LARGEST CIRCULATION IN THE COUNTY

RACE BEGUN IN CONGRESS TO BAN BEER AS MEDICINE

Both Houses of Congress to Act to Halt Issuance of Regulations Permitting Use of Beer as Medicine.

Washington, June 20.—The senate started a race with the house today to outlaw medical beer. Just after the house rules committee had concluded a long hearing on a proposal to give the Volstead anti-liquor and general prohibition tightening up measure the right of way, Senator Willis, republican, Ohio, introduced a special bill, containing the beer and other uncontroverted sections of the Volstead bill, with the hope of having it passed before the prohibition commissioners promulgate medical beer regulations. In view of the statements by prohibition leaders before the house committee that they were unwilling to re-draft the Volstead supplemental bill and their request that it be expedited as emergency legislation, there was much speculation as to whether the Volstead or Willis measure would be put through first.

No Friends for Beer in House.
No friends have appeared in the house for beer as a medicine and Chairman Campbell, of the rules committee, expressed what was regarded as the general view by declaring a bill to prevent its sale on a doctor's prescription probably will be passed unanimously. The committee will decide later whether the Volstead bill or any part of it shall be given top place on the house calendar.

In introducing his bill, Senator Willis said he was actuated "by the discussion and delay concerning the bill pending in the house." In addition to prohibiting prescription of beer as medicine, the measure would provide that not more than the same amount of alcohol in wine may be prescribed within 10 days than is now authorized for spirituous liquors, which is one-half pint.

Prescriptions Limited.
Other provisions would prohibit issuance of more than 100 prescriptions within 30 days to any physician for the use of spirituous or vinous liquors as medicine unless an emergency exists; would prevent the further manufacture and importation of whiskey or spirituous liquors, but not alcohol until the present supplies reduced to a point where it would meet the needs for sea-beverage purposes and would give the courts in Hawaii and the Virgin Islands jurisdiction to enforce the prohibition act. Senator Willis in a statement said his bill embodied uncontroversial issues in the Volstead supplemental prohibition bill now pending in the house.

FIVE-WAY SOLDIER BONUS APPROVED BY SENATE COMMITTEE—NO OPPOSITION

Washington, June 20.—The five-way soldier bonus bill as endorsed by the American Legion was reported favorably today by the senate finance committee. There was no opposition to the bill in the committee, but several senators reserved the right to offer amendments.

Representatives of the American Legion and the veterans of foreign wars protested today against the alleged treatment of veterans to the senate special committee dealing with activities affecting former service men. J. T. Taylor, vice president of the legislative committee of the American Legion, complained of "the failure of the government to provide adequate hospital facilities," asserting there are now 15,000 former service men who cannot be given medical treatment.

The bureau of war risk insurance, he also charged, had failed to assist those entitled to government aid, and he appealed for more sympathetic treatment of veterans, many of whom, he said, suffer, "because they don't know their rights or how to obtain them."

"We ask you to humanize the bureau's dealing with former service men," E. S. Botschheim, Jr., chairman of the legislative committee of the Veterans of Foreign Wars, said, urging that congress repeal the bureau of war risk insurance to help the veterans.

Special criticism of the board of appeals of the war risk insurance bureau was voiced by Mr. Botschheim, who demanded that it be reorganized and that former service men be employed upon it.

WHAT NOT TO DO WITH THE BABY AS TOLD BY HEALTH DEPARTMENT

The summer care of infants is best discussed in books or pamphlets, for there is much to be written, but the following are some important points from work published by W. C. Kacker, assistant surgeon general, and G. C. Pierce, senior surgeon, U. S. Public Health Service.

Summer is the purgatory of motherhood. Of all the babies born in the United States 12 to 20 per cent die in the first year of life and the majority in the warm months. Many children are so frail that a slight change in habits or food will cause death. Most children are born healthy, however, and with good care will pass through childhood.

Best Food For Babies.
Improper food is one of the chief causes of disease leading to intestinal disorders. The best food for babies is mother's milk. If it is not available, use a good quality of infant formula. No baby under one year of age should be weaned during the hot months.

The mother, too, should keep herself in good health to keep her baby well by taking plenty of sleep, eating good food, avoiding anything that upsets her digestion.

A nursing mother should not take any drug without the consent of her physician; many babies go to untimely graves because of drug-taking or improper beverages.

Alcohol is Taboo.
The use of alcohol should be prohibited during the period of lactation. The mother also should avoid unusual excitement, emotion or fatigue.

Children are loaned to parents but mothers are given to their children. In case of substitutes for mother's milk great skill is necessary to formulate a proper milk to bring the percentage of milk sugar and cream up to that of mother's milk. The formula requires changing from time to time as the child grows older and a doctor should be consulted.

Here Are Baby Nopes For Baby.
Here are some well known DON'Ts for baby:

- Don't give it a pacifier.
- Don't let it go asleep nursing the bottle.
- Don't take it up every time it frets.
- Don't rock it to sleep.
- Don't keep the room too warm.
- Don't put too much clothing on the baby.
- Don't give it soothing syrup or patent medicines.
- Don't give it any medicine unless the doctor orders it.
- Don't let flies get near the baby's face.
- Don't let anybody kiss the baby on the mouth.
- Don't take the baby where there are sick people.
- Don't take it into crowds.

When the baby gets sick send for the doctor. Do not give it any food or medicine. Give water and nothing else till the doctor comes. Put it to bed in a well-ventilated room and keep it quiet. Listen respectfully to the advice of your neighbors and the doctor. Follow only the advice of your physician.

FURTHER REDUCTIONS ON ASSESSMENT OF LIVE STOCK WILL NOT BE ALLOWED

Santa Fe, N. M., June 18.—No further reductions will be allowed in the assessed valuation of livestock, it has been announced by the state tax commission, after careful consideration of petitions for further reductions. The petitions contended that the assessments were too high, in that they exceeded the current prices. The commission holds that the livestock is worth more than the amount to which assessed except where disposal of under forced sale. The commission holds further that the recent rains will so greatly improve the range as to make conditions generally in the livestock industry much better.

PAPER MANUFACTURED FROM DIXIE BRIDGE FIBRE TO BE TESTED—PROHIBITION SUFFICIENT

Birmingham, Ala., June 19.—The Birmingham Age-Herald tomorrow will be published on paper manufactured from southern spruce pine, that grows in north Alabama, covering many thousands of acres. The paper is declared by experts to be equal to the best paper made from Canadian spruce. It requires one cord of the spruce to make a ton of paper.

BAPTIST BOARD SENDS LARGE SUM INTO NEW MEXICO

Secretary J. W. Bruner Reports Appropriations Made By the Missionary Board.

Albuquerque, N. M., June 21.—Appropriations of \$25,000 for co-operative work among the Southern Baptists in New Mexico and of \$15,000 for the Santa Fe church building fund, were made by the home missionary board of the Southern Baptist Convention, according to J. W. Bruner, state secretary, who returned last night from Atlanta, Ga., where he attended the meeting of the board.

The total appropriations for the various states amounted to \$1,700,000, Dr. Bruner reported, and the total annual receipts were \$1,000,000. The appropriations for New Mexico will be used to supplement the salaries of missionary pastors and to aid in financing the Santa Fe church which has just been completed. Other applications for aid in church building in New Mexico will be attended to later.

Dr. Bruner was in the city only a few hours, hurrying on to Las Vegas to confer with the president of the Montezuma Baptist college and the contractors in regard to the completion of the building. Although the institution will not be opened to students this fall, the building and grounds will be put in order for the summer assembly to be held there in July.

Baptist Revival in New Mexico.
Plans for a simultaneous revival campaign in the 49 Baptist churches in New Mexico will be made at a special meeting of the Fortales association board on Tuesday, which Dr. Bruner will attend. The campaign will probably be held from July 30 to August 14. Dr. Bruner will be in the city tonight for a few hours before he leaves for Clifton.

SENATOR BURSUM INTRODUCES BILL TO PROTECT LOCATIONS OF OIL AND GAS LANDS

Washington, D. C., June 20.—One of the latest bills introduced by Senator Bursum is that to protect locations of oil and gas lands, who had not made discovery there prior to February 25, 1920, and their successors in interest, and extending the time for making such discovery. The bill reads as follows:

"Be it enacted by the senate and house of representatives of the United States of America in Congress assembled, That in no case shall any claim be held valid, or patent be granted, or title for any lands located prior to February 25, 1920, under the mining laws of the United States, containing petroleum, mineral oil, or gas, solely because of the failure of a locator or locators thereof, or his heirs, successors or assigns, to make discovery of oil or gas thereon; but if such claim was, on February 25, 1920, in all other respects valid and regular, discovery may be made thereon at any time within two years from and after the passage of this act, and in such event patent certificate, not exceeding one hundred and sixty acres in any one claim, shall issue to the locator or locators, his heirs, successors or assigns, or in other cases; Provided, however, that such lands were not, at the date of the location thereof, withdrawn from public entry."

FIRST TEST OF NEW GAMBLING LAW CAME TUESDAY

Albuquerque, N. M., June 20.—The first test of the scope of the new state gambling law will be made at the district court in Old Town, when Arthur Henry is brought up, charged with its violation. The case will probably be called Tuesday and should Henry be convicted, his attorney, probably will carry the case to the supreme court, according to J. B. Garcia, district attorney.

Henry was arrested on the 15th by officers from the sheriff's office, because he had allowed men to gamble for drinks in the White Elephant saloon in Old Town, of which he is the proprietor. He is now under "constructive" custody of the sheriff, and is awaiting his trial.

This case will bring out just what the definition of gambling is according to the new law. Should it be declared legal to gamble for drinks, Mr. Garcia, the district attorney, believes that this will also legalize some games where the loser pays, and there parties whose prizes are given.

HOSPITAL AT FORT BAYARD TO BE ENLARGED

Secretary Mellon Announces that \$550,000 Will Be Expended to Build a New Unit and to Make Number of Improvements.

Washington, June 20.—Senator H. O. Burton of New Mexico appeared before the Treasury Department today in behalf of an appropriation for increasing the facilities at Fort Bayard. After the conference, Secretary Mellon authorized the following statement:

"A total expenditure of \$550,000 will be made at the United States Public Health Service Hospital No. 71 at Fort Bayard, N. M., for the construction of a permanent hospital and permanent improvements."

"This is a public health service tuberculosis hospital of 1,000 beds practically filled to capacity. Four hundred and sixty beds are in the permanent building and 541 in the temporary department.

There are only 60 good infirmaries beds, therefore there is urgent need for the construction of one infirmary unit of not less than 250 beds.

"The present electric lighting plant is badly overloaded and there is constant danger of a complete breakdown, as the plant was only designed for a unit of 400 beds.

"The sewerage disposal plant is only 60 per cent adequate at present and must be enlarged.

"A new heating plant is necessary in lieu of the several present unsatisfactory units, which are of insufficient and expensive to operate.

"There is a serious shortage of housing for employees, some of whom are housed in tents without sanitary facilities.

"The additional beds will provide a total capacity of 1,250 beds, which will be needed for several years."

JAPS REGARD U. S. AS THEIR GREATEST FRIEND, SAYS SPARR

Chicago, June 20.—Japan regards the United States as her greatest friend and the nation she most desires to be like, in the opinion of Professor Frederick Starr, of the University of Chicago, who returned yesterday from a six month's tour of the Japanese empire. If America gets in to war with Japan, he said, it will be because of the "attitude of unthinking Americans, due to their prejudiced viewpoint of the Japanese question."

