SPECIAL SESSION IS NOT LIKELY IN JUDGEMENT OF GOVERNOR MECHER

Santa Fe, Dec. 17.—"Need of a special session of the New Mexico legislature must be imperative and there must be some assurance that the required program would be enacted, before call for such a session is signed," said Gov. Merritt C. Mechem today in discussing rumors that he might convene the legislature at an early date.

These rumors have grown out of the suspension of the Santa Fe bank of Santa Fe, which closed on Monday morning, with more than \$350,000 of the state funds on deposit. This large amount was being carried by State Treasurer, Charles U. Strong, in spite of the statutory limit of not more than 75 per cent of combined capital and surplus to be deposited in any one bank. There has been a demand from some quarters that a special session be convened to inquire into the failure, to fix definitely the responsibility for exceeding the limit and to enact such laws as would prevent a recurrence.

The law governing the handling of state funds by the state treasurer is adequate, in the opinion of Gov. Mechem and J. O. Selby, who has been retained by Bank Examiner Read as counsel for the bank. Since this is true, in the judgment of these two officials there is no need of further legislation on the point. However, Gov. Mechem explained, more power should be given to the state finance board, which is charged with the responsibility of designating the banks that are to be used as depositories for state funds. This finance board is composed of the governor, the auditor and the treasurer. The board may now direct the treasurer to deposit \$100,000, say in any bank, but the treasurer the next day may withdraw and deposit elsewhere, Gov. Mechem said.

Holding an special session will cost the taxpayers a large sum of money and before a call is signed, Gov. Mechem will get in communication with the members of the legislature and secure the pledge of a majority that any suggested program is necessary, and will be enacted. The power of enacting legislation is vested in the legislature, not in the executive, the governor pointed out, and the judgment of the legislature must be indicated as favorable to the proposed legislation; otherwise nothing would be accomplished.

COUNTY ASSESSORS MET AT CAPITAL IN CONFERENCE

Santa Fe, Dec. 19.—County assessors, who this afternoon opened their annual conference in the supreme court room at the state house, were urged by J. E. Saint, tax commission chairman, to adopt uniform schedules for the assessment of livestock and grazing lands.

The right to assess livestock was taken from the commission and handed back to the assessors by the last legislature. Saint believed this accidental. The right to assess grazing lands also was taken from the commission. This he attributes to objection to the commission's classification of grazing lands "in certain parts of the state."

Unless the assessors agreed upon uniform schedules, he feared, there would be 31 varieties of livestock and grazing land assessments, as he said, he had invited representatives of the livestock interests to come here to talk with the assessors and commission and try to reach uniform values for livestock.

Pointing out the commission was given the right to re-assess property not thought properly assessed, Saint said the commission intended to apply this "to the question of placing values on grazing lands and livestock."

H. S. HANNER DIES

News reached Wednesday evening of death of H. S. Hanner about 3 o'clock in the afternoon. Mr. Hanner had been ailing somewhat of late, but his condition was not at any time considered dangerous, until at the time above mentioned, he was stricken down, and all efforts to aid him were of no avail; he lived but a short time. Mr. Hanner came here about 18 months ago from the east to engage in the work of mine prospecting; having, at the time some valuable land for that purpose which he acquired some years ago when he was here on a prospecting tour of this section. From a portion of this land, he had about realized on one of his ventures, coal, which he was about to put on the market. Services were held at the Hanner home Thursday afternoon and interment made at the White Oaks cemetery. He is survived by a wife in White Oaks, two brothers in Indiana, besides his mother, who has reached a ripe old age. The many friends of the Hanner family both here and in White Oaks, extend their kindest sympathy.

SCHOOL NOTES

(By SUPR. E. E. COLE)

After the holidays, school will begin Tuesday, Jan. 3.

Mr. George R. Williams, of Pittsburg, Kansas, nephew of Mrs. Dozier of our city, visited the high school last Monday morning and gave a very delightful program of violin music. Mr. Williams is an accomplished violinist. Mrs. Cole accompanied on the piano.

Preparation for the Christmas programs in the schools is always keenly enjoyed by the pupils. Along with training in speaking and singing is the cultivation of the artistic talents. There is also the spiritual side; the training of the individual to give and to do something for others. We see some teachers getting very close to the hearts of their children through these Christmas exercises.

Every room of the Carrizozo schools had some kind of exercises last Thursday afternoon. The eighth grade played Santa Claus for the pupils of Mrs. Craddock's room. The primary, first and second grades had parties in their own rooms.

The third grade room was very highly decorated. A strong program was given, consisting of songs, concert recitations, and a play, "Piccola," an Italian Christmas story. A stage for this play was formed under an arch extending between two beautiful Christmas trees.

