THAN FICTION

One of the strangest treasure hunts ever known is soon to be made in the deep, marshes near Ayrahire, Scotland, where 125 years ago, a party of smuggiers, pursued closely by officers. dumped 12 large casks of a special brand of Scotch whiskey which had been carefully made for use of the English royalty. To aid them in the search, the hunters are to have the assistance of several deep-sea divers. A large reward has been offered for the recovery of the whiskey by the English government and that has stimulated the search, which has never before been attempted.

Manuel Maria, Tucson, Arizona, with a goodly supply of conversation water and singing romantic love song, made a mishouse, thinking it was his beard. ing place. He swaggered past the astonished housewife with her children, made for the first ficers pulled him out and took him to jail. When arraigned in court, the judge asked him how long he had slept in the bed and he replied. "I had about forty winks." The judge said: "The 40 winks will cost you \$4.50 per wink, or a total of \$180.00. the money to the clerk.

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, MAY 22, 1936 Hollis Martin

Convicted

Sentence Will be Passed Later Today

The Hollis Martin tripplemurder trial which has consumin the District Court, came to an end last night, Thursday, 12:20, when the jury returned a verdict of murder in the first degree.

The jury deserves the congratulations of the public from the fact that under pressure of existing facts, there seemed to be no other conclusion for it to reach.

Both sides rested late yesterday afternoon, and at 7:35, Court convened when the arguments began and ended at 9:55 when the case was given to the jury. was Judge Frenger's charge to given last year. Mrs. Boughnet, the jury which had no precedent in its completeness.

It covered the ground so definitely and appealed to the intelligence of the jury so distinctly, that there could be no mistake made by the body of men who made up the jury, who were not slow in rendering a verdict, never having to return to the court for further instructions,

No longer can it be said that take and got into the wrong juries can be led into channels saids from intelligent reasoning through sympathy; but the jury failed to allow their human emobedroom, stripped and went to of judgment. They followed bed. He was snoring away and the evidence, weighing every hitting the high places when of portion with the utmost accuracy and brought in their verdiet without fear of denunciations and criticisms. Attorneys for the defense, Sutherland of Oklahoma and Hall of Carrizozo, the last named gentleman being appointed by the court, made the best of what they had and made gave the judge a wink and paid a gallant stand for the accused. but their arguments were torn to shreds by the withering denunciations of District Attorney Threet, who made a masterly argument with telling effect.

Many Sports Folks Share Ruth's Hazy Memory for Names

est glory, the newspaper boys were ever uncovering one flaw in the perfection of that steut citizen who now devotes his declining years to golf. No matter how often they might dine always were discovering that the first 15 or 20 meetings were the hardest.

After that the stout citizen would give up guessing as to whether this was Bill or Dan or Joe. From then on their lives could be made more beautiful by knowledge that Babe Ruth would know them, collectively and individually, as "Rid."

Of course, from time to time gentlemenfrom whatever estate the newspaper business happens to be in resented this disregard for their undoubted worth and baptismai monickers. Most of them, though, merely took it as new ovldence of the pressure that besotn a great

man or kinirked complacently at mirrors which persisted in giving bald evidence | that this "Kid" stuff was all wrong.

Recently a reporter made mention of this at one of those vast public gatherings at which he is such a popular favorite, Immediately some busyhody in the audience inquired if inability to remember names of eminent commentators upon sports and wresting was confined entirely to the Babe.

How Billy Southworth's Memory Was Stymied

Badly, being one of those who are reluctant to share the miseries and the secrets of his profession with the world, the reporter was forced to admit the truth.

There was, for instance, the St. Louis baseball scrivener who devoted several and comfort to Milly Southwerth. Permanager were not as close as Park and the bird for which the Brenx is most Tilferd but to nil outward appearances l'amed is not given to whispering. Or Sunow elsowhere.

scant months later the two were Wills' Battle With Tunney reinited in a hotel lobby.

"How are you, Bill," caroled the Never Did Come Off baseball writer, rushing forward."

"Ah, uh." It was not that Mr. Southworth is a sneb, a ribber or a guy who devotes his life to dealing out the ice. His brow was wrinkled in sarnest concentration for a full minute. You could see that he was hearing down, determined not to let memory alip a fast one over the corner.

Didn't you use to play the plane at-" But the curtain must be drawn over this deplorable scene . . .

Carpentier Didn't Know Joe Beckett Socially

It can be lifted upon the fact that athletes also fall to know one another. By this I do not refer to the Helen Willses, the Relan Jacobson or those others who probably have very good reason for not nodding as they pass by.

Instead, we can turn to the more elysian apheres. There we can censis. or an epicode in the life of a gentle. man once admiringly halled by the press as the "Orable Man," although he pertainly was not in the florist racket

"What kind of a fellow in this Joe Beckett?" he was asked.

"I don't know," was the quick, confident and smiling reply. "I've hever met him."

"Sure you have," persisted the inter-Viewer, shifting to English so that the waiter might get in on the laugh, tee. | having proved themselves great his "Den't you remember? He was in the atrong business men of sterling share ring with you twice and you knecked seter by blackballing the Jew who was him out both times."

continued attable and willing to oblige, I the National League umpiring, never "But that was in the ring. I was only on a very high average, in worse than gottling paid to light him. There was it has been in years: That, if Brooks no sense in talking to him then, was I lyn really to the heat of all baseball there?"

Not in the Bax Seers: Both the Dube and the Dodgers, his ald and his new playmates, are using the Freddy Lindstrom aliding pad this year. It is a pad newed Incide the left traveer is . . . Nat Fieldsher, the magazine editor, whertly will publish an energlementa of sexing. It will conbein the history and bout by bout ros I summer. And that professional track urde of Aghanes almos 1708.

TT, PERHAPS, was no mere coincidence that one of the warmest days of the year arrived along with Max Schmeling.

Naturally the ballyhoo for his fight with Louis will continue to set the pace for other temperatures until the dark Uhlan site down in front of the cream-colored Bomber on June 18, As Mr. Arthur Brisbane probably quite often has advised the world, a million bobs is a lot of doughnute. Therefore even such specialists in charitable promotion as the athletic club directors must shower down their sparks of imagery so that all citizens with money to burn will have no trouble finding their way to the festal altar,

Just as naturally, though, all this good clean fun has brought new wrinkles into the otherwise bland countenance of Uncle Michael Strauss Jacobs. While wandering hither and you, now peeping in anxiously to see that Herr Schmeling has been properly tucked into his pretty white (11:00 p. m.) bed, now peeping out fretfully to inquire whether Bolabos Yussell Jacobs has The sections of his great- been yanked out of his pretty white. (11:00 a. m.) crib, Uncle Mike ever faces the future with suspicious eye. Even while engaged in such elevating work as handing out A's (or some other letter of the Broadway alphabet) to or otherwise commune with him, they | the boys who have done the best dally compositions, the haunted gleam ever is present.

This is because, first of all, Uncle Mike has no illusions as to where charity lines up for the gun. Then again, he is a business man as well as the of the late lamented Rickard. So, because it is his own dollars which must back the ballyhoo and because a full 200 G's worth of them must be laid on the line long before June 18, this most celebrated of Main Stem traders must ever give his best regard to those items of fate which never appear upon the immaculate balance sheets.

To make sure that no misfortune besets the path of the two sthletic

young men before they con wrangle before their gold embroidered audience, he must carefully scan all angles. While doing so he must comport himself with due memory of those other promising prizefights which were forcibly detoured while seemingly on the straight and narrow

way to success.

Beimeling.

In mentioning this, there is no desire to east hints or make promises, Instead, because the way of a promoter is tough and because no fight is a success, dop or even a sure thing until the gong has sounded. I merely am sympathizing with Uncle Mikes There have been all too many such affairs which have enconstered dire fate in spite of the best of skill and intentions.

