CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, FEBRUARY 3, 1922

PRICE \$2.00 PER YEAR

GIVEN EXTENSION OF TIME

The following circular letter has been sent out from the general land office at Washington to all registers and receiver of local land offices:

Circular No. 801. General Land Office Washington Jan. 16, 1922. Registers and Receivers, Local Land Offices.

Sirs: By act of congress approved January 11, 1921, Public No. 127, the Secretary of the Interior was authorized to grant an extension of time under oil and gas permits granted pursuant to Section 13 of the Act of February 25, 1920 (41 Stat., 437).

The text of the act is as follows: "Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Interior may, if he shall find that any oil or gas permittee has been unable, with the exercise of diligence, to begin drilling operations or to drill wells of the depth and within the time prescribed by Section 13 of the Act of Congress approved February 25, 1920 (forty-first Statutes, Page 437), extend the time for beginning such drilling or completing it, to the amount specified in the Act for such time, not exceeding three years, and upon such conditions as he shall prescribe."

Accordingly, a permittee who has been unable with the exercise of due diligence to comply with the terms of the permit issued under Section 13 of the Act of February 25, 1920, may, if the facts warrant, be granted an extension of time upon filing an application therefor accompanied by his own affidavit setting forth what efforts, if any, he has made to comply with the terms of his permit and the reason for delay in the full compliance therewith, such showing to be accompanied by a corroborating affidavit of at least one disinterested person having actual knowledge of the facts.

The affidavit by the applicant must also show the time when he proposes to commence or resume his operations and any arrangement he has made for complying with the terms of the permit.

The application may be filed in the General Land Office or in the local land office having jurisdiction over the land involved by the permit. In the latter event the application will be promptly forwarded to this office by the local offices.

Very respectfully, WILLIAM SPRY, Commissioner.

GO TO CONFERENCE ON FOREST ROADS IN NEW MEXICO

Albuquerque, Jan. 28.—E. N. Wheeler, chief of the Public Road Bureau office here, District Forester F. C. W. Pooler, and Forest Service Engineer C. A. Long, left this morning for Santa Fe where they will confer with state highway officials today and tomorrow concerning the road building program in the state for 1922. E. A. Sherman, of the Washington office of the forest service will be present, and will visit the Albuquerque office after the Santa Fe conference.

The chief topic of the conference will be the use of New Mexico's share of the remaining \$12,000,000 of the \$16,000,000 set aside by the forest service road bill which was passed last fall by congress. The department of agriculture has already distributed \$2,500,000 of the \$15,000,000 and New Mexico received \$119,629 of that amount.

The rest of the \$15,000,000 had been distributed, and the district office of the forest service received New Mexico's share last week. It amounts to \$336,619 for work on forest service roads, or roads adjacent to national forests which are of primary importance for the development of the state, counties, or communities. There is also \$219,652 for use on forest roads of primary importance for the administration and development of the forests themselves and for fire protection.

A conference to determine a similar program for Arizona will be held in Phoenix on Wednesday.

ROSWELL IS DESIGNATED ON THE LEE HIGHWAY AT NATIONAL CONVENTION

Roswell, Jan. 30.—News has been received in this city stating that Roswell has been designated on the Lee National Highway at the big convention which is now in session at Chattanooga, Tenn. This is one of the best pieces of news that has been received here for some time regarding highways, as it is said that this road will be one of the most important transcontinental highways in the entire country. The route has been selected along practical lines for the traffic of the entire country and there is every indication that it will soon develop into one of the most traveled roads in the United States.

EIGHTH GRADE EXAMINATIONS

The following communication from the State Supt. will be of interest: Santa Fe, New Mexico, January 28, 1922. The State Eighth Grade Promotion Examinations will be held this year on March 16th and 17th, April 13th and 14th and May 18th and 19th.

In Reading, pupils will have a choice of two sets of questions, one being based on selections from the Seaton and Martin studies in Reading for the Eighth Grade and the other set on selections from the Elson Reader.

For those pupils who elect the Seaton and Martin text, the questions will be based on the following selections: The Blue and Gray, page 41; The Return of Regulus, page 55; Columbus, page 80; Life and Character of Washington, page 131; The Shepherd Psalm, page 249; Evangelism, page 261; Crossing the Bar, page 381; My Creed, page 402.

For those electing to take the examination on the Elson Eighth Reader, the questions will be based on the following selections: The Thundering Herd, page 44; To a Waterfall, page 64; Leap of Ronshau Bog, page 133; Spartacus to the Gladiators, page 257; Snow-bound, page 340; Rip Van Winkle, page 364; Evangelism, page 382.

The requirements for the Industrial Subject will be as in the past years, the pupil having the privilege of taking Agriculture, Domestic Science or Manual Training. It will not be necessary to carry out any home project in connection with any industrial subject as the State Board of Education at its meeting January 14th, voted to repeal the requirement for home project work which was included in the New Mexico Common School Course of Study for 1921.

Teachers will remember that hold-over grades of 75 per cent or more in any subject from 1921 will stand to pupil's credit for 1922.

JOHN V. CONWAY, State Superintendent.

500 MONKEYS USED BUT VACCINE AGAINST FLU NOT FOUND

New York, Jan. 30.—Five hundred monkeys have been used by health officials in New York and Washington in the last two years in experiments looking to the development of vaccines against influenza and pneumonia.

Dr. W. H. Park, of the New York Health department said today the experiments had been suggested during a meeting of medical authorities of the country in 1919.

"We haven't learned anything about influenza," he said, "except that the invisible unidentified organism which causes it can pass through a store wall."

The experiments on the monkeys have shown conclusively that if one is vaccinated he cannot contract pneumonia when inoculated with the germ, but that in the absence of vaccination, inoculations prove fatal in a majority of cases. Experiments on humans would bring the same results.

He said the physicians and scientists engaged in the experiments had not developed a vaccine any different from that used in 1918.

MECHEM O. K'S. HIGHWAY BOND ISSUE IN SUM OF \$1,000,000

Santa Fe, Jan. 28.—State Treasurer C. U. Strong today was directed by Governor Mechem to issue \$1,000,000 highway bonds, at the request of the highway commission.

The bonds are to be issued under Chapter 107, laws of 1921, which authorized the issue of \$3,000,000, and which was made constitutional by the highway bond amendment ratified at the September 20, 1921 election.

The highway commission's request was made to the governor at its last meeting. It was said the issue was necessary to enable it to get federal aid allotted the state, but which could not be matched unless the issue was made.

NEW MEXICO GETS TOTAL OF \$267,910 APPROPRIATION

U. S. Senator A. A. Jones sends a copy of the following letter: "United States Department of Agriculture, Forest Service, Washington, January 24, 1922. Honorable Andrews A. Jones, United States Senate.

"Dear Sir: By letter of Nov. 10, 1921 you were advised that the appropriation to New Mexico from the first \$2,500,000 under the recent \$16,000,000 appropriation by congress for national forest roads and trails amounted to \$119,839.

"I am glad to advise you now that the secretary of agriculture has just approved the apportionment of the balance of \$7,000,000 set aside by the act for roads of primary importance to the states, counties and communities and also the apportionment of the \$5,500,000 segregated by the act for roads primarily useful in the production, development and utilization of the forests.

"Under the apportionments of the two funds the state you represent will receive \$238,819 from the \$7,000,000 fund and \$219,452 from the \$5,500,000 fund.

"From the above it will be apparent that the total apportionment to your state from the \$16,000,000 appropriation aggregates \$477,910. Yours very truly, L. F. KNEIPP, Acting Forester."

BAPTISTS PLANNING FOR '75 MILLION' CAMPAIGN IN MARCH

Albuquerque, Jan. 28.—Plans for the conduct of the Baptist '75 Million campaign, which will be opened in this state on March 1, are already being made by officials of the Baptist convention headquarters here. Letters are being prepared explaining the purpose of the campaign, which is expected to raise \$75,000,000 for missionary work, and will be sent out shortly to all the Baptist workers of the state.

Similar campaigns will be conducted throughout the entire south by the churches of the Southern Baptist Convention, and the churches of some states have already opened their campaigns. According to a letter received here yesterday from the secretary of the Southern Baptist convention, \$30,100,000 has already been subscribed to the fund, and a correspondingly large number of new members have been added to the church.

ABOLITION OF PULQUE PLANNED BY OREGON

Washington, Jan. 28.—Abolition of pulque, the national drink of Mexico, is planned by President Obregon, according to a report to the commerce department today from Consul Cornelius Ferris at Mexico City. President Obregon, he said, has appointed a commission to study the problem of abolishing the maguey plant from which pulque is produced, which is practically the only crop of the large haciendas throughout the valley of Mexico.

Seventy-five per cent of the deaths registered in Mexico City, Mr. Ferris declared, and throughout the central section of the country where pulque is principally used are said to be caused by the drink which is indulged in by men, women and children. The reform would be brought about gradually, he reported, but if the young plants are now destroyed, instead of being replanted the supply of pulque would be exhausted in from seven to ten years.

MAN CONFESSES TO THE BURNING OF THE HIGH SCHOOL BUILDING AT ROY

Roy, N. M., Jan. 28.—J. K. Ribbett, a carpenter who had been employed on the new high school building in this city, and who was arrested the day following the big fire, has confessed to the burning of the building at a recent hearing.

In the confession Ribbett claimed that he was hired by Mr. J. W. Thompson to set the building on fire and was paid \$1,000 for the work. His reason for the destruction of the building was that it could not be completed only at a big loss to the company and it gutted by fire could be rebuilt with the insurance at a profit.

Immediately after this Thompson was placed under arrest but at the hearing denied that he knew anything about the burning of the building. Both the men have been held for trial, the bond of Thompson being fixed at \$10,000.

STATE DEPOSITORIES TO BE INVESTIGATED

Santa Fe, Jan. 28.—To investigate the workings of the "public money depositories act" and the official acts of state treasurers and state finance boards under its provisions, Governor M. C. Mechem today appointed a commission consisting of John W. Poe, of Roswell; Victor Culbertson, of Silver City; Frank Bond, of Estancia; C. M. Boite, of Albuquerque and M. T. Dunlavy, of Socorro. The board is asked to investigate "the powers and duties of the state finance board and those it delegates to the state treasurer" to make such criticisms of official acts "as may be justified" and report to the legislature.

The state finance board consists of the governor, treasurer and auditor and the investigation follows the recent closing of the Santa Fe bank here with some \$353,000 of state funds.

3,000 MILES OF FEDERAL AID ROAD IN STATE PROGRAM

Albuquerque, Jan. 28.—The federal road bureau office here has just forwarded to Washington the program for federal road building which will be carried out in New Mexico and Arizona under the new "seven per cent" system. The program calls for 3,000 miles of federal aid roads to be built in New Mexico.

Under the new law, federal aid roads to be built by co-operation of the national government and the states, must make up seven per cent of the highway system of each state. The government plan is to have as much of the federal aid work as possible be put in on roads which are of interstate importance.

EDUCATIONAL NEWS

(By Mrs. M. L. Blaney)

The Glencoe School is the deserving possessor of a piano secured by the combined efforts of the teacher, Mrs. W. F. Cos, pupils and the community. The piano is being paid for by the receipts of the various entertainments given at the school house.

The Upper-Roldoso school, under the direction of Miss Josephine Stetson as teacher will honor Lincoln and Washington's birthdays by a patriotic program February 22nd.

The executive committee of the Lincoln County Teachers' Association meets in the office of the county superintendent 10 o'clock Saturday morning, February 4th, for the purpose of acting on the invitations received for the Association. Invitations have been received from Corona, Carrizozo, and Capitan.

The Parent-Teachers' Associations of White Oaks and Corona are holding regular meetings, and as a result are creating increased interest in school affairs.

Mr. J. W. Wilferth, Principal of the Hondo school has organized a Literary Society in the community. With the substantial support Hondo usually offers we predict success. The Sunday School organized some weeks ago is growing rapidly in numbers.

