

4TH OF JULY

Big Rodeo at Fort Stanton July Fourth

Below is a list of the prizes offered, and the rules governing the big rodeo to be held at Fort Stanton on July Fourth:

General Rules

The management reserves the right to change all rules and prizes if conditions require.

Management assumes no responsibility for injury to contestants or stock.

The decision of judges shall be final, and said decisions will be based on approved practices of rodeos over the country to the best ability of the judges.

Steer Riding:—1st prize, \$15; 2nd prize, \$10; 3rd prize, \$5. Entrance fee, \$2. Must have six entrants. This is a one-hand contest and riding is to be done with loose rope. Each steer must have bell—no bell no marking. This is a kicking contest, boys, so scratch him all the time until the judge signals to dismount. Judges will grade .50 on ride and .50 on animal. No re-rides.

Calf Roping:—1st prize, \$20; 2nd, \$10; 3rd, \$5. Entrance fee, \$2. Must have eight entrants. Calves will be given dead-line start and when calf crosses dead-line he is roper's calf, regardless of what happens. Ten seconds fine for roper's horse being over foul line when starter's whistle blows. This is a catch-as-catch-can contest, but roper must not bust calf, but must dismount and go down rope and flank calf down by hand; he is to cross and tie three feet in any fashion so long as tie holds. Upon completion of tie roper will raise hands high in air as signal, and must not touch calf after that. The tie judge will turn calf completely over in inspecting tie and if tie holds this test it will be a bona fide tie and count. Best time wins. Roper allowed two loops. Roper roping calf without turning loose the loop will be considered no catch. To be timed with a stop watch.

Bronc Riding:—1st prize \$20; 2nd, \$10; 3rd, \$5. Entrance fee, \$2. Must have six entrants. Riders will draw for mounts and will ride in whatever position their horses may come to chute. No cheating of horses will be allowed, and riders will to the best of their ability give their mount a real ride. Grade, .50 on ride and .50 on animal. The judges will govern their decisions accordingly.

Wild Cow Milking:—1st prize, \$15; 2nd, \$10; 3rd, \$5. Team, 2 men. Entrance fee \$2. Six entrants required. Cows will be given dead-line start and when cow crosses dead-line she is roper's cow regardless of what happens. Roper fined ten seconds for being over foul line when starter's whistle blows. Either man may milk; either man may rope; either man may return the milk (on foot or on horseback); however, roper must hold cow on horse in any way except that she must be left standing on her feet—on knees permitted while milking is done. If she goes down she must be gotten to her feet before milking. The object is to secure milk and return to starter in shortest time possible. By milk is meant sufficient to run from one side of bottle to the other. Bottles will be furnished by management. Contestants are expected to turn their cows loose

PERSONALS

Mrs. Ira Greer and son Jack spent the week-end with Mrs. Greer's parents, Mr. and Mrs. P. M. Johnson and other relatives. They returned home to the Greer ranch in the San Andres mountains Monday.

Eddie Long, of the Titsworth Company of Capitan was a business visitor in town this Monday.

Mrs. Frank Khoe and son Frank, Jr., are here visiting Mr. and Mrs. E. L. Fernsten; Mrs. Khoe being Mrs. Fernsten's sister.

Dr. and Mrs. R. T. Lucas and Miss Rosalind Burke came in last Saturday evening from Kansas City and will remain for about two weeks with Mr. and Mrs. A. L. Burke and son Lewis, after which they will go to Chicago to attend the World's Fair before returning home.

Mr. and Mrs. Brack Sloan are spending a portion of the week in Roswell, Brack attending to some important business matters.

after milking is over and time completed. Best time wins. No busting of cows. Time will stop when man returning milk crosses starting line; i. e. he can cross line in a dead run with the milk, pull up his mount and come back for starter to examine the bottle as to milk or no milk.

Goat Roping:—1st prize \$20; 2nd, \$10; 3rd, \$5. Entrance fee, \$2. Must have eight entrants. Goats will be taken to the middle of the arena and goat and roper will start at a given signal, from points to be designated, at the same time—that is, when starter's signal is given roper may cross foul line and at the same instant goat is turned loose. He is roper's goat from this time on regardless of what happens. Roper is to start from scratch behind foul line—no running start and taking of time as mount crosses foul line. This is not meant to prevent a contestant from approaching line in a walk or trot, but he must not cross line before signal from starter. Penalty for being across line when goat turned loose, ten seconds. This is a catch-as-catch-can contest and the same rules apply as in calf roping, except as noted above.

Cigar Race (Mounted):—1st prize, \$3; 2nd, \$2; 3rd, \$1. Entrance fee, 25c. Held on picnic grounds 10:45 a. m. At a signal from starter, rider brings his mount up to and across starting line on dead run; he is to ride to a given point, about 75 yards, where he dismounts, takes wrapped cigar from judge standing at this point, unwraps cigar, bites off end, lights cigar with matches furnished by judge, mounts horse and races back across original starting line blowing smoke. No returning on foot if horse gets away from you. No smoke, no time. Time is snapped as rider crosses starting line and is stopped when he crosses same line on return. Best time wins.