For instance there was the time when Stanley Ketchell and Sam Langford seasons to giving his best aid, advice | were ready to enter the ring of the old Fairment club up in the Bronx. Perhaps the reporter and the Cardinal haps a little bird whispered, although they seemed two hearts that beat as it may have been that the higher-ups one. They fate (along with the fall. senveyed more direct and fercible tidure to win a pennant) degreed that ings to Billy Gibson, the premoter, Any-Southworth should try his baseball for how, the affair was lunked and later conveyed to Philadelphia.

Sometimes, though, fale behaves very handsomely in dealing with all parties concerned. High up in this sorting of lights which never came off there canbe mentioned the Sharkey-Campolo alfair, which was scheduled for Yankee stadium. Just as the woofully small crowd was wending its way into the "Ah, uh Bay, I know your face, arena, the akles went in sympathy with the promoters who were about to lose a small fortune. So the thing was called off forever,

There also was the time when Gentieman Gene Tunney was supposed to meet Stevedore Harry Wills. A conalderable portion of the press thought favorably about the glorious possibilities of that one and, indeed, the tickets already had been ordered for it,

What happened need not be gone into here. Some say that Tex lickard begged Tunney to lay off and promised him a shot at Dempsey.

Things I believe: That the sign on Counte Mack's door should read "Wrecking Done Here.

Terms Strictly Cash." That folks who predict that Tony Canconeri will be massacred at Madison Square Gardens in May forget the first Ross McLarnin affair. Just as is cut down on the foods known to put the case now, Vancouver Jimmy had fat on the body-bread, sugar, potabeen idle for too long before training toes, butter, cream, and all liquids. for that one. So his less were shaky | Sleeping a little less and exercising a and his timing was off all evening.

That the National League executives, time. voted the best umairs in the same. "Yes, I know," Georges Carpentier should make us with Delly Stark. That eltles, it is very poor judgment to keep attention the most incompetent arbiters

Into the Desgers' same. That the A. A. U. may be shocked to discover a Commercial legace dignice deeply into that Bunday afternoon

hocker wold wille next senson. That a man with a bug of gold also will come lule the lives of the more eminent winders at the Olympics this and Bold events will be a success.

DR. JAMES W. BARTON Talks About

Reducing Versus Age

MIDDLE - AGED overweight woman, a member of a bridge club, secretly began to reduce her food intake in the worthy effort to get rid of her surplus weight and acquire once more the figure of which she formerly had been so proud.

She ate a "little" of everything that was served at the club, avoiding sugar. It was about eight

> weeks before any of the other members noticed that her face and body had lost some fat: that she looked unusually well also, By the end of another six weeks the change was so great that other fat members asked her se-

cret. Her only reply was that she didn't eat

as much as formerly, that she was doing a bit of her own housework, and that she was spending about one hour less of the twenty-four in bed. By the end of one most eminent promoter since the days | year her weight was exactly the same as when her age was thirty. She was very happy and very healthy because her face and figure were more youthful. Other women of the club, seeing these brilliant results, began reducing their food and obtained results more or less satisfactory in proportion to their perseverance.

Why Results Are Different

One member decided to make a real job of reducing her food and liquids and on learning the extent to which her successful friend had cut down on foods, decreased her dally diet by just twice the amount. She did some extra work about the house, did considerable walking, lessened the number of hours in bed, and tried to do as little sitting as possible.

Sure enough, the weight began to come off in both face and body, but whereas her friend's face had become more youthful with bright eyes, she found that her face was wrinkled and worn, that her eyes were sunken, her body, though thinner, had no buoyancy. Instead of looking ten years younger, she appeared to be ten years

older than before she started reducing. The reason for the success of one and the failure of the other, is two-

1. The second woman attempted to reduce in too short's time. Not only were the skin, underlying tissues, and the various organs of the body unable to accommodate themselves so quickly in a normal way to this change, but the severe method of reducing was an actual shock to the system and shock shows on the face and body of everyone, whether the shock is due to phyaical or mental causes.

2. There is a definite ideal weight that each body should carry. The amount of weight depends upon the height and width, the length of the legs, family characteristics and other factors. Thus an individual with a short body and long legs should not weigh as much as one with a long body/ and short legs.

. This second woman then had not only removed the fat too rapidly but had reduced beyond the ideal weight for her particular body. Besides, the amount of meat and eggs eaten was greatly below the body's requirements to maintain the body's muscular frame-

Matter of Individual Study

Another woman who had become quite plump at nuberty (as she emerged from girlhood into womanhood) attempted to reduce weight in the commonsense manner of the first member and found that the fat came off to a certain point and then her weight remained the same. By reducing the food intake further she found that a little weight was removed but she felt so weak she had to increase her food intake to its former amount.

Consulting her physician and giving him the history of her efforts, he suggested the use of small doses of thyrold extract for a certain period as her overweight was due more to lack

of gland juice than to overeating. The whole point about reducing for men and women is that each one should study himself or herself, the build, the build of the parent most closely resembled, the weight when aged thirty, and then very gradually, very slowly little more brings results in half the

By this simple method the face and body will accommedate themselves to the change without "shock," and the individual becomes younger in feelings and appearance.

How Reducing Drug Works There has been so much discussion among medical men about the results obtained by the use of distrophenel. that a "final" report from Dra. M. L. Talater, A. B. Stockton and W. C. Cut-

ting, San Francisco, is of great inter-

Of 170 patients they studied only five lest no weight, while reduction was abtained in the remaining 105. The average total loss of weight per petient was 17 penade, amounting to shout a less of 1% pounds weekly. -WHU MITTE

Filet Crocheted Set That's Fun to Do; Practical to Use on Favorite Chair The Mind

most comfortable chair in the room gets the hardest wear? Then that's the one to protect, as you can so casily with lovely flet crochet. A crochet hook, some string, and this exclusive design are all one needs to turn out a lovely chair set. Butterfiles and flowers form the design, and how effectively they contrast with the open stitch that surrounds them. So get busy!

The body of the New Firestone High Speed Tire is made from selected long staple cotton dipped in liquid rubber, absorbing eight pounds of rubber in every hundred pounds of cotton. This patented Gum-Dipping process insulates every fiber in every cotton cord; preventing internal friction which creates the heat so destructive to tire life, and giving to the tire added strength.

This heavy, broad, traction and non-skid tread is held to the cord body of the tire with Two Extra Layers of Gum-Dipped Cords; a patented construction, making the cord body and tread an inseparable

A feeding university in 2350 tire sests has found that the new, scientifically designed livestone High Speed tread steps a par up to 25% quicker. Its super-traction and non-skid efficiency have also been proved in the famous Pile's Peak Race subere for eight consecutive years it has been used on the winning cars.

HOUSEKEEPING IS NOW PROFESSION

Modern Women Are Using Their Time Intelligently.

By EDITH M. BARBER

TOCATIONS which are open to women were thoroughly discussed at a conference which took place not long ago, College students and recent graduates listened to discussions conducted by leaders in the business and professional world.

While many women today are wage sarners, many of them practice at the same time the profession of homemaking in which a majority of women are still engaged. Women more and more are taking the matter of managing their housholds as Jobs. They are limiting their own hours intelligently. In this case, work must be organized. A letter from one of these women states, "There must be a number of women like me who yearn to know how to assemble healthy, and yet attractive meals with the least possible bother. I am especially inearly in the morning,"

plan the menu for the week. This must necessarily be elastic as food! bargains and leftovers must be considered as they appear. The menu plan should usually begin on Sunday, both because Saturday specials are offered and because there are likely to be leftovers which can be put to

good use during the next day or two. Saturday morning, unless there are plans for an out-of-town week end, may well be devoted to the preparation of food which may contribute to meals for several days ahead.

time of preparation is to make it a habit to cook enough potatoes for two about one hour. meals at one time. They may be served baked for one meal and then may be creamed or browned in butter or bacon fat the next day. Many other vegetables will find a use a second day. Leftover spinach, for instance, will supply a foundation for a soup, a souttle or a sauce. The same is true of mushrooms.