The fourth grade had a tree. The decorations were beautiful and appropriate. A fine program entertained the parents. The girls of this grade, and even the boys, have done some fine work in sewing; the girls making dresses and the boys making handkerchiefs with colored borders. Two sets of furniture, hand made, by two of the boys attracted much attention.

Grade five had a large tree, beautifully decorated, an appropriate program and a hoop drill.

The sixth grade was beautiful with the art work of the past term and with Christmas decorations. A large tree filled one corner. Besides a fine program, the famous "Ruggles" family was given in story and play.

The seventh grade had a fine program. A play, "The Enchanted Boxes" was the special feature. The chorus work of this grade and the eighth grade has been very strong this year under the able direction of Mrs. T. E. Kelley.

Miss Laver, the English teacher in the high school, and Miss Cowan, the Spanish teacher, have given valuable instruction in drawing and crayon work in the intermediate grades. The teachers have done very fine work under the supervision of these two artists. As evidence of this the pupils have invented many clever designs in fresco and panel work.

The manual training room has looked like a toy shop the last month. The boys, under the direction of Mr. Casier, have made many Christmas toys large and small, for the kiddies at home.

E. Cole, H. S. Chorus.

MECHER ASKS ASSOCIATION TO CONDUCT PROM

Santa Fe, Dec. 17.—Governor Mechem late this afternoon announced he had formally asked the Tax Payers' Association to make an investigation of the state auditor's office. He had written former Governor H. J. Hagerman, he said.

The governor said he intended to ask the association to extend the investigation to the state treasurer's office as soon as he obtained State Treasurer Strong's consent, but didn't want to do this until Strong returned.

This was taken to mean that the governor would not call a special session of the legislature for the time being at any rate.

PIANO RECITAL

The piano pupils of Mrs. T. E. Kelley played for their mothers last Wednesday afternoon. The program was as follows:

1. Song, "Merry, Merry Christmas," Randall; Pupils.
2. "Recreation Galop," Weaver; Margarite Lalone.
3. "Dance on the Green," Presser; Emma Poage.
4. "Little Fingers Lesson," Presser; Ruth Kelley.
5. "Christmas Cheer," Ellis; Audrey Miller.
6. "Song of Autumn," Rows; Florene Shifflet.
7. Song, "Dear Old Pal of Mine," Roba; Claire Adams.
8. "Waltz," Thome; Mary Louise Tuton.
9. "Schottische," Kinkel; Lucille Jones.
10. "In the Hayfield," Spencer; Helen Sterling.
11. Song, "Alice Blue Gown," Royce; Pupils.
12. "Parade of the Flowers," Evans; Juell Miller.
13. Variations on "Over There," Buttler; Myrtle Rowland.
14. "Falling Waters," Truax; Claire Adams.

CARRIZOZO WOMAN'S CLUB JOINT MEETING

The Carrizozo Woman's Club met in joint session, with the Chamber of Commerce last Friday afternoon to select an Executive for the National Park. In view of the fact that the gentlemen were present through the courtesy of the Woman's Club, Club rules and management should have prevailed, but after considerable discussion a committee was appointed to select some one as a candidate for the approval of the meeting and the name of J. B. French was submitted by said committee and Mr. French was therefore, chosen by the meeting. The selection was a good one as Mr. French will devote a great deal of his time to furthering the interests of the park. This, together with his vast amount of knowledge of the territory which the proposed park will cover, makes him the most logical executive that could be chosen. The water question agitated by the Outlook was given a good airing, the ladies principally voicing the need and the meeting closed with great enthusiasm. Mr. French, the Executive, is a booster for Carrizozo and says, "Water First!" The right man has been chosen.

The "Friendship Club" out of which came the farcical comedy, "The Old Maids' Club" which pleased the people of Carrizozo and Corona, gave a banquet last Friday night to all who contributed to the success of the movement. The large dining table at the Masonic hall was laden with refreshments of all kinds. A special program was rendered, consisting of vocal and instrumental selections, recitations, etc. "The Old Maids' Club" has been invited to nearly every town in Lincoln county on account of the clever performance given here and the novelty of the entertainment.

"OLD MAIDS' CLUB" ENTERTAINS

The Educational Department of the Carrizozo Woman's Club with Mrs. M. L. Blaney as chairman, has arranged an art exhibit in the District Court room for the benefit of Carrizozo people in general and children in particular. The pictures have been viewed by throngs of people and those who miss seeing the works of art, which are purely New Mexico products, will miss a treat. Be sure to see them. The pictures, together with the names of the artists, follow:

Last Friday evening Mrs. E. E. Cole received the sad intelligence that her brother's wife, Mrs. R.G. Jenkins, had passed away at their home at Omaha, Neb. Mr. and Mrs. Jenkins visited Dr. and Mrs. E. E. Cole here, a year ago, and will be remembered by a number of people.

