commence, and true to the "Call of the Cross" great activity was noticeable on the streets of Carrizozo. Automobiles darted too and fro loaded with workers, and on the streets ladies and misses, dressed in emblematic garb, with the flaming cross in the headdress, presented a spectacle long to be remembered. As sweet angels of mercy, they went about the work in a systematic and determined manner.

Business houses were visited first, and then the average citizen who could not show the sign of the Cross on the lapel of his coat was soon the center of a crowd of white winged workers who quickly convinced him that the big drive meant something and that he must make it mean more. Business men left their interests for the sake of the cause and united with the agents of mercy and the contagion spread like wild fire. After the business houses were visited, the residence portion of the town received the attention of the workers and everybody gave something, and blessed was he that gave until it pinched. The neighborhood ranches were not overlooked, for the shadow of the Cross spread over the entire community.

Late in the afternoon, a call was received from Lincoln for help and Tuesday morning a large and enthusiastic party of workers went to that place and spent the day in assisting the workers there to raise their part of the mercy fund. The Lincoln folks gave a big supper at night, for the benefit of the fund which was well patronized by the Carrizozo and Lincoln residents and much appreciated.

From all points throughout the county comes encouraging reports of success for the drive and we can safely say that \$3,000 will easily be realized, and as our apportionment was \$1,200, this amount shows to what patriotic extent the people of our county can go regardless of apportionments. Box suppers and entertainments of all kind are going on this week in our neighboring towns, the result of which will appear in these columns next week. At this writing, we can say with much credit to the faithful workers that the drive is more than doubly successful.

## TWO-FABRIC SUITS

Very Smart Outfit for General Summer Wear.

One of Newest Ideas is Square-Cut Coat of White or Light-Colored Fabric—Topping Dark Skirt.

Coats of plain dark material, such as velvet, velveteen, serge, wool, Jersey or satin, combined with gay striped or checked skirts, have been featured for sports wear through the winter. The sleeveless dark coat worn over a light-colored blouse, the two topping a striped or checked skirt, has also been much in evidence of late. One of the newest ideas in sports ap-

New Idea in Sports Apparel.

parel is the square-cut coat of white or light-colored fabric, topping a dark striped or checked skirt.

The sketch illustrates a very smart sports suit for summer wear. The skirt is of black and white striped satin, and the coat is of plain white heavy satin, with scarf collar faced in black. Tiny turn-back cuffs of black finish the plain sleeves, and large black satin-covered buttons fasten the coat.

The skirt of this suit is laid in box plaits. Black and white satin ribbon might be attractively and conveniently used for this purpose, the seams necessary to join the ribbon strips being concealed by the overlapping plaits.

The coat has been christened the "pony" coat, and in various forms it is made a part of many spring suits developed in one fabric only. Sometimes the coat reaches only to the hips and is open in front to admit a gay-colored vest or vestec, and again it is long enough to be used as a separate sports coat. Straightness of line is its invariable rule.

### All Can't Wear Etons.

Eton jacket suits are being strongly featured; but they are not becoming to all figures, and as with all novelties when first introduced, or when revived after several seasons of rest, there is great danger of the style being overdone.

### USE GOOD TASTE IN STYLES

Sensible Fabrics Have the Call and Fashion Responds to Needs of World War Era.

In these days when women are placing their wardrobes upon a war basis, materials, like all other things, must be considered from the standpoint of economy, declares a writer in Vogue. There are wise and unwise economies, and today, when textiles are being produced under the most difficult conditions, and when it is impossible to make fine fabrics at small expense, it is almost invariably wiser to invest in thoroughly trustworthy stuffs. A suit which will not survive a shower and a dress which loses its shape and freshness after a few wearings are poor investments. To obtain materials, therefore, which are worth being made up (and the matter of making up also is more costly than in the past) a woman must reconcile herself to a greater expenditure. Let her recall the number of her gowns, if necessary, but not the quality. Fashions this season are exceeding-

## HAT LINES MUST BE SMART

Designers Apparently Deduce That the More Peculiar the Brim, the Smarter the Headgear.

In the Paris shops are shown many satin hats, extremely small models that are excellent for spring wear. They have satin trimming, if they have any—for the lines of the hats are what make them smart, writes a Paris correspondent.

