The Seamon's Church Institute Community House is nearing completion, the roof now being raised. This is to serve the patients as club house for daily use, and a modern suite of rooms furnished for the use of patients, friends and guests to the Post. The work is under the direction of Chaplain Swift. The Reverend preached at Lincoln Sunday night to a congregation of 52, 14 receiving the sacrament.

Mrs. D. J. McLaughlin and son Junior, who have been visiting here with the James Cavanaugh family for the past two months, left for their home in Cleveland, Ohio, Wednesday, Mrs. Cavanaugh accompanying them to Carrizozo where they took the train.

Chapel of our Redeemer Fort Stanton, N. M.

Tonight, Sept. 7, there will be a meeting of all Sunday School workers and interested people in Sunday School work at 7:30 p. m. We have been fortunate in securing Rev. Fred B. Faust, one of the outstanding Sunday School workers of the southwest, who will speak on some phase of Sunday School work and also conduct a round table discussion of matters pertaining to the building up of the Sunday Schools in this community. This meeting will be of vital importance to you in many ways and deserves your efforts. There will be food for the soul and refreshments for the inner man. Come and bring your friends.

—Milton J. Swift, Chaplain.

A live Sunday School or church never just happens, it means prayer and careful preparation. We must have intercession for the leading of the Holy Spirit.

What place has the Sunday School in bringing about a revival in the churches of the county? Should we confine each meeting to some one department?

Be sure to preserve the good points and suggestions made by the speakers and be able to apply them in your school. Study the method of teaching in your public schools and apply them in your Sunday School.

Our public schools use the graded courses for teaching—what is your opinion as to the use of graded lessons in Sunday School work?

Do you teach missionary work in your class or school? If not, why not?

Prayer is work, but it pays! Do you have weekly prayer meetings?

Is your school trying to make Christ a reality in the life of the child? If not, your time is wasted.

Church going for business reasons is a waste of time.

Do you receive the message of the lesson before you try to give it to others?

Bring your own problems and suggestions—discuss them freely for they may help others to wake up to their needs.

Boy Scout Notes

The boy scout troops of eastern New Mexico are preparing to have exhibits at all the county fairs. These exhibits will show the various scout handicrafts and will give people a better idea of the scout training.

At the Chavez County Cotton Carnival to be held Oct. 3, 4, 5, 6, scouts have been allotted a space in the new exhibit building and the carnival committee have arranged a premium list and will give cash premiums for 22 different articles. Each article must have been made by the scout troop entering it, within the year. The list includes scouting exhibits, photography, wood-carving, nature study, Indian handicraft and bird houses.

Last year, scouts in Alamogordo, Dexter, Carlsbad, Artesia, Hagerman, Portales, Clovis and Roswell entered exhibits and this year with the added premium list every troop in eastern New Mexico should take part. In addition there is a cash prize for the troop whose scouts take the most ribbons.

"Thanks for Buggy Ride"

Glenn Tryon, Universal's new comedy star, is supporting Laura La Plante in her latest, "Thanks for the Buggy Ride" which will be shown at the Crystal Theatre Sept. 11 and 12. Tryon was born in Butte, Montana and at the age of 14 played in the local stock company and when the company closed for the summer he took his savings and went to N. York.

He put in two years as a dancer in a road show and then his friends secured him a job in the Majestic Stock Co. in Los Angeles. Then he went on the road in vaudeville and ended in an obscure New York theatre. Here Hal Roach discovered him and starred him in short comedies.

Tryon had bigger ambitions. He returned to the stage in Los Angeles and was there seen by Carl Laemmle, who sent a note to Tryon and invited him to Universal for a test. It was satisfactory and Tryon was signed and placed under a long contract.

The Reilys Here

- J. B. French
- Mrs. J. E. Farley
- B. L. Stimmel
- C. D. Mayer
- Joe Chavez

The Committee reported eighteen as a list of delegates which were duly elected to attend the Capitan Convention.

Those holding proxies were: A. L. Burke, Mr. and Mrs. J. B. French, Lewis Burke, Dr. R. E. Blaney and B. L. Stimmel. The Misses Rosalind Burke and Alene Thompson were visitors at the convention.

Democrats Meet

The Democratic County Convention assembled last Saturday at 11 o'clock, appointed committees and adjourned until 2 p. m. when after listening to reports from said committees, proceeded to nominate candidates for various offices.

It was apparent that the leaders arranged the list so as to save the hardest contentions to the last, from the fact that contrary to the usual custom, candidates such as Assessor, Treasurer, both of the present incumbents being nominated by acclamation. Probate Judge, also a present incumbent, and Commissioners, one of whom, Mr. Rose, being nominated by acclamation and the other two with no contests to speak of, were given first consideration.

The first battle took place when it came to sheriff, E. W. Harris and Peter Johnson, Jr., being the nominees. There were several ballots taken amid frantic attempts at different times from delegates to get recognition from the chair and on the final ballot, Mr. Harris was nominated. Mrs. S. H. Nickles was nominated for the office of school superintendent and Mrs. Zoe Glassmire for county clerk and the convention adjourned.

On a Trip to California

The W. W. Stadtman family left yesterday for California, where they will visit Mr. Stadtman's parents for several weeks. They will go through the Grand Canyon on the trip, and will visit many other places of interest during their absence. They will return by the last of this month.

School Postponed One More Week

The contractor, Thos. Heflin, informs us that it will be impossible to have the school building ready for school by Sept. 17, but that he will have the grade rooms and a sufficient number of high school rooms ready for us to begin school on Sept. 24. Enrollment for high school pupils will begin Saturday morning, Sept. 22. The grade pupils will be enrolled Monday morning, September 24.

Judge Kimbrell Here

Probate Judge John Kimbrell came in Saturday, attended the Democratic county convention and stayed over until Tuesday attending to some probate court matters requiring his attention. The Judge always makes his visits both pleasurable and profitable by taking care of the court matters and shaking hands with his old friends.

Our Nominee for School Superintendent

Mrs. Alice M. French, our Republican nominee for County School Superintendent, is a woman of high executive ability and exceptional educational qualifications. She was graduated from the high school of Knoxville, Tenn. and later from Georgetown College with a B. S. degree. She also holds a Teachers' Life Certificate in New Mexico.

Before her marriage, Mrs. French taught school in Knoxville for five years and during 2 summers she studied in the Summer School of the South at the University of Tennessee.

For several years Mrs. French was the substitute teacher in the Carrizozo schools. In 1922 she was elected a regular teacher, which position she has held up to the present time. During the past summer Mrs. French studied at the Teachers' Normal in Las Vegas, her course including School Administration and New Mexico School Law. This class of work is especially adapted to the duties of a school superintendent.

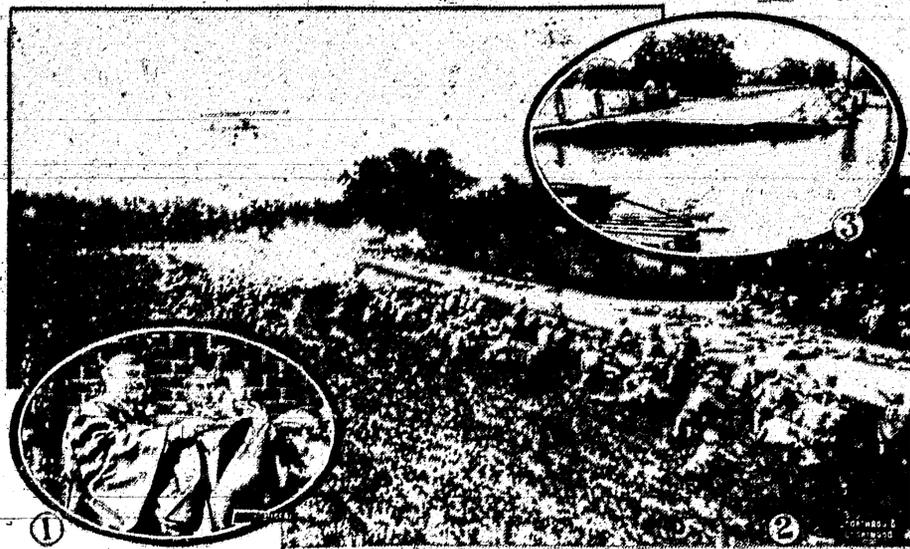

Mrs. French has been a resident of Lincoln county for the past 20 years, more than half of which has been spent in Carrizozo. She has always manifested a keen interest in all activities throughout the county, her chief interest being in educational work. She would do much to build up any school system with which she might be connected.

