

Fort Stanton

At the big 4th of July celebration, the following rules will be observed, with the right of the management to change such rules if conditions require.

Steer riding money—1st prize, \$20; 2nd, 10; 3rd, 5; Entrance fee, \$2. There must be at least six entrants.

Calf roping money—1st prize, \$20; 2nd, 10; 3rd, 5.

Bronc riding—1st prize \$25; 2nd, 10; 3rd, 5.

Wild cow milking—1st prize, \$20; 2nd, 10; 3rd, 5.

All entrance fees, \$2.00.

The management assumes no risk or responsibility in case of accidents, injuries to contestants or stock.

Lists of instructions will be given out so that everybody can plainly understand the rules governing the celebration. A crowd far greater than ever before in attendance, is assured.

Admission tickets will entitle holders to all events and also to the big barbecue dinner.

BUSINESS MEN'S CLUB

The attendance Wednesday evening at the meeting at the S. P. Hotel, while rather small, was very enthusiastic, the feature being an address by A. E. Huntsinger of the Citizens Bank. His subject was "Inflation" and the highlights of the same were as follows:

"How long any period of prosperity will last, no man can say. This is impossible at any time to predict. Our memories are woefully short. When we are in an intense period of distress, we feel sure that every aspect of the crisis will be indelibly imprinted on our minds. Falling prices were primarily responsible for our crisis; un sound borrowing practices was another.

Inflation appears absolutely necessary when people have not the money to pay taxes and when public expenditures must continue. Individuals may raise enough to feed, clothe and shelter themselves, but there have been times when great groups of people have not had money to pay taxes. A farmer borrows \$5000 when wheat is one dollar a bushel. When his mortgage is due, wheat is 50 cents a bushel. He then finds himself in a bad predicament because he is unable to raise twice as much wheat. Borrowing should be made on the basis of what the income will be when the agreement or contract is due.

Inflation gets people intoxicated with enthusiasm and as a result, they over borrow, over speculate, over build and over buy. The danger in inflation is the intoxication it causes. Inflation is a stimulant. Water can be pumped up hill, but it works its way back again. It is the same concerning prices, debts, profits, rents and wages, when raised by inflation. Rising prices should come through increased demand or lack of supply. The important thing to keep in mind is the measure of your income in terms of food, clothing and shelter. The country needs balanced and dependable production and balanced prices will naturally follow. The dollar can be stabilized in a safe and practical manner by eliminating speculation.

We regret that lack of space prevents us from publishing the

Lyric Theatre

Show starts at 8 through the summer months.

Friday and Saturday—Johnny Weismuller and Maureen O'Sullivan in—

"TARZAN ESCAPES"
From out of the darkest African jungle comes a stirring story of romantic adventure, dwarfing every entertainment thrill that has gone before. Two long years in the making. Jungle joys—jungle thrills—jungle romance with the one and only Tarzan. Aiso "Two Too Young" and "Hurling."

Sunday-Monday-Tuesday

"BANJO ON MY KNEE"

Featuring Barbara Stanwyk and Joel McCrea, with Helen Westley, Buddy Ebsen, Walter Brennan, Walter Catlett and the Hall-Johnson Choir.

A drama of the turbulent life on the mighty Mississippi river. The thunderous life and laughter—and dancing on the levee of the primitive river people.

Also "Gags and Gals."

Sunday matinee at 2:30 p. m.

Night shows at 8.

Next Wednesday and Thursday—"A MAD HOELIDAY."

Fourth Class Postmaster Examination

Receipt of applications to close July 2, 1937. The date for assembling of competitors will be stated in the admission cards which will be mailed to applicants after the close of receipt of applications. The United States Civil Service Commission has announced an examination, as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth class postmaster at Ancho, N. M., and other vacancies as they may occur at that office, unless it shall be decided in the interest of the service to fill any vacancy by reinstatement. The examination will be held at Alamogordo, N. M. The compensation of the postmaster at this office was \$618 for the last fiscal year.

Applicants must have reached their 21st birthday but not their 65th birthday on the date of the close of receipt of applications. Applicants must reside within the territory supplied by the post office for which the examination is announced. The examination is open to all citizens of the United States who can comply with the requirements. Application blanks, Form 9, and full information concerning the requirements of the examination can be secured from the postmaster at the place of vacancy or from the United States Civil Service Commission, Washington, D. C. Applications must be properly executed and on file with the Commission at Washington, D. C., prior to the hour of closing business on the date specified at the head of this announcement.

Mrs. W. C. Pittman, the twins, Clarite and Clyde of El Paso, are visitors at the home of Mrs. Orsa Stearns near Nogal this week. A force of workmen are grading and widening the road up the Nogal Canyon which will add to the pleasure and convenience of visitors to nature's beauty spot.

entire address given by our local banker, as it abounded with good advice and warning against reckless spending and willful waste.

Town Report

Minutes of a special meeting Board of Trustees held at the City Hall June 21, 1937, at 7:30 p. m.

Members present—F. E. Richard, Mayor; John W. Harkey, A. J. Rolland, Tennis Bigelow and Andy Padilla, Members; Roley Ward, Marshal and Morgan Lovelace, Clerk.

Member absent—None.

Minutes of the last meeting were read and approved.

The object of the meeting was to discuss, in accordance with a verbal request by the Liquor dealers of the Village, for a reduction in the Liquor License Fee.

After giving the matter in question a thorough study, it is the unanimous opinion of the Board that the Liquor License Fees remain as they stand in the Ordinance.

There being no further business presented, the meeting adjourned.

F. E. Richard, Mayor.

Attest—Morgan Lovelace, Clerk

County Assessor and Mrs. L. H. Dow, who has been ill of late, is now at the home of his brother, Ralph Dow in El Paso. Larry is improving, we are glad to report.

Mrs. Gunther Kroggel is home from Roscoe, Texas, where she had been visiting her mother, Mrs. Anna Risinger.

Mr. and Mrs. R. E. Kerit of Oscura were business visitors in town this Thursday.

M. S. Asbell, head of the Memorial Arts of El Paso is a guest at the home of Mrs. Orsa Stearns in the Nogal Canyon this week.

Sam Ward was a business visitor here from Tularosa Saturday.

Bert Pfingsten of Hondo was here on business Saturday.

The good effects of having day Marshal Sam Farmer back on the job is plainly noticeable. Our own people are observing the STOP signs and out-of-towners, who violate the traffic ordinance after the first warning are fined.

Mrs. Bertha Hunter, daughter Ina and son Charles arrived here Tuesday from Modesto, Cal., and will spend the summer with Mrs. Hunter's parents, Mr. and Mrs. C. D. Mayer.

The Missionary Society gave a stork shower for Mrs. Herbert Dickenson Wednesday afternoon.

Bingham News

Mrs. E. Griffin and daughter Leola left last Monday for Texas to visit relatives and friends for a month.

Mrs. Holm O. Bureau and son Holm, 111, are visiting relatives at Oscura this week.

Mr. and Mrs. R. L. Houston will leave within the next fortnight to make their home near Capitan. We regret to lose such good people.

Mrs. Alice Wilson, who has been ill at the home of her son Paul in Carrizozo, is said to be improving.

Mr. and Mrs. C. O. Hayes are the proud owners of a new Chevrolet truck.

Mr. and Mrs. Ben Pace report their baby as ill with measles and the E. L. Deans children are ill with whooping cough.

Mrs. Otto Rodman and grandson Jerry Williams of Taft, Cal., were recent guests of Mr. and Mrs. D. F. Sawyer. On Tuesday, Mrs. Sawyer and the visitors were luncheon guests of Mrs. P. H. Wry. Wednesday evening, the Sawyers entertained in honor of their California guests at a dinner at which, Miss Quincy McDougall, Messrs. Wiley Edward, Paul and Wm. Wry, E. L. and Alvin Griffin, Mrs. Wry, Mr. and Mrs. Leroy Agair, were neighborhood guests. "42" was the diversion for the evening, followed by refreshments of ice cream and cake. Mrs. Rodman and Jerry left Thursday for Wichita Falls, to visit relatives.

Father may be the "Forgotten Man" 364 days in the year, but on last Sunday, he was "King" Father's Day is sentimental—Why not?

Mr. and Mrs. A. W. Drake, son and daughter were here from their ranch near Ancho Wednesday.

Mrs. Wm. Gallacher and baby daughter Ann Louise have improved so nicely that they were able to leave the hospital and returned to the ranch home Tuesday.

Mr. and Mrs. Hill, the Carrizozo Cleaners, the children and S. B. Boston were on a fishing trip to Three Rivers last Sunday.

