How He Did It?

BEST POSTMASTER IN AMERICA IS GIVING BILL HAYS SOME TIPS.

Minneapolis, Aug. 27.—Meet the best postmaster in America—E. A. Purdy. Purdy runs the Minneapolis post-office.

Purdy a democrat—plugged hard for Wood for president in 1912 and was rewarded with the postmastership in 1914. He has done such a good job of it that not only is Postmaster General Will Hays going to retain him, if possible, but Hays has taken him to Washington to give the department pointers on how postoffices should be run.

"A postoffice ought to be more than a place to buy a postage stamp or call for a letter," said Purdy, the day he took office.

And he started out to make it so.

How He Did It.

How? Well, for one thing he put a quietus on a general movement in the direction of still higher rents in Minneapolis. The rent hogs were clamoring for more, their "wolf cry" was a "housing shortage."

Mr. Purdy just had the mail-carriers count the empty houses and flats. He did it in two days—and found 1,500. The "housing shortage" was a myth. Did rents go up? No. People found it cheaper to move than to pay higher rent.

Any postmaster with the right public spirit and an equal amount of pep can do as much for the rent ridden tenants of his bellwick.

Purdy has done a lot of other progressive things to the rusty old post-office machine. Among them he:

- Established an information bureau in the postoffice.
- Organized a postal employes band.
- Placed all street mail boxes in an exact line to speed collections.
- Shot carriers to the start of their routes in automobiles.
- Established the postoffice's own garage, thus saving money.
- Installed new machinery to facilitate handling of mail.
- Started 20-minute collection service in the afternoon in the business district.
- Insured railroads to rearrange schedules, speeding up mail four to six hours.

And that isn't all of it. Purdy figured that a special parcel post service to Lake Minnetonka, the summer resort 16 miles from the city, would pay dividends in cash as well as comfort. Answer: Ten trucks carry all kinds of supplies from the city to the resort. Returning, they bring produce from the country to city consumers.

More than that, just to overlook no opportunity for service, Purdy instructed the parcel post men to weigh babies for any mothers at whose homes they stopped. So all the babies along the routes can be weighed regularly and their mothers can know definitely whether they are gaining or losing.

Purdy's latest innovation was to install phonograph music for the night force.

"They'll not only work faster, but they'll be happier," he said. "From midnight to morning are dismal hours; music will cheer the boys up a bit."

It did—and the work has speeded up 20 per cent.

GRAPES CAN BE GROWN IN MANY PARTS OF STATE

State College, Aug. 31.—Grapes can be grown in many parts of New Mexico, but the right varieties should be selected. The European or so-called California grape is better suited to the lower and warmer irrigated parts of the state. The native varieties such as the Concord and Delaware are better adapted to the cooler and higher altitudes, according to the horticulturists of the Agricultural College.

The European grape is not quite as hardy as the native varieties and occasionally the whole vine may be winter killed, especially during a very dry and severe winter. The grower should take precautions against any loss from this source. The best and easiest way to protect the European grape is to hill the dirt around the vine to the height of 8 to 12 inches above the scaffold of the stump. The native variety being very hardy to cold, would not need to be winter protected. The grapes are more or less subject to late spring frost injury, but due to the fact that as a rule they are later in starting to grow in the spring, they escape more injury than many of the other fruits.

Vineyards are all started from cuttings, preferably rooted cuttings. When the cuttings are of the average size of 15 to 20 inches long, they can be planted half their length, leaving from 3 to 4 buds above the ground. A common distance for planting on a commercial plantation is 5 by 5 feet, which will give about 300 vines per acre. The European grape does better when trained on the stump system, while the American varieties do better when trained on a trellis.

A sandy loam to a loam is considered the best soil for grapes. The heavy adobe tends to produce too much of a cane growth and makes the grapes ripen later and more irregularly.

EDUCATIONAL NOTES

(By Mrs. M. L. Blaney.)

The Lincoln County Board of Education met in the office of the County Superintendent of Schools, August 29. The petition of patrons of School District No. 23 asking that the board restore this district to its original boundaries considered and granted.

Contract for the transportation of children of School District No. 28 awarded to Albert Rhodes. This is the first time that bids for truck service have been received.

With the exception of two or three districts, contracts for teachers have been approved by the county board. These districts are reported as having teachers hired.

The state board has been delayed in sending out the courses of study for the coming year on account of the printers being unable to complete same. We hope to furnish copies of same by the time school opens Sept. 5.

Teachers are requested to study carefully the eleven proposed amendments which will be voted upon September 20, and be able to explain those relating to schools to the patrons of their respective districts. "A nation is judged by its education" and we cannot afford to reduce the standard our schools have attained and to maintain this standard costs money.

Since all the people of the county are interested in the County High School, I submit the following report of that school for the year ending June 30:

Enrollment Senior High School, 26, four senior graduates; Enrollment Junior High School, 24, nine Eighth Grade graduates; Total 60. Total cost to County for maintenance, \$9,825.00. School organizations: Parent-Teachers association; Library association added 146 volumes to library; Athletic association, financed by the association; Home Economics Department, financed by the assistance of girls of department and donations made by friends. Balance on hand, \$112.00. Manual Training department: Repaired building, built basket-ball equipment, tables for domestic science, repaired articles from home and constructed simple cabinets.

Mr. Melville Peters, who will have charge of the Manual Training department of Lincoln County High School, arrived Wednesday from Detroit.

TO CALL PHONE RATE HEARING SEPTEMBER 12

Santa Fe, Aug. 27.—The corporation commission's hearing on protests against the scheduled telephone rate advances will be held probably September 12 provided the Mountain States Tel. & Tel. company accepts the provisions of the proposed constitutional amendment No. 5 in advance of ratification, Hugh H. Williams, chairman, stated today.

He said E. P. Davis, local attorney for the company, looked favorably on the proposal—that the company accept the provisions of the proposed constitutional amendment at once so as to speed up the hearing—and referred it to the company's general attorney at Denver. Mr. Davies expected an early answer.

Mr. Williams said the hearing probably would be held in Albuquerque. He understood Santa Fe telephone users were going to join in the fight against the advance. Only those who use one-party residence lines are hit but Mr. Williams was informed, the company will be nearly \$300 more annually from them unless the increases are knocked out.

SELLING PRICE OF CANE SYRUP IS CUT IN HALF

New Orleans, Aug. 26.—Penick and Ford, Ltd., one of the largest manufacturers of cane syrup in this country today announced a fifty per cent reduction in the selling price of its syrup. This reduction should bring the retail price to \$1 a gallon, it without additional operating cost.

FOR RENT—One, two room and one four room homes for rent. Apply to A. H. Harvey.

Mr. and Mrs. Burrell and Mrs. Beula Gkey motored down to El Paso Thursday for a short visit with friends at the border.

Mr. and Mrs. O. C. Hobbs of Carlsbad spent several days here this week among Carrizozo friends. They returned Thursday.

Mrs. Louise Spence of White Oaks left Wednesday for Carroll, Iowa, having been called to the bedside of her father, who is very ill.

Mrs. Frank Maxwell and children returned Thursday from the east where they have been visiting relatives during the vacation period.

BORN—At the St. Mary's Hospital in Roswell, Aug. 26, to Mr. and Mrs. Herrick Johnson of Glencoe, a boy, Mother and son are doing nicely.

Mrs. A. E. Sweet and daughter, Mrs. J. A. Sweet, are visiting the E. H. Sweet family of the Carrizozo Eating House for the present week.

Labor Day Proclamation

BY THE GOVERNOR.

LABOR DAY this year falls upon the 5th day of September. In American communities, where all worthy citizens are laborers in one or another department of human activity, it is unnecessary to comment upon the magnitude and important of labor.

We all know that without labor and its accomplishments, intellectual as well as material, we should not have progressed far from the status of the cave dweller; and it is fitting that a day be set aside and observed each year in honor of labor.

