VISITOR TO ALAMO GETS REAL THRILL

Historic Structure Filled With Relics.

Perhaps the best known of all places of interest in San Antonio, Texas, is the Alamo. This famous building faces Alamo plaza, a parkway two blocks long by a block wide, in which grow palms and various other semi-tropical trees and plants.

The thrill of the Alamo comes as you first place foot on its floor. The very atmosphere of the place—the recollection of the deeds of valor enacted within it—quickens the blood.

To stand in the small room, where Colonel Bowie lay ill when the fort was surrounded, brings the struggle for Texas independence very close to the present day—to see the line across which the defenders stepped to indicate their choice when the question of defense or abandonment of the mission was put to them by their commander—to go into the room in which Davy Crockett was slain—all these give the stranger a clear conception of why the Sons and Daughters of the Texas Revolution are justly proud of their state, their history, their distinguished ancestors and its shrines.

The Alamo is filled with relics of early Texas history—each with an explanatory card. A half day can be spent in the Alamo inspecting the mementoes of that period of Texas history, American history and world history too often unnoticed in the busy work-a-day world.

Another interesting sight in downtown San Antonio is San Fernando cathedral. This remarkable old church was built in 1731. It is in an excellent state of preservation and services conducted in Spanish are held in it every Sunday.

Next door to it is a modern structure of twelve stories, and as one stands across the square and contemplates the two, one cannot fail to be struck with the contrast between the busy, thriving city of today and the Spanish world that flourished once at San Antonio and is gone forever.

Find Centuries-Old Trees.

Quite recently some white birch trees which had been buried for centuries were discovered in the vicinity of the village of Riviere St. Jean, Quebec, by a field officer of the topographical survey, Canadian department of the interior. The remarkable thing about these trees was their state of preservation. Specimens were presented to the forest products laboratories, department of the interior, at Ottawa, whose officers state that preservation was due to a surplus of water and a deficiency of air, conditions inhibiting the growth of wood-decaying fungi.

Relief From Neuralgia In Few Minutes

Quick Dissolving Property of BAYER ASPIRIN Starts Relief 3 or 4 Minutes After Taking

Think of a headache going in three or four minutes. The pains of neuralgia, neuritis or rheumatism being eased, often, in that little space of time!

Due to important, scientific developments in the famous Bayer Aspirin laboratories, millions of people are enjoying this almost unbelievably quick relief from pain.

That is because Bayer Aspirin dissolves almost instantly in the stomach. And thus almost INSTANTLY starts to ease pain. The average headache, for instance, eases in as little as four or five minutes. Think of what a time

saver this is to busy people.

Remember it is Genuine BAYER Aspirin which provides this unique property. So see that you get the real article when you buy. See that these three words "Genuine Bayer Aspirin" are on any box or bottle of aspirin that you buy. And that the name "Bayer" is stamped in the form of a cross on any tablet that you take.

Remember that when you buy. And remember, too, that Genuine Bayer Aspirin cannot harm the heart. Take care you get the genuine.

NO TABLETS ARE GENUINE BAYER ASPIRIN WITHOUT THIS CROSS

Youthful Wine-Bibbers

School teachers in the Hungarian village of Lenthegy were shocked when their young pupils, some of them only five or six years old, staggered to their desks, began to bawl and shout and give every evidence of being drunk. They were. The village well, its only source of water supply, had dried up, and the children drank the rich Tokay wine of the district instead. Wine is cheaper than water in some parts of Hungary, and several cases have been reported recently of wine being used to put out fires.

Democrats Control Both Branches of Congress

The next congress will be both Democratic and wet.

The house will be overwhelmingly Democratic, and a comfortable Democratic majority in the senate was assured by Tuesday's voting.

President Roosevelt should have a congress working harmoniously with him to carry out his program.

Among familiar faces that will be missing in the United States senate after March 4, it appears, will be the following:

- Hiram Bingham of Connecticut. Reed Smoot of Utah. Otis F. Glenn of Illinois. James E. Watson of Indiana. George H. Moses of New Hampshire. Smith Wildman Brookhart of Iowa. John J. Blaine of Wisconsin. Samuel M. Shortridge of California. Bingham, Smoot, Glenn, Watson and Moses lost in election. Brookhart, Blaine, and Shortridge were defeated in the primaries.

In Illinois Roosevelt's plurality is estimated at 410,000. Horner, for governor, led the Democratic landslide with an estimated 650,000 plurality over Small. The rest of the Democratic ticket, with the exception of a few congressmen and legislators, won by substantial margins. For United States senator Dieterich's plurality over Glenn is put at 226,000.

