

## This Week

by Arthur Brisbane

**Leprosy Conquered**  
Eat Vitamin D  
To Europe for \$6, Maybe  
Women May Preach

Doctor Doatal, bacteriologist of Vienna, isolates leprosy germs and produces an effective serum. Once that would have comforted millions of people and those living in fear of leprosy.

It means little today. Leprosy is one of many "fifth" diseases, dying out as civilization and soap distribution progress. Cleaning up a stagnant pond will free a neighborhood of malaria.

Cleaning up the world's fifth spots would free the earth of many diseases.

If nations that recently spent hundreds of billions killing each other would spend a few billions to rid the earth of mosquitoes, flies, rats and mice, the worst diseases would vanish.

Doctor Price, scientist of Cleveland, says vitamin D prevents diseases called "degenerative," such as cancer, heart disease, influenza and pneumonia.

Dairy farmers will be interested to hear that Doctor Price recommends spring butter from the milk of cows grazing in the sunshine. This vitamin D he calls the "sunshine vitamin." Cows get the vitamin, stored up by the sun, in spring grass, and return it in their milk.

Here is real flying news, important to all interested in moving about the earth.

Henry Ford has perfected an all-metal airplane driven by three Packard Diesel motors, burning crude oil. The machine is expected to carry eleven passengers one hundred miles at a fuel cost of \$2.18. This means that the fuel cost of taking eleven passengers across the continent or across the ocean would be \$64.90, less than \$6 each. There is no cost for right of way, little for terminals and for wear and tear.

What is more important, in Ford's opinion, is the fact that fire hazards, explosions, carburetor adjustments, electric ignitions, all dangerous elements in flying, are eliminated.

"The pilot sits in front of an instrument board like that of an automobile and talks over a radiophone without interference from the motors."

Concerning flying, it is apparently true that "We haven't seen anything yet."

The poet's farewell letter requests the "comrade government" to take care of his mother and sister, also Zella Brk and Veronika Polonskaya.

The last two ladies both loved him, at least he thought so, and he killed himself because he couldn't decide which of the two he liked better.

All poets are more or less queer. Russian poets probably the queerest.

After Germany launched the great steamship Bremen, it was said that British and Americans could not afford a 50,000-ton ship. It would cost more to build and run than it could earn. But launching of the German superliner Europa has stirred up the old Cunard line and it will build two passenger ships of 70,000 tons each, faster than any passenger ship on the ocean.

The first one will be ready in 1935. The British do not mean to lose control of ocean traffic.

Mr. Mitchell, attorney general, warns the senate judiciary committee that "further stimulating activities of prosecution under any law will get us into difficulties." He told the committee that in the last nine months the number of federal prisoners has increased by 6,277.

It will comfort bootleggers and their associates to know that if more of them are locked up the government will hardly know what to do with them.

Lack of employment is said to be increasing throughout the world. You are surprised to find that Russia, with a bigger population than ours, making social experiments expected by capitalists to end disastrously, has fewer unemployed than we have, by far. The richest, most prosperous and, industrially, the most highly developed nation should be able to keep its men at work.

T. J. Simer was a business visitor from Capitan yesterday, returning in the afternoon.

## CAPITAN MOUNTAIN-AIRINGS

Pat Cole and Dwight Allison are spending the week with friends in El Paso.

Mesdames Lumpkins and Hall will go to Roswell for Decoration Day.

Rev. Keating, Evangelist of Alamogordo, preached to a large audience here last Sunday afternoon.

Capitan had a welcome visitor last Sunday in the way of a nice rainfall, fulfilling the old saying, "The better the day, the better the deed."

Mrs. J. E. Long, nee Elizabeth Titworth of Albuquerque, is visiting her parents, Mr. and Mrs. George A. Titworth.

The Capitan Ladies' Missionary Society met May 14, with Mrs. Hall, seven members attending. The next will be an all-day meeting at the home of Mrs. Bert Provine, for the purpose of making a quilt for the Orphans' Home.

Mrs. Beall made a trip to Carlsbad Tuesday to meet and return with Mr. Beall's parents who will spend the summer at their son's home here.

Mrs. Montie Gardenhire is visiting friends in Tucumcari this week.

The old school bell will ring no more until September. Teachers have all gone; some to their homes, while others have gone to teach in summer schools.

Mr. and Mrs. Koogler will leave this week. Mr. Koogler to teach at Las Vegas and Mrs. Koogler and the children to spend the vacation period with Mrs. Koogler's parents, Mr. and Mrs. Geo. Clements, Sr., at Corona.

Several of our citizens were in Carrizozo Monday to attend the Board of Education meeting, among whom were the Hon. Sam Bigger, Hon. Frank Morris and Mr. J. A. Brubaker.

Jean Berry of Fort Stanton and Bill Lumpkins of Capitan will be home Friday from the Albuquerque University. Jean to spend the vacation with her mother and Bill will be at home but a few days, after which he will engage in Boy Scout work which will occupy most of his time during the summer.

Miss Bessie Ferguson is the new clerk at the Capitan Mercantile store. Mr. Peters certainly has a good eye for business.

The Carrizozo Auto Company through its salesman, Perry Sears, announces the sale of Ford cars to the following parties during the past week: Mrs. D. A. Barnett, Roadster Pick-up and closed Cab; A. J. Rolland, Ford De Luxe Sedan; Will Ed Harris, Standard Coupe; Roy Richard, Standard Coupe; E. M. Barber, Standard Coupe; Lucille Crenshaw, Standard Coupe; Florencio Mirelez, Town Sedan; E. P. Gonzalez, 3-window Ford or Sedan.

E. M. Brickley made a record-breaking trip to Albuquerque Wednesday, leaving here at 4:05 a. m., spent two hours and twenty minutes in the Duke City and returned, accompanied by his daughter Ruth and Glenneth English, who finished the term at the University, arriving here at 4:30 p. m., driving each way in 5 hours.

## Memorial Day

## Simms' Bill Makes Carlsbad Cavern National Park

Washington, May 26—Adding No. 22 to the great chain of America's scenic National Parks, President Hoover has affixed his signature to the act of Congress creating the Carlsbad Cavern, a National Park in New Mexico.

The act known as the Simms bill, gives not only park status to the caverns monument, but gives the authority to the President to add, on recommendation of the Secretary of the Interior, surrounding lands up to 193 additional square miles. The sur-

face boundaries of the National Monument took in 719 acres, although the cave extended for miles under ground. Congressman Simms, whose portrait appears above, has been very active in working for New Mexico's interests, and the establishment of the cavern as a National Park is one of his latest measures. We understand that Mr. Simms will again be a candidate for the nomination for Congress and should have no opposition.

**"The Talkies"** will be here beginning with next Wednesday. This announcement will be seen in the Crystal Theatre for next week, and also in the ad Manager Pittman is running this week in the Outlook. The management has been working hard for the past two weeks in order to get things in readiness for the opening night of the Talkies, and the public is now assured of the fact that they will be ready on the date mentioned above.

The equipment has been installed and the motors will arrive by the last of this week. After they have been installed and tested out, everything will be in readiness for the big opening of the Talkies. Remember the date, Wednesday, June 4, and be prepared to attend.

