The Saint Mary's river connects Lake Superior with Lake Huron. Nature studded this river with rock and possessed it with a rapids which falls twenty feet in three-quarters of a mile.

One Was Taken The Other Left

Ranger J. H. Mims of the Gallinas district, who had been attending to his official duties in his territory while Mrs. Mims was here in Carrizozo, received a message early Monday morning that his presence was desired here and he made ready, arriving on No. 3 and instead of welcoming the arrival of a tiny, sweet baby girl, as he perhaps expected, Mrs. Mims presented him with a pair of buxom young rangers, Henry Burrett and David Crockett, 7 and 7 1/2 pounds respectively.

Church Mountain Fire

Wednesday afternoon, strange as it may seem, real clouds hovered over us for a short while and enough rain actually fell to settle the dust. Church Mountain, between here and Nogal, proved to be a victim of an electric display during this time. Lightning struck a tree on the west side of the mountain, and before long, smoke could be plainly seen from here and as the day lengthened the fire increased until at night Church Mountain was illuminated with many fires which flashed and twinkled like lights of a distant city. Watchers who viewed the spectacle after the mid-night hour, saw what appeared to be a tall pine tree caught in the flames which leaped to the uppermost portion of the tree, then shooting right and left resembled an emblem which most people have read about as appearing at other places and considered by some as an evil omen.

Mrs. Ben West and son, Ben, Jr., of Tucson, Ariz., and Mrs. S. E. Roberts, mother of Mrs. G. B. Barber, are visiting the Barber family.

TALES OF THE OLD FRONTIER

ONCE upon a time Uncle Sam had a queer navy, composed of 73 "ships of the desert" which, paradoxically speaking, navigated the dry seas of the great Southwest. This was before the Civil War when transcontinental railroads had not yet been built and the government was seeking a solution of the transportation problem over the southern route to California.

The last of the camels was captured by a Mexican in the Marqua Hat mountains in 1855. He took his prize to Phoenix, but before he could find a market for the animal it had literally eaten him. Finally he allowed a creditor to take the beast for a \$10 debt. The new owner intended to sell the camel to the next trader that came along and turned it out in a pasture with his mules.

Forest Notes Condensed

Supervisor O. Fred Arthur is in the Sacramento mountains going over some administrative matters. So far this season, seventeen forest fires have been reported, all of which with the exception of one, was caused by carelessness. Two of these on the Upper-Ruidoso have gone beyond control. Ranger Mims of the Gallinas district is responsible for the arrest and conviction of an offender, who was careless with a match.

LINCOLN COUNTY BATTERED BUT NOT BROKEN

With values reduced by the exodus of cattle, due to the drouth and general financial deflation, Lincoln County in yet a long way again make, and increase its wealth. The ranges are again wonderful in the mountains. For a nucleus, cattle owners probably have not less than the 41,000 count of cattle value of approximately \$750,000.00. In 1923, there were assessed \$1,192 sheep and goats of the value of \$73,630.00, 4,880 horses and mules at \$2,045.00, 568 hogs at \$2,342.00.

said, thirty-five per cent of the gross revenue goes to the County for maintenance of roads and schools. In White Oaks are a number of gold mines that have been operated profitably, having yielded three million dollars. One mine yielded one million dollars. While these mines at present are not being operated, except for development, shafts are being preserved for future production by a needed large plant. Gold has been discovered in Creek, and other localities.

to El Paso. Given a supply of iron and coal, in conjunction, such a region may become an important shipping or even manufacturing center. One of the greatest enduring boons of Lincoln County is its delightful and curative climate, the virtue of which is attested by the United States Marine Hospital, maintained at Fort Stanton, to which tubercular marines are sent by the hundreds for restoration.

REPLY MADE TO JAPAN PROTEST

Cordial note says no pact was violated by exclusion measure.

EXCLUSION LAW STANDS

Congress within rights in barring Asiatics, Hughes tells Tokio.

Washington.—The American reply to the Japanese protest against the exclusion provision of the Immigration act was made public here by the State Department simultaneously with its publication through the foreign office in Tokio. It is cordial and friendly in tone, but at the same time makes it clear that the exclusion provision in no way trespasses upon any written or implied obligations on the part of the United States.

Secretary Hughes points out that Congress was wholly within its right in the enactment of the provisions and that the action taken "is mandatory upon the executive branch of the government and allows no latitude for the exercise of executive discretion as to the carrying out of the legislative will expressed in the statute."

The construction generally placed upon the American note is that it conclusively demonstrates the view of the Washington government that the exclusion law is a closed incident and that no attempt to modify or alter its terms is to be expected.

Secretary Hughes, in the note, which he prepared with utmost care, expresses pleasure over the "friendliness and candor" of the protest communication delivered to him by Ambassador Kihara May 31.

"You may be assured of the readiness of this government to consider in the same spirit the views you have set forth," Mr. Hughes adds.

The note then analyzes the exclusion provision applicable to all aliens ineligible for citizenship as it is modified by the exceptions contained in the act and points out:

"It will be observed that, taking these exceptions into account, the provision in question does not differ greatly in its practical operation, or in the policy which it reflects, from the understanding embodied in the gentlemen's agreement under which the Japanese government has co-operated with the government of the United States in preventing the emigration of Japanese laborers to this country."

The outlook for the wheat crop in Curry county is now very encouraging and there is every indication that there will be a bumper yield all over the county, the yield is estimated at about thirty bushels per acre.

Appreciation of this co-operation in carrying out a "long-established policy" is expressed and the communication adds:

"Indeed, the appropriateness of that policy which has not evidenced any lack of esteem for the Japanese people, their character and achievements, has been confirmed rather than questioned by the voluntary action of your government in aiding its execution."

American Flyers Reach Siam Bangkok, Siam.—The United States army aviators, engaged in a flight around the world, arrived here a few days ago from Saigon, French Indo-China. They made one stop on the way.

Gives Credit to Lydia E. Pinkham's Vegetable Compound. Hopes Other Women Will Benefit by Her Experience

Skowhegan, Me.—"I was sick most of the time and could not get around to do my work without being all tired out. I would have to lie down. One day when I was reading the paper I saw the Lydia E. Pinkham's Vegetable Compound advertisement and saw what it did for other women. So I thought I would try it. I have taken three bottles, and cannot begin to tell you what it has already done for me. I do all my work now and keep up the whole day long without lying down. I have no more headaches nor tired feelings. I hope every woman who takes the Vegetable Compound will get as much benefit out of it as I have."

A Colorado Case W. J. Smith, Third St. Oxnard, Colo., says: "The motion of riding in the saddle pulled a strain on my back which I could hardly stand. My kidneys annoyed me, as they acted for some time. I took a trial of Doan's Pills and in a short time they cured me. I have never had kidney trouble since."
