

SHERIFF'S POSSE CAPTURES TRAIN ROBBER CARLISLE

**Escaped Convict is Taken in
The Laramie Peak Country
in Wyoming; Bandit is Shot
Through Lung by Sheriff.**

Douglas, Wyo., Nov. 2.—William Carlisle, train bandit, again is a prisoner tonight, under guard in the Douglas hospital, where he is suffering from a bullet hole in his right lung. He was shot down by Sheriff A. S. Roach of Wheatland this afternoon after he had been surrounded in the cabin of Frank Williams, eighteen miles southwest of here.

Carlisle's trail through a heavy snow in the Laramie peak country was followed from early Sunday morning by two posses of twenty men. The train bandit yesterday morning from Widow Bray's ranch home. He was captured at 3:30 o'clock this afternoon.

Carlisle seized a pistol as sheriff Roach entered the Williams home, but before the bandit could fire the sheriff had sent a bullet through the bandit's right lung. First aid treatment was given the outlaw and he was carried down the mountain strapped to a pack horse and brought to Douglas in an automobile.

Carlisle has been in the Laramie peak country since his escape after robbing the Los Angeles limited train near Medicine Bow on Nov. 18. Letters and telegrams purporting to have been from the bandit in Denver and other places were frauds. He made no attempt to conceal his identity.

E. O. Finley Sells

The Carrizozo Live Stock Commission company brought about a sale the first of this week whereby Cape Willingham purchased 350 head of steers of E. O. Finley for the J. H. Nations Meat & Supply Co. of El Paso. The steers are of a fine variety and their ages range from two to four years. Mr. Finley bought these steers last spring and they have had the benefit of the excellent range on his ranch through the summer season, consequently, they were plump and in a fine marketable condition. This deal will leave Mr. Finley with over 700 head of cattle on his ranch and he wishes it understood that he is still in the business for both buying and selling. The steers will be shipped to the border as soon as cars can be procured. It will take 45 cars to make the shipment.

Killed in Hold Up

Douglas, Ariz., Dec. 4.—In an attempted holdup early this morning by four masked men, the stage guarded by six soldiers and carrying the pay roll from Esquedo, Sonora, on the railroad to the El Tigre mines, one soldier was killed and one wounded. The \$15,000 was saved.

Of Interest to Ex-Service Men

How well the American Red Cross is fulfilling its pledge to meet the needs of every ex-service man until he catches his normal stride, is indicated by a statement just issued by local officials of the every busy organization.

The statement says that more than 10,000 families in the Mountain Division were extended Red Cross service. All except 18 were soldiers' families.

The local Home Service Section, according to our outgoing secretary, Mrs. H. S. Fairbank, extended the service to 85 soldiers and soldiers' families during the past few months. Every effort is being made to see that every soldier or sailor and the families of these men receive everything to which they are entitled in the way of insurance, compensation, allotment and allowance back pay, etc.

Up to the present time this work has been handled most successfully by Mrs. Fairbank, who gave to it her ablest and best efforts. We regret exceedingly that owing to the fact of her moving away from our city, she has had to give it up. We feel that Mrs. Fairbank is due a vote of thanks by this community for the very able way in which she carried on this work.

From now on, the Home Service Section will be in the hands of Mrs. J. B. French. All soldiers and sailors and their families who have not had these matters of insurance, compensation, etc., properly adjusted are invited to get in touch with the Home Service Section through the new secretary.

Well Attended Meeting

The Order of the Eastern Star held a well attended meeting Wednesday evening at which three candidates were initiated. As this was the last meeting night of 1919, election of officers for the coming term of one year followed in the regular order of business. Inasmuch as the newly elected officers will have certain appointments to make before the official roster is perfected, the announcement of the complete list will appear later. Refreshments were served after the initiation.

Well Known Ranchman Dies

On Tuesday of the present week occurred the death of W. S. Prager, a well-known and highly respected ranchman at his home in Roswell, N. M. Mr. Prager was at one time a partner of Mr. Henry Lutz at Lincoln, N. M. in the old Lincoln Trading company. He came to this locality thirty-five years ago. At the time of his death he was a partner in the firm of Jaffa-Prager, conducting a general merchandise store at Roswell. The date of the funeral has not at this writing been announced.

Villa Wreaks Vengeance

Word comes from old Mexico, that six hundred and seventy-four lives of federal soldiers are said to have been exacted by Francisco Villa for the death of General Felipe Angeles just twenty-four hours after the latter's execution at Chihuahua City on November 27. Villa's men, 1,000 strong, fell upon the eightieth federal regiment at Rancho Espejo with knives and using the butts of their guns as clubs. Only two officers escaped.

The news was brought across the border by Dr. L. M. Gomez of El Paso and Los Angeles, former army aviator, who had gone to Chihuahua City to intercede for Gen. Angeles. He learned the story from two officers, who escaped: Colonel Rivas and Lieut. Col. Morroqui, and he tells it as told to him, by the two alleged survivors.

Threats of Villa to seek revenge for the death of Angeles were known to federal authorities below the border, but the surprise of the 80th, regiment was complete. At 6 o'clock in the morning the rebels began the massacre. Little ammunition was wasted. They worked fast, with knife and gun felling more than 150 before the federals could realize what had happened.

The others were clubbed to death, slushed with knives or shot down as they ran. Of 676 men in the regiment, only the two officers are known to have escaped. General Santo Sanchez, in command of the federals and who is said to have boasted he would "get" Villa inside two months, is missing and believed killed.

Dancing Club Organized

Organization was perfected this week of the Carrizozo Dancing Club, a society composed of local business and professional men, the object of the club being to arrange a series of public dances for the winter season. Mr. Tom Carr is one of the live wires connected with the club and his manner of conducting affairs of this kind was plainly evidenced at the last dance a short time ago, when he planned the program and also made the punch for the occasion, which was pronounced of the very best. The club will certainly give the lovers of dancing, a season long to be remembered.

Indictments Many

Indianapolis, Ind., Dec. 3.—Information charging eighty-four international and district officers of the United Mine Workers of America with criminal contempt of court for alleged violation of the injunction issued here by Federal Judge A. B. Anderson, was filed this afternoon. Captives returnable Tuesday in the case of defendants in this jurisdiction, were issued and arrests will be made as soon as possible. Judge Anderson fixed the bonds in each case at \$10,000.

Will Protect People And Land

The New State Oil & Gas company comes forward with the following assurance to the people of this locality: They will require on the part of those who enter into contracts for drilling, a strong financial guarantee as an article of good faith, that the deep test well will go down. The company has, after a careful study of conditions, made a call for 40,000 to 50,000 acres of land under lease which to the thinking man, is not beyond the bounds of reason. The Picacho well required under lease, 75,000 acres and 350,000 acres were required by the company developing the Picacho and Roswell oil fields.

The New State Oil & Gas Co. is now figuring with three drilling companies, who are ready for quick action when the local company can deliver 40,000 acres to them under lease. All offers on a less acreage so far, lack the good faith which the company must have to protect the people and land. The New State Oil & Gas Co. is willing and ready to contract with any, who are willing and who will prove their ability to drill the desired test well on unreasonably small acreage offers, but the contract into which this company enters must mean development. The work of securing the necessary amount of acreage is more than half completed, but it will require the combined efforts of the public to complete the task. A great deal of time and money has been spent, therefore, a prompt consideration of the plan offered by the company should be made to enable the proposition to come our way—Now, altogether, for the finish!

Memorial Services Sunday

Last Sunday evening, Bishop Howden of the Episcopal diocese held memorial services for those of our boys, who lost their lives in the service of their country during the late war. Bishop Howden's sermon was full of Christian sympathy for relatives of the fallen soldiers and a glowing tribute to the heroism and patriotism of those who died. The Lindsay sisters sang a beautiful duet, assisted by Miss Inez Holland at the piano. Soldiers and sailors of the World War were present, most of whom were in uniform. Mrs. L. T. Bacot of Carrizozo and Miss Mildred Peters of Capitan were confirmed during the services.

Attention Master Masons

The regular communication of Carrizozo lodge No. 41 A. F. & A. M. will be held on Saturday night, December 6, at which officers for the year of 1920 will be elected. There will also be work in the second degree. All Master Masons are cordially invited, as the meeting will be one of vast importance.

S. F. MILLER, Sec'y.

SENATOR FALL DEMANDS MEXICO INVASION

**New Mexico Senator Hurls
Severe Charges At Carranza—Facts Will "Astound The World."**

Washington, Dec. 3.—A resolution requesting President Wilson to sever diplomatic relations with Mexico was introduced today by Senator Fall, republican, New Mexico, chairman of the senate committee charged with an investigation of the Mexican situation.

Explaining his resolution, which also asked that the president withdraw recognition of Carranza, Senator Fall declared it was based on evidence which would "astound the world" when produced. The resolution was referred to the foreign relations committee.

"I charge," said Senator Fall, "that the Mexican embassy, the consulate general in New York and the consulate general in San Francisco have been actively engaged in the distribution of bolshevik propaganda and that this has been done with the knowledge and consent of Venustiano Carranza."

Villa Captured, Report

Juarez, Mexico, Dec. 3.—Vigorous efforts were made tonight by civil and military officials here to obtain official information regarding the reported capture of Francisco Villa near Parral, which was announced late today in a message received by P. W. Caballero, superintendent of the National Railways of Mexico for Chihuahua, who is here on an inspection trip. Up to 7:30 o'clock no confirmation of the report had been received.

The first word of the reported capture was given to the Associated Press by Senor Caballero. Later it was explained that the report had come from a telegraph operator at Parral, brother of Jimenez and Chihuahua City, and thence to Juarez.

L. of the W. C.

The Ladies of the Woodmen Circle held a special meeting Tuesday afternoon to entertain Mrs. Katie Ferguson, who is making a tour of the state in the interest of the order. The main issue at stake just now with this society is the new rates which are considered by some to be unreasonable. Therefore, Mrs. Ferguson is explaining the reason for the advance and after the membership has fully understood the situation thoroughly, the new schedule may have little, if no opposition. On account of the small space of time allotted to her tour, Mrs. Ferguson, who is state manager of the order left Tuesday evening to resume her journey.

Air Situation on Border

Washington, Dec. 4.—The first army airship station on the border will be organized immediately at El Paso, Texas, by the Eighth Balloon company under Lieutenant Byron T. Burt.

DAVE AND EDITH.

Synopsis.—David Eiden, son of a drunken, shiftless ranchman, almost a maverick of the foothills, is breaking bottles with his pistol from his running cayuse when the first automobile he has ever seen arrives and tips over, breaking the leg of Doctor Hardy but not injuring his beautiful daughter, Irene. Dave rescues the injured man and brings a doctor from 40 miles away. Irene takes charge of the housekeeping. Dave and Irene take many rides together and during her father's enforced stay they get well acquainted. They part with a kiss and an implied promise. Dave's father dies and Dave goes to town to seek his fortune. A man named Conward teaches him his first lessons in city ways. Dave has a narrow escape, is disgraced and turns over a new leaf. Fate brings him into contact with Melvin Duncan, who sees the inherent good in the boy and welcomes him to his home, where he meets Edith, his best pretty daughter,

CHAPTER V—Continued.

Dave's energy and enthusiasm in the warehouse soon brought him promotion from truck hand to shipping clerk, with an advance in wages to sixty-five dollars a month. He was prepared to remain in this position for some time, as he knew that promotion depends on many things besides ability. Mr. Duncan had warned him against the delusion that man is entirely master of his destiny.

But Dave was not to continue in the grocery trade. A few evenings later he was engaged in reading in the public library. Mr. Duncan had directed him into the realm of fiction and poetry, and he was now feeling his way through "Hamlet." On the evening in question an elderly man engaged him in conversation.

"You are a Shakespearean student, I see?"

"Not exactly. I read a little in the evenings."

"I have seen you here different times. Are you well acquainted with the town?"

"Pretty well," said Dave, scenting that there might be a purpose in the questioning.

"Working now?"

Dave told him where he was employed.

"I am the editor of the Call," said the elderly man. "We need another man on the staff; a reporter, you know. We pay twenty-five dollars a week for such a position. If you are interested you might call at the office tomorrow."

Dave hurried with his problem to Mr. Duncan. "I think I'd like the work," he said, "but I am not sure whether I can do it. My writing is rather wonderful."

Mr. Duncan turned the matter over in his mind. "Yes," he said at length, "but I notice you are beginning to use the typewriter. When you learn that God gave you ten fingers, not two, you may make a tylist. And there is nothing more worth while than being able to express yourself in English. They'll teach you that on a newspaper. I think I'd take it."

"Not on account of the money," he continued, after a little. "You would probably soon be earning more in the wholesale business. Newspaper men are about the worst paid of all professions. But it's the best training in the world, not for itself but as a step to something else. The training is worth while, and it's the training you want. Take it."

Dave explained his disadvantages to the editor of the Call. "I didn't want you to think," he said, with great frankness, "that because I was reading Shakespeare I was a master of English. And I guess if I were to write up stuff in Hamlet's language I'd get canned for it."

"We'd probably have a deputization from the Moral Reform League," said the editor with a dry smile. "Just the same, if you know Shakespeare you know English, and we'll soon break you into the newspaper style."

So almost before he knew it Dave was on the staff of the Call. His first assignment was to the police court, fire department, hotels and general plug-ups.

Dave almost immediately found the head of acquaintanceship. The son of his father had been in his position of awkwardness which had now to be overcome. He was not naturally a good "stinger." He preferred his own company, but his own company would not bring him much news. So he set about deliberately to cultivate acquaintances with the members of the police force and the fire brigade and the clerks in the hotels. And he had to his character a quality of directness

which gave him almost instant admission into their friendships. He had not suspected the charm of his own personality, and its discovery, leading upon his new born enthusiasm for friendships, still further enriched the charm.

