Federal Reserve Advises Russia Answers the Pope in A. D. 1001930

Gangsters, Cruel, Silent

Los Angeles.—The federal reserve chief tells business to go ahead boldly, showing more initiative, less hesitancy.

Excellent advice. Business will advise the federal reserve, when and if prosperity booms again, to be less enthusiastic about promoting usury, and run the federal reserve more like a banking institution, less like a pawnshop.

Reserve board financiers that forced 15 to 20 per cent interest rates, handing hundreds of millions to money lenders and adding thousands of millions in value, temporarily, to inflated bank stocks, need advice as much as any business man needs it.

Russia, inflamed by the pope's protest against atheistic propaganda, retaliates in vindictive fashion. In the Minsk district a fund is started to build an airplane, presumably for war, to be called "Our Answer to Pope Pius." And from the Veronesh district workers send to the industrial fund at Moscow ten carloads of church bells, sacred images, crucifixes, etc., to be melted down. That shipment is called "an answer to the pope."

One item of news will be remembered a million, and ten million, years hence.

Nothing else in our age will be of the slightest consequence, even 100,000 years from now.

The news that will outlast recollection of this age of industrial and financial barbarism is the discovery of another planet in our solar family, sailing around outside the orbit of Neptune.

Earth dwellers in the year one million nineteen hundred and thirty, as they converse in the ozone area, thirty miles above the earth, will wonder how such primitive beings as ourselves could have discovered that planet.

Similarly, we wonder how primitive cave dwellers could have made those interesting pictures of rhinoceroses and horses.

Gangsters are not kind to each other.

John ("Billiken") Rito, described by police as "a bootleg racketeer," member of the "Bugs" Moran gang, lies in the morgue. Wires with which his arms, hands and ankles were bound when he was taken out of the Chicago river have been removed. The police wonder who burned the tips of his fingers in the process of torturing him before he was murdered, and why they did it. They will never know.

Racketeers kill, and don't talk.

Golf links, daily dozens, radio setting-up exercises and other devices are designed for the man who leads a sedentary life physically. Edison wants to know: "What about the man mentally sedentary and inactive? Who will plan something for him?" Many millions need to be called early on the radio with this question: "How long is it since you have exercised your mind? How much reading worth while do you do, and how much do you think as you read?" It is mental, not physical, inactivity that harts a nation.

The Union Pacific railroad has bought \$800,000 worth of fine new motor omnibuses. Railroad men have passed the phase of contempt for automobiles. The Union Pacific will use 23 new omnibuses between Chicago and Los Angeles, 11 between Portland, Spokane, Boise and Salt Lake City.

What people think decides what they are. Prosperity is to a considerable extent a matter of psychology.

Once a man was fastened in a chair, his feet put in warm water, and as a practical joke he was shown a razor of which the blunt end was drawn across the soles of his bare feet. He was told, "You will bleed to death painlessly in this warm water." He didn't lose a drop of blood, but he died. Don't let prosperity die in that fashion, killed by imagination.

Mr. Edison is hopeful about a rubber supply from goldencord. Chemists who think it ought to be done by some synthetic process and victims of hay fever are less optimistic.

The great inventor, eighty-three years old, says he wants only five years more to finish this job, and doesn't ask to live one hundred years.

The death of Primo de Rivera, former Spanish dictator, killed by heart disease, reminds you that being dictator in a warring job. It takes such a man as Mussolini to stand it for a long time.

CAPITAN NOTES

Mr. and Mrs. E. B. Lewis of Alamogordo were here the latter part of last week visiting their daughter, Mrs. Wm. Peters, who returned with them to Alamo to visit for a few days.

Mr. and Mrs. Roy Copeland have opened up a store, better known as the Cash Grocery, in the old postoffice building, which is owned by Mrs. Clara Larson.

Mr. and Mrs. Toohill of Silver City are visiting with Mrs. Toohill's parents, Mr. and Mrs. Monroe Howard.

The Lincoln County Teachers will meet this year at Capitan on April 18 and 19.

Our girls basketball team are the champions, having been undefeated for two years. Last week-end they beat Vidon, N. M., 16-11 and 17-12, the latter having been undefeated this season and who lately defeated Duncan, considered Arizona's champions. Vidon thought they still had a chance and came back determined to win the second game, but again failed. In the 2nd quarter Amelia Fritz was put off, leaving Wyona Hall to guard with Arvela Youngblood. Ruth Merrill took Wyona's place in center with Frances Gardenhire. Vidon wanted our girls to play the return game, but after seeing that they were outclassed they were not so anxious. Our girls won the tournament at Corona in 1928-29, and in 1929 defeated Floyd, claimants to the New Mexico championship.

How our teams played this last season:

Oct. 18, boys vs. Hondo 36-5, girls vs. Corona 17-12; 19th, boys vs. Carrizozo 25-10, girls 19-9; Nov. 22, boys vs. Cloudfroft 16-8, girls 39-4; Dec. 14, boys vs. Carrizozo 6-9, girls 24-11; Jan. 17, boys vs. Bowie 22-35; 18th, boys vs. Carrizozo 17-20, girls 24-13; 31st, boys vs. Tularosa 4-34, girls 20-6; Feb. 1, boys vs. Alamo 14-7, girls 20-18; 7th, boys vs. Tularosa 19-25, girls 24-13; 14th, boys vs. Hondo 26-22, girls 13-8; 22nd, boys vs. Carrizozo 24-16, girls 15-15; Mar 21, girls vs. Vidon 11-16; 22nd, 12-17.

Dr. and Mrs. C. E. Freeman

made a trip to Three Rivers Monday, where Dr. Freeman made a tuberculosis test on 43 head of full-bred Hereford bulls belonging to Doheny, after which they were shipped to Arizona. Mr. Ed Dunn is manager for the multimillionaire's interests at Three Rivers.

Miss Beatrice Boughner

who underwent an operation for appendicitis last week at the Johnson Hospital is recovering nicely and will be ready to return to her home today or tomorrow.

More Good Moisture

A good snow fell Wednesday night and continued with light flurries throughout yesterday, which will increase the moisture of last week's rain. The only thing to be regretted was that a high wind caused the snow to drift and thereby lost its good effects on the level range. Nevertheless, it was fine and we are thankful for the added favor. We are in hopes that it did not damage the early fruit crops.

Early Birds

Result of 8th District Music Meet

Table with 3 columns: Event, 1st Place, 2nd Place. Lists winners for various music events like Lyric Soprano, Dramatic Soprano, etc.

This was the first Music Meet ever held here and it proved to be very successful. The numbers were all very good. The choruses showed some very good talent in singing just as the musical instruments showed wonderful talent in music.

The winners of the different numbers will probably all participate at the State Music Meet to be held at Las Vegas, April 4-5. Carrizozo entered five events and won five first places. The students will go to Las Vegas for the State Music Meet.