The State Eighth Grade Promotion Examinations will be held this year March 16th and 17th, April 13th and 14th and May 18th and 19th. In Reading pupils will have a choice of two sets of questions, one being based on selections from the Seaton and Martin Studies in Reading for the Eighth Grade and the other from the Elson Reader. The requirements for the Industrial Subject will be as in the past years, the pupil having a privilege of taking Agriculture, Domestic Science or Manual Training. It will not be necessary to carry out any home project in connection with any industrial subject as the State Board of Education at its meeting in January 14th, voted to repeal the requirement for home project work which was included in the New Mexico Common school course of study for 1921. Teachers will remember that hold-over grades of 75 per cent or more in any subject from 1921 will stand to pupil's credit for 1922.

There has been considerable illness among both teachers and pupils during the month of January, but we are glad to say that almost all have recovered. On last Friday morning, Miss Ivy Lindser was suddenly called to El Paso on account of the serious illness of her sister, Mrs. Henry Hoffman. The Girls Glee Club of the High School met Thursday night of last week, a mixed quartet on Monday night of this week, with Dr. Cole and Mrs. Cole. Miss Smith of Alamogordo was a week-end visitor with Mrs. Nellie Clark.

THE WOMAN'S CLUB

Last Monday evening the Literary Department of the Woman's Club met at the home of Mrs. J. B. French and took up a review of "The Blinning Cup," by Dorothy Canfield. Those who were on the program for the review were: Mesdames Ulrich, Ziegler, Scott, Blaney, Cole and Miss Rosenberg. The next meeting of this department will be with Mrs. French Monday evening, Feb. 18, a study will be taken up of the new book, "If Winter Comes," by Hutchinson.

The Musical Department of the Club will meet at the home of Mrs. Albert Ziegler on the evening of Feb. 14. A good attendance is desired.

Mrs. I. O. Wetmore will entertain the Club at her home on the evening of Feb. 22, with a "Colonial Tea." This event will be looked forward to with great interest, as the entertainment will be of a novel and interesting nature.

The regular meeting of the Carrizozo Woman's Club is being held this afternoon, full particulars of which will appear in our next issue.

The study class of the Educational Department of the Carrizozo Woman's Club, under the direction of Mrs. M. L. Blaney, will meet with Mrs. Ellen V. Crutcher on Thursday evening, Feb. 9. All members of the club are cordially invited to be present.

TWO STILLIS SEIZED AND FIVE MEN HELD IN ESTANCIA RAIL

Albuquerque, Jan. 28.—Two stills of large capacity were seized and five men held, have been connected with their operation arrested yesterday at Estancia by Sheriff Block, of Torrance county, according to information received at the prohibition office here.

Details of the catch were not received at the prohibition office, but members of the force will take this morning for Estancia to take charge of the case.

A quantity of whisky which had been recently manufactured was seized with the stills and will be held as evidence against the alleged offenders. The raid was made by Sheriff Block upon his own initiative, according to prohibition officers, as a part of his campaign to free Torrance county from manufacturers of moonshine.

SCHOOL NOTES

(By SUPT. E. E. COLE)

Last week was examination week for the fifth month of the school year. We urge the parent to call for the monthly report card of the pupil, inspect it carefully, and then sign it. The signature of the parent is evidence for the teacher that the card has been shown to the parent.

Honor Roll (neither tardy nor absent) for January: Primary, Miss Lindsay: Lorena Baldwin, Eleanor Humphrey, Carmelita Pino, Lee Carl, Ernest Prehm, Billy Spencer, Ansel Swearingen, Edward Gallegos.

Miss Burton's room: Dorothy Gallegos, Sofia Pacheco, Juana Pacheco, Adala Romero, Boulah Rustin, Sara Vega, Rosa Sandoval, Howst Taylor, Julian Mirales. Mrs. Masie's room: Georgia Fookam, Lora Hamilton, Mabul Road, Georgia Lenoit, Bethel Treat, Floriana Shiffote, Lois Stadman, Clara Lujan, Randall Keating, Warden Maxwell, Gertrud Sparks, Saturnino Chavez, Jack Aguayo, Alfredo Mirales.

Miss Humphrey's room: Hada Corn, Marguerite English, Winifred Humphrey, Jane Spencer, Helen Hupperts, Julia Romero, Ottila Vega, Beatrice Pino, Alvin Carl, Talbert McLean, Aroadio Brady, Jose Macias, Conchido Martinez, Proiliano Pino.

Miss Horron's room: Lucille Archuleta, Alex, Chapman, Alton Hearn, Nick Gonzales, Leopoldo Ortiz, Fay Harkey, Marvin Roberts, Julian Taylor, Ethel Armstrong, Dollie Cora Nellie Gallegos, Mary Romero, Georgia Saunders, Hattie Moss, Elizabeth Such.

Mrs. Tuton's room: Edward Johnson, Boyd Loughrey, Maurice Lemon, Max Shaver, David Saunders, Ruth Brokley, Evelyn Hamilton, Jessale Rustin, Helen Sterling, Marie Ramirez.

Mrs. Vaughn's room: Josephine Brady, Lorena Dinvidio, Dolores Gallegos, Lena Harris, Mildred Jones, Irene Miller, Lorene Stimml, Viviana Harris, Stella Harrison.

Mrs. Clark's room: Joanne Kelly, Mary Tuton, Lena Yate, Estella Chavez, Ramona Duran, Don English, Ernest Lopez, Andrew Sandoval, Raymond Sterling, Roy Adams, Walter E. Flour.

Mrs. Quinn's room: Ida Bullion, Maggie Collier, Maggie Lujan, Clinton Bruno, Miller French, Fred Laloue, Urbano Montoya, William Moss, Albert Roberts.

High School: Boulah Burr, Ada Corn, Robanna Corn, Charlotte Elliott, Juanita Johnson, Lillian Johnson, Lois Jones, Grace Taylor, Wm. Kahler, Robert Poage, Charles Ross, Kastler Taylor, Archie Tuton, Fred Tuton, Edward Lane, Earl Porter, Elia Rowland.

There has been considerable illness among both teachers and pupils during the month of January, but we are glad to say that almost all have recovered. On last Friday morning, Miss Ivy Lindser was suddenly called to El Paso on account of the serious illness of her sister, Mrs. Henry Hoffman.

The Girls Glee Club of the High School met Thursday night of last week, a mixed quartet on Monday night of this week, with Dr. Cole and Mrs. Cole. Miss Smith of Alamogordo was a week-end visitor with Mrs. Nellie Clark.

MRS. NORTON PASSES ON

Thursday evening, between the hours of 8 and 9, Mrs. A. H. Norton of Jicarilla passed away at the Garrard House after several months of suffering. Mr. Norton brought his wife here about three months ago, in order to have her close to medical assistance, more convenience and comfort, but with all assistance possible she gradually weakened until the end came as mentioned above. The funeral services will be held at the Kelley Chapel, with the Rev. L. E. Conkin of the Methodist church conducting the same. Mrs. Norton was well known in this section and well loved by her many friends in Lincoln county, all of whom extend to the surviving husband the keenest of sympathy.

EXTENSION COURSES TO BE PROVIDED BY SILVER CITY NORMAL

Las Vegas, N. M., Jan. 28.—Advantages almost equal to those offered by actual attendance at the Normal are now available to absence students through the extension department. The plan is this—classes of 12 to 25 are formed in any locality. Twelve groups of lessons and assignments will be prescribed through extension courses, to be the equivalent of the 12 weeks of regular term at the Normal. At regular intervals, heads of departments at the institution will visit these classes and give the members the advantage of personal contact in lectures and in teaching methods. Cost of this service, which may be slightly in excess of the fees charged, will be borne by the school in the interest of the cause of education.

Professor Clark E. Peralinger, who has charge of the extension and correspondence courses, hopes to be able to set a new standard for New Mexico in that class of work. President Jonathan H. Wagner believes the work will grow swiftly to the point where it will be necessary to have one or more men devote their entire time to it. A bulletin on the extension course will be sent to anyone asking for it.

BANKERS PICK LAS VEGAS FOR 1922 MEETING

Santa Fe, Jan. 28.—Las Vegas was selected by the executive committee of the New Mexico Bankers' Association as the place where the association's 1922 convention will be held. The convention will be held September 22 and 23. These dates also were fixed by the committee.

The 1922 convention will be the first held by the association in six years.

WATER RESOURCES UTILIZED

Water Resources of New Mexico That Might be Utilized for Irrigation Purposes. Press Bulletin No. 406, New Mexico College of Agriculture and Agricultural Experiment Station.

Probably it has never occurred to most of the people of the Southwest, and especially those who reside outside of this state, that we have a number of very large underground storage reservoirs of water. At first thought it seems odd that such an arid country should have such large bodies of underground water that can be, and will be, utilized for irrigation when the cost of fuel and of pumping machinery is materially reduced. It is doubtful whether the traveler in crossing over our wide dry valleys or basins ever realizes that there is wealth in the form of water, just below the surface of the ground.

Most of these basins are located in the southern and central portions of the state, where the rainfall is not as plentiful as in the northern part. Water has been stored in these underground reservoirs for many years and there is not a very large supply up to the present time very little water has been drawn from these sources, on account of the prohibitive cost of raising it to the surface and the lack of a thorough and comprehensive study of the most economical use of this supply. There are thirteen distinct valleys or basins in New Mexico most of which have been investigated by the United States Geological Survey as to the underground water supply. The data compiled below have been taken from the records of the Survey and show the acreage for each section.

Table with 2 columns: Section Name and Acreage. Includes Estancia Valley (434,500 acres), Hachita Valley (5,740 acres), Lordsburg Valley (21,120 acres), Upper Animas Val (12,800 acres), Lower Animas Val (50,040 acres), San Luis Valley (4,480 acres), Playas Valley (83,200 acres), Almbres Valley (305,730 acres), Tulrosa Basin (688,800 acres), Rowell Valley (Art.) (416,000 acres), Mesilla Valley (est.) (20,000 acres), Hatch, Garfield, Palomas Valleys (est.) (10,000 acres), Rio Grande Val (85,000 acres), Other portions of the state, (est.) (5,000 acres).

This amount represents the total acreage of land where the water table is less than 100 feet below the surface of the ground. Of the total amount of 2,207,480 acres, there are 847,701 acres of land where the water table is shallow; that is, less than 25 feet; 600,291 acres where the water table stands from 25 to 50 feet; 927,438 acres where the water table is from 50 to 100 feet; and 416,000 acres that have artesian water. The surveys are studies that have been made during the past fifteen or twenty years by the Geological Survey, New Mexico Experiment Station, and office of the State Engineer have demonstrated that there are not only immense quantities of good water short distances from the surface, but several hundred thousand acres of good land to which the water could be applied for the growing of crops if the cost of pumping could be reduced sufficiently to induce the extensive investment of capital in such enterprise.

According to the 1919 Irrigation Census, there are about 65,000 acres in New Mexico now being irrigated from wells, most of which are located in Chavis, Luna and Roosevelt Counties.

DEAN W. BLOODGOOD, Irrigation Engineer.

DEMOCRATS CALL BIG CONFERENCE FEB. 23

Santa Fe, Jan. 31.—Arthur Selgman, chairman of the democratic state committee, today called a conference of the democratic state central committee to be held in Albuquerque, on February 23.

The purpose of the conference will be to discuss general political conditions, plan the work of the party organization and transact any other business affecting the welfare of the party," the call states.

Chairman Selgman stated that it is his desire "that a change in the chairmanship be considered," that his resignation is "available," and will be filed with the secretary to take effect upon selection of his successor.

FOR 1922 MEETING

Santa Fe, Jan. 28.—Las Vegas was selected by the executive committee of the New Mexico Bankers' Association as the place where the association's 1922 convention will be held. The convention will be held September 22 and 23. These dates also were fixed by the committee.

The 1922 convention will be the first held by the association in six years.