As his acquaintance with the work of the police force increased Dave found his attitude toward moral principles in need of frequent readjustment. By no means a Puritan, he had nevertheless two sterling qualities which so far had saved him from any very serious misstep. His practiced absolute honesty in all his relationships. His father, drunken although he was in his later years, had never quite lost his sense of commercial uprightness, and Dave had inherited the quality in full degree. And Reenie Hardy had come into his life just when he needed a girl like Reenie Hardy to come into his life. He often thought of Reenie Hardy, and of her compact with him, and wondered what the end would be. He was glad he had met Reenie Hardy. She was an anchor about his soul. . . . And Edith Duncan.

While the gradually deepening current of Dave's life flowed through the channels of coal heaver, freight-handler, shipping clerk and reporter its waters were sweetened by the intimate relationship which developed between him and the members of the Duncan household. He continued his studies under Mr. Duncan's directions; two, three, and even four nights in the week found him at work in the comfortable den, or, during the warm weather, on the screened porch that overlooked the family garden. Mrs. Duncan, motherly, and yet not too motherly—she might almost have been an older sister—appealed to the young man as an ideal of womanhood. Her soft, well-modulated voice seemed to him to express the perfect harmony of the perfect home, and underneath its even tones he caught glimpses of a reserve of power and judgment not easily unbalanced. And as Dave's eyes would follow her the tragedy of his own orphaned life bore down upon him and he rebelled that he had denied the start which such a mother could have given him.

"I am twenty years behind myself," he would reflect, with a grim smile. "Never mind. I will do three men's work for the next ten, and then we will be even."

And there was Edith—Edith who had burst so unexpectedly upon his life that first evening in her father's

"Well!" queried the girl, and there was a note in her voice that sounded strange to him.

head. He had not allowed himself any foolishness about Edith. It was evident Edith was pre-empted, just as he was pre-empted, and the part of honor in his friend's house was to recognize the status quo. . . . Bill, Mr. Alan Forsyth was unnecessarily self-assured. He might have made it less evident that he was within the enchanted circle while Dave remained outside. His complacency irritated Dave almost into rivalry. But the best reminder of Edith herself checked any adventure of that kind. She was of about the same age as Reenie Hardy—a little slighter perhaps; and about the same age; and she had the same quick, frank eyes. And she sang wonderfully. He had never heard Reenie sing, but in some strange way he had formed a deep conviction that she would sing much as Edith sang. In love, as in religion, man is forever setting up ideals to represent his ideal—and forever finding feet of clay.

Dave was not long in discovering that his engagement as coachman was a device, born of Mr. Duncan's kindness, to enable him to accept instruction without feeling under obligation for it. When he made this discovery he smiled quietly to himself and pretended not to have made it. To have acted otherwise would have seemed ungrateful to Mr. Duncan. And presently the drives began to have a strange attraction of themselves.

When they drove in the two-seated buggy on Sunday afternoons the party usually comprised Mrs. Duncan and Edith, young Forsyth and Dave. Mr. Duncan was interested in certain Sunday-afternoon meetings. It was Mrs. Duncan's custom to sit in the rear seat for its better riding qualities, and it had a knack of falling about that Edith would ride in the front seat with the driver. She caused Forsyth to ride with her mother, ostensibly as a courtesy to that young gentleman—a courtesy which, it may be conjectured, was not fully appreciated. At first he accepted it with the good nature of one who feels his position secure, but gradually that good nature gave way to a certain festiveness of spirit which he could not entirely conceal.

The crisis was precipitated one fine Sunday in September, in the first year of Dave's newspaper experience. Dave called early and found Edith in a riding habit.

"Mother is indisposed, as they say in the society page," she explained. "In other words, she doesn't wish to be bothered. So I thought we would ride today."

"But there are only two horses," said Dave.

"Well!" queried the girl, and there was a note in her voice that sounded strange to him. "There are only two of us."

"But Mr. Forsyth?"

"He is not here. He may not come. Will you saddle the horses and let us get away?"

It was evident to Dave that for some reason Edith wished to evade Forsyth this afternoon. A lovers' quarrel, no doubt. That she had a preference for him and was revealing it with the utmost frankness never occurred to his sturdy, honest mind. One of the delights of his companionship with Edith had been that it was a real companionship. None of the limitations occasioned by any sex consciousness had narrowed the sphere of the frank friendship he felt for her. She was to him almost as another man, yet in no sense masculine. Dave, for a certain tender delicacy which her womanhood inspired, he came and went with her as he might have done with a man chum of his own age. And when she preferred to ride without Forsyth it did not occur to Eiden that she preferred to ride with him.

They were soon in the country, and Edith, leading, swung from the road to a bridle trail that followed the winding of the river. As her graceful figure drifted on ahead it seemed more than ever reminiscent of Reenie Hardy. What rides they had had on those foothill trails! What dips into the great canyons! What adventures into the dense forest! And how long ago it all seemed! This girl, riding ahead, suggestive in every curve and pose of Reenie Hardy. . . . His eyes were burning with loneliness. He knew he was dull that day, and Edith was particularly charming and vivacious. She coaxed him into conversation a dozen times, but he answered absent-mindedly. At length she leaped from her horse and seated herself, facing the river, on a fallen log. Without looking back she indicated with her hand the space beside her, and Dave followed and sat down.

"You aren't talking today," she said. "You don't quite do yourself justice. What's wrong?"

"Oh, nothing!" he answered, with a laugh, pulling himself together. "This September weather always gets me. I guess I have a streak of Indian; it comes of being brought up on the range. And in September, after the first frosts have touched the foliage—"

He paused, as though it was not necessary to say more.

"Yes, I know," she said quietly. "Then, with a queer little note of confidence, 'Don't apologize for it, Dave.' 'Apologize' and his face straightened. 'Certainly not. One doesn't apologize for nature; does that? . . . But it comes back in September.'"

She smiled, and she thought the subconscious in him was calling up the smell of fire in dry grass, or perhaps even the rumble of buffalo over the hills. And he knew he smiled because he had so completely missed her.

It was dark when they started homeward.

Forsyth was waiting for her. Dave scented stormy weather and announced himself early.

"What does this mean?" demanded

Forsyth angrily as soon as Dave had gone. "Do you think I will take second place to that—that cool heaver?"

"That is not to his discredit," she said.

"Straight from the corral into good society," Forsyth sneered.

Then she made no pretense of composure. "If you have nothing more to urge against Mr. Eiden perhaps you will go."

Forsyth took his hat. At the door he paused and turned, but she was already ostensibly interested in a magazine. He went out into the night.

The week was a busy one with Dave and he had no opportunity to visit the Duncans. Friday Edith called him on the telephone. She asked an inconsequential question about something which had appeared in the paper, and from that the talk drifted on until it turned on the point of their expedition of the previous Sunday. Dave never could account quite clearly how it happened, but when he hung up the receiver he knew he had asked her to ride with him again on Sunday, and she had accepted. He had ridden with her before, of course, but he had never asked her before. He felt that a subtle change had come over their relationship.

MOMENTOUS DAY IN HISTORY

Julius Caesar Said to Have Landed in Britain on Twenty-seventh Day of August.

According to calculations carefully made and that, at the least, establish a probable case, August 27 is the anniversary of the landing of Julius Caesar in the island of Britain. In his wars that resulted in the conquest of Gaul, or modern France, Julius Caesar kept a journal, in which he recorded all his operations. He called it, "Commentaries," and it has been pronounced to be perhaps the best record of campaigns ever written by a general in the field.

In the midst of these operations he found time to cross the channel and pay a military visit to the land known now as England, but not so known then, for the ancient Britons then inhabited the island. He states the year of that visit, which, according to our calendar, was 55 B. C. He also states other facts which enabled the calculation to month and day to be made.

Caesar in his journal, or "Commentaries," relates that he set out on the expedition when little of summer remained, when the people of the south of Britain are engaged in their harvest, and that after a stay of three weeks, he returned to Gaul before the equinox. It is, therefore, concluded that the day of landing must have been in August.

Grecoan Marriage Gesture.
There are two noted statues of the Venus Genetrix in which the Grecoan marriage-gesture is illustrated—one a Roman copy of a Greek original held to represent a celebrated type, by Alcamenes, in the Louvre, Paris. The goddess is clad in a very light Ionic tunic, and with raised right arm lifts her himation from behind toward her head, forming the Greek gesture symbolic of marriage. The left hand extends the apple.

The other, an antique marble statue, in the Vatican museum, is held to be an excellent copy of the bronze cult-statue by Arceilaus which stood in the temple of Venus of the Forum Julium. The figure is fully draped in very thin, clinging drapery; she extends the apple with her left hand, and with the right raises her mantle over the shoulder toward the head—the symbolical marriage-gesture.

Bird is Terror to Bees.
A cliff swallow will eat a thousand flies, mosquitoes, wheat-midges or beetles that infest fruit trees in a day and, therefore, are to be encouraged, says the American Forestry association of Washington.

This bird is also known as the cave swallow because it plants its nest on the outside of a barn or other building up under the eaves. Colonies of several thousands will build their nests together on the side of a cliff. These nests, shaped like a flattened globe or water-bottle, are made of bits of clay rolled into pellets and lined with straw or feathers. This bird winters in the tropics.

Sarcotic.
"Tomorrow," he heard the exasperated manager, after he had seen the fifth possessionless person leave his shop. "The going to get a showcase of gold dollars out front, marked down to 50 cents and see if you get rid of few of 'em."—Public Ledger.

Teacher.—Now, Mary, tell me what you know about Croesus.
Little Girl.—It's what men wear in their pants.

Well Known Kansas Woman

A Nervous Breakdown.
Kansas City, Kan.—"Dr. Pierce's Favorite Prescription brought me through a very critical period for which I shall always be very grateful and I am glad to tell of it that other suffering women may take my advice and try the 'Prescription.' I had a severe nervous breakdown, caused by woman's troubles. Doctors called it inflammation. I doctored for about five years with very little help. I saw Dr. Pierce's medicine advertised and was so discouraged that I was ready to do anything for relief. I at once got both the 'Favorite Prescription' and the 'Golden Medical Discovery.' I think I took about a dozen bottles but it was surely worth it as it restored me to good health, curing me of all my ailments."—MRS. LUCY FOREMAN, 214 S. Packard St.

Remarkable Case of a Kansas Woman

Atchison, Kans.—"About twenty years ago I first commenced taking Dr. Pierce's Favorite Prescription for displacement and other feminine weakness. The first half dozen doses gave me great relief, and by the time I finished the first bottle I felt stronger than for a long while. Since then I have taken this medicine whenever I have felt run-down, weak or nervous and it has always given me the desired relief. I am very glad to recommend 'Favorite Prescription' as a woman's best friend."—MRS. IDA TICKNER, 1115 N. 10th St.

An Old-Fashioned Girl.
Mrs. Olden—What did you marry for, my dear; love, money, position or what?
Mrs. Bradley—For a husband.

ASPIRIN FOR COLDS
Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Colds, Pain, Headache, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monacochester of Salzeberg. Adv.

Not So Bad.
"I hear your friend has a bad case of nostalgia."
"Not so bad as that; he's only awfully homesick."

The housewife smiles with satisfaction as she looks at the basket of clear, white clothes and thanks Red Cross Bag Blue. At grocers, 5c.

"Shallow men believe in luck; strong men believe in cause and effect."
Is it news that a dress suit is sometimes the liver of a crook?

Back Lane and Achy?

Don't let that bad back make you miserable. Find out what is wrong. If you suffer with a constant back-ache, feel lame, weak and all-played-out; have dizzy nervous spells, you may well suspect your kidneys. If kidney irregularities distress you too, you have additional proof. Don't wait! Use Doan's Kidney Pills, the remedy people everywhere are recommending. Ask Your Neighbor!

A Colorado Case
Mrs. E. M. Lead-better, 214 Main St., Trinidad, Colo., says: "I suffered from rheumatic pains in my back and limbs. My head ached and the least excitement caused me to become nervous. I was advised to try Doan's Kidney Pills and in a few days I began to get well and just a few boxes cured me."

A pardon signed by President Wilson for Jesse Kohler, a federal convict, was received at Los Angeles. When officials went to present it to Kohler at the county hospital they learned he had died eighteen days previous.

Charles M. Belshaw of San Francisco, former state senator, Mrs. Belshaw and Mr. and Mrs. J. D. Sherwood of Spokane, Wash., were killed when an automobile in which they were riding rolled over a high cliff at Half Moon bay, thirty miles south of San Francisco.

The Superior Court at Visalia, Calif., denied the application of J. Kawahara, a Japanese for the guardianship of his 4-year-old son in order that he might buy land in his son's name. The court held the use of land by an alien who holds it in the name of an infant is illegal.

One billion feet of timber killed by 1,445 fires is the estimate given for Montana's tremendous forest fire losses for the season just closed. Half of the fires were started by human agency and were preventable. The fires burned over 570,000 acres of land and were suppressed at a cost of \$1,300,000, according to figures compiled by the forestry office at Missoula.

Harry Reye, who was a Methodist clergyman in the Middle West for ten years, and whose father was a well-known Nebraska minister, is under sentence to serve one to fourteen years in San Quentin for burglary. He pleaded guilty to stealing typewriters worth \$247 from a Los Angeles typewriter company and also admitted he had taught his 18-year-old nephew, Kenneth Moffitt, to assist in robbing hotel rooms.

WASHINGTON

Settlement of the controversy over disposition of the German liner Imperator was indicated by shipping board officials, who intimated the ship would be tendered immediately to Great Britain.

That it is the speed of heavy loads, rather than the weight of the load itself, that ruins pavements is the conclusion reached by government authorities who are investigating various phases of the automobile transportation problem.

J. Hardacker, British consul at Puebla, Mexico, was saved from kidnapping by Federico Gordova, the bandit who kidnaped William G. Jenkins, the American consul agent at Puebla. It was learned at Washington in advice from Mexico City.

Dangerous radicals are being smuggled into the United States at the rate of 100 a day, according to data collected by the House committee on immigration investigating alleged failure of the government to deport alien radicals made public at Washington.