Mrs. Mae Gunkel, daughters Eva, Charlotte and Pearl of Emporia, Kansas, were week-end guests of Mr. and Mrs. A. E. Huntsinger. While here, they were taken up to our mountain resorts. After leaving here, they planned a visit to the Carlsbad Cavern and other scenic points.

Mr. and Mrs. J. F. Petty of the Economy Grocery & Market are having a back porch added to their residence on Alamogordo avenue.

Rainbow Girls

Carrizozo Rainbow Girls Receive Honors

At the Grand Assembly of Rainbow for Girls held at Raton last week, Miss Leslie Cooper was elected Grand Musician and Miss Alice Degner as Grand Confidential Observer. Others attending were: Mrs. Dan Elliott, Mother Advisor of the local Assembly, daughter Margaret, Virginia Grumbles and Rhea Boughner, formerly of Carrizozo, but now a resident of El Paso.

Masons to Alamogordo

On Saturday night, June 19, a party of Masons composed of Harry Gallacher, Vance Smith, W. H. Peterson, A. L. Burke, T. E. Kelley, C. P. Huppertz, G. Hoover, journeyed to Alamogordo and assisted in conferring the Third Degree on two candidates one of whom being Vernon, oldest son of Mr. and Mrs. J. F. Petty of the Economy Grocery.

Personals

Messrs. Boyd and Hendren of Fort Stanton, were here yesterday in the interest of the big 4th of July celebration to be held at the Fort. To these gentlemen belongs the credit for successful undertakings in past celebrations and the coming event will be better than ever, so don't miss it.

Miss Jane Spencer of Albuquerque was a guest of her parents, Mr. and Mrs. T. A. Spencer over the week-end.

Mrs. Robert Poage, daughter Jan, Mr. and Mrs. John Ward of Albuquerque, are guests at the ranch home of Mrs. Orsa Stearns in the Nogal Canyon.

Willis R. Lovelace, prominent stockman of the Corona country, was a Carrizozo visitor the first of the week.

W. F. Bowlin of the Carrizozo Auto Co made a business trip to Denver this week and returned accompanied by Miss Betty Shatter, who had been visiting her aunt and uncle, Mr. and Mrs. J. F. Hayden.

George A. Titworth of the Titworth Co. of Capitan was a Carrizozo business visitor Thursday of this week, and while in town, was a pleasant caller at this office.

Mr. and Mrs. J. F. Petty of the Economy Grocery & Market are having a back porch added to their residence on Alamogordo avenue.

Mr. and Mrs. J. F. Petty of the Economy Grocery & Market are having a back porch added to their residence on Alamogordo avenue.

Local Mention

Mr. and Mrs. C. H. Boyd of Fort Stanton were visitors in town last Saturday with a big lot of advertising matter which was printed for them by The Outlook office. Before leaving, Mr. Boyd decorated the town with the flaming red cards which tell the story of what's to come on the 4th of July.

Mrs. L. A. Boone, proprietor of the Buena Vista Hotel at Capitan, was a business visitor here this Tuesday, and while in town, made this office a friendly call. When you go to our neighboring town either on business or pleasure, drop in at the Buena Vista Hotel and be served with good home cooking in a first class manner that you will enjoy.

J. H. Fulmer and Carl Degner returned Monday from Denver, where they spent several days of last week attending to business matters.

Mrs. Alice French, son Miller and sister-in-law Miss Eva French who came over from Albuquerque for the week-end, left Monday. Mrs. French and Miss Eva to Albuquerque and Miller returning to his home in Wapita, Wyoming. While in this vicinity, Miller arranged his mother's summer cottage at Eagle Creek, where the two ladies will spend the remainder of the summer.

Gus Grossmiller of Coyote had an accident last week, his car turning over and the damage to it was severe. Fortunately for Gus, he escaped with but minor injuries.

Mr. and Mrs. B. L. Moore and baby of Adobe were visitors in town this Wednesday.

J. L. Merchant, stockman of the Encinosa country, was a Carrizozo business visitor this Wednesday.

Mmes. George Dingwall and Allan Johnson came down from Eagle Creek Tuesday, staying over with their mother Mrs. A. E. Lesnett and returned Wednesday. They said that the weather was very warm at Eagle Creek and that rain was badly needed.

The Lincoln County Fourth Sunday Singing Association will be held at the Ruidoso Baptist Church next Sunday afternoon, at 2 p. m.

Mr. and Mrs. B. A. Hendricks, sons Jack and Billy were here Monday from Capitan on their way to Dallas, where they will attend the Exposition, after which they will go to Arizona for an indefinite period—and advised that we follow them with The Outlook.

Mr. and Mrs. Kenman Fuller and mother Mrs. Dora Fuller of Corona passed through here on their way to Las Cruces to visit for a short period with Mr. and Mrs. Harlan Harris and baby daughter; Mrs. Harris is Mrs. Fuller's daughter.

Mr. and Mrs. Frank Maxwell and sons Frank, Jr. and Charles were here last Saturday from their ranch home near the Grand Quivira.

Wood-Burning Engine in Yucatan.

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

THE peninsula of Yucatan projects northward between the Caribbean sea and the Gulf of Mexico like the thumb of a giant hand. Located in its northern half are the states of Yucatan and Campeche and the territory of Quintana Roo, in the Republic of Mexico.

It is almost as flat as the proverbial pancake, though, as one travels from north to south, a few low ranges, little more than foothills, are encountered, few exceeding 500 feet above the sea. The country is a limestone plain of recent geologic formation, covered with a dense, rather low forest which increases in height from north to south as the soil grows deeper.

Yucatan has no surface water, no rivers or streams, and relatively few lakes, but everywhere are to be found large natural wells called cenotes, which made life possible in ancient times. In the formation of these, the surface coralline limestone, honeycombed by the action of water, has broken through, exposing the subterranean water level.

The cenotes and modern wells vary in depth directly with the increasing elevation of the land as one withdraws from salt water, from only a few feet at the coast to about 100 feet in the interior. The level of the subterranean water table, however, always remains the same.

There are only two seasons, the dry and the rainy. The former begins in December and lasts officially until May 3, Santa Cruz Day, when the faithful believe the rains should commence, though actually it may have been raining since the middle of April, or Nature, in a contrary mood, may have held off until the middle of June.

The thermometer does not fall below 32 degrees Fahrenheit, and does not rise above 107 degrees. But these two extremes do not tell the true story, since the average maximum is in the eighties and the average minimum in the sixties.

The nights, even after the hottest days, which are in April and May before the rains break, are cool, because of the trade winds which sweep across the peninsula from east to west practically throughout the year, bringing the freshness of the Caribbean sea to cool the sun-parched land.

Almost Completely Isolated.
Although Yucatan is a peninsula joined by a broad base to the continental land mass to the south, it is, practically speaking, an island. For every person who manages to fight his way into the peninsula through trackless jungles, across vast swamps and over stony ranges of low hills which together form an all but impassable land barrier, hundreds reach Yucatan by air or water.

This circumstance profoundly affected the civilization which flourished there in ancient as well as in modern times.

Because of its almost complete isolation, the peninsula was selected by the Carnegie Institution of Washington more than two decades ago, as a center for the intensive study of American aboriginal civilizations. Foreign influences having been reduced to a minimum, Yucatan is an excellent "laboratory case" for such a study.

This subtropical paradise is not difficult of access from the United States. Merida, the capital, is only nine hours by air from Miami and less than six and a half from Mexico City. There are regular steamship sailings from New York and from New Orleans to Progreso, port of Yucatan. There is every facility for convenient touring about the peninsula, even the modern Mayan lodge in the venerable ruins of Chichen Itza.

Merida, with about 110,000 people, must be one of the cleanest cities of its size in the world. All the streets are paved. Ninety per cent of the houses are rough masonry coated with lime plaster. Flat concrete roofs rest either on wooden beams or, in the modern houses, on steel beams.

The houses are painted in every color imaginable, pastel shades of cream, pink, green, blue, and yellow prevailing.

Fatties Are Delightful.
As in all Spanish cities, the dwellings present to the streets either entirely blank walls or heavily barred windows, but, once within the great front doors, even the humblest have their enchanting patios. In the more pretentious homes

broad-arched cloisters with tiled floors surround the patios on all four sides, and in more modest ones on one or two sides.

The patio itself usually is a riot of brilliantly colored tropical flowers, many of which distill rare perfumes.

