

FORT STANTON NEWS

Stanton baseball fans got together last week after a committee had been formed by members appointed by Dr. Tappan, of Dr. Haire, Mr. Brewster and Leo Payman. The meeting was a rousing one and 'Slim' Hendren was elected manager, with Leo Payman Sec'y-Treas. A general committee was elected of Dr. Haire, Mr. Brewster, representing the patients and Mr. Payman, John Major, one of the most loyal rooters and boosters was made ground keeper and you may rest assured the diamond will always be in shape. As soon as the weather warms up a little the boys will be out at it. We have a few newcomers this year, replacing some of the older boys; one a young Filipino named Sullivan, but our old mainstays, of Cavanaugh, Pitts, Flores and Cox and the rest will insure us of a well balanced outfit. We expect to have games with Roswell, El Paso teams, Alamogordo, Tularosa and hope our old rival, Carrizozo, will be on the schedule this year.

W. N. Collier, Dist. Engineer from the Supervising Architect's office was at the Fort making plans for an extra 20-bed infirmary ward to be built here. It is expected that this will be completed by next September.

At the last Trowel Club meeting Mr. Hendren told of his trip to the Grand Lodge at Gallup.

Mesdames Reid and Boyd provided delightful hostesses at the dinner and bridge party, introducing many novelties. Each guest received at different times during the dinner a little slip telling them to go do something and then move to a different designated table for the next course. Miss Chauvin, our new Memphis nurse made quite a hit telling fortunes and caused much discomfort among some of the guests, by telling of their past. Harry Walton, one of our best card players succeeded in winning the booby prize at his introduction to the elite.

The regular Friday evening open house at our new Community House was held, with Mesdames Gensier Anderson and Miss Kane as hostesses, who served hot coffee and waffles to about 35 men and to say the boys enjoyed it, is needless. A new man, Ed Thomas, gave several selections with his uke and guitar. This man is quite an artist and we hear he has done quite a bit of broadcasting, on the order of Ukelele Ike, recording artist.

New arrivals are: T. Downey, N. Y.; F. B. Crouch was transferred to Dawson Springs, Ky., and Frank Carr, Jr. and Loren Dowell were transferred to Soldiers' Home, Sawtells, Calif.

W. C. Hendren and Miss Alene Thompson spent the week-end at Carlsbad with Mr. and Mrs. W. A. Wunsch, our former Expert Farmer.

The Misses Gunn, Converse and Messrs. Dickey, Clark and McNeff spent the week-end in El Paso and report warmer weather there and flowers blooming in the front yards—quite a difference from our snow covered mountains.

The grounds around the Club at No. 4 are beginning to look like spring is coming, due to E. Farr, our best authority of flowers and shrubbery. He has the laws coming along fine, new has out rose and lilac bushes and some small spruce and cedars.

Mrs. Jimmy Hale

and son Jimmy, Jr., who have been in Capitan for several weeks, visiting S. W. Hale and other relatives and friends, left Saturday for Brownsville, Tex., to join Border Patrolman Jimmy Hale, who is now located at that place and where they will make their future home. Jimmy says that the Rio Grande river is so wide at that point, that the bootleggers can't wade it, and the border patrolmen can see the boats when the peddlers of 'song stuff' attempt to cross.

All the boys at the club unite in thanking Farr for making things so bright around the yards, as he loses his work with flowers only as a pastime and gets a big kick out of it.

One of the boys claims the fastest time from El Paso, and up through Devil's Canyon, four hours, ten minutes and if it was not advertising we would tell you the kind of car, but it's the cheapest selling 4 on the market.

Mr. and Mrs. Boyd entertained at dinner last Thursday evening for Miss Mary Jane Harris and Joe Gentry.

Several of the Fort boys are sporting the new colored crush hats, each one trying to outdo the other in color.

All the kids are playing basketball at the school now, as Miss Virginia Fagan received a brand new basketball for her birthday from her daddy. The kids hope she has lots of birthdays.

Our popular young Chaplain, Rev. Swift, has accepted a call to Las Cruces and will have his opening service there on Easter Sunday. It is regretted very much that Rev. Swift has to leave us, but he has promised to come over occasionally on weekends for services at the Fort. The Reverend is leaving two beautiful monuments here, which he, together with some of the members of the church and the officials at the hospital made possible, one the Chapel of our Redeemer and the other the Seamen's Church Institute Community House, which is a very popular spot for the boys. There are games, newspapers, radio and a big fireplace to lounge in front of and a well equipped kitchen in which to prepare refreshments whenever desired. Every evening you will find boys gathered there enjoying themselves.

