France Gets the Gold

We're All Richer

New Theory of the Universe

The Sorrows of Wall Street

Some worry because gold is going

abroad; \$7,250,000 was shipped to

France on the Berengaria, making a

total shipment of \$105,000,000 for

the month.

You admire French financiers when

you hear that they got \$80,000,000 of

that gold.

How do the French do it? They

work and they save.

As your debts diminish you auto-

matically become richer. The people

of the United States became richer

by about a thousand million dollars

during 1929.

Mr. Mellon's statement shows that

in twelve months the national debt has

been reduced by one billion and nine

million dollars.

If Uncle Sam collected his foreign

debts as efficiently as he collects from

taxpayers at home we'd be clear of

debt soon.

In Germany Mennonite refugees

from Russia, occupied with their

children, are stricken with a strange

disease. Forty children died in a few

hours. Many were sacrificed because

their mothers hid them from doctors,

following a Mennonite custom of sub-

stituting prayer for medical attention.

That method no longer works.

"Know the truth, and the truth shall

make you free," includes scientific

medical truth.

The son of Italy's king will soon be

married and 6,000 will be freed from

prisons, by way of celebration.

What seems strange in America is a

custom old in Europe.

After Admiral Nelson brought his

ship into the Bay of Naples, promul-

gating to protect the king and queen and

their court against the power of the

French revolution, many convicts were

set free to celebrate.

And kings, on mounting the throne,

have often emptied prisons as a sign of

joy.

The National Surety company

has issued a policy of \$30,000, guaran-

teeing against the suicide of a man

insured within the next two years. The

man borrowed money. The bank lend-

ing it wanted the added security.

That's new in insurance.

The learned Prof. James Mackaye

of Dartmouth brings forth a new the-

ory of the universe, pushing Einstein

and relativity into the background.

The universe possesses a radiation

of super-frequency and super-penetra-

tion, pervading all space.

The ether, which Einstein eliminat-

ed, returns, but it is a dynamic, not a

On the Job, As Usual

In keeping with the usual regu-

larity and reliability, all schools

of the county opened Monday

with every teacher on the job

and in a number of cases, consid-

erable increases were made in

pupils' enrollment. The children

reported a nice holiday vacation

and came to school refreshed and

eager to make the last half of

the term with good and substan-

tial records.

Capitan has allowed another

teacher on account of increased

enrollment and also allowed another

school bus with which to

bring and return the children

The Prospector

The Parent-Teachers' Associa-

tion met in the High School

for the monthly meeting Tues-

day evening. Refreshments

were served by Mrs. Thomas

Hobbs of Fort Stanton.

Mrs. Lulu Boone, owner of the

Buena Vista Hotel, again took

possession, after an absence of

four months. She had been vis-

iting her daughter Jennie, who

is a stenographer in the forest

service office at Alamogordo.

Mr. and Mrs. W. B. Payne, who

have been in charge of the hotel

moved to their ranch north of

town.

Eduvijen Padilla, one of the

old stockmen of the Capitan

country, passed away on Dec. 29

and the funeral was held on the

30th.

The Improved 1930 Chevrolet Six

Detroit, Jan. 9.—Following the

announcement seven days ago of

the improved 1930 Chevrolet Six

at greatly reduced prices, the

Chevrolet Motor Company last

week launched manufacturing

and sales activities designed to

meet the requirements of what

promises to be another record

year for the public acceptance of

six cylinder automobiles.

Factory officials expressed

themselves as highly gratified

over the reception of the new

Chevrolet Six at the New York

National Automobile Show last

week. Thousands of orders and

hundreds of congratulatory let-

ters from the nationwide Chev-

rolet dealer organization told

something of the success with

which the new product is meet-

ing across the United States.

Meanwhile, so that the thous-

ands of orders already on hand

may be taken care of with a min-

imum of delay, the 16 giant

Chevrolet plants are speeding

toward capacity operation with

RADIO RUBE'S R-A-M-B-L-I-N-G-S

Pop Henderson has been ac-

cused of using profane language

over his broadcasting station, by

Senator Dill, who claims that

Pop's language was so vile that

one night he had to turn off so

that his daughter would not hear

it. Pop is surely up against

something, but what the out-

come will be, is left to be seen.

One thing is certain—Pop will

get some free advertising out of

it.

The Secretary of the Interior

talked over the National Broad-

casting Company's service Tues-

day night and reviewed the many

improvements in the radio dur-

ing the last few years. He be-

gan with the old, crude service

we had in the beginning and

traced it up to the present time.

He also placed some speculation

on what we might expect within

the next few years, in compar-

ison with what we have had. The

address was very interesting and

one which everyone, especially

those interested in the radio

STATE CHAMBER OF COMMERCE

For the perfecting the organ-

ization of a State Chamber of

Commerce for New Mexico, Di-

rectors from the 31 counties in the

state will meet at the De Varga

Hotel in Santa Fe, Saturday

morning, Jan. 11, at 10 o'clock.

Secretary Goodwin of Tucuman

in a letter to the writer this

week, stated that nearly all of

the different counties have re-

sponded and the Directors will

attend the meeting.

Last week, we stated that Mr.

Tom Charles of Alamogordo

would represent Otero County

but Mr. Charles has deemed it

best to pass the honor to Fore-

Supervisor O. Fred Arthur, a

being at the head of the forest

interests of our section of the

state, which is of so much value

he would be in a better position

to represent Otero county and

Mr. Arthur has accepted the ap-

pointment.

The organization will be of

vast amount of good to the state

as it will be the combined means

MAGNA BIRTHDAY CELEBRATION REDUCED

JOIN, or DIE

By ELMO SCOTT WATSON

BENJAMIN FRANKLIN, whose birthday we celebrate on January 17, has been called many things by the many men who have written of him. One biographer has called him "The First Civilized American," and another "The Apostle of Modern Times." He has been characterized as "the most versatile American," and the phrase, "the many-sided Franklin," has become a commonplace. Recently there has appeared a new biography of Franklin, the title of which is at once an apt characterization and a tribute. It is called "The Amazing Benjamin Franklin."