Today, with its well-lighted, clean streets, its many parks, its movies, electric signs, autobuses and milling newsboys, bootblacks with their little portable boxes, and sweetmeat vendors, Merida is a city of the Twentieth century.

But with Maya Indians in their picturesque native costumes rubbing shoulders with Mexicans in the more familiar habiliments of the modern world, even with American visitors in plus fours strolling beneath the medieval dignity of the cathedral towers, a thousand years of human history unfold before the eye.

The story of man's earliest occupation of Europe has been recovered from the caves of France and Spain, so in Yucatan the archeologist naturally turns to the caves, of which there are many, for evidence concerning man's antiquity in this region.

It would seem that the dwellers in the caves were the same people as the builders of the great cities of stone, since excavations disclose that both appear to have used the same utensils, the same kinds of dishes, bowls and water jars, the same kinds of corn grinders, arrow- and lance-heads, fiber cleaners, pottery burnishers, and the same kinds of jade ornaments, earplugs, nose-plugs, beads, and pendants.

However, about the builders of the cities of cut stone, the ancient Maya, the archeologist knows more than a little, and with the Maya the clouds of obscurity surrounding the ancient history of Yucatan begin to dissipate.

Sometime during the early years of the Christian Era there developed in what is now the northern part of the Republic of Guatemala—more exactly, in the Department of Peten, Guatemala, south of Yucatan—a civilization which archeologists have called the Mayan.

This civilization, which was destined to become the most brilliant cultural expression of ancient America, was based upon agriculture, chiefly the raising of corn.

Mayan Civilization.
Because the early Mayas were primarily farmers, they became interested in the phenomena of time, the passing of the seasons, the several stages of the farmer's year—when the forest should be felled, when the dried wood and leaves should be burned, when the corn should be planted, and when harvested. All these were of vital concern, so their priests at a very early date, probably by the beginning of the first millennium before Christ, turned their attention to the measurement of time and to the study of astronomy.

Although the Maya in their knowledge of the apparent movements of the heavenly bodies—the sun, moon, Venus, and probably other planets as well—far excelled both the ancient Egyptians and Babylonians, their greatest intellectual achievement was the invention of a chronology exact to the day within a period of 374,400 years, which is as accurate as our own Gregorian calendar. For the first time in human history, their mathematical system to keep account of this chronology made use of a positional system of writing numbers involving the conception of the abstract mathematical quantity of zero, one of the outstanding achievements of all time.

While our own numerical system is decimal, increasing by tens from right to left of the decimal point, the ancient Maya system was vigesimal, increasing by twenties from bottom to top. But all the essential elements of our modern arithmetic, including numeration by position and use of a symbol to represent zero, had been devised by the ancient Maya 3,000 years ago, and at least five centuries before the Hindus had developed the fundamentals of Arabic notation in India.

By their exceedingly accurate system of chronology as well as by their knowledge of the apparent movements of the heavenly bodies, the Maya priests were able to predict eclipses and the heliacal rising and setting of Venus. Moreover, what was of even greater importance to the Maya farmer, they had determined the length of the tropical year with as high a degree of accuracy as Pope Gregory XIII did a good thousand years later.

Cochrane's Outlook on Baseball Proves Tragic Observation

IT HAD been a good interview. We had talked about the pennant race being between the Yankees and the Tigers, two teams very much alike in that sheer power is their reliance rather than pitching cunning. Cleveland, we had decided, was good but not quite good enough because the Indians never had the extra zip which wins games that are needed most. From there the talk turned to the luck which makes or breaks pennant contenders.

"We had it for years," Mickey Cochrane said, "and we won two flags. Last year we didn't have it and we lost. This year—well, we've had a lot of hard luck but we've stuck close. Who knows?" He paused and rapped carefully on the wooden floor of the dugout.

"Who knows," he repeated. "I feel better'n I have for four or five years. It looks like Rowe is ready to go for us and things are shaping up. But—" He paused again. "Well, anything can happen in baseball."

That was two or three minutes before game time. In the fifth inning Bump Hadley threw a fast ball. Cochrane stepped back. It was not a bean ball, should not have hit him. But when you've been in baseball a long while and have other things on your mind you become careless. The ball struck him on the right temple.

Almost immediately old-timers in the press box were heading towards the clubhouse. There was no need to watch Cochrane lay there on his side for a moment and then wilt over on his back. The third of the ball was a fast fish, a dull, flat sound. The way the ball dropped to the ground—instead of rebounding—was enough. You knew something serious had happened. You knew that everybody in the stands realized that Mickey might not ever have a bat on his shoulder again.

Things such as that happen in baseball as in all sports. While you wait for X-rays and hope this one will not be serious you—if you have been covering games for long—think about other ones.

There was that Polo Grounds afternoon seventeen years ago when Carl Mays threw his baffling underhand fast ball and Ray Chapman, great Cleveland shortstop, was doomed. There was the afternoon in St. Louis when you heard that sickening thud again and saw Burleigh Grimes standing on the mound while Mel Ott lay silently beside the plate, lucky to be out only for the rest of the season.

Back through the years there are other memories of such moments. Merwin Jacobson ducking into two fast pitches during two years with Jack Dunn's famous pennant-winning Orioles. His life despaired of each time.

Chick Fewster, grinning as he stepped to the plate against big Jeff Pfeffer in a Yankee-Dodger training season game. Fewster still around town now, a silver plate in his skull as a memento of the fast ball that struck him down second seconds later. Roy Corhan, White Sox shortstop, being led off the field, babbling to himself, never to be a real player again after being hit by Russ Ford's high hard one at the Old Hilltop grounds.

Mickey's Mishap Recalls Accident to Earl Combs

Little Pete Walls, a jockey playing in a pickup game against the racing writers at Saratoga last August, Earl Combs running into the fence in St. Louis. Rostiger knocked unconscious by a ball that rebounded from the fence in a Brooklyn-Boston contest.

Accidents, all of them. Yet—well, somehow it is hard to get used to the scene. Even memories of moments when comedy has followed quick upon what might have been disaster does not really help.

There have been such moments. For instance the day when Larry Doyle was skulled at the Polo Grounds. The crowd scarcely dared breathe while Larry sprawled beside home plate. Then some one brought a glass of water, lifted the great second baseman's head. Larry drank the water, arose, rubbed his head, grinned a white grin and stumbled down to first base.

NOT IN THE BOX SCORE:

ST. LOUIS gossipers insist Mrs. Dixey Dean now speaks to only three of the wives of her husband's teammates. . . . Eddie Arcaro, the jockey, is an amateur moving picture photographer. . . . Charley Cook, the fight manager, goes fishing once a week both winter and summer. . . . Metropolitan popularity prizes for the links legion (that means golf) still go to Johnny Farrell, Ray Billows and Jimmy Hines of the male squad, while Joan Runyon leads the ladies.

Now that we've given their plagued Australian barrier a trial, the Aussies are going to take a look at our stall box system of starting. . . . Have you noted that neither War Admiral nor Pompoon wear blinkers? Two game and honest thoroughbreds who don't sulk without headgear or "the rogues' badge," as horsemen picturesquely call it. . . . Narragansett park runs a riding academy for apprentice jockeys. . . . Governor Alford is so dead set against racing that Texas has spent \$200,000 for special legislative sessions designed to wipe out the betting laws.

Leo Durocher says only one top-ranking National league pitcher fails to dust him off a couple of times when he comes to the plate. That's Carl Hubbel. . . . Al Schacht, the baseball comedian, is considering a three-year movie contract. George Burns, the old Giant outfielder, conducts a poolroom in Glensville.

The A. A. U. might be interested to learn that three of the world's greatest millers will live in New York within a year. Archie San Romani will work there after he graduates in June. Don Lash will do the same when he gets his diploma next February. Big Glenn Cunningham, of course, already is there and definitely plans to keep active on the track. Baseball players in England are paid off after every game, getting a pound for their labors. Last year playing salaries ranged from \$10 to \$50 a week and 4,000 spectators was a high average attendance at a game.

Frankie Frisch's newest gag is that Umpire Barr, who runs an umpiring school, should go to one. . . . Zach Taylor, heaved out by the Dodger front office along with Casey Stengel last fall, is doing a swell job as manager of the Browns' San Antonio farm club. . . . Until they saw pictures of their fracs, the Cards thought Mel Ott was the lad who socked young Don Gutteridge. Now they're talking about getting even with Adolf Luque. Only talking, though. People don't really make passes at old Adolf unless they're bored with the minor risks of monkeying with buzz saws.