Returned from Meeting

L. A. Whitaker and T. E. Kelley have returned from Santa Fe, where they attended as delegates to the State Fish & Game Protective Association. They report a splendid meeting.

D. A. Saunders Here

came up from El Paso yesterday, attended a meeting of the Eastern Star, and left on the morning train for home. D. A. looks well and his many Carrizozo friends were glad to see him.

1—Mrs. Herbert Hoover receiving honorary degree at Whittier college, California, which she attended in her youth. 2—United States navy sailors, in first shore training, "attacked" by an airplane near Norfolk, Va. 3—Scene at Milledgeville, Ga., typical of the state of the region after the disastrous rains and floods.

NEWS REVIEW OF CURRENT EVENTS

Smith in Acceptance Speech Is Outspoken for Change in Prohibition Laws.

By EDWARD W. PICKARD

WITH the courage of his convictions Gov. Al. Smith in his speech of acceptance frankly declared his opposition to the Eighteenth amendment and the Volstead act as they now exist. This was the dominant note of his address, which was delivered in the assembly chamber at Albany because of a persistent rain that prevented the outdoor exercises. Necessarily Smith, like Hoover, declared that if elected he would honestly and vigorously enforce the dry laws. He also repeated his belief that the nation would not and should not return. But the vital part of this section of the speech was a demand for the modification of the Eighteenth amendment to permit the sale of alcoholic beverages by state agencies if approved by popular referendum; and for amendment of the Volstead act to allow each state to determine its own standard of alcoholic content, the maximum not to exceed that provided by the amended Eighteenth amendment. However, scoring the evil conditions which he said had resulted from the present dry laws and the failure to enforce them, the candidate declared: "I raise what I profoundly believe to be a great moral issue involving the righteousness of our national conduct and the protection of our children's morals."

Concerning the farm relief problem Smith went little further than the Houston platform on which he stands. He promised to take up the matter immediately after election, acting on the advice of experts. He pledged himself to the restoration of honesty in government and to scientific tariff making and declared against "sudden or drastic" changes in the economic system which might upset business. In other matters he followed the platform quite closely.

Unbiased and nonpartisan opinion is that Smith in his address showed he is making his chief play for the Eastern states; that he believes the South will be sold for him, and that his hopes of winning states in the Middle West are not excessive. His prohibition program is clear enough and is workable, and probably satisfies all the wets except those who still insist the Eighteenth amendment should be utterly wiped out. No one supposes it will please the wet Democrats of the South. But it is likely their attitude is fairly expressed by the Arkansas Gazette of Little Rock, which says:

"The Gazette is for the present dry laws, fully and strictly enforced. It cannot shift ground an inch toward compromise with Governor Smith. Nevertheless this newspaper can and will continue to support Governor Smith for President. The changes Governor Smith deems necessary and expedient would be defeated in congress by dry legislative votes."

GOVERNOR SMITH took time last week to reply to the attack on his record in the New York legislature made by William Allen White, which already had been disowned by the Republican publicity chief. The governor justified his votes on liquor and social vice matters by explaining the circumstances, and though White made answer from Paris it was generally admitted that Smith had much the better of the argument.

HERBERT HOOVER in his progress from California to Washington stopped at West Branch, Iowa, the town of his birth, where he was accorded a fine reception by the villagers and took occasion to elaborate his views on farm relief. He made one concrete proposal—that of an adequate federal revolving fund to be placed at the disposal of the farm industry and intelligently used in financing whatever measure of crop control is found necessary to stabilize prices. He also said that, if elected, he would ask Governor Lowden to be among the counselors for a farm solution.

He administered a final blow to the equalization plan with the words: "It is not intended to put the government into the control of the business of agriculture, nor to subsidize prices of farm products and pay the losses thereon, either from the federal treasury or by a tax or fee on the farmer."

PRESIDENT COOLIDGE named, as secretary of commerce to succeed Hoover, a personal friend, William F. Whiting of Holyoke, Mass., and the new cabinet member was sworn in immediately at Superior, Wis., in Mr. Coolidge's presence. Mr. Whiting, who is sixty-four years of age, is head of the Whiting Paper company. He has never before held public office but has been keenly interested in politics and was a delegate to the Republican national conventions of 1920, 1923 and 1928. His selection was a surprise in Washington, where it had been expected that either Dr. Julius Klein or Walter F. Brown, both high in the department, would get the appointment.

COMMANDER RICHARD E. BYRD'S antarctic expedition, the most elaborate of its kind ever organized, is on its way toward the South pole. The bark City of New York sailed Saturday from New York carrying planes and equipment to the hopping-off place, and also 31 of the 70 men who compose the expeditionary force. Commander Byrd and the rest of the men will sail in September on the whaler Larsen and the Cheeka, taking more planes and equipment.

The City of New York is under the command of Capt. Frederick C. Melville, a cousin of the late Herman Melville, author of sea stories and creator of "Moby Dick," the great white whale. He has been going to sea since he was thirteen years of age. He is now forty-four. The bark is equipped both with sails and auxiliary engines, but will use its sails whenever possible to conserve the fuel supply.

BERT HASSELL and Parker Cramer, who started to fly from Rockford to Stockholm with stops in Ontario, Greenland and Iceland, reached their first stopping place all right, but on their second hop they disappeared. When hope for their safety was fading amateur radio operators in Chicago received messages from them saying they had been forced to land on a small island "fifty miles off the Newfoundland coast," that they were safe but their food supply was getting low.

AIRT GOEBEL, the famous winner of the Dole race from San Francisco to Honolulu last year, established a new record last week. Accompanied by Harry Tucker, he made a non-stop flight across the continent from Los Angeles to New York in 18 hours and 53 minutes. The distance was 3,710 miles and the average speed of their Lockheed Vega plane was a little over 142 miles an hour.

BUSINESS of running liquor across the Detroit river from Canada went to pot last week when a court in Ottawa ordered the stocks of the exporters seized within 30 days. Forty liquor dealers, most of them in Windsor, were reported to be hastily clearing their stocks for Vancouver, from which point they may, if lucky, be able to get them into the United States. The Windsor rum fleet was dispersed, and in Detroit and nearby places the prices of liquor rose rapidly. The Detroit river trade was estimated by Ontario authorities to have amounted to a million dollars a month. First efforts by Chicago and Toronto interests to merge all breweries in western Canada under one holding company have been completed with the merging of all breweries in Saskatchewan. The scheme outlined is to organize breweries in Manitoba, Alberta, Saskatchewan, and British Columbia and then to consolidate the organizations into one huge holding company. Coupled with the brewery mergers are plans for a gigantic export business.

NINE persons were killed and property damage amounting to hundreds of thousands of dollars was caused by a terrific wind storm that swept through parts of Minnesota and

Iowa. Many buildings were wrecked and crops suffered seriously. The town of Austin, Minn., sustained the worst of the blow. In northern Iowa hail followed the wind and destroyed the corn crop in a large district. American naval forces are rendering aid to 10,000 inhabitants of Haiti who were made homeless by the recent tropical storm. The crops, especially coffee, were badly damaged and the people in the stricken area were without food and medical supplies until the arrival of the United States naval tug Woodstock.

CHINA has a new trouble, but it isn't likely to arouse great interest at this distance. Western Manchuria has been invaded by a large force of Mongolian cavalry that is led, according to report, by Russians. The Manchurians were defeated in two bloody battles and sections of the railway were destroyed. Japan was worried by the prospect of the weakening of her influence in Manchuria.

ON THE eve of the signing of the Kellogg anti-war treaty France has aroused the animosity of Italy again by holding extensive attack and defense maneuvers in the department of Haute Savoie near the Italian border. Many of the crack French regiments were engaged in the practice and artillery and all the elements in warfare in a mountainous country were used. Italy gave its reorganized army a successful test in maneuvers along the River Po.