NEWS TO DATE IN PARAGRAPHS

CAUGHT FROM THE NETWORK OF WIRES ROUND ABOUT THE WORLD.

DURING THE PAST WEEK

RECORD OF IMPORTANT EVENTS CONDENSED FOR BUSY PEOPLE.

(Western Newspaper Union News Service.)

WESTERN

E. W. Robb, sheriff-preacher of Polk county, Iowa, has resigned as pastor of the Federated church, "to avoid criticism when I execute Orrie Cross and Eugene Weska." Cross and Weska will be hanged in April.

Thieves cut a hole in the plate glass window of Samuel and Company, in San Francisco, jewelers, and removed \$9,000 worth of pearls and platinum jewelry, the firm reported to the police. The street is one of the busiest in the city.

Emil Umann, assistant manager of a downtown theater in Kansas City, was held up in the play house by two armed men and robbed of \$2,200 in cash, part of the theater's payroll, he reported to the police. In escaping, one of the bandits dropped a satchel containing \$500.

Fire of undetermined origin partly destroyed the Turner building, one of the older business structures at Muskogee, Okla., causing damage estimated at \$250,000. The Melton hotel occupied a large part of the building. The clothing stock of Max Davidson, which is valued at \$150,000, was destroyed.

Mrs. Louise F. Wurtzberger will be taken to the Colorado state penitentiary at Canon City to serve the ten-year sentence recently imposed upon her in Federal Court for killing her husband at the Chemawa Indian reservation, near Salem, Ore. District Attorney L. W. Humphreys received instructions from Attorney General Daugherty to send her to that prison.

Steve Maslich, convicted with Nick Oblizalo of the murder of Marco Lous in a ravine near the state prison in Utah on Aug. 8, 1919, was shot to death by a firing squad in the prison yard. The men are alleged to have committed the crime to obtain \$1,100 in gold carried by Lous. Maslich recently failed in his appeal to the Supreme Court and the governor denied a reprieve. Oblizalo's appeal is now pending before the Supreme Court. Maslich, a few minutes before his death, protested his innocence, declaring that Oblizalo killed Lous.

WASHINGTON

Figures on the cost of living in twenty-one cities issued by the bureau of labor statistics, showed declines from June, 1920, to December, 1921, ranging from 12.5 per cent at Los Angeles to 21.6 per cent at Cincinnati, while declines from September, 1921, to December ranged from unchanged at Scranton to 2.9 per cent at St. Louis.

There is no parallel in the records of the bureau of markets and crop estimates to the fall of \$21.22, or 69 per cent in the average value an acre of the ten crops constituting nine-tenths of all crop production, which occurred in the two years from 1910 to 1921. It was announced by the Department of Agriculture. The decline was found by the department to have been from \$35.74 in 1919 to \$14.52 in 1921.

Miss Garland Johnson of Bridgeport, W. Va., has just been awarded a \$4,000 university scholarship for having written the best essay on "Good Roads and Highway Transport." The contest was conducted by the good roads and highway transport education committee of Washington, D. C., and the contest was open to all high school pupils.

The hope of the late Henry Stead, Australian publisher and journalist, that each nation touching on the Pacific ocean establish a "ministry of friendship," was conveyed to Secretary Hughes by Alexander Hume Ford, director of the Pan-Pacific Union. Mr. Ford said the hope was expressed by Mr. Stead in his "last written message" just prior to his death.

The treasury appropriation bill, the first of the annual appropriation measures, was passed by the Senate, carrying \$20,372,000, as compared with \$19,900,000 authorized by the House. Included was \$3,250,000 for enforcement of prohibition and a new provision authorizing the government to concentrate bonded liquor in a few warehouses, to save expense of guarding. The bill goes to conference.

Exports of manufactures fell off by \$2,000,000, shipments out of the country of raw materials dropped by nearly \$1,000,000, and footstuffs exports declined by about \$500,000 during 1921, the Commerce Department announced. Imports showed similar declines in the various groups of commodities.

Railroads and public utilities throughout the country have been advised by government officials to stock up to capacity with coal before April 1, in the face of the bituminous strike, which appears inevitable at this time.

FOREIGN
The pearl market of France, which continues to be the market of the world, has suffered a slump. A necklace of Oriental pearls, valued by the experts at 1,700,000 francs, has just been sold by public auction for only 466,000 francs.

Gen. Brewster Booth has just announced that the Salvation Army intends almost immediately to put into operation a scheme for the early transfer of 10,000 British women to the dominions. Every one of them will be going to assured employment.

While the War Department of Mexico is struggling for a budget of 125,000,000 pesos and the Department of Public Education for 50,000,000, the Department of the Interior has to defend its budget of only 2,000,000, the most modest that any of the cabinet officers has, as yet, presented to the consideration of Congress.

The expenditure of the United Kingdom must be reduced by £200,000,000, Austen Chamberlain, government leader in the House of Commons, told the conference of Scottish Unionists in Glasgow. This reduction is necessary to "make both ends meet" and will not take into account any proposed reduction in taxation.

A nurse in the employ of the American Red Cross at Goldingen, Latvia, lost ten sons in the war, her husband was shot by the Bolsheviks and her three daughters died last year. Still she goes about her work with a smile. "Nitchavo," is her consolation, which means, among a million other things, "it can't be helped."

Ewa Anderson, the only Swedish woman to hold an aviator's certificate, was killed at Astorsund. Four thousand spectators were watching her make a flight, and were horrified when Miss Anderson, in attempting a parachute descent from the machine, fell like a plummet to the earth. The parachute failed to open and she plunged 2,000 feet to death.

The French people have not lost their habit of thrift and take to spending their cents rather than putting them away in the proverbial "woolen stocking" as reported abroad. The French National Savings Bank had in 1919, 15,000,000 depositors with 6,429,000,000 francs savings. Its latest report shows 15,739,000 depositors with 8,149,000,000 francs to their credit.

An ounce of gold purchases 17.22 hours of labor in the United States; 50.10 hours in Britain; 55.50 hours in Japan; 117.31 hours in France and 201.00 hours in Germany, said C. J. Hannon, member of Parliament for the Moseley division of Birmingham, quoting statistics in the course of an address to the members of the National Union of Manufacturers at Birmingham, England.

GENERAL

Col. Henry S. Graves, former chief forester of the United States, is to return as dean of the Yale forest school, it has been announced. Dean James William Tounney is to resume his more purely scientific work.

Railroad rates are being slowly but steadily forced downward by economic laws, Daniel Willard, president of the Baltimore & Ohio railroad, argued before the Interstate Commerce Commission when that body resumed its inquiry into the general level of transportation charges.

Of the 40,101 cases tried by the Traffic Court in New York city during 1921, 1,020 chauffeurs were sent to jail on straight sentences, and 1,830 drivers were to jail in default of payment of fines. Since the court was opened in June, 1919, the fines collected have totaled \$1,359,180.

Three persons were killed and four injured at Newark, Ohio, when their hob sled was struck by an automobile. They had almost reached the foot of a mile-long hill when they crashed head-on into an automobile coming up the hill. The sled was said to have been on the wrong side of the road. Only one member of the coasting party was uninjured.

Part of his shinbone transferred to his jaw to correct an imperfection in his chin, Henry F. Mally, Jr., of Brooklyn recently fell on the ice, cracking the shin from which the fragment had been removed. His death from shock was announced after he had been made ready for a second operation needed to mend his leg and perfect his chin.

Archibald Birse, a Chicago tailor, is \$50,000 richer for having taken a few stitches in a pair of torn trousers thirty-four years ago. Ernest De St. Gilles, insurance expert and author, left this amount to Birse, who befriended him when De St. Gilles came to Chicago thirty-four years ago, penniless. Birse saved the insurance man's trousers and trusted him for the 50-cent charge.

His skull fractured when he was playfully tipped out of bed by a fraternal brother at Hamilton College, William Duncan Saunders, son of Dr. A. P. Saunders of the faculty of the college, died in a Utica, N. Y., hospital. The young man, a freshman, felt no ill effects at first from falling on his head, but later became unconscious. He was 15 years old, the youngest student in the college.

Eleven persons were injured, two probably fatally, when an automobile, said by the police to be traveling at a rapid rate of speed, crashed into a street car in Chicago. Four of those injured were occupants of the automobile and the others were passengers on the street car.

The steamer Centennial reported by radio that the new Norwegian freight steamer Mod had sunk in mid-ocean. The messengers said the survivors were on board the steamer Melisorend, but did not indicate whether any members of the crew were lost.

LATEST MARKET QUOTATIONS

Furnished by U.S. BUREAU OF MARKETS Washington D.C.

(Western Newspaper Union News Service.)

The wheat market had a good under-tone during the week and prices advanced. Chicago May wheat up 4 1/2c; closing at \$1.19. Chicago May corn up 10c to 11 1/2c. Principal market factors were: Improved milling demand, strength in cash market, dryness and cool southerly wind, and reports on farm reserves. On 21st wheat prices reached a new high on present upturn. Cash market strong with good demand from mills. Country offerings corn fairly liberal with some corn sold from interior direct to Baltimore for export. Closing prices in Chicago cash market: No. 2 hard winter wheat, \$1.24; No. 2 mixed corn, 49c; No. 2 yellow corn, 48c; No. 2 white oats, 37 1/2c; average farm prices: No. 2 mixed corn in central Iowa, 54 1/2c; No. 1 dark northern wheat in central North Dakota, \$1.20; No. 2 hard winter wheat in central Kansas, \$1. For the week May wheat at Minneapolis, Kansas City and Winnipeg advanced 4 cents, closing at \$1.22, \$1.07 1/2c and \$1.13 1/2c respectively.

Market generally quiet. Receipts light in most markets but equal to the limited demand used. Grain selling slowly with considerable hay on track. Receipts of live stock generally light. Timothy steady in most markets; lower grades weak. No. 1 timothy, New York \$2.25; Philadelphia \$2.25; Pittsburgh \$2.25; Chicago \$2.25; Minneapolis \$1.85; Kansas City \$1.85; Memphis \$2.40; Atlanta \$2.50. No. 1 alfalfa, Kansas City \$2.00; Memphis \$2.00; Atlanta \$2.00; Chicago \$1.75.

Livestock and Meats. Chicago live stock market 45c to 70c per 100 pounds during the week. Light weights advancing most. Beef steers and fat cows and heifers down 10c to 15c. Medium and medium grades of feeder steers weak at 25c lower; other grades generally steady. Veal calves advanced 7c. No. 1 to 2c. Fat hogs up 2c to 3c. Fat sheep 50c to 75c. Fat sheep and yearlings up 2c to 5c. Chicago prices: Light to heavy, 10c; bulk calves, \$9.00 to \$8.25; medium and good use, \$10.00 to \$9.00; butcher cows and heifers, \$8.40 to \$7.75; feeder steers, \$5.10 to \$4.75; fat hogs, \$11.00 to \$10.25; feeding lambs, \$11.75 to \$12.50; yearlings, \$9.50 to \$12; fat cows to \$7.

Eastern wholesale fresh meat prices ranged from weak to lower. Beef lost 5c to 10c; veal and mutton weak 10c to 15c. Fresh produce practically unchanged. Prices good grade meats: Beef, \$11.50 to \$14; veal, \$17 to \$20; lamb, \$24 to \$27; mutton, \$18 to \$16; light pork loins, \$10 to \$17; heavy loins, \$11 to \$15.

Butter market quiet throughout week. Trade lacked confidence and buying is largely for immediate needs. Receipts fairly heavy. Quality running good. No. 1 to 2c. No. 2 to 1c. Imported butter, Danish asking prices too high to attract purchasers. Closing prices: No. 1, \$1.00; No. 2, \$0.95; Boston \$0.90.

