1935 KELVINATOR

Just as automobile purchasers 15 years ago were content with a long hood and other external evidences of speed, but later learned to look for performance as their standard of selection so electric refrigerator buyers now are insisting on something more than a pleasing exterior and a few meaningless "gadgets," according to Gunther Kroggel of the New Mexico Mechanical Equipment Co., local Kelvinator dealers.

"With more people coming into our showroom than ever before at this time of year, we have noticed a growing tendency on the part of these prospective refrigerator buyers to find out important facts about the actual mechanical operation of the refrigerators," Mr. Kroggel said.

"While we believe that the 1935 Kelvinator household models offer a greater number of important refrigeration features than the average electric refrigerator on the market today, we are particularly glad that people are asking us about the mechanical units in these models for the reason that it is in this particular field that Kelvinator has achieved the most in refrigeration design.

"Owners of Kelvinator refrigerators all have expressed their satisfaction over the operation of their units. Kelvinator refrigerators, with adequate surplus power for meeting any emergencies provided by unusually hot weather or heavy service demands, always provide safe and sure refrigeration."

The heavy winds of this week, played havoc in many places over the county. At White Oaks, it blew the large smoke stack off its moorings at the power plant and caused the company to have to shut off the power until the repairing could be done. At this writing (Thursday), the big sandstorm which was radioed Wednesday night as sweeping across Kansas, is beginning to reach us—and how!

Frank W. Shelton, Carrizozo, N. M., is on the preferred list of 78 prospective graduates at John Farelton Agricultural College at Stephenville, Texas, for 1935. Frank is a member of the Pro Law Club and Speech Club. He is a Sergeant of Company E.

J. V. Stokes and daughter-in-law Mrs. T. J. Stokes, formerly Miss Glenneth English, came in Tuesday from Midland, Texas, and will spend the remainder of week visiting the Dewey-Stokes and F. A. English families.

Town Marshal Ira Greer was in Santa Fe for a few days this week, attending Federal Court.

The office force of the FERA held a hamburger fry Tuesday evening at Miss Crowl's apartments in the Lutz Building.

Roman Tenorio, who had the misfortune of losing his home and all his belongings in a fire about three weeks ago, left for his ranch holdings in Torrance county the latter part of last week. Mr. Tenorio was at one time sheriff of that county.

A sandstorm—a duststorm—or a windstorm—which is the correct term? Well, we presume that we're old-fashioned, but it still remains 'Sandstorm' to us.

OUT-OF-THE ORDINARY

When Mrs. Cleopatra Maridio of New York, a aged 48, weight 500 pounds, was taken ill and physicians decided to send her to a hospital an entire emergency police squad had to be mobilized in order to perform the work. This required eight patrolmen and one sergeant. It took that force of men four hours to complete the job. A block and tackle was rigged in the stairway to lower the lady to the street level below. There she was placed on a double stretcher made by lashing two ordinary stretchers together. In getting her to the street level all the banisters were broken on the stairway and most of the plastering knocked off in the descent. The policemen bumped their noses, skinned their shins and several lost their caps by being crushed underfoot as they went down. But they got her to the hospital and she is doing nicely.

At Camden, N. J., Dr. George Homan was sued for a divorce by his wife, who made the claim that the doctor thought more of his cows and dairy than he did of Mrs. Homan. In her claim she said: "Judge, he had too many cows and he was so interested in building a model dairy, that he neglected me, entirely." The doctor retaliated by saying in a counter charge, that Mrs. Homan was so interested in charities that she put in most of her time in selling tickets for the same and said she was so good that she could sell a dead horse to a mounted policeman.

"Politics makes queer bed-fellows," so goes a time honored saying. But at Kingfisher, Oklahoma, Tom McCall had no politics nor bed-fellows and if he had, they might have elected him, but such was not the case. He was nominated as a candidate for the school board and election day passed without a single ballot being cast. Moreover, he had no opposition, but from the fact that no votes were cast, not even his own, Claude Ealey, the incumbent, will hold over in the office.

We have a letter from a resident of the Jicarilla mountains, in which he said he had seen the queer old hermit of whom we recently made mention in a story coming from that region. He said the old fellow resembled an animal more than a man. His eyes were large, brilliant and twice the size of ordinary human eyes. On being observed, he glared at the writer in such horrible manner to make him shiver with fright—then vanished like a spectre. What is it?

Gunther C. Kroggel of the New Mexico Mechanical Equipment Company, made a business trip over the county the first part of this week.

Mrs. Selma Degitz announces the birth of a grandson born to Mr. and Mrs. B. C. Jacobs at Gunnison, Colo. Mrs. Jacobs is a daughter of Mrs. Degitz, and is her first grandchild.

Mrs. R. E. Blaney entertained the Carrizozo Bridge Club April 11.

Mr. and Mrs. Clyde Luckey entertained the Goofus Club this week with a 7 o'clock dinner, followed by the games.

NOGAL NOTES

Mr. and Mrs. Ernest Aguayo moved to town this week.

Miss Mary Dell Martin and Mrs. J. B. Martin were Captain visitors Monday.

