PRICE \$2.00 THE YEAR

Diamond Dust

By Joe Chavez

	Won	Lost
Carrizozo	7	7
Cobras	11	8

The Cobras revamped and shifted their line-up at the local park last Sunday to snatch victory from the Carrizozo Cardinals in a hectic but very hard-fought game.

The Birds depended on their submarine ball pitcher, Simpson, with Chambers as his battery mate, to again stop the Cobras based on their tracks and make it two in a row over the east side boys. But the Reptiles were out for revenge for their eighth inning defeat on the morning of August 15th, and they splattered venom with their sticks to the four corners of the globe, and to that much dreaded seventh inning, had things going their own way. But the jinx shined in his nose at the appointed hour and with the Cobras leading 8 to 4, the Cardinals came to bat with an undying determination to catch up with the murderous foe. Chambers slapped the offerings of Alfredo Lopez to centerfield for a homerun to start the big rally which netted them six runs to take the lead 10 to 8. In that eventful 7th inning, the Cobras seemed to sense their predicament and committed some very feeble mistakes to contribute to the deadly assault from the bats of the Cardinals. The Cobras took new life in the 8th and hurriedly stationed two mates on bases. Reliable Andy Lueras scratched an easy hit over second base and scored both men to tie the count. The Cardinals scored one in the 9th, but the Cobras retaliated and tied the score again, forcing the game into another inning. In the 10th, the Cobras again took the now faltering Simpson's number and filled the bases. Tony Peres, the flashy shortstop, stepped up to the plate and cleared the bases with a terrific three-bagger to give the Cobras the game by a 3-run margin.

A. Lopez pitched good ball for the winners. The Ortiz trio, Frank Vega, Chambers, Barera, Lueras, M. Chavez, Littell, F. Lopez and Marquez had a big day at bat. The Tony-Marquez-Lueras combination pulled off a couple of fast double plays, both at most critical times.

Billy Gallacher and Harry Miller were the umpires.

Margaret Shafer and Dorothy Nickels Honored

A surprise party was given Wednesday evening at the home of Mrs. R. W. Bowlin, honoring the Misses Margaret Shafer and Dorothy Nickels, who are leaving for Las Vegas Saturday, where they will attend college. A "treasure hunt" was given and also a handkerchief shower was had for the girls.—Contributed.

A. W. Drake of Ancho was a business visitor yesterday.

Personals

Mr. and Mrs. Harlan Harris returned last Thursday from a ten days' visit with friends and relatives in Sweetwater and other points in Texas.

Mrs. Agnes St. John, daughter Mabel and son Eloy are here this week from the Sacramento visiting the St. John, Padilla and Marquez families. Mrs. St. John will return to the mountains, while the children will remain here to enroll in school.

Mr. and Mrs. Chester Fouat were here from Chicago last Friday to attend the big picnic and barbecue at the Kudner O—O Ranch.

Mrs. Frank Beavers, Mrs. Jim Jackson and son Joe Coe were here from Ruidoso Saturday, as delegates to the Democratic convention.

Mrs. Harlan Harris spent Tuesday and Wednesday of this week visiting her mother, Mrs. Dora Fuller, at Corona.

Mrs. Eloise Barnett of Carlsbad spent several days here last week visiting her father, Milton Lesnett, her grandmother, Mrs. A. E. Lesnett and other relatives. She left for home last Saturday.

Mrs. Ellen Sellars came over from Santa Fe Tuesday and returned Wednesday, accompanied by her daughter Mary Ellen, who went back for the opening of the Loretto Academy. Miss Sellars has been selected as business manager for the Loretto Echoes, the Academy paper. This Lincoln County girl had the distinction of winning first prize offered by Mrs. Roosevelt for editorial in a five-state contest.

Mr. and Mrs. Will Ed Harris were business visitors Thursday from their ranch in the Gallina mountains.

Mr. and Mrs. Doyle Rentfrow of their ranch beyond the Malpais were visitors in town this Thursday.

Mrs. Murph Muirhead and baby son left last week for a few days sojourn on Eagle Creek, being joined there by Mr. Muirhead.—Alamogordo News.

Evelyn Claunch has recovered from an attack of auto intoxication which kept her in the Robinson hospital the greater part of last week.

Pansy and Geraldine Morris were here from Ancho Wednesday, accompanied by Jerry Sweet. They returned home in the afternoon.

Mr. and Mrs. R. A. Walker of the Lyric Theatre made a trip to Socorro and other places along the Rio Grande Wednesday, looking over the theatres in order to profit by the latest improvements which they will make on the Lyric.

Mr. and Mrs. Vernon Mosier and son Marvin of Capitan were Carrizozo visitors Tuesday, returning home in the afternoon.

Our old friend Sandy Venable was here yesterday from across the Malpais. As usual, Sandy dropped in to say hello.

Mrs. Brack Sloan and children were visitors here from Roswell the latter part of last week.

THE RICOCHET

Carrizozo Schools to Open Monday, Sept. 7

The Carrizozo schools will begin on Labor Day by the registration of students in all grades and high school. All members of the faculty will meet in the High School Auditorium at 8 a. m. The pupils will please come at 9 a. m. All grade school pupils will assemble in their home rooms on the ringing of the nine o'clock bell. High school students will assemble in the auditorium for instructions on registration and program making.

The following changes have been made on the faculty since the last list was published two weeks ago: Miss Amelia Goetz resigned for a more satisfactory position. Miss Nellie Shaver has been granted a year's leave-of-absence that she may complete the work for her A. B. Degree at the University of New Mexico. Their places have been taken by Misses Edna Lee Jared of Grenville, N. M., and Evelyn Sprinkle of Portales, N. M. Mr. R. A. A. Chase, Music Director of the local Triple C camp, has been employed as part time instructor and supervisor of music in the grades and in high school. F. Eric Ming, Supt.

Mr. and Mrs. Jim Cooper and Mr. and Mrs. Bryan Hightower were here from their ranches near Ancho last Saturday, to attend the big dance given at the Country Club for the benefit of the Santa Rita school.

Margaret Shafer, Ruth and Ralph Petty, Dorothy and Bill Nickels are leaving Saturday for Las Vegas where they will attend college for the ensuing term.

Carrol Corn, who has been visiting Mr. and Mrs. E. S. Corn at Adobe, has returned to Phoenix, Arizona, for school. Felton and Edward Grey will be in Saturday to begin school Monday.

Mr. and Mrs. Wm. S. Norman, daughters Edith and Jane have returned from a two weeks' sojourn at Hot Springs and the Elephant Butte Dam.

Dewey Stokes branded some calves this week, assisted by Raymond Littleton, Frank Vega and one of the Hicks boys.

To Speak in Carrizozo

On Monday, Sept. 14, Mr. Jaffa Miller, Republican candidate for Governor and the Hon. Miguel Otero, Jr., candidate for United States Senator, will address the voters of Lincoln County. The public in general is invited to come and hear these illustrious gentlemen. Watch for further announcements.

Rainbow Girls Entertain

A delightful party was given Thursday afternoon by the Rainbow Girls in honor of Dorothy Nickels, Margaret Shafer and Ruth Petty, who are leaving for college Saturday.

Use of Production Credit Increasing

On returning from the mid-year group meeting composed of the directors of the five Production Credit Associations serving the State of New Mexico; Mr. B. J. Bonnell, one of the directors of our own Association at Roswell, dropped into this office and gave us some of the interesting facts relative to this two-day meeting just closed at Albuquerque.

In company with directors, Mr. Bonnell drove to Albuquerque where, in conference with the officers of the other associations, the work of the past six months was reviewed, problems discussed and plans and policies outlined for the future. It was revealed at this meeting that our local Production Credit Association, with a membership of 190 borrower-stockholders, has made rapid strides in making available to farmers and ranchers in this community, loans to be used in the production of crops and livestock.

In conclusion, Mr. Bonnell said "Now I realize more fully how Production Credit is a friend of the farmer—when business conditions are depressed, the investing public has always turned to a more sound type of security. That furnishes more and cheaper money on farm collateral at a time when lending agencies are less able to extend credit to farmers. I hope it doesn't take another depression to make us realize that fact."

Mrs. C. O. Garrison was an El Paso visitor Tuesday.

Lyric Theatre

Corona News

Mrs. Jannie Minton of Lipscomb, Texas, left Sunday for her home after a week's visit with her mother, Mrs. S. E. Reeder.

Mrs. Will Marsh of Lexington, Texas, is the guest of her sister, Mrs. H. R. Dean.

E. L. Moulton was a business visitor from Albuquerque Monday.

Mr. and Mrs. Geo. H. Simpson, Miss Mary Simpson and Ralph Simpson returned Sunday from a two weeks' trip to the Pacific Coast.

Claude Davis of Estancia was in Corona on business Monday.

Mrs. Richard Sultemeier of Pastura is the guest of Mrs. Frank Sultemeier. Her son Richard, Jr., accompanied her and will remain here for school.

Charley Moseley made a business trip to Socorro this week.

Mr. and Mrs. Curtis Hester returned Sunday from Blum; Texas.

J. M. Shelton has returned from Carrizozo and will remain as S. P. agent here.

Miss Mildred Arnold left Friday for Dexter where she will teach again this year.

Mrs. Ellen Chappell left Sunday for Mountainair where she will be employed in the postoffice. Her position with the Corona Trading Co. has not been filled yet.

Mrs. M. M. Penix and daughter Theresa returned Tuesday from Newkirk, Oklahoma.

Mr. and Mrs. G. C. Brown were in Roswell on business this Monday.

Mrs. Paul Long and daughter, Miss Verdine Cleghon left Monday for Lordsburg where Mr. Long is employed by the S. P.

Mr. and Mrs. Hervey Quillen and children of Hot Springs are visiting relatives here.