THEREFORE, I, M. C. McHEM, Governor of the State of New Mexico, do hereby designate

MONDAY, SEPTEMBER 5TH, 1921, as Labor Day and a Legal Holiday in the State of New Mexico.

I respectfully request that labor organizations, patriotic societies, civic, industrial, agricultural and commercial bodies, educational institutions and churches, join in preparing suitable programs for the day; that all state offices be closed, and that the national flag be displayed on public buildings as a mark of respect to Labor.

Done at the Executive Office this the 27th day of August, A. D. 1921. Witness my hand and the great seal of the State of New Mexico.

Attest: MANUEL MARTINEZ, Secretary of State, M. C. McHEM, Governor of New Mexico.

ENERGY FOR FUTURE ELECTRICITY TO COME FROM SUN SAYS STEINMETZ

With the people of the United States using more and more electricity every day.

With our known coal supply likely to run out within a few generations, and

When all the potential water power of the country developed to full capacity, will only furnish enough electricity to supply our present demands—

Where is our electricity of the future to come from?

Dr. Charles Steinmetz, electrical wizard of the General Electric company, advances an answer:

"From the utilization of the energy of the sun, directly, instead of through coal and water power," says he.

"This is absolutely feasible. Over in Egypt it is already being done."

"Perhaps many ways will be found, but one of the most simple ways is the impounding of heat by glass. Glass is transparent to light waves, but opaque to heat. The light waves pass through the glass and generate heat, which heat they imprison, so to speak."

Steinmetz points to the greenhouse as an example of this: "Sunlight passes through its glass walls," says, "and may even pass out again. But the heat it generates does not readily pass through the glass. That is why it is warmer inside a greenhouse than in the sunlight outside."

"By utilizing heat generated this way to heat water pipes we may generate steam and convert the power thus developed into electric energy."

Steinmetz says this plan is too expensive at present to be practical, but believes it indicates a path of great promise and a power resource that must be taken into consideration.

As to the tides and the interior heat of the earth furnishing the means for making electricity, the electrical wizard sees little promise.

"The power provided by impounding the tide waters is necessarily limited," he says. "For the most part the fall of water, and hence the power that can be developed from it, is relatively small."

"As to the interior of the earth, we might dig a hole ten feet deep and there find a temperature equal to that of a steam boiler. But the minute that heat source was tapped, the quantity of heat would decrease."

Plans May Help.

"In any event, the sun is the chief source of power to be considered. We may even expect some day to develop plants that will grow with such tremendous rapidity that they will absorb a very large quantity of sun energy, and hence we shall be able, using them as fuel, to turn that energy to the generation of electricity."

"While it is the height of folly to waste our present fuel resources, we need not be pessimistic as to our future sources of energy."

"One of the pressing problems, not of the future, but of the present, is to find and follow far more efficient methods of extracting the potential energy in coal and oil."

Ancho Notes

Messrs. James Cooper and Lin Branum of Carrizozo, took in the races at Duran last week.

Mrs. L. M. Scott of Carrizozo is nursing Mrs. J. W. May in her present illness. She accompanied the Mays to Hot Springs where they will remain a month.

Robert Kilgore spent the week-end with his family at their ranch north of Ancho.

The Ancho school will begin Sept. 1, with a force of new teachers.

SCHOOL NOTES

(By Sept. E. E. Cole)
The Carrizozo schools will open Monday, Sept. 5, at nine o'clock, for a short session, after which they will be dismissed on the first day. It is very important that every pupil be in place on the first day. Those having the Beacon Reader, or the Pearson and Martin Reader, should bring it, either to use or sell to some one else.

Parents and pupils please note the following directions:

Third Grade pupils should go to Miss Humphrey's room.

All Second Grade pupils should go to Mrs. Masie's room.

All First Grade pupils should go to Miss Burton's room.

All Primary pupils from the West Side should go to Miss Ivy Lindsey's room.

The above arrangement puts every pupil of each grade into the same room, with the same teacher, with the same instruction, and the same chance of promotion.

The other teachers of the city are: E. E. Cole, Superintendent and Science.

Bryan Cazler, Principal, Manual Training, Athletics.

Fanny Fordon, Commercial Branches.

Martha Layer, English and Librarian.

Ida L. Cowan, Spanish and Home Economics.

Mrs. W. L. Gumm, Supervisor of Grades and Eighth Grade.

Mrs. Nellie Clark, Seventh Grade.

Mrs. Jay Vaughn, Sixth Grade.

Mrs. Tuten, Fifth Grade.

Ellen Herron, Fourth Grade.

Mrs. J. B. French, Substitute teacher.

There will be a general teachers' meeting Saturday morning, at nine o'clock, in room eight, of the High School, at which all teachers are expected to be present.

White Oaks Items

Mr. and Mrs. White of Parson were the guests of Mrs. Chas. Speck at the Power House for a few days this week.

Mr. C. D. Mayer and family are bidding farewell to the once thriving city of White Oaks and their numerous friends to take abode in the nearby city of Carrizozo.

Miss Dolly Kenedy Yancey of Charleston, South Carolina is spending the summer with Mr. and Mrs. H. S. Hanner.

Mr. At Lattell is spending the summer months here for his health. Old friends are glad to see him.

There will be church at the Methodist church every second and fourth Sundays. Everybody come.

Food Sale

The ladies of the Methodist Church will hold a Food Sale on Saturday afternoon, Sept. 10, at the office of Mr. B. L. Stimmel. There will be not only baked foods, but also a big variety of appetizing dish foods. Anyone wishing something special, may phone Mrs. C. P. Huppertz.

Special attention is called to the fact that a meeting of all the women of the congregation will be held in the church next Tuesday afternoon, Sept. 6, at 3 o'clock. A special invitation is extended to the young women of the church.

B. Y. P. U. Program

(James Roselle, President.)

Devotional Meeting; "The High Calling."

Introduction by Leader, Earl Harkey. "In Seeking the High Calling, we are to put no Confidence in the Flesh."

Pearl Baldwin. "We Need Righteousness from God, by Faith."

Lillian Merchant. Special Music, Nellie Ayers. "Forgetting the Past." Paul McFarland.

"Cultivating a Divine Discontent for past Achievements," Lottie Ayers. "Stretching Towards the Glories of the Future," Clyde Payne.

TO INFORMATION SEEKERS

There will be a non-partisan meeting at the Court House Saturday afternoon at 2 o'clock for the purpose of having the 11 amendments explained in detail, that are to be voted on at the coming election Sept. 20. Everybody invited.

Forestry Legislation

MARKED PROGRESS SHOWN IN STATE FORESTRY LEGISLATION.

Albuquerque, Aug. 30.—Probably never in the history of our country has there been such marked interest in forest preservation by state legislators as at the present time, report officers of the Forest Service, United States Department of Agriculture. No less than 33 states have now provided for some sort of forestry activity and 25 of these states share in the Federal cooperative forest protection fund, allotted to states maintaining an effective fire detection and suppression system. Two others have also recently applied for such assistance. Public backing of the movement to preserve our remaining forests from destruction by fire, and to put our old forest lands to work growing trees, is becoming widespread, and the effects of the popular demand for action is clearly shown in the State laws passed this year.

Pennsylvania, under the able direction of Gifford Pinchot, the new Commissioner of Forestry, leads all States in forest activity, but much important State forestry legislation has been passed and many states are engaging in forestry practices this year. While bills for the compulsory teaching of fire prevention in public schools were passed by California, Rhode Island and West Virginia, a similar measure was passed by the New York legislature but vetoed by the governor. New Jersey already has such a law.

Maine, Ohio, Tennessee, North Carolina, Louisiana, New Hampshire and Connecticut have made genuine advancement in conservation and growth of forest resources by the adoption of an adequate policy for state forestry and by substantial increase of money appropriations for the carrying out of the plan and several other state legislatures have had forestry questions under consideration, which have made for progress, even though no definite legislation has been accomplished as yet.