Postmaster General Burleson has approved pending bills to reduce the rate of local first-class letter postage to a penny an ounce. A letter for delivery within the postal limits of the office in which it is mailed would take a one-cent stamp, instead of a two-cent stamp.

A final study of the selective draft records made public fixes the military strength of the United States at 19,000,000 in potential military manpower. Registrations for the draft, between the ages of 15 and 45, totaled 25,908,878, almost 80 per cent of whom were listed as "physically fit for military service."

Earnings of the federal farm loan banks during the six months ending Nov. 1 were \$208,402, according to figures made public by the farm loan board. This was a gain of more than \$200,000 over the previous half year earnings and an increase of approximately \$200,000 over profits of the banks for the corresponding six months a year ago.

American exports in October, 1918, were valued at \$282,000,000, an increase of \$25,544,000 over those in September and of \$120,000,000 over those in October, a year ago, according to a statement today by the Bureau of Foreign and Domestic Commerce. Reports for the ten months ended with October were valued at \$2,591,000,000, an increase of \$1,444,000,000 compared with the corresponding period last year.

FOREIGN

Three million American tourists are expected in France in 1920 and 1921, it was estimated by Henri de Vast, the new president of the French Motor Touring Club.

Fire at Beatrice, Neb., completely destroyed the Drake block, one of the largest business buildings in the town, causing a loss of \$100,000, with insurance of about half.

Premier Clemenceau has rented at St. Vincent, Vendee, a small solitary house on the seashore, where he hopes to rest and work in solitude, according to reports from Paris.

Gabrielle d'Annunzio has decided to make a lecture tour of America at once, it is reported from Rome. The poet warrior says he wants to explain the Fiume question to Americans.

All records in the prices of fashionable gowns are beaten by spring models just announced in Paris. They will be 12,000 francs (\$2,400), while an afternoon frock, a Poiret creation, costs 28,000 francs (\$5,600).

Dispatches received from Belgrade state that the Serbian government has authorized that country's delegation at Paris to sign the treaty with Austria, which Serbia did not sign at St. Germain on September 10th.

Plans are under way to spend 22,000,000 marks for the purchase and equipment of a residence for future German presidents in Berlin, something on the line of the White House in Washington or the Elysee in Paris, but necessarily less pretentious.

Another Klondike has been discovered in Lapland, or Lapland, to the north of Finland. The reports brought back by travelers are so startling and important that the Norwegian government has sent an official expedition to the gold fields. Meanwhile a stampede is reported in progress.

Because Germans raised no objections to the erection of memorials to British soldiers in German cemeteries, the Oswestry district council has decided to permit the building of a memorial to German soldiers buried in a military cemetery at Oswestry, England.

The unpopularity of militarism has resulted in depriving Japanese railway officials of their glittering shoulder straps and swords. The wearing of gold braids and side arms by the railway officials was introduced about ten years ago. The railway people now look more democratic.

A message from General Denikin says his volunteer army has broken the "Red" front between Orel and Tambov. A Bolshevik army, consisting of 50,000 men, was beaten. It is stated that 20,000 men, belonging to General Petliura's army, have deserted and that his forces are in disorder.

GENERAL

A mail pouch containing \$27,000 worth of Liberty bonds was stolen from the union station at Dunkirk, N. Y.

A special federal grand jury at Covington, Ky., returned sixty-three indictments charging 150 persons with violations of the war-time prohibition act.

The famous Holstein Friesian bull, King Segis Pontiac Alcazar, valued at \$50,000, died at Middletown, N. Y. It was owned by John H. Ardmann of Fairmont farm.

Lieut. Robert Stocker and a civilian named Thompson, believed to have been a radio tester, were drowned when their hydroplane fell into the Delaware river, six miles below Chester. The bodies have not yet been recovered. The plane was towed to the Philadelphia navy yard.

With more than seventy days left the Ohio automobile department has broken all records of the state and, in fact, any state in the Union in the number of licenses issued for 1919. Up to Oct. 20 the department issued licenses for 508,500 passenger cars and commercial vehicles operated by gasoline.

Twenty-five persons, most of them women and girls, lost their lives in a fire which quickly destroyed a frame building in which 500 of the village folk were making merry at a dance at Villa Platte, Ia.

More than \$100,000 in government bonds, mostly Liberty issues, was taken by robbers who cut their way into the vault of the Farmers' Savings Bank at Rockford, Ohio, and looted eighteen of sixty deposit boxes of the vault.

The American merchant marine has expanded from four ships in deep sea commerce before the war to a fleet of 2,773,000 tons in ocean service, according to figures made public by the National Marine League. In addition great lakes shipping measures 2,000,000 tons, giving a total of 11,773,000, against Great Britain's 18,000,000 tons.

J. H. Monroe, famed after the Civil war as "The Drummer Boy of Shiloh," is dead in Peoria, Ill., at the age of 76 years. He served the Northern army at the age of 16 from Burlington, Ia., and served as a drummer in Company I, Sixth regiment, Iowa volunteer infantry. A statue of him as a drummer is on the soldier's monument in Des Moines, Ia.

COMING EVENTS.
The Red Cross Christmas Seal sale will take place all over the United States from December 1 to 10, 1918.

Yuma county, Ariz., has authorized the issuance of \$1,800,000 road bonds by a light vote.

Phoenix will build a \$20,000 home for the American Legion of that city, according to announcement of City Manager Thompson.

Uncle Sam is richer by about 350 gallons of red "licker" and \$20,000 in fines and costs as a result of the clean-up of illicit liquor selling in New Mexico by the United States District Court since the first of last July.

A project that will add close to 80,000 acres more of fertile farming land to the Salt river valley in Arizona is being developed by enterprising Chandler and south side men in the opening of the East Chandler country.

So pleased are mining men with the result that has been obtained in the collection of ores and minerals on exhibit at the Arizona state-fair that a plan is now afoot whereby, with the aid of a caretaker the mines and minerals building may be kept open all year for visitors.

Hidden in a tunnel in an almost inaccessible part of a mountain range south of Salt river, Sheriff Montgomery and a deputy discovered their twelfth distilling plant since the first of the present year in that part of Arizona. The equipment for illicit manufacture of liquor apparently had not been in operation for some months, although much material was found.

Captain Walter S. Ingalls, appointed by Governor Campbell as adjutant general of Arizona, announced that formation of a National Guard organization would be commenced at once and that an \$80,000 state fund was available for armories. He said cities and towns would, as in the past, be the bases of National Guard units with the same company designations as formerly.

The board of officers of the United States Army which has been in session in Denning, N. M., has finished its final session. The object of this board meeting was to make final disposition of all claims against the government arising from the occupancy of Camp Cody by federal troops. All who had such claims appeared before the board with their witnesses and were given a final hearing and settlement of the claims will be made at an early date.

Alleged inebriety among the military and civilians of Nogales, Ariz., has caused an investigation to be inaugurated by the Department of Justice operators and the State Department officials regarding the smuggling of liquor into the United States from Sonora and the issuance of passports to Americans, alleged to have no further use for passports, than to patronize drinking resorts in Nogales, Sonora, recently reopened under sanction of the Mexican state officials.

According to reports received from various parts of San Miguel county, New Mexico, the coyote population is decreasing very rapidly, as bounties on more than twenty animals have been applied for within the past few days. Capt. A. A. Sears of the mounted police killed eight coyotes at Park Springs and \$24 has been claimed as bounties by Jose Leon Apodaca for coyotes which he killed near Las Ventanas. Many others have been killed this fall in different parts of the county, and the farmers and stockmen expect to continue the drive until they can rid their farms and ranches of these pests.

Governor Campbell of Arizona signed paroles of three prisoners confined in the prison or jails in various parts of the state, recently. Mrs. Maud McNeil was paroled from the Coccolino county jail after having been convicted on Aug. 6, 1910, and sentenced to serve fourteen months on a charge of illicit liquor traffic. She was represented as being the mother of three children needing her support. A condition of the parole was that she leave the state.

The time made by Eddie Hearne of Los Angeles, Calif., in the 100-mile automobile race at the Arizona state fair grounds Nov. 8, established a new speed record in the United States for that distance on a dirt track, according to notification received in Phoenix by G. P. Ballard, representative of the American Automobile Association, from R. Kennard of New York, chairman of that organization. Hearne's time for the 100 miles was announced officially as being 86 minutes 8 seconds. The previous record, according to Ballard, was held by Tom Alley, who raced 100 miles at Hamelin, Minn., in 1914, in 91 minutes 30 seconds.

THE FLAVOR LASTS SO DOES THE PRICE!

WILL NOT USE GERMAN DYES POOR ENGLISH PLACE-NAMES

Real Reason Why the Red Trousers of the French Infantryman Have Been Discarded.

Pessimistic and in Many Cases Derogatory Appellation Given for No Apparent Reason.

The red trousers of the French army are to be no more. There is a political and economical tragedy about it with which very few people are familiar. The originator of the red trousers was Napoleon, who was prompted in his "reform" by a desire to help the native cultivation of madder root against the Dutch and Italian rivals. But then came the Graebe-Melchior discovery of the alizarine dyes, and in less than ten years, between 1870 and 1878, the production of madder root in France shrank from 25,000 to 500 tons, and then it disappeared. This was a great German victory. Nevertheless, the army trousers continued to be dyed red, only this time the dyes had to be imported from Germany. It evidently required a great war to put an end to this humiliation.

For a people upon the whole cheery and possessed of much homely philosophy, the English have shown a surprising amount of pessimism in their choice of place-names, remarks a Canadian soldier now in England. Withal, their Mount Pleasant and the Goldharbors, Starvescres, Starvetrows, and so forth. But for stark pessimism the writer knows no place-name to beat that of a northern farmstead situated at the exposed end of a bleak, unkindly valley which always seems much colder and more foggy than any of the near-by heights. The name is Bad End—simply. One of its occupants was hanged, but so far as the name goes this must have been effect rather than cause, for the hanging was recent, while the name antedates the oldest inhabitant's recollections: Cackle street, Darwell Hole, Old Hole, Bughill, Poppinghole, Frog-hole, Pigstrod, Flatix, Kitchenhour, Grandtrel, Little Ninereb, Tubelake, Brownbread street. Are a few merely old place-names recalled at random, and all to be met with in a day's march along the beautiful Sussex-Kent border country.—Montreal Herald.

Must Have Had it All. "I understand you have had a slight operation?" "That's what I thought I had, but I got the bill for it yesterday and I'm inclined to think now that while I was under the ether the surgeon gave me everything he had in stock."

Now obsolete. "Begin the day but pencils are better lead." A man who courts and runs away may be hauled to court some day.

CHURCHES

METHODIST CHURCH
 (A. C. Douglas, Pastor)
 Sunday School, 10:00 a. m. Come bring one.
 Sermon at 11 a. m. and 7:30 p. m.
 Epworth league every Sunday evening at 6:30 p. m.
 Mid-week prayer meeting Wednesday 7 p. m.

All visitors and strangers are welcomed at our church to any and all services.

CATHOLIC CHURCH
 (Rev. J. H. Girms, Rector)
 From now on every Sunday first mass at 8:30 a. m., sermon in English.

Second mass at 10:00 a. m. sermon in Spanish.

Sunday School in English at the Chapel at 8 p. m.

The Spanish Junior class at 8 p. m. at the parsonage.

Senior class at 7 p. m. at the same place followed by devotions.

CHURCH OF CHRIST

There will be services conducted by the Church of Christ at the Kelley Chapel next Sunday at 10 a. m. The public is cordially invited.

Rev. J. B. Daniel of Alamogordo will preach at both morning and evening services, third Sunday of each month.

BAPTIST CHURCH

(Rev. L. S. Smith, Pastor.)
 Preaching every Sunday.
 Sunday school, 10 a. m.
 Young People's meeting at 6 p. m.

Ladies meet every Wednesday at 3 p. m.

You are invited to all services. There will be a good program rendered at the Baptist church Sunday night at 7 p. m. by the children and young people. Come, it will be good.

EPISCOPAL CHURCH

(Rev. Johnson, Rector)
 Sunday School at 10 a. m. Miss Clara Bacot, Superintendent.
 Church services every Sunday evening at 7:30
 The public is cordially invited.

"DEATH TRAIN" IS STEADILY MOVING

Tokio.—For the second time word comes out of Siberia of a "death train" traversing the 4,000 miles of railroad between the Ural front and the Pacific, shunted on from station to station, with help denied until word of it reached the American Red Cross.

In the spring a train loaded with typhus victims distributed its dead across the land. The latest death train carried in addition to the typhus the dreaded spotted fever and cholera. Word of the presence of this train on the main line between Irkutsk and Vladivostok reached American Red Cross headquarters in the latter city a few weeks ago, and preparations were started immediately to succor what survivors there might be of the callous cruelty these stricken soldiers of the Kojchak army had been subjected to.

Doctor Dies on Train.

The death train, they had last heard, was at Nikolok on August 27, where the Russian authorities had simply passed it on, as all other Russian officials had done at every station for weeks. Just before the train reached Nikolok the doctor aboard it had died of cholera. Seven of the 150 sick who had survived to reach Nikolok died the next day. Their bodies were dumped out of the moving train by wrecks of men who had not the strength to dig graves, even if they might have had the inclination. As things were going it was only a matter of time until their own festering bodies, crawling with typhus lice and foul with living for weeks in uncleaned box cars, would be rolled out of the side door to become a center of infection for the countryside.

The Red Cross train caught up to the death train at Razdolne, where it lay on a siding near a barracks in which American troops were quartered. These soldiers were doing what little they dared for the pest-ridden sufferers, having run so many risks, in fact, that they were all put into quarantine when the medical authorities discovered the facts. Until these American soldiers, in a more or less

rough and ignorant way, offered some help, the patients in the death train had received nothing from the troops they had met except alarmed orders from commanders to be on their way.