Fritz Crisler picks Harvard as the team to beat in the Big Three next fall. Also, possibly just to show that he is a very pessimistic and surprising gent, the Princeton football coach says his own Tigers will lose four games.

Another eminent gridiron authority (not Crisler) claims that as long as the present plan of line coaching is continued Yale will never have a truly great eleven. Says only the sheer brilliancy of fellows like Frank and Kelley has kept the Bulldog's teeth sharp.

Frankie Blair, the Camden welterweight, whose right name is Frank Tenorelli, never fought as an amateur. Eddie Walker, who now manages him, bought his contract several months ago for \$100 (borrowed from Jimmy Kelly). Since then Blair has had six fights at better than \$500 each.

War Admiral is the 105th horse to have won more than \$100,000 in purses while racing in the U. S. Paul Gallico, the former sports journalist who now does magazine pieces, joins the International News Service as a featured correspondent soon—Dr. Oswald Lowmyer, now an eminent surgeon at the New York hospital, was one of the nation's greatest swimmers when he attended Johns Hopkins almost twenty-five years ago.

National league players insist Dixey Dean has been applying licorice to the ball to make it do funny tricks this year. Doc Danforth was the last pitcher to use that stunt effectively and they caught up with him many seasons ago—Horace Sionsham calls Jersey City's new Roosevelt stadium the best reserved-seat park in the country. You have to do no more than whisper that a big game is due before the customers line up for the preferred seats.

Although phony favorites continue to prevail, fewer counterfeit bank notes have appeared at metropolitan racetracks this season than at any time within recent years—Terry Moore, Cards' outfielder, is an accomplished painter in oils—Unless these old eyes deceive me there's a fighter performing around St. Louis with the intriguing monicker of Benny Deathpains—Here's a mark which various Dodgers can aim at: Eustace Newton, who pitched for the Cincinnati Reds, appeared in thirty-three games in 1900, and made 17 errors.

Clothes That Look the Part

Now, Milady, that you've seen all three, which will you choose, the lovely dance frock, an easy-to-sew runabout model, or a slick all around the clock dress to flatter your every move and moment? It's a personal question but one you'll surely want to toy with since Sew-Your-Own makes the answer so easy.

Any Time After 5:30.
The romantic fashion at the left will make memorable occasions of your summer parties as its lovely appearance can. Its two pieces are young, cool and streamlined. For the Miss whose interest centers about matinee goings-on, there's a dashing shorter style—it differs only in length, and either will be picturesque in marquisette, dimity, or organdie.

A Tip for Tea Time.
When you're keeping up with the Joneses, wear this stylish all occasion dress. It will do great things for you socially, and, figuratively speaking, it will cut inches from those high spots and make you feel pounds lighter. Think of what that means to chic and comfort when things get hot out your way. Dark sheer crepe is the material that lends top charm to this creation.

Fore and Aft.
Easy to sew and always ready to go is this new spectator frock for young women—and those who want to turn back the clock. With this number handy there's no need to pause for reflection about what to wear. And that holds good whether you're bound for sports, business, or society. It is becoming as a sun tan, as simple to sew as a dress can be, and a cinch to launder. Why not make a carbon copy for the morning after? Remember summer chic depends

upon the company your wardrobe keeps. Be sure it's amply supplied with cool convenient Sew-Your-Owns!

The Patterns.
Pattern 1291 is designed in sizes 12 to 20 (30 to 38 bust). Size 14 requires 6 yards of 35 or 39 inch material. Size 14, walking length, requires 5 1/2 yards.

Pattern 1847 is designed in sizes 36 to 62. Size 38 requires 4 1/2 yards of 39-inch material.

Pattern 1279 is designed in sizes 32 to 46. Size 34 requires 4 1/2 yards of 35 inch material. Ribbon for belt requires 1 yard.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

GO FARTHER BEFORE YOU NEED A QUART

Always adding oil? Then make the "First Quart" test. It's easy. Just drain and refill with Quaker State. Note the mileage. You'll find you go farther before you have to add the first quart. That's because there's an "extra quart of lubrication in every gallon." The retail price is 35¢ per quart. Quaker State Oil Refining Corp., Oil City, Pa.

QUAKER STATE MOTOR OIL

POOR MAN'S GOLD

Courtney Ryley Cooper

Courtesy Ryley Cooper, WNU Service.

SYNOPSIS

Jack Hammond, gold prospector, returns to Prince Rupert after a spree in Seattle and learns that a gold rush is starting as a result of some careless remarks he had dropped at a party concerning a gold discovery.

CHAPTER IV—Continued

"Women are right sometimes," Mrs. Joyce added. Timmy fussed with his knife and fork. "Wish that Yellow Peril would bring on the steak. I'm going to eat the tablecloth in a minute."

CHAPTER V

An hour later, Hammond saw the man again. The meal was finished and Jack was strolling through the camp with his guests; Kay had announced a tremendous interest in everything about her; she could not wait until morning, she said.

"Mind pointing it out to me?" "Now?" asked Hammond. "Sure. I'll be making an early get-away in the morning. Let's go outside."

"I'm Making an Early Get-Away in the Morning."

It was the man who had frightened Jeanne Towers. Timmy rubbed his round face. "Damned if I know. He said his name was Lew Snade. I think he works for Around the World Annie."

"Timmy!" in the reflected light of the doorway, Hammond saw that the girl's face had gone white; there was rage in her eyes. The aviator did not notice. "Don't Timmy me!" he exclaimed. "We're all broke and we might as well say we're broke and be done with it!"

Timmy Moon hiccupped. "God!" he exclaimed, looking at the outlines of the log-cabin bed-house, with its bear-tallow candle flickering behind a mosquito-net window.

"It's changed the whole camp!" she exclaimed, rearranging a few containers of dried food on the almost empty shelves. "Everybody's been asking me when I intended to lay in new stock."

"What's a week?" asked Hammond. "You'll be the merchant queen of Sapphire lake first thing we know."

"You just wash it through and it becomes gold!" Kay said curiously. "Isn't that cute?" "It looks like a day laborer's job to me," her mother reflected.

Calling Upon Bermuda's Varicolored Finny Tribe

Trip Underseas in Diving Helmet Lends Thrill to Visitors.

Summer visitors and budding scientists have found a new thrill in Bermuda. One of the most popular diversions of the summer is amateur helmet diving, made possible through the government aquarium on Harrington sound.

To the Point

No man can be made a fool of if he doesn't possess suitable material for the job. It is not how fast an automobile can go that counts, but how quickly it can stop.

High Bridges

The bridge highest in the air is the Viscus railroad span in the Andes in Peru—15,000 feet above sea level. The bridge highest above the water spans the Arkansas river at the Royal Gorge in Colorado—1,050 feet above the surface of the stream.

NATIONAL EDITORIAL ASSOCIATION

1936 MEMBER

Office Phone No. 24

EDITORIAL COLUMN

"It is a whole national history. It is the Constitution. It is the Government. It is the free people that stand in the Government, on the Constitution. Forget not what it means; and, for the sake of its meaning, be true to your country's flag."

That admonition was spoken by a great American, long decades before the observance of Flag Day on June 14 of each year became our national custom. It gains in significance as the years roll on.

For the American flag is known to the world as the symbol of human liberty. It was born in a struggle for freedom. It has carried that message wherever flown—not only over our own continent but on all the winds of the world.

Today much of the world could welcome the message. For freedom and democracy are still under fire; in many lands the rights of liberty of speech, of thought, and of endeavor—symbolized by the Stars and Stripes through its century and a half of existence—are still imperiled.

And from the political scrapheaps of those nations which exalt domination by the few over government by the many, are frequently imported ideas which, if accepted, could dilute or destroy our own clear concepts of liberty.

Flag Day, 1937, will serve a noble purpose if it reminds us of those things. It will serve a still higher one if it refreshes in all of us the determination to preserve for our own posterity that precious freedom which our fathers won far as, and which their flag and ours still proclaims to all the world.

Again Congress has been asked to provide for selection of job-holders in various new federal agencies now under consideration, on the basis of merit and ability, rather than of patronage.

It is a familiar request. It is a fair one, too. Since the workers and earners of America foot the bill for our constantly expanding political payroll, it is only natural that they should ask a reasonable return for their money.

In other words, the American people want what an equitable Civil Service System attempts to assure—public servants who understand that the people are their employers, and whose loyalty is therefore to them and to the country as a whole.

They want the public service geared to the wheels of national progress, rather than to the complex maze of various political machines.

This is hard to achieve when a public job is granted on the basis of whom one knows, instead of what he knows. It is hard to achieve when politicians and officeholders use such jobs as a means of paying off old political debts, or buying new political power—all with other people's money.

