Mail orders given prompt attention. 11 East Colfax.

**Legal Aid Societies to Safeguard Poor**  
Stressed as Vital Need.

Washington.—Interest in the estab-  
lishment of legal aid societies for the  
poor, as one important step in Ameri-  
canization work, was advocated recent-  
ly by Charles Evans Hughes, now sec-  
retary of state, in an address before  
the American Bar Association. Com-  
ing from such a distinguished source,  
the views expressed are worthy of  
more than passing attention on the  
part of those who would aid in seeing  
that justice in the courts is given to  
both rich and poor alike, if the large  
and increasing foreign population of  
the United States is to be made to be-  
lieve in the efficacy of law and order.

The question has been asked, "Must  
aliens distrust American justice be-  
cause they don't understand its pro-  
cesses?" It has been further suggest-  
ed that "litigation is costly and cum-  
bersome and the poor, whether alien  
or native, have at present too little ex-  
perience with the boasted evenhanded-  
ness of justice. Agencies which will  
protect them in their rights, for the  
sake of having the right prevail, and  
charge them nothing for the service,  
offer a new and startling illumination  
of the workings of American democ-  
racy."

It is the belief of Mr. Hughes that  
while the legal aid society is the poor  
man's lawyer, and gives him the essen-  
tial assistance he cannot obtain else-  
where, such a society should be a re-  
sult of the patriotic labor of private  
organizations. It has been well said  
editorially that "no greater civic ser-  
vice is open to lawyers, and high-mind-  
ed citizens than to secure the needy  
and ignorant full protection under the  
law."

As emphasizing the opportunities  
for service of this kind, for such patri-  
otic service as Mr. Hughes suggests,  
it is of record that in Pittsburgh and  
Rochester 41.8 per cent of the people  
are immigrants who spoke other than  
English tongues before coming to  
America. On the other hand, New  
York City's figures show that 68.2 per  
cent of its population are best ac-  
quainted with foreign tongues and  
English is the mother tongue of but  
41.8 per cent. The percentage of for-  
eigners in Chicago is greater even  
than in New York, according to the  
census, while in Milwaukee but 28.1  
per cent are placed in the column of  
those speaking the English tongue  
originally, and 71.9 per cent other  
tongues.

**Prosecutor Fined for Contempt.**  
Los Angeles, Calif.—Thomas Lee  
Woolwine, district attorney, was ad-  
judged guilty of contempt of court for  
his share in a court room altercation  
with Paul Schenck, attorney for Ever-  
ett A. Hitchings, alleged swindler, and  
fined \$200 by Judge Frank H. Willis.

**To Preserve Plymouth Rock.**  
Plymouth, Mass.—Plymouth Rock,  
the boulder dropped on the shore here  
from a glacier ages ago, to become the  
stepping stone of the forefathers from  
the old world to the new, is to be pro-  
tected against the waters and frosts  
of future years. The plan for its pre-  
servation under a new monumental  
canopy originally included only the re-  
storing of its three parts, but it now  
has been decided to make the restored  
rock proof against the elements as far  
as practicable.

"After seeing the wonderful results  
my husband obtained from Tanlac I  
began taking the medicine myself, and  
now we both agree that it is the  
greatest medicine on earth," said Mrs.  
Nancy Sharp, a prominent and highly  
esteemed resident of Los Angeles,  
Calif., living at 921 Canulus street,  
whose husband is proprietor of the  
Merchants' Express Co.

"During the twelve years that I  
suffered with indigestion and stomach  
trouble I tried nearly every medicine  
I heard about, but nothing helped me  
and I lost faith in everything. So,  
my wonderful restoration to health  
has been the greatest surprise of my  
life."

"I began to feel an improvement on  
finishing my second bottle of Tanlac  
and now after taking six bottles I am  
like a new woman. I have a splendid  
appetite, eat three hearty meals a day,  
enjoy them thoroughly and am never  
troubled in the least with indigestion  
or any other disagreeable after ef-  
fects."

"Before taking Tanlac most every-  
thing I ate caused my stomach to  
rebel and I would suffer for hours  
afterwards. I was so dreadfully  
nervous that many nights I never  
closed my eyes in sleep, but now I  
am not the least nervous, and I sleep  
like a child. My strength has been  
wonderfully increased, and I have  
much more energy."

"I just wish it was so everybody  
troubled like I was knew about this  
wonderful medicine."

Tanlac is sold by leading druggists  
everywhere.—Adv.

**The Reason Why.**  
The school teacher was giving an  
object lesson on sheep to the infants'  
class, explaining how they are washed,  
sheared, etc. She then showed the  
whole class a picture of a sheep and  
a lamb.

"Now who can tell me why it is that  
the sheep has a short tail and the lamb  
a long one?" she asked.

Little Joy jumped up immediately,  
and this was her reply:

"Please, teacher, the sheep's tail was  
shrunken in the wash."—Every Woman's.

**WOMEN USE "DIAMOND DYES"**  
Dye Old Skirts, Dresses, Waists,  
Coats, Stockings, Draperies—  
Everything.

Each package of "Diamond Dyes"  
contains easy directions for dyeing any  
article of wool, silk, cotton, linen, or  
mixed goods. Beware! Poor dye  
streaks, spots, fades, and ruins mate-  
rial by giving it a "dye-look." Buy  
"Diamond Dyes" only. Druggist has  
Color Card.—Adv.

**Enough Said.**  
The farmer was met by a speedy-look-  
ing individual, who called out: "Is  
that your pork on the road down  
there?"

"Pork?" repeated the farmer. "What  
do you mean? There's a pig of mine  
out there."

"Ah," continued the tramp, "but  
there's a motorcar just went by."

**SWAMP-ROOT FOR  
KIDNEY AILMENTS**

There is only one medicine that really  
stands out pre-eminent as a medicine for  
curable ailments of the kidneys, liver and  
bladder.

Dr. Kilmer's Swamp-Root stands the  
highest for the reason that it has proven  
to be just the remedy needed in thousands  
upon thousands of distressing cases.  
Swamp-Root makes friends quickly be-  
cause its mild and immediate effect is soon  
realized in most cases. It is a gentle,  
healing vegetable compound.

Start treatment at once. Sold at all  
drug stores in bottles of two sizes, medi-  
um and large.

However, if you wish first to test this  
great preparation send ten cents to Dr.  
Kilmer & Co., Binghamton, N. Y., for a  
sample bottle. When writing be sure and  
mention this paper.—Adv.

**To Be Proved.**  
Voter (at local election)—Is Brown  
a good man?  
Teller—Oh, he's a good man, but I  
don't know that he's one of the elect-  
—London Answerers.

Some men would rather be wrong  
than right—at there's more money in it.

**CORN ROOT-ROTS  
CAUSE BIG LOSS**

Specialists Advise Germinating  
Kernels From Every Ear to  
Be Used for Seed.

**RAG-DOLL TEST IS FAVORED**

Estimated Damage by Disease in 1919  
Placed at 125,000,000 Bushels—De-  
stroy or Plow Under All  
Stubble Possible.

(Prepared by the United States Depart-  
ment of Agriculture.)

Corn, of one variety or another, is  
our most widely distributed cereal  
crop. Therefore, any single disease  
that takes a toll of a per cent is a  
matter for serious consideration. The  
United States Department of Agricul-  
ture estimates the damage done by  
corn root rot in 1919 at over 125,000,  
000 bushels. Multiplied by the aver-  
age price of corn for that year, we  
have before us the unpleasant fact  
that these rots exacted a tax of over  
\$200,000,000.