Two exceptionally pretty chapeaux were seen recently. One was of black milan straw with a satin brim in military blue; the only embellishment was supplied by grosgrain ribbon and black ostrich. The ribbon bow was made in tiny loops and ends, and was placed at the back of the hat, a little to the side. The ostrich was at the extreme left edge of the brim, in front. The other model had a black lace brim and a very high black taffeta crown. The crown band which ended in a bow in the back—at the center of the back—was of French blue ribbon, finished in front with a knot of French flowers.

There are many quaint twists in the brim of hats. The designers seem to feel that the more peculiar the brim the smarter the hat. Ribbon is used extensively and oh, so many flowers. We have rose toques, violet toques and many other kinds, and this revival of French flower hats has helped to revive our flower industry and for this we are duly grateful.

### No Boycott on Taffeta.

It seems, from a few of the French gowns that have been built for the new spring season, that taffeta will not be boycotted. The American public has grown weary of this fabric, but again that French persistency that runs through their dressmaking world has caused them to send up trial balloons in this fabric.

They do not build an entire gown of taffeta this season. They make it the opaque touch to a transparent frock of the new embroidered silk tulle which has leaped into high fashion with lace. They make a bodice of this opaque silk, primitive, medieval in its simplicity, introduce a bit of the silk tulle at the girdle, cut the peplum of the bodice very short in front, and let it drop over a slim, slightly gathered skirt of the embroidered net. As sashes are part and parcel of many of the frocks, the designer will take two long, bias ribbons of the taffeta, knot them together at the waist and again at the knees, and drop them down the side of the skirt as a floating panel.

### NEW WAIST OF GEORGETTE

To a waist of flesh-colored georgette is added a panel front, broad shawl collar and turn-back cuffs of natural color flat lace.

ly kind to the woman who is striving to dress sensibly. For instance, the vogue of foulard, now definitely established, is distinctly in accord with the principle of dressing sensibly. A foulard frock is one of the best wearing garments which a woman can include in her wardrobe. Not too formal for morning and quite formal enough for afternoon wear, it may be worn during many hours of the day. If need be, wartime informality will even allow it to appear in the evening.

Some of the new foulards are exceedingly charming; they are attractive in design and exquisite in quality, and nothing drapes more beautifully than this silk. There are two types of the material, one of them dull of surface and the other printed on a satin ground.

Next in importance to the foulards are the new printed chiffons. The designs are similar to the foulard patterns, though with a chiffon it is always possible to adopt a larger and bolder pattern than that which would be employed for a more substantial stuff, as its delicacy lends an illusively attractive vagueness to the design.

## LEADER OF BRITISH SEAMEN

pressure on the British labor leaders. Without the whole-hearted co-operation of German labor, the war would have been over long ago.

Joseph Havelock Wilson, president of the British Seamen's union, and one of the most powerful labor leaders of Europe, declares that 90 per cent of British labor indorses Samuel Gompers' statement that the Huns must be driven back from Belgium, Serbia and other occupied territory.

"What Mr. Gompers told Germany in the name of American labor—that neither peace nor an international conference is possible now—fills the bill absolutely," Mr. Wilson says.

"The invasion of Russia ought to be a lesson to the most stupid labor leaders regarding what is to be expected from labor peace negotiations with German labor. They are not in favor of peace, and the overtures are inspired by the government. The socialists there are paid by the government and they have unlimited means by which they are able to approach labor leaders of neutral countries and bring to bear

## HANDLES SOLDIERS' INSURANCE

The success of Willard D. Straight, who after having made his mark in the world of finance has now enlisted in the service of Uncle Sam and is a major in the United States Reserve corps and in charge of soldiers' war insurance, might be attributed to the training he had as the son of two noted professors, his mother and father having been the first American instructors in the Imperial college at Tokyo.

In addition to his natural abilities he has love of adventure. From the time "Izzy" Straight, as he was called in his old Cornell days, left the university to go back to the Orient, where he spent much of his boyhood, he has been climbing steadily upward.

