GARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, JUNE 17, 1921

PRICE \$2.00 PER YEAR

LARGEST CIRCULATION IN THE COUNTY

LONG TIME LOANS TO CATTLE MEN MAY SOON BE PROVIDED FOR, IS OPINION OF JUDGE W. F. RAMSEY

Hundred New Mexico Bankers and Stock Growers Held All-Day Session Here With Federal Reserve Bank Officials of This District; Proposed Plan Outlined.

Albuquerque, N. M., June 11.—"I feel sure that some type of plan for extending credits of one or two years duration will be adopted by the federal government," Judge W. F. Ramsey, head of the eleventh district federal reserve bank at Dallas, assured New Mexico stockmen and bankers at their all-day session here yesterday. "Governor of the Federal Reserve Board W. P. G. Harding, has thought some such measure should be enacted for some time," Judge Ramsey continued, in his address at the Chamber of Commerce, "and he has become so interested in putting the proposition over and so saving the stock interests from ruin that he is now making a tour of the entire producing sections of the country in order to gather first-hand information. He would have been here with us today to discuss the ways and means had it not been for a hold-up in the train schedule."

Luncheon at Alvarado.

Judge Ramsey addressed the bankers and stockmen at a luncheon at the Alvarado hotel yesterday noon and outlined in a short address the plan he thought could and should be adopted. The general meeting was held at the Chamber of Commerce at 3 in the afternoon and was attended by nearly 100 stockmen, bankers and business men of Albuquerque and New Mexico.

Ramsey Favors Plan.

Commenting upon the general plan for aiding the stockmen which has been under discussion for some time, Judge Ramsey assured the stockmen that it had his hearty support. "I have encouraged Governor Harding in the plan and have promised him that if it is put into effect I will do everything possible toward successfully carrying it out. The eleventh district in the breeding section of the country—it must be preserved. If the industry can be financed over this period of depression, it will again stand squarely on its feet," Judge Ramsey declared.

It was brought to the stockmen's attention that this is not the first time that the cattle business has been in a perilous position. "The western stockmen have been in serious conditions before," Ramsey stated, "and thank God, his honesty, his sturdy heart and his fighting spirit has always brought him through when confronted by such type of crisis, and now it will do it again, if given a chance."

Cattle loans, according to the head of the reserve district, are among the best investments in the world and the cattleman can be expected and will, if at all possible, pay his debts.

Millions Laid—No Leases.

"We loaned \$5,000,000 to cattlemen during 1917 and 1918 and we have received it all back, with the exception of a few thousand dollars—and without the use of an attorney. This has proved what can be done and should go a long way toward convincing the authorities that aid on a larger scale will be just as thankfully received and as scrupulously repaid."

"This record was made when prices were up and money cheap—now with prices down, such loans will prove great better investments. The stockmen were warned that if the proposed loan measure was put into action, they should not think of it as easy money—but that when loans were received, they should be considered as a further necessity to stick to business and work. It was suggested to them that they get the active support of all congressmen and other officials for the measure."

"I can see no reason why this proposed measure is not of vital interest to every banker, stockman, and business man in the southwest," Ramsey declared, and urged that it be given attention and that letters be written to Washington urging its adoption.

The Credit Plan.

Outlining the operation and working plan from his own point of view, Judge Ramsey pointed out that it was being considered as a set aside a fund from the surplus earnings of the federal banking system of probably \$50,000,000 to be used for two year loans on cattle security. It is a possibility that the sum set aside might be of a revolving nature and as a result, cover a much larger number of loans. Present loans of six months duration are not judged of sufficient time to allow the grower to have a chance to increase his product and turn it at the market to advantage.

Direct to Growers.

As outlined by the Dallas banking head, this fund would probably be used direct. Instances of how it would work were shown. Large borrowers at the local banks which are now loaned up to their capacity, would be sent over to the federal bank and their needs would be met. This would at once relieve the local banks of the heavy loans and allow them to meet the needs of the smaller growers. The chief benefit would be shown by the banks. Many smaller banks are being closed by a considerable amount by the large ones. By taking up the loans, the banks would also be given a chance to be of more service to the stockmen.

New Mexico Banks Protected.

Great praise was given the First National bank by Judge Ramsey for the helping hand it extended to the smaller institutions.

AVERAGE RAINFALL FOR STATE IN MAY WAS 2.06 INCHES; PHENOMINAL

Reaches Tremendous Total of 8 Inches in Tucumcari.

Weather Bureau Office, Santa Fe: The temperature for the month averaged practically normal, considering the state as a whole, while the precipitation averaged far above. All parts of the state shared in the excess of precipitation, except a small portion in the extreme south-southwest and from the San Francisco river northward to southwest McKinley county, where a slight deficiency occurred. The month of May is comparatively dry, normally, but during the month just closed many east and north-east stations received more than four inches precipitation, and a maximum fall in excess of eight inches occurred at Tucumcari and vicinity. Almost one-half of the state exceeded two inches. On the other hand, no precipitation, or but a mere trace, occurred at five or six stations in the southwest portion of the state.

There were three fairly general periods of precipitation—5, 13, 18 and 23, 24, with scattered showers on several other dates. Heavy local downpours were frequent; lightning caused two or three deaths and some stock losses, and hail, which accompanied many of the thunder storms, also caused some local damage and loss. Snow occurred over the higher north-west mountains with the storm of the 5th-7th, 13th-19th and 26th, but the amount was small.

A fairly general excess of temperature occurred over the east half of the state, and a deficiency in the western half, a few exceptions being noted in both districts. The most pronounced warm period of the month and the most pronounced cold period from the 5th to the 10th. The 27th was probably the warmest day and the 7th the coldest.

Temperature.

The monthly mean temperature of the state, based upon the records of 105 stations having a mean altitude of about 5,000 feet, was 59.2 degrees, or practically normal, as shown by the departures of 59 stations having records for ten years or more. The month was slightly cooler than May, 1920. The highest monthly mean was 73.0 degrees at Alamogordo, and the lowest record temperature 98 degrees at Hobbs, on the 21st. The lowest monthly mean was 45.2 degrees at Elizabethtown, and the lowest recorded temperature 16 degrees at Aragon on the 5th. The greatest local highest recorded temperature 93 degrees at Crown Point on the 7th.

Precipitation.

The average precipitation for the state, based upon the records of 170 stations was 2.06 inches, or 2.10 inch above normal, as determined from the departures of 109 stations having records for ten years or more. The month was 0.45 inch wetter than May, 1920. The greatest monthly amount was 8.82 inches at Tucumcari, and no precipitation occurred at three or four stations in Dona Ana, Luna and Hidalgo counties. The greatest amount in any 24 consecutive hours was 3.90 inches at Cuervo on the 14th. The average snowfall for the state amounted to 0.1 inch. Precipitation, 0.01 inch or more, occurred on an average of seven days, while 17 were clear, nine partly cloudy and five cloudy. The prevailing wind direction was from the southwest.

COUNCIL PROCEEDINGS, TUESDAY

Members present: A. J. Rolland, Mayor; Julian Taylor, Ben Lujan, and F. E. Richard, Trustees; A. M. Vega, Marshall; and W. W. Stadman, Clerk. Member absent: S. L. Squire, Trustee. Bills to the amount of \$244.26 were read, approved and ordered paid.

On report of committee appointed to investigate the need for Street lamp at Corner of Alamogordo and Sixth street, it is held by the board that this lamp is not necessary.

On motion of F. E. Richard, seconded by Julian Taylor, the clerk is requested to secure the services of Geo. B. Barber, attorney, for the purpose of amending Ordinance No. 9.

On motion made and seconded the clerk is requested to make report to State Insurance Department.

On motion made and seconded the clerk is requested to call the Fire Chief's attention to the inspection of fire equipment and the painting of fire house.

There being no further business the meeting adjourned.

In the Interest Of Sweet Charity

As a closing feature to the Salvation Army Drive, a concert was given at the Crystal Theatre last Sunday night which met with so much appreciation from the public that another was given on Monday night in which the local talent of Carrizozo took an active part. Baron J. V. Auriemma, of whom we spoke last week, seemed to be at his best, and our local talent without an exception, did splendidly. There was nothing unselfish about the Baron's service. He is a wonderful singer which he demonstrated to the large audience which showed its full measure of appreciation. Miss Lorena Sager, accompanist to the singer, wonderfully demonstrated her ability to be equal to the occasion for to use his own expression, "I love to sing when my accompanist has the talent and is so to be depended upon, as was Miss Sager." As to the home talent, many lines could be written to their credit. They did nobly. The following is the program:

1. Chorus, "Nightingale Girls," MASSES ADAMS, HALEY, AXERS, CORN, SHAVER, WHITE, TAYLOR.
 2. "The Tempest of the Heart," from Il Trovatore, (Verdi) "Garden of My Heart," (Rogers) "The Star," (Rogers) AURIEMMA; MISS SAGER, Accompanist.
 3. "Whispering," RAYMOND LACKLAND.
 4. Selection, FERGUSON'S ORCHESTRA, the "Joy-Makers."
 5. "O Gentle Spirit," from Favorita, (Denizotti) "Absent," (Metzelli) "Rosary," (Nevin) AURIEMMA; MISS SAGER, Accompanist.
 6. "Barefoot Trail," MRS. H. C. NORMAN.
 7. "Roses at Twilight," MRS. E. D. BOONE and AURIEMMA; "Serra Sue," MISS SAGER, Accompanist; "My Rosary for You," AURIEMMA; MISS SAGER, Accompanist; Violin Obligato, E. C. FITZ.
 8. "Dear Old Pal of Mine," CLAUDE ADAMS.
 9. "Arioso," from Pagliacci, (R. Looncalvo) "Your Eyes Have Told Me So," (E. Hall) "Somewhere a Voice is Calling," (Corquo) "O Sole Mio," (Corquo) AURIEMMA; MISS SAGER, Accompanist.
- In all the selections of Baron Auriemma, Miss Lorena Sager was at the piano, while Mrs. T. E. Kelley and Miss Ivy Lindsay accompanied the local talent.

NEW MEXICO FACES BIG PRINTING JOB, HIGH COST IN COMING ELECTIONS

(By Guthrie Smith) Santa Fe, N. M., June 14.—Addressing the constitution of the state of New Mexico is not only difficult, but expensive. The 11 amendments proposed, which will be voted upon at the special election September 23, will require the printing of 457,600 ballots. These will cost approximately \$12,000.

\$6000 For Publications.

Publication of the proposed amendments in the newspapers of the several counties will reach a cost of nearly \$6000. Other printing incident to the election, registration and poll books and instruction cards will cost about \$1000 more. This brings the total cost of printer's ink and press paper space to the round sum of \$23,000. All this cost will be borne by the state.

Other costs, carried by the several counties, will be about \$4000, bringing the total cost of the constitutional amendment election to \$27,000. In this particular election there will be a slight increase in the cost, by reason of the fact that Gov. Merritt C. Mechem has issued a writ of election, calling a general election for the same date, to elect a United States senator. This additional cost will be only about \$2000, which will be expended for the ballots for the senatorial election. The distribution of the two sets of ballots will be made at one time, thus reducing the cost of distributing the senatorial ballots to a very low figure.

This printing bill, which may seem high, is in compliance with a provision of the constitution, which is that each proposed amendment submitted shall be offered to the voter on a separate ballot, printed in both English and Spanish.

The constitution provides further that the proposed amendments shall be printed in English in each county that has a newspaper printed in English, and may be printed also in Spanish in any county having a Spanish language newspaper.

Questions For Official.

The matter of printing in Spanish also in any of the counties is for the secretary of state to decide. The question hinges upon the number of persons who do not read English, and who may be reached through the Spanish language newspaper.

Of ballots for each amendment there must be printed a total number the number of voters taking part in the last general election. In round numbers, there were 194,000 voters in the last election, which would mean 2,032,000 ballots for each amendment.

FARM BUREAU COMMITTEEMEN EAT OLD BUT TENDER ROOSTERS

At a meeting of the Curry County Farm Bureau Executive Committee, held at Clovis May 31, the members received a treat by combining two of their projects in a well prepared dinner. Three communities are working on swathing the roosters and producing fertile eggs. Another project in the county is home improvement and the use of the pressure cooker. Mrs. S. J. Wright of the Farm Bureau took advantage of these projects and gave a demonstration of preparing a dinner for their present with a pressure cooker. It forty minutes. The old rooster used in preparing the dinner was so tender that those served asked to see the spurs to make sure that they were not young birds.