When it is considered that one of the  
same organisms which causes corn  
root rot also causes wheat scrub and  
that these organisms carried over on  
corn stubble may infect a field of  
wheat the next year, the seriousness  
increases.

Works Insidiously.  
Corn root rots are among the most  
deceptive diseases known to agricul-  
ture.

Preparing Rag Dolls According to the  
Improved Method.

For a common wire stretcher which  
is especially handy in repairing fence  
take a piece of hardwood cut as  
shown in the drawing. Then drive  
small nails into the edge at the large  
end, and cut off the heads, filing them  
to a point. This keeps the stretcher  
from slipping on the post while in  
use. Then make a hook from a heavy  
piece of strap iron as shown in the  
drawing and bolt to the stick with  
small bolts.

**STRETCHER IS QUITE HANDY**  
Particularly Convenient in Repairing  
Wire Fences and Is Easy to  
Put Together.

For a common wire stretcher which  
is especially handy in repairing fence  
take a piece of hardwood cut as  
shown in the drawing. Then drive  
small nails into the edge at the large  
end, and cut off the heads, filing them  
to a point. This keeps the stretcher  
from slipping on the post while in  
use. Then make a hook from a heavy  
piece of strap iron as shown in the  
drawing and bolt to the stick with  
small bolts.

**PRODUCTION OF GOATS' MILK**  
Result of Experiments Conducted at  
Government Experimental Farm  
at Beltsville.

Milk-goat experiments in grading up  
from native and grade Toggenburg and  
Saanen does with purebred Swiss  
bucks, begun in 1911, were continued  
last year by the United States Depart-  
ment of Agriculture, at the govern-  
ment farm at Beltsville, Md. The  
flock comprises 20 does and 8 kids  
of one-hair, three-fourths, six-eighths,  
and fifteen-sixteenths blood. The  
average daily milk yield per doe,  
in 1919 was 3.02 pounds, an increase  
of 2.42 pounds over the yield of the  
ten selected native does which formed  
the foundation stock of the herd. The  
highest milk yield for an individual  
doe in one day is 8.0 pounds. For  
1919 the flock showed an average of  
3.7 per cent butterfat.

**WORMS OF DIFFERENT KINDS**  
Fowls Affected Are Likely to Be Ex-  
tremely Thin in Cases of  
Long Standing.

Some chickens have worms of vari-  
ous kinds. The intestines should be  
sifted to find this out. Chickens having  
worms are likely to be unduly thin,  
and this loss of weight is extreme in  
cases of long standing.

**GREEN FOOD INJURES FOWLS**  
Too Much Causes Gall Bladder to Be-  
come Swollen and Even Burst—  
Flesh Is Tinged.

In the case of chickens eating too  
much green food the gall bladder be-  
comes greatly swollen, or may even  
burst, and its contents impart a green  
tinge to the flesh, or even to the skin  
near the gall bladder.

**WIDESPREAD WAR ON  
NATIVE FARM WEEDS**

Survey Set on Foot by Depart-  
ment of Agriculture.

New Varieties Constantly Arriving in  
Foreign Seed and Through Other  
Sources—Entire Farms Aban-  
doned to Weeds.

(Prepared by the United States Depart-  
ment of Agriculture.)

The United States Department of  
Agriculture has set on foot what is  
intended to be the most comprehen-  
sive weed survey ever undertaken. Up  
to date comparatively little is known  
of American farm weeds. They are  
classified by botanists and herbarians,  
but there are no definite data in re-  
gard to their spread, the prevalence  
of any particular weed in any local-  
ity; the amount of annual damage;  
new weeds; increase of old species;  
or local methods of eradication.

To supply the need for such data  
the section of weed investigations has  
sent a questionnaire to all the more  
than 2,000 county agents of the de-  
partment. This questionnaire asks the  
names of five worst weeds in each  
county, in order of their importance;  
the methods, if any, used by farmers  
to combat these weeds; and what  
weed problems are especially serious  
in any particular county.

Comparatively few native American  
weeds have given farmers serious  
trouble, but new varieties are con-  
stantly arriving in foreign seed and  
through other sources. Some of these  
have become such pests that entire  
farms have been abandoned to them.  
A canvass of 200 representative eastern  
farmers showed that an average  
of 22 days a year is spent at the bus-  
iest season in trying to get rid of  
weeds. Investigations by the bureau  
of plant industry over a number of  
years are taken to indicate that er-  
adication after the seedbed is prepared  
has no other use than to destroy  
weeds. If this theory proves correct,  
it will add more heavily still to the  
annual expense chargeable to weeds.

"It is the purpose of the department  
to use the projected survey as a basis  
of operation in directing a widespread  
war on the weeds now here, or the im-  
portation of any new ones, and to  
seek any local eradication method  
which may be worth general dissem-  
ination.

**STRETCHER IS QUITE HANDY**

**Every Drop of Your Blood  
Should Be Absolutely Pure**

Any slight disorder or impurities  
is a source of danger, as every vital  
organ of the body depends upon the  
blood supply to properly perform  
its functions.  
Many painful and dangerous dis-  
eases are the direct result of a bad  
condition of the blood. Among the  
most serious are Rheumatism, with  
its torturing pain; Eczema, Tetter,  
Erysipelas and other disfiguring  
skin diseases; general debility,  
which makes the strongest men  
helpless; and many other diseases  
are the direct result of impure  
blood.  
You can in a large measure avoid  
liability to disease by the use of  
S. S. S., the wonderful blood puri-  
ficer that has been in constant use  
for more than fifty years. S. S. S.  
cleanses the blood thoroughly. It  
is sold by druggists everywhere.

**Thousands of Happy Housewives  
in WESTERN CANADA**

are helping their husbands to prosper—are glad  
they encouraged them to go where they could make a home of their  
own—save paying rent and reduce cost of living—where they  
could reach prosperity and independence by buying an easy term.

**Fertile Land at \$15 to \$30 an Acre**  
—Land similar to that which through many years has yielded from 20  
to 40 bushels of wheat to the acre. Hundreds of farmers in Western  
Canada have raised crops in a single season worth more than the whole  
cost of their land. With such crops come prosperity, independence, good  
homes, and all the comforts and conveniences which make life so joyous.

**Farm Gardens—Poultry—Dairying**  
are sources of income second only to grain growing and stock raising.  
Good climate, good neighbors, churches, schools, rural telephone, etc., give you the  
opportunities of a new land with the con-  
veniences of old settled districts.

**GOT THE JOBS MIXED UP OF COURSE IT WASN'T TRUE**

But at That, Old Gentleman Had  
Equipped Coffin for the Crossing  
of the River.

Good Illustration of German Charac-  
ter in Simplicity Displayed by  
Soldier in France.

Joseph C. Lincoln told this story  
at the luncheon of the Brooklyn col-  
ony of the Society of New England  
Women recently to illustrate the effi-  
cacy in the old days of New England  
rums:

"An old Cape Cod settler made both  
boats and coffins. One day he was  
called upon to make a coffin to be  
finished in two days. The old fellow  
demurred because he was busy mak-  
ing a boat. But the need for the coffin  
was imperative, so it occurred to the  
insistent customer that New Eng-  
land rum might help. So a bottle was  
forthcoming. The old fellow took a  
swig and agreed that he reckoned  
he would have to accommodate the  
gentlemen. In two days they returned  
to find the old man asleep in the cor-  
ner, the bottle empty and the coffin  
ready, resting on two chairs. But the  
old captain had put a centerboard in  
the coffin."

Wedding Ring Finger.  
Whatever the fashion may be about  
wedding rings, the Episcopal Book of  
Common Prayer says: "The priest,  
taking the ring, shall deliver it to the  
man to put on the fourth finger of the  
woman's left hand."