Mrs. J. Cochran was ill the first part of the week, but is better now.

Mrs. Clayton Hust left last Friday night for Alamogordo after a week's visit with her parents.

Mrs. Clark Hust of Alamogordo, daughters, Mrs. E. A. DeBeauford of Albuquerque, Mrs. J. K. Ayres of Carrizozo, sons Dea and "Red" of Las Cruces, were here Monday for a short visit with Mrs. Hust's brother and family.

Bryce Duggar is drilling a well for Mr. Luckey.

Have you heard the latest? No? Well, we haven't either—only Floy Skinner says that some of these days we'll find some Kansas wheat growing around here.

Emergency Loans

Field Supervisor John W. March of the Emergency Crop and Feed Loan Office at Roswell states that applications for emergency crop loans and feed loans are now being received by the Lincoln County Loan Committee, with offices located at Carrizozo.

In accordance with the Act of Congress authorizing the loans, and regulations issued by Gov. W. I. Myers of the Farm Credit Administration, loans will be made only to farmers who are unable to obtain elsewhere seed, fertilizers, supplies, feed or the necessary credit to purchase such items. Loans will not be made to applicants who can obtain credit in the amount needed from any other source, including the production credit associations.

Any farmer who has the necessary security should apply to the production credit association first. If the association is unable to make him a loan in the amount needed the farmer will receive a statement to that effect and will be considered eligible to apply for a loan from the emergency fund.

The regulations provide that the largest loan to one farmer this year is \$500 and the minimum \$10.

Mr. and Mrs. Louis Johansen, Captain Cleaners, were business visitors in town on Tuesday.

DIAMOND DUST

Hello, baseball fans! This is Diamond Dust just awakened from his long winter slumber—

The Carrizozo Cobras from East Carrizozo opened the baseball season at the local park last Sunday afternoon, by trouncing a team from Hondo by a one-sided score of 24 to 2.

The Hondo lads proved no match against our boys, and at odd times when they threatened to rally by pounding the ball hard, they were robbed by our ever alert fielders of what really seemed to be clean and damaging hits. The lower valley boys are a good bunch of sports and we predict that as the season advances, they will hold their own with any team in the surrounding country.

The Cobras will test their strength at Alamogordo next Sunday against a more formidable team. We're for you, boys—bring the first bacon home!

Don't forget the team's benefit Easter dance at Community Hall, Saturday night, April 20. C. O. Garrison umpired the game last Sunday.

Alvin George Degner

Last Saturday at the home of his parents, Mr. and Mrs. C. E. Degner, Alvin George Degner, aged 9 years and 6 months, died after an illness of several months, during which time he was always cheerful and ever mindful of others. He was attentive and extremely ambitious in school and will be missed by schoolmates and many friends.

Besides his parents, he leaves to mourn his loss, his grandfather, five sisters, two brothers and other relatives. Funeral services were held at the Methodist Church Sunday afternoon with Rev. Johnson in charge and the remains interred in the local cemetery. He was born in Roswell, Oct. 9, '25, and came here with his parents when he was one year old. The relatives have the sympathy of the community.

The Harmony Boys will open the season at Roswell with an Easter dance, Saturday night, April 20. Fans from here are cordially invited. The dance will be at Wingfield's Hall, as you will see by their ad on page 4.

The April meeting of the Carrizozo Woman's Club will be held at the Community Hall on Saturday afternoon, April 20. Mrs. Sullivan will be in charge of the program. Everyone is urged to attend as an important matter will be under consideration.

PERSONALS

Mrs. Lillian Lane, daughters Sarah Lee and LaRue, accompanied by Mrs. Ray Sipple, were here from White Oaks Saturday.

Attorney Jack Hanny was in Roswell Wednesday and yesterday attending to some legal business, having tried an important case in the court at that place.

County Treasurer and Mrs. L. J. Adams are again located in the Burke bungalow on Alamogordo avenue, having returned to that residence this week.

Attorney John E. Hall was at Roswell Wednesday on a case in the court of the Justice of the Peace.

Thomas K. Karr of the Luckey Dairy was an El Paso business visitor Wednesday of this week.

Mr. and Mrs. Geo. Goodson of Luna visited relatives and friends in town this Wednesday.

Geo. A. Titworth was here on business from Captain the latter part of last week.

Mrs. Dean Curbello spent the week-end with friends in El Paso and returned Monday, leaving again this morning for Lovington to visit her mother, Mrs. Rebecca Townsend and sister, Mrs. Mary Lou Welch, who has been visiting her mother for several weeks. On her return, Mrs. Curbello will be accompanied by Mrs. Welch and children.

Mrs. Claude Sheffield of El Paso is a guest at the home of her uncle and aunt, Mr. and Mrs. Harry Aguayo.

Mr. and Mrs. S. O. Sproles arrived home Wednesday morning from a pleasure trip with relatives in Virginia. They were absent several weeks.

