Capitan Adds Holocaust To Bank Failure

Wednesday morning, at 2 o'clock, fire was discovered at the Titsworth Company's main building at Capitan, and despite frantic efforts of the community to prevent destruction, the entire structure with its enormous amount of merchandise was totally destroyed.

The Capitan Mercantile Co., adjoining the Titsworth store, also suffered some loss, but some of the goods, we understand, were saved. The loss has not as yet been determined.

The warehouses of the Titsworth Company in the adjoining block were saved. A barrel of gasoline in the building exploded, shattering the plate glass in the windows of the First State Bank, directly across the street. The Titsworth Company will rebuild and resume business as soon as adjustments can be made, it is said.

Oddfellows Meet

Carrizozo Lodge No. 80, I. O. O. F. held an interesting meeting Tuesday night at which work was performed in the first degree, after which the members listened to an interesting report from the delegate to the state convention held at Las Vegas last week.

Forest Ranger Civil Service Examination

Albuquerque, Oct. 16. — The Forest Ranger examination is to be given on Oct. 23 to qualified applicants between the ages of 21 and 35 at Clifton, Flagstaff, Holbrook, Phoenix, Prescott, Safford, Springerville in Arizona and Alamogordo, Albuquerque, Magdalena, Santa Fe, Silver City and Taos, in New Mexico, according to an announcement of the U. S. Civil Service Commission.

The examination is given to fill vacancies in the position of Forest Ranger in the Forest Service, U. S. Department of Agriculture. For this position young men of good education and those physically able to endure the hardships of field work on the National Forests are especially desired. To such, the work of the Forest Service has in store an interesting and attractive career, provided they are fond of the great outdoors.

A one day written test, composed largely of practical questions concerning timber, forest fires, and grazing is given on Oct. 23. Applicants are also given credit for education and experience.

The examination will be given by the Forest Supervisors at the places already named, from whom information concerning it and application blanks may be secured.

Receives Gold Medal

Mrs. J. B. Dinwiddie, who attended the recent convention of Rebekahs at Las Vegas, was awarded a handsome gold medal for perfect ritualistic work. She delivered the Chaplain's charge, which consists of five pages of the ritual, without the aid of the ritual or assistance from any source, making a percentage of 100, which was letter perfect.

Nogal Nuggets

Wm. M. McDonald, a mining engineer of varied experience, is trying out the bachelor life with Billy Stephen.

Hal Young made his usual visit to Carrizozo Saturday and incidentally hinted he'd like to get hold of a few hundred Liberty Bonds in the lock-up — said he needed them to bring pork and beans.

The pupils of Nogal school rendered a short but impressive Columbus Day program on Thursday, and if we don't miss our guess there'll be a lively entertainment for Hallowe'en.

The following Nogalites took in the dance at Angus Saturday night: Marion Hust, Frank McDaniel, Eliza McBrayer, Franky, Jesse and Dorothea Peacock, and Dallas Cochran. They reported a good time.

O. A. Fox, the Parsons pedagogue, paid the correspondent a visit Friday evening, returning via Capitan on urgent business Saturday.

Jim Gatewood, a progressive resident of our town, has completed his large irrigation reservoir, and is now ready to push the button for a bumper crop.

Next Week at the Theatre

Next week's billing at the Crystal Theatre contains many good things deserving of special mention.

On Tuesday, Vitagraph presents the big, spectacular American melodrama, "The Ninety and Nine." Abounding in big thrills, excitement and heart interest. Our local railroad men will get a real "kick" from the mad dash of the hero, in a locomotive, through a raging forest fire, to save a hemmed in village and the girl he loves.

On Wednesday the famous Theresa Sheehan Concert Company will entertain the people of Carrizozo with a program that has been highly commended in every community in which it has been rendered.