NEW MEXICO MOHAIR GROWERS GAIN THROUGH POOLING CLIP

The mohair crop from the goats in Grant County, N. Mex., has always been sold in small lots to speculators, who never paid the growers what their clip was really worth. Most of these lots, which ranged from 200 to 1,000 pounds, were too small to ship individually. The county agent of the United States Department of Agriculture and the State agricultural college, through the assistance of the field marketing agent of the Bureau of Markets and Crop Estimates helped to organize the mohair producers in the county into a cooperative association by which the best possible price could be secured for the growers at the least expense.

The county agent, with one or two farsighted and enthusiastic growers, called on every mohair producer in the county. The mohair from the spring clip of all the growers in the association was pooled in Silver City. The fall clip will be similarly disposed of. Buyers and shippers in different parts of the country made bids for the mohair, and finally the entire lot of between 25,000 and 30,000 was shipped to a Houston purchaser at a price of practically 40 cents a pound. Without the association the growers would have sold to the buyer who goes regularly through this territory. His offer this year was 30 cents a pound, so that the growers got between \$2,500 and \$3,000 more for their mohair by selling cooperatively than they would otherwise have received.

Red Top, the Rooster, said Daddy, was crowing for all he was worth.

"I don't like creatures who put on airs," he said, and who pretend to be friendly when they aren't. Some creatures think they're doing a favor if they so much as bother to notice one.

"There was a person who came to the farm the other day and who said: 'Hello, Rooster,' and then he added a moment later: 'I believe in being friendly with all creatures.' He said it in the most condescending and superior fashion you can imagine. And of course, when he was thinking so much about his friendliness it didn't amount to much. He was really a snob without even the brains to see that he was.

"I'd rather creatures didn't notice me at all than to think they were doing such a favor when they merely speak to me, Cock-a-doodle-do, they're so right to be so high and mighty. They can't crow!"

"Cock-a-doodle-do," said Crown Rooster, "that is very true. They can't do that."

"What have you been doing lately?" asked Crown Rooster, after a minute. "I haven't happened to notice, because I have been so busy myself."

"Well," said Red Top, "I started a Feather Dressing Parlor."

"Cock-a-doodle-do, what?" asked Crown Rooster. "I know that many children like to have their hair curled, and I thought perhaps the chickens would feel the same way about it."

"So I stood upon yonder fence, and I crowed and I crowed and I crowed. 'I told the mothers to bring the chicks and I would curl the feathers most beautifully. I hung out a little sign of a leaf on a twig, and I wrote upon the sign in my rooster fashion: 'Red Top, the Rooster, Makes a Specialty of Curling Chickens' Feathers.'"

"But when did you ever make a specialty of that?" asked Crown Rooster. "Never," said Red Top, "but I thought I might just as well begin. Well, all the Mother Hens came along and asked me what I really meant to do."

"I told them I wouldn't be able to answer that question until I had commenced my work. 'But they said they didn't think I had better commence because they said that I'd be apt to set up a millinery shop with chicken feathers, and they didn't want me to do that with the feathers from their children.'"

"Then they said that it would look very badly if anyone saw me with a lot of ends of feathers about me. They'd think I was a very cruel, wicked rooster, and they wouldn't know I was in the Chicken Feather Curling Business."

"So I decided to give up that work, and to dig worms instead. I've been digging worms ever since."

"So have I," said Crown Rooster. Well, I fancy you were wise to give up your idea of curling chickens' feathers, for it's all very well to see little girls with curls, but chickens are different. Chickens don't wear bright hair ribbons, so they don't need to have their feathers curled to show them off."

"Ah, no, creatures had better stay the way they're supposed to be!"

"That is so," agreed Red Top. "That is so." "But why were you crowing so when I came along?" asked Crown Rooster. "I was crowing my thoughts," said Red Top. "If I were a person I'd speak my thoughts, but as I'm a rooster I crow them; yes, that is what I do!"

"I understand," said Crown Rooster, "for I do the same, and now crow some more and tell me some more of your thoughts, for I am an interested listener; yes, I'm an interested rooster listener."

MYSTERY OF LOST ATLANTIS

Will the Mystery of "Lost Atlantis" ever be solved to general satisfaction? The story has been told for centuries, and is still accepted as true by millions of people on both sides of the Atlantic.

The original idea was that an island of immense size and great beauty existed beyond Africa, with many large cities, and nations having strange laws and customs. Some writers have even gone so far as to describe the kind of clothing the people wore and the money they used.

Then the story goes that the inhabitants of this great island of Atlantis grew bold and warlike, and that they invaded Europe and Africa. But fate was unkind to them—because of their wickedness, it is said; terrible earthquakes and floods occurred, and in a single day and night Atlantis was swallowed up and sank into the depths of the Atlantic ocean.

In the attempt to find some ground for the persistent belief, one famous scientist fell back upon the time, thousands of years ago, when great tracts of the earth were covered with a sheet of ice of vast thickness.

In this ice were imprisoned such enormous quantities of water that the level of the oceans sank quite low, with the result that large areas of land were left uncovered. One of these uncovered portions, he suggested, was the island or continent of Atlantis, which, on the melting of the ice, was covered again by water to a great depth.

The western mountains of Europe and the eastern mountains of North America are supposed to be fragments of the high mountain ranges of this mysterious "lost Atlantis."

Pig Clubs Flourish. Wall Street has many club and fraternally men, but probably no members of the Pig club. Indeed, such a club could not flourish in lower New York. Yet, it is one of the greatest clubs in the country. The promoters are usually country banks. Membership is obtained by borrowing money from the bank to buy a pig of distinguished ancestry. Little freckle-faced farm boys make up the membership.

The notes are always paid in full and the embryo farmer becomes a producer of thoroughbred live stock. One little member in Oklahoma who started with a pig and a debt at the bank recently walked out of the fair-ground with a big cash prize in his pocket, and now he owns a herd of purebred Poland Chinas and a bank account. The Middle West is swarming with such members and still new clubs are forming. Wall Street is interested because in one year the packers alone paid the farmers \$1,750,000,000 for hogs, and these little club members are adding immensely to the value of the future production.—Wall Street Journal.

Dunsany a Fast Writer. Lord Dunsany, who, despite the slump in theaterland, has had a new play produced in London recently, appears to be well nigh as facile a playwright as Lope de Vega, remarks the Manchester Guardian. From the preface to "Plays of Birds and Men" we learn that the longest of these, a three-act tragedy, took him only three days to write; a two-act play took two days; a one-act play one day. The time allowance of an act a day was exceeded only in the case of "The Queen's Enemies," the single act of which took six days, and most readers of the volume will agree that it is the least effective play of the four.

Mr. Pond, the lecture agent under whose auspices Lord Dunsany toured the States two years ago, says: "To see Lord Dunsany at work—a thing which he seldom permits—is to see a ceremonial. He uses large, square-cut enameled paper, and he writes with a quill pen. On one side he has a great stack of fresh blotters, and when he finishes a page he blots it and throws the blotter away."

Farm on Bed of Lake. It seemed impossible to read the heading, "A Cultivated Lake," without wondering whether any of the inhabitants of the lake were cultured, like some oysters. The lake in question is Lake Cirnitz in midwestern Europe. The most cultured occupants turned out to be the human beings who sow and harvest on the lake bottom in summer, the waters having departed suddenly through great fissures in the bed of the lake. In the autumn the waters return as rapids as they went, throwing up cascades of foam as if from blowholes. Presumably the lake is fed in winter by water coming to it underground from a body of water higher in the mountains and, in turn, empties into some lower lying basin.—Christian Science Monitor.

Oysters' Liver Complaint. Two professors in physics at London university, England, are conducting exhaustive tests on behalf of the Daily Mail with a view to finding a possible difference between ordinary and Japanese pearls. A Japanese pearl is produced by inserting a seed pearl or mother of pearl into the liver of the oyster.