If there are plans for a Sunday in the country with return for a late dinner, steak or chops rather than the usual roast or fowl, may be chosen. To serve with this, there may be prepared on Saturday a casserole of macaroni with tomatoes and cheese, or a dish, of creamed potatoes all ready to be browned in the oven while the steak is cooking. The prepared painted dove gray walls with a French vegetable will be cooked at the same time and the salad may be put together.

Modern Furniture

"We have gone modern. Modern is reaching all classes and its adoption into the average home is a welcome change," say prominent designers in the furniture field. It is evident that modern furniture will be more conservative in the use of veneer matchings-many of the standard veneers such as butt walnut and plain stripe are being used with conservative fin-

Color for Bathroom

An unusual and striking color scheme for a modern bathroom consists of gray trim. At the window, a Chinese red Venetian blind strikes a vivid note of color that is echoed in the bath towels and the leather cover of the bench before the black and sliver dressing table.

Varnishing Walls

over. It is a common practice to varnish fine Tiffany glaze finishes as well as plain walls, for reason of protection.

The size of the square cannot be given, as it must depend on the size of the motif to be framed. Also the shape may have to suit the require. ments of the picture. That is, the motif may be somewhat wider than its height, or higher than its width, and then a slightly oblong shape would be needed. However, the discrepancies must be anght to insure uniformity of width of frame. The pillow may be slightly shaped to conform to the shape of the picture. Which, by the way, should be woven or printed in

The frame must be of a one-toned material, although it can be of novelty weave, or in self-toned design. Its width is determined by the size of the picture and the cushion on which the cover is to go. A three or four-inch frame is the average. The picture can be centered on the square of material forming the frame, or the frame can be seamed to the edges of the picture.

There is an interesting molding effect secured by having a very narrow, three-quarter or one-inch külfe pleating or narrow fringe edging the frame where it meets the picture, and also extending all around the other edge. This fancy molding effect sets an imgay novelty framed picture cushion

Lesson for May 17

JESUS INSPIRES HONESTY

LESSON TEXT-Luke 19:1-10: 45-48, GOLDEN TEXT-Thou shalt not steal, -Exodus 20:15. PRIMARY TOPIC - A Visit From

JUNIOR TOPIC-Why Jesus Visited Zacchaeus. INTERMEDIATE AND SENIOR TOPIC-What It Means to Be Honest, YOUNG PEOPLE AND ADULT TOPIC-Taking Religion Into My Busi-

"Jesus entered and was passing through Jericho" (v. 1), one of the most noted cities of Bible history. It had been the stronghold of the Canaanites, standing squarely across the Jordan, taken by the marching pitcherbearers of Joshua (Josh, 6), the city where Rahab experienced salvation through her faith (Heb. 11:11-81). It was fitting that Jesus should pass through the Jericho of his own day, for a new victory was to be experienced through faith—the conversion of Zacchaeus

1. Zacchaeus Seeking Josus (vv. 2-4). This man, a tax-collector for the Roman power, had heard that Jesus was kind to publicans; for had he not had mercy on Matthew? Curiosity selzed him; he must see what manner of man Jesus was. Who can know how many have been led to find Christ through the exercise of curiosity. The citizens of a city are drawn to a church or a tabernacle through the growing interest of a revival campaign. Curiosity widens, becoming the initial motive in many who later have faith in easy, casual, day dress. While the Christ to the saving of their souls.

1. His difficulties (vv. 2, 3). His infamous business was a handleap, at least in the eyes of the populace. The very fact that a Jew should hold office under the bated Roman power would make him extremely unpopular. His riches condemned him. The fact that he had acquired much wealth in this calling pointed to extortion in the collection of taxes. He was unpopular; he was pushed aside, -

The shortness of his stature (v. 3) was a handleap, but not so great a one as his spiritual state. He doubtless had been pushed about much of his life and had built up an attitude of mind that now manifested itself.

2. His persistence (v. 4) stood him in good stead. If too short to see, he was not too timid to climb. He had been obliged to climb all his life. Always obstacles. placed before him he had brushed aside, or had_climbed over them, if a desired goal lay beyond. Now, the goal was a sight of Jesus, and he climbed. Though the rich man of town, he would not let pride keep Any painted wall may be varnished him from the undignified act of getting up among the branches of yonder tree, for Jesus was to pass by.

II. Jesus Finding Zacchaeus (vv. b,

While Zacchaeus was trying to see Jesus, Jesus was looking for him, as always he is looking for the seeking soul. With no word that would embarrass or humiliate him, Jesus bade him come down from the tree, and declared his intention to go with him to his home. How wonderful is grace, that regardless of one's past life Jesus will receive the seeker as a friend and enter into fellowship with him. Zacchaeus did not hesitate, but made haste to come down, and with joy opened his door to the new-found Friend.

III. Zacchaeus' Conversion (vv. 7-10). His conversion was sudden and thorough. He was converted before he reached the ground.

1. What the crowd said (v. 7) was characteristic; they murmured and said that Jesus had gone to be guest of a man who is a sinner. They could not think of his sin in the past tense, but said is instead of was. Jesus forgives and forgets. He "came to seek and save that which was lost," and he "remembers our sins against us no more forever."

2. The proof of conversion (v. 8) was immediate and satisfying. His new life was begun with resolution and restitution. He dedicated half his goods to the poor. If he before had mediate stamp of smartness on the giver. He was ready to untangle the skein of tax irregularities. While God forgets the past, he nevertheless expects the forgiven sinner to make restitution where possible. IV. Honcety in God's House (vv.

If honesty must be exacted from publicans and sinners, much more should it be required of these who have to do! with the worship of God, It is easy to condemn those who made capital out of the requirements of temple worship in Jesus' day; it is not so easy to condemn those who use the Church of Christ as a stepping stone to personal

profit and political preferment. "Judg-

ment must begin at the house of God" (I Pet. 4:17).

45-48).

A Firm Falth A firm falth is the best divinity, a good life the best philosophy; a clear conscience the best law; honesty, the best policy; and temperance the best physic-living for both worlds is the wisest and best life.

God's Promises I believe the promises of God enough to venture an elernity on them,--- Watta.

EDITORIAL COLUMN

A Dream Realized

One of our old subscribers and a former resident of Carrizozo, Mrs. Violet Dixon, now residing at San Francisco, has won the prize offered by hotel organizations of the State of California for the best article on the completion of the Golden Gate Bridge from that city to Oakland.

The article is too lengthy for publication, but is one of unusual interest. In the foregoing, Mrs Dixon sets forth the fact that in year of 1864 a personage by the name of Norton styled himself. the "Emperor" of the United States, demanded that a suspension bridge be put across the San Francisco Bay.

At that time and for many years afterwards, the idea was laughed off, but now the dreamer's dream has been realized,

Mrs. Dixon described the immensity of the project in detail, giving the different dimensional of the Bridge which has no equal in the world.

This is not the only prize Mrs. Dixon has won. Two years ago, she captured first prize at the Baltimore convention on an article covering the Bridge projects of California. In the winning of the above-mentioned prizes, Mrs. Dixon has proved herself par-excellence as a close observer of engineering projects.

The Printing Press and Prosperity

By RAYMOND PITCAIRN National Chairman Sentingly of the Republic ____

Bince its first beginnings the Printing Press has been recognised as a pros-perity-builder, as well as a contributor to human happiness and understand-

It has aided our national well-being in many ways. By spreading knowledge of new ideas and new products, by telling the producer how his goods may be improved and the consumer where they may be obtained, it has brought about that wide interchange of ideas and products which is the basis of all progress and prosperity. ress and prosperity.