Can Farmers Curtail Production and Increase Profits?

It is a common observation of farmers that they receive more for a small crop than for a large one, say a economist of the Agricultural College. One of the reasons for the very low price that is being received for farm products at the present time is the fact that the yield per acre for grain crops last year was 13 per cent above the average. It was an unusually favorable year for agricultural production and whenever yields are unusually large, prices are almost sure to drop.

The fact has at times led to the question if it would not be better for farmers to curtail production and reap the benefit of the increased price. This, however, would involve several difficulties. First, production is largely dependent on the weather. Second, it would be difficult to get the farmers to act in unison and even if it could be done, farmers are not inclined to believe that it would be desirable to do so. Curtailment of production for one year might greatly increase in production the next year with a great drop in prices.

A rather striking illustration can be gotten by noting cotton production during the past few years. In spite of an intensive campaign to keep production down, the 1920 acreage was the largest for six years and the 3rd largest in the history of the country. This large acreage can easily be traced to the high price that was being received for cotton last year.

It is a probability of over production, is of course advisable, but it is not probable that farmers will soon adopt arbitrary curtailment during times just as a means of securing high prices. Every farmer is interested in producing all he can at a reasonable cost. Any curtailment on his part unless the rest of the producers do likewise, will have little effect on the price. He can little afford to let valuable land lay idle, and if he did yield reduce cost he cannot afford to curtail his production. Low prices, however, if long continued, will have a tendency to reduce production by reducing land values and crowding out the less efficient producers.

EDUCATIONAL NOTES

(Mrs. M. L. Blaney.) The Lincoln County Board of Education will meet in the office of the County Superintendent of Schools, June 22, 1921.

Teachers desiring to take examinations for certification or for credit in Reading Circle work will have such opportunity, June 24-25 in the office of the County Superintendent of Schools. Carrizozo has shown wisdom in selecting their teachers early and at this writing have most of the teachers employed. Other schools taking advantage of "First Come, First Served" are Lincoln, Anecho, Pecho, Hondo and Clayton.

Following is the list of Eight Grade graduates for the year: Robert Poage, Denton Still, John Owen, Birds Imhoff, Earl Neilson, Melvin Rogers, Earnest Key, Sara Gonzalez, Pearl Morris, Grace Croley, Myra Pflingsten, Lilla Davis, Carlton Jackson, Alice Aguayo, Robana Corn, Abeline Lujan, Charles Ross, Belle Dow, Essie Merchant, Gladys Yates, Theda Jones, Creel Hightower, Lester Wright, Amelia Vigil, James Tully, Wayne Zumbal, Dora Walker, Delbert Jolly, Verma Sautlin, Travis Bryant, Lena Spillers, Clara, Travis, Nannie Cheney, Flora Reaco, Annie McDonald, Henry Hale, Anita Bert Hall, Joe Aguayo, Clayton Hunt, Rita Norman, Albert Lalone, Arminde Johnson, Ula Green, Thomas Kirkland, Berry Melton, Edna Pflingsten, Brookline Skinner, Loyde Harmon, Lottis Eaton, Bernice Lively, James Simpson, Thomas Howard, George Hunt, Estel Gilliland, Viola Kimbrell, Wallace Ferguson, Valma Niles, Gladys Robinson, Hilleck Kingston, Carmen Bronuela, Lillian Johnson, Wayne Richards, Charlotte Elliott, Alphon Johnson, Sarah Robinson, Rabta Watson, Edna Mae, Ruby Sellers, and Audrey Stewart.

Those planning to enter High School next year will please correspond with Superintendent of such High School and choose course that no time may be lost in securing the necessary books.

work out. In addition, the State Record, under sub contract, is printing the ballots for Curry, McKinley, Socorro and Torrance counties. Its total is 2,232,000, considerably more than half of all.

Special Meeting of Board of County Commissioners

Special meeting of the Board of County Commissioners, June 6th, 1921.

Present: Ben Lujan, Chairman; A. L. Hulbert, Member; Dr. J. T. Stone; R. M. Treat, Clerk.

The board met as a Board of Equalization, and upon the examination of tax schedules as presented to them by the assessor, they are examined and the following raises and reductions are made:

Mrs. Lena Morgan raised on improvements.....	\$500.00
J. M. Penfield raised on improvements.....	500.00
Frank Randolph for Ford car, 225.00	
Silvestro Baca assessed Ford car.....	320.00
M. B. Foreman assessed on land, 115.00	
Lorenzo Guebara assessed Ford car.....	225.00
Jose Garcia assessed 2 horses, 2 mules, wagon and harness.....	65.00
Kelley & Son assessed Overland car.....	225.00
Florencia Morales raised on personal property.....	170.00
Maggie Owen reduced on improvements.....	50.00
John Mack raised money notes, credits.....	\$1,800.00
Trinidad Duran reduced on Ford car.....	225.00
Mrs. M. M. Rudillie reduced on improvements.....	600.00
Mrs. C. E. Smith raised on improvements.....	400.00
P. G. Peters raised on House Highland Add.....	1,000.00
Fred Pflingsten raised on 80 acres of Grazing land assessed at \$2.82 per acre assessed at \$2.00 per acre	
Yarson Mining Company valued \$1,525 on American Edith and Vanderbilt Mining claims.	
Saluria Atkinson raised on improvements.....	\$400.00
D. H. Henry raised on Studobaker car.....	375.00
Mrs. J. A. Simpson raised on house.....	250.00
J. Pendergrass raised 60 head of cattle.....	1,250.00
Sisto Ortes raised 5 head of cattle.....	125.00
Joquin Ortes raised 5 head of cattle.....	125.00
Daniel Ortes raised 5 head of cattle.....	125.00
and one Ford car.....	200.00

LINCOLN COUNTY HIGH SCHOOL NOTES

(Supt. W. J. Kipp) Lincoln County High School is exceedingly fortunate in being able to secure the services of Melville F. Peters of Detroit, Michigan, for Manual Training, Mathematics and Athletics. Mr. Peters is a graduate of Michigan College of Mines and Agriculture, where he received the degree of B. S. and taught in the research department of the College of Mines since graduation. He comes to us highly recommended, and his ability is sure to assert itself in the class room as well as on the athletic field.

The superintendent is doing all he can to make the High School faculty a 100 per cent graduate faculty. With a strong faculty and team work there is no reason why this school should not deliver to the community and state 100 per cent efficiency.

"A CHANCE IN THE DESERT"

Doctor Freeman received an oil painting a few days ago from the artist, Mr. J. E. Allen whose horse pictures have attracted so much attention of late. Mr. Allen has been illustrating the Doctor's stories and the pictures is a Western subject used with "A Chance in the Desert."

While he is now living at Interlaken, New Jersey, Mr. Allen spent sixteen years in the West and as a result his pictures, of cowboys and their equipment, are remarkable for their exactness of detail.

Lola and Lucille Jones have returned from a pleasant visit with Tucson early friends.

Miss Winnie Taylor returned Monday from a visit with her sister, Mrs. Reasoner, in Bowie, Texas.

The Homesteader

ROBERT I. G. STYLD

Author of "The Cow" "The Horse" "The Pig"

CHAPTER X—Continued.

Harris met his son on the platform. "What d'ye think, Dad? A letter from Riles." He drew the crumpled envelope from his pocket. "Looks like a laundry ticket," he said, "but I figured it out, and he wants you to sell the farm and buy a coal mine."

Harris read the letter through, not without some difficulty. At first he was inclined to laugh, but the earnestness of Riles impressed him through the makeshift English.

"What d'ye think of it, Dad?" said the younger man, at length. "Of course we don't know anything about coal, but then—"

"It must look good to Riles or he wouldn't want to put any money in it," commented Harris, after a few minutes' reflection. "Riles is pretty cautious. He's got money in the bank drawn three per cent; he's afraid to lend it out among the farmers. And he ain't easy talked into a new scheme, either."

"I'd suppose we could sell the farm?" The idea of a big, profitable speculation suddenly appealed to Allan with much greater force than the prospect of three years on a homestead. He knew that vast sums of money had been made, and made quickly, in the Far West, but he had never before thought of himself or his father sharing in this sudden wealth.

"I'd suppose we could sell the farm?" he repeated. It began to seem that the short-cut to wealth hinged on the possibility of selling the farm.

"I guess we could sell it, all right," said Harris. "Maybe not for that much cash, but we can get cash on the agreement, if we need it." He was not a man to act precipitately, or risk all on a single throw unless he were very, very sure of the result.

"Of course, maybe it's all right," he continued. "But it's a good thing to buy your buggy before you throw away your car. If this thing's as good as Riles says, it will keep until we can see it for ourselves. If it don't, something else'll turn up."

"Yes," said Allan, "but if we find it's all right when we get there, and we've only a few measly hundred dollars along, we'll want to kick ourselves all the way home. Lots of fellows are making big money just because they had some capital to work with, and why shouldn't we do it, too? Couldn't you fix it some way to get the money without coming back, if everything looks all right? That'd save time and expense, too."

"There's something in that. There's time to see Bradshaw yet before the train comes. We'll kind of leave it standin' in his hands."

"They made a hurried call on Bradshaw, and asked him to be on the lookout for a buyer for the farm.

"Mind, I'm not actually puttin' it up for sale," Harris cautioned him, "but I want you to keep your eye open for a buyer. Forty thousand dollars takes the whole thing as a gold concern, an' the more cash the better. Got a line on the buyer if you can, and if I send you word to sell, you sell, and if I don't send you word, don't do anything. You understand?"

The lawyer wrote something on a sheet of paper. "This is a power of attorney, which will enable me to complete the documents without the delay of sending them to you, if you should decide to sell," he explained. Harris signed the paper, and Allan witnessed it.

With this understanding the journey westward was undertaken, and completed without event of importance.

Riles met them on the station platform. He had met every train for a week, as it had been agreed that it would be better that the Harrises should not visit Gardner's ranch until plans were more fully developed. Jim was still there, and Gardner insisted that Jim should not meet Harris at present. He allowed Riles to think that he feared trouble if former employer and employee should meet; as a matter of fact, he feared that if their coal mine proposition should reach the ears of Travers the young man would attempt to dissuade Harris from having anything to do with it, or at least would urge a fuller investigation than might be desirable. Besides, he meant to make of Travers an unwilling party to the affair.

Riles, in overall and shirt-sleeves, leaned against the iron rail at the back of the station platform, his big hands stuffed in the bulging band of his trousers, and his under-jaw busy with an ample ration of tobacco. He watched the passengers alighting from the train with little interest; he had no particular expectation of meeting Harris on this occasion, and, if the truth be told, he had little desire to meet him. Riles had no pang of conscience over his part in the plot against his old neighbor, but he had an uneasy feeling of cowardice. When suddenly his eye fell on Harris and his big, strapping son, his first impulse was to slip away in the crowd before they should notice him. But it was only for a moment; the next, Harris was calling, "La, Hiram, and the two were shaking hands as old friends met in a far country.

"Didja get my letter?" asked Riles, ignoring the commonplace with which

it was their custom to introduce any important topic. "Didja sell the farm?"

"I got the letter, Hiram, but I didn't sell the farm. Thought we'd just have a look over this coal mine before goin' into the business altogether."

"Eh-h. Throttle your voice down. This place is full of men on the lookout for somethin' like that, an' you can't keep it too dark until it's all settled."

"Well, ain't we going to put up somewhere?" said Allan, breaking the silence that followed Riles' warning.

"There ought to be an Alberta hotel here, somewhere. I saw one in every town for the last two hundred miles."

"I got that beat," said Riles, with a snicker. "Boardin' on a lord, or duke, or somethin'."

"Don't say?"

"Yeh. You mind Gardner? Him 'n' it out from Plainville after that stealin' affair?"

"The one you got credit for bein' mixed-up-in?" said Allan, with disconcerting frankness. "A lame kind of a lord he'd make. What about him?"

"Well, he struck a soft thing out here, fo' sure. This lord I'm tellin' you about's gone off home over some bloomin' estate or other, an' Gardner's running his ranch—his 'bloody-wal' ranch' he calls it. Gets a good fat wad for ridin' round, an' hires a man to do the work. But it was Gardner put me on it this coal mine deal."