Here in the Interest of the Claunch-Carrizozo Road

The following gentlemen were here yesterday from Claunch, conferring with the Board of County Commissioners in the interest of a direct road from Claunch to Carrizozo:

Fred Shumate, Will Petross, K. R. Spear, A. C. Hester, K. A. Huey, W. C. Pherigo, Estanislao Belto, L. V. and L. L. Ladd.

Out-of-the-Ordinary

STRANGER THAN FICTION

A. L. B.

The Los Angeles Examiner recently published the account of a lawsuit which contained an entire outfit for a gentleman. The defendant took the stand and the judge asked him his name. He answered "Coates, sir; Marvin Coates." The next defendant was asked the same question and answered "Panz," Tony Panz." To the third, the judge put the same question, and he received the reply of "Shurtz" your honor; Harold Shurtz."

The Judge tried to swallow his tonsils and continued. United States attorney interposed the information that their attorney, Charles Vest, was not present, but had sent his law partner, Edward Shues to represent them. The case was postponed for several days for the defendants to bring in additional testimony.

Grant Schoephorst of Sumner, Iowa, had a colt of which he was very fond—so much so that he posed with the colt to have a picture taken. Leaning his head affectionately against the colt's head, the animal objected, turned its head and nipped Grant's ear from his head. Physicians arrived in time to save his life from loss of blood.

Everyone knows that storks bring babies, but here is the something out-of-the-ordinary. Born—Last week, to Mr. and Mrs. John Stork of Chicago, a boy. Mr. and Mrs. Stork are very proud of Young Stork, who was brought by Dr. Storkton of the northern part of the city.

Poor little Rose Clark, in her sweet sixteenth year, was backed to death by her mother, because their extreme poverty prevented her from having nice things to wear like other girls. The mother couldn't stand the side-glances and looks through the corners of the eyes coming from other girls on whom fortune had smiled more abundantly. The love for her child and the future, as far as she could see being dark before her, Mrs. Clark ended little Rose's embarrassment by killing her.

Alamogordo, N. M., has many things of which to be proud: The great White Sands at its very doors. The Alamogordo News is one of the best weeklies in the state, which boasts the interests of its home town. The latest to come to our attention is an ever-bearing peach tree. It bears when others fail to bear. While one crop is ready for market, there is another coming on. What seems to be the most out-of-the-ordinary is that there are two and sometimes three ages of fruit on the same branches. Right now, says the Alamogordo News, one crop is ready for market and another is following on, making early and late peaches on the same branches.

Alamogordo is known as the "City of Trees."

Adventurers' Club

Hello Everybody!

"Hand-Made Inferno"

BY FLOYD GIBBONS
Famous Headline Hunter

GATHER 'round the soda fountain, boys and girls. Mike Foley is standing treat. Mike lives at Jackson Heights, N. Y., and he's going to treat us to a swell yarn.

Mike's an old hand at this treating business. He was doing it professionally as far back as June, 1884—the month and year in which he had his big adventure.

But don't get the idea that Mike went around handing out ten-cent cigars like a guy that's trying to be elected alderman. Not on your life. Mike was an OIL treader—one of the lads who processed kerosene so it could be burned in lamps. And a mighty dangerous job that was, too.

Mike worked for the Standard Oil company at a big refinery and storage yard that was then located in Long Island City.

Lightning Strikes Huge Oil Tank!

The tanks in which the oil was treated, and on which Mike worked, were huge affairs twenty feet in diameter and thirty or more feet high. You got to the top of them by wooden stairways. And up the side of each tank ran a pair of six-inch pipes that carried the chemicals with which the oil was treated.

Well sir, to get down to the story, Mike Foley was up on the top of one of the big tanks giving its contents a good, thorough treating. Part of that job consisted of blowing compressed air through the oil, and that was often a messy procedure. Oil would slop over the side of the tank and saturate the wooden staircases. That was not only messy, but dangerous—as subsequent events amply demonstrated.

A thunderstorm was brewing while Mike was inside, under cover of the tank's sheltering top. The storm broke, about quarter after two in the afternoon, and about two-thirty he heard a loud crack. Lightning! It had struck the tank.

Mike Moves Swiftly to Close Trap Doors.

Mike's two bosses had gone to the office to give in their reports. Mike was all alone in the tank, so it was up to him. He ran out from under

The Whole Stair Was a Ragging Inferno of Fire.

the shelter-roof to see what had happened. The lightning had struck all right. The oil-soaked, wooden stairs were on fire. The blaze, starting apparently from the top, had spread down four or five steps by the time Mike got there.

There was one thing that had to be done, then—done mighty quickly, too. Around the top of the tank were five trap doors, wide open to let out the gases that formed in the tank during treatments. Those doors had to be closed before the fire got through them and the whole tank went up in flames.

Mike dashed for the doors. He got one closed—then another. At that point he turned and took a look at the burning stairway. The flames had spread down four or five more steps. The fire was blazing with even greater fury.

Casablanca Really Had Nothing on Mike

And that wasn't all that was worrying Mike, either. Any minute now—doors or no doors—the tank might take fire and go up with a big WHOOSH! And where would that leave Mike? Not much of anywhere, to tell the truth about it. Just let that tank get going good, and Mike would be trapped. There wouldn't be much left of him but a few cinders when it was all over.

The thought put new energy into him. He got the next three doors closed in jig time. And then he went back to the stairway that was his only avenue of escape. But when Mike got to the stairway, he stopped. No use trying to get down there. Not only the whole stair, but likewise the platform leading to it, was a raging inferno of flame. The ladders that supported it had been eaten through by the blaze. If Mike wasn't burned to death on the way down, he'd be killed in a fall when the weakened supports broke and sent him crashing to earth.

"So there I stood," says Mike, "forty-five feet from the ground, like young Casablanca—the boy who stood on the burning deck. A crowd had gathered down below, and about eight hundred men who worked in the loading sheds near the dock were yelling to me to jump. I didn't want to do that—it would have been almost as bad as burning to death. Still, I couldn't stay up there, either. Most any minute that tank might go up with a roar—and take me along with it."

Mike Was a Good Hand on the Flying Rings.

It looked pretty bad for Mike—but he still had a trick or two up his sleeve. "At that time," he says, "I was a member of the Star Athletic club of Long Island City, and I was pretty good on the flying rings. So I swung over the edge of the platform."

What followed after that brought gasps from the men down below. Like a circus acrobat, high overhead, he began swinging himself along on the braces that held the platform up. He had traveled eight or ten feet around the side of the tank before the spectators saw what he was aiming at. Then they set up a cheer as Mike reached one of the six-inch pipes that ran down the side of the tank and began sliding in safety.

"That pipe was so close to the tank," says Mike, "that I couldn't put my legs around it. I had to grip it with my knees and slide down in jerks about two inches at a time. But I got down all right except for some skin I lost off my hands, and a new pair of pants I had to buy to replace the ones I was wearing. They were ruined."

Prescott's Writings

William Hickling Prescott was born in Salem, Mass., in 1796, where he continued to live during the years he won his fame. He wrote 16 thick volumes which are classics without reading a word of them. One eye was destroyed, another made useless, by a school-fellow's prank when he was 18 and a freshman at Harvard. Nevertheless, he completed college and chose to make history a profession. Assistants read to him six hours a day the vast sources of material which he assimilated—memorizing as much as 80 pages of printed matter at a time and dictated into enduring accounts of Spanish conquest in the Americas. His first volume was completed a century ago.

Helgoland, Germany

Helgoland, Germany, takes its name, Holyland, from having been a center of Christian activity in the seventh century, but it later fell into to evil ways as a haven for pirate bands that ravaged the Hanseatic merchant traffic of the North Sea. To this Hamburg put a stop, joining the island to the neighboring Schleswig, whence it passed to Denmark and finally to England about the beginning of the last century. The trading of Helgoland to Germany for the island of Zanzibar off the African coast brought on a storm of popular protest in both countries. In England, the transaction was explained as the wish of Queen Victoria to grant a favor to her nephew, the young Emperor William.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

Dean of the Moody Bible Institute
of Chicago.
© Western Newspaper Union.

Lesson for August 30

BEGINNING OF WORLD MISSIONS

LESSON TEXT—Acts 11:19-26, 12:1-12.
GOLDEN TEXT—And he said unto them, Go ye into all the world, and preach the gospel to every creature. Mark 16:15.
PRIMARY TOPIC—On a Journey for Jesus.

JUNIOR TOPIC—The Gospel Starts Around the World.
INTERMEDIATE AND SENIOR TOPIC—New Adventures With Christ.
YOUNG PEOPLE AND ADULT TOPIC—The Holy Spirit in Missions.

The normal expression of salvation in the life of a believer is a passion for the conversion of others. The early church soon began to fulfill the great commission of its Lord and Master. Its first missionary enterprise was in the great and wicked city of Antioch, only 180 miles from Jerusalem, but far from God. In this unpromising soil we find growing:

I. A Model Mission Church (vv. 19-21).

Its establishment was in accord with the plan of God, for it was:

1. The result of a faithful testimony (vv. 19, 20).
2. A gathering place for all God's people (vv. 19, 20). The truth was preached to both Jews and Gentiles.
3. A living witness in a wicked city (v. 21).

"The hand of the Lord was with them." Little wonder then that "a great number believed and turned unto the Lord." Note in verse 28 that it was in Antioch that the followers of Christ were first called by the beautiful name "Christians." In the midst of the most evil and degraded surroundings the sweet flower of Christian faith may grow.

II. The Model Mission Church Becomes a Model Missionary Church (13:1-12).

We have here the first step in the world-wide missionary movement which continues to our day and which has influenced the destinies of men and shaped the course of world history.