Contestants will be admitted free, to grounds if entered in events bringing entrance fees to \$4 or more. This applies to contestants only.

The management reserves the right to close entries to events at twelve, noon, July 4, 1933, if conditions warrant.

W. C. Hendren,
In Charge of Rodeo.

The Day of the Picnic

S. P. Announces Another Dollar Day, June 30-July 4

Excursion travel over the Fourth of July this year will have the lowest fares ever offered for the holiday period, it was announced today by C. P. Huppertz, Agent for the S. P. Company here.

Arrangements have been completed, he said, for Dollar Day offerings of cent-a-mile round-trip transportation from June 30 to July 4 inclusive, with return limit of July 11.

The low-fare program will embrace all of the railroad's lines in six western states, according to the announcement.

Mr. and Mrs. Lell St. John, Mr. and Mrs. Porfirio Chavez, daughter Cuca, the Misses Rosa Sandoval and Rosa Padilla, John Brady, Ernest Lopez, Eloy Vigil, Fred Martinez, Sat and Manuel Chavez, attended a big wedding dance at Tularosa Monday night.

Mrs. Ward Burleigh and small daughter Barbara, came in last Saturday from Kansas City and are visiting Mrs. Burleigh's grandparents, Mr. and Mrs. Fred Neighbauer at their ranch home across the Malpais. They will be here for about two weeks.

Marion Jolly was here Tuesday from Corona and gave us the facts about the horse race which is to take place Saturday. Marion's chestnut sorrel "Snipp" will race with forest ranger Messer's black mare for a good sized purse and besides, there are lots of side bets on the outcome of the race. Carrizozo race horse lovers and others who delight in seeing a good horse race, should not fail to attend.

American Legion Meets in Tucumcari Aug. 3-5

Tucumcari, June 18.—Special to the Outlook.—Four delegates will attend the twelfth annual American Legion Convention, Department of New Mexico, to be held here on August 3, 4, and 5, according to E. M. Barber, Post Adjutant. Mr. Barber stated that a larger number of Carrizozo Legionnaires might make the trip as representatives of the Benj. I. Barry Post, No. 11.

Plans for the coming convention are now being made that include one of the greatest arrays of speakers ever to address a New Mexico Department convention. H. W. Neeley, State Adjutant, on a recent trip here, stated that prospects are bright for one of the best conventions in the history of the organization.

Mrs. Garrison Entertains

Sunday evening at their home in the western part of town, Mr. and Mrs. C. O. Garrison entertained at a 6 o'clock dinner in honor of Mr. and Mrs. Carl Jones. After the dinner, a party of close friends made their appearance, joining host and hostess, springing a surprise on the couple and presenting them with a beautiful electric toaster.

Bridge was played for the remainder of the evening; the following being present besides the host, hostess and honor guests: Mr. and Mrs. J. V. Taylor, Mr. and Mrs. M. U. Finley, Attorney and Mrs. E. M. Barber, Mr. and Mrs. J. M. Beck, Mr. and Mrs. S. Dewey Stokes and Mr. and Mrs. Doyle Rentfrow.

Popular Dry Goods Co. Complete 31 Years Successful Business

Those who know the Popular Dry Goods Company, of El Paso, Texas; feel that it deserves the recognition won during its 31 years of service as the "Southwest's Greatest and Most Complete Department Store."

The Popular Dry Goods Company enjoys the reputation of being one of the best organized Stores in the country with a well trained and efficient personnel. Many of the workers having practically grown up with the Store. Out of the 500 employees more than two hundred have seen service from ten to twenty-five and a number are nearing the thirty-year milestone.

The commodity market has risen, and so great has been the upswing that manufacturers have withdrawn price quotations and are unwilling to accept orders for future delivery in the face of a "Bull" market.

The prices that will prevail during the Anniversary event will give to customers of the Store "Once in a life time opportunity," and will be a last call on low prices.

In sending this message to its friends in the Carrizozo District, the Popular extends a cordial invitation to attend the Sale, and make whatever purchases they are in need of that they cannot buy from their home town merchants, and if they cannot attend the Sale in person, they are invited to write, wire or telephone the Mail Order Department for any items they may be interested in.

The Sale starts on the morning of June 26th, and will continue for one week through Saturday, July 1st.

ANCHO ITEMS

Mrs. C. H. Peters accompanied by daughter, Mrs. Pete Frame, made a trip to Reserve and after visiting friends for the week-end, returned Monday.

Mrs. Barney Wilson writes that she is enjoying her school work at Silver City, very much.

Mrs. S. J. Pruett and son J. A., spent last week in Duran.

T. J. Straley, Jr., was here Monday enroute to his home in Pueblo, Colo., after a brief stay in El Paso.

The Ancho Woman's Club will hold its next regular meeting at the home of Mrs. R. E. P. Warden June 21.

