

Carrizozo Outlook

Earthquakes in Japan Causing Desolation

Los Angeles, Sept. 6.—Ground swells twenty feet high, larger than any in the experience of mariners at Los Angeles Harbor struck the southern California coast today, believed to be the result of the earthquake and tidal wave which devastated parts of Japan.

Reports from various sources have estimated the loss of life in Tokio, Yokohama and vicinity to be over 320,000, while the property loss in Tokio alone is estimated at \$250,000,000. The city of Yokohama is reported completely wiped out and only one-fourth of Tokio remains standing.

Many Americans are said to have perished, but as yet no authentic information is available.

Car Load of Fords Each Week

The Western Garage received a carload of Fords last week and one this week. This busy, enterprising firm has sold one Ford Tractor each day for the past seven days and one runabout.

Robt. H. Taylor has closed the Taylor & Sons Garage and accepted the position as foreman of the Western Garage. Mr. J. B. French is optimistic concerning the revival of business and is doing his share to bring good conditions about. Let us follow his example and we will soon have an array of "gloom chasers" in Carrizozo to create better business conditions.

P. G. Peters, of the Capitan Mercantile Company, was a visitor here on Wednesday.

Mrs. H. G. Norman and children arrived home on Sunday from Tucumcari, where they had been visiting at the home of Mrs. Norman's parents for two weeks.

Carrizozo Lodge, No. 30, I. O. O. F., held their regular weekly meeting at Odd Fellows' Hall on Tuesday night and initiated candidates in the first and third degrees, after which refreshments were served and a smoker was held. A good attendance was present.

At Fort Stanton on Labor Day, the Carrizozo and Fort Stanton baseball teams crossed bats the result of which was 8 to 6 in favor of Carrizozo. In the evening a dance was held which drew a large crowd from neighboring towns.

Mrs. T. H. Dillon and children arrived Sunday from Butte, Montana, where they had been visiting Mr. Dillon's parents and other relatives for a portion of the summer. The Dillons have located here as permanent residents.

Big Dance at the Fort Sept. 14

There will be a big dance Friday night, Sept. 14, at Fort Stanton. This will be one of the best dances of the season, with a REAL orchestra, composed of "Mickey" McNeff, whose violin playing has taken this part of the country by storm, assisted by piano, saxophone, banjo, cornet and drums of the highest order. The music itself will be a treat, so don't fail to attend!

Youth Burned to Death Near Springer

Roy Spanish-American:

One young man was burned to death and his companion perhaps fatally burned in an explosion Thursday night at the Charles Springer Ranch, near Miami, a small town west of Springer, when Virgil Metzger and Fred Purtle attempted to pour kerosene into a lighted lamp.

The explosion resulting from the ignited oil set fire to Metzger's clothing, spread to the garments of his companion and to the floor of the building. Metzger was burned to death before other employes of the ranch could render effective assistance. Purtle is terribly burned about the body and lower limbs. He was taken to the Springer Hospital and has very little chance for recovery.

The two boys were about 18 years old and were employed as farm hands on the Springer Ranch. Their homes are in Miami.

Beets and More Beets

Last week a certain citizen's wife took a trip to a nearby town to visit relatives, and during her absence, said husband thought it would be nice to have beets for dinner. He procured the beets, peeled them, soaked them in vinegar and served them as raw as they came out of the ground. At meal time he was the first to try his favorite dish, and after tasting them he exclaimed, "These beets certainly are old and tough!" Whereupon, his little boy replied, "Daddy, mamma always cooks beets, but these are raw."

Moral: We never grow too old to learn.

Mr. and Mrs. C. W. Whyte of the Silver Plume mines in the Eagle Creek regions, were here on Monday. Mr. Whyte has a force of men at work deepening the mine two hundred feet with the hope of encountering a valuable silver ledge, and prospects are very encouraging.

Mr. and Mrs. T. E. Kelley and daughter Ruth, returned Saturday from Alverado, Tex., where for the past three weeks they visited relatives and friends.

Mrs. M. L. Blaney has returned from different places in the east, principle among which were Hillsdale, Mich., Chicago, Ill., and Boone, Iowa. At the last named place she visited friends and relatives at her girlhood home.

Mr. and Mrs. J. C. Johnson of Clovis, were here on Tuesday, Mr. Johnson making final proof on his land near Ancho. They returned home Wednesday morning on No. 2.

W. B. Payne, Capitan merchant, was a visitor on Tuesday.

Carrizozo Lodge, No. 41, A. F. & A. M., held a special communication last Friday night at Masonic Hall, when two were initiated in the third degree.

Refreshments were served in the banquet room after the initiation. There were forty members in attendance.

Mrs. J. C. Bender, who left here about a month ago for Jonestown, Pa., has moved to Gettysburg, Pa. She sends her kindest regards to Carrizozo friends.

The Bug in Bone

The day is done, and the darkness
Falls from the wings of Night
As a feather is wafted downward
From an eagle in his flight.
I see the lights of the village
Gleam through the rain and mist,
And a feeling of sadness comes o'er me
That my soul cannot resist.
A feeling of sadness and longing,
That is not akin to pain,
And resembles sorrow only
As the mist resembles the rain.
Come, read to me some poem,
Some simple and heartfelt lay,
That shall soothe this restless feeling,
And banish the thoughts of the day.
Not from the grand old masters,
Not from the bards sublime,
Whose distant footsteps echo
Through the corridors of time.
For, like strains of martial music,
Their mighty thoughts suggest
Life's endless toil and endeavor;
And tonight I long for rest.
Read from some humbler post,
Whose songs are gushed from his heart,
As showers from the clouds of summer,
Or tears from the eyelids start,
Who, through long days of labor,
And nights devoid of ease,
Still heard in his soul the music
Of wonderful melodies.
Such songs have the power to quiet
The restless pulse of care,
And come like the benediction
That follows after prayer.
Then read from the treasured volume
The poem of thy choice,
And lend to the rhyme of the poet
The beauty of thy voice,
And the night shall be filled with music,
And the cares that infest the day,
Shall fold their tents like the Arabs,
And as silently steal away.
—HENRY W. LONGFELLOW.