Popular ministers avoid touching  
the sore spots of their congregation.

One American who remained in  
Lille during the German occupation  
used his time to study German charac-  
ter. He told Mrs. Corinna H. Smith  
and Mrs. Caroline R. Hill, authors of  
"Rising Above the Ruins in France,"  
one astonishing thing that he had not-  
iced—the childish unreasoning confi-  
dence that the German soldier had in  
whatever he was told by his superi-  
ors—and he gave this example of it.  
"I knew German," he said, "and one  
day I talked with a German soldier  
who was standing over some French  
civilians at work in a field. He was  
reading a newspaper and, turning to  
me, said indignantly, 'The French say  
we force civilians to work against  
their will. That's not true; this Ger-  
man paper denies it.'"  
"I looked at him in amazement and  
asked, 'Well what are you doing your-  
self, standing here with your gun over  
these poor people?'"  
"If I did not," was his naive answer,  
'they would run away!'"

The Modern Accountant.  
Stella—What is her husband worth?  
Bella—Well, I don't know his re-  
placement value.

A man may be poor and proud, but  
who ever heard of a man being rich  
and humble?

...PRICE-WRECKING SALE.

### TAKE A TIP FROM "UNCLE PHIL"

I came here from New York to conduct this sale for KELLEY & SON—  
According to my contract I must raise \$8,000.00 in 13 days. Before ac-  
cepting this contract I got the unqualified promise from the firm that  
they would leave the marking of prices entirely to me. Consequently  
I have fearlessly and heartlessly cut, slashed and wrecked the prices  
so that I now have them actually below THE PRESENT WHOLESALE  
COST.

So, therefore, take a tip from your "UNCLE PHIL," attend this  
sale and buy your needs in Furniture and Hardware and "Let the rest of  
the World go by."

Drop in and I'll give you some tips on the Phonograph Contest.  
(Signed)  
PHIL LEVIN.

**White Oaks Home**

The Women's Social Club met  
 on Thursday at the home of Mrs.  
 Leola Hanner. A large number  
 of the number of the members  
 were present and enjoyed the  
 social hour sewing, crocheting  
 and chatting. A photographer  
 from Carrizozo, who was in town  
 taking school pictures, took 2  
 pictures of the club. A delicious  
 lunch of coffee and cakes was  
 served. Another meeting was  
 held on Thursday of this week  
 at the home of Mrs. Smith, and  
 the husbands of the members be-  
 ing the guests.

The dance, given by the young  
 men on Saturday night, was well  
 attended and a most enjoyable  
 time reported by all those pres-  
 ent.

The Ward family have moved  
 into the old Talaiferro residence,  
 recently vacated by the E.  
 Lacey's.

Mrs. Harding, who is having  
 arrangements made to present  
 moving pictures in the White  
 House, she being a movie fan, is  
 partial to cowboy films. The  
 chances are pictures depicting  
 scenes in the West of early as  
 well as more recent days will be  
 shown often for her entertain-  
 ment.

**First Methodist Church**

Notwithstanding the implement  
 weather last Sunday morning, pres-  
 ently all of the Sunday School pupils  
 were in their places, and rendered their  
 Easter exercises in a commendable  
 manner. No one seemed to mind the  
 storm. The mantle of our Mr. R. T.  
 Gibb, former Sunday School superin-  
 tendent, has fallen on the shoulders of  
 Mr. O. Z. Finley, who was in his place  
 last Sunday and entered upon the dis-  
 charge of his official duties. His is an  
 inspiration, especially to the boys.

On account of the special services at  
 the Baptist Church, all our services  
 during the week were called in, includ-  
 ing the evening services next Sunday.  
 Since conferring with the pastor and  
 some of his people, however, it has  
 been learned that their particularly  
 revival services will be held at a later  
 date. It is mutually agreed that under  
 the circumstances it is better for us to  
 go right ahead with the regular Sun-  
 day services at present. We will gladly  
 dismiss the Sunday evening services  
 when the specifically evangelistic effort  
 is made.

Financiers know that we have re-  
 vivals in business. Literary people  
 know that we have revivals in learn-  
 ing. Likewise religious students know  
 that we have wide, sweeping religious  
 awakenings. We are not now living  
 in a time of religious error. But the  
 trend of current events indicates that  
 such a time may be expected soon.  
 The pastor begins a series along this  
 line next Sunday. The morning sub-  
 ject being: "The Nature of a Revival";  
 Text: "Wilt thou not revive us again?"  
 Ps. 85:6. And the 7:30 p.m. theme:  
 "The Desirability of a Revival"; Text:  
 "They shall revive as the corn,"  
 Hos. 14:7.

Shall be glad to have you obtain the  
 greatest possible benefit from the  
 series.

Mayor A. J. Rolland and Dr.  
 F. S. Randles left Wednesday to  
 look over mining interests which  
 are situated near Pine Lodge,  
 the mayor will return Saturday,  
 but Dr. Randles will stay to  
 oversee the work.

**Baptist Church Notes**

We had a rather large congregation  
 at the Easter program Sunday morn-  
 ing, in spite of the bad weather.

The B. Y. P. U. will have a social  
 some time in the near future. The  
 time and place is yet to be selected,  
 but due notice will appear in this paper  
 before the event takes place.

**ANNOUNCEMENTS**  
 We are hoping to have large au-  
 diences this week. Rev. L. O. Ver-  
 million will be with us Sunday morn-  
 ing, April 3, and will speak at the reg-  
 ular church hour, on the "Millions  
 Campaign." All who possibly can  
 will have the opportunity to pay their  
 pledges at that hour.

The pastor's subject for Sunday  
 evening will be, "Prodigal Son."  
**WILL YOU COME, SO THAT WE  
 MAY HELP YOU TO KNOW OUR  
 SAVIOR, IN WHOM THERE IS LIFE!**

# THE WORLD IN PARAGRAPHS

A BRIEF RECORD OF PASSING EVENTS IN THIS AND FOREIGN COUNTRIES

## IN LATE DISPATCHES

DOINGS AND HAPPENINGS THAT MARK THE PROGRESS OF THE AGE.

(Western Newspaper Union News Service.)

**WESTERN**  
Governor Boyle has announced it was his intention to sign the bill providing that all persons condemned to death in Nevada should be executed with lethal gas. He said he would not sign immediately in order to allow any persons who might object to present their reasons.

Harold Jones, a 12-year-old school boy, is dead at Muskogee, Okla. He drowned in an effort to save his 7-year-old brother, Samuel, when the latter fell into a creek near their home. The boy's mother, Mrs. W. J. Jones, dove into the creek and saved the younger boy, but was unable to reach the older child.

Governor Louis F. Hart, of Washington, signed the poll tax bill passed by the last Legislature. The bill becomes effective at once, and under it every man and woman in the state between the ages of 21 and 50 must pay a poll tax of \$5 before May 1 of each year. The first year's tax is to be \$1.10.

The Utah Association of Life Underwriters has filed a protest with the State Insurance Commission at Salt Lake against the rechartering of the Mountain States Life Insurance Company of Denver. The association alleges that the company is doing business in violation of the statutes of Utah, which prohibit discrimination, rebates and stock schemes.

An "underground dope route" between Salt Lake and Ogden, which has served to carry \$43,000 worth of drugs to Ogden victims in the last three years, has been exposed, according to the police in the arrest of Henry Hankland Hankland, the police said, confessed to making two trips daily for three years to Ogden, carrying \$50 worth of drugs on each trip.