Mr. Alfred W. Calvert, a fellow of the chemical society, stated recently that the several specimens of Japanese pearls he possesses are identical in weight, color and luster with ordinary pearls, and they are produced by the oyster from the same material and by the same process as the other variety.

YOUNG GIRL FINDS RELIEF

Wants to Tell Other Girls All About It

Evansville, Ind.—"I am eighteen years old and have been bothered for several months with irregular periods. Every month my back would ache and I always had a cold and felt drowsy and sleepy. I work in a millinery shop and I want to work every day, but felt stupid and would have such cramps. I had seen in the paper an advertisement for Dr. Williams' Vegetable Compound and had heard several women talk of it, so mother got me some. This Vegetable Compound is wonderful and it helped me very much, so that during my periods I am not so sick or drowsy. I have told many girls about your medicine and would be glad to help anyone who is troubled with similar ailments. You may see my testimonial as you like."—GRACE LARK WILSON, 6 Second St., Evansville, Indiana.

Some girls lead lives of luxury, while others toil for their livelihood, but all are subject to the same physical laws and suffer in proportion to their violation. When such symptoms develop as irregularities, headaches, backaches, bearing-down sensations and "the blues," girls should profit by Miss Lark Wilson's experience and give Lydia E. Pinkham's Vegetable Compound a trial.

Uncertainty of a Certain Game. Two sweet young things sat in the grandstand at the baseball game. They were interested in almost everything but the game itself. Finally one of them observed: "I don't care a lot for baseball."

"Not I either," the other one joined in. "I'd rather read a book or a story or go to the movies. But an old ball game. You never know how it's going to turn out."

Another Version. The evil that men do lives after them; the good is often misconstrued by the attorney for the other side.—Southeast Missourian.

Borrowed money causes a great deal of near-sightedness.

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacturers of Monoaceticacidester of Salicylicacid.—Advertisement.

Conservation. "What is Canada doing? What are Canadians doing to stop this fearful waste of our country's precious lumber?" cried the fervent orator. "Is there one Canadian here who can truthfully tell me he is doing anything at all to save our forests from depletion?"

Gravely the little man in the front row rose with upheld hand. "What! Is there actually one?" exclaimed the orator, "and what, may I ask, are you doing to save our lumber?" "I," said the little man solemnly, "always use a toothpick twice."—Toronto Telegram.

Cuticura Soothes Baby Itches. That itch and burn with hot baths of Cuticura Soap followed by gentle anointings of Cuticura Ointment. Nothing better, purer, sweeter, especially if a little of the fragrant Cuticura Talcum is dusted on at the finish. 25c each everywhere.—Advertisement.

Jury Duty. "Court procedure is very dull." "Yes, they offer very little to interest a tired business man."

Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions. Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Advertisement.

If a word to the wise is sufficient, most clergymen must consider their congregations foolish. Conceit is often the only true term for exaggerated humility.

Women Like to Cool Feet. About half the women who drop into shoe stores to try on new pumps and the like have no idea of buying, says a clerk in one of the uptown stores who has been keeping tabs on customers. They simply want to cool off their feet. During the hot weather the percentage of nonbuyers runs high.—New York Sun.

So Much for So Little Money. It is still causing great surprise that the making of Dr. Price's Baking Powder with Phosphate instead of Cream of Tartar permits such an excellent baking powder to be sold at 25c. for a large-size 12-oz. can. But a greater surprise is in the good, light, wholesome home-baking it produces. A Large Can of Dr. PRICE'S PHOSPHATE Baking Powder 25c. The following recipe will give a hint of the wealth of good things in the New Dr. Price Cook Book, which every woman should have. COCOANUT LAYER CAKE. 1/4 cup shortening, 1 egg, 1/4 teaspoon salt, 1 cup sugar, 1 cup milk, 3 teaspoons Dr. Price's Baking Powder, 1 teaspoon vanilla extract, 3 cups flour. Cream shortening, add sugar slowly, add flavoring and well-beaten egg; add milk; mix well; then add flour, salt and baking powder which have been sifted together. Bake in three greased layer cake tins in moderate oven 12 to 15 minutes. COCOANUT FILLING AND ICING. 1 1/2 cups granulated sugar, 1/2 teaspoon vanilla extract, 3/4 cup water, 1 teaspoon lemon juice, 2 egg whites, 1 cup fresh grated cocoanut. Cook sugar and water over slow fire without stirring until syrup spins a thread; pour slowly over egg whites which have been beaten until stiff; beat until thick enough to spread; add flavoring. Spread between layers and on top of cake. While icing is still soft sprinkle thickly with cocoanut. Ask your grocer if he has an extra copy of this new Cook Book. If he hasn't, write to Price Baking Powder Factory, 1001 Independence Boulevard, Chicago, Illinois, and we will gladly mail you one. On Sale at All Grocers

Provisional Candidate

Ladies and gentlemen of the great State of New Mexico, you will soon be asked to cast your votes for the first provisional candidate in history; Mr. Richard Hanna, Democratic (provisional) candidate for U. S. Senator, who after upbraiding and denouncing the democrats for "fence riding" agreed to make the race, providing his party would raise the delicate sum of \$25,000 to use in a campaign of "mud slinging" as he conducted against Governor Mechem last fall, which was a losing game for Mr. Hanna and the same policy will defeat him this time, if he runs. But he is only to run when the MONEY is up. Mr. voter, compare this with the honest, straightforward, hard-working and established record of Senator Bursum and you will easily arrive at the right conclusion.

First Methodist Church

We greatly appreciated Brother Huffman's congregation with us last Sunday morning and evening, their pastor being out of the city. We shall be glad to return the visit as an opportunity afforded, and otherwise promote this Christian spirit. At the meeting of the Sunday School Council Monday evening, several plans were formulated for a advancement of this department of the Church. Among those were Children's Day and Sunday School Rally, as soon as practice can be completed; arrangement for Promotion Day, Oct. 2, starting a teacher training class, relieving some of the younger teachers for training and placing more experienced persons in their stead.

Sermon subjects for next Sunday are: "Marriage," "How to Maintain Harmony," "Evening," "Paul's Attitude Toward the Sinful," "David said, 'Thy Word is a Lamp unto my Feet and a Light unto my Path.'"

Serial No. 046104
Contest No. 10280

Roswell, N. M., July 25, 1921.
To Fred P. Edwards, of Corona, N. M., Contestee:

You are hereby notified that Willis R. Lovelock, who gives Corona, N. M., as his post office address, did on July 25, 1921, in this office his duly corroborated application to contest and secure the cancellation of your Homestead entry, Serial No. 046104, made Nov. 12, 1920, for NE 1/4, Sec. 10, NW 1/4, SW 1/4, W 1/2 E 1/2, Section 11, Twp. 6 South, Range 9 East, N. M. P. Meridian, and the grounds for his contest he alleges that you never established residence of said land nor cultivated or made any improvements of any kind, then. That said absence from the land was not caused by entryman's services in the military or naval forces of the United States or any of the military organizations of the various states of the United States.

You are, therefore, further notified that the said allegations will be taken as confessed and your said entry will be canceled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.

CARRIZOZO OUTLOOK

CARRIZOZO, NEW MEXICO, FRIDAY SEPTEMBER 2, 1921.

PROPOSED CONSTITUTIONAL AMENDMENTS TO BE SUBMITTED AT THE SPECIAL ELECTION SEPTEMBER 29, 1921.

Pursuant to Chapter 138, Session Laws of 1921, the following Constitutional Amendments are hereby submitted to the qualified voters at the Special Election to be held on the Third Tuesday of September, 1921.

MANUEL MARTINEZ,
Secretary of State.

first day of January next after their election.

Such officers, except the superintendent of public instruction, after having served two consecutive terms, shall be ineligible to hold any state office for two years thereafter.