Professor Starr, an authority upon Japanese questions, made his trip at the request of the prices of Shokoku to participate in the 1800th anniversary of the death of Shokoku Takshi, credited with spreading Buddhism through out Japan.

"Among the people there is nothing but respect and regard for America," he said. "In my opinion it is a mistake for Japan to yield so much to America. She does so out of regard for this country and her desire to pattern after us. She feels hurt by our California policy, but she is making no effort to open the question."

There is a reckless feeling in Japan that she will have trouble of some kind in 1924 because she had wars in 1804, 1904 and 1914. If we should go to war with Japan, it will be because the attitude of unthinking Americans will have forced us into it due to their prejudiced viewpoint of the Japanese attitude."

Professor Starr said that he found conditions in Korea much better than he expected. He said he thought the Koreans had given up their ideas of independence.

ME, CURIE AND TWO DAUGHTERS SAIL FOR HOME JUNE 25

New York, June 19.—Precautions have been taken for the safety of a small mahogany box which will rest in the treasure vault of the ship Olympic when she leaves June 25 for Southampton and Cherbourg. Within 100 pounds of wood, lead and steel will be a quantity of radium—the bulk of a pound. Its potential energy released, would lift the 46 thousand ton ship and her cargo and passengers out of the water to destruction.

During the voyage, it is calculated that a small percentage of this energy will escape but without danger to the ship.

The box contains the gram of radium presented to Miss Curie on behalf of the women of the United States by President Harding.

Madame Curie, accompanied by her two daughters, will sail on the Olympic.

FEATURE POISONOUS PLANTS IN GOVERNMENT EXHIBIT

Washington, D. C., June 15.—Great numbers of horses, cattle and sheep, especially in the West, are lost annually from feeding on poisonous plants. To aid stockmen in identifying such plants, an exhibit consisting of pictures of plants in natural colors, and others showing characteristic symptoms of plant poisoning in animals, is being prepared in the Bureau of Animal Industry, U. S. Department of Agriculture, to be shown at fairs and agricultural meetings.

A general synopsis of the subject and references to publications containing directions for treatment of animals poisoned through eating such plants, another valuable information are given.

NUMBER OF CATTLE IN THE U. S. LESS THAN IN 1909

Sheep Supply is Reduced Nearly Two-Thirds, While the Number of Hogs Has Decreased 41 per cent.

Chicago, June 19.—The number of cattle for each hundred persons in the United States in one-third less than in 1909, the sheep supply is reduced nearly two-thirds, while the number of hogs in 41 per cent smaller, according to figures compiled from census reports by Herbert Herrick, a farm statistical expert.

Declaring this "alarming shortage" is such as to furnish a meat supply only about half as great for each person as formerly, Mr. Myrick said that the decline in prices to producers is a utterly unjustified as to constitute the gravest economical crime ever perpetrated on the farmers.

Meat Imports Increased.
Other figures were given to show that 20 per cent of the meat was exported during the present fiscal year over the last year, while imports totalled 175,000,000 pounds of fresh meats, or nearly four times as much as two or three years ago.

Mr. Myrick charged that the U. S. government has underestimated the number of sheep and swine and declared that the department's estimate of January 1920 was in error 28 per cent, as he said that the census found 28,000,000 sheep, compared to the government's estimate of 43,000,000.

"The census also reveals 14,000,000 pigs on farms or 19 per cent less than the department's estimate of 73,000,000. The steady decline in the number of cattle since the census is nearly 18 per cent slaughtered during the last eleven and a half months."

JURSUM ASSESSMENT BILL IS LIKELY TO BECOME A LAW

According to advices received from Representative Nestor Montoya, the Jursum Joint Resolution, providing for the suspension of mine assessment work, which passed the senate unanimously last Monday, will pass the house by a good majority. This bill provides for the suspension of all assessment work for 1921, and for the first six months of 1922, and establishes the fiscal year as the assessment year so that claim holders in the several districts need not rush their work on claims. Under the bill, assessment work will have to be done by the new assessment year beginning July 1, 1921, and ending June 30, 1922.

Claim holders, however, must file certificate on or before August 1, claiming such suspension. A copy of the bill as passed by the senate has been forwarded to Secretary Burton lunch at the New Mexico Chamber of American Mining Congress, at Silver City.

In order to provide relief for mine claim owners the bill must pass the house before the end of this month, a assessment work for 1920 would otherwise have to be completed by that time. Representative Montoya, however, has best assurances that the bill will be reported out of the house in a few days, and information concerning final action will be sent to the mine congress office, and to the New Mexico Chamber of Commerce promptly. Interested persons are asked to keep in touch with these offices for information relative to the status of the proposed bill.

BANKERS FAVOR HUGE POOL TO MAKE LOANS TO LIVESTOCK MEN

Recommendation is That Fifty Million Dollars Be Raised to Give Immediate Relief to Producers.

Chicago, June 15.—A bankers' \$500,000,000 pool designed to give immediate relief, by loans, to livestock men, was recommended today by Chicago, New York, and other bankers meeting here at the request of Secretary of the Treasury Mellon.

Under the plan outlined bankers of the United States will participate in the pool, which, according to John R. Mitchell of the federal reserve system and Eugene Moyer, managing director of the war finance corporation, should tend toward bringing financial relief to stock raisers. Mr. Mitchell and Mr. Moyer represented Secretary Mellon.

The session today followed a conference in Washington between Secretary Mellon, Secretary Hoover, Senators Capper of Kansas and Kenyon of Iowa.

Rates of Interest.
Through the recommendations which will also be presented for ratification by a conference of Chicago bankers who will in turn confer with New York financiers, livestock men would be enabled to procure six months' credit on loans made at current rates plus 1 per cent and not to exceed 8 per cent.

Ratification of the plan is expected by both Chicago and New York bankers. The J. P. Morgan house it was said, had announced by telegram it stood ready to participate to the extent of twenty-five million dollars if the plan met with approval of the united banking executives.

Applications for Funds.
Administration of the pool would be placed in the hands of a committee of trustees with a paid manager. All applications for funds would be passed on by a committee of three bankers from the state, county or township from which the application comes.

The 1 per cent addition to the current interest rates would go to the country banker or commission investigating the applicant's credit.

HAPPY BIRTHDAY PARTY

The pretty home of Mr. and Mrs. T. E. Kelley gave the appearance of a last week, when little Miss Ruth celebrated her fifth birthday. Many games were enjoyed throughout the afternoon, the one which seemed to create the most enthusiasm was "Magic Music," in which every child took part, their voices blending together with joy amid the playing.

The Misses Aileen Haley and Mary White assisted Mrs. Kelley in entertaining the little guests. Refreshments of ice cream and cake were served after which the guests showered Miss Ruth with happy wishes for the year to come. Those present were: Georgia and Nadine Lesnet, Lora Hamilton, Lois Stadman, Margurite Lattone, Opal Sears, Mary Maxwell, Helen Frances Hupperts, Billie Williamson, Eleanor Humphrey, Peggy White, Francis Charles.

JOYFUL BIRTHDAY EVENT

Thursday afternoon, Mrs. Frank Lesnet entertained in honor of her eldest daughter, Georgia, at a birthday party. Games of various kinds were played to suit the childish fancy. Miss Aileen Haley acting as leader for the little folks in all the games. After the guests were play-tired, Mrs. Lesnet served refreshments consisting of cake, ice cream and toothsome sweetmeats. Those present were: Marjorie Roland, Dorothy Dozier, Ethel Williamson, Georgia and Nadine Lesnet, Georgia Peckham, Elizabeth Brockway, Jane Spencer, Ruth Kelley, Catherine and Violet Paitt, Lora Hamilton, Francis Charles, Talbert McLean, Guyan Caldwell, Warden Maxwell, Dean Treat, Ansel Swearingen, Raymond Fisher, Ernest Prehm, J. K. Taylor.

AN OPENING FOR ANNAFOLIS APPOINTMENT

Congressman Nestor Montoya has an opening for an appointment to the Annapolis Academy. Qualifications are High School or accredited College graduation. The applications and qualifications must be in the hands of the Congressman as quick as possible as the appointment taken place soon after July 1. Use the wire.

NEW LITTLE SMILES

OLD MEN'S YARD STICK.

Irene and Helen, two little sisters, went to visit their grandmother in the country. It was their first visit away from the city and they were surprised and delighted at everything. They were especially interested in the chickens and loved to hunt for the newly-laid eggs.

Their grandmother cautioned the children never to take away the nest egg. Their strife to see which could find the most eggs was great. One morning Irene reached a nest first. Seizing the forbidden egg, she started for the house.

"Oh, grandmother!" shouted Helen, hurrying after her sister, "Irene's got the egg the old hen measures by!"

IN AFRICA

Felicit—There goes Hippo on the way to the Jungleville mask ball. But why all those spots painted on his hide.

Parrot—Oh, that is his ball costume. He's going as a giraffe.

Honest at Last.

Lady of House—Most of the things you wash are torn to pieces.
The Landlady—Yes, ma'am—but when a thing is torn in two places, ma'am, I only charge you for one piece, ma'am.

The Spooky Thing.

Jack—I expect to die hard.
Maud—Then you won't die as you have lived.
Jack—What do you mean?
Maud—You have the reputation of being pretty soft.

Kind Consideration.

Dodge—If you would save what you pay for cigars and cigarettes you would have a snug sup at the end of a year.
Hodge—Very true. But think how my children would suffer for the want of gilt hands and coupons.

Hedging.

Mrs. Gushley—I suppose you and your wife are as happy as any married couple that ever lived?
Mr. Gushley—Well, as happy as any married couple that ever lived together.

In a Restaurant.

Customer—Well! What's this?
Walter—An oyster stew.
Customer—Ah! an oyster, too?

FITS IN ANY WHERE.

People shy on punctation. Needn't go to smash. You can save the situation. Always—with a dash.

Oh, Come On.

That dubious seems out of place. Who has no make-up on her face?

No Use.

"Beautiful rolling country here, isn't it?"
"Who wants to roll?"

Wanted to Know.

Mr. Hynson—I've resigned my position.
Mrs. Hynson (cynically)—Before or after?
Mr. Hynson—Before or after what?
Mrs. Hynson—You were fired.

Unreasonable Woman.

Bill Sikes (leaning over bed)—Fork out every penny you've got or I'll—
Hubby (half awake)—Look here, Maria, this is coming if too strong. Didn't I give you all I had when I came home?—Idées.

Libre Stock and Meats.

Hog prices at Chicago advanced 25c to 50c per 100 lbs. the past week. Beef steers were steady; butcher cows and heifers and feeder steers generally 25c lower. Yearling calves up 25c. Aged lambs (feeder) 75c; spring lamb, 91c. Yearlings and fat swine down 25c. June 10th Chicago prices: Hogs, bulk of sales, \$5.00@5.50; medium and good grades, \$7.50@8.50; butcher cows, \$6.25@7.75; light and medium weight veal calves, \$8.00@10.25; fat lambs, \$10.25@12.25; yearlings, \$1.50@1.80; fat swine, \$3.00@3.00.

The trend of eastern wholesale fresh meat prices was upward. Yearling range steady to 1/4 higher, depending upon the market. Lamb generally 1/2 higher, but not steady. Fat pig, 1 1/2 higher at some markets, 3/4 higher at others; heavy loins unchanged. Prices good grade market beef, \$15.50@16.50; veal, \$16.00@18.00; lamb, \$26.00@35.00; mutton, \$9.00@15.00; light pork loins, \$20.00@22.00; heavy loins, \$15.00@18.00.