"Let's get settled first, and we'll talk about Gardner and the mine afterward," said Harris, and they joined the throng that was now wending its way to the hotels.

"How's your throat, Hiram?" inquired Harris, after he had registered. "Protty atchy," confessed Riles. "But they sponk you a quarter to wash it out here."

"Well, I got a quarter."

"A quarter apiece, I mean."

"Well, I got a quarter apiece," said Harris. "Come on."

Riles followed, astonishment over Harris' sudden liberality, and misgiv-

ing as to how he himself could avoid a similar expenditure, struggling for uppermost place in his mind.

"Protty strong stuff they have here," he said, after Harris and Allan had "sat 'em up" in turn. "Keel you over if you don't watch it."

"Does taste kind o' snaky," said Harris. "Guess that's enough for this time. Now come upstairs and tell us all about this deal you have on."

When the travelers had thrown off their coats and vests, and all were seated in the little bedroom, Riles cleared his throat.

"Well, there ain't much I tell yuh, more'n I said in me letter," he started. "An' I said, it's Gardner you'll have to thank for this thing, good or bad. I ain't a coal miner, an' I told him that, an' I told him you wasn't neither, but he says that don't make no difference. He says there's all kinds o' money in it, an' I reckon that's what we came out here for, ain't it?"

"Yes, provided the thing's sound," said Harris. "Anyone can see with half an eye that there's queer ways of making money than bustin' up this coal mine for it. But you and me've worked hard for what we've got, Hiram, and we want to be mighty careful about spendin' it."

"I suppose you've sent home word to sell your farm, have you?" put in Allan. "You'll be chipping in at the same time?"

"Oh, yeh, I'll be chippin' in. Of course. But I didn't just say to sell the farm yet. I'll have to get back an' straighten things up some more. Yeh see, I thought you'd get my letter before you left, an' you could kind o' seeke your own way, an' your payment would be in the bargain bound with I could sell mine, y' see, then-

"Well, he'll have to say a good deal before he knows," said Harris. "I ain't buyin' a pig in a poke, He's got to show me, and then if it's all right, why, it's all right."

"Oh, it's all right," said Riles, although inwardly he felt little enthusiasm over the attitude of either father or son. He was annoyed that Allan should be present. On the whole, it would be better to leave the rest of the explaining to Gardner.

"What d'ye think of it, Dad?" said Allan, when Riles was gone.

"May be all right," said Harris. "Wouldn't be surprised but it is. At the same time, I ain't goin' to put a cent in it till I'm dead sure. And anyway, there's no use lettin' Riles think we're keen on it."

"That's what I think. You think Gardner's all square, do you?"

"I don't know. Likely he's getting a fat commission from somewhere, but that's fair enough, if he makes the deal. But he won't see any of our money till I have the opinion of the best lawyer in town. That's all we can say till we see it."

"What d'ye say if we sell the old farm anyway, an' then if this mine business don't look good, we'll plink it into farm land?"

"Might do worse," his father agreed. "We'll have a look round for a day or two, anyway."

In the afternoon Gardner and Riles drove into town and met the Harrises in the waiting room of the hotel. Gardner's greeting was friendly, but not overfamiliar, as became a man who had recently suffered some reflection on his character. He shook Harris and Allan by the hand, inquired after the cattle and the crops, but discreetly avoided family matters, having learned from Riles that all had not been going smoothly in their domestic affairs. Gardner knew a little room at the back of the bar, to which he escorted his guests. Having ordered a bottle and glasses on the table, he turned the key in the door.

"You can't be too careful," he explained. "You know, the walls have ears, and if it gets out that this coal mine can be picked up at the price we have on it, it will be taken before night. I understand your money is not here yet, Mr. Harris?"

"No, not started, I guess. The fact is, I haven't sold the farm."

"Well, I don't want to hurry you, but you've got to act quickly, or not at all. Of course, we don't figure on taking any chances. Our idea is to turn the property over at once, at a good profit. That's the way you feel about it, too, isn't it?"

"I'm not a coal miner."

"Exactly. Neither are the men who own most of the mines of this country. There comes a time, Mr. Harris, when we realize that we don't have to get down with pick and shovel to make ourselves some money—in fact, the man with pick and shovel hasn't time to make any real money. I am glad you feel like I do about it, for I have already taken the liberty of putting the proposition up to a New York syndicate."

"You mean if we don't come through, they will?"

(TO BE CONTINUED.)

In a Guaranty.

A young newspaper man of Kokomo wrote a short story and sent it to a magazine. In due time there came back to him one of those bloom distributors called rejection slips. It ran somewhat like this:

"We have read your story and are sorry to say it is not suited to our needs. Red Book, Blue Book, Green Book."

The young newspaper man looked at the slip and then at his story.

"Well," he said, "I don't know what color to play now."

"What d'ye think of it, Dad?" said Allan, when Riles was gone.

"May be all right," said Harris. "Wouldn't be surprised but it is. At the same time, I ain't goin' to put a cent in it till I'm dead sure. And anyway, there's no use lettin' Riles think we're keen on it."

"That's what I think. You think Gardner's all square, do you?"

"I don't know. Likely he's getting a fat commission from somewhere, but that's fair enough, if he makes the deal. But he won't see any of our money till I have the opinion of the best lawyer in town. That's all we can say till we see it."

"What d'ye say if we sell the old farm anyway, an' then if this mine business don't look good, we'll plink it into farm land?"

"Might do worse," his father agreed. "We'll have a look round for a day or two, anyway."

In the afternoon Gardner and Riles drove into town and met the Harrises in the waiting room of the hotel. Gardner's greeting was friendly, but not overfamiliar, as became a man who had recently suffered some reflection on his character. He shook Harris and Allan by the hand, inquired after the cattle and the crops, but discreetly avoided family matters, having learned from Riles that all had not been going smoothly in their domestic affairs. Gardner knew a little room at the back of the bar, to which he escorted his guests. Having ordered a bottle and glasses on the table, he turned the key in the door.

"You can't be too careful," he explained. "You know, the walls have ears, and if it gets out that this coal mine can be picked up at the price we have on it, it will be taken before night. I understand your money is not here yet, Mr. Harris?"

"No, not started, I guess. The fact is, I haven't sold the farm."

"Well, I don't want to hurry you, but you've got to act quickly, or not at all. Of course, we don't figure on taking any chances. Our idea is to turn the property over at once, at a good profit. That's the way you feel about it, too, isn't it?"

"I'm not a coal miner."

"Exactly. Neither are the men who own most of the mines of this country. There comes a time, Mr. Harris, when we realize that we don't have to get down with pick and shovel to make ourselves some money—in fact, the man with pick and shovel hasn't time to make any real money. I am glad you feel like I do about it, for I have already taken the liberty of putting the proposition up to a New York syndicate."

"You mean if we don't come through, they will?"

(TO BE CONTINUED.)

ing as to how he himself could avoid a similar expenditure, struggling for uppermost place in his mind.

"Protty strong stuff they have here," he said, after Harris and Allan had "sat 'em up" in turn. "Keel you over if you don't watch it."

"Does taste kind o' snaky," said Harris. "Guess that's enough for this time. Now come upstairs and tell us all about this deal you have on."

When the travelers had thrown off their coats and vests, and all were seated in the little bedroom, Riles cleared his throat.

"Well, there ain't much I tell yuh, more'n I said in me letter," he started. "An' I said, it's Gardner you'll have to thank for this thing, good or bad. I ain't a coal miner, an' I told him that, an' I told him you wasn't neither, but he says that don't make no difference. He says there's all kinds o' money in it, an' I reckon that's what we came out here for, ain't it?"

"Yes, provided the thing's sound," said Harris. "Anyone can see with half an eye that there's queer ways of making money than bustin' up this coal mine for it. But you and me've worked hard for what we've got, Hiram, and we want to be mighty careful about spendin' it."

"I suppose you've sent home word to sell your farm, have you?" put in Allan. "You'll be chipping in at the same time?"

"Oh, yeh, I'll be chippin' in. Of course. But I didn't just say to sell the farm yet. I'll have to get back an' straighten things up some more. Yeh see, I thought you'd get my letter before you left, an' you could kind o' seeke your own way, an' your payment would be in the bargain bound with I could sell mine, y' see, then-

POOR FEEDING IS CAUSE OF RUNTS

NEGLECTED AT WEANING TIME

Many Undersized Pigs Often Grow and Develop Into Useful Porkers.

After Growth of Animals Has Been Retarded, It Takes Considerable More Feed to Overcome Condition and Grow Out.

(Prepared by the United States Department of Agriculture.)

"My nine years' experience in stock raising has been almost entirely with purebred cattle and hogs, and while some runts appear at birth they are not nearly so numerous as the runts caused by neglect and improper feeding and housing." This is the opinion of a Tennessee farmer in a letter to the United States Department of Agriculture.

Many Small Animals Develop. Specialists of the department emphasize the fact that many animals that are undersized or small at birth often grow and develop into useful, profitable animals if a little special attention is given them soon after birth. This is especially true with pigs. Unless the small pig of the litter is thus provided for when quite young, very often it is not worth feeding to maturity. If the proper kind or amounts of feed are not given when very young, or if required to compete with stronger or older animals for what they do get, born runts or those that are undersized will become more pronounced runts as they grow older. In this respect they resemble closely

A Cheap and Convenient Weaning Trough.

animals that are normal when young but later become runty from a lack of such proper feed and care which usually occurs about weaning time. After animals become runty or their growth retarded, undoubtedly it will take more feed to overcome this condition and grow them out.

CAUSE OF RUNTS.

"When pigs become runty," the Tennessee farmer adds, "they never become normal. I have estimated it requires at least 25 per cent more feed to put them in marketable condition than it does normal hogs. My experience with purebred dairy cattle in that fully 90 per cent of runts among cattle are caused by improper feeding and care. If the stock raisers of this country were educated in the proper feeding and care of live stock until they reached normal growth, the runts in live stock in the United States would be almost eliminated."

This statement not only further emphasizes the fact that it does not, broadly speaking, take more feed to prevent runt animals but does require considerably more feed to develop them once they become runty. Also that it rarely is advisable to feed out a pronounced runt. The only practical thing to do, therefore, is to prevent runting by providing the necessary feed, care, and management at the most critical periods of their growth and development. These periods with most animals are when very young and at weaning time.

FAILURE OF ORGANIZATIONS

Unless Farmers Remain Steadfastly Loyal Downfall Can Be Brought About Quickly.

An association of men opposed to a farmers' co-operative enterprise can bring about its downfall very quickly unless the farmers remain steadfastly loyal. Many co-operative organizations have failed through the weakness of members who could not resist the temptation offered of a fraction of a cent. When the opposition organization puts out a bait to catch you, try to remember it is only a lure to draw you from your own friends. Once you have deserted, the bait is withdrawn. Kick to your friends, if you expect them to kick to you.

RAPID LOSS OF PHOSPHORUS

Due to the Fact That Grain Is Held Too Long in Storage.

The fact that phosphorus is found largely in the grain of crops results in a relatively rapid loss of available phosphorus from the farm, for the grain usually is removed and sold. Even when all crops are fed on the farm the loss is large because growing animals take it in bones and other tissues.

CO-OPERATIVE MARKET SAVES FOR FARMERS

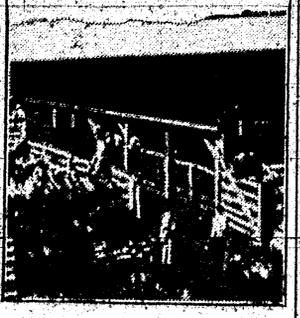

High Potatoes Shown in North Carolina.

Activities Last Season Confined to Purchasing Branded Barrel Covers and Selling Potatoes—Growth for Farmers Gain.

(Prepared by the United States Department of Agriculture.)

During the last year a farmers' exchange in Beaufort county, North Carolina, saved its members and the farmers in the community between \$75,000 and \$100,000, according to a report to the United States Department of Agriculture.

The organization, formed to aid potato growers, has shown high proficiency in co-operation. Last season its

Yards for Live Stock in Southern Community.

activities were confined to the purchasing of branded barrel covers and the selling of potatoes. Thirty-five thousand barrel covers were bought at a saving of \$700, and 120 carload lots of potatoes were sold with a saving of \$50,000.

