PRICES \$2.00 THE YEAR

Republican Primaries

The local primaries were held Tuesday night at the court house to select delegates to the county convention which will be held at Lincoln on Tuesday, August 3. H. B. Hamilton was selected as chairman and Lewis A. Burke for secretary.

On motion, a committee consisting of A. J. Rolland, Joe P. Romero and E. H. Sweet was appointed by the chair to select a list of delegates to attend the convention and the committee reported the following list which was adopted unanimously:

E. H. Sweet, Miss Margaret Sweet, H. B. Hamilton, Mrs. H. B. Hamilton, B. L. Stimmel, A. L. Burke, Joe P. Romero, Mrs. Joe P. Romero, Ben Sanchez, Mrs. Ben Sanchez, A. J. Rolland, M. J. Barnett, J. B. French, Porfirio Chavez, Jr., Juan Martinez, Chas. Spence, Frank Richard, Mrs. Frank Richard, Antonio M. Vega, R. E. Lemon.

The delegation will leave here at 8 o'clock next Tuesday morning in order to be at Lincoln by the hour of 10, at which time the convention will be called to order.

Mrs. Bernice Barber West Passes to Her Reward

Sunday morning at 2:30, Mrs. Bernice West, beloved wife of officer Ben West, Day Captain of the Tucson, Arizona, police force, died at the home of her parents, Attorney and Mrs. Geo. B. Barber, after a lingering illness.

The Wests moved from here to Arizona about four years ago, at which time, Mrs. West's health was exceptionally good, but the extreme heat of Arizona and the lower altitude caused a gradual decline and about one month ago, she came here with her two children with the hope the New Mexico climate would be beneficial, but hope was vain and but a short time after the arrival of Mr. West, who hurried to her bedside from his post of duty, she fell asleep.

The funeral services were held at the Methodist Church Wednesday afternoon at 4 o'clock, the same being conducted by the Rev. A. V. Ludlow, pastor of the church of which denomination the deceased was a member.

The floral offerings were beautiful and expressed the sentiments of love and affection in which this estimable lady was held by her many friends in Lincoln county. A double quartet of ladies, Mesdames Adams, Elliott, Loughrey, Lemon, Ludlow, Collier and Hooper, with Mrs. T. E. Kelley at the piano, sang soul-inspiring selections, the pastor offered words of comfort and consolation to the sorrowing relatives and dwelt at length on the Christian character of the deceased, after which the remains were interred in the local cemetery.

Pallbearers were: Paul Mayer, H. B. Hamilton, Henry Hoffman, F. J. Sager, C. P. Huppertz and Charles Henry Lutz. She leaves a husband, two children, father and mother, and two brothers, Ralph and George, Jr., all of whom were present at the funeral and who have the keenest sympathy of the entire community.

Attorney A. H. Hudspeth is spending the week-end at Santa Fe, attending to some legal business matters.

S. P. Notes

Campbell's bridge gang are making some repairs on the bridges between here and Capitan with the assistance of a work train.

The last train of melons moved over the district Tuesday. There is a slight depression in business at the present time, but a substantial revival is expected by August 15.

The New Mexico Safety and Fuel meetings were held at El Paso on July 26. They were attended by trainmaster B. H. Horton, conductor S. G. Allen and other officers and members of the New Mexico Division.

Mrs. R. G. Robertson, wife of the night yardmaster at Duran, is ill at Hotel Dieu in El Paso.

Several trainmen have been cut off recently on account of the slump of the melon movement, but these have been sent to other divisions in California, where they are being cared for with steady employment until business on this division warrants calling them back.

Plans are in progress for the setting of the Breece sawmill at Alamogordo and forty more new log cars are being sent from Oregon to take care of the increased hauling of logs on the A. & S. M. branch between Russia and Alamogordo.

Rains, so far, have failed to interfere with traffic on the S. P. and the reason is that the good bridges and excellent roadbeds are the fortifications which prevent interference from floods, etc.

Robert S. Poage is rapidly becoming skilled in the work incident to the duties of trainmaster's clerk. He is showing a capacity for increased responsibility which means a further promotion in course of time.

G. S. Brown, blacksmith in the S. P. Shops at Tucumcari, spent several days of last week here with relatives and friends.

Fireman and Mrs. Floyd Rowland are spending several days of this week here. They are now residing at Tucumcari.

Engineers Si Ramadale and Oscar Clouse have not decided when they will give that picnic in Nogal canyon, but they have promised to do it and we are waiting for the time to come. No, boys, we have not forgotten about it.

Robert Poage and wife spent Sunday at the O. S. Stearns summer home on the Bonito, where Mrs. Stearns and children are spending their vacation.

Commissioners "Declare Dividend"

The Board of County Commissioners ordered the payment of two-thirds of the amount of the County's indebtedness of the year 1923 and prior last week, and the same was paid to parties having bills against the county for the year mentioned. This apportionment was made possible by the efforts of J. B. French, Special Tax Collector, who secured the amount of delinquent taxes sufficient to guarantee the payment.

Henry Lutz, who is spending the summer with his daughter, Mrs. O. W. Bamberger, at Amarillo, Tex., is here this week, visiting the home folks and his many Carrizozo friends. Mr. Lutz looks well and likes Amarillo immensely. He will go to visit his son, Charles Henry in Roswell about the first of next week.

Ft. Stanton News

(Fort-Stanton Correspondent)

From time to time unusual genius is shown by patients who, produce, in the long hours of convalescence, in the craft shop and in their tents, souvenirs and useful articles of all kinds which rival in art, beauty and workmanship, the output of the very best manufacturers in the land. A particularly notable achievement just finished is a chandelier suitable for electric lights made by E. R. Ericson and on sale at \$30.00 at the Fort. This chandelier is large enough for a church, reception hall, or dining room public or private and would grace the most fastidiously furnished apartment or salon. It is of hand driven copper, very antique and ornamental. Mr. Ericson hopes to make a sale so as to have money for fare home. Tell your friends.

All will be glad to hear that Mr. W. F. Bond, Forest Ranger from White Mountain Potosi, who has been at the Fort for some time, is rapidly recovering. Also Mr. F. E. Tripp, who has been ill for some time is improving nicely.

Messrs. Joseph Patherick, Allemand and Kroggel, accompanied Mr. Roefler to the station when he went away on a vacation Monday.

Mr. John R. Green, father of Mrs. Cavanaugh, and passenger engineer between Tucumcari and Dalhart, is visiting his daughter this week. Mrs. Palmer has returned much refreshed from her vacation. Welcome all.

Announcement has just been received of the marriage of Dr. H. A. Rasmussen and Miss Helen Pawnee McCall in New York early this month. They were both very active socially at the Fort and carry with them the best wishes of all.

Mr. Ziegler Goes East

Mr. Albert Ziegler will leave the first of the coming week for eastern points on a purchasing trip for his fall and winter stock of gent's furnishing goods and ladies' wearing apparel. Mr. Ziegler never allows a dealer to get ahead of him to the markets, therefore, he is able to make the choicest selections and at prices which enable him to get the best out of the markets and put the same on sale to his patrons at the lowest possible figures. As soon as the new goods make their appearance, due notice will be given to the public. Take a look at the display windows where the up-to-date samples of his present stock is so neatly arranged by the handwork of Mr. Beck.

Next Friday and Saturday nights, at the Crystal, "Justice Far North" will be shown. This picture should draw good crowds. Other pictures shown on nights earlier in the week, will be announced by hand-bills. The comedy, "Aloha Land" will also be shown on the 6-7

Wayne Van Scoyck and son, Wayne, Jr., left Wednesday morning on No. 2 for Columbus, Ohio, where they will visit with Mr. Van Scoyck's mother for a month. Little Wayne is preparing to have the time of his life at the home of his grandmother.

Mrs. I. D. Baker and children and Mrs. A. E. Rohde of Tucumcari, Mrs. R. P. Hopkins, sister of Mrs. Geo. B. Barber, attended the funeral of Mrs. Bernice West on Wednesday.

Eating House Notes

(By S. L. Northlane)

Mrs. T. M. Carr and daughter of Alamogordo, are visiting the Sweet family this week. Mr. Carr is now the ticket agent at Alamogordo.

Miller French has resigned his position as day clerk of the hotel and Miss Corrine Hunt has accepted the same.

C. H. Bradley was a guest at the hotel this week, shaking hands with old friends and incidentally making a little medicine for the coming political campaign.

Hotel arrivals for the first part of the week were:

Lee Boswell, Frank Marsh, A. Hadley, S. Sorenson, D. White and wife, T. Ware, A. Spillyard, F. Clough, M. Hershberger, M. Cadwallader, W. Whately, C. Springer, El Paso; F. Sherton, Tucumcari; R. Vaughn, Phillip Bourke, R. Vaughn and family, Bell Ranch; H. Cooper, Denver; J. Eberle, Mrs. R. Hopkins, Albuquerque; Chas. Fester, Ardmore, Okla.; Frank Winston, Phila.; H. Riddle, E. Park and wife, E. Lucas, Okla. City; C. Jameson, Pueblo; S. Murphy, Santa Fe; A. Hanner, Phoenix; C. Bradley, Ruidoso; R. Cunningham and wife, Roswell; L. Williams, Tucson; J. Brubaker, Capitan; E. Calentine, Cloudcroft; R. Mounday, Carthage; G. Henderson, Kansas City; K. Randle, Bob Salter, Austin Tex.; Anna and Emma Coury, Duran; George Barber, Marion, Ohio; John Pennell, Cimarron.

Rev. Ludlow of the M. E. church made a trip to Las Vegas the early part of this week, and returned, accompanied by his oldest son, Thomas, Jr. and wife, and will make this place their home for the summer at least. We welcome the Ludlow family as a whole, and hope they will remain with us.

Mrs. M. B. Paden has returned from a week-end visit with her parents, Mr. and Mrs. T. E. Armstrong and sister, Ethel. She was accompanied by her sister, who visited Mrs. Paden for the early part of the week.

Mr. and Mrs. Richard Dunlap, Miss Irene Dunlap, Mrs. C. J. Pfeffer and baby of Sapulpa, Okla., are expected here the first week in August and will remain for several weeks as guests of Mr. and Mrs. W. W. Stadtman. Mesdames Dunlap and Pfeffer are sisters of Mrs. Stadtman and while here, they will have the pleasure of visiting the many mountain resorts in our nearby mountains, which has proved to be of such pleasant diversion to visitors of this region.

Dr. R. R. Green and family were here from Corona the latter part of last week, Mrs. Green and the children returning home on Saturday and Dr. Green remaining over until Sunday night. He said that conditions near Corona were never better. There has been plenty of rainfall, which insures good ranges and the bean crop will be far ahead of expectations.

Mr. and Mrs. Will Ed Harris left Tuesday for Albuquerque and other points in the northern part of the state, and will be absent about two weeks.

Mrs. J. B. French and daughter Evelyn are spending the week at Eagle Creek.

Crystal Theatre

Friday and Saturday, July 30-31—Charles Ray in "Some Punks;" also "Flivver Tracks," Comedy.

Aug. 6-7—"Justice of the Far North," Norman Dawn's Spectacular Production, with an all-star cast. Also "Aloha Land," Comedy.

Friday Saturday, Aug. 13-14—"Blue Blood," featuring George Walsh, assisted by an all-star cast. Don't miss it! Also "Felix All Balled Up," the famous Kat Komedy.

Close the Door, Please

Thieves broke into the henhouse of S. H. Nickles some time Monday night and stole seven Rhode Island Red fliers. On leaving, they forgot to close the door and a houn' dawg got in and killed about thirty Ancona chickens that the thieves had considered too small for them to take.

Yes, our friend the houn', was buried with all pomp and ceremony befitting the occasion.

S. H. Nickles says that in the future, providing of course he should ever own any more chickens, that he begs to request any chicken thief who takes a fancy to his fowls to please for the love o' Mike, close the door after them!

Funeral of Ramon St. John

Last Friday afternoon, the funeral of Ramon St. John, who was shot and killed at Oak Creek, Colo., on Sunday, July 18, was held at the Catholic Church on the east side and in the absence of Father Otten, who was in the Magdalena country, the services were presided over by the Sisters of Mercy.

The American Legion took charge of the remains after the services at the church and Dr. Johnson, Peter Johnson, E. M. Brickley, F. E. Hedrick, Henry Hoffman and R. A. Walker acted as pall bearers. At the grave, E. M. Brickley read passages of scripture and offered consolation to those left behind. He commended the deceased on his qualities as a soldier and citizen and performed the usual rites of the Legion.

Ramon St. John was born in Lincoln, N. M., July 29, 1895. He came to Carrizozo at an early age and served time as an apprentice in the Outlook printing office. When the war broke out, he enlisted and served overseas in a commendable manner in the Engineers corps, No. 115. After the war, he returned and was again employed as a printer at the Outlook office at which place he served for several years to the best of satisfaction. He afterwards entered the occupation of coal mining where he filled positions of importance and was at that occupation when he was shot and instantly killed on the night of Sunday, July 18 and the coroner's jury rendered a verdict of cold-blooded and felonious murder. He leaves a mother, wife and three children, three brothers and three sisters to mourn his loss to all of whom, the sympathy of the community is extended.

Mr. and Mrs. Doyle Rentfrow came in from their ranch across the Malpais Wednesday and with Mr. and Mrs. C. M. Lucky, are on a week's fishing trip to Watson Lake, the Ruidoso and Bonito regions.

Ruidoso News

Visitors at the resort for the past week, were: M. A. Bridges and wife, Clovis; Dr. Vineyard Amarillo, Wm. Chitwood, Dean of the Texas University and family, Dallas; Mayor Sweeney, El Paso; Carrizozo visitors were Sheriff Kelsey, Mr. and Mrs. Will Ed Harris, Si Ramsdale, L. A. Whitaker, Henry Hoffman, Geo. Dingwall and wife, Ernest Dingwall, Mrs. Zoe Glassmire and sister, and Louis Adams and wife.