The officers of the executive department, except the Lieutenant Governor, during their terms of office, shall reside and keep the public records, books, papers and seals of office at the seat of government.

any court upon any order issued by the commission within the scope of its authority the burden of proof shall be upon the carrier, company or person to whom such order is directed to show the unreasonableness of any charge or rate fixed or requirement specified in such order and such court may of its own motion and shall upon request of any interested party require or authorize additional evidence.

budget clearly itemized and classified; and the presiding officer of each house shall, immediately, cause said bill to be referred, together with the accompanying budget, to the appropriate committee, for its consideration. The governor may, before final action thereon by the legislature, amend or supplement said budget and general appropriation bill, to correct any oversight, or in case of an emergency, by delivering such amendment or supplement to the presiding officers of both houses; and such amendment or supplement shall thereby become a part of said general appropriation bill as an addition to the items of said bill or as a modification of, or a substitution for any item of said bill such amendment or supplement may effect.

"Sub-Section (H). The legislature may amend such general appropriation bill by increasing the items therein relating to the Judicial Department, but may not otherwise alter or amend such bill, except to strike out or reduce items therein.

"Sub-Section (I). Prior to the final action on the general appropriation bill, the legislature may provide for its salaries, mileage and necessary legislative expenses by special appropriation bills, specifically limited to such purposes, but before final action on the general appropriation bill, it shall not enact any other appropriation bill, except upon such recommendation of the governor.

"Sub-Section (J). The governor may, at any time, recommend to the legislature supplementary budgets and supplementary appropriation bills based thereon, all of which shall be subject to the same procedure as the original budget and the general appropriation bill.

"Sub-Section (K). After final action on the general appropriation bill, or on recommendation of the governor, special appropriation bills may be enacted, but every appropriation shall be embodied in a separate bill, limited to some single work, subject or purpose therein stated.

"Sub-Section (L). In the event of any inconsistency between any of the provisions of this section and any of the other provisions of the Constitution, the provisions of this section shall prevail. But nothing herein shall in any manner affect the provisions of Section 22 of Article IV of the Constitution, or be construed as preventing the governor from calling special sessions of the legislature as provided by Section 6, of Article IV, of the Constitution, or as preventing the legislature, at such special sessions, from considering any emergency appropriation or appropriations."

JOINT RESOLUTION PROVIDING FOR THE AMENDMENT OF SECTION 2 OF ARTICLE VII OF THE CONSTITUTION OF THE STATE OF NEW MEXICO.

H. J. R. No. 18, Appr. Feb. 15, 1921. Be it Resolved by the Legislature of the State of New Mexico:

That Section 2 of Article VII of the Constitution of the State of New Mexico, be and the same is hereby amended to read as follows:

"Sec. 2. Every citizen of the United States who is a legal resident of the State and is a qualified elector therein, shall be qualified to hold any public office in the state except as otherwise provided in this Constitution. The right to hold public office in the state of New Mexico shall not be denied or abridged on account of sex, and wherever the masculine gender is used in this Constitution, in defining the qualifications for specific offices, it shall be construed to include the feminine gender. Provided, however, that the payment of public road poll tax, school poll tax or service on jury shall not be made a prerequisite of the right of a female to vote or hold office."

No. 2

A RESOLUTION PROPOSING AN AMENDMENT TO SECTION 22 OF ARTICLE II OF THE CONSTITUTION OF THE STATE OF NEW MEXICO.

Joint Res. No. 9 (As Amended) Appr. March 8, 1921.

Be it Resolved by the Legislature of the State of New Mexico:

Section 1. That Section 22 of Article II of the Constitution of the state of New Mexico be amended so that the said section shall read as follows:

Section 22. Until otherwise provided by law no alien ineligible to citizenship under the laws of the United States, or corporation, copartnership or association, a majority of the stock or interest in which is owned or held by such aliens, shall acquire title, leasehold or other interest in or to real estate in New Mexico.

JOINT RESOLUTION PROPOSING THE AMENDMENT OF SECTION 3, ARTICLE XX, AND SECTION 5, ARTICLE IV, OF THE CONSTITUTION OF THE STATE OF NEW MEXICO.

C. S. for S. J. R. No. 4, Appr. Mch. 11, 1921.

Be it Resolved by the Legislature of the State of New Mexico:

Section 1. That Section 3, of Article XX, of the Constitution of the State of New Mexico be and the same is hereby amended to read as follows:

"Section 3. The term of office of every state, county or district officer, except the governor of the state, and those elected to fill vacancies, shall commence on the first day of January next after his election. The term of office of the governor of the state shall commence on the first day of December next after his election.

Section 2. That Section 5, of Article IV, of the Constitution of the State of New Mexico be and the same is hereby amended to read as follows:

"Section 5.

"Sub-Section (A). The regular biennial session of the legislature shall begin at twelve o'clock, noon, on the first Tuesday of February next after each general election. No regular session shall exceed sixty days and no special session shall exceed thirty days.

"Sub-Section (B). All moneys received on account of the state from any source whatsoever, shall be paid into the treasury thereof.

"Sub-Section (C). The legislature shall not appropriate any money out of the treasury except in accordance with the provisions of this section.

"Sub-Section (D). On or before the 15th of January in each year next preceding the regular biennial session of the legislature, every department, institution and agency of the State, except the legislative department, shall submit to the governor of the state a detailed statement showing actual revenues and expenditures for the two fiscal years intervening since the last regular session of the legislature, together with estimates of appropriations required to meet the financial needs of such department, institution or agency, itemized as the governor may require.

"Sub-Section (E). On or before the twentieth day of every regular session of the legislature, the governor shall prepare, and shall submit to the legislature, a budget containing a detailed statement and estimate of all anticipated revenues of the state, and a complete plan of proposed expenditures for the ensuing biennium.

"Sub-Section (F). For the purpose of preparing his budget the governor shall have power to require any board, commission, officer or department to furnish him with any information which he may deem necessary.

"Sub-Section (G). At the time the governor submits his budget to the legislature, he shall also submit a bill, to be known as the "General Appropriation Bill" which shall contain all of the proposed appropriations of the

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running nose, or imperfect hearing, and which is entirely cured. If deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; since none out of ten are cured by Catarrh.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

To Serve You

In the everyday use of your telephone you perhaps give little thought to the number of people or the amount of machinery which is necessary to provide you with telephone service.

Engineers determine where the plant is to be built, how constructed and expanded. Other employees do the construction work and keep the property in repair. Operators handle the calls and bookkeepers keep the accounts. And behind all, efficient management is necessary to finance the business and see that everything runs smoothly.

New Mexico is a new and growing state. Each year produces requirements for additional telephone plant. New plant requires new capital, and capital is attracted only by assurance of a fair return. The public and the Company must work together to supply future needs.

Provisional Candidate

Ladies and gentlemen of the great State of New Mexico, you will soon be asked to cast your votes for the first provisional candidate in history: Mr. Richard Hanna, Democratic (provisional) candidate for U. S. Senator, who after upbraiding and denouncing the democrats for "fence riding" agreed to make the race, providing his party would raise the delicate sum of \$25,000 to use in a campaign of "mud slinging" as he conducted against Governor Mechem last fall, which was a losing game for Mr. Hanna and the same policy will defeat him this time, if he runs. But he is only to run when the MONEY is up. Mr. voter, compare this with the honest, straightforward, hard-working and established record of Senator Bursum and you will easily arrive at the right conclusion.

First Methodist Church

We greatly appreciated Brother Hoffman's congregation with us last Sunday morning and evening, their pastor being out of the city. We shall be glad to return the visit an opportunity afforded and otherwise promote this Christian spirit. At the meeting of the Sunday School held Monday evening, several plans were formulated for advancement of this department of the Church. Among those were: Children's Day and Sunday School Rally, as soon as practice can be completed; arrangement for Promotion Day, Oct. 2, starting a teacher training class, relieving some of the younger teachers for training and placing more experienced persons in their stead. Sermon subjects for next Sunday are: "How to Maintain Harmony," Evening, "Paul's Attitude Toward the Sinner." David said, "Thy Word is a Lamp unto my Feet and a Light unto my Path."

granted, donated or otherwise acquired. "Section 2. A permanent Commission to consist of three members, not more than two of whom shall belong to the same political party, is hereby created, which shall be known as the "State Land Commission."