A great growth in co-operative marketing and purchasing has been one of the outstanding results of extension work in the South. County agents, assisted by marketing specialists, through marketing demonstrations and by instruction and advice, have aided local and county associations of farmers in the co-operative selling of many kinds of farm produce and live stock, and in the co-operative purchasing of a great variety of farm necessities.

Farmers have gained knowledge of methods and acquired confidence in their ability to do business on a co-operative basis. They are beginning to undertake definite business organizations on a county-wide and even state-wide scale for the marketing of their main cash crops, such as cotton, tobacco and peanuts.

Owing to the co-operative work in cotton grading, classing, and stapling, and information given as to the market value of the various grades and staples by extension workers, it is estimated that between \$1,000,000 and \$2,000,000 were saved to the cotton farmers of Texas during the year in increased returns.

PRESERVE EGGS IN SOLUTION

Where Sodium Silicate is Not Handy Lime Water is Satisfactory and Very Cheap.

Sodium silicate, or water-glass, is the most convenient preservative in which to store eggs for winter use, but where lime is easily procurable, lime water is very satisfactory and much cheaper than water-glass. Lime water is not to roughen the shells of the eggs slightly, making the eggs somewhat less attractive in appearance than water-glass. Directions for using this lime water are given by the United States Department of Agriculture.

To preserve with lime, dissolve two pounds of unslacked lime in a small quantity of water, and dilute with five gallons of water that has previously been boiled and cooled. Allow the mixture to stand until the lime settles, then skim off, and use the clear liquid. Put clean, fresh, unwashed eggs in a clean earthenware crock or jar and pour the clear lime water into the vessel until the eggs are covered. At least two inches of the solution should cover the top layer of eggs. Keep the receptacle tightly covered to prevent evaporation and also to keep all foreign material out of the solution.

INFORMATION ON SHIPMENTS

Dealers Unable to Give Fair Quota—Here Because of Lack of Explicit Details.

Many shippers when writing to distributors fail to give sufficient information concerning their respective shipments, says the United States Department of Agriculture. The dealers, therefore, can not give fair quotations on the shipped goods. Information, if it is pointed out, can not be too explicit or detailed.

MAIN VIRTUE OF SANDY SOIL

Reason of Plants Pass Through It Readily, but It Drives Out Too Quickly.

The chief virtue of sandy soil is that the roots of plants can pass through it readily; its chief fault is that it drives out too quickly. Clay soil holds water well, but it tends to pack and harden. Both types of soil need stable manure—it loosens up clay and helps sand to hold moisture.

Citizens' Training Camps

Two Citizens' military training camps will be held in the Eighth corps area during the summer—one at Fort Logan, near Denver, Colo., from August 1 to 30, of which Col. Paul A. Wolf, Ninth Infantry, will be the commandant, the other at Camp Travis, near San Antonio, Texas, from July 15 to August 14, of which Brig. Gen. Hansp. E. Ely, U. S. A., will be commandant. Both these officers had notable service during the World war and both are eminently fitted to conduct a citizens' military training camp, and both are heartily with plans and purposes of such camps. Attendance at these camps will be limited to approved applicants between the ages of 16 and 35 years, of average intelligence, of good moral character and in good physical condition, and generally will be limited to candidates living within 200 miles of the camp, although a few residing at a greater distance will be authorized to attend. Civilians who are authorized to attend these camps will not receive any pay for attendance thereat, but will receive free all necessary uniform, clothing, food and shelter, medical attention, arms and ammunition, equipment and railroad transportation from their homes to the camp and return.

Says Use of Tobacco Good

Atlantic City, N. J.—Dr. W. H. Johnston of Camden told the New Jersey State Dental Society's convention that an "old-fashioned chew of tobacco" is one of the best disinfectants known to dental science. He declared if reformers succeeded in banishing tobacco diseases of the teeth and gums are likely to increase, adding: "Tobacco forms a sialogogue around the teeth thus preventing bacteria from getting a foothold. A cigar performs the same function to a less degree, but a cigar, because of its paper wrapper, has not the value in this respect."

Reducing U. S. Debt

Washington.—A reduction of \$42,823,184 in the public debt during May has been announced by the treasury. On April 30 the total gross debt stood at \$23,935,864,776, as compared with \$23,932,741,592 May 31. Redemption of treasury certificates of indebtedness was mainly responsible for the reduction, treasury officials explained.

During the eleven months of the present fiscal year, the treasury said, public debt disbursements aggregated \$7,370,000,000, compared with \$7,284,000,000 during the corresponding months last year, leaving a net reduction in the public debt for the fiscal year to date of \$542,000,000.

The report of the government's finances for May showed ordinary receipts aggregating \$224,000,000, which was \$145,000,000 less than ordinary disbursements. This compared with ordinary disbursements of \$228,000,000 in May a year ago. For the eleven months ordinary receipts were \$4,475,000,000, which was \$228,000,000 in excess of ordinary disbursements. Ordinary receipts during the corresponding period last year were \$5,338,000,000.

S. P. Lewis Ore Rates

San Francisco, Calif.—A reduction of \$3.50 per ton on certain ores from Arizona and New Mexico points to New York and New Jersey centers was announced by the Southern Pacific Company, effective July 15. The order affects copper bullion, copper matte, blende copper, also lead bullion and spelter (zinc), via Southern Pacific to Galveston, the New Southern Pacific Atlantic steaming line. The new rate is \$16.00 a ton; the old rate was \$19.50.

A BRIEF RECORD OF PASSING EVENTS IN THIS AND FOREIGN COUNTRIES

IN LATE DISPATCHES

DOINGS AND HAPPENINGS THAT MARK THE PROGRESS OF THE AGE

(Western Newspaper Union News Service)

WESTERN

Mrs. C. M. Hyland of Palmer, Neb., died at Omaha from a bullet wound inflicted by one of three highwaymen who attempted to rob her, her brother-in-law, James Kane of Omaha, a former member of the Omaha Western League baseball club, and Kane's wife. The robbers escaped.

Approximately 10,000,000 acres of wheat will be harvested in Kansas this year, J. C. Mohler, secretary of the State Board of Agriculture, estimated. This is 900,000 acres more than estimated in the board's report of May 20, which was based on incomplete assessors' returns of March 1.

Placing of an order for 10,000,000 pounds of copper wire by the Pacific Gas and Electric Company of San Francisco has been announced. It was said to be the largest single order for copper wire ever made. The wire will be shipped from Black Eagle, Mont. It was said, and will require 270 railroad cars for transit.

A steam shovel got tangled with high-power wires while at work at Portland, Ore., causing the shovel to fall and crush to death Edward Peterson, a workman, and seriously injured two others. F. A. Harmon, engineer, was hurled off his feet and the shovel, released from control, fell and plunged the three men who were wielding picks.

Hordes of ants, driving upward from the earth through mud tubes, are threatening destruction to the \$100,000 Exchange building at the stockyards at Wichita, Kan. Oak lumber stored under the building has been practically consumed and the ants have driven their way up along pipe lines to the woodwork of the west end of the structure, which they have tunneled as far as the second floor.

The stain of illegitimacy was removed from the name of 6-year-old Eugene Sorlin of San Francisco through a blood test performed by Dr. Albert Abrams, noted scientist, who developed the electronic method of determining race and parentage by blood vibration tests. Eugene's mother, Mrs. Marie Delseco, had sworn that the child, although born during the period of her married life with Julius Sorlin, was not a son of Sorlin's.

WASHINGTON

Contentions of the Western Union Telegraph Company that it cannot be held liable for damages caused through errors in transmitting messages while its lines were under government control were upheld by the Supreme Court. A decision of South Carolina courts, awarding damages to S. B. Poston, a cotton dealer, on this ground, was reversed.

The United States Steel Corporation answered the citation of the federal trade commission with a categorical denial of alleged unfair practices charged by independent steel producers. The corporation admits in its answer, however, that it controls 125 steel plants, 45 per cent of the output of semi-finished rolled steel and 47 per cent of the crude steel.

The Supreme Court in Washington has ordered the United Shoe Machinery case, the original suit between Wyoming and Colorado, and a number of others restored to the docket for reargument before a full court.

Two thousand railroad workers and their sympathizers held a demonstration at Baton, N. Mex., in protest against the recent nationwide reduction in wages. After a parade, a mass meeting was held, at which the on-ship movement was attacked.

Inauguration of the administration's policy for refunding most of the \$7,500,000,000 short-dated debt has been announced by Secretary Mellon, with a combined offering of \$500,000,000 of three-year 5 1/2 per cent treasury notes and one-year 5 1/4 per cent treasury certificates, both dated June 15.

Everybody's spending money shrank by \$1.00 during the past year, according to the monthly circulation statement issued by the treasury. On June 1, 1920, per capita circulation in the country was \$57.42, compared with \$58.42 on June 1, 1921. In the same period the total money in circulation dropped from \$610,102,244 to \$583,258,290.

A joint resolution designed to prevent wholesale importation of foreign goods preliminary to the enactment of a tariff law by congress, has been introduced by Chairman Little of the House committee on revision of laws. It would authorize the President to limit importations for sixty days.

Hugh R. Robertson, United States district attorney for the western district of Texas, has been removed from office by President Harding. It was announced at the Department of Justice. No reason was assigned for the removal. It was said.

The first submarine ever constructed in Spain was launched at Cartagena. The vessel's displacement is 715 tons and her calculated speed submerged is nine miles an hour and surface speed sixteen miles.

The peace treaty with Hungary, which was signed June 4, 1920, in the Trianon Palace at Versailles, and is known as the "Treaty of Trianon," was ratified at Paris by the chamber of deputies. The vote on ratification was 478 in favor to 74 against.

Dr. Y. K. Wellington Koo, Chinese representative in the League of Nations, has notified the secretary of the league that it is the intention of the Chinese government to give effect to the league assembly's recommendation concerning limitation of expenditure on armaments.

The naval ministry of Japan has ordered the withdrawal of the garrisons in the islands of the South Pacific, including the Island of Yap, leaving the protection of the islands, including the wireless installation in Yap, to the police force attached to the civil administration.

Major General Joseph Hummel, formerly of the Austrian army, and eleven other ex-officers, who were placed on trial before a special court in Vienna on the charge of having committed treason in connection with the recent attempt of former Emperor Charles to regain the Hungarian throne, have been acquitted.

Drastic steps have been taken in Kattowitz, Silesia, by leaders of Polish insurgents to prevent plundering. Firing squads have been busy every morning and several times recently six men have been executed at one time for various reasons. In spite of the severe discipline, the Poles continue rioting, and are reported to have robbed food convoys.

Lieutenant Neumann of the German navy, charged with sinking the British hospital ship Dover Castle, in which many lives were lost, has been acquitted in Leipzig by the special courts trying German accused of violating the rules of warfare. Admiral Scheer, who commanded the German fleet in the battle of Jutland, had maintained that Neumann, a U-boat commander, was merely obeying orders in sinking a ship in a part of the Mediterranean which Germany had declared closed to craft of that class.

GENERAL

Denzel Chester has been acquitted by a jury in Kansas City, Mo., of the murder of Miss Florence Barton. The jury was out only twenty minutes.

The former German passenger liner Kaiser Wilhelm II, has been renamed President Harding. It was announced at New York by officials of the United States Mail Steamship Company.

Mrs. Ethel Hutchins Nott, on trial at Bridgeport, Conn., charged with the murder of her husband, George B. Nott, pleaded guilty to murder in the second degree. Judge Malthe sentenced her to life imprisonment.

A great meeting of the representatives of all the railway unions affected by the wage cut decision of the railway labor board to be held in Chicago June 27 and 28 it has been announced. At that meeting the unions will give their answer to the \$400,000,000 wage cut and in all probability the question of strike or work will be decided there.

Resumption of building activities in Chicago, which have been halted for many weeks by wage disputes between the building contractors and the unions, is believed imminent as the result of an agreement to arbitrate the dispute. Building contracts representing expenditures of approximately \$100,000,000 hinge on successful adjustment of the dispute.

Anders Gustaf Nelson, son-in-law of Senator Knute Nelson, charged with shooting to death Joseph Middleton, a farm hand, in March, 1920, was found guilty of manslaughter in the first degree by a jury at Fergus Falls, Minn.

Between 7,000 and 10,000 workmen will be re-employed in the Northern Pacific and Great Northern railroad shops, officials announced at St. Paul, Minn. The men will be called back to work July 1. The decision is a direct result of the wage reduction, said a Northern Pacific official.