Because of the extensive arrangements for his visits in Paris and Dublin, Secretary of State Kellogg abandoned his plan to stop in London after the anti-war pact is signed.

PRESIDENT ELEUTERIOS VENIZELOS won an extraordinary victory in the Greek parliamentary elections. The Venizelist party secured 224 seats out of 250. The Royalists elected 20 members, the Kalandaris four and the Pangalists only two. Venizelos now has a free hand to put in operation his program, which includes financial reform and better relations with Yugo-Slavia.

WALDEMARAS, premier of Lithuania, having refused to negotiate in Geneva his country's dispute with Poland, the government at Warsaw has yielded and agreed to the Lithuanian suggestion for a conference at Koenigsberg before the Geneva meeting in order to bring to an end the unbecoming state of war between the two countries. The Polish note was notably friendly.

ONE of America's spectacular figures in politics, diplomacy and journalism disappears with the death of Col. George B. Harvey at his summer home in New Hampshire. Nominally a Republican, he was the first to boom Woodrow Wilson for the Presidency, but later they became political enemies, to say the least, and in 1920 Harvey had a good deal to do with the nomination of Harding by the Republicans. His reward was the ambassadorship to the court of St. James. During most of his life he was actively connected with newspapers or magazines and for a time he was president and managing director of Harper & Bros.

Another notable who died last week was Viscount Haldane of Cloan who, as secretary of state for war, created Great Britain's territorial army and thus contributed largely to the success of the allies in the World war. He was driven from office by popular outcry because he reiterated his love for German scholarship, though there was no question of his loyalty.

IF THE Interstate Commerce commission approves the consolidation of the Great Northern and the Northern Pacific railways, there is likely to be a new railroad grouping which would bring into co-operation those lines, the Southern Pacific and the Burlington system. This prediction followed the announcement of important changes in the personnel of some of the companies. Hale Holden, president of the Burlington, is to be chairman of the board of the Southern Pacific, of which Paul Shoup will be made president; and other changes were in prospect. The new grouping, with its rate agreements with Eastern lines, would offer a service spanning the continent by three routes.

Improved Uniform International Sunday School Lesson

(By REV. F. H. FRETWATER, D.D., Dean Moody Bible Institute of Chicago, (c) 1923, Western Newspaper Union.)

Lesson for September 9

PAUL IN ATHENS AND CORINTH.

LESSON TEXT—Acts 17:16-18:11. GOLDEN TEXT—For I determined not to know anything among you save Jesus Christ and Him crucified. PRIMARY TOPIC—Paul Tells of Jesus in Two Great Cities. JUNIOR TOPIC—Paul Tells of Jesus in Two Great Cities. INTERMEDIATE AND SENIOR TOPIC—Paul As a Worker. YOUNG PEOPLE AND ADULT TOPIC—Paul, Preacher and Teacher.

1. Paul Disputing with the Athenians (vv. 16-21).

1. The occasion (v. 16). While waiting for Timothy and Silas, Paul saw the city of Athens wholly given to idolatry. This stirred his spirit. It is the consciousness of the world's lost condition that impels disciples to witness of Christ's saving power.

2. The place (v. 17-21). (1) In the synagogue (v. 17). True to his custom Paul went into the Jewish synagogue and entered in to earnest argument with the Jews and the devout persons there.

(2) In the market place (v. 17-21). From the Jews he turned to such as were found in the market place. Here he came into touch with the Epicurean and Stoic philosophers. The former were atheistic materialists, denying the doctrine of creation and giving themselves up to sensual indulgence, rejecting the idea of a future judgment. The latter were pantheists. When they heard the preaching of Paul, they invited him to the Areopagus to speak to them of this new doctrine.

11. Paul's Address on Mars' Hill (vv. 22-31).

1. The introduction (v. 22-23). He introduces his discourse in a courteous and conciliatory manner, saying that as he was viewing their city he beheld an altar with an inscription "to the unknown God." This was his point of contact.

2. The body of his discourse (vv. 24-31).

(1) A declaration concerning God (vv. 24, 25).

a. The material universe was created by Him (v. 24).

b. His spirituality and immensity (v. 24). Being essentially spiritual He demands heart worship, and being transcendent He is not confined to earthly temples.

c. His active providence (v. 25). He gives being, bestows native gifts, and as Sovereign directs all things.

(2) A declaration concerning man (vv. 26-31).

a. He is the offspring of God (v. 26). Since men are His offspring and bear His likeness, it is utterly folly to make images to Him.

b. Nations have their place in God's purpose (v. 26).

c. Men should seek God (v. 27).

d. The present obligation to repent (v. 26, 31).

3. The results of Paul's address (vv. 32, 34).

(1) Some mocked (v. 32).

(2) Some procrastinated (v. 32).

(3) Some believed (v. 34).

111. Paul in Corinth (Acts 18:1-11)

Paul came to Corinth a stranger. His method of gaining a foothold is worthy of note. His first task was to find a home (v. 2), his second was to earn his daily bread (v. 3).

1. Preaching in the synagogue at Corinth (vv. 4-8).

(1) Time (v. 4).

(2) Encouraged by the coming of Silas and Timothy (v. 5).

(3) Opposition to Paul (v. 6). As he increased his activity, opposition also increased.

(4) The purpose to turn to the Gentiles (v. 6).

Because of their blasphemy and opposition he ceased work among the Jews.

(5) He did not go far away (v. 7). He remained sufficiently near so that those whose hearts God had touched could easily find him.

(6) His success (v. 8).

Crispus, the chief ruler of the synagogue, was converted and Paul departed from his usual custom and baptized him (1 Cor. 1:14). Many others also believed.

3. Paul's vision (vv. 9-11).

His experiences since coming to Europe were very trying, therefore he needed encouragement. It is just like the Lord to come when His servant has the greatest need. Note the Lord's words:

(1) "Be not afraid."

(2) "Speak and hold not thy peace."

(3) "I am with thee."

(4) "No man shall set on thee to hurt thee."

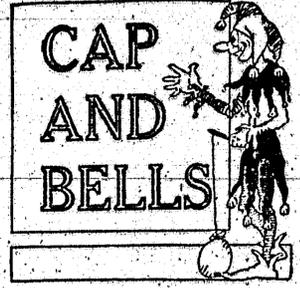

(5) "I have much people in this city."

Leaves Its Benediction

Every deed of kindness or unselfishness that we perform with love in our hearts for Christ, though it bless no other soul in all the wide world, leaves its benediction on ourselves.—J. K. Miller.

Ever Present

The God of Israel, the Savior, is sometimes a God that hideth Himself, but never a God that absenteth Himself; sometimes in the dark, but never at a distance.—Matthew Henry.

THE UP AND DOWN OF IT

He was a good cook, and the explorers were trying to persuade him to make the long flight into the wilds with them. "Oh, Rastus! Come on and go! Nothing's going to happen to you." "But what if Ah gits up dan, and wants to come down in a hurry?" "Why, didn't you know the plane was equipped with elevators?" "Elevators! Hee, hee, hee! Dem elevators sure to be gwine up jes' when Ah's a-coming down! No, sah, boss. Not me!"—Acro Digest.

BUT ONE OPENING THERE

Applicant—I just stepped in to see if you have an opening for a young man.

Business Man—The only opening I have is the one you just came through. Don't leave the door open as you go out, please.

Puzzled Public

The Public murmurs in surprise "I'm sure I'm not quite a dunce. A hundred issues now arise. Can I decide them all at once?"

His Pet Aversion

Defendant (in divorce court)—We could get along all right if my wife did not have the habit of ignoring me entirely at times.

Judge—And you mean to base your defense on the fact that your wife ignores you?

Defendant—Yes, your honor, if there is anything that makes me see red it's ignorance from my wife.—Capper's Weekly.

A Small Order

The Landlord—I'll be fair. I'm willing to spend one month's rent in decorating.

Mr. Littlefat—All right. Here's my check. Put it in one dollar bills and paper the living room with 'em.

No Use for It

The Salesman—I can recommend this machine for its simplicity. A child can operate it.

Old Miss Leftover—Sif! Are you aware that you are addressing an unmarried lady?—Kansas City Times.