Hay. Movement light, stocks on farms remain about 100 per cent larger than last year. Receipts in markets barely adequate to supply needs, but because of light demand, prices are nominally unchanged to slightly easier. Chicago reports good demand on prairie, No. 1 timothy, \$10.00; No. 2, \$9.00; No. 3, \$8.00; No. 4, \$7.00; No. 5, \$6.00; No. 6, \$5.00; No. 7, \$4.00; No. 8, \$3.00; No. 9, \$2.00; No. 10, \$1.00; No. 11, \$0.50; No. 12, \$0.25.

Market dull and weak. Cottonseed meal a shade lower. Corn feeds steady, wheat feeds and alfalfa meal easier. Excellent spring pasturing conditions, particularly in prairie feed country, leading sections, have materially reduced demand during recent weeks. Stocks of all feeds remain ample. Circulating stock movement. Occasional sales of distress feed reported in many markets. Quoted: Bran, \$14.00; midlings, \$14.50; Minnesota, \$15.00; cottonseed meal, \$20.50; Memphis, lard meal, \$20.00; Minneapolis, \$22.00; white-hominy feed, \$23.00; St. Louis, \$24.00; St. Paul, \$24.00; Chicago, best pulp, \$25.00; o. b. seaboard markets.

July wheat sold at the highest point of the season this past week, influencing export reports and export quotations and large export business, but weakness developed later in session with considerable change in sentiment. Cash wheat in good demand. Country offerings to arrive light. Liquidation on in corn by houses with eastern connections, in Chicago market, \$1.50; No. 2 hard, \$1.54; No. 3 mixed corn, \$1.50; No. 4 yellow corn, \$1.46; No. 5 mixed corn, \$1.40; No. 6 mixed corn, \$1.36; No. 7 mixed corn, \$1.32; No. 8 mixed corn, \$1.28; No. 9 mixed corn, \$1.24; No. 10 mixed corn, \$1.20; No. 11 mixed corn, \$1.16; No. 12 mixed corn, \$1.12.

North Carolina fair quality potatoes down 50c per bu. New York up increasing receipts, reaching \$2.50-\$2.75; eastern shore of Virginia stock steady at \$4 to \$4.50. Texas and California sacked Bliss Triumphs up 25c per 100 lbs; St. Louis at \$2.25 to \$2.50; up 1/4 Kansas City at \$4 to \$4.25.

Butter markets have been firm under active storing demand, but there has been weaker feeling and slight declines occurred in most markets. The into spring movement has been heavy, the preliminary official release of the United States for June 1st showing total holdings 2,500,000 pounds. Prices advanced for the week average 1/4 to 2c per pound, 92 acres closing: New York, 32c; Chicago, 30 1/2c; Philadelphia, 29c; Boston, 31c. Cheese markets steady to firm. Current production not yet released, quality necessary for active storing demand and movement of all medium grade goods into consumer channels. Some tendency to keep prices down. Prices at Wisconsin primary markets average: Daisies, 14 1/2c; Doubletons, 14c; Young Americans, 14 1/2c; Longhorns, 14 1/2c.

Spot cotton prices declined about 20 points the past week, closing around 11 1/2c per lb. New York July futures down 47 points at 12.50.

DENVER LIVE STOCK.

Good grades of steers sold largely from \$7.50 to \$7.75, with fair to medium kinds from \$7 to \$7.25. Horns on steers found an outlet at \$6.75 and down.

A strong inquiry reported for female stock. The available offerings at quotations at \$7.25 to \$7.50. Best heavy cows sold at \$6.75.

Good grades of cows quoted largely from \$6.50 to \$6.75, with fair to medium types at \$5.00 to \$5.75. Trading on the stocker department showed little change. Quotations on the better grades of cows ranged from \$3.50 to \$4.50. Steers found an outlet from \$5.00 to \$5.25.

A brisk trade on a decidedly lower basis was apparent on the hog market. Top hogs sold at \$8.00. The next highest price was \$7.50. Small killers also took bids at \$7.25, \$7.50 and \$7.75. The latter figure, which was packer's top, was the high figure to the bulk. The lower range of bulk sales was \$7.15. Eastern heavy and cutouts were quoted from \$5.25 to \$5.50.

A fair inquiry for pigs was apparent. Quotations on the better grades of sows ranged from \$5.00 to \$5.50, with less desirable types at \$3.50 to \$4.00.

Although quotations were uncertain, traders expressed the opinion that strictly choice spring lambs would bring up to \$11.00. Common quality springers sold as low as \$8.25. Best clipped lambs were quotable up to \$9.50, with ewes from \$2.00 to \$2.50.

Colorado settlement prices: Bar silver (American) \$1.99 1/2; Bar silver (foreign) \$1.98 1/2; Copper \$1.88 1/2; Zinc \$1.85.

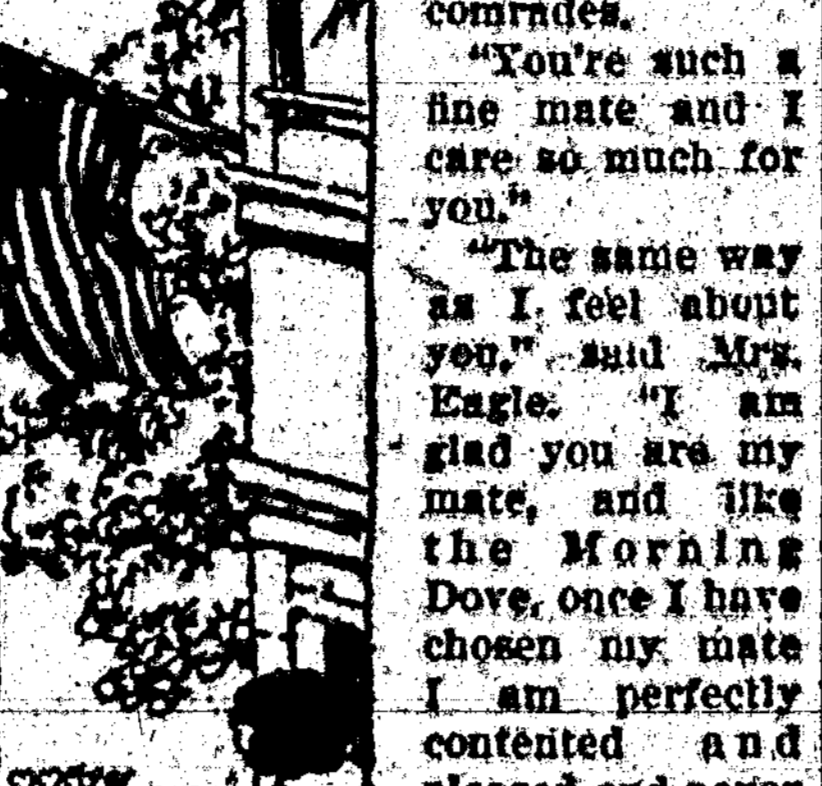

HAY AND GRAIN PRICES. Cereals, No. 1 yellow, per cwt., \$1.05; No. 2 mixed, per cwt., 1.02; Wheat, No. 1, per bushel, 1.25; Oats, per cwt., 1.45; Barley, per cwt., 1.95.

Evening Fairy Tale

BY MARY GERRARD BOWNER

THE EAGLES.

"Dear mate," said Mr. Eagle, "we are very happy because we are free and because we are such good comrades."

"You're such a fine mate and I care so much for you." "The same way as I feel about you," said Mr. Eagle. "I am glad you are my mate, and like the Morning Dove, once I have chosen my mate I am perfectly contented and pleased and never want to change."

"I always want to be with you, Mr. Eagle." "Just the same way as I feel about you," said Mr. Eagle. "I chose you because I thought you were the loveliest big eagle I had ever seen and when you said you would be my mate I knew I would be happy for the rest of my eagle life."

"Just as I knew it too," said Mrs. Eagle. "We have a great deal to be proud of," said Mr. Eagle, "and the day which is coming soon is a day upon which we can celebrate."

"What does it mean to celebrate and what day is coming?" asked Mrs. Eagle. "So many days come along and you speak as though you were thinking of just one—Do—tell—me, Mate dear."

"Yes," said Mr. Eagle. "I will answer your questions. In the first place, it is true as you have just said, that on many days come along, but this one day that is coming is of especial importance. It is of great importance."

"But first you asked me what it meant to celebrate and before I tell you about the coming day I will tell you what celebrate means."

"When a boy or a girl celebrates a birthday it means that that boy or girl does special things on that day."

"A birthday is usually celebrated with a cake covered by candles which are lighted. A birthday is also celebrated by some presents, perhaps a party, and always wishes to the one whose birthday it is of 'Many happy returns of the day.'"

"Christmas is celebrated by Santa Claus taking a trip to all the chimneys and city fire escapes and by going into the houses and filling stockings and leaving gifts."

"Valentine's Day is celebrated by sending valentines and love messages. 'Hallowe'en is celebrated by bobbing for apples in a tub of water and by Jack O'Lanterns and such."

"Thanksgiving is celebrated by families getting together and having a banquet and smiling at each other and in thinking of all that they have to be thankful for."

"So celebrating means to do something special for some day or other."

"Now the day that is coming is the Fourth of July and it is a day which is very fine."

"There are fireworks and firecrackers and bands and parades and picnics and flag-waving and all sorts of fine things on that day."

"The people are so glad they belong to a free country and they each wave their beloved flag and shout: 'O, long may it wave, O'er the land of the free, And the home of the brave.'"

"Each one has a flag just alike and they hang flags out of their windows and from their office buildings. It is a very great day!"

"And we are the Eld of this country. Yes, the Eagle family has been chosen as the bird of the country which is so soon to celebrate the Fourth of July."

"We are free as the people are free. The people cannot fly with wings but they are free people just the same." "And they have chosen us because we are so strong and so free as we fly in the air. They've chosen us as the National Bird."

ALCOHOL—3 PER CENT. Vegetable Preparation for Assimilating the Food by Regularizing the Stomach and Bowels of INFANTS CHILDREN. Thereby Promoting Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. NOT NARCOTIC. A helpful Remedy for Constipation and Diarrhoea, and Feverishness and LOSS OF SLEEP resulting therefrom in infancy. THE SINGULAR SIGNATURE OF CHAS. H. FLETCHER. THE CENTAUR COMPANY, NEW YORK. At 6 months old 35 Doses, 40 CENTS.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS Bears the Signature of

THE CENTAUR COMPANY, NEW YORK CITY.

THEIR ESTIMATES TOO LOW

Proof That Engineers Have Erred in Their Figures Concerning the Weight of Growth.

Interesting experiments were made some time ago at Harvard university which seem to demonstrate that engineers usually underestimate the maximum loading caused by dense crowds on bridges, floors and platforms. Forty men averaging 163 pounds in weight placed in a box six feet square caused an average pressure of 181 pounds to the square foot on the floor.

An engineer has estimated the weight per square foot of the densest crowds on the New York elevated railways at only 45 pounds, but since the Harvard experiments the opinion has been expressed that the maximum loading on the elevated cars and platforms may be nearer 181 than 45 pounds. This applies to other close-packed crowds.

Wonderful Telescope.