TEXT OF 4-POWER PACT FOR CONTROL OF PACIFIC

The United States of America, the British Empire, France and Japan, Following is the full text of the four-power agreement entered into by the United States, Great Britain, Japan and France for the preservation of peace in the Pacific.

With a view to the preservation of the general peace and the maintenance of their rights in relation to their insular possessions and insular dependencies in the regions of the Pacific ocean.

Have determined to conclude a Treaty to this effect and have appointed as their plenipotentiaries:

The president of the United States of America, His majesty, the king of the United Kingdom of Great Britain and Ireland and the British Dominions beyond the seas, emperor of India.

And for the dominion of Canada—For the commonwealth of Australia—

For the dominion of New Zealand—For India,

The president of the French republic, His majesty, the emperor of Japan,

Who, having communicated their full powers, found in good and due form, agreed as follows:

Article 1. The high contracting parties agree as between themselves to respect their rights in relation to their insular possessions and insular dependencies in the regions of the Pacific ocean.

If there should develop between any of the high contracting parties a controversy arising out of any Pacific question and involving their said rights, which is not satisfactorily adjusted by diplomacy and is likely to affect the harmonious accord now happily subsisting between them, they shall invite the high contracting parties to a joint conference, to which the whole subject will be referred for consideration and adjustment.

Article 2. If the said rights are threatened by the aggressive action of any other power, the high contracting parties shall communicate with one another fully and frankly in order to arrive at an understanding as to the most efficient measures to be taken, jointly and separately, to meet the exigencies of the particular situation.

Article 3. This agreement shall remain in force for 10 years from the time it shall take effect and after the expiration of said period it shall continue to be in force subject to the right of any of the high contracting parties to terminate it upon 12 months notice.

Article 4. This agreement shall be ratified as soon as possible in accordance with the constitutional methods of the high contracting parties and shall take effect on the deposit or ratifications, which shall take place at Washington, and thereupon the agreement between Great Britain and Japan, which was concluded at London on July 13, 1911, shall terminate.

The treaty has not been signed, but has been initialed by representatives of the four powers as affirmed.

SUPPOSED CASE OF TYPHUS AT MESCALERO

Santa Fe, Dec. 12.—Dr. C. E. Waller, as an official of the United States, today was asked by the Bureau of Indian Affairs at Washington, D. C., to investigate an "outbreak of epidemic disease" on the Mescalero Apache reservation in the northwestern corner of Otero county.

He stated he could not give out any information other than the outbreak was an "epidemic disease," but as he was called upon to investigate the typhus outbreak on the Navajo reservation last spring it was believed likely that the disease had sprung up on the Mescalero reservation.

Waller said he could state, however, that only one case of the "epidemic disease" had appeared and no death from it had been reported. He believed the case the first.

IMPORTANT CHANGES IN INCOME TAX PROCEDURE

Albuquerque, N. M., Dec. 13.—Important changes in income tax procedure effected by Commissioner D. H. Blair are embodied in a treasury decision effective December sixteen which provides for the prompt adjustment of claims for refund and abatement of federal taxes. Heretofore when an over-assessment of over-payment was disclosed by the audit of an income tax return the taxpayer was invited to file a claim for the statement of the over-assessment of the refund of the over-assessment. When received the claim was registered and filed away until reached in due course for consideration.

Because of the large number of such claims filed delay in adjustment necessarily resulted. After December fifteen taxpayers will not be advised of their privilege of filing a claim for the refund of taxes which have been paid in excess of amounts legally due but instead will receive a certificate of over-assessment and a check in correction of the error, or if any assessment is outstanding against the taxpayer for income or excess profits tax the over-payment will be applied as a credit against the assessment and the balance immediately refunded. This will be of distinct financial advantage to both the taxpayer and the government. It will do away with the necessity for the taxpayer filing a claim for refund and will greatly reduce the amount of work to be done by the Bureau in the adjustment of claims. Taxpayers may continue to file claims for abatement and refund but it is expected that the number of such claims filed each month will be greatly reduced. Efforts are being made by the Bureau to adjust within six months all claims now pending and thereafter to keep the work current. The Revenue Act of nineteen twenty one provides that under certain conditions interest shall be paid upon claims from the date of the payment of the tax to the date of the allowance of the claim. The new procedure should greatly reduce the amount of interest which the Government must of necessity pay upon claims for refund.

CENSUS MAY BE TAKEN OVER BY HOOVER

Washington, Dec. 13.—Because of a considerable dissatisfaction with the result of the census in the census taken last January, the House Committee on the Census, in considering legislation providing for another enumeration of the population of the United States in 1925 or some other year prior to the next decennial census, Secretary Hoover says today that that portion of the annual report dealing with the activities of the census bureau.