THE POOR FISH!

Lobster Cop—Hey, you're pinched!

Impetuous Crowd

The aviator goes his way, With bold achievements thrilling us. He tries to land in such a way That won't result in killing us.

Just a Name to Him

"Then you won't invest?" "No." "I tell you this is another Golconda."

"That means nothing to me. What are the original Golconda shares listed at?"

Too Torrid

Auntie—What's the matter, dear? Don't you like your asparagus? Elsie (four years old)—Yes, auntie, but the sandies are so hot.

Setback for Team

Ann—Just think, Ed is on the football team.

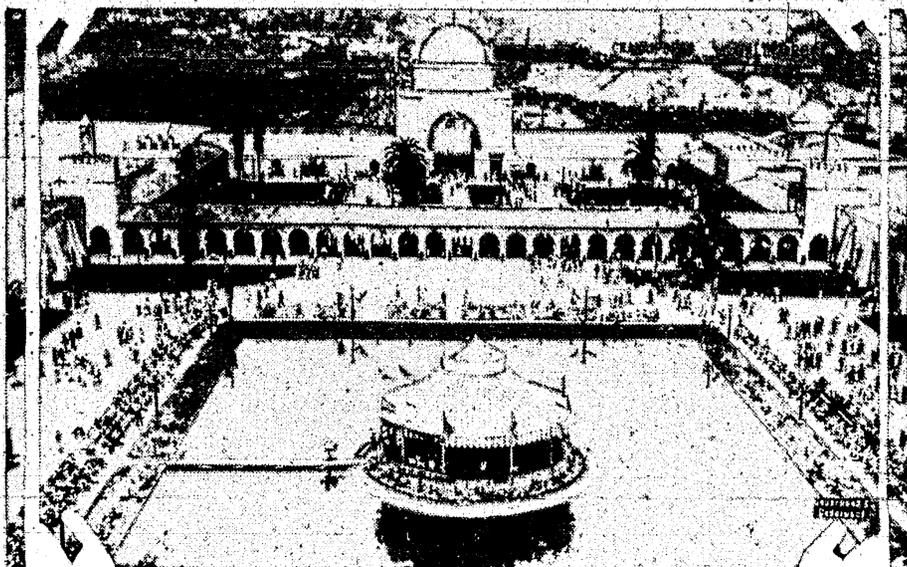

Mary—That's his knee. What is he? Halfback or quarterback?

Ann—He's a drawback. Charlie Bangs says he's the greatest drawback the team ever had.

Not a Bad Showing

"Does your wife live within your means?" "Just hops over a little around the edges."

View of Pacific Southwest Exposition

The Pacific Southwest exposition at Long Beach, Calif., has been attracting large numbers of visitors. This view looks across the Pool of Reflections in which is a beautiful island tea room. The mass of automobiles seen parked in the background gives an idea of the number of people that are drawn to this exposition.

Washington Seems to Be Badly Torn Up

The Washington monument's dignified domination of the capital sky-line has suffered a rude jolt since the beginning of the federal building program. To the tall and stately spire has been added an array of snorting, smoking monsters which are employed to drive the approximately 8,000 concrete piles which are to support the new \$10,000,000 Internal Revenue building.

President Coolidge Wore an Overseas Cap

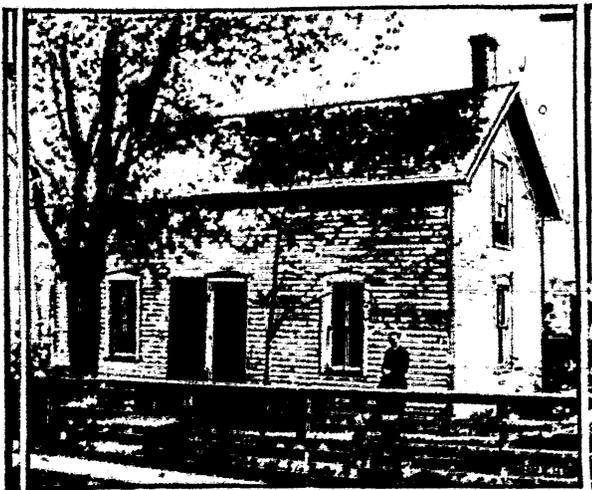

When President and Mrs. Coolidge and their son John attended the Wisconsin state convention of the American Legion at Wausau, the Chief Executive donned an overseas cap for the parade through the streets.

British Revisit the Vimy Ridge Trenches

Perhaps the most interesting incident of the British Legion's pilgrimage to the battlefields of France and Belgium was the visit to the Vimy Ridge trenches, which have been carefully preserved. Many thousands of soldiers lost their lives there.

Mrs. Hoover Wants to Buy This House

This is the small house in which Herbert Hoover was born at West Branch, Iowa, which Mrs. Hoover is seeking to buy and present to the nominee. Mrs. Jennie Seckers, present owner, however has expressed a reluctance to dispose of the homestead.

MOST PERFECT BACK

The spinal perfection of Miss Ruth Hurschler of Old Walnut Park, Calif., won for her the 1923 title of having America's most perfect feminine back. The contest was a feature of the National Progressive Chiropractors' convention in Los Angeles. Doctor Wood is shown presenting the cup to Miss Hurschler.

FUGITIVE CAUGHT

Thomas B. Murray, Dunbar (Neb.) banker, fugitive from justice for nearly two years, who was recently found near Seattle, Wash., working on a farm trying to get enough money to buy a small real estate business in Canada. Murray, a former president of the Dunbar State bank, disappeared nearly two years ago, leaving behind him, it was alleged, a trail of unpaid bills and bad notes which resulted in a loss of nearly \$200,000 to his bank.

Oldest of Living Twins

Mrs. Frances Peterson (left) and Mrs. Mary Halbert, both of Whitehall, Ill., who are believed to be the oldest living twins. They are in their ninetieth year. They were born July 6, 1833. Mrs. Halbert was married in 1857, while her sister was married in 1850.

Here Is the Perfect Taxi Driver

Burton Lee Bowen, sixty-five years old, is dean of the taxi drivers of Washington. His fourteen-year-old car has become a landmark at Dupont Circle, where he has done business since the days of the old herdies. During Mr. Bowen's forty-two years on Washington streets, he has never had an accident nor been arrested for a traffic violation, and has never been "bawled" out by a policeman. Topers or petters have no place in his cab.

SURF-RIDING DOG

Ray Sullivan of Washington, D. C., is not content to use the surf board alone. Here he is shooting through the water at Scotland Beach, Md., with his pet fox terrier, Bob.

NEW WORLD'S MARK

Lillian Copeland of Pasadena, Cal., who led the American women's Olympic team to victory over leading European stars in an international meet. She heaved the shot 33 feet 5 inches, breaking the world's record set by Fraulein Lange of Germany. She also won the javelin throw and the discus throw.

CURTIS PLEDGES PROMPT FARM AID

Vice-Presidential Candidate Asks Non-Partisan Solution Under Hoover Leadership.

URGES JOINT COMMITTEE

Agricultural Situation, He Explains, Is of Deep Economic Importance to Citizens.

By U. S. SENATOR CHARLES CURTIS
Republican Vice-Presidential Candidate.

Senator Curtis, in his Address of Acceptance, stressed the importance of prompt action on the question of farm aid. "The problem," he declared, "is of deep-seated economic importance to every citizen without regard to occupation or political party." He added the significant thought that "properly its solution is and always should be, non-partisan." For the leadership of such a non-partisan movement, involving the expenditure of hundreds of millions of dollars by the federal government, he declared that the leadership should be Hoover's—a man well worthy of the party's choice.