On last Wednesday, the sixth birthday of little Miss Elsie Fagan was celebrated at her home, all her little schoolmates being there to make merry. The favor and refreshments were symbolic of St. Patrick's Day.

Little Jessie Ruth Andrews, who was operated upon several weeks ago at Carrizozo is now convalescing at the home of Mrs. R. E. Ferris and is improving.

Lincoln County School

Notes

(Alice M. French, School Supt.)

The County Board of Education will hold its regular meeting in the office of the Co. School Supt., on April 1. We hope to have all members of the Board present as there are a number of important matters to be considered at this meeting.

Preparations for the Lincoln County Teachers' Convention are moving along nicely. The meeting this year will be in Carrizozo on April 5-6. Practically all the teachers are planning to come and we hope for a 100% attendance from all of the schools. The excellent program and entertainment being prepared under the efficient management of Prof. Helm and his committees will make this meeting well worth while.

The Superintendent last week visited the Lincoln, Hondo, Picacho, Tinnie, Glencoe schools. Since the weather has gotten so much warmer the attendance has materially increased; some of the schools are over crowded. This is an important time in the school year and in most communities people are interested in the life of the school. The election for school directors, making up the budget and plans for next year's work will come up for consideration next month.

Fred Pfingsten was in to see us last week in the interest of the Lincoln county schools.

The English department of the Hondo High School is doing excellent work. The original poems by the Sophomore Class were quite clever. — Next week will appear a poem by Miss Nina Perry, as space does not permit it this week.

Mr. and Mrs. S. Bostian

who have been visiting the E. O. Prehm family, left Thursday for Galveston, Texas, where after a short stay they will return to their home in Emporia, Kansas.

Poor Sight
The car was crowded and many were standing. An elderly man with poor sight was sitting, and before him was standing a young woman who dropped her handkerchief accidentally into the man's lap. Another man saw the handkerchief, touched the old man and called his attention to the handkerchief in his lap, whereupon the old man, looking down and mistaking it for his shirt, quickly shoved it into his trousers and rode peacefully on, the woman being none the wiser for her loss, as she had not known the handkerchief fell.

NEWS REVIEW OF CURRENT EVENTS

Hoover's Cabinet Accepted by the Senate—Serious Rebellion in Mexico.

By EDWARD W. PICKARD

PRESIDENT HOOVER'S first official act of consequence was to submit to the senate the names of eight men whom he had selected for his cabinet. Radical senators were all set to make a fight against confirmation of Andrew Mellon for secretary of the treasury, but, as was explained in these columns some time ago, it was not necessary for Mr. Hoover to send in Mr. Mellon's name, since he is a holdover, so the radicals were circumvented. Making no invidious distinction, the President also omitted from the list Secretary of Labor James J. Davis, the other member of the Coolidge cabinet who was retained.

The senate without hesitation confirmed the eight names submitted. They are:

- Henry Lewis Stimson of New York, secretary of state.
- James William Good of Illinois, secretary of war.
- William Dewitt Mitchell of Minnesota, attorney general.
- Walter Folger Brown of Ohio, postmaster general.
- Charles Francis Adams of Massachusetts, secretary of the navy.
- Ray Lyman Wilbur of California, secretary of the interior.
- Arthur M. Hyde of Missouri, secretary of agriculture.
- Robert Patterson Lamont of Illinois, secretary of commerce.

After a sharp debate the senate adopted a resolution offered by McKellar of Tennessee ordering the judiciary committee to investigate Secretary Mellon's right to continue in the cabinet without reappointment and to determine if he has violated an old law that prohibits treasury officials from engaging in any business. It was not believed in Washington that this action would bring about results adverse to Mr. Mellon. The secretary of the treasury, it was reported, intended to hold the office for not more than two years.

Since Mr. Stimson is on his way home from the Philippines, where he has been governor general, Secretary of State Kellogg consented to remain in office until his successor arrives in Washington and qualifies. In general the President's cabinet selections met with warm approval.

On Thursday President Hoover issued the call for the extraordinary session of congress, to open April 15. He said in the proclamation that the purpose is "to effect further agricultural relief and legislation for limited changes of the tariff."