"This proposed legislation has my approval," Mr. Hoover says, adding that it has frequently been contended that the distribution of the population as shown by the reports of the Fourteenth census is abnormal in that prior to that enumeration there was a great movement from rural to urban districts, which, since the enumeration, has been neutralized in a large measure by a reverse movement; and that this shifting of the population affected the totals for certain states, thus influencing the apportionment of representatives in congress."

Census taking in January is disapproved on the ground that the weather in that month is a serious handicap to the enumerator, delaying the work and making it necessary "to take unusual precaution to incur a complete canvass. The report says the time for the taking of the next census should be in April, as was the case before the last census. The change for the last census was made it says, at the request of various interests making use of agricultural statistics, the idea being that more accurate statistics could be obtained concerning the activities of the farm if the canvass was made shortly after the end of the year to which it related.

1922 PROMISES TO BRING REVIVAL OF DRILLING FOR OIL THROUGHOUT NEW MEX.

Information coming to Albuquerque business interests during the past few days indicates that one and possibly two strongly financed groups of wildcaters will be in the district immediately tributary to Albuquerque early in 1922, ready to begin a thorough test of the region for oil. The spokesman for one of these interests announced his plans at a recent meeting of the Rotary club. The other is expected to be ready to make its plan public before January 1.

This and reports from various sections of the state of renewed activity and plans for the coming year indicate that 1922 will witness a general resumption of drilling throughout the state. Instead of losing faith in New Mexico's oil possibilities as a result of the almost universal "hard luck" that has accompanied tests thus far attempted it appears that the more substantial prospectors are sustained whom they have a confidence that impels further and much more thorough tests.

NEW MEXICO TAXPAYERS SEEK INVESTIGATION OF SANTA FE BANK FAILURE

Santa Fe, Dec. 16.—It was announced today by state auditor Edward L. Gafford and director R. F. Asplund of the New Mexico Taxpayers' Association, that the latter had been asked and would inaugurate an investigation of the conduct of the auditor's office, which would entail a checking up of the treasurer's office and its transactions with the Santa Fe bank, which was closed by the state bank examiner Monday.

It is understood the governor takes the position that the calling of an extra legislative session to investigate state deposits in the closed bank will depend upon the outcome of the association's suit.

GRAIN AND LIVE STOCK INTERESTS ARE LOANED MILLIONS EVERY WEEK

Washington, Dec. 5.—No system of public financing yet devised for the purpose of promptly reaching and assisting the average citizen can be compared in efficiency and popularity to the War Finance Corporation.

An enlarged and reorganized under additional powers given it by the special session of Congress, the War Finance Corporation, from August 24th to November 21st—a period of 90 days,—has made actual loans for agricultural and livestock purposes in the aggregate sum of \$58,638,505. This is an average of a little over \$19,550,000 a month, or \$4,181,000 a week. In considering this average however, it should be borne in mind that the first month or six weeks of the operations of the War Finance Corporation under the new powers given it by Congress was largely expended in getting up machinery to reach the various regional committees have been appointed and the machinery of the corporation is perfected. Loans are being made to farming communities far in excess of the average for the 90 days.

The week ending November 10th, the corporation made 218 separate loans for agricultural and livestock purposes in the aggregate amount of \$13,447,000. On Monday, November 21st, it made 76 more loans for agricultural and livestock purposes aggregating \$3,187,000. On Wednesday, Nov. 23, it approved 56 more loans for the same purpose, aggregating \$2,078,000. At present the corporation is making loans to farm communities at a rate in excess of \$10,000,000 a week.

A compilation of the number of loans made by the corporation from August 24th to November 21st, inclusive, show that Iowa led the states in the number of loans secured from the corporation and also in the total amount of money loaned. In that period there were 116 separate loans made for agricultural and livestock purposes in the state of Iowa, aggregating \$4,705,000. South Dakota comes next with 48 separate loans aggregating \$1,461,000. The largest single loan was made to a cooperative society which handles farm products, principally grain, in the state of Minnesota, North and South Dakota. This loan was in the sum of \$15,000,000. Three comparative societies in California, received loans aggregating \$2,800,000. A cooperative association in Arizona was loaned \$1,200,000.

All Western States Helped. The second largest single loan was made to a sugar beet interests of Utah and Idaho, they being given an advance of \$4,160,000. The largest single livestock loan was made to a financial institution handling livestock paper in the states of Montana and Wyoming. This loan was in the sum of \$1,000,000. Another institution handling livestock paper for Montana was loaned \$500,000.

Montana livestock and agricultural interests have been given 19 loans in the aggregate sum of \$917,000. Minnesota has received 28 loans in the aggregate sum of \$728,000. Nebraska has received 23 loans in the aggregate sum of \$452,775. North Dakota received \$598,000 in 20 loans. Wisconsin received \$510,000 in four loans. Kansas has received \$700,000 in 13 loans; Missouri \$735,000 in 17 loans.