THE question of the proper relief for Agriculture is a trying and perplexing one. The problem is of deep-seated economic importance to every citizen without regard to his occupation or his political party. Properly, its solution is and always should be, non-partisan. I am convinced that if a small joint committee of the House and Senate were appointed to study the problem and to find its proper solution, the necessary relief quickly could and would be afforded. The Committee could be assisted in its task by the advice and

Improved SAMSON Windmills

With SELF-OILING Boxes

The good qualities of this new device can be readily seen when compared with the old style, noisy, lumbering windmill, which had to be oiled every day in order to run. Now, your oiling troubles are at an end. The self-oiling feature of the new SAMSON wherein all bearings run constantly in a flood of oil, causes the windmill to run easily, make less noise and with less expense than any windmill on the market. As proof of the pudding is in the eating of it, so is the lasting virtues of the Samson windmill, made possible by a trial test. For full information SEE—

Economic Expert and Official Under Wilson Says Houston Convention Platform Fools Nobody

Playing Tammany Hall for attempting to play a "con" game on the farmers of the nation, Carl S. Vrooman, assistant secretary of agriculture under President Wilson, declares that intelligent farmers throughout the country have received no comfort from the agricultural plank in the platform of the Democratic convention.

"The Tammany Hall campaign idea seems to be based on the theory that it can sell political gold brick promises to a bunch of hayseeds out West." Mr. Vrooman said "I am confident the farmers of the nation will not fall for this latest 'con' game from 'The Sidewalks of New York.'"

He charged Tammany with being Democratic in name only and said that "it is essentially mercenary and parasitic. It double-crossed Wilson, Cox, and Davis."

"One of Tammany's first acts was of subterfuge and double dealing. The agricultural plank in the Houston platform was a masterpiece of ambiguity, so framed as to admit of one interpretation in the East and another in the West and South."

"A few days after a conference with Peck (George N. Peck, of Moline, Ill.), Governor Smith endorsed the equalization fee principle, but the day he put out a statement flatly repudiating the equalization fee itself."

"Intelligent farmers have got no comfort from the agricultural plank in the Houston platform. It professes pliant friendship for the principle of the equalization fee, without pledging the party or the candidate to the McNary-Haugen bill or to any other bill or plan of real benefit to the farmer."

Mr. Vrooman has been active in behalf of the "dirt farmers" in the Democratic party. He drafted and introduced the first farm relief bill in Congress in 1921.

Carl Vrooman introduced the first farm relief bill in Congress in 1921. Mr. Vrooman, an expert on economic subjects, and a writer of note, farms 4200 acres of land near his home in Bloomington, Ill. In addition to his service of five years as assistant secretary of agriculture, he served on the agricultural war mission to Europe.

PICTORIAL LIFE OF HERBERT HOOVER

By Satterfield

1. Herbert Hoover entered Stanford University in 1891. Engineering was his goal.

2. Baseball was his favorite college sport, and he proved an expert at the strategy of the game.

3. His first field work as an engineer apprentice was in the Ozark Mountains, during college vacation.

4. While working his way through college he met Lou Henry, now Mrs. Hoover. She promised to wait.

THIS FARM PAYS

A VIEW of the 1250 acre farm of Herbert Hoover. Operations on Mr. Hoover's farm are conducted on the same high engineering plane as all his other enterprises. The entire acreage is irrigated and highly cultivated for big crops of quality productions. The land was worthless nine years ago when he bought it and was wrested from nature. Every variety of product such as potatoes, cotton, peaches, grapes, onions, figs, etc. is produced. Mr. Hoover constantly checks over with his manager, a university graduate farm expert who has the practical knowledge to go with his scientific education.

CHILD STUDY GROUPS FOR MOTHERS

Entertaining the Children With Stories.

(Prepared by the United States Department of Agriculture)

Extension workers among farm women in Illinois have combined with their child study groups for mothers an excellent arrangement whereby children who are brought to the meetings are separately cared for while the mothers are discussing their own problems. Most of these women are not situated so that they can leave the little ones at home, as the trip may be a long one, keeping them away for a whole morning or afternoon. Many of the questions brought up in a meeting devoted to child care and training should not be talked over when the children are present. In the case illustrated the children play together out of doors under the direction of an assistant during good weather, or in

winter time, in a second room provided for them in the house where the meeting is held. A regular plan is followed with the children, so that their time is well spent. In the group in the picture, which was taken by the United States Department of Agriculture, the children are telling stories. The little girl sitting next to the leader is keeping the others spell bound with her earnestness.

Meantime, within doors, the range of discussion may include proper diet for children, habit training, care of teeth, dealing with unusual or difficult children, or any of the points that confront the observant and conscientious mother. Exchange of viewpoint and literature on children's welfare, and many other advantages result from these meetings.

Fairy Tale for the Children

By Mary Graham Bonner

"Are we going to be shown at the dog show?" asked Julie.

"Yes," said the other dog, named Peggy, "but not in the way you would think."

"You know, of course, we are dogs who have been seen a great deal, for we both act for the moving pictures, and lots of people and children have seen us as we have ran across the screen and wagged our tails and barked and performed tricks."

"But of course we haven't really been running on the screen which the people were watching," said Julie.

"Of course not," said Peggy. "The people and children know that pictures are taken of us when we are acting and then that these pictures are sent about from place to place."

"Well, we are to be seen at a dog

show, but we, ourselves, aren't to be there."

"Neither are they to have moving pictures in which we act."

"I don't understand at all," said Julie. "I am more in ignorance than ever before."

"I know what that means now," said Peggy, "and I will tell you right away about this dog show."

"I am waiting to hear," said Julie.

"They're to have photographs of all sorts of dogs and they will give prizes to the owners of the dogs which look the best, judging from their photographs."

"There will be all sorts of dogs whose photographs will be at this show," continued Peggy, "just as all sorts of dogs would be at a real show."

well. I don't remember which one they meant for the show."

"They turned out splendidly. I've heard," said Peggy. "And I also have heard that the show was a great success though it was funny to hear no barks and to see no tails wagging but simply to see photographs, oh, so many photographs."

"And one more thing I heard."

"Tell it to me," begged Julie. "You are telling me such interesting things today."

"I heard that our photographs won prizes," said Peggy, and Julie barked with delight.

"Well," said Julie, "it was a funny kind of a dog show, and I have enjoyed hearing about it, but best of all, hearing that we won prizes."

"I am so glad that you did not keep me waiting for such news any longer."

HOUSEHOLD SUGGESTIONS

Too hot an iron will yellow silk and make it stiff.

Do not use formaldehyde as a spray or fumigant against moths.

The best way to cook potatoes is to bake them, because then they keep all their minerals.

The refrigerator is cooled when ice melts, therefore, ice should never be covered with paper.

Foods which have strong odors should always be covered when put in the refrigerator, and, if there is a side tier, they should be placed on the top shelf.

"I Am Waiting to Hear," Said Julie.

"There will be dogs like ourselves, who act for the movies, there will be Red Cross dogs, dog heroes and dog heroines."

"There will be dogs who are trick dogs, dogs who come from very fine old families—but none of these dogs will be at this show themselves—only photographs of all these kinds of dogs."

"I hope our photographs came out

CULLING IS IMPORTANT

Accurate culling requires that each hen be examined. To facilitate handling the birds they should be shut up the night before. A great convenience is a coop into which the birds may be driven and from which they may be easily removed. Another method is to seize the birds by use of a strip of wire netting about fifteen feet long. Catching hooks made of stiff wire may be used to advantage in picking up the strays while landing nets used in fishing may be used for this purpose. Regardless of the method used, it is desirable to handle the flock without undue excitement.

GOOD THINGS TO EAT

TRY THESE

Planning something for each meal, day by day, gets to be a most trying strain at times. If everybody liked and could eat all kinds of the good things provided, the problem would be less difficult. We have youth, age, convalescence and those on diet as well as the hearty, healthy ones. Each must have proper consideration. If we are fulfilling our duty as housekeeper for the family.

A delicious cake, which makes one that one need not fear to serve to the most exacting of guests, is prepared as follows: Make a chocolate cake and bake in a square tin, using any favorite recipe that is not too rich. When it is cool, cover the top with the following fruit mixture: Take one cupful of dates, cut fine, add two tablespoonfuls of lemon juice, one-half cupful of water and one-half cupful of sugar. Cook until thick, cool and spread over the top of the cake, then cover with any white frosting, boiled, or of confectioners' sugar.

For a white cake use a recipe for a good ordinary cake, bake in the same kind of a tin and cover with a top of fruit, using a cupful of pineapple instead of the dates. Such cakes keep moist and are not too rich to serve to the children occasionally.