Carrizozo 12 - Vaughn 5

Was the result of last Sunday's baseball game between the local team and Vaughn on the grounds of the latter. In the second inning, pitcher Pat Dolan sprained his ankle and Harry Norman went in the box and did splendid work during the balance of the game. Billy Norman performed his usual good work behind the bat. Carrizozo made two runs in the third inning, four in the fourth, three in the sixth and one each in the seventh, eighth and ninth. Vaughn scored two in the first, one in the third, one in the fifth and one in the sixth. Umpires: Jolly and Francis. Scorer: Daniels.

Hotel Arrivals

Hotel arrivals at the Carrizozo Eating House for the past week were:

H. H. Sparks, Kansas City; Mrs. J. Stone, H. B. Allen, Corona; Mildred Shrader, Geo. Porter, L. Morgan, Roswell; Fred Pfingsten, A. C. Abila, Lincoln; Jos Stratton, Slippery Gulch; L. H. Lewis and wife, A. W. Goodrich, Roy, Stanton, Geo. and A. L. Rodney, Enid Reed, J. H. Ebeffe, Albuquerque; B. C. Evans, Lillie Casey, Picacho; Geo. Titworth, Clara Peppin, Burl Sears, Capitan; W. C. Pitts, Dark Canyon; O. T. Nye, Eagle Rock; A. D. Brownfield, William Pickrell, Wm. Boyd, Three Rivers; Wm. Grear, Clovis; C. C. Catron, Santa Fe; H. B. Oldfather, Wichita; C. W. Whyte and wife, Silver Plume; W. J. Mercer, Alamogordo; Leo M. Malvern and wife, Detroit; W. V. Millican, wife and son, Minneapolis; S. R. Isaacs, A. Hanley, L. E. Williams, H. Alexander, L. Carl, R. C. Stewart, John Williams, T. W. Tuffley, Roy Schuler, A. S. Henderson, L. C. Boswell, M. H. Allen, El Paso.

O. W. Bamberger, formerly with the Carrizozo Trading Co. of this place, but now travelling for an eastern mercantile house, is spending a week with his family, who are still residents of Carrizozo.

Fort Stanton Notes (FROM "THE BUG")

Dr. and Mrs. Warner entertained at dinner on Sunday past.

Miss Grace Monroe of Ruston, La., is our new school teacher.

Mr. and Mrs. Wunsch, Mr. Hendrin, Miss Cutter and Mr. Coolidge visited the Indian reservation last Sunday.

Mr. H. Kingston visited his parents in Ancho on Sunday evening.

Jim Howard and wife, and Jennie Boone left this morning for Albuquerque to be gone for two weeks.

Miss Helen Rice of Lincoln will come to the Fort once or twice a week to give piano lessons. Anyone desiring to study the piano should see Miss Khurtz.

Miss Hanna will return Thursday from a few days' vacation spent in Santa Fe.

Mrs. Pinkie Howard Tohill has a stenographic position at Fort Bayard. Mr. Tohill is still a patient there.

Dr. and Mrs. Anderson will entertain at dinner Wednesday evening. The following guests were invited: Mrs. Taulbee, Mrs. Genzler, Miss Grace Monroe, Mr. Gentry, Dr. Reid and Mr. West.

Miss Hughes left yesterday morning to take a rest at Mrs. Kavanaugh's ranch, near White Tail. She will return Saturday to leave for the Grand Canyon.

Mr. and Mrs. H. D. Felker were in El Paso last week visiting Mrs. Felker's parents, Mr. and Mrs. A. P. Rhode.

Miss Blanche Kendrick of Waco, Texas, arrived Monday to spend a week with her sister, Miss Hester. Miss Blanche is enroute to California.

Miss Mildred Cutter will leave for her home in Lawrence, Kansas, Sunday, where she will resume her studies in the Kansas University. Mrs. W. A. Wunsch, with whom Miss Cutter has been visiting for the past two weeks, will accompany her to Lawrence to visit her parents. Mrs. Wunsch is a graduate of Kansas University.

Last Saturday afternoon, Mrs. T. B. H. Anderson entertained all the children of the Parade and their mothers in honor of Mary Sue's eleventh birthday. Mary Sue got the ring; Bruce, the thimble; Murray, the penny; Hugh, the nickel. The dime is in the possession of little Sammie Stewart and the button went to little Miss Virginia Fagen. Delicious refreshments were served.

Mr. Berry has been removed to the Receiving Ward of the Hospital.

Mrs. Genzler and Miss Bowditch have been transferred to the quarters above Berry's.

Heard at the ball game on Labor Day: "Atta boy, Red, the ol' underhand ball sure is walking!" Voice of an officer's wife: "I think it just terrible for them to encourage him to be underhanded that way!"

Judge John Y. Hewitt was a Carrizozo visitor from White Oaks this week.

Masonic Revolving Student's Loan Fund

Messrs. D. A. Saunders, C. F. Huppertz and S. F. Miller made a trip to the lower part of the county on Wednesday, in the interest of the Masonic Student's Loan Fund. This fund is for the purpose of encouraging ambitious students who have not the means with which to complete their education, by advancing funds to those who after completing their educational courses, may return the loans as their financial conditions will permit, after obtaining situations. This does not apply to sons and daughters of Masons alone, but to all deserving and ambitious students who can furnish evidences of thrift and merit. Thus does the Masonic fraternity extend its helping hand, not only to those within its own household, but to all mankind.