The Misses Mary Pickett Warden and Evelyn Willingham had an exciting experience in a thunder storm near Largo recently, when they received a severe shock from lightning. They were horseback riding at the time.

Mrs. Walter Silvers and daughter Sally were guests at the T. J. Straley home for several days. Monday, they motored to Carrizozo with Mrs. Pete Frame.

Mr. and Mrs. R. W. Ferguson entertained with a party Saturday evening at their home west of here. Dancing was the main diversion. Refreshments were served to a large number of guests.

Mr. and Mrs. H. W. White and Mrs. Helen Allen of El Paso came in last Friday to visit the Harry Straley family. Mr. and Mrs. White have returned to El Paso, while Mrs. Allen will remain for a more extended visit.

A large crowd attended the dance at the school house Saturday night. People were here from Corona, Jicarilla and other points.

Lightning Plays Queer Freaks Without Damage

Last Thursday at the Warden ranch near Ancho, while Mary Pickett Warden and her guest, Evelyn Willingham were out horseback riding, a thunder storm came up and a bolt of lightning struck near at hand. The effects of the bolt were plainly felt by the girls. Evelyn experienced a sensation like that of a huge hand, which seemed to bend her nose to one side and also seemed to raise her hair with a tingling sensation at the roots. Strong fumes of sulphur filled the air.

The experience of Mary Pickett was somewhat similar but more violent; the effect of the lightning was on the top of her head, but unlike that of her companion, the electricity ran down her right side and passed out through the foot. Of course, this was but a faint shiver from the main bolt or another story and possibly a sad one would have taken the place of this narrative in which the girls are to be congratulated on their narrow escape.

Mrs. Carl Jones entertained with cards and refreshments Tuesday evening, that date being the birthday of her husband. Two tables were arranged for bridge and a pleasant evening was spent.

OUT OF THE ORDINARY

Carl Taylor of Meridian, Okla., owes his life to a tooth. Carl is a school superintendent and is fond of hunting. While out with his rifle recently, the rifle was accidentally discharged, the ball went through his right thumb, passed up the arm, entered the jaw and lodged in one of his front teeth.

Michael Wolohowicz, who had served as school director on the board at Scranton, Pa., for the past 17 years, testified in court the other day that he could neither read nor write and had never gone to school a day in his life.

Just before the cold rainy season set in, when the weather was so hot, Joe Fazekas and Ed Dixon working on the coal chute at Vaughn, on going to the ice box for ice to fill their coolers, found a big snake coiled around a cake of ice and sound asleep to escape the hot weather.

Bannery Shaw, Red Oak, Ia., demonstrated courage and action recently, when a swarm of bees settled in a tree in his yard. He covered his head and face, put on long gloves and made an attempt to scare them away. In the midst of his efforts the limb bearing the bees broke, and came crashing to the ground. The queen bee made for Shaw and flew up his pants leg, followed by a portion of the swarm. Shaw unbuckled his belt, unbuttoned his shirt and the queen, seeing daylight, found her way out and Shaw escaped without a sting.

Over a long period of years, four sons of Mr. and Mrs. H. P. Sherman of Pittsburg, Kansas, have married four daughters of Mrs. E. H. Pease and still live in that section of the state. The four couples are the parents of eighteen children.

At Salt Lake City, Dorothy and Elizabeth Gowdy are twins and do everything alike. One teaches school at Easley and the other in her home town. Not long ago, both were victims of appendicitis and both were taken to the hospital and operated on the same day. If one gets married, she will not do so until her twin mate does, but just now, they prefer to be old maids.

Carrizozo Was Rained Out at Mountainair Sunday

Harry Miller's ballsters went to Mountainair last Sunday and lost a 7-inning game by a score of 8 to 3. In the first of the 7th, rain began to pour down in torrents and the game had to be called in favor of Mountainair.

Russell Jordan made his debut on the mound for Carrizozo for two innings, and according to reports from his teammates, he showed promising stuff. "Red" pitched the remainder of the game. Tony hit one over the fence for a homerun. The Southwest Lumber Co. team from Alamogordo will be here Sunday; The "Black Aces," (colored), on the following Sunday, and we'll go to Fort Stanton on the 4th of July.

The Stokes Brothers, Dewey and T. J., branded their calves the first of the week. They had Joe, Frank and Martin Vega helping them.

Scenes and Persons in the Current News

1—Scene during the conflagration at Long Beach, Calif., that followed the fatal oil explosion in the Richfield plant. 2—"Forgotten women" enrolling for the work camps for unemployed females in New York, a plan that is becoming popular all over the country. 3—Mrs. Franklin D. Roosevelt with Mrs. Pattie Willis South, eighty-year-old Kentucky widow who realized her dearest ambition when she was entertained at dinner in the White House.

Where the President May Spend Vacation

President Roosevelt hopes to spend part of his summer vacation in this residence which he built on the little Canadian island of Campobello next to the one in which he spent his boyhood summers.