To Major Straight has been given the task of supervising the overseas branch of the war risk insurance bureau, and that the task of seeing that our forces are properly insured against war time hazards will be well done is manifest. Mr. Straight comes from old American fighting stock, his forefears on both sides having fought in the colonial wars and in the Revolution and War of 1812.

## TIRELESS IN WAR WORK

one of which the womanhood of England and the women of her native land may well be proud.

When the story is written of the splendid work women have done for the soldiers and the soldiers' dependents during the world war a full chapter should be devoted to Consuelo, duchess of Marlborough. From the gloomy days of Liege and Mons down to the present she has worked indefatigably. Through her own effort, coupled with her generosity, she has made the children's jewel fund in aid of the movement to establish a greater number of maternity and infants' welfare centers, one of the most successful appeals made during the war.

More than \$23,000 in jewels and money was raised in two months. Nothing has been too ambitious for her to undertake. Nothing has daunted her in her determination to put through everything she has initiated. Social functions and personal diversions have been completely cast aside by her since the war began, and her record is

## GENERALISSIMO OF ALLIES

Gen. Ferdinand Foch, who has been put in supreme command of the armies of Great Britain, France and the United States on the west front, is of Basque origin, and is famed as a strategist.

Foch began by mastering the strategy of the war of 1870 in its minutest details. Knowing the mentality of the Germans, he counted upon their repeating in future conflicts the maneuvers that had succeeded. He also expected them to make some of the old mistakes.

In his teachings at the Superior war school and in his writings he held always to the idea of an inevitable aggression by Germany, sprung with lightning-like rapidity after long premeditation and most minute preparation—the swift thunderbolt of the opening to develop into a struggle of colossal proportions. To parry the blow, Foch said repeatedly, France must have a staff working in the same direction, practicing the same doctrine under a vigorous and audacious chief, shirking no responsibility, preserving the equilibrium of his mind and the force of his intelligence under formidable difficulties and exercising without hesitation the most redoubtable rights over his subordinates.

## HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had headaches, my back ached all the time, I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and

headaches disappeared. I gained in weight and feel fine, as I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."—Mrs. ANELINE E. LYNCH, 100 Plain St., Providence, R. I. Backache and nervousness are symptoms of nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment.

Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

**"WATCHMAN, WHAT OF THE NIGHT!"**

Last week an effort was made to organize what is called a "Community Council," but when the leaders of the movement arrived at the Court House expecting to have to worm their way through a vast and enthusiastic crowd, they found about six men who had braved the usual sand storm, and of course the meeting was a decided fizzle.

On Monday, another attempt was made; a local printing office hurried out several hundred hand bills which were scattered broadcast over the city, urging the people to attend for the above named purpose. The meeting was called for 8 o'clock but at that hour it looked as though the "jinx" was still following the movement, but gradually and timidly, people stole silently in as though about to attend the funeral ceremonies of some departed friend, until about forty souls were present. Time, 8:30.

The meeting was called to order by Mr. George Spence, who, after announcing the object of the meeting, called on F. G. Sager, he having just returned from an important meeting of the "War Council" at Albuquerque, told about the necessity of organizing as a means of protection for local communities. Mr. Sager's talk was convincing so much so, that on motion of County Clerk Nye, a committee of five was appointed to arrange a list of names of officers for the council, the same to be submitted for the approval of the meeting.

The following committee was appointed: J. F. Kimbell, J. B. French, Walker Hyde, George Ferguson and Julian Taylor, who submitted the following list of names, which on motion were unanimously chosen as officers of the Community Council: M. U. Finley, chairman; W. H. Osborn, secretary. The list included seven directors as follows: H. S. Fairbank, A. L. Burke,

Julian Taylor, Andres Luceras, Mesdames W. L. Gumm, S. L. Squier and R. E. Stidham. Without further action the meeting adjourned.

What will the Community Council accomplish? Mr. Sager said that a shortage of coal for next winter was certain, as coal miners were receiving \$14 per day, working but about half time, and this scanty output would result in a shortage ultimately. These miners are mainly foreigners, and the high wages mentioned, are the result of our boys being at the front while this foreign element are reaping the benefits of high wages and by working but half time will shorten the fuel output and a fuel famine will be the result.