Mr. and Mrs. Riley McPherson and Mrs. Hinger made a trip to Roswell Wednesday, Mrs. Hinger going on business and Mr. McPherson staying over to erect a new building which will take him upwards of 30 days. The ladies returned home Wednesday evening.

**Mesdames** T.W. Cardwell, Elizabeth Gallacher, D. LaVelle and Miss Ella Bell spent the week-end at Ruidoso.

## LOCAL MENTION

Mr. and Mrs. E.F. Upchurch and Mr. and Mrs. R. J. Barr of Fort Smith, Arkansas, came in Tuesday and will visit until the first of next week with the Gallacher family. Mrs. Barr is a sister to Mrs. Jane Gallacher; Mrs. Upchurch is Mrs. Barr's daughter and Mr. Upchurch is a cousin to the Gallacher boys.

**Methodist Church**  
Services at Capitan next Sunday morning. No evening service in Carrizozo. We will dismiss for the meeting in the Baptist Church. Don't forget Sunday School; our Sunday School is growing.—J. L. Lawson, pastor.

**The Seven Millionth Car**  
built by the Chevrolet Motor Co. is on its way to its owner somewhere in America. The epochal car, which happened to be a coach, rolled off the assembly line Wednesday morning, May 28, in the company's huge plant at Flint, Mich. The car was the 1,845,938 six-cylinder car produced by Chevrolet since this model was brought out in January, 1929. Chevrolet's newest record-maker arrived without benefit of ceremony except for the cheers of the workmen along the final assembly line who halted work long enough to give it welcome and watch it being driven to the loading docks for shipment. Then work was resumed and not many seconds later Car No. 7,000,001 went to join its historic companion.

Various dates in the life of the Chevrolet Motor Co. on which the millionth car marks have been passed furnish a graphic picture of the rapid strides made by the company to its position of 6-cylinder leadership in the industry. Nearly 12 years elapsed after the company's organization before the one millionth car was built on Feb. 27, 1923; the 2nd millionth in 1925; the 3rd millionth in 1927; the 4th in 1928; the 5th in 1928; the 6th in 1929.

Commenting on the production of the 7th millionth Chevrolet, W. S. Knudsen, president & general manager declared that building a million 6-cylinder cars in less than a year is an outstanding indication of the enthusiasm with which the public has received a 6-cylinder car in the lowest priced field.

**Prof. and Mrs. A. D. Boucher** of Corona were here Tuesday, preparing to start on a journey which will take them to Moberly, Mo., where they will visit their parents, after which they will go to Wyoming, where they will visit Mr. and Mrs. S.M. Boucher and spend the remainder of the vacation period in fishing and general recreation. They will return in time for the opening of the school term at Corona.

**John Harkey** is making some nice improvements on his place, the former Humphrey building. This week, he put a new roof on the building and will make other improvements as soon as he can find the time. The new roof and the new paint lately put on, makes the building present a nice appearance. It is rumored that John is contemplating starting a new camp ground on the lots at his place.

## CRYSTAL THEATRE

T. J. Pittman, Mgr.  
Friday—Marion Davies in 'Not So Dumb.'  
Saturday-Sunday—Hoot Gibbons in 'Roaring Ranch.'  
Monday-Tuesday—Paramount Special. Richard Arlen, Fay Wray, Wm. Powell and Olive Brooks in 'Four Feathers.'  
Wednesday-Thursday—Our first talking picture, a comedy drama, 'Sunny Skies,' with Bennie Rubin, Marceline Day, Rex Lease, Marjorie Kane and Wesley Barry. Also Voice of Hollywood and Colortone Review. Two shows Wednesday, 7 and 9 p. m.  
**Charitable Robber Holds Up Star Cafe**

Tuesday morning at about 4 o'clock, after Night Marshal Henry Lutz had begun on his route of putting out the town lights, a man entered the Star Cafe, poked a gun under the nose of the night waiter and demanded the contents of the cash register. In order to make assurance doubly sure, he called the cook and also the dishwasher from the kitchen and held them all at bay until he had the cash drawer before him on the counter.

He counted out \$20.00 in currency and silver, but there being more in the box, he was asked why he did not take it all, but he stated that the \$20.00 was all he wanted and did not wish to take all the night waiter's change. He then backed over to the door and as there are several doors in the front, and but one left unlocked he tried every one for an exit, coming to the open one on the last trial. He then bid his waiting crowd good morning, hopped into a waiting car and disappeared.

The waiter hurried to the Eating House after the raid and found Mr. Lutz, who had already started on his route of putting out the lights, showing, as we have said before, that thieves always wait for this period before doing their stuff. The Marshal got in touch with the Sheriff and deputy Pete Johnson and rounded up to suspects who were landed in jail.

The man who committed the robbery was described by his victims as a man of ordinary height, wore a slouch cap pulled down well over his face, a bandana handkerchief over his mouth and nose, wore a long-tailed overcoat and had gloves on his hands. He was not of the blood-thirsty type, but rather to the contrary, as he even said, "gentlemen!"

Let us again put in the reminder that all or most of the robberies that have been committed in Carrizozo, have been done in the early morning hours when the Marshal was on his rounds, putting out the lights. The suspects taken into custody were released for lack of identification.

D. M. Purcell and E. F. Hensley of Fort Stanton were here Wednesday, making arrangements for the coming Fourth of July Celebration as is their usual custom. The Fort can always be relied on for a good day of entertainment on the national holiday, and this year, it will be even better than before.

### EDITORIAL COLUMN

#### The Roswell Monkey Wrench

It has always been a source of wonder to us, that every time something is about to take place on this side of Lincoln County, which will be of benefit to the public at large, Roswell, in the distant county of Chaves, is ready, it seems, to throw a monkey wrench in the machinery to prevent, if possible, the relief and benefit of our locality.

Now, as the Southern Pacific railroad is preparing to erect the big dam on the Bonito, threats are coming in from our neighboring town, to file injunction proceedings to prevent the railroad from making this much needed improvement, which necessitated the action mentioned in this paper last week to the effect that a suit for the adjudication of water rights in the Bonito River has been filed in the District Court of this county. Roswell's claim that the waters of the Bonito, contribute to the supply of the artesian wells of the Pecos valley, is without the slightest foundation as the Bonito waters in no wise contribute to the artesian supply, according to experts who have made a careful and scientific study of the existing conditions.

In order to realize what relief the Bonito waters are to the railroad and the people of this section, let us go back to the years before the waters of that stream became available for use on the road and with the communities along which the railroad passes. Up to 1907, there was no other water to be had except from deep wells and this was so badly tainted with gypsum that it was decidedly unfit for use in engines for domestic purposes. In conversation with some of the old engineers concerning those conditions, we learned that when a train would start from one division point, there was no certainty as to when it would make the next one. One engineer who has been in the employ of the road for the past 27 years, said as an example, that on one of his round trips from Alamogordo to Santa Rosa, a distance of 372 miles, he was five days and five nights on the road, having spent but 12 hours for rest at Santa Rosa.