Creamed Sardines.—Drain from oil

one can of sardines. Remove the bones and skin and mash. Melt one-fourth cupful of butter, add one-fourth of a cupful of bread crumbs and one cupful of cream. When thoroughly heated add two hard-cooked eggs finely chopped, the sardines and pepper if needed and serve on toasted buttered bread.

Cheese Conques.—Toast circular pieces of toast, spread with butter, then French mustard and sprinkle with a thick layer of cheese, seasoned with salt and cayenne. Place on a baking sheet and bake until the cheese is melted; serve hot.

Corn Cake.—Take one cupful each of corn meal and flour, four teaspoonfuls of baking powder, one-fourth cupful of sugar, one-half teaspoonful of salt. Add one cupful of milk, two eggs well beaten and one-fourth of a cupful of melted butter. Beat well and bake in a shallow pan in a hot oven.

Seasonable Dishes.
At this time of the year salads and fresh fruit and vegetables have a large appeal.

Alerton Salad.—Wipe, peel and slice into one-third inch slices, one cucumber. Add an equal amount of celery, cut in thin slices, one-half the amount of English walnut meats, broken in pieces and one-third of the measure of green pepper, finely chopped. Moisten with a highly seasoned dressing and heap on sliced tomatoes in nests of lettuce. Sprinkle with chopped olives.

When serving a boiled or steamed fish accompany it with:
Shrimp Sauce.—Melt three tablespoonfuls of butter, add three tablespoonfuls of flour and stir until well blended, then pour on gradually, while

stirring constantly, one and one-half cupfuls of hot water. Bring to the boiling point and let boil five minutes. Add three-fourths of a teaspoonful of salt, one-eighth teaspoonful of pepper, one egg yolk slightly beaten and three-fourths of a cupful of well-cleaned shrimp, cut in pieces.

Date Souffle.—Beat three eggs very light, add slowly one cupful of sugar, heat well, add two tablespoonfuls of flour, one teaspoonful of baking powder, one cupful of dates and one-quarter cupful of English walnuts. Mix and bake in a shallow pan twenty-five minutes. Cut in three-inch squares and serve with whipped cream.

Vegetable Soup.—Cook one-half cupful of celery, one-half cupful of cabbage and two onions thinly sliced in one-third of a cupful of butter for ten minutes, stirring constantly. Add three-fourths of a cupful of bread crumbs and one quart of boiling water, cook until the vegetables are soft. Add one pint of milk and two tablespoonfuls of chopped parsley. Season with salt and pepper.

Luncheon Lobster.—Fry in a little butter, two cupfuls of sliced lobster meat, add one cupful of heavy cream and four hard-cooked egg yolks blended with two tablespoonfuls of butter. Season to taste with pepper and salt and serve on buttered toast or in patty shells.

SOME NEW FLAVORS FOR DRESSING

(Prepared by the United States Department of Agriculture)

If one finds the family getting tired of ordinary French dressing on salad, there are a great many flavors and combinations of seasonings by which it may be varied, says the bureau of home economics. For instance, a little chopped pickle, or crumbled Roquefort cheese, or horseradish, added the last minute to a dressing, give it a tang and zest that will be much appreciated. Make a foundation dressing by the following recipe, and then try adding some of these seasonings singly or in combination: 1 tablespoonful crumbled Roquefort cheese, 1 tablespoonful minced green pepper, 2 tablespoonfuls finely chopped stuffed olives, 2 tablespoonfuls chopped pimientos, 1/4 teaspoonful celery seed, 1 teaspoonful horseradish, 1/2 teaspoonful onion juice.

Vinegar need not always be used in making a French dressing. Orange or lemon juice, grapefruit juice, tarragon vinegar, and the spiced vinegar left from pickles or fruits, are all good variations of the acid called for in the recipe.

Here are some good salad combinations on which French dressing in different forms may be served: Lettuce and watercress with chopped olives in the dressing, lettuce and dandelion with tarragon or spiced vinegar in the dressing, lettuce and curly endive with horseradish dressing, romaine and cress with Roquefort/cheese dress-

Wear Velvet Jacket or Coat With Print Frock

By JULIA BOTTOMLEY

YOU have a favorite frock of silk print and would like to continue wearing it through midseason and early autumn days, providing it would smartly tune in with the new style program? A simple problem this which a colorful velvet jacket like the one in the picture will easily solve.

Let the weather turn even slightly cool and as if by magic the velvet coat, either long or short, makes its appearance upon the scene. Perhaps the full-length are a bit dressier than the jackets, but the latter are wonderfully youthful looking. The new velvet colorings are entrancing, whether in solid tones or prints.

Of course if the jacket or coat is to be worn over a printed gown, solid tones are preferable, although the very newest ensembles are sometimes in velvet print from start to finish. However, assuming that you have decided upon a monotonous velvet to top your most beloved printed silk gown, the thing to do is to let the outstanding color of the patterned dress material be your guide in selecting the proper shade for the coat. If one of the so very popular browns predominates in the silk print then the velvet coat should repeat that brown, and so on and so on. In the instance of the frock in the picture the jacket is a very dark red, the huge dots of the silk being printed in beige and reds ranging from light to dark.

One really cannot escape velvet this autumn and be fashionable. Not only is it making its appearance in coats and jackets to wear with sheer and other midseason frocks, but it is acknowledged the chief material for coming costumes.

As presented for fall, the velvet mode is infinite in scope, not only as to the weaves themselves, but just as

Control of Poultry Diseases

The most effective control of poultry disease must come through poultry raisers themselves who will employ veterinarians skilled in poultry diseases. Governmental and state action in case of diseases of poultry should aim at the protection of domestic fowls from foreign contagion, to prevent the spread of poultry diseases from state to state, and to eradicate communicable diseases within a state when they appear. Co-operation among states would be advisable, and each state in which poultry raising is important should establish a competent veterinary poultry service which should include poultry research laboratories and competent workers.

Distance Finder Swift

With the aid of a new calculating machine invented by Dr. J. E. Rowe of the College of William and Mary, an airman can tell in an instant how far he is from his goal; a gunner can use the device as a range finder. The "trigonometer" is simply a triangle that measures itself. It is on the principle of all surveying and ranging devices, which use trigonometry—the science of the measurement of triangles.

Anatomy of One Reel Comedy

By RING LARDNER

To the Editor:

In a recent letter I give my readers the story of a friend of mine named Joe Cooper that was not getting along so good in his regular job and finely began to take correspondence courses by mail in other lines like short-story writing and expert act and cartoonist and etc., and after a while he got so as he was knocking out close to 50 thousand per annum for his spare time.

While they still another field yet that Joe hasn't went in it and that is writing photo plays and great big money is promised for good ones because god knows they are a rare bird and if they is some of my readers that finds trouble making both ends meet the other and could use a couple 100 thousand a year extra earned in their spare time, why here is the field to go into.

You can pick up most any magazine and find a dozen ads of correspondence schools—that learns you how to write photo plays or movies as I have nicknamed them, but how are you going to know that the people that run them schools has ever wrote a photo play themselves and for all as you know you may be paying your tuition to a bird that ain't done anything all their life but pluck pimples off a putting green.

So in order to protect my readers from the sea blind of vipers I have made it up in my mind to start a school of my own along these lines and my qualifications is that I have wrote 2 photo plays and they both flopped like the sure thing and my system of teaching will be to learn my pupils to write photo plays opposite to like I wrote.

The big money in the screen game today lays in 1 reel comedys. The things that is necessary in writing 1 reel comedys is (1) a catchy title (2) a funny idea (3) plenty of laughs (4) witty sub titles. As a sample of what will go and go big, the Ring School of Photo Play Writing gives the following specimen of a 1 reel comedy.

As a title for this picture we have chose "The Finny Tribe" which in itself will knock them for a goal.

Character:
GEORGE WOTTLE, a Schmonger (comedy lead)
GERTRUDE WOTTLE, his wife, (comedy lead)
MINNIE QUAGMIRE, her rival (soubrette)

AL SWAMP, a private detective (heavy comedy)
BABY WOTTLE, the Wottle baby (juvenile)

A Minister of the Gospel, Wottle's clients, etc.