On Friday, Elmo Lincoln, the Hercules of the screen, will appear in the initial episode of Edgar Rice Burroughs wonderful jungle story, "The Adventures of Tarzan" the Ape-Man. This great serial was filmed in the African jungle, and abounds in wild animals, thrilling encounters and marvelous exhibitions of the almost superhuman strength of Tarzan, (Elmo Lincoln). Nick Carter in "Down East," and "The Wandering Two" Leather Pushers, with "Denny," will also be shown on this night.

On Saturday, we can take another fitting with the jaunty Wally Reid into the place where the laughs live! Wallace Reid in "Rent Free" is a whirl and riot of girls and cops and millionaires and things that would tickle you even on rent day! Full enough of fun to make a landlord forget the first of the month!

Bogle Items

Mr. and Mrs. Roy Bogle spent a pleasant evening with the Gallachers as guests at their ranch home a few days ago.

Tom Bogle made a visit to the Ancho vicinity this week.

Mr. and Mrs. Orville Bogle, who have been visiting in our community for several days, returned to their home at Luna.

Several of our Bogelites attended the dance at Corona last Saturday night.

Mrs. Bullard, who had been visiting in Tularosa returned home a few days ago.

W. A. Conner and family made an overland trip last week. They visited several places, including El Paso, Roswell, Dexter, Carlsbad, and Lovington. They had nice weather and an enjoyable trip.

Mrs. Howard Bullard and daughter Mildred will leave in a few days to visit Miss Lucille Jones, another daughter of Mrs. Bullard's. Mildred will certainly be missed in school, especially by two of her schoolmates.

Last Friday we observed Columbus Day with an appropriate program; the program follows: "Columbia, the Gem of the Ocean" By School
A Short Reading on Genoa Harry Fambrough
"Like Columbus," Viola Conner
"Columbus' Last Voyage" Leola Gravelle
"Later Voyages of Columbus" Alvin Conner
"Do Your Best," Paul Fitzpatrick
"America, the Beautiful," Two Girls.

The program was enjoyed by all.

The boys made a six room d. l. house which the girls are very busily engaged in decorating. It is certainly a pleasant and profitable occupation for the smaller children.

The following children were neither absent nor tardy during the past school term: Harry Fambrough, Walter Leonard, Mildred Jones, Josefa de la Rosa, Albert de la Rosa, Albert Bogue, Julian Mirabal. There are twenty-four enrolled in school with nearly all grades represented.

Mrs. Bullard and daughter motored to the Bonito Thursday.

Soldiers Can Get Refund of 1922 Taxes

Santa Fe, Oct. 18. — An application should be made to the county treasurer for a refund by any veteran of the world war or other person coming under the provisions of the soldiers' exemption act, in view of the supreme court's recent construction of the act, provided he has paid his 1922 taxes, according to Assistant Attorney General W. Armstrong today in answer to a questionnaire by Bronson M. Cutting, department commander of the American Legion.

If he has not paid 1922 taxes, he should make a claim for exemption to the county treasurer. In the event of refusal in either case, he should seek relief in the district court.

Mrs. Julia Tompkins, J. P. Penfield and Miss Helen Rice were over from Lincoln on Wednesday.

School Notes

(Supt. E. E. Cole)

"When you ask me what counts most in education I have no hesitation in putting to the front good health. I cannot think of anything worth attaining in life for man or woman that will not be worth more, that will not give more joy, satisfaction and zest to life, if good health accompanies it. 'What shall a man give in exchange for his soul?' He has nothing to give that is worth taking if his digestion is ruined, his nerves shattered, or his brain unbalanced."—Russell: "The Trend in American Education."

The first fires of the school year were started Monday—just six weeks after school commenced.

My, the odors that come from the domestic department! They make a hungry man ravenous! The Carrizozo girls certainly can cook! Of course, Miss Meux and Mrs. Clarke have a great deal to do with it.

The physics class is delving into the mysteries of the physical world. The students are investigating the phenomena of atmospheric pressure, the compressibility of gases, and the air pump. What has excited their curiosity most is the Cartesian Diver, or little "Yellow Devil." Toward the end of the year this class will give a public demonstration with the physical apparatus.