This first missionary enterprise presents the essential principles and methods which are vital to true missionary work, even in our day. To begin with, there must be a proper base of operation, namely:

1. The home church (vv. 1-3). God calls his messengers right out of the church membership. On the Sunday that this lesson is taught missionary leaders of the next generation will be in the classes of some crossroads Sunday school. How important it will be that the teacher present the truth of God's Word plainly and faithfully.

Notice that this church was spiritually alive. It was a church that prayed, fasted, and ministered the Word of God. It was responsive to the guidance of the Holy Spirit.

Next we have indicated the type of men called to be:

2. The missionaries (vv. 2-4).
 - a. The strongest men in the church (v. 2).

When you want something done, ask a busy man to do it. God's missionary program calls for the best the church can give, not misfits or failures.

- b. Spirit-led men (vv. 3, 4). God chooses and sends men into service. He separates and places them.

3. Missionary experiences (vv. 5-12).

- a. Minister to all people (vv. 5-7). Paphos was a Greek city of high culture and low morals. It was ruled by Sergius Paulus, a Roman officer of noble character. With him was Barjesus also called Elymas, a wicked Jew. The missionary messenger rejoices in the opportunity to preach to Greek, Roman, and Jew.

b. Meet satanic opposition (vv. 8-10). The devil has his servants who live only to oppose the gospel. Notice that even as God has children so also there are children "of the devil" (v. 10). We choose our spiritual family connections.

- c. Proclaim judgment on sin (v. 11). This is not an easy thing to do but is required of one who is "filled with the Holy Spirit."

d. Lead men to Christ (v. 12). In this case it was the result of fear, which is a powerful factor in the conversion of some men.

The Master's commission, "go ye into all the world and preach the gospel," has never been altered, modified, or abrogated. It is still the great "unfinished business" of the church.

Learning From Suffering
I have learned more of God, and of myself, by one week's suffering than by all the prosperity of a long lifetime.—Bishop Hall.

More Work, Not Less
"We get out of our troubles only by working harder, not by working less."—Roger W. Babson.

Provision
To know how to dispense with things is to possess them.—Roger W. Babson.

Kitten Portrait in Stitchery

Pattern No. 5604

How can you resist this appealing pair of kittens? Their "portrait" on a pillow top or picture will add charm to your home aside from your pleasure in making it. And how effective it is, worked quickly in colorful floss, the crosses an easy 8 to the inch. Since the motif requires but the merest outline, you're finished before you know it!
In pattern 5604 you will find a

transfer pattern of these kittens 13 1/4 by 14 inches; a color chart and key, material requirements; illustrations of all stitches needed. To obtain this pattern send 15 cents in stamps or coins (coins preferred) to the Sewing Circle Household Arts Dept., 259 W. Fourteenth St., New York, N. Y. Write plainly pattern number, your name and address.

Foreign Words and Phrases

A posteriori (L.) From that which follows, from effect to cause.
Au jour le jour. (F.) From hand to mouth.
Battre la campagne. (F.) To scour the country; to go on a fool's errand.
Ca m'est egal. (F.) It is all the same to me.
De profundis. (L.) Out of the depths.
En grande tenue. (F.) In full dress.
J'y suis, j'y reste. (F.) Here I am, here I stay.—Attributed to Marshall McMahon in the Crimean Redan.
Ipse dixit. (L.) He himself said it; a dogmatic assertion.
Faire la noce. (F.) To have a gay time; to make a night of it.
Gluckliche Reise. (Ger.) A pleasant voyage; bon voyage.
Hic jacet. (L.) Here lies; said of a deceased person.

Legs to Stand On

Andrew Carnegie was once asked which he considered the most important factor in industry—labor, capital, or brains. The canny Scot replied with a merry twinkle in his eye: "Which is the most important leg of a three-legged stool?"

Obligations

IN so far as you yourself are better than others—better in blood, in brain, in any ability—just so far are you under the heavier obligation to do for others. Whatever John Stuart Mill and all the economists and philosophers may say, it is love and not "enlightened self-interest" that is the motive of life. Usefulness is the only right to possession. Service is the only standard of life.—J. A. MacDonald.

The measure of choosing well is whether a man likes what he has chosen.—Lamb.

The Mind Meter

The Similarities Test
In each problem of the following test there are three words. The first two bear a certain relationship to each other. Write in a fourth word which will bear the same relationship to the third word that the second does to the first.

1. head—hat—hands,
2. Ophelia—"Hamlet"—Portia.....
3. Paraguay—republic—Sweden.....
4. boy—pants—girl.....
5. Yale—bulldogs—Princeton, —.....
6. Lou Gehrig—baseball—Wilmer Allison.....
7. Carter Glass—Virginia—Geo. W. Norris.....
8. "Dombey and Son"—"Dickens"—"Innocents Abroad".....
9. Ohio—Columbus—West Virginia.....
10. pint—capacity—yard,

Answers

1. gloves. 6. tennis.
2. "Merchant of 7. Nebraska. Venice." 8. Mark Twain.
3. kingdom. 9. Charleston.
4. skirt. 10. length.
5. Tigers.

Hollanders Not "Dutch"

The word "Dutch" has been officially banned according to a recent circular issued by the Ministry of Education in Holland. The circular says "Dutch" must be replaced by Netherland. The action is taken to remove all possibility of confusion between "Dutch" and "Deutsch," the word used to designate the German people.

YOU NEVER SAW SO MUCH TIRE FOR YOUR MONEY!

Buy THE NEW
Firestone STANDARD

FIRST GRADE QUALITY—The new Firestone Standard Tire is built of first grade materials by skilled workmen, in the world's most efficient factories.

GUM-DIPPED CORD BODY—Every cotton fibre in every cord in every ply is soaked in liquid rubber, preventing internal friction and heat, which provides greater strength and blowout protection.

TWO EXTRA LAYERS OF GUM-DIPPED CORDS UNDER THE TREAD—This patented Firestone feature cushions road shocks, protects against punctures and gives longer life.

LONGER NON-SKID MILEAGE—The non-skid tread is wider, flatter, with more and tougher rubber on the road, giving longer wear and thousands of extra miles.

LOW PRICES—Volume production makes these low prices possible.

THE FIRESTONE NAME AND GUARANTEE—Every Firestone Standard Tire bears the Firestone name, your guarantee of greater safety, dependability and economy. See your nearest Firestone Auto Supply and Service Stores or Firestone Dealer today and equip your car.

Keeping Up With Science

Green Grass Juice Joins Sauer Kraut as Growth Promoter

Savants Find New Use for Lawn Clippings

MADISON, WIS.—Add to sauerkraut juice, tomato juice, and other juices that are good for what ails you—grass juice.

Drs. C. A. Elvehjem and E. B. Hart of the University of Wisconsin have discovered that the growth-promoting properties of milk can be appreciably enhanced by the addition of grass juice.

Such additions will not be necessary with milk produced in summer, for cows having access to pasture give a product which is potent in promoting growth.

Just what is the nature of the growth factor with which winter milk is inadequately supplied is not definitely known.

Growth Factor Unknown. Such additions will not be necessary with milk produced in summer, for cows having access to pasture give a product which is potent in promoting growth.

The fact that the search for materials to improve the quality of winter milk resulted in failure with many substances narrows the possibilities of what the unknown growth factor may be.

Surveys Being Made. Although construction work will not be actually started before the budget estimates have been approved by the Imperial Diet, every preparation is being made by the Department of Railways, and preliminary investigations are going forward, with the hope of completing the task in 1940.

The difficulties, while stupendous, are not insurmountable, thinks Jiro Tachibana, expert of the Way and Works bureau of the Japanese government railways, who will be appointed engineer of the construction work.

Japs Prepare Plans for World's First Under-Sea Tunnel

Will Link Yellow Sea With Inland Waters

A NEW and unusually difficult feat in engineering is confronting the Department of Railways of Japan, with the construction of the Kwammon Tunnel under Shimonoeki Strait, which is 1,200 meters wide and 20 meters deep.

It was 111 years ago that the first under-water tunnel was begun, the tunnel under the Thames in England; the task took nearly 20 years, owing to the inexperience and lack of facilities in those days.

Since then, under-river tunnels have become more or less commonplace. But the Kwammon tunnel will be the first under-sea tunnel. It will bore beneath the strait which connects inland sea with Genkainada sea and Yellow sea.

The need for such a tunnel is clear. This neck of water is a highway of travel; on some days as many as 1,500 vessels pass in or out of the inland sea, while innumerable ferry-boats and lighters must cross their paths, plying back and forth between Shimonoeki and Moji, carrying freight and passengers between these two railway terminals on the two largest islands of Japan.

About half the water accidents of Japan occur at this place; and, besides being dangerous, the transportation of goods and people is expensive, inconvenient and time-consuming.

With the tunnel in use, there will be a time-saving of an hour for train travelers and of ten hours for freight transmission, to say nothing of lessening the damage to goods from handling. Also the railway calculates that its annual transportation expenditure of 1,500,000 yen can be reduced to 450,000 yen.

Although construction work will not be actually started before the budget estimates have been approved by the Imperial Diet, every preparation is being made by the Department of Railways, and preliminary investigations are going forward, with the hope of completing the task in 1940.

The difficulties, while stupendous, are not insurmountable, thinks Jiro Tachibana, expert of the Way and Works bureau of the Japanese government railways, who will be appointed engineer of the construction work.

The third preliminary investigation is now being made. To find out the nature of the under-sea ground which must be pierced, the engineers first attempted to make perpendicular borings from an ordinary pontoon-raft; but this means was found unusable.

So a new contrivance was built, consisting of a turret set on a scaffold which was floated on four tanks. When this had been towed to the desired spot, seawater was let into the tanks and the structure was sunk so that it rested immovably upon the sea-bottom with only the top of the turret above the water.