Why Banks Are Used. There is some criticism of the fact that the Finance Corporation makes its loans to banks instead of direct to farmers and cattle growers. This criticism is due to the lack of knowledge of all the facts in the case. Were the War Finance Corporation to make its loans direct to individuals it would have required the creation of an enormous federal department, employing thousands of people. It would have necessitated the creation of an intricate system that would have required many months to put in operation. All this would have taken so long that the benefit of the loans would have been lost, as in a great majority of cases the emergency was so urgent that farmers and stockmen could not have waited months for financial assistance. Moreover the overhead expense of such an organization would have lessened the amount of money at the disposal of the Finance corporation and would have necessitated its charging a higher rate of interest.

SUFFERING ALL A WOMAN COULD

Mrs. Meyer Found Relief and Health in Lydia E. Pinkham's Vegetable Compound

Orange, Cal.—"I always feel very grateful to you, as some twenty years ago three doctors said I had to have a serious operation. I had a tumor, and ulcers which would gather and break. It had displaced so badly that I could hardly sit down at times, and it seemed as if I would every time that a woman could suffer. Then some one advised me to take Lydia E. Pinkham's Vegetable Compound, and I took it until I was cured and saved from the operation. I have told women of your wonderful medicine times without number, and I am willing that you should use these facts and my name if you like. I also used your Compound during the change, and I can do all my own work but the heavy part, and can walk miles every day as I help my husband in the office."

—Mrs. J. H. Meyer, 412 South Orange St., Orange, California.
It is quite true that such troubles as Mrs. Meyer had may reach a stage where an operation is the only resource. On the other hand, a great many women have been restored to health by Lydia E. Pinkham's Vegetable Compound.

War Changed French Youth

Treat Girls as Comrades and Dismal Officialdom and Professions, Says Writer.

SEES BERNARD SHAW UPHOLD

Women Now Do the Courting—Princes Become Plumbers or Raise Horses and Pigs—Not Keen on Literature.

Paris.—A radical change has taken place in the youth of France in the last decade, according to a writer in the Paris Temps, who sees them, made materialists by the late war, inclined to treat the opposite sex as comrades and caring little for matrimony or courting, and much more interested in making money than in entering the professions.

"A very brief observation of our young men," he writes, "reveals how they have departed from the ways of their elders. The war and the moral and material overturn that it brought—abrupt changes in our mode of living that have come in the last 20 years, speed of communication by automobile and airplane, the depreciation of currency, calling for increased earnings—all this is acting upon the young folk and is creating in them needs and desires we never knew."

Dismal Officialdom, and the most significant among them, is their disdain for officialdom and the liberal professions. The recruiting of functionaries, officers, professors, and in general all the careers with a fixed salary, is becoming more and more difficult. At St. Cyr (the French West Point) the number of candidates is continually diminishing. It is industry, commerce, finance, agriculture, colonization which attract young people. The love of risk and action is much stronger in them than in their forebears.

"Almost no one at present can live within his income, and in the best families of the aristocracy and the bourgeoisie the young Prince M— is in a large plumb line. Two of his relatives live in Morocco, where they are raising horses and pigs. In another large family the three sons are in banks and commercial firms."

Not Keen on Literature.
"Literature, it is evident, attracts youth little. Many never even open a book; serious works, history, memoirs,

etc., have more chance than novels, but not much. Love stories hold a lower place in their affections than in those of their elders. What they talk about is the automobile, aviation, boxing, mechanics. They marry young and treat young women as comrades, as in England and the United States. It is not rare at a ball to see one of them invite a lady to dance with him by a gesture from a distance, and to leave her when the dance is over without conducting her to her place, and no one seems to be particularly shocked!

"The number of marriageable men being less than that of women, it is the latter who take the initiative and conduct the love-making. Bernard Shaw, in 'Man and Superman,' develops the thesis that men never marry women, but are married by them. We reproach the Anglo-Saxon countries, and yet see ourselves daily proving the thesis of Bernard Shaw."

Hard to Tame Missouri River

Army Engineers Engaged in Keeping It From Swallowing Farm Land.

ONCE GREAT TRADE ARTERY

Before the Coming of the Railroads Steamers Plowed Its Waters as Far as Fort Benton, Mont.—Need Special Boats.

Kansas City, Mo.—Taming the Missouri river, outlaw among American rivers, is the task of the United States army river engineers, whose headquarters are here. Their sector is the Missouri river, from Fort Benton, Mont., to a point opposite Alton, Ill., where the Missouri, with a roar and a rush, joins the Mississippi and thereafter sweeps with some degree of calmness to the Gulf of Mexico.

The task of the river engineers is to coax the Missouri river into "staying out" and to coax it out of its long-time custom of changing its channel

MOTHER! OPEN

CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Your little one will love the "fruity" taste of "California Fig Syrup" even if constipated, bilious, irritable, feverish, or full of cold. A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup," which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

States and Automobiles.