"Watchman, what of the night?" will the Council be not only able to report, but will they bring to justice men who are trying to dodge their share of the responsibility in the present conflict? Will the Council make it plain that duty is a matter of principle and not of choice? If we properly understand the meaning of this organization, it is to guard the interests of our local community from all that can possibly harm it. This includes everything from the "slacker" to the wriggling serpent of a German spy. Strangers who cannot properly account for their presence in Carrizozo must be watched. Men who are physically able to go to the army and are trying to slack out of it, the same should be investigated and reported to the local newspapers, who will be glad to assist the Council in the prosecution of such cases. Watchmen on the walls of our community should give every bit of information in their possession to the Council. We must awaken; perhaps we have slept too long. We lay down to sleep secure in the thought that we are living in a peaceful community, when we may be slumbering over a volcano—who knows! When the day dawns, let us be ready with our report and protect the interests of our country and community to the last ditch.

The Widely Heralded Film Version of the Loves of Egypt's Siren Queen.

Described as a film spectacle of surpassing beauty, Cleopatra bears on the screen the passions of the Vampire of the Nile. The ancient siren is admirably impersonated by the foremost modern exponent of siren roles. The filmed Cleopatra depicts her historical encounters with Caesar and Anthony and the defeat of her army. It shows as well the world's first naval battle—the battle of Actium—where the combined fleets of Anthony and Cleopatra were routed and finally burned to the water's edge by the Romans.

**TO HAVE AND TO HOLD**

You have read and heard the word "Patriotism" a thousand times during the last few months. Just what does it mean? It means sane, sensible, enlightened selfishness. Being patriotic means that you realize that a certain line of conduct will mean sacrifice, hardship, for you, but that if only you will make the sacrifice, and endure the hardship, it will bring lasting good and happiness to you, your neighbors, your whole country.

By buying a Liberty Bond you have shown that you have the right view-point. Now the thing to do is to see your resolution through to the finish. The soldier who volunteered for service, went over the top with a cheer and then stopped, disheartened, in the middle of "No Man's Land", would be considered a poor soldier.

The man who stays at home must take this lesson to himself. It is not sufficient to merely enlist in the army of Bond Buyers, the fight must be fought to the bitter end. In other words, pay your installments on your Bonds promptly. Sacrifice and save during the month of June for your July installments; sacrifice and save during July and August to pay your August installments. Even when you will have done only half your duty. The command of our officers then will be "Keep your Bond," and as good soldiers and patriots we must obey.

Liberty Bonds are not money, and therefore, should not be used as such. They are mortgages on all the land, all the wealth in the United States. When you lend money on a mortgage, you do not take the papers to the grocery store and pay your bills with them, you place them in the bank; and if you actually need money to conduct your business, you borrow money on the mortgage. The same course is quite permissible in the case of a Liberty Bond.

Remember when you hold a Liberty Bond you are a patriot, bearing your share of the National burden; when you sell it, you have ceased to bear your share of the burden and have handed it on to some one else to carry. This is not good Americanism, nor again is it good business, for where in the world today is there a better investment for the man who knows nothing of stocks, shares, bonds or financial matters, than a Liberty Bond?

An investment without an element of risk, which pays 4% per annum, is a pretty good thing to have, and to hold.

**A MESSAGE TO LIBERTY BOND BUYERS.**

Have you ever heard of a soldier, returned from the war, who complained of his lot, or ever for one moment regretted having fought?

Men have come back without their sight, without their limbs, and in various stages of physical disability, but the first case has yet to be recorded of one who complained.

There is something in our imperfect human nature that makes us glad we have done a good thing.

The Liberty Bond buyers of the Eleventh Federal Reserve District will feel as the soldiers did—nothing but satisfaction, and the greater the sacrifice the greater the satisfaction.

I want to congratulate every man, woman and child who has bought a Bond and sent this district over the top.

**Plant a War Garden, Help Win the War.**

THIS IS THE WAR GARDEN PLANTED BY THE MEN OF A BUREAU COMPANY

HELPING to increase our export food stocks, war gardens will be planted this year in greater numbers than ever before. Each American family that has a garden plot is being urged to become more nearly self-sustaining by making use of it. This will render a national service by lessening the burdens on our railroads. Fewer carloads of food have about the country means more cars of munitions and food sent to seaboard for the Allies.

