

Coast Guard Examination

There will be competitive examinations conducted over the United States June 20-22, 1927, at different places to be selected by the Commandant of the Coast Guard, for service in said organization, which includes service afloat and ashore. The age limits are from 18 to 22 years. Successful competitors will be educated at the Coast Guard Academy, New London, Conn., and each year are taken on an extended practice cruise. Cadets receive the same pay and allowance as midshipmen in the Navy.

Upon graduation, after three years at the academy, a cadet is eligible to be commissioned as Ensign. As the educational examination precedes the cadet examination, applicants are to be of good moral character and shall have had the equivalent to four years high school course with fourteen credits in subjects prepared by the Coast Guard officials. A written examination in mathematics, algebra, geometry history and English. A high school graduate should be able to pass the examination. For further particulars, write to the Commandant, U. S. Coast Guard, Washington, D. C.

Extraordinary Case of Foot Trouble

L. J. Bryan, Sr., of Corona, was here the latter part of last week, suffering from an ailment in his right foot which has given him trouble at different times since he was a boy, back in his old Indiana home. The foot was first injured when he fell from a horse and he walked on crutches for a period of eight years, at the expiration of which time, an aged faith doctor treated him and he walked for a number of years, but the old ailment returned. At this time, he lived in Oklahoma and a certain Dr. Goss performed an operation on the foot, taking a large amount of decomposed particles of bone from the member, after which, he again walked without trouble, until during the past few years, he was again attacked with the old trouble.

He came down from his ranch near Corona and sought advice from Dr. Johnson, who took him to Fort Stanton, where he consulted the physicians at the Fort, made examinations and took X-Ray pictures of the foot, after which, the consultation ended with the united opinion that the same would have to be amputated. Mr. Bryan returned to his home to meditate over the matter and decide whether or not, to follow the advice of the physicians.

Delegates Return

The delegates to the Eastern Star Grand Lodge Meeting, Mesdames Jeanette Lemon, J. R. Green, Paul Mayer, S. O. Sproles, and Miss Ella Brickley, returned from Las Cruces last Sunday evening on 12 and report a splendid and successful gathering. The new Grand Lodge officers for the ensuing year, are as follows: Grand Matron Mrs. Becker, Belen; Grand Patron, Guy Machen, Las Cruces; Associate Grand Matron, Mrs. Marie Koch-Davis, Tucumcari; Conductress, Mrs. Lillian Hinkle, Roswell; Associate Conductress, Mrs. Tillman, Las Vegas.

Commissioners' Call

The Board of County Commissioners of Lincoln County would like to have a delegation of Lincoln County citizens, four for each precinct, to meet at the Courthouse in Carrizozo, N. M., Monday, April 4, 1927, for the purpose of laying before the Commission, road conditions and necessities throughout Lincoln County, and an official call is hereby issued for that expressed purpose. Road conditions in all precincts will be carefully considered, preparatory to a road program.

Board of Commissioners,
R. E. P. Warden, Chairman.

Funeral of George Current

The funeral of George Current, who died at Roswell Sunday last, was held at White Oaks Tuesday afternoon with the Rev. T. V. Ludlow conducting the ceremonies. The funeral was largely attended by the many friends of the family who had known them for many years.

George Current was reared in White Oaks and worked as a mechanic in some of the biggest mines in that locality, after which he went to California, where his health failed and he returned, settling at Roswell. Instead of his health improving by the change, he grew worse until the end. He leaves a wife, father, mother, one brother and several sisters to mourn his loss, all of whom wish to express their thanks to the people of White Oaks and Carrizozo for their kindness and for the floral offerings at the last sad rites.

Esteemed Lincoln County Old Resident Dies

On Monday of this week, another old and highly esteemed resident of this section, Mrs. Francisca Aguayo, died at the home of her daughter, Mrs. Sarah Fisher at El Paso.

Mrs. Aguayo, who had reached the ripe old age of 77 years, had been ill for the past year, during most of which time, she had resided here with her son, Harry Aguayo and daughter, Mrs. Lucille Abeyta and finally went to El Paso to live with her other daughter, Mrs. Fisher, with whom, as we have said, she remained to the last.

Mrs. Aguayo came to this country at an early age, first residing at Tularosa and afterwards at White Oaks and Lincoln. She was an ardent Christian lady and notable for her many acts of charity and benevolence. Rearing her family in these regions, she had many friends in all parts of the county as well as others in adjoining localities.

The funeral was held in El Paso and the same was attended by all members of the family, except Mrs. John Harrison and Mrs. Aminta Perez of Los Angeles. She leaves two sons, Harry and Alex Aguayo, the last named son a resident of El Paso and five daughters, Mesdames Ralph M. Treat and Sarah Fisher of El Paso, Lucille Abeyta of Carrizozo, John Harrison and Aminta Perez of Los Angeles, to mourn her loss, to all of whom, the sympathy of this community is tendered.

Division Superintendent C. M. Murphy of the Southern Pacific was a Carrizozo visitor yesterday.

Crystal Theatre

GEO. A. DOWDLE, PROF.

Friday—Repeating Mary Pickford in "Sparrows." This is Mary's latest and best picture. You can not afford to miss it.

Saturday-Monday—"The Cave Man," with Marie Prevost and Matt Moore. The story of a coal heaver who breaks into society and comes out of it with a blushing bride.

Tuesday—Wednesday—"The Ace of Cads," with Adolphe Menjou—A comedy-drama, with laughs from start to finish.

Thursday-Friday—"Tin Gods," with Thomas Meighan. Matinee Thursday at 4 p. m.

—COMING—

March 17-18—Harold Lloyd in "The Kid Brother."
Douglas Fairbanks in "Black Pirate."

Family Stranded Here; Husband Dies

On Thursday of last week, W. C. Vaughan, wife and little daughter, came here from Hot Springs, where they had been seeking help for Mr. Vaughan, who had been ill for perhaps a year, during which time, according to the wife, they had used up all their funds and finally left their home in Roswell, going to the springs, but after giving the baths a thorough trial with no benefit, they decided to go to Corona, where they once lived, thinking the higher altitude would be of benefit, but at this place, the patient's condition became so alarming that they were compelled to stop at the Harvey camp grounds, where Mr. and Mrs. Harvey gave them all kind attention possible and Saturday at about two o'clock, Mr. Vaughan died. In answer to a phone message, another daughter came over from Roswell. The body was taken in charge by Undertaker Kelley and on Monday, the remains were interred at the local cemetery. A son came over from Roswell and returned with the mother and sisters.

For the Misses Sweet

Mrs. O. L. Blanchard entertained at two tables of bridge on Tuesday afternoon, complimentary to Miss Marguerite and Louise Sweet of Carrizozo. Guests were: the honorees, Mrs. J. P. Nash, Mrs. A. E. Rohde, Mrs. S. H. Bethea, Mrs. Hannah Goldenburg, Mrs. F. C. Hannahs, Mrs. C. V. Robinson and Miss Berry Devor.—Tucumcari American.

MacTavish Grand Master of Masons

John S. MacTavish of Magdalena was Tuesday elected grand master of the New Mexico Masons at the election of officers held here in the morning. Samuel E. Ward was elected deputy grand master, and Herbert S. Murdock, Springer, grand senior warden. Other officers are: Victor L. Minter, Carlsbad, grand junior warden; Solomon Spitz, Santa Fe, grand treasurer; A. A. Keen, Albuquerque, grand secretary, and John S. Kelley, Silver City, grand lecturer.

Miss Nellie Shaver of the El Paso Junior College, spent the week-end here, visiting her parents, Dr. and Mrs. Shaver.

Fort Stanton Notes

Mr. Olden was at the Fort last Friday and Saturday inspecting the K. C. activities.

Miss Nickels of Capitan visited friends at the Fort last week. W. A. Wunsch has returned from the Las Cruces Grand Lodge meeting where he attended as a delegate.

Mr. and Mrs. Flavio Chavez spent the week-end with friends at Alamogordo.

Mr. Fagan and family went to Lincoln last Saturday.

Dr. and Mrs. Faget and family returned last week after spending a two months' vacation at New Orleans.

E. H. Kenny of Hondo was here last Sunday.

Mr. and Mrs. Hebert spent last Saturday in Carrizozo.

New patients admitted to the hospital during the past week are: S. R. Gonzales and E. Mason.

Mr. and Mrs. Howson and family spent last Sunday at Angus.

Miss Peterson of Capitan has been visiting with Mrs. Ferris several days.

Mrs. C. Wells from Denver, former Red Cross aid here and Mrs. John Ogelsby from Des Moines, former nurse here, spent the week-end visiting with Mr. Shannon and Mrs. Berry.

Messrs. Neilson and Seuer of Albuquerque spent last Friday and Saturday here on business.

The Trowel club held a special meeting Monday, Feb. 28.

Miss Robinson spent the week-end at Juarez, Mexico.

The Misses Harris and Hansen went to Roswell last Saturday.

The Misses Green and Rowen spent last Sunday in Carrizozo.

Dr. McChesney of El Paso, was a week-end guest of Dr. and Mrs. Tappan.

Miss Charlotte Rice visited relatives and friends at Lincoln over the week-end.

Mr. Alexander left Wednesday to spend the remainder of the week in Roswell.

Mrs. V. Pettit of Los Angeles will arrive Saturday to be the guest of Mrs. O. I. Nesbit.

Mr. R. Merrill was a Carrizozo visitor Wednesday.

Eli Goodreau Goes to Quay County

Eli Goodreau, formerly of the First National Bank of Carrizozo, but who resigned that position to accept a position at Mesalero to train Indian boys in the Boy Scout Service, was here Monday, remained over until Tuesday morning to visit his many friends before paying a visit to his mother, at Quay, a short distance from Tucumcari.

Mr. Goodreau's mother has some valuable land at Quay and an oil well is being drilled on a portion of her land at the present time, with prospects of a flattering nature. To assist his mother in her business affairs, has caused him to resign his position with the government and after attending to these business affairs, he will be ready to accept some other business propositions and we wish him the best of everything in all his future undertakings.

The Misses Elva Woods, Esther Brower and Mrs. Marie Keeler of the Carrizozo school, spent Saturday and Sunday of last week in Roswell.

Attend the Crystal tonight.

Woman's Club Notes

To aid the various women's organizations throughout the country in preparing programs on forest conservation for club and other meetings is the purpose of a new publication, "A Forestry Program for Women's Organizations," (Miscellaneous Circular No. 91-M) issued by the Forest Service, United States Department of Agriculture.

The publication contains brief papers on Federal, State, municipal and private forestry, which bring out what has been done and what remains to be done in forestry in this country. These papers are so arranged with other material in prose and verse as to make a complete program for a forestry meeting for such organizations.

The author, Mrs. Lillian T. Conway of the Forest Service, has also included suggestions for practical work by women's organizations in forwarding the forestry movement.

Copies of the publication may be obtained upon application to the Forest Service, United States Department of Agriculture, Washington, D. C.

New Road Equipment

A new 'Scarifier' for road work has arrived and other equipment such as gravel loaders and other machinery necessary to the betterment of roads leading into Carrizozo. This activity which is working so much to the benefit of our roads, and which heretofore has gone to other counties instead of our own, is due to the efforts of the new Board of County Commissioners.

In support of what we have just said, we ask the public to read the Call issued by the Commissioners for a meeting which will be held for the expressed purpose of furthering our interests in the matter of MORE and BETTER ROADS for Carrizozo, which means also, more work for our citizens.

More Fish Eggs Make More Fish

J. P. Bengard, state superintendent of fish hatcheries, arrived here yesterday with 160,000 fish eggs for the hatchery at Eagle Creek. L. A. Whitaker, manager of the Western Motors, accompanied Mr. Bengard to the mountains to make the deposit.