Mr. and Mrs. T. M. DuBois and daughter, Mrs. G. W. Greer, were here from Corona Saturday visiting friends and incidentally spreading the good news of the big dance which will be given tonight at the gymnasium at Corona, where the Roswell 'Night Owls' will be a feature of the event. A large number of our dance fans have signified their intentions to attend.

E. W. Hulbert, our esteemed County Treasurer, was a Lincoln visitor last Sunday. The big rains in the lower county caused the road to be blocked below Capitan for nearly two hours during which time, about a dozen cars were in waiting to come to Capitan and Carrizozo.

Mr. and Mrs. David Pinley, who left this place a few weeks ago, have located at Ft. Worth, Tex., and David has accepted a position with the Marlin Oil Company and is assigned to expert scout work for the company, which means, in the oil game, locating good prospects for drilling.

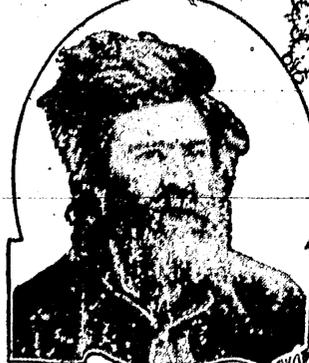

Dr. Shaver reports the birth of triplets, born to Mr. and Mrs. Alex Chavez, Wednesday morning July 28, between the hours of 12 and 1 o'clock. One of the babies was dead at birth, the second lived one hour and twenty minutes, and the third survived and with the mother, she was doing nicely at last reports.

J. H. Fulmer of the Lincoln Light & Power Company has returned from Texas, where he attended to some important business matters in connection with his interests here.

H. D. Moulton, Field Agent for the Government Land Office at Santa Fe, was taken ill last week in Capitan and brought here where he is recuperating nicely at the Johnson Hospital. Mrs. Moulton is here with her husband and will leave for Santa Fe as soon as the patient's condition will warrant his removal.

Mrs. J. M. Caldwell and daughter, Mrs. George Burt, came over from Hot Springs Tuesday to spend a week with Mr. and Mrs. Fred Neighbauer at the ranch south of town. Mrs. Burt will be remembered as the once Miss Mary Ellen Caldwell, who resided here with her parents and attended our schools. She left with her parents several years ago when Mr. Caldwell entered the grocery business at Hot Springs, where they have since resided. She was united in marriage on June 18, to Mr. George Burt, who with his father, installed the new electric light system at the Springs a short time ago. The new Mrs. Burt is a charming young lady, well known here, where she has many friends, all of whom are wishing the newlyweds lifelong happiness.

A Modern Daniel Boone

Liver Eating Johnson

White Bull

By ELMO SCOTT WATSON

WHEN a man is compared to the "Big Four of the American Frontier"—Daniel Boone, Davy Crockett, Kit Carson and Buffalo Bill—he is being praised in terms which every American can appreciate. And when the praise comes from such an authority as Gen. Nelson A. Miles, one of our most successful Indian fighters and himself one of the "wilderness-breakers," it is high praise indeed.

In the general characterization of Luther B. Kelly, better known as "Yellowstone Kelly," whose memoirs have just been published by the Yale University Press, as "a most interesting character, equally as fearless, intelligent and resourceful" as the four notables mentioned, is a tribute to a truly important frontiersman. If further evidence of the importance of this modern Daniel Boone is needed, it can be found in the words of Miles M. Quilley, the historian, who edited the memoirs.

"We think of these men as the products of a bygone age and environment, as indeed they were," says Mr. Quilley. "Yet Mr. Kelly still lives in his California home, a witness of the mechanical marvels and the material progress which mark the third decade of the Twentieth century. Like Boone, he is a lover of solitude and of the wilderness; unlike Boone, he had the desire to preserve for posterity the story of the life he loved, and the education and literary capacity requisite to the task. His story is at once an important contribution to the history of the western frontier in the decade to which it pertains and a thrilling tale of sustained adventure whose personal should bring delight to every normal man and boy."

So we have in Yellowstone Kelly a paradox—a strange combination of the cultured and the primitive, a man of good family, well educated and fond of good books and a wilderness hermit whose chosen preference for the solitudes brought him the title of the "Lone Wolf."

Kelly was born in the Finger Lakes country of central New York and passed his boyhood in that romantic homeland of the Iroquoia confederacy. He confesses that his taste for the free life of the forest, plain and mountain may be due to his pioneer ancestry, for numbered among his forebears was the redoubtable Hannah Dustin, whose escape from Indian captivity in the early days of New England is a school history classic.

At the age of sixteen Kelly left the academy at Lima, N. Y., to enlist in the Union army, saw service around Richmond in the closing days of the war and marched down Pennsylvania avenue in the historic Grand Review. Then the regiment to which he was assigned was ordered to Dakota territory, and here his career as a frontiersman began.

While still a soldier Kelly gained considerable reputation in his regiment as a hunter and, what was more remarkable for a "tenderfoot," as a courier and guide in that trackless wil-

Yellowstone Kelly

John Brugher

derness. On one occasion he was detailed to take a wagon train from Fort Wadsworth, where he was stationed, to Sauk Center, Minn., and bring back supplies. "Finally we entered Sauk Center, then a straggling village of one street," he writes. "This was in 1858—and it was to be more than half a century later that General Lewis was to make this little town famous in "Main Street."

Upon being mustered out of the army in 1858 Kelly determined to remain in the western country, which he had learned to love. He first went to Fort Garry, Canada, and then started for the almost-unknown country at the headwaters of the Missouri river. He fell in with a party of English half-breeds starting in their Red River carts for the buffalo country to make pemican and while with this party had his first experience with the red man. They were overtaken by Sitting Bull and a war party, who, as he records, "threwed about me, regarding me with baleful eyes, hate and vindictiveness pervading every feature of their villainous faces." His description of Sitting Bull is interesting: "Sitting Bull appeared to be about thirty years of age. He had a round, pleasant face, and wore a headgear of dirty white cloth, while most of his followers affected black headgear. I suspected that the stiff leather carried to some of the saddles contained war banners, as I saw feathers sticking out of the pouches. . . . They reported killing a white man a short time before near the mouth of the Yellowstone."

Eventually Kelly arrived at Fort Berthold, where he soon proved the stuff that was in him by serving as a mail carrier between that post and Fort Buford at a time when the life of a lone white traveler wasn't worth a nickel unless he was almost superhumanly vigilant. During this time, too, he had the encounter with the Sioux warriors which has become something of a classic in frontier history and which won him the name of "the Little Man With a Strong Heart" from the friendly Indians and that of "Man Who Never Lays His Gun Down" from the Sioux, who had ample reason to know that he didn't.

Then followed the "Lone Wolf" period in Kelly's life, when he lived as a hermit in the mysterious Yellowstone country, hunting, trapping and trading. It was an almost idyllic existence, except for the ever-present danger from the Sioux. The modesty of these memoirs prevents him from admitting, except in the most casual manner, that his life was over in danger, and when he does write of some

of his many brushes with the savages it is in a detached sort of way, as though his principal interest was that of a spectator of a colorful and dramatic event. As witness: "Before I could note any result of the shot the ground around was fairly alive with Indians whipping their horses in our direction. On they came in wild disorder, their ornaments of bright metal flashing in the rays of the morning sun, and there was such a flutter of waving plumes and feathers that the sight was altogether thrilling. We did not stop to admire it, however, for so great was our anxiety to reach the protecting line of timber that with one accord we dropped behind the hill and made for cover as fast as our legs would carry us."

When Gen. George A. Forsyth was sent in 1873 to explore the Yellowstone he was fortunate in securing the services of Kelly as his guide and hunter. Kelly gives but scant space to this expedition, but other historians—as has General Forsyth himself—have testified to the importance of his work. Even more important were his services as scout and guide for General Miles in the Sioux war three years later.

As scout for General Miles in the Sioux war of 1876 he located the camps of Sitting Bull and Gall, and soon afterward Miles and his "foot cavalry," the Fifth infantry, had driven these Sioux across the Canadian line or forced them to come in to their agencies and surrender. Perhaps the most thrilling experiences of Yellowstone Kelly were during the winter campaign of 1876-77, when Miles set out in pursuit of the redoubtable Crazy Horse and his combined forces of Sioux and Cheyenne, caught up with them at Wolf mountain and there fought and won one of the most difficult and at the same time brilliant victories in the whole history of our Indian wars.

Associated with Kelly as scouts at this time were two other men whose names are famous in border annals. They are the celebrated "Liver-Eating Johnson" (concerning the origin of whose peculiar name there are almost as many stories as there are narrators) and John Brugher, a half-breed, who until a short time before this campaign opened had lived in the hostiles' camp. Other historians have recorded how as Miles' soldiers approached the Indians' strongly fortified post on Wolf mountain the savages shouted down to them the grim prophecy, "You have had your last breakfast" and how Kelly and Brugher replied in kind. Kelly makes no mention of this incident in his memoirs, but he does tell a splendidly dramatic story of the battle and the difficulties the soldiers overcame in hunting and fighting Indians in arctic weather. He says little about the fact that he and his scouts endured the same hardships.

After this campaign was over Kelly returned east for a visit after twelve years of absence from home scenes. But he did not stay long. He was needed on the Montana frontier, where Sitting Bull's irconcilables were still giving trouble and where soon afterward Chief Joseph of the Nez Percés made his magnificent dash for freedom from Oregon toward the Canadian line.

There is an era which, when it has lapsed, is invariably referred to as decadent. The war cycle of fashions usually lasts from seven to ten years, and the transition back to more decorous dress is gradual, at times almost imperceptible.

Away From Mannishness. Clearly we are now in the last seasons of the current cycle of the World war mode. Gradually tasteful women are drawing away from exaggerated mannishness. The post-war expressionist, advocate of extreme short skirts, natural outlines and similar

Elegantes Are to Return in Autumn

New Frills Coming—Mauve Decade Gone Forever, Fashion Writer Says.

The victorian elegantes are to return next autumn—all elegantes are buried forever with the fettered past. You may take your choice—both opinions have been freely expressed by authoritative and not so authoritative sources ever since word filtered over from France that Paris was determined to add more elaborate details to the costumes which shall be shown at the coming August openings. On the one hand, says a fashion writer in the New York Herald Tribune, you are told that the modern woman is free, independent and whatnot—never, never will she go back even to the merest suggestion of the burdensome frilleries of the mauve decade—and another oracle will declaim, just as solemnly, a return to those gentle farbeloved days when women were women. Neither judgment is correct—indeed, neither has more than the merest essence of fact as its basis. Of course, the serene debutante of the early nineteen hundreds is not to be resurrected for autumn. Though you may depend upon it that Paris is strongly inclined to feminize and make more complex the still simple styles which are the heritage of the war, that does not mean a revival of leg-of-mutton sleeves any more than it indicates the restoration of the Eighteenth century Watteau costume. What, however, is evident is that there will be a distinct reaction from hoydenish dress next August.

The Eternal Feminine. There is another post-war heresy which it is time to demolish. That is the sentiment that the contemporary fashionable is intrinsically different from the modish meadames of other periods. The modern woman, according to this belief, dresses for comfort first. Let no haute couture attempt to inflict a style upon the smart demoiselle of today which shall not first consider ease of motion, freedom from stays and all the other manifestations of fashion which have gained a place in the mode since the war. Style, of course, has its place, but no style can hope to succeed which does not primarily defer to the comfort of the swiftly moving lady of this progressive age.

All this, of course, is rationalization to the nth degree. No woman has ever yet placed comfort before chic—no woman ever will. And to explain modern fashions in that way is merely the pose of an early century connoisseur attempting to justify styles which secretly distress it. "Short skirts," apologises your victorian ghost, "how could you possibly get about without them? Scant bathing suits—one must swim, you know." And you don't dare disillusion the pathetic little ember of your younger days.

Yet, as a matter of fact, it isn't freedom or comfort or necessity that is at the base of modern fashions. All of these are contributing causes, but the foundation of the present mode is the late World War. If there had been no war there would have been no snug silhouette, no knee-length skirt. It is a matter of history that after every war comes a psychological aftermath, a series of fashions in which sparsely cut garments and close-fitting girdled effects are paraded. The flowing, dignified robes of peace times are discarded and

Afternoon Dress of Yellow Flat Crepe, Detachable Cape, Plaited Skirt.

uninhibited themes, are rapidly declining in numbers. Follies, feminine fancies, frills and furbelows are quietly re-entering the mode, and one fine day we shall awaken to find that, sorrowfully, the war is really over. Les elegantes will not return this autumn. In their ingenious pre-war estate they will never return. But that should not obscure the fact that fashions are daily becoming more decorous, that the hoydenish costume is following the simple chemise dress into oblivion, and that before another year has passed a modern species of elegantes will occupy the stellar place in the mode. She will not be as heavily ornate as the belle of the mauve decade, but she will be frillier and infinitely more feminine than the extremists who have dominated fashions since the war. Bloused silhouettes, boleros, all manner of plaits, cape effects, fringes, shawls, scarfs, are all essential requi-

sites of the new chic, and they represent a drastic contrast from the chemise theme of 1924 and the simple jumper of last year. They are even further removed from the puffed sleeves, wasp waist and sweeping skirts of the pre-war fashions. Those who make their own dresses will notice a vast difference in the character of the models sketched this season in comparison with the much simpler made costumes of the two preceding summers. Two years ago, when the chemise dress was the alpha and omega of the mode it was possible to make every sketched frock from the same pattern. Last year the simple jumper was the leading theme, and even the apprentice home dress-maker was able to negotiate her wardrobe without any great difficulty. Interesting sketches portray a host of different themes, none of which can be termed simple from the viewpoint of the lady who sews her own. Some attractive models have been selected because they are among the simplest and easiest to make of the new smart Paris styles, yet the novice will find even these frocks a problem requiring careful workmanship and earnest application.