WE UNDERSTAND

that the contract for the big dam on the Bonito has been let and that work on that structure will begin soon. We also understand that the Ford people will establish new quarters here and that they have the Lutz building under advisement as a place for sales rooms and mechanical department. At least, a party of Denver Ford men were here on Wednesday looking over the building, and to an Outlook man, who "horned in," they let enough slip to assure us that fact.

We also understand that there will be two new filling stations erected at the approaches to the Malpais on the Carrizozo-Socorro Highway. While these may not all materialize and perhaps none of them be realized, it furnishes food for thought and talk.

The Town Trustees are condemning the old shacks over town, all of which, at the approach of spring, shows signs of advancement rather than decay. What do you think?

Mrs. Louise Coe

and Miller and Evelyn French came over from Albuquerque last Friday, Mrs. Coe going on to her home in San Patricio, while Miller and Evelyn visited the home folks here. They all returned to the 'U' Sunday evening.

L. A. Whitaker

gave a birthday party last Saturday night at the Kudner ranch home in the Venado Gap. A number of Whit's friends were present and an enjoyable evening was spent.

CRYSTAL THEATRE

T. J. Pittman, Mgr.

Friday-Saturday—Wm. Desmond in "Straight Through."

Sunday Matinee and Night—Betty Compson in "Woman to Woman."

Monday Night Only—All Star Cast in "Peter B. Kyne's Masterpiece, 'Hell's Heroes.'"

Thursday-Friday—Wm. Haynes in "Navy Blues."

Back Again!

The Echo Studio of photography is back for a short time in the same location in the rear of Paden's Drug Store, and will specialize in the higher grades of portraiture. The universal satisfaction given last year by this photographer not only speaks well, but has caused a warm welcome back which is very much appreciated.

From Mr. Hinger, proprietor: "My only regret is that the town is not large enough to locate permanently. Of about 18 towns visited in as many months, Carrizozo is the spiciest and shows the highest appreciation of the best efforts of a really good workman."

R. C. Sowder

has purchased a new Ford Standard Coupe, Porfirio Chavez and Sam Ward each made purchases of Ford Coupes of the Western Motors, Inc., this week.

FORT STANTON NEWS

Miss Christina Balmer, relieved from duty as nurse at this U. S. Marine Hospital, left for San Francisco Tuesday morning to take up her new duties at the Marine hospital there. We will all miss Miss Balmer and wish her success in her new duties.

With all the storms of snow and rain back east lately, one is glad that we are out in the west where there is such wonderful weather and sunshine.

Miss Ethel McCoy will arrive from Memphis, Tenn., within a few days to replace Miss Balmer, nurse, transferred to San Francisco.

Much interest is being shown at the Fort on the Literary Digest poll on the liquor question. We have just begun to receive a few ballots for voting on the question.

The basketball fans at Stanton enjoyed the games between the Vidon, New Mex. Girls and Capitan Girls on Friday and Saturday nights. The first game was bitterly fought, Capitan trailing until the final quarter when Georgia Stuart and Frances Ferguson, forwards, got loose and scored 5 quick goals. The Vidon guards were heavy and tall and the Capitan girls had difficulty in getting through them. Capitan won 16 to 11.

On Saturday night the Vidon team came back determined to win, but found an equally determined Capitan team waiting for them. Capitan repeated by a score of 17 to 12, which represents about the margin of majority the girls showed over Vidon. The Vidonites were very good sports and played a clean fast game, and no doubt were handicapped by the higher altitude here. It is hoped they will come back next year.

E. A. Afton

branch salesman for the Ford Motor people of Denver, was here for a day this week, looking over the plant of the Western Motors, Inc.

Mr. and Mrs. Hugh Wells were visitors at Santa Fe the first of the week.

T. J. Tobin

RADIO RUBE'S R-A-M-B-L-I-N-G-S

—The Other Side of it— Henderson Got the Money!

Burlington, Ia., Post:

There has been a cleavage in the ranks of the Retail Grocers' Association in Burlington. The 70 or more members are said now to be divided into several factions. In the place of the old organization it looks now like there would be two or three.

The "Minute Men" who paid \$12 each to a Mr. Henderson down at Shreveport, La., for badges, folded them up and placed them carefully in the bureau drawer as souvenirs.

Seventy "Minute Men" at \$12 each seems to figure out about \$840. Mr. Henderson seems to be doing a pretty good business.

The minute men were supposed to watch and report on who went into the chain stores. Hello, World! Don't be an ass! Don't go 'way! Listen!

Male quartets are gaining in popularity over the radio, and fans are always rambling in search of them. Such organizations as the Salt Lake Woolen Mills quartet, the Skellodians, Happy Wonder Bakers, the Sieberling Singers (over the National Broadcasting Company's network) the Bel Canto and Pratorian quartets, and many others are eagerly listened to at their regular times.

Sunday at Seth Parker's is not an actuality to many listeners, but the same to those who every Sunday evening, take part in the programs. The role of Seth Parker is taken by Phillip Lord, who is a resident of Jonesport, Maine, and each Sunday night, his neighbors gather at his home in the front parlor, to hold an old-fashioned New England hymn-sing. There is a little non-theological sermon by Seth, a prayer or so, combined with the peaceful singing of the old sweet hymns, accompanied by the old-time melodeon. No attempt is made to burlesque the singing or services in general. Mr. Lord originated the idea and is a firm believer in all that is heard at the meetings and insists that the programs are in real earnest and that his characters are real people and believe firmly in all that goes on. Even the collection taken up in a tin cup, is as realistic as anything else.

You'll catch some funny things over the radio every once in a while, for instance: A Scotchman applied to the police department in an eastern city for a job on the police force, and the first thing the captain asked him was, "Suppose you saw a crowd congregated at a certain place and wanted to disperse it, what would you do?" The Scotchman promptly answered, "Pass the Hat!"

Everybody listens to Floyd Gibbons, the man who can say more in his allotted time of 15 minutes than any other speaker on the air could say in one hour. His broadcasting of the poll of the Literary Digest on prohibition, is creating much interest just now.

1—Dr. Frederick A. Cook, Arctic explorer, just released from Leavenworth prison, plans to begin a new life. 2—Final resting place of William Howard Taft in Arlington cemetery, near tomb of Robert T. Lincoln. 3—Mahatma Gandhi, noted female leader in the opposition to British rule in India.

### NEWS REVIEW OF CURRENT EVENTS

#### Hoover Makes Move to Avert Collapse of Arms Conference.

IN AN effort to avert the collapse of the arms conference, or failure to reach a five-power agreement to reduce armaments, threatened by the attitude of France, President Hoover has sent new instructions to the American delegation.

The President is said to have offered alternative proposals designed to make a five-power agreement possible, if not for actual reduction of naval strength for at least placing a limit near present figures.

It is understood that he suggests concessions on the part of the United States and Great Britain which would make it easier for Japan, France and Italy to agree.