Mr. and Mrs. S. F. Miller took a motor trip to Alamogordo Wednesday, returning late in the afternoon, making the round trip in four hours.

Dr. and Mrs. R. R. Green and Mrs. Earl Brooks were down from Corona yesterday, returning last evening after Dr. Green attended to some professional matters.

Miss Lucille McFadden of Corona visited with friends here last Saturday.

Mesdames Chloe Fisher and J. D. Larkman were over from Capitan yesterday.

The picture you have been waiting for, "Sparrows," with Mary Pickford and a strong star cast will be shown tonight at the Crystal Theatre. The play is replete with dramatic scenes and intermingled with just that amount of comedy to make it purely human. Don't miss it.

Railroad Rumbblings

Dangers to travelers caused by landslides and track washouts due to heavy storms has been completely eliminated by a newly perfected device that received its first thorough testing during the storms of last week, according to W. E. Boland, signal engineer for Southern Pacific company.

The new device is an electrically connected fence, lightly built in twelve foot panels, firmly anchored at either end, and placed in circuit with the block signal system. This fence has been constructed above the railroad right-of-way wherever there is any possibility that unusually heavy rains may loosen earth and cause slides.

Any slide occurring would carry away the panel of fence in its path, breaking the electrical connection and automatically setting block signals that would stop any train approaching the potential danger zone.

"The 'slide fence' received a thorough testing last week," Boland said. "It absolutely removes any danger of a train running into a slide. Slides hereafter may cause delays; but they will not endanger passengers. This company's mainline trains now move under electrical and mechanical protection so complete that statistics prove passengers to be far safer on trains than in their homes."

Co-ed Cruise, A Mistake

Rome—The time is not yet ripe for co-education on the high seas, Henry J. Allen, former governor of Kansas, believes. His experiences aboard the steamer Ryndam, the American "floating university," which sailed from New York last September on a world cruise, he said, had convinced him on that fact.

"The presence of girls inevitably produced many courtships, which diverted the attentions of the students from their studies, and gave what was meant to be a dignified, studious voyage much of the appearance of a sight-seeing joy-ride," he said.

American college students of both sexes to the number of 550 are cruising on the Ryndam. About 100 are girls.

Residents at foreign ports, at which the ship touched, not having reached the American ideas on the emancipation of women, misinterpreted the meaning of the venture, with resultant complications," Mr. Allen said.—Kansas City Star.

Comet Chapter No. 29 O. E. S., held an interesting meeting and heard reports from the Grand Chapter which finished its labors last Saturday at Las Cruces.

Mr. and Mrs. George Rustin received a letter this week from their son, Roscoe, who left here in 1919, joined the Navy and during service, he saw many ports in the far east. Roscoe has never returned, but in his letter he enclosed his photo and we who know him 8 years ago would hardly recognize the large man he has grown to from the little Roscoe in Carrizozo. He has a position in the government shipyards.

Mr. and Mrs. George A. Dowdle were week-end visitors with the Dowdle and Cochran families in Alamogordo.

The GIRL in the MIRROR

CHAPTER XIII—Continued

There had been a long silence after his last words, but when she spoke it was as if there had been no interval between his chatter and her response. "Almost any other man would have been heroic," she went on. "Almost any other man would have been excited and emotional at times, and then would have been exacting and difficult and rebellious over all the mystery, and the fact that I couldn't explain. I've set that pace myself," she confessed. "I haven't always been able to take things quietly and philosophically. The wonderful thing about you is that you've never been overwhelmed by any situation we've been in together. You've never even seemed to take them very seriously. And yet, when it came to a 'show-down,' as Shaw says, you've been right there, always."

"You're the kind," she said, "that in the French revolution, if you had been a victim of it, would have gone to the guillotine with a smile and a jest, and would have seen in the experience only a new adventure."

At that, he shook his head.

"I don't know," he said slowly, and with the seriousness he had shown her once or twice before. "Death is a rather important thing. I've been thinking about it a good deal lately."

"You have?" In her astonishment, she straightened in her chair. "Why?"

"Well," he hesitated, "the truth is, I'm taking the European war more seriously than I have seemed to. I think America will swing into the fight in a month or two more; I really don't see how we can keep out any longer. And I've made up my mind to volunteer as soon as we declare war."

"Oh, Laurie!"

That was all she said, but it was enough. Again he turned away from her and looked into the fire.

"I want to talk to you about it sometime," he went on. "Not now, of course. I'm going in for the aviation end. That's my game."

"Yes, it would be," she corroborated, almost inaudibly.

"I've been thinking about it a lot," he repeated. There was an intense, unexpected relief in this confidence, which he had made to no one else but Bangs, and to him in only a casual phrase or two. "That's one reason why it has been hard for me to get down to work on a new play, as Bangs and Epstein have been hounding me to do. I was afraid I couldn't keep my mind on it. All I can think of, besides you—" he hesitated, then went on rather self-consciously—"are those fellows over there and the tremendous job they're doing. I want to help. I'm going to help. But I'm not going into it with any illusions about military bands and pretty uniforms and grandstand plays. It's the biggest job in the world today, and it's got to be done. But what I see in it in the meantime are blood and filth and stench and suffering and horror and a limitless, stoical endurance. And—well, I know I'm going. But I can't quite see myself coming home."

Save for his revelation on the morning they met, this was the longest personal confidence Lawrence Doris had ever made to another human being except his sister Barbara. At its end, as she could not speak, he watched her for a moment in silence, already half regretting what he had said. Then she rose with a barely abrupt movement, and going to the window stood looking at the storm. He followed her and stood beside her.

"Laurie," she said suddenly.

"Yes?"

"I can't stand it."

"Can't stand it?"

He repeated her words almost absently. His eyes were on a stocky figure moving among the trees below. It kept in constant motion and, he observed with pleasure, it occasionally stamped its feet and swung its arms as if suffering from the cold.

"I can't stand this situation."

"Then we must clear it up for you."

He spoke reassuringly, his eyes still on the active figure. "Is that one of our keepers, down there?"

She nodded.

"He has instructions to watch the front entrance and windows. There's another man watching the rear."

"I hope he hasn't a nice little bottle of chloroform in his overcoat pocket, or vitrol," murmured Laurie, reflectively. "By the way," he turned to her with quickened interest, "something tells me it's long after lunch time. Is there any reason why we shouldn't eat?"

She smiled.

"None whatever. The icebox contains all the things a well-regulated boxer is supposed to hold. I overheard Shaw and his secretary discussing their supplies."

"Good! Then we'll release Mother Flavin long enough to let her cook some of them."

He stroked the bedroom door. On a chair facing it the woman sat and gazed at him with her fierce eyes.

"Would you like a little exercise?" he politely inquired. There was no

change of expression in the hostile face. "Because if you would," he went on, "and if you'll give me your word not to cry out, give any kind of alarm or signal, or start anything whatever, I'll take that bandage off your mouth and let you cook lunch for us and for yourself."

The fierce eyes set, then wavered. He waited patiently. At last the head nodded and he expeditiously untied the bandage.

"The very best you've got, please," he instructed. "And I hope you can cook. If you can't, I'll have to do it myself. I'm rather gifted that way."

"I can cook," avowed the old woman sullenly.

"Good work! Then go on your joyous way. But if you feel an impulse to invite into your kitchen any of the gentlemen out in the grounds, or to release the secretary, restrain it. They wouldn't like it in here. They wouldn't like it at all."

A strange grimace twisted the woman's sardonic features. He interpreted it rightly.

"I'm glad you agree with me," he said. "Now, brook trout, please, and broiled chickens, and early strawberries and clotted cream."

She looked at him with a return of the stolid expression that was her habitual one.

"We ain't got any of those things," she declared.

"We ain't?" Her guest was pained. "What have we got?"

"We got ham and eggs and lettuce and milk and coffee and squash pie," he sighed.

"They will do," he said resignedly. "Do you think you could have them ready in five minutes?"

The luncheon was a cheerful meal, for Laurie made it so. When it was finished he went to the kitchen window, opened it, and carefully arranged several hot ham sandwiches in a row.

"For the birds," he explained. "For the cold little birdies out in the grounds."

"This storm will be a good thing for us," he mentioned to Doris, when they had returned to the upstairs sitting room. "It will be dark soon after four, and the snow will cover our footsteps. But I'm inclined to think," he added, reflectively, "that before we start I'd better go out and truss up those two birds in the grounds."

She showed an immediate apprehension.

"No, no! You mustn't think of that!" she cried. "Promise me you won't." He shrugged his shoulders.

"As you wish, of course. But if they interfere when we're getting started, surely you'll let me rock them to sleep, won't you?"

She did not move, but gave him a look that made him thoughtful. It was an odd, sidelong look, frightened but watchful. He remembered that once or twice before she had given him such a look. More than anything else that had happened, this glance chilled him. It was not thus that the woman he loved should look at him.

Suddenly he heard her gasp, and the next instant the silence of the room was broken by another voice, a voice of concentrated rage with a snarl running through it.

"So you're here, are you?" It jerked. "By G—d, I'm sick of you and of your d—d interference!"

He turned. Shaw was standing just inside the door. But he was not the sleek, familiar, torpid figure of recent encounter. He seemed mad clean through, fighting mad. His jaws were set; his sleek head and heavy shoulders were thrust forward as if he were ready to spring, and his protuberant eyes had lost their haze and held a new and unpleasant light.

But, angry though he appeared, Herbert Ransome Shaw was taking no chances in this encounter with his undecayed guest. Behind him above the now smug countenance of the blond secretary, and on each side he was flanked by another man. Powerful fellows these two seemed, evidently Italian laborers, gazing at the scene incomprehendingly, but ready for any work their master set them. In anticipation, Laurie stared at the tableau, while eight eyes unwinkingly stared back at him. Then he nodded.

"Well, Bertie," he said pleasantly, "you're outdoing yourself in the size of this delegation. Fear to one. Quite some odds." His voice changed. "You contemptible coward! Why don't you take me on alone? Have you got your chloroform cone?"

The complexion of Shaw, red with cold, darkened to an apoplectic purple.

"You'll soon find out what we've got," he barked, "and what's coming to you. Now, are you going to put up a fight against four, or will you go quietly?"

"I think," said Laurie thoughtfully, "I'd rather go quietly. But just where is it I'm going?"

"You'll soon know," Shaw was carrying a coil of rope, light but strong, and now he tossed it to one of the Italians.

"Tie him up," he curtly ordered.

"Oh, no," said Laurie, backing a step. "Tut, tut! I wouldn't advise that. I really wouldn't. It would be one of those cases where you read about."

Something in his voice shocked the

forward stride of the Italian with the rope. He hesitated, glancing at Shaw. With a gesture, the latter ordered the two men through the door.

"Wait just outside," he directed. He turned to Laurie. "Out you go!" he ordered brusquely.

Laurie hesitated, glancing at Doris, but he could not meet her eye. At the window, with her back to the room, she stared out at the storm. Even in that moment her attitude stunned him. Also, he felt an unconquerable aversion to anything in the nature of a struggle before her. Perhaps, once outside the room, he could take on those ruffians, together or in turn.

Without another word, he crossed the threshold into the hall. Before him hurried the two Italians. Behind him crowded Shaw and the secretary. He walked forward six strides. Then, as the side railing of the stairway rose beside him, he saw his opportunity. He struck out right and left with all his strength, knocking out of the Italians and sending the second helpless against the wall. In the next instant he had leaped over the slender rail of the stairway, landed half-way down the stairs, and made a jump for the front door.