A Tailleur Dress of Tan Flat Crepe With a Tucked Front.

A winsome dress which you can make in linen, kasha or a washable silk, is a straight-line affair exploiting the bloused silhouette. Its effect is achieved by means of two large inverted plaits, front and back. Four oval pieces, at the waistline are stitched on after the plaits have been laid. Polka-dot design on the tie, belt and cuff inserts add a chic touch which is worth copying. Making the Coat Dress. An afternoon dress you may make of printed silk, georgette crepe, mousseline de soie or organdie, as you prefer. The fullness at the hips is achieved by means of tucks. The foundation of this dress is a slip of the printed material. Over this is worn the coat effect overdress, which has either side of its front bordered with strips of plain materials. Here is an apparently intricate frock which you will find comparatively easy to make.

If you are still committed to the flare, another sketch may be of interest. The original of this model was made in pale green georgette—if you are thrifflly inclined, substitute organdie. The only decorations on this dress, which was sketched at the Paris opera, are the half-inch tucks which appear at the waist and hemline, and the large bow of grosgrain ribbon. The skirt is cut on circular lines both back and front. Only the venturesome will attempt to make a wrap du soir, and for those intrepid souls there is the flowered chiffon, and fox is the trimming fur. The foundation of this wrap is a huge circular cape with a smaller circle superimposed, the latter set on low in back and high in front. An attractive accessory which is quite essential this season and easily made is the Spanish scarf. If you intend to make a scarf use some such material as a square of lame, brocade, printed silk or chiffon, and don't forget the silk fringe. The flower at the shoulder of this model is also of chiffon—the scarf itself is merely a square of chiffon, plaited.

"BAYER ASPIRIN" PROVED SAFE

Take without Fear as Told in "Bayer" Package

Does not affect the Heart

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-five years for

- Colds
- Neuritis
- Toothache
- Neuralgia
- Headache
- Lumbago
- Rheumatism
- Pain, Pain

Each unbroken "Bayer" package contains proven directions. Handy boxes of twelve tablets cost few cents. Drug-gists also sell bottles of 24 and 100.

CORNS

One minute—that's how quick Dr. Scholl's Zino-pads end the pain of corns. They do it safely. You risk no infection from amateur cutting. No danger from "dross" (acid). Zino-pads remove the cause—pressing or rubbing of shoes. They are thin, medicated, antiseptic, protective, healing. Get a box today at your druggist's or shoe store.

Havoc by Peat Fires

Huge trees topple and eventually fall at Wedholme Dale, Cumberland, England, often without warning. Many stumps of the forest, with trunks over four feet in diameter, are numbered among the hundreds of trees which have fallen. The reason is that for several weeks past a peat fire has been burning under the surface of the earth. At the roots of the trees are consumed, the trees wither and come

crashing down. It is almost beyond human power to extinguish such an underground fire, these being similar to subterranean coal fires, which have been known to burn for many years before going out.

Just as Ordered

Suddenly a shriek of indignation echoed in the air. All those seated in the restaurant turned and regarded with an icy stare the young woman who had given vent to the sound. "Waiter," she said, "please take this

portion of pie away. There are several pieces of straw in it." The waiter looked wistfully at the pie, and then an amused expression flashed across his face. "But that's all right, miss," he explained, anxious to pacate the angry woman. "You ordered cottage pie and, of course, it's thatched."—Philadelphia Inquirer.

Wig parties, the guests wearing colored head coverings, are popular in England.

The KITCHEN CABINET

(© 1916, Western Newspaper Union.)

Half of the joy of life is in little things taken on the run.

Who has no inward beauty, none perceives, though all around is beautiful.

GOOD THINGS TO EAT

For an afternoon tea cake try this tasty little one which you will like:

Orange Cakes.—Cream one-third of a cupful of butter, add one-fourth of a cupful of sugar, cream well and add four teaspoonfuls of baking powder, one-half teaspoonful of salt, the grated rind of an orange and two cupfuls of flour. Pat out thin into small cakes, prick with a fork and bake in a quick oven. Immediately after taking from the oven, open with a fork and insert a lump of butter. Serve at once.

Maple Cookies.—Take one cupful of granulated sugar, one cupful of maple sugar, one cupful of butter, two well-beaten eggs, two tablespoonfuls of water and flour to make a stiff dough. Cut into balls, roll in powdered sugar and bake in a hot oven.

Cheese Balls.—Take one and one-half cupfuls of grated cheese, add one tablespoonful of melted butter, two tablespoonfuls of flour, and when well blended add three tablespoonfuls of milk, a dash of pepper and salt and stiffly beaten whites of two eggs. Form into balls, roll in cracker crumbs and fry in deep fat. Drain on brown paper. Serve with lettuce salad.

Cheese Salad.—Dissolve a tablespoonful of gelatin in four tablespoonfuls of water, add half a pound of grated cheese and a pint of whipped cream, season well with salt and paprika, with a few dashes of cayenne. Pour into a wet mold and allow to become firm. Turn out and cut into slices, serve on lettuce with mayonnaise dressing or with any desired dressing.

Peach Sherbet.—Put a pound of sugar and a quart of water on to boil for twenty minutes; let cool, then add one and one-half cupfuls of peach pulp, the strained juice of an orange and the juice of half a lemon. Freeze. Half of the water may be used and a pint of rich milk, making a richer ice.

For a mint sherbet, use a bunch of mint cooked in the water and add the other ingredients and thin cream; freeze.

Duchess Cream.—Take six tablespoonfuls of tapioca, cook until clear in water to cover, cool, add a pinch of salt, one cupful of sugar, the juice from a can of pineapple, the juice of two oranges and two lemons; cook until thick. When cool add the pineapple cut into dice, one cupful of nuts and a pint of whipping cream. This makes enough to serve a dozen amply.

A Few Choice Desserts.

A delicious and well prepared dessert will often help a plain meal which precedes it, when the dishes were not all that one wished. A plate of stuffed figs, dates or prunes will often serve for a finish to a meal, leaving one fully satisfied.

During the warm weather iced dishes and frozen creams and water ices are greatly appreciated. The water ices are not especially nourishing, and with a hearty meal one needs a light dessert.

Two or three foods digest better in the stomach than a combination of six or more. If we treat the body as we would a nice piece of machinery we will not overfeed it nor overwork it.

When we overeat we waste fuel and choke the fires of the body engine through imperfect combustion. A stuffed furnace can neither draw well nor give off heat.

Orange and Lemon Sherbet.—Take the juice of two oranges, two lemons, and two cupfuls of sugar with a quart of thin cream and freeze as usual.

A mint sherbet to serve with a roast leg of lamb is prepared with a cupful of shredded mint, fresh and well washed. Pour a cupful of boiling water over it and let stand well covered to steep for ten minutes, then drain and add the mint water to the juice of two lemons, a cupful of sugar and a cupful of thin cream, adding enough water to make the mint liquor an even cupful. Freeze as usual.

Apricot Sherbet.—This is delicious with any dinner. Take a can of apricots, put them through a sieve, add more sugar and a can of water. Freeze.

Dainty Dessert.—Take a pound of marshmallows and a cupful of petit meats, cut fine, cut the mallows into quarters and add enough whipped cream to blend and hold them and the nuts together. Put a tablespoonful of pineapple juice into a sherbet cup, fill with the whip and garnish with pineapple or a cherry.

Cream Peach Cake.—Bake a layer cake, using two tablespoonfuls of butter, one cupful of sugar, two well-beaten eggs, one-half cupful of milk and one and one-half cupfuls of flour sifted with two scant teaspoonfuls of baking powder. Put very ripe peaches, peeled, through a sieve, sweeten and mix with almond-flavored whipped cream. Use for filling.

Great Personages of the Bible

By REV. LEONARD A. BARRETT

Ruth

INTENSELY interesting are the circumstances associated with the character of Ruth. The city of Bethlehem is famine stricken; Elimelech and his wife, whose name was Naomi, together with their two sons immigrate, because of the famine, to the land of Moab. It was a very unusual occasion for an inhabitant of Bethlehem to move to foreign soil. It was not unlike going into a land of strange gods. In the land of Moab this immigrant family did not prosper. Elimelech died shortly after their arrival in the land of Moab, leaving Naomi a widow. Her two sons, whom they had taken with them on their migrating journey, married and offered no support to their widowed mother. The two sons subsequently died, leaving Naomi without husband or children. Her only relations in the new land were her two daughters-in-law, Orpah and Ruth. A very important decision on the part of Naomi to return to her native land led to a meeting of farewell with her two daughters-in-law. She told them that there was no future hope for her in the land of Moab, and that the wisest thing for her to do was to go back home, and under no circumstances were the daughters-in-law to go with her. They were both young and beautiful. Fortunes awaited them if they would remain in the land of Moab. A very unusual thing happened. Ruth, one of the daughters-in-law, voluntarily agreed not to remain in the land of Moab, but to return to Bethlehem with her mother-in-law. Naomi did not ask her to go with her. Ruth's decision was simple, direct, and entirely of her own free choice. It was a wonderful confession of loyalty. Being a daughter of foreign soil, it was a sacrifice for Ruth not only to give up her opportunities in Moab but also to return to a land she had never seen and where she would be regarded as a stranger of another land. The words in which Ruth expressed her loyalty to Naomi have become a choice passage in literature. "Entreat me not to leave thee nor to return from following after thee. Where thou goest, I will go, where thou lodgest, I will lodge. Thy people shall be my people, and thy God my God. Where thou diest I will die, and there will I be buried. The Lord do to me, and more also if I ought but death part thee and me." So Ruth went with Naomi to Bethlehem.

A decision in an important crisis in life is not difficult to make if one has the moral reserve strength sufficient for both the surrender and sacrifice. Ruth possessed this quality. The experience of her daily life was of such a character as developed those qualities which made her a strong, noble, and brave woman, a woman who possessed decision and poise.

She knew how to make up her mind and also to act upon her decision. Such a quality of character reaps its own reward. It was true in the career of Ruth. With Naomi she arrived in Bethlehem in the season of the barley harvest. In order that she might not become a burden to Naomi she gleaned in the fields of Boaz. The romance between Boaz and Ruth was beautifully tender. A rich owner of barley fields fell in love with a woman of the very poor class. The marriage of Boaz and Ruth not only brought supreme happiness to both, but also through their marriage they became direct ancestors of the Messiah. Ruth solved her life's problem not because she was beautiful or intellectually brilliant, or even clever. She won the victory in battling with the problems of life because she had the courage to act upon the conviction which her character was strong enough to make.

Sanitation

Great as we are, and smart as we are, we Americans have not moved so fast, sanitarily speaking. It is only a hundred years since the first pumping station in this country started to pump. Chicago was our first city to have a real sewerage system, and that was not until 1855. We had no public baths until 1801. Even today some families think so little of their bathtubs that they use them for coal or vegetable bins.

The science of living, or sanitation—they mean the same—has to do with heat, light, water, cleanliness and ventilation. And these have to do with the five most important things of life—comfort, health, ambition, efficiency, happiness. Where sanitation is a stranger, sickness is a constant guest.—Exchange.

"Billingsgate"

Billings was the name of one of the gates at the east end of London. Why it was so called is unknown, but it was probably named after a man named Billings. Near this gate is a famous London fishmarket known as the Billingsgate market. Records show that this market existed even before the Norman conquest. "Billingsgate" came to be used as a synonym of coarse, vulgar and profane language because it was the most usual language used at the market by the fishmongers and their wives. As early as the Seventeenth century "billingsgate" was widely employed to signify foul or abusive language. There is still a fishmarket on Billingsgate quay and the language heard there is as notorious as ever for its vulgarity and profanity.—Exchange.

TWO WOMEN FOUND HELP

By Reading Experiences of Other Women

Mrs. Nina Matteson, Box 206, Oxford, N. Y., writes—"If it had not been for your medicine, I could not have done my work as it should have been done. Mother told me of Lydia E. Pinkham's Vegetable Compound, and I had read in different papers what it had done for different women. She wanted me to try it, so my husband got me one bottle at first; then I took two others. Now I am feeling quite strong again."

Mrs. Ernest Tanguay of Adams, Mass., says she was ill for four years and could not sleep nights or go out on the street. She read about the Vegetable Compound and decided to try it. After taking eight bottles she was able to do all her work and go anywhere and is quite herself again. This dependable Vegetable Compound is a household word in thousands of homes. The fourth generation is now learning the merit of Lydia E. Pinkham's Vegetable Compound. For more than half a century, this reliable medicine has been used by women with very satisfactory results. If the Vegetable Compound has helped other women, why shouldn't it help you?

ALLEN'S FOOT-EASE

Stops the pain of Corns, Bunions and Calluses. Before putting on your shoes, sprinkle into them some Allen's Foot-Ease and walk all day or dance all evening without the nerve-racking pain of hot, tired, aching, swollen feet. It gives immediate relief. Allen's Foot-Ease the Antiseptic, Healing Powder for the Feet, takes the friction from the shoes and gives rest and comfort. Always use it for breaking in new or tight shoes. Sold by all drug and department stores. Trial Package and a Foot-Ease Walking Ball sent free. Address: ALLEN'S FOOT-EASE, Le Roy, N. Y.