Indiana—Senator James E. Watson, veteran Republican legislator, was defeated for re-election by Frederick

Van Nuys. Paul V. McNutt, former American Legion commander, Democrat, was elected governor.

In a neck-and-neck race, Governor Roosevelt and President Hoover fought for the electoral vote of Michigan, which had not gone Democratic in 80 years. Latest returns gave Roosevelt a lead of about 5,000. For governor, William A. Comstock, Democrat, was victor over Gov. Wilbur M. Brucker, Democrat led congressional races.

The Democrats swept Missouri's 13 house seats, all of which were elected at large. They picked up two in Connecticut, four each in Missouri, New York and Pennsylvania, one each in Rhode Island, Virginia, South Dakota, Ohio, Oklahoma and Illinois, on the basis of incomplete returns.

Former Senator James W. Wadsworth, Republican, was elected to the house from the Thirty-sixth New York district.

Speaker John N. Garner was elected from the Fifteenth Texas district, but plans to resign from the seat when he becomes Vice President on March 4.

News Review of Current Events the World Over

Great Democratic Landslide That Carried Roosevelt and Garner to Victory—Gossip About the Next President's Cabinet.

By EDWARD W. PICKARD

RIDING triumphantly upon the crest of a tremendous wave of discontent, Franklin D. Roosevelt was elected President of the United States, the thirty-second man to win to that lofty eminence.

Franklin D. Roosevelt

Herbert Hoover went down to cataclysmic defeat because of conditions and circumstances beyond his control and not of his making.

The defeat of the Republican national ticket was the greatest sustained by a major party in more than a century. Governor Roosevelt carried forty-two states and has a vote of 472 in the electoral college.

President Hoover won in only Maine, Connecticut, Delaware, New Hampshire, Vermont and Pennsylvania. His electoral college vote is fifty-nine.

It is likely, too, that a measure to legalize beer will be put through the lame duck session of congress if the plans of the wets work out, though the dries will fight it as long as they can.

THE DEFEAT of the Republican national ticket was the greatest sustained by a major party in more than a century. Governor Roosevelt carried forty-two states and has a vote of 472 in the electoral college.

DEMOCRATS of Illinois, with the aid of thousands of Republicans, not only gave Roosevelt and Garner a handsome plurality but elected their entire state ticket.

ONE outstanding result of the election was the immediate launching of a general movement among the foreign debtors of the United States to obtain revision or cancellation of their debts.

GERMANY also had an election, and is struggling with the tangled condition resulting therefrom. It was held to choose members of the reichstag for the fifth time in 1932, and was as indecisive as those preceding it.

FOR three days the United States fleet held maneuvers off Los Angeles harbor under simulated battle conditions, with nearly one hundred vessels participating.

really not partisan, it would be gratifying to the people to see the President-elect and his party co-operating sincerely with the administration of President Hoover in seeking their solution.

MR. ROOSEVELT at least proposes to try to get his program for national recovery started during the coming short session of congress. He let it be known that he would invite the leaders of the present senate and house to a conference at his winter home at Warm Springs, Ga.

It is likely, too, that a measure to legalize beer will be put through the lame duck session of congress if the plans of the wets work out, though the dries will fight it as long as they can.

GREAT interest is now evinced in the makeup of Roosevelt's cabinet. Before the election he announced that he had made no commitments, and to date he has made known none of his selections.

Alfred E. Smith

leaders who feared nothing else would so alarm business as the selection of radicals for positions of importance. It was not thought likely that Mr. Smith would himself accept a place in the cabinet but possibly he might be appointed chairman of a commission to reorganize the federal government.

Mention as possible cabinet members were John W. Davis or Newton D. Baker for secretary of state; Melvin A. Traylor or Owen D. Young for secretary of the treasury; National Chairman James Farley for postmaster general; Governor Ritchie, Senators Glass, Walsh of Montana and Harrison; former Gov. Harry Byrd of Virginia and Bernard Baruch.

ONE outstanding result of the election was the immediate launching of a general movement among the foreign debtors of the United States to obtain revision or cancellation of their debts. They seemed to think the change of administration would give them as well as the people of the United States a "new deal."

SOVIET Russia, especially in Moscow, celebrated the fifteenth anniversary of the October revolution, which by the standard calendar now in use there comes on November 7.

