## ANCHO NOTES

The Woman's Club met with Mrs. B. A. Hightower, Saturday, the 18th, with a good attendance. Special guests were: Mmes. Warden, Silvers; Misses Maudie and Mary Pickett Warden and Lucile Drake. The Roll Call was responded to by "Why I Like New Mexico," one reason being given. Because I Am Happy Here. The Club Collect was read and several matters of importance discussed. The social hour was made particularly delightful by a song, "The Tie That Binds" by Miss Lucile Drake, who accompanied herself on the guitar, and "O Fair New Mexico" by Miss Mary Pickett Warden, accompanied on the piano by Mrs. Hightower. Both young ladies have excellent voices and their selections were much enjoyed. Then followed games, based on New Mexico: "Count the beans in the Jar," "Pied letters to be separated into the names of 10 New Mexico towns" and "Draw a complete map of New Mexico." First prizes were won by Mmes. Straley, Jack Pruett and Belknap, while the "boobies" went to Mmes. Miller and Peters. It being the first anniversary of the club, Mrs. Hightower had prepared a beautiful birthday cake in the club colors of white and green, bearing a shield of 18 stars (the charter roll) and an additional 4 stars for the new members added during the year. Other refreshments consisted of sandwiches, lemon pie and coffee. The club has had a happy and busy year and hopes for a long life of continued usefulness.

That means that we are glad to have you come and worship with us regardless of your church affiliations. We all worship the same God; let us worship Him together. We need this spiritual communion with Him and with each other.

## LOCAL MENTION

Mr. and Mrs. Morgan Lovelace came up from El Paso Tuesday, after having disposed of the apartment house in a trade for their old home property, the Wetmore Apartments here, of which deal, the El Paso Times of Wednesday, has the following to say:

"Under terms of a real estate deal announced yesterday, the Marguerite apartments, 1106 E. Yandall boulevard, passed from Morgan Lovelace to the Terrace Improvement Co., of which Joshua Reynolds is president. The transaction, involving about \$60,000 worth of El Paso property, was handled by H. W. Broadus Co., Inc. Besides a cash consideration, title to seven residence structures on Lebanon street, formerly property of the Improvement company, passed to Lovelace."

Mr. and Mrs. Lovelace will reside at the old Stadman residence until arrangements can be made for them to take over the Wetmore Apartments, now occupied by Mrs. J. E. Armstrong.

Mrs. P. H. Kersey came in the first of the week from her home in Mesa, Arizona, visited with her parents, Mr. and Mrs. Geo. Clements, Sr., and left for home Wednesday morning.

Geo. Simpson, T. M. DuBois, Harry Ryberg and others whose names we failed to get, were here from Corona this week, all of whom were interested in district court matters. They all agree that Corona is in for a season of prosperity in stock raising and bean growing on account of the good moisture.

Mr. and Mrs. George Clements, Sr., Mr. and Mrs. George Clements, Jr., Woodrow and Juan Clements were here this week, attending to court matters. They left for Corona yesterday.

Father Mitchell of the Santa Rita Catholic Church, who has been ill for several weeks, is able to be about again and attending to church duties.

Ranger and Mrs. Reuben Boone and children were here this week from Mayhill, interested in some matters in the district court and left for home Wednesday. Ranger Boone is now in complete charge of the Weed district.

Mr. and Mrs. Beckett and Joe Frimble of the Carrizozo Bakery made a trip to Artesia, starting last Saturday evening, and on account of the heavy rain and the mud they encountered, they did not reach their destination until about 5 o'clock Sunday morning. At one place, they were marooned in the mud and the only help they could get was a friendly neighbor, with a sad eyed mule, but the mule finally got them out of their predicament and they went on their way rejoicing. Mules are stubborn beasts, but they come in handy in times like these.

### Carrizozo Woman's Club

One of the best meetings of the year was held at the home of Mrs. Geo. A. Titworth, Saturday, April 18. In spite of the unsettled weather, there were over 50 members and guests present. The meeting was called to order by Mrs. Paul Mayer, president, and after the preliminary business several interesting reports were given by the chairmen of different departments. Mrs. French, public welfare chairman, had Mrs. Halstead of the Child Welfare Dept at Santa Fe, give a very interesting talk on that subject.

Santa Fe, April 20—"A bunch of cry babies and poor sports." Thus Gov. Arthur Seligman today commented on activities of the State Game Protective Association, members of which have severely criticized the governor for his game policies.

The governor said that although members of the G. P. A. had fought his five man commission bill they found it necessary to name five men as the board of directors.