Before reaching the death train the Red Cross officials had made arrangements to bring the typhus and cholera patients to the Russian hospital at Nikolok, which had been fitted up by the Inter-Allied sanitary committee, and permission had been obtained from Colonel Lewis, of the American army, to use the inter-allied wards of this institution. But the Russian railroad authorities at Nikolok proved to be like the hundreds of others along the line and refused to permit the death train to be brought there, and

the Russian military command refused to permit the patients to be brought into the town under any circumstances. Neither would the Russian military authorities at Razdolne permit the sick to be removed from their filthy box cars to any building in the town. Finally, after long parleying with Vladivostok, permission was given to house the sick at Nikolok on condition that they be cleaned first and brought there in sterilized and sanitary clothing.

The Red Cross report showed that there had been fifty deaths aboard the train between the time it had left Derna and the time the rescuers reached it at Razdolne.

Being refused help in all directions, the Red Cross workers did the only thing possible. They ran the death train out on the prairie and extemporized a field hospital. One by one the living skeletons were taken from their train, their clothing stripped off and burned and the men given a scouring bath and then placed aboard the Red Cross train.

WONDERING OVER PILGRIM FATHERS

Plymouth, Mass.—With the three hundredth anniversary of the landing of the Pilgrim Fathers little more than a year away, Plymouth is cogitating eagerly and blindly as to whether "the tercentenary celebration" of the great event is going to be held in Plymouth or in Provincetown, on the tip of Cape Cod, where the first landing of the storm-tossed passengers of the Mayflower really took place, or if the celebration can be divided, giving each town part of the glory and incidentally of the increased trade and custom that will result.

It is a fact little known to the people of these United States and ignored by most histories that Plymouth has for years been basking unjustly in the white light of fame as the first landing place of the Pilgrim Fathers.

First Landed at Provincetown.

When the Mayflower sailed into Plymouth harbor it came from Provincetown, 30 miles directly across Massachusetts bay, where the hundred hardy souls fleeing from religious persecution had already spent a month ashore, where the Pilgrim Mothers had done a tremendous washing after two months at sea, with clean linen at a premium; where Dorothy Bradford, wife of William Bradford, subsequently governor of Plymouth colony, had

been drowned by falling from a boat in the bay, and where—most noteworthy fact of all—had been written and signed in the cabin of the Mayflower what is known to the world as the first purely democratic government ever produced, the Mayflower compact guaranteeing to dwellers under the Pilgrim government equal rights of living and being, no matter what their standing may have been in the past or what it might be in the future. The compact was signed on November 11, 1620, just 230 years to a day before the date of the signing of another great democratic doctrine, the armistice of the world war to make the world safe for democracy.

History tells us that the date of the landing of the Pilgrims at Provincetown and the date of the compact is November 21. The discrepancy is due to the ten days' difference between old style time and new style time. It was just one month later, December 11, old style, or December 21, new style, that the Mayflower poked her nose around Duxbury Point and headed for the shore.

The tercentenary celebration must be held in Plymouth, say the adherents of the mainland towns because besides being the historically accurate place where the Pilgrims fought their fight against annihilation and destruction, it is more easily accessible and all around better suited in every way. It has more to show the visitors to the celebration, and has a bigger reputation to draw them to it.

"The celebration must be held in Provincetown," say the dwellers in the Cape Cod claimant to the honor, "because this is the true landing place of the Pilgrim Fathers. Here they terminated the terrible wintry voyage and were able to get fresh water and fresh food at the end of the trip; here they signed the compact under which they governed the colony; it was from the hill on which now stands the Pilgrims' Memorial monument, that they first saw the mainland, and it was here they spent a month of recuperation before pressing ahead to the West. And we have the monument to prove our claim."

Whether the celebration will be held here in Plymouth or in Provincetown, or whether it will be held at all, are still moot questions, and perhaps the latter possibility is the best solution of the problem. There is still a year to decide, and some way may be found of averting bloodshed in the argument between the two disputants for dual honors in the "Pilgrim Arrival Stakes."

SUIT CHANGES ARE FEW

Styles Only Slightly Affect Conservative Type.

Last Winter's Outfit Will Not Be Passed—Fur Trimming Is Not So General.

There are many women who wear one coat suit for at least two seasons and always look well in it. These are usually the women who select a conservative style to begin with and then freshen it up the second season with small fashionable touches. Say what you will about the changeableness of fashion, observes a fashion writer, you will have to grant that within the last few years there have been very few changes in suit styles that would affect the more conservative type of suit. That is, we have worn the same sort of suit sleeves and the straight, belted or semi-fitted jacket that persisted. To be sure, there have been changes in skirt length and girth, but you have never looked out of style if you persisted in a conservative medium in these matters.

Now radical changes are said to be working in the realm of fashions as an inevitable aftermath of the war's end. Distended hips are sure to come in. They are always worn almost to the exclusion of any other sort of thing for evening gowns by fashionable women, but it has really been determined by the makers of women's clothes that these distended hips shall not have a showing in women's suits. It would take more goods than the women could afford to pay for. Consequently the straight silhouette will persist for day street wear at least during the winter.

So your last winter's suit will not look so out of the picture after all. In the matter of fur trimming, although some coats are trimmed lavishly with it, it is by no means so general, and some women who have planned the remodeling of suits they have worn last winter or before have planned to have the old fur removed. On some of the new suits with fur trimming it is found only on the collar and along the edge of large hip pockets. It would be possible then to have the fur from the other part of the coat removed and enough that is good made over to use in this way. Then some of the suits show the use of warm angora cloth or other fabrics made to take the place of fur, but by no means imitations. If the old fur is shabby why not get the tailor to make use of one of these angora fabrics? It would be especially attractive on a suit that is cut along the sports lines.

IS THE SMALL HAT DOOMED?

Indication Favorable to Broadness Through Hips Points to Wide or Tall Headgear.

There are some smart women who never feel smartly dressed for the street unless they are wearing a small hat. This does not mean that the small hat is any smarter—simply that some women feel smarter when wearing it, and there is no denying the fact that it is vastly easier to keep one's locks trim and in place under a small hat than a large one.

Undoubtedly it would be very hard for a good many women ever to give up the small hat. Yet there are times when small hats are quite out of fashion. A couple of decades ago no one but old women in their weeds wore small hats, and those small hats were bonnets. When the so-called toque came in it was a real novelty.

And there are those who say that with the dress silhouette tending whether it now is the small hat will simply have to go. If we are to wear skirts that give the effect of broadness through the hips we will look

OUTFIT THAT WINS PRAISE

This tailor of cocoa peach bloom is cut along rather severe lines, but is rendered quite elaborate by silk embroidery and bands of kolinsky. Wide embroidered cuffs on the tight sleeves are a pleasing feature.

Absurd in our small hats. The only way to finish the picture as it should be finished will be to wear wide-brimmed hats or very tall hats. The very high headpieces of the period of Louis XV in France was worn to counteract the dwarfing effect of the wide-skirted pannier frock and when full skirts were in vogue some twelve or fifteen years ago hats that were extremely wide—so wide that you could not have worn one into a telephone booth without holding your head sideways—came into vogue.

WINTER FURS

Neckpieces, with practically no exception, are made in straight scarf form, in various lengths and widths. Collarettes and fancy shoulder capes have some representation.

In pelts, mink takes first place for garments and neckpieces, as well as for trimmings of cloth suits.

Brown and tan being the fashionable colors in both silk and wool fabrics, revival of interest in mink as a trimming, and in kolinsky in the light yellow of the natural color is noted.

Natural colored gray hare is in demand as a trimming; gray squirrel still holds its own.

Rabbit is used to some extent.

Materials for Hats.

Leather, felt and metal brocade are hat materials much in evidence for autumn and winter. Leather imitations have been introduced where the use of real leather is too expensive.

RESCUE OF STARVING MEXICAN GOATS

The island of Guadalupe, on the western Mexico coast, is inhabited by goats only—some 80,000 of them. This year they are starving, owing to lack of rain there, and many of them are being shipped to the foothill ranches of southern California. A cargo of these goats is here shown arriving at San Diego.

OBJECT TO SHAVING

Waiters of Paris Up in Arms Over Order.

Cafe Proprietors Insist That Servers Must Leave ON Lip Fringe.

Paris.—Waiters in seven or eight of the largest cafes on the Paris boulevards have been stirred to angry protest by orders to shave their mustaches or quit.

One of the bitterest grievances the waiters had when they went on strike last April was the edict of the proprietors to the effect that waiters must shave their mustaches. The waiters triumphed and the employers agreed they should be permitted to adorn their cheeks as they pleased.

Now an attempt to revive the ban on mustaches has roused their indignation.

"The waiters are sufficiently humiliated to have to earn their living by extending their hands to receive what often proves to be a ridiculous tip, without being forced to forego one of the privileges of manhood," said the secretary of the union. "Really the proprietors employers know little about psychology. Should they maintain this inhuman measure, destined solely to give their staff a servile appearance toward the customer, they are picking out a poor time for it."

"Whether through snobishness or in the hope of appearing original, customers choose to make their faces as grotesque and deplorable as that of the Americans, or aim to copy the two combs on the upper lip of a well-known moving picture actor; that is their business. We must insist that the conventions entered into at the time of the strike be respected; that the mustache has always been in vogue in France, and to suggest it is

an indignity and diminishes the morale, value and patriotism of the personnel of the cafes."

False Teeth for Dog.

Kansas City, Mo.—In answer to an advertisement requesting a loan of a "toothless" dog, inserted by Ralph Hardin, a veterinary surgeon, Jack Gallagher, a member of the Kansas City kennel club, delivered to Dr. Hardin a Scotch collie which possessed but two teeth, one on each side. Hardin, with the assistance of a dentist, made a set of teeth for the dog. According to observers the new teeth are a success.

Valued More Than Gold.

Findlay, O.—The pantry in the home of George Shontz on the Fosteria road offered more inducements to thieves who entered the home than any other part of the house. They took a fat containing home-made cookies, a pumpkin pie, a pan of baked beans and a gallon of milk, including the women. They also stole a pocket knife.

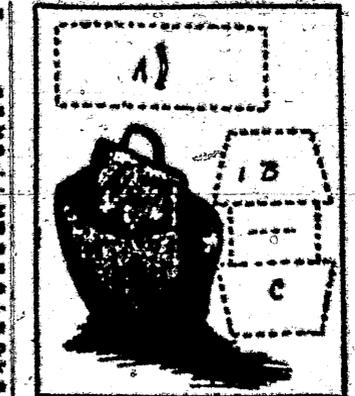

Handy Double Shopping Bag

Convenience for Carrying Groceries and Other Articles—Canvas is Material Suggested.

In these days, when one has as often as not to carry home one's groceries and such-like things, a roomy shopping bag is an absolute necessity. The one illustrated here has two large pockets.

Cut out two pieces shape of diagrams marked B and C, measuring about 14 inches at narrow part and 16 inches at widest end. Next cut a piece three-quarters yard long and 14 inches wide; this forms the foundation of the bag. Double this in halves to get exact center, to which a handle made from the canvas is attached—a strip about three inches wide, folded over into three and stitched firmly to the bag as shown in illustration.

Place the pieces B and C to either end of foundation, back sides of pockets and foundation together. When this is done, turn over narrow turnings all round on to wrong side and secure

With a narrow binding same shade as bag, and stitch by machine on either edge of binding, so that the bag will be quite secure.

Double in halves, with pockets falling on either side when in use.

Capitan Notes

Fred Pfingsten of the lower Bonita and manager of the E. P. & S. W. Railroad company farming lands, transacted business here last week.

Capitan had her share of the blizzard the past week, and now we are enjoying New Mexico's beautiful sunshine.

A new White truck fitted with a tank will soon take the place of the teams now used to convey the fuel and oil used by the oil drilling company at Picacho. R. C. Sowder has the contract for delivering the same.

Thanksgiving was observed by the pupils at the Lincoln County High School, all the grades participating in the programme consisting of selected readings, recitations and special music. The little folks' songs showed the painstaking effort of Miss Mitchell. The Domestic Science class served coffee and doughnuts such as "mother makes," at the close of the programme. The proceeds going to assist in paying for the new bell recently installed.

Miss Pinkie Howard, daughter of Mr. and Mrs. Monroe Howard, who is attending school in Roswell, spent Thanksgiving with the home folks.

Reuben Boone, son of Mrs. Lulu Boone, saleslady for the Titaworth company, returned from Kansas City the last of the week, where he has been receiving mechanical training.

Geo. W. Coe and wife of Threeo were in town the first three days of the week, combining business with pleasure.

Roderick and Herrick, sons of Rev. S. M. Johnson of the Upper Ruidoso, transacted business here the past week in the interest of the Johnson ranch.

Miss Mildred Peters spent the week-end in Carrizozo.

Miss Smith was called to Roswell last week on account of her mother's illness.

Our Capitan editor must have kept on celebrating Thanksgiving and forgot us—no paper yet! But here's hoping.

Oscura News Items

School was resumed on Monday after a two days' vacation during Thanksgiving.

The dinner given by the ladies of Oscura Thanksgiving evening was all that we prophesied it would be. The supply of chicken was bountiful and one was reminded of the halcyon days of the past when there was no H. C. L.

Mr. and Mrs. Gunyon and Mr. Tiller, of the Canadian American Oil Leasing association, left Sunday for Alamogordo, N. M.

Practically all of the machinery for the operation of the coal mine has arrived and is being installed rapidly. Under the present coal shortage this mine under operation will help out the local shortage considerably.

Mr. Rhodes, a former miner of Miami, Arizona, is now working with Mr. Ward, the present foreman of the mine, in the installation of the mining machinery.

Mr. Duncan, one of the mail clerks on this division of the Rock Island was a caller in town Tuesday. Mr. Duncan is a stockholder in the coal company operating the mine at this place and was here inspecting the mine for himself and other interested parties in El Paso.

Roy Sterling, who has been visiting his uncle, William Sterling of this place, returned to Texas Sunday.

H. S. Dillard, a rancher in the San Andres mountains, returned home Sunday. Mr. Dillard has been in Texas picking cotton for the last two months.