During his first days in the White House Mr. Hoover received throngs of congratulating callers from all parts of the country, and also he settled down to the business of conducting the affairs of the nation. He told the newspaper correspondents he desired to continue the periodical press conferences and to develop them in directions that would assist both the press and the President. He conferred with Senator Smoot and Representative Tilson concerning the calling of the extraordinary session of congress for farm relief and tariff revision, and with Attorney General Mitchell concerning the appointment of the commission to investigate the administration of justice and especially the enforcement of prohibition. His emphatic words concerning law enforcement in his inaugural address were especially pleasing to all the church and dry organizations, and they presented him with their felicitations hand illumined on parchment and bound in tooled leather gold embossed. Mr. Hoover desires to place the entire prohibition enforcement machinery under the attorney general. This may require legislation, and the dry leaders in congress are not all in favor of this course.

MR. AND MRS. COOLIDGE, returning to their home in Northampton, Mass., were given an impromptu loving welcome by their neighbors that affected them deeply.

Both of them were sincerely glad to resume their unpretentious home life, and Mrs. Coolidge especially seemed gay and happy. To the reporters Mr. Coolidge said, interviewing himself, that he is not going to practice law in Northampton or anywhere else at present; that the several contracts he has made-for-magazine articles are all he contemplates now in that line; that he will not write a book and will not make any speeches. He will not travel in foreign countries this summer, believing there are plenty of interesting places in the United States to be seen.

Gen. Charles G. Dawes, late Vice President, hastened back to Chicago and at once resumed work in the bank with which he was long connected. He was made chairman of the board. He declined to talk politics but vehemently denied that he intended to run for senator to succeed Charles S. Deneen. On March 25 General Dawes leaves for Santo Domingo as head of a commission of his own choosing to advise the Dominican government on financial problems.

REBELLION broke out in several states in Mexico and speedily reached alarming proportions. A number of governors and military chiefs joined in the movement, directed at the government of President Portes Gil and aimed particularly at what they called "Calles domination." They immediately ordered opened all the churches that had been closed by the Catholic authorities in protest against the religious laws which Calles, while President, put into effect. At first the rebels under General Aguilar gained possession of Vera Cruz and other important cities. Gen. Gonzalo Escobar was sent by the government to Monterey to combat the revolutionaries, but on arrival there he joined the rebels and was made military chief of the movement. President Portes Gil appointed Calles secretary of war, and under vigorous direction the federal troops regained possession of Monterey, Orizaba, and other strategic points. Aguilar in Vera Cruz state was deserted by most of his men, and Escobar was said to be surrounded by three strong armies. The government issued a bulletin predicting the early collapse of the entire rebellion, and dispatches from Ambassador Morrow indicated the same belief.

It was stated at the White House in Washington that the new administration would continue to enforce the embargo on arms shipments to Mexican rebels that was maintained by President Coolidge, but that licensed arms shipments would be permitted to go forward to Mexico City if requested by the Mexican government. The State department said every effort was being made to prevent the smuggling of arms across the border.

THAT fuss over an alleged secret Franco-Belgian military treaty came to an end when the man who sold the document to a Utrecht newspaper was arrested and confessed that it was a forgery. He was set free by a Belgian judge and declared he was really an agent provocateur of the Belgian government. The Dutch journalists passed a motion of censure on the Utrecht editor who published the forged paper.

TREATMENT of racial minorities in Europe was the topic of the council of the League of Nations took up when it met in Geneva last week, but there was no prospect of action, for the council felt the problem was too big to be settled now and should be studied by a subcommittee. Sir Austen Chamberlain, British secretary for foreign affairs, said: "The rights of the minorities cannot be separated from their obligations, and they have to show that they have behaved loyally to the country of which they are part and given true allegiance to the country to which they are subject."

INSTEAD of whitewashing Gen. Umberto Nobile for the disaster of the dirigible Italia in the Arctic regions, the Italian court of inquiry censured him severely. The report of the court is divided into three sections. The first deals with the career of the accident, the second with the behavior of the survivors, and the third with the relief efforts. After stating that the loss of the dirigible was due to error in handling made at the moment of the accident, the court commended the expedition crew for their responsibility, the report passes to a consider-

ation of the charges of cannibalism in connection with the disappearance of Dr. Egon Malmgreen, the Swedish scientist, and the third man with Capt. Alberto Mariani and Filippi Zappi on the Arctic-ice.