This was before the 16-hour service law went into effect. During the trip, he had to stop four times to clean out the fire box and put in wood fires instead of coal. The bad condition of the water made it necessary to use compound, but this only caused the water to foam and froth. The boilers would corrode and become dangerous by being eaten with the strong gypsum water, and it was no uncommon thing to hear of a boiler explosion, which always caused loss of life. One engineer said that he recalled a better explosion where the engineer, fireman and head

brakeman were killed, another which took the lives of the engineer and fireman and still another which took toll of two more, making a total of seven lives lost, all due the stiffness of the gypsum water for engine use.

More accidents like the above occurred during those times, but the ones mentioned are enough to show the bad condition of the water. After 1907, when the Bonito water became available, the railroad company allowed towns a limited supply of the good water, the same having to be hauled in a water wagon over town and each resident had his water barrel which he must watch to see that it would be replenished before the supply gave out. How things have changed from these conditions, one can readily see. Through the kindness of the railroad company, we now have water in our homes which none but those who have undergone the above inconveniences can appreciate and we have the railroad company to thank for its kindness.

Another claim of the Roswellites is that the dam will cause a shortage in the waters of the Hondo, but such is not the case, for we find that overstocking the mountain watersheds with livestock, is mainly the fault, for it is a well-known fact that close cropping of the grass and vegetation, like the clearing of the forests, of timber, causes a water shortage and this is true of the Hondo shortage. It is hoped that in the future, more attention will be paid to our mountain watersheds and other means of livelihood devised for the maintenance of livestock, to prevent consuming that which contributes largely to water supply. We have much to gain by the Bonito dam and Roswell will have nothing to lose by its erection. Then, why the attempt to sling the monkey wrench?

### THE THINKER LEADS MODERN PROGRESS

By JOHN G. LONSDALE  
President American Bankers Association

THE greatest need of the world today is interpreters of our times—modern Danbels in agriculture,

science, politics, industry— who can see through the fog and haze that enshroud our difficult problems and advise, instruct and influence those who are either indifferent or limited in their perceptions.

Through the thinker and the interpreter, unknown situations are disclosed or puzzling conditions explained in logical light. The American people are so constituted that they can meet and combat any situation once it is known and understood. It is the unknown that comes like the thief in the night and brings disaster.

Some one has defined prosperity as something the business man creates for the politicians to take credit for. But America's present-day prosperity can be defined as a product resulting from the business man's ability to study and to interpret. Huge corporations maintain research staffs and special bureaus to interpret the times for them. Disaster looms in the air for any industry that goes blindly on its way day after day without due regard to significant trends in trade and business.

Keeping Up With Change  
Leaders of business have discovered that they cannot remain passive in an age when all the rest of the world is in a transitional stage. The modern banker not only must know about the changing styles in other lines of business, but above all must be alert to the transformations which are taking place in his own. He must be a man of vision, broader vision, because the order of the day is for larger units of service. Mergers and consolidations have taken place in great numbers. We now talk of billions where a few years ago we talked of millions.

We have only begun our changes. What disposition is to be made of the many problems that they bring will depend in large measure upon our leaders, upon the students and the interpreters who can read accurately the signs of the times, so that we may head future nations and begin upon their wisdom. The quickest way to get to the top is to go to the bottom of things, and let us hope that among them will be found many who will not only begin to lead, but will be successful in leading their people.

### TELEPHONE PLAYS BIG PART IN SANITARIUM

Telephone service plays an important part in the management of the great Battle Creek Sanitarium which started its career back in 1894 in a small two-story frame farmhouse and which now occupies, with various buildings, some thirty-five acres, having more than 1,200 doctors, nurses, clerks and other employees.

The telephone serves as the interconnecting link between these various parts of the plant. Thousands of calls are made over the sanitarium's telephone system, while a large number pass through the local exchange at Battle Creek. Approximately 1,900 toll calls are handled monthly, and as the guests of the sanitarium are from all parts of the United States, the majority of these calls are to far distant points. The telephone equipment includes 747 main stations, 114 extensions, 11 local trunks and 4 direct toll trunks. A corps of 12 operators are employed.

SPORTS POSSIBLE FOR NIGHT PLAY

Games Are Not Likely to Be Popular in Big Cities.

Baseball, racing and college football can be held at night satisfactorily from a technical standpoint. But it is unlikely that any of them will be popular in big league cities except in such cases where the night is climatically preferable to daylight.

Night college football really attracted attention to the possibilities of night baseball promotion. That was a move begun by Southern universities. They found that football practice and intercollegiate contests were objectionable because of the high temperatures prevailing down South during the football season, and tried night because of its greater coolness.

In localities where temperatures are lower, colleges still attract capacity crowds to daylight games—so why turn to the night?

It remained for one institution to discover that its night football program was more lucrative than its day program—Drake university at Des Moines. And it was this financial success that induced Lee Keyser of the Des Moines baseball club to embark on his interesting venture into night baseball.

Primo Carnera, Italy's donator to the list of heavyweight contenders, is barred from appearing in boxing matches in Wisconsin. The state boxing commission announced it would adhere to the suspension of Carnera by the national commission.

Bicycle races may soon take their place alongside other sports in Texas. Plans are under way for tracks at Dallas, San Antonio and Houston.

According to an announcement of the Madison Square Garden corporation, Jack Sharkey has agreed, in case he defeats Scheibling on June 12, to defend his heavyweight championship of the world against the leading opponent available, the bout to be staged in the Yankee stadium the last week in September. The garden is planning to have Scheibling sign a similar agreement.

Every Friday women and girls are admitted free of charge to the Chicago Cubs' park. Ladies' day has become so popular that the management has been forced to revise the system of handling the crowd. Hereafter, each woman must have an admission ticket to get into the park and only 20,000 will be distributed for each Ladies' day. When the ticket booth was opened at nine o'clock there were 5,000 women outside the park. The limit of 20,000 was reached before noon. Each fair Cub fan is limited to two admission slips.

Jole Ray was probably the best mile runner this country has produced. He holds the indoor record jointly with Paavo Nurmi. He was king over the distance before Nurmi invaded these shores. He had traveled the mile in 4:14 3/5 and no other man had ever traveled as fast indoors. Then came the great Finn, ran the distance in 4:12 and shattered Ray's mark. Ray, seeing what Nurmi accomplished, came back and equaled the new record and became its joint holder.

Ernest Smith, Chicago White Sox shortstop, who had a reputation for going after everything and consequently making many errors, is major leaguing this year under a manager who is capable of full appreciation of the short stop who ranges wide, makes bobbles, but comes up with startling plays.

Donie Bush, leader of the White Footers of Comiskey, was that kind of a shortstop himself.

"I never led the American league in anything but errors," said Donie Bush recently.

So it would seem that this former Blue youngster is under a leader who will be patient with him and who will teach him much of the finer points of shortstopping.

France, England, Canada and Cuba will be represented in the international championship star class yacht races, to be held at Gibson Island, on the Chesapeake, starting September 20. New star fleets are forming in Portugal, Spain, and Germany, but it is not probable they will attend the Maryland regatta.