CUBA suffered the greatest disaster in the history of the island when a tropical hurricane struck its southern shores. The entire province of Camaguey was devastated, the town of Santa Cruz del Sur was utterly wiped out and other places, including the city of Camaguey, were partly wrecked.

ARMISTICE day was selected as the date for the wedding of John D. Rockefeller III, heir to all the uncounted Rockefeller millions, and Miss Blanche Hooker.

J. D. Rockefeller III

bridesmaids were Mrs. H. Edward Bilkey and the Misses Mary French, Faith Rockefeller, Diantha Walker, and Virginia Furman.

Neison A. Rockefeller was best man for his brother, and the ushers included a cousin of the bridegroom, Avery Rockefeller, as well as three brothers, David, Laurence and Winthrop Rockefeller, and a brother-in-law, David Milton.

MEASURES designed to save at least \$500,000,000 annually in government expenditures for veterans and other purposes are recommended in a report made by a special committee of the Chamber of Commerce of the United States, of which Matthew S. Sloan is chairman.

The report has been sent to 1,500 business organizations throughout the country to synchronize the efforts of the commercial associations of the nation in a movement "for an aggressive renewal of the economy drive."

As a first move the budget director's office weeded all items of expenditure in the 1933 appropriations which will not recur this next year. These included some \$60,000,000 expended for wheat for Red Cross distribution, around \$200,000,000 slated for expenditures on public works under the \$2,000,000,000 reconstruction bill, and about \$30,000,000 in other items.

SENATOR BORAH of Idaho, chairman of the senate committee on foreign relations, went to Washington immediately after the election and began hearings on the treaty providing for joint construction of the St. Lawrence waterway by the United States and Canada.

Vigorous opposition to senate ratification of the treaty already has developed. Indications were that the opposition will be centered around the section permitting Canadian authority over Lake Michigan to the extent of limiting the Chicago water diversion, the power features of the \$300,000,000 project, and the divisions of cost between the United States and Canada.

FOR three days the United States fleet held maneuvers off Los Angeles harbor under simulated battle conditions, with nearly one hundred vessels participating. The ships included three plane carriers, about sixty destroyers from the San Diego base, thirteen cruisers, four of the V-type submarines and ten auxiliary craft.

SOVIET Russia, especially in Moscow, celebrated the fifteenth anniversary of the October revolution, which by the standard calendar now in use there comes on November 7. The famous Red Square in the capital was the center of the ceremonies and a million persons took part in the demonstration of the nation's military and labor power.

Scientists feed

50 babies...

to help you feed yours

YOU can't nurse your baby? Then read of a recent feeding test conducted by two eminent baby specialists.

Let their findings help you decide—what milk for my baby.

For a test, fifty average babies were chosen. Into their bottles—through the months of the test—went a milk known to millions of mothers and grandmothers in this country as a wonderful baby builder.

That milk was Eagle Brand. Eagle Brand was the only food these babies received, except for the usual supplementary foods\* now given even with mother's milk.

And how those babies were studied! Regularly, X-Ray pictures of bones were taken. Tooth development was watched. Weights and heights recorded. Blood counts made. And all these results were compared with other groups of babies, similarly fed on other foods.

What the test showed

At last came the verdict: Measured by every scientific test, the result was favorable to Eagle Brand. This simple diet—Eagle

Brand with the usual supplementary foods\*—had proved equal to the building of 100% babies.

Send for FREE baby booklet

If you cannot nurse your baby, try Eagle Brand. Next to mother's milk, it is the easiest form of milk in the world to digest. Millions of babies have been raised on it—babies whose strong, healthy constitutions—sound teeth—straight bones—firm muscles—are living proof of its benefits.

Just follow simple directions on label. And send for "Baby's Welfare", an 80-page guide-book on raising a baby.

A report of the physicians' test will be sent your doctor, on request.

\*The usual supplementary foods, of course, are orange or tomato juice, and cod liver oil or other source of the anti-rachitic vitamin D.

Joe Trimble, of Trimble & Beckett, former proprietors of the Carrizozo Bakery, strolled out to the foothills of Carrizozo mountain on Nov. 9 (the day after election) and killed a two-point, nice and tender, buck. Joe brought us a liberal portion of the venison, for which we extend our thanks. He had been hunting about one hour when he saw the animal. Beat this if you can.

**Washington School News**

Reporters—Bill Hobbs and Dolores Mirabal:

We are having our program tonight. We want to make a lot of money to buy books for our school library.