Friday night of last week, even though it was cold and stormy, quite a number of the students assembled in the auditorium of the High School building for a "sing." A very enjoyable hour and a half was spent. Mrs. E. T. Kelley was accompanist and E. E. Cole acted as chorus leader. Carrizozo High School has some very fine musical talent and much pleasure is expected from these gatherings.

The third grade is doing some very interesting work in the study of the dictionary. Not only are they learning how to find the words, but they are making dictionaries from words in their readers. It will be some time before these are finished but later they will be on exhibition in the third grade room.

Pinchot Says Dry Law Has Totally Failed

Governor Pinchot, of Pennsylvania, after wrestling with the prohibition law and its enforcement since being inducted into office, has at last decided that it is a complete failure, insofar as its enforcement is concerned.

He says: "The prohibition law, measured by the respect accorded it, has failed. No sincere, intelligent and concerted nationwide effort has been made to enforce it because federal agents have collected bribes and because politics is at the root of the evil."

In view of Pinchot's efforts along enforcement lines in his rock-ribbed Republican state, his statements come as a shock from the fact that while campaigning for the office he now holds he promised a strict enforcement of the Volstead Act in Pennsylvania, whether it was enforced in any other state or not.

Mrs. E. H. Sweet and Miss Marguerite Sweet Entertain

Last Friday afternoon, from 2:30 to 5:30, Mrs. E. H. Sweet and Miss Marguerite Sweet entertained at a delightful tea at the Carrizozo Eating-House, in honor of Mrs. Louis K. Rodan, of Philadelphia, and Mrs. Thos. M. Carr, of Carrizozo.

The color scheme was pink and white, and the reception room was beautifully decorated with pink and white dahlias and cosmos. The table was covered with an exquisite cluny lace tablecloth and cut glass bowl of pink dahlias for center piece. The center pillar of the reception room was covered with pink and white cosmos, the buffet decorated with pink and white dahlias, the color scheme being carried out in its completeness and beauty. Crystal candle sticks bearing pink and white candles burned continuously during the afternoon.

Mrs. Geo. Dingwall assisted the hostesses in receiving. Mrs. J. P. Nash and Mrs. C. P. Huppertz poured, while Mrs. O. L. Banchard assisted in the serving. About 75 ladies met the honor guests during the hour. The affair was one of the most important society events of the season.

Ceylon Is Land of Walking Fish

Famous Cinnamon Gardens of Colombo Given Over to Park and Home Sites.

Washington—A land where fishes walk along the roads and climb rocks and trees; where crabs fling sand into the air and elephants play tricks like sportive children—such, says a bulletin from the National Geographic society, is Ceylon, where Great Britain is negotiating with the natives concerning important government reforms.

"Colombo, the present capital," continues the bulletin, "has a magnificent artificial harbor built by the British. That city superseded the former principal seaport, Galle. In the new port city the native quarter, with its beautiful Sinhalese girls, its jewel grinders and lace makers, contrasts sharply with stately government buildings and European customs of the English section.

Ancient Wonder-City.
The famous Cinnamon gardens, where the Dutch formerly cultivated that spice in enormous quantities, today are given over mainly to a park and bungalows and here houses of well-to-do residents nestle in bowers of wondrous beauty and sweet perfume.

Scanty remains of the ancient capital, Anuradhapura, lie in lofty mountains amid matted jungle growth. Glowing descriptions of this ancient wonder-city by Arab, Persian and Greek voyagers led to the excavation work, now going on, which has been slow because of its vast size.

"Near by is the sacred mountain of Mihintale, with its huge irrigation tanks, one of them begun five centuries before the Christian era. This tank covered 40 square miles with its waters when it was new.