Pennsylvania leads the Union in the number of passenger automobiles registered, according to a tabulation prepared by the bureau of public roads, United States Department of Agriculture. The total number of such cars registered in Pennsylvania is 557,763. California had only 367,100, Illinois, 512,541, and Texas, 412,332. Nevada has the smallest number of registrations, 8,038.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble. Don't delay starting treatment. Dr. Kimer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Fill 'Em Again.
At a certain village church the clerk used to sleep sometimes during the sermon, and it was not unknown that on occasions he used to patronize the village inn, which was kept by a parish worthy, Mrs. "C."

One Sunday the clerk slept and dreamed. He imagined himself the center of an animated throng at the inn.

When the sermon was ended and he was expected to utter a loud and sonorous "Amen," he startled the congregation by shouting: "Fill 'em again, Mrs. 'C.' All 'em again!"

Grinder Uses Any Current.

The use of an aluminum alloy housing and a patented pistol grip and trigger switch makes this portable grinder easy to handle and gives the operator perfect control. While it is essentially a portable machine designed to operate on either direct or alternating current, an attachment sent with the machine enables it to be converted into a bench-grinder in thirty seconds. This one machine will handle every grinding, cleaning, buffing or polishing job around the garage or shop.—Popular Science Monthly.

MANY COSTLY BOOKS ARE SAVED

Blotting Paper Used to Prevent Loss of Priceless Library.

Collection of Books on China Had Been Soaked With Sea Water During Visit of Tidal Wave to Jap Port.

London.—The late Dr. G. E. Morrison, correspondent of the London Times at Peking, had collected a splendid library of books relating to China which he sold to the house of Mitsui in Japan. The Mitsuis, the Rothschilds of the Far East, were about to establish a seat of Oriental study and desired the Morrison books for this purpose. This much is known, but what happened to the library between the books leaving Doctor Morrison's house in Peking and their arrival at Tokyo is not generally known and reads somewhat like a romance. These priceless volumes were packed by the Japanese agents of the purchaser in ordinary packing cases and made the journey safely through the Yellow sea and were landed at the Japanese port of arrival. The cases were then put into the ordinary warehouses of the port. Then a strange thing happened. The Japanese port was suddenly visited without warning by a tidal wave of unprecedented force and dimension. All the warehouses were flooded and the whole library was drenched in sea water. The house of Mitsui, however, is resourceful; every scrap of blotting paper in Japan was secured and literally thousands of hands were set to work interleaving every damaged page with blotting paper. The entire approach to this particular port was blocked with wonderful books being dried—like Bombay ducks—in the sun. The damage, of course, was heavy, but from the literary standpoint the library was saved.

Gifts With the True

Christmas Spirit

Christmas is at hand and with it comes the observance of giving; Christmas is at hand—Now is the time for the open hand.

Shoppers have searched for coveted presents that, in their estimation, would be most prized for those they love most. Many are giving to those from whom they have received favors during the year, which are worthy and well placed, but they are not gifts which prompted the writing of this article. Other presents are made in selfish efforts to gain favor from certain individuals; others are made nearest to the human heart, and, therefore, lovingly bestowed as the family gathers around the sacred altar of the home at Christmas time.

The Master, whose birth we are about to commemorate, said: "If you give to those who give to you, what reward have you?" Which in the language of the present day would mean, if we give to those wherein we expect gifts or favors for self-gratification in return, where are we displaying the spirit pleasing to the sight of God? The gift made where the giver knows he can never be recompensed, is the cup of cold water in the Master's name. To those who are needy; to those who are sick and in ghostly prisons; to those who are living under dark clouds of sorrow and despair; to those who are sitting in darkness and the shadow of death; to those from whom we can never expect a return, are gifts that turn to gold in the giver's hands.

The widow's mite was not counted as most of all because it was all she had, but because of the purpose of heart with which it was given. Small though it was, had the mite been given grudgingly, or to be seen of men, or with the expectation of return far in excess of the amount, it would have availed her, nothing. Let the unselfish, Christ spirit prevail in our Christmas giving.

Notice of Contest

Department of the Interior, U. S. Land Office, Roswell, N. M., Contest No. 10,378. Dec. 3, 1921. To John T. Boutelle of El Paso, Texas, Contestee.

You are hereby notified that Ettie L. Williams, who gives Ancho, New Mexico as her post-office address, filed on Dec. 3, 1921, in this office the duly corroborated application to contest and secure the cancellation of your Hd and Add Hd Entry Serial Nos. 51442 and 51441, made Sept. 21, 1918, and Oct. 22, 1919, for E4 and W1 Section 29, Township 4 S., Range 11 E., N. M. P. Meridian, and as grounds for his contest he alleges that you have never established residence upon said entry and have never resided thereon, that you have never cultivated nor improved any part of said entry and that you have abandoned said land for more than six months last past and that you have never owned the same. That your absence from said land was not due to your service in military or naval organizations of the United States nor in the National Guard of any of the several States.