For the worker it has boosted the purchasing pever of wages by lowering the cost of what he buys. For the seller it has increased profits, even at reduced prices, by greatly expanding his market. Those are the wealth-creating powers of the Printing Press-when it engages in its normal functions.

But there are theorists who advocate perity-builder in quite a different way. They want to use it to create remey, instead of weelth.

They seek to encourage the belief that if the presses at Washington simply print a lot more dollar bills, without additional reserves to sustain their value, everylecty can get rich. They ignore the teachings of experienceall prices, and thereby lowers the pur-chasing value in every pay envelope.

The two uses should not be confused. Behind the output of the press which prists our newspapers, our beaks, our the productive strength of the sountry.

Mediated the endout of the press which writed the press which without the press which will be a seen as a second to the press of the press of the press of the press of the proper than proper than proper than the proper than proper tha

"REVOLUTIONS PER MINUTE"

ITOW can the new cars give you up to 88 per cent more horse-power with the same size engines? The big reason is—bigher engine speeds!

Nine hundred Revolutions per Minute more than in the 1930 cars is today's pace, with compressions, temperatures, piston speeds and bearing pressures all higher, higher, higher! That's what has changed the motor oil picture. Great heats, great pressures and great speeds burn up oils tear them to pieces.

"RPM" Meets Every Test. R P M Motor Oil is a completely new oil, developed in the Standard Oil Research Laboratories to defy all this punishment. A study of 146 crude oil stocks from the United States and other countries led to specifications that combine all their best attributes.

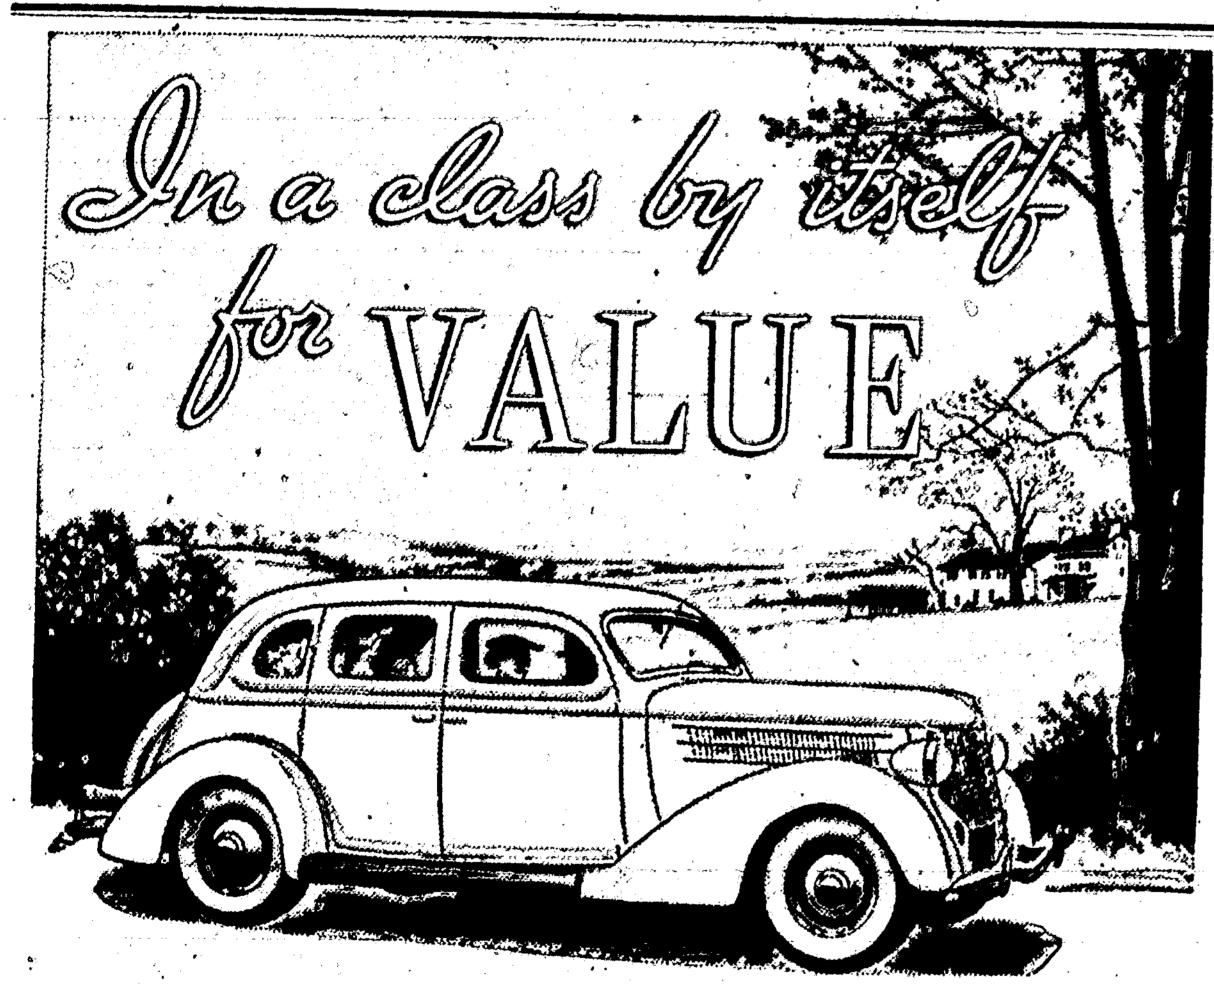

"R P Mo is a great oil for any car. It is unsurpassed in motoring performance. Fill your crankcase now with this fine new lubricant and prove it for yourself.

MOTOR OIL unsurpassed

No motor oil at any price can give you more and better lubrication.

MRPM" is a registered trade-work

A'NEW STANDARD OIL PRODUCT

STEEL MAKERS say-"Ford buys the best steel." Other suppliers of materials and parts will tell you-"Nobody checks up as closely on quality and price as Ford."

This means a great deal to you as a motorist. It is our way of safeguarding the interests of every purchaser and it leads to this-"The mechanical depreciation on a Ford is less than most cars, especially after the first year."

This is one sign of the extra value in the Ford V-8. Accuracy in manufacturing is another. (The Ford is made to unusually close precision limits.) And there is a long list of fine-car features that are exclusive with Ford in the popular field.

Have you a V-8 engine in your car? You pay \$1645 for it in any other par but Ford.

Does your car have Center-Poise Riding? Ford gives you this modern feature—"a front-seat ride for back-seat passengers."

Does your car have fool-proof Super-Safety Mechanical Brakes? The Ford V-8 gives you this proved design, with 186 square inches of braking surface.

Does your car have a genuine steel body structure? Does it have Safety Glass all ground? Ford is the only low-price car that gives you this extra protection without extra cost.

You get these fine-car features in the Ford V-8 because of Ford manufacturing methods and low-profit policy.

\$25 A MONTH, after usual down-payment, buys my model of the new Ford V-8 car-from any Ford dealer-anywhere in the United States. Ath about the new UCC 1/2% per month Finance Plans.

"April Fool's Tragedy" By FLOYD GIBBONS Famous Headline Hunter.

VOU'VE all heard about the girl who plays a man like a fish on a line. Well, here's a case where that situation was reversed. Distinguished Adventurer Patricia Root, of New York city, has come here to tell the story of how a man once played her like a fish on a line.

What's more, Pat Root isn't a bit sore about it. As a matter of fact, she's darned grateful to the guy. She would have died if he hadn't-well-sort of made a sucker out of her. Fish lines can be pretty tough on fish, but this one meant life to Patricia.

It happened on April Fool's day in 1933-and you can forget about the date, because there's no fooling about this adventure. Pat was visiting in the Virgin Islands, way down in the West Indies, and as our story opens, she and five other people were starting out to go tarpon fishing.