Potato market generally steady to firm during the week; shipments small. New York sackload round whites ranged \$2.25 to \$2.50 per 100 lbs. in bulk. Chicago market for 100 lb. sackload round whites at \$1.98 to \$2.05. Northern sacked steers dull and weak in Chicago at \$10.00 to \$12.00, off to f. o. b. at \$1.63 to \$1.85. Apple market continues to hold about steady. New York Baldwin in limited quantities at \$1.75 to \$1.90 per barrel. Slightly weaker at New York shipping points at \$1.50 to \$1.75. Considerable new stock moving to market. Danish type clearest choice in Chicago at \$1.10 to \$1.18 per bushel. Down to \$1.10 in other cities at \$1.00 to \$1.05; down \$1 in western New York at \$1.25 to \$1.40. Foxons domestic medium small, \$1.00 to \$1.05; weak in Chicago and Kansas City at \$1 to \$2 per 100 pounds; \$1.00 to \$1.00 per ton bulk in other midwestern cities.

DENVER LIVESTOCK. Trading on the cattle market was good, with an active demand being felt from all sources. Beef buyers have been showing a strong discrimination against the inferior grades in their purchases of the last few weeks, but they were forced to buy more of the lower grades than they needed from the more inferior grades. No good beef steers were offered on the market for \$10.00, while less attractive loads crossed the scales at \$5 and \$6.50. Choice steers could be sold at \$7 or possibly \$7.25. No. 2 beef cows and heifers were in no better. A fair grade sold for \$4.85 and \$4.50. Grizzly choice cows were quoted from \$5 to \$5.50. Trading was practically at a standstill in the feeder and stocker division. Only a few consignments arrived, but demand was nothing extra and prices paid showed a steady tendency.

Hogs. Trading on the local hog market was full of pep. Supplies were conservative. Demand from all sources was heavy and with the buyers competing in good fashion for a share of the lot, a clearance was effected with but little difficulty. The average quality was better than could be expected and brought the top price was considered by all traders to be the fanciest presented in some time. Small killers bought, this load for \$8.40. Heavy other grades were offered that presented an attractive quality to buyers and bulk of sales were made up of packers paid an high as \$8.25 and bulk was sold from \$7.85 to \$8.25. Heavy cutouts were quoted at \$7.75.

Sheep. Receipts in the sheep section were nothing extra. Close to 4000 head of stock were received, but buyers showed a big hole in the offerings without delay and it was plainly apparent that much more could have been sold at good advantage. With the basis of supply and demand right and with all eastern markets reporting a favorable trade, with values on the advance, it was inevitable that local dealers should pile on a little. The market was called a quiet quarter higher, but one or two loads were offered an advance of only about 5 cents. The bulk of the receipts were of the killing class and packers, consequently, were the heaviest purchasers. Two loads averaging 51 pounds, two loads averaging 45 pounds, and two loads averaging 35 pounds, were taken by the packers for \$1.16, and one load averaging 35 pounds went the same way for \$1.22.

The feeder section of the market was quiet. Supplies were small and traders were directing their efforts toward moving the fat end first. A new top was reached in the ewe division. Only two loads were offered. Choice kinds were not quoted higher than \$4.50.

METAL MARKETS. Colorado settlement prices: Bar silver (American), \$23 1/2; Bar silver (Foreign), \$24 1/2; Copper, \$18 1/2.

Southwest News From All Over New Mexico and Arizona

(Western Newspaper Union News Service.)

Through the efforts of the Roswell, N. M., Kiwanis club a big program has been provided for this year for the local Boy Scouts, part of which is the erection of a large cabin in the Capitan mountains.

The Mesilla Valley National Farm Loan Association was formally organized at a meeting in the temple of agriculture at Las Cruces, N. M., Jan. 19, when these officers and directors were elected for the year. Banks in the southern part of Arizona are in a satisfactory condition, according to Charles W. Fairfield, state auditor and superintendent of banks, who has made an inspection of the state banking institutions.

A movement has been started in Carlsbad, N. M., to form a new paving district and have all the work done this year while the main street paving is in progress. If the plans are carried out all the principal streets of the city will be paved.

As far as its financial resources are concerned, Silver City, N. M., stands in the front rank with the other cities of the state, according to the recent reports given out by the banks of the city. The combined resources of the three banks of the city are now over \$3,000,000 and the combined deposits total up towards \$2,000,000.

Contempt proceedings against the Arizona Eastern Railroad Company were instituted by the Corporation Commission at Phoenix on the ground that the railroad refused to permit a representative of the commission to inspect its books. Officials of the company were directed to appear before the commission Feb. 15.

Attorney General W. J. Galbraith of Arizona, in an opinion, outlined the procedure to be followed by members of the Legislature who may contemplate resigning. Any one who may wish to resign should do so in writing to the presiding officer of the House of which he is a member, and the presiding officer should in turn transmit it to the governor, Galbraith said.

Work preparatory to resumption of mining and smelting operations will be commenced at once on the Old Dominion Company's properties at Globe, Ariz., it was announced by W. G. McBride, general manager of the company. In normal times, the company has employed as high as 1,500 workers and has produced about 3,000,000 pounds of copper bullion a month.

Judge Sam G. Bratton of Clovis, N. M., has six murder cases in his district to be tried in the next few months in Curry, Roosevelt, De Baca and Quay counties. The peculiar features of most of the cases is the fact that nearly all of them have grown out of quarrels between kinspeople and three of them are where the brothers-in-law have been killed.

Robert A. Rogers, former district ranger of the Coronado national forest reserve, is now at the head of the federal horticultural board which is located at Nogales, Ariz. The duties of the board will be the inspection and regulation of importation of horticultural products from Mexico with a view to preventing the influx of diseased plants into the United States.

Organization of the first reserve army of Mexico has been completed, and, according to a Mexican War Department bulletin received at Nogales, Ariz., it includes 133 generals and 725 regimental field officers, all retired from active service, but subject to call in time of need. Provision also has been made for the retirement of other veteran officers and their addition to the reserve force.

At a recent fire drill at the schools of Carrizozo, N. M., all the pupils were out of the buildings in 47 seconds. The drills are held every week and in case of fire it is thought that this would be plenty of time for the children to get out of the buildings.

Without any further examination, Ernest Ruth, Jr., of Raton, N. M., will enter the United States Naval Academy at Annapolis, Md., on the credits he received at the Colfax County High School. All the credits he made in the local schools have been accepted and Ruth will enter the school some time in June. Mr. Ruth brings honor not only to himself, but to the county and to the school from which he graduated.

The Struquardt Engineering Company of Albuquerque has been awarded the contract for the heating and plumbing in the new hotel which is now being built by Charles Clay at Jemez Springs. The new hotel is to be Pueblo type, will be called the La Esperanza (the Hope) and will cater to all-the-year-around vacationists. If the present plans are carried out the new hotel will be completed in time for the opening of tourist business next spring.

According to word received from Tucson, Ariz., the trial of Mrs. Hattie Luke, who is charged by an indictment in the Federal Court at Tucson with receiving stolen money belonging to the robbery of the Babes postoffice has been set for Thursday, Feb. 9.

The killing of Ambrosio Sandoval by William Coleman, foreman of the Deags & Co. sheep outfit of Prescott, Ariz., on the Tomto trail, was accidental homicide, according to a verdict returned by the coroner's jury which investigated the shooting.

WRIGLEYS P-K

This new sugar-coated gum delights young and old. It "melts in your mouth" and the gum in the center remains to aid digestion, brighten teeth and soothe mouth and throat.

HAD OVER A MERE TRIFLE HE HAD SOMETHING COMING

Surely Any Man Who Has Seen Service Will Agree That Corporal Was Unreasonable. Five-Year-Old Got Drawing. He Wanted, but Retribution Was Stalking Behind Him. A couple of recruits of the latest vintage were discussing the pros and cons of service life at Paris Island. "It ain't so bad," confided one. "Most of it is all right, but it's that blasted relief from guard duty that gets me." "Relief from guard duty!" ejaculated the other. "Man, you're cuckoo! There's nothing to be relieved from guard duty. It's being on guard duty that's the tough." "No," maintained the first. "It's the relief. Why, the other day they put me on guard duty for two hours, and it wasn't bad at all just standing around and watching the rest of 'em drilling and knowing that I didn't have to do it myself, but when the time for relief came the corporal came up and gave me the devil." "What for?" "Nothing—nothing at all. I just couldn't remember where I left my rifle."—The Leatherneck. A reformer who devotes his efforts entirely to sanitation is worth while. When it comes to getting his dues, his stately majesty never gets left. No Friend of Humanity. He who employs excellent facilities and good wit to humor and please men in their vices, is the greatest enemy of mankind.

Advertisement for Grape-Nuts cereal. Text: "You wouldn't put on hobbles to run a foot race. Then why load up on handicaps for the day's work? A good deal of food, unwisely chosen, does weigh the body down and clog the digestion and dull the brain. Why put on the hobbles? Grape-Nuts is a breakfast or lunch-time dish for those who want food efficiency, and mind and body efficiency. Grape-Nuts satisfies and nourishes. It delights the taste. It is ready to serve whenever you are ready to eat. And it digests easily, quickly and completely—leaving no handicap of heaviness and drowsiness. Grape-Nuts is the food for health and action. 'There's a Reason' Made by Postum Cereal Company, Inc., Battle Creek, Mich. Sold by good grocers everywhere!"

Plan to Cut Corn Acreage

Agreement Made by Farmers to Reduce Supply Because of Low Prices.

LAST YEAR'S CROP IS UNSOLD

One Nebraska Farmer Shipped Carload of Corn to Montana, Paid Freight Bill of \$416.58 and Collected \$416.52.

The proposal to curtail corn acreage in the West in 1922 is likely to affect the price of food before the end of the year. The entire country is heavily interested because it signifies an increase in the cost of corn and meat, with a resultant and sympathetic increase in the price of wheat and bread. Nebraska is not the only state in which the movement is gaining ground. Iowa, Kansas, Missouri, Illinois, South Dakota and all the states of the great "bread basket" are moving in the same direction. Signs are plentiful throughout the Middle West that far less corn than usual will be planted unless there is an immediate and considerable increase in the price of that cereal.

Most farmers recognize that the price of corn is not due to any combination of capital or a "conspiracy," but is governed solely because of the law of supply and demand and they are preparing to cut the supply.

Farmer Is Stung.
Nebraska farmers are getting about 17 cents for their corn. Farmers in states closer to markets are getting a cent or two more. Two weeks ago a farmer near Broken Bow, Neb., shipped a carload of corn to Billings, Mont. The freight was \$416.58. The selling price in Billings was \$416.02. The farmer paid the difference, six cents. He had provided the land and seed, planted and worked the corn, gathered and shucked it, hauled it to the railroad station and then paid out six cents for all his trouble.

All over the corn belt the farmers are having similar experiences. The executive committee of the Illinois Agricultural association, has recommended to the Illinois farmers that they cut the acreage they will plant in corn for 1922. Illinois is the second largest corn producing state in the country.

A special committee from the state farm bureau federations of Iowa, Indiana, Kansas and Missouri has advised similar action. Iowa is the heaviest corn producing state in America. Missouri, also, is close to the top. Indiana is not far away. The Kansas corn crop is second only to the Kansas wheat crop.

Thousands of farmers in the corn

belt states still have on hand the corn they raised in 1921. They have refused to sell at the low prices. Recent action of the War Finance corporation is permitting them to hold on to the corn already in their bins. These farmers, in thousands of cases, are preparing not to produce crops in 1922, but to hold their present grain for the increase in price which must inevitably follow if the production is cut.

Will Reduce Acreage.
One big land company has 5,000 acres of land at Herman, Neb. Ordinarily, this company plants 2,000 acres to corn every year. Here is what one of the owners of the company, as well as owner of the Omaha Bee and one of the most prominent business men in this state has to say: "There is no doubt that if corn is not up to the cost of production in the coming year, in a systematic or an individual way farmers will decide not to plant it. On our 5,000-acre farm, not an acre of corn will be planted unless the price goes up to meet the cost of raising a crop. We have notified the manager to summer fallow the

Heroine Faces Difficult Task

"A. E. F." Frawley, With 17 Wounds, Must Prove She Is Still Alive.