Nogal and Its Environs

(Contributed.)
It has of times been said: "If you want people to know all about your home town and surroundings, ask someone from a neighboring place and he will tell you." It also happens that an outsider is able to appreciate the beauties of a place or community, more than those who are accustomed to its surroundings. First of all attractions on entering this village is: The beautiful mountains surrounding it; on every mountain, Juniper, pinon, pine, spruce, and oak can be seen, while during the summer season forest flowers of richness and beauty adorn the hill sides. Throughout the canyons which are well watered by clear mountain streams, farms abound which yield the finest of vegetables and orchards the most delicious fruit.

The newcomer sees the Nogal Peak towering toward the sky and Church Mountain casting its shadows over the peaceful valley. He hears of the great possibilities of the gold and silver mines. The Helen Rae and the American mines which have made wonderful yields in past years, and whose owners are still spending vast sums of money in the purchase of machinery with which to work deeper into the earth to obtain more valuable riches than have yet been encountered. The Vera Cruz, which in the past has been so productive, is soon to be opened. He hears also of the "Bender Chain" of mines, also the Parsons mine. Mr. Bender, of the Bender Chain, who is now 84 years of age is a pioneer in the business and still contends that his mines will some day make him a millionaire. Prosperous ranchmen live in this locality; the hillsides are full of well-fed and healthy cattle. Schools and churches of kindred denominations are co located as to be of the desired service to all, where entertainments for young and old are frequently given. The climate is ideal; an occasional snow during the winter is soon driven away by the warm sun. When one hears of dissatisfaction on the part of those established here, we wish they were away from these lovely environments and others who could appreciate the surroundings were in their stead.
Signed, AN OUTSIDER.

Glencoe Items

Three inches of snow fell in our vicinity, recently.

The Water Users' association held its annual meeting here on Dec. 1st.

W. H. McNew, son and J. McDonald were here buying calves this week.

Mr. and Mrs. Will T. Coe entertained with an old fashioned Turkey dinner Thanksgiving Day.

Wilbur Coe is on the sick list this week.

Mr. and Mrs. A. E. Hunter spent Thanksgiving at Rincon, N. M.

Miss Susan Tully arrived home Sunday. She attended the Teachers' convention in Albuquerque.

Solomon Sanchez, Julian Silva and family have moved back to Glencoe. They have been in Dona Ana the past year.

Miss Nettie Johnson and Miss Betty Hickson spent the week-end with home folks in Tularosa. They were met by Curtis Johnson and Eric Hickson.

Bevo
THE BEVERAGE

The all-year-round soft drink

Rome was not built in a day but Bevo's popularity became countrywide in three months because of five years preparation in perfecting the beverage.

Notice to Property Owners

It is required by law that each owner of real estate must list his or her property not later than the last business day of February, and failure to do so requires this office to list same to an unknown owner. It is not the desire of this office to either list this property to an unknown owner or to have to add a 25% penalty, but failure to list all property after January 1, 1920 makes it compulsory for us to do both. Please make it convenient to list your property as early as possible after January 1 or have your authorized agent to do so for you.
Respectfully yours,
FRANK R. MILLER,
Assessor Lincoln County, N. M.

AVISO A LOS DUEÑOS DE TERRENOS

Se requiere que todo dueño de terreno envíe una lista de toda su propiedad a no tardar para el último día de negocio de Febrero, al no hacer esto, tendremos que alistar tal propiedad a un dueño no conocido.
No es el deseo de esta oficina alistar esta propiedad a un dueño no conocido o tener que imponerle una penalidad de 25%, pero si no envían una lista de toda su propiedad, después del 1ro de Enero de 1920 es compulsorio que agamos ambas cosas. Favor de hacernos convenientes de alistar su propiedad tan pronto como sea posible después del día 1ro de Enero, o que lo aga su agente autorizado por usted. FRANK R. MILLER, Asesor del Condado de Lincoln, New Mexico.

Attention!

All parties indebted to Dr. R. T. Lucas will please settle their accounts with Geo. Spence after Dec. 14, 1919. Prior to that date, with A. L. Burke, at the Outlook office.
DR. R. T. LUCAS.

Labor must continue to apply the cold compress of common sense to every swelling of unreason. It must sense the poison that radicalism is endeavoring to conceal from it in the syrup of its promises and phraseology.

Real Brokerage Firm For Carrizozo

F. W. Gurney and E. C. Monroe have taken the Carrizozo branch of the McClure-Randle Brokerage house of El Paso and will devote their time to making it one of the best institutions in this section.

Both men are well known locally and need no recommendation to the investors of the Carrizozo section. The firm of McClure-Randle have an exceptionally good record and have established branch houses all over the Tri-State district. They handle all kinds of stocks and other investments and are not of the so-called "Fly by Night" variety of brokers. At present they are handling but one oil stock: the "Service Oil Corp.," as they feel that it is the one best bet ever offered. They have this to say in regard to any oil stock: "Pay your grocery bills first; then if you can afford to play, buy "Service." "

MICKIE SAYS

SOLD BY ALL DRUGGISTS

The Chief of the United States Bureau of Chemistry has issued another warning to the public that saccharin, which many housewives have been told was harmless, and healthful substitute for sugar, is a decidedly unhealthy and harmful drug.

SCHOOL NOTES
By Supt. E. E. Cole

The Misses Lutton and Sullivant of the high school, Miss Seale of the sixth grade, and Superintendent Cole were the Carrizozo teachers who attended the New Mexico Teachers' association at Albuquerque last week. All report a very profitable and enjoyable session. Miss Lutton gives the report on the English section and Miss Sullivant reports the commercial section; both given below. The editor of this column saw enough and heard enough to fill one page of this paper. In the History section he saw parchment, real sheep-skin, deeds to various parts of North and South America, with the personal signatures of Charles IX, of France, the king who ordered the massacre of St. Bartholomero's Day; of Louis XIV and other kings of France; of various rulers down to Leopold of Belgium. One paper was signed by Queen Anne, of England, and was a description of how a man should be dressed when he became a Knight of the Garter. The suit was to be of violet velvet with additions galore. Ex-Governor Prince made a very interesting talk concerning these papers.

There are quite a number of things of historic interest around Albuquerque. We saw the church which was completed four years before the beginning of the Revolutionary War; also the house in which General Phil Sheridan was married. There were 2137 New Mexico teachers present, and all were well entertained and most courteously treated by the citizens of Albuquerque.

In the English department of the N. M. E. A., emphasis was laid on bringing to the pupil the classics of the day, or "the classics that may be," as well as the classics of the past. Why shouldn't the high school pupil become acquainted with the good writers of his own time? He should, of course, have some knowledge of our great classics, such as "Les Miserables," "Innocence Abroad" and our own Hawthorne's writing.

To become acquainted with the writers of the hour we have O'Brien's "Best Short Stories of the Year," our prize poems and anthologies of modern verse, not to mention the current magazines such as the Literary Digest.

Among the novelists we have Booth Tarkington's books of youth.

Then, too, we have the modern histories and biographies, especially, at this particular period, that of Col. Roosevelt.

The "Little Theater" movement was also brought to mind in a very interesting talk by Miss Ethel Hickey of the University of New Mexico. The "Little Theater" may be most effectively used in schools as its chief aim is to do away with elaborate stage settings. It aims to produce the short one-act plays.

(To be Continued.)

"The Greatest of These Is Charity"

The ladies of the postoffice are going to collect for the St. Anthony Orphanage of the Franciscan sisters in Albuquerque. There are some 740 homeless children in this institution and they depend on nothing but alms for their maintenance. This county has sent several of their orphaned little ones to its sheltering arms.

It makes no difference what church you belong to, "Charity covereth a multitude of sins." Are you going to make Christmas happy for some little one? I can heartily recommend this collection as a most commendable charity.

-a Liberal Education!

The chief of Hearst's is to entertain and enlighten. Through all its entertainment, however, runs a subtle serious purpose — a definite mission. And that mission is to educate, stimulate and inspire — for the good of the world — the vital mission of the world's greatest magazine. It's that people everywhere are becoming wiser.

ALREADY — at the very moment you read this — a thousand particularly intelligent men and women are making new discoveries for Hearst's for November. Or rather, they are making them by hour — all over the United States — this will continue next month. \$10 of the most progressive magazines readers have secured their copies.

The others, disappointed, will have to wait — or be satisfied with a lesser magazine.

YOU, perhaps, already have your November issue. You have looked at the Table of Contents — Hader, Masterson, Cramer, Dyer, E. K. Gibson, or rather, Homer, J. Edgar, E. H. Gery, head of U. S. Steel, on "Something More Than the Fay Revolver." Or B. C. Forbes, K. C. B., and Maxon Dr. Frank Crane. Or you have, perhaps, looked at the Art-Play — Spick — Selection of the Month. One thing is certain, you have noticed the real authority of Hearst's — its splendid serious side.

BUT — you say — you buy a magazine for the children? Good! Here in Hearst's for November are stories by Robert W. Chambers, Richard Washington Child, Arthur Gessner, Kipling and Bruce Lindsay, Arthur Strieder, Edwin Selous and Governor Morris. Besides these are three English writers, F. M. Bailey, Derek Vane, E. Phillips Oppenheim — as well as a special feature, the best of our student French writers. All these and several others in selected stories — stories that will make you think!

IF you don't particularly like for a magazine that will make you think — if you are not interested in a magazine a bit beyond the ordinary — you won't want Hearst's this month or any other. BUT, if you want the works of the world's great writers — if you want the works of the world's real leaders — if you want the thoughts of the world's great thinkers — don't fail to make sure each month, starting today with November, of getting your regular copy of Hearst's.

Hearst's!

ORIGIN OF WHEAT

Common Wheat Parents of All of Our Cereals; Pedigree of Wheat Is Somewhat Obscure.

The original parents of all our cereals were grasses of one kind or other, often belonging to remotely different groups, but almost all indigenous inhabitants of the central Asian and Mediterranean regions, says an exchange.

The pedigree of wheat, the most important of all our cereals, is somewhat obscure. It has varied to a greater degree from its humble origin than any other known artificial plant. Fortunately, we are still able to recover the steps by which it has been developed from what might at first sight appear to be a very unlikely and ill-endowed ancestor indeed.

The English couch grass which often proves such a troublesome weed in our own country, is represented around the Mediterranean shores by an allied genus of annual plants known as goat grass; and one of these weedy goat grasses has now been shown with great probability to be the wild form of our cultivated wheat. It is a small drawish grass, with very petty seeds, and not nearly so tall a spike as the cereals of agriculture.

When man first reappears in northern Europe, after the great ice sheets once more cleared away from the face of the land, we find him growing and using a rude form of wheat from the earliest moment of his re-establishment in the desolated plains. Among the pile villages of the Swiss lakes, which were inhabited by men of the newer stone age, we find side by side with the polished flint axes and the handmade pottery of the period several cereals raised by the lake dwellers on the neighboring mainland. The charred seeds and waterlogged shocks disinterred from the ruins of the villages include millet, barley and several other grains; but by far the commonest among them is a peculiar small form of wheat, which has been named scientifically after the ancient folk by whom it was used.

This lake wheat, however, though it dates back to the very beginning of the period in Europe, cannot be considered as the first variety developed from the primitive goat grass by the earliest cultivators; it is so superior in character to the wild stock that it must already have undergone a long course of tillage and selection in more genial climates, and must have been brought back to Europe in a comparatively perfect condition by the short dark people who settled our continent immediately after the termination of the glacial era.

From the neolithic time forward, the improved seed has continued to grow bigger and bigger both in the size of the shocks and in the girth of the individual grains, until the present day. The original small lake wheat, indeed, lingered on in use in Switzerland and the north down to the days of the Roman conquest; but, meanwhile, in Egypt and the south, still better varieties were being gradually developed by careful selection; and we find both kinds side by side in some few instances; thus showing that both were grown together at the same time by races in different stages of civilization.

With the introduction of these better kinds by the Greek and Roman colonists into Gaul and Britain, the old lake wheat became quite extinct. Indeed, in every case the cultivated seeds and fruits which grow in neolithic garden plots were much smaller than those of our own time, whereas the wild seeds and wild fruits found under the same circumstances are just as large as their counterparts of the present day. A lapse which makes relatively little difference to the stable wild weeds makes relatively great differences in the very plastic and carefully selected cultivated plants.

Genuine Ambition Is Key to the Treasure Box of Success in Our Life Work

"No chance" has ever been the excuse of weaklings, or those who fail. Interview the great army of failures, writes O. S. Marden in the New Success, and most of them will tell you that they never had an opportunity like others, that there was no one to help them, no one to give them a boost. They will tell you that the good places were all filled, that every occupation or profession was crowded, that there was no chance for them because all the good opportunities had gone by. Yet probably there is not one of them who did not have a better opportunity than did Abraham Lincoln, the backwoods boy, or Booker T. Washington, the slave boy.

I have never known a fellow who had winning material in him to complain that he never had a chance. It is difficult to conceive an environment so forbidding that it would have kept certain men from becoming successful. There was too much yeast in them. They had too vigorous an ambition to let obstacles stand in the way of their success. Circumstances have no power to keep down a youth who is made of the right stuff.

Energy is always at a premium. Determination never goes begging for a chance. There is nothing which commands such a price in the market as genuine ambition, an unwavering resolution, a tenacious purpose to achieve something worth while in life. There is no success lever equal to the unflinching resolve to succeed in spite of any and all obstacles or personal handicaps.

Numerous Articles That Are in Common Use Are Given Misleading Names

Articles in common use that have misleading names are responsible for many mistaken notions, says Pacific Travel. Nothing is more natural than to assume that India ink comes from India, but it does not, any more than does India rubber. The former comes from China and should be called Chinese ink, as it is in France, while India rubber comes from Central and South America. Camel hair brushes are not made from the hair of camels, but from the tails of Russian and Siberian squirrels. Genuine French briar root pipes are not made from the roots of briar, but from the root of a white heath, which reaches a considerable size, and is cultivated in the south of France. Silkworms are not worms, but caterpillars; sealing wax contains no wax; heartburn has nothing to do with the heart and sweet spirits of niter contain no niter. Finally, a centipede hasn't 100 feet. The largest of them has only 30 feet.