Washington Digest
National Topics Interpreted
by William Bruckart

Washington.—Within a few days now, the treasury will be closing the gigantic set of books and accounts, and thus will mark the end of another Business Improving

fiscal year for our government. This event will transpire at the close of business, June 30, and on the succeeding day fresh accounts will be opened and new appropriations will be available out of which the government will be run in the next twelve months. It seems, therefore, that a review may well be undertaken to show, as I believe to be true, that the low point of the depression was reached sometime last winter and that now a slow but steady improvement is taking place. Some years will have to elapse, however, before the full effect of this greatest of economic breakdowns can be thoroughly appraised and the lessons learned. This review then must be confined as closely as may be to an analysis of what has happened to the government, how it has sustained itself under conditions of the kind and consideration of what is scheduled to be or is being accomplished.

That any statement as to when the bottom of the depression was hit will be questioned is quite obvious. I base my statement, however, on the best barometer that is available, namely, tax payments under levies applied to sales of certain merchandise. The result is definite. These taxes have been increasing through the last four months. Experience has developed the fact that the receipts do not start reaching the treasury in any volume until three to four months after the business itself has begun to increase. I know that the government authorities who read all of the signs and read them accurately consider the picture most heartening.

But let us get down to cold figures and let them tell the story. For example, we may first look at the condition of the treasury's books as the end of the fiscal year passes. They show total receipts for the year to have been around \$1,050,000,000, and expenditures to have aggregated about \$3,725,000,000. So there is a deficit of around one and three-quarter billions. That is, the government spent that much more than it received in taxes and other revenue. It has borrowed just that much money in the year, over and above the refinancing that it had to do in meeting bonds and notes that matured.

Such a vast deficit would seem hopelessly insurmountable were it not for the consolation of comparison. When we look back to the fiscal year that ended June 30, 1932, we are astounded to find that the deficit approached three billion dollars, so that a reduction of more than one billion dollars has been achieved.

At the start of the current fiscal year last July 1, there was every indication that the cost of government for the twelve months would be at least two and a half billions greater than its revenues. Expenditures have been cut, however, so that the outgo during the last eight months of the Hoover administration and the first four months of the Roosevelt administration was materially reduced. Yet that alone could not have brought the deficit down as much as has happened. The answer to the question concerning the source of the other factor lies, as I said before, in growing tax receipts.

The reference to income taxes brings to mind a point about federal revenue that has proved puzzling to many persons. It might be supposed that if business is better there would be more income taxes paid. That is a correct supposition. The error lies in the thought that these taxes are helpful immediately. They cannot be. They are always a year late insofar as the government is concerned, since the income taxes paid in 1933 are on incomes earned or received in 1932, which happened to be the worst of the series of hard years. In addition, there is the condition existing that results in income taxes being paid in two fiscal years on incomes received in one calendar year. The first and second quarterly payments are made in March and in June, which months are in the last half of one fiscal year, and the payments in September and December are in the first half of the succeeding fiscal year. While that fact actually makes no difference since the government gets the money anyway, it happens to make a difference in the totals that is of consequence when the treasury is so far behind on receipts as now occurs. The point is mentioned in order to contrast the importance at this time of receipts from those taxes that have to be paid monthly, such as the manufacturers' sales tax on radios, cigarettes and beer, to mention only a few.

The miscellaneous taxes this year have yielded close to \$225,000,000, just about \$250,000,000 more than was received from this source in the last fiscal year, but the difference in amount is made the more significant when it is known that it was registered in the last four or five months.

Take the month of May, for instance, the last month for which final official figures have been compiled, the miscellaneous internal revenue amounted to \$93,501,000, whereas in May, 1932, this item was only slightly more than \$36,000,000.

Undoubtedly, the legalization of beer has made a vast difference in the total miscellaneous tax receipts, although it has not accounted for all of the total by any means. Treasury officials say that the beer tax is larger than they had anticipated and that it may possibly average \$20,000,000 a month for a year as a whole. It has not been a tax that could be applied everywhere, however.

And another source of revenue should be examined to prove that there is an improved condition in business. That source is receipts from tariff duties laid on imports from foreign lands. It was only last summer that monthly totals of tariff duties were little more than half of the amounts paid in comparable months of the preceding years for the privilege of bringing merchandise into the United States for sale. That condition has now been changed. In April and May of this year, customs receipts were larger in each period than in the same month of 1932. Last month, the tariff duties yielded \$20,515,000, while in May, 1932, they yielded only \$18,003,000.

A complete analysis of this item of government revenue also would call attention to the fact that the prices of merchandise are lower now by a substantial percentage than in April and May of last year. That fact is important because more than 70 per cent of the tariff duties are assessed on what is called the ad valorem basis. That is, the amount of duty paid is a percentage of the value of the article imported. It becomes readily apparent, therefore, that a reduction in prices has the effect of reducing the amount of tariff duty, and this may go so far as to offset even an increase in the amount of the importations. The experts tell me that the May imports, measured in units as distinguished from dollar value, must have shown a sharp growth. The character of these imports, however, will not be capable of segregation for some weeks because the bureau of customs has to have the statistics from all ports together with details of the merchandise brought in before it can tell what the totals have been.