Mr. R. P. Hickey was pleasantly surprised Tuesday of this week, when he received a check for the sum of \$31.75 from the Chicago Telephone Company,

for overcharges of telephone service covering the years 1928 to 1929. Without the knowledge of Mr. Hickey, the overcharges had accumulated to his credit, and the above amount sent in the check.

—And the wind still bloweth; this was set up on Thursday afternoon. We have one consolation (which we don't believe) some local bird made the remark "We don't have sandstorms like they used to have in Carrizozo in 1917."

Notice Fay Harkey putting some improvements on his cute little place.

How time does fly. Another group of local hi school students are preparing to graduate—and again we ask you, how time does fly.

Mr. and Mrs. Nick Vega and the children visited relatives and friends at Tularosa last Sunday.

Work on the Municipal Park is progressing as fast as possible, despite the windy weather. Carrizozo will soon have a Park of which the citizens can be justly proud. Said park is located right across the street from the Carrizozo Auto Co. and the Lyric Theatre on Alamogordo avenue.

Mr. and Mrs. Bill Ostic of Alamogordo were Carrizozo visitors last Saturday night.

Spring reminds us of the man whose neighbor's chickens would come continually into his yard and dig up his garden. After complaining to the neighbor several times about the damage being done, and being convinced that he made no effort to keep his chickens at home, he went and planted a dozen eggs under a bush one night, and next morning, gathered them in plain sight of his neighbor.—No more chickens bothered him.

Len Atkinson, energetic garage man of Corona, was a business visitor in town last Saturday, putting in a portion of his time at the Carrizozo Auto Company.

Mr. and Mrs. Robt. Ellison, Chas. L. Davis and Elmer Scribner were here from the Ancho country this Monday.

Pat Murphy, "Smiling Pat" of the White & Murphy ranch near White Oaks, was a business visitor at this place Monday. The stock at their ranch is in excellent condition; White & Murphy are among the very few whose stock didn't suffer from the drouth.

A nudist has it on the other fellow, from the fact that the State Legislature can't tax the shirt off his back.