The excellence of the big Lich telescope, and the steadiness of the air when the conditions are good on Mount Hamilton, are attested by the statement of one authority that double stars, whose components are nearly equal in brightness, can be measured if the distance between them exceeds one-tenth of a second of arc. What this means in accuracy of definition may be understood by remembering the fact that one-tenth of a second is equal to the apparent diameter of an ordinary pin, viewed by the naked eye at a distance of two miles.

Falsely Accused.

A little girl in the Irvington school received an unwarranted rebuke from her teacher. "Mary, you mustn't chew gum in school," said the teacher. "I'm not chewing gum," said Mary. "I've got a hollow tooth and I can't keep my tongue out of it."—Indianapolis News.

FINAL TRIUMPH FOR MAURICE

Small Boy Endured Much, but in the End He Made Strong Point Over Rival.

Ten-year-old Maurice was in love with the pretty new teacher and did everything in his power to get ahead of the others in winning her affection. Monday morning he was distinctly out of humor when he walked John and gave the teacher a ticket. "It's to the entertainment at our church," he said proudly. "I bought this ticket for you so that you could come and hear me sing."

A few days later he was more provoked when in came Helen bearing a ticket. "It's to our dancing class party. I want you to come and see me dance," she smiled.

He scowled and scowled. But later in the week his turn came to smile above all the rest. He, too, bore a ticket to teacher, but his speech was different. "Here's a ticket for you, Miss G." he smiled. "It's to the Mason's supper, and I want you to come and eat with me, not watch me eat."

Huge Forest Fire Losses.

Forest fires, sweeping over 60,453,307 acres of land in 45 states, have caused damage amounting to \$35,715,747 during the five years 1910 to 1920, inclusive, according to the United States forest service. A total of 160,318 forest fires occurred during this time. Minnesota was the chief sufferer, its loss being \$30,805,868.

Active Mind of Double Worth.

The blessing of an active mind, when it is in good condition, is that it not only employs itself, but is almost sure to be the means of giving employment to others.—Anon.

Coffee was unknown to the Greeks and Romans of the pre-Christian era.

Speaking of Napoleon, he probably never had any faith in the millennium.

Tastes Fine, and Better for Health POSTUM CEREAL

is a pure, wholesome cereal beverage, containing nothing harmful to nerves or digestion.

It should be boiled at least twenty minutes. Then Postum Cereal will reveal a true coffee-like richness of color and flavor.

"There's a Reason" Sold by grocers everywhere.

Made by Postum Cereal Company, Inc. Battle Creek, Michigan.

Western Canada Land of Prosperity

Offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE HOMESTEADS or buy FARM LAND in her provinces have been well repaid by bountiful crops. There is still available an easy terms FERTILE LAND AT \$15 TO \$30 AN ACRE—land similar to that which through many years has yielded from 20 to 40 bushels of wheat to the acre—oil, hay, etc. The soil is also in great abundance, with fine stock raising, sheep and horse raising facilities. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying are sources of income second only to grain growing and stock raising. Attractive cities, schools, good neighbors, churches and public buildings. Good markets, railroad facilities, rapid telegraphic communication.

For full information concerning you to be rewarded railway rates, illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan, Alberta and British Columbia, contact with W. V. BARNETT, Room 4, Box Building, Regina, Sask., Neb.

Freed From Torture

Entonic Cleared His Up-Set Stomach

"The people who have seen me suffer tortures from neuritis brought on by an upset stomach now see me perfectly sound and well—absolutely due to Entonic," writes H. Long.

From Mr. Long's experience, keep your stomach in healthy condition, fresh and cool, and avoid the ailments that come from an acid condition. Entonic brings relief by taking up and carrying out the excess acidity and gases—does it quickly. Take an Entonic after eating and see how wonderfully it helps you. Big box costs only a trifle more than your druggist's guarantee.

Waist Measuring Party
 Last Friday night at Lutz Hall, the Missionary Society of the Methodist church gave the "Waist Measuring Party," which they have been advertising for the two weeks previous to the event. On securing tickets, each patron was called on for his or her waist measurement and was expected to pay a corresponding amount in cents or dollars. Some paid as low as ten cents while others more fortunate in weight paid as high as ten dollars. A good musical program was given by local talent after which refreshments of ice cream and cake were served. Mrs. C. A. Hooper, who handled the program, wishes to thank all who took part in the program for their prompt responses and their display of good talent. The ladies realized a neat sum from the undertaking.

RED STAR
 Your Cooking Done More Quickly and Thoroughly on this All-Year-Round
RED STAR
 Detroit Vapor Oil Stove
 THIS entirely new-type, wickless oil stove will cook a 5-lb. beef roast to delicious tenderness in 1 1/2 hours; boil potatoes perfectly in 20 minutes, or turn out baking powder biscuits, tender and flaky, in 12 to 15 minutes.
 In fact, the RED STAR will cook or bake anything to a turn in less time, with less attention and bother, and with 25 per cent less fuel than with any other oil stove on the market.
 These remarkable results are due to a new, scientific principle which converts kerosene, gasoline or distillate into gas, eliminates all smoke and odor, and saves one-fourth of the usual fuel expense.
 This is the stove which is winning all official cooking tests for efficiency and economy. Leading domestic science experts have endorsed it. Thousands of women are using it and recommending it to their friends.
 If you are not familiar with the RED STAR and its "gas range" principle, go to Kelley & Son and have them demonstrate it to you. See how it positively ends the failures in cooking and how it enables you to enjoy all the advantages of a city gas range.

RAILWAY INQUIRY IN WASHINGTON

Excessive Labor Costs and Working Conditions Chief Causes of Trouble.

NO CONTROL OVER EXPENSE

Prices and Wages Fixed by Government Leave Little Scope for Management.

Washington, D. C.—In testifying before the Senate Committee on Interstate Commerce in the general investigation into the railroad situation, witnesses for the railroads contended that:

(1) The costs of operation are abnormal, owing chiefly to wage scales established by the government which exceed wages paid for similar work in other industries, and to wasteful labor costs, often for work not done, enforced upon the railroads by the so-called "National Agreements."

(2) That 87 1/2 cents out of every dollar of operating expenses in 1920 were at prices fixed directly by the government, or by general market conditions and over which the railroad managements had no control.

(3) That the general business depression was not due to the high freight rates, but to the lack of buying both here and abroad.

One of the most striking facts brought out in the testimony presented by the first witness, Julius Kruttschnitt, chairman of the board of directors of the Southern Pacific, was the following, in explanation of the chief reason for the increase in operating expenses since 1916:

"The labor bill of the carriers in 1916 (which was before the Adamson law took effect) stood at \$1,468,570,301 in 1920 it was \$3,698,216,351, an increase of \$2,229,646,050."

"The increase by years since 1910 has been as follows:

Increase in 1917.....\$270,903,748
Increase in 1918..... 874,331,209
Increase in 1919..... 229,315,091
Increase in 1920..... 855,067,015
or an aggregate increase since 1916 of.....\$2,229,646,050

Exhibits were placed before the committee showing that for the railroads of the whole country, increased expenses in 1920 over 1910 were as follows:

Actual expenses for 1920 \$6,163,138,341
Actual expenses for 1910, 4,667,774,131

Inc. for 1920 over 1910 \$1,495,364,210

Mr. Kruttschnitt, in showing how little control the railroads had over necessary expenditures, said:

"Sixty-four cents out of every dollar of operating expenses were, in 1920, paid out to labor, and the wages of labor are fixed by the government.

"Fifteen cents out of every dollar of operating expenses was paid for materials and supplies at prices fixed by the government.

"Three and one-half cents out of every dollar was paid for other expenses incurred by the government in the first two months of 1920.

"A total, therefore, of 82 1/2 cents out of every dollar of operating expenses for 1920 was paid out at prices directly fixed by the government.

"The remainder, up to 97 1/2 cents, was for materials and supplies, purchased at prices fixed by general market conditions and beyond the power of the railroads to control."

To illustrate how labor costs were inflated by the "National Agreements" entered into during federal control, fixing rules and working conditions, the following examples were cited:

1. The Peru Marquette Railway was compelled to pay \$3.24 in bonus to four employees because their titles under these agreements were changed by a decision of the Director General, while the nature of their duties and the volume of their work remained the same.

2. A car repairer on the Virginia Railway was paid \$1,050 for work he never did. He was laid off with other employees because there was no work for him to do. When he became entitled under his "seniority rights" to be re-employed, he received back pay and overtime.

3. The Shop Crafts Agreement provides that when employees are required to work in and out of their own time they will be paid for one hour extra at the close of each week, no matter how few hours they may have worked. This rule in the first six months of 1920 cost the railways \$6,500,000, or at rate of \$13,000,000 a year.

4. On the Chesapeake & Ohio Railroad piecework car repairers decreased 11 1/2 per cent in efficiency under a 25 1/2 per cent increase in efficiency under a guarantee of a fixed minimum rate per hour.

5. On the abolition of piece work on the Union Pacific Railroad in the wheel shop at Omaha, Neb., the time required for the same work was increased 15 per cent and the output was cut down 24 per cent; and in a coal-cleaning yard at Denver the time required was increased 25 1/2 per cent and the output decreased 23 per cent.

6. Southern Pacific employees, whose sole duty was to keep watch on stationary engines and to stop the engine in case of trouble, were reclassified by Director General as "electrical workers," one man on the Salt Lake division being given back pay of \$2,331, another \$1,004, another \$2,003, another \$2,003, and six other amounts varying from \$1,000 to \$1,500.

7. Under the present classification rules of the shop crafts, in order to change a model in the front end of a locomotive it is necessary to call a boiler maker and his helper to open the door, because that is boiler maker's work; to call a pipefitter and his helper to remove the blower pipe, because that is pipefitter's work; and call a machinist and his helper to remove the tip, because that is machinist's work; also for the same force to be employed for putting in the new tip.

8. Questioned by Senator Poindexter, Mr. Kruttschnitt stated that these instances might be increased indefinitely and were characteristic of railroads of the country, as a result of the "Agreements" left over from federal control.

CONGRESSMEN FAVOR FILIPINO INDEPENDENCE

Congressman Edward J. King of Illinois.

Washington.—"The appointed hour is here: let the Philippines be free." This was the keynote of a speech by Congressman Edward J. King of Illinois, (Republican) in which he reviewed the American occupation of the islands from the first day to the present time. He declared that the United States was honor bound to grant independence without further delay.

Congressman King is one of an increasing number of Republicans in the House who are urging quick action on Philippine independence. Mr. King is the author of a bill which provides that within one year the Philippine government, under presidential proclamation, may assemble a convention and frame a constitution.

After the constitution is ratified by the Filipino people the President may recognize the Philippine islands as "a separate and self-governing nation." The transfer of authority is to be completed within one year. Provision is made for safeguarding American investments in the Philippines and for the providing of coaling stations and submarine bases in the islands by the United States.

Word from the Philippines is that the people expect early independence and will be sorely disappointed if they do not get it.

"No nation has the right," said Congressman King "to hold another people in bondage, even though it may be argued by the professoriate that the condition is simply one of 'tutelage.'"

"A little more observance of the golden rule in national and international affairs would soon dispel that desire for exploitation, the fiercest foe of freedom in the world today."

"When we went to the Philippines we declared before the whole world that we were not actuated by any selfish desire of conquest or territorial aggrandizement, but solely by humanitarian impulses."

Congressman King called attention to the fact that Filipinos are now raising funds to erect a monument to Admiral Dewey, which he said was indirectly a tribute to the American people as well as to Dewey. He recalled the cable that Dewey had sent to President McKinley, which was as follows:

"In my opinion these people (Filipinos) are superior in intelligence and more capable of self government than the natives of Cuba, and I am familiar with both."