Physicians Stand High on Roll of Martyrs

Since the time when the "black death" swept through Europe, physicians have sacrificed themselves to the cause of public health and safety, according to Hygeia Magazine. Reed, Carroll and Lazear were lost in the fight against yellow fever; Ricketts and McClintic succumbed to typhus and to Rocky Mountain fever; Brazier lost his eyesight from secondary infection during an operation; others have suffered terrible mutilations while investigating the X-rays. A complete list can never be assembled because so many have passed without the recognition of the world, giving their lives silently in the routine performance of their duties.

Restore Stevenson Hut

Another bit of "south sea romance" has succumbed to the onward march of modernity. A few days ago the grass house on the famous beach of Waikiki, where Robert Louis Stevenson loafed and dreamed, and wove some of his best-known stories, was torn down. It would have been utterly lost had not a Salvation Army officer heard of the occurrence. He collected such of it as was usable and is having the house rebuilt on Salvation Army property in Manoa valley, an upland residence section of Honolulu. It will be restored as nearly as possible on the lines of the house where the immortal Scot lived.—Chicago Daily News.

Had to Drink Own Blood

Fearful ceremonies were connected with entry into the Secret Society of the Double Cross in Hungary, an order of which George III, Hungarian deputy, was once a prominent member, says a writer for the Philadelphia Public Ledger. Members had to drink their own blood to seal the entry to the association and swear to oaths which are said to have meant innumerable murders.

To Have a Clear, Sweet Skin Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment, then bathe with Cuticura Soap and hot water. Rinse, dry gently and dust on a little Cuticura Talcum to leave a fascinating fragrance on skin. Everywhere 25c each.—Advertisement.

Prevention is better than cure.

IN THE LEAD

Fisher's engineering experts—skilled beyond their calling by virtue of years of continuous research and experimentation with all types of body construction—unhesitatingly aver that none but Body by Fisher—exclusively used by General Motors for Cadillac, Buick, Chevrolet, Oakland, Oldsmobile and Pontiac cars—affords the essential virtues of safety, beauty and comfort which characterizes every Fisher product. Quite logically the public knows that when any improvement which really gives an enhanced measure of safety, comfort and luxury is perfected, Fisher will be the first to present it just as Fisher has created and been the first to present every important improvement in body design and construction of the past decade.

Office Phone No. 24

Southern New Mexico Association Convention

UNIQUE, unprecedented, and unusual will be the features of the program as now contemplated by the entertainment committee of the Carlsbad Chamber of Commerce for the visitors to the Southern New Mexico Association Convention which will be held at Carlsbad on August 17-18.

The business meeting of the association will be held at the American Legion pavilion at Carlsbad bathing beach on the morning of August 17. Each city holding membership in the association will furnish a speaker who will bring before the convention the commercial and scenic attractions of his own particular community, and distinguished guests will be given opportunity to speak at the morning session of the convention.

The afternoon will be devoted to the mammoth water carnival at Carlsbad bathing beach. There will be the usual one mile, half mile, and quarter mile races, fancy swimming and high and fancy diving from the thirty-foot tower and the spring board. Special events for children have been featured on the program. Expert swimmers from cities within a radius of 300 miles from Carlsbad have expressed their intention to participate in the water carnival sports.

Carlsbad bathing beach is an exceptional pleasure resort and is without equal at any city in the great Southwest. With the spillgates closed at the Government's Avalon diversion dam of the Carlsbad irrigation project, the water at the beach is supplied from the Carlsbad and other like springs on the Pecos river, whose waters analyze similar with the famous Carlsbad Spring of Bohemia, Austria. Visitors to the beach remark that the swimmer's body remains cool a number of hours after each plunge and the medical profession attributes this unusual condition to the salts in the waters of the Carlsbad and other like springs on the Pecos river. There will also be held during the afternoons of August 17-18, a ball game between Carlsbad's Cavemen, which team has not been defeated this season, and an out-of-town team still to be scheduled.

The local entertainment committee has under consideration a large night fireworks display of spectacular set pieces, rockets, and water falls and concluding with the American flag, such as was displayed by the American Legion at Carlsbad bathing beach on the evening of July 4, last when more than 2,000 people from Carlsbad and the surrounding territory pronounced the scene the most enjoyable display they had ever witnessed. The fireworks will be set off from the east side of the river and opposite the bathing beach to afford the additional spectacle of the reflection in the waters of the lake. The display will be in charge of the American Legion and promises to be a feature of attractiveness. (Continued next week)

NOTICE OF PUBLICATION State of New Mexico, County.

PUBLIC LAND SALE LINCOLN COUNTY Office of the Commissioner of Public Lands, Santa Fe, N. M.

Notice is hereby given that pursuant to the provisions of an Act of Congress, approved June 20th, 1910, the laws of the State of New Mexico, and rules and regulations of the State Land Office, the Commissioner of Public Land, will offer at public sale to the highest bidder at 9 o'clock A. M., Saturday, August 29th, 1926, in the town of Carrizozo, County of Lincoln, State of New Mexico, in front of the court house therein, the following tracts of land, viz: Sale No. 2221.

The N1/4E1/4, Sec. 20; SW1/4E1/4, Sec. 20, Twp. 1 S., Range 10 E., N. M. P. M., containing 120 acres. The improvements consist of five houses, three corrals, well, windmill and tower, fencing, storage tank and shearing plant, value \$11,650.00.

No bid will be accepted for less than Three dollars (\$3.00) per acre. The successful bidder will be required to pay at the time of sale five per cent of the amount bid, the cost of advertising and other costs incidental to the sale.

A copy of the form of contract will be furnished on application. All mineral rights in the above described lands are reserved by the State. The Commissioner of Public Lands, reserves the right to reject any or all bids offered at this sale. E. B. Swope, Commissioner of Public Lands, State of New Mexico, June 11-August 20-11 weeks.

NOTICE OF SALE OF REAL ESTATE AND LIVESTOCK UNDER FORECLOSURE DECREE

Notice is hereby given that by virtue of the terms of the final judgment and decree of foreclosure and sale, entered by the Third Judicial District Court of the State of New Mexico, in and for the County of Lincoln, on the 31st day of October, 1925, in cases numbered 3298, wherein Grato E. Comrey is plaintiff and Denny L. Spald et al, defendants, and the First National Bank of El Paso, Texas, Intervenor, and numbered 3408, wherein The First National Bank, of El Paso, Texas, is plaintiff, and Denny L. Spald, defendant, on the civil docket of said court, consolidated for the purpose of trial, and in which the mortgages executed by the said Denny L. Spald conveying the hereinafter described property were foreclosed, the undersigned will offer for sale at public auction, and sell to the highest bidder for cash, at ten o'clock a. m. on Tuesday, the 27th day of July, 1926, at the front door of the courthouse in Carrizozo, New Mexico, the following described property, situated, lying and being in Lincoln County, New Mexico:

Tract No. 1. S1/4 of the S1/4 of section 2, township four south, range 11 east, N. M. P. M., on which the judgment in favor of the plaintiff, The First National Bank of El Paso, Texas, is a first lien, and the judgment in favor of Grato E. Comrey is a second lien.

Tract No. 2. S1/4 of section 9, and N1/4 of NW1/4 of section 10, township 4 South, range 11 E., N. M. P. M., on which the judgment in favor of the plaintiff, Grato E. Comrey is a lien.

Notice is further given that I will, at the same time and place, and by virtue of the same decree, offer for sale at public auction, and sell to the highest and best bidder for cash, range delivery, all those certain chattels and personal property described in said decree as follows, to-wit:

All and singular, the cattle and horses branded fleur de lis A, described in chattel mortgage No. 6935, registered in book A-7 of the chattel mortgage records of said Lincoln County, at page 37.

The said personal property will be offered for sale first, and the proceeds thereof applied in part satisfaction of the judgment in favor of the said The First National Bank, of El Paso, Texas.

Notice is further given that the amounts awarded by the court in said decree, and to be realized at said sale, are as follows: Judgment in favor of Grato E. Comrey, with interest calculated to date of sale, \$3614.20

Judgment in favor of the plaintiff, The First National Bank of El Paso, Texas, with interest calculated to date of sale \$210.07 Special Master's fee 18.00 Accrued court costs, 25.00 Total \$3857.27

together with all costs of sale. The further terms of this sale are that the purchaser must pay cash at the time the property is struck off to him. GRACE M. JONES, Special Master July 23-Aug. 26

State of New Mexico) County of Lincoln) No. 3564. In the District Court. Mrs. Alice Lacey, Plaintiff, vs. Phil H. Blanchard, W. E. Blanchard, F. L. Blanchard, Dorothy King, H. E. Halstead, Federal Reserve Bank of Dallas, Texas, and W. J. McInnes, Receiver of the Citizens' National Bank of Roswell, New Mexico, Defendants.

NOTICE OF SALE Whereas, the above-named Court, in a Mortgage Foreclosure suit on the 10th day of May, 1926, found there was due the plaintiff on her First Mortgage against the real estate hereinafter described, the sum of \$2,444.46, and on her Second Mortgage the sum of

\$6,079.32, a total of \$8,443.77. That on the same date, the said Court appointed the undersigned Special Master in Chancery to advertise and sell the said property, and otherwise to execute and carry into effect the said Decree.

NOW THEREFORE, Notice is hereby given that I will sell the said property, namely, and Undivided One-half Interest in and to the property in the County of Lincoln, State of New Mexico, as follows: South West Quarter of North East Quarter, North West Quarter of South East Quarter, South East Quarter of North West Quarter and North East Quarter of South West Quarter of Section Twenty-two, Township Three South of Range Seventeen East, known as the "Gallo" Ranch;

Also, North East Quarter of Section Nineteen, Township Four South of Range Seventeen East, known as the "Juan Largo" Ranch, to the highest bidder for cash at public auction, at the front door of the Court House at Carrizozo, N. M., at the hour of 10 o'clock A. M. on the 11th day of Aug., 1926, to satisfy the said amounts due plaintiff and the costs herein. This the 12th day of July, 1926. GRACE M. JONES Special Master in Chancery. July 16-Aug 6. 4 times

IN THE DISTRICT COURT OF LINCOLN COUNTY, NEW MEXICO

J. J. Reeves, Plaintiff, (No. 3574) vs. Jose Ramon Vigil, et al, Defendants.

NOTICE OF SUIT State of New Mexico To

Jose Ramon Vigil, Victoria de Vigil, wife of Jose Ramon Vigil, and the unknown heirs of Jose Ramon Vigil and Victoria de Vigil, If dead, Lupita Vigil de Salas, Cresencio Salas, husband of Lupita Vigil de Salas, Louisa Vigil de Allen and J. Allen, husband of Louisa Vigil de Allen, Vicente Flores, Geneva Plencia Flores, wife of Vicente Flores, Fluyencio Flores, Reimunda Trujillo de Flores, wife of Fluyencio Flores, Francisco Vigil, Esolia Gonzalez.

GREETING: You are hereby notified that J. J. Reeves, has filed a complaint in the District Court of Lincoln County, New Mexico, to-wit: Case No. 3574, and that the object of said suit is to quiet the title in the plaintiff to the following described lands, to-wit:

NE1/4SW1/4 and NW1/4SE1/4 and S1/4SE1/4 all in Sec. 26, Twp. 10 S., R. 16 E., except a parcel in SE1/4E1/4 Sec. 26, described as follows, to-wit: Beginning at the corner of Section twenty-five (25) twenty-six (26) thirty-five (35) thirty-six (36) in Township Ten (10) South of Range Sixteen (16) East of the New Mexico Principal Meridian; thence West 3.70 chs. to the middle of the channel of the Ruidoso River, thence up the middle of the channel of said river to a point which is N. 25 deg. E. 2.11 chs. from point last mentioned; thence N. 20 1/2 E. 10.80 chs. to a cotton wood tree, thence N. 20 1/2 deg. E. 8.22 chs. to a stone, thence east 1 deg. 9 chs. to the NE Corner of SE1/4 of SE1/4 Sec. 26, thence South 19.50 chs. to place of beginning, containing 12.50 acres more or less Magnetic Variation 10 deg. 35" east.

and forever bar and enjoin each of you from ever asserting any right, title or interest in the above described real estate.

And if you fail to answer said complaint on or before the 3rd day of September, 1926, default will be entered against you for failing to answer, and said trial will proceed in your absence, and a judgment will be entered against you.

The names of the plaintiff's attorneys are J. C. Gilbert and H. C. Maynard, and their postoffice address and place of business is Roswell, Chaves County, New Mexico.

Dated this 20th day of July, 1926. Lotah Miller, Clerk of the District Court. July 23-Aug. 13

NOTICE FOR PUBLICATION Department of the Interior U. S. Land Office at Las Cruces, N. M. July 12, 1926.

Notice is hereby given that Paul Rudolph Finnder, of Corona, N. M., who, on April 3, 1922, made Hd. Orig. containing 640 acres, No. 027386, for SE1/4SW1/4, S1/4SE1/4, Sec. 23, E1/4W1/4, SW1/4NW1/4, sec. 23, Township 3-S., Range 16-E., N. M. P. Meridian, has filed notice of intention to make Three year Proof, to establish claim to the land above described, before Louis De Wolf, U. S. Commissioner, at Cedarvale, N. M., on the 2nd day of September, 1926.

Claimant names as witnesses: Frank Seltmeier, Homer A. Stuart, Floyd Proctor, Cecil Poff, all of Corona, N. M. K. D. Stoes, Register. J 16 A12

NOTICE FOR PUBLICATION Department of the Interior U. S. Land Office at Las Cruces, N. M. July 21, 1926.

Notice is hereby given that Alvin Moses Chambers, of Jicarilla, N. M., who, on May 28, 1923, made Hd. Orig. containing 320 acres, No. 028384, for S1/4 Section 26, Township 5-S., Range 13-E., N. M. P. Meridian, has filed notice of intention to make Three year Proof, to establish claim to the land above described, before Lotah Miller, Probate Clerk, at Carrizozo, N. M., on the 9th day of September, 1926.