The collapse of the conference was threatened when Foreign Minister Briand had announced his withdrawal because the United States, backed by Great Britain, had flatly refused to accede to the demands of France for a security pact as a condition of their consenting to any reduction in naval armament.

Later Mr. Briand relented and announced that he would remain with the conference, and that he still had hopes of reaching an agreement.

The break with France came at a private meeting between Prime Minister MacDonald, Secretary of State Stimson and Foreign Minister Briand of France. Mr. MacDonald demanded that Briand produce his real figures. Mr. Briand replied, tartly: "I have no figures. I came over here to get a pact. If you want figures you must talk to Premier Tardieu. I am finished."

Mr. Briand demanded point blank of the British prime minister and the United States secretary of state why they are suspicious of France's naval requirements and why they refuse to permit her to maintain adequate sea power for self-defense, but accept Italy's demand for parity in silence.

"I don't think that it is fair to ask France to produce all of her figures and make out her case," he said.

"We are willing to discuss every point without being asked. But there is another country at the conference occupying the same status as France, but she is left alone and says nothing beyond demanding parity with us—making no justification of her claims."

The Japanese delegation indicated that the absence of France from further negotiations, which automatically disposes of Italy also, will prevent Japan from proceeding in detail toward any extensive reduction of armaments, because her strength is contingent upon the naval forces of the European powers.

However, it is practically assured that Great Britain and the United States will write a treaty. If the other powers refuse to come in Uncle Sam and John Bull will sign it alone.

**SECRETARY OF LABOR J. J. DAVIS** has announced his candidacy for the Republican nomination for United States senator for Pennsylvania. Mr. Davis' announcement came after he had been informed that William S. Vare had withdrawn from the senate race and would throw his support to Mr. Davis. Davis denied that he intended to withdraw from the cabinet to make the race.

**THE** great importance of teaching civic responsibility to the youth of today, along with the ability to read and write, was stressed by President Hoover in a short address at a dinner given by the Boy Scouts of America.

Four hundred business and professional men, gathered in Washington to commemorate the twentieth anniversary of the founding of the Boy Scout movement and to launch a big expansion program, listened while the President spoke of the necessity for training the boys of imprudent age in the duties and obligations of citizenship. "If the country is to continue as a successful democracy,"

Mr. Hoover spoke in the highest terms of the Boy Scout movement, asserting that it is one of the most valuable educational and training forces for democracy in the nation. The President also praised the leaders of the Boy Scouts for offering the boy of today an opportunity for real adventure and of directing his interests toward "constructive joy" instead of "destructive vice."

**MAHATMA GANDHI**, Indian leader and mystic, is conducting a campaign for civil disobedience against British rule in India. Demonstrations have been held in various parts of the country, but they have been orderly. Gandhi defies the British government to arrest him and warned his followers that they must be prepared "for the worst, even death, in plans for defiance of the salt tax." Production of salt in defiance of the government monopoly is the first disobedience step of the Indian program.

The British authorities are taking every precaution to prevent trouble.

**IMMEDIATE** appropriation of more than \$173,000,000 for multiple government projects was voted by the senate in passing the first deficiency bill.

Of this sum \$100,000,000 is for the farm board, giving that newly established government organization a total of \$250,000,000 of the \$500,000,000 authorized for its revolving fund by congress. The additional fund was approved without opposition.

**A NEW** financial and diplomatic era dawned for Germany and Europe when the reichstag, following the plea of Chancellor Mueller, voted to accept the Young plan, which provides for the final liquidation of Germany's war debts.

In his address in the reichstag Chancellor Mueller hailed the expected liberation of the Rhineland, its recovery of sovereignty and control of finances, railroads and taxes. "We no longer will depend on decisions of the uncontrolled and uncontrollable office in the hands of foreigners as was the case under the Dawes plan," he said.

**WITH** the body of William Howard Taft resting beneath the newly turned sod in Arlington cemetery, the affection which he bore for Mrs. Taft, his three children, and Yale university was attested when his will was opened.

To "my dear wife, Helen H. Taft," the final testament of the former President left virtually his entire estate. Filed for probate, it disclosed no valuation.

Yale university, where Taft spent many of the happiest years of his busy life, first as an undergraduate, and then as the Kent professor of law from 1913 until 1921, when he rose to the chief justiceship, received the largest single sum mentioned in his will—\$10,000. It will be added to the principal of the alumni university fund and credited to his own class, that of 1878.

To his three children, Robert A. and Charles P. Taft, and Mrs. Helen Taft Manning, the former chief justice left some of his most prized possessions—his papers, manuscripts, correspondence, addresses, and copyrights. They are to be used as the recipients think best, after consultation with Mrs. Taft.

**POLICE COMMISSIONER WHALENY** of New York has started a campaign to drive all active Communists from their jobs in shops, factories and commercial establishments. He supplied heads of industrial corporations with a proscription list of 300 names of Communists who have been operating in their places of employment as organizers, agitators and propagandists.

**A COMMITTEE** of the New York County Lawyers association, after a two-year study of the question, decided by a six to one vote to challenge the Eighteenth amendment as a defiance of the Tenth amendment to the Constitution. The committee also voted to submit their contention to the Supreme court for a test ruling. The Tenth amendment reads: "The powers not delegated to the United States by the Constitution nor prohibited by it to the states are re-

served to the states, respectively, or to the people."

The fact that the Eighteenth amendment conflicts vitally with the older Tenth amendment has never been presented to the Supreme court for a ruling.

**THREE** states—New York, Pennsylvania and Ohio—are to spend more than a billion dollars this year for construction and maintenance of state, county, and municipal public works, according to figures assembled by Secretary of Commerce Robert P. Lamont. Gov. John S. Fisher of Pennsylvania has just reported to Secretary Lamont that the total for that state is estimated at \$305,969,118. The total for New York state is \$475,275,442, while that for Ohio is \$223,225,000.

"On the basis of complete reports from more than two-thirds of the states covering all types of public construction and maintenance to be carried out in 1930, together with reports from federal departments and commissions and public utility companies," said Secretary Lamont, "prompt decisive action in speeding up this year's \$7,000,000,000 program of construction work of these types seems well established."

**IN VIEW** of the issue raised by senate radicals in opposing the nomination of Charles Evans Hughes for chief justice, it is likely that unless President Hoover names a man of known liberal tendencies to succeed the late Associate Justice Edward Terry Sanford there will be another long-drawn out fight in the senate.

**THE** government is preparing to count noses again. An army of 100,000 census-takers will begin knocking at your doors April 2 in the nation's fifteenth-decennial count of its population.

Many new questions, along with the old ones, are to be asked this time. The 1930 census will delve deeply into the country's economic life as well as providing the usual basis for reapportionment of seats in the house of representatives.

**LEGISLATION** to place the power industry under the controlling hand of the federal government is now before congress, sponsored by Senator Coxworth of Michigan, chairman of the senate interstate commerce committee.