Deadly Gas Made to Sound Warning of Its Approach

WASHINGTON.—A lightweight portable device that rings a warning bell or sounds a horn when deadly carbon monoxide gas gets too plentiful in an airplane cabin or cockpit has been perfected by S. H. J. Womack and J. B. Peterson of the National Bureau of Standards here.

Recent tests show that very small amounts of the deadly gas, contained in the exhaust of airplane and other engines, may be dangerous, particularly in high altitude flying. Only five parts in 100,000 of air are permissible at an altitude of 15,000 feet.

Earlier carbon monoxide indicators used commercially and by the U. S. navy were modified and redesigned by the two Bureau of Standards scientists. The heart of the instrument is a cell containing a granular mixture of manganese dioxide and copper oxide, which changes the carbon monoxide into carbon dioxide with generation of heat. Accurate measurement of heat rise indicates the amount of the deadly gas present.

New Breed Hen Lays 1,000 Eggs in 5 Years

MORGANTOWN, W. VA.—Hens with a useful laying life of five years, producing 1,000 eggs during that period, have been produced by special breeding at the West Virginia experiment station here by E. T. Wightman.

This contrasts with the conventional "standard" hen, which is regarded as satisfactory if she has a two-year laying life with 300 eggs a year.

STAR DUST

YOU may think that it would be all too easy to break into the movies if you were related to a star. But—well, just see what Florence Eldridge has to say about it.

In private life she is Mrs. Fredric March. In public life she has been a well-known actress on the stage for some years before they were married. When he decided on movies instead of the stage, she went along to Hollywood, because being a good wife is more important to her than having a career of her own.

Came the time when RKO was casting "Mary of Scotland," in which Katharine Hepburn and Fredric March are co-starred (and a swell picture it is!). Miss Eldridge wanted the role of Queen Elizabeth.

"I was selected only after every other candidate for the part had been tested and rejected for one reason or another," says she. She finally got it, of course, and turned in an excellent performance.

Gertrude Michael was the target for a lot of remodeling when she left Paramount; there were people who said she'd find that free-lancing was a lot worse than sticking with a big company, even though that company didn't seem to be doing a great deal for you.

Whereupon she signed up with RKO and now she's headed straight for the top—and the head shakers aren't saying much of anything.

That brand new motion picture company, Grand National, has just signed up a young man who looks like big star material. His name is Brilliant Chapman, and he's a dancer—has appeared in solo numbers for the past four years with the Boston Symphony Orchestra.

Lily Pons is all set to begin picture work again, although she has said that she doesn't care too much about it. She spent her vacation in Connecticut, its climax being the arrival of her mother from France.

John McCormack, the famous Irish tenor, sang "Killarney" and "Believe Me, If All Those Endearing Young Charms" in England the other day for 20th Century-Fox's "Wings of the Morning"—and if you see the picture you'll see the famous singer in natural color—it's the first Technicolor picture produced in England.

The football broadcasts are being lined up, so that all of us who don't want to go to games, or can't make it, can sit at home this fall and hear what's happening on the grid-iron. An oil company is acting as sponsor for the broadcasts of one hundred major games, over thirty-six stations on the coast.

If you listen to the Music Hall of the Air, on the radio, you probably feel that you know Ted Hammerstein; he is the grandson of the late Oscar Hammerstein, one of America's most illustrious theatrical figures.

Richard Dix. This theatrical agent was one of the important ones, and his waiting room was usually filled with people clamoring for work. Keeping them from storming the inner office was Hammerstein's main duty. He did his job as bouncer very effectively—and some of the people he threw out later made good—among them Richard Dix, Chester Morris and Ben Lyons!

A Smartly Simple Frock

1933-B

Swingin' down the lane with a bit of a zip and a full quota of what it takes, this smartly simple frock goes places without effort—an engagingly youthful and chic affair which can be made in a trice (first cousin to a jiffy) and make you the belle of the campus.

Its simplicity is totally disarming, yet it has all the plumb of a professor in English—just one of those frocks which can't miss. Delightfully cool and as chipper as a breeze, it requires just seven simple pieces in the making, in any fabric from the A's to the Z's. The yoke and sleeves cut in

one and the collar is just long enough to take the prize.

Send for Barbara Bell Pattern No. 1933-B designed for sizes 12, 14, 16, 18 and 20—bust 32 to 38. Size 14 requires 4 yards of 39-inch fabric. Send 15 cents in coins.

Send for the Fall Pattern Book containing Barbara Bell well-planned, easy-to-make patterns. Exclusive fashions for children, young women and matrons. Send 15 cents for your copy.

Send your order to The Sewing Circle Pattern Dept., 367 W. Adams St., Chicago, Ill.

OF INTEREST TO THE HOUSEWIFE

A mixture of one part vinegar and two parts linseed oil, applied with a soft cloth to suitcases and bags will clean and polish them.

A large piece of blotting paper placed on the closet floor will absorb moisture from wet rubbers that may be placed in closet.

Scorch-on-cotton or linen may be removed with soap and water. Wet the spot with water and expose to the sun for a day or longer if necessary. The scorch disappears more rapidly if the material is moistened first.

If your garden peas get too hard for serving in the regular way, cook them until tender, press through a sieve and use the pulp in soup.

If you wish to boil a cracked egg place a little vinegar in the water in which it is boiled. This will keep the egg from seeping through the crack in the shell.

To make white curtains ecru dip in a solution made by boiling one tablespoon of black tea in one quart of water. Strain solution before using.

Minced ham and chopped green pepper makes a tasty filling for deviled eggs.

Chemical Upset in Body-Held Reason for Heart Failure

GALVESTON, TEX.—Study of the chemistry that goes on in the individual muscle cells of the human heart has suggested and supported a fundamental explanation of heart failure.

This important advance in medical knowledge was made in research by Drs. George Hermann, George Dechard, E. H. Schwab and associates at the University of Texas School of Medicine here.

Heart failure, these investigators reported to the Southern Medical Association and the American Heart Association, is fundamentally a disturbance in the breaking down and rebuilding by the individual heart muscle cells of a chemical called phosphocreatine.

Muscles Lose Efficiency. This biochemical derangement makes the heart muscle cells less efficient engines of contraction, with the result that the heart fails at its job of pumping blood.

Inadequate supply of oxygen to the individual heart muscle cells may start these serious chemical changes in the heart muscle cells. In patients with chronic heart disease, anemia or deficiency of oxygen content in the blood is the chief causative factor of the pathological chemical changes that weaken and snuffly exhaust the heart muscle.

The administration of oxygen may temporarily postpone these chemical changes.

Temples Shared by 14 Gods Found in Old Mesopotamia

BERLIN.—Two temples shared by 14 gods are among discoveries of German archeologists in ruins of old Uruk, Mesopotamia.

The city, named as Erech in the Bible, is mentioned there as one of the world's first cities, and archeological digging has shown that it was in existence early, between 3000 and 4000 B. C.

Temple excavations, reported here before German archeologists, shed light on a later era of the city's history, following conquests by Alexander the Great.

The two temples date from the third century B. C., at time of the Seleucid empire, founded by one of Alexander's generals. The temples are Babylonian in architecture, showing reaction from efforts to press Greek culture on the East.

EDITORIAL COLUMN

"I for one, am dedicated to the proposition that henceforth no American citizen shall ever again be put in a position where he has to sell his vote for bread"
—Gov. Landon of Kansas.

Deceptive

Some railroad men are giving the Democrats credit for the increase in freight and passenger traffic compared with what it was four years ago under Republican government. Investigating the increase in business on the railroads, we find that the cause for all this arises from the fact that freight rates have been reduced from what they were four years ago, but the Democrats can claim no praise for that. The reduction was made both in freight and passenger rates in order to combat the truck business which was rapidly taking away trade which had been going to the railroads.

In the passenger line, four years ago, the passenger rate was over three cents per mile; whereas, it is now but two cents, as all fully know. Now, the fact appears that with the reduction in freight rates, the railroads are getting back a great deal of the business from the trucks and with the low passenger rates of two cents per mile, people can now travel cheaper than they can with their cars and save their autos for pleasure riding at home. The air-conditioned passenger trains also are an added attraction for the traveling public, so it is plain to be seen that the above facts are responsible for the increase in railroad traffic and not the Democratic party. There would be just as much sense to giving credit to the Democrats for the big rain we had last week, as to credit the new-dealers with increase in railroad freight and passenger traffic.

Boy Scouts of America

NOTICE TO ALL BOY SCOUTS

The regular weekly meetings of troop 64 will begin again on Thursday, Sept. 10 and all Scouts be on hand promptly at 7:30 with shoes shined and neckties on.

THE SCOUT OATH

The Double Menace of Bureaucracy

By RAYMOND PITCAIRN
National Chairman
Sentinels of the Republic

At least three expeditions are now exploring the tangled forests of Bureaucracy which have sprung up on the banks of the Potomac during recent years.

A special Senatorial Committee, a group of American Bar Association members, and an independent fact-finding agency are among the explorers who seek to clear that mass of overlapping agencies, bureaus and commissions.

All are enlisted in war on the waste which duplication of political activities and of political jobs inevitably breeds. By eliminating many of the useless and tax-eating new Federal agencies they hope to reduce the slice which government is cutting out of the taxpayers' earnings and savings.

But it isn't the taxpayers' pocket-book alone that is endangered by these horde of new bureaus and new commissions. The real menace is even more serious.

By usurping the powers reserved under the Constitution to the people, the legislators and the Courts, the administrative agencies have developed into a serious threat to the rights of civil liberty and self-government on which this Nation was founded.

To them is due that interference by Federal authorities with the normal activities of our citizens, which is arousing nation-wide protest.

From their offices emerge the thousands of agents who seek to interfere with, direct and control the people according to the newer bureaucratic ideas of agriculture, business and labor in general.