The book itself is unique. Published under the auspices of the Philadelphia chapter of the Sons of the American Revolution by the Frederick A. Stokes company of New York, it is especially designed and printed by the Franklin Printing company, founded by Franklin himself in 1723. Unlike all other Franklin biographies, it is not the story of this great American as told and interpreted by one man. But it is composed of the accounts of the many roles played by Franklin, as told by many men, no less than forty in number, each eminent in his field and speaking as the representative of some important organization.

These accounts, compiled and edited by J. Henry Smythe, Jr. of New York, founder nationally of the celebration of Franklin Day and an authority on Franklin, lead off with a special message by President Hoover who says "Benjamin Franklin's services to his country were not alone in the great foundations of the Republic, but in his original mind and his homely wisdom which have stimulated and fertilized the thought of every succeeding generation in our country." Then, under three separate classifications, "Franklin, the Public Man," "Franklin, the Printer," and "Franklin, the Versatile," the outstanding men of today pay their tributes to the genius of "Poor Richard."

Charles E. Hughes, former secretary of state, calls him "the greatest diplomat of all time"; Alexander Millerand, ex-president of France, tells how he cemented the friendship of France and America; Sir Esmé Howard, British ambassador at Washington, tells of "Franklin, the Man of Character"; Harry S. Now, former postmaster general, calls him the "Father of the United States Postal Service"; Curtis D. Wilbur, secretary of the navy, tells of his connection with that branch of the service, and Maj. Gen. Hugh L. Scott tells some little-known facts about "Franklin, the Soldier." Andrew W. Mellon, secretary of the treasury, gives him the title of "The Father of Thrift in America"; William M. Jardine, secretary of agriculture, tells of his contribution to farming; James J. Davis, secretary of labor, discusses Franklin as "the Laboring Man and the Business Man," and William O'Brien, president of the American Federation of Labor, declares that he is "Labor's Patron Saint."

Now these are only a part of the tributes to him as a public man by public men. Franklin was a printer, but he was more than a printer when it came to his connection with the "art preservative of all arts." So A. M. Obergrenk, president of the International Association of Printing House Craftsmen, pays tribute to him as a craftsman; Alfred Stephen Bryan of the International Advertising Association discusses his contribution to that modern miracle; Josephus Daniels, former secretary of the navy, but before and after that career, an editor, calls Franklin as the first great American editor; Charles H. Spence, one of the leading executives of the country, tells us that Franklin was "America's first advertiser," and Charles E. Hoag-

gent of the Simplified Spelling board, informs us that he was the "first American spelling reformer." Hamlin Garland of the American Academy of Arts and Letters, tells of Franklin as author; Cornelia S. Adair, president of the National Education association, bestows upon him the title of "Prophet of American Education," and Asa Don Dickinson, librarian at the University of Pennsylvania, calls him the "Friend and Founder of Libraries."

All of which would seem to be enough to indicate that never before or since the "days of Poor Richard," has there been a man of such wide and varied interests. But to reality this is only the beginning. For there is yet "Franklin, the Versatile," to consider. Beginning with Michael Y. Pupin, who tells of Franklin as the natural philosopher, leading authorities in various fields reveal him as a scientist, meteorologist, the inventor of bifocal lenses, an economist, an athlete, a Mason, a friend of the negro, and a fire insurance pioneer. And to his titles may be added these "Patron Saint of the Music Industries," "Father of Daylight Saving," and "America's First Great Humorist."

No wonder there could be no other title for such a book than "The Amazing Benjamin Franklin!"

Interesting as are all the tributes in the book, there is one chapter in it which, better than any other, leaves with the reader the feeling that there never before was, and probably never again can be, such a man as Benjamin Franklin. With the "text" from the life of "Stranger than Ulysses" does a thousand things so well," Franklin's outstanding achievements are listed one by one. And the effect of this simple, concise record is all but overwhelming. Somewhat abridged, it reads as follows:

1. Franklin discovered that lightning is electricity and proved it first by observation and logic, and second by actual test with his kite.

2. He invented the lightning rod which Dr. Charles Hufschmidt said is still the best and most reliable protection we have against lightning.

3. He was the first to discover that a current of electricity has a magnetic effect, i. e., that it can magnetize a piece of steel. This is the fundamental principle on which the telegraph, the telephone and the electric motor are based.

4. He gave the world the best theory of electricity—modern science has finally adopted his early conclusions. These were that electricity consists of very minute particles, so small that they can pass between the atoms of ordinary matter. They are now called electrons. It is by means of these that we send wireless telegrams and telephonic messages and are able to broadcast concerts and speeches so satisfactorily.

5. He was the first man to discharge an explosive, located at a distance, by an electric current sent over a wire.

6. He invented the Franklin stove, the first successful wood-burning stove used in this country.

7. He invented the invaluable contrivance by which a fire consumes its own smoke, and made the first smoke-consuming stove in the world.

8. He delivered mankind from the nuisance, once universal, of smoky chimneys. His pamphlet "Cause and Cure of Smokey Chimneys," revealed the correct principles of chimney construction and rid the world of smoky chimneys and stoves.

9. He secured Philadelphia to be paved, he invented a better type of street lamp for lighting the city, and he organized the first street cleaning. More than this, he organized the unanticipated city watch and caused the city to be completely policed, and he established the first fire engine company to protect the city from fire. He established there the first fire company, the first fire alarm and the first fire hook.

10. He helped establish the first chartered fire insurance company in America.

11. He invented a better type of sailing vessel of the same type as the "Swallow," and the "Swallow" was the first American sailing vessel.

Early Settlers of New England Honored

This is the monument to "The Early Settlers of New England" which was unveiled the other day in Elm park, Worcester, Mass. It was erected at a cost of \$100,000 through the Rogers Kennedy fund. At the right of the monument is the sculptor, Maurice Sterne.

They're All Named After Woodrow Wilson

These twelve students at Berea college, in Kentucky, are all named after the late Woodrow Wilson. Eleven of them are Kentuckians and the other is from West Virginia.

Eddie Guards Mr. Stimson's Door

Secretary of State Stimson, posing for the camera with Eddie Savoy, imposing negro doorman on duty outside his office door, who tactfully ushers in diplomatic callers according to their ratings. Eddie must not only know his callers at a glance but must also know their diplomatic ratings so that international crises will not be precipitated.