Richard Dunkle held three aces in a poker game and thought that was enough to win the pot. Ross Wickersham, however, laid down a pat flush and raked in the winnings. Dunkle was so enraged, a witness at Fremont, Neb., testified at the trial of Dunkle for the slaying of Wickersham, that he started an argument which resulted in the fatal shooting of the winner.

**WASHINGTON**  
President Harding has accepted an invitation to attend ceremonies to be held April 19 at New York in connection with the unveiling of a statue to Simon Bolivar, the Venezuelan patriot.

The ban prohibiting withdrawals of whisky from bonded warehouses, so far as it affects retail druggists, will be lifted April 1, under an order issued by Prohibition Commissioner Kramer. Modification of the order stopping withdrawals was not extended to wholesale liquor dealers.

A recess appointment as commissioner of the general land office has been given by President Harding to William H. Spry, former governor of Utah. Edward C. Finney of Kansas was given a recess appointment by President Harding as first assistant secretary of the interior.

An urgent demand that the government of Panama immediately settle its boundary dispute with Costa Rica is made by the United States in a note dispatched to Panama and made public by the State Department. The note insists that Panama abide by the boundary decision of Chief Justice White.

April 11 was selected for the special session of the Sixty-seventh Congress, the first under President Harding's administration. The announcement was received with general satisfaction by Senate leaders. Senator Lodge of Massachusetts, Republican leader, notified the Senate of the President's decision.

The Agricultural Department announced that the average price of plover land in the United States decreased about 7 per cent in the past year, due to drop in crop prices. However, the Western states show the least decline in land prices, and in Colorado, Oregon and California there is even a slight increase over last year. Southern states, due to the cotton situation, show the greatest decline in land values.

President Harding suggested to Chairman Fordney that the House ways and means committee sound out the Senate Republicans as to the feasibility of early passage of an emergency tariff that would take care of farmers. The proposal was discussed at length, and it has been determined to pass the emergency tariff at the special session of Congress in April.

House and Senate leaders have announced agreement on a plan to push soldier bonus legislation during the early weeks of the special session of Congress to meet April 21.

**FOREIGN**  
The strike of workmen on the Mexican railways, which began the middle of February, has been settled.

The council of ministers of Belgium have decided to send Edouard Spaak to the United States to tender congratulations of the Belgian government to President Harding on his election.

Estimates that 25,000 United States landseekers will visit western Canada during 1921 have been made by Walter Johnson of Winnipeg, secretary of the Farm Lands Settlement Association of Manitoba. A very large number of inquiries about lands have been received from the states.

The million-dollar plant of the Howe Sound Mining and Smelting Company at Britannia Beach, B. C., twenty miles north of Vancouver, is reported to have been destroyed by fire. Communication by telegraph has been broken and no details are available as to the extent of the damage done. The plant is owned in New York.

Sam Lowe of Holland Landing, near Toronto, Can., was the hero of his townfolk all because he had the presence-of-mind to pull off a boot and sock and flag an onrushing passenger train before it reached a washout on the Grand Trunk railway. The sock was red, and the train stopped. Passengers made up a purse.

Customs officials have found what they believe to be a part of the Russian Imperial treasures, including a fragment of the late Czar's crown, in the baggage of the Russian commercial delegation to Italy, held in the railway station at Rome, pending examination. Brilliant as large as nuts were discovered. A collection of 1,200 ancient coins, is declared to be worth several millions.

The allied reparations commission, in its note to Germany demanding fulfillment of Article 235 of the peace treaty, has notified the German government it must pay one billion gold marks before March 23. The money must be deposited in the Bank of France, Bank of England, or the Federal Reserve Bank in the United States, Germany was told.

By the new treaty between Russia and Turkey, which defined the boundaries of Turkey, both parties undertake to recognize no international act relating to one party which is not recognized by the other, says a Moscow wireless. The old treaties between Russia and Turkey, Turkey's debts to Russia and the system of captivities are abolished. Batum is ceded to Georgia.

**GENERAL**  
Indictment of scores of Chicago landlords for making false income tax returns is threatened by Harry W. Mager, collector of internal revenue. Information furnished by tenants whose rents have been increased, will be used as the basis of the investigation Mager is now making.

The wearing of scant attire in public has been prohibited in Leavenworth, Ind., by an ordinance adopted by the town board. Any person more than 14 years old who appears on the street in a garment which exposes the arms, shoulders or legs is to be fined under the terms of the ordinance from \$5 to \$25.

The railroad labor board, in a decision at Chicago, held that the present rates of pay and working conditions of Pullman sleeping car conductors are just and reasonable and refused a request for an increase in pay and change in working conditions. The conductors are paid from \$165 to \$180 a month.

The Ford Motor Company, it is now believed in New York, has escaped the crisis which was expected to force the concern to undertake financing in the open market. Unless the affairs of this company undergo another rapid and startling change, bankers are doubtful if there will be any public offering of Ford securities, at least for a long time to come.

Clara Smith Hamon has signed a contract with a motion picture company to produce pictures for the next two years. A reception was held for her at the First Christian church, where she was baptized.

The Interborough Rapid Transit Company, operating the elevated and subway lines in Manhattan, had a net deficit of \$2,682,760 for the six months ended Dec. 31, its annual report showed, which has just been issued.

At a meeting of the board of directors of the United States Chamber of Commerce at Chicago, it was announced that the national chamber consists of 1,429 commercial and industrial organizations with a combined membership of more than 750,000 persons.

Although court decisions have generally been to the effect that whisky is not property and cannot be stolen, Judge P. K. Humphries, in the criminal division of the Superior Court at Atlanta, Ga., ruled that taking the container, which in this instance was a suitcase, constituted a theft and sentenced three Negroes to serve four to six years in the chain gang.

A taxpayer whose total tax is four cents and who insists on his right to pay in four installments was revealed in Atlanta, Ga. The taxpayer, a tall, lanky farmer, whose name was not divulged, submitted his return to the deputy collector of internal revenue, with a one cent money order to pay the first installment.

# Southwest News From All Over New Mexico and Arizona

(Western Newspaper Union News Service.)

The Indian population of Arizona in 1920 was 32,980, compared with 29,201 in 1910, the census bureau announced recently.

The Santa Fe Railroad Company has notified the officials of Carrizozo that it will soon be in a position to furnish that city with water from its supply there.

Contrary to erroneous reports gaining circulation recently in Arizona, payment on five-year fees on national forests are permitted to be postponed until September 1, 1921.

Fire of unknown origin wiped out a large part of the business section of Benson, a small town in western Cochise county, in Arizona. The loss is estimated at about \$150,000.

J. M. Dübbe, a rancher, was found murdered at his home, three miles northeast of Phoenix. The wounds in the head, presumably caused by blows from a sharp weapon, caused death.

About half a million dollars' worth of bridges and roads have been contracted for by the New Mexico State Highway Commission in connection with bids received for federal aid projects on Feb. 21 and March 8.

Governor Medchem of New Mexico has announced the appointment of Holm C. Bureau of Socorro, Republican national committeeman, as successor to Albert B. Fall, who resigned an United States senator to accept the secretary of the interior portfolio in President Harding's cabinet.

A great deal of interest is being taken in Miami in the case of Ricardo Lauterio, the Mexican sentenced to be hanged April 21, 1921, at the state penitentiary at Florence, N. M. It is claimed by the Mexicans that Lauterio is not guilty of murder as charged and that a mistake has been made in his case. Petitions are being circulated in his behalf.

The closing of two more banks has been reported to the New Mexico state bank examiner's office. These were the State National Bank at Carlsbad and the Loving State Bank at Loving, a subsidiary institution. The reason for the closing of the second was given as depleted reserves. These brought the number of banks in New Mexico closed since Nov. 1 to five.