"But not tarpon fishing as most people picture it," says Pat. "We set out in a foat from the island of St. Thomas to Thatch Cay, a small key about a mile off shore. But there we left the boat, for we were going to do our fishing from the shore."

Pat Began Tarpon Fishing From a Rocky Ledge.

Put was just fifteen at the time. The others were older. There was John and his wife, Maria, Carl, and two native Virgin islanders, Wilmot and Paul, They crossed the key to a spot where a high cliff ran right down into the sea. There was a little ledge at the base of the cliff just big enough for one person to fish from .- And there they fished for the big, hundred-pound fighting tarpon, taking turns with the line down there on that narrow ledge.

It was late afternoon before it came Pat's turn to fish. She clambered down to the ledge and was a bit frightened at the way the waves bolled up, almost to the spot where she was standing.

Says she: "We should never have gone fishing that day. There was a ground sea running and a ground sea has a peculiar motion. None of us had noticed that the ocean was getting rougher. At least, I didn't, until I turned to look up at the others sitting on the top of the cliff and suddenly found myself enguifed in water."

She Was Washed Into the Shark Infested Sea.

A huge wave had leapt up and flooded the ledge Pat was standing on. Before she could catch herself she was washed off into the deep water. "For the moment," she says, "I didn't realize the terrible hopelessness of my position. I lieurd a ablash beside me and saw Wilmot come to the surface. He had jumped from the top of the clift.

"Wilmot put an arm around me and swam with me toward the ledge. We reached it-clutched to it desperately-but neither of us could climb the sheer, precipitous side of the rock wall that led to it. it was only then that I realized that we couldn't get back on shore again."

Again and again, Wilmot carried Pat to the cliffside, but each time the dushing waves washed them back. Wilmot's strength was beginning to full him,

Carl Tossed the Streng Tarpon Line into the Sea.

but he will labored frantically. He knew what Pat didn't-that there were sharks in those waters and there wasn't a moment to lose,

Fishing for Human Lives in Storm Swept Waters.

At length, as he reached the ledge for the last time, a wave washed him upon it, but by that time he was too weak to pull Pat after him. She was washed back out to sea white Wilmot, totally exhausted, my on the ledge until Carl came down and carried him to the top of the cha.

While Carl was carrying Wilmot back to the cliftop, John, down on the ledge, was trying to reach Pat's outstretched hands. A moment later another wave carried him off into the water, too.

The waves were now rising so high that it was dangerous to stand en the ledge. But Carl tried it. No sooner had he carried Wilmot to the top of the cliff than he started down again, this time with a strong tarpon line in his hand. He tossed that into the water. John caught it and looped it around Fat. "It got twisted around my neck," Fat says, "and for a moment I just hung there. A wave covered me and the line fell off. When I came up, I caught it again and twisted it around my Anger."

And then began the queerest bit of life-saving you ever saw. Up on the ledge stood Carl, fishing rod in his hand, slowly bringing Pat in toward shore as if she were a fish. That line wasn't strong enough to sustain her weight, so Carl "played" her-reeling in as she rose on the crest of a wave, and letting the line out as she fell again.

The Waves Finally Tossed Her Up to Safety.

Minutes passed while this strange game went on. Pat began to wonder it Carl would ever get her ashure. She was sore and bruised where the wayes had deshed her body against the rocks. The thin line wrapped around her hand, above zero, you can follow it by the was all but cutting her fingers in two, "I was beginning to bleed from my arms," she says. "when I heard John shout for help three times. Then there came a long allence: I didn't know it then, but John was done for. A shark had gotten him."

More minutes passed. Pat was gasping for breath-ready to faint from the terture of that cutting line. Then Carl took a desperate chance, Shouting to her to keep up her courage he began to reel in the line. Inch by inch she neared the ledge. It was almost within her reach-she had her hand on it. Then, at the crucial moment, a wave same to herreaction and washed her bodily up on the ledge.

Carl carried her back-to-the-top-of-the cliff, brulsed, exhausted and covered with blood, "Since that day," says Pat. "I have forgotten the real meaning of April Fool's day. To me it has become the anniversary of an awful tracedy," O-WNU Bervice.

February Called Cabbage

Months Later Sun Month The ancient Saxons called February Aprontable or the Aprouting of the Caldiage, Later, this was changed to Runmonath, or aunimonth, because was at this world that daylight increased and the printing of trees began,

The word February comes from the Latin, "februare," meaning "to expiate, because, during this month the Roman ceremony of purification took place. Originally, it was the last month of the year, and not until 402 lb. C. ald and then he said, "lyby, you think of Debruary assume its present place.

culcudar, he maye \$1 days to each al-Feb; mary, which got 30 in long year thought,"-Christopher Morley,

and 20 every other year. But when tears, "I mights known better," said Augustus took power, he was unwilling the lumberlack, as he added one of his that the month named after him should own tears to the collection, "then to he shorter than those on either side. so he took a day from February and added it to August, 80 that three months of \$1 days should not run conseculively, he reversed the other two.

Must Think First

Blondy by a Tongue!

*TATAX back, in 1802—said the Old turiman-I owned as beautiful a racing mare as ever was foaled. Her name was Blondy because of her color, My other possession was a farm inthe Blue Grass country on which was

Bad luck cut between me and the purses although Nigger Jim, my trainer, would get her cream-colored body in the pink before every race,

hung a "planter" of \$15,000.

We taught Blondy a lot of tricks between losing races. One was to make a face. Nigger Jim or I would hold an apple or carrot so she had to stretch her neck and put out her tongue for it. And she got so she would do this whenever we told her "make a face."

We entered the mare in a claiming race at Churchill Downs the spring of 32. It was May 15, to be exact. The mortgage on the farm was due May 16. Nigger Jim had Blondy in great form for the 1% mile race. But the bookles were laying 20 to 1 against our nag. I managed to scare up exactly one thousand berries and placed the whole roll at 20 to 1. It was win the race or lose the farm.

The horses were away evenly but 100 yards from the start Blondy stumbled and lost stride. We grouned but heartened as she winged away, regaining lost ground at every jump. Then a horse cut in front of her, It was Dixie Dude, and she had to be pulled.

Down the back stretch and around the turn they came. Blondy was moving up on the outside, When they gether. hit the stretch she and Dixie Dude were running head and head.

It looked like a certain dead heat but at the last jump or two Nigger Jim, hanging on the rail, yelled "Make m face. Yo' Blondy! Make a face!" Thank God! Blondy heard, straightened her neck, shot out her tongue across the finish line and won the race."

Man-Made Mesas

A FTEIt Paul Bunyan finished his work logging off the Pacific Northwest he decided he'd become an olldriller. First thing he did was to go down into New Mexico and begin drilling a well on top of a mountain.

Paul's well was sunk to a depth of 14.006 feet without a sign of oil. Funny thing about that mountain-it was made up of alternate layers of thin rock and dry sand,

One night a windstorm came up. And how she did blow! The next morning when Paul woke up he looked out of the window of his shack and such a sight as met his eyes! There was his hole, standing straight up in the air as high as he could see. The wind had blown all the sandy layers away from it but the layers of rock were hanging around it like washers pushed around a drill stem.

Paul was pretty mad about it but he didn't waste any time standing around cussing. He just took a sledge and climbed up to the top of the hole. When he got there, he began pounding the hole down into the ground again. As he did so the layers of rock began to come together and in less than no time they made a mesa, That sort of thing happened time

after time and that's why New Mexico is so full of mesas. They're perpetual monuments to Paul Bunyan's unsuscessful oll-drilling operations there.

The Squalling Squonk

COME cold, winter night, as you sit

before a roaring fire in a hunting lodge or in the bunkhouse of a lumber camp in the North Woods, you're certain to hear outside a long-drawn-out moaning. But if you think it's the wind in the bare branches of the trees, you're mlstaken! Your lumberlack friend will tell you it's a squonk, mourning because it has a warty, ill-fitting skin.