Buddha's Enormous Tooth.
Kandy, the last native capital, sets picturesquely above the blue waters of a little lake, also artificial. In making it the native ruler ruthlessly drowned out scores of his subjects' rice fields. Hidden in gold and ruby-encrusted bell shrines a mythical 'tooth of Buddha' is preserved.

"The present 'tooth' obviously could not have grown in any human mouth—it is two inches long and half an inch thick at the base. The visitor forgives the fiction for the sake of the August night celebration, when the tooth is carried about the town accompanied by a procession of 'devil dancers' in their grotesque masks.

Adam's Peak. A strange mountain top where a huge natural depression resembles an enormous human foot, also is an object of veneration. From this mountain Buddha is supposed to have ascended to heaven. Millions of devout pilgrims worship there. Even the non-believer is impressed by the

scene at dawn, when the sun first tints a sea of clouds, and projects slender shadows upon the countryside.

Immigrants Supplanted Natives.
"When the civilization of the Sinhalese was at its height, more than 2,000 years ago, the capital, Anuradhapura, was a marvelous city extending over some 250 square miles. It was clustered with magnificent palaces, pagodas and monster relic-shrines of delicate design. This civilization was overthrown by Tamil mercenaries whom the Sinhalese imported from India; subsequently the island was held successively by the Portuguese, Dutch and now by the English.

"The 'walking fish' performs its terrestrial antics when ponds dry up in the hot season. Then it either burrows into the soft mud to wait for rain, or, by night, crawls out of the last shallow depressions and goes writhing off through dripping grass on the hunt for other pools. The natives then literally 'catch fish,' sometimes gathering them up by the bush.

"The island's area is about that of West Virginia and on it live more people than there are in Texas."

"Aunt Jemima" Victim of Auto

Colored Mammy of Pancake Fame Crushed to Death in Chicago; Born in Kentucky.

Chicago.—Pancake season is here, but in some Chicago households the sizzling of the griddle will bring memories tinged with sadness.

"Aunt Jemima" is dead. The aged negro woman whose ability to make "flapjacks" was capitalized by millers, whose bandanna-wreathed smiles forms a mental picture for thousands of lovers of "a plate of wheat" and whose skill with the pancake turner furnished amusement for and drew the envy of those who have attended expositions and fairs ever since the Chicago World's fair of 1893, fell a victim to an automobile in Chicago recently.

Her death marks the passing of an interesting character who will be mourned not only by the negro race but by numerous wealthy Chicago families as well. For Mrs. Nancy Green will live longest in memory as "Aunt Jemima."

Was Born in Kentucky.
"Aunt Jemima" was born in Montgomery county, Ky., in 1834 and came to Chicago as a nurse for the Walker

Charles F. Coleman of Cincinnati, sixty-seven years of age, says a man need never grow old—and to prove it proudly displays his eight-pound son born on the eighth day of the eighth month at eight minutes after four in the morning. Haughtily she arose, and fixing him with a stern glance she exclaimed: "I couldn't marry a widower; the very ideal Catch me walking in another woman's shoes!" No More Fairies.

Once upon a time it was quite the thing for fairies to make themselves known to mortals. Frequently each mortal was granted three wishes, and so on. The last fairy of record appeared to an American millionaire. For services rendered he was granted the customary three wishes, but stated that he had only one wish to make. "Name it," said the fairy. "Get me a good cook." Since then fairies have never appeared to mortals.

Soldiers' Insurance Problem.

Several hundred men in the army and navy of the United States in the World war named as their beneficiaries for government insurance their parents living in Russia. The veterans' bureau cannot pay this insurance, because we have not the necessary machinery in Russia which would be connected with consular service in that state. It is presumed that the families of these soldiers who have died for their country are in a bad way in soviet Russia.

Girls Seek U. S. Husbands.

In Saida, Syria, 600 beautiful and unmarried girls pine for husbands. There are none in Saida. Sadly they gaze across the Mediterranean and sigh for the United States. The Syrian quota is full. Desperately determined, the girls would sail to the three-mile limit and invite matrimonially inclined Americans to choose their brides. This suggestion is said to have reached the Near East relief.