OFFICIALLY REPORTED "DEAD"

Several Installments of War Risk Insurance Paid to Family—Now Everything Possible Is Being Done to Correct Record.

San Antonio, Texas.—America's greatest woman World War hero, Miss Aeneas E. Frawley, who has been wounded and shot, buried alive and bombed, and carries seventeen "wound stripes" on her coat sleeve, now is facing what she calls the toughest job of all—that of proving to the world that she is still alive!

And all this because, following the bombing of an emergency hospital in the trenches at Chateau Thierry, she was officially reported "dead" in the government war casualty records.

"A. E. F."—that's what the boys "over there" called her, because of her initials—headed for Franco two months after the United States en-

Man's Finger Will Replace Lost Nose

Michael Feighley of Robertsville, Md., whose nose was cut off when the windshield of his automobile shattered and cut his face, will have his little finger grafted on in place of the missing member. After the finger grows fast to Feighley's face it will be amputated from his hand.

THE HAPPY WEEDS

"We are so happy," said some little weeds which were growing in a big flower pot.

"I'm glad you are," said Fairy Ybab. "You know I've met such happy creatures and things today! I had a talk with some elephants belonging to a circus not long ago—not more than two hours ago, and while they all had been having a fine time one elephant was as proud as ever a creature could be."

"A Talk."
"And now I meet you and you're all so happy."

The Fairy Ybab was perched upon the side of the flower pot. In the flower pot was a big, bribe geranium flower, and growing in the earth, too, were quite a few little, tiny weeds.

"What has happened to make you so happy, Weeds?" asked Fairy Ybab.

"You see," the Weeds continued after a moment, "we aren't always wanted. As a family we're not so very popular. We're usually dug up, and thrown away, and, after all, we suppose that is all right."

"For we, as a family, are rather mean the way we crowd the flowers out of the way, and if they don't want harm done they must get out of the way before we can do much harm."

"We can't really blame people for digging us up, for as a family we do push our way about and aren't in the least polite about waiting for invitations or anything like that."

"But when the person who owns this flower and this flower pot saw us coming up out of the earth, she said:

"Oh, I am glad to see those cunning little weeds growing up!"

"You can imagine how pleased we were! We all were just as happy and pleased as could be. We weren't going to do the flower any harm because we were only little bits of weeds and weren't going to grow up into strong big weeds, but we thought we'd be dug up in any case."

"But no, we were actually welcomed. Just fancy, Fairy Ybab, how much that means to the Weed family. For some time to come now the family with pride will tell this story."

"Yes, the Weed family will tell how some of its members were wanted and how they were greeted."

"So we're going to stay alongside this fine plant, and we are going to be a part of the decoration in the flower pot."

"That's enough to make us proud, isn't it, Fairy Ybab?"

"Ah, yes, I don't wonder you are proud," said Fairy Ybab. "I don't wonder at all."

"And now I must tell you of the proud elephant. This elephant had been ridden by a beautiful lady who had come to visit the circus."

"She was a friend of some of the circus people and she had asked if she could ride this elephant in the parade."

"And she did! She rode the elephant in not only one, but in two parades!"

"The elephant was so proud!"

"Fairy Ybab," he said to me, "just think of the great honor which has been shown to me. I have had a visiting lady ride upon me twice."

"In fact, Fairy Ybab," the elephant said, as he waved his head at me and moved his great body from side to side as though he were singing and keeping time at the same moment, "I have had a double honor shown to me, or two honors, because she rode me twice!"

"So you see, Weeds, what happy creatures I have seen today. For the other elephants were all happy, too. They had done some fine tricks and had earned a new one, and they had been given most excellent meals and were feeling much pleased."

"And now, even the little Weeds are happy and have been welcomed."

"It is fine to think of," said the little Weeds and we are most extremely glad. "I don't wonder," I said to Fairy Ybab, "and I will tell them all about it. Every one of them will hear."

"Good, good," said the Weeds. "We are so very much pleased."

MOTHERS AND DAUGHTERS

Read This Letter from Mrs. W. S. Hughes

Greenville, Del.—"I was under the impression that my eldest daughter had some internal trouble as ever since the first time her sickness appeared she had to go to bed and even had to quit school once for a week. I always take Lydia E. Pinkham's Vegetable Compound myself so I gave it to her and she has received great benefit from it. You can use this letter for a testimonial if you wish, as I cannot say too much about what your medicine has done for me and for my daughter."—Mrs. Wm. S. Hughes, Greenville, Delaware.

Mothers and sometimes grandmothers have taken and have learned the value of Lydia E. Pinkham's Vegetable Compound. So they recommend the medicine to others.

The best test of any medicine is what it has done for others. For nearly fifty years we have published letters from mothers, daughters, and women, young and old, recommending the Vegetable Compound. They know what it did for them and are glad to tell others. In your own neighborhood are women who know of its great value.

Mothers—daughters, why not try it?

Have You a Cold or Cough?

Read What This Woman Says:

Blair, Neb.—"In my younger years I had very weak lungs and as I grew older seemed to become susceptible to weather conditions to such an extent that I always seemed to have a cough or a cold. I took Dr. Pierce's Golden Medical Discovery as a tonic and builder and found it to be so helpful to me that I used no other medicine or doctoring for a period of about seven years. I did not take it continuously but just whenever my system seemed to require a tonic. That was twenty-five years ago and my lungs are in good condition today."—Mrs. L. H. Lotrop, 211 East Lincoln St.

When run-down you can quickly pick up and regain vim, vigor, vitality by obtaining this Medical Discovery of Dr. Pierce's at your nearest drug store in tablets or liquid.

Machine That Predicts the Tides

This machine, possessed by the coast and geodetic survey in Washington, predicts the tides in any body of water in the United States from two or three years in advance. The machine not only records the year, but the month, day, hour and minute of either high or low tide. In this picture the operator is revealing the tide prediction for Port Townsend, Wash., for the year 1922.

Seeks "Cell for Winter"; Gets One for Forty Years

Parry Sound, Ont.—Forty years in the penitentiary was the sentence imposed by Police Magistrate George Moore on Stephen Zowistak, who pleaded guilty to smashing 21 windows. "In order to earn a term in a nice warm jail for the winter."

Dog Aims at Politicians

Boston.—There is a French bulldog that is the scene of politeness. His name is Great Toi and he is the property of Miss Alice F. Dunne of 45 Cortez street, Boston. Great Toi got his reputation as an extremely polite canine when he chanced to pick up a lady's coat that was dragging on the floor. He did this so gracefully and with such evident enjoyment that he was immediately nicknamed "the Page" by his loving mistress.

SAYS THAT INDIANS ARE STARVING

Turned Cannibals, According to Reports From Canada.

Mounted Police Start a Four-Month Trail in Far North to Investigate—Miss Yearly Migration of Caribou.

Winnipeg.—A member of the Canadian mounted police and a guide left Edmonton, Alberta, to investigate reports that Indian tribes north of Lake Athabasca, in northern Canada, had resorted to cannibalism, their food having failed them. These Indians have heretofore been living largely on caribou, but last summer they missed the yearly migration of caribou from the shores of the Arctic and they hunt was a failure. Reports indicate that they are starving.

The trip is a long and dangerous one, across barren lands and through a wilderness for a distance of 400 miles. No food can be obtained there and little wood for camp fires is obtainable, there being in the region only isolated sticks of stunted timber. The ground is almost entirely rock ridges, interspersed with swamp land and bogs. Another party of Canadian mounted policemen also is leaving Fort Fitzgerald.

Bounty Better Than Trapping

Superior, Wis.—Charles Baldwin, town of Superior, has trapped 12 wolves this year and received \$240 in bounties. He is laughing at fur trappers, who have had a poor year.

Man (Crushing Wildly Down the Street)—Little Boy, Did You See the Thief That Ran Off with My Car?

Boy.—I didn't see the man, but I got his license number—I'll give it to you for two bits.

It is reported that the port of Copenhagen is filled with American goods that cannot be sold on account of their extreme high prices.

Beginning of a Fortune. Man (crushing wildly down the street)—Little boy, did you see the thief that ran off with my car? Boy.—I didn't see the man, but I got his license number—I'll give it to you for two bits.

Hall's Catarrh Medicine
Those who are in a "run down" con-
dition will notice that Catarrh bothers them
much more than when they are in good
health. The fact proves that while Cat-
arrh is a local disease, it is greatly in-
fluenced by constitutional conditions.
HALL'S CATARRH MEDICINE is a
"toxic and acid" through the blood upon
the mucous surfaces of the body, thus
inducing the inflammation and exciting
Natura in restoring normal conditions.

NOTICE OF CONTEST
DEPARTMENT OF THE INTERIOR
U. S. Land Office
Roswell, N. M.
Contest No. 10881
Roswell, N. M., Jan. 6, 1922.
To Harold J. Meyer of El Rio, Texas.

CONTESTEE:
You are hereby notified that Alfredo
Luceco who gives Corona, N. M., as his
post office address, did on Dec. 22, 1921,
file in this office his duly corroborated
application to contest and secure the
cancellation of your homestead Entry
Serial No. 045339, made Aug. 2, 1920,
for W₂, SE₄, S₄NE₄, NW₁NE₄, Sec. 15,
NE₁NE₄, Section 24, Township 3 S.,
Range 11-E, N. M. P. Meridian, and as
his grounds for contest he alleges, that
you have never established residence on
the land; that you have never resided
thereon; that you have never culti-
vated or improved any part of same,
that you have abandoned said land for
more than six months last past and have
never earned title thereto. That your
absence from said land was not due to
service in the military organizations of
the United States nor in the National
Guard of any of the several States.
You are, therefore, further notified
that the said allegations will be taken
as confessed, and your said entry will
be canceled without further right to be
heard, either before this office or on ap-
peal, if you fail to file in this office
within twenty days after the FOURTH
publication of this notice, as shown be-
low, your answer, under oath, specifi-
cally responding to these allegations of
contest, together with due proof that
you have served a copy of your answer
on the said contestant either in person
or by registered mail.

You should state in your answer the
name of the post office to which you
desire future notices to be sent to you.

NOTICE OF CONTEST
Department of the Interior, U. S. Land
Office at Roswell, N. Mex., Jan. 23, 1922
(Contest No. 10408)

To Hugh L. McWhorter of Roswell, N. M.
CONTESTEE:
You are hereby notified that Gus T.
Chandler, who gives Roswell, N. M. as
post office address, did on January 4th,
1922, file in this office his duly cor-
roborated application to contest and se-
cure the cancellation of your homestead
Entry, Serial No. 044541 made Dec. 30,
1919, for NW₁ Sec. 14, NE₁ W₂ Sec-
tion 15 Township 10-S, Range 13-East,
N. M. P. Meridian and as grounds for his
contest he alleges that you have never
established residence on said land; that
you have never improved the same; that
that you have wholly abandoned said
land and said default was not due to
service in the Army, Navy or Marine
Corps of the United States, or in the
National Guard of the several States
while in the service of the United
States or any Military Service rendered
in connection with operations in Mexico
or along the Border thereof or in mo-
bilization camps elsewhere.

You are, therefore, further notified that
the said allegations will be taken as con-
fessed, and your said entry will be can-
celed without further right to be heard,
either before this office or on appeal, if
you fail to file in this office within twen-
ty days after the FOURTH publication
of this notice, as shown below, your
answer, under oath, specifically respond-
ing to these allegations of contest, to-
gether with due proof that you have served
a copy of your answer on the said con-
testant either in person or by register-
ed mail.

You should state in your answer the
name of the post office to which you
desire future notices to be sent to you.

ARTIFICIAL ICE MADE BY FARMER

Freezing Weather and Pure, Clean Water Are Two Things Absolutely Necessary.