Congressman King then recited the preamble to the Jones law, passed August 29, 1916, and declared it was a definite pledge of independence. The preamble stated "It is as it has always been the purpose of the people of the United States to withdraw their sovereignty over the Philippine Islands and to recognize their independence as soon as a stable government can be established therein."

Congressman King stated there was no question but that the Filipinos had established the specified stable government and, therefore, it is the solemn duty of the United States to grant the promised independence.

ASKS INDEPENDENCE FOR PHILIPPINES

Francis Burton Harrison

Manila.—Francis Burton Harrison, former governor general of the Philippine Islands, offered to tender his resignation eighteen months ago upon condition that the Secretary of War recommend to President Wilson that a Filipino be appointed his successor. He made the offer while in Washington in 1919.

Discussing Philippine independence, the governor general said:

"I can see in the future a very beautiful vision. When the flag of the Philippine republic shall be hoisted, when the Stars and Stripes will come floating down to the strains of The Star Spangled Banner—that Old Glory, so rich in happy and honorable achievements, will be made doubly dear because it will mean that the United States will have kept its word to the people of the Philippine Islands."

School of Journalism in Philippines
Manila.—A school of Journalism, the first in the Far East, has been established at the University of the Philippines, in Manila.

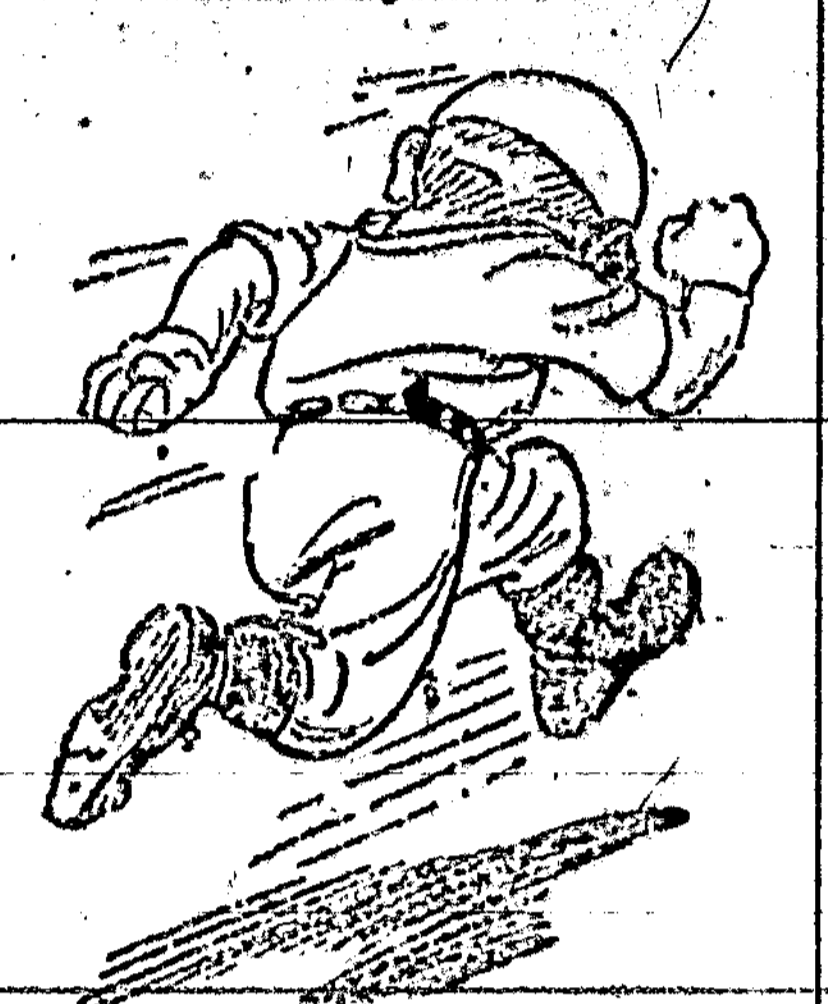

Admission to the School of Journalism is limited to third and fourth year students who have shown marked ability in the use of English. The course is open to both men and women. A class of about 50 registered at the opening of the journalistic course.

Betrothal Cards Out

Cards have been received by many Carrizozo people this week of the engagement of Miss Hortense Keithly of O'Fallon, Mo., and Mr. Wm. Spence of Carrizozo. This is, as the general rule, the forerunner of the marriage announcement, which we await with our congratulations ready.

Mr. and Mrs. Matt. Culley, formerly of Albuquerque, have moved to Las Cruces, according to word received here this week. Mrs. Culley was before her marriage, Miss Ida Grumbles of Carrizozo.

PRESS COMMENT ON PHILIPPINES

The Philippines (Shenandoah (In. Post.)
Our idea of the Philippine question is to get out as quickly as possible and stay out. What do you say?

Our Little Brown Cousins (Argus, Rock Island, Ill.)
There is no mistaking that Filipinos want their independence. And it is just possible, as they insist, that they in the islands, better than we American givers here, are the best judges of whether they are fitted for independence. The United States wants no outburst in the Philippines as England faces in Ireland. The easiest way to head off a rebellion is to give the

Shall We Let Philippines Go? (Cedar Rapids (In.) Republican.)
The United States cannot continue to hold the Philippines unless this nation wants to give the lie to its own professions in the matter. The United States must keep faith with the world. The American people do not want the Philippine Islands to become their Irish question.

Filipinos Are Making Headway (Mt. Vernon (O.) Republican-News)
The Filipinos are making an intense and intelligent campaign for independence. They are urging their claims with shrewdness and vigor. They declare that they have proven beyond question that they are capable of self-government, and they believe that with independence the Filipino will so conduct himself as to gain the respect of the world.

Islands their independence before they have cause to rebel.

ASKS INDEPENDENCE WITH OR WITHOUT PROTECTION

Manila, P. I.—The people of the Philippines want independence in whatever form they can get it. Manuel Quezon, president of the Philippine senate, declared in an address before that body.

"Let the Americans in the Philippines and those in the United States know that the people of the Philippines covet their freedom, liberty and political emancipation so much that they will not hesitate to receive from the Congress of the United States complete and absolute independence without protection," Quezon said.

"If the United States, actuated by its own interests, decides to extend protection to the Philippines, well and good. We would accept that as a solution of our problems. If not, let us have absolute independence in whatever form we can get it."

President Quezon declared that if the question were put before the Filipinos for a vote, 98 per cent would favor absolute independence.

CAUGHT FROM THE NETWORK OF WIRES ROUND ABOUT THE WORLD.

DURING THE PAST WEEK

RECORD OF IMPORTANT EVENTS CONDENSED FOR BUSY PEOPLE.

(Western Newspaper Union News Service.)

WESTERN

Police Captain Harry Phoenix was shot and killed, and Sergt. S. C. Houston seriously wounded in El Paso, Tex. One of two Mexicans whom the officers stopped to question as suspicious characters did the shooting. The tragedy occurred in East El Paso on a well-lighted suburban business street. A bandit who held up E. F. Smith, cashier of the First State Bank of El Paso, Idaho, forced Smith to give him \$3,000 and escaped to the hills aloft after locking the cashier in the vault. The man, who was unmasked, had the appearance of a woodsman, according to Smith, who released himself with a screwdriver. Officers are in pursuit. Inability to disguise his voice when ordered four clerks of the Pacific Oil & Lead Company of San Francisco to throw up their hands resulted in the capture of Paul Towney, former employe of the company, as the bandit who held up and robbed the cashier's office of a pay roll amounting to \$2,665. Towney confessed and the loot was recovered.

The United States has had a bad case of nerves and its people should know that the country is simply passing through a period of recuperation from a period of "gross mistakes and almost indecent things in business." Secretary J. H. Tracey of the National Association of Credit Men declared in a statement in San Francisco preliminary to the opening of the twenty-sixth annual convention of the organization.

A total of fifty-one suits to recover "strike benefits" paid out during the general strike in Tacoma, Wash., in 1910 has been filed in a Justice's Court. The suits were entered by the boiler-makers, iron ship builders and helpers, local No. 563, and demand repayment of money advanced to union members on strike more than two years ago. The information filed by the union allege that money advanced to destitute workmen was in the form of temporary loans, and was not to be considered as a strike benefit gift.

WASHINGTON

Cyrus E. Wood of Greensburg, Pennsylvania, has been selected by President Harding as ambassador to Spain, succeeding Joseph E. Willard.

An estate tax is an "allowable deduction" from the income of an estate in computing net income, the Supreme Court ruled. The court affirmed a decision of the Court of Appeals in the case brought by executor of the Alan H. Woodward estate, in Alabama, which held that the government erred in refusing to approve such a deduction from that estate's income in 1918.

Plans to increase acreage used for military purposes in the Hawaiian Islands were approved by Secretary Weeks of a conference with Chairman Kahn of the House military committee. Mr. Kahn said he regarded the military posts in Hawaii as the "most important in the system of national defense." It is proposed to add about 1,000 acres to the military reservations and make possible the training of soldiers by division.

Harris Lipschitz, an American citizen, has been murdered in Haiti, according to advices received at the office of Representative Slegel in Washington. Lipschitz was engaged in business on the island, it was said. Investigation has been ordered by Major General Lejeune, commandant of the marine corps.

The Porter peace resolution has been sent to conference by the Senate for adjustment of the differences between that measure and the Knox resolution adopted recently by the Senate. The Senate voted formally to disagree with the amendment of the House, which struck out the Knox draft and substituted the Porter draft.

Strong Democratic opposition to Senate investigation of the fighting in the Mingo county, West Virginia, coal fields developed in the Senate, and Senator Johnson's resolution proposing an inquiry went over. Senator Myers, Democrat, Montana, led the fight, declaring the matter was purely a state one. "Congress has gone mad—it has a perfect mania for investigation and regulating everything under the sun," said he.

The Elms case has kicked up a fine row in Congress. Messages from indignant members of Irish societies and others have been received by congressmen. Not all of them are of the same tenor—the majority demand that prompt punishment be meted out to the fugitive officer, but there are many endorsing the sentiments he expressed and praising him for his candor and patriotism.

Governor Cox of Massachusetts declined to take action toward reinstatement of Eustis politicians who went out on strike in September, 1918.

Southwest News From All Over New Mexico and Arizona

Ground was broken at Lordsburg, N. M., for the new Methodist church south of town, which, when completed, will be one of the finest in that part of the state and will cost over \$15,000.

Clad in leather chaps and buckskins and riding their favorite mounts, hundreds of veterans of the plains will gather in East Las Vegas, N. M., July 4, 5 and 6 for the seventh annual East Vegas cowboys' reunion.

In one of the dry-farming counties in New Mexico the women have shown their interest in improving the surroundings of their ranch homes by making home beautification a project in the county program of work.

Governor Stephens of California has signed the bill appropriating \$350,000 for the construction of the paved highway from San Bernardino, via Holtville, to Yuma. This money will become available and it is a certainty that the road will be under construction this fall or sooner.

According to census figures announced in Washington, 30,131 persons 10 years of age and over in Arizona in 1920 were unable to write. The percentage of illiterates is 15.3 compared with 20.9 in 1910. Of native whites 2.1 per cent are illiterate, while 27.5 per cent of foreign born whites are unable to read.