Commenting on the constitutional amendment sponsored by the G. P. A., making it impossible for governors to remove members of the commissions except upon cause, the governor said:

"The association had better sponsor an amendment prohibiting the governor from accepting resignations."

### Important Serial Announcement

Those who have not had the pleasure of reading Edna Ferber's great story, "Cimarron," and those who wish the pleasure of reading it again will have an opportunity to read it as a serial story in The Outlook.

It is a real achievement to be able to offer such a story, the epic narrative of the last American frontier—the one big novel of the Southwest. No writer ever had a more wonderful subject, in its various phases dealing with the no man's land known as Cimarron, the great land rushed as the opening of Indian Territory and the Cherokee Strip, the formation of Oklahoma as a territory and state, and the final enormous development—oil.

No writer ever had more picturesque characters to draw from and no writer could have painted them more faithfully and humanly interesting than Miss Ferber has done. The serial will start in The Outlook soon.

### Attention, Masons!

The interior of Ziegler Brothers' Store has been newly painted and together with the exterior of which we made complimentary mention last week, makes the entire structure present a neat and tidy appearance in its new spring dress. Here is an example for others to follow.

Lesson for April 26

HOW TO PRAY

LESSON TEXT—Luke 18:1-14.  
GOLDEN TEXT—And it came to pass, that, as he was praying in a certain place, when he ceased, one of his disciples said unto him, Lord, teach us to pray, as John also taught his disciples.  
PRIMARY TOPIC—Jesus Teaches Us to Pray.  
JUNIOR TOPIC—Jesus Teaches Us to Pray.  
INTERMEDIATE AND SENIOR TOPIC—What is True Prayer?  
YOUNG PEOPLE AND ADULT TOPIC—Why Pray?

I. "Men Ought Always to Pray" (v. 1).

Prayer is absolutely necessary to the spiritual life. It is to the spiritual life what breathing is to the physical life. Men ought to pray under every variety of circumstances—in times of sorrow and burdens for strength to endure, in times of joy and success for grace to behave aright. Prayer ought to be persisted in even when the answer is not immediately seen. "All men pray at times." To the Christian alone belongs faith-filled and persistent prayer.

II. The Urgent Prayer of a Widow (vv. 2-8).

The picture here is of a helpless widow who was being cheated out of her property rights, coming to a godless judge for redress. Her only means of getting help was to prove the justice of her claim by her persistence. Even this did not gain access to his heart for he feared not God nor regarded man. He complied with her request to get rid of her. The point here is not that God is like this unjust judge, that he can be teased into compliance, but rather the teaching is by contrast. If such action can be secured on the part of a godless judge by persistence, how much surer will the help of God be given to his elect who cry unto him day and night. The helpless widow pictures the church in this age suffering the deprivation of her rights. It is not the church praying for vengeance upon her enemies, but suing for the possession of her rights by virtue of her covenant relation in Christ. The inheritance of the church will be actualized at the coming of Christ. This is why the truth concerning the coming of Christ is so vital to Christianity, and why so disastrous consequences follow the loss of this blessed hope. Every prayer offered by the church will surely be answered. The apparent delay in the vindication of the church may dishearten some and cause others to mock (II Peter 3:4). Jesus' question should be a solemn warning against allowing apparent delay of the coming of the Lord to crowd out our praying. Though many may give up, we should be assured that genuine faith will abide and that the divine promise concerning the coming of Christ shall be fulfilled.

III. The Prayer of the Proud Pharisee (vv. 9-12).

1. He took a striking attitude (v. 11).

The Jewish custom was to stand while praying, but the word "stood" implies the assumption of an ostentatious position. He was self-righteous and trusted in himself.

2. He prayed with himself (vv. 11, 12).

He used the name of God, but it was really a soliloquy. He pretended to be thanking God when he was really complimenting himself—rehearsing his own goodness. His whole thought centered in himself. He congratulated himself for his morality (v. 11). He thanked God that he was not as other men are, such as extortioners, unjust, adulterers, or even as the publican who was standing afar off. One who has been kept from these gross sins ought to be grateful to God but should not set himself above his fellow men because of it. He congratulated himself for his religious merits (v. 12). He fasted twice a week and gave tithes of all he possessed. He thus informed God that he did more than what was required, implying that God was under obligation to him.

IV. The Prayer of the Humble Publican (v. 13).

In contrast with this supposed saint stood the publican, whose shame kept him from even looking up to heaven, beating upon his breast as a sign of anguish of soul and crying out to God to be merciful to him, a sinner.