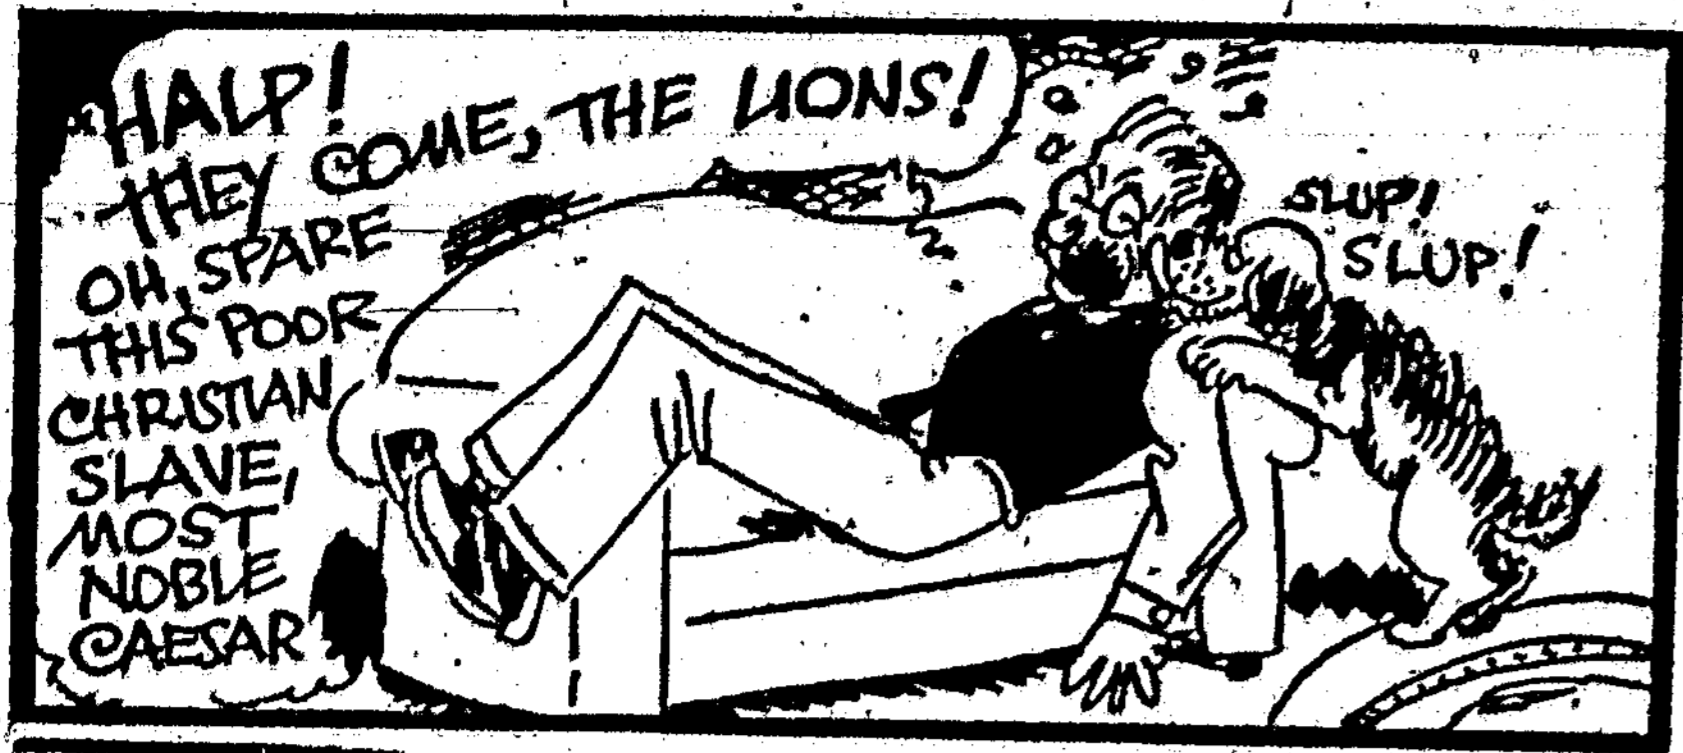

The White Oaks home talent play "Poor Father" was staged Tuesday night at the hi school auditorium to a good sized audience. The play went over big and everybody was well pleased. This entertainment, we understand, is to be given in Ancho Saturday nite, Apr. 13. Let's go! With apologies to the Ben Bernie program over the radio, "Come on, Youse Guys and Youse Gals!"

Mrs. Vance P. Smith and wee daughter, who have been visiting relatives at Shreveport, La., for several weeks, arrived home at Oscura Wednesday.

Mrs. Gunther Kroggel arrived home Monday from Abilene, Texas, where she had been visiting relatives and friends for about two weeks.

The Gold Clause Decision

Never since the Dred Scott case were the findings of the Supreme court more anxiously awaited than in the gold clause case.

Immigration Into U.S. At Standstill

Deportations Nearly Equal Admissions in 1933.

Paris.—The tide of emigration of European workers to the United States has definitely been halted, statistics on file with the American consulate, service in Paris revealed, as legislation was being presented in Washington for further restriction on immigration.

Only 422 permits of a total of 3,066 available under the quota for French citizens were granted in 1934.

The figures indicated 1934 would, for comparison, have to be placed alongside the year of 1821 when only 22,333 foreign-born persons entered America to make it their future home.

Since high tide in immigration was reached in 1907, under stimulus of the first Russian revolution when 255,349 foreigners entered the United States as permanent residents, there has been a gradual decline.

Quotas Not Filled. In 1933 due to deportations, almost as many aliens were debarred or deported as were admitted.

Of late years, due to the American immigration act of March 2, 1929, the quotas of France, Belgium and Switzerland have not been filled.

The years of the depression in America saw thousands of foreigners go back to their land of nativity, in an ebb-tide comparable with the early years of the World war when patriotism sent back a great number of Europeans who had gone to the United States to live.

Military Service Forc'd. France, Italy, Poland and some of the Balkan states do not recognize naturalization of their subjects abroad, and if they return to their native land must serve the requisite military terms.

Incidentally, France is possibly the most difficult of all countries in which for a foreigner to become naturalized. A specified number of years, residence is required; and police make a careful investigation of the public and private life of the applicant.

Waits 39 Years to File Damage Action

Lisbon, Ohio.—G. F. Mason, a farmer who lives near here, is a patient man, but he thinks 39 years is quite a spell to wait for court action.

Back in 1896, the common pleas court here issued a restraining order against the county and county infirmary, to prevent the pollution of Cold Run, a small stream which runs through Mason's farm.

So a few days ago, Mason filed a petition in court asking \$1,000 for stream pollution.