SMITH BROTHERS

S.B. COUGH DROPS MENTHOL

Famous since 1847

Absolutely Honest.

Robert W. Chambers, whose vivid portraits of the modern girl have made him famous, said at a dinner party in his New York home:

"The modern girl has many faults, but at least she is open and above-board. There's nothing of the deceitful puss about her.

"On a moonlight winter night in Florida a modern young man passionately kissed a beautiful modern girl under a palm tree.

"I'll be frank with you," the young man said after the embrace was over. "You're not the first girl I've ever kissed, by a long shot."

"She lit a huge and costly cigarette. "And I'll be equally frank with you," she answered. "You've got a great deal to learn even at that."—New York Mail.

What He Intended.

"My dear," said the newly-married man to his wife, "where did all these books on astronomy come from? They are not ours."

"A pleasant little surprise for you," remarked his wife. "You know, my dear, you said this morning that we ought to study astronomy; and so I went to the bookseller's and bought everything I could on the subject."

It was some minutes before he spoke.

"My dear," he said then, his voice husky with emotion, "I never said we must study astronomy; I said we must study economy."

When All Signed With Cross.

In olden times the signature of the cross, now made by persons who are unable to write, was not confined to the illiterate class. Among the Saxons the mark of the cross, as an attestation of good faith of the person signing, was required to be attached to the signature of those who could write, as well as to stand in the place of the signature of those who could not write.—Detroit News.

Discovery of America Cost \$7,000.

After a searching inquiry, it has been estimated that it cost \$7,350 for Christopher Columbus to discover America. The explorer was paid about \$320. Louis Santangel, a nobleman, and not Queen Isabella of Spain, provided most of the money to outfit the three ships and pay the sailors, who were seeking a new route to Asia, says the investigator. The Pinzons, who commanded two of the ships, were paid \$120 each, and a common seaman got \$20 for the voyage.—Popular Mechanics Magazine.

Telling an Alligator's Age.

The width of an alligator's nose between his eye teeth is the means for determining the reptile's age, according to the experts on such subjects. After the reptile is ten feet long the nose widens one-quarter of an inch for each 50 years the alligator lives. Oklahoma, the largest alligator in captivity, weighs 1,400 pounds and is 18½ feet long. He is estimated to be several hundred years old.

Lucky Dogs.

A Detroit dad who is in the market—or was—for a dog, visited one of the numerous kennels near the city recently. Almost simultaneously, as he entered the yard, 35 dogs, ranging from the grown-ups to pups, let loose a wild barrage of barking, yapping and whining. He picked the least noisy of the dogs and left, but not before he had asked: "What do you feed all these animals?" "Well," the owner of the kennels replied, "we feed them bread, meat, rice and milk. They get better food, I suppose, than some poor children, and more of it."

DOCTOR REGAINS MEMORY WHILE ACTING AS ORDERLY

Physicians and Nurses Astonished at His Diagnosis.

Detroit, Mich.—Relating that he had been a victim of amnesia and that his memory had been restored by performance of a hospital orderly's duties, Dr. James H. Anderson, Detroit physician, who disappeared last November, returned home recently in full possession of his faculties.

"I have no recollection of taking this job," he said, "but I do recall that one day when a nurse asked me to take the temperature of a patient I suddenly straightened up and said, 'This man is dying.' The nurse laughed at me, but a moment later it was discovered that what I said was true. In a few minutes the patient was dead.

"From that moment a mist began to roll away from my brain. The physician's lawyer that had warned me of

the patient's condition aroused a mental process that gave me no peace until I awoke one morning recently in full possession of my memory.

"Often I diagnosed cases as I attended patients as an orderly and sometimes my diagnosis was in conflict with that of the attending physicians. The physicians and nurses at the hospital regarded me as a 'nut,' but once an autopsy revealed that I had been right and the physician wrong, and then they regarded me with curiosity.