The spoils system is unfair not only to the people who pay the bills, but to any capable public servant, himself. There is little incentive to seek a career in government or to do one's best after the job is obtained. If the specter of political patronage continues to haunt the roads to appointment and advancement and permanence.

A more thorough application of the Merit System would mean not only less waste in government, but greater efficiency and service to the public as well.

And the way for the public to get such service and efficiency is to continue to demand them.

Excellent Prospects for Cattlemen

Prospects look fine for cattlemen in this area to produce an exceptional bunch of calves this year. The calf crop has been about the average, and there have been some early spring losses although not heavy enough to cause any anxiety. The feed on the range this year is better than it has been for a long time at this season. The calves are stronger and heavier for their age than almost any time in the past.

With prices holding their present high level, it should be a prosperous year for Lincoln County.

G. J. Gray,

Forest Ranger.

To Address Livestockmen

Dr. H. L. Kent, former president of the New Mexico Agricultural College, has been asked to speak on the Livestock outlook for 1937 at a series of meetings to be held under the auspices of the Southwestern New Mexico Livestock Association. These meetings will be held in Lovington, Carlsbad, Roswell and Carrizozo to discuss the problems of the livestock man and outline the program of the Association for the summer and fall. A. D. Jones, President of the Association, assures everyone an interesting meeting with several distinguished speakers. Livestock men are especially urged to attend. The meeting in Carrizozo will be held in the court room June 24, at 2 p. m., providing court is not in session in which case the meeting will be held at Community Hall.

Cap Straley and nephew Tommy Knight of Ancho were business visitors in town Tuesday of this week. While here, they made this office a pleasant call.

Washington Digest

National Topics Interpreted
By WILLIAM BRUCKART

Washington. — It nearly always happens in the second term of any President that the Congress begins to show signs of asserting its own will. This is perfectly natural. Members of the house and senate recognize, or have recognized in the past, that when a President enters onto his second term he has little more in the way of trading to offer them. That is to say, the President has about exhausted political appointments and, except for special pieces of legislation, the Chief Executive cannot compensate house and senate members with political plums.

The New Deal congress in Mr. Roosevelt's first term was subservient, indeed. It gave him everything he asked. But now there are encouraging signs of a more independent attitude on the part of congress. I use the word "independent" to mean that congress has begun to examine legislative proposals from the White House in the light of the viewpoint of individual representatives and senators instead of an examination solely in the light of the argument of the President.

The Supreme court reorganization proposal brought the first sign of independence by congress. This sign broke out in the senate and there are many who believe that the senate will never yield on the President's proposal to pack the court with any additional justices of his own choosing. It is possible that, as we view history from, say ten years hence, the Supreme court reorganization plan will be shown to have been the straw that broke the President's control over a congress in which his party has more than two-thirds of the members.

Several other legislative proposals from the White House have met or are meeting real difficulties. One of them that must be regarded as important is the relief fund proposition. I imagine that, in the end, the President will get the full billion and a half that he has requested for relief purposes but the controversy over relief funds is significant.

For instance, and as an example of the undercurrent of feeling in congress, the house took a nasty slap at Relief Administrator Harry Hopkins. The house did it in a way designed to make Mr. Hopkins peevish. It cut his salary as relief administrator by two thousand dollars a year. Now, a cut from \$12,000 to \$10,000 probably is unimportant as far as the monetary effect is concerned, but it was the same thing as if the house had turned Mr. Hopkins across its knees and had given him a couple of good spanks. What it does, actually, is to show Mr. Hopkins that the house is still its own boss and it demonstrates as well the house has some spunk left.

In addition to the relief fund controversy, congress is giving evidence also of more constructive opposition to control from the White House over all national policies. For example, the new farm bill is undergoing very critical analysis by the house agriculture committee. While this measure to establish what Secretary Wallace calls the "ever-normal" granary and to revive control over important farm groups was not sent to congress from the White House, everyone understands it has White House endorsement. House leaders accept it, at least, as representing the principle of AAA and, therefore, as being representative of the President's ideas.

Leaders of the farm bloc in the house are quite skeptical of the plan. Naturally, it is too early to forecast what is going to happen on this piece of legislation but it is important to note that the house is giving close and independent study instead of rushing the legislation through merely because the administration announced it was favorable to the proposition.

There is discontent in the senate also. Mr. Roosevelt's far-reaching government reorganization bill has touched so many sensitive spots that some doubt actually exists whether it will get through at all, even after revision.

Roosevelt does not require a billion and a half in new money for relief. But the house apparently does not have the courage to take an out and out position in accordance with its conviction. So it is trying to dodge the real issue by holding out for a provision in the bill that would set aside half a billion of the total for use exclusively on permanent public works under Secretary Ickes as public works administrator. (Secretary Ickes and Relief Administrator Hopkins long have been snarling at each other.)

To get down to cases on this relief fund controversy, it actually happens that the real argument is on the side of Mr. Roosevelt. Either he needs the whole amount for relief or he does not and there is little sense in the house taking a run around the rosebush to cover a feeling of revenge. Thus, the house is shown in a rather bad light. If it has spunk enough to spank Mr. Hopkins and if it does not believe that the President needs the full amount he has requested, then why does not the house approve of only a billion and stick to that position?

There is another phase of this house revolt on relief funds that ought to be examined. I mentioned earlier that the members of the house and senate no longer expect political plums from the White House. Now they are trying to get close to the political pie counter in another manner. If they can get part of the relief funds allocated for permanent public works, they have their snouts in the political trough of the old pork barrel.

There is a natural reaction for politicians when money is to be passed out and the house has been displaying that reaction to the fullest on the relief funds. The proposition, simmered down, is, however, that the time has long passed when pork barrel methods can be tolerated in congress. It is not a sound principle of representative government and it is not economical.

On the other hand, it seems to me that Mr. Roosevelt cannot escape responsibility for revival of the pork barrel custom. Throughout his first term, he allowed congress plenty of pork barrel packages and now that he is attempting to stick through his own ideas without providing the usual sop for congress, the politicians resent it.

While the congress has been fussing and fuming over legislation, in downtown Washington, the Treasury is finding its job more and more difficult. Last week, Secretary Morgenthau found himself in a position where he had to go into the money market for an additional eight-hundred-million dollars. He offered new government bonds in that amount and from the proceeds of their sale, he will have in the Treasury sufficient funds to keep the government going. Incidentally, this new loan will put the national debt almost to thirty-six billion, the highest point in all history.

The Treasury's latest borrowing of new money caused some surprise because it had been thought that the June 15 income tax payments would put the Treasury's balance sufficiently high to carry the government for another month or two. Notwithstanding Mr. Roosevelt's declarations that government expenses must be cut, they are continuing to expand and, consequently, it has been necessary to borrow more money in order to keep the machinery of government operating.

It is impossible to discuss the latest Treasury loan without linking it to the question of the administration's gold policy and, it is impossible to mention the gold policy without relating that the United States now has more than twelve billions in gold. The United States thus has approximately one-half of all the gold in the world. This would seem to make our nation the richest in the world, but having all of this gold stock is a very expensive proposition under the administration's gold policy.

No one seems to know how the administration will untangle itself from the gold policy. If the United States continues to maintain the present price of gold, just so long will other nations ship gold to the shores of America. We have seen gold entering the United States at the rate of sixteen million dollars a day for some days. Of course, that is an abnormal rate but the imports have been so high that presently, if the present pace is maintained, it will have all of the gold and its value will be questionable as a factor in trade.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute at Chicago. © Western Newspaper Union.

Lesson for June 20 JOSEPH'S KINDNESS TO HIS KINDRED

LESSON TEXT—Genesis 46:1-7, 28-30; 50:1-26.
GOLDEN TEXT—And he ye kind one to another, tenderhearted, forgiving one another, even as God for Christ's sake hath forgiven you. Ephesians 4:32.
PRIMARY TOPIC—When Joseph Saw His Father Again.
JUNIOR TOPIC—Joseph Honoring His Father.
INTERMEDIATE AND SENIOR TOPIC—Kindness in the Family.
YOUNG PEOPLE AND ADULT TOPIC—Mutual Helpfulness in the Family.

A happy ending—yes! Modern writers may look with disfavor on it (and perhaps rightly so, for most of them write about life apart from fellowship with God) but to those who trust God and who seek his will, the story of life has a bright and joyful conclusion.