V. Christ's Testimony (v. 14).

Christ declared that the publican went away justified rather than the Pharisee. The one great and urgent need on the part of men is the confession of sin and a willingness to cry unto God for mercy.

The Ear of God

A friend of any kind and to any extent or degree is something in this cold and lonely world, but to have a friend who has the ear of God, and who fills God's ear from time to time with our name and our cause, Oh, who shall find such a friend in me!—Alexander Whyte.

Trusting in God

Surely it is a poor creed that will only allow us to trust in God for ourselves.—George Macdonald.

SUPPLY CLUBS

A motorist stopped at a suburban tea house, where he was supplied with some very hard and ancient cakes. He glanced at the menu and then sent for the manageress.

"I see from your bill of fare," he said, "that your cakes are all homemade and that you supply clubs."

"That is so," said the manageress.

"Well," said the customer, "just lend me one of your clubs, will you?"—Boston Transcript.

**The Fall Petition**

A petition, asking the President of the United States to issue a pardon for A. B. Fall was circulated here this week, and received many signers by people of all political complexions who believe that their old friend and neighbor has suffered too much.

They also believe that in view of the fact that as others connected with the case have been duly pardoned, it is heaping an additional burden on Mr. Fall, to say nothing of the insult to him in his advanced age, to make him the goat in this matter.

They signed the petition gladly with the hope that the President will take immediate action and give him full and complete pardon.

**Money to Marbles That Kelly is Right**

The charges of Dan Kelly of the Big Four railroad labor organizations to the effect that contractors on the state highway work were employing labor from other states and discriminating against New Mexico labor, has been denied by the contractors, but that does not end the matter.

An investigation will be made on May 1, after the new highway commission takes the reins, after which they claim that Mr. Kelly's charges will be proven without foundation.

We feel different about this matter from the fact that we know Dan Kelly and know him to be a man, who is very careful about what he says and generally has the goods with which to back himself up when he makes a charge. In conversation with several railroad men this week, they told that on the highway near Logan, tramps were put to work and at night they were told that now they were "filled up" and to move on.

Kelly never raises a smoke unless he has some fire to go with it and we would be willing to wager that he is right.

**Soundly built to serve you long and well**

The piston pin is shown one of the many marvelously accurate parts of the Chevrolet quality.

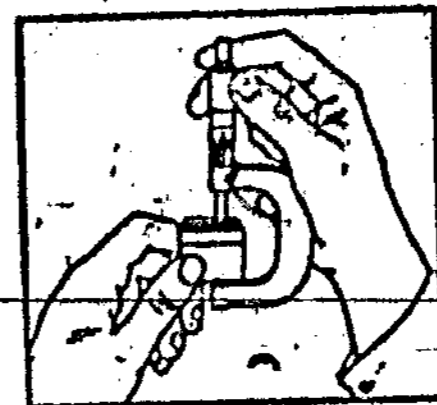

If you could see the new Chevrolet Six being built, you would understand why it performs so well, lasts so long and brings so much satisfaction and pleasure to its owners. The quality of raw materials is held to standards unsurpassed anywhere in the automotive industry. In the manufacture of the engine alone there are hundreds of separate inspections. Pistons are matched in sets to within one-half ounce. Piston pins must be within 1/16 tenths of one one-thousandth of their specified size. Connecting rods are matched to within

one-quarter ounce and are individually fitted by hand.

The special alloy steel crankshaft is the subject of truly amazing care and precision in manufacture and cannot vary from perfection in balance more than 1/16 of an ounce!

These few examples of Chevrolet standards indicate the care used in the manufacture of every part of the car.

Soundly built to serve you long and well! No compromise with quality in manufacture means no compromise with complete satisfaction in ownership.

Chevrolet precision instruments are regularly checked against master gauges which are accurate to one millionth of an inch.