Stanley Funnell of Baltimore, second baseman on the Princeton freshman baseball team, occupies a niche in baseball's hall of fame with a record of having hit two home runs in a single inning, with the bases filled each time—a stunt which never had been performed in organized baseball. Funnell's eight runs driven in in a single inning is two runs above the major league record of six runs driven in, held by Fred Merkle, one-time New York Giants star.

Ralston Hensley, the Pirates' young catcher, already classed as one of the best backstops in the National league, boasts that he is not getting enough money for a catcher who has been in the big company for three years. It is said that the Pirates got him to sign a \$2,000 contract this year, which is the third, a \$2,000 bonus if he did certain things. Hensley wanted a \$5,000 salary, but found himself back to a stone wall.

Sunday School Lesson

(By REV. F. E. FITZWATER, D.D., Member of Faculty, Moody Bible Institute of Chicago.) (C. 1924, Western Newspaper Union.)

Lesson for June 1

CONTRAST BETWEEN FAITHFULNESS AND SLOTHFULNESS

LESSON TEXT—Matthew 25:14-30. GOLDEN TEXT—"I will do, and faithful servant; thou hast been faithful over a few things, I will make thee ruler over many things; enter thou into the joy of thy Lord."

PRIMARY TOPIC—Doing the Best for Jesus.

JUNIOR TOPIC—Jesus' Rule for Promotion.

INTERMEDIATE AND SENIOR TOPIC—How to Use Our Talents.

YOUNG PEOPLE AND ADULT TOPIC—Stewardship of Service.

This parable, like that of the ten virgins, has a vital relationship to the second coming of Christ. In both instances the unpreparedness for His coming on the part of the people is shown. In that of the ten virgins their unpreparedness consisted in their lack of the inward life—absence of the Holy Spirit. In this of the talents, their failure was properly to use the gifts which God had entrusted to them. The first was failure to watch; the second was failure to work. To each of His servants, God entrusted certain gifts and will hold each responsible for their use. By talents is meant whatever faculties and powers one possesses as gifts of God—physical strength, reason, energy, knowledge, influence, time, money, the gift of speech and song.

I. The Distribution of the Talents (vv. 14, 15).

1. It was a sovereign act.

The Lord called His own servants and distributed to them His own money. He did not consult us as to our gifts. The One who created us and absolutely owns us has assigned us our place and given us our several powers, intending that we put them to the best possible use.

2. It was an intelligent act. "According to his several ability."

The God who created us knew our ability to use gifts, therefore made the distribution upon that basis.

3. It was a purposeful act.

The talents were given to be traded with, not to be used for one's own gain and profit, but as stock in trade for the enrichment and glory of the Master.

II. The Employment of the Talents (vv. 10-18).

1. All the servants recognized that the talents were not their own; that they were therefore responsible to the Lord for the use made of them. This is the first principle of right Christian service. We should remember that we are all stewards of the manifold blessings and grace of God.

2. Two servants used their talents. The five-talent man put his to use and gained five more, and the two-talent man put his two talents to use and gained two more. This shows that God's gifts can be increased. The exercise of any gift increases it. The faithful use of what we have in the place where we are will prepare us for greater usefulness and honor.

3. The one hid his talent.

The fact that one possesses but one talent should not discourage him, but rather make him strive the more. God does not reward according to what we possess, but according to our faithfulness. The crime of the one-talent man was not that he had but one talent, but that he hid the talent which the Lord gave him.

III. The Accounting for the Talents (vv. 19-30).

1. Its certainty (v. 10).

There is a day coming when all must give account of their stewardship. Answer must be given as to the use made of God's gifts.

2. The time (v. 10).

It will be at the coming of the Lord.

3. Judgments announced (vv. 21-30).

(1) Reward of the faithful (vv. 21-23).

a. Praise. "Well done." All like to be praised. How blessed it will be to hear from the lips of the Lord Himself, "Well done." b. Promotion. The great consideration for all is not how many talents we possess, but as to how faithful we are in their use. (2) Punishment of the faithless (vv. 24-30). The one-talent man lied when brought to account. a. Reproach. "Thou wicked and slothful servant." To be called lazy is a reproach disliked even by a lazy man. b. Stripped. "Take therefore the talent from him." Even the talent which had been given to him was now wrenched from him. c. Cast out. "Cast into outer darkness." This servant was condemned on his own ground. The very fact that he knew the character of his Lord should have been an incentive for him to have exerted himself.

They Would Come

If we were once to live as though we had something that they (the unbelievers) have not, we would not have to press men to come to us; they would come without pressing.—F. B. Meyer.

With Christ

Without Christ life is as the twilight with dark night ahead; with Christ it is the dawn of morning with the light and warmth of full day ahead.—Philip Schaff.

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating. This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

PHILLIPS Milk of Magnesia

Sure Unpopularity

"Ask not for gratitude," said Hi Ho, the sage of Chinatown. "To remind a friend of favors may cause you to be feared as one who seeks to collect a debt."—Washington Star.

AS FIRST AID Use Hanford's Balsam of Myrrh

Little, but Mighty Good Col. Pope Hennessy, military attaché of the British embassy, was dining in a fashionable Washington restaurant. Rice birds were served. The tiny and delicious morsels lay on slices of toast.

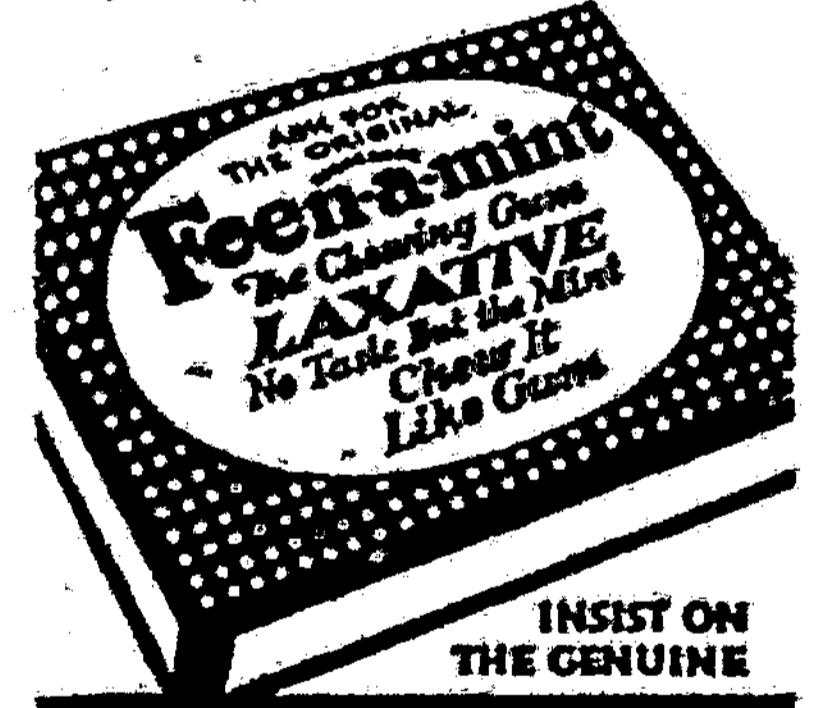

"Poor little things!" said Col. Pope Hennessy's host. "Seems a shame to kill 'em, don't it? How do you suppose they ever murder enough rice birds to make a portion?"