METAL CANS OR BAGS USEFUL

In Very Cold Sections Water May Be Run Into House and Frozen in Layers—Must Be Cut or Chopped Out With Ax.

(Prepared by the United States Department of Agriculture.)
To make natural ice, one essential is water, and the other is freezing weather. The trouble is that in many cases there is plenty of the right kind of weather, but little or none of the water, at least the kind of water that will be still long enough to be frozen. There are several ways of getting around this difficulty, according to "Harvesting and Storing Ice on the

In Times of Cold Weather Prepare for Summer—Harvesting Ice in a Northern State.

Farm," a farmers' bulletin issued by the United States Department of Agriculture.

Making an Ice Pond.

Suppose a farmer finds no suitable lake or pond in his neighborhood. He can create an artificial lake by diverting a stream into an excavation, or by building a dam across a low piece of ground. Some farmers have made artificial lakes in their front yards, and they have been pretty in summer as well as useful in winter. One thing that must not be forgotten is to keep these lakes pure and clean. How to do that is described in the bulletin.

But suppose a farmer has no place for a lake although cold weather prevails in his part of the country for several weeks at a time. He can freeze his ice in metal cans or special paper bags.

"The cans may be made in any convenient size by a local tinmith," says the bulletin, "and should be of galvanized iron, reinforced at top and bottom with iron strips."

"The bottom is made smaller than the top to make the removal of the ice easier. The cans are placed near the water supply, filled with water and left exposed to the weather. A shell of ice soon freezes around the inner surface, and when the shell is from 1 1/2 to 2 inches thick, hot water is poured over the outside of the can and the shell removed. A hole is broken through at the top of the shell and most of the water inside is then poured out. As the freezing progresses water is poured into the shell, a little at a time, until a solid block of ice is produced. By this method only a few cans are required, which keeps the cost low.

Advantage of Bags.

"About the same method is employed when special paper bags are used, although they do not last as long as the cans. The advantage of the bags over the metal cans is mainly in cheapness, for they are not so convenient to handle.

"Another method that can be used in very cold sections of the United States is to run water into the ice house and let a layer freeze. This is done by first constructing a dam of snow around the floor of the house ten or twelve inches from the walls in order to allow exhaust insulations next to the walls. The interior of the house is then flooded with a few inches of water, which soon freezes, the procedure being repeated until the house is filled with ice. It is then covered with sawdust and closed up until ice is needed. A great disadvantage of this method is that in order to remove ice it must be cut or chopped out with an ax, which results in uneven and irregular pieces and considerable waste of ice."

MANURE SHOULD BE KEPT DRY

In Process of Fermentation Ammonia, Which Contains Nitrogen, Is Washed Away.

Manure when it must be kept for a few weeks should be kept dry. It must be remembered that the nitrogen in manure is very easily washed away. For several manure be allowed to ferment. In the process of fermentation ammonia, which contains the nitrogen, is given off and this valuable constituent of a fertilizer is lost. Never use lime on manure as this also drives off the ammonia and hence destroys the fertilizing value in a large measure. The fertilizing value in a large measure.

ESTIMATE FEED COST OF EGG PRODUCTION

Records Show About What Amounts Are Used by Fowls.

Value of General-Purpose Breeds for Market, or for Hatching and Breeding Makes Them Most Desirable Birds.

(Prepared by the United States Department of Agriculture.)
Careful poultrymen like to know what it costs them to produce a dozen eggs, but it is not possible for anyone to tell them. With certain information obtained through experimental feeding to start with, they must figure it out for themselves. Since the feed constitutes the principal cost, it is possible to get some idea of the real cost if the amount of grain used in making a dozen eggs is known. The United States Department of Agriculture has kept records that show about what amounts are used by general-purpose fowls and Leghorns, and by using the local price for grain in connection with these figures the feed cost of a dozen eggs can be obtained with fair accuracy.

The grain consumed to produce a dozen eggs will vary a great deal, depending upon the skill of the poultryman, but it is assumed that he knows how to feed economically. The general-purpose fowls and Leghorns used in this feeding work were kept on the test while pullets and yearlings. As pullets the general-purpose fowls produced 130.5 eggs a year and 88.12 yearlings. The Leghorns produced an average of 138.7 eggs as pullets and 124.0 as yearlings.

The general-purpose pullets ate in a year an average of 0.7 pounds of feed per dozen eggs produced, and the yearlings ate 0.6 pounds. The Leghorn pullets ate 4.8 pounds and the yearlings 5.5 pounds. The general-purpose pullets ate 1.9 pounds more feed in producing a dozen eggs than the Leghorn pullets, and the difference increases very rapidly with the age of the stock, the general-purpose yearlings consuming 4.1 pounds more feed per dozen eggs than the Leghorn yearlings; therefore the Leghorn yearlings produced eggs upon much less feed than the general-purpose breeds.

The value of the general-purpose breeds for market, or for hatching and breeding, makes them usually the most desirable breeds for the general farmer and the backyard poultry raiser, while the Leghorns are especially adapted for the commercial egg farmer, say the poultrymen of the department.

PLAN TO MOUNT GRINDSTONE

Best Way Is to Have Legs Long Enough That Person Using It Won't Have to Bend Over.

The time-honored way of mounting a grindstone is on a stand with short legs so that both the person grinding and the one turning the stone have to stoop over and get a crick in the back. The new way is to have the grindstone mounted on a stand with longer legs so that both grinder and

Old—Wrong. New—Right.

turner can stand almost upright. The turner is done away with by the foot lever shown above, contrasting the wrong mounting with the right stand. Still better is it to attach a small fly wheel and belt to the grindstone so that it can be operated by power from the engine on spray rig when not otherwise used, or from any movable or stationary engine available, or from an electric motor.—Farm and Home.

PREPARING GROUND FOR OATS

Many Successful Farmers Have Proven That It Pays Well to Disk Before Planting.

Experiment stations and many successful farmers have proven that it pays to put the ground in good seed bed condition before sowing oats. Disking of the stalk ground has proven better under most conditions than plowing, as it provides a seed bed that is better adapted to the requirements of the crop. As for wheat, the seed bed for oats should be firm underneath with a few inches of mellow surface soil. This sort of a seed bed can be produced by diskage.

TUBERCULOSIS HITS CATTLE

Disease Is Apt to Affect One Breed as Another—Immunity Depends on Management.

Tuberculosis is apt to affect one breed of cattle as badly as another. No breed is immune and no breed shows greater immunity than another, according to a study by government officials of official tuberculosis test records of nearly half a million animals. The beef breeds seem to be as badly affected as purebreds. The relative freedom of a herd from disease depends upon the management which it receives.

IN SPRING SUITS

Imported Fabrics Play Important Part in Compositions.

Cloth Outfits of More Formal Apparel Fashioned for Most Part of Twills and Tricotines.

Imported fabrics play an important part in suit compositions for spring, suits of sport intent evincing an especial fondness for foreign materials. Cloth suits of more formal apparel are fashioned for the most part of twills and tricotines.

Coyote cloth is another medium added to the list of suit fabrics, models done in this practical material requiring no other adornment save fabric strappings which are applied with discretion. One covert suit shows the fabric strappings in ladder effect detracting not at all from the severely tailored appearance.

In the imported tweed suits, one number which is striking is developed in an invisible plaid, the upstanding leather collar edged with steel rings proving a noteworthy handling. The leather note is accentuated once more in the slender belt. Other well-liked touches are revealed in the big plaits and breast pockets. As is the case with the majority of the shirts, this one adopts straight, simple lines.

The matter of belts in the tailored suits is optional, although it is stated here that buyers demand them.

Suits of more formal apparel evidence a fondness for jackets which are in the neighborhood of thirty inches in length, while the uneven lower edge is seen with marked frequency. In several instances this effect is gained through pointed cuts which mark the side sections of the jackets, the points dropping quite a bit lower over the hips. Many of these suits make a point of hand embroideries, the entire lower section of the jacket sometimes displaying embellishments of this sort, with embroideries noted in a lesser degree in borders edging front closings.

Semi-fitted jackets via with flare

TWO-COLOR KNITTED FROCKS

Two colors, tan and orange, are introduced in this smart knitted frock. Simplicity of line is the keynote, though the novelty is evident. The belt fastens snugly under the blouse, covering the joining of the tasseled straps, the latter forming side panels.

SMART DANCE FROCK OF TAFFETA

Bliss Choice of Young Girls, While Older Misses Prefer Spanish Lace Type.

Dance frocks offer a wide choice in style and fabric. While the very young girl almost invariably selects the bouffant taffeta dress, those for the older miss are shown in tulle, crepe de chine, chiffon and georgette, always with a large proportion of the Spanish lace frocks which, it is pointed out, are having as heavy demand as ever in spite of the run they have already had. In the taffeta group, one that stands out for originality is of changeable orchid, with large flowers of deep purple feathers. Tangerine is spoken of as the most popular color for the "taffeta age," and it is shown with very little trimming, as it depends for effect chiefly on color. A smart combination of tulle and charmeuse is shown in pale lavender, with under-skirt of plaited georgette. The bodice is plain, set, with an airy fullness in the tulle and charmeuse skirt.

TO BE WORN OVER THE SKIRT

Many of the Newest Costume Blouses Show Small Collar Across the Back.

The new costume blouses seen in the shops are developed mostly along simple lines. The collarless types are paramount, but many of the newest arrivals show a small collar across the back, ending at the shoulder line. Most of the blouses are tailored to fit over the skirt, and the choice

TAN KNITTED FABRIC FROCK

A simple frock of tan knitted fabric is this with its clever panel of tan and brown cross bars. The low waistline is a notable and modish feature.

models, with much favor shown a low fastening accomplished with novelty double links. Bell sleeves have been accorded attention, in some instances a flare cuff giving a youthful touch. One model, stressing sleeves of this description, shows the cuffs treated with flow and jet nail-head embroideries, the same garnishings being repeated on the flare sides.

A jacket with a collar convertible to upstanding or flat handings strikes a note of color in its collar facing of American Beauty crepe knit.

POMPONS ARE EASY TO MAKE

Decoration Is Very Smart and Simple to Model—How Tassels Can Be Made at Home.

Pompons are very smart this year and it is quite simple to make them at home out of yarn. To make these, cut two round pieces of cardboard about two inches and a half in diameter. Punch a hole in the center and wind the yarn in and out until the card is covered. Insert the points of small scissors between the two outer edges and cut the threads after tying the yarn tightly between the two pieces of cardboard. Slip the cards off either end and trim the pompon down to the desired size.

Tassels are made by winding yarn on a piece of cardboard about half an inch longer than you desire the finished tassel to be. Slip two or three threads of yarn between the cardboard and the yarn at one end and tie tightly. At the other end cut the yarn so as to make the tassel part. A more attractive and finished tassel is made by winding yarn around the tassel a few times about three-fourths of an inch from the top.

Fan-Bags.

The fan-bag is one of the novelties. These fan-bags are usually made of feathers—that is, shell or imitation shell frames covered with feathers. They may be used either as fans or bags.

WARNING! Say "Bayer" when you buy Aspirin.

Unless you see the name "Bayer" on tablets, you are not getting genuine Aspirin prescribed by physicians over 22 years and proved safe by millions for

Colds Headache Rheumatism
Toothache Neuralgia Neuritis
Earache Lumbago Pain, Pain

Accept only "Bayer" package which contains proper directions.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark of Bayer Manufacture of Medicaments of Silesia.

LOOKING AT IT PRACTICALLY

Really There Is Something Worth While in the Assertion Made by Little Johnny.

The physician was telling little Johnny's mother about a railroad accident in which a teamster had both legs crushed from the effects of which he died the same day. Little Johnny, about six years old, stood by, greatly interested in the accident.

"That, doctor," he broke in with his eyes wide open, "with the horth hurt?"
"I don't know," said the doctor, "I was more interested in the man, and didn't think of the horse."
"Well, I don't care," Johnny said, taking the doctor's reply as an implied rebuke, "but a live horth ith bettr'n a dead man, anyway."