The bill is the second to follow months of inquiry into and discussion of activities of the giant power industry and its relations with the federal trade and power commissions.

Coxworth, a Republican, is the author also of another bill, to reorganize the power commission, and was confident of getting both the reorganization and the regulatory proposals before the senate this session.

**VOLUMINOUS** evidence showing the breakdown of prohibition enforcement, especially in the large cities, has been amassed at secret hearings by the Wickersham law enforcement commission during the last few weeks, it has been learned.

Although the commission's sessions have been held behind closed doors, reports leaking out unofficially are that shocking conditions have been pictured before the investigators by witnesses from Chicago, New York and other urban centers. It is known that among the witnesses have been prohibition officials from these cities, some of whom have testified dry law violations are widespread despite honest enforcement efforts.

**THE** army engineers are ready to proceed with \$3,000,000 of flood control construction along the main stem of the Mississippi river as soon as congress makes the money available.

Selecting work not involved in the controversy over the merits of the Jadwin plan, the engineers have virtually completed all plans and specifications and their field forces are ready to go to work after the pending appropriation bill is passed.

Coincident with this announcement, Secretary Hurley made known that recommendations proceedings will be brought immediately to obtain lease and roadway rights across railroad and state highway lines in the Sunset Cattle Roadway in Louisiana. 28, 1930, WOODRUFF REPORTER, OMAHA.

## Children CRY for it

It may be the little stomach; it may be the bowels are sluggish. No matter what coats a child's tongue, its a safe and sensible precaution to give a few drops of Castoria. This gentle regulation of the little system soon sets things to rights. A pure vegetable preparation that can't harm a wee infant, but brings quick comfort—even when it is colic, diarrhea, or similar disturbance.

And don't forsake Castoria as

the child grows older. If you want to raise boys and girls with strong systems that will ward off constipation, stick to good old Castoria; and give nothing stronger when there's any irregularity except on the advice of a doctor. Castoria is sold in every drugstore, and the genuine always bears Chas. H. Fletcher's signature on the wrapper.

If a mean man is wise he will move out of the neighborhood instead of trying to live it down.

A woman seldom cares anything about the answers to the questions she asks.

## Any COLD

That cold may lead to something serious, if neglected. The time to do something for it is now. Don't wait until it develops into bronchitis. Take two or three tablets of Bayer Aspirin as soon as you feel a cold coming on. Or as soon as possible after it starts. Bayer Aspirin will head off or relieve the aching and feverish feeling—will stop the headache. And if your throat is affected, dissolve two or three tablets in a quarter-glassful of warm water, and gargle. This quickly soothes a sore throat and reduces inflammation and infection. Read proven directions for neuralgia, for rheumatism and other aches and pains. Genuine Bayer Aspirin is harmless to the heart.

## BAYER ASPIRIN

Better arm yourself with a dark lantern when looking for hoodlums among thieves. To have more money than you know what to do with, encourages philanthropy.

## Finds Youth's Fountain!

"JUST one thing has contributed more than anything else in my life toward making me the radiantly happy woman I am today," writes Mrs. Walter Ruel, of Glenbrook, Conn. "If this was selling at ten dollars a bottle instead of the few cents it costs, I would scrape the money together, and I don't mean maybe!"

One Happy Woman Tells Where She Discovered It

"I guess a good many others feel the same way, judging by the number of people I know who swear by this 'Fountain of Youth.'" Millions of people all over the world have discovered this simple secret, which is nothing but giving our bodies the internal lubrication that they need, as much as any machine. After you have taken Nujol for a few days, and have proved to yourself how it brightens your whole life, you will wonder how so simple a treatment can make such a great change in your health and your happiness. The reason is this: Regularly as clock work, Nujol clears out of our bodies those poisons (we all have them) which slow us up, make us headachy, low in our minds. Colorless and tasteless as pure water, Nujol cannot hurt you, no

matter how long you take it. It is not a medicine. It contains no drugs. It forms no habit. It is non-fattening. Try Nujol yourself and see how much better you feel. Get a bottle in its sealed package at any drug store and be sure it's trademarked "Nujol." It costs but a few cents—and it makes you feel like a million dollars! Start taking Nujol this very night!

Just a shake or two completes the toilet! Always take time to dust on a little CUTICURA TALCUM as a finishing touch to your toilet. Fragrant and antiseptic, it absorbs excretion, soothes the skin, and makes your toilet complete. You will like it—everybody does.

**The Town Ticket**

On April 1, the regular biennial election of the Mayor, Trustees, Clerk and Treasurer will be held, and while there will be no opposition to these candidates, the people should turn out and vote the same as if another ticket was in the field.

As far as these officials are concerned, their work for the betterment of Carrizozo stands as their record of good faith to the people of the town.

The Mayor, G. T. McQuillen, and Trustees, Albert Ziegler, T. E. Kelley and S. F. Miller, who have served the Village so faithfully are up for re-election, and the new candidate, Mr. C. A. Snow, is so well known to all of us, that no word of recommendation is necessary, as he is one of our foremost business men, and one who will assist his co-workers to further the interests of the Town — help to make it a place where people will be glad to come and live.

The candidate for Village Clerk, Mr. F. J. Sager, while just finishing out the unexpired term of Mr. Stadtman, has made a record for himself which will stand the closest inspection. As a clerical expert, he could not well be replaced. During his short term of office, he has adopted, with the approval of the Board, a new and complete system which has simplified and bettered the keeping of the Village accounts, been on the job at all times and if anyone wishes to see him, at any time, he can always be found at his office, attending to the business end of things for the Trustees. That the people will highly approve of his methods and interest, will be shown at the election. The candidate for treasurer, Dr. Shaver, who has served with the old Board for so long, will receive the same stamp of approval.

The next thing to do will be to turn out and back up the ticket and show just how much faith we have in them. April 1st, is the time. — Let's go!

It being the opinion of the Trustees that the building on Lot 28, Block 12 on Alamogordo avenue in the original townsite of Carrizozo, in its present condition being a harbor for tramps and a dangerous fire hazard, should be removed. It was ordered that notice be served on the owners requiring them within 90 days to remove the building on the above described property or put it in proper condition.

It was further adjudged by the Trustees in view of the fact that the building on Lots 10 and 11, Block 28 on El Paso avenue in McDonald's Addition and the building on Lot 29, Block 17 on El Paso avenue, original townsite are both harbors for tramps, unsightly and of no value to the owners except for the old lumber in them, it was ordered that the owners be ordered to have them removed.

B. L. Stimmel, Morgan Loyelace and John Wright were appointed Judges, and Mrs. Oscar Clouse and Miss Bertha Vega, Clerks of the election for Village officers to be held April 1, 1930, at the office of the Village clerk.

No further business being presented, the meeting was adjourned. G. T. McQuillen, Mayor.