Regarding General Nobile's action in allowing himself to be rescued first, the report says: "It cannot find plausible justification and it can only be explained, not justified, by conditions of physical or moral depression in which he was found which did not permit him to estimate the just value of his action, even though it was determined by the pressing invitation of Lundborg." Lieut. Einar-Paul Lundborg was the Swedish airman who took off Nobile.

CONDITIONS in Shantung province were so serious that the Nationalist government of China was reported fearful of defeat at the hands of General Chang's rebels and therefore trying hard to arrange a compromise by which further hostilities might be avoided. Meanwhile large numbers of government troops were being mobilized. The commander at Chefoo reiterated the charge that the Japanese were financing Chang.

JOHN D. ROCKEFELLER, JR., was the victor in the dramatic "war of the proxies" which reached its climax Thursday in Whiting, Ind. The final battle ground was the annual meeting of stockholders of the Standard Oil Company of Indiana and the man who went down to defeat was Col. Robert W. Stewart, chairman of the board of directors. With about twice as many shares as Stewart could control, the Rockefeller forces ousted the colonel from the board, replacing him with Dr. W. M. Burton, inventor of the famous cracking process; and Stewart's close friend, L. L. Stephens, general counsel and director, also was put out. Stewart had proxies from 31,336 stockholders, the "little fellows"; but the Rockefeller proxies, though only half that number, were from the rich men and corporations and easily controlled the situation. Stewart had the satisfaction of presenting a report that showed the company had just closed the most prosperous year in its history and he was uproariously applauded by his supporters.

THOMAS TAGGERT, for many years the leader of the Democrats of Indiana, passed away at his home in Indianapolis at the age of seventy three years after a long illness. Starting business life to a lunch room in Nenia, he became a very wealthy man and a power in his party both in the state and in the nation. He was given the credit for making Woodrow Wilson President, and Thomas H. Marshall, twice Vice President, said his success in politics was due to Taggart Moses Edwin Clapp, former United States senator from Minnesota, died in Washington where he had practiced law since leaving the senate in 1917. Among other recent deaths were those of Halsey Fiske, president of the Metropolitan Life Insurance company, in New York; and of David D. Hulick of Detroit, a pioneer in the automobile industry.

JUST before he left office, Attorney General Sargent granted freedom on parole to Thomas W. Miller, former alien property custodian, who was serving a term of eighteen months in Atlanta penitentiary for conspiring to defraud the government in the handling of German property during the World War. Miller was convicted in 1927 and began serving his sentence last April.

IN SUMMING up the work of the late Seventieth congress it is found that it authorized new expenditures totaling more than a billion dollars during the next decade. The chief authorizations included the following:
Mississippi flood control project, \$25,000,000.
The 15 cruiser construction bill, \$274,000,000.
The Boulder dam project, \$195,000,000.
Public buildings and army structures, \$175,000,000.
Compensation for German ships, patents, and radio stations, \$169,000,000.
Barge and harbor projects, \$73,000,000.
Increased capital for Mississippi barge line, \$10,000,000.

STEWARDSHIP AND MISSIONS

LESSON TEXT—Acts 1:6-8; II Cor. 8:1-9.

GOLDEN TEXT—It is required by stewards that a man be found faithful (I Cor. 4:1).

PRIMARY TOPIC—Love Gifts for God.

JUNIOR TOPIC—Love Gifts for God. INTERMEDIATE AND SENIOR TOPIC—What It Is to Be a Christian Steward.

YOUNG PEOPLE AND ADULT TOPIC—Stewardship of Self, Substance and Service.

I. Witnessing for Christ (Acts 1:6-8).

This is the supreme obligation resting upon believers in this age. While we are not responsible for bringing in the kingdom, we are under solemn obligation to witness to the salvation which is graciously provided for all who believe in Jesus Christ.

1. The disciples' question (v. 6). They said, "Lord, wilt thou at this time restore again the kingdom to Israel?" The phrase "this time" indicates their perplexity as to the time of the kingdom's establishment. They were entirely right in their expectation of the kingdom, for it had been predicted by the prophets, and announced by Christ as "at hand." However, they were in darkness as to the real purpose of God in calling and establishing the church. This is a matter concerning which there is much confusion today.

2. Christ's answer (v. 7, 8). He turned their attention from the desire to know times and seasons, which belong to God, to their supreme duty. They were to be witnesses of Christ to the uttermost parts of the earth, beginning at Jerusalem.