Interested railroads have authorized a fare and one-half, on the certificate plan, from all points in New Mexico and El Paso, in connection with the annual convention of the New Mexico Wool Growers' Association and the New Mexico Cattle and Horse Growers' Association, to be held in Albuquerque, N. M., March 25 to March 31, inclusive.

Claims against the state by the Atchison, Topeka & Santa Fe railroad for transporting members of the Arizona National Guard to and from stations in Arizona, during October, November and December, 1920, and January, 1921, at the regular passenger rate of 4 cents per mile, should be allowed, according to an opinion announced by Attorney General W. J. Galbraith.

J. W. Stockard, prominent in the politics of New Mexico, former mayor of Roswell, and at present rated as wealthy stockman of New Mexico, was arraigned before United States Commissioner A. J. W. Schmid, charged with receiving smuggled merchandise, and possession and transportation of 110 quarts and 137 pints of unlabeled whisky, and 129 pints of Old Taylor whisky.

Practically all of Gov. M. C. McChesny's recommendations were carried out by the New Mexico Legislature, with the exception of a primary law. Several primary bills were introduced, but the Senate and House could not agree on any one, and the result was that all of them were killed.

A suit for \$133,450 and costs has been filed by the Blaboo Lumber Company against the Blaboo-Nuco Water Company as a result of the big fire at Lovell on Oct. 11, 1920, which destroyed property valued at hundreds of thousands of dollars. The plaintiff alleges a breach of contract in that the water company failed to have water available in a certain water main at the time of the fire.

A solemn requiem mass was held at the Cathedral of St. Francis in Santa Fe, for the late Father Amelín Weber, "apostle to the Navajos" Franciscan pioneer missionary among the southwestern Indians, the news of whose death in a hospital in Rochester, Minn., had been announced. Father Weber, for twenty-five years a missionary among the Navajos in New Mexico and Arizona, was the leading authority on the language of the tribe.

Tucson was the Mecca of members of the Yaqui tribe of Indians of the western part of Arizona who assembled there for their annual Easter festival and dance. This festival is one of the most notable events in the Yaqui calendar and ranks in importance with the ceremonies of any tribe of Indians in the United States.

After breaking into the arsenal at Camp Harry J. Jones and stealing ten army automatics, four of seven soldiers, alleged to have deserted from the Forty-eighth Infantry, were apprehended at Maco, Ariz.

# MANY SLAIN IN IRISH TROUBLE

THIRTY WOUNDED IN AMBUSHES AS REPRISALS ARE INCREASED.

## 24 KILLED IN ONE DAY

RECENT EXECUTIONS, CAUSE OF NEW OUTBREAKS, IS GENERAL BELIEF.

(Western Newspaper Union News Service.)

Dublin, March 24.—Twenty-four persons were killed, and nearly thirty wounded in ambushes reported. A party of janitors was ambushed by a force of about two hundred between Stokestown and Longford. Captain Peak and four soldiers were killed and Lieutenant Tenant and others seriously wounded, while all the others also received wounds. The military forces were in two lorries conveying prisoners when they were fired on from a wood and a house.

Police Sergeant Coghlin was killed and three policemen severely wounded in an ambush near Karrow Kennedy, County Mayo. A police inspector and eight men were ambushed near Dingle and the fight that ensued, lasting three hours, ended disastrously for the attacking party, eight of whom were killed and twenty wounded, according to an official announcement here. Three of the police were slightly wounded; it was added.

The multiplication of the ambushes is believed to be largely due to reprisals for the recent executions. The Sinn Fein is said to regard their men as belligerents and the execution of those captured as a breach of the laws of war and punishable by reprisal. The execution of Whelan was followed by the killing of two policemen in his town of Clifden. The deaths of the two policemen were avenged in Clifden by house burning.

The execution of Patrick Moran has been followed by the killing of two policemen in his district of Roscommon. For every man excepted vengeance is anticipated, and as the government has in custody many men liable to the death penalty, the piling up of deaths on each side is considered here as inevitable.

Cork.—Six civilians were killed in the Blarney district, County Cork, in a battle which ensued when crown forces were fired upon from a farm house. The military were conducting a search for wanted men when they were attacked.

A farmer's house at Clogheen was surrounded by crown forces. Young men, it is reported, were taken out of the house and ordered to run for their lives. They were fired upon, four being shot dead.

## Refuge Women Jurors.

San Francisco.—A jury composed entirely of men was chosen to hear evidence in the trial of Mrs. Margaret Clark, charged with murder, after the defendant had refused to accept any woman jurors and persistent effort by her counsel had removed all women from the jury box.

## Bandits Lock Up Clerks.

Detroit, Mich.—Six armed bandits entered a branch of the Commonwealth Reserve Bank here, locked two male clerks in a rear room, scooped \$3,500 in currency into two black leather bags and escaped in a touring car.

## Packing House Strike Averted.

Washington.—Prospects of an immediate strike in the packing industry have been averted through the mediation of Secretary of Labor Davis. Compromises by the employes in accepting a wage reduction and by the five big packers in consenting to a six months' extension of the Alachuler arbitration agreement made possible the settlement after three days of conferences in which representatives of packers and employes and Secretaries Davis, Hoover and Wallace participated. The settlement as agreed to follows: Reduction of wages of 8 cents an hour for hourly workers and to 12 1/2 per cent for piece workers. Retention of the basic eight-hour day and overtime rates as provided in the war-time Alachuler rulings.

## Race Horses Burn.

West Springfield, Mass.—Eleven race horses and breeding stallions were burned to a crisp and two brood mares were scorched so badly they were shot in a fire in the Eastern States Exposition grounds. The total loss is estimated at \$60,000.

## Man on Nonregulation Clothing.

Washington.—The snappy "huck pirate" with visions of "outshining" his comrades on special occasions by the use of a few nonregulation touches around his attire received the news that Secretary Weeks had issued an order placing a ban on all nonregulation clothing. In February, 1919, a War Department order was issued permitting the wearing of certain nonuniform articles procured during the war emergency. The new order rescinded that ruling.

**WAS NEW ONE ON KITCHENER.**  
Great British Soldier Somewhat Out of His Element When It Came to Chaplains.  
Here is a Lord Kitchener story, told by the anonymous author of "The Mirrors of Downing Street." Kitchener was a soldier and absorbed in his profession. Details outside of his ruling passion annoyed him.  
During the early days of the war Lloyd George went to him at the war office and asked the appointment of denominational chaplains for the various units of the army.  
Kitchener had no interest in chaplains. He regarded them as a negligible factor in the fighting machine.  
He opposed the appointments. Lloyd George insisted, especially with respect to Presbyterians. Kitchener finally yielded and picked up his pen.  
"Very well," he said, "you shall have a Presbyterian." Then a faint smile lighted his serious face. "Let me see, Presbyterian?—how do you spell it?"  
"P-e-n-s-y-l-v-a-n-i-a and the states east and north do not produce one-fourth of the work animals they use and are constantly drawing on the Central West for their work stock. Many of these are farm chunks sold directly to eastern farms, while others are horses produced and worked on the farms of the Mississippi valley until five or six years old, then passed to eastern cities, where after six or eight years of service they are resold as sore-footed city-worn horses to dealers, who sell them at a very nominal figure to farming sections of New England, to work the balance of their days. Such horses represent a complete cycle from farms to cities and back to farms again. It is more true now than in the past, that the good horse or mule pays a profit to the producer, the dealer and ultimate user, while the poor one loses money to all concerned.—Exchange.  
One Would Be Happy.  
It was the first night of the new play.  
"I say," remarked the author to the manager, "that scene-shifter over there is a most peculiar looking fellow."  
"Yes; he's an Eskimo," said the manager.  
"An Eskimo! What on earth made you take him on?"  
"Oh, I thought it would be a comfort to see one happy face if the play turns out to be a frost!"  
No Room for the Incompetent.  
Much of the work done in this world has to be undone. Incompetency is the greatest drawback to progress. Incompetents are the most costly members of society, and always will be. That's why there is always a premium on brains and skill, which combine to produce efficiency.—Exchange.