Novel Motion.
The committee had assembled in a small country town to discuss whether the librarian in charge of the town library should be retained in office. Those desirous of getting rid of him used as their argument against him that he was untidy about himself and the books which he handled. One woman arose and emphatically declared him to be a dirty man, whereupon a second sister on the committee arose and said:
"But he is beautiful and clean within."
The opposing lady arose and said, in her most parliamentary manner:
"I move that we turn him inside out immediately."—Harper's Magazine.

Apropos.
"Where are you going?" "Hunting."
"For what?" "Money. I'm on the cent!"—Judge.

Completed.
Teacher—We borrowed our numerals from the Arabs, our calendar from the Romans, and our banking from the Italians. Can anyone think of any other examples?
Willie Willis—Our lawnmower from the Smiths, our snow shovel from the Jones' and our baby carriage from the Dupps.—Judge.

It is true "the Lord will provide." He provides the world. Your methods must be your own.

Many ambitious men and women live only half a life—and don't know it

No person whose nerves are continually irritated, whose appetite and digestion are disturbed, or who doesn't sleep well has more than half his normal chance for success in life. For weakness, debility, anemia and general lack of tone are a serious handicap to anybody.

Those who drink tea or coffee are often sufferers from these conditions. Tea and coffee contain caffeine, a substance which has a decided stimulant action on the nerves and brain cells.

Each cup of strong coffee contains about as large a dose of caffeine as your doctor would ordinarily give to a very sick person.

You can readily see that the effect of giving this stimulant regularly to a well person might finally have a tendency to make him sick.

If you want to avoid a very common cause of irritation and enjoy restful sleep, good digestion, and all the feeling of vigor and robust endurance that comes to healthy, normal people, quit tea and coffee, and drink Postum, instead. It is a rich, coffee-like cereal beverage—perfectly delicious!

Order Postum from your grocer today. Drink this fragrant, aromatic beverage and see how much better you'll feel—able to do more without becoming fatigued—as thousands have discovered for themselves.

Postum comes in two forms: Instant Postum (in tin) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.

Postum for Health

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent life insurance companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

Dr. Kilmer's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper advertisement.

An Arabian proverb puts it this way: "He who has health has hope, and he who has hope has everything."

MOTHER, QUICK! GIVE CALIFORNIA FIG SYRUP FOR CHILD'S BOWELS

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

A Move for Peace.

Knicker—"How would you reduce undersea tonnage?" Bocker—"Tell how much the fish really weigh."

Happy the man who knows he can't tell a funny story; others, too.

MURINE

Night and Morning, Flow Strong, Healthy Eyes. If they Tingle, Itch, Smart or Burn, If Red, Swollen, or Gritty, or if you have any of the above symptoms, use Murine. It is the only eye medicine that is safe for all eyes. At all Drug Stores. Write for Free Eye Book. Name on Envelope to Chicago.

POPE BENEDICT XV SUCCEEDS TO PNEUMONIA

Illness That Was Not at First Regarded as Serious Has Fatal Ending.

PONTIFF HAD BRIEF REIGN

Elevated to the Papal Throne in 1914, His Life Was Saddened by the Atrocities of the Great War—Ordained Priest in 1874.

Rome.—Pope Benedict XV is dead. From a slight cold, which had not been regarded as anything serious, double pneumonia developed, and the physicians in attendance had given up hope for the recovery of their distinguished patient. Their bulletins had in a measure prepared the world for the sad event.

Cardinal Gasparri, papal secretary of state, made public the fact of the death of the pope.

His holiness had been suffering for some days, having contracted double pneumonia, and treatment began too late.

During the early hours of the morning, toward 4 o'clock, there was a sudden change for the worse and the bronchial affection from which his holiness had been suffering for several days, spread to his lungs.

The pontiff asked for and received the last sacrament, insisting upon this, "if only to give a good example," he said, despite attempts by his attendants to dissuade him.

The pope's physicians were in consultation at the Vatican at an early hour, and the morning bulletin issued afterward indicated an extremely seri-

The Late Pope Benedict XV.

ous condition. Dr. Battistini, however, stated that while the condition of his holiness was grave, it was not hopeless.

Pope Given Oxygen.

Soon thereafter, however, the pope's condition became aggravated and the administration of oxygen was begun.

Meanwhile, prayers were being said in all the churches and Catholic institutions of Rome on behalf of his holiness and great crowds began to assemble in St. Peter's.

The sudden change for the worse in the pontiff's condition seemed to have come as a great surprise, even to those who had been observing him most closely. Last evening he received some strengthening injections and the doctors then stated they were satisfied with his condition, expressing hope that danger of an extension of the inflammation to the lungs had passed and saying the crisis appeared to be overcome.

One of the most disturbing conditions that developed early in the day seemed to be passing away after 10 o'clock in the morning, as the pontiff was then able to expectorate slightly. This aroused more hope among the watchers, but toward 11 o'clock he became worse again and oxygen then was administered.

Cardinals Wait Ward.

Mgr. Zampini, secretary of the apostolic palace, Mgr. Carlo Respighi, the pontiff's prefect of ceremonies, and Mgr. Migone, the private chamberlain, were at the pope's bedside.

There was an air of deep anxiety and apprehension about the Vatican, where many of the cardinals were waiting in an antechamber, all the cardinals in Italy having assembled in Rome upon receiving word of the pope's serious illness. The doctors, after a consultation, did not conceal the gravity of the pontiff's condition, although Professor Marchisari took a more hopeful view than his colleagues.

Pope Hears Mass Celebrated.

Mgr. Migone celebrated mass in an apartment adjoining the pope's bedroom. The door to the sick-room re-

Pope Benedict XV, two days dead, lay in the list of Roman pontiffs, served as pope for about seven years and five months, having been crowned at the Vatican Sept. 6, 1914. His reign was shorter than that of any of the three popes immediately preceding him, Pope Pius X, his immediate predecessor, served 11 years before he died in 1914.

mained open so that the pontiff might hear.

Many diplomats visited the Vatican seeking news; all of them were received in the antechamber, none being permitted to disturb the patient.

It is said that the pope contracted his present illness three days before his death, after he had celebrated mass in Matilde chapel. He received visitors and attended to his usual pontifical duties until a comparatively few hours before he passed away.

Cardinal Giorgi, the apostolic penitentiary, was summoned to Pope Benedict's bedside at 8 o'clock this morning, says an Exchange Telegraph dispatch from Rome, to London, to recite the prayer for the dying.

Spreads to Right Lung.

The last official bulletin on the condition of his holiness read:

"His holiness has been four days with influenza bronchitis. It is ascertained that inflammatory process has spread to the right lung.

"The patient passed an agitated night and had no sleep. This morning the dyspnoea is intense. The temperature was 104, the pulse 102 and the respiration 58.

"BATTISTINI, "CHERUBINI, "BIGNAMI, "MARCHIAFAVA."

Takes Turn for Worse.

It was about 4 o'clock in the morning that the change for the worse in the pope's condition occurred. It was especially due to catarrh, which has spread to both lungs, to inability to expectorate and to pulmonary inflammation, it was stated. Professor Cherubini, who had been waiting at the Vatican, was immediately summoned. He found the pope mentally depressed and panting for breath.

Realizing the patient's serious condition, Dr. Cherubini administered sedatives and expectorants, but the beneficial effects expected did not manifest themselves. In view of the gravity of the situation Dr. Cherubini sent an urgent call to Professor Bignami, a Vatican automobile being dispatched to bring him to the Vatican, his arrival there following shortly.

Consultation Is Held.

Professor Bignami the evening before had remarked upon the absence of a cough, checking expectoration, and consequently was not surprised by the development. It appeared. After a brief inspection of the patient he left to bring Professor Marchisari, with whom he shortly afterward consulted in the Vatican.

HAD FILLED HIGH POSITIONS

Pope Benedict Prominent in Church Councils Before His Elevation to the Papal Throne.

Pope Benedict XV rose to the supreme head of the Catholic church Sept. 6, 1914, less than six months after he was elevated to the cardinalship. He was born of noble parents at Nogli, near Genoa, Italy, Nov. 21, 1854. His father was Marquis Della Chiesa.

Educated at Capranica college and the Academy of Ecclesiastics, he was ordained to the priesthood in 1878. He was taken to Madrid, Spain, by Cardinal Rompoli, and for four years was secretary of the nunciature in Spain. In 1901 he was appointed consultant of the holy office and in 1907 Pope Pius gave him the appointment of archbishop of the see of Bologna. He was made a cardinal in May, 1914.

Saddened By Horrors of War.

Pope Benedict was much affected by the horrors and sorrow of the World war and many times tried to bring about peace negotiations. Germany's violation of Belgium's neutrality filled him with great sorrow and after the sinking of the Lusitania, he telegraphed the German emperor telling his abhorrence of the deed.

Pope Benedict's first appeal for peace was issued one week after his coronation. The appeal failed to bring results, as did his later plan for a Christmas truce. In January and in July, 1916, he again tried to bring about peace negotiations. In March, 1916, he repeated his attempts and in May of the same year suggested that America should act as conciliator between the warring nations. His note to President Wilson to this effect reached Washington when Germany and the United States were involved in a diplomatic crisis. The Vatican approved of President Wilson's peace note in 1917, but three months later the United States entered the war.

Made Appeal for Peace.

The Pope's most memorable appeal for peace was issued in his own handwriting on August 8, 1917, and asked belligerent rulers to end the struggle. During the peace conference his pleas were issued in behalf of weaker nations.

Just before the conference President Wilson had a private conference with Pope Benedict at the Vatican in which many questions of a social and international nature were discussed.

The settlement of the 700-year-old Irish problem was received with great pleasure by the pope, who issued a message congratulating the principals in the negotiations.

JAP PROPOSAL MADE TO CHINA

PRESIDENT HARDING TAKES HAND IN CONTROVERSY OVER SHANTUNG.

CONFERENCE BLOCKED

IMPORTANT PROBLEMS AND NAVAL TREATY GIVEN ANOTHER REVIEW.

(Western Newspaper Union News Service.)

Washington.—The aid of President Harding has been enlisted by the arms delegates to bring Japan and China into agreement on Shantung.

Taking a direct hand in the Washington negotiations for the first time, the President urged the Chinese to accept the latest compromise offer and thus remove from the field of controversy a subject which has become a barrier to the progress of the conference.

Whether the move is to succeed appears to rest largely with Peking. The Japanese already have indicated informally their willingness to make the principal concessions proposed, and the President approached the Chinese only after the Japanese ambassador had informed the State Department that his government was ready to accept a tender of good offices.

The settlement plan sponsored by Mr. Harding deals only with the return of the Tangtung-Tsianfu railroad, substantially all other questions having been agreed upon in the exchanges between the Japanese and Chinese. Under the proposal, Japan would abandon her proposition for a loan to China and the latter would purchase the road with treasury notes payable at option five to fifteen years hence. China would receive possession within five years, but would withdraw her opposition to retention of a Japanese traffic manager and chief accountant during the period of payment.

Although several days may be required to reach a final decision one immediate effect of the developments was to bring into relief the importance of Shantung in the general scheme of conference accomplishments. It is an open secret that until Shantung is settled, most of the commitments partially entered into here must remain indefinite.

The naval treaty, complete except for the fortifications article, was given another examination by the committee of fifteen, but no changes were made. It now is regarded as probable by some delegates that no word regarding the fortifications proposal will come from Tokyo before next week.

The meeting of the Far Eastern committee was equally inconclusive, the delegates debating without final action the situation of wireless facilities in China. It was voted to reconsider a resolution adopted Dec. 7 to restrict use of wireless plants and after Elihu Root had presented a substitute for his proposal the subject was referred to a sub-committee. At a meeting later the sub-committee likewise dismissed the various proposed resolutions without action.

Bewer Blocked With Moonshine.