Claimant names as witnesses: Mack Weaver, Elbert Strawbridge, Charles Stoneman, Jicarilla, N. M., Bill Lowrance, Rabenton, N. M. K. D. Stoes, Register. J 30-A 27

NOTICE OF SPECIAL MASTER'S SALE

Notice is hereby given that the undersigned Special Master, in accordance with the decree of foreclosure dated the 30th day of October, 1925, in that certain cause in the District Court of Lincoln County, State of New Mexico, wherein Catherine Brickley is the plaintiff and Lena M. Spence, William A. Spence, Joseph B. Spence, Charles A. Spence, Kathryn Spence, Florence A. Spence Finley, El Paso and Southwestern Company, a Corporation, Lin-Brum, and Lena M. Spence, Executrix of the Estate of Clarence Spence, deceased, are the defendants, being numbered 3483 on the civil docket of said court, will on the 4th day of September, 1926, at the hour of 10 o'clock in the forenoon, at the front door of the County Court House of Lincoln County, in the Town of Carrizozo of said County and State of New Mexico, offer for sale and sell at public auction to the highest bidder for cash, the following real estate, situated in the Town of Carrizozo, County of Lincoln, State of New Mexico, to-wit:

All of Block Number 9 in the Boulevard Addition to the Town of Carrizozo, New Mexico, as shown by the Map of the Plat of said Addition now on file in the office of the County Clerk, Lincoln County, New Mexico, as shown by deed of record from Peter M. Lacey and Fannie Lacey, Ira C. Wetmore and Maggie Wetmore, to Clarence E. Spence, recorded in Book A-1, page 44, in the records of Warranted Deeds, Lincoln County, New Mexico, with all improvements thereon, or to be placed thereon during the life of this mortgage.

Said sale is made to satisfy an amount found due the plaintiff in the sum of \$9166.67, with interest thereon at the rate of 10 per cent per annum from the 30th day of October, 1925, and \$815.66 as attorney fees and the costs of this action taxed at \$10.00 which on the date of sale will amount to \$9973.41 and the costs and expenses of said sale to be taxed. That the terms of said sale are cash except that at said sale the plaintiff, after paying in cash an amount sufficient to cover the costs and expenses of said suit and sale is entitled to bid as cash the amount of her judgment. E. M. Brickley, Special Master. J30-A20

Telling the Truth

Vaughn News: Our readers are still talking about "rasberries." Some say we are the biggest knocker in town, while another say it is the first time he has known us to tell the truth.

A short time ago, says an exchange, an Indiana editor got tired of being called a liar all the time and announced that in his next issue he would publish nothing but the truth. It contained the following items:

"John Benin, the laziest merchant in town, made a trip to Beaville."

"Jim Coyle, our groceryman, is doing poor business. His store is dirty and musty. How can he expect to do much?"

"Dave Conkey died at his home here Tuesday. The doctor gave it out as heart failure, but whiskey killed him."

"Married—Miss Silvia Rhodes and James Collins, last Saturday. The bride is a very ordinary girl, who doesn't know any more about cooking than a jack rabbit and never helped her mother three days in her life. She is not a beauty by any means, and has a gait like a duck. The bridegroom is an up-to-date loafer. He has been living off the old folks at home, and is not worth shooting. It will be a hard life."

"If newspapers told the truth all the time, the murder of an editor now and then wouldn't be considered unusual."

More Dependable Than Ever

Dodge Brothers, Inc., achieved third place in world production this Spring because they have been able—WITHOUT SACRIFICING FUNDAMENTALS—steadily to improve the smartness of their product.

Owners and engineers know well that mechanically the car is sturdier than ever—cost of upkeep lower—and performance more dependable.

Refinements and lower prices have been made possible by spectacular increases in sales. Not by violating the basic tenet of Dodge Brothers success: NEVER TO LOWER QUALITY IN A SINGLE DETAIL.

Murdered

New Mexican: New Mexico has another murder mystery.

Swan Fredlund, aged 53 years, unmarried, known for years as a mining prospector at Petaca, 13 miles from La Madera, Rio Arriba, county, disappeared about March 1. His dead body was found yesterday evening in a prospect hole on the Moon Claim mica mine, two miles west of Petaca.

Fredlund apparently had been murdered; there was a big hole in his head which might have been made by a pick swung with considerable force. Near by was a wheelbarrow partly filled with water. Fredlund, it is thought, was struck down by some enemy while he was at work.

Fredlund never carried money around with him and had no love affairs; the motive for the murder is thought to have been jealousy over some mining claim Fredlund owned, or revenge for some wrong, real or imaginary. Fredlund owned five mining claims he considered worth \$10,000.

Commissioner's Proceedings

The Board of County Commissioners met Wednesday, July 14, 1926.

Present, Brack Sloan, Chairman; L. R. Hust, Vice-Chairman; Lotah Miller, Clerk.

Absent: Roman Pacheco, Member.

The Board of Commissioners met Wednesday, July 14, for the purpose of making a payment on all old County indebtedness for the year 1923 and prior, and hereby order a two-thirds payment on all old accounts.

There being no further business before the board, they adjourn until call. Brack Sloan, Chairman. By Lotah Miller, Clerk.

Destructive Floods at Three Rivers Recently

After returning from their visit to Three Rivers about one week ago, Mr. and Mrs. F. L. Boughner, daughters, son and mother, Mrs. Wm. Boughner, they gave a detailed account of the damage done by recent floods in that vicinity which corresponds with the following article in the Alamogordo News of last week which we are giving below.

WHO REMEMBERS WHEN

the man that smoked cigarettes was considered "going to the dogs" and unfit for decent people to associate with — and who remembers the certain phrase "Driving a Nail in his Coffin?"

Lincoln State Bank Declares Dividend

The Lincoln State Bank, through its receiver, A. D. Brownfield, declared a 10 per cent dividend last week and the blue warrants could be seen in the hands of many former depositors, who with smiles, extended their thanks to the receiver. "Do it again, A. D.," was the friendly response.

Alamogordo News:

Residents from Three Rivers report that the recent floods there were the largest and most destructive in the history of that section. It is estimated that \$50,000 to \$75,000 damage was done to the farms in the upper reaches of the canyon. Thirty-nine mature horses were drowned in one pasture and there was considerable loss among other livestock. Despite extensive drainage features that have always been adequate for the most extensive floods, the flood, it is said, swept over the railroad track from a foot to two feet deep for a distance of two miles. The course of the Three Rivers channel was changed some two miles further south and it is said

SUGGESTIONS TO AVOID ACCIDENTS

Seasoned Drivers Fail to Make Allowance for Faults of Novice.

As a result of several recent investigations into accident causes in which it was shown that collisions often result from the inability of seasoned drivers to make allowances for the shortcomings of beginners, the accident prevention department of the Chicago Motor club has outlined for motorists some suggestions as to safeguarding car users through better understanding between drivers.

Special Recommendations.

The recommendations of especial importance are as follows: "Whenever a driver seems to be usurping the right of way at an intersection when he is not entitled to do so it is safer to assume that he is inexperienced and not willfully disrespectful of law and order. Too many motorists seek to 'teach others a lesson' at the wrong time, and the inevitable result is an accident.

"The proper time to teach the new driver the rules of the game is before he has to apply them. The experienced driver who leads the beginner into believing that the only way to learn to drive is to enter heavy traffic and 'sink or swim' is only encouraging the worst form of recklessness.

Willfully Reckless Driver. "The willfully reckless driver may change his mind at the last moment and avoid trouble simply because he drives well enough to know how to avoid it, but the inexperienced driver has no such advantage.

"There will be about 1,000,000 new drivers this year if car sales continue at the present rate. Although skill in operation of the car is an easier matter to acquire by reason of the great improvement in controls, traffic conditions are more complicated than at any time in the history of the automobile and knowledge of rules of driving and courtesy has never been more important. In view of present conditions the experienced motorist cannot afford to mistake ordinary inexperience for willful recklessness."

Proper Tire Equipment for the Vacation Trip

The motorist who starts on a vacation trip without proper tire equipment is likely to find that he has been penny wise and pound foolish. Nothing so quickly ruins the pleasure of a vacation trip as tire trouble. Repairing tires out in a broiling sun is anything but fun, and, besides this, it causes delay which many times upsets schedules and definite plans.

If a motorist has to purchase tires at some mountain or canyon resort he usually finds that freight and extra profit have been tacked on, so that the price is extremely high.

By carrying two or three spare tires, depending, of course, upon the length of the trip, the vacationist is prepared in case of punctures or blowouts to quickly change and proceed on his way. The safest course of all is to put the new tires on the wheels and use the old tires as spares. There is much less likelihood of puncture in a fresh new casing than there is in a thin, worn tire.

Tube Vulcanizing

It often happens that in vulcanizing a tube, particularly in the open air, the rubber is burned. This may be obviated by making a collar about four inches high to fit around the vulcanizer, using several thicknesses of ordinary wire mosquito netting, fastened together with a couple of rivets of wire run through. This should be placed over the vulcanizer just before lighting the gasoline.

BUSSES NOW ARE LARGEST USERS OF GAS

Schoolgirls Make Splendid Use of Buses on Trips into Country.

The increased use of buses in this country is causing a noticeable jump in annual gasoline consumption. One bus in constant operation consumes from ten to twenty times as much gasoline a year as the average passenger car.

The 70,000 buses in operation in the United States last year used 271,000,000 gallons of gasoline, a supply sufficient for 700,000 pleasure cars.

The buses covered a total distance of 1,900,000,000 miles and the gasoline consumption for each vehicle has been estimated at from 4,000 to 10,000 gallons.

The rapid expansion of bus lines is expected to show a greater increase in gasoline consumption during this year.

Constant Driving Will Keep Car in Good Trim

"I don't believe I can drive that far in a day," says the typical motorist, contemplating a 300-mile jump. "I'm not in trim."

And yet this same motorist will expect his car to take him any distance any time regardless of whether it is in trim.

The car that is going day and night always is ready for the long trip, or the hard trip, because it has to be in good condition to stand the daily grind. The car that is never really ready is the one that stands in the garage all week. It may have a water leak, or its carburetor may not be adjusted for the change in the weather. Cars are like their drivers in a great many respects, and the matter of being in trim is one of them. Exercise is vitally essential to good service from a car.

This is clearly demonstrated when a car has been in storage for a long period. Everything is stiff when the car starts. Things do not work at their best. Tires are low, springs are rusty, even the stale gas in the tank makes the engine lumpy. The car that is in trim never acts this way. It is always ready, always capable of meeting the demands.

Emergency Filler Very Handy Automobile Tool

When one is in the country and discovers that the radiator has to be filled with water, but is handicapped by not having a pail or similar receptacle, the rubber floor mat will be found quite serviceable. By folding it, as shown in the detail, and holding the edges together firmly water can easily be carried in it and poured through the radiator opening.

Handy Emergency Filler.

—Joseph A. Moffitt, Phoenix, Ariz., in Popular Mechanics Magazine.

Accidents Prevented by Proper Control of Horn

The inexperienced "Sunday driver" type of motorist thinks the only thing the horn is for is to play a never-ending concert in the ears of pedestrians. Horn control is a fine art and its proper use can prevent accidents.

Excessive use of the horn indicates a novice driver, but its proper use shows the veteran. The novice relies upon his horn to keep others out of danger. The veteran relies upon his control of the car. He slows down for people crossing the streets. He doesn't toot his horn and force them to jump. The novice has to rely upon his noise maker because in nine cases out of ten he is outdriving his brakes.

Watch the novice as he approaches a corner. He doesn't slow down, figuring another car may be coming at the rate of 25 feet a second. No, no, nothing like that. He starts "squawking" 25 feet from the corner depending upon his noise to get him through. The veteran driver slows down and uses the horn less in all instances.

A really good driver can do without a horn in most instances. The novice seems to feel he could do better with a steam calliope.

The WATER BEARER
By J. ALLAN DUNN
AUTHOR OF "A MAN TO HIS MATE" "RIMROCK TRAIL"

CHAPTER VIII Prospects

Caleb secured an amiable, steady-gaited saddle horse for his trip the next morning. He carried his creek an awkward thing to a rider of his lack of experience. In it he packed his lunch and a survey instrument or two with notebook and drawing materials. In his rod case, another cumbersome thing for him to carry, he included besides the joints of his pole a steel rod that he had secured at a blacksmith's in the upper valley, a tempered probe to be used for investigating depths of deposits. He had a geologist's hammer in one pocket, in another pipe and tobacco. His camera was tied to the saddle.

Leisurely he rode down the valley, diverging sometimes and climbing a ridge, probing with his steel rod, taking photographs, making a contour sketch where the camera would not serve his purpose, marking closely the lip of strata, the character of rock formations, the general life of the country. Finally, close to noon, he rode down a wash, the sides of which were clothed in buckeye and oak, and lunched by the side of Boca creek, where the two sycamores made an archway for its waters.

He took the pendant from its packing and laid it in the palm of his hand. The tiny fishes, united by the ribbon, were delicately yet sharply cut.

Two fish united. A symbol of two living things that lived and moved in the same medium—water. Joined by a ribbon. Pisces and Aquarius. A swift suggestion came to him that the symbol might indicate more than he had intended when he ordered the trinket. He flushed a little as he wondered whether the girl might devise some intimate intention in the design. Then he laughed at his own presumption. It was her sign. Its connection with that on his own seal was fanciful, far-fetched.

He put the pendant back, got up, rolled his blanket, saddled and rode out into Caliente Sink, turning south along the creek, on through the canyon to the suspension bridge. There he dismounted and led his horse down the bank to the edge of the creek. He took off his roll and thrust the blanket and raincoat into the hollow of a tree that was masked with ferns, together with his creel and rod case. Unremembered, he loped on to El Nido.