Col. Pope Hennessy turned over an infinitesimal rice bird with his fork.

"I don't know," he said, "unless they use insect powder."

tired every morning?

Get poisons out of the system with Feen-a-mint, the Chewing Gum Laxative. Smaller doses effective when taken in this form. A modern, scientific, family laxative. Safe and mild.

Feen-a-mint FOR CONSTIPATION

Inland "Coast Guard" The falls of the Ohio at Louisville, Ky., are very treacherous. So dangerous are they to human life and shipping that the government for years has maintained there the only inland life-saving station in America. In recent years it has been taken into the Coast-guard. In spite of the well-known dangers of the falls, pleasure craft and commercial vessels sometimes find themselves whirling through the eddies toward the fatal rocks. The Coast guard has accomplished many acts of heroism there.

A brother is a friend given by nature.—J. B. Legouve.

FEEL DIZZY? Headache, bilious, constipated? Take DR. HARRIS'S REMEDY tonight. This mild, safe, vegetable remedy will have you feeling free by morning. You'll enjoy free, thorough bowel action without the slightest sign of griping or dizziness.

NR TO-NIGHT W. N. U., DENVER, CO. 21-1930.

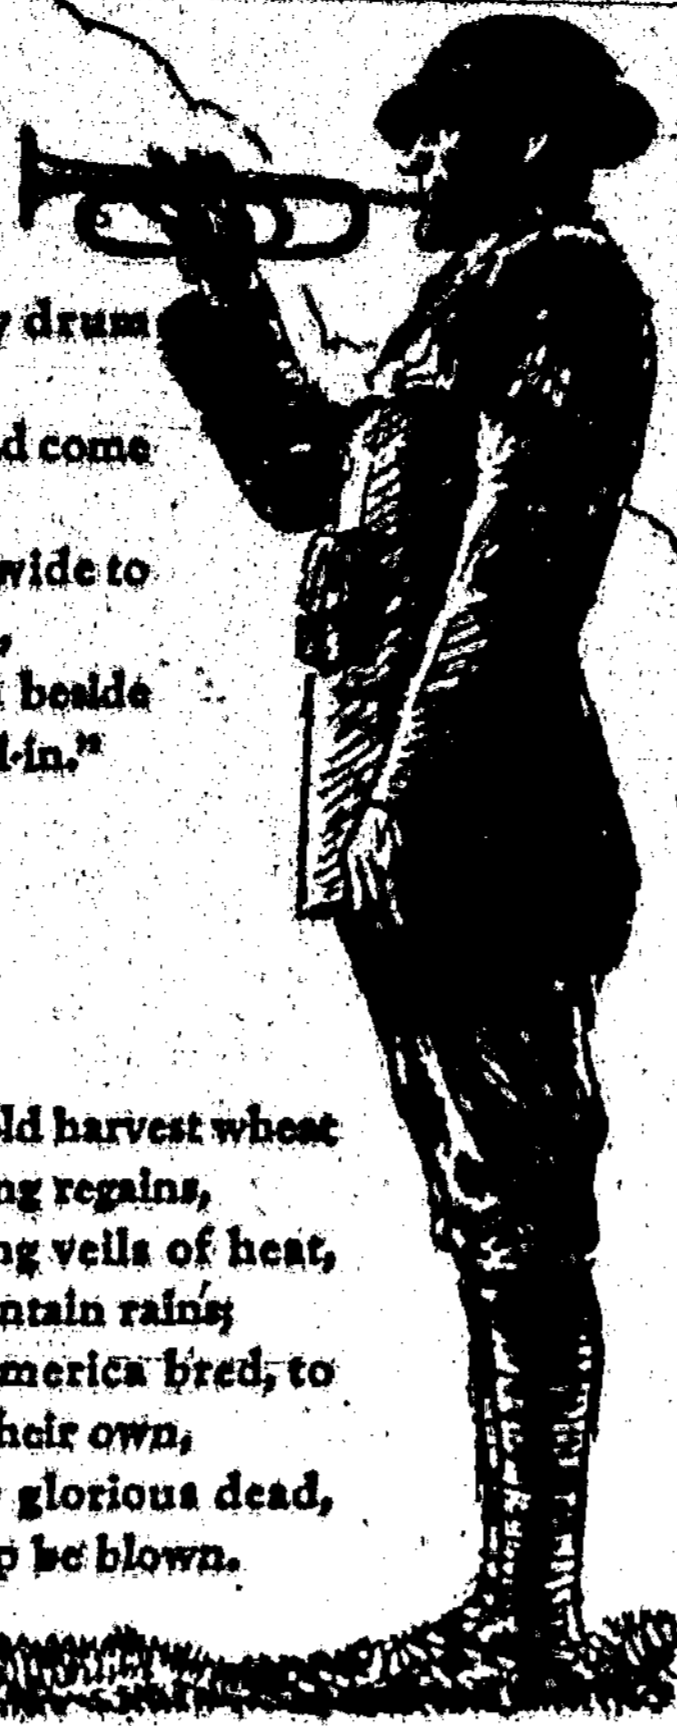

# Our Hero Dead, Hail and Farewell!

There shall be apples in harvest still,  
and springtime blossoms again,  
Summer returning and green on the hill  
with the early autumn rain;  
But never America's fallen sons to the  
things they used to know  
While the sun goes round, or the river  
runs, till Gabriel's trumpets blow.

Yet, maybe, an army's ghostly drum  
beats up from the far-away,  
Unseen, unheard, where a myriad come  
to memory's call today  
From alien graves o'er oceans wide to  
their marching kith and kin,  
Comrade by comrade they stand beside  
when the bugle sounds "Fall-in."

Never at all, though April seeks where  
the early heath-flower starts,  
Or the flowering almond of August  
speaks to unforgetting hearts,  
We read the message, we hear the call,  
but they their conflicts cease;  
They rest with God's stars over them  
in the dreamless halls of Peace.

There shall be honey-gold harvest wheat  
and glory that spring regains,  
Summer in shimmering veils of heat,  
and the misty mountain rains;  
But never the sons America bred, to  
the land that was their own,  
Till earth gives up her glorious dead,  
and Gabriel's trump be blown.

## CANADIAN MEMORIAL AT VIMY RIDGE

The quarries that were worked by the Emperor Diocletian are now supplying the huge blocks of stone required for the Canadian war memorial at Vimy Ridge. Since 305 A. D. they have remained idle. The story of their new activity is told by W. S. Allward, Toronto sculptor, who won the award for the erection of the monument on the battlefield where the Canadians made their greatest effort during the World War.

Mr. Allward was in need of large, flawless blocks for the heroic figures of the memorial. He sought them in various parts of Europe. His wanderings brought him to the little town of Spalato on the eastern shores of the Adriatic, where, near the seashore, are the ruins of the palace built by Diocletian. The kind of stone he wanted was in its walls.

Mr. Allward was struck by the beauty and durability of the stone. It is a pink buff, which, in the passing of years has ripened to a rich amber. He found on the hillside above the ruins the old quarries in which it had been cut. Since the last blocks had been quarried there in 305 they had not been worked.