"Red Whiskers" Burnet, escaped convict, suspected of the murder of Marlon Teague, ranchman near Globe, Ariz., for whom a search was conducted the last three weeks through the Pinal mountains by the sheriff and posse and cowboys, was shot and instantly killed by a rifle in the hands of a member of a posse.

Postmaster Long R. Bailey of Bisbee, Ariz., has confessed to postoffice inspectors that an alleged robbery of the Bisbee postoffice April 8 was a blind to conceal a shortage in his account, according to a report received by Stephen H. Morse, chief postoffice inspector. A total of \$17,850 has been recovered from Bailey, whose alleged shortage is supposed to be \$18,000, according to this report.

Louis Quackanbush, taxicab driver, was found murdered in a clump of bushes near the main highway, four miles northeast of Douglas. He was shot through the head. His pockets had been rifled, police said. John Kiser, negro, who had engaged Quackanbush for a trip, is being held in connection with the murder. Quackanbush's automobile was found on the highway not far from the body.

Riding into San Simon, a small town eighty miles northeast of Bisbee, Ariz., on horseback, a lone bandit held up at the point of a gun A. E. Nelson, cashier of the San Simon Valley Bank, swept all the money in sight into his pockets and then rode out of town. Several citizens pursued and engaged the bandit about two miles east of the town. After four shots had been fired at him the bandit fled into the brush.

A cloudburst in Tularia cañon about fourteen miles east of Albuquerque, caused considerable property loss to ranchers. The state and forest service highways through the cañon were washed out. The flood waters hit the Santa Fe railway tracks near Barr station, south of the city, and tied up traffic for several hours, water flowing over the tracks four feet. Ranchers along the Rio Grande where the arroyo flows into the river, were flooded for a distance of several miles. Farmers who were driven from their homes took refuge in a school house.

The tax commission reduced the valuation of grazing lands in New Mexico 25 per cent after hearing protests that the valuation was heavier than the livestock industry could carry and further disaster would result unless the relief was granted. It was estimated the reduction would slash approximately \$10,000,000 from the tax roll, but it was contended it was not the commission's duty to foot the Legislature's bill, but to assess the property value.

This range stock business in Arizona is looked upon as an industry entirely separate from farming, and farming with stock raising. Reports received by the United States Department of Agriculture show that the old type of range is not continuing as profitably as it was a decade ago. The old-time antagonism between stockman and farmer is being overcome gradually. There is now a reaction from the practices of homesteaders of breaking up the pastures by settling on land where they could not make a living. In some instances miles of fence are being removed and the ranges established where dry farming has been found to be unprofitable.

Construction work has begun on the Charleston dam, twenty-two miles below Benson, Ariz., and its completion will mean the irrigation of 47,000 acres of land in the San Pedro valley about Benson, according to information given out by C. J. Malvano and J. A. Guinn, residents of Benson.

The dedication of the county seat of the new county of Harding, New Mexico, took place June 24 and 25, when Mosquera was officially proclaimed the official seat of the county. Elaborate programs were provided for the two days.

This range stock business in Arizona is looked upon as an industry entirely separate from farming, and farming with stock raising. Reports received by the United States Department of Agriculture show that the old type of range is not continuing as profitably as it was a decade ago. The old-time antagonism between stockman and farmer is being overcome gradually. There is now a reaction from the practices of homesteaders of breaking up the pastures by settling on land where they could not make a living. In some instances miles of fence are being removed and the ranges established where dry farming has been found to be unprofitable.

Construction work has begun on the Charleston dam, twenty-two miles below Benson, Ariz., and its completion will mean the irrigation of 47,000 acres of land in the San Pedro valley about Benson, according to information given out by C. J. Malvano and J. A. Guinn, residents of Benson.

The dedication of the county seat of the new county of Harding, New Mexico, took place June 24 and 25, when Mosquera was officially proclaimed the official seat of the county. Elaborate programs were provided for the two days.

Southwest News From All Over New Mexico and Arizona

Ground was broken at Lordsburg, N. M., for the new Methodist church south of town, which, when completed, will be one of the finest in that part of the state and will cost over \$15,000.

Clad in leather chaps and buckskins and riding their favorite mounts, hundreds of veterans of the plains will gather in East Las Vegas, N. M., July 4, 5 and 6 for the seventh annual East Vegas cowboys' reunion.

In one of the dry-farming counties in New Mexico the women have shown their interest in improving the surroundings of their ranch homes by making home beautification a project in the county program of work.

Governor Stephens of California has signed the bill appropriating \$350,000 for the construction of the paved highway from San Bernardino, via Holtville, to Yuma. This money will become available and it is a certainty that the road will be under construction this fall or sooner.

According to census figures announced in Washington, 30,131 persons 10 years of age and over in Arizona in 1920 were unable to write. The percentage of illiterates is 15.3 compared with 20.9 in 1910. Of native whites 2.1 per cent are illiterate, while 27.5 per cent of foreign born whites are unable to read.

"Red Whiskers" Burnet, escaped convict, suspected of the murder of Marlon Teague, ranchman near Globe, Ariz., for whom a search was conducted the last three weeks through the Pinal mountains by the sheriff and posse and cowboys, was shot and instantly killed by a rifle in the hands of a member of a posse.

Postmaster Long R. Bailey of Bisbee, Ariz., has confessed to postoffice inspectors that an alleged robbery of the Bisbee postoffice April 8 was a blind to conceal a shortage in his account, according to a report received by Stephen H. Morse, chief postoffice inspector. A total of \$17,850 has been recovered from Bailey, whose alleged shortage is supposed to be \$18,000, according to this report.

Louis Quackanbush, taxicab driver, was found murdered in a clump of bushes near the main highway, four miles northeast of Douglas. He was shot through the head. His pockets had been rifled, police said. John Kiser, negro, who had engaged Quackanbush for a trip, is being held in connection with the murder. Quackanbush's automobile was found on the highway not far from the body.

Riding into San Simon, a small town eighty miles northeast of Bisbee, Ariz., on horseback, a lone bandit held up at the point of a gun A. E. Nelson, cashier of the San Simon Valley Bank, swept all the money in sight into his pockets and then rode out of town. Several citizens pursued and engaged the bandit about two miles east of the town. After four shots had been fired at him the bandit fled into the brush.

A cloudburst in Tularia cañon about fourteen miles east of Albuquerque, caused considerable property loss to ranchers. The state and forest service highways through the cañon were washed out. The flood waters hit the Santa Fe railway tracks near Barr station, south of the city, and tied up traffic for several hours, water flowing over the tracks four feet. Ranchers along the Rio Grande where the arroyo flows into the river, were flooded for a distance of several miles. Farmers who were driven from their homes took refuge in a school house.

The tax commission reduced the valuation of grazing lands in New Mexico 25 per cent after hearing protests that the valuation was heavier than the livestock industry could carry and further disaster would result unless the relief was granted. It was estimated the reduction would slash approximately \$10,000,000 from the tax roll, but it was contended it was not the commission's duty to foot the Legislature's bill, but to assess the property value.

This range stock business in Arizona is looked upon as an industry entirely separate from farming, and farming with stock raising. Reports received by the United States Department of Agriculture show that the old type of range is not continuing as profitably as it was a decade ago. The old-time antagonism between stockman and farmer is being overcome gradually. There is now a reaction from the practices of homesteaders of breaking up the pastures by settling on land where they could not make a living. In some instances miles of fence are being removed and the ranges established where dry farming has been found to be unprofitable.

Construction work has begun on the Charleston dam, twenty-two miles below Benson, Ariz., and its completion will mean the irrigation of 47,000 acres of land in the San Pedro valley about Benson, according to information given out by C. J. Malvano and J. A. Guinn, residents of Benson.

The dedication of the county seat of the new county of Harding, New Mexico, took place June 24 and 25, when Mosquera was officially proclaimed the official seat of the county. Elaborate programs were provided for the two days.

ARMS FOUND ON SHIP

DEPARTMENT OF JUSTICE OFFICERS INVESTIGATE—CLAIM ARMS STOLEN.

(Western Newspaper Union News Service.)

New York, June 16.—More than five hundred machine guns with hundreds of spare parts, suspected by government officials to have been designed for Ireland have been seized here by customs officials.

The arms, found on the American steamship East Side, were subsequently taken from the customs men as they were being carted from the pier by Hoboken police, acting on a search and seizure warrant sworn out by Frank Williams. No further information concerning him was available. He alleged they had been stolen from him June 11. The arms were taken to police headquarters at Hoboken and will be held pending a hearing to determine who is entitled to their custody.

According to reports reaching government agencies, two changes of crews, brought about by the marine strike, resulted in discovery of the arms. It is reported that a member of one of the crews "tipped off" government investigators.

Presence of the arms on the East Side was not known to the owner, the United States Shipping Board, or its managing operators, until they were informed of their discovery by federal investigators. The East Side cleared for Norfolk, where, according to the police, she was to take a cargo of coal for Ireland. Investigations are being made by customs, Department of Justice and Shipping Board officials.

One report is that the arms were smuggled aboard from launches at night and, swathed in burlap bags, they were hoisted aboard as "engine room supplies." A member of the crew cut into one of the bags, disclosing a machine gun.

The arms were found concealed about the ship. They were removed to the dock and placed under customs guard, and while being removed to a warehouse, fell into the hands of the police by virtue of the search and seizure warrant.

Seizure by customs men is said to have been made on the ground that a shipment of arms was being attempted without compliance with maritime regulations.

A description of the arms and parts as made by Williams in his application for the warrant included 600 Thompson sub-machine guns, thirty extra thirty-capacity magazines, five fifty-capacity drum magazines, five 100-capacity drum magazines, eighty extra thirty-capacity drum magazines, twenty 100-capacity drum magazines and hundreds of parts of machine guns.

Washington, June 15.—The Department of Justice has ordered its agents in New York to investigate the arms seized on the steamer East Side at Hoboken to determine whether they constituted a shipment for abroad.

West Virginia War Renewed.

Williamson, W. Va.—War has broken out afresh in the mining country coal fields of West Virginia. Known casualties included two strikers killed and one stato trooper probably fatally wounded.

Prince Can't Pay Tax Bill.

New York.—Prince Nicholas Y. Engelchoff, formerly Russian vice consul at Chicago, is down to his last dollar. He made this admission himself when he appeared in the City Court in preliminary proceedings designed to discover whether he could pay judgments for taxcab bills of \$2,400. He said he owed the hotel to which he lived \$200. His income as a stock salesman was insufficient to pay his weekly expenses of \$60 or \$70, and he had to borrow from his friends, he said.

Woman Receives \$1,500 for Kindness.

Chicago.—Mrs. Joseph Peddock of North Chicago is \$1,500 richer for a kindness done a "millionaire tramp" eleven years ago. George Foster Peddock, at that time penniless, came to Mrs. Peddock's back door and she gave him three fingers of whisky, one breakfast and 50 cents to travel to Milwaukee. Peddock, who died very wealthy at Watertown, N. Y., remembered Mrs. Peddock in his will.

Aviators Escape After Plunge in Lake.

Tacoma, Wash.—Plunged into American lake, near here, when their airplane dived to the bottom, two Camp Lewis soldier aviators extricated themselves from the wreckage fifteen feet below the surface of the water and reached the shore unhurt. Capt. Charles W. Hillman, pilot, and Raymond Wilkerson, observer, were the participants in the gamble with death. Both are members of flight B, ninety-first aero squadron, stationed at Camp Lewis, for forest fire patrol duty.

Ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth, and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkersville, Canada.