If the various groups which seek to reduce the number of arrogant and extravagant bureaucratic agencies now reaching out from Washington can ease the burden on the pocket-book of the American taxpayer they will have performed a great service.

But if, by eliminating many of the Federal agencies on the basis of the American citizen, they can protect our constitutional guarantees and privileges, they will have performed a still greater and more significant one.

Famous Historian Hits New Dealers on Broken Pledges

New York, N. Y. — America's most famous historian, James Truslow Adams, in his latest volume on current history, discloses that from the nonpartisan viewpoint of the historian the New Deal administration has broken more pledges to the people than any other administration.

"I cannot recall any other president and party which has gone so far in the solemnity of their pledges," Mr. Adams writes in his new book. "Nor do I recall any other such repudiation of them."

"That repudiation has not been the result of overwhelming circumstance, but has largely resulted from the endeavor to make over the whole pattern of our social and economic life to meet the personal approbation of a president.

"The question at once arises, how can self-government continue if a people cannot put trust in the most solemn pledges of the party and candidates for whom the majority vote?"

"If we cannot do so, then the system of party government must crumble and we have nothing to take its place, except dictatorship or revolutionary chaos."

The book, "The Living Jefferson," is published by Scribners. Mr. Adams is the author, among others, of "Founding of New England," a Pulitzer prize winner, and "The Epic of America."

Landon Leading 2 to 1 in Six-State Radio Poll

Chicago, Ill.—Reflecting the nationwide swing away from the New Deal Party, Governor Alf M. Landon, Republican Presidential nominee, is maintaining a two-to-one lead over President Roosevelt in a poll conducted by the midwestern radio station, WIND.

Covering six states, Illinois, Indiana, Michigan, Ohio, Iowa and Wisconsin, the poll requires that all votes must be written and sent in through the personal interest of the voter.

With Governor Landon showing better than 12,000 votes at the latest count and President Roosevelt trailing with less than 6,000, the minor candidates of Lemke, Browder and Thomas divided another 1,500 votes.

Evils of Restricted Production

No policy of restricting production and artificially raising prices is sound policy. Reduction of production inevitably affects the real wages of everyone; therefore, it lowers the standard of living. And, more than anything else, it leads to the bread lines, to ration cards and to a form of government—that is not a democracy but an autocracy. (Frank Knox, Worcester, Mass., speech.)

Capitan, N. M.—Since Jan. 1, 1936, the Lincoln National Forest has had a total of 35 fires, with a total of 51 acres burned.

The fires have all been small, only two being over ten acres. Ten of the fires have been man-caused. The record for this year has been very fine so far and it is hoped that it will continue along the same lines. There has been a scarcity of rain in this section. However, the Lincoln division has not had a fire since the last part of July.

Superflex Oil Burning Refrigerator

Many of these oil burning refrigerators are in use in tropical countries as well as in rural homes in this country. The burners are lit only a short time each day, going out automatically after operating about two hours to create ample refrigeration to last 24 to 36 hours.

Requiring no outside connection of any kind and having no moving parts to wear out or cause trouble, these refrigerators are being successfully used in all parts of the world, including remote sections of Africa, India, the Philippine Islands, Central America, and other tropical countries.

An exclusive feature which is said to make these refrigerators effective even under the most severe conditions is the cooling system; that is, the condenser, which provides both water and air cooling. Water is used in the condenser tank in much the same way as it is used in automobile engines.

The refrigerators freeze 40 or more ice cubes at a time, the quantity varying with the different models.

Better Days Now
"Is there any truth in the gruesome saying, 'From marriage is May, all the balance six and decay'?" has been asked. Now, the saying arose in a cold time because husbands born in February stood a poor chance, owing to lack of knowledge of infant welfare.—London Times.

THE FOREIGN FLOOD

Food Imports 1933-1935

LIVE HOG	WHEAT	CORN
IMPORTS	IMPORTS	IMPORTS
1933—6,470 lbs.	1933—31,383 bu.	1933—160,288 bu.
1935—3,414,317 lbs.	1935—27,433,870 bu.	1935—43,242,296 bu.

The latest figures from the Department of Commerce at Washington show what has happened to the American food market in two years of New Deal mismanagement. While New Deal bureaucrats were slaughtering hogs, ploughing under crops and yanking farm lands out of production, the rest of the world was busy shipping in food that the American consumer is buying. In 1933 we imported only 6,470 pounds of live-weight hogs. In 1935, after the New Deal hog slaughter, we imported

3,414,317 POUNDS. This is the size for the foreign hog raiser, but is hard on domestic producers and consumers alike. The American corn and hog producing states have been penalized by fantastic New Deal theories which have turned the hog market over to foreigners. Corn, hogs and wheat represent only part of the loss to the American farmer. Hay, butter, beef and other farm products are pouring in. The American farmer is demanding that this flood be stopped.

Spa Veterans Tell of Rothstein's Cache, Man-Eating Horse

TALES that are told when gray-haired men gather on the verandas while the stars stand their watch at Saratoga.

There are the whispers about the fortune Arnold Rothstein, the sure thing gambler, may have hidden some place before he suddenly departed from this earth.

It is not that they suspect any living person but they knew Arnold as he was, a close-mouthed fellow who early learned that you seldom can go broke when you have seen wire.

Some of them will whisper that there must be close to \$500,000 worth of cash or easily negotiable securities awaiting in some safe deposit vault for an owner who never will return.

When visiting players check in at the Polo Grounds the first question they ask is "How's Torry's knee?"

Rothstein.

They whisper that he must have hidden this \$500,000, in which they believe so implicitly, some place on Long Island.

But the evening grows old along with such vague wonderings and—

Man-Eater Kercheval Dug Grave With His Teeth

There is the tale of Kercheval. A popular horse in the West thirty years or so ago, he had won the Burns Handicap, then one of California's most celebrated turf events.

Kercheval was a man-eater. At first he merely nibbled at his stable boys—and since these were easy horsesmen of another era probably figured that there was no accounting for tastes—nobody took that seriously.

Soon not even the biggest helping of oats or the juiciest hay that money could buy could tempt him half as much as a nice bite out of a customer's arm.

It was no use. Like many a man who lets temptation run away with him, Kercheval was determined to dig his grave with his teeth. So one afternoon after he had slashed off most of a lady's bonnet as well as ten feet of hair and some scalp, they decided that there was nothing else to do.

Kercheval was indicted and tried in due form by the sovereign state. There was much that could be said in his favor because, as has been mentioned, he was a horse with winning ways.

So they deliberated—these twelve good men and true—and then returned with the verdict. Of course there were other alternatives open to them, even though they deemed him guilty beyond doubt. But the thing was new then and the West over has been a section given over to novelties.

I do not know about that though. I only know the facts in the case and they are plain. While Kercheval looked longingly at the fat foreman the verdict was read.

Kercheval had been sentenced to be shot. And these are the tales that are told in the evening.

NOT IN THE BOX SCORE:

Pie Traynor was so burnt up when his Pirates dropped a recent game to the Dodgers that he walked the ten miles from Ebbets Field to his Broadway hotel trying to cool off.

Do you remember way back when the "Flying Dutchman," Hans Wagner, also was called the "Human Omelet"? That latter tag was fastened upon him by some forgotten baseball writer who admired the way in which the Great Honus spread himself around shortstop.

Up New England way they are predicting that Holy Cross will repeat the Crusader football victory march of 1935. Most of last fall's power boys will return and there are some five-star special sophomores bound to win jobs.

Al Weill is sorely perturbed over rumors that a strange combination of newspaper men are attempting to help him poach Tony Canzoneri's lightweight title.

If the very studious Joe Gould had not been so busy reading about Popeye, London and Dorothy Dix last December, Jim Braddock might now be preparing to bank an extra 50 G's.

BREAD AND MILK NO PUNISHMENT

Children and Growups Like This Simple Food.

By EDITH M. BARBER. IT USED to be considered a punishment for a child to be put to bed with only bread and milk for supper.

Not only children like this simple food. Have you ever noticed in restaurants, especially at railroad stations, the number of orders there are for crackers and milk? Graham crackers and milk form a nutritious meal, especially when followed by fruit or a salad.

There are many kinds of milk toast, and each person may suit his individual preference. One way to make it is to toast the bread, cut it into small squares, dot it with butter, sprinkle with salt and pour hot milk over it.

Another well-liked supper or luncheon may be composed, mainly, of gingerbread and milk. This is very satisfying on Sunday when dinner has been served in the middle of the day.