"Section 3. The members of the Commission shall be appointed by the governor, by and with the advice and consent of the Senate, and shall be subject to removal only for cause. Each member shall hold office for a term of six years from and after his appointment, and until his successor shall have been duly appointed and qualified; Provided, that the three members of the Commission first appointed and confirmed shall immediately qualify themselves by lot so that one of them shall hold office for two years, one for four years, and one for six years, from and after January 1st, 1923, and thereafter one Commissioner shall be appointed every two years; Provided, however, that the members of the Commission first to be appointed shall be appointed during the regular session of the legislature to convene in the year 1923, and, provided further, that until such Commission shall be duly appointed and qualified as hereinabove provided, the Commissioner of Public Lands elected at the general election in the year 1920 shall continue to act as Commissioner of Public Lands with all the powers and authority heretofore exercised by him.

"Section 4. The State Land Commission shall select, locate, classify, and have the direction, control, care and disposition of all public lands, under the provisions of the Acts of Congress relating thereto and such regulations as may be provided by law.

"Section 5. The Commission shall annually elect one of its members Chairman, and shall appoint a Chief Clerk, and such other officers, assistants, and subordinates as may be requisite and necessary for the proper conduct of the affairs of the State Land Office. The Commission shall prescribe its own rules of order and procedure concerning its official duties. The salaries of the Commissioners shall be fixed by the legislature.

"Section 6. All of the duties, powers, and prerogatives now by law incumbent upon or vested in the Commissioner of Public Lands of the State of New Mexico, shall as soon as the first three members, appointed and confirmed under authority of this article, shall qualify, be incumbent upon and vested in the State Land Commission, and said Commission shall thereupon be deemed to be the local successor of the Commissioner of Public Lands of this State, and shall be bound by and power to enforce all lawful contracts, entered into by the Commissioner of Public Lands on behalf of the State.

"Section 7. Any qualified elector of the State of New Mexico, who has attained the age of thirty years, and who shall have been a resident of the State of New Mexico for five years next preceding his appointment shall be qualified to hold office as a member of the State Land Commission.

"Section 8. The State Land Commission shall have a seal with an appropriate device thereon, and such seal affixed to any instrument, signed by the Chairman or Acting Chairman, and attested by the Chief Clerk, shall be prima facie evidence of the due execution thereof.

"Section 9. Each member of the Commission shall, before entering upon the duties of his office, qualify by taking the oath of office, as prescribed for all State officers, and shall execute a bond, in favor of the State, in the penal sum of \$50,000.00, conditioned upon the faithful performance of the duties of his office.

"Section 10. The Chairman of the State Land Commission shall be the

third member, together with the Governor and Attorney General, of the Commission created by Section 11 of the Act of Congress, approved June 10th, 1920, commonly called the Enabling Act."

Be it Resolved by the Legislature of the State of New Mexico: Section 1. That Section 2 of Article VIII of the Constitution of the State of New Mexico be, and the same is hereby amended to read as follows:

"Sec. 2. The maximum rate of taxation to be levied for all state purposes and uses, including the educational, penal, and charitable institutions, shall not exceed six mills on the dollar of the assessed valuation of all property subject to taxation in the state. The maximum rate of tax to be levied for all county purposes and uses, excepting special school levies, general school tax levies, special levies for health purposes and special levies on specific classes of property, shall not exceed five (5) mills on the dollar; Provided, however, that a tax not exceeding two (2) mills on the dollar of the assessed valuation of all property subject to taxation in this state may be levied for the construction and maintenance of the State Highways, which said two (2) mills levy shall not be within the State or County limitations heretofore fixed. The maximum rate of tax to be levied for all general County school purposes and uses shall not exceed ten (10) mills on the dollar; Provided, however, that an additional levy of not to exceed five (5) mills on the dollar may be made with the joint, written consent of the Board of County Commissioners and the State Tax Commission. The maximum rate of tax to be levied for City, Town, or Village purposes or uses shall not exceed five (5) mills on the dollar. The maximum amount of tax to be levied for health purposes shall not exceed one-half (1-2) mill. The maximum rate of tax to be levied by school districts for special school district purposes, shall not exceed five (5) mills on the dollar. The foregoing limitations shall not apply to levies for the payment of the public debt or interest thereon; Provided, Further, that the limitations herein contained shall not apply to tax levies authorized by the Fifth Legislature and exempted from similar limitations in existing laws.

The Story of Our States

By JONATHAN BRACE XLVI.—NEW MEXICO

AS ITS name implies, New Mexico's history is closely allied with Old Mexico. It was the Spanish who were its first explorers, De Yaca visiting this region in 1530 and Coronado four years later. The natives were the Pueblo Indians, although they are sometimes erroneously reputed to have been Aztecs as they were well advanced in the arts and had a comparatively high civilization. These Indians were conquered in 1599 by Juan de Onate and became subject to Spanish rule, being forced to work the mines and pay tribute. Missions were established and Santa Fe was founded about 1605.

Except for a period of ten years when the Indians revolted and maintained their independence, New Mexico remained under Spanish control until in 1821 Mexico gained its independence from Spain and New Mexico became a province of Mexico. Thus it remained until the outbreak of the Mexican war, when in 1846 Colonel Kearny marched from Fort Leavenworth with his troops, occupied Santa Fe and declared this region a part of the United States. By the Treaty with Mexico in 1848, the upper part of the state was formally ceded to the United States and the Territory of Mexico was organized in 1851, which reached from Texas to California.

Arizona was set off from New Mexico in 1863 and a few years later a portion was contributed to Colorado. Application for admission as a state started in 1850, but it was not until 1910 that New Mexico became the forty-seventh state.

New Mexico ranks fourth in size among the states with an area of 122,034 square miles, but is sparsely populated and accordingly has only three electoral votes for President.

Old Superstitions. In one of his novels, Walter Scott says it was believed as a truth, "that they who are born on Christmas or Good Friday have the power of seeing spirits, and even of commanding them." He also says that "the Spaniards imputed the hazard and downward look of their Philip II to the disagreeable visions to which this privilege subjected him." The well-known lines of Shakespeare indicate that in his day the crowing of the cock at dawn was believed to be efficacious in driving away spirits.

Suicide Among Musicians Rare. It has been found that suicide is very uncommon among musicians. Schumann attempted it, and it is also recorded of Tschaltkowsky, but cases of musicians who have killed themselves are very rare. It is said that these facts are so, because of the mental composure and balance fostered by music.

Deafness Cannot Be Cured
 by local applications, as they cannot reach
 the diseased portion of the ear. There is
 only one way to cure deafness, and that is
 by constitutional treatment. Deafness is
 caused by an inflamed condition of the mu-
 cous lining of the Eustachian Tube. When
 this tube is inflamed you have a running
 ear, or you hear imperfectly, and when it is
 entirely closed, deafness is the result, and
 unless the inflammation can be taken out
 and this tube restored to its normal con-
 dition, hearing will be destroyed forever; and
 once destroyed it can never be restored by
 any means. It is nothing but an inflamed con-
 dition of the mucous membrane.
 We give one Hundred Dollars for any
 case of Deafness (caused by catarrh) that
 cannot be cured by Hall's Catarrh Cure.

To Serve You

In the everyday use of your telephone you perhaps give little thought to the number of people or the amount of machinery which is necessary to provide you with telephone service.

Engineers determine where the plant is to be built, how constructed and expanded. Other employees do the construction work and keep the property in repair. Operators handle the calls and bookkeepers keep the accounts. And behind all, efficient management is necessary to finance the business and see that everything runs smoothly.