Baby Finger Prints on Wall Paper Reaches Court's Heart

Baby finger prints on the wall paper are the finest example of mural art. This was the decision handed down in the Bronx municipal court by Justice Holtzrek in dismissing a suit to recover alleged damages because a baby had embellished the interior decorations of an apartment by a frizzo all its own. "This would be a happier world to live in," the justice said, "if baby fingers could only make their imprint on the hearts of men and women. I would rather see the print of baby fingers on the walls of my house than have them adorned with the world's masterpieces."

MAKE FAST FRIEND

How Dr. Lyman Beecher Won Over Bitter Enemy.

Personal Contact Converted Old Neighbor, Who Had Been Violently Opposed to Him, Into One of His Enthusiastic Admirers.

The surprising effect personal contact sometimes has in our estimation of persons against whom we had previously maintained a prejudice is well illustrated in the following humorous story of Lyman Beecher, the preacher.

"While Mr. Beecher was settled in Boston he had as a neighbor an old wood sawyer, a rough, shrewd man, the member of a rival sect, who, although he had never seen the doctor, was violently bitter against him. Mr. Beecher himself had formed a habit of sawing a great deal of wood as an exercise for maintaining his health. He was as fastidious in the care of his saw as a musician in the care of his Cremona. No moments were happier with the famous clergyman than those spent in the careful filing of its teeth.

"Looking out of his study window one day, when his own woodpile was reduced to a discouraging state of order, Mr. Beecher saw with envy, the pile of the before-mentioned neighbor. Forthwith he seized his saw and soon beheld a man without cravat and in his shirt sleeves issuing from Brother Beecher's house, who came briskly up and asked if he wanted a hand at the pile. The doctor fell to work and soon proved to his brother sawyer that he was no mean hand at the craft.

"Nodding his head significantly at the opposite house, the old sawyer said: 'You live there?'

"B—Yes.

"S—Work for the old man?

"B—Yes.

"S—What sort of an old fellow is he?

"B—Oh, pretty much like the rest of us. Good man enough to work for.

"S—Tough old chap, ain't he?

"B—Guess so, to them that try to chaw him up.

"S—First rate saw, that of your'n.

"This touched the doctor in a tender point. He had set that saw as carefully as the articles of his creed; every tooth was critically adjusted, and so he gave a smile of triumph.

"I say," said the old sawyer, "where can I get a saw like that?"

"B—I don't know unless you buy mine.

"S—Will you trade? What do you ask?"

"B—I don't know; I'll think about it. Call at the house tomorrow and I'll tell you.

"The next day the old man knocked and met the doctor at the door, fresh from the hands of his wife, with his coat brushed and cravat tied, going out to pastoral duty. The sawyer gave a start of surprise.

"Oh," said the doctor, "you're the man that wanted to buy my saw. Well, you shall have it for nothing; only let me have some of your wood to saw when you work on my street."

"Be hanged," said the old sawyer, when he afterward told the story, "if I didn't want to crawl into an umber hole when I found it was old Beecher himself I had been talking with so frank the day before."

"It need scarcely be said that from that time the sawyer was one of the doctor's stoutest and most enthusiastic advocates; but a word would be heard against him. He affirmed that 'Old Beecher is a right glorious old fellow, and the only man in these parts that can saw wood faster than I can.'"

DADDY'S EVENING FAIRY TALE

By Mary Graham, Donor.

THE SEAGULLS.

"I am going to tell you a story," said Mrs. Seagull to the young Seagulls.

"What is it to be about?" asked the young Seagulls; for every little while Mrs. Seagull would tell them a story, but always they would ask beforehand what it was going to be about.

"They didn't care much what she told them about, but they had grown into the way of asking her what she was going to tell them.

"It's an old, old story," she said, "and my dear, dear great, great grandmother told it to me. It's an old story which has come from Scotland, a land across the sea, and my dear great, great, great grandmother?"

"Did the story come from Scotland or did your dear great, great grandmother and our dear great, great, great grandmother and your dear great, great grandmother?"

"Both came from Scotland," she said. "The story came from there, and so did my dear great, great grandmother and your dear great, great, great grandmother."

"Are all stories and all Seagulls Scotch?" asked the little Seagulls. "That is—are they all Scotch first?"

"Oh, no," said Mrs. Seagull, "that is very ignorant of you to think such a thing. But I am glad you asked me about it for you will never know anything unless you find out about it."

"Stories come from all lands, and people come from all lands, and so do animals and birds and crawling creatures. Some certain kinds of people come from certain countries and some certain kinds of animals come from certain countries."

"The Seagulls love the coast. We're water birds. We love the roaring ocean and the rivers which empty into the oceans—we like them at their very end you see, when they become friendly with dear old Mother Ocean.

"The Seagulls love the coasts. Ah, how we do love the coasts."

"We know that," said the little Seagulls. "We know about the things we

"Liked to See the Seagulls."

care for, but we wondered if once upon a time every Seagull had lived in Scotland and if every story had been first told there?"

"No," said Mrs. Seagull, "only this particular story I am going to tell you was told down through the Seagull family, and through a branch of the Seagull family which came from Scotland.

"They heard the story there—there where the coasts are wild and rugged and where the Seagulls soar. But Seagulls and stories are not only Scotch, gracious, gracious no. Seagulls are Irish, Seagulls are of different countries but mostly we'd say Seagulls were of the coasts and of the water and the air and the waves and the foam.

"But this story goes that the people where my dear great, great grandmother lived used to believe if they saw any of the Seagull family flying over the land, or alighting on the land they would beg them to go away, for they believed that when the Seagulls were on the land the weather would be bad.

"They said that when the Seagulls were on the coast, flying or resting over or on the beach then the weather would be good, and as they liked the weather they liked to see the Seagulls by the water.

"This was the story which came over, and which I am telling you long years after it was first told.

"There is a good deal of truth in it, too, but not so much, for some of my family moved to a coast where there were storms, all, all the time, and they all loved it and wouldn't move away for anything. Still it's a nice old story with a scrap of truth attached, a scrap," ended Mrs. Seagull, as they all flew up in the air and then coasted happily along.

True Friend of Country Loves Her Friends—the Definition by Webster

A true lover of virtuous patriotism delights to contemplate its purest models; and that love of country may well be suspected which affects to soar so high into the regions of sentiment as to be lost and absorbed in the abstract feeling, and becomes too elevated or too refined to glow with fervor in the commendation or the love of individual benefactors. All this is unnatural. It is as if one should be so enthusiastic a lover of poetry as to care nothing for Homer or Milton; so passionately attached to eloquence as to be indifferent to Tully and Chatham; or such a devotee to the arts, in such an ecstasy with the elements of beauty, proportion, and expression, as to forget the masterpieces of Raphael and Michael Angelo with coldness or contempt. We may be assured that he who really loves the thing itself loves its finest exhibitions. A true friend of his country loves her friends and benefactors, and thinks it no degradation to commend and commemorate them.—Daniel Webster.

Find Insects Which Are Reputed Gold-Producers

In these days of gold shortage it is interesting to know that there are insects in this world which are said to be gold-producing! The most popular of the species of beetles which contain gold and silver is the golden rosebeater. It is a very handsome, yellow beetle, with a metallic luster, and its size is about as big as the end of a man's thumb. The most remarkable gold beetles, however, are to be found in Central America. At first sight one would think the beetle an actual piece of gold, until it moves. The head and wing-cases are brilliantly polished with a luster like pure gold. It is very strange, too, that silver beetles exist in the same country. Unfortunately there is no fact at the bottom of the fancy.

Cardinal Newman Makes Clear What Gentleman Is

A gentleman is full of consideration for others, a foe to violence of opinion or expression; an enemy at the same time of restraint, suspicion, gloom or resentment. He is merciful, gentle and tender; avoids unseasonable allusions or topics; never makes himself prominent in conversation and suppresses his own egotism. He makes light of the favors which he does and seems to receive while he confers. He is scrupulous in his motives, is never seen as being taken unawares, and never mistakes persuasion for argument.

LEGHORNS PRODUCE CHEAPEST EGGS

Leghorns produce eggs cheaper than hens of the general purpose breeds—Plymouth Rocks, Wyandottes, Rhode Island Reds, and Orpingtons. This fact, which confirms the belief and experience of commercial poultry farmers, was one of the results obtained in a rather extensive feeding test recently reported by poultrymen of the department of agriculture. Because they lay as many or more eggs, eat only about 65 pounds of feed per head as compared with 70 to 85 pounds eaten by the general-purpose breeds, and because their egg yield very materially exceeds that of general-purpose breeds during their second and third laying years, Leghorns undoubtedly are more profitable to keep for the production of eggs only.

The Leghorns produce slightly smaller eggs than the general-purpose breeds and the value per dozen of their eggs was from 1 to 3 cents less each year than the eggs of general-purpose hens. This difference is due to the fact that the general-purpose breeds are better winter layers than the Leghorns, while the latter give a higher production in the spring and summer.

MOTHER'S COOK BOOK

by Nellie Maxwell

We cannot fall if we live always in the brave and cheerful attitude of mind. He alone falls who gives up and lies down.

Food for the Family Meal.
A good nourishing drink which you need not fear to give to the little people is barley coffee. Prepare it by roasting until a deep nut brown, then grind it and boil one tablespoonful in a cupful or more of water for five minutes, strain and add sugar and cream. This is a nourishing drink to give invalids recovering from a fever.

Sauce For Chocolate Pudding.
Separate the yolks and whites of two eggs, and beat well, add one-fourth of a cupful of sugar, a teaspoonful of vanilla and a pinch of salt to the beaten yolks; then fold in the beaten whites, cook over water until steaming hot. The vanilla should be added when pudding is taken from the heat.

A simple dessert especially good for children is this: Steam as many slices

of stale bread as needed, butter and pour over them a hot sauce of canned fruit, such as raspberries, blueberries or any kind well liked. Serve hot, with or without cream.

French Fruit Salad.
Remove the skin and seeds from a cupful of white grapes. Cut three bananas into small cubes and cover with lemon juice. Cut six oranges into bits and mix the salad with mayonnaise dressing. Arrange in nests of lettuce and garnish with mayonnaise dressing. The salad may be served in orange cups if preferred.

Steamed Chocolate Pudding.
Mix the following ingredients: one beaten egg, half a cupful of sugar, one half cupful of milk, two tablespoonfuls of melted butter, one cupful of flour, two teaspoonfuls of baking powder and one square of chocolate melted in one tablespoonful of water. Steam 20 minutes. This makes eight small puddings.

Red Cross Christmas Seals

Mr. M. B. Paden has accepted the chairmanship of Lincoln County for the Red Cross Seal Drive which will be held throughout the nation during the first ten days of December. He has his working forces well arranged; a well known worker has been appointed in each community, who will select others to aid him while the drive is on and the schools will also enlist in the fight against tuberculosis. The quota of the state is \$60,000 with Lincoln County's portion placed at \$1350. This, in the belief of those who are aware of the importance of the movement, will be easily raised.

According to George Clements, director of publicity, 91 cents of each dollar subscribed in the state will be used for New Mexicans. This money will be used not only to fight the disease, but to also teach the different communities how to guard against the spread of the same. The budget also provides for the employment of men and women to instruct the people in every community how to live in order that the germs of the disease may not find lodgment in their homes. The World War may be over, but the war on disease will never end until people finance the project of fighting the same by means of educating others to prevent the spread of this plague by the simple expedient of right living.

The money raised from the sale of Christmas seals and health bonds will be handled by the New Mexico Public Health Association which is made up of two representatives from every county in the state; with such a board all of whom are selected for their zeal and public spirit, the funds will not be wasted. No fat jobs will be created; every dollar will go directly where it is so badly needed. In spite of the pure air and sunshine, tuberculosis is spreading in New Mexico; this is proven by the records of the recent war, there being 468 soldiers and sailors discharged after they had been accepted, on account of development of the disease, over 61 per cent of those mentioned being of Spanish blood. "It is to reduce this spread of the dreaded disease, that we are asking the men and women of the state to contribute to the Christmas seal and Health bonds and I believe they will subscribe liberally, when they know the purpose of the drive," said Mr. Clements. The list of community chairmen appointed by county chairman Paden are as follows: Encinosa, Sam Farmer; Rabenton, Mr. Johnson; Picacho, B. D. Garner; San Patricio, John A. West; Hondo, Clement Hightower; Tinnie, Doyle H. Murray; Richardson, James Woodland; Spindle, Will Blanchard; Cayitan, L. W. White; Mesa, Wm. Ferguson; Mesa, Con Skinner; Ancho, Postmaster Straley; Fort Stanton, Mr. Babb; Lincoln, Fred Pfingsten; Parsons, Miss Helen Rice; Corona, Mrs. W. R. Lovelace; Glencoe, B. J. Bonnell; Arabela, Nicholas Brill; Oscura, R. W. Burns; Alto, Jesse Dawson; Dunes, Abe Foster; White Oaks, Charles Mayer.

An automobile will never wholly replace the buggy in the country districts until it can be driven successfully without the use of hands.

SLAVS PREPARE TO FIGHT ITALY

EUROPE AROUSED AS WAR IN
BALKAN STATES
LOOMS.

TERROR GRIPS ZARA

ALLIES ARE BROUGHT TO END
OF PATIENCE OVER FIUME
SITUATION.

Western Newspaper Union News Service.

Geneva, Nov. 28.—Telegrams received by the Serbian bureau at Berne from Belgrade, Zara and Spalato convey the impression that only prompt interference by the allies can prevent war over the Adriatic situation, as the Jugo-Slavs are said to have lost patience and to be ready to fight the Italians.

"We are astonished that the peace conference permits our people to endure constant Italian persecutions," says one Belgrade paper received here. "Our peaceful attitude is praiseworthy when we might throw d'Annunzio and his filibusters into the sea."