Two Mexicans and three negroes have been arrested in Des Moines by Sheriff Hobbs as suspects in the murder of Miss Sara Barbara Thorsdale. One of these was Tom Willis, 40-year-old negro, who had been camping on the Incecco river near where the teacher's body had been found.

Recent passage of the congressional deficiency appropriation measure by the Senate will provide for the early return to duty of all federal dry agents and inspectors. According to the present status of affairs, all government agents temporarily relieved from duty because of lack of funds will be placed back on duty soon.

With thousands gathered along the beach, Jack Murphy of Haverhill, known as "Davey" Jack, jumped with a parachute from his airplane at Salisbury Beach, Mass., landed in the ocean a considerable distance from shore and was drowned in the view of a big crowd.

Caribou and native reindeer are reported ranging the hills like droves of sheep in full view of Dawson, Y. T. As it is calving time, the herds are not allowed to be molested, and instead of shooting with a gun the citizens of Dawson are "shooting" with a camera.

Southwest News From All Over New Mexico and Arizona

(Western Newspaper Union News Service)

As the celebration for the Fourth of July and a subscription is now being taken up by the business men to raise the funds. A feature of the program will be wild west events.

In order to boost the tourists travel over the route through Socorro, N. M., several of the business men of the city have subscribed the money to erect a filling station at Los Lunas. The roads in the Socorro district are said to be in good condition.

While cleaning a double-barrel shotgun, Dr. W. J. Lee, well known physician of Las Vegas, N. M., accidentally discharged one of the barrels which had been left loaded, the full force of the shot taking effect in his left foot, necessitating amputation.

The New Mexico law imposing an excise tax upon distributors of gasoline was held valid and the imposition of an occupation tax by the same law partly void by the Supreme Court of the United States. The decision of the lower federal courts was reversed.

Fifteen miles of standard graded road will be added to the route between Espanola and Chama, N. M., according to a report of the headquarters of the forest service. The new road will extend south from the settlement of Cebolla through Canjilon, and when completed will cost over \$100,000.

There is no destitution among the Mexican miners at Jerome, Ariz., despite the fact that between 150 and 200 mine workers have been discharged there. P. H. Mines, state immigration commissioner, declared on his return to Phoenix from a trip to Jerome and other points in the northern part of the state.

State Water Commissioner Norviel of Arizona has accepted for filing the application of the Southern California Edison Company to develop hydroelectric energy from the Colorado river. Promoters of the project say it involves an ultimate expenditure of about \$300,000,000, or twice as much as the sum spent on the Panama canal.

The possibility of opening up an aerial passenger service through the Grand Cañon of the Colorado is being considered by the War Department. Lieut. Alexander Pearson, Jr., transcontinental flier, has been ordered to make an investigation to find landing fields and then make an aerial observation trip to ascertain air conditions at different times of day and note emergency landing fields.

The local troops of Boy Scouts of Gallup, N. M., will have a fine weekend camp ground if the present plans of the business men of the city are carried out. A splendid camp ground has been selected about twenty miles north of the city in the tall pines, and this will be equipped with a real log cabin which will have all the comforts of a home and will provide the boys with a fine place to spend the weekends during the hot weather.

According to the census report of 1920, Union county leads all the counties of New Mexico in agriculture, there being 2,515,522 acres in farms in the county. There are 2,308 farms in the county operated by the owners and only 344 by tenants. The nearest approach to this record is Colfax county, where 830 of the farms are operated by the owners and 202 by tenants. The report shows that out of the 2,648 farms in the entire county only four of them are operated by colored farmers.

William H. Evans, 40 years old, of Los Angeles, Calif., died in a hospital at Phoenix as a result of a broken neck, which he suffered in an automobile accident. The accident occurred four and one-half miles east of Phoenix, when the automobile in which Evans was riding collided with a milk truck from the state hospital for the insane.

An address by Governor M. C. Mechem of New Mexico will be a feature of the celebration to be held on the Fourth of July at the official opening of the new highway over the Black Range. A big meeting of the chambers of commerce of Silver City, Hillsboro and Hot Springs will be held shortly, when the plans for the celebration will be completed.

As previously announced, Willcox, Ariz., will have a Fourth of July celebration to begin Saturday, July 2, and last until Monday evening, July 4. During the celebration a number of real sports will be featured, including horse races, baseball games, foot races and other sports, with dancing Saturday and Monday nights of the celebration and a big free barbecue.

Several people were injured, none seriously, when the northbound train on the Denver & Rio Grande, leaving Santa Fe, N. M., went into the ditch at Espanola, thirty miles north. Soft track as a result of the terrific rains is supposed to have been the cause. Andrew Stroup of Albuquerque, N. M., has been appointed supervising federal prohibition agent for the border department, with headquarters at El Paso, Texas. Dudley W. Snyder of Clayton, N. M., was named federal prohibition director for the state of New Mexico.

TREE AND STAR.

"For some reason or other," said the Tree, "part of my leaves are red. They've changed color much earlier than usual this season."

"If the truth were known, and I see no reason why the truth should not always be known, I think those leaves got mixed up. They began to hurry too much. It is as bad sometimes to hurry too much as it is not to hurry enough."

"So Bright," hurried so fast they began to think they must be changing their color for the early fall season and then they found out that they were ahead of time and that they would have to wait for the other leaves to catch up to them.

"They hurried too much, you see. They hurried too much!" "But the rest of the leaves didn't hurry like that. And so they are still green. You have been wondering, Star, why part of me was red while the other part was green."

"I'm like a lady who wears a dark dress and a bright-red hat! That's what I think I am like, anyway."

Now the tree stood upon a very high hill—and a bright star-up-in-the-sky was talking to the tree.

"You are so very bright, Star," said the Tree. "You are like a golden star."

"Ah," said the Star, "I did well in my sky lessons. That is why I look so bright."

"What do you mean, whatever in the world do you mean?" asked the Tree.

"You must ask me whatever in the sky do I mean," twinkled the Star.

"Well, whatever in the sky do you mean?" asked the Tree. "I didn't know there were sky lessons," the Tree added.

"Oh, yes," said the Star, "there are sky lessons, and those of us who are so very bright have done well in our lessons and so we look bright."

"Creatures who do well in their lessons look bright, as a rule, you know. We've had lessons in brightness and I'm at the head of the sky class. There are some other very bright stars, you'll notice, and they have done well in their sky lessons, too."

"I see," said the Tree. "I see." "There are many bright people," said the Star, "and I love to smile down upon them and tell them how much I admire them."

"There is a dear little lady who is very bright and who knows all about flowers. It think it is very sensible too, to know a lot about flowers."

"She speaks to every flower by name. Every rose she calls by its right name. And she knows the different flowers as they're growing up out of the ground from their seeds without having to look at the marking on the sticks to see which flowers are which!"

"She gives flowers to people who come to see her, and is so generous with her beloved roses. People call her Auntie Scott, but the flowers call her Dear Lady, and how they do love her!"

"She digs about them and makes them grow. She is bright enough, too, to know just what the flowers want without their having to say a word."

"And as it is hard for flowers to say even one word apiece, or one word between them, it is so nice that she knows just what they want. All, yes, she is very bright about her flowers, and knows all about them. And her flowers are very bright, for they've been brought up in a splendid flower school. They're being taught to be bright, for they've been shown how to be bright, and have been helped by the dear little lady."

"There are the cats, Bebbem and Jofa. They're bright about knowing where they can get the best food, and that is at their home."

"Topsy, the cat, is bright because he knows which is the most comfortable chair, and always sits in it. He sits in a lovely big armchair."

"Ah, yes, creatures are bright in different ways, but I'm glad I'm a bright star!"

"Has Been to Circus."

"Now, you all understand," said the teacher, "that the trunk is the middle of the body, don't you?"

"Taint in an elephant," spoke up one youngster.

"Never Comes Back."

"What is it that every living being has seen, but will never see again—Yesterday."

A Feeling of Security

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit producing drugs.

Such a medicine is Dr. Kilmer's Swamp-Root, Kidney, Urter and Bladder Remedy. The same standard of purity, strength and excellence is maintained in every bottle of Swamp-Root.

It is scientifically compounded from vegetable herbs. It is not a stimulant and is taken in teaspoonful doses. It is not recommended for everything. It is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root. If you need a medicine, you should have the best. On sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to try this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Who spends the present in dreaming of the future will spend his future in mourning his past.

With the anti-aging, skin-softening, hair-restoring, eye-strengthening, and complexion-improving qualities of Dr. Kilmer's Swamp-Root, Kidney, Urter and Bladder Remedy. One of the Outcomes of the Tonic (Scalp, Ointment, Tablets).—Adv.

Snatched as a Brand. "Dr. Mott," says the palpably anti-legal Yale News, "had intended to take up the study of law, but his Y. M. C. A. work, while a student at Cornell, influenced him to follow Christian pursuits."—Quoted by F. P. A., in the New York Tribune.

YOU CAN WALK IN COMFORT

If you shake into your shoes some ALLAN'S FOOT-PASTE, the antiseptic, healing powder for sore, chafed, or itchy feet that ache. It takes the friction from the shoe and gives relief to corns and bunions, hot, itchy, swollen feet. Ladies can wear shoes one size smaller by shaking Allan's Foot-Paste in each shoe.—Adv.

Self-denial. "So you saw the doctor today about your indulgence. Did he ask you to give up anything?" "Yes, \$2."

A national bird is the eagle—with the stork a close second.

"That Tired Feeling" Often Forecasts Sickness

When you are tired without good cause, lack ambition and feel out of sorts generally, you may be heading straight for a sick spell. These symptoms often show the whole system, especially the blood, is disordered.

Any doctor will tell you that. Start at once to drive impurities from your system and help enrich your circulation with famous S.S.S., the vegetable blood tonic of fifty years' standing. Get S.S.S. from your druggist today, and write about your condition to Chief Medical Advisor, 847 Swift Laboratory, Atlanta, Georgia.

What to Take for CONSTIPATION

Take a good dose of Carter's Little Liver Pills—then take 2 or 3 for a few nights after. They cleanse your system of all waste matter and regulate your bowels. Mild—as easy to take as sugar. Genuine bear signature. Small Pill. Small Dose. Small Price.

MORE THAN HE COULD STAND MAROONED FOR THREE YEARS

Mr. Cityman Changed His Mind When Business Partner Began to Brag About His Garden.

Sailor's Long Period on Loneliness on Small Island Located in the South Sea.

"What He Said to His Wife—If you want a garden this year you had better hire somebody to make it. I'm not going to try it again. I've figured it out; and if I would spend on my business the time I put in on that garden I would make enough money to keep us in vegetables for fifty years. I am off it for life."

Marooning occasionally brings about a modern Crusoe; just as it did with Alexander Selkirk, who was put ashore at Juan Fernandez, and whose adventures gave Defoe the foundation for "Robinson Crusoe." The trading schooner, Queen Charlotte, passing a small island of the Marquesas in the South sea, landed her boat to investigate the smoke of a fire, as it was understood the island was uninhabited. Here was found a United States seaman, who had been put ashore with three shipmates by their captain, on account of their mutinous conduct. The three others had died, but the man from Connecticut had contrived to live on the fish he caught, and the breadfruit and coconuts and other products which he could gather. When rescued after three years' loneliness, his utensils consisted of great shells, and two cups which he possessed, made from the skulls of his companions.

What He Said to His Neighbor—I don't think I'll bother with a garden this year. It doesn't pay; I may do a little; but the digging and the labor—I'm off that for life."

Strange Inconsistencies. Here is one of life's inconsistencies: A mouse is afraid of a man, a man is afraid of a woman, and a woman is afraid of a mouse.—Exchange.

Woman, Lovely Woman. It takes a woman longer to make up her mind than it does to make up her face, but with either she usually gets what she is aiming at.—Florida Times-Union.

Woman, Lovely Woman. It takes a woman longer to make up her mind than it does to make up her face, but with either she usually gets what she is aiming at.—Florida Times-Union.

Made Just to Your Taste And Always the Same

You secure uniformity of strength and flavor in your meal-time drink, by the portion used.

INSTANT POSTUM

(instead of coffee or tea)

can be made instantly by measuring the powdered Postum with a teaspoon, placing the contents in a cup, then adding hot water. Better for nerves and digestion.