School Opens

School opened Tuesday morning with the following line-up of teachers for the term: E. E. Cole, Superintendent; Bryan Cazier, Principal, high school; Nannie Lee Meux, English, high school; Helen Crouch, Spanish; Jennie Mae Myers, Commercial Branches; Mrs. Lorraine Clarke, Eighth Grade; Mrs. Maude L. Blaney, Seventh Grade; Grace Fite, Sixth Grade; Eleanor Connell, Fifth Grade; Mrs. S. H. Nicklos, Fourth Grade; Mrs. J. B. French, Third Grade; Clara Fritz, Second Grade; Mrs. Susie Tuton, First Grade; Mrs. Louis Adams and Mrs. Emma Craddock, Primary; Mrs. F. E. Richard, Substitute.

A teachers' meeting was held on Saturday.

B. of R. T. Dance

Saturday, Sept. 15, at the Lutz hall, the members of the Order of the Brotherhood of Railroad Trainmen will give a dance, the proceeds to be applied on the funeral benefit fund of the order. This is the first of a series of dances to be given by the order. A five-piece orchestra will furnish the music and a hearty welcome and a good time is assured to all who come.

COMMITTEE.

Judge Seth F. Crews, who had been in Fairfield, Ill., for the past three weeks, arranging his affairs so as to become a permanent resident of New Mexico, arrived here last Friday by motor, accompanied by James Hill, of Fairfield, who visited for several days, after which he returned to the east.

Miss Jane Spencer left last Saturday for Columbia, Mo., where she will attend school for the fall and winter.

Mrs. W. H. Williamson is recovering from a recent attack of illness.

James Cooper, who recently underwent an operation for abscess of the stomach, is able to be about again.

Walter LaFleur, Jr., left Tuesday morning for San Antonio, where he will attend the West Texas Military Academy for the second year.

Mrs. Louis Adams, Miss Jeanette Johnson, Mrs. O. L. Blanchard, Gwen Climer, Mrs. W. N. Williamson, all of whom have been ill of late, are recovering nicely.

Highway Board Will Meet in State Cities

At a recent session of the State Highway Commission in Santa Fe, it was decided to hold a series of meetings, the first of which will be held at Las Vegas within the next three months.

At the above meeting, inspection of federal aid project No. 108 was ordered, the same being between a point north of Dexter and the north line of Eddy county. This was asked by the commissioners of Chaves county. Chairman R. C. Sowder of the Highway Commission and Highway Engineer French will make the inspection.

The forest service was asked to improve the forest road from the top of Nogal Hill to Capitan, the same to be done by surfacing. Expenditure of \$5,000 was voted for the improvement of Highway No. 13, between Carrizozo and San Antonio.

We are all interested in good roads, for good roads mean prosperity and just now, and we should be alive to everything that will promote that blessing in this section. Highway Commissioner Sowder is to be commended on his activity and recognition of our part of the state and leaving a matter of politics entirely to one side, the people should be glad of the fact that we have a man on the board like Mr. Sowder, who is looking out for our interests.

The \$5,000 appropriated for the Carrizozo-San Antonio road will, after the work is finished, be the means of turning an avalanche of tourists in this direction from Socorro, whereas we are losing them now on account of the bad condition of the highway.

Enormous Gormandizer

One night last week a certain young man stepped into the Star Cafe, ordered three bottles of Coca Cola and drank them in rapid succession. A bystander, noticing this, offered to pay for five more if he would drink them at one time. He accepted the offer, and the contents of the five bottles quickly disappeared. Seeming to delight in this achievement, the bystander offered to pay for ten more bottles if he would drink them; he not only succeeded in drinking the ten, but added three glasses of water and two of milk, at the same time eating three ham and two egg sandwiches, two large bowls of corn flakes and milk and half of a blackberry pie. He then drank two more glasses of milk, as a chaser, and enquired, "Is that all I get—when do we eat?"

The Misses French Leave

Miss Eva French, sister of J. B. French of the Lincoln State Bank, who has been visiting her brother's family for the past month, left for her home in Nashville, Tenn., on Monday, accompanied by her niece, Miss Evelyn French, who will attend school at that place for the fall term.

Mr. and Mrs. H. M. Bullard, daughters Lois and Mildred, Mrs. Lotah Miller and daughters Audrey and Juell, left Monday morning by motor for Albuquerque, where the Miller sisters and Miss Lois Jones entered the State University for the present term. The Bullards and Mrs. Miller returned here on Tuesday.

"Yellowstone, Largest and Most Far Famed"

THE HARDINGS BY YELLOWSTONE

1923 Opening Evokes Administration Policy of Complete Conservation for Our National Parks

By JOHN DICKINSON SHERMAN

THE national parks lost a good friend when Warren G. Harding died. His appreciation and approval of the national park movement were signally shown at the 1923 opening of Yellowstone for its fifty-first year by an official declaration of administration policy worthy of its place as the first national park in all history and largest and most famous of all America's nineteen public playgrounds set apart by congress for the use of the people forever. That official declaration of administration policy was nothing less than absolute protection of the national park system against commercial invasion and exploitation.

Dr. John Wesley Hill, chancellor of Lincoln Memorial university, made the declaration. He officially represented President Harding and Secretary of the Interior Work at the Yellowstone opening. His statement was prepared, careful and emphatic. It contained the following: "And we are here today to celebrate the annual opening of Yellowstone park, the largest and most far-famed of our national parks, a wooded wilderness of three thousand three hundred square miles, containing incomparable waterfalls, more geysars than are found in the rest of the world all put together, irrigated by rivers like miniature lakes, and beautified by lakes like inland seas, carved by canyons of sublimity, decorated with colors defying the painter's art, punctured with innumerable boiling springs whose steam mingles with fleecy clouds, streaked with vast areas of petrified forests, a sanctuary of safe retreat for feathered songsters and wild beasts, a wonderland, playground, sanitarium and university all in one, where the eye feasts upon the riotous colors of flowers, ferns and rocks; the ear is urged with the symphony of melodious sounds; the mind is awed with a thousand revelations of truth and beauty, and the faded body, weary with the trudge of thought and toil and travel, unglads for song and dance beneath the shadows of the overhanging hills.