They contained an abundant supply for his needs, and today native workers are chiseling out massive blocks and sliding them down the mountain side.

The Vimy memorial is 200 feet square. The top of the pylons will reach 140 feet above the ground level. Joints between the great blocks of stone are only one-sixteenth of an inch wide. Studios will be erected on the monument itself and the figures will be cut there.

The artists' conception of the memorial is that of a strongly walled defense. Through the walls appear the mouths of cannon. At the base of the walls are the defenders. One group depicts the breaking of the sword, the other the sympathy of the Canadians for the helpless. Standing in front of the main platform is Canada in the form of a hooded woman, her head bowed in sorrow over the graves. Below is suggested a tomb on which lie a helmet and laurels.

Behind the great tapering shafts of the pylons rise skyward. In the arch which they form is the Spirit of Sacrifice throwing the torch to a comrade. Issuing from the inner sides of the pillars are symbolic figures, their arms reaching upward. Around are shields of Britain, Canada and France.

Outside is the cross. The whole forms a memorial of majestic beauty, worthy of that fine material found by the sculptor.

### All Are Remembered

At Arlington on Memorial day gay fragrant blossoms are heaped around the cold gray bases of imposing monuments to generals, and they also blanket the modest last resting places of the heroes of the Marne; where the little white headstones are as alike as the uniforms of the sailors who went down in Havana harbor so many years ago.

## AMERICAN DEAD IN FRENCH SOIL

Suresnes, under the frowning ramparts of Fort Valerien just outside of Paris, has most of the graves of Americans who died of wounds in hospitals in Paris. All other cemeteries are on ground captured by the American troops. The dead buried in them either fell on this ground of combat in the general region of which the cemetery is the center. By insistence on this rule, General Pershing, as chairman of the American battle monuments commission, gave the soldier burial on the battlefield on which he fought, with the exception of those killed in minor engagements. Incidentally, this has resulted in the cemeteries varying in size roughly in proportion to the importance of the battle.

The wooden grave markers originally erected in the cemeteries have been replaced by white marble headstones—a cross for those of Christian faith, a shield of David for those of Jewish faith. Each headstone has inscribed on it the full name of the soldier, his rank, regiment, division, state from which he came, and date of his death.

These headstones are more than three feet high and stand as individual and imperishable monuments to those who gave their lives. Here and there is a grave of one who remains unknown, the headstone bearing the inscription: "Here rests in honored glory an American soldier known but to God."

Nowhere else in the world can be found cemeteries more beautiful, more restful, more thoroughly cared for than these plots of consecrated soil to which mothers and widows make their pilgrimage. Flowers, trees and shrubbery laid out by skillful and sympathetic hands of trained landscape gardeners and nurtured with tender care, lend a quiet beauty to these final resting places of our hero dead. The American flag, symbol of the glorious tradition which inspired these men in life to offer themselves in their country's cause, floats in silent tribute over the graves. At each cemetery is an American caretaker, himself a veteran of the war, one who knows through what these men went and whose heart is in the duty he keeps. In addition to his routine, he extends a welcome to those who come to the cemetery seeking information and aids them in locating graves.

One of the points on which General Pershing has been particularly insistent is that besides rest rooms in each cemetery, there must be a chapel into which relatives can go to pray and religious consolation. These memorial chapels are imposing structures, having been designed by some of the most prominent architects in the United States and the designs approved by the national commission of fine arts. The chapels will be monumental in nature, beautiful, restful and impressive. On the walls of the chapels will be inscriptions to the men who gave their lives. They will also bear individual inscriptions giving the name, rank, organization, date of death and the home state of men who still sleep in unknown graves.

## MORE THAN SADNESS IN MEMORIES

It is impossible to be wholly solemn on Memorial day. The time of year is against it—the soft fullness of late spring, instinct with life, and that holiday promise of long summer days of vacation and of the enjoyment of all the many pleasant and beautiful things which make this nation one which it is well to live in. Nor is it inappropriate that Memorial day falls when it does, for the nature of the holiday is rather against solemnity too. It is in remembrance of young men; young men who for the greater part were not in the least solemn themselves; men who liked adventurous things and were fond of living; men who, when people addressed long and pompous patriotic orations to them, squirmed and probably said "Aw, h—h!" but who went ahead under the rifle fire just because they were fond of living and were made that way; men who, as the soldiers and seamen in our wars, defended a nation which, one imagines, they would rather like to think of as enjoying through a pleasant holiday in the late spring.

It is a nation, at any rate, which we often say is their gift to ourselves. Perhaps that is a little inadequate to express the complex and mysterious truth. The politics and the statesmanship of it were more or less above their heads, and at times it may have been just as well. There were some who never knew what it was about and others who did not care, and still other who puzzled themselves fruitlessly over it in the long-drawn agony of hospital tents or the shambles of the surgeon's cockpit. But in the last moments they must have felt themselves parts of a great and thrilling process.

Behind the band music and the parades their invisible files stretch away down a long perspective—young men who were partners to terrible and agonizing experience, but who knew better than to be solemn about it. There are the men whose footsteps left blood in the snow at Valley Forge, the men whose limbs were smashed by the round shot on the gun deck of the Chesapeake, the men who died, in shakos, crossbelts and scorching sun shine, under the scaling ladders at Chapultepec, the men lying wounded under the gun wheels on Seminary ridge, or choking in the soft grass of the Peach orchard or tossing in terrible rows down the Civil war hospitals.

It is a strange army, and a great one, but it is not solemn. Its ranks could stand almost anything, but they could not stand solemnity, long orations, platitudes, cast. They gave fearlessly, but the suffering did not last long, and it was given because they were adventurous, courageous spirits, lively men who could not see their country in a fight without helping out. Perhaps, in fact, the nation is their gift to us; but if so, it is a gift of so rare a quality, with so many facets meaning so much both to those who gave and to us who have received, that one scarcely wishes to bring one's self to talk of it.—New York World.

## Bird Sanctuaries Dot

Coast of New Zealand  
Several islands along the coast of New Zealand have been set aside as sanctuaries for the native birds which are becoming scarce on the mainland.

One of these is Little Barrier Island, a steep, wooded islet about 50 miles from Auckland. Ships of all kinds pass within a few miles of it on their way to and from Auckland, but no one is allowed to land without permission of the government, and except for the caretaker, who keeps watch for possible marauders, there are no human beings on the island.

Near Wellington is Kapiti Island, big and hilly, once the stronghold of Maori chiefs; it is now the equally well-defended citadel of the native birds.

Fresh, sweet, white, dainty clothes for baby, if you use Red Cross Ball Blue. Never streaks or injures them. All good grocers sell it.—Adv.

## Hairless Rabbits

Russian hairless rabbits may yet appear on the scene, pursued by the already familiar—perhaps too familiar—Mexican hairless dogs. In the Journal of Heredity, D. A. Kostovsky of the State Institute for Experimental Veterinary Medicine of Russia tells of several hairless young rabbits that appeared among normal litters in hutches of his experimental animals. Some of them were partly clothed, having hair on their noses, ears, shoulder blades and other bits of their anatomy. So far, however, all the hairless young ones born have died without issue. The breed is therefore not established, and may be difficult to make a permanent one, even if it is considered desirable to do so.