The United States Department of Agriculture and State Agricultural Colleges have printed leaflets of instructions for gardeners which will be sent upon request without charge.

It was only during the last winter that government experts were able to know definitely how great was the aid of 1917 war gardens. In many sections the potatoes and other vegetables raised enabled the people to escape a threatened famine in certain commodities that were held up on account of the railroad transportation crisis. Approximately 2,000,000 war gardens were planted in 1917—many were failures; but the gardeners now know more about raising vegetables and will do better in 1918.

APPLY A FEW DROPS THEN LIFT TOUCHY CORNS OFF WITH FINGERS.

Don't hurt a bit! Drop a little freezeone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of freezeone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the callouses, without soreness or irritation.

## Juice of Lemons! How to Make Skin White and Beautiful

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as sallowness, freckles and tan and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is wonderful to smoothen rough, red hands. Adv.

### ALLEN'S FOOT-EASE DOES IT

The needle you must hunt for in the haystack never pricks your fingers.

## OUR DEFENSE

In the spring we may be attacked at any moment. Toxic poisons pile up within us after a hard winter, and we feel "run-down," tired out, blue and discouraged. This is the time to put our house in order—cleanse the system and put fresh blood into our arteries. You can obtain an alternative extract from Blood root, Golden Seal, Stone and Queen's root, Cherry Bark, rolled into a sugar-coated tablet and sold by most druggists, in sixty cent vials, as Dr. Pierce's Golden Medical Discovery. This blood tonic, in tablet or liquid form, is just what you need for "Spring Fever," for that lack of ambition. It will fill you full of vim, vigor and vitality.

Chilliness, when other people feel warm enough, is a sign of biliousness, or of malarial poisons—so is a furred or coated tongue, loss of appetite, head aches or giddiness, and a dull, drowsy, debilitated feeling. It's your liver that's at fault. You want to stimulate it and invigorate it with Dr. Pierce's Pleasant Pellets. With every trouble of the kind, these tiny little things act like a miracle. You can break up sudden attacks of Colds, Fevers, and Inflammations with them. They'll give you permanent benefit for Indigestion, Constipation, Sour Stomach, Stomach Headache, and Diarrhea. They are small and pleasant to take, and the most thoroughly natural remedy. Twenty-five cents at most drug stores.

# HAPPENINGS in the BIG CITIES

## Barrel of Apples Makes One Peck of Trouble

CHICAGO.—The motorman's life is full of vexing problems. After a long, hard winter, full of difficulties, delays, cold hands and feet and petty quarrels with passengers, he looks forward to the balmy spring days. Then the patrons of the street cars are in a joyful mood and the spring sunshine brings out their good nature. They are not harassed by heavy clothing. The green grass peeping through the earth cheers them up and they murmur "This is the life."

With the coming of the warm days the street car chauffeur sees a better world. No more wagons on the tracks, no breakdowns, doors that open easily and everything so happy and gay. But, alas, he has not reckoned with the small boy. That chap, ever full of mischief, ever watchful of a chance to play a trick that will reap him a good laugh and perhaps a "chase" by the unfortunate victim of the trick.

A Sixty-first street car was merrily bowling along the street. The motorman had a wide grin on his face. The conductor was checking up his books preparatory to a quick leave when the car reached the barn. With the right of way clear the popular automobile of the poor people was insured a fast voyage.

But alas! A barrel of apples stood innocently in front of a corner grocery. Along came a small boy. In an instant the barrel was overturned and hundreds of apples rolled into the street. The motorman's grin changed to sardonic laughter. Passengers silently cursed and the conductor knew he'd be late at home. There were cold suppers that night. The motorman could not start the car until the apples were gathered.

## Couldn't Get Cocktail Because of Her Uniform

NEW YORK.—A tall, dignified woman, of what might be termed the interesting age to avoid trouble, walked into the Park Avenue hotel's dining room with a couple of friends, and by way of introducing luncheon ordered cocktails for the party. "I am sorry, madam," said the waiter, "but I cannot serve you." "Why not?" "Because you wear the army uniform."