New Mexico is a new and growing state. Each year produces re-
 quirements for additional telephone plant. New plant requires new
 capital, and capital is attracted only by assurance of a fair return. The
 public and the Company must work together to supply future needs.

THOUSANDS WITNESS EXPLOSION AND SEE BIG AIRSHIP DESTROYED.

WRECK ON TRIAL TRIP

TRAGEDY OF SKY IS WORST IN HISTORY; HUGE SHIP PLUNGES INTO RIVER.

Hull, England.—Sixteen officers and men of the United States navy, and twenty-seven officers and men of the British navy met death in the collapse of the great dirigible ZR-2 over the city of Hull. Only one of the Americans on board the ill-fated craft escaped.

While flying at about 1,000 feet over Hull, spectators saw the ZR-2 seemingly buckle amidships and plunge downward over the city and into the Humber river.

When first seen from Hull the ZR-2 was approaching the city, coming from a southeasterly direction over the Humber. When sailing on an even keel above the city, according to some eye-witnesses a huge cloud of dense smoke burst from the tail of the airship.

Then there came a loud explosion and a great crash, followed by another explosion, which was accompanied by the breaking of glass in the windows on land, the whole being reminiscent of "war-time, when German airships bombed Hull and explosions shook the whole town.

The general opinion of the people of Hull is that the commander of the airship accomplished a remarkable feat of bravery in diverting the descent of the vessel so that it fell into the water instead of in the crowded streets.

Labor Leaders Whose Names Will Live

LABOR'S RIGHTS NOT EASILY WON

Struggle Has Been Long and Bitter, but the Victory is Secure.

EMPLOYERS HAVE SEEN LIGHT

Workers, by Heroic Efforts, Succeeded in Maintaining and Vindicating Constitutional Rights - Will Be No Turning Back.

By SAMUEL GOMPERS, President of the American Federation of Labor.

Employers have not come willingly or readily to see that it is just and right and wise that those who work should have their proper voice in helping to shape and determine the conditions of life and labor.

It is just a little over a decade since the scorn, which those who dominated the thought of society felt for the life and the rights of labor, was expressed by a United States Judge when, with John Mitchell and Frank Morrison, I received sentence to prison because I had dared to print and to speak the protest of labor against injustice.

Carried to the Courts.

Back of that event was history made by fighting. The National Association of Manufacturers had taken the position that the organized labor movement must be destroyed.

The result was that the working people maintained and vindicated their constitutional rights and their right to own themselves and to secure agreement with their employers by collective bargaining.

Labor in Days Before War.

When, early in 1917, the clouds of war began to become apparent to discerning men, a call was issued from the headquarters of the American Federation of Labor in Washington, asking the officials and leaders of the national and international trade unions to assemble in Washington on March 12.

the capital of our nation, hereby pledge ourselves in peace or in war, in stress or in storm, to stand unreservedly by the standards of liberty and the safety and preservation of the institutions and ideals of our republic.

With this emphatic pronouncement of labor's devotion to the republic, to the great democratic cause of the world, and with other developments that came quickly in those days on the eve of war and in the days that followed so rapidly when war became a grim and real thing among us, employers everywhere came to see that the American labor movement was something more than had been pictured to them through the prejudicial briefs of their hired lawyers.

Gompers' Home at Washington.

The history of Samuel Gompers is largely a history of organized labor. Since 1871, with the exception of one term, he has been president of the American Federation of Labor, which he was largely instrumental in organizing.

one of the great protecting bulwarks of democracy. More than that, they came to see it as a great creation of democracy.

Some critics of the American labor movement have said that it has no definite program, no formula that indicates just where it is going.

On June 19, carrying out the spirit of the labor declaration of March 13, an agreement was entered into between Secretary of War Newton D. Baker and myself, as the representative of labor.

The Force of the Worker. "As basic standards with reference to each cantonment, such commission shall use the union scale of wages, hours and conditions in force on June 1, 1917, in the locality where such cantonment is situated.

Thus, the right of workers to a voice in the determination of their conditions of life became one of America's guiding principles not only in the war industries of the government, but the spirit became most general among employers the country over.