**FORD RELIABILITY**

**Long, hard use shows the value of good materials and simplicity of design**

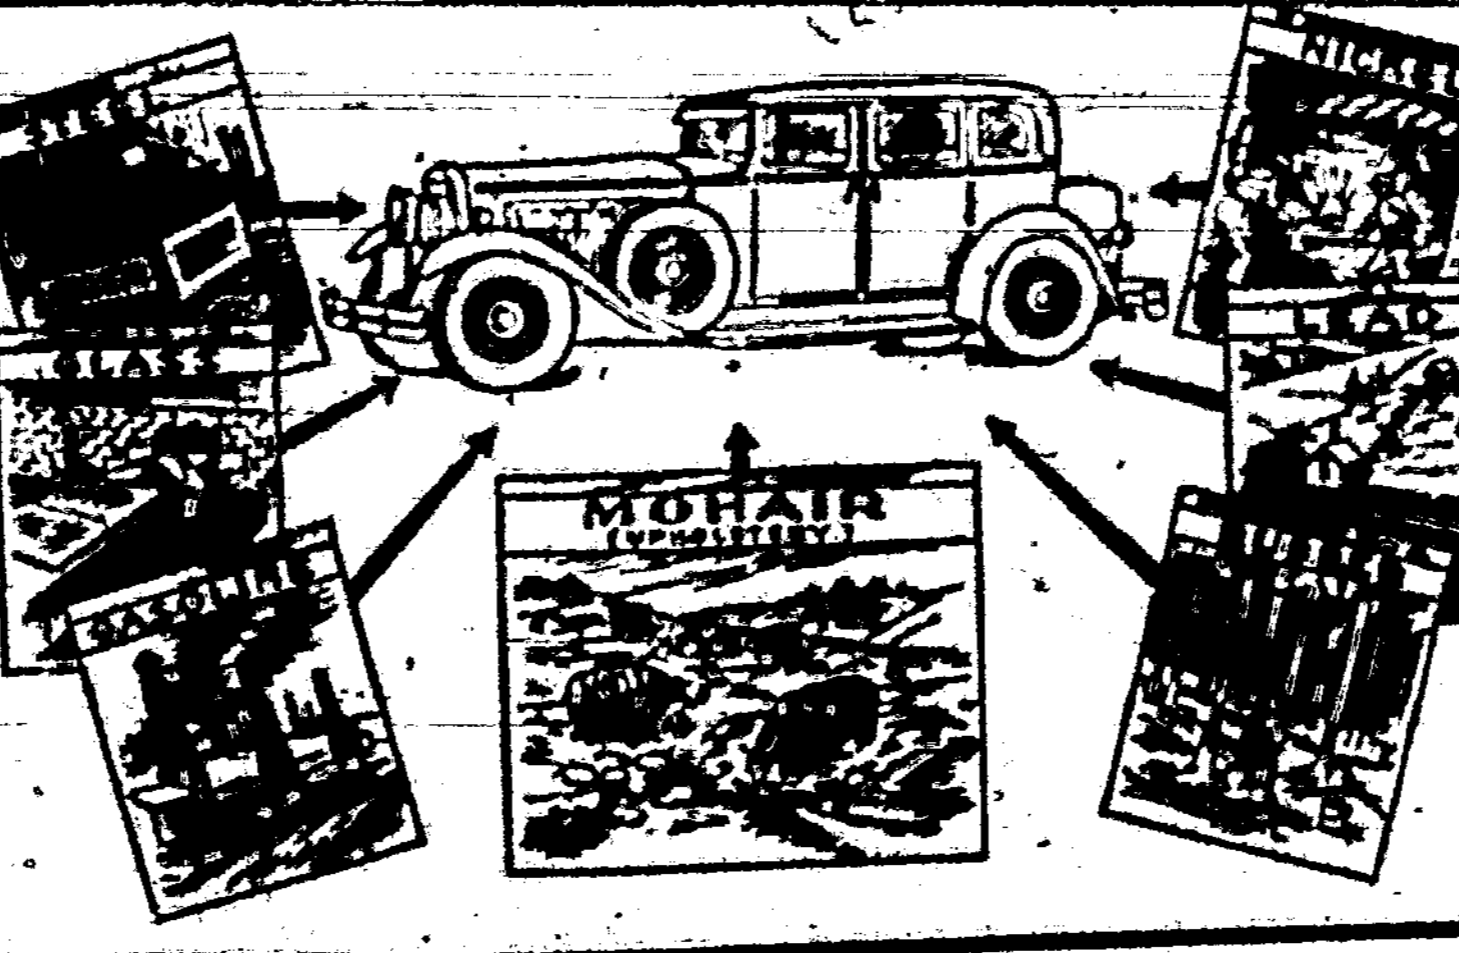

EVERYWHERE you go you hear reports of the good performance and reliability of the Ford.  
One owner writes—"The Ford Tudor Sedan I am driving has covered 59,300 miles through all kinds of weather. It is still giving perfect satisfaction."  
Another owner describes a trip of 3217 miles in 95 hours over bad roads and through heavy rain and sleet in the mountains. "Throughout the entire trip," he writes, "the Ford performed excellently and no mechanical trouble of any kind was experienced. The shatter-proof glass undoubtedly saved us from serious injury when a prairie chicken struck the windshield while we were traveling at 65 miles an hour."  
See the nearest dealer and have him give you a demonstration ride in the Ford. Then, from your own personal experience, you will know that it brings you everything you want or need in a motor car at an unusually low price.