What this Doctor did for Humanity

As a young man the late Dr. R. V. Pierce, practiced medicine in Pennsylvania and was known far and near for his great success in alleviating disease. Finally he moved to Buffalo, N. Y., and put up in ready-to-use form, his GOLDEN MEDICAL DISCOVERY, the well known tonic for the blood. This strength builder is made from a formula which Dr. Pierce found most effective when in private practice.

It aids digestion, acts as a tonic and enriches the blood—clears away pimples and annoying eruptions and tends to keep the complexion fresh and clear.

All druggists. Tablets or liquid.

## Conversational Rules

Shun the negative side. Never worry people with your contributions, nor with dismal views of politics or society. Never name sickness.—Ralph Waldo Emerson.

## Would you like to try this doctor's laxative free of charge?

Every family has occasional need of a laxative, but it should be a family laxative. One that can't form a habit, but can be taken as often as needed. When breath is bad or tongue coated. Or appetite fails. Only a doctor knows the right ingredients. Dr. Caldwell discovered the correct combination years ago. Dr. Caldwell's Syrup Pepsin combines harmless herbs and pure senna. It starts muscular action and soon corrects constipation. Gently, but surely, it relieves a bilious or sluggish condition. It is mild, Delicious, Effective. All druggists keep this famous prescription ready, in big bottles. Or write Dr. Caldwell's Syrup Pepsin, Monticello, Ill., for a free trial bottle postpaid.

## Ancient Chunk of Iron

The oldest piece of iron ever found was under the Egyptian pyramid Gizeh. Its age was estimated at 6,000 years.

## Useful

"What is a gadget?" inquires a correspondent. A sort of thing that does something which would not have to be done if you hadn't got it.

## For Housekeepers

LYDIA E. PINKHAM  
415 So. Washington Ave., Scranton, Pa.  
"I took Lydia E. Pinkham's Vegetable Compound for run-down condition before my baby was born. Now I eat better, have gained in weight and have more strength to take care of my four children. I can do my housework and not get a bit tired. My mother and my sister, also several of my women friends are taking your medicine now, because I believe that this medicine will help any woman that will take it regularly."—Mrs. Lydia Orloski.

MINNIE E. HICKS  
R.R. #2, Rushville, Indiana  
"When I started taking Lydia E. Pinkham's Vegetable Compound I could hardly do my housework. I was so nervous and weak from Change of Life that I had to lie down very often. I heard about the Vegetable Compound through a pamphlet which was left at my door. I am doing all the housework for a family of four and it keeps me on my feet. I have taken six bottles and I have gained strength and flesh."—Minnie E. Hicks.

## Lydia E. Pinkham's Vegetable Compound

Merrily Allegorical  
The identity of the child who posed for Reynolds' picture "The Infant Samuel" has not been disclosed. No incident connects the painting with the story of Samuel in the Old Testament.

Kipling Won Fame Early  
Rudyard Kipling composed his first juvenile work at the age of thirteen. At twenty-six he was acclaimed a genius by the public, and the writer of more best sellers than any other author of the time.

## PIKE'S PEAK TEST JOLTS AMERICA'S MOTOR OIL OPINIONS

Here's How Some men prefer one kind of motor oil, some another. The jolt comes when the Pike's Peak Tests prove that most of these opinions may be comfortable, convenient, but not correct. The generalities that certain brands are better merely because they come from certain States has been quietly exploded. . . . Thousands buy by a respectable color or trade mark, and not a few just don't care, and will buy on price. . . . The time is ripe for real facts. By the Pike's Peak Tests, conducted under the supervision of AAA observers, we are prepared to present dependable facts on CONOCO GERM-PROCESSED OIL.

The outstanding results of these Pike's Peak Tests reveal many points of unusual significance. Under the conditions of the tests, which were comparable to service service, these points were:

Motor Wear . . . GERM-PROCESSED OIL reduced 76.4% carbon growth these tests, under that of the other oils used as a group. Cost of Lubrication . . . GERM-PROCESSED OIL showed an appreciable saving of 6.3%. Oil Economy . . . was by 35%. Gasoline Economy . . . 2 gals. of 72% Less of Viscosity . . . GERM-PROCESSED OIL was in 34% better condition after the tests than were the other oils. . . . Shows an appreciable decrease than GERM-PROCESSED OIL was used. Wear Temperature . . . was lower with CONOCO GERM-PROCESSED MOTOR OIL.

Remember, CONOCO uses Mid-Continent paraffin base crude, then the "germ-process" is added, which gives this oil that remarkable ability to penetrate metal surfaces. "Protective Lubricity."

The Germ-Process is CONOCO-owned. And Germ-Process positively will reduce your car-operation expense, and lengthen motor life, by providing Protective Lubricity.

We invite you to select any operating conditions, no matter how severe, and we guarantee that CONOCO GERM-PROCESSED MOTOR OIL will meet these better than the oil you have been using!

THE NEW FREE BOOKLET, "Pike's Peak Tests Confirm CONOCO'S Challenge," is ready. It will give you the detailed story of these tests, with photographs. Address: Continental Oil Company, Ponca City, Oklahoma, or inquire at the nearest service station displaying the Red Triangle.

**PERSONALS**

**Big Lemons and Little Lemmons**  
with but one letter of difference in their names, and Mrs. F. E. Hedrick, left Tuesday morning for Rowell to attend the Commencement exercises at the Military Institute in which class, Don Lemmon and Raymond are graduates. Maurice Lemon, who has undergone his first year at the Institute, will return with the folks to spend his vacation.

**Mr. and Mrs. Ira Boydston**  
are here from Globe, Ariz., where Ira had been employed with the S. P. Ditcher No. 11, being at the above-named place and also at Rice, Ariz., for the past 6 months. The ditcher crew came to Santa Rosa, where, after some needed work there, they came here this week, and are engaged in repairing work between this place and Oscura, which when finished, they will go on to El Paso.

**Mr. and Mrs. W. T. Lumpkins**  
of Capitan, were business visitors here the first of the week.

**Tom Shields**  
of Coyote, was a Carrizozo visitor on Monday of this week.

**Mr. and Mrs. Ben Leslie**  
and Ward Leslie were Carrizozo visitors the first of the week from Capitan.

**Mr. and Mrs. W. B. Payne**  
Mrs. S. E. Burks, the little Misses Elizabeth Payne and June Hall were here from Capitan Saturday, staying over for the day and returning home late in the afternoon.

**Mrs. J. M. Snyder**  
one of our teachers of the past term, has gone to Tucumcari and will remain during the vacation period, after which she will return to teach for the coming school term. Mr. Snyder is yardmaster for the S. P. at Tucumcari.

**Mr. and Mrs. Morgan Lovelace**  
our former neighbors, but now residents of El Paso, were here for a few days this week. In the border city, they are close neighbors to some of our old Carrizozo people, the Dingwalls, Treats and Fergusons. We were glad to see the folks again.