"Yellowstone history is replete with crises where the friends of the park and the park idea have had to fight with a heroism worthy its explorers and discoverers to retain it intact against the bold and presumptuous claims of the advocates of special privilege, determined to commercialize this land of wonder, to build railroads through it, tunnel its mountains, dam its lakes and streams, and secure stranglehold monopolies with small compensation to the government and total loss to the people.

"And regardless of all facts and figures, appeals and threats, therefore, any plan, however mortifying to its face, for the commercial exploitation of parks must by the very nature of its aims and purposes be immediately doomed to failure.

"Good projects, bad projects, indifferent projects, all must face the same fate, for it is at least established policy of the government that our national parks must and shall forever be maintained in absolute, unimpaired form, not only for the present, but for all time to come, a policy which has the unqualified support of President Harding.

"This is the fixed policy of the administration, and I can assure you it will not be modified. It will not be swayed by a hair's breadth by any influence, financial, political or otherwise.

"If rights are granted to one claimant, others must follow, so a precedent must not be established. It would inevitably ruin the entire national park system.

Doctor Hill might have been more definite in the matter of the attacks by commercial interests upon Yellowstone. Since early in 1920 it has required increasing vigilance and aggressive organized effort on the part of the vast army of national park enthusiasts to defeat these attacks. During the winter and spring of 1923 the Sixty-sixth congress nearly passed the Smith bill creating a commercial irrigation reservoir in the southwest corner of Yellowstone for the benefit of Idaho. And it did pass the water power bill granting to a commission power to lease public waters, including those of the national parks and monuments, for water power.

OLD FAITHFUL GEYSER

JACKSON LAKE AND TETONS

A national organization of defense, about 4,000,000 strong, was quickly effected. The Smith bill was killed in the house, after it had passed the senate. The Jones-Each bill exempting national parks, present and future, from the jurisdiction of the water power commission was introduced and forced forward. The water power interests were powerful enough, however, to force a compromise amendment which exempted only the existing national parks. The Jones-Each bill was passed by the Sixty-sixth congress.

In December of 1920 Senator Walsh of Montana championed a bill to dam Yellowstone lake for an irrigation scheme in Montana. A long and hard-fought battle followed. In June of 1921 Secretary of the Interior Fall reported on the bill and straddled on the question of protection, holding that power and irrigation development in the national parks should be only "on specific authorization of congress, the works to be constructed and controlled by the federal government." Thereupon Senator Walsh proposed a new bill providing that the United States reclamation service should build and operate the Yellowstone lake dam. The defenders of the park proved that the dam could be built to greater advantage outside the park. In 1922 the upholders of the parks won a victory by electing Scott Leavitt in Montana to congress over Jerome Locke, originator of the dam project. The final result of the fight was that the Sixty-seventh congress adjourned March 4, 1923, leaving the Walsh dam in the committee's pigeonholes. Efforts to revive it are expected in the Sixty-eighth congress.

During these three years another victory of great importance along the same line was the smothering in committee of the All-Year National park bill, personally drafted and sponsored by Secretary Fall. This bill created a national park in the Mesquero Indian reservation in New Mexico out of several insignificant spots widely separated, plus an irrigation and power reservoir ninety miles away. It would have introduced both water power and irrigation into the national park system. There was a nation-wide protest against this bill, in which New Mexico itself took an active part. The bill is too dead, it is believed, to be resuscitated.

A third victory called nation-wide attention to another danger that threatened—and still threatens—the national parks. The victory was the defeat of the Sleepy bill creating the Appalachian National park out of a Virginia mountain-top. It was opposed on the ground that the area was below the proper national park quality. It was favored by Secretary Fall, who in his report to the public lands committee said that his policy was to substitute a wide-open recreational park system of many small playgrounds for our historic national park system.

The late Franklin K. Lane, as secretary of the interior in 1918, pulled down this plank in the national park platform:

"In studying new park projects you should seek to find scenery of supreme and distinctive quality or some natural feature so extraordinary or unique as to be of national interest and importance. The national park system as now constituted should not be lowered in standard, dignity and prestige by the inclusion of areas which express in less than the highest terms the particular class or kind of exhibit which they represent.

President Harding was the first president to announce publicly a general administration policy of absolute conservation for the national parks system and for all of its units. Both Roosevelt and Taft were good friends of the national parks, but preservation against commercial invasion was not a question in their days. President Wilson, in his first term, signed the Hetch Hetchy bill giving San Francisco the water supply reservoir in Yosemite which has just been completed; its secret water power purpose was not then generally understood. President Wilson, however, stood by the national parks loyally and powerfully in the fight to exempt them from the jurisdiction of the water power commission.

PAINTED TERRACES

PAINTED TERRACES

President Harding, in announcing this administration policy, was not anticipating a popular demand so much as answering it. The truth is that the American people have within the last three years adopted our nineteen national parks as a part of their conception of the greatness of their nation. "Hands off!" applies to the national parks as well as to Old Glory. They are eager to defend them and to keep them inviolate. And they have developed organized strength through the affiliation of a dozen or so national-wide organizations to see that congress shall legislate wisely concerning the national parks. The announcement of the conservation policy was received with nation-wide delight. The national park enthusiasts hoped that the conservation policy would be broadened to uphold Secretary Lane's important plank.

Yellowstone also gets into the limelight this season because President Harding paid it a two-day visit on his way to Alaska. The President's party went in and out through the north entrance and did about 150 miles of motoring in seeing various points of interest. On the Continental Divide they drove through snowbanks. The President went yachting on Yellowstone lake—undammed. He saw many wild animals and fed gingerbread and molasses to a black bear and her cub. He saw the Painted Terraces of Mammoth Hot Springs. Old Faithful geyser spouted 150 feet into the air every sixty-five minutes for him—as it does for every visitor. The photograph reproduced herewith shows the President and Mrs. Harding, under escort of Superintendent Horace M. Albright, viewing from Artist Point the Grand Canyon of the Yellowstone and the Lower Falls. The President was visibly impressed by the sight—one of the grandest and most beautiful in the world.