Continuity:
Scene 1—George is in his store sorting fish. A client comes in and looks over the stock. Sub-title: "The customer asks for a flounder." George picks up a fish and hits the client in the eye with it, knocking him down. Sub-title: "I guess that will flounder you." Another client comes in the store. Sub-title: "The customer asks for flannan huddle, but George tells him he only keeps weak fish." The client falls down and tears his trousers.

Scene 2—Gertie is at home sitting on the lounge and pulling superfluous hairs out of Baby Wottle's head. The telephone rings. Gertie goes to answer it. Sub-title: "The wrong number." Baby Wottle falls off the lounge and lands on his bean. Sub-title: "Oh, what a headache."

Scene 3—George and Minnie are spooning in the hammock on the Wottle porch. Gertie comes out of the house and catches them. Sub-title: "Caught in the act." The hammock breaks and the lovers set down suddenly on the floor. Sub-title: "It couldn't of been a very good hammock."

Scene 4—Gertie goes to Swamp's detective agency and hires Al Swamp to take up the case. Al puts on his shoes and starts out with Gertie. Sub-title: "The plot thickens." As they are leaving Al's office a swinging door hits them in the eye and knocks them down. Sub-title: "In again, out again, Finnegan."

Scene 5—George and Minnie are spooning in the fish store. Minnie steps on a eel and falls down. Sub-title: "Minnie says her eel slipped. George tells her she ought to wear rubber ones." Al and Gertie come in the store and surprise the lovers. George runs to a fish box and sets on a perch. George tries to get down but falls and tears his trousers. Al tries to pick him up but slips on the slippery floor and tears his trousers. Sub-title: "Al thinks they more to be patched up than the marital affairs of the Wottles."

Scene 6—They all go to the Wottle home. Minnie loses her interest in George and falls in love with Al. They decide to get married. Sub-title: "Al asks the fair Minnie to become his bride. She says O. K." Al summons a minister and him and Minnie are married with the Wottles as witnesses. Sub-title: "The knot is tied."

Scene 7—The party adjourns to the dining room where a fish breakfast is served. Sub-title: "London Bridges is falling down." In the midst of the hilarity, Baby Wottle chokes on a fish bone and croaks. Sub-title: "Eat jelly fish. No bones."

There you have got your catchy title, your funny idea, your laughable situations and your humorous sub-titles. Further and more the construction is perfect you might say. (© 1924, Western Newspaper Union.)

much as in regard to the intriguing styling given to them. The two-piece theme and the ensemble, also the one-piece dress, are equally significant. Often the jumper effect is achieved in what are really one-piece models. Some of the hand-

National Rifle Matches Now On

The national rifle matches, one of America's great sporting events being held at Camp Perry on Lake Erie, will be continued until September 18. Thousands of civilians as well as army, navy and marine experts are in attendance. One reason for the large gathering is the fact that tents or sleeping quarters have been supplied free to civilians. Meals are also furnished at cost price.

At its last session congress passed an amendment to the National Defense act which insures the holding of these great matches annually. It means that our government officially approves of rifle and pistol training for the youth of our nation, for civilians as well as soldiers.

The national rifle matches are not, as some believe, a strictly military affair. No one is barred from competing. The bill specifically mentions the army, navy, marine corps, National Guard, or organized militia of the several states, territories and District of Columbia, the Reserve Officers' Training Corps and the Citizens' Military Training Camps, rifle clubs and individual citizens.

Special arrangements were made this year for women and children, for many entrants took their families to the camp. There were also an unusual number of events for boys and girls,

ranging in age from twelve to nineteen years. For several years the National Rifle Association has promoted junior rifle clubs in every state. This year the range at times resembled a huge school yard during recess.

One of the reasons for the large number of entries this year is the program of entertainment which keeps the campers happy. There were demonstrations of all arms by the army. The pilgrims were also given every opportunity to enjoy bathing, canoeing and other sports.

Prior to the shooting of the national matches many contests of national importance will be held under the supervision of the National Rifle Association. Among these events are the President's match, the Wimbledon Cup and Leech Cup matches, some regimental matches, and other events that have been held year after year.

In the past a number of youngsters have entered the great marksmanship derby on the shores of Lake Erie, but most of them have been the sons of officers of the army, navy or marine corps. This year, however, boys and girls from all parts of the country sent in their applications to the headquarters of the N. R. A. in Washington.

Hebrew Christians Accept Christ as True Heritage of the Israel of God.

By SIR LEON LEVISON, English Hebrew Christian.

I AM glad that the church of Christ in America is awakening to its duty in presenting the Gospel to the Jews, because the Jew is just what the country makes of him in which he lives. In other words, each country has a Jew which it deserves. We Hebrew Christians believe that we are really entering upon our inheritance of prophets and Psalmist when we accept Christ, who is the only true heritage of the Israel of God.

It was left to the Protestant churches to become the readers of the Bible. God left to the Jews this precious legacy, but they have imprisoned it like the ponderous volumes of Talmud; it was left to rot in the dust of their own libraries.

In Christianity there is no doctrine of experience which is not illustrated by Jewish Scriptures. But there is something more. At no time has Moses lived in such a real manner or any of the prophets in the hearts of the Jews as Jesus has lived in Paul and His other disciples and in rare souls through the age who stand out so brightly in the history and experience of the church.

America is a great country. It has endless possibilities and one cannot but foresee a glorious future for it. It has, however, great problems to face and it all depends upon how these problems are handled. In the first place, the problem of the education of the youth of the country seems to me to be the most important one. If religion is left out of the school curriculum and the upbuilding of the charter of the future citizens on a sound basis is not attended to, then this country can never become truly great.

The second thing that strikes one is the question of assimilation. To a newcomer, there seem to be communities within communities. With their own native presses as means of communication, in their own native languages—their customs, manners and habits seem to prevail still and even their children who are brought up in those atmospheres and spoken to in these languages cannot but remain to a large degree what their fathers have been.

Lack of Earnestness in the Desire for Religion Tragedy of the Modern Age

By DEAN ROBBINS, Cathedral of St. John the Divine.

Young people of the present day do not desire religion with the urge and earnestness that they follow other quests such as art and science. The tragedy of the modern age is divided aims. Psychology has shown us that divided aims or a divided will is the cause of nervous maladies. Earnestness is the very first condition of success in life. We find this principle—the value of earnest wishing—exemplified on every side. Your strongest wishes march in the direction of your goal.

Choose at random the names of great poets, artists and men of all walks of life, and you will find this principle the open sesame. Their achievement, whatever it was, was founded on the very strength of their purpose and desire. They knocked until the door was opened. Their importunity opened the door.

We must desire religious faith more than earthly things, for it is that Pearl of Great Price. There is a desire in almost every one for goodness, but it isn't stiffened into importunity. It is too feeble.

Persons often do good and creditable things through far from noble motives, chiefly because of pressure from other people. The reason we do not respond to causes more readily, is not because we are stingy but because we are sleepy.

Labor Unions Enormous Force in the Movement for Human Betterment

By JOHN H. WALKER, President Illinois Federation of Labor.

The labor movement is doing more to establish the proper Christian relationship as advocated by Jesus Christ between men on earth than any other institution. Were these two great organizations (trade unionism and Christianity) working together in the cause of human betterment, this world would soon become a better place to live in.

All through the Bible you find paragraphs which urge patience, tolerance, broad-mindedness, kindness, knowledge and understanding. Christ makes clear that these qualities are of greater value than the material things of life. How much more necessary are they now than then, when the means of making a livelihood are so much more complicated.

President Gompers said that 10 cents an hour increase in the pay envelope of a working man whose mind was harassed with the worry of not being able to provide for a family properly would do more to develop culture and spirituality in that man and his wife, not to mention its reflex effect upon the family and his associates, than all the preaching and philosophizing in the world.

Every trade unionist should be a Christian. Every Christian who is eligible to membership should be a trade unionist.

Drift to Cities Has Become a World Movement; Australia an Object Lesson

By F. H. COLLIER, St. Louis Journalist.

In late years, some speculative thought has been given to the possibility that the greater part of the population of the most advanced and enlightened nations will dwell in cities and that only a small minority will be left to a bucolic existence—mostly of their own choice.