"This is my party call," he announced to Betty, who came to meet him, after Padilla, with a smile of greeting, had led away his mount for a grain feed and a promised rub-down and Maria had shown him into the patio.

The girl looked grave, seemed quiet, he fancied. But she brightened at the gift and accepted it without reserve. "Is this really my sign?" she asked. "One would think that I was a twin." "It was very thoughtful and original of you to choose this. I shall like it best of all my gifts. Something made for me, something that belongs, if we are to credit the astrologers. Do you know, we have an old volume that treats of such nonsense. Father will be pleased, too." Her own pleasure was so open and earnest that Caleb felt his satisfaction growing. He was glad she appreciated his taste.

They discussed the picnic and her friends, in friendly fashion. Thornton had returned to his Fresno vineyards. The Veddera, it seemed, had liked Caleb and wanted to see more of him. Carmen had reiterated her determination to insist upon a new barefoot from him. "If it was only a souvenir of the occasion," she had said. Betty appeared inclined to tease him a little about the impression he had made on Carmen.

"I am afraid I shall not see much of Miss Wilson," he said. "I expect to be very busy shortly." She did not inquire specifically what he meant and he did not volunteer it. He did not mean to discuss his discovery with anyone until it was an accomplished fact—unless it became necessary in the order of business. Later he might have to broach the subject to Betty and her father.

At the end of an hour he rose to go and the girl ordered his horse saddled. She gave him her hand, cool and

firm but with the grip that told of efficiency, and he rode off. He left the direct trail to the caynon and mounted to a low rolling ridge that paralleled the stream. His eyes roved the valley, looking again for the benchmarks he had noted on his first visit.

And then he saw from the height what his previous trails had hidden from him—the grove of cedars about a low white railing and, within the fence, some white headstones—the three-generations cemetery of the Clintons.

He frowned a little at the sight, remembering the girl's declaration. But he did not forego his present purpose. He was firm in his belief that public service was greater than private sentiment and he hoped that he could overcome the feelings of the father and daughter when the time came. If this obstacle had to be surmounted, it should be. He was strong in his conviction that he would overcome all hindrances to his great project, that already promised too much to be abandoned.

It was nearing twilight when he came to the gorge. He considered it best not to risk a fire. He did not want his operations observed until he had come to a conclusion concerning them. He believed himself outside the bounds of the Clinton property, but he was not certain. If he was

"I Am Not in Love With Her," Caleb Said Half Aloud.

trespassing, he felt that Clinton and his daughter, in their present moods of resolution regarding any disposition of Hermanos valley, might resent what he was about, if they guessed its import, as a breach of hospitality.

He felt a little uneasy about his ethics. What he was about was for the public weal; it outweighed private considerations, he told himself, hammering home the argument. Hermanos valley was a private holding, yet, if public necessity demanded it for a dam site, public pressure, leading perhaps to legislative procedure, might insist upon condemnation proceedings.

But, if Clinton did not yield gracefully, the affair would create quite a stir, and Caleb would appear to Betty and her father in the light of a treacherous guest who had taken advantage of their hospitality to spy out the land. They would hold him responsible for ultimate condemnation and the desecration of the little graveyard.

The face of Betty Clinton, hurt, indignant, scornful, rose up before him. Perhaps he might be able to argue them to his standpoint, though he knew that idea was hardly tenable. He wanted her good will. Some instinct, entirely foreign to what he would have described as good Yankee common sense, whispered that his sentiment toward her was deeper-rooted than he imagined. That it might ripen into love, a love that might be well reciprocated and that would be well worth while.

"I am not in love with her," Caleb said, half aloud. And, as he said it, he knew that the girl could not be dropped out of his life without leaving a wound that would ache long

after it had become a scar. He was in the grip of complex emotions. Brain pointed out the importance of the project, born of his own talents, made possible by his talents. And the sex instinct, the desire of one woman, wrestled with the offspring of his intellect. Brain and heart were at odds.

But two things had come plainly out of the muddle. He wanted to carry out the work. That was a thing that should be done—if he did not someone else would, sooner or later, make the same discovery. And he wanted Betty Clinton. It was not that he merely did not want to lose her respect and friendship—he wanted her.

The desire of her continually inhibited concentration on his project. He woke before dawn, moved his horse to a better patch for browsing, took his probe and geologist's hammer and started to work, resolutely dismissing any aftermath of the night's problem. He had not brought wading boots with him and he took off shoes and socks and puttees, turned up the laced ends of his riding breeches and waded out into the gut where the pent-up waters of Hermanos, when the valley was a lake, had broken through.

The sun was two hours high before he came out of the creek, his pockets filled with rock samples, wet, tired, his purpose accomplished. He had still to refer to certain geological reports, to analyze his samples, but he was sure of the result.

His jaw was set and his face grave from concentration, but it shone with a certain satisfaction.

"That problem is solved," he said aloud as he mounted his horse at last and rode the willing steed down canyon toward the breakfast that both craved. He did not notice the man who came out on the suspension bridge and watched him until the foliage shut him from view.

It was Padilla. The Mexican's face was puzzled, suspicious. He could not understand why el señor should have stayed the night at the head of the canyon. He descended to the creek bed, readily finding evidence of what Caleb had been doing, evidence that a day or so would have erased. He saw where Caleb had gone down into the stream and his quiet eyes noted where the rocks had been chipped. A convulsion came over his face with the sudden conviction that the guest had been up to no good.

"The dam! Gringo, Yankee spy!" he muttered. But his thoughts were twisted. He remembered Caleb's gallant action with the bull. He could not justify the two affairs. And he could not comprehend what Caleb had been up to. Unless it was mining. And there was no gold on Gabilan, no silver or cinnabar. Save that, whatever he had done, he had accomplished secretly, deliberately giving out the impression that he had gone down the canyon the night before. He decided to talk the matter over with Maria.

For four days Caleb worked day and night, almost unceasingly. Every night he practiced his qualities as Water Diviner. He cut his own hazel twigs and, as soon as the moon was up, he went out on the desolate surface of the Sink, with results that justified his first impressions. There was water everywhere. It backed up to the southern border and the presence of the water proved that clay lay under it. This he verified by finding clay on the side hills with his boring probe. His eastern had walls as well as bottom, a lining that was impervious. It was a giant clay saucer holding water for the population of a whole city.

At the end of the time he was worn lean and tired in body. Sleep had been snatched in catnaps through the day, before the moon came up and in the early hours of dawn. He returned to the hotel, gave up his horse and slept luxuriously for thirty hours. But, before he went to bed, he dispatched a telegram. It was to his lawyer in the East, to whom he had given certain powers-of-attorney concerning the possible sale of his house. In the message he urged an instant sale, even at some slight sacrifice, and asked for the wired remittance of the price through his Golden bank.

Quick with enthusiasm, he went back to Golden, fully rested, to complete plans for submission to Cox. The latter, he found, was out of town and not expected for two weeks. This suited Caleb, who had much to do. He hired a small office and equipped it with drafting table, desk, a small filing cabinet and two stools.

He had to set his plans on paper, to make drawings, put together rough estimates, and he resolved to make a working model of the whole project. He did not anticipate being able to do more than suggest the magnitude of the affair and its cost. What he mainly hoped for was to prove its practicability, and the model would go far toward that.

(TO BE CONTINUED.)

Survives 2,000 Years

After 2,000 years, the cement lining of the Pont du Gard—an aqueduct built in southern France by the ancient Romans—is harder than when built, and form marks on concrete foundations in the forum at Rome are still as distinct as ever.

Glory in Work

There is a perennial nobleness and even sacredness in work. Were he ever so besighted, forgetful of his high calling, there is always hope in a man who actually and earnestly works.—Carlyle.

Art of Repetition

The average woman has a vocabulary of about 800 words, according to a Middle Western newspaper man. It is the turnover which produces the volume.—Blair City Tribune.

Daniel Sullivan, owner of the Swan Inn, a road house east of Gallup, was shot and killed by an unknown man who drove up to the place in an automobile and escaped in the machine after killing his victim.

The War Mothers' Memorial Hospital Association, through the Albuquerque Chamber of Commerce, bid in a site for the national hospital at an auction of state land by E. B. Swopo, New Mexico state land commissioner.

With only sixty acres left to cultivate from their once spacious grant, and only a hundred Indians left but with thirty able-bodied workers, the Pueblo Land Board, after a preliminary survey, finds the Pueblo of Picuris, in the mountains sixty-five miles north of Santa Fe, in pitiable condition as the result of the incroachments of years.

Shareholders in the Salt River Valley Water Users' Association are entitled, under the terms of a resolution adopted by their board of directors at Phoenix, to three-tenths of an acre foot of additional water to the acre during the present irrigation year, if they already have exhausted their current apportionment of 3.25 acre feet.

Federal internal revenue, amounting to nearly \$2,000,000, was collected in the district of Arizona during the fiscal year ending June 30, an increase of nearly \$285,000 over what was collected during the preceding fiscal year. John H. Towles, United States collector of internal revenue for the district, announced in Phoenix in reporting the receipts of his office.

According to the July industrial survey report, issued from the office of the U. S. Employment Bureau of the U. S. Department of Labor at Denver, Colo., resident labor of all classes is quite steadily employed in New Mexico. Harvesting under way, is affording quite a number of additional field workers with temporary employment; supply of seasonal field workers is barely adequate. Metal mining is increasingly active, particularly in the Silver City, Santa Rita, Hanover, Fierro and Valedon camps. The report states that industrial and labor conditions in Arizona are very good. Resident labor and a considerable number of migratory workers are steadily employed. A slight shortage of competent farm workers is reported. It is indicated that there may be a shortage of approximately 4,000 cotton pickers in Arizona at commencement of the cotton picking season, about August 15. Producing metal mines continue quite active, particularly in the Bisbee, Ajo, Jerome, Tombstone and Globe-Miami districts. New metal mine construction and development work are gradually expanding.

Two sons of William Smith, farmer, whose body was found in a well on his ranch, forty-five miles northwest of Cuba, N. M., have been arrested on a murder information and given a preliminary hearing before a justice of the peace and bound over to the District Court, under \$5,000 bond, according to Sheriff Montoya of Bernalillo.

Certain portions of Arizona have been put under a rigid federal quarantine to prevent the spread of the thurberia boll weevil not only in Arizona, but outside the state lines.

ALL AROUND THE GLOBE

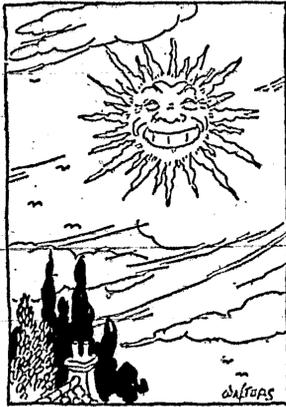

Clankson bark can be obtained from trees 200 years old. Shillings have been a part of Great Britain's currency for over five centuries. Three-quarters of the supply of ivory comes from Africa, but Antwerp is the chief market. Chemists have found that an important dye base can be extracted from coconuts at little expense. Leather dust is sold to fertilizer manufacturers. Work done by a tractor in 34 days would take almost 300 days if done by a horse. John Quincy Adams was the first President to take the oath of office on Friday. The great mass of ocean water has a temperature not much above the freezing point.

The Sandman Story

by Martha Martin

MR. SKY AND MR. SUN

"WELL," said the Sky to Mr. Sun, "I'm a very clean sky today."
"You are—what did you say you were?" Mr. Sun asked.
"I'm a very clean sky today," repeated the Sky. "My messengers came to me today and they told me that the people down on the earth had looked up at me and had said: 'Look at the wind-swept sky!' And what they said was perfectly true. The wind had been a strong one today."
"Yes, Mr. Wind was feeling his best! And he came up to me with his jolly

"I considered you always a clean sky," laughed Mr. Sun.

old windy broom and he brushed me until my clouds did look very much wind-swept."
"Ha, ha," laughed Mr. Sun. "I considered you always a clean sky."
"Well," said the Sky, "I am pretty clean! In fact, I'm very clean. But some days I am a little slimmer and more polished up and spruced up than on others! Of course you do not see me when I am dimmed looking. You make me feel spruced up. You're like some one for whom one wants to look one's best. You know some one may want to put on a best frock because of going to a party and because of having the party people see one's best. Yes, that is the way you are. Well, I am sometimes not so careful. Some-

times I'm quite cloudy and dark looking. And sometimes I get to scowling and great dark clouds come along.
"It's not altogether my fault. I have to let the King of the Clouds have a chance. Then, too, when he talks my face wrinkles up—it just does, and it always has.
"I'm told the King of the Clouds does a lot of good with the flowers and the crops and settling the dust, and all sorts of good things, such as that. So I give the King of the Clouds plenty of chances.
"My messengers came and told me curious stories of the earth people. They heard one little girl speaking about a house and she said:
"Oh, don't you know that house? Why, that is next to the dog's house."
"My messengers thought, of course, she must have meant a dog's house which she could see out in a yard, but she meant a real house. She called it the dog's house because to her the dog was the most important member of the family. But, Mr. Sun, I do like my clouds when the wind sweeps them. And what a jolly old windy broom he has.
"He brushes across me with such a flourish and makes me have an interesting spread-out look. And as he brushes he sings a song.
"Did you ever hear his song, Mr. Sun? The Sky asked of Mr. Sun, and Mr. Sun said he had never heard it, and that it would give him great pleasure if the Sky would sing the song for him.
"I've not much of a voice," said the Sky, modestly, "but at least I can let you know the words."
And then the Sky began Mr. Wind's Sky-brushing song:
I ride on a broom up in the sky
When I feel like blowing that high,
I brush here and there,
I crush everywhere,
And make the sky as clean
As it ever has been.
I'm a jolly old sweeper, and I love my work!
From this duty of mine I'll never shrink.
Of course I don't need to clean the sky
much,
It stays so clean that I don't need to touch.
It again for a long, long time
After I've given it a sweep and a rhyme!