F. J. Sager, Clerk.

**What's Wrong With Carrizozo?**

The answer is simple — The only handicap to the town is not having a baseball team during the summer months. We have a number of athletic boys, who could round up a team and compete with neighboring towns.

**Your Voice Can Deliver the Message Best...**

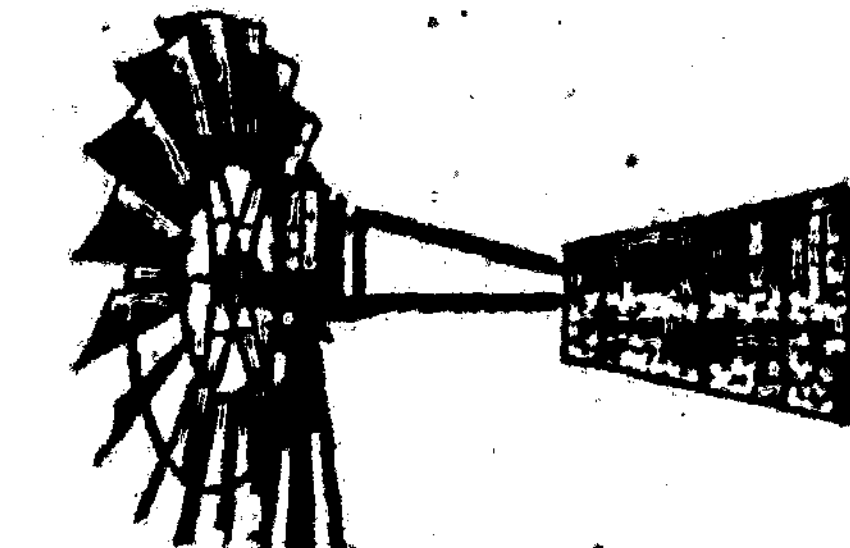

Your voice is the most natural, most effective, means of expressing yourself. It's a mirror of your personality.

When you have a message for someone in a nearby or distant town, telephone. It's quickest, most satisfactory. Calls are often completed while you hold the line.

Rates are lower than ever. For 10 cents you can talk 10 miles, 20 miles for 20 cents, 30 miles for 30 cents, 45 miles for 40 cents and 65 miles for 50 cents. Try it—save time—the telephone way is the modern way.

The above picture shows a sectional view of Samson "Oil-Rite" Windmill illustrating principle of Pump, also location of Four Timken Roller Bearers

The AUTOMATIC OILING SYSTEM and lubrication of the various parts is accomplished as follows: The oil is poured into the gear case, which submerges the lower part of the double gears, including the wrist pins when at the bottom of stroke. The rotation of the gears carries the oil up and floods the pinions, and the oil running down over the inside of the gears floods the gear shaft. The trough which is part of the hub of wheel head, maintains a level that submerges the lower part of both front and rear Timken bearings, and the surplus oil is returned to the gear case through a passage in the main frame extension. A felt oil retaining washer and paper gasket prevent any oil from working out around the wheel shaft.

**AUXILIARY OIL PUMP**

One of the outstanding features of the SAMESON "OIL-RITE" is the extreme simplicity, efficiency, and practicability of the pump.

The main frame on the Oil-Rite mills forms a reservoir that holds a sufficient amount of oil to lubricate the mill for one year. A sheet metal helmet completely encloses the reservoir and covers all working parts thus eliminating waste and making it dirt, rain, sleet and snow proof. No water can get in to flood the oil, no dust can blow in to grind out the bearings. This construction prevents squeaks, rattles and gear howling brought about by insufficient lubrication, all of which is avoided in the automatically oiled "OIL-RITE" mill. The ball bearing turn table, the constant supply of oil always flooding the moving parts and the Timken roller bearings insure the owner the "OIL-RITE" mill will pump water in the slightest breeze.

REVIEW

GOLDEN TEXT—Unto us a child is born, unto us a son is given; and the government shall be upon his shoulder; and his name shall be called Wonderful, Counsellor, The Mighty God, The Everlasting Father, The Prince of Peace.

PRIMARY TOPIC—Jesus the Savior. LUNAR TOPIC—Jesus the Savior. INTERMEDIATE AND SENIOR TOPIC—He Went About Doing Good. YOUNG PEOPLE AND ADULT TOPIC—The King Serving.

Since the lessons of the quarter are bound together by the threefold unity of one book, one theme, and one person, the best method of review for young people and adults is to present the book of Matthew as a whole, and each lesson in its relation to Matthew's central purpose. The central theme is Jesus Christ, the King, the fulfiller of the Messianic hope.

Lesson for January 5.

God entered into covenant with David concerning the Kingdom (II Sam. 7:8-16). Christ's genealogy shows His legal right to the throne of David (1:1-17). The Messiah was not only said to be the seed of the woman (Gen. 3:15) and the son of a virgin (Isa. 7:14), but the mighty God (Isa. 9:6), Jesus Christ, the King, was begotten of the Holy Ghost and born of Mary, thus becoming Immanuel (Matt. 1:23, cf. Isa. 7:14).

Lesson for January 12.

The King entered upon His official work by being baptized. Christ's baptism was His act of consecration to the task of saving His people through the sacrifice of Himself upon the cross. Having received the official approval from the open heavens, the King went forth to the wilderness to meet and overcome the devil (Heb. 2:14). His victory demonstrated His ability to accomplish the work of redemption.

Lesson for January 19.

The voice of John the Baptist being attired, the King becomes His own herald. His message was the same as John's, namely, "the kingdom of heaven at hand," which means the Messianic earth rule of Jesus Christ. He called helpers to His side and went through Galilee preaching with triumphant success.

Lesson for January 26.

This lesson shows the characteristics and responsibilities of the subjects of the kingdom, the beatitudes showing the characteristics, and salt and light the responsibilities. The life and testimony of the disciples are to light up the darkness of the world and preserve it from decay.

Lesson for February 2.

This lesson displays the principles which are to control the lives of the subjects of the kingdom. They should live a life of prayer, putting their trust in the Heavenly Father for temporal blessings. Spiritual affairs are to be first.

Lesson for February 9.

The subjects of the kingdom should be free from censorious judgments, be on the lookout for false teachers, avoid empty profession, and obey the words of Christ, the King.

Lesson for February 16.

In the performance of mighty works the King demonstrated His ability to administer the affairs of the kingdom. He showed His power over the chief foes of mankind—sickness, sin, satanic power, death, sorrow, and storms.

Lesson for February 23.

The kingdom was to be propagated by sending forth twelve men to preach the gospel of the kingdom. Their mission was authenticated by supernatural deeds.

Lesson for March 2.

In the propagation of the kingdom, violent opposition arose, resulting in the plan to kill the King. Opposition will be experienced by all who go forth in Christ's name.

Lesson for March 9.