Quick and inexpensive transportation might bring this about. Why should the agriculturist spend his evenings and his hours of sleep upon the farm, if he may reach the scene of his daily labors in the morning in 30 minutes by fast motor cars or airplanes?

That nations may grow great and populous without remaining tied to the soil night and day is disclosed by the present situation in Australia. Here we have an object lesson in a condensed mode of living in a region where there is illimitable room. Though Australia has little over 6,000,000 people, one million live in Sydney, in Melbourne as many, while Adelaide, Brisbane and Perth are sizable cities, all growing toward metropolitan dimensions.

This faraway land is proving that the majority may detach themselves from the soil and still thrive. It is a new kind of white civilization that is growing up there on the other side of the world; and America is unmistakably following the same path.

Drives Away Hail

Storms With Gun

Joseph DiClaudio, one of the most successful farmers in the Winifred district, near Lewistown, Mont., has his own method of combating hail and, whatever may be said of it, it is certain that he has never had any loss.

Hail clouds drift low and, whenever one appears over his place, Mr. DiClaudio fires a barrage from his shotgun into it. The cloud, he says, seems to scatter as a result and he is convinced that he has saved his field more than once by this simple expedient.

He keeps his trusty shotgun with a dozen shells ready for a bombardment. —Minneapolis Journal.

Riviera Morals

P. Berry Wall, at a dinner in his Paris apartment, was talking about the Riviera.

"Beautiful but immoral," he said. "Perhaps the most immoral place in the world."

"One night at the Ambassadeurs in Cannes I heard a lovely girl hiss into the ear of a white-haired old boy with a decoration in his buttonhole:

"Traitor! Deceiver! Don Juan! I'm done with you forever. Never speak to me again."

"The old boy said mildly, 'What's the matter now?'"

"You swore to be faithful unto death," blushed the girl, "and I just saw you kissing your wife."

Speed, But—

"Speed isn't everything," Edsel Ford, at a dinner in Dearborn, was talking about airplanes.

"If in any degree you sacrifice safety to speed you are more foolish than the Yorkshire drummer," he went on.

"The Yorkshire drummer bragged that he covered more customers in a given time than any man on the road. When he was asked how he did it he answered:

"Ah, pope 'ead in at door. 'Marnin', I says. 'Marnin', says they. 'Owt?' says I. 'Nowt,' says they. 'Marnin', says I. 'Marnin', says they. And off I goes to t' next chop."

Radio to Catch Thieves

Catching thieves by the aid of radio is possible, according to Monsieur Anbelhe, a French inventor. He recently demonstrated his invention before members of a technical institute in Paris. It is somewhat similar to the instrument used by a Russian professor in making musical waves with his hands. The device is said to be so sensitive that a thief passing near it would set up sound waves and cause a furious ringing of bells.

A "Shyscraper" Crate

Caring for grasses in captivity is one of the most difficult tasks of the animal keeper, as the specimens are delicate and subject to many ailments in northern climates. Shipping them is also a problem. In transporting a baby giraffe from South Africa to England, recently, a "shyscraper" crate had to be constructed. Popular Mechanics Magazine.

Would Consider It

"I'm delighted to have met you," he said as he parted from the pretty girl of new acquaintance, "and some time, if I may, I'll give you a ring."

"That's rather sudden," she replied brightly, "but I'll think it over."

If people are very bright, it is impossible to keep them in the dark.

"WORTH WEIGHT IN GOLD"

Verdict of Woman Who Tried Pinkham's Compound

Tully, N. Y.—"It hurt me to walk or sit down without help and I felt sick and weak. My mother-in-law took Lydia E. Pinkham's Vegetable Compound and she induced me to take it. I am now on the fourth bottle and have also used Lydia E. Pinkham's Sanative Wash. The medicine that will do for me what the Vegetable Compound and Sanative Wash have done are certainly worth their weight in gold. I think I have given them a fair trial and I expect to take two more bottles of the Vegetable Compound."—MRS. CHARLES MORGAN, R. F. D. 1, Tully, N. Y.

So Go the Cards

First Sacker Jim Bottomley is not the only star on the St. Louis Cardinals, nor the team's particular premier in any department, but there are those who do say that as Bottomley goes, so go the Cards. It may be true, but Jim is having a big year—and so are the Cards. They are smiling through with "Smiling Jim." Bottomley may not be the cleverest first sacker in baseball, but oh, the power of his punch when his bat swings true! And the inspiration of his cheer leading of a bunch that is a happy, cheering gang of go-after-jam ball players.

Sporting Squibs

A new golf tee has two arrow guides set at right angles to guide the ball's flight.

Helen Willis, the noted tennis champion, used about forty rackets in the course of a year.

Overheard on the links: "Do you put any personal mark on your golf balls?" "Yes. 'Stolen'."

Ted Paysour, assistant basket ball coach at Northwestern, spends his summers as a golf pro at Dubuque, Iowa.

Princeton and Yale, both with good prospects for next year's freshman squad, expect to have strong elevens this fall.

Christ Dalton, amateur athletic union official, and timer, uses three watches valued at \$5,200 when checking track events.

Sammy Mandell, world lightweight champion, has agreed to defend his title in Chicago this September. He has left selection of his opponent to Promoter Jim Mulvan.

Virginia's amateur golf champion is Billy Howell of the Hermitage club, Richmond, and he is sixteen years old. He beat the older golfers in the state amateur tournament at Hot Springs.

BASEBALL NOTES

Time flies. On the other hand, Bullet Joe Bush is again pitching for Connie Mack.

The attempt of Babe Ruth to break his home-run record is called the American league pennant race.

Give the New York Yankees a little more time and they will drive all the "I" tables out of baseball.

Ty Cobb, Jr., like football and tennis at preparatory school, but shows little inclination toward baseball.

Heinie Groh was given his unconditional release as manager of the Charlotte club of the South Atlantic league.

Judge Landis was a charter member of the Baseball Spirit of St. Louis organization launched a few days ago.

Oklahoma City, leaders in the Western league, is the youngest club in class A baseball today, the team's average being 23.

Carrizozo People Attend Corona Rodeo

A goodly number of our people attended the big Rodeo at Corona and the two dances that were held on the nights of Aug. 31 and Sept. 1. Corona, as on all past occasions, did itself proud. The races and amusements of various kinds furnished the big crowd with all it could desire. The dances were well patronized and the music, furnished by Carrizozo talent, was pronounced fine. Mr. and Mrs. Clyde Crowe, the Bogles, Gallachers, Cleghorns, McClintocks, Boydstuns, L. A. Jolly, and many others whose names we failed to get, attended and reported a grand and good time.

J. H. Mims in Forest Service

Word has been received here from J. H. Mims, who was for the past two years connected with I. N. Wingfield in the grocery and general merchandise business at Ruidoso, but now in the Forest Service, being located at Grants, N. M. Mr. Mims was in the Forest Service before engaging in the general merchandise business at Ruidoso, and returned to his first following after coming to this country from Alabama.

Mrs. Blaney Returns

Mrs. M. L. Blaney returned Sunday morning from an extended trip to different points in the east where she visited relatives and friends after attending the State Normal term at Las Vegas. Mrs. Blaney returned accompanied by Mrs. M. E. Wood of Warren, Minn., sister of Dr. Blaney, who, after a visit with the Blaneys, will go to Los Angeles and other places in California before her return home.

Varney of Corona were initiated into the mysteries of the order. Following the initiation ceremonies, a delicious banquet was served in the dining rooms.

Have You Met Tom Heflin?

We again arise to say that Carrizozo people should visit the new school house being erected by contractor Thos. Heflin. If you go, don't hesitate to ask questions, as Mr. Heflin is always delighted to see anyone who may come with the interest of the institution and its advancement at heart. He will not consider you nosey, if you ask questions. Give the new work a looking over and if you think he deserves it, tell the contractor how well he has done in so short a time. He is just human, like the balance of us, and won't bite you.

Mrs. Heflin left for El Paso this week to enroll their daughter in school and Mr. Heflin will join them when work on the school building is finished.

Left for State College

Call Boy Marshall Back left this week for State College, to resume his studies for the fall and winter.