The tall, handsome woman wore the khaki of the Medical corps, and was forsooth an officer in the corps, a surgeon bent on going abroad to serve with the Pershing forces. Her blouse was not English fashion, revealing a tie that sported the golden serpent that is the emblem of the corps. The lady in khaki refused to be turned down on the prohibition issue. She demanded that George C. Brown, who bosses everything around the place, be called. She laid the case before him. Brown took a peep at the uniform and sustained the waiter.

"Women have the same privileges and the same responsibilities that men have now," he said. "The government doesn't know the difference between a warrior in khaki and a warrioress, and they'd send me over for a year for gratifying the most beautiful thirst in America if it wore uniform."

## Court Rules Woman's Toilet "Trash" Is Necessary

RICHFORD, N. Y.—Young men call them foolish frills. Husbands call them trash. Women call them make-up. But, hereafter, soap and perfume that are to be found on mllady's dressing table are to have legal standing in court as "a customary part of a woman's upkeep." The decision was handed down by a village police judge here after weighing every side of the question. And, take it from Louis J. Whelan, who must pay an additional dollar each week to his wife because of it, the judicial finding is one that is attracting considerable interest in this village.

Whelan, who is a foreman gardener on an estate near here, was summoned into court by his wife, who declared that the \$9 weekly he was paying for her support was insufficient in these panicky times of war and costly living to keep her in the necessities of life.

"But she spends it all on trash—fancy soap, face powder, and all that trash," began Whelan. Just then the judge cleared his throat, frowned down upon him and brought the complaining husband to a sudden stop.

"Yes, they're trash, but they're a customary part of a woman's upkeep."

## Detroit Tommy's Revenge on His Doting Mother

TOLEDO.—There are no grounds to believe that Tommie McDuffie of Detroit ever read the adventures of that juvenile philosopher "Penrod Scofield" and yet the completeness of his revenge on a mother who favored "middy" blouses for a thirteen-year-old young man when the young man wanted "cord'roys," smacks of that fictional hero's most abandoned crimes.

Tommie is in jail in Toledo, and locked up with him is the queerest collection of clothes that a Detroit newsboy ever had the patience to gather and the consummate nerve to wear.

He appeared in a ravishing gown of rustling silk; neatly pointed low shoes, with high French heels, silken hose, a flower-pot hat that, apparently, had been chosen for its impossible combination of equally impossible flowers, a white silk shirtwaist, somewhat soiled in front where a piece of "lick'rice" had fallen, a green silk parasol, although it was cold and cloudy, a cretonne knitting bag and, crowning his disguise, a blonde wig.

The real Tommie asserted himself at the police station, where a large, red-faced and grinning policeman demanded a kiss.

"Say, whatcher doin', kiddin' somebody? I'll bust you with this bum-gershoot, you big stiff," was the highly unladylike announcement of Tommie. "Mother wanted me to wear middy blouses to sell papers in," the masquerader said. "I wanted a suit of cord'roys. Gee! Those middy blouses are nothing for a fellow to wear. I thought if she wanted me to look like a girl I'd go the limit. I got these things a little at a time and then I hid them in the cellar. After I got everything I put 'em on and started for Cleve-

### Aesop on Russia.

About 2,500 years ago a slave named Aesop, one of the masters of literature, wrote, or perhaps dictated, our editorial for this week on Russia.

At least he is reputed to have done so.

It is as follows:

"Why should there always be this implacable warfare between us?" said the Wolves to the Sheep. "Those evil-disposed Dogs have much to answer for. They always bark whenever we approach you and attack us before we have done any harm. If you would only dismiss them from your heels there might soon be treaties of peace between us."

"The Sheep, poor, silly creatures! were easily beguiled and dismissed the Dogs. The Wolves destroyed the unguarded flock at their pleasure.

## Win the War by Preparing the Land Sowing the Seed and Producing Bigger Crops

Work in Joint Effort the Soil of the United States and Canada

CO-OPERATIVE FARMING IN MAN POWER NECESSARY TO WIN THE BATTLE FOR LIBERTY

The Food Controllers of the United States and Canada are asking for greater food production. Scarcely 100,000,000 bushels of wheat are available to be sent to the allies overseas before the crop harvest. Upon the efforts of the United States and Canada rests the burden of supply.