Largest Circulation in the County

Tinnie Items

In addition to heavy rains during the past few weeks, this community was visited by hail storms last Friday and Saturday resulting in damage to roads, growing crops, and fruit, many farmers having to re-plant their crops. Irrigating dams and ditches have been badly wrecked, roads washed out and large boulders have rolled into the roads from the canyons.

Many sheep and goats have been killed by hail, horses and cattle have been drowned, but stockmen are cheerful. The green grass makes them so.

Miss Thelma Allen has closed her school at Escondido and returned to Fort Sumner.

Stephen Raymond, of the Tinnie Mercantile Co., has been quite ill for the past few days.

This community is preparing to give a big celebration on July 4. Everything in the line of amusements will be furnished—dancing, horse racing, goat roping and every sport that can be thought of, will be had.

First Methodist Church

Rev. C. C. Higbee returned from El Paso Wednesday, having spent a week in that city, attending the Preacher's Summer Assembly and Sunday School Institute. He reports splendid lectures by Bishop H. M. DuBose of California and Dr. D. D. Sealeman of Texas. Rev. Higbee has added another unit toward a Gold Seal Diploma. Mrs. W. J. Fetter visited her sisters in El Paso and took part in the junior department work of the Institute. On next Sunday morning the pastor will give a report of Dr. Sealeman's address on the opening of the Institute. Subject for the evening sermon will be, "The Value of Life."

NOTICE OF SHERIFF'S SALE

Notice is hereby given that J. E. W. Harris, Sheriff of Lincoln County, New Mexico, will, on the 12th day of July, at one o'clock p. m., of said day, sell at public auction for cash at the Harvester Mine in Nogal Canon, which is about four miles up said canon from the town of Nogal, New Mexico, the following described property for the purpose of satisfying that certain judgment made and entered of record in the district court of the Third Judicial district for Lincoln county, New Mexico, on the 23rd day of May, 1921, in cause Number 3173 on the civil docket of said court entitled John E. Robbins, plaintiff, v. The Harvester Mining Company, Geo. W. McGhee, Chas. G. Mulekay, John A. Haley and John W. Walker, defendants, which action was for the foreclosure of a mechanic's lien and which said judgment is for the principal sum of Three Hundred Forty-Seven Dollars, attorneys fees and costs of suit.

All of the right, title and interest of the said Harvester Mining Company and of the said Geo. W. McGhee and John W. Walker in and to that certain

mining claim known as the Harvester Mining claim in the Nogal mining district, Lincoln county, New Mexico, and described by mates and bounds as "Beginning at Corner No. 1, running 1800 feet in a northerly direction and 500 feet in width. The discovery shaft is situated at the junction of the Rockford and Nogal canon and is about 250 feet east of the Parsons power line, together with 1 Marathon mill, gold mining; 1 crusher, Gatas, 4 in. x 10 in.; 3 transformers, 20 kilowatt; 1 bbl. oil transformer; 800 feet pipe, black, 2 1/2 in.; 100 feet pipe, black, 1 1/2 in.; 80 feet pipe, black, 1 in.; 1 box miscellaneous valves and fittings; 1 box wrenches, pipecutting, tools, etc.; 1 engine, gasoline, 6 horsepower; 1 pump, Triplex, 4x6; 2 tables, concentrating, Wilfley; 2 motors, electric, Howell—one 7 1/2 horsepower and the other 15 horsepower; 1 fuel oil burner and equipment; 1 fan, exhaust, No. 4; 1 lot of miscellaneous mining tools, consisting of picks, shovels, wheelbarrow, forge and anvil; 1 pump, centrifugal, Gould, 2 1/2 in.; and the houses and other permanent improvements located upon said mining claim.

In witness whereof I have hereunto set my hand this 15th day of June, 1921.

E. W. HARRIS, Sheriff.

June 17-July 8.

RED STAR

Detroit Vapor-Oil Stove

Your Cooking Done More Quickly and Thoroughly on this All-Year-Round

RED STAR

Detroit Vapor-Oil Stove

THIS entirely new-type, wickless oil stove will cook a 5-lb. beef roast to delicious tenderness in 1 1/2 hours; boil potatoes perfectly in 20 minutes, or turn out baking powder biscuits, tender and flaky, in 12 to 15 minutes.

In fact, the RED STAR will cook or bake anything to a turn in less time, with less attention and bother, and with 25 per cent less fuel than with any other oil stove on the market.

These remarkable results are due to a new, scientific principle which converts kerosene, gasoline or distillate into gas, eliminates all smoke and odor, and saves one-fourth of the usual fuel expense.

This is the stove which is winning all official cooking tests for efficiency and economy. Leading domestic science experts have endorsed it. Thousands of women are using it and recommending it to their friends.

If you are not familiar with the RED STAR and its "gas range" principle, go to Kelley & Son and have them demonstrate it to you. See how it positively ends the failures in cooking and how it enables you to enjoy all the advantages of a city gas range.

 one cure for the disease that has
 been so long and so cruelly
 tormenting the human race, and that is
 Dr. H. A. Carter's Cure. It is the only
 cure ever known to the medical
 fraternity. Carter's Cure is a constitutional
 medicine, requiring a constitutional
 treatment. H. A. Carter's Cure is taken in-
 ternally, acting directly upon the blood
 and nervous system of the system, there-
 by destroying the foundation of the dis-
 ease. It is a powerful medicine, and
 nature is doing its work. The proprietors
 of this cure are Dr. H. A. Carter and
 Dr. J. W. Carter. They are the only
 ones who can give you the cure. And
 the cure is Dr. H. A. Carter's Cure. It is
 the only cure for the disease that has
 been so long and so cruelly tormenting
 the human race.

White Oaks Notes
 The dance given in the honor
 of Phelps Walker, who was home
 on a ten day furlough, was a
 very pleasant affair. People
 from neighboring towns for
 miles around, were here.

We had a most interesting
 meeting at the Church last Sun-
 day. B. M. Stradley preached
 a splendid sermon and Baron J.
 V. Aurimma sang the "Publi-
 can" which was much enjoyed
 by all present.

White Oaks Notes
 The Woman's Club met Thurs-
 day at the home of Mrs. Fred
 Smith. The afternoon was pleas-
 antly spent in card playing and

A social lunch
 was given at the home of
 Mrs. J. J. Smith on the after-
 noon of June 23.

I've tried them all
 but give me a Camel

I'm through experimenting. No more switching.
 No more trying this and that. It's Camels for me—
 every time.
 They're so refreshing! So smooth! So mellow mild!
 Why? The answer is Camels exclusive expert
 blend of choice Turkish and Domestic tobaccos.
 There's nothing like it.
 No other cigarette you can buy gives you the real
 sure-enough, all-day satisfaction that comes from the
 Camel blend. Camel is the quality cigarette.
 Give Camels a tryout. Buy a pack today. Get your
 information first hand. You'll tie to Camels, too.

PUEBLO BATTLES BACK TO LIFE MANY DEAD IN ARKANSAS VALLEY

AMITY, SEVEN MILES WEST OF HOLLY, REPORTED WIPED OUT BY RIVER FLOOD.

MANY TOWNS ARE DAMAGED

ROCKY FORD, MANZANOLA, PROWERS, LAS ANIMAS, GRANADA, SWINK AND LAMAR HARD HIT.

Denver, June 7.—In addition to the dreadful reports on the damage at Pueblo, comes the harrowing stories of other points along the wake of the flood waters that rushed down the Arkansas river, leaving death and destruction in its path. The little city of Amity was practically wiped off the map and the residents were compelled to seek safety and shelter in the higher ground south of the valley. It is feared that four lives were lost at that point.

The water struck La Junta Sunday afternoon in a depth of three feet all over the north side of the city, cutting off the water supply and lighting system. The river at this point was reported nearly two miles wide. The Santa Fe railroad shops were at one time in five feet of water and the entire transportation system of that line from Pueblo to Syracuse, Kansas, is paralyzed. Santa Fe passenger trains are being detoured north around via McPherson over the Union Pacific, and coast bound trains via Amarillo, Texas, across the coast line in New Mexico.

At least 200 residences in Las Animas stood in three feet of water for several hours at the height of the flood. At Lamar the river was reported nearly three miles wide and reached well into the town, which is situated on the south side of the river just where the higher land begins to raise out of the river bottom.

Pueblo is already started digging back to life. Digging out is the only thing the town thinks about. It has crowded into the background the search for the dead. Until the waters recede and many districts are drained, casualty hunts cannot be prosecuted with any degree of success.

The downtown districts are above the water again and every available man and tool is engaged in the work of cleaning. Caterpillar tractors are transporting dead horses from the flooded districts. Slips pulled by four-horse teams are scrapping the mud from streets and bridges which are sagging under the extra weight. Every available man is working with hands or pick or shovel. A house-to-house canvass is being made for scrub women. The salvage of wrecked mercantile stores has begun.

Denver, June 6.—Friday, June 3, was a dark day in the history of Pueblo, Colorado's second city. Flood waters from the Arkansas and Fountain rivers devastated the business and lower residence sections of the town, sweeping away hundreds of houses and causing great loss of life. Reports to date show property loss will run into millions, while constantly dead bodies are being found, until the death roll shows upwards of 200. Flood waters fill a large portion of the city, and Saturday and Sunday as they receded new horrors were revealed. In some places the water was reported seventeen feet deep.

Pueblo's union depot was in the center of the flooded area, which reached from the high cliffs on which the better residence portion of the city is located at Seventh street to west of the station. Practically all in that lower section is destroyed. From Friday night to Sunday the city was without light or water, street cars stopped, fires became frequent and with no chance to fight them, soon consumed many business and residence blocks.

The flood was augmented by a second cloudburst Saturday which wrought greater havoc. Sunday, with the breaking of Beaver dam, eight miles north of Florence, and a terrific cloudburst about 3 p. m., the stricken city is in a most pitiful condition. The Arkansas river rushed down again and the retreating waters were given fresh impetus. It is impossible to tell the extent of this dire disaster.

Pueblo is under martial law, the Colorado National Guard and Colorado Rangers being in complete control of the city. Looters have been arrested by the dozens and several shot. Armies of scavengers worked day and night to save persons caught in the flood and who could not reach safety before the great nine-foot wall of water struck the city.

Denver & Rio Grande train No. 8 and Missouri Pacific train No. 12 were caught in the flood and both turned turtle. As each carried numbers of passengers, it is not now known how many perished.

Denver, June 7.—In addition to the dreadful reports on the damage at Pueblo, comes the harrowing stories of other points along the wake of the flood waters that rushed down the Arkansas river, leaving death and destruction in its path. Devastation Wrought by Fire and Water at Pueblo Beyond Description.

Colorado Springs.—The devastation wrought by fire and flood at Pueblo is beyond description, according to C. S. Rallsback, formerly of this city, now special agent of the Santa Fe at Pueblo.

Mr. Rallsback made his way to Colorado Springs by special Santa Fe motor car in an effort to get into communication with La Junta over the Union Pacific wires to order a special relief train to the scene of the disaster.

"Hundreds of lives were lost and millions of dollars in property were destroyed," said Rallsback. "The main business district of the city gutted by fire and water, and it probably never will be known how many hundreds of people perished."

"The entire residence districts in several of the lowlands were completely wiped out. I spent the entire night with hundreds of others, rescuing women and little children from the flood, and my mind is so befuddled that I can hardly talk about the thing. It was horrible beyond description."

"I saw several frame rooming houses topple over, plunge into the raging torrent, each filled with screaming women and children. The scene was sickening."

Mr. Rallsback said at one time there was fifteen feet of water running through the Santa Fe yards. In fact, the yards were completely destroyed.

To add to the horror of the flood, fires broke out all over the city, but only in the business district, but in many residence sections.

The largest business houses of the city, including the big banks, Crow-Beggs, White & Davis, Straub's trunk factory, the King lumber yard and many others were wrecked by water or completely destroyed by fire, according to Rallsback.

The river broke over its banks near the state insane asylum, and soon there was a raging torrent from the high cliffs to the west of the union depot to Seventh street.

U. S. Asked for \$5,000,000 Aid.

Colorado Springs.—Governor Shoup is asked to appeal to the federal government for an appropriation of \$5,000,000 of which \$2,000,000 may be immediately available, in a telegram received at his home from James L. Lovern, president of the city council of Pueblo, Frank S. Hoag, chairman of the relief committee, E. E. Withers, president Pueblo waterworks; C. K. McHarg, president Arkansas Valley Ditch Association.