Another newspaper accuses Italy of despoiling to blockade Jugo-Slavia's exports and imports and thus "strangle her." A third repeats recent reports that a reign of terror prevails in Zara, that everybody must wear a brassard inscribed "Italy or death," or be badly treated, and that Slavs are afraid to leave their homes.

Washington.—War, which might involve all Europe and threaten the peace of the world, will result if Gabriele d'Annunzio attempts to carry out his reported intention of seizing the whole of Dalmatia, Dr. S. X. Grotitch, minister representing the Serbs, Croats and Slovenes, predicted in an interview.

Paris.—Dispatches confirming reports from Geneva that the situation along the eastern shore of the Adriatic is critical are issued by the Jugo-Slav bureau here. The bureau says the Jugo-Slav government has asked its ministers at Paris, London and Washington to draw the attention of those governments to the dangerous situation arising from d'Annunzio's raids and those he is reported about to make.

Keels on Hunger Strikers.

New York.—More than three score radicals awaiting deportation hearings at Ellis Island, now being investigated by the House immigration committee, instituted two strikes within two hours. After having issued an ultimatum to the effect that they would not attend their hearings unless the wire screen which separated them from visitors was removed, they declined an invitation to march into the dining hall for breakfast. The menu which the hunger strikers turned down consisted of prunes, oatmeal, bread with a substitute for butter and coffee.

On Trial for Sedition.

Winnipeg, Man.—Trial of eight leaders of the general strike in Winnipeg last spring, who are charged with conspiracy to commit sedition, has started here. It is expected that the case will be one of the longest and most bitterly contested ever tried in Manitoba. The crown has called 167 witnesses. It is alleged by the prosecution that the defendants conspired to launch the general strike to paralyze industry and to overthrow the government.

Hold Up Gamblers.

Denver.—Three men, one masked, took \$5,000 from thirty gamblers who are alleged to have been gambling in a room on the second floor on Lawrence street. The masked man entered the room and ordered "Hands up!" He then lined his victims up facing the wall and the two accomplices entered and took the stakes and all the money in the men's pockets. One of the players, who was wearing diamond rings, estimated at \$1,000, dropped them in a coal scuttle and the bandit did not find them.

German Opera Falls.

New York.—An involuntary petition in bankruptcy against the Star Opera Company, which attempted to present German opera in this city, has been filed. Liabilities were estimated at \$25,000 and assets at about \$3,500. Persecuted by the company were prevented by an injunction after they had been stopped by rioting for nearly a week. The bankruptcy petition was made necessary, because three of the managers had brought suits for their salaries.

OH! MY NICE HAIR IS ALL FALLING OUT

Hurry! Let "Danderine" save your hair and restore its beauty.

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Help your hair grow long, thick and strong and become soft, glossy and abundant.—Adv.

Prepare the ground this fall for shrubs and perennials to be set out next spring.

GREEN'S AUGUST FLOWER.

Stop a minute and think what it means to say that "Green's August Flower" has been a household remedy all over the civilized world for more than half a century. No higher praise is possible and no better remedy can be found for constipation, intestinal troubles, torpid liver and the depressed feeling that accompanies such disorders. It is most valuable for indigestion or nervous dyspepsia and liver trouble, coming up of food, palpitation of heart, and many other symptoms. A few doses of August Flower will relieve you. It is a gentle laxative. Ask your druggist. Sold in all civilized countries.—Adv.

"What fools these mortals be" if "A fool and his money are soon parted."

Catarhal Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, and that is by a constitutional remedy. HALI'S CATARRH MEDICINE acts through the blood on the Mucous Membrane of the Eustachian Tube. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be removed and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Eustachian Tube. ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALI'S CATARRH MEDICINE. All Druggists & Circulars free. W. J. Cheney & Co., Toledo, Ohio.

Spliffs of camphor make a good barometer, as it is cloudy before a storm and clear in fair weather.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleaned and in proper working order old age can be deferred and its prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haaslem Oil has been relieving the weakness and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haaslem Oil is included in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a swallow of water. The oil stimulates the kidney

BAD BREATH

Often Caused by Acid-Stomach

New can't open with a sour, stinky stomach, who is constantly belching, has heartburn and suffers from indigestion. Nothing but a bad breath! All of these stomach disorders mean just one thing—Acid-Stomach.

MAYONIC, the wonderful new stomach remedy in pleasant tasting form that you eat like a bit of candy, brings quick relief from these stomach troubles. MAYONIC sweetens the breath because it cures the stomach, cool and comfortable. Try it for that nasty, flat, bloated, burped, and "heavy feeling" after too much eating.

If neglected, Acid-Stomach may cause you a lot of serious trouble. It leads to nervousness, headache, insomnia, indigestion, rheumatism, colic, heart trouble, ulcer and cancer of the stomach. It makes its millions of victims weak and miserable, listless, lacking in energy, all tired out. It often brings about chronic indigestion, premature old age, a shortening of one's days.

You need the help that MAYONIC can give you if you are not feeling as strong and well as you should. You will be surprised to see how much better you will feel just as soon as you begin taking this wonderful stomach remedy. Get a big 50 cent box from your druggist today. He will return your money if you are not satisfied.

GREAT SECRET OUT AT LAST

Observing Intellect Has Discovered How the Brain That Names Sleeping Cars Works.

I used to be awed, writes Inobetta, at the thought of the intellectuality of the man who names the Pullman cars. To what storehouse of classical or historical lore did this mentally have access, that he could exhume therefrom such names—names that seemed to mean something, but yet just eluded analysis? I used to think I'd like to meet that bird.

But I've pegged him at last! He's no giant intellect at all. He's just a pathological specimen—one of those wrong-foot cases the medical journals have been discussing lately, whose cerebral or spinal connections seem to be crossed. Their hands "iting goes from right to left—it's called "ulterior writing." Their co-ordinating mechanism is constantly in reverse gear. And how do I know that the nomenclator of Pullman cars is one of these? Simply thus:

The sleeper-in-which-I rode from Cincinnati to Atlanta the other day was named "Kilmwool"—Cleveland Plain Dealer.

Fettered.
Mrs. Nextdoor—How do you manage to keep your cook so long? You've had her two weeks.

Mrs. Skeemer—I gave her some of those stylish narrow skirts to wear in the kitchen and she won't be able to walk a block from the house till they're worn out.

Just Rats.

For want of a pied piper of Hamelin, the British board of agriculture is using the next best thing to get rid of rats and mice—a bill.

The house of parliament tittered when the bill was introduced, says "A Loudspeaker." The titterers did not know that the rat has been described as the most expensive animal maintained by man. He costs in damages anything up to \$200,000,000 a year—as much as the whole government subsidy to the farming industry. He spreads bubonic plague and other diseases among men and animals alike. He is of no earthly use except as a scavenger, and there the remedy is worse than the disease. The rat has gone forth; he must be exterminated wherever he shows his head—in stacks, in granaries, in warehouses, in the holds of vessels. The mouse, too, if less harmful, is just as useless as his big relative—and the only living creature which will regret his disappearance is the cat.

Japanese Have New Religion.

Japan has devised a new doctrine of life, says the secretary of the British Foreign Eable society. It is philosophical and mystical, and claims unlimited beneficence over mind and body. It professes to embrace and be superior to all religions of philosophy. Eighteen volumes are taken to explain its principles. Tokyo is the headquarters, where daily lectures are given and spiritual-healings demonstrated.

Faith and ingenuity often take the place of the hired man.

If you want to make good health a habit—and coffee interferes, try a change to

Figure Out Mine Taxes

Fred W. Bradley, president of the Barker Hill & Sullivan company, has been appointed one of the three mining engineers in the United States representing the silver and gold industry, to help the government unravel the apparently perplexing tangle in which the mining industry is involved over the war tax and excess profits tax on mining properties. Few if any, of the producing companies have paid taxes since 1917 but are holding vast sums in reserve pending the government's conclusions as to what amounts are due. The uncertainty of the amount to be paid, resulting from no clear interpretation of the law to guide the taxpayers, has caused millions of dollars to be held in reserve, much of which will go to the stockholders after the law is adjusted and the tax basis established. Throughout the nation from this source, the government will probably receive between \$100,000,000 and \$200,000,000. During 1917 the combined taxes of mining, mineral and metal industries paid over \$760,000,000, or 35.1 per cent of the total corporation taxes of the nation. The committee of 21 leading mining engineers and mining lawyers, which was named to straighten out the tangle and work out an equitable basis of federal taxation of mines, has representatives from each of the leading metal industries.

Some idea of the magnitude of mining industry can be gained from the amount of taxes it pays. From the standpoint of general prosperity in the west, the importance of establishing equitable taxation rulings for this industry cannot be overestimated.

State Land Office

Special Report

The state land office has just completed a special report, regarding the lands owned by the state. The total number of acres of land granted the state by the Federal government for the benefit of the common schools, state educational and charitable institutions, and for other purposes are 12,159,498.09 acres. 8,444,000 acres were granted for the common schools. Out of the land granted, 7,102,168.41 acres have been selected and 5,850,700.98 clear listed. The state has sold and issued deeds for 108,247.98 acres. Contracts of

sale has been made for 2,517,391.70. The number of acres leased for grazing 7,380,898.57 acres. The number of grazing leases is 4,863. The oil and gas leases number 432 and cover 7,345,661.23 acres. The total receipts for oil leases and transfers are \$126,450.76. The largest acreage under one oil and gas lease is 82,093.47 acres. The new regulations recently issued provide that no oil and gas lease will be issued for more than 25,000 acres to one person or corporation.

The state highway department will be ready to advertise several Federal aid road projects for construction within the next two or three weeks. The final details of the plans are being gone over. All work done in co-operation with the Federal government must be carefully prepared down to the smallest details in plans, specifications, and estimates before construction can begin. The following projects are about ready to be advertised for construction:

- Project 1 B from Raton south, involving fifteen miles.
- Project No. 20 the Border Hill Picacho road in Lincoln County, involving seven miles.
- Project No. 26 concrete road from Albuquerque north, involving 9.62 miles.
- Project No. 19 the Myndus-Florida mountains road in Luna County, involving 10.25 miles.

Bean Stealing is Bad; Stealing Bean Article Worse

The Albuquerque Ruralist has run itself into trouble with the Mountainair Independent by publishing an article on the Bean Crop and neglecting to extend the usual amount of newspaper courtesy to give the Independent credit; more than that the Ruralist, instead of giving credit, published the same under a date line of three days before the article was written. The Independent has a just complaint. It is about time for newspapers in general to observe the neighborly custom of giving credit where it belongs. However, Mr. Speckman may content himself with the fact that to elip without giving credit is more of boast than one would think, for stolen efforts are oftentimes of great value when paraded as being from your own pen. This practice, Bro. Speckman, is not uncommon, for after meditating on this lack of courtesy, the writer picked up an exchange coming from an easternly direction and noticed an article which appeared in this paper Nov. 21, headed "Oil Development Talk", without credit to this paper. The country press wishes to be charitable, but if some of our larger exchanges would only remember that they should not "ride a free horse to death," a more friendly and neighborly feeling would exist. The gamey editor of the Independent has a "kick" coming.

New Studio Opened

The El Paso Photo Co. have opened here temporarily to supply you with Christmas pictures. Have that long delayed photo taken now, up at the Lutz building. We make portraits that portray character, expression and individuality, that will grow on your thought the more you look at them—not those stark, starchy things.

THE EL PASO PHOTO CO.

TUBERCULOUS SOLDIERS NEED SPECIAL NURSING

Seal Sale of December 1st to 10th Will Furnish Special Nurses for Work Among Discharged Soldiers.

Figures compiled by the American Red Cross show that 1,417 New Mexico boys were discharged from the army and navy because of physical defects, and that of this number 406 were tuberculous. This is in addition to the men who were rejected by the draft boards. The figures given only include men discharged after they entered the service.

That 406 New Mexicans should have been discharged because of tuberculosis is astonishing. This is nearly twice the proportion for Indiana, Illinois and similar states. It shows clearly that tuberculosis is on the increase among the native people of this state. Those afflicted were not asterners nor the children of people who came here for lung trouble. Over 50 per cent are Spanish-American names. Not a single county escaped. The percentage was especially large in Tron and Rio Arriba counties, which have been shielded from healthseekers coming into New Mexico from other states.

To stop this spread of the white plague, the New Mexico Public Health Association hopes to receive through the sale of Red Cross seals enough money to hire a specially trained tuberculosis nurse who will take up each one of the 406 cases among the soldiers and see that these boys are not becoming a menace to their community and that they are receiving the care which will enable them to regain the health they sacrificed in the defense of their country.

SEALS ARE ALWAYS SIGNS OF HAPPINESS!

Other Emblems Bring Thoughts of Battles, Carnage and Suffering.

Red Cross Christmas seals have one characteristic which no other emblem can claim. They have always been associated with happiness and victory. The flags of many nations have been lowered in defeat. They bring memories of battle and carnage. Even the flaming symbol of the American Red Cross is associated with suffering and privation. But the Christmas seal, which bears both the American Red Cross emblem and the double-barred Red Cross of the National Tuberculosis Association, has always been the sign of cheer, of Christmas joy, of success in the fight against tuberculosis and other preventable disease.

The Christmas seal is a peculiarly appropriate holiday greeting. It bears a message of "Peace on Earth, Good Will Toward Men," but also carries the emblems which mean an end to disease. The two crosses it bears remind those who see it that in the midst of holiday cheer it is well to remember those unfortunate who are suffering from tuberculosis and those whose ignorance of health matters may make them early victims of the disease.

The seals will make possible a strong campaign against tuberculosis in New Mexico since 91 per cent of the money received from their sale will remain in the state for health work.

HEALTH BONDS ARE STRONGLY ENDORSED

Larrazole, Pankey, Bursum and Jaffe Are Signers of Bond Payable Only in Public Health Effort.