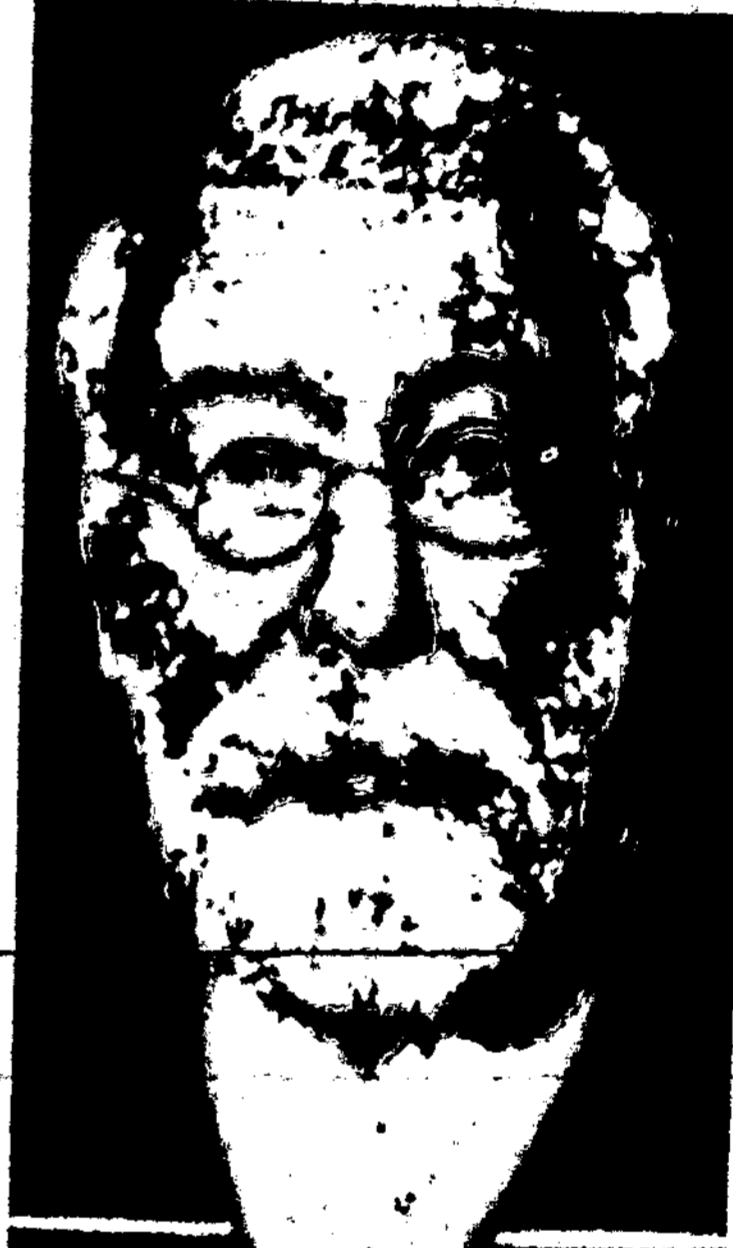

he could by reason of language and temperament be assimilated into the French race. After passing these rigorous tests, no new citizen can hold official or quasi official post for ten years after naturalization.

OF FLAVOR WRIGLEY'S SPEARMINT

Millinery Stages Varied Program

By CHERIE NICHOLAS

SUCH a bewildering variety of head-gear as fashion offers this season! There is positively no excuse for not being becomingly hatted this spring and summer, for it would seem that every known type with a few extras thrown in is answering "present" to the roll call in current millinery showings.

Bonnets! The millinery shops are full of 'em. Every sort of bonnet is represented in the new hat collections ranging from ingenious types to the sophisticated eye-impelling bonnets of Regency period inspiration.

A fine thing about a bonnet is that it shows up the new "bangs" to perfection. The taffeta trimmed bonnet to the upper right in the picture demonstrates this point to a nicety. The big bow at the throat is of self-same taffeta as the bow on the bonnet. Milliners are all enthusiastic over the taffeta (plain or plaid) neck-bow and hat "sets" which are selling at first sight. The bonnet to the left is quaint and youthful with flowers and ribbon which make it utterly feminine.

It may be that the voguish pill-box turban goes best with your features. This pert little style-of-headgear sure gives an up-and-going look to any spring outfit. Atop the curly-curly coiffures hairdressers are now advocating, a pill-box hat declares convincing chic. The model centered below in the group is the perfect complement to a black crepe dress. It is of the modish black basket weave shiny straw, has two little black bows and flaunts an eyeline veil as most of these diminutive hats.

A fashion which is breathtaking in novelty and daring is the forward-move brim. Narrow at the sides is this type with a startling forward streamline sweep of the brim. To interpret the very quintessence of chic it must be tilted at a rakish angle down over the eyes. The smartness of these forward-brim hats is added unto with novel crown-effects achieved via plants and folds, eccentric peaks and spiral drapes often surmounted with amusing feather fancies or perky ribbon cocardes. Two models of this suggestion are illustrated below in the picture. The felt to the left is olive green with black and olive feather fancy. The finest of ballyhoo straw in navy blue fashions the hat to the right. It has the new down-in-front and up-at-back movement.

The model centered above is a variation of the popular breton sailor. It is very youthful, made of navy taffeta, for you must know that millinery is yielding unreservedly to the taffeta craze which is now on. The pompon is of navy and white ostrich.

If you register in the sailor-conscious sort of it will be worth your while to tour the shops and see what's doing in the way of nifty exponents of this type. In Paris the low crowned sailor of shiny black straw is a big favorite. To wear the new sailors properly they must be snugly tilted over the eyes, with a veil to complete the picture.

Loyal to the beret are you? Well, fashion is willing, providing a very new look is achieved via a subtle drape or a topknot trim or a use of a novel fabric combination and always a little veil for the sake of chic. A matching scarf also adds a voguish note.

QUILTED VELVET

By CHERIE NICHOLAS

Here is a lovely coat to wear to parties. When summer comes it will be just the thing to top your dainty lingerie frocks. It is smart and practical for resort wear at any time of the year. Quilted crystalline velvet fashions it, and if you have the proper color urge you will select it in some one or other of the very new medium pastel tones. A big rhinestone pin adds chic worn on the scarf.

Novelty Dress Gasp

Interlocking gold rings form an interesting type of clasp to fasten a wool tunic.