And Mr. Sun was good enough to say that he liked the singing as well as the words.

How It Started

By JEAN NEWTON

"KICKING THE BUCKET"

NOT everybody who is dead has kicked the bucket; not everybody who has died by his own hand has kicked the bucket, though in the process some of them have kicked over other things. This is no attempt to proselytize—it is not a revelation of the after-life. It is simply an explanation of how it started.
The term has come down to us for every method of leaving this world for the next. The particular means which popularized it, however, was introduced hundreds of years ago by one Bolzober, who, having lost his reasoning, decided to commit suicide by hanging himself. In looking around for a support over which to throw his rope he found a beam so high over his head that it was necessary to stand on something in order to reach it. The nearest thing happened to be a bucket, which served the purpose very well. After completing the necessary operations the poor man actually and verily kicked the bucket.

SAWS

By Viola Brothers Shore

FOR THE GOOSE—

SOME women take marriage like a tonic—not from any real yearning, but because they think it will be best for them.

There's some'n' feminine in all men. That's what makes 'em lovin', understandin' and gentle. And petty.

Every human being should have the right to speak their mind, but some women abuse the privilege.

FOR THE GANDER—

A moron is easy to lead. A philosopher is even easier. But it takes an earthquake to budge a guy with a smattering of learning.

A fortune is like a wife. You ain't gotta worry about 'em until you get 'em.

Anybody might go out on a surf board. But only a fool would go to sleep on one.

Sprinting Snails

Do snails make good athletes? Is a problem suggested by the achievement of Mr. F. Brown, chief attendant at the Brighton (Eng.) aquarium.

He has trained two sea snails to race each other up the submerged branch of a tree, and the two enter into the contest with gusto—two snails.

When the two are placed at the bottom of the branch they both make for the topmost twig, and struggle valiantly against each other in trying to get there first.

It seems a little hard that the reward for the winner is only to topple off as soon as he gets there.

Improved Uniform International Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean of Day and Evening Schools, Moody Bible Institute of Chicago.)
(©, 1928, Western Newspaper Union.)

Lesson for August 1

DELIVERANCE AT THE RED SEA

LESSON TEXT—Exodus 14:1-31.
GOLDEN TEXT—The Lord is my strength and song and he is become my salvation.
PRIMARY TOPIC—God Takes Care of the Children of Israel.
JUNIOR TOPIC—Israel Saved at the Red Sea.
INTERMEDIATE AND SENIOR TOPIC—How a Nation of Slaves Was Set Free.
YOUNG PEOPLE AND ADULT TOPIC—Divine and Human Leadership.

I. Israel in Straitened Circumstances (vv. 1-12).

1. Going out of the land of Egypt (13-18).
The tenth stroke from the strong hand of the Almighty made Pharaoh willing to let Israel go. The Israelites went out from Egypt on their way to the promised land with a high hand. Through the land of the Philistines the journey would have been comparatively short, but God commanded them to turn from that way lest going through the land of the Philistines they would see war and desire to turn back to Egypt. The way of the wilderness was a longer route, but it had many valuable lessons for them. By this way they escaped the experiences of war which would have come to them at the hand of the Philistines, but they learned the crookedness and perverseness of their own hearts (Deut. 8:12).

2. Hemmed in (vv. 13-18).

At the Lord's direction they turned from their first course and were made to face a great difficulty. The Red sea was before them and mountains on either side. However, they should have been encouraged because the Lord went before them by day in a pillar of cloud to lead them the way and by night in a pillar of fire to give them light. He took away the pillar of cloud by day, nor the pillar of fire by night (13:21, 22).

3. Pursued by Pharaoh (vv. 4-12).

The stricken Egyptians had now recovered from their sorrow, and perceiving the straitened circumstances of the Israelites they interpreted this to mean that Moses was unable to lead them out of their difficulty. Therefore they went in pursuit, hoping yet to prevent them from leaving the country.

II. The Miraculous Escape of the Israelites (vv. 13-22).

Though they were in a straitened condition they had no reason to fear, for the Lord had led them there. There seems to have been a twofold object in leading them into this particular place.

1. To strengthen the faith of the people. To be delivered from such circumstances would impress upon them anew the reality of the love and power of God. The people, as usual, displayed their unbelief and even censured Moses for leading them out of Egypt. Moses replied, "Fear ye not, stand still and see the salvation of the Lord." Standing still in such a trial is faith taking hold on God's promises. God said, "Wherefore criest thou unto Me? Speak unto the children of Israel that they go forward." The lifting up of the rod simply served as something tangible upon which their faith could act. They were to go forward a step at a time without raising any question as to the outcome, for from the source from which came the command, came the power to obey.

2. To lay a snare for the overthrow of the Egyptians.

Those who will not heed the warning judgments of God may be allowed to go to their destruction under the presumption that the Almighty is helping them.

III. The Overthrow of the Egyptians (vv. 23-27).

Having seen the Israelites go across the sea dry shod, Pharaoh and his people madly pursued them. They insanely thought that they in their unbelief could follow in the wake of God's children. The Lord looked forth from the cloud and wrought confusion among the Egyptians. He not only looked upon them but took off their chariot wheels, which caused them to realize that God was fighting against them. He then directed Moses to stretch forth his rod and bring destruction upon the Egyptians.

IV. The Song of Triumph (15:1-21).

Standing on the other shore of the Red sea they could fittingly sing the song of triumph because of their miraculous deliverance and the overwhelming defeat of the Egyptians. They attributed it all to God. All self-consciousness and importance were left out. In a glad coming day, a similar but much larger company will sing the same song with an important addition, namely, the "Song of the Lamb." (Rev. 15:3).

The Deep Well of Life

Oh, ye poor, dry and dead souls, why will ye not come hither with your empty vessels and your empty souls, to this deep and sweet well of life, and fill your empty vessels.—S. Ruthertford.

Help Improve the World

The world was never meant to satisfy. It is man's business to do what he can to improve it; then he is to leave it and pass on to a higher life, to eternal joy.—W. Robertson Nicoll.

RADIO

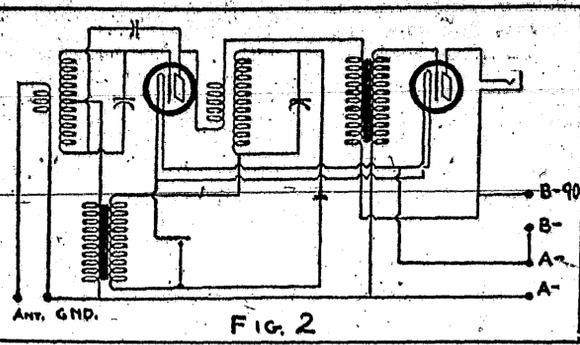

Diagram of Circuit Employed in a Center-Tapped Coil on the Radio-Frequency Stage.

By R. S. DORNBROCK, In the Chicago Evening Post.

It is the purpose of the writer to heretofore point out the application to a well-known type of reflex circuit of a circuit modification long known but little used.

This is the use of a center-tapped coil in the radio-frequency stage, the lower terminal of which is connected to one of the small midget condensers, the opposite side of this midget condenser being connected to the plate terminal of the tube.

This circuit modification is probably most used in certain superheterodyne circuits, wherein a center-tapped loop is employed in connection with

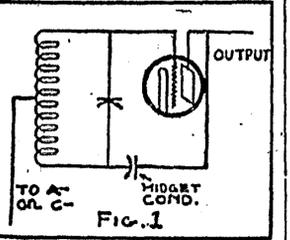

Diagram of Circuit Modification is Here Shown.

the midget condenser "to obtain regenerative action." Then again we see circuit diagrams showing the same arrangement in a tuned radio-frequency circuit, where it is described as "the Rice method of neutralization."

Cuts Out "Blanket" Stations.

A diagram of this circuit modification is shown in Figure 1. Whatever its action, the point is that it exerts a most beneficial influence upon the reflex circuit.

In the circuit set up by the writer, selectivity was very greatly increased, local stations which covered from 15

to 25 degrees in the regular arrangement were made to cover only 4 or 5 degrees on the dial. This was in a location about ten miles from the nearest station, and on an antenna 100 feet long with 35-foot lead-in.

In another location nearer to the bulk of the stations, and on an antenna 75 feet long with 30-foot lead-in, locals were confined to 2 or 3 degrees on the dial, excepting one which was only a few blocks away. This station operates on 250 meters, and blanketed about everything below it on a straight-line frequency condenser, but slightly below 300 meters even this station could be entirely eliminated. All stations above were received excellently.

Tap is Only Change.

A diagram of the circuit employed is shown in Figure 2. Nearly every one possessing a set employing the circuit which is shown modified in this diagram will recognize it. It has been very popular and the modification outlined in this diagram will help it perform more efficiently in an area where a great majority of sets will pick up at least a couple of stations at once. This circuit is noted for its great volume and low operating upkeep, but in its original form tunes a little too broadly for efficient service.

No information of a technical nature is given, as those of the listening fraternity who do their own tinkering will understand from the diagram exactly what is to be done. No changes in apparatus need be made excepting to bring a center tap from the antenna tuning coil secondary.

Controls by Midget Condenser.

The midget condenser should be located on the panel, since it provides an excellent volume control.

Incidentally, the writer has observed in very recent issues of various radio magazines that this method of controlling radio-frequency is being quite frequently advocated.

Your Grid Leak and Its Important Duty

The action of the grid leak seems to be little understood by the average fan. Great care may have been taken in wiring up the set and in buying the best of parts. Yet when the receiver is put into operation the results secured are very poor. Very often the whole trouble lies in the grid leak, which may not be of the correct value or may be noisy in operation.

To make the action of the grid leak clear we will compare it to the carburetor on an automobile. The carburetor vaporizes or breaks up the gasoline, then mixes it with a certain proportion of air to form an explosive mixture. The supply of air taken into the carburetor is regulated by a choke valve. The carburetor of a radio receiver is the detector tube and the choke valve is the grid leak.

If the choke valve on the carburetor is closed too much, it does not allow enough air to enter and makes the mixture rich with the result that the motor chokes up or may stop altogether. If the grid leak is of such a value that it allows too high a negative charge to accumulate on the grid the tube chokes or paralyzes and the set will not operate or operates very poorly. This is the same effect as when the choke valve on the carburetor is closed too far and does not allow enough air to enter.

If, on the other hand, the grid leak is of such a value that the negative charge on the grid leaks off too rapidly the receiver loses its sensitivity. You can readily see, therefore, that it is important that the size of the grid leak be correct so that the amount of energy the grid can handle is always just right. Use a good-quality grid leak. Secure three or four different sizes and try them out until you find one that gives the best results. Do not try to save money by buying a cheap grid leak or one made by an unknown manufacturer, for very often a poor grid leak is the unsuspected cause of poor or noisy reception.

Shield Transformers

When your tuned radio-frequency receiver oscillates so readily it is hard to tune, try shielding the H. F. transformers by enclosing them in a metal box. Interlocking probably is the trouble with the set.

Prevents Damage

Ammonia or soda water, quickly applied, will prevent damage from acid dropped while taking a hydrometer reading of the "A" battery.

When the Tubes May Be Cause of Your Trouble

When you notice that your radio set is losing in volume, the distant stations fade and disappear, and the quality sounds like a rock crusher, what do you do?

Very likely you look for poor connections, test the batteries or possibly replace them, change the tubes around, add a "C" battery and juggle grid leaks. And to discover? Probably, that the quality remains as poor as before. What next?

Under such perplexing circumstances did you ever give the tubes a thought? Tubes do not last indefinitely. Gradual deterioration of their filaments ultimately results in poor reception. The filament of a tube may still burn, but the coating put on its surface to aid emission of electrons—those tiny particles which give the tube its "life," eventually disappears. When the coating vanishes the radio set loses its sensitivity and volume and may become very noisy. It is then time to buy new tubes.

When Buying Your "B" Battery Eliminator

It is important when buying a "B" battery eliminator to determine whether or not the device is capable of supplying enough current to operate the set, for if it does not distortion will result. To test the capacity of a "B" battery eliminator connect it to the receiver with which it is to be used and connect a high-resistance voltmeter across its terminals. If, when a loud signal is tuned in, the pointer of the voltmeter remains almost stationary at a voltage which is sufficient to properly operate the set, the device will prove satisfactory.

Electric Machines Are Notorious Intruders

X-ray machines are notorious generators of vagrant radio waves that make themselves audible in nearby receiving sets as harsh, grumbling noises. The small portable "violet ray" affairs sold for home electro-therapeutic treatment are also bad offenders and their use during evening hours should be as limited as possible.

Worth Knowing

An insulated wire will pick up the broadcast programs just as easily as a bare wire, as the waves penetrate the covering without the least difficulty. If the lead-in is insulated it will act as a part of the aerial.

As Told by Irvin S. Cobb

QUESTION CATEGORICAL

THERE is a certain young actor in New York, a player of romantic swashbuckler parts, who is one of the gentlest and most companionable of men. But occasionally his nature changes. He becomes dogmatic, disputatious, and occasionally quarrelsome. Such times he delights to corner some inoffensive acquaintance and pin him down to a definite position on this subject or that and then debate the point in the negative for hours on end. He goes about seeking his prey in any quarter and, having caught a prey in any quarter and, having caught a victim, shows no mercy.

One night, being in one of these moods of his, he trapped a friend at a certain theatrical club. The latter wished not to argue with anyone on any topic whatsoever. Above all things he desired to escape into the open. But the actor would not have it so.