"But I was not complete master of my secret until it all burst upon me suddenly that morning, and then I revealed my discovery only to two friends in Chicago."

Doctor Anderson, who is fifty-six years old, told of a week of indecision, during which he found it difficult to decide whether to return to Detroit and start life anew or to keep his secret and start over somewhere else.

Buzzard at Train to Greet Visitors

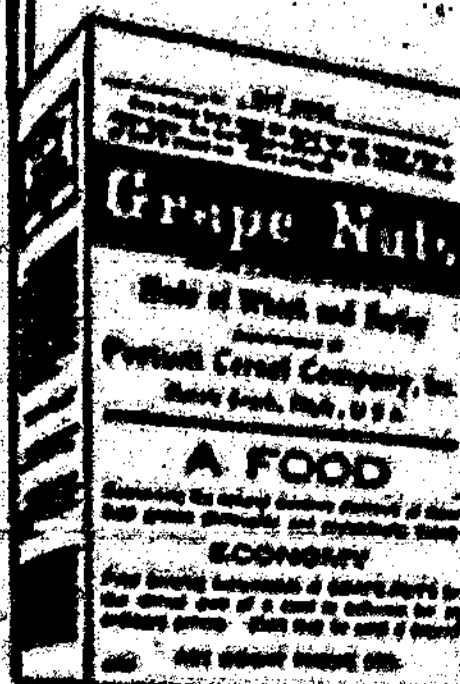

Saranap, Calif.—Increased because of the actions of an unidentified buzzard, which insists on meeting all trains the citizens of Saranap, Calif., have organized to do away with the bird. It's a bad "ad" for the town, they say.

The bird appears about train time and perches on a post near the depot. Saranap boosters declare the buzzard has been trained to "do his stuff" by a rival town, jealous of Saranap's growth during the last year.

"I did not want to come back to Detroit, for a reproach seemed to attach to my experience and I feared it would be difficult to attain my high position in society again. But for the sake of my wife and son I determined to come back and try again."

How Maintenance of Roads Should Be Paid.

"TAX THE automobile and build the roads from the revenues," is a principle which has been expressed by the non-informed voter too many times. But education and sound economics as enunciated by bankers and statesmen has changed the cry. Few who now concern themselves with road financing, but understand that the right way to pay for a road is either by road bonds based on general, not specific taxation, or from current general funds.

The experience of years proves that the fees from taxed road vehicles must be spent for maintenance. Maintenance is always being used up; vehicle taxes are always coming in to provide that maintenance. To use the maintenance fund for building more roads is as uneconomic as the procedure of the man who builds a house for rent and instead of using some of the rent to keep his property in condition, and insure it and paint it, spends it for another house, letting the first go to ruin. He will end in the poorhouse, and the county or state which does not provide a steady maintenance fund for road upkeep will be bankrupt in good roads long before the roads are paid for.

It is gradually coming to be recognized that snow removal is a legitimate maintenance charge. All highways which can be used but six months of the twelve cost twice their price. To get the use of an expensive highway for three or four or six months of snow time, by the expenditure of a small amount of a maintenance fund, is only sound common sense.

Heifers Galore

The Osborne Farmer relates that a Kansas man advertised he would "give a drink of real old Scotch whiskey to the man who would find and return his yearling Jersey heifer." When the man got up the next morning he found nine men in his yard, each patiently holding a separate and distinct Jersey heifer.

Just plug in

LONG DISTANCE offers a miraculous service to the nation. Farm, oil field, factory, mine and mill—all are before the man who uses the telephone and he may "plug in" at his pleasure.

Weather makes little difference, distance none at all. The whole country with its 14,000,000 telephones is on a switchboard before one when he lifts the receiver.

Bell System service is available to all. It is the messenger of modern business, the handmaiden of the modern home.