Operation Saves World War Veteran

"Private Jack," a Scotch terrier, who eleven years ago was gassed and lost a paw in the World war, recently underwent an operation on his leg, and pulled through despite his sixteen years. He is shown here with his master, Herman Kame of Philadelphia, Pa.

BOUCHER GETS CUP

Frank Boucher, above, stellar center of the New York Rangers, who has repeated last season's performance of winning the Lady Byng trophy. The trophy, presented by Lady Byng, is awarded each year to the player in the National Hockey League who combines skill and sportsmanship to the highest degree.

GIVES TEN MILLIONS

Maurice Falk, multi-millionaire philanthropist, who announced that his Christmas gift to Pittsburgh, his native city, is the creation of a \$10,000,000 foundation for the public welfare and established as a memorial to his wife, Mrs. Laura Falk. A board of seven managers will be empowered to spend the entire amount within the next 25 years.

TAKE IT FROM DAD By Frank H. Cheley

Are All Politics Rotten? The Smithoughs, father and son, were seated in their usual after-dinner corners. Bob at his books and father with his trade journal, magazines and papers.

"Dad, I'm going to be a lawyer after all," Bob's opening shot!

"So," replied dad, laconically.

"I was going in for public life—possibly be a senator," said Bob, seriously, "but I've about come to the conclusion it is not desirable after all. Dad, are politics rotten?"

"Been reading the papers a bit eh, Bob?" queried dad. "Well, I can hardly blame you for coming to such a conclusion with all the graft and scandal in high places, yet, Bob, the law is a very highly respected profession and just because here and there, now and then, a man high in public office sells his birthright for a mess of pottage you must not conclude that all of our vast army of public officials are crooks, by any means. America is what she is today as a nation, largely because of her type of government; a type of government which makes possible, tremendous initiative on the part of officials, plus the fact that we still have vast natural resources easily exploited and wealth is so comparatively easily attainable by fair means or foul.

"Remember how we all enjoyed the box of salted nuts the other evening! They were unusually fine until you bit into a rancid one and then you didn't want any more. It would have been too bad to have concluded that you would never eat salted nuts again because of one bad one to a box.

"Let's go a little further, Bob. The strength of American life is the quality of its citizenry. Most men are honorable and honest. Of the probably more than one hundred thousand public officials, a large part of the leaders of which have a legal training, there is a very small per cent but that have rendered their day and time and constituency thoroughgoing honorable service, many, at large personal sacrifice. Here I was just now reading a splendid quotation from Roosevelt that has an exact bearing on the point.

"In our history there is now practically no mention of any great financier, of any great business man, who merely made money for himself. If at some crisis in the nation's history that financier rendered a great national service, or if he identified himself in useful fashion with some great movement for good, whether in art or philanthropy or otherwise, then his name remains. But even under these conditions it remains as a secondary value. America's contribution to permanent world history has been made by the statesmen and soldiers whose devotion to the country equalled their efficiency, by men of science, men of art, men of letters, by sane and honest reformers and social workers, who did great work and treated that work as in itself a great reward.

"The history of our growth and development as a nation is largely the story of the lives of high-minded men who have devoted themselves to the service of their fellows in some one of the thousand ramifications of our public life.

"True it is, my boy, that we have an oversupply of 'small fry' in the legal profession, but it is also true in the other professions. Human nature is no different in politics than in business or medicine or the other sciences.

"Some one has told us that the real voice of great lives is to fertilize the imaginations of our youth. When you think politics, think of the great game that Washington played with his Continental congress; think of the great game that Lincoln played with millions of human lives at stake. Think of the great and fascinating game that Herbert Hoover played to feed the starving children of the world. Do not let your ideals and conclusions be reached by dwelling too much on the petty graft and mistakes of the greedy and overly ambitious few.

"True American citizenship means loyal service to God and country. Boys of sterling quality must be trained to enter politics—yes, to become fighting politicians! Live-wire citizens who do their share of the public work, and Bob, you don't need to wait until you are a senator. Be a good straight-shooting, hard-hitting politician in school; in your club; in your camp; yes, in your gang.

"We must recognize that there are defects in our land and weaknesses in our systems; that our plan of things is not perfect; that all our institutions can be bettered; and that only by preparation and co-operation to make America the great democracy where there is less and less fear, more and more confidence in each other and a united hope for even better things, will a new day come.

"Good and bad politics, Bob, bring up another point, too, that it is well to consider. Good politics is simply loyalty. Everybody knows the fellow who stands up for his family and his school, his friends, his team, and his country—all of that is not so hard to do."

Conceal scuffs this easy way

A touch or two of the dapper conceals scuffs like magic. Color is restored uniformly to faded shoes. More than 30 long-life shiners—30 cents. Colors for black, brown, tan and white shoes—a neutral polish for others.

Needless Pain!

Some folks take pain for granted. They let a cold "run its course." They wait for their headaches to "wear off." If suffering from neuralgia or from neuritis, they rely on feeling better in the morning. Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Bayer Aspirin always offers immediate relief from various aches and pains we once had to endure. If pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many uses of Bayer Aspirin. Protect yourself by buying the genuine. Bayer is safe. Always the same. All druggists.

BAYER ASPIRIN

Aspirin is the trade mark of Bayer Manufacturing Co. Manufacturer of Salicylic Acid

EDITORIAL COLUMN

The Crystal Theatre

The only place of amusement in town, is offering some unusual features in the movie line. The past week has been a good one, headed by Richard Dix in the "Redskin," and this week, Tuesday and Wednesday nights, the old favorite, Lon Chaney, appeared in "Where East is East," which is one of his best pictures. Sunday and Monday nights, Bill Cody gave the patrons some exciting thrills in sky-scraper jumping, in his chase with the police.

In last week's program, Manager Pittman announced that the picture for Thursday and Friday nights would be given out later, but now the assurance is that we will have "Broadway Melody," which carries a star cast of exceptional value. Splendid programs are to follow every week. Watch for next week's program—it will be a hummer!

Glencoe Woman's Club

held its regular monthly meeting Jan. 4, at the home of Mrs. W. B. Rose. Mrs. Bert Pfingsten was an enjoyable visitor.