Butte, Mont.—City sewers on Butte's east side are blocked by large deposits of moonshine mash, including prune seeds, rye, barley, raisins, corn and cherry pits. City Engineer Henry J. Wiegstein said. Home brewers, the engineer concludes, are using sewers for garbage cans to avoid possible detection to their illegal traffic. Six lines of hose, connected to a swirling nozzle, are being used to flush the debris.

200,000 Unemployed in N. Y.

New York.—The worst unemployment situation of the winter has descended on New York, Byrd S. Coler, commissioner of public welfare, told directors of the welfare bureau at a conference. A remnant of the jobless, taken by the industrial aid bureau and the American Legion, he said, reveals that there are more than 200,000 unemployed in the city.

"Dry" Wires Tapped.

New York.—When workmen attempted to take down the telephone switchboard in Prohibition Director Ralph A. Day's office evidences were found that outsiders had for an undetermined period been "tapping" the wires and listening in on telephonic conversations to and from prohibition headquarters.

Senate Favors New Coinage.

Washington.—Authority for the director of the mint to direct coinage of the Grant memorial gold dollar and silver half was granted in a bill passed by the Senate and sent to the House. The measure provides for the coinage of 10,000 gold dollars and 250,000 silver half dollars.

Issue \$400,000,000 Treasury Notes.

Washington.—Secretary Mellon announced the offer of an issue of 4% per cent. three-year short-term treasury notes of approximately \$400,000,000 carrying the usual tax exemption and will not be subject to call for redemption before maturity. The issue, he explained, is to provide for current expenses. The retirement of treasury certificates of indebtedness maturing Feb. 10, and as a part of the treasury's program for retiring notes maturing May 20, 1923.

Western Canada Offers Health and Wealth

and has brought contentment and happiness to thousands of home seekers and their families who have settled on her F&E's homesteads or bought land at attractive prices. They have established their own homes and secured prosperity and independence. In the great grain-growing sections of the prairie provinces there is still to be had an easy terms **Fortis Land at \$15 to \$35 an Acre**—land similar to that which through many years has yielded from \$10 to \$45 bushels of wheat up the acre—oats, barley and flax also in great quantities, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farms in Western Canada have raised crops in a single season worth more than the whole cost of their land. Healthful climate, good schools, churches, electric, rural telephone, excellent medical and shipping facilities. The climate and soil offer incentives for almost every branch of agriculture. The advantages for **Dairying, Mixed Farming and Stock Raising** make a tremendous appeal to industrious settlers wishing to improve their circumstances. For detailed literature, send description of farm, or application to **W. V. BENNETT**, Room 4, Box 244, Omaha, Neb. Incorporated Agent, Dept. of Immigration and Colonization, Bureau of Goodwill.

LOCAL AND PERSONAL MENTION

Don't forget the big basket ball game tomorrow between Carrizozo and Corona. Both teams have been "practising up" for this particular bout and everybody should go and encourage the players. Here will be a place for you to get a good run for your money. The home teams need your presence and encouragement.

Argo gloss starch, 3 pounds 25c—Mayer's Cash Grocery.

Dr. and Mrs. Cole were greatly worried for a short time the early part of this week by associated press reports containing the name of Miss Margaret Cole of Washington, D. C., being included among the injured when the roof of the theatre fell in. In answer to the wire, they found that Miss Margaret had suffered no injury whatever. She was free to answer the wire personally.

FOR SALE Bargain in Furniture; Dressers, and Chiffonier, Fumed Oak. Dining Room Table and chairs; other useful articles for the home. Phone 53.

W. C. Wack came up Monday from Alamogordo and moved his family to that city on account of being transferred to the Cloudcroft run, between Cloudcroft and Alamogordo. Railroad men are being continually shifted from one place to another, and in view of this fact, the Wack family may return to Carrizozo at some future time.

Fresh Dried Peaches, 2 pounds 35 cents—Mayer's Cash Grocery.

Mrs. Matthew Cully and son John, left Tuesday for Continental, Ariz., where they will meet Mr. Cully and will make that place their future home. Mr. Cully was transferred to Continental from Albuquerque and is director of the Santa Rosa range service.

One gallon can apples, 90 cents; 1 gallon can peaches, 80 cents; 1 gallon can apricots, \$1.05; 1 gallon can blackberries, \$1.25—Mayer's Cash Grocery.

Dr. H. E. Kemper returned Wednesday from his trip to Silver City and the Mogollon district where he found about 20,000 sheep badly in need of dipping. He superintended the dipping and on his return found a message awaiting him to come to Holbrook, Ariz., to confer with the State Veterinarian with a view of eradicating the cattle scab which is on the increase in that section. He left on Thursday for Holbrook.

Carrizozo lodge No. 31, I. O. O. F., held an interesting meeting Tuesday night with a good attendance. After the regular business was disposed of, the Knights of the three links sat down to refreshments. Several new applications are on the secretary's desk with more in view for the near future.

Comet Chapter, No. 23, Order of the Eastern Star held its regular monthly meeting last night with its usual large attendance. There will be a social meeting on the evening of Feb. 16. These meetings of a social nature are quite an attraction for the Stars and those who missed the last one, surely missed a treat. A nice program will be rendered at next "social" after which refreshments will be served. Leave it to the Stars, for entertainers.

Wednesday, January 25, 1922, the Ladies of the W. M. U. met with Mrs. D. A. Saunders. There were ten members present, and 3 new members were added to our membership list; an interesting lesson was studied. After the business session we adjourned for a social hour and a short musical program was enjoyed, after which the hostess served dainty refreshments. The program was as follows: Trio, Miss Georgia Saunders, Mrs. E. O. Finley and Mrs. W. O. Loughrey; Vocal Solo, Mrs. E. O. Finley; Piano Duet, Mrs. D. A. Saunders and Mrs. W. P. Loughrey. We will meet with Mrs. T. E. Armstrong Feb. 5th, 1922.—Secretary.

FOR RENT—Small Apartment; Steam heated; with Bath. Hot and Cold water furnished. Apply at Carrizozo Trading Company.

Mrs. Eva Coldren will be hostess to the Woman's Home Mission at the home of Mrs. L. M. Scott on Tuesday, Feb. 7, when the first chapter of "Women and Missions" will be discussed, under the direction of Mrs. L. E. Conklin.

Word comes from El Paso to the effect that Mrs. Henry Hoffman, who is ill at Hotel Dieu is gradually improving. We are pleased to hear the good news.

The Corona Lead & Silver Mining Co., located near Corona has recently completed the construction of an ore loading tipples at Gallinas on the main line of the E. P. & S. W., and have been loading from four to six car loads of high grade ore at that point weekly for shipment to the El Paso smelter. Things are picking up.

The teachers and pupils of the Ancho school will give a play on the evening of February 11, entitled, "Polly Lou." There will be a strong cast of characters and the play will be a good one. Rehearsals are being held regular and a good attendance will be on hand to witness the play. Dancing will be indulged in after the program. As many Carrizozo people as can possibly attend should be present.

Mr. and Mrs. A. O. Barnes of Illinois are visiting Mr. and Mrs. Charles Thornton at their ranch home near Oscura. The Barnes family will remain for the balance of the winter season, but let us hope they will stay permanently.

Highest prices paid for hides and pelts—Ziegler Brothers.

Ernest Baldwin, brother of Mrs. McFarland of the Western Union Telegraph Station, accompanied by Wm. Cullison, an old friend of his from Indiana, came over from Mountainair on Thursday to spend a few days in Carrizozo. They will return about Monday.

"The Four Horsemen of the Apocalypse," was witnessed at the Crystal Theatre Wednesday and Thursday to large and appreciative audiences. Mr. Sterling is deserving of much credit for the good class of pictures he is showing and the Goldwyn Co. has made him an offer on a good selection which he will accept, in order to give the people a still better service.

Mrs. Albert Ziegler and Miss Pauline Rosenberg spent a few days in El Paso this week.

Conductor Fred Getty is in receipt of a letter from his sister, Mrs. Belle M. Abbott of Venice, Calif., to the effect that her son Frank, who has a position in the American Ambassador's office at Tokio, Japan, passed through that place a few weeks ago on his way to attend the Peace Conference. Mrs. Abbott and son are well known in Carrizozo. Frank was here in 1917 for a short while, going from here to Washington, where he was stationed during the war period holding a commission as captain. His services during the war were recognized to the extent that he received an appointment at Tokio with a lucrative salary. The confidence in which the government holds him, is evidenced by his being selected to attend the Peace Conference for the Ambassador.

CERTIFICATE OF COMPARISON
United States of America } ss.
State of New Mexico }
It is hereby Certified, that the annexed is a full, true and complete transcript of the Certificate of Incorporation of
WESTERN LUMBER COMPANY
(No Stockholders' Liability)
(No. 11267)
with the endorsements thereon, as same appears on file and of record in the office of the State Corporation Commission.

In Testimony Whereof, the State Corporation Commission of the State of New Mexico has caused this certificate to be signed by its Chairman and the seal of said Commission, to be affixed at the City of Santa Fe on this 25th day of January A. D. 1922.

Attest:
A. Morrison,
Clerk.

CERTIFICATE OF INCORPORATION OF WESTERN LUMBER COMPANY
(No Stockholders' Liability)
Know All Men By These Presents: That we, the undersigned, in order to form a corporation for the purposes hereinafter stated, under and pursuant to the provisions of an Act of the Legislative Assembly of the State of New Mexico, entitled, "An Act to Regulate the Formation and Government of Corporations for Mining, Manufacturing, Industrial and Other Purposes," approved March 15, 1906, and any and all amendments to said Act, do hereby certify as follows:

Section I
The name of this corporation shall be and is "Western Lumber Company." (No Stockholders' Liability.)

Section II
The regular office and principal place of business of this corporation shall be at the office of said corporation, at Carrizozo, Lincoln County, New Mexico, and D. R. Stewart is designated as the statutory agent therein, in charge thereof, and upon whom process against the corporation may be served.

Section III
The objects for which the corporation is established are: To purchase or otherwise acquire, to hold, own, use, improve, or otherwise turn to account, to sell or otherwise dispose of timber and timber-rights and lands, and to manufacture, buy, cut, haul, drive, saw, dress and otherwise prepare for market and sell or otherwise deal in timber, logs, bark, pulp, and any other articles made therefrom, and to buy, sell, deal in and with all kinds and character of lumber, hardware, wire, paint, glass, fencing, and any and all character of merchandise used in conducting a general lumber and building material business, and to buy, sell, manufacture, export, import, deal in and with any and all materials or merchandise necessary and pertinent to such business; maintain warehouses, stores and yards for the storing and selling of said goods and materials; to hold, purchase, or otherwise acquire, sell, assign, transfer, mortgage, pledge, or otherwise dispose of shares of the capital stock and bonds, debentures or other evidence of indebtedness created by other corporation or corporations, and while the holder thereof exercise all the rights and privileges of ownership, including the right to vote thereon; to buy, sell, convey, mortgage, lease or otherwise acquire or dispose of any real estate or lands in the State of New Mexico or elsewhere, or any interest therein; to issue bonds, debentures, or obligations of the corporation, and at the option of the corporation to secure the same by mortgage, pledge, deed of trust or otherwise.

Section IV
The corporation is authorized to issue capital stock to the extent of \$25,000.00, divided into 250 shares of the par value of \$100.00 each.

Section V
The names and postoffice addresses of the incorporators, and the number of shares of the capital stock subscribed for by each, the aggregate of which shall be the amount with which the corporation shall commence business, are as follows:
F. A. English, Carrizozo, N. M., 75 shares, \$7500.00
D. R. Stewart, Carrizozo, N. M., 74 shares, \$7400.00
Elizabeth E. Stewart, Carrizozo, N. M., 1 share; total, 150 shares, \$15000.00.

Section VI
The time for which this corporation shall exist shall be fifty years.
In Witness Whereof, we have hereunto set our hands and seals, this 18th day of January, A. D. 1922.