From these brief sketches of how the government has been getting its funds and the prospects pointed out by the trends, it seems to me there is no better reason needed for optimistic feeling. Aside from the link between government and business, I want to repeat an observation which Secretary Woodin made to me at the treasury the other day respecting the signs of the times. He called attention to the fact that, without exception, announcements have been coming day after day in the newspapers that this plant or factory or that industry or trade had expanded operations, had taken on more workers or restored to their jobs many who had been laid off. Some of them even have increased wages.

"That sort of thing tells a story," the secretary said. "Factories do not put people to work unless they are selling the articles they make; they could not do it, for their money would soon run out, but they are doing it, and it is absolute proof to me that most of the supplies are exhausted and people are buying things again. And the most pleasant thought of all is that every time a man or woman is put back to work, they are able to buy things they have not had while they were unemployed."

And while we are on the subject of government expenses, President Roosevelt called attention the other day to a widespread misconception of how economies are to be accomplished. He said there had been many words written about the delay in effecting reorganization of government agencies and that in most instances, the newspaper account of the situation had left the impression that this would cause the program for economy to fall short of complete accomplishment. The President explained with some care how savings of only small amounts are obtained through reorganization while real economies must come through elimination of functions, such as duplicated work.

It is still an open question whether Mr. Roosevelt will be able to save 25 per cent in the next year from the total of government expenditures as they are being recorded in the fiscal year just ending. The 25 per cent which he pledged during his campaign to cut from the federal budget is slightly more than one billion dollars. It takes no soothsayer to foresee that if that amount is lopped off from government outgo, numerous phases of government work heretofore performed either must be cramped or done away with entirely.

COLOR'S BIG PART IN HOME SETTING

Definite Quality to Be Found in Every Hue.

"At least 50 per cent of the home interiors I have seen are drab and colorless," declares the color consultant for one of New England's manufacturers of dyes and tints.

"I do not mean," said the color expert, "that these homes lack character and hospitality. They simply do not have sparkle or 'personality' that the right use of color gives a home to inspire cheerfulness.

"A faded curtain or cushion or a dull scarf or bedspread will kill the livableness of a room. Such things are inexcusable in these days of inexpensive tints and dyes that can be used so simply."

She believes that miracles can be performed with the correct use of color. Color can change an individual's personality. It can make a room seem larger or smaller, darker or lighter, cool or warm, dignified or frivolous, quiet or vivacious, restful or disturbing, cheerful or depressing.

"Color harmony is the most important feature of the decorative scheme. It is the least expensive and the most effective means of expression. Color has an emotional value to which the sense of sight responds as the ear to music. Each color has some definite quality.

"For instance, blue is a cool, receding color which makes a room seem larger, possibly because of its identity with the sky. It induces restraint and repose. Green is nature's color, restful to tired spirits and easy on tired eyes. It brings in the spacious coolness of the outdoors.

"Yellow is the color of sunshine. It is the great light-giving color and is often used in decorating dark city rooms which do not have a full measure of sunlight. Red and orange are exciting and aggressive colors. These are dangerous in large quantities. Red makes objects appear nearer than they are. By actual test this color can make a room seem 30 per cent larger than the same room 'n blue."

Color plays a bigger part in our lives than we realize and many of us would be happier if we paid more attention to color harmony.

Remember Gloves Must Always Be Immaculate

Light gloves, especially, must be clean to give one that "well-groomed" appearance. This is easy if the gloves are washable. Just squeeze them out every night or so when you do your stockings. Try this way:

Make rich suds with mild, neutral soap flakes, always keeping the water lukewarm or cool. Put on the gloves and wash just as if you were washing your hands. If there are stubborn spots of soil, gently work dry soap flakes into the leather and continue washing. If the suds get dirty use a fresh lot of suds. (Chamois and doekin gloves need not be put on the hands, just soused them around in the suds as you would a blanket).

Remove the gloves by gently rolling them from the wrists and rinse in clear water, lukewarm or cool, to remove particles of dirt. Then work them around in light suds of mild soap flakes. Leaving a little mild soap in the gloves helps to keep the leather pliable.

Squeeze out the moisture. Don't twist, and roll in a dry turkish towel to remove excess moisture. Unroll at once, blow into shape and dry at moderate temperature. Don't freeze or put near excessive heat. While slightly damp soften the gloves by gently stretching and working the leather between the fingers. Then finish the drying.

Love and Kisses

A young lady walked into the bank the other day and asked to have a check cashed.

"Please endorse the check, madam," the teller said.

"Why, my husband sent it to me," she said.

"Yes, madam, but just endorse it. Sign it on the back, please, and your husband will know we paid you."

She went to the desk, and in a few minutes returned with the check endorsed: "Your loving wife, Ethel."