4 tablespoons fat 1/2 cup sugar 1 egg 1/2 cup molasses 1/2 cup sweet or sour milk 1 teaspoon cinnamon 1 teaspoon ginger 1/2 teaspoon salt 1/2 teaspoon soda 1 1/2 cup flour

The Household

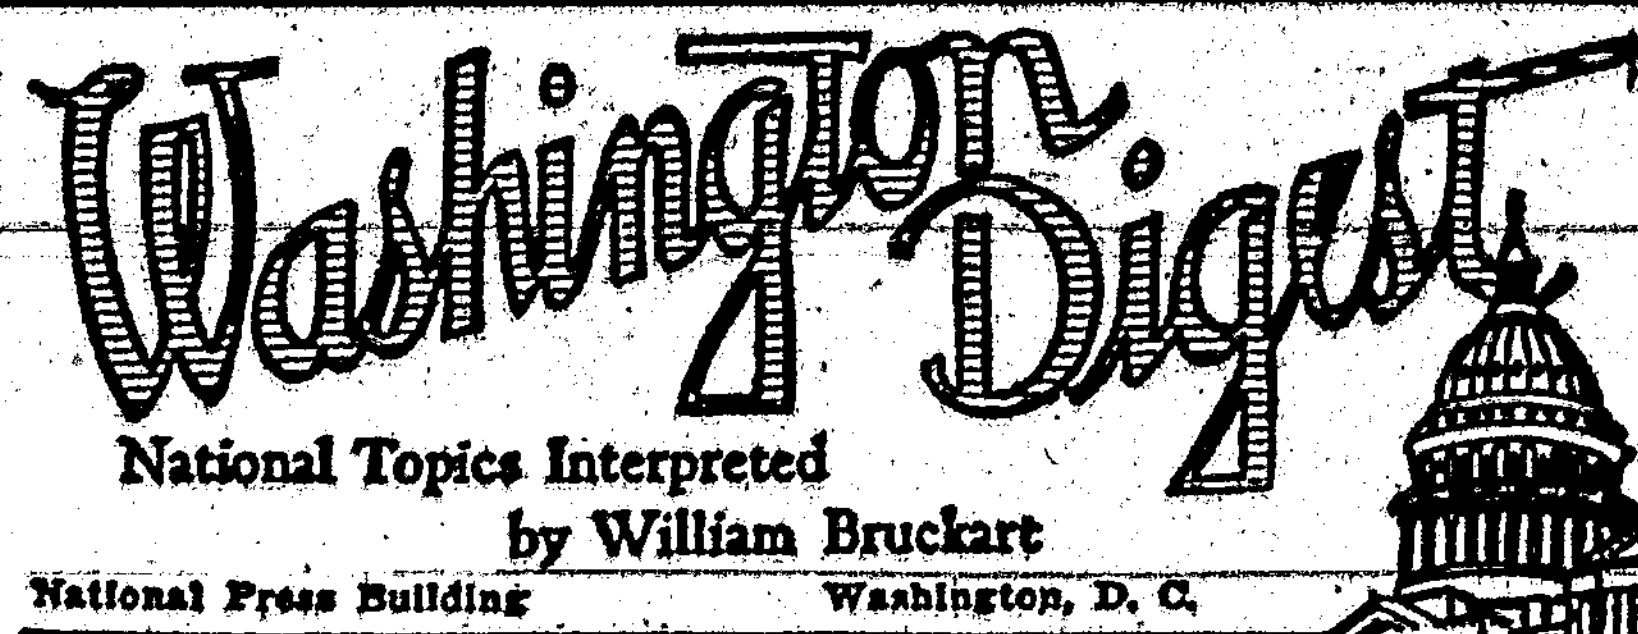

By LYDIA LE BARON WALKER

A HOLDER BAG is one of the nicest solutions of what to do with the essential accessories of the kitchen namely hot dish holders.

The lining of the bag is one of these plain colored oil cloths while the crocheted cotton (mercerized) covering the ring, is of the other color.

Both gay decoration and convenience are features of this bag for holders.

No New Tax Levies

Washington.—President Roosevelt has come out again with a statement that the burden of taxes is regrettable and that there must be no new levies nor tax increase by the next congress.

But somehow the word from the White House prompted many observers here to pick flaws in the pronouncement; they began at once to find several places in the new picture that appeared to have been smeared over by the paint-brush.

The Republicans were quite harsh because they called attention to the fact that Mr. Roosevelt on three previous occasions had assured the country there would be no new taxes, and that in each instance new tax legislation somehow or other had been enacted by congress.

Aside from the presidential declaration that there would be no new taxes nor increases in the present levies and that there would be a study of the general tax structure, the President made the point, through Secretary Morgenthau's letter that there were a good many hundred millions in "recoverable assets."

He also urged upon the country that business has improved so rapidly that additional federal income may be expected from the present tax rates.

Default Likely

I recall that the late Albert C. Ritchie, four times a Democratic governor of Maryland, predicted that the money loaned for the various purposes outlined above, would never be paid back.

It is a noble thought, of course, that the loans will be repaid, yet it is quite apparent that a cancellation drive is already under way.

So, whenever the New Deal is called on by itself against charges of imposing a gigantic burden of tax or an equally gigantic burden of public debt, its spokesmen attempt to demonstrate that the public debt figure as well as the taxer must be considered in their relationship to these recoverable assets.

To explain the Roosevelt position further, one may recall that a month ago when the public debt reached the staggering total of \$33,779,000,000 the Treasury secretary contended in a public statement that against this sum there should be offset the cash assets in the general fund of the Treasury, then totalling \$2,681,000,000 and the \$2,000,000,000 of gold that is sterilized in what is known as the exchange stabilization fund.

"In addition," Mr. Morgenthau added in his statement, "we have certain assets representing obligations due us upon which the Treasury will realize cash and which will ultimately be available for debt retirement. These recoverable assets—millions to home owners, to farmers, to railroads, to banks and insurance companies, to states, and cities—now total more than \$4,000,000,000. These three items—cash on hand, stabilization fund and recoverable loans—provide an offset of \$8,780,000,000 to the \$33,779,000,000 public debt."

It thus is made to appear directly in issue how completely the Roosevelt administration calculates using these recoverable assets in retiring the public debt. Having gone so thoroughly on record, it is almost to see how there could have been such a mistake made as developed from the White House conference on taxes. I refer to the

SYNOPSIS

The Duke, Barry Gilbert, likable youth of twenty-three, jobless and broke, enters an unoccupied summer home in Southampton, seeking shelter from a storm. He makes himself at home. Doing at the fireplace, he is startled by the arrival of a butler, Willetts; and a chauffeur, Evans. He learns that the son of the owner of the house, Jack Ridder, whom the servants had never seen, is expected. He decides to bluff it out. His supposed parents have left for Germany. Next morning he is given a letter for his "mother." He opens it and finds a message from the real Jack, saying he could not come, and returning a hundred-dollar bill. The boy's father had persuaded him into absconding. Barry pockets the money, intending to return it later. He orders Evans to take him to Montauk, intending to disappear there. On the way he meets Judge Hambridge and his daughter, Patricia. Believing her to be Jack Ridder, she writes him to dinner the following Thursday. Barry returns to Southampton, deciding to stay a bit longer. Mr. Ridder, Sr., through his newspaper, the Globe, accuses Judge Hambridge of taking orders from Tammany Hall in a condemnation proceeding. Barry meets Peter Winslow, prominent attorney. Winslow tells Barry that Judge Hambridge had seen an accident in which a woman was killed by a taxicab. At home Barry finds the wife of the real Jack Ridder awaiting him. Her husband is in jail in New York, charged with the murder of Mike Kelly, Tammany boss. The girl, Peggy, tells Barry how she had met Jack in Florida and married him, as Jay Rogers. He lost his job, and they went to New York, where she got work at the Coozeant Bar. There she was accused of trying to pick the pocket of Mike Kelly, and was arrested. Her husband went to Kelly to induce him to drop the charges. Later Kelly was found dead, his skull crushed by a decanter. Barry suggests he can help as Jack Ridder, and Mrs. Rogers agrees. Judge Hambridge delivers a decision in the condemnation suit in which Kelly had been interested. Barry writes Mrs. Ridder for \$2,500. Winslow takes the money. Barry gets a job on the Globe under his true name. The editor, Ernie Harwood, assigns him to cover the Kelly murder.

CHAPTER IV—Continued

He had turned into a cheap restaurant, near The Globe, where the slim young man had promised to meet him. Lurching, he snapped out his immediate future. Work-days, Barry Gilbert would live in the little rooms he'd taken Saturday. Week-ends, of course, he'd have to spend at Southampton, as John Clarke Ridder, Jr. That was essential to his contact with Bad Nauseum. And to another, even more essential contact. He was to dine at the Hambridge again next Friday, he recalled—Pat with the lady from Boston to whom Pat must have written flattering things about him. A grand girl, Pat, and suddenly, as we have seen, not altogether unobtainable. "If I make good," Barry thought, "I can sell her the truth about myself, and ask her to marry me. Why not? All this John Clarke Ridder, Jr., business'll just seem funny then."

The slim young man arrived in due time, and duly presented his charge at the homicide bureau. First, there was Tim Laugherty, as Irish as Barry, and with almost as ready a grin. They took to each other immediately. "Barry Gilbert," Tim repeated. "Well, the name's all right, anyway."

Tim regarded the Kelly murder as a closed case. So did MacDevitt, and everyone else Barry met at headquarters. The Rogers kid done it, that's sure," Tim declared. "This Filipino says he didn't let nobody else in that night."

"Maybe somebody else let himself in," Tim smiled scornfully. "How? There was a new lock on that door. Show him the keys, Mac," Mac obliged.

"Here you are," he said. "It was chained to Kelly's pants button."

At least, not when he opened the front door.

"My, Charlie," Tim began, "let me in. We want to ask you some questions. Do you wear gloves when you're serving stuff?"

"Sometimes."

"Did you wear 'em that night?"

"Maybe. I don't remember."

He was a thin, yellow youth, with the usual glossy black hair brushed back from his forehead. Nothing remarkable about him—not even his shiftiness. The three men stood in the broad hall of the Kelly house, and Charlie repeated the tale of admitting Rogers, and hearing a quarrel, and returning to his room until the visitor left.

"You were in your room when the row started, then?" Barry asked.

"Yes, sir."

"And you could hear the voices pretty plainly?"

"Yes, sir."

"You came upstairs, and then went back to your room, and stayed there until just as Rogers was leaving?"

"Yes, sir."

"Kelly must have been dead then, if Rogers killed him?"

"Yes, sir."

"But you didn't hear the sound of a blow in your room, nor the thud of a body falling?"

"No answer."

"If you could hear voices downstairs, don't you think you'd've heard that, if it had happened?"

The Filipino looked down from one inquisitor to the other.

"Maybe I didn't stay in my room," he said at last, very slowly. "I don't remember."

Tim was about to press the point when there was the rasp of a latch-key being thrust into the lock of the front door.

Then the knob turned, and Mrs. Kelly entered.

She stopped short at sight of the intruders.

"The door remained opened."