SHOW WIDE VARIETY IN SPRING PRINTS

To the woman who thinks of summer in terms of printed fabrics the new season will provide a perfect orgy. The dresses shown in downtown stores are typical of the new printed fashions. Many motifs are much less widely spaced than in other springs.

The animal motifs, especially the Scottie print, are here. Break it gently that nutty prints are also in the shops. The designs are taken from photographic studies of nuts, and are very effective. Why not? There's a new porcelain clay process which produces the dearest white imaginable and in spite of a great furor over color, this clay-white print is greatly admired. A swing about the shops confirms the report that more prints have been shown this year than last. Certainly, there are more stripes, checks and plaids; and they are often printed. Stripes are just another of the regency touches that seem so desirable at the moment.

Irish Linen Expected to Be Favorite Next Summer

Irish linen has come to the fore as the leading fabric in the Paris fashion picture. Cables from the French capital promise that next spring and summer women will be wearing suits, dresses, hats, shoes, bags and even lingerie of fine Irish linen.

The fact that linen used to crush badly was responsible for its not having been more universally used before. It was always an ideal summer fabric, porous and cool, yet strong and long-wearing. Now Irish linen has been specifically processed, so that the items which will be imported for next summer's fashions are as nearly uncrushable as any fabric.

Parasols Come Back

Tiny and colorful parasols made of synthetic straw silk with yard-long handles appear with spring sports and street afternoon clothes.

Need Durum Wheat to Meet Shortage

Millers and Manufacturers Concerned Over Future Production.

Supplied by the United States Department of Agriculture.—W.H.U. Service.
For the first time in 35 years of durum-wheat production in the United States, there is a shortage of this class of wheat. Millers and macaroni manufacturers are concerned over the future production of durum wheat, because this season it has been necessary to import the grain from Canada.

Durum wheat was introduced from Russia about 1900 by Mark Alfred Carleton, of the United States Department of Agriculture. It soon became popular among the farmers of the northern Great Plains. Production increased rapidly, from about 60,000 bushels in 1901 to about 6,000,000 bushels in 1933, and probably about 50,000,000 bushels in 1934. The annual domestic consumption of durum wheat is now about 32,000,000 bushels, of which about 15,000,000 bushels is milled into semolina.

For many years the durum-wheat acreage was around 5,000,000 acres. The acreage varied from year to year owing principally to the relative market price of durum in comparison with hard red spring wheat. Formerly the export demand for durum wheat largely controlled the market price. A low price for durum usually resulted in a reduced acreage.

One of the most important phases of durum-wheat production is growing suitable varieties, of which Kubanka and Mindum are the best. High quality seed of these varieties has been conserved—and is for sale to growers in adapted territory of the drought area by the seed stocks committee. This is a part of the seed conservation program authorized by congress and administered by the Agricultural Adjustment Administration, United States Department of Agriculture.

Farmers should consider carefully the growing of more durum and less hard red spring wheat this year. The Agriculture Outlook for 1935 summarizes the situation as follows: "While durum wheat supplies will be held down by a very small carry-over, average yield on an area of 3,000,000 acres would result in a new crop ample for domestic requirements and carry-over. A further increase of acreage, or yield above average, would result in a considerable surplus for export." The return of durum-wheat growing to the suggested acreage would meet domestic requirements and still keep the durum price from being controlled by world supply and demand.

Chemists Seek Means of Slowing Down Oxidation

Oxygen, which gives us life, is also man's greatest industrial enemy, notes a writer in the Montreal Herald. The air we breathe contains one-fifth oxygen, and this gas is a highly corrosive substance. When a house burns down it is simply combining with the oxygen in the air. When soap turns brown on a chemist's shelf it is merely another instance of the corrosive quality of oxygen. But it is the motor industry that suffers most from the ravages of oxidation. Its two chief organic essentials, rubber and petrol, are especially susceptible. Thousands of pounds worth of these materials have been utterly wasted owing to the action of air—and now the scientists have struck back. They have been experimenting with the development of substances known as anti-oxidants. These compounds when mixed with any product, slow down oxidation to such an extent that its usefulness and life are increased tenfold.

Vitamin D Elements in Most All Winter Foods

In Finland, where the summer is too short to produce enough of the green food for dairy cattle, the export of butter fell off as European countries with longer summers began to produce yellow butter. Scientists were called on for a remedy, and finally produced a food in the way of vitaminized oil cake that placed the yellow into Finnish butter to revive its exportation.

In other countries, where winter is long and ultra-violet rays slant too much to produce green stuffs, scientists devised ways to conserve the vitamin D elements in forage for the winter months.

Yellow foods usually have a good supply of vitamin D, hence the protective value of oranges, carrots, sweet potatoes, yolk of egg and other foods with varying degrees of this color.

Crop Control World-Wide

American farmers who have signed up to reduce their cotton, corn or wheat acreage or the number of pigs they raise are in the same boat with the farmers of the rest of the world, says Pathfinder Magazine. This crop control or crop curb idea is now world-wide and still spreading. According to foreign observers for the bureau of agricultural economics the United States with its adjustment programs opened the way and other nations have been quick to follow suit. While the United States leads the way in the number of crops under government regulation most of the other leading nations of the world have broad powers over agriculture and some of them are seeking to extend that authority.