The annual election of officers resulted as follows: Pres., Mrs. Louise H. Coe; Vice-Pres., Mrs. J. R. Werner; Sec'y, Mrs. J. V. Tully; Treas., Mrs. B. J. Bonnell; Parliamentarian, Mrs. W. C. Austy. Mrs. A. F. Roselle was appointed as Librarian for the Club's Library.

Mrs. J. V. Tully has been the president of the club for the past four years and through her loyal interest and faithful work has made our club one of the Honor Rural Clubs of the state. Our club has been proud of Mrs. Tully as its head and are grateful to her for all she has done.

The program hour was led by Mrs. J. R. Werner in a general discussion of plans for a Union High School.

The next meeting will be Feb. 4, at the home of Mrs. D. N. Bonnell. The program, "Featuring Southeastern New Mexico," will be led by Mrs. Myrtle Davis.

Sunday School Meeting
Held at Tularosa

At 7 p. m. Wednesday, Jan. 8, at the Tularosa Methodist Community Church Building—Rev. Fred B. Faust, Mrs. J. C. Ballard, Mrs. Tom Watson and Mrs. A. C. Ayers of El Paso, Conference Supt. of Sunday Schools, Primary Junior, Intermediate.

Senior, and adult department conference organizers respectively met with the officers, teachers and all interested in training for definite work in the Sunday Schools of Alamogordo, Tularosa and Carrizozo.

Definite plans for enlargement, intensive cultivation and Sunday School evangelization were brought to the various group leaders.

Dr. J. A. Lajdram, Alamogordo; Dr. J. L. Lawson, Carrizozo, and Rev. B. M. Stradley, Tularosa, were present.

FIRST NATIONAL BANK
Carrizozo — New Mexico

The above picture shows a sectional view of Samson "Oil-Rite" Windmill illustrating principle of Pump, also location of Four Timken Roller Bearers

The AUTOMATIC OILING SYSTEM and lubrication of the various parts is accomplished as follows: The oil is poured into the gear case, which submerges the lower part of the double gears, including the wrist pins when at the bottom of stroke. The rotation of the gears carries the oil up and floods the pistons, and the oil running down over the inside of the gears floods the gear shaft. The trough which is part of the hub of wheel head, maintains a level that submerges the lower part of both front and rear Timken bearings, and the surplus oil is returned to the gear case through a passage in the main frame extension. A felt oil retaining washer and paper gasket prevent any oil from working out around the wheel shaft.

AUXILIARY OIL PUMP

One of the outstanding features of the SAMSON "OIL-RITE" is the extreme simplicity, efficiency, and practicability of the pump.

The main frame on the Oil-Rite mills forms a reservoir that holds a sufficient amount of oil to lubricate the mill for one year. A sheet metal helmet completely encloses the reservoir and covers all working parts thus eliminating waste and making it dirt, rain, sleet and snow proof. No water can get in to flood the oil, no dust can blow in to grind out the bearings. This construction prevents squeaks, rattles and gear howling brought about by insufficient lubrication, all of which is avoided in the automatically oiled "OIL-RITE" mill. The ball bearing turn table, the constant supply of oil always flooding the moving parts and the Timken roller bearings insure the owner the "OIL-RITE" mill will pump water in the slightest breeze.

NOTICE FOR PUBLICATION

State Land Sale
Lincoln County
Office of Commissioner of Public Lands
Santa Fe, New Mexico

Notice is hereby given that pursuant to the provisions of the Act of Congress approved June 20, 1910, Laws of the State of New Mexico, and the rules and regulations of the State Land Office, the Commissioner of Public Lands, will offer at public sale to the highest and best bidder at 2 o'clock p. m., on Saturday, February 8, 1930, at the front door of the courthouse in the town of Carrizozo, New Mexico, the following described tract of land, to-wit:

Sale No. 2390

½ Sec. 5, Township 8 South, Range 12 East; E½NE¼ Sec. 13, Township 8 South, Range 12 East; Lots 1 and 2 Sec. 11, Township 8 South, Range 12 East; E½ Sec. 19, Township 8 South, Range 12 East; All Sec. 20, Township 8 South, Range 12 East; N½, N½SW¼, SE¼SW¼, SE¼ Sec. 29, Township 8 South, Range 12 East; Lots 3 and 4, E½SW¼, SE¼ Sec. 18, Township 8 South, Range 12 East, N. M. P. M., containing 2315.40 acres. The improvements consist of ½ mile of three and four wire fence valued at Four Hundred (\$400.00) Dollars.

No bid will be accepted on the above described acreage for less than Three (\$3.00) dollars per acre and the successful bidder will be required to pay at the time of sale Five (5%) percent of the amount of his bid and the value of the improvements. The balance of the price offered will be payable at any time within thirty (30) years with interest on all deferred payments at the rate of 4% per annum, in accordance with the terms of the contract to be entered into by the successful bidder.

Sale No. 2391

½ Sec. 1, Township 8 South, Range 12 East; W½ Sec. 6, Township 8 South, Range 12 East; E½ Sec. 12, Township 8 South, Range 12 East; Lots 1, 2, 3, 4 and 5, E½W½ Sec. 7, Township 8 South, Range 12 East, N. M. P. M., containing 1656.55 acres.

No bid will be accepted on the land last above described for less than Three (\$3.00) dollars per acre and the successful bidder will be required to pay at the time of the sale Ten (10%) percent of the amount of his bid and the value of the improvements. The balance of the price offered will be payable in thirty equal annual installments with interest on all deferred payments at the rate of 4% per annum, in accordance with the terms of the contract to be entered into by the successful bidder.

The E½ Sec. 19, N½, N½SE¼, SE¼SW¼ and SE¼ Sec. 29, Township 8 South, Range 12 East, will be sold subject to the right-of-way of the Mountain States Telephone and Telegraph Company.

All minerals on the said land are reserved to the State and the Commissioner reserves the right to reject any and all bids.

Dated at Santa Fe, New Mexico, this 30th day of October, 1929.

Austin D. Crille,
Commissioner of Public Lands.

Today

- Chevrolet announces

THE GREATEST CHEVROLET IN CHEVROLET HISTORY

Today, Chevrolet presents the Greatest Chevrolet in Chevrolet History—a smoother, faster, better Six—with beautiful new bodies by Fisher.