You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be cancelled without further right to be heard either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown before your answer, under oath, specifically responding to those allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post office to which you desire further notices to be sent to you.

CATARRHAL DEAFNESS
is treated by a constitutional medi-
cine. HALL'S CATARRH MEDICINE
is a constitutional remedy. Catarrhal
Deafness is caused by an inflamed
condition of the mucous lining of the Eustachian
Tube. When this tube is inflamed
you have a rumbling sound or imperfect
hearing, and when it is entirely closed,
Deafness is the result. Unless the in-
flammation can be reduced, your hearing
may be destroyed forever. HALL'S
CATARRH MEDICINE acts through the
blood on the mucous surfaces of the ear,
thus reducing the inflammation and
restoring Nature in restoring normal con-
ditions.

Four lumbermen lost their lives when the automobile in which they were traveling crashed through an open drawbridge at Aberdeen, Wash.

One bandit was slain, another probably fatally wounded and a third escaped as they were leaving the Cardin State Bank at Tar River, Okla., after robbing the bank of \$5,000 in cash.

Fred House, negro packing house employe, who was beaten by a crowd of striker sympathizers at Fort Worth, Texas, after he had shot and wounded two brothers in the ranks of the pickets, was taken from a hospital and lynched.

Mrs. Elias Michael and Mrs. E. H. Steedman of St. Louis are the first women directors of a bank. Their names are contained in the list of directors of the Security National Bank Savings and Trust Company, announced recently. The bank opened Dec. 20.

Slumping in his school work and falling in health, Charles J. Seebor, 25, engineering student in the University of Nebraska, committed suicide by drinking poison after writing a death note directing that his body be turned over to the medical college of the university for experimental purposes.

Four loggers, employed at a Preston logging camp near Aberdeen, Wash., met death when an automobile driven by John Nylander plunged off an open bridge into the Columbia river. A check of the employes showed that Nylander, Pete Maki, Fred Arvola and Nestor Hill, all of Aberdeen, did not report for work and they cannot be found.

Joe Duran and Loula de Bacu entered pleas of guilty at Tumacacuri to a charge of robbing McFarland Brothers Bank at Logan, N. M., on the afternoon of Nov. 30, and each was sentenced to serve ten to fifteen years in the state penitentiary. The men were captured several hours after the robbery. About \$1,500 was taken, most of which has been recovered.

A fight with an enraged Holstein bull came near being fatal to W. H. Baker, farmer of Hilder, Wyo., who is nursing numerous bruises, a sprained ankle and a sprained hand as a result thereof. The animal's horns also punctured his hip and loosened two of his teeth. Exhausted, he was lying on the ground with the bull standing over him when his wife and C. L. Dretson, a neighbor, came to his rescue.

POWERS AGREE ON NAVAL PLAN

JAPS WILL RETAIN "MUTSU" AND U. S. TO KEEP "COLORADO."

U. S. 5-5-3 BASIS WINS

SETTLEMENT ABANDONS AMERICAN ISLAND OF GUAM AS BASE IN PACIFIC.

(Western Newspaper Union News Service.)

Washington—Arms conference delegates have reached an agreement on all major issues of the naval ratio but are now encountering new difficulties in Far East discussions.

The American five-five-three ratio forms the basis of the naval settlement, but there are to be readjustments in the original American plan to permit Japan to retain her new battleship Mutsu. The United States and Great Britain will be given a compensative quota of additional ships not determined in detail.

In the Far Eastern negotiations, the latest element of controversy is a request by China for abrogation of the treaties resulting from Japan's famous "twenty-one demands." When the request was presented to the Far Eastern committee of the whole the Japanese objected and the committee adjourned.

Coming when the Shantung negotiations are at a critical stage, the Chinese abrogation proposal has somewhat clouded prospects of a Far Eastern agreement, but most delegates remain confident of an ultimate solution.

Another meeting of the "big three" advanced the naval question nearer a final and detailed settlement, but left some minor points still undetermined. In all quarters announcement of a complete accord was regarded as only a question of hours.

As an offset to Japanese retention of the Mutsu, the United States is to retain the super-dreadnaughts Washington and Colorado and an equivalent increase in British capital ship tonnage is to be provided. Details of this British increase constitute the only point to be decided.

Coupled with the naval agreement in the proposed treaty will be a "status quo" understanding on Pacific fortifications and naval bases, exclusive of Hawaii and the islands off Japanese, Australian and New Zealand coasts. The plans abandon the American island of Guam as a potential naval base.

Temporarily, the naval question is receiving major attention from the delegates, but there were indications that the increasing seriousness of the far eastern differences might soon require the principal figures of the conference to turn their efforts in that direction.