Agricultural Notes

- With mules costing \$125, Louisiana is using oxen.
- Chile is to raise a fund to combat fruit diseases and pests.
- A course in fur farming is offered at the University of Wisconsin.
- Maryland has set out to popularize the sweet potato in England.
- Argentina has established minimum prices for wheat, corn and flaxseed.
- Irrigation of most crops requires application of at least 1 inch of water per acre each week, or 27,000 gallons, during periods of no rainfall.
- Approximately 220,000 common barberry bushes and seedlings were destroyed on 1,881 properties in 33 Ohio counties, in 1934.
- Rickets develops most commonly in swine when they are kept indoors away from direct sunshine and when alfalfa or clover hay is not included in their rations.

BOB TALKS BACK

WHAT... YOU HERE AGAIN! HAVEN'T I TOLD YOU THAT YOU CAN'T MARRY MY DAUGHTER? NOW GET OUT—YOU YOUNG WHIPPER-SNAPPER!

GOOD RIDDANCE! WHAT RIGHT HAVE YOU YOUNG PEOPLE TO ENJOY THEMSELVES ANYWAY?

BEFORE I GO, MR. HARMON, I'D LIKE TO TELL YOU ONE THING—YOUR DISPOSITION IS RUINING FRAN'S LIFE AND YOUR OWN!

WHY, YOU INSOLENT YOUNG PUPPY... IF YOU HAD MY HEADACHES AND INDIGESTION YOU'D BE WORSE THAN I AM!

LISTEN TO HIM... CRITICIZING YOU! DON'T LET HIM GET AWAY WITH IT!

MY MOTHER SUFFERED WITH THE SAME THINGS, MR. HARMON. THE DOCTOR SAID SHE HAD COFFEE-NERVES. SO SHE SWITCHED FROM COFFEE TO POSTUM AND IT MADE A HAPPIER, HEALTHIER WOMAN OUT OF HER!

THE NERVE OF HIM! TELL HIM TO MIND HIS OWN BUSINESS AND SCRAM!

DAD, I THINK BOB WAS RIGHT—YOU HAVE BEEN DRINKING TOO MUCH COFFEE. WOULD YOU PLEASE DRINK POSTUM THIS MORNING AND STICK TO IT FOR A MONTH?

OH ALL RIGHT, I'LL TRY IT JUST TO KEEP YOU QUIET.

CURSES—WHEN POSTUM COMES IN, OUT I GO!

2 MONTHS LATER

OH BOB, WASN'T DAD WONDERFUL TO US!

HONESTLY, HONEY, I'VE NEVER SEEN SUCH A CHANGE! SINCE HE GAVE UP COFFEE AND SWITCHED TO POSTUM HE'S A NEW MAN!

"BOB, I knew coffee was bad for children—but I had no idea it could have such an effect on Dad!"

"Certainly—it bothers lots of grown-ups that way, Fran. The caffeine in coffee sets their nerves on edge, keeps them from sleeping, gives them headaches or indigestion."

If you suspect that coffee disagrees with you... try Postum for 30 days. Postum contains no caffeine. It is simply whole wheat and bran, roasted and slightly sweetened. It's easy to make, and costs less than one-half cent a cup. It's a delicious drink... may prove a real help. A product of General Foods.

FREE! Let us send you your first week's supply of Postum free! Simply mail the coupon.

EDITORIAL COLUMN

**Bones of Contention—
Thorns in the Flesh—
And Other Things**

History repeats itself. We have only to refer to past history in order to prove that statement. Take as an example, the crazy dictator, Nero, who fiddled, or "zithered" as some seem to think, but nevertheless, with all his power and laughing at what he thought was a stunt and a bluff, Rome burned while he tried to laugh it off.

It was far from the influence of Nero which caused such an uprising; it was the people, tired and sick of being made slaves and subjects in bondage to a despotic ruler with no minds of their own, but taught that the ruler's word was their lamp and guide which caused the rebellion and set fire to Rome and the fiddler.

Drunk with power has always been the downfall of rulers, powers and administrations in past times, and history will repeat itself in 1936, or we will miss our guess. The President, in setting sail on his recent fishing cruise, which will cost \$100,000, waived his hand and said everything was fine. How he could make such a statement as that in the face of such appalling conditions of unrest as exist in this country, can only be answered by bringing past history into the picture, where rulers tried in vain to laugh such conditions off.

Uprisings don't come except through leadership and that we already have with us, and you can't "laugh it off." You may seek to ridicule the power of Huey Long and Father Coughlin—but they both have followers which are growing daily and will prove to be enormous before 1936.

If everything was as rosy as the President pictures it, what would be the need of these movements? If recovery was just around the corner making 1000 eyes at us, what would be the use of such uprisings in the face of contentment?

If all was well, these leaders couldn't summon a single soul to their campaigns—but there is unrest and it is growing at an alarming rate. In spite of everything, things are getting worse and fiddling or attempting to laugh it off won't do any good.