Basically, it is the same sturdy, substantial Six which won such tremendous popularity in 1929. But it is a greater car in every way—for there are scores of vital

improvements which contribute to comfort, performance, endurance and safety!

An improved six-cylinder valve-in-head motor, with its capacity increased to 50 horsepower; four Delco-Lovejoy hydraulic shock absorbers; fully-enclosed internal-expanding weather-proof brakes; a new dash gasoline

gauge; heavier and stronger rear axle; new Fisher non-glare windshield; larger tires—

—these are typical of the many improvements which make this car the Greatest Chevrolet in Chevrolet History.

But most impressive of all—this smoother, faster, better Six has been made available—

At Greatly Reduced Prices!

During 1929, more than a million three hundred thousand persons bought six-cylinder Chevrolets. This enormous volume has made possible many savings in the Chevrolet factories—and, in keeping with its long-established policy, Chevro-

let is sharing these savings with the public. No written description can do justice to the extra value and quality provided in this new car. Visit your Chevrolet dealer—see this car—ride in it—and judge for yourself its sensational value.

Loose and Roomy Playsuit for Child

(Prepared by the United States Department of Agriculture.)

"Johnnie! Put your coat right on, or come in this house this minute!" Johnnie's coat is thrown on the ground and Johnnie is playing tag with two or three other coatless youngsters. "But, mother," he protests invariably, "my coat gets in my way. I'd much rather leave it off. Tommie's taken his off, too," hopefully. But mother retorts, "You'll all catch your death of cold," or something to that effect, and forces the unwilling child to bundle up again. She is right, of course, and in a measure, the child is right, too. The coat is in his way. How can he keep safe and warm out-of-doors without impeding his activities?

To meet this situation the bureau of home economics has designed a number of winter playsuits especially for the runabout or preschool age, who ought to be outside as much as possible to take advantage of the short stretches of sunshine and the crisp, cold air. All of these suits are loose and roomy and made of strong, warm

made with nursery school children, to find the best location for them. At least eight different pockets have been designed, but they are all alike in one respect. The top edge slants diagonally outward and downward. Mothers who are called on almost daily to repair outer corners of pockets where they have been torn, will appreciate the value of doing away with that corner entirely. On the heaviest materials, patch pockets are used; on some of the lighter ones a set-in pocket with a bound or welt finish may be preferred, or on those intended as rainsuits, there may be a protecting flap overlapping the pocket.

Perhaps one of the most important innovations from the standpoint of the child's constant activity is the use of a little extra fullness in the back section, on the side seams, about 6 inches below the waist line. In wool materials, as in the picture, this fullness is shrunk out as much as possible to avoid bulk; in other fabrics gathers are put in which draw 4 1/2 inches of material in a space of 2 1/2 inches.

The suit illustrated is made of paper-mill felt, a heavy wool fabric. It has all these features and several others. Notice that the ankle placket is around in front where the child can reach it, instead of the side seams, and that the leg of the garment is shaped to get rid of bulkiness. The elastic which holds the legs down fits snugly under the instep where it is out of the way and subject to least wear. This elastic is sewn on inside the leg after the edge has been faced, because even with the best of care it will need occasional renewing. The sleeves have plenty of fullness through the elbow and are held at the wrists by a loop and button. The patch pocket is diamond shaped to give a slant-

ing top. Some of the suits have a square pocket with the outer corner smartly turned back. The cord which forms the loops for the buttons is carried along between the material and the facing and thus makes the edge of

Back View of Same Suit.

the suit firmer. The opening on the front extends almost the entire length to the crotch and toward the bottom the edge is shaped out slightly to make a more secure closing. Five buttons are sufficient. A matching, close-fitting hood is worn with this suit.

Front View of Paper-Mill Felt Suit.

materials, but all unnecessary bulk has been eliminated. Some of these suits are intended to be worn in place of an overcoat. Others, of rain-proofed fabrics, take the place of a rain coat and may be worn over a similar playsuit of light-weight wool or cotton.

As it is so important for the child at this age to learn to dress without help, every detail of these playsuits is planned to encourage self-help and independence. Front plackets are used whenever possible, and large, flat, findable buttons with buttonholes, or heavy cord loops. On the drop seat are four buttons instead of one on each side and one in the middle of the back, out of reach of little fingers. Pockets are placed at the waist line, or just below it, after careful tests

Bedtime Story for the Children

By MARY GRAHAM BONNER

David had just had a talk with a lady whose name was Vapor and who helped keep the air nice and moist. Now he was meeting no less a person than the Eastern Hemisphere.

He looked so differently in real life than he did in the book where David had always seen him. He was talking now:

"I have charge of so much, you know—Europe, Asia and Africa, not to mention Australia and much else besides. You see with Europe, Asia and Africa forming the largest mass of land on earth and all joined together there is quite a job in attending to them.

"The first part of my last name, as without a doubt you know (David always liked people who gave information but at the same time acted as though he knew) means Half—that's the Heml part of my name. I'm half a sphere, or half of the earth. That makes me pretty important. I'm a good deal more than a continent, and

you wouldn't sneeze at a continent." "I wouldn't sneeze at anything unless I had a cold."

"Now don't be upsh! If you were half a sphere and were allowed a holiday you would want to have some fun, so I put some sneezes into my conversation so my talk wouldn't

He Looked So Differently.

sound too boastful. You can't be too boastful with sneezes."

"I should say not." "To be sure a continent is a great thing. When the sea divides the land and makes continents it's doing a big job for continents. Two of the largest

continents are in my part of the world, Asia and Africa. Your continent, North America comes next and then comes South America, and after that in size comes our little friend Europe, not so little either, and lastly comes Australia, whose name means South Land and who isn't any under-sized land, I can tell you.

"Here in Europe and in Asia, too, there are so many bays and seas and gulfs that I have a great deal to watch. Africa doesn't cause me so much thought that way. But it does explain my costume. It has to be suitable for all my moves. Now you have a suit that fits your arms and legs, and so must my suit fit. If my shape is strange then my suit must be strange to be in keeping."

Eastern Hemisphere laughed a little as he noticed David was still smiling at his costume.

"I hear," he went on, "that you've met Atlantic Ocean before, but Western Hemisphere introduced you to the Pacific first of all, and I want to be as polite as my brother and show you happy hemisphere habits. Come, I'll introduce you to Atlantic and to the Gulf Stream lady who comes over this way to warm up the country."