Every Available Tillable Acre Must Contribute. Every Available Farmer and Farm Hand Must Assist

Western Canada has an enormous acreage to be seeded, but man power is short, and an appeal to the United States allies is for more men for seed ing operation.

Canada's Wheat Production Last Year was 225,000,000 Bushels; the Demand From Canada Alone for 1918 is 400,000,000 Bushels.

To secure this she must have assistance. She has the land but need the men. The Government of the United States wants every man who can effectively help, to do farm work this year. It wants the land in the United States developed first of course; but it also wants to help Canada. When ever we find a man we can spare to Canada's fields after ours are supplied we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve the combined interests.

Western Canada's help will be required not later than May 5th. Wages to competent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, good board and find comfortable homes. They will get a rate of one cent a mile from Canadian boundary points to destination and return.

Preparations for the Fourth of July Celebration are well under way. At a meeting of the Main Committee under the Chairmanship of Major McKeon the general plans were laid out and Sub-Chairman Father Lederle has appointed the various Sub-Committees. A great program is promised. A basket ball match between two of the best New Mexico teams, horse racing, and other out door sports, special attractions and games among them the new war feature "Slam the Kaiser," refreshment stands a-plenty and in the evening a big dance with the best orchestra obtainable. As the entire returns will go to the Red Cross a record crowd is expected.

Once more the boys have done their best, having quadrupled their share of the Red Cross Drive; the dance receipts and all the money taken in by the Seamen's Social Club for the whole week were devoted to the Red Cross.

Mrs. Sifton has returned from her trip to Alamogordo.

Mr. and Mrs. J. B. French and daughter were guests of Mrs. McKeon on Wednesday and Thursday.

The basket party to be held at the Fort on the Fourth of July will be for the benefit of the National Red Cross to aid the suffering Belgians and others.

Major McKeon has received his orders to attend the National Tuberculosis Convention at Boston and will leave for there together with his wife on the first day of June. The McKeons will make an extensive tour of the East where the Major has numerous friends.

Mr. and Mrs. E. V. Ware of El Paso visited the McKeon family Monday. Mr. Ware returned to town Tuesday but his wife will spend a few weeks at the Fort.

George Maddox, the four minute speaker for the Red Cross Drive was a very decided success and put quite an interest in the non-sectarian services last Sunday.

Mr. Brockwell and Mr. Leech have been added to the Fourth of July committee.

Mr. Leech, Dr. Reed and J. H. Gentry returned from a ten days automobile trip through the lower part of the state.

Mr. Warren spent Tuesday at the Officers Club getting subscriptions for newspapers.

George Young has sufficiently recovered from his recent illness to be able to come back from El Paso and be with friends once more.

The Weber family have returned from a two weeks stay at Parsons.

Mr. Hanna spent some days last week visiting old friends at No. 4.

### Added Insult to Desertion

Officer Ben West arrested three men last Thursday on charges of desertion. Two of the men on their own confession, were found to be deserters from the machine gun company at Camp Baker. Their names proved to be Henry Pusatere, Joseph Just, while the third Joe Kukas, proved to be a deserter from Camp Stuart, at Ft. Bliss. The men all wore the regulation uniforms, and when the officer entered the Court House with the trio, one of the "triplets" made an insulting remark about the large picture of Uncle Sam, but on being arraigned in the Sheriff's office denied the charge, but the officers "have the goods on him" and will see that he remembers what he said when his trial comes off. According to the names, the men are of foreign birth, which is a reminder to us that the enemy is abroad in the land and we must organize to assist our officers in apprehending those who are shirking their duty and aiding the kaiser.

### Appointment on Merit

Mrs. W. L. Gumm has received the appointment at the hands of the Extension Dept. of the A. and M. College at Messilla Park, as leader of the Boys' and Girls' Industrial Club. Early in the week she made a trip in the interest of the work to the southern part of the state, which proved of vast importance. The Department is to be commended on its wisdom in the appointment of Mrs. Gumm to this important position, as her experience in training the thoughts and actions of the young people will be of lasting benefit, when imparted to the Industrial Club.