"Well, Mr. Laugherty!" she exclaimed. "So you've come back

again? With a friend, too! Why don't you step in the parlor?"

Tim thanked her, and presented Barry.

"Glad to meet you," Mrs. Kelly declared. "Run along, you"—to the Filipino. "Come on in, boys!"

"You're forgetting your key," Barry said.

He took it out of the lock.

"It's a brand new key, isn't it?" he asked, casually.

"Sure," Mrs. Kelly answered. "It's a new lock. Mike had it put on only a few days ago."

"How many keys were there?"

"Two. That one, and Mike's."

Barry was scribbling on the back of an envelope.

Mrs. Kelly was a large woman, in her fifties. Her hair was dyed red—a brilliant, aggressive red unknown to Nature. But she was affable, and extremely good-humored. Evidently, not grieving herself to death about Mike.

"Just dropped around to see Charlie," Tim said. "Anything you want to know, Mr. Gilbert?"

"Just one thing. Where were you the night of the murder?"

Mrs. Kelly laughed.

"You don't read the papers much, do you?"

"Why?"

"Because all about that was in The Herald Tribune, the morning after the body was found."

"All about what?"

"All about my being up in Harlem at a dance."

"And what time did you get home?"

"Around daylight."

"Did you let yourself in?"

"Sure."

"And you didn't wonder where Mike was?"

"I thought he was asleep. We didn't room together. The lights was all out."

"No light in the front room?"

"No."

"Sure?"

"Dead sure. Anything else?"

"No, thanks. I didn't mean to keep you so long. But one thing led to another."

"That's all right," Mrs. Kelly assured him. "I got nothing to hide. Drop around any time you feel like it."

"No notes in that album," Tim said, as they reached the sidewalk.

"Straight shooter, she is. Ran a seclusion when Mike married her. You certainly got wound up. What was all that about the latch key?"

"Bright and shiny, wasn't it?"

"Brand new. The told you that, so did I, when we were looking at Kelly's key-wallet."

It Was a Gruesome Exhibit—That Bottle Which Had Killed a Man.

Barry looked at the bottle which had killed a man. He had turned into a cheap restaurant, near The Globe, where the slim young man had promised to meet him. Lurching, he snapped out his immediate future. Work-days, Barry Gilbert would live in the little rooms he'd taken Saturday. Week-ends, of course, he'd have to spend at Southampton, as John Clarke Ridder, Jr. That was essential to his contact with Bad Nauseum. And to another, even more essential contact. He was to dine at the Hambridge again next Friday, he recalled—Pat with the lady from Boston to whom Pat must have written flattering things about him. A grand girl, Pat, and suddenly, as we have seen, not altogether unobtainable. "If I make good," Barry thought, "I can sell her the truth about myself, and ask her to marry me. Why not? All this John Clarke Ridder, Jr., business'll just seem funny then."

"Yes," Barry admitted. "But there wasn't any new key in that wallet."

Tim Laugherty stopped short in Fifth Avenue.

"You're right," he said.

"I've got the number," Barry went on, producing his envelope. "A 66182. Write that down. A plain, round head. Two of 'em. Where's the other? It never was in that wallet, because every lock's filled."

"Maybe he carried it loose in his pocket."

"Wherever he carried the key, where is it?"

"I don't know," Tim answered. "It wasn't on the body—that's sure."

By now, it was time for his dinner appointment with Peggy.

Still in high spirits, he walked around to her boarding house. Barry remembered Southampton with shame when he saw the Ridders' two-shabby rooms. The boy lay in one of them; a bright youngster, five years old. "The doctor doesn't seem to know what the matter is," Peggy declared. "I know," Barry said. "I'd be sick in this dump. Why don't you bring him out to the country?"

Peggy shook her head.

"I want to be near Jack," she repeated.

"Winslow says he's likely to be free in a week."

Dining comfortably in a nearby cafe, he told her everything that had happened since their parting; all the astonishing events of that day. And, with the recital, Peggy's spirits rose, too. When Barry mentioned his new job, she actually laughed.

"That's funny," she said. "You're doing what the old man's real son wouldn't do."

"I've two reasons," Barry explained. "In the first place it puts me in a splendid position to help Jack. In the second—well, the fact is that I'm nuts about a girl, and I want to make good on her account."

"What's her name?"

"Patricia Hambridge. She lives at Southampton, and she and her father both knew the Ridders. They think I'm young Ridder, of course."

The next morning, Barry dropped in again on Pete Winslow. The lawyer had talked with Peggy's husband, and was persuaded of his innocence. They've got a prima facie case, though," he admitted. "The grand jury'll indict the boy, I'm afraid. We'll get him tried as quickly as possible, and there isn't the slightest chance of his conviction."

Peter leaned forward, his fingers interlaced between his knees.

"That was a shrewd question you asked that Filipino. Only I wish you'd asked it of me. He's prepared now. Never mind. When it comes to cross-examination—"

He rose, with the joy of battle in his eyes.

"But be careful about tipping our hand," he said. "Bring in Mrs. Rogers. I'd like to check up on her statement."

"Tomorrow?"

"Make it next week."

"He's a great lawyer," Ernie Harwood said, when Barry repeated as much of this conversation as it seemed wise to repeat. "And a wizard at cross-examination. I've seen him discredit one witness after another with mere monosyllables. Tell Winslow I may have a tip for him some day. It's nothing now. Just a phone call. But, if I ever find who it was—"

Barry devoted that evening to drafting a letter for the real Jack Ridder to copy and send to his mother. Something told him that whatever the boy wrote himself would be cold and resentful. That would make the old lady unhappy, and Barry didn't want her to be.

"I've got a job on father's paper," he wrote, with genuine pride. I've respected father's wish as to using his name—except at Southampton, of course. They had to know there. At The Globe, I'm on my own, and getting ahead. I'll be a credit to you yet, darling."

From that, he went into some detail as to his interest in the friend "locked up for murder he didn't commit," and the need of funds for his defense. Even to Jack Ridder, it was obvious that the letter had to be sent, so sent it was—in Jack Ridder's hand-writing—from the railway station post box at Southampton the following Friday. Barry arrived on an early afternoon train.

He had wired Evans to meet him, and found Willetts waiting in the front hall. There was no doubt now that the butler suspected something, and Barry, sure of what he suspected, faced him with a broad grin. "What's the matter with you, Willetts?"

"Matter, sir?"

"You've been acting queer ever since the night Mrs. Rogers spent here. I don't know what you heard that night?"

"Do you mean eavesdropping, sir?"

There was a pained surprise in the man's voice.

"Not me, sir. I've got my position to remember. I've been a butler with some of the best families."

"All right," Barry soothed him. "You think I'm back at the kind of behavior that alienated me from my father. Well, I'm not. That 'glittery lady' is the wife of a man I met in Florida."

And, for the third time that week, Barry related his story.

"She's a brave little kid," he concluded, "and she's in trouble up to her neck. I'm going to stand by her. I've got a job on my father's newspaper—under an assumed name, because I want to win out on my own. I've cabled my mother for money, and everything I can get goes to that lady until her husband can win on his own. I'm going to be in town most of the time now, working my head out."

(TO BE CONTINUED)

Display of Cartwheel Maker at Manchukuoan Fair.

Prepared by the National Geographic Society, Washington, D. C.—WNU Service.

TEXAS tips its ten-gallon stetson to a stream of visitors for whom Dallas is a reception committee, and inaugurates the first United States exposition in the world's bumper crop for 1936. After the Texas Centennial, the veteran exposition fan may as well start packing for jaunts to Cleveland, Ohio, and Johannesburg, South Africa.

Although this is the first world's fair in Texas, the United States has been a happy hunting ground for elaborate expositions. Philadelphia, Chicago and San Diego have each had two. St. Louis had one. New York and San Francisco have both set the date for their second, 1939.

Such celebrations are becoming the accepted sort of birthday party for important national anniversaries. The Philadelphia Centennial in 1876 brought the world's activities in miniature to the front door of a nation just one hundred years independent. The Columbian Exposition in Chicago in 1893 was intended to show Columbus that he hadn't seen the half of it when he discovered America—400 years before. In 1907 the effectiveness of English colonization of this country was displayed by the Jamestown (Virginia) Tercentenary. The young nation's first wavering westward steps were recalled in the Louisiana Purchase Centennial in St. Louis in 1904, and Portland's (Oregon) celebration of the Lewis and Clark expedition's hundredth anniversary in 1905.

The South contributed to the country's fair festivities with the Cotton States exposition at Atlanta in 1895, the Tennessee Centennial exposition at Nashville in 1897, and in the South Carolina Interstate and West Indian exposition at Charleston in 1902. Seattle was "at home" for an exposition in honor of Alaska, the Yukon and the Pacific coast in 1909.

By that time the United States had acquired the world's fair habit, and would have one at the slightest provocation. When the Panama canal was opened in 1914, no one wanted to wait a hundred years for the event to simmer down into a centennial; so that formality was waived, and the occasion itself was celebrated with important expositions both in San Francisco and in San Diego.

Began Again, After the War.

The general enthusiasm for fairs was dampened somewhat, after 1916, by the World War, which appeared to destroy man's appetite for the arts and industries of civilization. Then Philadelphia gave its second performance, the Sesqui-centennial in 1926. Chicago followed suit in 1933 with its own hundredth birthday party to which everyone was invited, and to which everyone went and then went back the following year. In 1935 the San Diego exposition was announced along with centennial celebrations in Arkansas, Wisconsin, and Springfield, Mass.

The past year might well be called the Exposition Era, for it has witnessed the sudden gaudy sprouting of the world's fair from the ancient family tree of the traditional trade fair. This new and dazzling era began in 1851 with that grand-daddy of fairs in the modern manner, the London Crystal Palace exhibition, officially opened by Queen Victoria and Prince Albert. Since then, many crowned heads and presidents have seized such opportunities to combine official business with seeing the sights.