Health Bonds issued in the coming Red Cross Christmas seal campaign to large contributors to the fund will bear the endorsement of Governor O. A. Larrazole, Lieutenant Governor B. F. Pankey, Holm O. Bursum of Socorro and Nathan Jaffe of Roswell. Governor Pankey is state chairman of the seal sale, while the other three men are officers of the New Mexico Public Health Association, which will supervise the expenditure of the money raised by the campaign of December 1st to 10th.

Governor Larrazole strongly supported the campaign for the creation of a state department of health and is deeply interested in health matters. He has voiced his approval of the seal sale since the money raised will be expended within the state and will furnish help to the state department of health in the work it has outlined. Mr. Bursum is now president of the New Mexico Public Health Association, while Mr. Jaffe is treasurer and was the first president.

Waiting until it thunders before starting to save for a rainy day, gets many good people into deep water.

CERTAINLY we pay 4 per cent interest. Our Time Account plan for accumulation of your surplus funds is a very handy method of keeping part of what you earn busy earning for you.

KEATING THE TAILOR

HALF A LOAF

may be "better than no bread" as the proverb goes, but half a loaf of our bread is only an aggravation. For it is so light and toothsome, so "moreish" in flavor, that even a whole loaf goes a very short way in satisfying the wants of those who try it. If you would know what perfect bread is try some of ours.

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty."

"I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."

"Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal."

"If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service."

Rather Hard on Him. Hubby—It's a wonder to me you didn't marry the first bonehead that proposed to you. Willy—Well, I did.—Boston Post.

TORPEDOED!

Don't blast your Liver and Bowels, but take "Cascarets."

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach and colds.

Are you keeping your liver and bowels clean with Cascarets, or shocking your insides every few days with Calomel, Salts, Oil and violent pills?

Cascarets work while you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels. Cascarets never gripe, sicken or cause inconvenience and Cascarets cost so little too.—Adv.

Reds and Reds. "Who are these fellows prating the reds?" "Bolshewiki, I guess."

Cuticura Soothes Baby Rash. That itch and burn with hot baths of Cuticura Soap followed by gentle anointings of Cuticura Ointment. Nothing better, purer, sweeter, especially if a little of the fragrant Cuticura Talcum is dusted on at the finish. 25c each everywhere.—Adv.

A Sure Bet. "How did you make out at the race track yesterday?" "Fine, I didn't go."

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. Pain in the back, headache, loss of appetite, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kline's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kline & Co., Philadelphia, Pa., for a sample bottle. When writing be sure to mention this paper.—Adv.

No one who does not enjoy work can truly enjoy anything else. Some pains are almost as pointless as women's peccils.

MURINE Night Morning Keep Your Eyes Clean, Clear and Healthy

PROPER STORAGE FOR VEGETABLES

Source of Good Income to Farmer Living Near Good Sized Towns or Cities.

BEST PLACE FOR PRODUCTS

Motor Truck Makes It Possible for Farmer to Get Vegetables to Consumer in Cold Weather—Outdoor Cellars Best.

(Prepared by the United States Department of Agriculture.)

If properly stored after harvest, vegetables can be made a source of considerable income to the farmer who is located near good sized towns or cities. In such places a constantly increasing number of people are living in apartments and flats, where they have storage facilities for only small quantities of vegetables, or in houses heated by furnaces in the basement, making that part of the house too warm for the storage of vegetables.

Proper storage of the vegetables from harvest time until they are brought out for sale is a subject to which the grower must give particular

An Outdoor Storage Cellar, Built Partly Underground, for Storing Garden Vegetables. It is Built of Concrete Except the Entrance, Which is of Frame, and is Frost Proof. Where the Cold is Not Severe Less Protection Than is Shown Here is Needed.

attention, for on it the entire success of a winter-marketing program depends.

Where the grower plans to draw on his stock from time to time during the cold weather he must so store his produce that portions of it can be removed without disturbing the remainder. Instead of putting all of one kind of vegetables in one pile it is advisable to make several smaller piles or to use various containers, such as boxes, barrels or baskets, each of which is adequately protected and can be removed with its contents without disturbing other stores.

Essentials for Chickens. Chickens should always be provided with fresh, clean drinking water. Charcoal, grit, and oyster shell should be placed before the fowls so that they can have access to them at all times.

Corn Not Good Egg Feed. The laying hen is not apt to become over fat. Nevertheless, it is a mistake to keep her on a diet of corn expecting her to manufacture eggs from that article. Corn is not egg food.

Unprofitable Boarders. Boarders in the shape of lice and mites on fowls are unnecessary. The energy absorbed by these parasites will never go into eggs and meat.

Wrap Cabbage in Paper. Cabbage keep well covered in newspaper and turned bottom side up on shelves in a cool cellar.

Makes Sperm Bank Account. Sperm banks on the farm are apt to keep you down to a sperm bank account.

limas, may be stored dry. Good storage facilities exist in most farm houses. It being only necessary to make use of the cellar, the attic, or other parts of the dwelling, depending upon the character and amount of produce to be stored. Barrels, crates, boxes or bins may be used as containers for various vegetables, but movable containers are preferable to built-in bins because they are more easily cleaned. Outdoor storage cellars or caves are particularly desirable, for larger quantities can be taken care of in convenient and inexpensive fashion.

Protecting by Insulation. In sections where low temperatures prevail it is necessary to insulate the storage cellar or house so that the vegetables will not freeze. The above-ground type of house much used in many sections of the North, has thick walls filled with sawdust or shavings. It is necessary that pains be taken to provide for proper ventilation. In many northern sections large storage cellars are built partly underground. Concrete storage cellars are coming into quite general use. Outdoor banks and pits are also familiar means employed to protect vegetables in cold weather. The conical pit is used commonly for such vegetables as potatoes, carrots, beets, turnips, salsify, parsnips, and heads of cabbage. The bureau of plant industry has issued a Farmers' Bulletin, No. 879, which gives detailed instructions regarding the construction of these storage places.

All vegetables which the farmer or truck raiser may desire to keep in stock for selling through the winter months do not require the same type of storage.

NITROGENOUS FEEDS NEEDED

To Make Hogs Gain Rapidly and Economically They Must Have Other Feed Than Corn.

Some nitrogenous supplement must be supplied to make hogs gain rapidly and economically when they are given the run of the cornfield to do their own harvesting. At least part of this supplement may be in the form of a roughage such as alfalfa, clover or soy-bean pasture. If provision has not been made to have clover, alfalfa or rape pasture in the field adjoining the corn or if soy beans have not been planted in the corn or in an adjacent field, then it is essential to feed some nitrogenous supplement such as tankage, linseed oil meal or middlings.

POULTRY SUFFER FOR WATER

Lack is Detrimental to Health and Has Indirect Bearing on Productivity.

Allowing fowls to suffer, even for short periods, for the want of water is not only detrimental to robust health, but has an indirect bearing on productivity. Green food in variety is beneficial not only because it helps slake thirst, but for its mineral salts and its feeding value as roughage. For this reason it should be fed in liberal quantities, and pure water should not only be always available, but to full measure. Both stand for health and productive values.

WINTER SHELTER FOR SWINE

Farmer Cannot Expect to Realize Big Profit From Animals Exposed to Rain and Cold.

The time is past when we can expect to leave our hogs unsheltered during the late fall and early winter rains and expect to realize the best results from feeding them. The thick layers of fat may be a protection but they are no insurance against pneumonia and kindred ailments. The hog is not protected by a thick coat of hair as are the other animals and he is more in contact with the damp cold soil underfoot.

Dust Box for Hens.

Chickens never wash, as many other birds do, but cleanse themselves of insects by wallowing in soil. For this reason every poultry house should be provided with a dust box in which the chickens may "bathe" themselves.

Green Feed for Poultry.

Pullets need green feed, such as a good clover range. When the fall rains help the young clover to grow the pullets will harvest many tender bits for themselves.

Way of Fattening Lambs.

Corn silage added to a corn and alfalfa ration has proved a profitable way of fattening lambs at the Nebraska experiment station.

Green Crops Saved.

Money is bank to a safe investment; but green crops turned under make a safer investment.

Sunshine Is Pig Essential.

Sunshine is a foe to all disease germs and very essential to the pig.

LATE MARKET QUOTATIONS

"CALIFORNIA FIG SYRUP" IS CHILD'S LAXATIVE

Look at tropical Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels.

First Impression. "Well, I must be off." "I thought so the first time I met you."—Baltimore American.

BREAKS YOUR COLD IN JUST A FEW HOURS

"Pape's Cold Compound" instantly relieves stuffiness and distress.

Don't stay stuffed-up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery. The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness. "Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!—Adv.

Money is not the real gauge of wealth. "Radical" The fellow who does not agree with us.

Is it Time- For Carrizozo to Wake Up?

Government man says he will recommend mail route going some other way if our roads are not fixed. Two bridges are out between Carrizozo and Capitan; travel almost impossible. Do we want to lose the Mail Line from Roswell to Carrizozo? What are we incorporated as a village for? To have someone look after just such things and put it up to the County Commissioners. And that someone is the Mayor Mayor H. S. Campbell resigned five months ago. Have we a Mayor? What has become of the money paid into the village?

Can't we have a little gravel put on our street crossings? Does it take it all for a Village Marshal, Village Attorney, Village Clerk and a Village Doctor.

Yours Very Respt.,

IRA O. WETMORE.
O. Z. FINLEY.

First to Leave;

Last to Return

Clifford Patty, son of H. F. Patty and brother of Austin Patty, came in Tuesday on a furlough from Fort Taylor, near the city of Louisville, Kentucky. Clifford is a member of the 1st Engineers corps in the 1st Division and was among the first to go overseas, his division being "regulars" of the U. S. army. He served for 220 days in the front lines and was overseas 27 months. He suffered a shell wound at one time which caused him to be an inmate of a hospital for nine weeks. He was among the first to leave and among the last to return. He will visit with relatives here for the next two weeks, after which he will return to the service.

Keating Has Expert

The Keating Tailor Shop now has a genuine expert in tailoring, cleaning, pressing and general work performed in an establishment of that kind. J. R. Harris is the gentleman we refer to, who came in this week from Kansas City, Mo., to accept the position with Mr. Keating, who is now in a position to announce that work of all kinds in his line will be performed with speed, neatness and proficiency.

Ed Hannon Departs

Ed Hannon, former proprietor of the Pure Food Bakery left for Boston, Mass. Thursday on No. 2. He will stop over at El Paso between trains to attend to some matters of a business importance after which he will hurry on to his home town, where his mother is very ill at the present time. Mr. Hannon is leaving Carrizozo with the best wishes of the community in general for his future good fortune. Since locating here, he has made many lifelong friends, who regret his departure. "When the Springtime Comes Gentle Annie" and the oil fever sets in, Ed may return to help us make a Boston out of Carrizozo.

Pure Food Bakery Has

New Proprietor

C. H. Haines, formerly of Silver City, is the new proprietor of the Pure Food Bakery. Mr. Ed Hannon disposing of the business to Mr. Haines the first of the present month. Mr. Haines is here with her husband and will assist him in his duties in the bakery and store. The Haines family comes to us with the best of recommendations and they will follow up the course pursued by Mr. Hannon, namely: that of giving the best service possible to the patronizing public. We congratulate Mr. Haines on his purchase and welcome the family to Carrizozo.

Supplement to Red Cross Drive Report

The following donations to the Red Cross have been received since the condensed report of the drive was given: Carrizozo, donations \$26.00, two membership fees \$2.00; Tinnie, donation \$2.00, making a total net to the county chapter of \$2,320.79.

Will Locate at Nogal

Earl L. Bender, a nephew of Col. Bender of Nogal, came up from St. Louis last week and will remain until about the 20th of this month. He expects to return to St. Louis for the holiday season after which he will locate at Nogal permanently.

Special Saturday

and all kinds of meat at low prices.

REILY & LUJAN.

From Old Juarez

Marvin Burton returned Tuesday from the border, where he spent several days in El Paso after which he "took in" Old Juarez. Marvin says, there is much to see in the old town just now, for things are good and lively. He passed by the door of the "Big Kid" while there.

Home from Plainview

Miss Johnny Mac McIlhenny came home last Thursday evening from Plainview, Texas, where she has been attending school at Wayland College.

From Jackson, Mich.

J. D. Bramuck, a brother of Mrs. Harry Humphrey, is here from Jackson, Michigan and will remain for the winter season, if not permanently.

Mrs. Gumm Returns

Mrs. W. L. Gumm returned Sunday from El Paso, where she spent Thanksgiving and the week-end with her sisters, Mrs. J. W. Laws and Mrs. Stevens.

Guests of B. Y. P. U.

The Baptist Young Peoples' Society has issued an invitation to the Epworth League of the Methodist church to unite with that society, and hold joint services next Sunday evening.

To Visit Her Son

Mrs. Eva Caldren, who resides on her ranch near the Water Canyon left last week for Roswell, to pay a visit to her son Samuel, who is attending the military institute at that place.

Back to the Ranch

V. K. Fair, who accompanied his wife to Carrizozo last week for medical treatment, left for his ranch in the Jicarilla mountains Monday, after satisfying himself of the rapid improvement of Mrs. Fair.

To The Nabours Well

Ira Johnson and wife are soon to move to the Nabours Well ranch in the San Andres mountains.

Visiting Her Brother

Miss Olympia Sandoval, of Albuquerque, is visiting at the home of her brother, C. B. Sandoval of this city.

Mrs. Wetmore Improves

Mrs. Ira O. Wetmore, who has been quite ill of late, is rapidly improving.

WANTED TO BUY—A good horse. Address P. O. Box 173, White Oaks, N. M.

Buy Christmas Gifts Early

Ask the kiddie where the Big Toy Shop is. MOTHERS know, and so do the kiddies, there probably isn't a child in Carrizozo who can't tell the wonders of our big Toy display, it grows with the seasons and becomes bigger and better as the years roll by.

It is an institution that stands for all that is bright and beautiful in the hearts and imaginations of the children—bring them often, and come yourself.

ZIEGLER BROS.