II. Christian Stewardship (II Cor. 8:1-9).

1. Examples of true Christian benevolence (vv. 1-5).

The liberality of these Macedonian churches exhibits practically every exalted principle and motive entering into the giving which has God's sanction.

(1) The source of true giving (v. 1). This is said to be the grace of God, by which is meant that the disposition to give freely of our means is created by the Holy Spirit.

(2) They gave from the depths of their poverty, not from the abundance of their riches (v. 2). Their limited means did not cause them to be stinted in their gifts, but their deep poverty abounded into the riches of their liberality. On the basis of this philosophy, our poverty ought to be a call for greater generosity, for God has promised that if we give liberally He will give liberally in return.

(3) Their willingness surpassed their ability (v. 3).

God's gifts are reckoned by the degree of willingness, not by the amount given (see v. 12, cf. 9:7).

(4) They were insistent on being allowed the privilege of giving (v. 4).

(5) They first gave themselves to the Lord (v. 5). This is most fundamental to right giving, for when one gives himself to the Lord there is no reason for withholding his gifts. If one does not first give himself there will be the desire to retain as much for self as can be done within the bounds of respectability. We should first induce men and women to give their lives to the Lord.

2. Emulation of Macedonian benevolence urged (vv. 6-15). Moved by the generosity of the Macedonian churches, Paul desired Titus to commend to the Corinthians the same grace. This he urged upon them.

(1) Not as a command (v. 8). Acceptable giving must not only be liberal, but spontaneous.

(2) As a proof of the sincerity of their love (v. 8).

(3) As the completion and harmony of Christian character (v. 7).

The Corinthian church abounded in spiritual gifts such as faith, utterance, knowledge, diligence, and love for their ministers, but the grace of liberality was needed for the harmony of their lives.

(4) The self-sacrificing example of Christ (v. 9). Self-sacrifice is the test of love. All who have enthroned Him as the Lord of their lives, crowned Him Lord of all, will desire to imitate Him in all things.

(5) The true principle upon which gifts are acceptable with God (vv. 10-12).

God does not estimate the value of a gift upon the ground of intrinsic worth, but of the underlying motive of the giver.

(6) Because of common equality (vv. 13-15). Every Christian should give something. The law governing the gift is the ability of the giver.

His Presence

Many Christians cannot realize His presence because for them Christ lives in their heads or Bibles, but not in their hearts.

Helping God

There is but one way in which man can ever help God—that is, by letting God help him.—John Ruskin.

Crosses Are Ladders

Crosses are ladders that lead to heaven.

John's Mother Praises Doctor

There isn't a mother living who won't agree that no half-sick child should be the subject for an experiment with medicines of uncertain merit. When your child is bilious, head-achy, half-sick, feverish, restless, with coated tongue, bad breath, no appetite or energy, you know that nine times out of ten it's a sign his little stomach and bowels need purging. And when you know that for over fifty years leading physicians have endorsed one preparation for this condition, there doesn't seem to be any reason for "trying" things.

Rich, fruity California Fig Syrup clears the little stomach and bowels gently, harmlessly and in a hurry. It regulates the bowels, gives tone and strength to them and to the stomach; and helps to give your child new strength, energy and vitality. Thousands of Western mothers praise it. Mrs. Joseph W. Hill, 4306 Bedford Ave., Omaha, Nebraska, says: "I'll never forget the doctor who got me to give my baby boy, John, California Fig Syrup. Nothing else seemed to help his weak bowels. That was when he was just a baby. He suffered a good deal before I gave him Fig Syrup, but it stopped his trouble quick. I have used it with him for colds and little upset spells ever since. I consider him a Fig Syrup boy."

Insist on the genuine article. See that the carton bears the word "California." Over four million bottles used a year.

The Post of the Air

Peter Supf is a German poet who has dedicated his talent to aviation, and so conspicuous has been his success that he has been given a general and permanent pass on any of the Luftwaffe planes, in Germany or abroad. This was in recognition of his service to aviation through his verse. Supf was a flyer himself in the World War, and it was while flying over battlefields in France with one hand on the control and the other on a machine gun that his inspiration came to sing of flying. Later he was shot down and severely wounded, and it was while he was on his sick bed that many of his successful verses were composed. Supf has done other writing and editing, but his main labor and his main interest has remained in aviation.—Pathfinder Magazine.