Just sixty-three years—1807-1870—were required to put Yellowstone on the map; the American people simply wouldn't believe there was any such place. The Lewis and Clark expedition of 1804-06 passed close by it, but the Indians never mentioned it, considering it the abode of "Evil Spirits" who punished all talk about them. John Colter, a member of the party who went back to trap beaver, discovered it in 1807. Upon his return to St. Louis in 1810 the people dubbed it "Colter's Hell" and laughed him and his tale out of court. James Bridger rediscovered it about 1823 and the public said "Just another of Jim Bridger's big yarns." The gold prospectors of 1863 described it and were set down as liars. It took the Washburn-Langford expedition of 1870 to make the people believe in its wonders. The members of that expedition were for pre-empting the scenic points and making their fortunes. Cornelius Hedges rebuked them and proposed the national park plan—the first in all history. The park was established by act of congress in 1872 and Yellowstone celebrated its semi-centennial last fall.

Yellowstone contains 3,545 square miles—3,114 in Wyoming, 106 in Montana and 33 in Idaho. Big as it is, the plan is to enlarge it by the addition of many square miles to the south—the Jackson Hole country, which contains Jackson lake and the Teton mountains and is a natural part of the park.

Sterilizing Cans Is Big Necessity

Great Care Must Be Taken to Prevent Spoilage and Insure Good Milk.

(Prepared by the United States Department of Agriculture.)

If bacteria were large enough to be visible to the naked eye, and still retained their remarkable powers of increasing, their multiplication in an unsterilized milk can on a warm summer day would probably produce an effect much like an explosion. Under favorable conditions the increase in numbers in 24 hours, even on the walls of an empty can, is almost beyond belief. These large numbers of microorganisms hasten the souring of milk put into the cans.

Attention to Cans Needed.

To prevent loss through spoilage and to insure a wholesome product on the consumer's table, it is absolutely necessary to give attention to sterilizing cans, particularly during the hot months. Mere washing and rinsing will not do, especially if several utensils are washed and rinsed in the same water, as several million bacteria usually will be left in a can. The millions soon increase to billions, and when milk is put into the cans it is inoculated with the organisms present.

Some recent experiments by the department have brought out figures which should add weight to the contention that regular daily sterilization of cans means much in getting milk on the market in good condition. Cans were washed and rinsed, and bacteria counts were made on them both before and after sterilization, and on similar cans which were held for 24 and 48 hours. The lids were kept on the cans, which were left under conditions much the same as those encountered during shipment to market.

Good of Sterilization.

In estimating the number of bacteria in the cans, they were rinsed once with about a pint of sterile water. The work was done with four 10-gallon cans. In one unsterilized can soon after washing 47,000,000 bacteria were found, while the count for a similar can after sterilization was only 3,600 bacteria. Another unsterilized can was held for 24 hours under conditions similar to those encountered in shipment and hauling, and it then yielded 16,000,000 bacteria at the first rinsing. A can which had been sterilized and dried and held for the same length of time contained only 18,500. The unsterilized can held 24 hours contained enough bacteria to contaminate ten gallons of milk with 400,000 organisms for each cubic centimeter.

There are about 16 drops in a cubic centimeter of milk. A well-sterilized can would contribute only about one organism to each cubic centimeter of milk. It is not difficult to see what an advantage the can containing each cubic centimeter of milk with only one bacterium would have over the one where the milk is contaminated at the start with 400,000 bacteria per cubic centimeter.

Cut Sudan Grass When It Begins to Head Out

Best Time to Cut

The most profitable time to cut Sudan grass is between the time it begins to head until it is fully headed out. There is little loss, however, when the grass is allowed to grow until the seed has reached the soft dough stage, only one cutting being then required to harvest the crop and obtain the maximum yield of forage. When cut earlier more than one cutting may be obtained but the yield per cutting will not be so large. There are few grasses that are injured so little by standing beyond the proper stage of maturity as Sudan grass. This is due to the numerous tillers, which, arising from the base, mature successively and provide immature stalks throughout the season.

Manure Most Profitable When Applied to Wheat

In the rotation of corn, oats, wheat, and clover, the one commonly used at the Ohio experiment station, it has been found that over a period of eight years manure has proved most profitable when applied to the wheat. It was least profitable when placed on the new clover seedling. The station has used eight tons of manure to the acre and has reinforced it with 60 pounds of acid phosphate to each ton. The practice of phosphating the manure is strongly recommended by this station.

Profitable to Give Cow Rest Before Freshening

It will pay to give your cows a rest of six to eight weeks before they freshen again. If they are in good flesh they will need but little grain. Cows thin in flesh should be fed liberally so that they will put on flesh. A bushel of corn fed to a dairy cow before calving is sometimes worth as much as two bushels fed after freshening.

Forests Damaged by Insects and Diseases

Big Losses Emphasize Need for Educational Work.

(Prepared by the United States Department of Agriculture.)

Foresters and entomologists of the United States Department of Agriculture declare that the losses caused by insect attacks upon living trees and crops, finished and utilized forest products amount to \$180,000,000 annually. The recent report touching upon this and other forestry subjects declares that these vast losses clearly emphasize the need for educational work and the development of systematic control measures which now are woefully inadequate.

This report, which formed part of the 1922 year book of the department and which may be obtained upon request as a separate pamphlet, pointed out that the western pine beetle, the Gypsy moth, the chestnut blight and the white pine blister rust are the most damaging of the insects and diseases which are now attacking the living trees and forest products.