It was very bright and dazzling now and David took off his raincoat. He could see how the map had spread itself out just as it had before but it

Good Things for the Table

By NELLIE MAXWELL

"In simple truth this faith I hold: Age need not make an old man old. And Life's sure burdens hard to bear. And on the soul draw lines of care. If but at times the heart is stirred By rhyme of love and songs of bird— If man but strives, as best he may, To catch life's music by the way."

To those who prefer the cranberry sauce unstrained, as many do, the process is the same except the straining.

Cranberry Jelly.—Cook a quart of cranberries in one cupful of water, covering the pan tightly so that the berries cook evenly. When the skins are broken, pour into a jelly bag and let drip until all the juice is extracted. Do not squeeze, or the juice will be cloudy. Heat the juice to the boiling point and add two cupfuls of sugar. Pour into a wet mold or a flat pan, to be cut into forms later.

Cheese Straws.—Take one-fourth pound of nippy cheese, grated. Cream one-fourth pound of butter, add one cupful of flour and enough milk to make a mixture to knead. Roll thin, cut into strips one-fourth (1/4) inch wide, and four inches long. Bake until a light brown. Sprinkle with paprika and serve with salad or soups.

Sweet Potatoes, Caramels.—Cook unpeeled sweet potatoes until nearly done. Peel and cut into halves lengthwise. Put in a pan, cut side up, brush well with butter and sprinkle with brown sugar. Bake until a golden brown. Walnuts may be added if desired, making the dish more attractive.

Breakfast Mackerel.—Even the canned mackerel may be used for this and is most tasty. Soak the salt

mackerel in water, skin side up until well freshened—over night is not too much. In the morning place in a dripping pan, cover with thin cream and bake until the fish is tender. Twenty minutes is about the usual time. Dot with bits of butter and serve at once, piping hot. Baked potatoes go well with this dish.

Turkey Loaf.—Melt two tablespoonfuls of butter, add one-half cupful of bread crumbs, two-thirds of a cupful of milk and simmer five minutes, stirring constantly. Add one cupful of chopped cold cooked turkey, three eggs slightly beaten, a tablespoonful of minced parsley. Turn into a mold and steam in hot water. Cover the loaf with buttered paper. Serve with an egg sauce; garnish with parsley.

We rarely think of the foods we eat except as something to satisfy hunger and appeal to the appetite. Much of the food we eat is valuable in other ways.

The following are a few of the many things that should add to our appreciation of the gifts from the hand of a bountiful Providence:

Parsley aids digestion, prevents dyspepsia when eaten with a too hearty meal. A sprig eaten after raw onions will absorb the offensive odor from the breath.

Watercress is an excellent blood purifier. Spinach is called the broom of the blood, good for constipation, excellent for kidney troubles.

Celery contains sulphur, is a good nerve tonic and wards off rheumatism. Onions, fine for nervous prostration and other nerve disorders. Soothing effects on consumptives and excellent for colds, coughs and scurvy. They make the best of poultices in cases of grip and pneumonia; they also cure insomnia. A vegetable as valuable as the onion should be served freely in the menu.

Apples, carrots and Brazil nuts are said to be excellent for the complexion and a cure for constipation.

Potatoes and beets eaten too freely put on fat. If thin these vegetables should be eaten freely.

Dates are exceedingly nourishing and prevent constipation.

(© 1929, Western Newspaper Union.)

looked quite different. The very shape of Eastern Hemisphere was unlike that of Western Hemisphere, but it all was just like a living or magic map, or, as he had said before, like a great toy world.

As he wandered a little to the west where he could see Compass was pointing with his left arm he saw once more his old friend Atlantic Ocean and could hear a soft voice talking to Atlantic which he recognized as the voice of Gulf Stream. To the right of him he could see the country spread out, a world that looked like and yet unlike the half he had already seen. He wanted to see it all, at once, but he must speak to Atlantic and Gulf Stream first.

Gulf Stream was arguing with Atlantic. It was a warm argument, yet not over heated. Her voice was gentle but he could tell she was getting her way.

"I have to help over here, Atlantic, or they would have cold weather such as they have in Labrador. You know that!"

"All right, Gulf Stream, I must, as always, give in to you!"

When Food Sours

Lots of folks who think they have "indigestion" have only an acid condition which could be corrected in five or ten minutes. An effective anti-acid like Phillips Milk of Magnesia soon restores digestion to normal.

Phillips does away with all that sourness and gas right after meals. It prevents the distress so apt to occur two hours after eating. What a pleasant preparation to take! And how good it is for the system! Unlike a burning dose of soda—which is but temporary relief at best—Phillips Milk of Magnesia neutralizes many times its volume in acid.

Next time a hearty meal, or too rich a diet has brought on the least discomfort, try—

Doubt grows up with knowledge.
"O Happy Day" sang the landress as she hung the snowy wash on the line. It was a "happy day" because she used Red Cross Ball Blue.—Adv.

Makers of rulers govern the world.

Don't let SORE THROAT get the best of you...

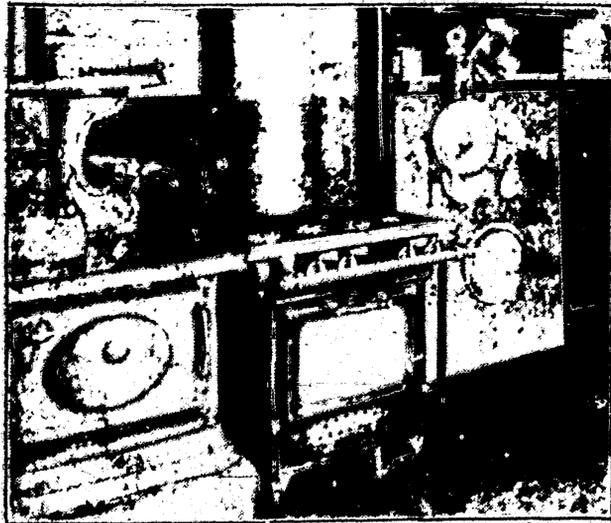

FIVE minutes after you rub on Musterole your throat should begin to feel less sore! Continue the treatment once every hour for five hours and you'll be astonished at the relief.