**Roy Shafer**  
manager of the Carrizozo Auto Company, made a trip to Carlsbad this week and returned, accompanied by Mrs. Shafer, daughters Margaret, Betty and son Robert. They will occupy an apartment in the Wetmore Building for a short time, and after the Blackshere family move to their ranch near here, they will occupy the old Spence residence. We extend the hand of welcome to the Shafer family as a whole, and hope they will like Carrizozo.

**Chas. Joyce**  
has his laundry in operation, mention of which was made in our issue of May 9. He has several electric washing machines and other machinery necessary to carry on an up-to-date laundry. Charley calls for laundry and delivers the same to any address in Carrizozo. All he asks is a trial to convince you that the work can be done at home as well and better than by sending it away and at the same time, save you the cost of transportation. Give him a trial order. You will be pleased and become a regular customer. His address is at the corner of the street.

**A Baseball Team**  
for Carrizozo is now a certainty. The team journeyed to Alamo-gordo Sunday garbed in brand new uniforms, and although losing to Alamo by a score of 9 to 5, the team is still young and with a little more practice and with the proper coaching, we predict that barring opposition from well-seasoned, experienced teams like Fort Stanton, the boys will give surrounding town teams a run for their money. The boys wish to thank the people of the town for their kindly contributions toward buying their uniforms. The following is the tentative line-up for the team:  
Harkey.....Center Field  
Mirelez.....Shortstop  
Davis.....First Base  
Austin.....Third Base  
Simon Chavez.....Second Base  
Hickson.....Left Field  
Lueras-Brady.....Right Field  
Gage.....Catcher  
Vega-Jordan.....Pitchers

**Card of Thanks**

We wish to convey our thanks to the people of Carrizozo for their kindness during the illness and after the death of our husband and father, Thomas H. Gravlee.  
Mrs. Ellen Gravlee, John B. Gravlee and family, Thomas Gravlee and family, Mrs. Mattie Stewart and family, George Lutz, wife and family, Clyde Frazier, wife and family, Thomas Shields, wife and family, J. F. Rhodes, wife and family.

**Mrs. Cornelia P. Sanchez**  
aged 69 and a member of one of the pioneer families of Lincoln County, passed away last Sunday at her home at Hondo after an illness of several weeks. The funeral was held Monday afternoon and attended by a large number of friends. She leaves four sons, three daughters and a large number of grandchildren, one of whom, Abe Sanchez, resides here and was present at the funeral. The sympathy of their friends is extended to the survivors.

**W. C. Monk**  
manager of the Corona baseball club, was a Carrizozo visitor Monday. Mr. Monk has a good team, and they have already played 9 games and lost none. They are now negotiating for a game with the crack ball team of Fort Stanton.

**The City Service Station**  
wishes to announce that it is fully equipped to do all kinds of motor and chassis cleaning, with the newly installed Curtis Compressed Air Washer. Mr. H. A. Miller showed us the machine and did some very effective work with the same while we were there. After the car is placed in proper position, the machine is started and carries a 150-lb. air pressure. One tank contains soap suds and other ingredients which is carried out through the tubes and sends the strong force into every part of the motor and chassis, thoroughly cleaning every small crevice, leaving the car as clean and bright as it came out from the factory. Mr. Miller will be glad to show you the new device, which is the only one in this part of the state, as it is a new invention and has been proven by test, to be effective and reliable in every way. Call and see it at the City Service Station.

**BORN**—Sunday, May 26, to Mr. and Mrs. Simon Chavez, a boy (another ball player). Mother and son are doing nicely.

**Many Improvements on Model AA Ford Truck**

Many improvements have been made on the Model A A 1 1/2 ton Ford Truck, according to Mr. Shafer, manager of the Carrizozo Auto Company. Mr. Shafer said yesterday, that these improvements include, among others, the new speed transmission, new spiral bevel gear axle spring, and stronger front axle and spring, larger brakes, dual rear wheels, and power take-off. The 4-speed transmission, Mr. Shafer said, gives drivers of the Ford truck ample speed for rapid, efficient and economical transportation, together with an improved low speed pulling power sufficient for moving capacity loads out of pits or over soft ground. This transmission furnishes the driver an unusual range for speed and power.

**Revival Services**

The revival meeting at the Baptist Church will close next Sunday night. There have been several professions of faith in Christ. There will be a special mothers' service next Sunday morning in connection with the baptizing. Special seats for mothers. Sunday night subject will be, "The Judgment."

**Mrs. Joe Romero**

and daughters Mary and Julia, motored over to Hot Springs last Sunday, and returned accompanied by Mr. Romero, who had been taking the baths for two weeks, and came home much improved in health.

**Beck-Hendricks**

Radiol listeners last night heard a fitting and appropriate musical program from State College in honor of Marshall Beck, who, we understood from the announcer, was married on Wednesday to Miss Willie Hendricks of Fabens, Texas, the marriage having taken place in El Paso. As this is all the information we have at the present time, all we can do is to extend congratulations.

**S. W. Hale**

of Capitan left last night for Arizona to visit his son for the week-end and will return Monday.

**John K. Such**

has returned from El Paso, where he underwent an examination for the position of jeweler for that point and was accepted. John will leave for his new work about June 15, and that will include all the watch work from every line coming into El Paso, as well as the shop work, which of itself is quite a volume.

**Miss Jennie Boone**

came in on No. 4 Thursday night from Arizona and went on to Capitan to visit her mother, Mrs. L. A. Boone, of the Buena Vista Hotel.

**Florencio Vega**

one of the first to start the baseball bee in Carrizozo, Messrs. Kelley and Ryan, deserve due credit for their untiring efforts toward reviving the national pastime in Carrizozo. We are with you, fellows—More TNT.

**Judge Hulbert**

was here from Tucumcari this week and spent several days with relatives in different parts of the county. While here, he was the guest of Mr. and Mrs. Riley McPherson.

**Maurice Lemon**

Don Lemon, Raymond Lackland and Mack Shafer are here, the first three from the Rowell M. L. and Mack from the "U" at Albuquerque.

**Ziegler Brothers**

**The Smartest Trunk Bears One Label "HARTMANN"**

**A Name identified with the Best Luggage for Fifty Years.**

**There's a lot of satisfaction in owning a Hartmann Trunk or a piece of Hartmann Wardrobe Hand Luggage.**

**Inherently Smart, unquestionably good-looking; they are immensely practical as well.**

**Built to weather - abuse, and they hold everything you'll need in orderly, 'unwrinkly' fashion.**

**See the new season Hartmann travel things at**

**ZIEGLER BROTHERS**

"UNIVERSAL PROVIDERS" CARRIZO, N. M. ESTABLISHED in 1888

**The Mazaroff Mystery**

?????

By J. S. FLETCHER

Was it some enemy from the diamond fields of Africa or was it some family feud which caused Salim Mazaroff to be done to death in the peaceful precincts of his old home town? Here is a typical J. S. Fletcher story which will engage your keenest interest up to the very end.

Read This Thrilling Tale in

The Outlook

Mr. and Mrs. L. E. Van Scoyoc

Mrs. Wilber Dishman and daughter Zella were Carrizozo visitors from Corona last Saturday. The Van Scoyocs are contemplating a trip to California in the near future.