But someone may object that the lesson for today closes with the last words of the book of Genesis, which are "a coffin in Egypt." Is that a happy ending? It is, because even that forbidding emblem of death pointed in faith toward the day when God was to keep his promise and bring his people into the promised land.

Our lesson centers around the last of our patriarchs, Joseph, and his kindness to his father and his family. The highest official in the land of Egypt (save for Pharaoh himself) proves his inherent greatness by forgetting position and power, except as they enable him to be a loving son and brother. We consider his kindness as it is centered in his devotion to God, shown forth in thoughtful provision for others, expressed in affectionate deeds, and as it imparted itself by faith to others.

I. Founded on Fellowship (Gen. 46:1-4).
Jacob, having heard from his sons that Joseph was in Egypt, and having thus learned of their treachery and deceit, came at last to realize that his beloved Joseph is alive. He has been urged to go to Egypt but he hesitates about leaving Canaan. How shall he know whether to believe in and respond to Joseph's invitation. He asks God, the One who is the joy and center of Joseph's life, and of Jacob's as well, and he has his answer.

Real family life and devotion center around a mutual fellowship with God. There may be little else to share, but "little is much when God is in it." Has God been honored in your home? Has He been made the center of family life? These are vital questions.

II. Evidenced by Thoughtfulness (vv. 5-7).
Joseph had arranged for Pharaoh to send wagons to bring his aged father, the women, and the little ones.
Many men in our day glory in being "hard-boiled." In their relentless pursuit of fame and riches they ignore and even trample on the members of their own families. They are ashamed of the broken bodies, the humble apparel, the uneducated speech of their parents, fearing lest their new-found friends in the circles of wealth and position may ridicule them. There is a crude but apt expression that describes such persons as "stuffed shirts."

III. Manifested in Love (vv. 28-30).
Joseph kissed his father whom he had gone out to meet, and held him close and wept for joy. Again he showed his true greatness by being his natural self.
We are not all demonstrative in showing our affection. Furthermore, we would not plead for more of that sham public expression of affection which is so distasteful to right-thinking people. But may we not suggest that there is room for improvement in our loving consideration for our kindred. Let us ask ourselves how long it is since we did something to show that we really love our mother, our father, or a faithful wife, son, or daughter? How long is it since you wrote home to mother, or went home to visit?

IV. Imparted by Faith (50:24-26).
Jacob had been gathered to his fathers; time had gone on its relentless way, and Joseph is about to die. What shall be the heritage to his family? Money, property, position? No; he leaves them something infinitely more valuable—a forward-looking faith that will keep alive in their hearts the expectation that God will in due season bring them into their own land. Joseph had spent most of his years in Egypt. He had attained high position and great honor, but he never lost his vision of the promised land. He imparts to them by faith that hope.

Floyd Gibbons Adventurers' Club

Hello Everybody!

"Two Wanted Men" By FLOYD GIBBONS Famous Headline Hunter

YOU know, boys and girls, in some of these adventure yarns I've been telling you, everything seems to happen all in a split second. Just one—two—three and it's all over, with action every doggone minute.

Then there are other yarns in which there's darned little action, and the suspense of the story lies in the fact that some poor devil has to stand still while death comes creeping up on him. That sort of adventure drags out for a long time. But the yarn I'm going to tell you today is like both of those above-mentioned types of adventures. It went on for a long time, and every doggone minute of that time was packed with danger and suspense. And at the same time, it was so full of action that you'd have a hard time packing another single movement into it.

It's one of the most thrilling tales I've come across in quite a while, and the heroes today go to a Chicago policeman—Albert Eickert.

Wild Chase After Automobile Thieves.
It was a cool September afternoon in 1927. Al was off duty and with time on his hands, he went over to the home of his pal, Emmett Hartnett, for a visit. After he'd been there awhile, they decided it would be a good idea to go for a ride. Emmett got a car and they drove around for about two hours.

They were on their way to a restaurant at Archer and Western avenues when things began to happen. As they came to Rockwell street, a small sedan passed them. There were two men in the car, and Al recognized them both as automobile thieves.

Al told Emmett to turn around and follow that car. They were catching up to it when the thieves spotted the auto behind them and recognized Al as a policeman. They stepped on the gas—and the chase was on!

The car in front of them leaped ahead. Emmett stepped on it and followed. The faster they went, the faster the smaller car ahead traveled. Al pulled out his gun and fired one shot. But the car ahead didn't stop.

Both those gas buggies were tearing along down the street at close to top speed. The scenery was fairly whizzing past, and people along the way stopped to stare at a race they had never seen the like of outside of a race track.

Bullets Didn't Stop Them.
Gun in hand, Al opened the door and climbed out on the running board to get a better shot at his quarry. As Emmett drove and the car careened along the wide street he fired again and again. Still the car ahead sped on!

Now, Al could see that they were gaining on the crooks. The small car didn't have enough speed to outdistance the big one in which they were riding. Al continued to fire until they reached Kedzie avenue, and then his revolver was empty.

The big car had almost caught up to the little one now. Bit by bit they gained until at last Al's car was nosing up beside the one in which the two thieves were riding. They were running almost hood to hood now, and Al could have reached out and touched the other auto, when suddenly the front car turned sharply.

They had just reached St. Louis avenue. Al saw the crooks' car swerving toward them, but before he had a chance to do anything about it, there was a crash. The crooks sidwiped them, knocking them over to the side of the street.

There was another crash as the car lurched into a telephone pole, but Al wasn't inside the car when it hit. As the two cars came together he was caught between them and knocked down on the running board.

Al Was Dragged by the Fleeing Car.
Then, as the smaller car veered away again, his right leg was pinched between its rear fender and the bumper. He felt a tug at that leg—felt himself falling to the pavement—and then he was being dragged along behind the fleeing car.

The car was out of control now. The crook at the wheel was trying to keep it going straight, but it shot up over the curb on the other side of the street. It crossed the sidewalk and plunged on over a stretch of bare, water-soaked prairie.

Dragged along behind it, Al felt a terrific bump as his body was pulled over the curb. There was a terrible pain in his imprisoned leg where the tire was scraping the flesh away. His back and sides were being bruised and lacerated.

The car traveled a hundred feet through the prairie and by that time Al was numb from pain and shock. Then the car bogged down in the mud and came to a stop. Al's clothes had been literally torn from his body by then, but he still had his gun clutched tightly in his hand.

"There was no chance to use it," he says, "but as soon as the car came to a halt, I began struggling to get my leg out of its trap. The driver jumped out and ran north across the prairie.
Got Him With the Empty Gun.
"At last I got my leg loose and crawled out from under the car. I raised my gun and pulled the trigger, but all I got was a click of the hammer. In the excitement I had forgotten that I emptied the gun during the chase."
As the gun clicked, the second man leaped from the car and started to run. And then Al made the pinch of his life. Helpless and unable to walk, much less run after the fleeing crook, he got up on his feet and threw the empty gun after him.

Charm of Yesterday in Crochet

There's the charm of Grandmother's time in this lacy panel-inset, a luxurious bit of dress-up for your "best" bedspread! In string it measures 24 by 35 inches, but goes quickly, for the background is in lace stitch. It would

Pattern 5790.

also be effective as a door panel. The stunning panel running lengthwise of the bolster may also serve as a scarf. Crochet this beautiful design of humble, durable string or in finer cotton for smaller panels. In pattern 5790 you will find detailed instructions and charts for making the panels shown; illustrations of the panel and of the stitches used; material requirements.

To obtain this pattern send 15 cents in stamps or coins (coins preferred) to The Sewing Circle Household Arts Dept., 259 W. Fourteenth St., New York, N. Y. Please write your name, address and pattern number plainly.

A Moral Success

The highest needs must have most care, and the lower needs the least care, and we must so train ourselves that hunger for the ideal things shall chasten and subdue every worldly hunger, fulfill the true ideal of men and women, and make life a moral success and not a moral failure.—John Hunter.

The LIGHT of 1000 USES

Coleman

AIR-PRESSURE MANTLE LANTERN

Use your Coleman in hundreds of places where an ordinary lantern is useless. Use it for after-dark chow, hunting, fishing, or on any night job. It will light up a tent, a car, a boat, or a camp. High candle power—brightest light. Kerosene and gasoline models. The finest made, prices as low as \$4.95. Your local dealer can supply you. Get specifications for FREE folders. THE COLEMAN LAMP AND STOVE CO., Dept. W111, Wichita, Kansas, U.S.A. Philadelphia, Pa.; Los Angeles, Calif. (6173)

Sentinels of Health

Don't Neglect Them!
Nature designed the kidneys to do a marvelous job. Their task is to keep the blood free from toxins of an excess of toxic impurities. The job of living-kidneys is constantly producing waste matter. The kidneys must remove from the blood all the waste matter to be excreted. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-uric acid, rheumatism, kidney stones, bladder stones, and other ailments. Doan's Pills are the only pills that will help the kidneys to do their job. They are the only pills that will help the kidneys to do their job. They are the only pills that will help the kidneys to do their job.