**NEW SOLVENT IS GREAT FIND**  
 Removes Paints, Varnishes, Enamels and Shellacs Without Injuring Wood.

**WAS DREAM OF ALCHEMISTS**  
 Dissolves Rubber, Glue, Hydrocarbons and Many Substances Heretofore Regarded as Most Resistant to Chemical Agencies.

Lincoln, Neb.—New properties of a liquid described before the students of the department of chemistry of the University of Nebraska show that it almost realizes the dream of the alchemists of old who sought the universal solvent.

As described by Dr. Victor Lenher, professor of chemistry at the university of Wisconsin, who has come here to deliver a series of addresses on the subject, further tests have shown that selenium oxychloride, as the solvent is called, is more powerful even than was indicated in his preliminary announcement made before the American Chemical Society.

It dissolves rubber, glues, enamels, hydrocarbons and many other substances which hitherto have been regarded as most resistant to all chemical agencies except fire.

Other Substances Dissolved. Such products as redmanol, bakelite and condensite, which are used as substitutes for amber in the making of pipe stems and for many other industrial purposes, and have been until now regarded as insoluble in all known solvents, are readily dissolved by selenium oxychloride, according to the announcement of Dr. Lenher. By its use ordinary paints, varnishes and shellacs can be removed from furniture and carriages and other objects without injuring the wood, and enamels can be taken from automobiles without affecting the steel body.

"Its solvent powers are so vigorous," said Dr. Lenher, "that it will remove the bitumen from soft coal, but will not attack the pure carbon of anthracite."

Dr. Lenher also sees a military possibility in this powerful solvent, as it can be employed in making more porous charcoals contained in the filter material of war gas masks, a process known as activation.

"The coconut charcoal used in the gas mask," continued Dr. Lenher, "can be activated by this new reagent by treatment at ordinary temperatures, which is a considerable advance over the older steam activation at a white heat."

The use of activated charcoal in the extraction of gasoline from natural gas is one which is interesting chemists today, and still leaves the gas available for household and industrial purposes. As a laboratory reagent, Dr. Lenher said that the properties of selenium oxychloride are so unusual that it is likely to come into common use wherever research is conducted.

The solvent, which was formerly regarded as merely a laboratory curiosity, is finding its place in many industries. The original statements concerning its exceptional powers have been amply verified, the speaker asserted, by him and a group of students who have been attracted to the laboratories of the University of Wisconsin during the last year.

Once a Waste Product. The raw material from which it is obtained was once a waste product from the electrolytic refining of copper, for until recently the selenium from these electrolytic slimes, while known to the chemist as a rare element, had been considered as almost valueless. The solvent itself is a heavy liquid, and nearly odorless. It can be readily handled in a commercial way, however, for were it the "universal solvent" of alchemy it could not be transported, as no vessel could withstand it.

This discovery of everyday uses for a substance formed from discarded material is regarded by scientists as a typical illustration of the value of research.

**BIG DRIVE ON OPIUM TRAFFIC**

Nation-Wide Campaign Being Made to Keep Illicit Drugs Out of the Country.

**FAIL TO GET SMUGGLERS**

Authorities Admit They Have Been Helpless in Preventing Addicts From Securing Dopes—Where Opium Comes From.

New York.—A nation-wide campaign is being made against the sale of illicit drugs in the United States. Federal investigators have reported that more morphine, heroin, cocaine and straight opium are being used in New York city, Chicago, San Francisco, Philadelphia and Boston than ever before. While the authorities in these cities have the laws necessary to deal with the situation, they declare they cannot stop something they cannot see.

When it is considered that one man can cross the Canadian border or the Rio Grande and, without changing his appearance in any manner, return with several thousand dollars' worth of drugs, it may be realized how difficult it is for national, state and municipal authorities to cope with the situation. Besides this difficulty, the government has announced that the illegitimate use of habit-forming drugs has increased anywhere from 25 to 50 per cent since the Eighteenth amendment became an appendix to the Constitution.

Where Opium Comes From. Virtually all of the opium lawfully sent to the United States comes from London and Edinburgh. In these cities three manufacturers send out more opium than all the rest of the manufacturers in Great Britain. While some of the opium smuggled into this country comes from India, a larger portion comes from Turkey, Persia and Syria.

In New York city the narcotics squad of the Internal revenue bureau has made frequent raids against the smuggler, the dispenser and the addict. They have discovered that much cocaine and opium are brought in by sailors on passenger and freight steamships.

Easy to Land Drugs. The authorities realize that it is an easy matter for a harbor boatman to load his clothing with "dope" during the night. He is not subjected to daily search. So long as he maintains reasonable care and observance of common sense in his methods he can continue indefinitely. Drugs are easily concealed. Federal authorities have found opium in women's hair, sewed into men's hat bands, contained in artificial limbs filling the inner tubes of automobile tires, in consignments of lumber and vegetables and even in collars worn by dogs trained to make daily trips across the Canadian border.

The solution of the problem lies in a federal act prohibiting the importation, manufacture and exportation of habit-forming drugs, except in such limited amounts as are necessary for the legitimate uses of the medical profession, according to Royal S. Copeland, health commissioner of New York city. He said every honest pharmacist should be made an agent of the government to handle opium and its derivatives.

**Watch Won't Wake Dead; Owner Jailed**

Miami, Fla.—Failure of a watch, buried at the side of Laura Miller's husband's grave, to awaken the dead spouse caused the arrest of Joe Thomas.

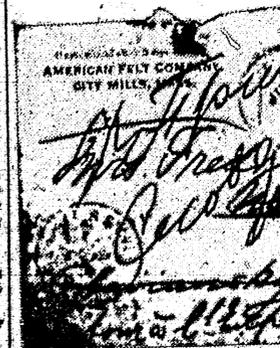

The woman gave Thomas \$15 and a gold watch when the latter promised to resurrect her dead husband.

Thomas buried the watch at the side of the grave, saying this action would arouse the dead man.

Several days of "watchful waiting" failed to produce results. Thomas was charged with embezzlement and bound over under a \$500 bond.

**Letter Traveled Nineteen Years**

AMERICAN FELT COMPANY  
 CITY MILLS

This is a photograph of the envelope, containing a letter written and mailed in 1902, and which has just been delivered to Mrs. Fred L. Pratt at Dedham, Mass. The letter was addressed to Mrs. Pratt, who was visiting in Moscow, Russia. It arrived there after her departure, and has since, according to the many postmarks, passed through Germany, France, England and other European countries. It was finally sent back to the United States.

**New Mechanical Cotton Picker**

This combination of a two-headed, mechanical cotton picker, operated by a small electric motor and mounted on a compact garden tractor, is said to be able to pick 140 pounds of cotton an hour. After the picking head has removed the burr, the fluffy cotton is drawn by a small blower through the big flexible tubing into a container on the tractor.

its use ordinary paints, varnishes and shellacs can be removed from furniture and carriages and other objects without injuring the wood, and enamels can be taken from automobiles without affecting the steel body.

"Its solvent powers are so vigorous," said Dr. Lenher, "that it will remove the bitumen from soft coal, but will not attack the pure carbon of anthracite."