Thursday will be Thanksgiving Day. Some of us are going over the river and through the woods to grandfather's house. We hope we will have turkey, pumpkin pie and mince pie for our dinner. We must not eat too much.

Our teacher is going to Capitan to a teachers' meeting this Wednesday. We will have two holidays. Then we will be back to school on Friday. But we do not mind that. We like to go to school.

Today is a pretty day. We play in the nice sunshine all we can. It makes us healthy.

**Methodist Church**

One hundred and seventeen in Sunday School last Sunday; 40 at Capitan and 45 at Angus. A good crowd was in attendance at the combined Epworth League and church services in Carrizozo last Sunday evening. Please remember that the combined Epworth League and church services begin promptly at 7:15. We are trying to keep the service as nearly within the limit of an hour as possible. We believe that this is a worthwhile service, and as many of the older people as possible ought to meet with the young people. Next Sunday the Presiding Elder, The Rev. S. E. Allison, will be with us for both morning and evening services. He will hold the First Quarterly Conference after the evening service. This is an open service and all are invited to attend.

**A Pleasant Surprise**

On Wednesday evening, at about 7:30, cars began stopping in front of the Baptist Pastor's home, and the good ladies began knocking on the door.

As they came in, each one was loaded with a generous donation for the pantry. Some had potatoes, some parsnips, some pumpkins, others brought chickens, apples, flour, lard, canned goods of various kinds; in fact, when it was all assembled in the kitchen, there was a grand display of things to eat, for which we are deeply grateful.

We feel that indeed our "lot is cast in pleasant places."

While the intrinsic value of the donation was considerable, the thoughtfulness of these good people means a great deal more to us than the cash value of them.

To each one of you who had a part in this very generous act, we wish to say, Thank you. And may Heaven's richest blessings be yours.

**HIGH SCHOOL NOTES**

Hi School Reporter:  
**What Hi School Students Think of Their Teachers**

A questionnaire suggested by Dr. F. W. Hart, Professor of Education at the University of California, was submitted to the students of the Carrizozo High School. Each student was asked to designate the teacher he or she liked the best as Teacher A, the teacher most disliked as Teacher Z, and if neither A nor Z proved to be the most effective teacher he or she was to designate that teacher who was most effective as Teacher H. The questionnaire was to include year in both grade school and high school.

Dr. Hart submitted this questionnaire to 10,000 high school Seniors in California. 80 percent designated Teachers A and H. 1/2 percent, Z and H, leaving 19 1/2 percent to choose a third teacher as the most effective.

Quoting from replies received from students of the Carrizozo Hi. Teacher A may briefly be described as follows: "He does not make the student feel inferior or ignorant. Careful explanations are given concerning all puzzling questions or theories. He's a great guy." Another example: "She's always kind to everybody and helps her pupils in their lessons."

More examples: "He was not a teacher who was always using some harsh methods but was so kind that we were ashamed to disobey him." "She is cheerful and always ready to give one a fair chance, even going out of her way to help one." "Teacher A is honest and has always seemed to me an ideal teacher. She explains everything and is not cross when one asks questions." "Teacher A is extremely human, has a good sense of humor, enough patience and is just generally a good teacher with a distinct personality. One of the good qualities is treating the pupils as human beings."

"Teacher A knows you and speaks to you out of the classroom." "I like Teacher A because she is humorous and does not fuss. She makes assignments interesting and explains anything we do not fully understand. She can explain so that even a dumb-bell can understand. That's one reason why I like her. She uses her ability to do things and knows how to act in public. She is a wonderful teacher."

"I like teacher A because she can laugh and take a joke. Teacher A is a good teacher because she treats everyone the same. She has a good character. One thing that stood out was her sense of humor. She not only teaches sense but good 'horse sense.'" "Teacher A is a friend wherever you see her. The subject she teaches is hard for me but the assignments are always clear. She is never fussing and quarrelling with the pupils. She is very reasonable."

"Teacher A gives everybody a fair chance and is always ready to help anyone. She is not interested in the money but in the children. She has a wonderful knowledge of her subject so we respect her ability. He treats you fair and square and does not show partiality. Teacher A keeps the pupils orderly and they don't run over her. She gains the respect of all the pupils. Teacher A believes in having a good time occasionally and makes the work interesting."

"When he scolds he is always right and has a cause. He is a good teacher because he knows his business. Teacher A enjoys a good joke at all times, good or bad. When you go to one of her classes you get something out of it. She minds her own business. She not only teaches you the subjects but the nice things in manners. She stops her own Z.