The text of the message follows: "Hon. Oliver H. Shoup, governor, Colorado Springs: 'Late estimates of total property and crop damage between Canon City and state line, is from fifteen to twenty million dollars. Damage in Pueblo city and county alone will total six to eight million dollars. Federal government expend millions of dollars to improve and repair levees in all sections of the country. We now ask for government to appropriate sum of \$5,000,000, of which the sum of \$2,000,000 may be immediately available for purpose of repairing and improving Arkansas river and Fountain river levees and removing debris from cities damaged, of which Pueblo should have at least one and one-half million dollars immediately. Impossible to ascertain loss of life, owing to impossibility of removing debris without great financial assistance, but Pueblo alone will show several hundred people drowned when debris is removed.'

Platte River Goes Over Banks. The flood gates of Bergen and Harman lakes above Denver were raised to allow the flood waters to escape down the Platte river, that the dams could take care of the extra water let loose by the breaking of the Beaver dam. This caused the river to overflow its banks in Denver and a near panic ensued when the police sent out warning to people living along the lowland next to the river. No loss of life was reported and all danger was soon over. The police of the city used every precaution to see that no one was allowed to cross any of the bridges which the raising water was threatening. The water in some instances running within two feet of the floors of the bridges.

Nearly 100 families around Jerome Park and in the Valverde districts were compelled to seek higher ground. Two to four feet of water standing in the houses in that district.

Trains Turned Over. The overturning of a Denver & Rio Grande passenger train with 120 passengers on board in the railroad yards at Pueblo is the outstanding disaster of the storm as far as railroad traffic is concerned. The passengers were removed to the Natchez Packing plant, where physicians hastily summoned attended to the injured. The train left Denver carrying 120 passengers, largely excursionists in the Pacific coast.

Latest Report on Death Toll. The death toll of the flood waters which swept the northern, eastern and southern sections of Colorado continues to mount as more complete reports are received from inundated portions of the state. The total number of dead stands at 673 at last reports. Several towns where devastation is thought to have been terrific were still unheard from, owing to crippled communication lines and disrupted rail traffic. The towns and cities in which casualties resulted from the flood waters, and the number of dead, are as follows: Pueblo, estimated; 800; Swink, estimated; 10; Avondale, 20; Boone, 20; St. Charles Mesa, 10; La Junta, 7; Keeling, 4; Longmont, 1; Denver, 1.

Brookline, Mass.—Brig. Gen. John W. Beckwith, 66, in command of the North Atlantic coast artillery district, is dead. He had served in Cuba, in the Philippines, on the Texas border in 1914, and during the flood was he held the rank of major general in the national army.

Eye Witness Tells of Horror

Colorado Springs.—The devastation wrought by fire and flood at Pueblo is beyond description, according to C. S. Rallsback, formerly of this city, now special agent of the Santa Fe at Pueblo.

Mr. Rallsback made his way to Colorado Springs by special Santa Fe motor car in an effort to get into communication with La Junta over the Union Pacific wires to order a special relief train to the scene of the disaster.

FRECKLES

Now is the Time to Get Rid of Them
There is no longer the slightest need of those annoying spots. The new Freckle Remover is guaranteed to remove these annoying spots.

Apply a little of the cream of Othello's double strength—on your freckles, and apply a little of it night and morning and you should see that even the worst freckles have gone to disappear, while the lighter ones have faded entirely. It is as clean as soap and the cream is so rich in skin-softening ingredients that it gives a beautiful complexion.

Be sure to ask for the double strength Othello, as this is sold under guarantee of money back if it fails to remove freckles.

NOT WHAT THEY LOOKED FOR

Audience, Like Readers of Novels,
Wanted What They Had Been
Used to Getting.

Dr. William Lyon Phelps of Yale said at a dinner in Philadelphia: "The average popular novelist and his audience are very, very well—it reminds me of a story."

"An old-time music hall artist turned up, after some years of absence, in a certain provincial town where he had once been a great favorite. He went on in his usual make-up—bulging red nose and so forth—expecting a grand reception, but all his efforts were received in gloomy silence."

"What's the matter with 'em?" he said afterward to the stage manager, and he dashed a tear from his eye. "Have they forgotten old Bill?"

"No, Bill, they ain't forgotten you," said the manager in a kindly voice. "No, it ain't that, but you've changed your jokes about. You're telling 'em one about the star boarder ahead of the one about the limburger, and it upsets 'em!"

Princesses May Be Queen

Widow of Ralph Thomas May See Husband Acclaimed King of Albania.

LOSES HEART TO PRINCE

Princess Viora is Granddaughter of Eugene Kelly, Millionaire New York Banker—Her First Husband Was Frank Jay Gould.

New York.—Princess Viora, formerly Mrs. Helen Kelly Gould and more recently Mrs. Ralph Thomas, may be the first American to be addressed as "your majesty."

If she attains the throne of Albania, as seems possible, she bids fair to eclipse socially Princess Anastasia of Greece, formerly Mrs. William H. Leeds, who, through her marriage to Prince Christopher of Greece, has climbed the royal ladder higher than any other American woman.

Princess Viora is in New York "on business," while her royal consort, Prince Viora, is at their house in Paris drawing plans to ascend the throne of his grandfather.

The father of Viora, Ferid Pasha, is prime minister to Abdul Hamid, and is working quietly with Turkish leaders.

She Prefers Paris.

"What will you do in Albania, where most of the men are polygamists and addicted to bloody feuds?" I asked her in her apartment in the Hotel Lenox.

"I don't know," she said, smiling, "perhaps remain most of the time in my Paris home with my two children—Helen, who's nineteen, and Dorothy, who's seventeen—who are now in school in Switzerland."

The princess was Helen Margaret Kelly, granddaughter of the millionaire New York banker, Eugene Kelly. She was married at eighteen to Frank Jay Gould and after divorcing him married Ralph Thomas, son of the sugar king. After a brief married life, he died suddenly in 1914, leaving her several millions.

During the war she sailed for Paris, where she became a war nurse. While recuperating in Switzerland, she told me, she met Prince Viora, who was brooding over the fate of Albania and meditating schemes for its restoration.

Leaves Her Heart.

"He told me sad stories of Albania," she continued, "of its wild scenery and the picturesqueness of its people. He was a delightful chap and I confess that I lost my heart to him. We were married quietly."

"Whether the prince will become king of Albania is not certain. It is well known in diplomatic circles that the problem of finding a satisfactory ruler is a hard one. The prince is the natural ruler and is mapping out his course in Paris and London now."

"Albania is the roughest country in the Balkans, a country of wild mountains, entirely without railroads. The only towns are situated on the coast of the Adriatic. The entire population is less than 1,500,000."

"The people consist mainly of fierce mountaineers, walking around with knives and knives. They are Mohammedans in religion and confirmed polygamists."

The princess explained that shortly before the war Prince William of Wied, with German and Austrian backing, succeeded in getting installed as king of Albania at Durazzo. He never succeeded, she said, in winning the allegiance of the mountaineers, because Essad Pasha and local chieftains were hostile to him. So he returned to Germany. Since then the Italians have occupied most of Albania and joined hands with the allies, operating from Saloniki.

"I am here to assist my husband in my own way," Princess Viora said. "If he wants the throne he can have it."

"I am very much in love with him and will help him all I can, but I think I would prefer to spend most of my time in Paris."

"My mission here is to rest and to see certain friends on certain matters of importance."

Maneuvers by U. S. Air Craft

Director of Naval Aviation Lays Out Extensive Program for Summer and Fall.

BIG AIRSHIPS TO TAKE PART

Giant Dirigible Purchased From Great Britain Will Take Trip West as Far as Chicago—Maneuvers Also Planned for Pacific.

Washington.—With Atlantic and Pacific fleet air forces mobilized at bases on the two coasts, an intensive program of summer and fall maneuvers is being planned by Capt. William A. Moffatt, director of naval aviation.

Starting with the joint army and navy bombing tests off the Atlantic coast, designed to test the offensive value of aircraft against naval vessels, navy flyers will be put through several months of stiff exercises.

Early in July the naval airship ZR-2, purchased in Great Britain, will fly to this country in charge of an American crew. A great aerial demonstration will mark her arrival. Detachments of seaplanes, flying boats and dirigibles will fly far out to sea to meet the big airship and escort her to a point on the Atlantic coast just north of Boston.

Test Mooring Mast.

The ZR-2 will then skirt the coast southward, passing over the principal cities to Philadelphia, then proceed to the giant navy hangar at Lakehurst, N. J., and be "anchored" to a "mooring mast," the first device of this kind to be erected in this country.

Experts from Great Britain will superintend the erection of the mast which will be a steel structure about 150 feet high with a swiveling bridge at the top to which the nose of the dirigible will be moored, permitting the ship to swing always nose to the wind. The structure will cost about \$50,000, and probably be fitted with an elevator to carry the crew of the dirigible to and from the ground.

After being thoroughly overhauled, the ZR-2 will undertake a cross-country cruise to show the ship to the people.

Will Pass Over Many Cities.

Present plans call for a trip to Chicago and return, at least by way of the southern border of the Great Lakes, and if cities west of Chicago provide mooring facilities the cruise may be extended indefinitely. The ship can make a round trip to Chicago without refueling.

Based on Lakehurst, the ZR-2 is to operate along the coast later and participate in air fleet mobilization and extensive maneuvers and tactical drills.

On the Pacific coast similar maneuvers will be conducted in connection with the Pacific fleet. It is possible a squadron of naval aircraft may attempt a trip "around the rim" of the country from a point in Washington state to Maline, during the year, the longest airplane cruise ever attempted.

Plans for a flight from San Diego, Cal., to this city have been abandoned, as Capt. H. C. Mustin, commanding the Pacific fleet air force, who would have led the expedition, cannot be spared from summer exercises of the Pacific air forces.

Dead Hero Made a Marshal.

Paris.—Gen. Gallieni, former minister of war and former military governor of Paris, who sent the army of Paris to the Marne in 1914 in taxis and who died in 1916, has been posthumously named a marshal of France in a decree signed by President Millerand. This was in accordance with authorization given by parliament recently.

COURT BARS U. S. SPELLING

Australian Chief Justice Rules in Favor of the English Form.

Melbourne, Victoria.—American forms of spelling have been barred from official documents in the high court. The federal chief justice has announced that he will not allow their introduction and has ordered the spelling of the words "program" and "center" changed to "programme" and "centre." He remarked that English spelling was good enough for him.

MARKETS

Published by U. S. BUREAU OF MARKETS, Washington, D. C.

(Western Newspaper Union News Service.)

Grain and Vegetables.

Washed round white potatoes slightly weaker at Minnesota shipping points, closing around 60¢ per 100 lbs. Chicago car lots 50¢ to 55¢. St. Louis 50¢. Western low point, closing at 75¢. South Carolina Irish Cobblers up 50¢ per 50 lbs. New York, reaching 44¢. Texas and country offerings of Blue Triumphs up 25¢ per 100 lbs. St. Louis and Kansas City, closing 33¢.50.

Grain.

After closing out of May future on the Chicago market, a reaction has set in on development of good export demand, bullish crop reports, yield estimates by private experts and removal of uncertainty of crop. On the Chicago market July wheat sold at 11 1/2¢, a new high point. Upturn out of business, and with better crop conditions, bulls received rarer and some Chicago sentiment market subsequently declined. On the 4th Chicago September wheat opened at 11.24¢. Export demand slow and country offerings corn less liberal. In Chicago cash market No. 2 red winter, 11.54¢; No. 3 hard, 11.61¢; No. 3 mixed, 11.67¢. No. 3 yellow, 11.67¢. For the week Chicago July wheat up 3/4¢, at 11.31¢; July corn down 1/2¢, at 11.25¢. Minneapolis July wheat up 1/2¢, at 11.25¢; Kansas City July, 2¢, at 11.24¢.

Hay.

Receipts at principal western markets increasing, but both local and Chicago demand limited. Some quotations reported at Cincinnati and Kansas City, and prices have declined. Eastern markets quiet but unchanged. Demand slow and country offerings less liberal. In Chicago cash market No. 1 Timothy, New York, 12.50¢; Chicago, 12.50¢; Minneapolis, 12.50¢; Cincinnati, 12.50¢; Memphis, 12.50¢; St. Louis, 12.50¢; Philadelphia, 12.50¢; Kansas City, 12.50¢; Minneapolis, 12.50¢.