Dr. Lenher also sees a military possibility in this powerful solvent, as it can be employed in making more porous charcoals contained in the filter material of war gas masks, a process known as activation.

"The coconut charcoal used in the gas mask," continued Dr. Lenher, "can be activated by this new reagent by treatment at ordinary temperatures, which is a considerable advance over the older steam activation at a white heat."

The use of activated charcoal in the extraction of gasoline from natural gas is one which is interesting chemists today, and still leaves the gas available for household and industrial purposes. As a laboratory reagent, Dr. Lenher said that the properties of selenium oxychloride are so unusual that it is likely to come into common use wherever research is conducted.

The solvent, which was formerly regarded as merely a laboratory curiosity, is finding its place in many industries. The original statements concerning its exceptional powers have been amply verified, the speaker asserted, by him and a group of students who have been attracted to the laboratories of the University of Wisconsin during the last year.

Once a Waste Product. The raw material from which it is obtained was once a waste product from the electrolytic refining of copper, for until recently the selenium from these electrolytic slimes, while known to the chemist as a rare element, had been considered as almost valueless. The solvent itself is a heavy liquid, and nearly odorless. It can be readily handled in a commercial way, however, for were it the "universal solvent" of alchemy it could not be transported, as no vessel could withstand it.

This discovery of everyday uses for a substance formed from discarded material is regarded by scientists as a typical illustration of the value of research.

**AMATEUR 'FIXES' GAS TANK**

Hot Iron—Then Neighbors Called the Police Reserves and the Fire Department.

New York.—"Now then, doggie, we'll have this thing fixed in a jiffy," said William S. Grey to his dog, as he placed a hot soldering iron on a partly filled gasoline tank in the kitchen of his home.

The tank on his auto had been leaking and he decided to fix it.

He had scarcely finished the sentence when the top of the tank went up to the ceiling.

Tenants on the three upper floors rushed to the street, police reserves, firemen and detectives were called and Inspector Callahan of the bureau of combustibles, who was in the neighborhood, ran to the house.

The police entered the apartment to take charge of a corpse, but found only a broken window, a dismembered tank and a perfectly healthy man.

**Rocky Road to Knowledge**

A man who was acting queerly about the rooms of the local library last week excited much comment. He was in search of some book of reference but refused to accept the aid of the librarian in his search. After he had made a second or third visit and gone it was learned he was a member of a debating society and had been chosen to uphold the affirmative on the question: "Could you and would you order the court-martial of a soldier who saved the lives of the members of his company by shooting the company cook?"—Pottsville (Pa.) Journal.

**Artificial Limbs of Metal**

At St. Thomas' Hospital, London, Dr. Edward M. Corner, one of the most famous surgeons in England, has been conducting experiments with light metal artificial limbs on soldiers who had lost limbs during the war and whose recovery had been slow. These show that about 90 per cent of this amputations can advantageously be fitted with light artificial limbs, with which the men are able to walk with less fatigue and more satisfaction.

**AID IS ASKED FOR AUSTRIANS**

World-Famous Physicians Picture Stunted Growth and Diseases From Hunger.

Vienna.—Three internationally known Austrian physicians have joined in a statement to the effect that Austrian children will remain permanently stunted in growth unless adequate relief is given immediately.

The physicians are Dr. Eiselsberg, Vienna brain specialist and one of the leading surgeons of the city, and Drs. Lorenz and Pirquet, the latter inventor of the tuberculin test and for two years professor at Johns Hopkins university.

"At the end of juvenile growth the average boys of Vienna are about four inches below normal height and about sixteen pounds below normal weight. Girls are correspondingly stunted," they say.

"We also believe from a medical standpoint these children will never have their normal weight and height, but will go through life in this stunted condition."

**Japanese "Widowed Physician" Hands Out Some Words of Caution to Susceptible Male Sex.**

In "What to Tell Our Grown-Up Sons About Women," a pamphlet which he calls himself "The Widowed Physician," has made a list of the things he dislikes in girls. He admits that he deals with "objectionable characteristics," but disarms the criticism that he falls to indicate positive virtues by saying that "the nice youth needs no qualities of the opposite sex." "The Widowed Physician" sums up his ideas in a few brief warnings, as follows, the Japan Advertiser states:

Beware of the girls who manicure their nails to the shape of a claw. I do not know why, but beware of them.

Beware of girls who prefer to dress in purple or scarlet colors.

Beware of girls who are heavily accented.

Beware of the girl who is too obviously modest and demure. She doth protest too much.

Beware of the girl with low, sloping forehead and dry, straight, coarse, jute-like hair. Any experienced magistrate will tell you that this type of woman frequently summons her husband for assault and battery.

Beware of the intensely religious girl. She does not mean to be dangerous, but the fact that she is so devout indicates that she possesses an unbalanced temperament.

Beware of the girl who slides up to you, or lays hands on you; or comes so close to you as to lead you readily to lay hands on her.

Specially beware of "married women" of reputed responsibility, whom you have formerly had every reason to believe in and respect, when these same women, by acts obvious or guarded, show you that they would not object to your being more intimate with them than you know in your own conscience you ought to be.

Beware of the mothers who are anxious as to the future of their daughters.

Beware of the girl who drinks wines freely; she will make a poor wife and a worse mother.

Beware of the girl who dresses in a slovenly, artistic manner.

The "Widowed Physician" recommends two types—the tomboy and the "port, modern, self-sufficient learned young woman." He adds: "She would shapen your wits every time."

**Turn and Turn About**

Prof. Nicholas Roerich, the Russian painter who refused the post of minister of fine arts in the Lenin government and who is now in the United States, tells an amusing story of the initiation of the soviet system in the imperial opera. The entire staff of the opera house in Moscow, directors, scene painters, singers, were instructed that thereafter all were to be treated on an equal basis, no one being considered better than another, and all to receive the same wage. It may be imagined that the temperamental stars did not receive this without emotion. On the night of the next performance the tenor in the leading role could not be found and a frantic search was made while the audience waited. Finally he was discovered by an amazed manager selling programs in the lobby.

"What madness, is this?" shouted the manager. "Don't you know we are holding the curtain for you?"

"Ah," answered the singer with ironic sweetness, "you see we are all equal now. Tonight I sell the programs. Let one of the ushers sing my role."

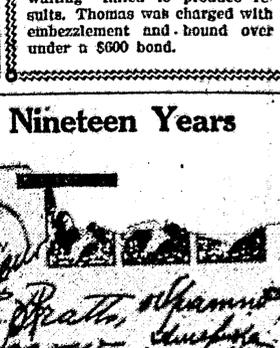

**The New Santa Barbara Light**

Many persons are still fond of the oil lamp to read by at home. In the house it still gives the amount of brilliancy desired. But lighting engineers claim superiority for the electric light in a fog.

An electric light of 1,000,000 candlepower is to be installed in the Santa Barbara lighthouse. The light itself is not 1,000,000 candlepower, but the light is intensified by the use of reflectors ingeniously cut and placed. In clear weather the light will not be visible any further than the old oil lamp, which shines 20 miles. The light is 175 feet above sea level and 20 miles is the horizon limit. But in foggy weather the new light will be visible two or three miles in place of one mile, the limit of the oil lamp's beams.

**GIRLS OF WHOM TO BEWARE**

Japanese "Widowed Physician" Hands Out Some Words of Caution to Susceptible Male Sex.

In "What to Tell Our Grown-Up Sons About Women," a pamphlet which he calls himself "The Widowed Physician," has made a list of the things he dislikes in girls. He admits that he deals with "objectionable characteristics," but disarms the criticism that he falls to indicate positive virtues by saying that "the nice youth needs no qualities of the opposite sex." "The Widowed Physician" sums up his ideas in a few brief warnings, as follows, the Japan Advertiser states:

Beware of the girls who manicure their nails to the shape of a claw. I do not know why, but beware of them.