As he had expected, the door was locked. Shaw, if he had entered that way, had not been too hurried to attend to it.

His First Blow Sent the Blond Secretary to the Floor, Where He Lay Motionless.

tend to this little detail. Laurie had just time to brace his back against it when the four men were upon him.

If he could have taken them on one by one he could have snapped their necks in turn, and he would have done so without compunction. As it was, with four leaping at him simultaneously, he called on all his reserve strength, his skill in boxing, and the strategy of his football days.

His first blow sent the blond secretary to the floor, where he lay motionless. After that it was hard to distinguish where blows fell. What Doris wanted and was striving to reach was the throat of Shaw, but the slippery thing eluded him.

He fought on with hands and feet, even drawing, against these odds, on the savate he had learned in Paris. Blood flowed from his nose, his ear and his lip. Shaw's face was bleeding, too, and soon one of the Italians had joined the meek young secretary in his slumbers on the floor. Then Laurie felt his head agonizingly twisted backward, heard the creak of a rusty bolt, and in the next instant, was hurled headlong through the suddenly opened door, to the snow-covered veranda.

As he pulled himself up, crouching

for a return spring. Shaw, disheveled and breathless on the threshold, jerkily addressed him.

"Try it again if you like, you young devil," he panted, "but remember one thing: the next time you won't get off so easily."

The door slammed, and again the bolt shot into place. Laurie listened. No sound whatever came from the inner hall. The old house was again apparently dead, after its moments of fierce life. He slowly descended the steps, and, bracing himself against the nearest tree, stared at the house, still gasping from the effects of the struggle.

He was out of it, but he had left Doris behind. The fact sickened him. So did the ignominy of his departure. He was not even to be followed. His absence was all the gang desired. His impulse was to force the door and again face the four of them. But he realized that he could accomplish nothing against such odds, and certainly, as a prisoner in the house, trussed up with Shaw's infernal rope, he would be of no use to either Doris or himself. He decided to return to the garage and get his car and the weapon he had left there. Then, if the four still wanted to fight, he would show them something that might take the spirit out of them.

Having arrived at this sane conclusion, he turned away from the silent house, and, hatless and coatless as he was, hurriedly made his way through the heavy snow-drifts toward the public road.

CHAPTER XIV

Mr. Shaw Decides to Talk

At the garage he found Burke faithful to his trust and with an alert eye out for more five-dollar bills. The proprietor temporarily lost sight of these, however, in his sudden and vivid interest in the new patron's appearance.

Laurie answered his questions with a word that definitely checked the further development of curiosity. Then, huddling over the stove, and warming his icy, soaked feet, he curiously outlined his intentions. He was going to change back into his own clothes, he explained, and he would wait his car at five o'clock sharp. This, he intimated, would give Burke a little more than half an hour in which to get his mental processes started again and to have the car ready.

Burke whistled loudly. Obviously the joke the lad had played had not panned out to the young man's taste. Burke was sorry for that. His experience had been that with these young "rounders" generosity went hand in hand with success and its attendant exhilaration; and that when depression set in, as it obviously had done in this instance, a sudden paralysis numbed the open palm.

However, even granting that this was so, he had already been largely overpaid for anything he had done or might still be expected to do. He nodded his response to the young man's instructions, and though he was not a subtle person, he succeeded in conveying at the same time a sense of his sympathy with the natural annoyance of a high-spirited practical joker whose joke had plainly miscarried. Ordinarily his attitude would have amused Doris, but Laurie was far from his sense of humor just now. Still whistling softly, Burke departed, to make a final inspection of the car, leaving Laurie the sole occupant of the cramped and rained-in corner that represented the private office.

That young man was in the grip of a characteristic Devon rage, and as he rapidly got back into his own clothing his fury mounted until the blood pounded at his temples. He dared not let himself sum up the case against Shaw, though the manner in which he had been kicked-out savored strongly of contempt. Evidently Shaw didn't care where he was, so long as he was outside of the house.

Neither dared he sum up the case against Doris, though he could not for a moment banish from his mind the picture of her—as she had stood—with her back to him and his four assailants. Why had she stood thus? Because she was indifferent to any fate that befell him? Or because she was numbed by her own misery? Crowding forward with these questions was a sick fear for her, alone in that sinister house with four thugs and an old hag whose sole human quality seemed to be a sardonic sense of humor exercised at his, Laurie's, expense.

(TO BE CONTINUED.)

Central Control for All Factory Windows

Anyone who has got up in the middle of the night to open and close windows would balk on being required to open a mile of windows; but if he were a night watchman in a certain Eastern factory, all he would have to do would be to press a button, and electric motors would open or close all the windows without any further attention on his part.

This factory has a building four stories high and more than 500 feet long, equipped with steel sash windows which open at the top, and an electric motor to turn the shafts upon which the windows are swung. It is so arranged that the windows on any side of any floor can be opened by

separate controls, or the windows of the entire factory can be simultaneously closed. This system permits of a very considerable saving of individual labor and at the same time assures a maintenance of adequate ventilation and protection against the weather.—American Mutual Magazine.

Discard Her Specialty

In classic mythology, Eris was the goddess of discord, and the sister of the war god Mars. In the legend of the Trojan war, Eris was the goddess who, indignant that she was the only one of all the gods and goddesses who was not invited to the marriage festivities of Peleus and Thetis, threw into the midst of the guests a golden apple, known since as the "apple of discord," which bore the inscription "For the fairest of the fair." The rivalry of the three goddesses, Hera, Athena and Aphrodite, for the gift was not to the judgment of Paris, the son of the king of Troy, who, being appointed umpire by Zeus, bestowed it on Aphrodite.—Kansas City Post.

Woodchucks Good Pets

The biological survey says woodchucks make very interesting pets, and are easily cared for. They should be given rooky quarters with a sea and material for a nest in which they can retire in the fall for hibernation. They eat a great variety of green food.

David E. Benschmol of Douglas was chosen grand high priest of the Grand Chapter, at the election of officers, held in Phoenix.

A cowboy and two Navajo Indians were killed in a battle on the Indian reservation near Pueblo-Alto, a district near Albuquerque states.

Fred Howarth was re-elected president of the Northern New Mexico Poultry Producers' Association at the annual election, held in Raton.

J. A. O'Dell, foreman of the Lincoln and Otero county state highway patrol, was dragged to death by his own tractor, near Alamogordo, N. M.

Fifteen delegates, representing Douglas, Miami, Globe, Phoenix and Bisbee Young Women's Christian Associations, gathered in Tucson for the annual state conference.

Marketing problems occupied the time of the Arizona cattlemen gathered in Douglas for the twenty-first annual convention of the Arizona Cattle Growers' Association. Phoenix was selected as the place of the 1928 convention.

Globe's hope for a federal building, which has been featured with the possession of a site for a decade or more, appears to be nearing fruition in the instructions received by Postmaster Charles J. Alden for an official call for bids immediately.

Denver.—The industrial employment survey report for the Mountain States, issued from the office of Quince Record, director of the U. S. Employment Service of the U. S. Department of Labor, here, states that in Colorado, meat packing plants, flour mills and oil field activities increased production and employment during January. Industrial lines which showed a steady condition were those manufacturing automobile accessories, mining machinery and steel rails. Plants manufacturing building and general construction equipment curtailed operations. The closing of twelve of the thirteen beet sugar factories in northern Colorado, after completing the seasons run, caused the release of several thousand skilled and semi-skilled workers. Within thirty days many of the present unemployment workers will be employed on the farms. Producing metal mines continue active, supply of metal mine labor of all classes reported ample. Most of the coal mines are operating steadily and with full forces employed. Building and general construction continue on a curtailed basis, with no material improvement indicated until early spring. Over 900 miscellaneous workers are employed on the six-mile Moffat railroad and water tunnels. The 1927 municipal improvement and highway construction programs should be under way in about sixty days. Winter schedules prevail in all railroad operating departments.

In Wyoming, the report states that winter weather has retarded all outdoor occupations. Unemployed workers are chiefly of the seasonal class. Producing metal mines continue active operations, metal mine labor ample. Resident coal mine labor steadily employed. Oil field operations are more or less active, dependent on weather conditions. Supply of oil field labor more than ample to meet present requirements. Building and construction work will continue on the present curtailed basis for the next thirty to sixty days. Many railroad shop train-service and maintenance of way workers are unemployed.

Employment in most lines throughout the state of Arizona maintained a high level during January, with indications for a continuation during February. The supply of labor is ample to meet all requirements for the next thirty days, except for a slight shortage of skilled metal miners. Picking of the cotton crop will be finished during the first part of February. However, many of the released workers will find immediate employment in connection with soil cultivation for the 1927 cotton, vegetable and miscellaneous crops. Practically all producing metal mines are maintaining normal operations. Building and general construction work continue quite active, with the resident supply of this class of labor steadily employed in all sections of state.

Consumption of Tin Increases
Washington.—Consumption of tin in the United States has increased to a notable extent, according to the findings of a special inquiry conducted by J. W. Furness, mining engineer of the Bureau of Mines, department of Commerce. A careful canvass of the trade by Mr. Furness showed a total consumption of 117,446 tons of tin in 1926, indicating a consumption of 11,154 tons more than the indicated available supply.

FLORAL PRINTS FOR HOUSEWEAR; SUPPLE SILHOUETTE IN FAVOR

SOME of the erstwhile simple housewears is putting on nowadays! Even the materials from which it is made are delightfully camouflaging in appearance, especially the highly mercerized cottons whose colorful floral prints duplicate in patterning and in sheen the more expensive silks. When it comes to laundering, these handsome prints prove them-

printed linens which include both neat conventional motifs or themes as brilliantly colorful as one might make. Organdy trimmings lend a charming trimming to materials of heavier weave. Pique, also organdy in pure white are used for collar, cuffs and pocket on gay gingham. What with a notably "different" play on color and a changing mood

Pretty Washable House Dress.

selves not only lovable, but tubable to the point of perfection. The composite mode is given a place of first importance in the styling of the "last word" washable frocks. To the "I-always-make-my-own-wash-dresses" enthusiast here is a timely hint—when you buy a dress length of fancy print or gay gingham, be sure to purchase a solid colored material for the pockets, necktie, collar, cuffs and other trimming details. Then again choose a rather "fussy" pattern, at least so to it that there be no suggestion of the at-one-time popular bungalow apron style. Rather select a model as here pictured, with circular skirt, fancy tie-collar 'n' everything. Cotton fabrics were never so alluring as at this very moment. Highly mercerized weaves patterned in four-tard suggestions are among most re-

of the silhouette, it is just one thrill after another along the pathway of spring and summer fashions. Especially are new color combinations and effects being whirled into the arena of the mode at a dizzying rate. Fashionists are defining color in the plural. This color-composite idea, which is the underlying principle of most of the fashionable color schemes, interprets two methods, that of combining various tones and tints of the same color, or using contrast shades. It is the modish color plus color idea which so enhances the attractive frock in this picture. For this model the designer employs queen's blue crepe with French gray. The latter is used for the blouse below the bolero outline and for the collar and below-the-elbow sleeve puffs. Another color variation which could be successfully worked out in this frock would be

Queen's Blue Crepe With French Gray

cent showings in the wash-goods section. One of these can't-tell-from-silk fabrics which glorifies the colorful cotton print was chosen for the attractive daytime washable frock in the picture. Its monotonous color trim expresses an outstanding style note. Brightly floral prints prevail in spring cottons. Among charming new washable materials cotton crepes are shown patterned in tiny blossoms with a tweed-like background, batistes in alluring flower designs on a white base, voiles bedazzled in resplendent coloring and the latest effects are

that of Grecian rose with monkey skin, the new pinkish tone introduced this season. Which all goes to show that the two-color theme is playing a tremendously important part in the styling of crepe, also crepe-satin frocks for afternoon wear. Of no less interest than the color question is that of the supple silhouette, which is giving such a feminized aspect to the mode. Skirts whose fullness is attained through plaits or gathers, the bolero and the blouse combine to achieve the soft, pretty comforts so approved for the coming months. The frock in the picture is characteristic of this new vogue. For the upper portion of the bodice the stylist uses the queen's blue crepe, simulating a bolero posed over a very smart blouse. Plaits at the front of the skirt only, further interpret the mode. The fact that so many of the new materials are soft and often sheer gives impetus to the new graceful silhouette. JULIA BOTTOMLEY, 201 157, Western Newspaper Union.