The parables display the admixture of moral and spiritual conditions in the world between Christ's crucifixion and second coming. The parabolic method of teaching makes clear the truth to those who love it, but conceals it from those who do not.

Lesson for March 16.

The parables of the wheat and tares, mustard seed and leavened meal, show the outward growth and inner decay of the work inaugurated by Christ in the interval between His crucifixion and second coming.

Lesson for March 23.

Though rejected by the nation, the King continued His ministry of healing and teaching.

Straightening the Kinks

The kinks and tangles in our lives would straighten out wonderfully if we would let them come offener under the influence of the calm, clear life of Jesus.—Presbyterian of the South.

Christians

The young Christian thinks himself little; the growing Christian thinks he is nothing; but the mature Christian knows that he is less than nothing.—John Wesley.

TAKE IT FROM DAD

By Frank H. Chooley

Is College Worth the Price?

"Dad, we had another hot argument around the lunch table. Think we better organize a debating society. Why there simply isn't anything upon which many people agree, is there? Why, it never occurred to me in the world but what every fellow that wanted to get anywhere would go to college but there was a third of that gang today who said, 'Nothing doing, it simply does not pay. That's their stand.'"

"That's right," commented Mr. Smith without looking up from his paper. "College is not for all boys. It depends upon the boy and what he is going to do. Many a boy wastes four years in college and a deal of his father's money to absolutely no avail. He would have been a heap more self-respecting and happier, too, if he had gone to work instead of to college." "Humph, that doesn't sound much like the line you peddled me when I wanted to quit school, and go to work."

"Yes, but you're a mere kid. Every boy in the land should have a high school education. If it has been the right kind and he has tended to his knitting he ought to be able to make a good living for himself whether he goes on to college or not—that's a minimum necessary to get on in our ever more complicated modern society. From that point on it's a matter of—"

Whether college is worth the price?

"Exactly, my boy, provided you do not insist upon interpreting entirely in terms of money for there are other prices involved. If education is anything it is an investment. An investment of four prime years of life, plus a cash outlay of some four thousand dollars, plus a tremendous amount of nervous and mental energy. All of these items are a young chap's stock in trade—his capital. If his investment is going to bring returns in technical or professional training which will in turn, open larger opportunities for self-realization as well as income, then a thoughtful boy is justified in attempting the investment."

"Every boy, whether or no, with the exception of the few ultra rich who do not count anyway, must sometime come to stand on his own feet; fight his own way and be an independent individual. Usually at best that involves a certain amount of experimenting—trial and error. Then too, Bob, without casting any aspersions upon anyone, we are forced to recognize that some men have a much greater ability and aptitude to study and research than others. Many men are motor minded and exceedingly practical. They must be doing things instead of thinking things, to be happy."

"Bob, it is largely a matter of individual temperament, circumstance and attitude. I firmly believe in higher education. I just as firmly believe that a large number of the nearly half million boys in colleges are largely wasting their time at a very large expense and emerge handicapped the rest of their lives with expensive tastes and habits with no conception at all of work and with a very late start in the big battle of life."

"Turn a minute to your Ready Reference there again, Bob. Look under education. See if it doesn't give you some facts and figures to think about?"

"Education—Costs—Advantages of—DOES AN EDUCATION PAY? Ah, here we are, let's see—"

"DOES AN EDUCATION PAY? Does it pay to fit one's self for a superior position?"

Does it pay to get a glimpse of the joy of living?"

Does it pay for a chrysalis to unfold into a butterfly?"

Does it pay to learn to make life a glory instead of a grind?"

Does it pay to open a little wider the door of narrow life?"

Does it pay to know how to take the dry, dreary drudgery out of life?"

Does it pay to taste the exhilaration of feeling one's powers unfold?"

Does it pay to push one's horizon farther out, in order to get a wider outlook, a clearer vision?"

Does it pay to learn how to center thought with power, how to marshal one's mental forces effectively?"

Does it pay to acquire a character-wealth, a soul-property, which no disaster or misfortune can wreck or ruin?"

Does it pay to have expert advice and training, to have high ideals held up to one in the most critical years of life?"

Does it pay to make life-long friendships with bright, ambitious young people, many of whom will occupy high places later on?"

Does it pay to become an enlightened citizen, able to see through the sophistries of political claptrap and vote intelligently on public matters?"

Does it pay to change a bar of rough iron into hairpins for watches, thus increasing its worth to more than fifty times the value of its weight in gold?"

Does it pay to experience the joy of self-discovery, to open up whole continents of possibilities in one's nature which might otherwise remain undiscovered?"

Bob closed the book with a slam. "Anyhow, Dad, I'm going to college because I'm going to make it pay."

"I believe you will, son—I hope so."

14,000 UNFIT AUTOMOBILES  
WILL BE REMOVED FROM  
HIGHWAYS IN THIS REGION

Fourteen thousand unfit automobiles will be removed from highways in the Rocky Mountain states during the coming year in an effort which is part of a national highway safety plan which is being undertaken by various companies in the automobile industry, as announced by the National Automobile Chamber of Commerce. The program will involve the expenditure of approximately \$25,000 in the Rocky Mountain area. Nationally, the motor companies plan to scrap 400,000 old automobiles in 1930, involving an expenditure of approximately \$15,000,000.

The number of cars which it is estimated will be scrapped in this group of states is as follows:

Montana	2,240
Idaho	1,650
Wyoming	900
Utah	1,740
Colorado	4,120
Nevada	470
Arizona	1,650
New Mexico	1,170

The program is characterized as "perhaps the greatest single safety move in industrial history," by Alvan Macaulay, president of the automobile chamber, and former chairman of its street traffic committee.

"This widespread experiment will strike right at the heart of the unsafe vehicle problem by eliminating a huge block of those cars which are in the poorest condition," says Mr. Macaulay.

One of the hazards of the highway situation has been the rattletap car which keeps reappearing on the road after it has presumably been sent to the discard. The aim of this program is to guarantee the actual scrapping of the vehicle. The plan will be worked out by each company participating, in line with its general sales policies on the volume of its production.

**Burned to Death by Alcohol Bath**  
Chicago.—Arthur Vallas, 65-year-old manufacturer, was burned to death when a bowl of alcohol in which he was bathing his feet caught fire and enveloped him in flames. Vallas was a member of a pioneer Chicago family and was connected with the sheet metal works that bore the family name.

## Have Kidneys Examined By Your Doctor

Take Salts to Wash Kidneys If Back Pains You or Bladder Bothers

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, cannot injure and makes a delightful effervescent lithia-water drink.

### Philosophy

Mayor Porter was receiving the congratulations of his neighbors, after the ceremonies that installed him as chief executive of Los Angeles. Among those who shook his hand was a high school boy who lives only a few doors away.

"Mr. Porter," asked the boy earnestly, "what must a fellow do if he wants to aspire to something worth while in life?"

"Perspire, my boy, perspire," laughed the new mayor, suiting his action to the word.—Los Angeles Times.