China's request for abrogation of the "twenty-one demands" treaties was coupled with a suggestion that the powers also take some definite step toward abolition of existing "spheres of influence" in the far east. There was no discussion in the committee, but it was evident that the Japanese would not stand alone in opposing the abrogation proposal.

Ebert Salary Nearly \$2,000 Per Year.
Berlin.—President Ebert is now paid a salary equivalent to \$2,000 a year, consequently the recharging budget commission has agreed to raise his stipend, in view of present high prices and hard times. The president also is to be given an expense allowance of 400,000 marks, in addition to his salary of 300,000 marks.

Balfour Appeals to Churches.

Chicago.—In a message sent by A. J. Balfour, head of the British arms delegation, to the Federal Council of Churches of Christ in America, he declared that limitation of armament in a world determined to fight would be a vain undertaking. "More is required and that more" the churches must help to provide," the message said. "It is not that I desire to see the churches take any corporate share in current political controversy. The churches have a higher mission, for it is their supreme duty to raise the ideals of the community."

Hang University President in Effigy.
Vermillion, S. D.—At the opening of classes at the University of South Dakota an effigy of Dr. Robert L. Slagle, president of the university, was discovered hanging from a flag pole in front of the administration hall. The hanging in effigy of the president is thought to have been the result of a stunt President Slagle had with the student body over the present system of censorship of the student paper, the Volante. A sweeping investigation of the affair has been ordered by the faculty board.

French Authorities Equip Airplanes With Every Appliance Necessary for Any Operation.

City folks who move to the country—and most of them want to, but won't admit it—always want to keep chickens. It seems easy, it promises to be profitable, and anyhow there is something fascinating in the idea, to women as to men.

The French authorities have found airplanes so useful for transport and other services in their colonial territories that they intend to introduce large multi-engine airplanes, which will be assigned, with a pilot and a small staff of mechanics, to surgeons who have large territories to cover.

The surgeon, with his assistant acting as anesthetist, will be able to perform major as well as minor operations just as readily in remote areas as if he had his patient in a well-equipped hospital.

There were 359,637,395 chickens on farms in the United States on January 1, 1920, as against 280,340,957 chickens three months old or more April 15, 1910. Inasmuch as many chickens are slaughtered and marketed each year between January 1 and April 15, comparison is difficult. The actual increase, if there was any, probably corresponds with that in egg production—5.2 per cent. In actuality the growth of fowl population does not keep pace with that of human beings. No wonder eggs and fried chicken come high.

When a Federal Bureau reminds you that children should not drink coffee or tea—why not think of your own health?

The Federal Bureau of Education includes in its rules to promote health among the Nation's school children, the warning that children should not drink coffee or tea.

The reason is well known. Coffee and tea contain drugs which stimulate and often over-excite the nerves, and so upset health.

The harm is by no means confined to children, as any doctor can tell you.

If health is valuable to childhood, it is valuable always. If harm to health should be avoided until bodies grow up, is it worth taking a chance with health when bodies have grown up?

CENTENARY OF MRS. BEN F. NABOURS

(Collected at her funeral by Rev. Lester F. ... Albuquerque, New Mexico, Dec. 18, 1921.)

Georgia Vida Johnson was born on South Broadway in Albuquerque, New Mexico, on February 24th, 1868, and was therefore nearing her 54th birthday when she died on December 14th, 1921.

She grew up to a winsome young womanhood, attending the Albuquerque public schools, and later the State Agricultural College where she met Mr. Benjamin F. Nabours, to whom she was married in the First Baptist Church in Albuquerque on September 15, 1904. She joined that church at about the age of 14 and was active in all the branches of its work as long as she lived here.

Mrs. Nabours had been visiting her mother for several months past and taking treatment for the malady which eventually proved fatal. She had a sweet soprano voice, and last summer frequently assisted in our choir though not really well enough to do so.

Mrs. Nabours was a very capable young woman who did, energetically and thoroughly, whatever she found to do. She belonged to the Woodmen's Circle and the Women's Christian Temperance Union in Lincoln county. She was an earnest Christian, a loving daughter and sister, a faithful and devoted wife, and a true friend.

Removed from the activities of this life in the flower of her maturing youth, Mrs. Nabours is mourned by her husband, her mother and step-father, Mr. and Mrs. T. J. Campbell of Albuquerque, a sister, Mrs. Linus L. Shields and husband of James Springs, N. M., an aunt and cousin, Mrs. Emma E. Washburn and Chester Washburn, of Albuquerque and other relative in the east; this in addition to a wide circle of friends throughout the state. Her father, A. D. Johnson, who was one of the first settlers in Albuquerque, died four years ago. Mrs. Nabours was born, married and died at the same address, a somewhat unusual circumstance in so new a city.