HOW SHE LOST 29 POUNDS IN 3 MONTHS

"I am using your Kruschen Salts to reduce and I've lost a bottle and a half and shed some and lost 29 pounds in 3 months. I feel so much better and intend to keep on taking the Salts as I was almost 40 pounds overweight." Mrs. Thelma Gravelly, Rossville, Calif. (Jan. 11, 1933).

To lose fat and at the same time gain in physical attractiveness and feel spirited and youthful take one half teaspoonful of Kruschen in a glass of hot water before breakfast every morning.

A jar that lasts 4 weeks costs but a trifle at any drugstore in the world but be sure and get Kruschen Salts the SAFE way to reduce, wide hips, prominent front and double chin and again feel the joy of living—money back if dissatisfied after the first jar.

FITS Epilepsy STOPPED. The Proof you Want. We furnish it and FREE sample of a most effective medicine. Mailed FREE. TOWN'S REMEDY CO. Milwaukee, Wis.

FAIR AMAZES LEO

Leo, famous lion of the Circus, is now one of the exhibitions at A Century of Progress, and to judge from his expression he is amazed by the wonderful exposition that Chicago has built.

TO BOSS RAILROADS

Joseph B. Eastman, member of the Interstate Commerce commission, who was appointed railroad co-ordinator by President Roosevelt, under the provisions of the new railroad bill.

Ferocious Ants

Bulldog ants are the most formidable creatures in the Australian bush, according to Dr. W. M. Wheeler, entomologist of Harvard university, who has returned from a study of insect life there. He describes these ants as "more than an inch in length, singularly alert, wasp-like, large-eyed, long-jawed and fiercely stinging creatures." The ants live in mound nests one to five feet in diameter, the population of each colony being 150 to 200.

White House Pool Is Completed

View of the new swimming pool in the White House, which has been completed and is now enjoyed frequently by President and Mrs. Roosevelt.

Here Is a New Kind of Airplane

The Arup, the invention of Dr. Cloyd L. Snyder of South Bend, Ind., with which he hopes to reach unprecedented altitudes, was tested at South Bend airport by Glenn Doolittle at an altitude of 2,200 feet. This new craft is the result of seven years of study and experimentation by Doctor Snyder on the principal of the flying wing. He believes that the Arup will revolutionize commercial aviation because of its unusual safety factors. It is so designed and constructed as to make a tailspin and a flatspin impossible and lands at a speed slower by five feet per second than does a 500 square foot area parachute.

Felice in Plane Follow Bird
Releasing a pigeon from an airplane, policemen of Frankfurt-on-Main, Germany, followed the bird and located the neighbor of a blackmailer who had demanded a large sum from a member of the consular service. The pigeon had been sent in a box with a black-mailing note so that it could carry back the money. On the return of the bird the blackmailer wrote the consular a threatening letter. He was traced definitely by it, and now is serving a term in prison.

Big Check Mystery Solved
After deep investigation the mystery of a 1,800,000-franc check found in a railway car in France has been cleared. A Frenchman serving a sentence for theft at Loos admitted that he forged it. He admitted that he found in a railway train a blank check on a London bank payable to M. Champrose of St. Galle, Calvados, "a bearer." He made it out for 1,800,000 francs, then feared to present it and dropped it in the window slot of the car.

June 19, 1933

A COMPANY THIRTY YEARS OLD

Last Friday the Ford Motor Company completed 30 years of automobile making.

It is also my fortieth year at the same job. I made my first engine in 1893, and it still runs. This is the engine that won the Selden Patent Suit—which took the motor car out of the exclusive class, and opened the automobile industry to hundreds of manufacturers who started during the last 30 years.

Some of the men who began with me that June day in 1903, are working here yet. All of the principles we laid down then, are still operative; we find that they have great survival value for the future. To date they have produced and sold over 21,000,000 Ford cars.

Although we created the automobile market we have never thought it was good for anyone to monopolize it. We have always believed that before business could be good for one, it must be good for all. Our discoveries and improvements have always been open to other manufacturers without patent restrictions.

Of course, there is one thing we cannot share—everyone must get it, for himself—and that is experience. Money could duplicate our buildings and machines, but it cannot duplicate 40 years of experience. And it is experience that makes a motor car.

But the past does not especially concern me; it has all been a preparation for the future. For myself, I feel that I have just been gathering the tools to do something worth while, and that my real task is still ahead.

Great changes are upon the world. False ideas of every kind are vanishing in the general upheaval. Those who built truly on principle will survive—their service will carry over. Business integrity and commodity honor will be fully justified. And newer and better ways of living will appear.

That is the outlook for this young thirty-year old Company of ours.

In The Probate Court

State of New Mexico) ss.
County of Lincoln)
In the Matter of the Last Will and
Testament of Elizabeth A. Gumm,
Deceased.
No. 352.
NOTICE

To: Eugene Deane Gumm, Mrs. J. W. Laws, Mrs. C. A. Stovant, Mr. F. F. Austin, and to all unknown heirs, and To Whom It May Concern:

Notice is hereby given that an instrument purporting to be the Last Will and Testament of Elizabeth A. Gumm, Deceased, has been filed for probate in the Probate Court of Lincoln County, New Mexico, and by order, the 7th day of July, 1933, at the hour of 11 A. M. at the court room of said court in the Village of Carrizozo, New Mexico, in the day, time and place for hearing proof of said Last Will and Testament.