DOAN'S PILLS

Keeping Up With Science

Televised Pictures Can Be Produced for the Home User

Method Worked Out by Radio Engineers

New York.—A scientific idea that figuratively almost went into the wastebasket because it seemed too difficult to work out has now produced bright, clear television images of such size that they appear to meet the potential requirements of home users.

At the meeting here of the Institute of Radio Engineers, scientists of the Radio Corporation of America demonstrated televised pictures, 18 by 24 inches in size, that compare favorably with home motion pictures in brightness and detail.

This area of viewing screen may reasonably be supposed to represent the television set owners' wishes for size, since it is probable that future commercially-available sets will be about as large as the larger radios today. A few people may wish to devote the whole side of a room to a television screen but the feeling is that a picture about two-feet square, visible across an ordinary living room, will meet the greatest demand.

New Projection Tube. Dr. V. K. Zworykin, W. H. Painter and Dr. R. R. Law described the new type projection tube which makes possible the bright images in "living room" size. Idea behind the work is that a controlled stream of electrons strikes a fluorescent screen and by bombardment makes the screen shine so brightly that an ordinary optical system can enlarge the image to its 18 by 24 inch size.

These flying electrons, which ultimately form the television picture, have to pass through four "gates" before striking the fluorescent screen.

Through Small Hole. Through the first three the electrons are packed into a pencil of rays about the size of a real lead-pencil. But in going through the last "gate" they must pass through a hole too small in size to allow the passage of a human hair. Getting these electrons through this tiny opening without loss and obtaining something on the opposite side was one of the "kinks" in the original idea that almost led to its abandonment before being tried.

The television engineers are now continuing their work ironing out one hampering factor in their development; that the bright, clear image can only be obtained with special laboratory equipment.

Syrup of Raspberry and Cacao Best Flavoring Agents

Chicago.—To kill or disguise an unpleasant taste, doctors find syrup of cacao (chocolate to you) and syrup of raspberry the best flavoring agents. Almost everyone likes these flavors.

Second in popular choice are the syrups of orange, cherry, sarsaparilla and elctric acid.

Tasting tests have been carried on by Harold N. Wright, a pharmacologist, among students in the medical, dental and nursing schools of the University of Minnesota.

The flavoring agents commonly employed in medicine were judged in the experiment according to (1) their popularity of their appeal, (2) their efficiency in disguising the bitter taste of certain drugs, (3) their effectiveness in covering the salty taste of other drugs, and (4) their effectiveness in disguising the unpleasant taste of tincture of digitalis.

Nearly Everything Can Be Purchased in Small Packages

Offered Public in Single-Use Tubes

By WATSON DAVIS
THIS is a package age. Often we buy things because we like their containers, whether we need the things themselves or not.

Bear cans, after a spectacular entrance into an old field, have become almost commonplace. And paper cups, glass containers for food that we are proud to use as dinner ware, motor oil in non-refillable cans, have made a place for themselves.

Now an even larger use of single-use containers is predicted. Arthur D. Little laboratories foresee what they call the "toothpaste cocktail," which will do away with losing the top off the toothpaste tube because you will use it once and throw it away. Hermetically sealed containers are soon to come into use for the dispensing of hair tonics, flavoring extracts and even alcoholic beverages in "one-dose" quantities.

Tubes of Coffee and Paint. It is predicted that there will be made this year some 25,000,000 single-use tubes for holding the makings of many cups of soluble coffee. A paint manufacturer has greatly simplified his problem of providing a bright spectrum of many colors of paint. Uncolored or white paint only is sold in the familiar cans. But single-use tubes of colored pigments in oil are squeezed into the can by the user to make any color desired. The dealers reduce the cans on their shelves to a seventh of the usual inventory.

Envelopes are made not only of paper these days, but also of tin and other metals as well as transparent cellulose sheeting.

Reasons for Small Packages. There are two motives in making smaller packages. One is convenience, which is the reason for the present American boom in small packages. The other is the fact that many people of low purchasing power must buy in small quantities even though that may be the most uneconomical way in the long run.

Obsessions Result From Changes in Brain Structure

Pittsburgh.—Changes in the brain structure itself are responsible for obsessions, Dr. Paul Schilder of New York told members of the American Psychiatric association here.

The kind of obsessions to which Dr. Schilder referred are a form of mental disorder in which certain thoughts and ideas keep going through the patient's mind against his wish and in spite of himself.

One patient cited by Dr. Schilder got the idea, from her sister's criticism, that she had always been lazy. She resented this very much, but could not stop thinking and saying that she had always been lazy. Her husband tried to help her overcome this difficulty which worried her by telling her "to send the cock-eyed world to hell." After that, she could not get out of her mind the idea that she had to do this.

Another patient complained of seeing dirt everywhere and had to clean her house continually, although she was convinced there was no dirt in it. These patients are not really thinking, Dr. Schilder explained, but are in a state in which one idea persists in their minds.

Titanium and Bromine Are Made Radioactive

Washington.—Another element rendered strongly radioactive by atomic bombardment was reported to the meeting here of the American Physical society by Dr. Harold Walke of the University of California.

Significant is the fact that much of the radio-activity comes in the form of gamma radiation such as radium gives off. Titanium was the metal bombarded and the radio activity is believed caused by the formation of isotopes of titanium and vanadium. One radioactivity decay had a half life of nearly sixteen hours and another over 16 days.

Dr. Arthur H. Shell of the same laboratory of Prof. E. O. Lawrence at the University of California also reported bombardment of bromine with deuterons. A radio-active form of this element which had a half life of 35 hours was disclosed, that was accompanied by the liberation of gamma radiation.

STAR DUST

Movie • Radio

By VIRGINIA VALE
ALWAYS a dauntless trail blazer, Sam Goldwyn has just announced that in future all of his productions will be filmed in Technicolor.

Where Sam leads, others feel that they must follow, and the chief drawback is that it is going to be very expensive, because Technicolor film costs considerably more than black and white. First of the Goldwyn Technicolor films will be "Follies" with Helen Jepson, the Ritz Brothers, Zorina, the great Russian ballerina, Virginia Verrill, beloved of radio fans; to swing those blues and a vast array of comics.

Robert Young got a wonderful break when M-G-M loaned him to play opposite Claudette Colbert in "I Met Him in Paris." His own studio officials who lately had been treating Bob rather like a comfortable old shoe, went to the preview and came out raving about him as if he were a new discovery. Right away they went out and bought the screen rights to a grand story called "Witness to a Murder," and presented the star role to Bob.

Robert Young

There is a pretty thrilling story of grit and courage connected with the Hal Roach picture "Pick a Star." A blonde beauty named Rosina Lawrence who sings and dances light heartedly in that and in "Nobody's Baby" was paralyzed as a child as the result of a back injury. After months of consultations, her mother located a doctor who thought he might improve her condition by giving her exercises. Now she is strong and healthy and agile—much more so than other girls who did not have to fight for a chance to walk and dance.

There isn't a busier girl in all Hollywood than Dorothy Lamour, which is a break for film fans, but bad news to the many radio fans who have been wishing she would find time to sing regularly on a radio program again. She has just finished roles in "High, Wide, and Handsome" and "The Last Train From Madrid" and will start any day now on "Her Jungle Love." Her first big success, you will recall, came when she played "The Jungle Princess" and Paramount has been looking for a sequel to it ever since.

Connie Boswell is the latest radio singer to succumb to the pleas of motion-picture producers. She will warble in Paramount's "Artists and Models." But the most exciting news on the Paramount lot is that Mary Livingstone, the giddy comic of Jack Benny's program and in private life, his wife, is such an inspired screen comic in her first picture that all her supporting players are sulking. The picture, called "This Way Please," was supposed to star Shirley Ross and Buddy Rogers, but Mary is just romping off with all the scenes.

It looks as if Kenny Baker of the air waves will be a strong rival of Bing Crosby's on the screen just as soon as "Mr. Dodd Takes the Air" is released. Walter Wanger, who has been searching for a good-looking young singer to play the lead in "52nd Street" persuaded Mervyn LeRoy to let him see as much of the picture as has been filmed. Immediately, he decided Kenny Baker was just what he had been looking for. Kenny Baker will have Pat Patterson, wife of Charles Boyer, playing opposite him in the Wanger film. That's a break for him, because she is one of the most utterly charming young women in all Hollywood.