### Oklahoma Girl Strong as Boy

"Louise Alice was fretful, nervous and all run-down from whooping cough," says Mrs. F. J. Kolar, 1730 West 22nd St., Oklahoma City, Okla. "The little I could force her to eat wouldn't ever digest. She became underweight, sallow and weak."

"Then I decided to try California Fig Syrup, and the results surprised me. Her bowels started working immediately, and in little or no time she was eating so she got to be a pest at the table, always asking us to pass things. Her weight increased, her color improved and she began to romp and play again like other children. Now she's the picture of health, and strong as a boy."

Pleasant-tasting, purely vegetable California Fig Syrup acts surely and quickly to cleanse your child's stomach and bowels of the souring waste that is keeping her half-sick, bilious, sallow, feverish, listless, weak and puny. But it's more than a laxative. It tones and strengthens the stomach and bowels so these organs continue to act normally, of their own accord.

Over four million bottles used a year shows its popularity. Ask for it by the full name, "California Fig Syrup," so you'll get the genuine endorsed by physicians for 50 years.

Mission, Tex.—"I have used a good deal of your medicine and always find it gives wonderful help. I was feeling so weak and miserable that I had to lie down very often and I could hardly do my housework. I read in the paper how Lydia E. Pinkham's Vegetable Compound had helped other women who were in the same condition so I said I will try it for myself. I am very much better now and I recommend this medicine, and will answer letters from women asking about it."—Mrs. J. W. Armstrong, 1015 Miller Avenue, Mission, Texas.

## LAW NOT KEEPING UP TO TIMES

By DEAN YOUNG B. SMITH, Columbia Law School.

THE law and legal profession in this country suffer too much from intellectual inbreeding and lack the proper and dynamic touch with life and society. By "intellectual inbreeding" I mean the isolation of the law or rather its lack of proper contact with other spheres of research and study and its failure to keep abreast with social and economic changes.

The many and important changes which are taking place in the economic and social structure, with the concomitant shifting in philosophic thought are creating new problems of law. Their solution calls for an understanding and technique which contemporary legal education does not afford. Legal concepts born of a passing order are losing their utility and devices for law making and law administration designed to function in a simpler society are breaking down under the complexities of modern life, and this is so evidenced by the popular demand for remedial legislation, the increasing nonobservance or disregard of law and the growing tendency to invoke nonlegal agencies in the regulation of business and the adjustment of disputes.

The habit of lawyers in looking to reported opinions for the answer to legal questions has tended to deprive the law of the benefit of new ideas in testing the validity of rules of the law. Even when courts are inclined to formulate new policies, their decisions too often rest on little more than the limited experience of the particular judges who make the pronouncements. Seldom do the courts utilize the knowledge of the economist, the historian, the psychologist, or the philosopher in determining social policy. The profession has developed no technique by which such knowledge is made available. As a result, legal standards are often inconsistent with actual experience.

## PERILS OF MACHINE AGE

By DR. RALPH SOCKMAN, New York (Methodist).

We are becoming a land of lookers on. The machine age gives to man the lengthened leisure which is so potential for material culture but also is fraught with dangers. The divorce rate has risen with the sale of vacuum cleaners and electric washers.

There is a danger to morals growing out of the increasing use of labor saving devices. Modern machinery has resulted in short and comparatively light work for the individual, tiring his nerves, but not his body. As a result there is a restless craving for excitement necessitating a sharper moral control than is required when work tires both the body and the mind.

Modern industry, in its vast enrichment of material resources, is lessening the general resourcefulness of the individual. Man is more and more the purchaser and less and less the creator.

We are becoming passive spectators of expensive amusements rather than participants in productive pleasure. Religion, too, becomes an acceptance of second-hand experience rather than a creative original activity of the soul.

## PARENT'S DUTY TO THE CHILD

By MARIE I. RASEV, Detroit Teachers' College.

Parents must first assure themselves that they are grown up before they undertake the directing of other lives. Parents fail to realize it, but oftentimes the daughter is grown up more than her mother. One of the chief characteristics of maturity is the assuming of responsibility. This means the ability to solve life's little problems as they present themselves. We are all in some stage of growing up all the time, and when young people seek our help we'd get along better if we assumed that shoulder-to-shoulder attitude, rather than that of "I know it all and I'll lead the way."

The adjustment of one individual to another is one of the greatest problems. The more a child has been pampered the less he will be able to adjust himself to others. When he leaves school he understands little of life's values and has a hard time facing problems.

When a parent pampers a child he takes, free of cost, a privilege which the child himself pays for with interest later on. Teach your child that responsibility is a privilege and not a burden.

## SOVIETS' DENY HUMAN RIGHTS

By RABBI STEPHEN S. WISE, New York.

The Russian government is guilty of the most brutal denial of elementary religious rights of its people and the union of Christian and Jewish sentiment throughout the world, despite the quasidiplomatic recognition of the Soviet republic in some lands, will refuse comradeship with such a government.

To the mad law of the Soviet republic that religious organizations shall not be permitted to have juridical being we answer that the world judgment will not forever suffer this unspeakable violation of elementary human rights. We are not bent upon battling with the Soviet republic, but we never shall lay down our moral arms until the Soviet republic ends its ruthless warfare against religion and grants the free and untrammelled exercise of religious rights.

To those Jews who are fearful of injuring colonization and settlement work for Jews in Russia we answer that the only course in the presence of a colossal wrong is the undimmed resolve to stand up and fight until justice be done and injustice righted.

**Tularosa Visitors**  
at the Music Meet were: Mmes. Brannon, Telles and Mitchell; Messrs. Nilsson, Flickinger, Briscoe, Evans, Snodgrass and Mr. and Mrs. Clayton. Alamogordians were: The Misses Hazel Pierce, Muriel Cowden, Maud Olds, Margie Tatum, Florine Pittman, Helen Jones, Evangeline Lowden, Virginia McKee, Ruth Edington, Wilma Beauchamp, Dortha Gibson, Margaret Chenauth, Frances Sloan, Thelma Stevens, Geraldine Gregg, Flossie Osborne, Margaret Hudson (Instructor) and Ray Osborne.

**Mr. and Mrs. T. A. Spencer**  
left Monday for Albuquerque to attend the Cattleman's convention of which organization, Mr. Spencer is president. The convention opened Tuesday and the Spencers will return today or tomorrow.

**Mrs. Anna Brazel**  
was here from her claim near Oacura Monday, to make some purchases and returned in the afternoon. Her claim is in the Godfrey hills and she is making improvements continually and they are substantial and permanent.

**P. M. Melton and Doc Bell**  
were in from the Ancho country Monday, attending to business matters. They report everything in readiness for spring in that region and the stock faring well.

**Mrs. Elzy Perry**  
and son George were here from Glencoe Monday, making some purchases and returning home in the afternoon. They reported buds beginning to peep out in that region and look forward to a prosperous springtime.