Test Seed Corn to Avoid Loss

Expense Involved Is Slight and Will Prevent All Weak Plants.

Poor seed means a poor stand, missing hills and weak stalks, producing little or nothing. It means waste land and wasted labor. It is sound business to know that the seed planted will grow. The only way to find out is to test. Satisfactory tests can be made by simple methods. The expense involved is slight. Considering the little time and effort required, testing of seeds has been thoroughly justified.

Corn lends itself to testing better than any other grain, as it is necessary to test only a few kernels from each ear to separate the unsound ears from those that give good germination. Rag-Doll Method Best. The rag-doll method is best suited for testing seed corn and sorghums in the head. The germination cloth should be 10 inches wide and 60 inches long. Draw a line with a pencil down the center of the strip of cloth. Mark the strips crosswise every four inches and number the sections. Moisten the tester before putting the kernels upon it. Always number the ears before removing the kernels. From different places on ear No. 1 take out ten kernels and place them in section No. 1. Similarly take ten kernels from No. 2 and place in section No. 2; continue until every section is filled. Place the kernels away from the dividing lines so a slight displacement caused by handling the tester will not mix the samples. Fold each side of the tester so that the edges meet in the middle. Press the cloth down firmly over the kernels and roll the tester using some cylindrical object as a core. Working the Tester. Soak the tester for ten hours in warm water. Then drain off the water, leaving the tester in the pail with a loose-fitting cover where it is warm and moist. A temperature between 80 and 90 degrees during the day and 50 to 60 degrees during the night will give good results. The tester should at all times be moist and have good ventilation. At the end of six days unroll the tester, taking care not to disarrange the sprouts. The results will indicate which ears grow with strong shoots, which are weak and which will not grow at all.

Idea of Seriousness of Corn-Borer Situation

Some idea of the seriousness of the corn borer situation can be gained from the report from the annual field survey made by the corn borer laboratory of the bureau of entomology at Sandusky, Ohio, in 173 cornfields representing the older portion of the infested area of Ohio. These fields showed an average increase of infestation slightly exceeding 400 per cent, as compared with a similar survey in the same or near-by field in 1923. Similar results are anticipated for the annual comparative surveys in western New York and southeastern Michigan, when these surveys are completed.

Feed Adult Geese for Eggs Along in February

Adult geese should be fed for eggs about February 1, or so that the go-lings will be hatched by the time there is good grass pasture. In feeding for eggs give a mash of equal parts by weight of corn meal, bran, and middlings or low-grade flour with 10 per cent of beef scrap, in the morning, and a feed of corn at night. A constant supply of drinking water should be provided. If geese need grain when not laying, the beef scrap should be left out and the corn meal increased in this ration to three parts.

Helps Calf Ration

Adding approximately one-ninth of a pound of calcium carbonate to a ration of prairie hay, cane silage, shelled corn and cottonseed meal for calves produced slightly greater gains at less cost per hundred pounds of gain than alfalfa hay, cane silage, shelled corn and cottonseed meal, in an experiment completed lately at the Kansas State Agricultural college experiment station.

Three Culling Factors

As a rule three main factors should be taken under consideration in culling the ewe flock, viz: age, wool, and lambs. And, without question, age is the most important factor, and affects very strongly the other two. Ewes are in their prime generally from their third to fifth and sixth years. During this time they should produce their best fleeces and raise their best lambs. The older sheep are more susceptible to disease and the wool becomes of poorer quality.

Insure Egg Fertility

One male in a flock of fourteen Plymouth Rock fowls of any variety should be sufficient to insure fertility of the eggs during the natural hatching season. It would make no difference that the male and the females were of different varieties. Unless these eggs were set very early in the season, this head of the flock should be replaced by another bird, when eggs might be saved for hatching after a week or ten days. Close confinement is detrimental to fertility.

Control Hog Cholera

Cholera is a very contagious disease confined to hogs, and has a mortality of nearly 100 per cent. The only means of control is through strict quarantine measure and the judicious use of anti-hog cholera serum and virus. One should keep men, birds, and dogs away from his hogs, and be careful about importing feed from cholera-infested areas. If cholera is near, vaccinate. Also keep in touch with the state veterinarian and watch the sanitation.

Careless Handling of Manure Costly

Best Plan Is to Apply It to Land as Produced.

Fully 50 per cent of the value of farm manure may be lost through careless handling. One way of handling farm manure is to apply it to the land as it is produced. This may be accomplished to advantage by pasturing off crops, provided animals are not allowed to run on the fields when the soil is wet. When the manure is handled this way the losses are perhaps not as great as through improper storage. There is, however, a serious disadvantage to the method in that one cannot always apply the manure where it should go, and, in some cases, it may be necessary to store it at least a part of the year. The liquid portion of manure contains a large percentage of the total nitrogen and potassium. When this is not saved much of the value of the manure is lost. Therefore, when cattle are fed in the feed lot and the manure is stored in the open, the manure pile should be on level ground to prevent the liquid from easily draining away. If the manure is stored in a loose pile rapid fermentation dries it out and much of the organic matter is lost. Such losses, however, may be reduced by keeping the manure firm and moist. Piling the manure in the field, expecting to scatter it quite a while later, is bad practice and should not be followed. The loose open nature of the pile encourages fermentation, which increases the loss of organic matter and nitrogen.—F. H. Smith, Agronomy Department, Colorado Agricultural College.

Easier to Raise Ducks Than Little Chickens

With reasonably good care and feeding, little ducklings are easier to raise than chickens and will seldom be lost. Two important things to remember, however, are these—ducklings must always have plenty of air to breathe and a dry place in which to exercise. A brooder cannot be tightly closed at night or dead ducks will be found in the morning. Many duck raisers remove the skirts of the brooders entirely after the first of May in order that the air may circulate freely over and around the brood when they are resting or during the night. While ducks enjoy water after they get a good start, there is nothing harder on little ducklings than damp, rainy conditions. Keep them warm and dry until feathered out.

Steer Feeding Advantages

Steer feeding is a business that fits in conveniently with the work of the ordinary farm, starting after crops are harvested and ending before spring planting begins. Steer feeding provides a market for the hays and other roughages produced on the farm during the summer. By providing work during the winter months, the farmer can employ a more satisfactory class of farm labor.—Extension Bulletin 193-A, "Steer Feeding in Colorado."

"My wife never knows what she wants." "Mine does; it is anything our neighbors have that we can't afford."

His End

Doctor—Every man should have a sad; it's a mental safety valve. Better cultivate one. Patient—I already have one. Doctor—What is it? Patient—Collecting unpaid bills. Perhaps you will add one, doctor.

Not Exclusive

Betty (aged seven)—Our family is awfully exclusive, is yours? Beulah (aged eight)—No, indeed. We haven't anything to be ashamed of.

Drugs Excite the Kidneys, Drink Water

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders. Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

EDITORIAL COLUMN

Further Light on the Morrow Land Exchange Measure

In a letter from Congressman John Morrow, he gives a more clearly defined idea of the land exchange measure recently passed by Congress concerning the exchange of government lands for state lands and for the benefit of those who are desirous of arriving at a more exact knowledge of the same, we are using the substance of his letter which in part is as follows:

The bill, as introduced, was in full conformity with the wishes of both the State of New Mexico and the National Forest Service, the idea being that the land of the state if retained for timber, should be in one body and that retained by the forest service to also be in one body so that the lands do not conflict. The state may exchange its timber lands, chiefly valuable for forest purposes, for other lands of equal valuation in unappropriated, ungranted national forest or other government lands belonging to the United States within the state of New Mexico.

The exchange which has been understood as to be acre for acre, as the information first came to the press and published by many papers over the state, does not appear in the Morrow bill only in the following manner: The timber or mineral quality that might be contained in any state land will be estimated in addition to the exchange of the land, so that where valuations differ, it would not be an acre for acre exchange; if the state land should be estimated to be more valuable than government land, the exchange might be perhaps three or four acres for one in the exchange, according to land valuations. The cost of fire protection for timbered state lands cannot be carried out on account of state having little or no funds for that purpose.

Another thing in favor of this piece of legislation, says the Congressman, is the conservation of our natural resources, especially our timber for the maintenance of the same as water sheds and protection for moisture during winter seasons. This, the forest service is well equipped to maintain. Then, too, in the cutting of mature timber, cut under forest supervision, a further thought is, in the cutting of the same, the state will receive 35 per cent of the returns from all timber cut upon forest reserves, which will be quite an item to the state.

Who Will It Be?

Democratic politicians are worrying a lot about the next presidential candidate. Both McAdoo and Smith, who fought until they killed the party's slim chances two years ago, are lining up for a return engagement.

A lot of wise ones seem to believe that Al Smith has gained in strength and will either be nominated or dictate the nomination. If he does, it will be like handing the election to the

This modern age puts Camels first

THIS age tried Camels and placed them first. And it was no half-way verdict. Never in the history of smoking was a cigarette given a leadership like Camel has today.

To find why Camels are the favorite, just try them. You will find the perfect fragrance and taste of choice tobaccos, rarely blended. You will experience a mellow mildness that gives endless cigarette enjoyment!

For the choice of the modern age—"Have a Camel!"

Republicans. There is a lot of sentiment for Jim Reed, but he has lots of things to overcome, even before he will be a formidable contender for the nomination. He is too far west, for the east. He is too wet for the dries and many good Democrats that revere the name of Woodrow Wilson, haven't forgotten where Jim stood when his party chieftain needed support. —Vaughn News.

Brotherhood of Railroad Trainmen Will Run a Big 'Special' March 19

Two days after St. Patrick's Day which will be March 19, the Brotherhood of Railroad Trainmen will give a big dance at the Community Hall, for the benefit of the fund which is used for the purpose of caring for the sick and disabled of its members.

This organization keeps constantly in touch with those of its number, who have suffered from misfortune and sees that they do not become objects of cruel so-called charity. To add to a fund for this commendable purpose, the entertainment is to be given. The Trainmen enjoy an enviable reputation as royal entertainers and those who attend will have the satisfaction of knowing that besides a 'run' for their 'fare,' they will be lending a helping hand to a worthy cause. An El Paso orchestra will furnish the music. Edwin McCarty and Maxine Hoffman, two former Carrizozo school students being among the number.

The Brotherhood never "backs up," "slows down," or "gets off the track," when it comes to entertaining, but, "With two sharp whistles And down the track, You can always see the smoke Come rolling back."

The routes travelled by motor buses in carrying passengers and freight exceed the track mileage of Class 1 railroads in the United States, according to Commerce Commission reports. There are 22,628 buses operating over 362,800 miles. There are 45,417 motor trucks operating over routes of 611,921 miles. —National Republic-Bulletin.