Working like the trained hands of a masseur, this famous blend of oil of mustard, camphor, menthol and other ingredients brings relief naturally. It penetrates and stimulates blood circulation and helps to draw out infection and pain. Used by millions for 20 years. Recommended by doctors and nurses.

Keep Musterole handy—jars and tubes. To Mothers—Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

Two Stoves in the Kitchen

The Gas Range Alternates With the Coal Stove.

(Prepared by the United States Department of Agriculture.)

A good many kitchens, especially those in detached homes in suburbs or rural districts, now boast two stoves—a wood or coal range for use in cold weather, and a gas, oil, or electric stove for the warm season. Of course, a kitchen must be somewhat roomy to afford the wall space for two stoves, but as a table may be dispensed with if necessary, a number of homes might have this arrangement and add to their convenience. There are many advantages in it. The wood or coal range gives considerable heat during those in-between weeks in the spring or fall when the mornings and evenings are chilly and the middle of the day almost hot. Using it may mean that you can postpone lighting the furnace fire in the fall and let it go out sooner in the spring, saving appreciably on fuel. In climates where furnaces are not used the kitchen range answers the need for sufficient warmth all winter.

cooking while the range fire is getting under way the other stove may be very useful. There are times when one does not want to disturb a banked fire to make a cupful of tea or a piece of toast. And when really warm weather begins, the blessing of a cool kitchen is greatly appreciated. The coal or wood range is cleaned out, given a final polish and covered to make a convenient table surface for setting things down, spreading out plates for filling and serving, and similar uses. The "summer" stove, in the coldest weather, is probably used more for a table than as a place to cook, but in the seasons of uncertain weather both stoves are likely to alternate in use.

The illustration, taken in New Jersey by the United States Department of Agriculture, shows this two-stove arrangement in a farm kitchen which was improved in various ways after the county home demonstration agent had discussed the possibilities with the owner. This kitchen was large enough to afford the space for both stoves.

Embroidered Blouse for Youngsters

By JULIA BOTTOMLEY

There's going to be no such thing as a season of relaxation and unemployed after-holiday hours for mothers of tiny tots. Fashion is seeing to it that mother-dears' fingers shall be kept busy as busy can be lavishing embroidery of the most ornate character on the clothes of her wee ones.

In Paris styles for little boys as well as little girls reflect the vogue for decorative handiwork. The diminutive Parisian lad in the picture is wearing an attractive little suit of wool crepe, the blouse being handsomely embroidered in gay peasant colors. If a little French boy can look this cunning in an embroidered outfit, it goes without saying that a wee American is sure to look just as prepossessing. Therefore it behooves mothers to get busy and "doll up" juniors and little sisters' wardrobes with much ornate stitchery for "time is fast a flying" and spring house-cleaning season will be here before you know it, and then good-by to fancy stitches.

The designing of children's apparel becomes more and more interesting, now that the traditional sky blues and baby pinks are giving way to moderate colorings and patternings. Embroidery is not the only way of achieving color touches which are unique and outstanding, for many methods are being employed, such as hem stitching done in contrasting shades. High-color pipings and bindings are especially featured throughout juvenile styles.

Such novel color schemes are worked out with gay yarns as pockets and motifs done in red, blue and yellow silver cross-stitch so as to form solid patches of color here and there on a little frock of white wool crepe. Another Paris-made dress for a little

girl is fashioned of white crepe satin exquisitely embellished with sprays of very fine tapersy embroidery.

Striking color combinations include such effects as a one-piece frock which

uses an orange-capoteau shade for the lower section, with lighter yellow for the blouse top, the two shades of yellow carried out in embroidered borderings.

Light green is one of the pretty colorings featured for youngsters. Sometimes the color ensemble is worked out with a coat of mill green tannol, the same posed over a frock either of handkerchief linen or silk crepe in the identical green.

"Before My Baby Came"

"Lydia E. Pinkham's Vegetable Compound puts new life into me and makes my work in the store and in the house easier. I took several bottles before my baby came and am always singing its praises to my friends. I recommend it for girls and women of all ages. It makes me feel like life is worth living, my nerves are better and I have gained pep and feel well and strong."—Mrs. A. R. Smith, 808 S. Lansing Street, St. John, Michigan.

PERSONALS

Mr. and Mrs. T. G. James
who resided here for several years while Mr. James was in charge of the Arthur Kudner interests in the Venado Gap, are now located at Highland Park, Ill., and seem to like their new location very well and order their Outlook sent to their address.

R. T. Freeland
was here from his ranch home near Tinnie last Saturday, attending to some business matters and returning to the lower country in the afternoon. Mr. Freeland is an ardent Odd Fellow and is laying plans for himself and Mrs. Freeland to attend the joint installation of the Odd Fellows and Rebekahs which will take place on the night of Jan. 15, mention of which is made in another article in this paper.

Mrs. Wm. Ferguson
and daughter Frances were here from their home on the Nogal-Mesa last Saturday, staying over for the day and returning home in the afternoon.

Mrs. C. D. Mayer
who has been ill for the past two weeks, is rapidly recovering and will soon be able to be at the Mayer store again.

Mr. and Mrs. Austin Wooten
formerly of this place, but now located in Tucson, Arizona, like their new location very well. Austin is connected with an embalming firm at Tucson, he having passed his examination while he was still in Carrizozo. This profession he has followed since leaving here. They send best regards to old Carrizozo friends.

Luis Nalda
the smiling sheepman, was in town the first of the week from his ranch near here. The only objection we have with Louie is that he is still single - don't crowd, girls.

Frost Proof Plums
Frost proof plums. Free catalogue—Lubbock Nursery, Route 6, Lubbock, Texas. Jan.

Navarro—Apodaca
Last Thursday morning at 10 o'clock, at the St. Rita Catholic Church, Macario Navarro, oldest son of caretaker Joe Navarro of the S. P. Club House and Mrs. Navarro, and Miss Matilde Apodaca were united in marriage. The occasion was celebrated with a big dance at the hall of the groom's father that night. Their friends wish them much happiness.