ODDS AND ENDS... Screams of rage and violent protests broke loose on the Paramount set for "Artists and Models" when Helen like Richard Arlen and Hube Goldberg, the cartoonist, found they had to get all prettied up in knee breeches and lace ruffles for a masquerade scene... Motion picture producers are trying to argue Barbara Stanwyck and Robert Taylor out of galloping through mountain passes on frisky horses. Barbara took a nasty fall the other day with the horse landing on top of her. She wasn't seriously hurt, though... Motion picture stars can get into accidents anywhere, it seems, because Sylvia Sydney took a header on the slippery floor of a beauty salon and cut her face quite badly... Ginger Rogers and Harvies Hilliers have more fun on Sundays when dozens of tourists are hanging all the well-known Hollywood cafes. They back a lunch and go picnicking, and nobody recognizes them.

FIRESTONE GROUND GRIP TIRES

SAVE YOU MONEY

YOU SAVE in fuel costs. Tests made by leading agricultural colleges prove that Firestone Ground Grip Tires save up to 25% in fuel.
YOU SAVE in time. Ground Grip Tires enable you to drive your tractor faster with greater comfort and efficiency. You save up to 25% in time.
YOU SAVE by reducing breakage and repairs. Ground Grip Tires cushion tractors and farm implements, reduce jolts and jars.
YOU SAVE by doing better work. Ground Grip Tires will not pack the soil and do not injure plants.
YOU SAVE with Firestone—Patented Construction Features. Gum-Dipping saturates and coats every cotton fiber in every cord in every ply, counteracting internal friction and heat and providing the extra strength necessary to stand the tremendous stresses and strains of traction pulling. The patented construction of Two Extra Layers of Gum-Dipped Cords under the Tread binds the tread and cord body into one inseparable unit. The patented tread design with deep cut, rugged bars is self-cleaning, providing greatest traction and drawbar pull.
YOU SAVE with the Firestone Cut-Down and Change-Over Wheel Program. By this plan your present implement wheels can be cut-down and flat-steel-rims of uniform diameter welded to the ends of the spokes. Then by use of Firestone Demountable Rims the tires can be taken off one machine and put on another. You need only a few sets of tires to put all your farm implements on Ground Grip Tires.
YOU SAVE in buying NOW as tire prices are advancing. The price of crude rubber has gone up 110% and cotton more than 25% during the past two years. Call on your nearest Firestone Implement Dealer — Tire Dealer or Auto Supply and Service Store today.

THE GREATEST TIRE EVER MADE TO SELL AT THESE LOW PRICES

Come in, examine a cross-section cut from a Firestone Standard Tire. See for yourself how much extra value you get in the deep-cut, non-skid tread. You will agree that never before have you seen so much quality, so much built-in mileage and so much safety at so little cost. The Firestone Standard Tire is made safer from blowouts with the Firestone patented process of Gum-Dipping. The wider, flatter tread with more rubber on the road gives longer mileage and greater protection against skidding. Firestone can give you all these extra values because Firestone Standard Tires are built in such large quantities that great savings are made in production.

Don't drive another day on thin worn tires that are dangerous and may cause an accident. Join the Firestone Save A Life Campaign today by equipping your car with Firestone Standard Tires — First Grade Quality at Low Cost.

COMMENTS

Lewis Burke

Howdy, Amigos! How are you today? You never looked any better; and how's the Misus?

—And R U Listenin'?

Work is going forward at a rapid rate on Highway No. 380 or the Malpais thoroughfare.

SAYS THE SOAP-BOX ORATOR—

"Let's get rid of Anarchy, Hitlerism, Fascism, Bolshevism, and Communism!" And an old man-in-the-back-seat-said "Let's throw in Rheumatism, too."

DEMS HAVE TOO MUCH POWER?

The Democrats of New Mexico are suffering from too much power, just as is the Roosevelt administration, now facing a sizeable rebellion in Congress. The situation threatens to get out of hand and ruin the lovely anthem of harmony that was the theme song no further back than last Fall. — Silver City Press.

Note—"Let's hope that everything will be Okay until the work on our hi-ways is completed," ventures a local professional man.

To A. H. Harvey—The medal for Loyalty ought to go to the faithful Republican whose wife gave birth to twins the other day. He named them Maine and Vermont.

MALPAIS HIGHWAY

Now to get back to the Malpais highway. It seems as if the work is being done with clock-like precision on the thoroughfare. Everything looks as if it was timed. Trucks, loaded with sand and gravel, are continually on the move as we said before. Gov. Tingley is making good his promise.—And we will have a surfaced hi-way straight through to Albuquerque in the near future.

THOUGHT FOR TODAY

Remember this: Never give up! Keep on expecting good to come to you, and expect it because you really deserve it, and you'll have occasion to reflect upon this present 'slump' as a big nightmare—a headache that was mostly your own fault. After clouds come the sunshine, and 'twill come much sooner if Hope is kept alive.

MEXICAN BLUE MORNING GLORIES

We sent some giant-size heavenly blue Mexican morning glory seeds to Mr. and Mrs. Ralph Williams of Huntington, West Virginia. Also received a request to send some of the above seeds to Mr. Charles Heuschel of Houston, Texas, an old friend of the editor's. He writes that the plants are up and vining. We received word from Mr. and Mrs. W. T. Nickerson of Brockton, Mass., that it will be the third summer they have had Mexican morning glories. People come into the yard to admire the beautiful blossoms, they say.

Radio Station KQB in Albuquerque will go on the National Broadcasting Network June 14. This station has 10,000 watts power. Heretofore, the program consisted of electrical transcription (phonograph records.) We wish the station the best of everything in its laudable undertaking.—Adios.

PHONE 62 J. F. PETTY, Prop.

Personals

Deputy County Treasurer Sat Chavez, Jr., who was confined to his home for several days with a case of tonsillitis, is now back at his desk at the courthouse.

L. A. Whitaker was in from his ranch near here Wednesday.

Estatislao Bello was a business visitor from Claunch last Saturday. Bello was all smiles due to the ample abundance of rainfall in and around the Claunch country.

F. A. English was a Tucumcari business visitor Tuesday and Wednesday of this week.

Celestino Sandoval is here from El Paso visiting the home folks.

W. B. Payne was a Carrizozo business visitor from his ranch in the Capitan country on Wednesday of this week.

Mr. and Mrs. Preciliano Padilla are here from Los Angeles visiting relatives at Tularosa, Three Rivers and Carrizozo. In conversing with Preciliano, he told us about Ben Lujan's misfortune of having a finger severed by an electric fan.

Mr. and Mrs. Benigno Gallegos left for Hot Springs the first part of the week, where they will receive the benefit of the baths. During their absence, Mr. and Mrs. Fred Silva will take care of their ranching interests.

Postmaster and Mrs. Herman Kelt are spending a few days in the Ruidoso and Glencoe localities.

Mrs. Nellie Guebara left last Saturday for Las Vegas, where she will attend summer school.

A. S. McCamant was a business visitor from his ranch near Corona last Saturday.

FOR SALE—One extra well-made 2-wheel Trailer.—Apply at Outlook office.

June 12 has been decided upon to work the graveyard at Angus. Everyone invited to please come prepared to work. Also ladies bring well-filled basket lunches.—Committee.

Lell St. John and Joe Chavez were White Oaks visitors Tuesday morning.

Dr. Woods of Lincoln was a visitor in town this Thursday.

Donald Gordon, County Extension Agent, left this week for Parker, Arizona, to be employed on the Colorado Indian Agency.

For Sale: O. M. Franklin Blackleg Bacterin and Distemper Cure Park-Davis Blackleg Bacterin The Titsworth Co., Inc. Capitan, N. M.

The Fort Stanton Fourth of July Celebration

Messrs. C. H. Boyd and W. R. Mantell were here Tuesday from Fort Stanton, making arrangements for their annual Fourth of July celebration. Other members of the committee are, W. C. Hendren, Wm. Gould and Miss Bertha Moyers. The celebration this year will surpass any event of the same nature, given in years past. An extra seating capacity is being arranged at the Rodeo grounds that will accommodate the huge crowds which are assured for the occasion. The committee wishes it known that soft drinks which heretofore sold for 10 cents, will be sold for 5 cents this year. Printed matter announcing the coming attraction will be out by the first of the coming week.