The Alps, Apennines, Pyrenees, Russian Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac, which, according to recent reports, is now having the largest sale of any medicine of its kind in the world, over 20,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, bark and flowers are received in their rough state from all parts of the globe, until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada, to supply a demand never before equalled by this or any other medicine.

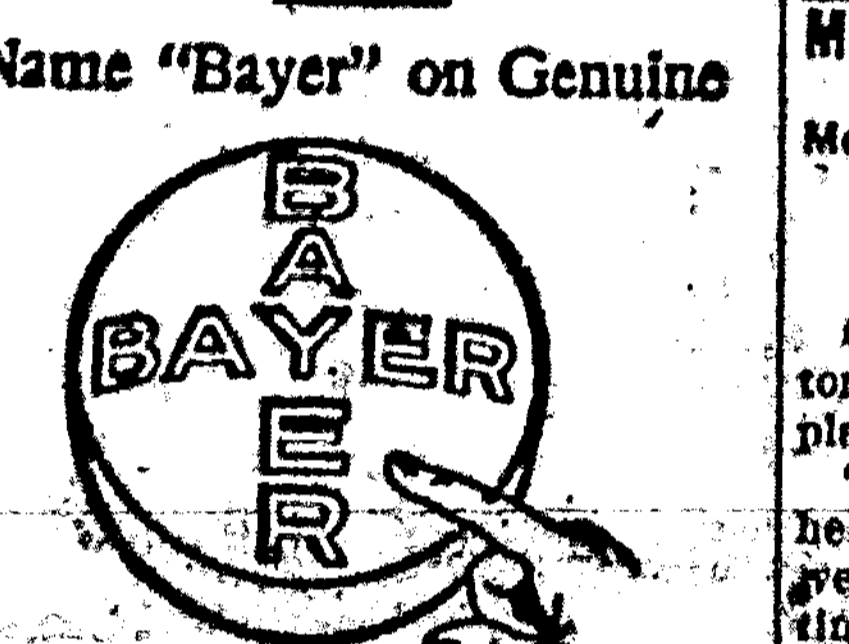

Tanlac is sold by leading druggists everywhere.—Advertisement.

Women Excel in Seed Tests.

One branch of agriculture in which women are said to excel men is seed testing and analysis. Many women are employed in this work in various state departments of agriculture.

ASPIRIN

Name "Bayer" on Genuine

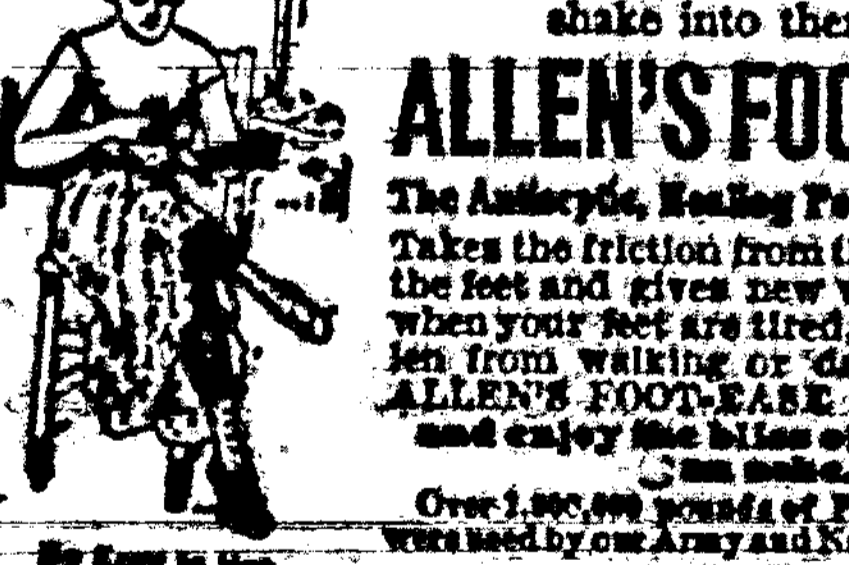

Warning! Unless you see the name Bayer on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions.

Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy little boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacturing of Monacetateester, of Salicylicacid, etc.

Value of Faith. If the fool-killer were always on the job, few would live to grow wise, since most of us gain our wisdom through experience in folly.

New Shoes—Old Shoes—Tight Shoes

all feel the same if you shake into them some

Allen's Foot-Ease

The Ambrosia, Healing Powder for the Feet

Take the friction from the shoes, loosen the feet and give new vigor. At night, when your feet are tired, sore and swollen from walking or standing, sprinkle ALLEN'S FOOT-EASE in the shoe-bath and enjoy the bliss of feet without pain.

Over 1,000,000 pounds of Powder for the Feet was used by our Army and Navy during the war.

Third Degree

Brooklyn Communist Told of Torture in Russian Prisons to Force 'Confessions'

MEETS DEPORTEES IN JAIL

Found Twenty Men Shipped Out of the United States in Various Prisons in Moscow. Many Prominent Men Also Prisoners.

Reval, Esthonia.—The worst phase of imprisonment in Moscow is not the possibility or probability of execution, but the daily attempts made to wring confessions from the prisoners, says Dr. Morris Zucker, a Brooklyn communist, who arrived here recently after having served four months in the Russian jails.

Zucker was sentenced in New York in 1918 to 30 years' imprisonment for sedition, but was deported instead. Speaking of the life of the prisoners in the principal political prison at Moscow, which is called the "O. O. V.," he said, "the daily third degree to which prisoners are subjected if they are suspected of a serious political crime is worse than execution."

Torture Repeated Daily. "These prisoners are taken every day, if their captors think there is a chance of wringing a confession from them, into the questioning room. There, whether they have anything to confess or not, they are commanded to 'reveal the truth.'"

"The commissar puts a revolver to the prisoner's head. 'Confess, or I'll shoot,' he commands. The prisoner waits for the shot. He never knows whether it is coming or not."

"This process is often repeated until the prisoner will confess rather than undergo any further ordeals, in which case he is shot anyway."

Meets Deported Radicals in Jail. The mental condition of these prisoners becomes such that they would prefer death, said Doctor Zucker. The Brooklyn communist says that he met in the various prisons of Moscow 20 of the radicals deported from America and

to understand why the Bolsheviks arrested them, for they were chiefly anarchists who did not believe in any government, "particularly in a government so dictatorial as that maintained by the Bolsheviks."

Zucker said he found in prison also the president of the Turkistan soviet republic, Mohamed Hadid; Gen. Alex Gertor, once commander of the Russian southwestern front; eight members of the executive committee of the right wing of the social revolutionist party, three members of the executive committee of the left wing of that party, including Mayorlet, who was commissar of agriculture in 1918, and also a former minister of ecclesiastical affairs, M. Samau.

Zucker described the summoning of prisoners for execution in much the same way as did Schwartz, the San Francisco communist who came out of Russia some months ago.

Los Angeles physicians have established a "mothers' educational center" where parents can bring their babies for mental and physical examination, without charge. Recommendation as to the child's care and special treatment is then made. Sick babies are not cared for. It is simply an advisory organization which examines the infants and suggests the proper care for each.

Drug Formulas Put in Chinese

Translation of United States Pharmacopoeia Will Aid Drugmakers and Scientists.

GERMANY TRIED TO GRAB IT

Attempted Before the War to Corner Drug Trade in China—Use of Different Standards Has Been Confusing and Dangerous.

Philadelphia.—The United States Pharmacopoeia is being translated into the Chinese language, it has just been announced by the Philadelphia College of Pharmacy and Science. Through the adoption of the American standard formulas for drugs and medicines, which the pharmacopoeia will

give, it is expected American drug manufacturers will benefit greatly. Professors and alumni of the local institution, according to the statement it issued, are contributing more than any other city or institution to the work.

"The statement follows: 'Germany, before the World war, tried every means within her power to have the German pharmacopoeia translated into Chinese so that German manufacturers might export to China drugs of German standards. It is understood that since the war Great Britain has been trying to have the British pharmacopoeia introduced for the benefit of British manufacturers. Practices Philadelphia Body.

"That both of them have failed is due not to the efforts of American drug manufacturers, but to the merit of the work of the pharmaceutical laboratories of the Philadelphia College of Pharmacy pharmacopoeia revision committee, of which E. Fullerton Cook, director of the pharmaceutical laboratories of the Philadelphia College of Pharmacy and Science, is chairman.

"The United States Pharmacopoeia is a collection of official formulas of standard drugs and chemicals for making various compounds or simple preparations. It is published by the United States Pharmacopoeial convention, under the authority of the government, and, under the national food and drug act of 1906, it provides the legal standards of strengths, qualities, proportions, etc.

Thirty Different Formulas. "There are about thirty different pharmacopoeias in the world, the most important being the British, French, Belgian, Swiss, German, Austrian, and American.

"Hitherto the Chinese have used German, British, French and American pharmacopoeial standards indiscriminately, according to the training of the particular druggist who filled the prescription. This has led to confusion and in some cases is likely to prove dangerous to the purchaser.

"With the Chinese government sanctioning the new pharmacopoeia uniformity and safety will prevail. American manufacturers will have the inside track and the American scientists, especially those of the Philadelphia College of Pharmacy and Science, will be accorded added recognition for their services to humanity."

FURS FOR SUMMER

Gray and Taupe Caracul About the Most Popular.

Lynx Often Seen as Trimming for Wraps—Some Chiffon Styles in Evidence.

The furs that are being worn just now vary between the sable and minks, and little animals of the same general appearance, to the largest and most sumptuous foxes in existence. These are thrown over the shoulders whether it is a suit that is worn or a dress of any sort. They are the finish that makes the whole outfit look just right and, whether the animal be the most expensive sable in existence or not, it still helps the costume to appear in its most becoming guise.

Most of the coats and capes for spring are made without fur collars, though a few of them are seen with broadly designed collars made of some fur to match the material in tone. For these summer trappings gray and taupe caracul are about the most popular, though lynx is very often seen as a trimming for the short or long wrap. There are some chiffon styles trimmed with bands of the lighter furs.

There was given in New York a fur show for the general purpose of forecasting what the fur fashions of the coming winter season would be.

It is a little far to look ahead into the future, especially for those of us who are barely beginning to think about our summer wardrobes, but it is interesting to note a few of the points that were brought out at this exhibit.

The flat furs had everything their own way, that is ermine and baby lamb and caracul and squirrel and some seal, although there was not nearly so much of the latter fur as might have been expected by those not versed in the most advanced news on this subject. The capes and the cape coats were the fascinating "moments" of the occasion, for they had about them many points that were new. In the first place, they were not wide in any sense, being just barely ample enough to wrap about the figure comfortably. They had things that were so beautiful in themselves that one did not know which was more beautiful, the lining or the wrap itself.

The sleeves were plain and wide and straight, not being gathered into any cuff bands. The collars were straight, very wide, and then turned back over themselves so that they really became

TAILLEUR OF WHITE FLANEL

An interesting tailor of white flanel is stitched in navy and worn with a small quatercorne of straw, swathed with blue chiffon.

double layers of fur. Many of the wraps were held in at the waistline by narrow, tied belts and others of them, in cape form, were made so that they wrapped about the figure in graceful, circular folds.

THE WEDDING AT THE CHURCH

Bride's Father Waits in Rear of Chancel Until Called Upon to Give Away the Bride.