DEPARTMENT of the INTERIOR
U. S. Land Office, Las Cruces, N. M.
January 24, 1927

Notice is hereby given, that the State of New Mexico has filed Indemnity School land selections for the following described unappropriated, unreserved public lands:

Serial 033383, List 9153, for NE1/4 SW1/4, E1/2E1/2, Section 13, Township 6 South, Range 20 East, N. M. P. M.

Serial 033384, List 9152, for S1/2, Section 14; S1/2, Section 15, Township 6 South, Range 20 East.

The purpose of this notice is to allow all persons claiming the land adversely, or desiring to show it to be mineral in character, an opportunity to file objections to such location or selection with the Register of the United States Land Office at Las Cruces, New Mexico, and to establish their interests therein or the mineral character of the land.

Notice of Suit

State of New Mexico to Joseph L. Riddle:

You are hereby notified that there has been filed on the civil docket of the Third Judicial District Court of the State of New Mexico, in and for the County of Lincoln, and numbered 3545, a suit wherein Fred Bailey is plaintiff, and you, Joseph L. Riddle, are defendant; that said plaintiff alleged that you were indebted to him in the sum of \$53.94 and interest on account of goods sold and delivered; that your property described as lot two, in block two, Hotel Site, in the NW1/4 of SW1/4 of section 30, township 11 south of range 14 east, N. M. P. M., Lincoln County, New Mexico, and the personal property in and about the filling station thereon, has been attached to satisfy said claim of plaintiff; and you are further notified that John A. Friedenbloom has filed his petition of intervention in said cause, claiming to be the owner in fee simple of the above described real estate; and you are further notified that the Pecos Valley Lumber Company, a corporation, has filed its petition of intervention herein, asking judgment against you, the defendant, Joseph L. Riddle, for the sum of \$219.39, with interest thereon from August 11, 1925 and for \$5.00, expenses in connection therewith; and \$75.00 attorney's fees and for the foreclosure of a mechanic's and material man's lien on the above described real estate, filed in the office of the County Clerk of Lincoln County, on the 13th day of August, 1925, and recorded in Book "D" of Liens, at page 135, for building materials furnished you, the said defendant, Joseph L. Riddle, for the erection of a filling station upon said above described premises.

You will further take notice that the court has ordered publication of notice of said action against you, notifying you that your property has been attached, and that the petitions of the said intervenors praying judgment against you are pending, and that unless you appear or cause to be entered your appearance herein, on or before the 2nd day of April, 1927, judgment will be rendered against you, and your property sold to satisfy the same.

You are further notified that the name of plaintiff's attorney is H. B. Hamilton, whose post office address is Carrizozo, New Mexico, and that the attorney of intervenor John A. Friedenbloom is W. C. Whitley, whose post office address is Las Cruces, New Mexico, and that the attorney of the Pecos Valley Lumber Company, intervenor, is A. H. Hudspeth, whose post office address is Carrizozo, New Mexico.

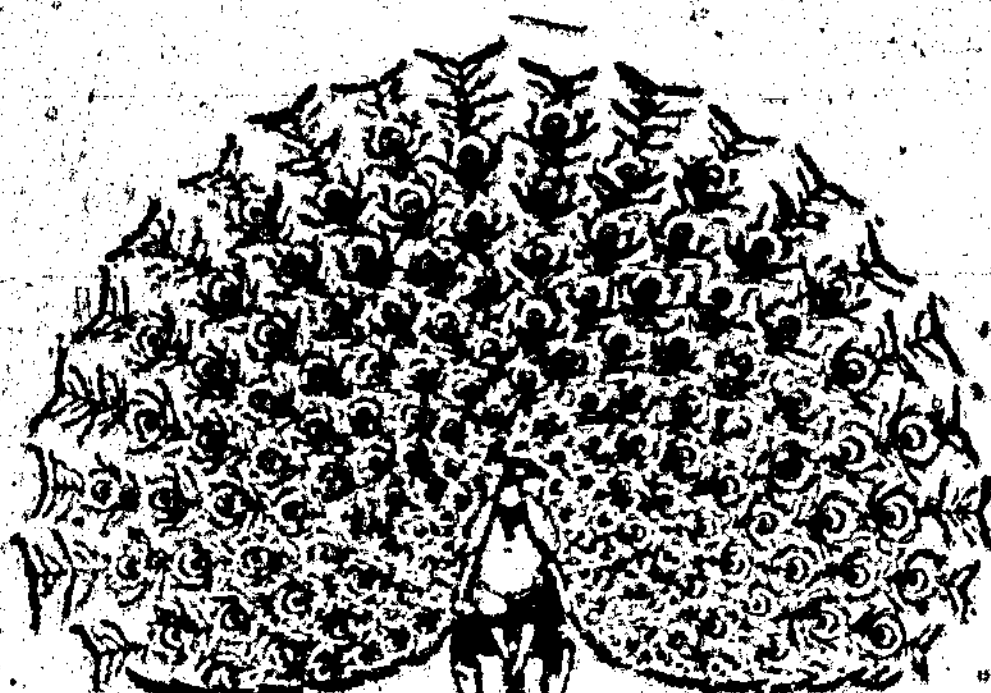

WITNESS the Hon. Numa C. Frenzer, Judge of said Court, and the seal thereof, this 17th day of February, 1927.

(Seal) Lotah Miller,
Clerk.

Feb. 4, 1927

Notice is hereby given that Theodore N. Suela of Corona, N. M., who, on April 1, 1922, made Hd. Orig. containing 100 acres, No. 027460, for SW1/4, NE1/4, Section 25, Township 1-S, Range 12-E, N. M. P. Meridian, has filed notice of intention to make Three year Proof, to establish claim to the land above described, before Dan C. Savage, U. S. Commissioner, at Carrizozo, N. M., on April 1, 1927.

The Most Beautiful Chevrolet in Chevrolet History

The COACH \$595
f.o.b. Flint, Mich.

More for Your Money than you ever thought possible

Already the Most Beautiful Chevrolet is scoring the greatest success in Chevrolet history! And why? Because no other car of equally low price ever supplied so completely all the attractions and advantages of a high-priced automobile!

... Fisher Bodies whose style, distinction and luxury rival the costliest custom-built creations!

... marks of distinction, such as full-crown one-piece fenders, bullet-type lamps, and narrow windshield pillars!

... a host of improvements typified by AC oil filter, AC air cleaner, coincidental steering and ignition lock, and improved transmission!

All in addition to Chevrolet's already renowned quality features and powerful, smooth performance—and all offered at amazing price reductions!

Here truly is more for your money than you ever thought possible—more than even Chevrolet, with its progressive policies and magnificent factories, could possibly offer, were it not for the economies of tremendous volume production.

Come in—see the Most Beautiful Chevrolet. Drive it. Learn what makes it the greatest value triumph in automobile history—and why it is winning new buyers at a rate of tens of thousands each week!

for Economical Transportation

at these amazing low prices

Table listing car models and prices: The Touring or Roadster \$525, The Sedan \$695, The Coach \$595, The Sport Cabriolet \$715, The Coupe \$625, The Landau \$745, 1-Ton Truck (Chassis only) \$495, 1/2-Ton Truck (Chassis only) \$395.

Balloon tires now standard on all models. In addition to these low prices, Chevrolet's delivered prices include the lowest handling and financing charges available.

CHILDREN CRY FOR

MOTHER: Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Cuticura Baths Best for Children
Teach your children to use Cuticura Soap because it is best for their tender skins. Anointed by occasional applications of Cuticura Ointment to first signs of irritation or chafing, it keeps the skin and scalp clean and healthy. Cuticura Toilet is cooling and soothing.

Daddy's Evening Fairy Tale

By MARY GRAHAM BONNER

THE STUBBORN WEATHER

"It's perfectly absurd," said Old Man Weather, "to think that I am going to take hints."
"I know they're hinting to me now. I can tell. I may be stubborn but I'm not stupid."
"I can see that they're craning their heads out of the windows and coming out on porches and looking up at the sky."
"I can see that they're wondering if the clouds mean that it is going to rain or if the little patch of blue sky which is sometimes to be seen mean that it is going to clear off."
"And they're anxious that it should clear off. It is a Saturday and people always like to have it fine on Saturday."
"They're apt to have so many plans for that day."
"But if I decide to give Old King of the Clouds a holiday or if he decides to take one it is a matter that is decided in sky circles, and not because of suggestions on the parts of the earth people."
"If we should lean down to ask them—what they thought we'd not please them."
"Old King of the Clouds might lean down too far and laugh and joke and

Old Man Weather.

then the rain would begin and they might not like that so well.
"Mr. Sun might lean down so far that they could hardly stand the heat and they wouldn't like nice warm Mr. Sun at all."
"Or the Wind might blow right in their faces—even more than he sometimes does."
"No, it wouldn't do for the sky creatures to lean down too far to talk with the earth people."
"Certainly I wouldn't ask for any advice for them. With all the ideas I have on weather I don't need any help from anyone."
"Why, I can think up the most interesting varieties of weather."
"I can give surprises. I can give warm weather when it is the cold season."
"I can give cold weather in the warm season."
"When it is the month for showers I can save them over until the next month."
"People will go to a place that has a reputation for fogs and I'll give them nothing but fine days, and they'll say the weather was really most unusual."
"They will go to a place that is supposed to always be warm and sunny and I'll give them cool, raw days."
"They'll say the weather was most unusual."

"Of course it was! That's Old Man Weather with his many ideas."
"People are always finding unusual weather and they speak of it as though it were so interesting—little appreciating the fact of how much Old Man Weather has to do with it."
"It's my ability to have so many ideas. That is the reason why I don't have to ask any advice."
"But it is funny now to see them hinting to me to be nice."
"As though they could change the weather by looking out of their windows."

"As though they could make it a fine, sunny day just by looking at the tiny patch of blue sky and hoping it would be nice!"
"Well, they're keeping on hinting."
"But I'm not going to let that decide me. I'm going to do what I planned to do."
"I hear there are going to be lots of picnics today and long walks and baseball games and trips to the woods for flowers."
"It's not that I'm taking their hints—but I think I'll have a nice day."
"Yes, Old Man Weather decides it will be nice!"
So the sun and the blue sky and the soft breezes all agreed.

Two Ailments

Kind Lady—What's troubling you, my little man?
Little Willie (on his way home from school)—Dyspepsia and rheumatism.
Lady—Why, that's absurd at your age; how can that be?
Willie—Teacher kept me after school because I couldn't spell 'em.—Sample Case.

Discovered Australia

"Tommy," said the teacher, "come to the map and point out Australia to the class."
Tommy did so.
"Who discovered Australia, Georgia?" the teacher asked the next day.
"Tommy did," was the reply.

1—Dr. William Stovrich, New York physician and dramatist, who may be made "czar" of the American stage. 2—British military nurses embarking at Southampton for Shanghai. 3—Boy scouts on their annual visit to the White House cheering the President and making him smile.

NEWS REVIEW OF CURRENT EVENTS

France and Italy Reject Coolidge Proposal for Naval Limitation.

By EDWARD W. PICKARD

POLITELY but firmly, France and Italy have said "No" to President Coolidge's proposal that the five signatory powers of the Washington treaty negotiate a further reduction in naval armaments by limiting cruisers, submarines and other auxiliary vessels. Great Britain has showed approval of the plan, but delayed her formal reply until the dominions could be consulted. Premier Wakiatsuki said the Japanese government was strongly in favor of Mr. Coolidge's move and would do everything in its power to aid, but he intimated that Japan would not agree to a 5-5-3 ratio for cruisers and other lighter vessels.