That's all a squonk ever does-just goes wandering among the hemlock trees, weeping and sobbing bitterly because its skin doesn't at. When the thermometer is down to nine degrees little globules of ice it leaves behindthe senonk's trail of frozen tears.

Because it is such a shy, nocturnal animal few men have ever seen a squonk. But once a lumberlack, by imitating its cries, ured one into his cabin. The little beast seemed perfectly satisfied until he shut it up in a wicker basket. Then it began to ness far too much if one is to accept sob and moan.

This went on for hours, then died down. The lumberlack peeked into the basket to see if the squank had cried itself to sleep. But all be found was salt water and a few bubbles. The squank had dissolved itself in its own have what up a squark in a basket made from branches of the weeping willow tree."

Strange Burial Custom The Toradian a primitive race of Celebes, have strange burial customs. The body remains in the bouse for two sears, until the death rites have been completed, and then it is placed in a tomb, cut in the side of a mountalk the entrance of which is torever granded by a lifeline offer. Incl. dentally, the Tornilles are the only people whose hely men are known to dress in wassen's clothes. Collier's

Mashing on Digest National Topics Interpreted By WILLIAM BRUCKART

sented by the Chamber of Commerce brought forth the information that of the United States. Start Class again has clashed with the New Deal, Struggle and again the can-

nonading by business added nothing. New Deal not at all, for the New Deal has proceeded after the manner of the mastiff trotting along without concernwhile a poodle barked and anaried.

Business made no overtures for compromise with the New Deal and New Deal spokesmen were not hastening to make peace with business leaders. Altogether, there was not the slightest indication given that there will ever be peace between the two elements of economic thought.

The one thing that impressed me about the recent annual meeting here of the chamber of commerce was the solidarity of business in its opposition to general New Deal principles. That was to be expected but it has not always been the case. In days past, there were many business groups and individuals who adhered to the New Deal and vainly tried to work out an understanding with the administration, At this annual, meeting, however, there was not the slightest effort made on the part of business to accomplish any arrangement whereby business and the administration would work to-

This can mean only one thing: President Roosevelt is going into his campaign"for re-election without the support of business interests except where, in particular lines, benefit has accrued incidentally to specific busi-

One would think that such a condition would constitute a threat against the President's re-election. Such appears not to be the case, however, because of the particular type of campaign which Mr. Roosevelt and his political commander in chief. Postmaster General Farley, are making. The President's recent political speeches have mule it quite clear that he is seeking support wholly from the agricultural and labor segments of our voters. His appeals are quite open and frank and they are drawing considerable criticlam because it is held they constitute the initiation of class struggle in this country. Whatever the reason for the President's course, it remains as a fact that he is very busy cultivating voters who have suffered most in the depres-

When I reported above that business came off second best in its fresh assault on the New Makes Good Deal, I did not mean | business not generally recognized. to imply that it had

not made a vigorous fight. It probably gained some ground in getting before the country its side of the story, a phase of our national situation which has not been as fully advertised to the country as have the activities and accomplishments of the New Deal. The story of the losses suffered by husiness actually is not a great deal different from that of the individual, and many businesses are existing on a hand-to-mouth basis just as is the case with thousands of individuals. Because business, in our mind's eye, at least, is larger than an individual, political demagogues regard am inclined to believe, business has not had a fair chance on the part of most of us when considering national problems.

On the other hand, business has many units within the whole that have not played fair. There are a great many corporations that are guilty of plain oppression, even to the extent of fraud and corruption of business methods. For the crookedness of this sexment, all business has been blamed by the New Deal. This is not equity. The unhappy part of it all is that unless all business stands together, good, bad and in-between, it can get nowhere at all in defense of its legitimate rights.

There is, therefore, a wholly natural and yet quite unfair result emanating from this condition. New Deal planners in their efforts to catch the crooks, have punished lexitimate busieven partially the public statements and the private expressions of the business men who attended the annual meeting of the chamber of commerce. This ought not to be and I think that legitimate business has just ground for complaint on this score.

So, as the situation now stands. believe it can be said in all fairness that neither side in this battle between the New Deal and business comes into court with entirely clean hands. Busi mees has its cancerous sores. The New Deal has its nitwits and theorists who know nothing about practical economice. The result of this is plainly seen, and it becomes more and more apparent that Mr. Roosevelt cannot accompileh his objective of complete recovery until he directs some of his sub ordinates to put their feet on the ground. Indeed, there are some of the New Deal subordinates who exclut to se tonged bodily into the street, just as there are some business men who the old awerds of these

Washington,-Business, us repre- | The chamber of commerce meeting business, as a whole, Business had kept hundreds of Has Answer thousands of workers on its collective nav

rolls during the depression when con-Its attacks apparently bothered the ditions did not justify their retention. The claim was advanced that business had expended something like twenty billions in wages paid from stored-up reserves. It was further asserted that business was alone responsible for such gains toward recovery as have been made.

New Deal spokesmen, from President Roosevelt on down, have consistently accused business of failure to take on workers and help solve the unemployment problem. At the same time, the banking structure of the country has been accused chiefly by the President of refusal to extend credit to business. and business as a whole has been classified by the President as greedy.

It seems safe to say that as regards these charges, business does have an answer, for throughout all history cap-Ital has refused to work unless there was a reasonable promise of return. Now, in addition to the lack of that promised return, business is and has been constantly confronted with uncertainties on the part of the New Deal. The present pending tax legislation is typical. The most dangerous provision of that legislation is that which will prevent business from building up reserves such as those upon which it has been drawing during the depression.

If the business claim is true that it has paid out twenty billions more than its operations justified for wages during the depression, it causes one to ponder over the future. One is inclined to ask what strength business will have to do even as much for the working classes during the next depression as it has done in this one.

With reference to the New Deal policies toward business, a statement by the Rural Electri-

Delicate fication administra-Question : tion has just come to my desk. It touches on that very delicate question of how far the government can enter into business in competition with private enterprise without destroying or driving out private initiative. The complaint on the part of private business that the government is continually wedging its way into private fields is well known but the REA statement puts something of a new slant on the view. In fact, it brings to the front one of the elements of government in

The REA statement consists of a letter from REA Administrator Morris Cooke to the State Corporation Commission of Virginia. The Virginia commission was urged to consider the situation in which the REA and one of its loans will be placed in event of. a certain ruling by the Virginia officials. In effect, Administrator Cooke asked the Virginia commission to rule against private business in order that a \$300,000 loan made by REA to a cooperative organization in Virginia can be protected.

To review the facts briefly, let me explain that a private electric company applied to the Virginia commisit as fair game and for that reason, I sion for authority to extend its lines for transmission of energy into a farming section adjacent to cities served by the electric company. It happened that the REA had sent agents into this same territory and had obtained promises from many farmers to buy electricity from a co-operative concern to be organized and financed by REA. The private company apparently horned in to what Mr. Cooke thought was the territory of REA by right of discovery or some other such reason, and so he is now engaged in attempting at least to prevent the private company from entering that field,

The point of this circumstance is that here is a federal agency, steeped in bureaucracy and with the usual bureaucratic thirst for power, which actually is attempting to drive private industry out of its way. It is doing it under the thinly disgulated reason of protecting a government I have heard considerable discus-

sion of this case. Many observers and students of economic questions contend that the federal government has absolutely no right to engage in that sort of business. While it may be, and probably can be, said that the electric company was attempting to take the cream of the crop by extending its lines only to territory adjacent to its headquarters, the fact remains that the normal re-employment which that private company would do will be cut down proportionately by the extension of the federal activities into that area. It may appear that the workers displaced for the private company will be taken on by the federally financed co-operative lines but such is not the case. It is just one more indication of how government, once it enters by vate business, continues to expand and to destroy initiative which private enterprise has and which government never has been known to have

CHAPTER VII-Continued ---13---

Mr. Ramill had reacted in his own way. His temporary friendliness had disappeared. He was again the bland, adroit investor in mines who so generously presented worthy prospectors with a thousand, and in return took over claims worth many thousands. Huxby of course had been a hopeless were possibilities in the older pirate.