Feed.

Market unchanged, demand light; stocks ample and offerings all feeds fair to good. Better inquiry for linseed meal, July and August shipment, than for prompt or June shipment. Corn falls in strong. Cottonseed meal unchanged, though quotation nominally unchanged. Stocks wheat feeds and best quality sorghum slightly less. In Chicago cash market: No. 1, 11.50¢; No. 2, 11.50¢; No. 3, 11.50¢; No. 4, 11.50¢; No. 5, 11.50¢; No. 6, 11.50¢; No. 7, 11.50¢; No. 8, 11.50¢; No. 9, 11.50¢; No. 10, 11.50¢; No. 11, 11.50¢; No. 12, 11.50¢; No. 13, 11.50¢; No. 14, 11.50¢; No. 15, 11.50¢; No. 16, 11.50¢; No. 17, 11.50¢; No. 18, 11.50¢; No. 19, 11.50¢; No. 20, 11.50¢; No. 21, 11.50¢; No. 22, 11.50¢; No. 23, 11.50¢; No. 24, 11.50¢; No. 25, 11.50¢; No. 26, 11.50¢; No. 27, 11.50¢; No. 28, 11.50¢; No. 29, 11.50¢; No. 30, 11.50¢; No. 31, 11.50¢; No. 32, 11.50¢; No. 33, 11.50¢; No. 34, 11.50¢; No. 35, 11.50¢; No. 36, 11.50¢; No. 37, 11.50¢; No. 38, 11.50¢; No. 39, 11.50¢; No. 40, 11.50¢; No. 41, 11.50¢; No. 42, 11.50¢; No. 43, 11.50¢; No. 44, 11.50¢; No. 45, 11.50¢; No. 46, 11.50¢; No. 47, 11.50¢; No. 48, 11.50¢; No. 49, 11.50¢; No. 50, 11.50¢; No. 51, 11.50¢; No. 52, 11.50¢; No. 53, 11.50¢; No. 54, 11.50¢; No. 55, 11.50¢; No. 56, 11.50¢; No. 57, 11.50¢; No. 58, 11.50¢; No. 59, 11.50¢; No. 60, 11.50¢; No. 61, 11.50¢; No. 62, 11.50¢; No. 63, 11.50¢; No. 64, 11.50¢; No. 65, 11.50¢; No. 66, 11.50¢; No. 67, 11.50¢; No. 68, 11.50¢; No. 69, 11.50¢; No. 70, 11.50¢; No. 71, 11.50¢; No. 72, 11.50¢; No. 73, 11.50¢; No. 74, 11.50¢; No. 75, 11.50¢; No. 76, 11.50¢; No. 77, 11.50¢; No. 78, 11.50¢; No. 79, 11.50¢; No. 80, 11.50¢; No. 81, 11.50¢; No. 82, 11.50¢; No. 83, 11.50¢; No. 84, 11.50¢; No. 85, 11.50¢; No. 86, 11.50¢; No. 87, 11.50¢; No. 88, 11.50¢; No. 89, 11.50¢; No. 90, 11.50¢; No. 91, 11.50¢; No. 92, 11.50¢; No. 93, 11.50¢; No. 94, 11.50¢; No. 95, 11.50¢; No. 96, 11.50¢; No. 97, 11.50¢; No. 98, 11.50¢; No. 99, 11.50¢; No. 100, 11.50¢.

Director of Naval Aviation Lays Out Extensive Program for Summer and Fall.

Washington.—With Atlantic and Pacific fleet air forces mobilized at bases on the two coasts, an intensive program of summer and fall maneuvers is being planned by Capt. William A. Moffatt, director of naval aviation.

Starting with the joint army and navy bombing tests off the Atlantic coast, designed to test the offensive value of aircraft against naval vessels, navy flyers will be put through several months of stiff exercises.

Early in July the naval airship ZR-2, purchased in Great Britain, will fly to this country in charge of an American crew. A great aerial demonstration will mark her arrival. Detachments of seaplanes, flying boats and dirigibles will fly far out to sea to meet the big airship and escort her to a point on the Atlantic coast just north of Boston.

Test Mooring Mast.

The ZR-2 will then skirt the coast southward, passing over the principal cities to Philadelphia, then proceed to the giant navy hangar at Lakehurst, N. J., and be "anchored" to a "mooring mast," the first device of this kind to be erected in this country.

Experts from Great Britain will superintend the erection of the mast which will be a steel structure about 150 feet high with a swiveling bridge at the top to which the nose of the dirigible will be moored, permitting the ship to swing always nose to the wind. The structure will cost about \$50,000, and probably be fitted with an elevator to carry the crew of the dirigible to and from the ground.

After being thoroughly overhauled, the ZR-2 will undertake a cross-country cruise to show the ship to the people.

Will Pass Over Many Cities.

Present plans call for a trip to Chicago and return, at least by way of the southern border of the Great Lakes, and if cities west of Chicago provide mooring facilities the cruise may be extended indefinitely. The ship can make a round trip to Chicago without refueling.

Based on Lakehurst, the ZR-2 is to operate along the coast later and participate in air fleet mobilization and extensive maneuvers and tactical drills.

On the Pacific coast similar maneuvers will be conducted in connection with the Pacific fleet. It is possible a squadron of naval aircraft may attempt a trip "around the rim" of the country from a point in Washington state to Maline, during the year, the longest airplane cruise ever attempted.

Plans for a flight from San Diego, Cal., to this city have been abandoned, as Capt. H. C. Mustin, commanding the Pacific fleet air force, who would have led the expedition, cannot be spared from summer exercises of the Pacific air forces.

Dead Hero Made a Marshal.

Paris.—Gen. Gallieni, former minister of war and former military governor of Paris, who sent the army of Paris to the Marne in 1914 in taxis and who died in 1916, has been posthumously named a marshal of France in a decree signed by President Millerand. This was in accordance with authorization given by parliament recently.

Market unchanged, demand light; stocks ample and offerings all feeds fair to good. Better inquiry for linseed meal, July and August shipment, than for prompt or June shipment. Corn falls in strong. "SUPER-POWER" IS OPPOSED

HARDING POINTS TO EXAMPLE SET BY U. S. AND CANADA—IDEALS PRAISED.

TALKS ON WORLD PEACE

PRESIDENT DELIVERS ADDRESS AT UNIVERSITY ON WORLD PROBLEM.

(Western Newspaper Union News Service.)

Washington, June 9.—President Harding, delivering a commencement address at American University, found the subject of world peace occupying so prominent a place on the program that he was prompted to depart from his manuscript, and to declare for the preservation of peace by sovereign states without interference of a world "super-power."

The President's remarks followed an address by N. W. Rowell, K. C., of Toronto, who suggested that the best contribution North America could make to civilization was "for men on this side of the water" to stand together behind the movement for peaceful settlement of disputes.

Another speaker who touched on the question of peace was J. J. Jusserand, the French ambassador, and the general discussion developed such a trend that Bishop J. W. Hamilton, presiding chancellor, referred to the gathering as a "peace conference."

Before singing began, American, British and French flags were raised over the outdoor speakers' stand.

"I do not think I could let this occasion pass," said the President, "without giving assent to many of the appropriate and appealing things just uttered by Dr. Rowell."

"I liked his expression that American and Canadian ideals are in common, and when he spoke about North American contribution to civilization and to the world, it occurred to me that the example of two great peoples living side by side in peace, in confidence and in mutual understanding, is about the finest contribution that two nations could give to the world."

"I have said that if all the nations were as honest and unselfish as our republic, there never would be another war. I will revise it and say that if all the nations are as unselfish and devoted to their ideals as the United States and Canada, there never will be another war."

"I call attention to the fact that the United States and Canada have settled their controversies without resort to a super-power, but by the exercise of the sovereignty of free peoples dealing with one another."

"If we can commit civilized humanity to abiding righteousness and everlasting justice and inspire them with our example we will have made a long stride toward the peace of the world craves."

With that Mr. Harding plunged into his prepared address, in which he enjoined all graduates to dedicate themselves to restoring stability in a world where "almost nothing" remains secure from the attacks of Iconoclasts.

BEFORE AND AFTER CHILD BIRTH

Mrs. Williams Tells How Lydia E. Pinkham's Vegetable Compound Kept Her in Health

Overpeck, O.—"Lydia E. Pinkham's Vegetable Compound helped me both before and after my baby was born. I suffered with backache, headache, was generally run down and weak. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers and decided to try it. Now I feel fine, take care of my two boys and do my own work. I recommend your medicine to anyone who is ailing. You may publish my testimonial if you think it will help others."—Mrs. CHARLES WILLIAMS, Overpeck, Ohio.

For more than forty years Lydia E. Pinkham's Vegetable Compound has been restoring women to health who suffered from irregularities, displacements, backaches, headaches, bearing-down pains, nervousness or "the blues." Today there is hardly a town or hamlet in the United States wherein some woman does not realize who has been made well by it. That is why Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for such ailments.

Designed the White House.

The designer of the White House was James Hoban, born in Ireland about 1755. He came to the United States, settling in Charleston, S. C., and later to Washington when the city was first being laid out. He worked for the government for the greater part of his life. He is chiefly known for his work in connection with the White House, the rebuilding of which he directed after it was burned in 1814.

ASPIRIN

Name "Bayer" on Genuine

Take Aspirin only as told in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and dosage worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacturing of Monacetaicacidester of Salicylicacid—Adv.

He Got It.

"If Crabbe ever comes around your place to borrow anything don't you let him have it."

"You've spoken too late. He was around yesterday."

"You chump! What did he borrow?"

"Trouble. He's in the hospital now."

—Boston Transcript.

Couldn't Understand.

Sister—On cold nights up north, the Eskimo sleeps in his bearskin, which keeps him very warm.

Brother—How is it, then, that when I sleep in my bare skin I nearly freeze to death?

An Expert Observation.

"Charley, dear," said young Mrs. Torkina. "I hope they won't spread the Monroe doctrine all over the world."

"Why not?"

"Well, whenever anything really fine becomes too popular, it's so likely to go out of style!"

Not Much in His Opinion.

Miss Playne—Papa declares that I am his greatest treasure.

Mr. Blunt—Indeed! Then he isn't as wealthy as I supposed.—Boston Transcript.

Danger Warning.

"You ought not to allow the young officers in your charge to pay all the attention to those pretty girls."

"Why not?"

"It is dangerous to let a spark get near so much powder."

FARRIS' HAIR BALM

Removes all fillets from the system. Sold everywhere.

"Cowless" Milk Made in Boston

Photograph of Dr. E. H. Carr and U. E. Cornforth making "cowless" synthetic milk in the laboratory of a sanitarium near Boston. It is made from oats, peanuts and water. Vegetarians approve it because it contains no animal fats; food experts are inclined to reject it for the same reason.

Seek Navy Students

Marine Corps is Authorized to Assist in Recruiting.

Stations Will Accept Enlistments for Midshipmen at the Annapolis Academy.

Washington.—Youngsters between the ages of eighteen and nineteen years, with ambitions to become midshipmen at the United States Naval Academy, now will be accepted for enlistment at all marine corps recruiting stations.

One hundred enlisted men are appointed to the Naval Academy each year, after a competitive examination given enlisted men of the navy and marine corps. They must not be more than twenty years of age on April 1 of the year it is desired to enter, and must have been in the service at least one year by August 15 of that year.

Adhering to its policy of rewarding meritorious members of its enlisted personnel with commissions, the marine corps will open an officers' training school in or near Washington this summer to fill over a hundred vacancies in the commissioned personnel of the corps.

During the war more than 800 enlisted men were commissioned in this country and France. The highest rank so far attained by an enlisted man who received his commission as a reward for meritorious service is that of a senior colonel.

The order recently issued by the major general commanding specifies that no noncommissioned officer will be considered for such advancement who shall have had less than one year's service in the army, navy or marine corps, of which not less than six months shall have been in the marine corps. Only men between the

ages of twenty-one and twenty-seven years will be considered.

Pet Snakes Protect Home, Says Editor

Middleton, N. Y.—Have you a little snake in your home? They make fine watchdogs and pets for the children, according to Editor William Hopes, who runs a country newspaper and is known as Theodore Roosevelt's double.

He says the snake is one of man's best friends and should be in every home.

Snakes destroy rats, mice and other pests, he declares, purge the house walls of infections and protect the sleeping household.