"Altogether," it is stated, "the most important present example of the imported disease is the white pine blister rust. Introduced from Europe within the past 20 years it is now widespread through the northern range of the eastern white pine, and has recently been found extensively in British Columbia and, to a limited extent, in Washington on the western white pine. The very existence of the western white and sugar pine forests is threatened."

The destruction of currant and gooseberry bushes is the means of ridding the forests of the blister rust. Other insects and diseases also take an enormous toll every year, and the cost in dollars to fight these damaging pests would be but a fraction of the loss they cause, the report states.

Best Grasshopper Bait From Poisoned Sawdust

Sawdust is cheaper feed for grasshoppers than grain crops. With a little arsenic added, one feeding will satisfy their appetite.

"Grasshoppers annually destroy thousands of dollars' worth of crops in Wisconsin as well as other states. Killing with poisoned bait has proved a cheap, effective way to fight them. A mixture of sawdust, 25 pounds; middlings, 5 pounds; white arsenic, 1 1/2 pounds; salt, 1 1/2 pounds; amyl acetate, 12 teaspoonfuls, moistened with water and scattered broadcast over the field which is being eaten by grasshoppers is the cheapest, surest cure so far," declares C. L. Fluke of the Wisconsin College of Agriculture. "The salt and amyl acetate is the attractive part of the bait."

Way of Treating Softer Woods for Fence Posts

The best method of treating the softer woods for fence posts is to set the butts into hot creosote and soak them for a time depending on the kind of wood, letting the creosote come about eight or ten inches above the ground level. It is then advisable to take them out of the hot creosote and then give them a cold bath over the entire post; that is, soak the entire post in the creosote. This preserves the whole post about equally so that the top will not give away before the bottom and so on. The brush method of treating fence posts would help somewhat, but is not nearly so effective as the hot and cold treatment.

Sodium Fluorid Useful in Destroying Vermin

A single pair of chicken lice will number 125,000 in eight weeks. A simple remedy is to dust or dip the chickens in sodium fluorid twice a year. This powder can be purchased from most any drug store and when applied as a powder should be distributed in small quantities over all parts of the body of the chicken. Ten to twelve pinches of the powder is usually sufficient. It may be used in solution by dissolving at the rate of one ounce per gallon of water.

Alfalfa Used as Siloing Crop Gives Most Forage

Considerably more forage is obtained when alfalfa is used as a siloing crop than annuals gather by grazing. In a trial with dairy cows at the Nebraska station only half as much feed was secured from a given area when alfalfa was pasture as when the crop was cut and fed as silage. Where one has a good stand of alfalfa that he wishes to keep it is a question whether it is advisable to pasture it.

Water Adds Materially to Efficiency of Horse

Removing the harness at noon and washing the work horse's shoulder with cold water adds materially to his efficiency. A grain ration consisting of corn six parts, bran, three parts, linseed oil meal one part, is a splendid work-horse ration.

OFFICE PHONE NUMBER 24

Petting the Criminal.

Kansas City Star.

There is a courtroom scene familiar to every American who reads a newspaper. All can recall in substance the words in which it is conveyed:

"The acquitted man shook hands with each member of the jury while the crowd applauded."

"When the verdict of acquittal was read the crowd surrounded the defendant and his attorneys and insisted on shaking hands with them."

"The demonstration of approval of the verdict of 'not guilty' was so unrestrained that the court ordered the room cleared."

That is the way he accounts run. We do not recall an instance of a courtroom crowd surrounding and congratulating a jury on a verdict of guilty.

What do these scenes indicate to Americans? Why, there seems no debate on that point. They indicate that as a people we regard the law not as a protector, but as an enemy. When it is defeated we applaud. The most we do when it is triumphant is to remain silent.

A jury that finds a verdict of guilty slinks away. The other day a juror who voted a Chicago woman defendant guilty was chased out of his home by his wife.

The law, then, is simply something to get around. The courts, the public prosecutors, juries, and all the judicial powers of government are arrayed against the people. The defendant stands forth the champion of the public. The contest is to see whether the government can make good its asserted rights to enforce the law.

When the government fails to make its claim stick—when law is defeated, in other words—the result is hailed as a victory of right over oppression. That has come to be the American view. It is a wrong condition and America must suffer for it if it continues.

Patronizing Home Industry

Possibly editors of small town newspapers make a mistake in continually preaching about "patronizing home industry," says the Englewood (Colorado) Herald, for it generally works out that the editor gets the worst of it. When he gets into a place of business he is expected to shut his eyes, take what is offered and pay the top price. But when the other fellow wants a little job of printing he shops around among all the shops within fifty miles of the home town and asks the local printer to beat the lowest price.

The work on the Willard-Carrizozo road started the first of the week. A crew of men have begun clearing the brush and timber on the Mesa, and Mr. Looney, who is supervising the work, announced a desire to procure about twenty-five more men to assist. This road work will give employment to a great many farmers and laborers for approximately three months. —Willard Record.

NOTICE FOR PUBLICATION

In the District Court of the County of Lincoln, New Mexico, at its October Term, 1923.

Rhodia J. Sloan, Plaintiff,
vs.
John Sloan, Defendant.

The said defendant, John Sloan, is hereby notified that a suit in divorce and for adjudication of property rights has been commenced against him in the District Court for the County of Lincoln, State of New Mexico, by said plaintiff Rhodia J. Sloan, the objects of said suit being for an absolute divorce, division of community property, attorneys' fees, and suit money; that unless you enter or cause to be entered your appearance in said suit on or before the 10th day of October, A. D., 1923, decree pro confesso therein will be rendered against you, and the relief prayed for in said complaint granted.

The name and address of Plaintiff's Attorney is H. B. Hamilton, Carrizozo, New Mexico.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of this Court at my office at Carrizozo, New Mexico, this 6th day of September, A. D., 1923.