**Sam Coldren**  
came in Monday from El Paso and after spending the day on business, went back to the border to meet his mother, Mrs. Eva Coldren, after which they will go to New York and set sail for Russia, where Sam has accepted a position with the Soviet government to superintend a big mining project. Sam said he would certainly not agree with everything they might say or think, over there, but golden silence would harm nobody.

**The Carrizozo Eating House**  
is undergoing a nice improvement in the way of a good dove-colored painting. A force of painters are at work on the big structure and will complete the same by the first part of next week. The station and also the refreshment section foreman have already been painted and the improvement on the whole, gives that part of town a very pleasing appearance.

**Mr. and Mrs. Chas. Cree**  
are spending the week at Ruidoso, Mr. Cree attending to business in connection with his holdings in that region.

**Mrs. Ben S. Burns**  
Mrs. Curd Mitchell and two daughters were here Saturday attending the music meet, Mrs. Burns from Three Rivers and the Mitchells from Tularosa.

**Mrs. C. N. Lemmon**  
came up Saturday from Tucumcari, attended the music meet and left on the evening train for home.

**The Delegation**  
composed of Meadames English, Lemon, Green, Miss Ella Brickley and E. M. Brickley, who were in attendance at the Grand Chapter, O. E. S., at Clayton last week, arrived home Saturday morning. The Carrizozo chapter was honored at the Grand Chapter by the appointment of Miss Brickley as Grand Elects.

**Three Trees Campaign**  
Some of our ardent tree lovers have suggested a plan, if carried out, will help greatly to beautify the town. They propose to ask each resident to plant three trees in front of his residence. The trees should be planted right now and they will need but one watering each week to insure their health and growth. Let's do this and see if we can't soon have an abundance of trees. The Carrizozo Woman's Club are to be commended on the money they raised for the purpose of planting trees and shrubs in the schoolhouse yard. It is a grand improvement and one worthy of special mention. The three trees campaign is on and as to how many will get busy, is left to be seen. Rev. J. H. Skinner is credited with the movement to start the campaign. Let's help him. Some have already agreed to the proposition.

**Morgan Lovelace**  
attended to his books at Ziegler Bros. Store during the absence of Mrs. Lemon, who was at the Grand Chapter, O. E. S.

**Mr. and Mrs. Orville Bogle**  
came in last Saturday from Los Angeles where they have resided since leaving here four years ago. Mrs. J. L. Bogle went as far as El Paso to meet them. They left Tuesday for Kingston, Indiana, where they will visit with Mrs. Bogle's brother, H. H. Boydston and perhaps locate at that place.

**Sheriff John Brady**  
has had his force out for the past week, preparing the front lawn of the courthouse with well-seasoned fertilizer from the Fred Neighbauer goat ranch, for the planting of new grass and flowers. The lawn will present a nifty appearance this coming summer. More power, Johnny!

**George Clements, Sr.**  
and son Woodrow were down from their ranch near Corona on Wednesday. They reported the range in good condition from the recent moisture and stock looking fine and healthy after wintering over.

**Mr. and Mrs. Cooper Hightower**  
and the Warden sisters were in from the ranch near Arico Tuesday, attending the Crystal Theatre to see Clara Bow in "The Saturday Night Kid" and returning home after the show.

**Dr. R. R. Green**  
was down from Corona Tuesday, returning home on the evening train. Dr. Green is optimistic over the forecast for the coming season and said that his section would produce an abundance of beans this year and that everything pointed to a successful year, as a whole.

**Mr. and Mrs. A. W. Whitaker**  
parents of L. A. of the Western Motors, Inc., who were here last week, visiting their son, left Saturday for El Paso, where after a short stay, they will go to their new home in Long Beach, California.

**Mrs. T. J. Pittman**  
and son Hugh arrived here last Saturday and stayed over Sunday with Manager Pittman of the Crystal Theatre, leaving Monday morning for Cloudcroft. They said that there will be two companies of U. S. cavalry at that resort for the coming summer, which will add greatly to the life of the resort.

**George Freidenbloom**  
came over from Hollywood, N. M., Tuesday, accompanied by Matty Porter. They were joined here by Joe Adams and left for Santa Fe, where they are spending the week on business matters. George will act as chaperon for the boys during his absence and it goes without saying that they will be in his hands, as George is Postmaster, Justice of the Peace, Notary Public and Barber in his home town and if they had anything else to give him, he would certainly have it.

**Mr. and Mrs. Will Ed Harris**  
are attending the convention of the New Mexico Cattleman's Association at Albuquerque this week and will return about Saturday.

**Services Next Sunday**  
Next Sunday, being the fifth Sunday, we will have services both morning and evening at the Methodist Church. We are happy to note a substantial increase in attendance at our Sunday School and church services. We need you — and you need the church. Come on!

met Saturday, March 22. The president being absent, the vice-president presided. The meeting opened in form and members responded to Roll Call by giving a biography of a famous man. The following program was given:  
1 Civic Responsibilities to Ourselves — Miss McCammon  
2 Piano Solo — Pollyana Walz  
3 Civic Responsibilities to Others — Miss Shaver  
4 Reading — "The Last Song" — Miss Snow  
Mrs. Elliott  
Refreshments consisting of sandwiches, salad, ice cream and cake were served by the hostesses. The colors of the club, purple and gold, were carried out in the refreshments and also in the silk covering and flowers of the officers' table.  
From paper read by Miss Snow: "By keeping our town clean and free of papers, etc., we are not only improving the looks, but are helping prevent disease germs spreading, that might be in this refuse. Remember that all public buildings, such as the Court-house, Postoffice, Community Hall and City Hall belong to everybody, and if we mark on the walls, break window panes, damage the trees, grass or flowers, we are not only hurting the other fellow, but ourselves as well. Let us, as a Junior Club, be proud of our town and do all we can to improve it; and as we grow older, our town will be proud of us."

**The Music Meet**  
At the big gathering last Saturday afternoon at the Hi School Auditorium, it afforded much pleasure to see how so many visitors, most of whom occupied principal places on the program, could be so amply accommodated by having the convenience and spacious portion of the school, in which to hold affairs of this nature. The large seating capacity, the ample ventilation, the large stage with its neat and tidy background, all of which furnishes all that could be expected as a place to hold entertainments of a public or private nature, is something to be proud of. That the visitors were treated with the utmost courtesy by our faculty and students, was shown by the many complimentary remarks heard on all sides from our guests from neighboring towns. The account of the Meet which appears elsewhere in this paper, is self-explanatory.

**Capitan Revival Closes**  
One of the best revival meetings in the history of the Capitan Baptist Church was conducted by Rev. A. L. Maddox of Las Vegas and Pastor F. C. Rowland.  
The meeting closed last Sunday night with a splendid service. The church was re-organized and about twenty new members added, five of these for Baptism.