The French government pronounced the American plan impracticable and in conflict with the aims and accomplishments of the preparatory disarmament commission of the League of Nations. It expressed the opinion that an agreement on further naval armaments limitation entered into by the five powers independently of the league undertaking for comprehensive limitation of land, sea and air armaments would compromise the latter project. The basic reason for France's rejection of the plan is her determination to make naval limitation dependent upon agreements as to the limitation of land and air forces. This she has consistently demanded at the Geneva conference. She is bound to maintain her submarine strength as a defense against the powerful British navy and the growing Italian fleet, and while these are as strong as they are, she refused to decrease her land forces.

Because France is her potential rival in the Mediterranean, Italy also rejects the Coolidge proposal. She declines to participate in any conference on limitation so long as France refuses to limit lighter naval craft, especially submarines. She cannot at present compete with France in building cruisers and so must counter with plenty of submarines.

Washington dispatches said that Mr. Coolidge, realizing now that a five-power party was out of the question, was considering an alternative proposal that the United States, Great Britain and Japan go together and extend the 5-5-3 limitation ratio to cruisers and other light naval craft. Admiral Jones, chairman of the navy's general board, has devised a formula that he believes would satisfy the British even with France left out of the agreement. He proposes a proviso to the limitation to the effect that any party to the agreement may exceed the maximum laid down whenever it considers its security menaced by the naval building operations of another power.

THAT Germany, with its cleverly constructed reichswehr, has evaded the efforts of the powers to effect its disarmament is the opinion of the military authorities of both France and Belgium. Laying before the French chamber of deputies the government's plans for reorganization of the army on a basis of 12 months of efficient, concentrated service of conscripts, Minister of War Painleve, Marshal Foch and General Debeney, chief of staff, described Germany's great potential military strength and the dangers involved. Minister of Defense de Broqueville of Belgium was still more of an alarmist. Asking parliament for frontier fortifications, he produced figures to show that the reichswehr is a formidable military force with the most modern of armaments. It consists of 100,000 soldiers and 15,000 sailors and renews itself every four years, and therefore 500,000 reserves are now available. Premier Vandervelde said Germany "is capable of putting millions of well-equipped men in the field in a short time, while the recent completion of the German aviation cartel in the last

step in the mighty industrial organization which will be the base of a future war."

HANGCHOW, a large and important rail and water communication center 113 miles southwest of Shanghai, was captured by the Nationalist troops, according to dispatches from the Orient, and thus the Cantonese took another long step in their march on the coast city. Hangchow had been held by Marshal Sun Chuan-feng, an ally of the northern generals and his army is about all that stands between the Cantonese and the occupation of Shanghai. More British troops were landed at that city last week, bringing the number up to about 4,000, besides a hospital unit. Measures for the defense of the international concession have been completed, and so far the British government is ignoring the flood of protests from Chinese organizations and from laborites in England.

American troops on shipboard ready for shore duty at Shanghai will number 2,300, for the transport Chaumont with 1,200 marines is due there February 24. The cruisers Cincinnati, Marblehead and Richmond were being held at Honolulu.

In Hunan province there were preparations for a great battle. The Nationalists were concentrating north of the Yangtze river to meet the combined Manchurian and Shantung armies, which were about to attempt a drive through the province on Hankow and Kluksiang. Marshal Wu Peifu and Gen. Feng Yu-shiang have powerful armies in that region and were reported as waiting for an opportunity to jump in and help the winning side. That a terrific conflict is pending is undoubted.

SUCCESSFUL operations of the Liberal rebels of Nicaragua, especially in compelling the government forces to evacuate Matagalpa where there are large American interests, caused a good deal of anxiety in Washington. So last week the destroyer transport Melville, with 200 marines and six airplanes aboard, was ordered from San Diego to Corinto, and the Henderson was ordered to take 1,200 marines from Quantico. The airplanes, which are equipped for bombing, will be used for reconnaissance work and also probably will prevent the shipment of arms to the rebels. Rear Admiral Latimer recently had a conference with Dr. Juan R. Sacasa, the Liberal leader, and our government hopes this will result in a peaceful solution of the embargo.

PAINTS of Dalmatia, Bosnia and Herzegovina, in Jugoslavia, experienced a severe earthquake which took scores of lives—perhaps as many as 600—and destroyed many dwellings. In Sarajevo, a sinister memory, great masses of snow and ice, loosened by the tremors, crushed buildings and killed a dozen persons, and there were great mountain slides in other places. Railway lines were broken and relief trains were held up. Several days later another tremor demolished part of the city of Ljubljane, Herzegovina, and killed 91 persons.

The United States, too, had a disaster, this time in southern California where a violent storm that lasted several days resulted in destructive floods and snowslides. Coast towns and the Imperial valley suffered severely and thousands of persons were driven from their homes by the waters. Railroads and trolley lines were washed out, and for a time San Diego was cut off from outside communication. More than a dozen men were killed by a snowslide at Big Creek in a construction camp.

BY A vote of 71 to 17 the senate passed the McFadden bill after breaking up the filibuster by applying cloture. The house already had passed the measure. After the result was announced Senator Glass of Virginia, one of those most active in behalf of the bill, introduced a resolution authorizing the committee on banking and currency to conduct a thorough investigation of alleged lobbying activities in connection with the banking bill.

The bill is designed to place national banks more on an equality with the banks chartered under state laws. As one means to this end, it permits

national banks to establish city-wide branches in states where state laws permit branch banking by state banks.

IN ORDER to dispose of the matter speedily, the house substituted the senate McNary-Haugen farm relief measure for its own bill, and after consideration of it section by section, passed it by a vote of 214 to 178 exactly as it was adopted by the senate. The Republicans were almost evenly divided, 113 voting for the bill and 108 against it. Of the Democrats, 97 voted for the measure and 70 against it.

THREE personal encounters enlivened the proceedings of congress, or disgraced them, according to the point of view one takes. First Senators Glass and Wheeler wrangled over the banking bill, and the Virginian laid violent hands on the Westerner. Then Representatives Tinscher and Strong, both of Kansas, fought over the farm relief measure and a few harmless blows were exchanged. On Tuesday that irrepressible post of the house, Tom Blanton of Texas, tried to whip Representative Bloom of New York during a committee hearing on the District of Columbia Sunday closing bill, and started a general fight. Next day several congressmen commented caustically on Blanton's action and the Texan challenged them to fight him in the gymnasium. Mr. Gallivan of Massachusetts drafted a resolution providing for the appointment of a boxing board to manage future bouts between members.

SEVERAL changes in the diplomatic service were made last week. Hugh R. Wilson of Illinois, chief of the bureau of current information at the State department, was made minister to Switzerland to succeed Hugh Gibson, who goes as minister to Belgium. It was announced that Theodore Brantano, minister to Hungary, was retiring, and J. Butler Wright, assistant secretary of state, was appointed to take his place. Leonard Harrison, also an assistant secretary of state, was named minister to Sweden to replace Robert Woods Bliss.

Vincent Massey, the first Canadian minister to the United States, arrived in Washington with Mrs. Massey and was presented to the President.

PANAMA is not satisfied with the new treaty with the United States, and the assembly down there has rejected it in its present form. Minister Alfaro is trying to obtain a renewal of negotiations with the State department. The most objectionable article in the treaty is that which requires Panama to participate in any war involving the United States. This caused unfavorable comment in Europe, where it was alleged the terms affected Panama's participation in the League of Nations. Senator Alfaro was instructed to seek a clarification of the phraseology showing clearly that Panama is not obliged to supply troops to the United States, as is commonly understood from the text.

SECRETARY OF STATE KELLOGG, in an official communication to the senate, denied that the State department had advised or instructed Americans not to comply with the requirements of the Mexican oil laws. Nevertheless, he said, only four of the more than forty American corporations and individuals owning oil properties in Mexico prior to 1917 had applied for confirmatory concessions as required by Mexican law.

NEW wage agreement for the miners of the bituminous coal field was put up to a subcommittee appointed by the joint conference of miners and operators at Miami, Fla. The miners' proposal, offered by President John L. Lewis, called for a new wage contract for a two-year period based on the principle that wage reductions are "inadequate to solve the problems of the industry." Existing bills would be brought before the joint conference which would continue in operation for the duration of agreement.

The operators' proposal, presented by W. H. Haskins, Ohio operator, seeks a continuous wage agreement on a competitive basis with the non-union soft coal industry of West Virginia and Kentucky.

SCHOOL DAYS

SOMETHING TO THINK ABOUT

By F. A. WALKER

YOUR ASPIRATIONS

THE real turning-point in your career does not manifest itself until you have definitely decided whether you shall drift about like a fallen leaf in the forest, or hold steadfastly to a predetermined course.

Up to that time your aspirations have been vague. You have not been on intimate speaking terms with them. It is doubtful whether you could describe their dress, whether they are pirates bent on scuttling your ship or whether they are friends proffering their hands to lead you beside still waters.

You have promptings in common with all mankind, ready to believe that you are endowed with various excellences, superior in most respects to those to be found in any of your associates.

Perhaps you explain this by saying you are waiting for the big opportunity, and when that comes you will distinguish yourself.

The commonplace, humdrum things do not inspire you. They fall to draw out those latent abilities and wonderful impulses which you know are yours—yours alone.

Great resolutions of this character unless supported by sincere, earnest effort, never amount to anything.

Unfailing and familiar companionship with work is the only key that will unlock the door of conquest. You cannot pick the lock with self-adoration. The road to failure is worn bare by millions who have tried it.

Your success must come from your own endeavors, long hours of close application, confidence in the laws established by our Creator, cheerfulness in doing with all your might the irksome things, and faith in yourself.

There is no other way.

THE YOUNG LADY ACROSS THE WAY

The young lady across the way says the people do not always elect the best man to congress, but it's better than the English system, under which a man is a member of the House of Commons just because his father was.

I COME TO WELLAND

By DOUGLAS MALLOCH

I COME to Welland on a day; I come to Welland; right away My mind remembers bush and tree And everything the eye can see.

I came to Welland long ago To take some train; I hardly know Just where it went or what I found. But here's the little station ground. The fence of pipe, the wooden posts. The clean brick pavement that it boasts.

I came to Welland. Where I went. What train I took, with what intent I don't remember. Many plans Were mine, the same as any man's—I don't know what, but do not doubt A lot of things I fussed about, I haven't any doubt at all; But what they were I can't recall.

I came to Welland, with a mind Filled full of things of every kind: Of words that grieve, of hopes gone wrong— A heavy load I bring along Of woes and worries, hurts and cares. The most important of affairs, Of things I won't remember when I come to Welland once again.

Mother's Cook Book

Being a parent used to be one of the most simple, natural and inevitable developments in the world. But nowadays, one has no business to be married, unless, sleeping or waking, one is conscious of the responsibility.

FROM LEFTOVER BEEF

EVEN a small cupful of leftover beef, if added to a gravy and served on toast will make a fine luncheon dish.

Roast Beef Sandwiches

For four good-sized sandwiches make one cupful of brown sauce. When cooked add one tablespoonful of minced pickle. Cut the roast beef very thin. Cream two tablespoonfuls of butter or other sweet fat, add it to a quarter of a teaspoonful of mustard; spread the bread with this. Dip slices of beef into the hot sauce and place them on the bread. Sprinkle with a very little chopped bacon on the top slice. Serve on a hot platter and pour boiling sauce over all.

Beef Pie

Cut cold roast beef into inch squares, using two cupfuls. Put into a quart baking dish and season with half a teaspoonful of salt, a dash of red pepper, a tablespoonful of tomato catsup or one cupful of tomatoes strained and seasoned. Pour over the meat one cupful of broth, or gravy mixed with water. Cover with a crust made of baking powder biscuit dough; cut with a small cutter and place over the top.