[R. M. TREAT, Clerk, Sept. 7-23]

An exchange says, "Of course women make as good flyers as men—they go up in the air quicker!"

A. J. Rolland asks what's to be done with the ginks who have been waiting for the first real balmy days to spring this age-old question, "Is it hot enough for you?"

Tommy Carr says that long skirts cover a multitude of shins. B. L. Stimmel says you can tell good corn by the size of the ears but that has nothing to do with the man that raised it!

"COLD IN THE HEAD"
is an acute attack of Nasal Catarrh.
Those subject to frequent "colds in the
head" will find that the use of HALL'S
CATARRH MEDICINE will build up the
system and render them less liable to
cold. It repairs attacks of Acute Cat-
arrh and may lead to Chronic Catarrh.
HALL'S CATARRH MEDICINE is
taken internally and acts through the
blood on the mucous surface of the
system thus reducing the inflammation
and assisting Nature in restoring normal
conditions.
All Druggists. Circulars free.
E. J. Conroy & Co., Toledo, Ohio.

Unearth Adding Machine
in Old Inca Tomb

That the ancient Inca civilization in Peru possessed an adding and calculating machine has been revealed in a recent discovery by excavators of a knotted cord, or "quipu," in the ruins of a prehistoric tomb. The cord is 16 yards long and contains 100 knots. Divided into 10 unequal sections, these knots represent the odd numbers from 1 to 19. The sections are of different colors, including red, brown, green, yellow and blue, and are separated by silver beads, which represent the even numbers from 2 to 20. By using this simple way of counting, based on the decimal system, rapid calculations can be made.

Famous last words: "I think I can beat 'er across."

If you're obscure, you're not likely to be found out.

A woman may not realize how well off she is, but she always knows how well off her neighbors are!

Who remembers when the Albuquerque Herald (Republican) supported Jim Hinkle, democrat, for governor?—Gallup Herald.

It is expected that the government will undertake a number of investigations of the possible underflow waters of the state, and it has been suggested that the residents of sections where an underflow is known or suspected, gather such data as is possible and later make an effort to interest the government. The geological survey will handle at least two projects in New Mexico this year—the Estancia Valley and the Penasco Valley. It is said that other sections have considerable promise.

UB TRILLY SAYS

A man has to do a lot of studying to unlearn a thing.

THE EIGHTEEN WISE MEN.

Do you know that of the average one hundred men who live to be sixty years old, eighty-two of them are dependent upon some form of charity?

Do you know why this is true? They didn't save systematically.

This bank has worked out several practical systems of saving, either of which will be good business for you as well as ourselves.

Be one of the eighteen wise men—**SAVE SYSTEMATICALLY**—Let Us Help.

THE EXCHANGE BANK

CARRIZOZO, NEW MEXICO

"The Bank for YOU and ME in 1923"

"After the Show"

If you want to make a journey back stage, you should see Wm. DeMille's splendid Paramount production, "After the Show," which will be shown at the Crystal Theatre next Saturday, Sept. 15th. The picture mirrors the lives of those behind the footlights, who mask the sorrows and tragedies of their own lives with a smile and a song, that the world may be amused.

A complete theatre setting, with audience hall, orchestra pit, stage and back stage areas, with dressing rooms, wings, flies and all the typical stage accoutrements, was constructed especially for the picture.

For the theatre sequence, a gorgeous musical show was staged, in which thirty beautifully gowned and costumed girls took part. The sketch was rehearsed for several weeks before it was filmed. The studio grips, stage carpenters and electricians employed in the scenes were all perfectly at home in their roles. The scenes were prepared at enormous expense. The principal characters of the story are Jack Holt, the wealthy backer of the show; Charles Ogle, the old stage-door man, and Lila Lee, the little chorus girl who, having played in amateur theatricals in her home town, comes to the city to win fame. Out of these three characters comes a powerful and gripping drama.

In 1911 the production of gold, silver, lead, copper and zinc in Mexico totalled \$2,704,843, but by 1917 had increased to \$34,896,936 and the mines were made a political issue, it being claimed that they should be more heavily taxed. The industrial conditions and these attacks resulted in the metal production reducing to \$2,651,145 in 1921, which had great influence in the industrial conditions of the state. The mining in New Mexico is almost always of low-grade ores, calling for large expenditures for labor and materials, this money being distributed in the state.