BORN--To Mr. and Mrs. Loren Counts of Tinnie, N. M., on Jan. 2, a bouncing baby girl. Her name is Valva Loree Counts and being the first baby, she will certainly be boss of the house or in other words, the "counts" for a great deal in the Counts home. Mother and daughter are doing nicely.

Will Hold Joint Installation

On Wednesday, Jan. 15, Carrizozo Lodge No. 30 and Coalora Rebekah Lodge No. 15, I.O.O.F. will hold a joint installation at Odd Fellows Hall in the Masonic Temple. A large attendance is expected from out-of-town and Deputy Grand Master Newsome of Alamogordo will conduct the installation. After the ceremonies, a banquet will be served. Three of Odd Fellows who are not members of the Rebekah or Rebekahs are especially invited. Harman Kelt, Noble Grand, W. J. Langston, Secretary

Carrizozo Lodge No. 41
A. F. & A. M., held a special communication Monday night which was well attended in answer to the call issued in last week's Outlook. Three candidates received the Fellowcraft degree. No. 41 is making preparations for a big program of work to take place in the near future and a goodly number of candidates are being prepared to receive the third degree, the call for which will be made in ample time. Watch for it.

Those from out-of-town were: Messrs. Ferris, Brubaker and Hoover, Capitan; Anderson, Powell and Ferris, Fort Stanton; Bogie and Stillwell, Coyote; Haven, Three Rivers. Visitors were: Messrs. Prehm, Boatman, Hale and Rev. Lawson, Earl B. Rountree.

Patronize Our Advertisers
In running over the Outlook, you see the different business houses which carry ads in this paper setting forth the merchandise they have for the benefit of the public. These firms are old reliable, who are interested in the welfare, growth and prosperity of Carrizozo, and as such, they offer the people of our town the lowest possible prices on commodities.

S. W. Kelsey Purchases the Harris Garage
A deal was consummated Wednesday, whereby S. W. Kelsey purchased the Harris Garage on El Paso avenue. The sale included the garage and the camp yards. Mr. Kelsey will make some valuable improvements in the near future in the garage and also in the camp yards. Mr. Harris wishes to thank the public for past favors of patronage and hopes that his old trade will stay with the new proprietor and that his business may increase.

Mack Shaver
and Ida Ciegborn left Sunday on No. 2, Mack for the State "U" and Ida for Business College at Trinidad, Colo., they having been at home for the holidays. Mack accompanied Ida as far as Albuquerque.

Shorty Moore
who has been in the Mesquero Indian Agency for the past year, has returned to Carrizozo and we welcome him again to our town. Stay with us this time, Shorty.

The Lordsburg Liberal

one of the best and most ably edited weekly papers in the state of New Mexico, is now edited by our old friend and former editor of the Magdalena News, Leslie Blackburn. Mr. Blackburn has been in the newspaper business for years and knows the game from every angle. He knows about as near as anyone in the profession can know, just about what his readers desire and gives it out to them. The Liberal is a good paper and its editor is a good printer and also a rattling good fellow. Success to you and your paper, Leslie.

Success Secret Told by Author
Why is "Able's Irish Rose" such a success?

That question has been asked time and time again, along with the query "What do audiences want?" Anne Nichols who wrote and originally produced "Able" and who is responsible for the supervision of the Paramount screen production to be shown at the Crystal Theatre, gave the reasons recently while engaged in filming the picture at the Hollywood studios.

"Able's Irish Rose" succeeded because it is homey, sincere, human and simple," Miss Nichols declared. "It is the story of folks who live, and as they live."

"It is human. Humanity is its foundation. All the characters are drawn from life. Human things appeal to human beings. With this humanity comes the element of pure Americanism, as expressed in the picture. American audiences therefore enjoy things that are typically American and typically human."

"Humanity is my secret of successful play writing."

"Able's Irish Rose" is hailed as one of Paramount's biggest "speakers" in years. An excellent cast has been chosen to essay the various roles made famous by long runs of "Able" in every city and nation of the world.

Victor Fleming directed and Jules Furthman is credited with the scenario.

The Carrizozo Women's Club will meet Friday afternoon, Jan. 11, at Community Hall.

Our Prices Are Reasonable

The Titsworth Co., Inc.

Capitan - New Mexico

L. N. Bell
and sister, Oleta, were here Wednesday from Ancho, transacting some business and returning home in the afternoon. The Bells have just returned from Phoenix, Ariz., where they visited relatives for the holidays. They said oranges were growing and roses were in bloom on every head, which was in striking contrast to the wintry weather they found in the high country when they returned.

Evelyn and Miller French
University students who were home for the holiday season, have returned to Albuquerque to finish the last portion of the University term.

Glenneth English

has returned to her studies at the State University after a pleasant holiday vacation with the home folks.

Walter W. Stadtman
live-wire superintendent of this district for the Equitable Life Insurance Company is here this week looking over the field, making adjustments and of course, looking for all the new business he can get and he generally gets it.

Miss Ruth Brickley
who spent the holidays with her father, E. M. of the First National Bank, uncle John of Luna and aunt, Miss Ella Brickley of Carrizozo, has returned to her studies at the State University.

Woman's Missionary Society
of the Methodist Church was entertained in the home of Mrs. Calvin Carl Wednesday afternoon, with Mrs. G. W. Jeffrey as assistant hostess.

The following officers were elected for 1930: Pres., Mrs. F. L. Boughner; Vice-Pres., Mrs. M. J. Barnett; Recording Sec'y, Mrs. O. J. Snow; Corresponding Sec'y, Mrs. J. L. Lawson; Local Treas., Mrs. Clyde Lucky; Conference Treas., Mrs. Walter Grumbles; Supt. Young People, Miss Hazel Melas; Supt. Children, Mrs. C. Carl; Supt. Social Service, Mrs. Brack Sloan; Supt. Supplies, Mrs. C. E. Freeman; Agent for Voice, Mrs. C. N. Lemmings.

Henry Silva, Sr.
Abel Pino and mother, Mrs. Maria Chavez Pino are here this week from their homes in the Tucson mountains, visiting with relatives.

A Big Snow
is falling as we write and has continued for the past 4 hours, with only a slight "let-up." The beauty of it is that it is heavy and wet, and is melting evenly, where it falls. There is an absence of strong wind, that usually causes drifting, and will be of exceptional benefit to the crops in this section.