"You go 'round saying you know so much, don't you?" he demanded beligerently. "You go 'round saying you know so many people in this town, don't you? That's kinda fellow you are, ain't you—huh?"

"Not at all," protested the hapless friend, "I never—"

"Pleash don't contradict me," said the actor, "that's no way to carry on—argument between gen'men.—Lemme get through stating my side and then I'll lissen to you. You go 'round saying you know more people in this club than I know, don't you? Just answer me that!"

"Why, I never said any such—"

"Kinly lemme get word in edgeways, if you please," said the actor with elaborate politeness. "You say you know more members of this club 'en I do—more than anybody knows? A'right then, you answer me this: Do you know Jerome Lawrence—he's member here?"

"Certainly I know him," said the boggled one, thinking he saw a loophole. "As it happens I also know his brother Oscar who looks so much like him."

"Ah, hah!" erupted the actor, with the air of having had an unwilling witness into a damaging admission. "You say you know Jerome Lawrence and you say you know his brother Oscar that looks so much like him? Well, then, if you know so much, you tell me this: Which one of 'em looks the most alike?"

Smith Statistics

"The one man in a hundred" has been discovered by a statistical house in the census bureau. His name is Smith.

THE WHY of SUPERSTITIONS

By H. IRVING KING

SCREECH OWL'S NESTS

THERE is a common superstition that to destroy a screech owl's nest brings bad luck. As a popular "dream book" says, it "brings great misfortune and dangerous wounds." While the hooting of an owl is, among all savage peoples, an omen of evil, and is so regarded by the superstitious among civilized nations today, as it has been for unnumbered ages in the past—yet the nest of the owl, bird of ill-omen, is, in superstitious lore, sacred. There are various superstitious rites by which the evil incident to bearing an owl hoot may be avoided; but you must not destroy its nest. The superstition is evidently based upon the fact that the owl was the favorite bird of the goddess Minerva—she whom the Greeks called Athene of Pallas—and you anger the goddess by destroying the owl's nest; just as the having of peacock feathers about the house brings ill luck because of the anger of Juno who resents the fact that the feathers have been torn from the tail of her favorite bird, thus impairing its beauty—a very ancient superstition, especially flourishing in the classic ages, but not more ancient than the owl's nest superstition. Minerva was a grave, majestic, rather "peppery" virgin goddess, always represented as wearing armor and carrying a spear with which she could inflict grievous wounds. Hence the idea of serious wounds ensuing upon the destruction of an owl's nest. The owl's nest saying is simply one of the thousands of fragments of classical paganism which can be found lurking today in current superstitions.

Willie Too Literal

Sixpence and thrashing were the rewards received by a small boy for the same offense at Wembley's Treasure Island. The father said to his six-year-old Willie: "Take your mother and show her round Treasure Island, and I will give you sixpence if you can push her in the lake." Willie, who was a get-rich-quick young man, placed a literal interpretation on the joke. He waited his opportunity, and when mother was near the water's edge, gave a vigorous and well-timed push. There was a splash which made the little rowing boats rock, and then an indignant scene followed as the mother emerged from the water and took possession of Willie determined to damp his enthusiasm for practical jokes. Five minutes later the father arrived on the scene, and being an honorable man, paid up the sixpence when he had recovered from his astonishment.—London Mail.

PERSONALS

Mrs. SI Ramsdale is expected home from attending Berkley College in California Sunday.

Mrs. Helen Crutcher, who has been visiting the Dr. R. E. Blaney family for a few days, left for her home in Three Rivers Sunday on No. 12.

L. A. Whitaker of the Western Garage was a business visitor in El Paso for the week-end.

Chas. Cree came down from the Ruidoso Saturday, spent Sunday and returned Sunday evening.

Flowers!

for funerals and other occasions, apply to Mrs. M. I. Hunt, Sunset Farm, Alamogordo, N. M. Wires or special delivery letters will insure prompt service.

W. W. Stadman and family motored up to Luna Sunday afternoon and returned with their daughter, Lois, who had been the guest of little Miss Ruth Brickley for the week.

Mr. and Mrs. Eb K. Jones of Vernon, Texas, arrived here Monday and will spend two weeks with relatives and old Carrizozo friends. They will be the guests of Mr. and Mrs. R. R. Sale and Miss Grace Jones while here and will spend a portion of the time in visiting the mountain resorts. Eb is with the Wm. Cameron Lumber Company at Vernon in the position of book-keeper.

Mrs. Bessie Portwood of Dallas, Tex., who has been the guest of her sister, Mrs. M. U. Finley for the past several weeks, has gone to Roswell to pay a visit to her niece, Mrs. Dewey Pilant, and visit other relatives at different places, before returning home.

Mrs. Harry Lyman and baby daughter, Tiny Aleen of Clovis, are here to spend a month with Mrs. Lyman's parents, Mr. and Mrs. M. U. Finley. M. U., the folks say, makes the most admirable granddaddy New Mexico has ever seen, and the little Miss is "boss of the ranch" without opposition.

Mr. and Mrs. F. E. Hedrick, son, Raymond, Mrs. Longfellow and daughter, Marlon, spent Sunday on the Bonito. They made an early start and had breakfast under the tall pines. The return trip was made late in the afternoon.

No. 1 can Van Camp's Pork and Beans, 10 cents.

No. 2 can Van Camp's Pork and Beans, 13c, or 2 for 25 cents.

No. 3 can Van Camp's Pork and Beans, 25 cents.
C. D. Mayer.

Frank James of the James ranch in the Venado Gap was a guest of Raymond Lackland last week, returning home in company with his parents, Mr. and Mrs. T. G. James on Saturday.

Mrs. H. L. Allison of El Paso, sister of Mrs. Maggie Wetmore will be her sister's guest for the coming two weeks, during which time the ladies will visit the mountain resorts.

Professor J. M. Helm came in last Friday from Tierra Amarilla, where he has been teaching in the summer school. He says that he was exceptionally well treated by the people of Tierra Amarilla, who extended him many courtesies, but he says it was very cold at that place, so much so, that he was compelled to wear his overcoat on several occasions.

Attend the dance at Corona tonight. At the gymnasium.

NOTICE OF SALE OF REAL ESTATE UNDER FORECLOSURE DECREE

Notice is hereby given that by virtue of the terms of the final decree of foreclosure and sale, entered by the Third Judicial District Court of the State of New Mexico, for the County of Lincoln, on the 27th day of April, 1926, in cause numbered 3555 on the civil docket of said court, wherein J. D. Jones and Mary E. Jones are plaintiffs, and Clark Morris and Dorothy R. Morris are defendants, the undersigned will offer for sale at public auction, and sell to the highest bidder for cash, at ten o'clock a. m., on the 24th day of August, 1926, at the front door of the courthouse in Carrizozo, New Mexico, the following described property, situate, lying and being in Lincoln County, New Mexico, to-wit:

All of the south half, of the southeast quarter of section six, and all of the south half of the southwest quarter of section five, in township eleven south of range fifteen east, N.M.P.M., not heretofore conveyed to Roberto Chavez, about 25 acres, and to Reyes Mirabel, about 25 acres, and one certain tract of 160 yards in circumference, surrounding the chapel, which is granted to the church (see deed of same). The tract of land herein containing 110 acres, more or less. All water rights in the Ruidoso River, comprising two ditches known as the "Old Gregorio Garcia Ditches," one on the north side of the river, and one on the south side of the river. The ditch on the south side of the river is owned equal interest by Robert Chavez. The road to the church is to remain where now established, and to be not more than 10 feet wide. The description of the dividing line between this land and the Roberto Chavez land is as follows: Beginning at a white oak tree 12 inches in diameter, situate on the south side of the main road, seventy (70) feet east of dam in Rio Ruidoso; thence south, to a point on the south bank of the river, about 50 feet; thence, following the west bank of said river, to a group of three white oak trees, about 6" in diameter; thence along line of fence, to a stone marked RC at point of intersection with fence running east and west; thence due south to south line of section 6, township 10 south, range 15 east; together with, all and singular, the lands, tenements, hereditaments, and appurtenances thereto belonging, or in anywise appertaining.

Notice is further given that the amounts awarded by the court in said decree, and to be realized at said sale, are as follows:

Principal debt, and interest calculated to date of sale,	\$4029.22
Attorney's fees,	300.00
Costs,	23.70
Special Master's fee,	10.00
Total,	\$4367.92

together with all costs of sale.

GRACE M. JONES,
Special Master.
July 30-August 20

CUT PRICES on Martha Washington Shoes.
C. D. Mayer.

Clare Bradley, the Lincoln County Booster was here Saturday from the Ruidoso and says that tourists are coming in fast to that resort. "Brad" is not only a booster for his section, but for every portion of the county as well.

Mr. and Mrs. Harry Gallacher arrived here from Bisbee, Ariz., Sunday, and have decided that Carrizozo is a better place to live in than Bisbee — so they will again be listed among our residents. "They all come back" as th' feller says. We welcome them home.

Union Made "Ironall" Overalls
and Jumpers, \$2.00 each. Other first-class Overalls, \$1.50.
C. D. Mayer.

"Night Owls" at Corona, Friday night, July 30th.

Mr. and Mrs. Harry Comrey were business visitors on Monday.

Mrs. Wm. Bryan and mother, Mrs. C. M. Bryan, were down from Corona last Monday.

J. Benson Newell, our efficient District Attorney, was a visitor Monday. He found time outside of his legal work to talk politics, and among other things, he said that the outlook was never better for a complete Republican victory than this year in New Mexico.

Sisters of Mercy and the School

Contributed:

On Wednesday, July 14, four Sisters of Mercy from Grand Rapids, Mich., arrived here, Sister M. Bernadette, Supt., Sister M. Elizabeth, Sister M. Cyprian, and Sister M. Therese Marie. They will open a Catholic school which will be entirely under the management and direction of the local church authorities and the Sisters. Outside of that, the state curriculum will be followed with only slight changes, as the more than 25 years' experience of the Principal and the necessities of the children may instate. The religious and moral training given to the children of the Catholic faith will not diminish the number of hours allotted to the different subjects by state regulations.

This school will certainly be beneficial to the community, once there is a change, and there is but one object — the good and welfare of the children.

Miss Lucille Jones returned Tuesday from the State College which institution she has been attending since she graduated from our local High School at the close of the last term. On account of leaving for Springfield, Mo., about Sept. 1, with her parents, she took advantage of the summer session.

Mr. and Mrs. George Woods and two children of Lawn, Texas, Mr. and Mrs. Claude Brookshire and three children of Talpa, Texas, are guests of Mr. and Mrs. George Jeffreys for the present week. The ladies are sisters-in-law to Mr. Jeffreys.

Mack Shaver, who had been a guest at the D. A. Saunders home in El Paso for about ten days, returned home Tuesday.

Mr. and Mrs. H. Braem of El Paso, who have been visiting the Geo. Rustin family for the past ten days, left for their home on Monday.

Mr. and Mrs. Allen Lane and baby, were visitors from White Oaks last Friday, returning home in the afternoon.

Floy Skinner and Judge McDaniel were here from Nogal Saturday. They say that their locality has had some nice rains of late in the canyons and the fruit yield is especially promising.

J. L. Taylor, father of Mrs. John Townsend, Mrs. Ballard and son, Walter, Mrs. A. R. Davis and son, Lin, all of the Pecos country, spent the week-end with the John Townsend family. The Townsends left Tuesday for a return visit with the parties named above and also Mrs. Townsend's brothers, who are among those fortunate in the oil business on the Pecos and whose holdings are close to the famous Malgamar well.

Mr. and Mrs. J. D. Chandler left last Friday for Amarillo, Texas, where they will visit relatives for about two weeks, when they will return accompanied by their daughter, Mary Catherine, who has been in Amarillo since July 1.

The daughter of E. C. Beaver of Corona, had her tonsils removed at the Johnson hospital Tuesday morning. Doing well. Little Letty Baker was relieved of the same trouble Wednesday and is recuperating nicely.

Ben Sanchez, who is managing the Vidaurri store for Sabino Vidaurri, is in receipt of a letter from Mr. Vidaurri, in which he states that himself and family are enjoying their visit, and are well pleased with the Golden State.

BORN—To Mr. and Mrs. C. L. Robinson of Angus, N. M., last Saturday night, a daughter. Mother and daughter are doing nicely.

Lou Claire, daughter of Dr. and Mrs. Ralph R. Green of Corona, had her tonsils removed at the Johnson hospital last Saturday morning and is reported as doing well.

Mrs. Chloe Fisher, Mrs. Robert Hale and children were here from Capitan Monday, returning home late in the afternoon.

Mrs. P. M. Shaver was an El Paso visitor for several days last week, returning home Saturday.

Mrs. Myra Arnold, Mrs. Dorothy Weldon and sons, Bobby and Billy, arrived here Wednesday morning from the east, where they visited relatives and friends. They are on their return trip to their home in California. The ladies mentioned are pieces of E. M. Brickley of the First National Bank, and are the daughters of Mr. and Mrs. Hull Carrier of Summerville, Pa.

Mrs. Anna Roberts and son Albert are visiting relatives and friends in California and expect to return about Aug. 1.

Card of Thanks

We wish to thank our many friends who were so lovingly devoted to us and with words of comfort, acts of kindness and beautiful floral offerings as last loving tributes, contributed to us in our recent bereavement in the loss of our wife, daughter, sister and mother, Mrs. Bernice West.

Respectfully,

Ben West and children
George B. Barber and wife
Ralph and George Barber, Jr.

Mr. and Mrs. Meyer Barnett left yesterday by motor for Hot Springs and the Elephant Butte Dam, where they will spend their vacation of about two weeks.