Beware of girls who prefer to dress in purple or scarlet colors.

Beware of girls who are heavily accented.

Beware of the girl who is too obviously modest and demure. She doth protest too much.

Beware of the girl with low, sloping forehead and dry, straight, coarse, jute-like hair. Any experienced magistrate will tell you that this type of woman frequently summons her husband for assault and battery.

Beware of the intensely religious girl. She does not mean to be dangerous, but the fact that she is so devout indicates that she possesses an unbalanced temperament.

Beware of the girl who slides up to you, or lays hands on you; or comes so close to you as to lead you readily to lay hands on her.

Specially beware of "married women" of reputed responsibility, whom you have formerly had every reason to believe in and respect, when these same women, by acts obvious or guarded, show you that they would not object to your being more intimate with them than you know in your own conscience you ought to be.

Beware of the mothers who are anxious as to the future of their daughters.

Beware of the girl who drinks wines freely; she will make a poor wife and a worse mother.

Beware of the girl who dresses in a slovenly, artistic manner.

The "Widowed Physician" recommends two types—the tomboy and the "port, modern, self-sufficient learned young woman." He adds: "She would shapen your wits every time."

**MRS. LAYTON SAVED FROM AN OPERATION**

Followed Advice of Her Druggist's Wife and Took Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 24 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. LAYTON, 6824 St. Lawrence Avenue, Chicago, Ill.

Because Lydia E. Pinkham's Vegetable Compound saved Mrs. Layton from an operation we cannot claim that all operations may be avoided by it, but many women have escaped operations by the timely use of this old-fashioned root and herb medicine.

**Immovable Fez**

The director of indigenous arts in Fez, Morocco, told me that he had recently come upon a book written in the fourteenth century and describing Fez as it was at that time. The director compared the statements in the book, item for item, with Fez as it is today—and found the book to be perfectly up-to-date. Reprint it and it would pass very well as a modern account of present-day Fez. The people of Fez are still doing things just as they did them in medieval times.—Willard Price in Christian Herald.

**Ups and Downs**

A New York publisher was discussing the brilliant and daring Margot Asquith, the British ex-premier's wife.

"I once heard Mrs. Asquith," he said, "describe a great lady-killer at a London dinner-party."

"He told me," she said, "that he played women exactly as you play fish. Only, he added, in the one case you angle to make them rise, and in the other to make them fall."

**ASPIRIN**

Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Eczema, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacturing of Monaceneidester of Salicyacid.—Adv.

**In Conclusion**

"Dat boss was so slow," growled Rastus over the remains of the unfortunate equine that had just lost a race over a railroad crossing, "he was so slow dey ain't no hoss in de world go slower."

"Come de judgment day and St. Peter'll say, 'All yo' dead men come forth.' Dea dey'll all come forth. Dan he'll say, 'All yo' dead ladies come forth.' Fin'ly he'll say, 'All yo' dead hosses come forth.'

"And jes' fo' spite dat boss he'll come fifth!"—American Legion Weekly.

**Don't Go From Bad to Worse!**

Are you always weak, miserable and half-baked? Then it's time you found out what is wrong. Kidney weakness causes much suffering from backache, lameness, stiffness and rheumatism, and if neglected brings danger of serious disease. Don't delay. Use Doan's Kidney Pills. They have helped thousands and should help you. Ask your neighbor!

**A Colorado Case**

Mrs. J. H. Bullard, 126 E. Sixth St., Pueblo, Colo., says: "I had an ache across the small of my back and it nearly killed me to do my work. Sharp pains in my kidneys and nearly doubled me up. My kidneys acted irregularly and I suffered from dizziness. I heard about Doan's Kidney Pills and three boxes cured me."

Kelley & Son will give away a phonograph in a contest to be held in conjunction with their big sale which begins Saturday and lasts 13 days. 200 votes will be given, one with each \$1.00 purchase during the sale. At the close, the votes will be counted. The one having the largest number will win the \$200. prize. Get your dollars ready.

We buy and sell Poultry, eggs, etc.—Patty's Cash Grocery & Meat Market.

Mrs. Geo. L. Ulrick was called to El Paso last week, in answer to a message from her son, Thomas Fitzpatrick, who was suffering from a temporary illness. He has recovered and is again at his desk in the bank.

FOR SALE—Ford Touring Car in first class condition—Inquire at Patty's Cash Grocery & Meat Market.

Intensive practice is in progress this week for a local talent entertainment to be given at the Crystal, Friday evening, April 15th. Further particulars will be given later. The proceeds of this entertainment are for the construction of a Lawn Tennis court.

NOTICE—I have severed connections with Jay Vaughn and will hereafter accept contracts, individually. Your trade solicited.—W. E. Elliott, contracting painter. 825 2 t

We are requested to explain that the hand-bills which have been distributed announcing a series on the general subject of a "Revival" to begin at the First Methodist Church next Sunday morning, is not the beginning of a protracted meeting, as some have understood. These subjects will be discussed at the regular Sunday preaching services. The Revival Meeting is planned to begin April 24th.

LOST—Red sow, with one ear tightly clipped. Last seen on road between mouth of Largo Canyon and Ancho. Reward—H. L. McDaniel, Carrizozo. 2t

Rev. C. C. Higbee, Pastor of the First Methodist Church, will leave the first of next week for Albuquerque, N. M., to attend the Albuquerque District Conference, of which he is secretary.

FOR SALE—One Ford Touring car, one Maxwell Touring car, one Ford light truck. These cars are in good running condition. Inquire Taylor's Garage. 1f

Walter Place has purchased the S. A. Price shop and will conduct the business after the manner in which Mr. Price has and we hope with the same amount of success. Mr. Place is well known here and his reputation for honesty and square dealing will be practised in the auto business the same as in other acts of his every day life. Hereafter, it will be Place, the "Tire Doctor."

FOR RENT—House of three rooms. Inquire of A. H. Harvey.

James Roselle, accompanied by his father, motored over to Artesia last week where after a few day's visit, James returned, his father remaining with his son, Ashby and family for a two week's visit.

FOR SALE—Seed Barley. The Titaworth Co., Capitan, N. M.

Dr. C. W. Coburn and family of Philadelphia started from that city a short time ago for San Diego, where the Doctor, who was in ill health, expected to regain his former condition. They reached Vaughn, on Monday but at that point the Doctor passed away. The body was brought on to Carrizozo, where it was held by the local Masonic order until made the family as comfortable as possible, attending to every want which they made manifest. On Tuesday the remains were carried on to San Diego where they will be interred with Masonic honors.

WHEN YOU SEE THE... don't fall to eat... For a look at it is a temptation. A taste of it is an epicurean delight. And it is so wholesome, so well baked, that the most confirmed dyspeptic can eat it with impunity. Any kind you want fresh every day.

**A Continuous Performance**

THE man who speaks of life as being made up of "just one thing after another" as though it were simply a series of unwelcome and disconnected events, is mentally near-sighted. He fails to recognize the importance and necessity of viewing life as a whole. Success is a matter of properly valuing and emphasizing the various activities of living. Work and play, earning and spending and saving, all have their place in worth while living; and all are closely related one to the other.

This bank offers helpful encouragement to anyone who wishes to increase his savings, but its service is not by any means confined to that field. There are very few persons in the community whom this bank cannot help in one way or another. It is our policy to be personally helpful to every depositor and to make each one feel that he is a friend as well as a customer.