Roast Beef With Mexican Sauce

Cook one onion finely chopped in two tablespoonfuls of butter for five minutes. Add one red pepper, one green pepper and one clove of garlic, each finely chopped, and two tomatoes peeled and sliced. Cook fifteen minutes, add one teaspoonful of Worcestershire sauce, one-fourth of a teaspoonful of celery salt and salt to taste.

POULTRY

CHICKENS DON'T WATCH A CLOCK

Chickens do not watch the clock. The "best workers" in the flock start scratching as soon as it is light in the morning and continue until it is dark. Many poultrymen are taking advantage of this natural tendency for activity by using artificial light to lengthen the working day of the farm flock during the winter months.

"The biggest advantage of this system," says J. G. Halpin, poultry specialist at the Wisconsin College of Agriculture, "is that it stimulates the mature hens to lay, and hastens the development of late and immature pullets so they lay more eggs during the winter months." However, he believes that proper feed and good care will be of greater value to well-developed pullets than will the extra hours of light.

"Forcing the mature hens into early winter laying may result in reduced hatchability of the eggs during the hatching season. This is due more to the difficulty of supplying the flock with a complete ration that supplies all of their requirements in proper proportions, than to the mere fact that the hens are laying," he explains. "One of the most difficult things to supply under our conditions is sufficient vitamin D to make it possible for the hens to lay during the winter without robbing their bodies. If these materials could be supplied in sufficient quantities, the hatchability of the eggs would not be seriously lowered."

The poultrymen who have used electric lights usually turn them on between four and five o'clock in the morning, although some use the light in the evening, at which time they give a heavy feed. An alarm clock may be used to throw on the switch automatically. If the chickens are to be aroused at these hours, the light should be distributed so as to cover the floor and shine on all of the roosts.

Feed Flocks Effectively to Get Greatest Profit

The greatest profits from the sale of eggs at any one season of the year may be obtained during the winter months. Eggs are high in price at this season of the year because few poultrymen are obtaining eggs. Eggs are low in price during the "flush season" in the spring, because they are plentiful. The cost of feeding varies slightly from winter to spring. That is, during the winter you have a greater difference between the cost of producing eggs and the price obtained from the eggs. As the price of eggs drops in the spring and the cost of feed remains practically the same we have less opportunity for making a profit. Since the cost of feed represents more than 60 per cent of the cost of producing eggs on the farm we must aim to feed our flocks as effectively as possible.

Poultry Notes

Sunlight is a better egg producer than red pepper.

A pullet, properly handled and fed, should gain in weight even though laying regularly.

If you have neglected to get a new cockerel, then order a setting or two of high grade eggs now, and raise your own cockerels for new blood next year.

A cheap treatment for mites, and a fairly good one, is to paint the hen house inside, walls, roosts and all, with a mixture of old crank-case oil and kerosene.

The market seems to be wanting bigger broilers lately—birds weighing between two and three pounds. Evidently, city folks are demanding meatier bones to pick.

Keep plenty of green feed for the pullets; it is essential for both health and egg production.

A broody hen, if taken the first day she is broody, will come back to production in three days if she is put in a cool, slatted coop and fed liberally with mash and milk.

Outbreaks of coccidiosis (bloody diarrhea) which is fatal to a great many chickens every spring, may be largely eliminated by plowing up the ground in the chick yard.

Pullets lay best when confined to the poultry house during the winter months and fed a laying mash.

In feeding poultry the heavy grain feed should come at the evening meal. The birds should have all the grain they will clean up at this time.

Duck eggs hatch in twenty-eight days. When the hatching is done by hens it is well to keep the hen covered until she may be introduced to her children. Otherwise she may peck them to death.

A car for every purse and purpose

THIS YEAR the General Motors line is an imposing Automobile Show in itself. Here is every style of body. Every type of design — four cylinder, six cylinder, eight cylinder. Every improvement. Every price, from the Chevrolet touring car at \$510 to the Cadillac with special coach work at \$9,000. A car for every purse and purpose. Every one of the models now on display is different and distinguished. Yet two unifying characteristics bind them all together:

1 EVERY CLOSED BODY is by Fisher. The quality of all body workmanship is Fisher quality, and because Fisher is owned by General Motors, every resource has been utilized to make body and chassis a perfect quality unit.

2 EVERY MODEL has shared in the advantages of General Motors research, purchasing standards and Proving Ground tests; and in the economies of volume production. Dollar for dollar you will buy more value in the car you select because of General Motors quality and the public's purchase of more than 1,200,000 General Motors cars last year.

THE GENERAL MOTORS line is a direct result of the record-breaking patronage accorded by the public in 1926. The economies which this great volume afforded have been passed on to the car purchaser in even better quality. With great pride we invite you to inspect these new General Motors cars and to make one or more of them your own.

Mother Claims All Can Have Good Health

Colorado Springs Woman, Mother of 13 Children, after Suffering For 20 Years, Regains Health and Strength Quickly. Takes Tanlac

Mrs. Sulle V. Noble, a well-known Colorado Springs woman, living at 805 Bonfoy Ave., says: "My experience proves that nearly every one can have good health. After 20 years of despair, pain and worry, I regained health, strength and energy... Thanks to Tanlac. I had suffered from what I believed was asthma. I would wake up at night coughing and struggling for breath and my daughter would have to sit up with me for hours. The strong medicines I took upset my stomach, spoiled my appetite and put me where I could scarcely eat and retain food. A friend suggested that I try Tanlac. I did. And the results amazed me. I began to sleep better, relish my food without suffering from indigestion pains. I gained weight. Tanlac was a life saver to me. I now enjoy good health, sleep like a child, go all day without tiring. But I have not stopped taking Tanlac for it is the one remedy for continued good health and strength. Everyone should take it." Tanlac has helped many Colorado men and women. It is nature's own remedy made from roots, berries and herbs. The best bottle really brings relief. Don't neglect your health, don't suffer from pain needlessly, begin taking this wonder tonic now. Ask your druggist for Tanlac—today!

WHEN I WAS TWENTY-ONE

BY JOSEPH KAYE

At Twenty-One—Robert Underwood Johnson Was the Associate of Famous Editors.

AT THE age of twenty—I set foot in New York for the first time and went to the offices of Scribner's Monthly, little knowing that I was about to establish a relationship which would last for more than forty years.

"My family was already known to Roswell Smith, the publisher of the magazine, for his wife, as Miss Annie Ellsworth, had been a friend of my mother's in Washington, and as young women both had been present on the 24th of May, 1844, when Morse transmitted the first telegraphic message ever sent, passing from Washington to Baltimore.

"Mr. Smith greeted me cordially, but soon began to make a test of my mettle by trying to discourage me, but I said that he was not serious about it and he took me back to present me to the editor, Dr. J. G. Holland. Doctor Holland received me genially and introduced me to his associate, Richard Watson Gilder, who was most cordial, and after a little conversation it was agreed that I should have a trial of three months as clerk and editorial assistant.

"My novitiate on the magazine did not occupy the designated three months, for after three weeks, Doctor Holland came to me one day as I sat at my desk and putting his hand in a fatherly manner on my shoulder, said very gently, 'Johnson, if you like us as well as we like you, you may hang up your hat and call it a bargain!' From that time on, for forty years, I was part of the corps and (what was equally delightful) of the spirit of the corps of the magazine.—Robert Underwood Johnson.

TODAY—Mr. Johnson has distinguished himself greatly both in literature and statesmanship. He succeeded the famous Gilder as editor of the magazine which became in time The Century Magazine. Later he became ambassador to Italy and a noted leader of political thought.

How It Started

By JEAN NEWTON

THE MINSTREL

OUR conception of a minstrel today is a blackface comedian, and, accordingly, the far-famed Dan Emmet, said to have been the first man to use burnt cork on his face, has been called the inventor of minstrelsy.

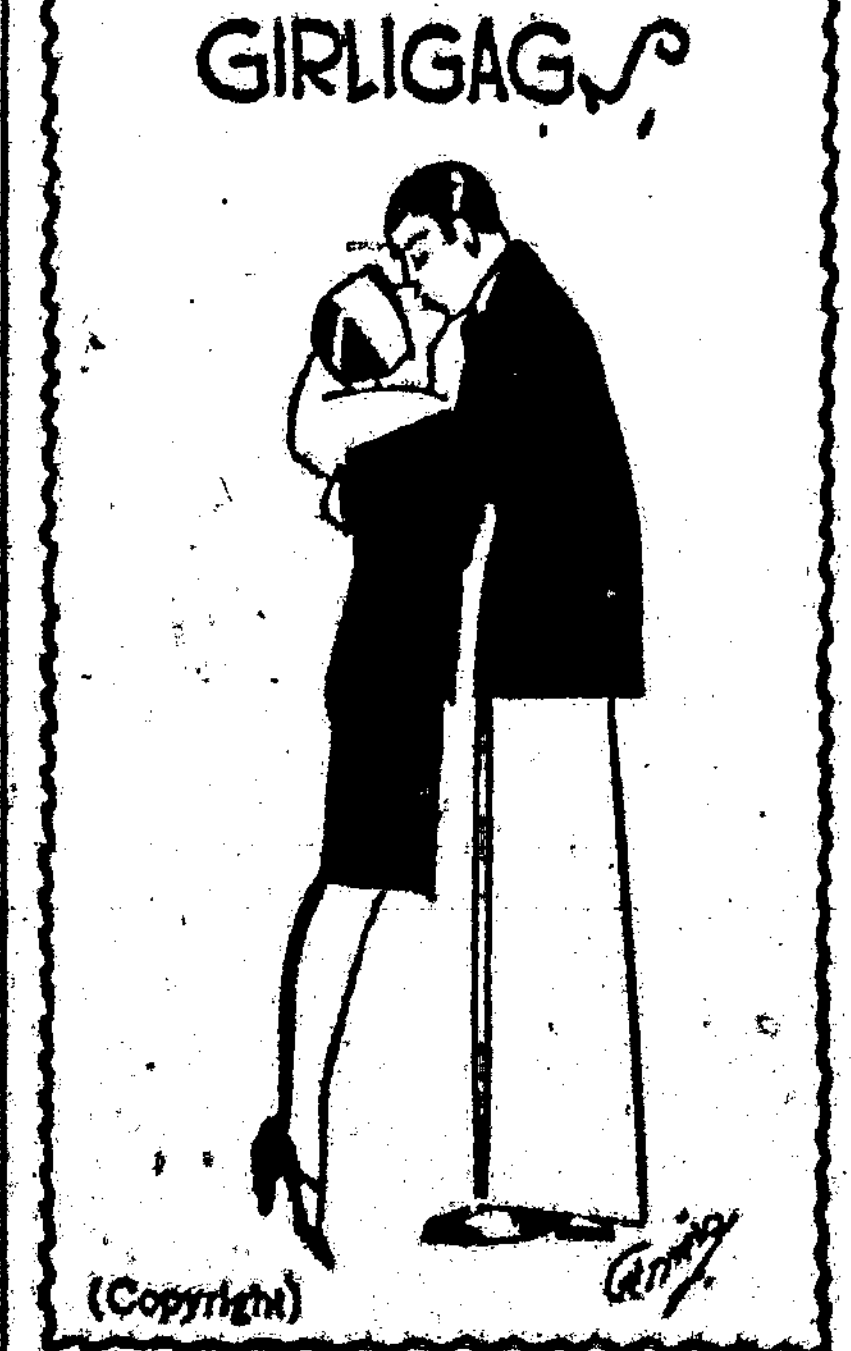

But minstrels existed long before the days of Dan Emmet. Their origin is written in their name, for "minstrel" comes from the old French "menestrel," which goes back to the Latin "ministrales," meaning servant. And the first minstrels were of the class of musical entertainers attached to medieval households, particularly those who sang to the accompaniment of the harp or other instrument.