**LOW FORD PRICES \$430 to \$630**

(F. o. b. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost. You may purchase a Ford car or truck for a small down payment, on convenient, economical terms through your Ford dealer.)

**AUTOMOBILE LARGEST USER OF SEVEN AMERICAN INDUSTRIES**

**MOHAIR GOES IN-TO AUTOMOBILES**

Estimate 100,000,000 Yards in Use on Nation's Highways.

TODAY'S automobile is almost entirely an achievement of our natural resources or products. With the exception of rubber which is grown in Africa, India or South America but manufactured in this country, all the basic materials that go to make an automobile are produced in our midst. Steel, mohair, plate glass, nickel and lead are not only American products, but are, together with rubber, used to a greater extent in making cars than for any other purpose.  
Practically every state in the Union contributes to these materials, either in their raw state or in their manufacture. For example, our youngest and fastest growing livestock industry, that of angora goats, provides the mohair which is used in making mohair velvet for automobile upholstery.

Some idea of the demand for this durable fabric, otherwise known as velmo, is gained from the fact that one hundred million yards, it has been estimated, are now in service in cars on the nation's highways.  
These angora or mohair goats, as they are more appropriately called, originally came from Turkey, and the United States imported millions of fleeces annually, but with the introduction of the goats into this country, the mohair industry has gradually been transferred here, with a total annual clip of well over seventeen million pounds.  
The pile fabric made from this fleece in New England mills is generally accepted as being the ideal material for automobile upholstery, because of its long wearing quality, usually outlasting the life of the car itself, because it is easily cleaned and because it affords the greatest riding comfort, all in addition, of course, to its lustrous and beautiful appearance.  
Still another commodity of which the automobile industry is its largest consumer is gasoline. Eighty per cent of all gasoline produced in this country, or twelve and a half billion gallons, is used for keeping the nation's twenty-six million motors a-wheel.

E. M. Brickley returned last Friday from attending the National Bankers' Convention at Augusta, Georgia, he being the only delegate from New Mexico. He came home two days ahead of time, as he had not intended to arrive here before Sunday. He reports a very successful convention and many new ideas for the good and welfare of the banking industry were advanced. Every act has its reason and the principal for his early return was to enable him to attend the state bankers' meeting at Carlsbad on Saturday, where he is one of the principal speakers, which will be of vital interest to the delegates to whom he delivers his report of the Augusta convention.

Mike Doring has returned from his trip to Evansville, Indiana, where he went about two weeks ago on receipt of word to the effect that one of his relatives had died. Mike was glad to get back to New Mexico sunshine.

Mesdames Belknap and Pruett were here from Ancho Monday, doing some shopping and returning home in the afternoon.

E. V. Aboyta of Capitan is here this week, being one of the jurymen in the cases in the district court. Mr. Aboyta is one of the clerks in the Titsworth Co., Inc., at Capitan.

Miss Viola Kimbrell, popular teacher at Picacho, was a weekend visitor here as the guest of her parents, Assessor and Mrs. Wm. E. Kimbrell.

**High School Chorus and Orchestra Concert**

On Friday, April 24, in the high school auditorium, the high school orchestra and chorus will give their last concert of the year. The program will consist of two groups of well varied numbers by both the chorus and orchestra. Along with the larger organizations will appear four soloists: Truman Spencer, Saxophone; Wayne Van Schoyck, Flute; Ansel Swearingen, Trumpet; Eva Vigil, Mezzo Soprano. The first three were prevented from entering in the district meet because of the shortage of time for preparation for that event. They are now ready to appear before the public. Persons who attended the last concert in January, can expect to find that the two organizations have made at least a 25 percent improvement over their last appearance. The proceeds of this concert will go toward paying for the sweaters and music purchased this year. Buy your tickets from members of either the chorus or orchestra and help them end the year with a clean slate. Tickets can be purchased from Reid Dudley at Rolland's Drug Store at any time.

**Heard English Scholars**

William Henry Ireland, 1777-1823, was the son of Samuel Ireland, who was an author, engraver and dealer in rare books and curios. Young Ireland first forged Shakespearean manuscripts to tease his father. Upon finding how credulous he was these forgeries were foisted upon the public. Many scholars were deceived for a time, but exposure followed. The disgrace was said to have hastened his father's death.