Lilith Ramill, however, was the real disappointment. Though she had done nothing, so far as Garth could tell, to disprove her declared hatred of him, the had seemed more and more to show a spirit of fair play. It had led him into thinking she possessed a true spirit of sportsmenship.

Yet now the girl avoided looking at him. Occasionally she gazed rather hard at her fiance and murmured about the hotel at Edmonton. But for the most part she sat in moody brilliant blue diamond of her engagement ring seemed to annoy her. She rubbed at it with a bit of dry moss, between bites at her meat.

By the time Garth finished his own half-spoiled meat, he managed also to swallow his bitterness. After all, what else could he have expected? The girl was the daughter of Burton Ramill—the selfish spoiled daughter of an unscrupulous business sharper.

He broke in upon her rubbing of the begrimed diamond; "May I ask you for the salt and tea bags, Miss Ramill? They're as good as empty. see. But I can refill them for my return to the valley."

She stared at him, wide-eyed. "Valley! You-you're going back there?" suppose I'll abandon all that million in my platinum placer."

Huxby's face had gone blank. His agate eyes stared with all their cold rancor. But Mr. Ramili chuckled. "Of course, my dear-the placer. He will be going back to his placer next spring."

The girl did not turn her astonished gaze away from Garth. "Dad does not understand. I do. You mean now! You planned it from the first. All that caribou meat and the-"

"Good guess," he broke in. "It has taken a bit longer than I expected to get you out. But in my light birch-· bark. I fancy I can make the head of cance water before the freeze-up. After that, frost and snow will make no difference. I'll have a pair of webs -snowshoes."

The millionaire spoke in place of his wild-eyed daughter: "But, man, the cold?"

Garth smiled. "Have you forgotten I told you that I wintered with the Eskimos at Coronation Guit?' "They have dog teams."

"Some of those teams were reared from wolf pups. I might experiment. There are several wolf families in the valley."

"You're stark mad! If you think you can---

Mr. Ramill paused. He listened to what Huxby was muttering in his ear. His frown smoothed out, and he again favored Gurth with the smile that did not go up as high as his shrewd

case. But Garth had fancled there swarming. You'll find a bit of sand As was of course to be expected Lillth Ramill had not returned from her own dip and wood-ashes laundering the fluffy gray wood ashes upon it a rip in the left leg of his buckskin

> Still in a friendly mood, but with long grass beside Garth.

A cold deck, and no stakes up."

Garth differed: "Why not put it according to the facts, sir? I offered a square deal-a straight business propo- surance roused her from the semisition. The placer was in on that, swoon. She struggled partly up, to Had I not sent but my papers for rec- | peer at her father, her hands braced ord, I would have had no legal claim to offer in my bargaining."

"Why-er- But when I refused your terms, and you refused mine, you said you preferred to play out the

yours. It was you and Huxby who thought you had the eards stacked to win. You fancled it a sure-thing | Liar | meak! He did not attack Dad.

"But-your game? You had the placer clinched. Why not have said so at once, or at least there at the lake when you turned the tables on us? I might have accepted your terms. At least we could have flown out together, instead of going through all out, he took a luxurious swim in the these weeks of privation and hardship."

The last words won an amused glance from Garth.

"Hardship - privation? You must know several fellow millionaires who call it prime sport to spend a month in the bush." "Sport?"

"Oh, well, if you can't see that side of it, just recall yourself as you were when I had to holst you out of the

monoplane cabin." That held the millionaire for a long moment Then-

"Admitting how much I've benefited from your health cure, Doctor Garth, your methods have done my future gers of your raw wilds--"

a brittle, harsh alloy. Now she's at least partly tempered into true steel. I had hopes of still better results from the both of you. But hate and treachery blacken the blood."

At the bitter statement, the millionto turn over on his side to frown at Garth. The movement drew Garth's giance. Above a clump of wild currants, less than ten paces distant, he slon of learned men to investigate the glimpsed the top of Huxby's hat and the outthrust muzzle of the automatic.

As Garth ducked forward, the piscol blared. Garth pitched down on his face. At the same instant, startled by the shot. Mr. Ramill jerked up on his elbow. The long grass had hidden him. Huxby could not have known that his partner was lying so close beside

In the excitement of the moment, he must have thought he had missed his kill and that Garth was bounding up again. He instantly pulled the trigger a second time. Knocked over by the shock of the bullet, the millionaire sprawled across the flaceld body of

Even as the roar of the second shot dinned in his ears, the killer saw what he had done. The pistol dropped from his paralyzed hand. He stiffened Garth's mirth was mixed with ad- erect on his knees to glare at that uppermost body. It did not move.

Before he could recover his wits. Lilith burst screaming from the spruce thicket. Half clad, wet hair flying, she dashed forward to fling herself down on her bare knees beside her coat of mosquito dope, his face was the same sallow gray as Garth's.

She looked up, her eyes black with horror. Huxby had risen to his feet.

His lips tightened. "You're mad, darling-clear off your head. I shot to d-d roughneck attacked your fatherwith the knife-had him down. At my first shot he dodged. I thought I missed. Your father apraise up just as I fired again. It's the truth."

killed them-both i"

A great shuddering selzed herswooning, she sagged forward on the body of her father.

Huxby advanced with wary quickhe had shot, he threat his coal-bidden astronomer of the name.

Copyright by Robert Ames Bennet blue eyes. He spoke as if nothing | With swift, purposeful movements, pistol into its sheath. All the back of he rubbed the fat on the rusty pistol Garth's sideward turned head was a

> Mr. Ramill's wound gave him no less opposite reason. The bullet had struck tween neck and arm. Huxby pulled the thickset body from under Lilith and opened the front of the leather coat. The steel-jacketed bullet had drilled clean through and come out below the collarbone. "Look!" he shouted his relief. "Your

father-he's not killed, only knocked our. The wound's not serious, so high shrewd calculation in his eyes, Mr. up through the chest. Same way one Ramill stretched out on his back in the of my classmates was shot by a holdup. Take hold. We'll get him into the "Well, young man, it appears that cance and make a quick run down the game is played out. The joke on across to the refueling post. That us is that you had the cards stacked. I fellow Tobin will have a medical kit." The pulling of her father from under her had let the girl down upon the body of Garth. Huxby's eager asupon Garth's lax side.

Even as she gazed, the gray of her father's face became less ghastly. But In place of the smile of relief for which Huxby looked, she sprang up to flare at him in another outburst of denunclation:

"Murderer! Har! There's his knife where I left it. He did not have it! But you—you crawled up and shot him -without warning!"

Huxby dropped his mask. "What of it? The d-d wood louse lled first. He thought it funny to keep mum about having recorded his claim

-to play your father and me all this time. Great joke that. Only it backfired on him. I'm the only pilot who can find the valley. No one can say that the claim we file on is the same as the one he recorded." The girl quivered, tensed, and bound-

ed sideways. The belt-ax was lying near the knife. She clutched one in each hand and straightened erect, her eyes ablaze.

"You beast!" she cried. "Go! Go. or I'll kill you!"