Later the name came to be applied to street singers and traveling troubadours of whom frequent mention can be found in contemporary literature. For instance, in a Flemish book entitled "Adventures of the Fox Rhetenhardt," written in the Twelfth century by one Willem, we read of "minne-streels" or troubadours.

Anatole France refers to Homer as a minstrel who traveled to the military camps to entertain the soldiers with his epic songs. But the first valid minstrel and the first to answer to that name were the medieval troubadours of whom the burnt-cork gentry are a comparatively modern variation.

Nellie Maxwell

"I am glad," mused Flous Georgia, "that the 1927 style of dressing will not change with the spring style of gowns."

PERSONALS

A welcome letter was received this week from our old friend and former county school superintendent, J. E. Koonce, who has been teaching in the Spanish-American Normal at El Rito, since leaving here a number of years ago. The Professor tells of the change in the management of that institution, Prof. Conway, Ex-Supt. of Public Instruction now being its President with a new Board of Regents. The school is moving along smoothly, peaceably and harmoniously and the graduating class will be greater this year than any in former years.

Men's Overalls and Work Shirts marked down - get our prices. C. D. Mayer.

S. F. Miller, G. S. Hoover and W. A. Wunsch, who attended the Masonic Grand Lodge at Las Cruces last week, have returned. Messrs. Hoover and Wunsch returning after the closing and Mr. Miller staying over the Eastern Star Grand Lodge exercises which occupied the remainder of the week, returning with Grand Master Doughty of the Odd Fellows, who was a Masonic delegate from Tucumcari.

Now is the time to get your Slab Wood - \$3.50 per truck load at the Western Lumber Co.

Cut prices on Men's Caps. C. D. Mayer.

Florencio Vega, whose ranch is situated about five miles east of here, near the John George place, has recently erected a large windmill on his ranch which gives an ample supply of water for his cattle and also affords him irrigation for his vegetables and fruit trees, which he is growing and the same are doing nicely. This shows what one man may do on a piece of land with the proper amount of work and a good supply of water.

Heinz' Salad Dressing, 6 oz., 30c
Heinz' Catsup, pts., 35c.
G. D. Mayer.

The Boys' Basketball team left yesterday for Roswell, where they will attend the Southwestern Basketball Tournament which will occupy the balance of the week. Let us hope that they will come home with some of the bacon.

Hershey's Cocos, 8 oz., 20c.
C. D. Mayer.

Mr. and Mrs. Brack Sloan and children were in from their ranch near Ancho on Tuesday, attending to some business affairs and leaving for home late in the afternoon.

Gallon Pan Cake Syrup... \$.80
Gallon Domino Syrup... 1 05
Gallon Mary Jane Syrup 1 50
C. D. Mayer.

All Kinds of Legal Blanks at the Outlook Office.

Harry Ryberg and E. D. Hall were here from their ranches near Corona last Saturday.

Mr. and Mrs. Lee R. Adams, who were married in El Paso Jan. 7, are now located at Benson, Arizona and like their new location very well, according to a letter from them this week, in which they ordered the Outlook sent to their address in order to have the official doings of the county. Mrs. Adams is a daughter of Mr. and Mrs. W. J. Ayers and before her marriage, lived with her parents at their ranch near Jake Springs.

SWEET MILK
For Sale: pints, 8c; quarts, 15c.
C. D. Mayer.

Carrizozo School Notes

By Jeanne Reilly:
The Socratic society gave an excellent literary program last Friday, which was well attended. Mrs. French's room, the third grade, gave a splendid little play, "February Sewing Club." The girls' and boys' basketball teams played Alamogordo and both were victorious. The girls' score being 26-29 and the boys' 21-12. The games were very fast and exciting, both teams fighting hard all through the games.

The boys leave for the tournament Thursday at noon and we hope they will bring the Championship and Sportsmanship cups.

Following is the program given by the Socratic Society Feb. 25th:
Song by Mrs. French's room; Reading, Ellen Ludlow; Piano Solo, Bill Nickels; School Paper, Laboma and Mary Lou; Piano Trio, (Musical Number); Reading, Beatrice Pino; Current Events, Louise Hall; Vocal Duet, Lorene and Lena; Critic, Don English.

Cream of Wheat Co. have been so kind as to send samples of Cream of Wheat to the first primary, stating that if they will eat a hot cereal for breakfast for four weeks, the company will present the room with a large colored picture.

J. C. Hutchison had a birthday and his mother sent a big cake, so the primary had a nice party.

In behalf of Mrs. Spencer and Mr. Burkett, we wish to express our sincere appreciation for the hearty support given us by the community this season and we feel fully repaid for our efforts.

There will be another Enchilada and Hot Tamale supper at Navarro's Hall on the east side, Saturday, March 19, beginning at 5 p. m., for the benefit of the Santa Rita School. - C O M E.

Meadames S. O. Sproles and B. L. Stimmel, who were among the delegates to the Eastern Star Grand Lodge at Las Cruces last week, visited Mrs. Walter Place at Mesilla Park, before their return. Mrs. Place was a resident of Carrizozo for several years at the residence now owned by Mr. and Mrs. Charles Joyce, on north main street.

Mr. and Mrs. Jesse May, who resided on the Nogal - Mesa for many years, are now at Ontario, Oregon, visiting Jesse's mother, Mrs. E. E. Grimes. They made the trip to Oregon by motor and on their way, visited many old Carrizozo people at different places along the line. Jess writes an interesting letter concerning the sights they saw on the trip and the only trouble they experienced on the 2,717 miles was one flat tire.

New supply of all kinds of Pickles - Prices right.
C. D. Mayer.

Sheriff Kelsey left Tuesday morning for Springer, N.M., accompanied by Walter May, to carry out the orders of the District Judge, which makes the child an inmate of the Reform School. This order was carried out after the boy had violated a parole, pending good behavior. The Sheriff returned Wednesday night.

Mince Meat, 2 pound jar, 65c.
C. D. Mayer.

Albert Ziegler of Ziegler Brothers' General Store, is in receipt of a letter from Mrs. Ziegler, who left here last Sunday for Seattle, to visit her daughter, Mrs. Chas. Coplin. Mrs. Ziegler had a pleasant trip and arrived at her destination in safety.

Prices Reduced on all muslin, sheeting, pillow tubing, etc.
C. D. Mayer.

Capitan School Notes

March 5 and 6 will be the end of the basketball season which will culminate with the Tournament at Roswell, Mar. 5-6.

Our boys are going to the tournament; we do not expect to make a mark, but we are preparing for next year, as all of our pupils at school have participated in playing the game and it will not be hard to develop a good team of boys and girls.

We wish to say this for the boys and girls of the Capitan high school, though we have not had strong teams: I have never seen anything to criticize, nor have I heard any criticism in our boys and girls going to and from, or playing the games. This is something the people of Capitan should be proud of, as we have a set of young people that is good enough for any place.

I wish to thank the mothers of the community for taking the interest that they have shown in going with their boys and girls. The County Teachers' Association will meet in Capitan on April 1-2. We expect everybody in Capitan to show the teachers a good time. We will have to ask the people of the town to open their homes for one night to accommodate the crowd, as the hotels will not be able to accommodate all the people.

We will have a good program; in fact, more than we can do in two days. We expect three or four of the best men in the state and probably a couple from out of the state.

Our county nurse called on us last Friday and gave us a talk on her work which she is going to give in the schools. We wish the mothers to take notice in this and interest their girls in the work.

The Senior play is progressing nicely and will be ready to be put on in the near future.

Our school is two-thirds gone and everybody is looking for a whirlwind finish.

Mr. Lambert went to Carrizozo Saturday on business.

Notice

The County has issued warrants to the following - named parties, whose addresses are unknown:

- Armstrong, F. H.
- Anderson, L. D.
- Anderson, Syl.
- Braswell, Paul
- Cristin, A. C.
- Chapmond, O. L.
- Creeley, R. O.
- Duffie, O. H.
- Dixon, J. E.
- Egger, E. F.
- Fivessh, W. F.
- Fitzhugh, G. R.
- Grimes, Jas. W.
- Givens, Arthur
- Jones, C. F.
- Jones, Walter
- Lacey, R. W.
- Maples, Aaron
- Mendell, John C.
- McTigue, Fred
- McIlhany, Joe
- Neighbours, Alfred R.
- Peres, D.
- Pramberg, Oscar
- Read, W. R.
- Sandoval, Victor
- Smith, H. R.
- Shields, Robert
- Sidwell, G. W.
- Sidwell, J. N.
- Thomas, J. D.
- Van Pelt, W. B.
- Williams, G. L.
- Wallace, A. J.
- Warner, S. M.

We will appreciate receiving addresses of these parties - most of the above warrants are payments for wild animal bounty. All warrants not called for at the end of six months will be cancelled, and the balances protecting same reverting into the General Fund, after which time it will be necessary to file new claims.

Lotah Miller,
March 4-26 County Clerk

"UNIVERSAL PROVIDERS"

ESTABLISHED in 1886

Notice of Sale of School Bonds for District No. 2, San Patricio, New Mexico, for the Erection of School Building

A public notice is hereby given that on the 4th day of April, A. D. 1927, at the hour of ten o'clock a. m., at the County Court House at Carrizozo, New Mexico, the Lincoln County Board of Education of Lincoln County, New Mexico, will receive and open sealed bids and will sell to the highest responsible bidder the bonds of San Patricio, District No. 2, New Mexico, in the sum of Thirty-Five Hundred Dollars (\$3500.00); said bonds shall consist of Seven bonds in denominations of Five Hundred dollars (\$500.00) each, dated the 1st day of June, A. D. 1927, due and payable as follows:
Five Hundred dollars (\$500.00) on or before June 1st, 1932, 1934, 1936, 1938, 1940, 1942, 1944, and shall bear interest at the rate not exceeding 6 per centum per annum, payable semi-annually, both principal and interest being payable at the office of the County Treasurer, Lincoln County, New Mexico.

Each bid must be accompanied by a certified check drawn on a solvent bank or trust company, payable to the order of the County Treasurer of Lincoln County, New Mexico, for 5 percent of the amount of the bid, as a guarantee that the bonds will be taken by the bidder, if his bid is accepted, and to be forfeited if the bid is accepted and the bidder does not take the bonds in accordance therewith. No bid will be accepted for less than ninety-five per centum (95 per centum) of the par value of the bonds plus the interest accrued from the last preceding interest date to the date of sale. Only unconditional bids will be considered; the right is reserved to reject any or all bids.

M. B. Faden,
County Treasurer.

The Titsworth Co., Inc.

CAPITAN NEW MEX.

This office is in receipt of a letter from our old friend and former resident, J. H. (K. C.) Farris, who was for several years an operator at the local station, but is now in the offices at El Paso. K. C. says that the time for his vacation is near at hand when the family will make an extended tour over the south and far west. He asks to be remembered to the many friends of the Farris family here.

FOR RENT. - Four-room house, completely furnished and newly decorated. Water and light. Apply at the Outlook office. March 4/27

Attend the Crystal Theatre

San Patricio School Entertainment

On Saturday evening, Feb. 26, the San Patricio school, assisted by the famous Gus Lemp Orchestra of Roswell gave one of the most pleasing evening entertainments that this part of the county has enjoyed.

Piano solos by Mrs. Mims, character songs by several pupils, with Mrs. Dixon as guitar accompanist, and Miss Norman's classic dancing were special features of the occasion. In the near future, we will repeat the program. The Lemp orchestra furnished a wonderful program of dance music, enjoyed by the many friends congregated.