ORDER REQUIRING CERTAIN CORPORATE DEFENDANTS TO ENTER AN APPEARANCE IN THE ABOVE ENTITLED CAUSE.

It having been made to appear to the Court from the return of service of the Sheriff filed in this cause and the affidavit of the plaintiff duly filed herein, that process of summons cannot be served upon the following named corporate defendants, to-wit:

The Apex Gold Mining Company, a corporation; International Trust Company, Trustee, a corporation; Lynn Mining & Industrial Company, a corporation; White Oaks Mining Company, a corporation; Homestake Gold Mining Company of White Oaks, New Mexico, a corporation;

White Oaks Mines Consolidated, a corporation; and the plaintiff having prayed, for an order of the Court, ordering and directing the above named corpor-

ations, as defendants in this cause, and each of them, to appear or cause their respective appearance to be entered in this action on a day to be specified in the order as provided under Section 32-197, New Mexico Statutes Annotated, Compilation of 1929, and the Court having found that process cannot be served upon said corporate defendants, or any of them; and

It appearing to the Court that the general objects and purposes of said suit are to quiet title to the lands and premises described in the bill of complaint and said complaint alleging that the corporate defendants hereinafter named claim some right, title or interest in and to said premises and real estate, or a part thereof;

IT IS ORDERED, and the defendants The Apex Gold Mining Company, a corporation, International Trust Company, Trustee, a corporation; Lynn Mining & Industrial Company, a corporation; White Oaks Mining Company, a corporation, Homestake Gold Mining Company of White Oaks, New Mexico, a corporation, and White Oaks Mines Consolidated, a corporation, and each of them, are hereby ordered, directed and required to cause their respective appearances to be entered in this cause on the 6th day of May, 1935; and

IT IS FURTHER ORDERED that a copy of this order shall be published in The Carrizozo Outlook, a newspaper of general circulation published at Carrizozo, County of Lincoln, State of New Mexico, for at least once each week for a total of three weeks; and

IT IS FURTHER ORDERED that true copies of this notice shall also be posted in three public places within the State of New Mexico, for at least three weeks prior to the appearance date hereinbefore named, as follows, to-wit: One copy to be posted at the front door of the Courthouse in the town of Carrizozo, County of Lincoln, State of New Mexico; one copy at the United States Postoffice in the town of Carrizozo, County of Lincoln, State of New Mexico; and one copy at the front door of Postoffice in the town of White Oaks, State of New Mexico; and

IT IS FURTHER ORDERED that if said defendants, and each and any of them, shall not appear within the time limited by this order, then and in such event this Court will order the Clerk of this Court to enter an appearance in said cause for and on behalf of each and all of said defendants failing so to appear, and upon the entry of such appearance by the Clerk of this Court, the action shall proceed as if said defendants and each of them had entered their appearance in this cause.

Dated at Carrizozo, County of Lincoln, State of New Mexico, this 9th day of March, A. D. 1935.

**Burned to the Ground**

Last Friday evening about 6:30, a fire broke out in the home of Roman Tenorio on the east side, and before an alarm could be given, the house was a complete mass of flames. The fire fighters were on the scene as soon as an alarm was turned in, but the fire had gained such a headway, that not a single belonging could be salvaged. Mr. Tenorio, who was all alone at home at the time, had gone out to his pasture for an evening's stroll and when he saw the cloud of smoke he hurried back to the house, only to find that the inside was a ball of fire. As there was no fire in the stove, he is at a loss to account for the origin of the same. The house was an old landmark in Carrizozo, having been built by the late Bench Goff about 28 years ago.

Alex B. Jones of Corona was a Carrizozo visitor Wednesday.

George Elmgren and B. H. Lemkuil of Fort Stanton were in town this Thursday.

Our old friend "Sandy" from across the Malpais was in town Tuesday and made this office a friendly call. Now, a great deal may be said of him. He is just "Sandy" and we know him by no other name. There is no society about him, but he knows his onions—there is nothing braggadocio about him, but he knows his baseball. Sandy works on the ranch, faces with steers and horses, does more work in a day than a dozen cowboys, and the only thing that gets him away from the ranch is a good baseball game, where Carrizozo is interested. If we had many readers like Sandy, we would win every game during the season. Sandy nick-named each member of the visiting team and you can hear him root a city block.

I. N. Wingfield of Ruidoso was a business visitor in town this Wednesday.

Mr. and Mrs. Robt. Ellison of their ranch near Ancho were business visitors here this Wednesday.

The condition of Wm. Degner, who had a stroke last week, remains very grave.

The citizens of White Oaks, the birthplace of "Heart's Desire," are busily engaged in holding rehearsals for a comedy play, entitled "Poor Father." Said comedy is for the benefit of the White Oaks school. It will be held Saturday evening, March 30. If you would like to see the citizens of this historic mining town do their stuff, we'd advise you to attend. Fun—Frivolity—Foolishness—Laff until your sides ache, all for a measly sum. — The good looking gentleman at my right takes four tickets. Just starting, just commencing; just playing the Overture!