After London started the world's fair fever, it spread through Europe and North America with amazing rapidity, with isolated cases cropping up all over the world from Melbourne, Australia, to Seville, Spain. Within 85 years Paris has had seven important expositions and reports another planned for 1937, establishing a world record for world's fairs. London follows, with a score of five. It is often difficult to decide whether a busy industrial exposition or a big centennial celebration is a world's fair.

There are few set rules for playing the exposition game, although an international agreement on the subject has been discussed and standing committees exist in most European countries. Almost any occasion now is considered legitimate excuse for a world's fair. Rio de Janeiro staged one to celebrate the centenary of Brazilian independence in 1922, Antwerp to commemorate Belgium's century of independence in 1930, and Brussels in

Riding With Their Backs to the Horse

Some people are always looking into the past. All the worth of things is there. They are forever talking about the good times that once happened.

There is no romance in the world now, no heroism. The winters and summers are not as they used to be. Life is altogether on a small, commonplace scale. . . . Now that is a miserable sort of thing: It brings a kind of paralyzing chill over the life, and petrifies the natural spring of joy that should be ever-leaping up to meet the fresh new mercies that the days keep bringing. The fault is not in the times, but in the people.

COMMENTS

Lewis Burke

Hi-di-ho, Cowboy! How did you enjoy the Lincoln County Rodeo given last week - end? And the beauty part of it was that all of the money taken in stayed at home. Any objections? Not hearing same, we shall proceed.

In the art of Public Speaking we are taught the best way to get and hold the attention of your audience is to start your talk with a humorous story.

A family, which were devout members of a certain church, were called upon to sacrifice something. So little Johnny gave up sardines (he didn't like them anyhow); sister Susie said she'd give up onions, which she didn't like; Pa gave up chili con carne, he didn't care for it; while Mother did the same with sauerkraut. Note - Now you tell one.

How we should be - "Whenever you're angry Pretend you're a bird - And sing just a little - But don't say a word." Note - You're telling us?

A Chinese proverb states - and the Chinese are not Christians: "One evil thought may cause a lifelong regret." So a wrong thought will often lead to wrecking one's life. Think right! "As a man thinketh in his own heart, so is he." In other words, if you think right you'll live right. Si, Senor.

At the recent Convention in Capitan, the writer was wearing a Landon - Knox Sunflower button. He was approached by a man, and asked to forfeit the said button to a charming young girl which was done forthwith. The bird in question remarked: "Everybody in the County knows that you're a Republican anyhow." And it didn't make Yours Truly a bit peeved, either.

How time doth fly! It seems as if it were yesterday that the boys and girls started on their vacations. The local schools will have a new Superintendent, Prof. Eric Ming, and a few more strange teachers, taking the place of the old ones, who have vacated for various reasons.

Heard this week - "And did National Chairman Hamilton tell 'em a few things at the Republican Convention?" shouts a returning Delegate from the city of Albuquerque. "A few more speakers like Hamilton and it will be just too bad for the Democrats" - Si, Amigo.

Typhoon - hurricane - tornado - cyclone; all refer to the same thing. Down in the tropics when they have a terrific windstorm, it is called a typhoon. Over in this country, it is called a tornado, cyclone or a hurricane. While in New Mexico it is just a plain old-fashioned sandstorm, without any frills or flourishes. We'd better knock on wood, for it has been many moons since we have had a duststorm.

In a letter received at this office, a Subscriber complains that she hasn't seen anything about the moisture we are having. Note - We have had a few irregular showers not of lengthy duration. But the indications are this Thursday of a nice rain. White Oaks has received a good rain. We had a downpour today!

PHONE 62 - J. F. PETTY, Prop

Jesse May, who had been at Ontario, Oregon, for the past six months, arrived home with his family Tuesday. Jess had been looking over that portion of the country and visiting with his mother, who located there several years ago. He said he liked some parts of that country all right, but there is nothing like good old New Mexico for him;

Two of our old friends, the Hon. Dr. F. S. Randles from the Nogal-Mesa and Fred "Shorty" Dawson from the Nogal Canyon, were here this week, both on important undertakings in the business line. The ladies, especially, were greatly thrilled with their visit.

We are in receipt of a nice letter from Robert Dean of the Dean Hardware Co., at Lovington, N. M., who sends kindest regards to Carrizozo and Bingham friends.

Mr. and Mrs. Carl Jones, who have been spending the summer in their cottage at Eagle Creek, left for their home in Van Nuys, Cal., Wednesday.

Frank Vigil of Lincoln was a business visitor here last week-end, attended the Rodeo and left for home Monday afternoon.

Mr. and Mrs. Wm. S. Norman, daughters Edith and Jane are at Hot Springs and plan to be absent several weeks.

Mr. and Mrs. E. P. Hickey, Mr. and Mrs. Clayton Heat of Ruidoso were here yesterday on a return trip from the State Republican Convention at Albuquerque.

Miss Refugia Garcia is employed as waitress at the Star Cafe. Mrs. Andy Padilla assisted at the U & I Cafe, Lull St. John, Prop., during the Rodeo.

SHAKE WELL BEFORE READING
Washington - Now one of the New Deal's federal bureaus is going to tell you how much gin to put into a martini or how much "ging" goes into a "Singapore Sling." Alcohol Control Administrator W. B. Alexander has called in the nation's outstanding experts on the art of mixing cocktails to determine for him the proper standard of contents for various highballs,izzes and other mixed drinks. The resulting testimony will be published in a sort of federal "bartender's guide," to sell for five cents. Maybe the experts will tell the bureaucrats what to do for a head-ache after November 3.

Canadian Farm Exports to U. S. Rise Sharply
Ottawa, Ont. - As a result of President Roosevelt's trade agreement with Canada, Canadian exports to the United States have shown marked increases during the first four months of 1936, according to the report of the department of trade and commerce. Some of the increases were as high as 800 per cent, heaviest gains being made in agricultural products and lumber. The number of horses shipped to the United States rose to 8,700, compared with 1,000 during the corresponding period a year ago. The export value of swine increased from \$3,000 to \$300,000 and cattle exports increased \$1,400,000. Cheese exported to the United States rose from \$21,000 to \$407,000 and exports of patent leather increased \$37,000. Advances in the export of lumber were marked, soft wood lumber increasing from \$1,542,000 to \$3,227,000. Hardwood exports showed an increase of almost 100 per cent to \$307,000, square shingles increased from \$1,150,000 to \$1,510,000, wood pulp from \$6,724,000 to \$7,965,000 and newspaper from \$30,815,000 to \$38,580,000.

New Deal Spends
Washington - Until 1917, the federal government never spent as much as a billion dollars a year. The Roosevelt administration has spent an average of 7 1/2 billions a year, with no occasion indicated.

Mr. and Mrs. John Rowland, Mr. and Mrs. Healey and children are here from Caballo visiting relatives.

Jack Davidson of Corona and A. F. Stover of Hondo attended the Rodeo here last week-end.

TOWN HAPPENINGS

WHO? WHEN? WHY?
Andres Luercas is building a 4-room cottage on Talarosa avenue, being assisted in the work by Joe Vega and Manuel Chavez.

In honor of Robert Morris, Founder of the O. E. S., a covered dish luncheon will be served at the Masonic Temple, Sunday, Aug. 23, followed by services at the Methodist Church at 8 p. m. All Stars, visiting Stars, their families and Rainbow Girls are cordially invited. Please bring a covered dish. - Committee.

Timoteo Marquez of Socorro was a visitor here last Sunday. Mr. Marquez resided here for several years with his brother Isaac, who now resides at Tucumcari.

FOR SALE - Bed room furniture, cheap. - Inquire at Straley Store, Ancho, New Mexico.

L. A. Jolly was here from Farmington last week-end, attending the Rodeo and visiting old Carrizozo friends.

Painting - Kalsomining Enameling a Specialty
A - 1 Work
Bill Wettstein, Box 4 Carrizozo, N. M.

Gunther Kroggel and G. T. McQuillen were business visitors at Albuquerque the first part of the week.

FOR SALE - 900 head of Angora Goats. Excellent Shearers. See Henry Lutz.

Mr. and Mrs. J. R. Jenkins were here to attend the Rodeo and after the baseball game on Saturday morning, the Outlook scribe enjoyed a pleasant chat with our Corona neighbors. We were pleased to know that Mr. Jenkins, who had been suffering from cataracts in his eyes, had an operation performed and his eyesight has improved to a wonderful extent. The Jenkins are noted for their fast horses, of which we have repeatedly made mention. Their racing stock is unsurpassed in the southwest. Last fall in the races in California, Jesse J. came out ahead, lowering the record in the state. They have other horses which have won good prizes, but Jesse J. takes the lead.

Methodist Church
It will be quite a scene Sunday morning when 80 to 100 children take Communion at the altars of the Methodist Church. The service will be conducted as a closing exercise of the church school. Any adults desiring to take Communion will please be there at 10:50.

We are happy to welcome the Eastern Stars and their husbands and friends to the evening service at 8 p. m. The Eastern Stars will have special numbers and we are hoping to have every available seat filled.

Rev. Harold G. Scoggins of Clovis will be present and preach at the Church Monday evening at 8 p. m. All the officials of the Church are asked to be present.

Little Pick Warden has gone to Magdalena for a visit with his father R. E. P. Warden. Mr. and Mrs. Cooper Hightower, who are with Pick, Sr. on the ranch, came over for the Rodeo and were accompanied on the return trip by Little Pick.

Frank Todd, proprietor of the Kandy Shop, spent several days this week on business in El Paso.

Rold Dudley is in Kansas City, finishing up his course in radio mechanics. He will also take a course in radio announcing, we understand.