Therefore any person or persons wishing to enter objections to the probating of said Last Will and Testament are hereby notified to file their objections in the office of the County Clerk of Lincoln County, on or before the time set for hearing.

Dated at Carrizozo, N. M., this 29th day of May, A. D. 1933.
(Seal) Ernest Key,
June 2-23 Probate Clerk.

EDITORIAL COLUMN

Swallowed the Beans—Hulls and All

The Democrats met the latter part of last week in State Central Committee Conference, elected Swope for Chairman and endorsed the doing's of the recent rotten, woe-begotten and shameful Legislature, which has had such an amount of condemnation from the people regardless of politics that has made the State of New Mexico the laughing stock of the country.

Of course, to have condemned the acts of that sorry Legislature would have been a blow in face of our present Dictator with his pet measures, chief among which was the sale of property for delinquent taxes. The sale has not been carried out in some counties nevertheless, it has not been much of a boost for the County Treasurers who carried out the orders from the Dictator.

This abominable measure and others of a like nature in which the Legislature took the people for a mess of sops has now received the approval of the Democratic State Central Committee—and the party will have that fact to face at the next state election.

In saying what we have, we are not speaking of the Democrats as a whole, but of the party leaders who have been working against the interests of the people by their acts, violated the rights of those whom they deemed helpless in the worst and most trying times this state has undergone.

Praiseworthy is the term to use for the good Democrats who have bitterly condemned the acts of that Legislature which betrayed its trust. Instead of even meeting the people in a half way manner, totally ignored their interests and the great State Central Committee now places the stamp of approval on what the people have denounced. They have sown the seed and the harvest will be the undoing of their party in the state.

The people are waiting for a chance to show these political nabobs just what they can do at the next state election.

Says the Albuquerque Journal: Good Morning; President Roosevelt is enjoying a rest—so will everybody else, until he gets back.—We wonder what the Journal refers to?

W. H. BROADDUS, Optical Specialist, will be in Carrizozo Friday, June 23, at the office of Dr. Shaver. Glasses fitted.

What shall we eat? Spring Lamb Croquettes at Roy's Cafe and Market.

Sealed Bids Proposal

The local postoffice department is asking for sealed bids on messenger route No. 267054, between the postoffice at Carrizozo and the Southern Pacific Company Station Route 111801. Anyone interested, may receive information and necessary blanks at the Carrizozo postoffice. Herman Kelt, Postmaster.

I'll be there in the morning!"

A man is wanted—to be on the job next morning. The employer looks through his list of available men.

The man with a telephone in his home usually gets the job—because he can be reached quickly.

Running errands, saving time for other things, making social or business contacts, bringing help in emergencies—the telephone does these things and many others for a few cents a day.

Notice for Publication

State of New Mexico }
County of Lincoln }
In the Third Judicial District Court
No. 4067

Mrs. Josefa Farmer, Plaintiff,
vs.

John H. Boyd, impleaded with the following named Defendants, against whom substituted service is hereby sought to be obtained, to-wit:
John H. Boyd, sometime known as J. H. Boyd, if living, and his unknown heirs if deceased; Mrs. Callie Kahler, sometime known as Mrs. Callie Boyd, if living, and her unknown heirs, if deceased; John Marshall Boyd, if living, and his unknown heirs if deceased; Louisa Boyd, if living, and her unknown heirs, if deceased; Lena Boyd Loughrey, if living, and her unknown heirs if deceased; W. P. Loughrey, if living, and his unknown heirs if deceased; Frances J. McDonald, widow of William C. McDonald, Deceased; Frances McDonald Spencer; T. A. Spencer, sometime known as Truman A. Spencer; The Heirs and Unknown heirs of William C. McDonald, Deceased; William P. Keene, sometime known as W. P. Keene; Clara Annie Keene; and all the unknown claimants of interests in the herein after described premises adverse to the plaintiff, Defendants.

NOTICE OF SUIT

State of New Mexico to the above-named Defendants, Greeting:
You and each of you, are hereby notified that the above named plaintiff has filed her complaint against you in the District Court of The Third Judicial District of the State of New Mexico, within and for Lincoln County; that the general object of said suit is to quiet the plaintiff's title to the following described land, situate in Lincoln County, New Mexico, to-wit: Lots 29-30-31 in Block 24, of McDonald Addition to the Town of Carrizozo, as shown by the official plat of said addition on file in the office of the County Clerk of said Lincoln County.

You are further notified that unless you enter your appearance in said cause on or before August 19, 1933, judgment will be rendered in said cause against you by default.

The name and address of the plaintiff's attorney is E. M. Barber, Carrizozo, New Mexico.