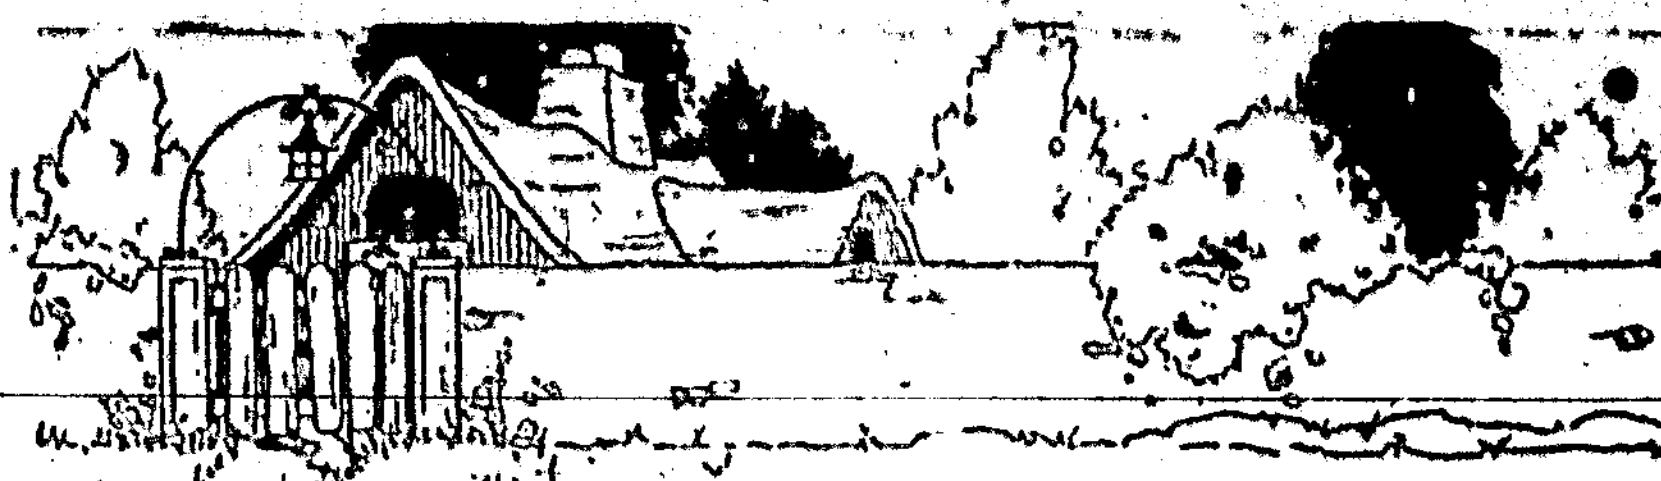

FOR RENT—Three Room Adobe House, chicken house, electric lights, water in yard; \$15.00 per month. Inquire at the Outlook office or see Fred Getty. 2t pd

LOCAL AND PERSONAL MENTION

Mrs. Jane Patterson, with sons Dan, Neil and Otto, of Denver, left last Monday for home after several days' visit with the J. E. Farley family. They made the trip by motor.

Neil H. Bigger, of the Capitan Mountaineer was a visitor here last week.

Mr. and Mrs. Shirley Phipps came up from Tucumcari Sunday morning, Mr. Phipps spending the major portion of the week inspecting bridges on this division of the E. P. & S. W., while Mrs. Phipps visited Carrizozo friends. They returned to Tucumcari on Friday.

O. T. Nye, once county clerk of Lincoln County, but now a resident of Eagle Rock, Calif., is visiting old friends here for the present week.

Frank Lesnet, who has been clerking at Ziegler Bros. store for the past six months, left Wednesday morning for California, where he will reside in the future. He was accompanied as far as El Paso by his niece, Miss Aileen Haley, who will attend high school in that city for the present term.

Doc Townsend, brother of John Townsend, prominent stockman of White Oaks, accompanied by Geo. T. Donovan, both of Lovington, N. M., visited with the John Townsend family for several days this week.

Several stockholders in the Little Mack gold mine at White Oaks have called in all those interested, with a view of buying all outstanding stock so as to center it in the hands of a few, after which the mine will open up under new management. This mine has yielded good ore in the past but has been idle because of litigation.

Coalora Lodge, No. 15, Order of Rebekahs, entertained the Odd Fellows and their families at Odd Fellows Hall last Friday night with a musical program and luncheon. The Rebekah Degree Team gave an artistic drill during the evening, also vocal and instrumental selections were rendered. Over a hundred were present.

Ladies' Aid Society

The above named society of the M. E. Church will meet with Mrs. S. F. Miller on the afternoon of Tuesday, Sept. 11, at 8 o'clock. All members are requested to be present.

An Improvement

E. M. Brickley of the First National Bank is exhibiting a spirit of thrift and enterprise by the erection of a handsome "awning" in front of his bank building. Who's next?

Educational News

(Louise H. Coe)

All schools in Lincoln county began Sept. 8, with all teachers present and a good enrollment in each school.

Four years of high-school are being given in Carrizozo and Capitan; three years in Corona and Lincoln, and two years in Hondo. All of our high schools will be accredited, provided they meet the requirements of the State Board of Education.

Dr. Shaver, County Health Officer, and the County School Superintendent will visit a great many of the rural schools within the next few days. Dr. Shaver will vaccinate the children who are not in reach of a physician. Teachers will be notified of the exact date to expect Dr. Shaver. Parents are requested to avail themselves of this opportunity to have their children vaccinated.

There will be a special meeting of Carrizozo Lodge No. 41 A. F. & A. M. tomorrow (Saturday) night for the purpose of work in the second and third degrees. D. A. Saunders, W. M., S. F. Miller, Secretary.

Mrs. S. E. Barber, Mrs. A. N. Price and Herman Kelt were down from White Oaks on Tuesday.

The entire Pecos country expects bumper crops this season. Cotton, wheat and feed crops are all reported good. The western part of the state has not been so fortunate in unirrigated sections, but the irrigated districts report good crops. The United States Geological Survey says that the production of fluorspar and manganese in New Mexico for the last half of this year is expected to be large, which will help out financially. Fruit is said to be plentiful all over the state.

CRYSTAL THEATRE

Tuesday, Sept. 11. A. Goldwyn Feature, "Be My Wife," with Max Linder in the stellar role.

Wednesday and Thursday, No Show.

Friday, Sept. 14. "The Timber Queen," No. 15. Leo Maloney in "Under Suspicion." (Western) "Our Gang" in "Young Sherlock." (Pathe Comedy)

Saturday, Sept. 15. "After the Show," A William DeMille Paramount Production, featuring Jack Holt and Lila Lee.

Senator Bursum believes that a satisfactory bonus bill will pass the next congress and receive the presidential approval. Even those opposed to any bonus at all expect the passage of a bonus bill and they are directing their efforts to such amendments as will cut down its cost and efficiency. The so-called Bursum bill is said to be the most generally satisfactory to the soldiers, and the most unsatisfactory to those who oppose a bonus in any form.

BEST QUALITY of 30 and 27 inch Fall Outing Flannel at Ziegler Bros.

The state is struggling with one of the old Otero administration timber sale contracts, and the affair is likely to go into the United States court. It is claimed that if the state accepts the offer made by the McKinley Land and Lumber Company that the state institutions will lose between one hundred thousand and two hundred thousand dollars. The sale was made illegally, it appears.