The bride's mother is escorted to the first pew at the left of the church by the chief usher, while the groom's family occupy the first pews on the right. The bridal party at the first strains of the wedding march starts for the altar. At the same moment the groom and best man come from the vestry and stand at the right of the vestry steps, waiting. The ushers come first, two by two, and then the bridesmaids, the maid of honor, and the bride on the left arm of her father. The ushers and bridesmaids group themselves on either side of the chancel, and the groom receives the bride from her father or escort and proceeds to the altar. The maid of honor stands directly beside the bride, to take her bouquet and turn her train, and the best man by the groom to give him the ring. The bride's father waits in the rear of the chancel until he is called upon to give away the bride, after which he joins his wife in the first pew.—Good House-keeping.

The Tailored Suit

The link button suit, with longer coat, is the fashion for girls in their late teens or early twenties. The vogue for longer coats is due to the collar althogether so much in demand, and to the old adage that adding to the length of the coat subtracts from its width. The effect of slenderness is said to be heightened by the one button link. Navy blue twillcord is fashionable material for suits.

THE ROLL BRIM SAILOR HAT

This roll brim sailor has three rows of navy milan divided by white canton cords. Facing and crown of white santon crepe. Feather weight ivory ball drops dangle from either side. The summer fur is sand colored fox.

First Airplane Forest Patrol

Here is the start of the first airplane forest patrol night ever attempted in Minnesota, with the participation of the First Minnesota observation squadron and the co-operation of the state forestry service. Eighty-seven blazes were spotted in less than half an hour after arrival on the scene of the fires. The 208 miles from St. Paul were covered in 152 minutes. W. T. Cox, state forester, is shown shaking hands with A. E. Pinley, his assistant, who acted as observer on the flight. In the front cockpit is Lieut. V. C. Omile.

He Will "Herd Gulls"

Harvard Graduate Is Engaged for Lonesome Job.

Private Philanthropy in Which New York Millionaire Has Been Engaged for Years.

New York.—Edward Hatch, Jr., who owns Four Brothers' island, near Burlington, Vt., a rugged rock that has become famous as the breeding place of seagulls, has signed up a Harvard graduate for the lonesome job of herding gulls during their nesting season, a private philanthropy in which Mr. Hatch has been engaged for some years.

There were 1,600 applicants for the position as the result of the insertion of an advertisement in New York City newspapers, which read:

"Wanted: A man to live alone on an island; inland lake; eight miles

from shore; transportation, food, shelter, boat, etc., furnished; no work, no compensation. Address Summer-time, 600 Tribune building, New York."

"I have no faith in the theories of Thomas A. Edison when it comes to selecting the man for the place," said Mr. Hatch. "I have found in my experience that a search for the best personnel generally leads to the college man. He may start slowly, but he has the equipment and once started he goes fast and straight.

"That is why I selected a college man to be warden-of-the-gulls. The job is one that requires aptitude and judgment such as an educated man may be expected to possess."

Among applicants for the warden-ship of a lonely island were naturalists, lawyers, poets, authors, artists, ex-soldiers, sailors and ornithologists.

Mr. Hatch protects the breeding place of the gulls because he believes they are of the greatest value in coastal

servicing public health. He has been interested for many years in plans to prevent contamination of the waters of New York harbor. It is estimated that there are 200,000 gulls in and about the harbor and each of them is said to consume an average of two pounds of refuse a day. To protect the eggs of nesting gulls and save the young from destruction by vandals who visit Four Brothers island Mr. Hatch has constituted himself protector of the breeding ground. This is the ninth warden appointed.

Formal dedication of the great Oklahoma City, Okla.—Lovers have found a friend in Municipal Judge Tom Chambers.

He handed down a decision that sitting in your lover's lap is not disorderly conduct. The decision was given in the case of Denny O'Leary and Grace Reader. Police had preferred charges of disorderly conduct against the couple, claiming they found the girl sitting on O'Leary's lap.

Judge Chambers is young and unmarried.

and handed it to his host. "It took me two years to write that one," he said.

Spotted Wall Paper.

Marks where people have rested their heads can be removed from wall paper by mixing pipe clay with water to the consistency of cream, laying it on the spot and letting it remain until the following day, when it can be brushed off. The mark, unless it is of long standing, will be found to have vanished.

The Well-Chosen Jewelry

Decorations of the Gown Should Be Coming to Wearer and in Harmony With Costume.

Whether one wears pearls called from the briny deep and sold at fabulous sums, or the far more modest product of synthetic art, the intrinsic value of the jewels is as naught compared with the fact as to whether or not they are becoming to the wearer, and in harmony with her characteristics of costume, style and surroundings.

There is an indefinite je ne sais quoi about the use of jewelry, which if not handled delicately and subtly, easily slides from use into abuse. Since pearls are less arrogant in their hauteur than diamonds, they can be worn with the greater safety and good taste on many occasions, as their soft sheen never offends like the brilliant sparkle of the many faced gems, such as diamonds, rubies and emeralds.

This year's models in jewelry lend ample scope to the imagination and fanciful tastes of the lovers of jewelry, as semiprecious jewels, known as costume jewelry, are to be had in infinite variety. This consists of stones of minor value, also many compositions artificially set and vividly colored. There are strings of even and variegated designs of vivid jade, amber, coral or jet, usually worn with earrings to match. These faithful sets are a boon to many women, since they offer so many individual styles. If the individual falls in the proper selection of the fitting thing, surely it is not the lack of that choice that

guides her earring taste, but perchance ignorance of the laws of taste, good or bad, in the line of jewelry.

Just as truly as certain gowns are distinctly good taste on certain occasions, just as truly as there are jewels, so they ever so handsome, that are decidedly out of keeping at certain times and places.

This is Lace Frack Season.

The mere mention of the net and flit gowns calls visions of misty loveliness to the eye. This is particularly true now these frocks are made over foundations of chiffon in sea green, orchid and old rose. Particularly striking are the flit frockings worked in wool which have the appearance of fur. There is one black and white with the semblance of ermine, and another in black and gray, like angora or catgut.

Smart Contrast.

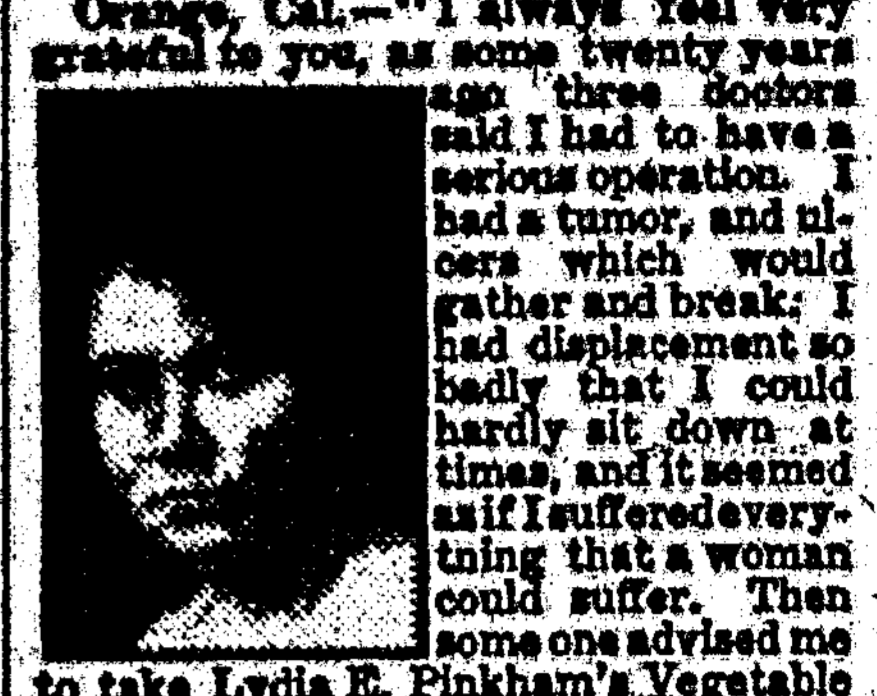

The coat dress, the favorite of this season's mode, gains originality by the addition of a novel stollie collar of vivid and contrasting color. A blue gourd will gown thus trimmed in Arabian red silk duvetya will win the approval of the woman who fully understands the meaning of the French word chic.

Black for Night. Have you noticed that the smart shops are showing all black under-vests? Even milder's night robe is a thing of glistening black lace and

SUFFERED ALL

A WOMAN COULD

Take Lydia E. Pinkham's Compound

Orange, Cal.—"I always feel very grateful to you, as some twenty years ago three doctors said I had to have a serious operation. I had a tumor, and ulcers which would gather and break; I had displacement so badly that I could hardly sit down at times, and I seemed as if I suffered everything that a woman could suffer. Then some one advised me to take Lydia E. Pinkham's Vegetable Compound, and I took it until I was cured and saved from the operation. I have told women of your wonderful medicine times without number, and I am willing that you should use these facts and my name if you like. I also used your Compound during the Change, and I can do all my own work but the heavy part, and can walk miles every day as I help my husband in the office."—Mrs. J. H. Meyer, 412 South Orange St., Orange, California.

It is quite true that such troubles as Mrs. Meyer had may reach a stage where an operation is the only resource. On the other hand, a great many women have been restored to health by Lydia E. Pinkham's Vegetable Compound.

Helen's Version. A teacher in the Irvington school was carefully leading her pupils through a lesson in the first grade.

"Now, Helen," said she, "will you please read the next sentence. Be sure and do not forget the little mark at the end of the sentence."

Helen studied the sentence. It was this: "Can you run?"

Then Helen read it thus: "Can you run, little button hook?"—Indianapolis News.

The Cuticura Toilet Trio. Having cleared your skin keep it clear by making Cuticura your every-day toilet preparations. The soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume. No toilet table is complete without them. 25c everywhere.—Adv.

Wonders of Science. "Are you sure you can prove my client is crazy?"

"Why, certainly," replied the eminent alienist. "And what is more, if you are in trouble and need my services I'll do the same thing for you."

Queen for Nine Days. The shortest reign of an English monarch was that of Lady Jane Grey, in 1553. She was queen for nine days, and then she was beheaded, and Mary, the daughter of Henry VIII, came to the throne.

WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

New Cure for Spring Fever. Lassoing mountain lions is a better cure for spring fever than massafra tea, according to a mighty Chicago hunter who has just returned from a first-class dose of his favorite spring tonic. We may be pardoned if we still persist in the belief that the disease is much to be preferred to other of the remedies prescribed.

Do the good die young because they are discouraged?

FOR SALE—A few fine, sweet,
 yellow plums (Free Silver
 variety,) at \$2.50 a box, of 20
 pounds, postpaid; extra nice fruit;
 will have a few fine peaches soon,
 at same price; order now, for
 fruit is very scarce; also pears
 and apples later. D. C. Sutton,
 Tularosa, N. M. June 17, 21

Rev. S. S. Bussell, State Se-
 cretary of the Sunday School and
 B. Y. P. U. work, will be here
 for one week from June 26 to
 July 3. He will preach and have
 full charge of all services next
 Sunday in all departments of the
 Church work. Miss Lillian May-
 stato secretary of the W. M. U.,
 will organize a training class for
 ladies Sunday evening. Be sure
 to attend.

Rev. Wm. Huffman has re-
 turned from Clouderoff, where
 he attended the Baptist As-
 sembly and heard some speakers
 of note such as Prof. Caper of
 Fort Worth, who lectured on
 "Hebrew Prophets"; Chaplin
 Pierce on the "World War"; and
 many other prominent occupied
 the platform after the Rev. left
 for home.