(TO BE CONTINUED) Arkansas' Pronunciation

Decided by Legislature From 1844 to 1848, Arkansas was represented in the United States senson-in-law no good. As for my daugh- ate by Chester Ashley, born in New ter, to drag a delicately nurtured indy | England, and Ambrose H. Sevier, born into the dirt and privations and dan- in Tennessee. Ashley pronounced the name as spelled, while Sevier always "Delicate!" Garth cut in. "Do you said Arkansaw. Sevier contended that know of anyone more hard? The the French got the name from the point in her case is that she was only. Indians, and spelled the last syllable cuit. "sas" because that was pronounced "saw" in the French language. The

Vice President in recognizing Senator Ashley always said "the senator from Arkansas," while in recognizing Senstor Sevier he said "the senator from airs flushed with anger. He started Arkansaw." The people were divided on the subject. In 1881 the Arkansas legislature caused the appointment of a commis-

subject, and on the strength of its report passed the following resolution:

"The only true pronunciation of the name of the state, in the opinion of this body (the legislature), is that received by the French from the Indlans, and committed to writing in the French word representing the sound, and that it shall be pronounced in three syllables, with the final "s" silent and the "a" in each syllable with the Italian sound and the accent on the first and last syllables, being the pronunciation formerly universally and now still most commonly used, and that the pronunciation with the accent on the second syliable with the sound of "a" as in man and the sounding of the terminal "s" is an innovation to be "discouraged." The resolution was passed in March, 1881. The name of the river, however, is pronounced Arkansas by many citizens of the state who are careful to call their state Arkansaw.

Wrens in Our Gardon The house wren is one of the most economical birds we have, a friend to be cherished in any orchard or gar-

den. He feeds entirely upon insects and if ever one did any harm it must have been a mistake. They rear two ression, try to find out why. or three broods of four or five bables He was advancing, once more cook each in a season. Daddy and Mother it that your friends are, there must be Wren both work, taking turns sitting some reason for his fullure. on the eggs or feeding the young. For | Dig that reason out, if you can, a few days after a brood has hatched the father is so proud and happy that his song tumbles all over itself. Then he cools down as his duties become

Future Written on Stave

The Chaldean sages studied the beavens to wreat from them the secret of the influence of the heavenly "Truth!" she cried-"truth! You've kodies on human attairs. They fancled that the future was written on the stars, and that it was possible for with cold deliberation: "I withdraw | As the two disappeared over the shook her like a fit of ague. Almost | the human mind to decipher the scroll of the heavens. From that study of the movements of the heavenly bodies developed the science of astronomy; need. But at sight of the two men the astrologer of one age was the

lately returned from European lands. Some of them know what they wanted to

see when they got there and saw it. They got something useful and unforgettable out of their trips.

The majority of them went there thine. chiefly for the purpose of showing their neighbors that they could afford It.

They would have learned a great deal more if they had stayed at home and looked at the local scenery.

Darwin's idea of a place worth see-Ing was the extreme or almost the extreme tip of the South American continent.

He wrote a book about his travels which you will do well to read if you haven't read it already.

Marco Polo, perhaps the first bxplorer learned more in a few years about the fun and interest to be got out of traveling than his fellows had got in all their life-times.

A thirst for travel springs from a thirst for knowledge, and that is a thirst for education and enlightenment.

Fabre, observing the actions and habits of spiders in his little back yard, and Maeterlinck, making simflar studies of bees, gave the world something to think about and ponder on for the rest of its life. Yet neither of them in gaining their special knowledge needed to move from their homes.

I think that in some future time. which may not be far off, college professors will take the young men and -women-under their charge to distant lands and distant places, or even to spots close to home and deliver lectures on the way.

A very great writer said that 'Home-keeping youths have ever homely wits."

By home-keeping he meant remaining "local boys" who only see the interesting manifestations of life and Nature, and learn nothing about them. If you cannot travel in person, travel

by means of books, or by listening to those who have seen the world with the definite purpose of learning all that one can learn about it. Interest and excitement help to

mold life for the better. Get all you can of both. Never let your wonder lag.

We are just beginning to learn what we ought to know about this planet

of ours. Instruction is now definite and systematized. Make the most of it, and you will

be making the most of life. You can, of course, learn from your

own mistakes. But to do that you must admit to your-Mistakes self that they are mistakes,

For the average man that is diffi-Nobody wants to admit that he is in the wrong-even to himself.

The best way to make progress is to learn from the mistakes of other people. That will open to you a wide and fertile field.

In the old days of rough and ready doctoring, it was said that many physicions buried their mistakes, and therefore never got any blame for

But that was in another time, when even the practice of medicine was on the cut and try system.

Today most doctors know their bush ness. They must or they rapidly cease to have any practice.

. . . As soon us a doctor finds it possible to leave his practice for a short time. he heads straight for one of the great medical colleges or medical centers and brushes up on his business.

The result is that many more sick people are brought back to health, and many more well people continue well, because their doctors tell them how to take care of themselves.

Naturally the practice of medicine has gone ahead of most other professlons.

The most important thing to every man or woman is life. And if their lives are endangered or unde a burden to them by Illness they at once turn for help to the men whose trade It is to keep people well. But let me get back to my topic.

Wifen somebody you know-somebody who ought to have succeededhas tailed in his business or his pro-

It he is fairly intelligent, as I take

Learn where and why be committed mistakes. Then overhaul your own mental mas chinery, and see whether or not you

are taking the same roads That will involve a little thinking, but thinking, as for as I know, has never in-Hired anybody.

Life with all its activities is constantly going on around you. Make careful use of it, note the rise or fall of men around you.

Elgura cut, when they go wrong, why they go wrong, Then when you are but to some crucial test, you will know how to take

the right course.

COMMENTS By Lewis Burke

As Amigo Mio Billy Shakespeare so aptly said: 'Ali the world's a Stage, And the men and women

merely players." We presume that Wilyam referred to - "Life is just one damn thing after another;" only he had the gift of using more colorful English.

The purpose of this column is to try to lighten the burden of our worries and trouble. You only know "our' side of trouble; look around and you'll find that there is some one far worse off. In other words, we "gotta learn to take it on the chin." Remember that you're troubles could be a whole lot worse. Are we not right - or, to use English more befitting our pro fession-Aint it? P. S. How'd you like to be Dillinger or Karpis?

Doesn't this get your Nanny: When a bird is called on to say something at a public gathering to hear him say in an apologetic tone, "Unaccustomed as I am to public speaking"—and then talk for half an hour.

A new M. D. has arrived re cently. This office printed him some Statements which were delivered muy pronto. The new physician said that he was asked (believe it or not) by a number of people, to send them statement of their account. Who said that the bill of a doc tor was the last thing to be paid?

This Scribe's latest addition to his supply of phonograph records s the sublime Mendelssohn's "Nocturne," or Evening Song played as a French Horn solo (golly, how we love that instrument.) Radio is OK when she's working, but our choice is the phonograph. Always ready to perk; fool-proof and freedom from that cussed Static. Well, that's our version; take it or leave it. .

That's a Laugh-About Roosevelt balancing the Budget.

We went to the Bank today to draw - our breath.

This Scribe is a College Man too, being graduated from the U. of H. K. (University of Hard Knocks) in '18.

The gallant Italian army of Mussolini, dubbed 'Il Duche' by an exchange, has almost conquered' Ethiopia, "Shux," retorts an Observer. "the modern methods of warfare used by the Italians reminds me of the time the United States had in subduing the Indians. And we didn't have airplanes and machine guns to mow them down with, either. Grand chorus-"Viva the brave Italian warriors." - And many happy returns. - Aint we right?

We didn't want to know, we are just asking for information: Why is it that a Church service is held in the "Evening" while a dence is invariably held on the "Night?" - Especially Saturday night affairs where they have Mucha Tequila.

To the Business Men's Club-We think a sign could be displayed in front of the postoffice. "'S Miles to the Ancient Lava Flow." Two thirds of the tourists pass through this town totally unaware of the lava flow's ex istance. A lot of cities would be glad to advertise this attraction, if they were only so fortupate to have such a marvelous spectacle. And the cost of the sign would be moderate.

To Mr. O. L. Hinger, Photographer of Silver City - Yours received; many thanks,

So-Adion, from the Land of Turquoise Sky, Broad Open Spaces, History, the Ancient Laya Flow and Romance.