Witness my hand and the seal of this court at Carrizozo, New Mexico, this the 19th day of June, 1933.

HERE'S HOW—WITH PINEAPPLE!

Another food innovation—theiced pineapple cup, made from crushed canned pineapple or tidbits—has been added to the housewife's list of cooling afternoon refreshments.

It made its appearance recently at winter resort beaches in the wake of announcements of nutritional studies which revealed canned pineapple as a valuable source of vitamins A, B and C and five essential minerals. In addition, it is being served as a breakfast

fruit and as an appetizer or dessert at dinners. Eaten regularly, the dietetic studies showed the fruit also aids digestion and in the prevention and correction of acidosis and nutritional anemia.

Teaching Hawaii about pineapple might seem like carrying coals to Newcastle. But after all, it took America to give the hula dance, the ukulele and the beach at Waikiki an international reputation.

HEARD ABOUT TOWN

No More Blow-Outs

The New Safety Silvertown Tire is specially constructed to prevent Blow-Outs. Most of the fatal accidents in the last few months have been caused by such blow-outs at high speeds. Come in for a demonstration.—HARVEY'S SERVICE STATION.

Hondo Running Big Head

From the Roswell Dispatch
The Hondo river was running a big head of water through the city yesterday as a result of the heavy rains at points west and southwest of Roswell during the past few days. This is the first time the Hondo has been on a rampage for several months and is a sign of better times in the valley.

Ice Cream Social

The Woman's Missionary Society of the Methodist Church will give an Ice Cream Social on the lawn at the Trustees' Building, Wednesday, June 28. Ice cream and cake, 15 cents.

Methodist Church

Mrs. C. A. Branum will have charge of the devotional during the Sunday School hour next Sunday morning at ten o'clock. Sixty-one were in attendance last Sunday, a gain of six over the Sunday a year ago. League at seven in the evening.

Church services at eleven in the morning, when the pastor will preach, and at eight o'clock in the evening, when the presiding elder, the Rev. S. E. Allison, of Albuquerque, will have charge.

Mr. and Mrs. Roy Bogle came in last week from Lordsburg, where Roy has been superintending the water service for the S. P. He was called here to oversee some needed improvements in the plant at the Coyote station and will be here for about two weeks.

Lon Atkinson, daughter Edna and Laholla Brown, were here last Saturday from Corona. Lon looked well and is gaining nicely after his recent attack of pneumonia.

Mrs. Wm. Ferguson and son Bill returned Monday from a trip to Boulder, Colo., where they had taken Mrs. Ferguson's two daughters Mary and Frances to enter the Teachers' Training School for the summer term.

Mrs. M. U. Finley entertained the Wednesday Bridge Club at her home this week. Mrs. J.M. Beck entertained the Carrizozo Bridge Club at her home yesterday afternoon.

The golf tournament to be held at Mountainair next Sunday will be attended by a goodly number of visitors from the local Club. Our people are always glad to go to Mountainair on account of the courteous treatment they receive and the good time they have while in our neighboring town.

Local fishermen have had the blues this week on account of the rain in the mountains which makes it next to impossible to get to the fishing streams on account of the bad condition of the mountain roads—they are almost impassable. At this writing, Thursday, the skies are clearing and if our fishermen can go to the trout fishin' places, there'll be less grumbling around Carrizozo homes—and the housewives will celebrate and take a day off. But we can stand this million dollar rain!

Hon. J.V. Taylor was here from his I—X ranch near Ocuira yesterday, and after purchasing ranch supplies, returned home before the noon hour. No matter where you meet J.V., you are reminded of the fact that he was the only member of the recent Legislature who made an endeavor to do anything for the people.

Mr. and Mrs. S. O. Sproles are now in good "O' Virginny," visiting Mr. Sproles' parents. After their stay in Virginia, they will visit other relatives in Tennessee and Kentucky.

The dance last Saturday night at White Oaks proved to be the best and biggest of any given at that place. "The Revelers" furnished the music—that tells the tale. "The Revelers" will give another big dance in the near future. Watch for the dates in this paper.

Mr. and Mrs. J. H. Fulmer, sons Walter and Bill have moved to White Oaks for the summer period.

Gregorio Pino and Benigno Gallegos were in from their respective ranch homes the first of the week on some business.

"Heavy" Stewart and his orchestra from Capitan will give a series of dances in the lower valley in the near future. Watch for announcements.

Mack Shaver was host at a six o'clock dinner Wednesday evening in honor of his old friend and former school chum, Maurice Lemon, who will leave Saturday night for West Point Military Academy.

W. J. Ayers and daughter Gertrude, were visitors from Three Rivers yesterday, doing some shopping and returning home in the afternoon.

Mr. and Mrs. Fred Neighbauer were in town yesterday from their ranch near the Malpais.

Al Stoval and his five-piece orchestra, playing 17 pieces, will give a big dance at Lutz Hall Saturday night, July 1. Admission \$1.00.