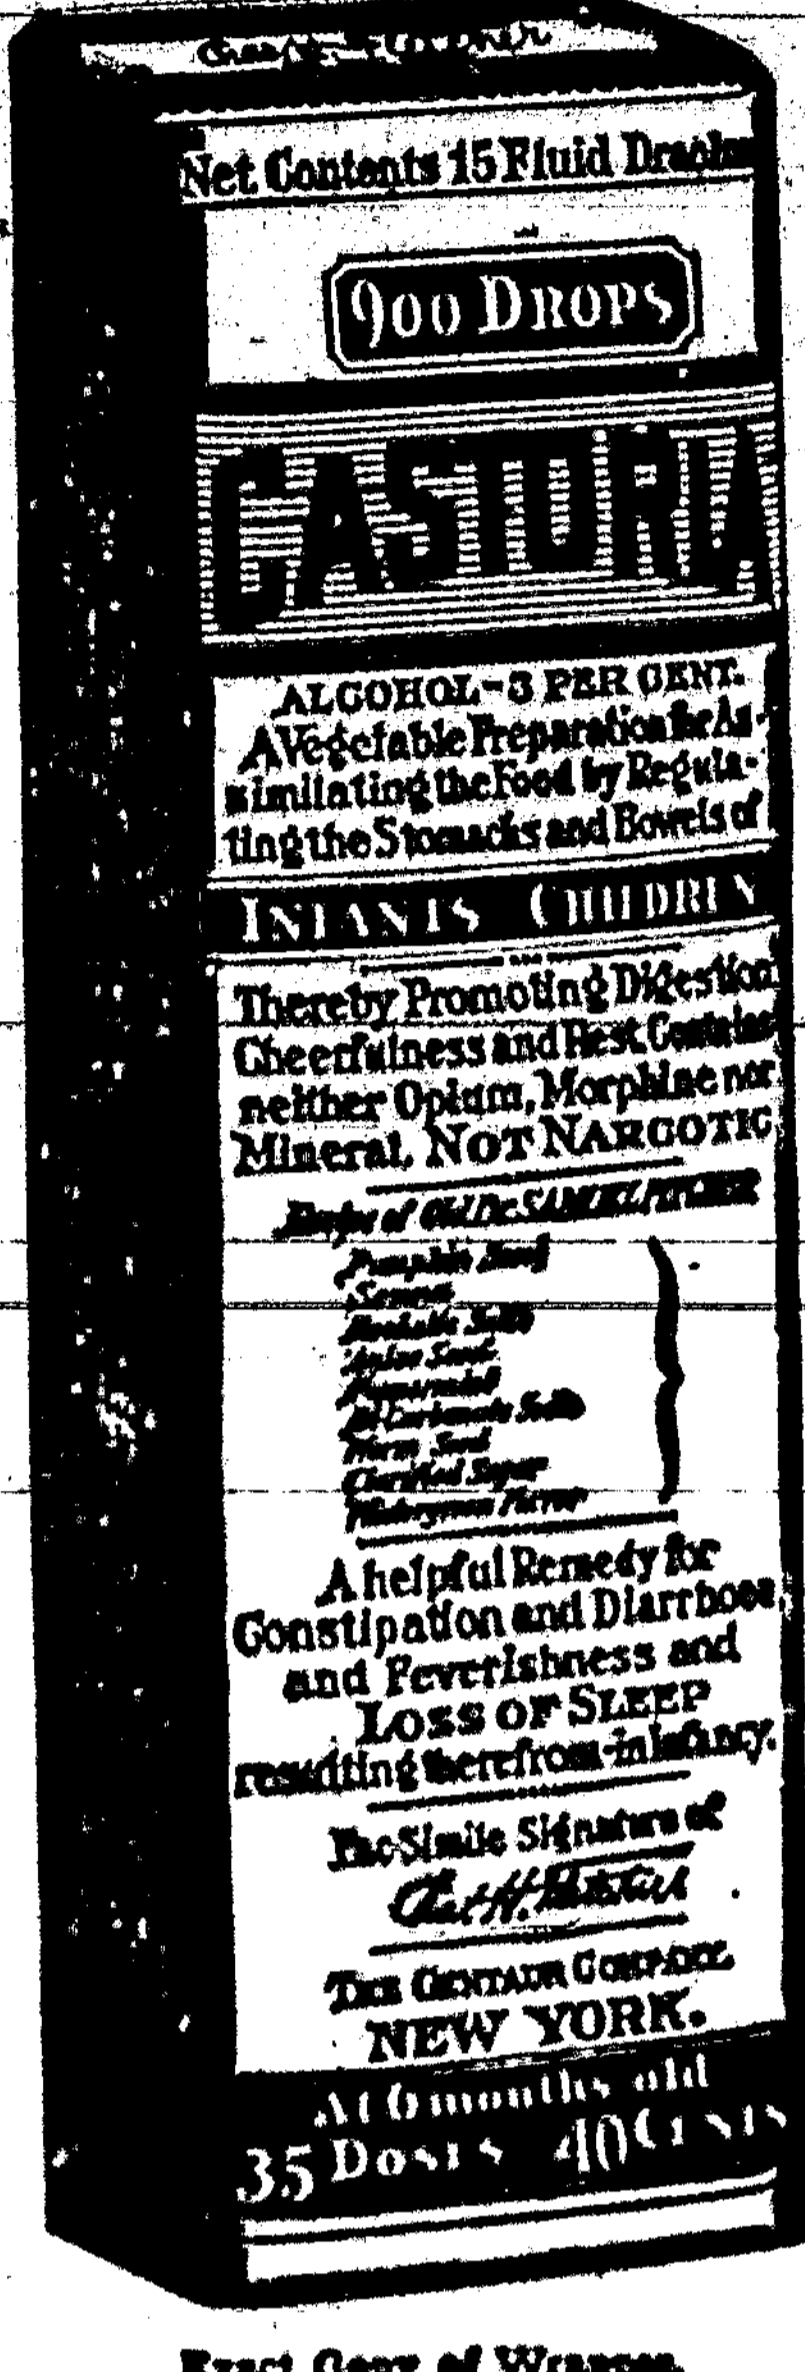

The Demands of Labor. We are upon days no less, trying than the days of war, and no less fraught with great consequences.

Progress - not for a few, but for all - that is the guiding thought and purpose of the American labor movement. I know of none better.

Making History.

INFANT MORTALITY in past ages has been something frightful, something almost beyond belief, and even today it occupies the time and the mind of leading physicians in all countries.

This being so, is it necessary for us to caution mothers against trying to give her baby relief with a remedy that she would use for herself?

Of Course You Love Your Baby.

You love it because of its very helplessness, because it can't tell you what is the matter when it feels bad.

An experienced doctor discovered Fletcher's Castoria especially for babies' use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups.

Don't neglect your baby. Get a bottle of Fletcher's Castoria and give baby a few doses of it. See how the little one smiles at you as if trying to thank you for helping it.

The Government at Washington Is at Work for the West

FOR the first time since Roosevelt's administration there is now a government at Washington that is alive to the needs of the west, and zealously at work to do all that government can do to supply those needs.

Facing mighty national and international problems, President Harding and the congress have found time to study the situation of the west's great producing industries; the grain growers, the livestock growers, the miners; and to take administrative and legislative action necessary to provide credit and markets for these industries and to restore prosperity to them and to the great states they sustain.

Within six months President Harding and the congress have accomplished for the relief of western industries and for the restoration of their prosperity, these outstanding things:

- An emergency tariff protecting meats, wheat and wool.
- The framing of a permanent tariff law which will give adequate and enduring protection to farmers and livestock growers.
- The framing of a revenue law requiring the elimination of six hundred millions of dollars of government expenditures and lifting from the shoulders of all payers of federal taxes a full one-fifth of the burden laid upon them by war and the preceding extravagant administration.
- Initiation of the \$50,000,000 livestock loan pool, which has already restored demand for the range animals grown in New Mexico, at better prices.

Enactment into law of the greatest financial relief measure in the history of the world;—The Agricultural Credits law; making available for financing and marketing the production of grain and livestock two and one half billions of dollars and saving the livestock industry of the west from ruin by checking enforced liquidation and providing the long-time credits which will enable livestock growers of this and other range states to "grow out" of debt and to grow back to permanent prosperity.

Federal supervision and regulation of the meat industry from the grower to the consumer with adequate supervision of both producers and consumers markets.

Regulation through the Capper-Tincher law, of grain exchanges and boards of trade, and the admission to these exchanges of the representatives of farmers' co-operative marketing associations, on a basis of equal advantage with professional traders.

The restoration to first place on the government's program of national aid for western development of the reclamation of arid and undrained lands.

The elimination of increases in national forest grazing fees, proposed by the preceding administration; and the postponement until December 1, of the payment of this year's forest grazing fees; thus aiding livestock growers to pass safely through the crisis of financial stringency.

Changing to July 1 the final date of mining claim assessment work, a relief sought for and welcomed by every prospector and owner of an unpatented mining claim throughout the west.

THESE THINGS HAVE BEEN DONE FOR THE WEST, AND FOR NEW MEXICO during the first six months of the Harding administration. IN EVERY ONE OF THESE UNDERTAKINGS, SENATOR HOLM O. BURSUM OF NEW MEXICO HAS TAKEN AN ACTIVE PART: IN SEVERAL OF THEM, A LEADING PART.

It was Senator Bursum who launched the agitation resulting in the forming of the \$50,000,000 livestock loan pool.

It was Senator Bursum who forced reclamation work to the front by insisting upon federal arbitration of the water rights in conflict with Utah, Wyoming, Colorado, New Mexico, Arizona and California.

It was Senator Bursum who secured the agreement of the senate finance committee to include hides in the tariff law and whose amendment to the wool tariff has been accepted as the basis for that schedule as the senate will adopt it.

President Harding and a republican congress will govern this nation for three and one half more years. The work for the west thus far is a guaranty that more and greater things are to be done. The work that Senator Bursum has accomplished is a guaranty of the greater service he can and will perform, working as he will, as a member of the administration, as one of its supporters and in harmony with its undertakings.

Should New Mexico send a democrat to the senate now, he would vote against the administration. Such a vote would avail New Mexico nothing. He might criticize the administration and the majority in congress; but no helpful result for our state or any of its people, could possibly follow.

Holm O. Bursum; a strong, aggressive, able man; already trained in senatorial service; already accepted into the councils of the national administration; already deep in a great program of constructive legislation to aid in upbuilding our state and the west; will have behind him in working out this program, the sympathetic interest and active co-operation of the national administration and of the majority in both houses of congress.

The practical interests and material welfare of the people of New Mexico demand that in the special election on September 20, we put aside partisanship, prejudice, the memory of past controversies, and that we send back to the senate, Holm O. Bursum, the man we KNOW can do most for our state and its people.

MAKE UP YOUR MIND NOW THAT YOU WILL VOTE FOR BURSUM ON SEPTEMBER 20. GET YOUR NEIGHBORS TO VOTE FOR HIM. HELP TO SEND BURSUM BACK TO THE SENATE WITH A MAJORITY SO OVERWHELMING THAT IT WILL ATTRACT NATIONAL ATTENTION, AND THAT WILL FURTHER STRENGTHEN HIM IN THE WORK HE HAS SET OUT TO DO FOR THE WELFARE OF NEW MEXICO.

Fifteen thousand men and women, members of the non-partisan Bursum clubs, join in this appeal to you to cast YOUR vote for the candidate we KNOW can do most for New Mexico.

THE REPUBLICAN CAMPAIGN COMMITTEE, O. L. PHILLIPS, Chairman.