Flying Accidents

Let us not get the idea because we read of airplane accidents that amazing progress is not made in safe flying. As a matter of fact, flying is becoming increasingly safe. The reason, of course, that our attention is called to a number of accidents is that the use of the airplane is increasing at a tremendous rate. Thousands of people are now flying, as a matter of course, when but a few years ago the flyers could hardly be numbered in hundreds. In proportion to the number of machines in the air, the mishaps are far less frequent than formerly. The traveler by plane is probably as safe today as in almost any other common form of travel.

Horse's Long Swim

An all-night swim was performed by a wild horse at Le Arara, New Zealand. While being chased by two Maoris, it dashed into the sea and swam away. Late at night the animal was observed through glasses far from shore. At nine o'clock next morning it was seen to land and make its escape.

"He was driven to his grave."

"Sure he was. Did you expect him to walk?"

It's enough to make the pot boil, when the kettle calls it black.

Physician Not Needed

Henry Miller, a farmer near Altoona, Kan., heard a cracking sound every time he drew a breath, and it worried him. He was afraid his heart was affected and went to a doctor for an examination. The doctor, in addition to pronouncing his heart all right, located the source of the noise. It came from a small buckle on Miller's suspenders.

PROOF OF DYES
is in the dyeing!

Words won't dye a dress, or coat, or sweater. It takes real anilines to do that. That's why Diamond Dyes contain from three to five times more anilines than any other dye—by actual test.

It's the anilines in Diamond Dyes that do the work; that give the colors such brilliance; such depth and permanence. It's real aniline that keeps them from giving things that re-dyed look; from spotting or streaking.

Next time you have dyeing to do—try Diamond Dyes. Then compare results. See how soft, bright, new-looking the colors are. Observe how they keep their brilliance through wear and washing. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

EDITORIAL COLUMN

Education a National Problem

Scottish Rite News Bureau:

"Although education is primarily a responsibility of the states and local communities, and rightly so, yet the nation as a whole is vitally concerned in its development everywhere to the highest standards and to complete universality," stated President Herbert Hoover in his inauguration address. "Self-government can succeed only through an instructed electorate. Our objective is not simply to overcome illiteracy. The nation has marched far beyond that. The more complex the problems of the nation become, the greater is the need for more and more advanced instruction."

"Moreover, as our numbers increase and our life expands with science and invention, we must discover more and more leaders for every walk of life, we cannot hope to succeed in directing this increasingly complex civilization unless we can draw all the talent of leadership from the whole people. One civilization after another has been wrecked upon the attempt to secure leadership from a single group or class."

If we would prevent the growth of class distinctions, and would constantly refresh our leadership with the ideals of the people, we must draw constantly from the general mass. The full opportunity for every boy and girl to rise through the selective processes of education can alone secure to us this leadership.

The advocates of a Department of Education find in these statements further foundation for the belief that such a department will be instituted during the administration of President Hoover.

Local Church Elects Pastor

The Carrizozo Baptist Church met in annual conference last Wednesday night for the purpose of calling a pastor. The present pastor, Rev. F. C. Rowland, was elected to serve another year. New plans were discussed and though there was evidence of marked progress the past year, a greater work was agreed upon. The consensus of those present seemed to be that no stone should be left unturned in an effort to carry forward a greater program for the church, town and community. The pastor will give a formal reply to the call extended next Sunday.

Telephone News

LOWER SERVICE CONNECTION CHARGES ARE ANNOUNCED

MORE SERVICE AT LOWER COST

An extension telephone for your bedroom, kitchen, library—for any room in the house—can now be had for less than half the service connection charge that had been effective until March 1. This substantial reduction in charges for the connection of new equipment or changes in existing service is an obvious benefit to subscribers throughout the entire Mountain States territory served by this Company.

Reductions have also been made in charges for the connection of business telephone extensions and for moving telephones from one part of the house or office to another. In addition, the charge for changing the type of your telephone (hand, desk or wall set) has been reduced more than one-half.

The reductions are entirely in line with this Company's policy and the aim of the Bell System—"to provide the most telephone service and the best at the least cost to the public."

INVESTING \$2,785 A DAY

For every working day of 1929 almost \$2,785 will be invested in a Greater Telephone System for a Greater New Mexico.

Put into land and buildings, switchboard and cables, poles and wire, the 1929 budget, largest in the history of The Mountain States Telephone and Telegraph Company, will mean a continually improving telephone service for this territory.
